Class 9:
Air surveillance radars; radar control and weapon engagement systems; missile guidance and control systems; weapon warning apparatus; weapon targeting systems; computer software for use in weapon control, guidance, management and warning; radar control and management computer software; computer software for missile threat detection and warning; communication and telecommunication apparatus and instruments, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; radio transmitters and receivers, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; electronic and computer devices for intercommunication, exchange and transfer of data and information for air navigation and command support, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; visualization consoles, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; transponders, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; radio receivers for sound and signal reproduction, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; optical, electric, electronic and telescopic target location devices; electric, electronic and optical, and telescopic apparatus for target surveillance; electric, electronic, electric and telescopic target trackers; surveillance sonars, target surveillance apparatus; remote control stations; sensors, namely devices and apparatus for gathering information, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; encryption apparatus and instruments, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; systems for detecting drones, aircraft, and land vehicles; infrared detection apparatus, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; heat detection apparatus, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; speed measuring sensors, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; signal sensors, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and

transport; object detection sensors, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; acoustic detection apparatus, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; infrared sensors, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; ultrasonic sensors, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; acceleration sensors, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; distance sensors, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; position sensors, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; optical sensors, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; sensors for determining position, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; wireless control modules for remotely monitoring and controlling the function and status of security systems, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; radio transmitters for remote controls, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; radio receivers for remote controls, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; computer software for controlling and managing access server applications, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; black boxes [data recorders], these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; couplers [computer equipment], these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; data processing systems, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; sound, image and data recording, transmission or reproduction apparatus, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; data capture, extraction, transmission and storage apparatus, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; software providing a comprehensive solution for detecting cyber intrusions in air traffic control systems; protection software for flight control systems; computer intrusion detection software in radars used in flight control systems; mapping apparatus; apparatus for checking flight parameters; speed measuring apparatus (photography), these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; optical display screens, these products related to integrated air and missile defense systems as well as related technologies for command, control, surveillance, detection and interception in the fields of defense, aerospace, security and transport; none of the aforesaid products relating to education, entertainment, on-demand television, telecommunication, broadcasting, broadband, fixed and mobile telephony, advertising, sponsorship, weather forecasting and smart home services, as well as home security and protection services.

Class 13:
Missiles, rockets, missile launchers, rocket launchers, cannons; radio-frequency-directed energy weapon, radio-frequency jammer, laser-directed energy weapon.

Class 1:
Industrial chemicals; agricultural chemicals, except fungicides, herbicides, insecticides and parasiticides; unprocessed artificial resins, unprocessed plastics; fire extinguishing and fire prevention compositions; tempering and soldering preparations; substances for tanning animal skins and hides; adhesives for use in industry; putties and other paste fillers; compost, manures, fertilizers; biological preparations for use in industry and science; chemicals; nucleic acid sequences, other than for medical or veterinary purposes; chemicals being carriers for use in biosynthesis of nucleic acids; chemicals as polymer beads for use in biosynthesis of nucleic acids; industrial chemicals for the treatment of biopolymers, other than for medical and veterinary use; dehumidifying agents for industrial use; masking compounds for use in the manufacture of printed circuit boards; ion-exchange resin membranes (chemical preparation); chemicals for use in the manufacture of membranes; fulling preparations; anti-frothing solutions for batteries; water-softening preparations; detergents for use in manufacturing processes; chemical preparations for scientific purposes, other than for medical or veterinary use; filtering materials of unprocessed plastics; filtering materials of vegetable substances; filtering materials of mineral substances; filtering materials of chemical substances; ceramic materials in particulate form, for use as filtering media; filtering preparations for the beverage industry; water-purifying chemicals; glue and adhesives for industrial purposes; plastic adhesives for industrial purposes; adhesives for applying wall coverings; silicones; adhesives for use in the construction industry; adhesives for ornamental paving; plant growth regulating preparations; ceramic glazings; priming putty; higher fatty acids; non-metallic minerals for use in manufacture; chemical compositions for developing photographs; unexposed sensitized photographic films; reagent paper (not for medical purposes); artificial sweeteners; flour and starch for industrial purposes; plastics (raw materials); unprocessed resins for use in the manufacture of membranes; epoxy resins, unprocessed; fluorine resins, unprocessed; polymer resins, unprocessed; paper pulp; wood pulp; fluorine; fluorspar compounds; unprocessed plastics in powder, liquid

