Class 9:
Downloadable business process management software; Computer software for process simulation applications for use in chemical, petrochemical, oil and gas, and pharmaceutical industrial operations; Downloadable computer software platforms for the formulation, manufacture, allocation, and distribution of animal feed and feed ingredients; Computer software that provides web-based access to applications and services through a web operating system or portal interface; Computer software, namely software used for formulating livestock, pet, and human food; Computer programs for use in mathematically modeling piping systems, namely, the optimization of pipe sizes, pumps, valves and related components and calculating projected system performance; Computer programs pertaining to container labels and material safety data sheets; Computer software in the nature of programs for the conversion of computer code into a readable format; Computer software for generating documents, namely, design specifications and test scripts, and related logic diagrams from computer system software source code; Computer software for generating documents directly from computer system source code; Downloadable enterprise software for enterprise resource planning (ERP); Downloadable computer software for use in customer relationship management (CRM); Downloadable computer software for use in manufacturing execution (MES);

Downloadable computer software for use in warehouse management (WMS); Downloadable middleware for integrating manufacturing execution systems (MES), laboratory information management systems (LIMS), and enterprise resource planning (ERP) systems; Downloadable computer software for regulatory compliance management; Downloadable computer software for audit trail records and reporting; Downloadable software for use in business management, namely, tracking and designating tasks, assignments, responsibilities, and schedules; Downloadable software for use in manufacturing and production, namely, generating labels, reports; Downloadable computer software for laboratory information management; Downloadable middleware for integrating laboratory instruments with enterprise and laboratory information systems; Downloadable computer software for quality control and quality management; Downloadable software for laboratory sample tracking, custody, and workflow; Downloadable software using artificial intelligence (AI) for business process management software; Downloadable middleware for providing an interface between MES, ERP, LIMS, and process control systems; Computer software featuring software for document management; Downloadable educational simulation software featuring instruction in chemical, petrochemical, oil and gas, and pharmaceutical industrial operations; Downloadable educational simulation software featuring instruction in engineering, process simulation, and feed formulation.

Class 35:
Business consulting services regarding animal feed in the field of livestock agribusiness; Online asset tracking and management services, namely, inventory control; Providing information and news regarding software via a website.

Class 42:
Providing non-downloadable business process management software; Providing non-downloadable computer software for process simulation applications for use in chemical, petrochemical, oil and gas, and pharmaceutical industrial operations; Providing non-downloadable computer software platforms for the formulation, manufacture, allocation, and distribution of animal feed and feed ingredients; Providing non-downloadable computer software that provides web-based access to applications and services through a web operating system or portal interface; Providing non-downloadable computer software, namely software used for formulating livestock, pet, and human food; Providing non-downloadable computer programs for use in mathematically modeling piping systems, namely, the optimization of pipe sizes, pumps, valves and related components and calculating projected system performance; Providing non-downloadable computer programs pertaining to container labels and material safety data sheets; Providing non-downloadable computer software in the nature of programs for the conversion of computer code into a readable format; Providing non-downloadable computer software for generating documents, namely, design specifications and test scripts, and related logic diagrams from computer system software source code; Providing non-downloadable computer software for generating documents directly from computer system source code; Providing temporary use of online, non-downloadable software for laboratory information management systems (LIMS); Providing non-downloadable computer software for regulatory compliance management; Providing non-downloadable computer software for audit trail records and reporting; Providing non-downloadable software for use in business management, namely, tracking and designating tasks, assignments, responsibilities, and schedules; Providing non-downloadable software for use in manufacturing and production, namely, generating labels, reports; Providing non-downloadable middleware for integrating laboratory instruments with enterprise and laboratory information systems; Providing non-downloadable computer software for quality control and quality management; Providing non-downloadable software for laboratory sample tracking, custody, and workflow; Providing non-downloadable software using artificial intelligence (AI) for business process management software; Computer software integration, installation, and implementation services; Technical support services, namely, troubleshooting of computer software problems and diagnosing computer hardware problems; Computer technology support services, namely, help desk services; Computer services, namely, providing an interactive web site that allows users to collect, store, manage, deliver and showcase electronic and paper-based content; Food label compliance services, namely, providing online, non-downloadable software for preparing and generating nutritional analysis, nutrition facts panels, ingredient statements and claims for food and beverage ingredients, food and beverage products and prepared meals, for use by manufacturers and distributors of food, beverages, and food and beverage ingredients; Technical consulting and engineering services in the field of flow modeling; Technical consulting and engineering services in the field of fluid mechanics; Technical consulting and engineering services in the field of fluid dynamics; Technical consulting and engineering services in the field of fluid hydraulics; Technical consulting and engineering services, namely, pipeline fluid flow, steady state, hydraulic and thermal modeling; Technical consulting and engineering services in the field of transient hydraulic flow analysis; Technical consulting and engineering services in the field of water hammer analysis; Technical consulting and engineering services in the field of slurry transportation; Providing temporary use of online, non-downloadable enterprise software for enterprise resource planning (ERP); Providing temporary use of online, non-downloadable enterprise software for customer relationship management (CRM); Providing temporary use of online, non-downloadable enterprise software for manufacturing execution system (MES); Providing temporary use of online, non-downloadable enterprise software for warehouse management (WMS); Providing temporary use of on line non downloadable computer software for laboratory information management; Consultation services relating to computer software; Technical support services, namely, troubleshooting of computer software problems; Software as a service (SaaS) services featuring software for generating reports; Providing temporary use of on-line non-downloadable middleware for providing an interface between MES, ERP, LIMS, and process control systems; Software as a service (SaaS) services featuring software for document management; Providing non-downloadable educational simulation software featuring instruction in chemical, petrochemical, oil and gas, and pharmaceutical industrial operations; Providing non-downloadable educational simulation software featuring instruction in engineering, process simulation, and feed formulation.