or paste form; thermally curable epoxy resin; thermally curable unprocessed synthetic resins; chemical agents for coating for surface modification; reagents for scientific purposes for use in nucleic acid isolation and purification; chemicals in the nature of carrier for synthesis of nucleic acid; adhesives for industrial purposes for manufacturing automobiles; adhesives for electronic components; adhesives for manufacturing printed circuit boards.

Class 5:
Pharmaceuticals, medical and veterinary preparations; sanitary preparations for medical purposes; dietetic food and substances adapted for medical or veterinary use, food for babies; dietary supplements for human beings and animals; plasters [dressings], materials for dressings; material for stopping teeth, dental wax; disinfectants; preparations for destroying vermin; fungicides, herbicides; pharmaceutical preparations for the treatment of skin diseases; medicated shampoos; bath preparations for medical purposes; deodorants for clothing and textiles; coolants for medical purposes; cooling sprays for medical purposes; solvents for removing adhesive plasters; first-aid boxes, filled; first aid kits; surgical tape; adhesive plasters; adhesive tapes for medical purposes; corn pads; corn and callus creams; preparations for the treatment of burns; pharmaceutical products and preparations for chloasma; acne treatment preparations; insect repellents; fly catching paper; mothproofing paper; compresses; remedies for perspiration; adhesives for medical purposes for attaching kinesiology tapes to body; removing preparations for medical purposes for detaching kinesiology tapes from body; adhesives for medical purposes; removing preparations for medical purposes; film type surgical dressings; surgical dressings; materials for dressing wounds; scapulars for surgical purposes; adhesive bandages; first aid dressings; sterilized dressing; burn dressings; self-adhesive dressings; liquid bandage sprays; bandages for dressings; liquid bandages; gauze for dressings; wadding for dressings; oiled paper for medical purposes; drug delivery agents in the form of edible wafers for wrapping powdered pharmaceuticals; empty capsules for pharmaceuticals; eyepatches for medical purposes; ear bandages; menstruation bandages; menstruation tampons; sanitary napkins; sanitary panties; absorbent cotton; breast-nursing pads; cotton swabs for medical use; diapers; diaper covers; reagent paper for medical purposes; lacteal flour for babies; dietetic beverages adapted for medical purposes; dietetic foods adapted for medical purposes; babies' beverages for medical purposes; semen for artificial insemination; medical protective pads for affected parts, being wound dressings; nucleic acid sequences for medical and veterinary purposes; biological preparations for medical purposes; diagnostic agents, preparations and substances for medical purposes; adhesive sheet for medical purposes; transdermal patches for medical treatment; wound covering material consisting of medical film; wound covering materials for medical purposes; transdermal absorption tape formulations; vaccines; medical adhesive tapes for fixing compresses; tapes for infant and adult diapers; medical adhesives for binding wounds; gum for medical purposes; adhesive bands for medical purposes; adhesive bandages for medical purposes; adhesive nipple patches for medical purposes; antibacterial soap; underwraps for kinesiology tapes; underwraps for medical adhesive tapes; medical adhesive tape for protecting the affected area.