Class 45:
Food label compliance and consultancy legal services, namely, providing legal advice and information in the field of compliance with federal regulations regarding the labeling of food and beverage ingredients, food and beverage products and prepared meals; Regulatory compliance consulting in the field of chemical reporting; Label compliance and consultancy legal services,

namely, providing legal advice and information in the field of compliance with federal regulations regarding the labeling of chemical substances and hazardous materials.

WEAVA

Class 9:
Downloadable computer software for language translation, localisation, transliteration and content transformation; downloadable software using artificial intelligence and autonomous artificial intelligence agents for language translation, localisation and content transformation; downloadable computer software development tools, software development kits (SDKs), application programming interfaces (APIs), and Model Context Protocol (MCP) server software for building, customizing, deploying, integrating, and monitoring artificial intelligence applications, plugins, and autonomous AI agents; downloadable computer software development tools, software development kits (SDKs), application programming interfaces (APIs), and Model Context Protocol (MCP) server software for building, customizing, deploying, integrating, and monitoring artificial intelligence applications, plugins, and autonomous AI agents for language translation, localisation and content transformation; downloadable computer software

plug-ins for language translation, localisation and content transformation; Downloadable computer software for enabling and managing communication between artificial intelligence systems, artificial intelligence agents and external systems, applications, tools, devices and data sources using Model Context Protocol [MCP], application programming interfaces [APIs], machine-to-machine, agent-to-system and agent-to-agent communication protocols; Application programming interface [API] software; Software development kits [SDKs] for developing and integrating artificial intelligence systems and artificial intelligence agents; downloadable mobile applications for language translation; downloadable software using artificial intelligence for the automated translation of written, audio and video content; downloadable software using autonomous artificial intelligence agents for performing language translation tasks; downloadable agentic artificial intelligence software relating to the automated translation of written content, audiovisual content, video and digital content, audio content and speech; application programming interface (API) for computer software facilitating the automated translation of text, speech, audio, visual and video content; downloadable content management software; downloadable web content management software; intellectual property practice management software for use by intellectual property owners and attorneys for billing and accounting, maintaining contact information, calendaring of events, docketing, and filing of documents with intellectual property offices; computer software for the management of intellectual property; downloadable computer software for online brand monitoring services; downloadable component content management software; downloadable software for adaptation, amendment, analysis, archiving, authoring, automation, capture, checking, collection, comparison, compilation, creation, customisation, decryption, delivery, editing, encryption, filtering, formatting, localisation, memorising, monitoring, optimisation, personalisation, publishing, revision, synchronisation, systemisation, transcription, translating, versioning of text, speech, audiovisual, audio, video and digital content; downloadable software for managing multiple websites and multilingual websites from a single content repository; downloadable software for multichannel publishing of content; downloadable software for semantic tagging, automatic classification and taxonomy management of content; downloadable software for personalisation of website content and digital experiences; downloadable software for content workflow, approval, version control, access management and audit trails; computer software for localisation, logging, maintenance, management, preparation, processing, publishing, recovery, reproduction, retrieval, reuse, revision, searching, security, selection, sharing, storage, structuring, systematization, taxonomy, transcription, translation, updating, verification, version control of content, information and data; computer software for structured content management; downloadable computer software for accessing, analysis, assembly, authoring, capture, collection, comparison, compilation, conversion, creation, decryption, delivery, encryption, filing, filtering, generation, globalisation, handling, integration, linking of content, information and data; computer software for personalization and targeting of content; downloadable computer software for facilitating the creation, management, distribution and publication of product and technical information; downloadable computer software for facilitating the transfer of static data to a dynamic, interactive or portable format; downloadable software for the analysis, review and adaptation of text, speech, audio, audiovisual, video and digital content; downloadable software using artificial intelligence to automatically adapt and align text, speech, audio, audiovisual, video and digital content to cultural and contextual preferences across international markets; downloadable software featuring cultural and contextual intelligence to adapt text, speech, audio, audiovisual, video and digital content across international markets; downloadable software featuring cultural and contextual intelligence to adapt text, speech, audio, audiovisual, video and digital content.

Class 35:
Transcription services; transcription of audio and video content; transcription services provided by means of artificial intelligence; transcription of content, information and data; search engine optimisation services for multilingual content; analysis of data to measure the performance of translated and localised content across markets and languages; preparation of reports on the performance of translated and localised content across markets and languages; compilation and systematization of content performance data into computer databases; business consultancy relating to the adaptation of products and marketing for international markets; compilation of information relating to cross-market content performance into computer databases; systematization of information relating to cross-market content performance into computer databases; analysis of business data relating to cross-market content performance; analysis of market research data and statistics relating to cross-market content performance; search engine optimisation services for multilingual content; assembly, collection, comparison, compilation, filing, management, preparation, systematization of content, information and data; information, advisory and consultancy services relating to the aforesaid .

Class 41:
Translation services; language translation services; translation services provided by means of artificial intelligence; translation services provided by means of autonomous artificial intelligence agents; machine translation services; language localisation services; transliteration services; translation, adaptation and localisation of text, speech, audio, audiovisual, video and digital content; translation, adaptation, localisation and transformation of content by means of autonomous artificial intelligence agents; adaptation of content into different content formats as part of translation and localisation services; subtitling services; closed captioning services; dubbing; voice-over services; dubbing and voice-over services provided by means of artificial intelligence; language interpretation services; real-time interpretation services; interpretation services provided by means of artificial intelligence; interpretation services provided by means of artificial intelligence with human assistance; translation, adaptation and localisation of training materials for others; electronic publishing of translated and localised content for others; creation and production of translated, adapted and localised text, speech, audio, audiovisual, video and digital content for others; editing and production of translated and localised video, audio and multimedia recordings; editing and production of translated and localised video, audio and multimedia recordings with the assistance of artificial intelligence; provision of training and certification in the fields of language translation and localisation; transcreation services; review, analysis and adaptation of text, speech, audio, audiovisual, video and digital content for cultural relevance; review, analysis and adaptation of text, speech, audio, audiovisual, video and digital content to ensure contextual accuracy and cultural appropriateness across international

markets; providing cultural and contextual intelligence analysis services in relation to text, speech, audio, audiovisual, video and digital content; information, advisory and consultancy services relating to the aforesaid.

Class 42:
Software as a service [SaaS] featuring software for language translation, localisation, transliteration and content transformation; providing temporary use of online non-downloadable computer software for language translation; providing temporary use of online non-downloadable software for translation, localisation, transliteration and adaptation of text, speech, audio, images, audiovisual, video and digital content; providing temporary use of online non-downloadable software for converting text, speech, audio, images, audiovisual, video and digital content into different formats as part of translation, localisation and content transformation; software as a service [SaaS] featuring artificial intelligence software for language translation, localisation and content transformation; software as a service [SaaS] featuring software using autonomous artificial intelligence agents for performing language translation, localisation, transliteration, adaptation and content transformation tasks; providing online non-downloadable agentic artificial intelligence software for language translation, localisation and content transformation; providing temporary use of online non-downloadable software for multimodal processing and understanding of text, speech, audio, images and video for use in language translation, localisation and content transformation; providing temporary use of online non-downloadable software for dubbing, voice-over, subtitling and closed captioning; providing temporary use of online non-downloadable software for speech recognition, speech synthesis, transcription, interpretation and real-time interpretation; providing online non-downloadable computer software for computer-assisted translation and machine translation; providing online non-downloadable computer software for storing, updating and maintaining translation memory and terminology databases; providing online non-downloadable computer software for terminology management and real-time verification of multilingual terminology; providing online non-downloadable computer software for translation quality estimation; providing online non-downloadable computer software for assuring quality and consistency of style and terminology in translated and localised content; software as a service [SaaS] featuring software for evaluating translated and localised content against target audience, brand and quality requirements; providing online non-downloadable software for evaluating the outputs of artificial intelligence models in the field of language translation; software as a service [SaaS] featuring software for analysing and reporting on the performance of translated and localised content across markets and languages; software as a service [SaaS] featuring software for audit trails and governance of artificial intelligence translation, localisation and content transformation workflows; software as a service [SaaS] featuring software for managing translation, localisation and content transformation workflows; providing online non-downloadable software for content management and digital asset management within translation, localisation and content transformation workflows; providing online non-downloadable software for creating, editing, organising, storing and publishing content within translation, localisation and content transformation workflows; providing online non-downloadable software for personalisation of translated and localised content for target audiences and markets; providing online non-downloadable software for integrating language translation, localisation and content transformation functions into third-party software; provision of network-based application programming interfaces [APIs] in the field of language translation, localisation and content transformation; providing online non-downloadable software development tools, software development kits (SDKs), application programming interfaces (APIs), and Model Context Protocol (MCP) servers for building, customizing, deploying, integrating, and monitoring artificial intelligence applications, plugins, and autonomous AI agents; providing online non-downloadable software development tools, software development kits (SDKs), application programming interfaces (APIs), and Model Context Protocol (MCP) servers for building, customizing, deploying, integrating, and monitoring artificial intelligence applications, plugins, and autonomous artificial intelligence (AI) agents for language translation, localisation and content transformation; providing online non-downloadable software development tools, software development kits (SDKs), application programming interfaces (APIs), and Model Context Protocol (MCP) servers for building, customizing, deploying, integrating, and monitoring artificial intelligence applications, plugins, and autonomous AI agents for multimodal processing and understanding of text, speech, audio, audiovisual, video, images and digital content; platform as a service [PaaS] featuring computer software platforms for language translation, localisation and content transformation; artificial intelligence as a service [AIaaS] in the field of language translation, localisation and content transformation; software as a service (SaaS), platform as a service (PaaS), and providing temporary use of non-downloadable software featuring agentic software using artificial intelligence and machine learning for orchestrating business workflows, executing automated tasks, and facilitating interaction between humans and AI agents; software as a service (SaaS), platform as a service (PaaS), and providing temporary use of non-downloadable software featuring agentic software using artificial intelligence and machine learning for speech recognition, speech synthesis, transcription, and interpretation, including real time interpretation; software as a service (SaaS), platform as a service (PaaS), and providing temporary use of non-downloadable software featuring agentic software using artificial intelligence and machine learning for translation, translation memory, terminology management, and translation quality estimation; evaluation of artificial intelligence (AI) model outputs in the field of language translation; creation of language translation dictionaries and terminology databases for others; software as a service [SaaS] featuring content management software; software as a service [SaaS] featuring web content management software; software as a service [SaaS] featuring intellectual property practice management software for use by intellectual property owners and attorneys for billing and accounting, maintaining contact information, calendaring of events, docketing, and filing of documents with intellectual property offices; software as a service [SaaS] featuring software for the management of intellectual property; software as a service [SaaS] featuring software for online brand monitoring services; providing temporary use of online non-downloadable software for managing multiple websites and multilingual websites from a single content repository; providing temporary use of online non-downloadable software for delivery of content via application programming interfaces [APIs] to websites, mobile applications and other digital channels; providing temporary use of online non-downloadable software for multichannel publishing of content; providing online non-downloadable computer software for localisation, logging, maintenance, management, preparation, processing, publishing, recovery, reproduction,