Class 7:
Motors and engines, except for land vehicles; machine coupling and transmission components, except for land vehicles; agricultural implements, other than hand-operated hand tools; incubators for eggs; automatic vending machines; metalworking machines and tools; chemical processing machines and apparatus; filter elements for chemical processing machines and apparatus; cartridges for filtering machines; filtering machines; filters (parts of machines or engines); membrane filters for use as parts of machines; food or beverage processing machines and apparatus; filtration films for desalination for food or beverage processing machines and apparatus; disintegrators; agitators; machines for the mineralisation of drinking water; wrapping machines; filters for chemical processing machines and apparatus; water mills; dynamos; waste disposal units; mineral water making machines; oil refining machines; gas separating apparatus; separating machines; filters being parts of machines or engines; water separators; agricultural machines; plowing machines and implements, other than handheld tools; cultivating machines and implements; harvesting machines and implements; plant fiber processing machines and implements for agricultural purposes; fodder presses; fodder cutting machines (feed cutters); fodder mixing machines (feed mixers); cake-fodder crushing machines (feed mills); milk filtering machines; milking machines; chick brooders; sericultural machines and implements; glassware manufacturing machines and apparatus; painting machines and apparatus; packaging or wrapping machines and apparatus; plastic processing machines and apparatus; semiconductor manufacturing machines and systems; air filters for semiconductor manufacturing machines and systems; tape sticking machines for semiconductor wafers; machines and apparatus for manufacturing rubber goods; parts of motors and engines (except for land vehicles); filters for cleaning cooling air, for engines; windmills; pneumatic or hydraulic machines and instruments; pumps (machines); adhesive tape dispensing machines; automatic stamping machines; machines and apparatus for wax-polishing, electric; vacuum cleaners; air filters for vacuum cleaners; dust filters for vacuum cleaners; waste compacting machines and apparatus for industrial purposes; waste crushing machines for industrial purposes; power transmissions and gearing for machines; shock absorbers for machines; springs (parts of machines); brakes for machines; separation membrane for chemical processing machines and apparatus; gas separation membranes; filters for gas separating installations; hollow fiber membrane filters for chemical processing machines and apparatus for purifying pharmaceutical preparations; filters for food or beverage processing machines and apparatus; filters for filtering machines; non-electric prime movers, not for land vehicles, other than water mills and wind mills; parts of non-electric prime movers, other than water mills and wind mills; air filters for automobile engines; brushes being parts of machines; filter elements for food or beverage processing machines and apparatus; filter elements for agricultural machines and implements, other than hand-operated; filter elements for semiconductor manufacturing machines and systems; filter elements for non-electric prime movers, not for land vehicles; filter elements for pneumatic or hydraulic machines and instruments; reverse osmosis membrane filter elements for chemical processing machines and apparatus for purifying pharmaceutical preparations; reverse osmosis membrane filter elements for food or beverage processing machines and apparatus.

Class 9:
Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded media, recorded and downloadable computer software, blank digital or analogue recording and storage media; mechanisms for coin-operated apparatus; cash registers, calculating devices; computers and computer peripheral devices; diving suits, divers' masks, ear plugs for divers, nose clips for divers, gloves for divers, breathing apparatus for underwater swimming; fire-extinguishing apparatus; electronic game software; meters; measures; network communication equipment; integrated circuits; electric resistances; pollution sensors; remote control devices; heat regulating apparatus; electrolysers for laboratory use; game programs for arcade video game machines; laboratory apparatus and instruments; laboratory apparatus and instruments for scientific research; laboratory filters; photographic machines and apparatus; cinematographic machines and apparatus; optical machines and apparatus; polarizing film for optical machines and apparatus; optical films as exclusive parts for computers, electronic display units, electrical communication machines and instruments, and optical machines and apparatus; light extraction films as exclusive parts for computers, electronic display units, electrical communication machines and instruments, and optical machines and apparatus; light guide plates for liquid crystal display devices; prisms (optics); optical glass; light extraction films and light guide plates for use with light-emitting diode modules; light-emitting diode modules; light extraction films and light guide plates for electronic displays and their modules; electronic display units; electronic display modules; measuring machines and instruments; material testing machines; power distribution or control machines and apparatus; rotary converters; phase modifiers; electrical control apparatus; covers for electric outlets; battery chargers; touchscreen sensors; solar batteries; batteries and cells; electric or magnetic meters and testers; electric wires and cables; cables for optical signal transmission; fiber optic cables; telecommunication machines and apparatus; personal digital assistants; smartphones; protective films for personal digital assistants; clear protective covers for personal digital assistants; acoustic membranes for use in sound recording or reproducing apparatus; computers and their parts; display units for computers; electronic control systems for machines; electron tubes; semi-conductor elements; electronic circuits; computer programs; computer software; computer software platforms, recorded or downloadable; downloadable computer software applications; barcode label printers; computer software, recorded; protective films for computer screens; circuit boards; thin metal-based circuit boards for hard disk drives; circuit boards capable of reading and writing on a hard disk; protective films for computers, electronic display units and their parts; Geiger counters; cyclotrons, not for medical purposes; industrial X-ray machines and apparatus, not for medical use; industrial betatrons, not for medical use; magnetic prospecting machines; magnetic object detectors; seismic exploration machines and apparatus; hydrophone machines and apparatus; echo sounders; ultrasonic flaw detectors; ultrasonic sensors; electronic door opening and closing control systems; electron microscopes; magnetic cores; resistance wires; electrodes; magnets; flexible magnets in the form of sheets; satellites for scientific purposes; dust masks; gas masks; welding masks; gloves for protection against accidents; game programs for home video game machines; electronic circuits and CD-ROMs recorded with programs for hand-held games with liquid crystal displays; downloadable image files; recorded video discs and video tapes; phonograph records; downloadable music files; electronic publications; exposed cinematographic films; exposed slide films; slide film mounts; optical fibres; optical fiber connectors; photoelectric composite wiring boards; printed wiring boards; gas separators for scientific and laboratory use; filters for use with gas separators for scientific and laboratory use; membrane elements for use with gas separators for scientific and laboratory use; plastic flat films and membranes for use with gas separators for scientific and laboratory use; protective plastic films adapted for screens for computers, electronic display units or optical apparatus and instruments; computer software platforms; modems; computer network routers; computer servers; computer software for use in the operation and control of electronic medical interview systems; computer software for use in the field of kinesiology; audiovisual teaching apparatus; teaching apparatus; wearable computers; protective films for smartphones; smartglasses; smart rings; respiratory masks, other than for artificial respiration; filters for dust protection masks, protective masks, and welding masks; protective masks; decorative magnets; humanoid robots with artificial intelligence for use in scientific research; optical filters; polarizing filters for LCD panels; optical mirrors; magnets for industrial purposes; wireless electric power supply devices; electric power supply apparatus; wireless chargers; battery chargers for hearing aids; rechargeable electric batteries; memory boards; optical fibers (light conducting filaments); filters for respiratory masks; sensors (measurement apparatus), other than for medical use; optical cables; polarizing plates for optical machines and apparatus; battery separators; cell phones; liquid crystal display (LCD) televisions; LCD projectors; liquid crystal display (LCD) panels for mobile apparatus; liquid crystal displays (LCDs) for computer monitors; liquid crystal display (LCD) panels for computers; touch sensitive liquid crystal display (LCD) panels for computers; insulating gloves for protection against accidents.