retrieval, reuse, revision, searching, security, selection, sharing, storage, structuring, systematization, taxonomy, transcription, translation, updating, verification, version control of content, information and data; providing temporary use of online non-downloadable software for personalisation of website content and digital experiences; providing temporary use of online non-downloadable software for content workflow, approval, version control, access management and audit trails; providing temporary use of online non-downloadable software using artificial intelligence for analysing the context, purpose, target audience and risk level of text, speech, audio, audiovisual, video and digital content; providing temporary use of online non-downloadable software using artificial intelligence for assessing and adapting text, speech, audio, audiovisual, video and digital content to cultural preferences and linguistic accuracy across international markets; providing temporary use of online non-downloadable software using artificial intelligence for adapting text, speech, audio, audiovisual, video and digital content to the languages, dialects, demographics and cultural preferences of international markets; providing temporary use of online non-downloadable software using autonomous artificial intelligence agents for simulating the response of target audiences to translated and localised content; software as a service [SaaS] for transcreation of content; software as a service [SaaS] using artificial intelligence to adapt and align text, speech, audio, audiovisual, video and digital content to cultural preferences across international markets; platform as a service [PaaS] for transcreation of content; platform as a service [PaaS] to adapt and align text, speech, audio, audiovisual, video and digital content to cultural preferences across international markets; providing temporary use of online non-downloadable software using cultural and contextual intelligence to adapt text, speech, audio, audiovisual, video and digital content; providing temporary use of online non-downloadable software using cultural and contextual intelligence to adapt text, speech, audio, audiovisual, video and digital content across international markets information, advisory and consultancy services relating to the aforesaid.

Class 45:
Licensing of computer software for language translation; management of intellectual property; patent drafting services; protection of intellectual property; services relating to the registration of domain names; patent renewal services; trade mark renewal services; design renewal services; domain name renewal services; patent and trade mark and intellectual property monitoring and research; preparation of patent and intellectual property reports; online brand monitoring and protection services relating to the monitoring and enforcement of intellectual property; information, advisory and consultancy services relating to the aforesaid.

Spectacles, contact lenses and sunglasses; surgical, medical, dental and veterinary apparatus and instruments; artificial limbs, eyes and teeth; orthopaedic articles; suture materials; therapeutic and assistive devices adapted for persons with disabilities; massage apparatus; apparatus, devices and articles for nursing infants; sexual activity apparatus, devices and articles; diagnostic, examination, and monitoring equipment for the purposes of measuring genetic, genomic, metagenomics, microbiomic, metabolomic, proteomic, glycomics or biochemical data; diagnostic, examination, and monitoring equipment for the purposes of measuring ketone bodies; diagnostic, examination, and monitoring equipment for the purposes of measuring breath; medical diagnostic test apparatus, namely, strips, threads, swabs, cartridges, and collection tubes for the purposes of measuring genetic, genomic, microbiomic, metabolomic, glycomic, proteomic or biochemical data; genetic testing apparatus for medical purposes; genetic

testing apparatus for assessing nutrition, diet or health; apparatus for taking and collecting stool, saliva, blood, hair or urine samples; apparatus for determining blood flow; Medical devices and instruments; diagnostic apparatus for medical purposes; diagnostic testing apparatus for medical purposes; medical testing kits; blood testing kits for medical purposes; specimen collection kits for medical purposes; blood collection devices; lancets for medical purposes; capillary blood sampling devices; sample collection devices for medical purposes; diagnostic instruments for the analysis of biological samples for medical purposes; medical apparatus for monitoring health and wellness indicators; health monitoring devices for medical purposes; parts and fittings for the aforesaid goods.

Class 35:
Advertising; business management, organisation and administration; office functions; online retail services connected with the sale of cosmetics, skincare products, toiletries, dietary and nutritional supplements, pharmaceuticals, medical devices and medical testing kits; subscription management services; administration of subscription services; administration of membership schemes; administration of consumer loyalty programmes; arranging subscriptions to healthcare, health monitoring and diagnostic testing services; compilation and systemisation of information into computer databases; collection and compilation of health-related information into computer databases; data processing services; business administration services relating to healthcare programmes; provision of commercial information relating to healthcare products and services; information, consultancy and advisory services relating to the aforesaid services.

Class 42:
Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; scientific, technological, research services for collecting, analysing, monitoring, reporting or tracking data and information in the fields of physiology, biology, genetics, genomics, metagenomics, microbiome, metabolomics, proteomics, glycomics or biochemistry; scientific, technological, research services for collecting, analysing, monitoring, reporting or tracking data and information in relation to probiotics, prebiotics or nutraceutical supplements; scientific, technological, research services for collecting, analysing, monitoring, reporting or tracking data and information in relation to health, wellness, physical well-being, mental well-being, exercise, weight planning or weight management; scientific, technological, research services for collecting, analysing, monitoring, reporting or tracking data and information in relation to diet, food or nutrition; scientific, technological, research services for collecting, analysing, monitoring, reporting or tracking data and information in relation to sleep, exercise or consciousness; scientific, technological, research services in the fields of physiology, biology, genetics, genomics, metagenomics, microbiome, metabolomics, proteomics, glycomics or biochemistry; scientific, technological, research services in relation to probiotics, prebiotics or nutraceutical supplements; scientific, technological, research services in relation to health, wellness, physical well-being, mental well-being, exercise, weight planning or weight management; scientific, technological, research services in relation to diet, food or nutrition; scientific, technological, research services in relation to sleep, exercise or consciousness; design and development of computer hardware and software for collecting, analysing, monitoring, reporting or tracking data and information in the fields of physiology, biology, genetics, genomics, metagenomics, microbiome, metabolomics, proteomics, glycomics or biochemistry; design and development of computer hardware and software for collecting, analysing, monitoring, reporting or tracking data and information in relation to probiotics, prebiotics or nutraceutical supplements; design and development of computer hardware and software for collecting, analysing, monitoring, reporting or tracking data and information in relation to health, wellness, physical well-being, mental well-being, exercise, weight planning or weight management; design and development of computer hardware and software for collecting, analysing, monitoring, reporting or tracking data and information in relation to diet, food or nutrition; design and development of computer hardware and software for collecting, analysing, monitoring, reporting or tracking data and information in relation to sleep, exercise or consciousness; platform as a service [paas]; platform as a service [paas] for collecting, analysing, monitoring, reporting or tracking data and information in the fields of physiology, biology, genetics, genomics, metagenomics, microbiome, metabolomics, proteomics, glycomics or biochemistry; platform as a service [paas] for collecting, analysing, monitoring, reporting or tracking data and information in relation to probiotics, prebiotics or nutraceutical supplements; platform as a service [paas] for collecting, analysing, monitoring, reporting or tracking data and information in relation to health, wellness, physical well-being, mental well-being, exercise, weight planning or weight management; platform as a service [paas] for collecting, analysing, monitoring, reporting or tracking data and information in relation to diet, food or nutrition; platform as a service [paas] for collecting, analysing, monitoring, reporting or tracking data and information during sleep, exercise or consciousness; software as a service [saas]; software as a service [saas] for collecting, analysing, monitoring, reporting or tracking data and information in the fields of physiology, biology, genetics, genomics, metagenomics, microbiome, metabolomics, proteomics, glycomics or biochemistry; software as a service [saas] for collecting, analysing, monitoring, reporting or tracking data and information in relation to probiotics, prebiotics or nutraceutical supplements; software as a service [saas] for collecting, analysing, monitoring, reporting or tracking data and information in relation to health, wellness, physical well-being, mental well-being, exercise, weight planning or weight management; software as a service [saas] for collecting, analysing, monitoring, reporting or tracking data and information in relation to diet, food or nutrition; software as a service [saas] for collecting, analysing, monitoring, reporting or tracking data and information during sleep, exercise or consciousness; application service provider [asp]; application service provider [asp] for collecting, analysing, monitoring, reporting or tracking data and information in the fields of physiology, biology, genetics, genomics, metagenomics, microbiome, metabolomics, proteomics, glycomics or biochemistry; application service provider [asp] for collecting, analysing, monitoring, reporting or tracking data and information in relation to probiotics, prebiotics or nutraceutical supplements; application service provider [asp] for collecting, analysing, monitoring, reporting or tracking data and information in relation to health, wellness, physical well-being, mental well-being, exercise, weight planning or weight management; application service provider [asp] for collecting, analysing, monitoring, reporting or tracking data and information in relation to diet, food or nutrition; application