Class 10:
Surgical, medical, dental and veterinary apparatus and instruments; artificial limbs, eyes and teeth; orthopaedic articles; suture materials; therapeutic and assistive devices adapted for persons with disabilities; massage apparatus; apparatus, devices and articles for nursing infants; sexual activity apparatus, devices and articles; supporters for medical purposes; support bandages; orthopaedic bandages; thermal packs for first aid purposes; cooling pads for first aid purposes; medical cooling sheets for applying to affected parts; cold gel packs for medical purposes in the form of towel; thermotherapy apparatus for medical purposes; cooling instruments for medical use; medical scissors; medical tape cutters; kinesiology tapes; nipple protectors; devices and tools for nasal cavity dilation; fingerstalls for medical purposes; pacifiers for babies; ice bag pillows for medical purposes; triangular bandages; surgical catguts; feeding cups for medical purposes; dropping pipettes for medical purposes; teats; medical ice bags; medical ice bag holders; baby bottles; insulated nursing bottles; cooling patches for medical purposes; orthopaedic bandages for joints; bandages, elastic; suspensory bandages; knee bandages, orthopaedic; contraceptives, non-chemical; artificial tympanic membranes; prosthetics or fillings materials, not for dental use; ear plugs (ear protection devices); ear plugs for sleeping; ear

plugs for soundproofing; medical apparatus and instruments; pads for preventing pressure sores on patient bodies; gloves for medical purposes; masks for use by medical personnel; sanitary masks for medical purposes; body rehabilitation apparatus for medical purposes; suits for exoskeleton robots for medical purposes; urinals for medical purposes; bed pans; ear picks; electrocardiographs; digital hearing aids; parts and accessories for hearing aids; filters for sanitary masks for medical purposes; wearable monitors used to measure biometric data for medical use; medical diagnostic apparatus and medical monitoring apparatus; telemetry devices for medical applications; heart rate monitoring apparatus; blood oxygen monitors; adhesive sheets for attaching thermotherapy devices directly on human skin; adhesive supportive bandages; mattresses for medical use for preventing bedsore; mattresses for medical purposes; cushions for medical purposes for preventing bedsore; cushions for medical purposes; seat cushions for medical purposes; sheets for covering the affected area for surgery purposes; adhesive supporters for medical purposes; medical filters; filters for sanitary masks; elastic therapeutic tapes for treating sprains and fractures; athletic tapes; elastic therapeutic tape; medical nasal dilator tapes for stimulating nasal respiration; nose clips for swimmers.