service provider [asp] for collecting, analysing, monitoring, reporting or tracking data and information during sleep, exercise or consciousness; providing a website featuring non-downloadable software; providing a website featuring non-downloadable software in the fields of physiology, biology, genetics, genomics, metagenomics, microbiome, metabolomics, proteomics, glycomics or biochemistry; providing a website featuring non-downloadable software in relation to probiotics, prebiotics or nutraceutical supplements; providing a website featuring non-downloadable software in relation to health, wellness, physical well-being, mental well-being, exercise, weight planning or weight management; providing a website featuring non-downloadable software in relation to diet, food or nutrition; providing a website featuring non-downloadable software relating to sleep, exercise or consciousness; development of probiotics, prebiotics, dietary supplements or nutritional supplements; scientific, research and technological services in the development of probiotics, prebiotics, dietary supplements or nutritional supplements; software as a service (SaaS) featuring software for interpreting laboratory test results; software as a service (SaaS) featuring software for generating personalised health assessments, reports and recommendations; software as a service (SaaS) featuring software for monitoring biomarkers and health metrics over time; electronic storage of medical and health-related data; information, consultancy and advisory services relating to the aforesaid services.

Class 44:
Medical services; veterinary services; hygienic and beauty care for human beings or animals; agriculture, aquaculture, horticulture and forestry services; consultancy in the field of food, nutrition, exercise and health; consultancy in the field of healthcare; dietetic and food advisory services; healthcare information services; medical diagnostic services in the field of health or wellbeing; medical diagnostic testing, monitoring, analysis, recommendation, treatment or reporting services; providing medical diagnostic testing, monitoring, consultations, or reporting to individuals to help them make health, wellness, exercise or nutritional changes; nutrition and dietetic consultancy; nutrition consultancy in the fields of obesity, weight management, metabolic diseases, diabetes, cardiovascular diseases or gut health; nutrition advisory in the fields of obesity, metabolic diseases, diabetes, cardiovascular diseases or gut health; dietetic recording for the purposes of monitoring food intake; health counselling; nutrition counselling; advisory services relating to nutrition; wellness and health-related consulting services; health assessment services; health care services, namely, wellness programs; health care services, namely, disease management programs; performing diagnosis of diseases; providing health information; providing information in the fields of health and wellness; providing medical information; providing medical information, consultancy and advisory services; provision of medical information via a website; provision of information in relation to health, wellness, nutrition, weight management, exercise or weight loss via a website; health assessment surveys; compilation of medical reports; issuing of medical reports; providing personalised healthcare, nutrition, food, diet, lifestyle or medical information for personalised health, wellness, nutrition, diet, food, exercise, lifestyle, weight planning or weight management; providing personalised healthcare relating to probiotics, prebiotics or other nutraceutical supplements and preparations; consultancy services in the field of nutrition; dietary guidance; providing information relating to dietary and nutritional supplements; providing information relating to food; providing information relating to diet or nutrition; providing information relating to gut health; providing information relating to the microbiome; providing information relating to metabolic information; providing information relating to probiotics; providing information relating to prebiotics; information, consultancy, counselling, recommendation and advisory services for providing personalised health, wellness, nutrition, diet, food, exercise, weight planning, weight management or lifestyle; information, consultancy, counselling, recommendation and advisory services for individual wellness, physical well-being, mental well-being, weight planning, weight management or lifestyle; information, consultancy, counselling, recommendation and advisory services in relation to nutrition, diet, food, exercise or health; personalised nutrition services in the fields of obesity, metabolic diseases including diabetes, metabolic syndrome, cardiovascular diseases, gut health or microbiome diagnostic testing; personalised treatment services based on analysis of physiology, systems biology, genetics, genomics, microbiome, metabolomics, proteomics, glycomics, biochemistry, health or lifestyle; medical consultation services; telemedicine services; remote medical consultation services; providing access to healthcare professionals; prescription management services; medical services relating to hormone replacement therapy; medical services relating to hormonal health; medical services relating to hair loss and hair restoration; health screening services; preventative healthcare services; health monitoring services; medical assessment services; interpretation of diagnostic test results for medical purposes; information, consultancy and advisory services relating to the aforesaid services.