Class 11:
Apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; toilet bowls and seats sold as a unit; shower enclosures; water heaters; ionization apparatus for the treatment of air or water; radiators (heating); drying apparatus for chemical processing; recuperators for chemical processing; steamers for chemical processing; evaporators for chemical processing; distillers for chemical processing; heat exchangers for chemical processing; drying apparatus for textile manufacture; drying apparatus for harvest; forage drying apparatus; air conditioners; heating apparatus; electric heating apparatus; boilers, other than parts of machines; freezing machines and apparatus; electric laundry dryers; towel steamers for hairdressing purposes; hair drying machines for beauty salon use; hair steamers for beauty salon use; shampoo basins for barbers' shop use; cooking apparatus and installations; dish drying machines; dish disinfectant apparatus; worktops as parts of kitchen sinks; kitchen sinks; tap water faucets; level controlling valves for tanks; pipeline cocks; reducing valves as parts and fittings for water supply apparatus; air valves for steam heating installations; filters for air conditioners; dust filters for air conditioners; wastewater treatment tanks; septic tanks; wastewater treatment apparatus; wastewater purification installations; filtration membranes for use with wastewater treatment equipment; membrane elements for use with wastewater and sewage purification equipment; plastic membranes for use with wastewater and sewage purification equipment; water filters; desalination units; reverse osmosis membranes for seawater desalination and water treatment; osmosis water filtration units; reverse osmosis water purification units; reverse osmosis membrane elements for water purification units; reverse osmosis membranes for water purification units; filters for drinking water; garbage incinerators; solar water heaters; filtration membranes for solar water heaters; water purifying apparatus for industrial purposes; desalination plants; industrial water purification filters; water purification equipment and machines for the treatment (purification) of water; electric lamps; lighting apparatus; filters for automobile lights; lighting apparatus and instruments, and modules therefor, composed of light extraction films and light guide plates; light extraction films and light guide plates as exclusive parts for lighting apparatus and instruments and lighting modules; water purifying apparatus and machines; filtration membranes for water purifying apparatus and machines; filtration membrane elements and modules for water purifying apparatus and machines; plastic membranes for water purifying apparatus and machines; filters for water purifying apparatus and machines; filter cartridges for electric water purifying apparatus and machines; membrane elements and other components for water purifying installations; electric water purifying apparatus and machines; air filters for air purifying apparatus and instruments; filters for air extractor hoods; washers for water taps; cooking heaters; water filtering apparatus; warming pans; pocket warmers; hot water bottles; adhesive sheets specially adapted for applying disposable adhesive body warmers; air-permeable filters specially adapted for disposable body warmers; toilet stool units with a washing water squirter; hands and finger disinfectors in the type of automatic spraying of disinfectant; toilet bowls; seats for use with Japanese style toilet bowls; toilet seats; bath fittings; bath tubs; separation apparatus for purifying gas; filters for use with separation apparatus for purifying gas; membrane elements for use with separation apparatus for purifying gas; plastic flat films for use with separation apparatus for purifying gas; electric foot warmers; electric pocket warmers for warming hands; footwarmers, electric or non-electric; sterilizers; heating elements; hair driers; electric cooking utensils; hand drying apparatus for washrooms; water supply installations; electric coolers; deodorizing apparatus, not for personal use; dehumidifiers; air filtering installations; air deodorising apparatus; filters for air conditioning; ventilation fans; humidifiers; heat pumps; filters for air purifiers; gas scrubbers (parts of gas installations); filters for gas scrubbing apparatus; drainage treatment apparatus; water filtration and purification apparatus; reverse osmosis water filtration units; water purification installations; desalination installations; reverse osmosis membrane elements for separation apparatus for purifying gas; filter elements for purification devices for wastewater and sewage; plastic flat membranes for filter elements for purification devices for wastewater and sewage; filter elements for water purifying apparatus; plastic flat membranes for filter elements for water purifying apparatus; refrigerating or freezing showcases; membrane modules for desalination; wastewater treatment tanks for industrial purposes; septic tanks for industrial purposes; industrial wastewater processing apparatus; filters for purifying industrial water; filters for water purifying apparatus; membrane modules for water purifying apparatus; filters for electric water purifying apparatus for household purposes; air filters for air conditioning units; air filters for air conditioning apparatus for use in clean rooms; separation membranes for gas producing installations; air filters for air-conditioning apparatus of operating rooms; towel-shaped personal cooling packs, not for medical purposes.

Class 12:
Vehicles for locomotion by land, air, water or rail; motors for land vehicles; motors, electric, for land vehicles; engines for land vehicles; anti-theft devices for vehicles; adhesive rubber patches for repairing inner tubes; seat covers for vehicles; caps for vehicle fuel tanks; safety harnesses for vehicle seats; anti-glare devices for vehicles; safety belts for vehicle seats; vehicle covers (shaped); mudguards; hub caps; structural parts for automobiles for soundproofing, sound absorption, vibration

isolation and vibration damping; seat cushions exclusively for wheelchair seats.

Class 16:
Paper and cardboard; printed matter; bookbinding materials; photographs; stationery and office requisites, except furniture; adhesives for stationery or household purposes; drawing materials and materials for artists; paintbrushes; instructional and teaching materials; plastic sheets, films and bags for wrapping and packaging; printers' type, printing blocks; pastes for stationery or household purposes; plastic adhesives for stationery or household purposes; wallpaper stencils; sealing wax; printers' reglets (interline leads); addressing machines; ink ribbons; automatic stamp affixing machines; electric staplers for offices; envelope sealing machines for offices; stamp obliterating machines; drawing instruments; typewriters; office check writing machines; mimeographs; relief duplicators; paper shredders for office use; franking machines; rotary duplicators; marking templates; decorators' paintbrushes; containers of paper, for packaging; plastic bags for wrapping; plastic cling film, extensible, for palletization; plastic bubble packs for wrapping or packaging; food wrapping plastic film for household purposes; underlay sheets for ice trays; paper or plastic food wrapping bags; garbage bags of paper for household purposes; garbage bags of plastics for household purposes; paper patterns; tailors' chalk; banners of paper; flags of paper; hygienic hand towels of paper; towels of paper; table napkins of paper; hand towels of paper; handkerchiefs of paper; washi; adhesive washi; adhesive washi for decoration; adhesive calendars; kraft papers; adhesive kraft papers; adhesive release papers; adhesive papers; paper stationery; notebooks; adhesive note papers; note papers; adhesive labels of paper; paper labels for bar codes; adhesive tapes for stationery or household purposes; self-adhesive tapes for stationery or household purposes; removable adhesive tapes for stationery or household purposes; masking tape for stationery or household purposes; gummed tape for stationery or household use; adhesive handicraft tapes for stationery or household purposes; adhesive washi tapes for stationery or household purposes; stickers (stationery); decorative stickers; removable decorative stickers of washi; adhesive bands for stationery or household purposes; adhesive tape dispensers (office requisites); writing implements (writing instruments); mechanical pencils; ball pens; rubber erasers; modelling materials; books; periodicals; paintings and calligraphic works; paper wipes for cleaning; tissues of paper for removing make-up; bags (envelopes, pouches) of paper or plastics, for packaging; absorbent sheets of paper or plastic for foodstuff packaging; wrapping paper; double-sided adhesive tapes for household use; washi (Japanese paper) for decoration; release papers applied with adhesive agents; release paper; adhesive tapes made of paper; double-sided adhesive tapes for office use; removable tapes for envelopes; adhesive tapes for handicraft work; printed decorative papers; party ornaments of paper; peelable adhesive tapes for stationery and household purposes for use in decorating walls, ceilings, floors, window-panes, furniture, lighting and electric appliances for household purposes, automobiles and bicycles.

Class 17:
Unprocessed and semi-processed rubber, gutta-percha, gum, asbestos, mica and substitutes for all these materials; plastics and resins in extruded form for use in manufacture; packing [cushioning, stuffing] materials of rubber or plastics; flexible pipes, tubes and hoses, not of metal; raw or partly processed mica; valves of rubber or vulcanized fiber; gaskets; junctions for pipes, not of metal; joint packings; floating anti-pollution barriers; insulating waterproofing membranes used for marine pollution control; electrical insulating materials; insulating materials; thermal insulating materials, not for buildings; sound proofing materials; padding materials of rubber or plastics; electrical insulating tapes; electrical insulating rubber products; insulation sealing materials; insulating varnish; washers of rubber or vulcanized fiber; plastic fiber, not for textile use; rock wool; slag wool; rubber thread and covered rubber yarn, not for textile use; plastic yarn and thread, not for textile use; rubber cords and laces; industrial packaging containers of rubber; shock-absorbing buffers of rubber; rubber stoppers; rubber lids and caps for industrial packaging containers; plastic films for agricultural purposes; condenser paper; vulcanized fiber; semi-processed plastics; adhesive-coated plastic sheets for use in manufacture; plastic sheets with reflective base material; semi-processed plastics in the form of foams, for filtration; semi-processed plastics in the form of films and membranes, for filtration; porous plastics, semi-processed, for filtration; plastic film, other than for wrapping; plastic films for surface protection; adhesive-coated plastic films and sheets; light-proof plastic films; light-proof plastic films for use on windows; plastic films and plates for use in manufacture of light extraction films and light guide plates; heat-shielding plastic films for use on windows; ultra-violet-shielding plastic films; self-adhesive plastic films for use with optical instruments; self-adhesive fluorine resin sheets; polymeric porous films; laminated plastics, semi-processed, for filtration; porous plastics, semi-processed, for use with pressure control valves; breathable plastic sheets, not for wrapping; semi-processed plastics in the form of foams; thermal peelable plastic sheets; plastic films for use in the manufacture of dust removal mats; polymeric films for use in the manufacture of electric circuits; semi-processed plastics for use as damping materials; foamed plastic filling materials, not for building purposes; heat-insulating plastic films and sheets, not for wrapping; epoxy resin films, semi-processed, for surface coating; semi-processed plastics in a form of self-adhesive gel sheets containing fluorescent substances; insulating sheets of polyimide resin; polarization films and sheets of plastic; polarization films for liquid crystal displays; magnet-embedded plastics in the form of sheets and films, semi-processed; semi-processed plastics in the form of foams and films for use in the manufacture of filter materials; plastic films and sheets, semi-processed, for decoration; plastic films and sheets, semi-processed, for use on walls; insulating plastic laminated boards; flexible plastic conduits, semi-processed, for plumbing purposes; porous membrane resin materials, semi-processed, for filters; semi-processed plastic in forms of films, membranes or sheets; semi-processed plastics for use as dust collecting and filtering materials; plastic films and flat membranes, semi-processed, for water purification; plastic films and flat membranes, semi-processed, for wastewater and sewage purification; fluoro rubber; rubber for use in manufacture; synthetic rubber; soundproofing materials of rock wool, not for building purposes; adhesive tapes, other than stationery and not for cosmetic, medical or household purposes; industrial adhesive tapes; self-adhesive tapes, other than stationery and not for cosmetic, medical or household purposes; removable industrial adhesive tapes; industrial masking tapes; adhesive bands, other than stationery and not for medical or household purposes; industrial adhesive tapes for hazard marking; adhesive tapes for surface protection; industrial adhesive