Software as a service [SaaS], application service provider services and provision of temporary use of online non-downloadable software accessible through websites or mobile applications, all limited to software for online directories, online marketplaces and retailer business management in relation to farm shops, food producers and independent food retailers, including software for finding and comparing retailers and their products, displaying retailer locations on interactive maps and finding retailers along a selected route. Providing online non-downloadable software for creating, claiming, submitting, renewing, updating and managing business listings and profiles, photographs, descriptions, contact details, opening hours, facilities information and seasonal updates. Providing online non-downloadable software for creating and managing product catalogues, prices, stock and availability, and for displaying the same catalogue information on a retailer's profile and in a shared online marketplace. Providing online non-downloadable software for placing and managing customer orders, accessing online payment gateways, recording product availability and stock, and managing seller-provided delivery options and collection arrangements. Providing online non-downloadable software for analysing customer engagement with retailer listings, consumer interest in listed products and product range composition, preparing and viewing business reports, and presenting product-range recommendations. Providing online non-downloadable software for creating and managing customer and business accounts, saved preferences, business subscriptions and access to retailer management tools. Hosting of digital content and electronic storage of data for retailers, namely retailer photographs, business listing information and product catalogue information, all provided as part of the listing and catalogue service within an online food retailer directory and marketplace. Providing search engines for the internet, restricted to searching retailer, product and supplier information within an online directory and marketplace for farm shops and independent food retailers.

Vehicle-mounted air purifying apparatus; Drying apparatus and installations; Apparatus and installations for drying; Clean air cabinets (Air purification apparatus for -); Installations for air extraction; Air separation apparatus; Air circulation apparatus;

Hot air heating apparatus; Air freezing apparatus; Air sterilising apparatus; Air inductor apparatus [ventilation]; Apparatus and installations for refrigerating; Air curtain apparatus; Hot air apparatus; Air freezing installations; Warm air heating apparatus; Air-conditioning apparatus; Air ionization apparatus; Air heat recovery apparatus; Air filter installations; Regulating apparatus for water installations; Water softening apparatus and installations; Water softening installations and apparatus; Cyclones [air purifying apparatus]; Lighting apparatus and installations; Apparatus and installations for lighting; Heat pumps; Air-source heat pump water heaters; Heat pumps for energy processing; Ventilators for heat exchangers; Heat exchangers; Gas heat generators; Evacuated heat pipe solar collectors [heat exchangers]; Heat sinks for use in cooling apparatus; Heat exchangers for fireplaces; Heat accumulators; Accumulators (Heat -); Heat sinks for use in heating apparatus; Heat regenerators; Regenerators (Heat -); Heat sinks for use in ventilating apparatus; Heat exchangers, other than parts of machines; Heat exchangers for the removal of condensate; Heat exchangers for the temperature control of drinks being dispensed; Heat pads; Heat guns; Heat exchangers for the removal of exhaust gases; Shell heat exchangers; Heat regulating devices [valves] being parts of heating installations; Gas boilers for water heating; Heat exchangers for the removal of flue gases; Heat exchangers for central heating purposes; Heat exchangers [for chemical processing]; Heat exchangers for chemical processing; Cylinders for the heating of water; Thermal fluid heaters; Water heaters and boilers; Circulators [water heaters]; Heat exchangers, not parts of machines; Refrigerating appliances; Refrigerating apparatus; Apparatus for refrigerating; Cooling apparatus and appliances; Refrigerating apparatus and machines; Apparatus for refrigerating beverages; Refrigerating appliances and installations; Heating apparatus for containers; Electrical cooking apparatus; Heating apparatus for foodstuffs; Apparatus for heating foodstuffs; Refrigerating machines; Refrigerators, cooling apparatus and freezers for medical storage purposes; Apparatus for heating; Heating apparatus; Cooking apparatus; Apparatus for cooking; Refrigerating and freezing equipment; Heating apparatus for vehicles; Cooling apparatus; Defrosting apparatus for vehicles; Thermoelectric apparatus for heating foodstuffs; Refrigerating containers [electric]; Industrial heating apparatus; Heating apparatus for aquariums; Cooking apparatus and installations; Apparatus or installations for cooking; Apparatus and installations for cooking; Refrigerating cabinets; Electric drying apparatus for household purposes; Heating apparatus for furnaces; Heating apparatus for defrosting windows of vehicles; Defrosting windows of vehicles (Heating apparatus for -); Vehicles (Heating apparatus for defrosting windows of -); Air-conditioning apparatus [for industrial purposes]; Stoves [heating apparatus]; Electric space cooling apparatus [for household purposes]; Microwave ovens [cooking apparatus]; Receptacles (Refrigerating -); Beverages cooling apparatus; Heating apparatus, electric; Electric heating apparatus; Thermoelectric apparatus for heating beverages; Ventilating apparatus for vehicles; Cooling apparatus for liquids; Apparatus for heating milk; Heating apparatus for defrosting vehicle windows; Sterilizing apparatus; Electric space cooling apparatus; Regulating apparatus for gas apparatus; Installations for refrigerating; Refrigerating installations; Steam heating apparatus [for industrial purposes]; Apparatus for freezing foodstuffs; Apparatus for ventilating; Ventilating apparatus; Appliances for heating foodstuffs; Appliances for heating; Refrigerated food display apparatus; Refrigerating boxes [electric]; Commercial cooking apparatus; Space heating apparatus; Sterilising appliances; Beverage cooling apparatus; High-pressure processing apparatus and machines for food pasteurization; Electric grilling apparatus; Steam heating apparatus; Flues for heating apparatus; Refrigerating containers; Containers (Refrigerating -); Cooling apparatus for moulds; Electrical appliances for cooking; Heating apparatus for use in the home; Ice storage apparatus; Electric space cooling apparatus for household use; Industrial ventilation apparatus; High-pressure processing apparatus and machines for food pasteurisation; Pressure supervision apparatus [safety apparatus for gas apparatus]; Steaming apparatus (Electric -) for cooking; Hot-water space heating apparatus [for industrial purposes]; Portable steam sterilizing apparatus; Floor heating apparatus; Ventilation apparatus; Mobile heating apparatus; Sterilising apparatus; Filters for use with apparatus heating; Stop valves being safety apparatus for gas apparatus; Refrigerating containers [gas]; Regulating apparatus being parts for water apparatus; Drying apparatus; Apparatus for drying; Refrigerating counters; Refrigerating display cabinets; Lighting apparatus; Apparatus for lighting; Hot-air space heating apparatus [for industrial purposes]; Cooling installations for refrigerating; Air-conditioning installations; Ventilating installations; Installations for ventilating; Turbine ventilators [ventilation apparatus]; Ventilation installations for kitchens; Air-conditioning installations for vehicles; Dampers for ventilating installations; Sanitary apparatus and installations; Sanitary installations and apparatus; Solar powered ventilation apparatus; Central air-conditioning installations [for industrial purposes]; Heating installations; Installations for heating; Cooling installations; Cooling appliances and installations; Installations for humidifying; Regulating apparatus for gas installations; Cooling installations and machines; Electrical fans being parts of household ventilation installations; Flues for ventilating apparatus; Hoods for ventilating apparatus; Filters for use with apparatus for ventilating; Heating installations for fluids; Fans [parts of air-conditioning installations]; Apparatus for vapour producing installations; Apparatus and installations for steam generating.

Class 35:
Wholesale services in relation to cooling equipment; Wholesale services in relation to heating equipment; Wholesale services in relation to refrigerating equipment; Retail services in relation to cooling equipment; Retail services in relation to heating equipment; Retail services in relation to refrigerating equipment; Wholesale services in relation to freezing equipment; Retail services in relation to freezing equipment; Wholesale services in relation to water supply equipment; Wholesale services in relation to food cooking equipment; Retail services in relation to water supply equipment; Wholesale services in relation to domestic electrical equipment; Wholesale services in relation to sanitation equipment; Wholesale services in relation to heaters; Wholesale services in relation to construction equipment; Wholesale services in relation to agricultural equipment; Wholesale services in relation to horticulture equipment; Wholesale services in relation to audio-visual equipment; Retail services in relation to domestic electrical equipment; Retail services in relation to food cooking equipment; Wholesale services in relation to domestic electronic equipment; Wholesale services in relation to earthmoving equipment; Retail services in relation to sanitation equipment; Wholesale services in relation to information technology equipment; Wholesale services in relation to sanitary installations; Wholesale services in relation to sporting equipment; Retail services in relation to heaters; Retail services in relation to agricultural equipment; Retail services

in relation to diving equipment; Retail services in relation to construction equipment; Wholesale services in relation to lighting; Wholesale services in relation to medical apparatus; Retail services in relation to audio-visual equipment; Retail services in relation to horticulture equipment; Wholesale services in relation to kitchen appliances; Retail services in relation to domestic electronic equipment; Retail services in relation to earthmoving equipment; Retail services in relation to information technology equipment; Wholesale services in relation to cleaning preparations; Wholesale services in relation to foodstuffs; Wholesale services in relation to veterinary apparatus; Wholesale services in relation to fragrancing preparations; Wholesale services relating to kitchen appliances; Wholesale services in relation to lubricants; Retail services in relation to sun tanning appliances; Wholesale services in relation to cookware; Retail services in relation to sporting equipment; Retail services in relation to sanitary installations; Wholesale services in relation to ice creams; Retail services relating to horticultural equipment; Wholesale services in relation to furnishings; Import-export agency services; Export-import agency services; Export agency services; Import agency services; Advisory and consultancy services relating to import-export agencies; Import-export agencies; Business management of wholesale and retail outlets; Business management of wholesale outlets; Business management of retail outlets; Administration of the business affairs of retail stores; Business management for shops; Management of a retail enterprise for others; Commercial business management; Business management; Business management assistance for industrial or commercial companies; Commercial administration of the licensing of the goods and services of others; Product marketing; Business advisory services relating to product manufacturing.