tapes for heat shielding; industrial adhesive tapes for water proofing; industrial adhesive tapes for dust proofing; industrial adhesive tapes for corrosion proofing; industrial adhesive tapes for repairing; industrial adhesive tapes for wind proofing; adhesive tapes for fixing semiconductor wafers; fluorine resin adhesive tapes for industrial use; conductive adhesive tapes for industrial use; moisture-proofing adhesive tapes for aircrafts; antirust adhesive tapes for aircrafts; industrial masking tapes for aircrafts; fire-proofing adhesive tapes for aircrafts; industrial adhesive tapes for binding harness; adhesive tapes for plumbing protection; adhesive tapes for marking and identification of section markings, corridor markings and traffic signs; masking tapes for use in painting; masking tapes for painting automobiles; masking tapes for printed circuit boards; polymeric porous adhesive tapes for industrial use; breathable adhesive tapes for industrial use; seals; pen-type chemical compositions for repairing tile joints; sealants for watertight, airtight, soundproofing and thermal insulation for electric home appliances; sealants for watertight, airtight, soundproofing and heat insulation for automobiles; sealing materials for repair, comprising an epoxy resin and curing agent; semi-processed fluorine resins; semi-processed synthetic resins; semi-processed plastics for manufacturing optical fibers; thermal insulating materials for footwear; plastic films for preventing dew condensation of windows; dust proofing sealants; shock-absorbing buffers of plastic; caulking materials; weatherstripping compositions; weatherstripping; insulating covers for industrial machinery; sheets or tapes made of rubber for soundproofing, sound absorption, vibration isolation, and vibration damping; vibration damping materials of rubber; sheets or tapes made of plastics for soundproofing, sound absorption, vibration isolation, and vibration damping; plastic semi-worked products for vibration damping; adhesive tapes for bundling; insulating paper; polarizing films or sheets made of synthetic resins; plastic films for manufacturing air filters; semi-finished foamed plastics or plastic films for manufacturing filter materials; plastic semi-worked products made of thermally curable resins; heat sensitive adhesive tapes for use in the process of manufacturing electronic parts such as semiconductor wafers; plastic semi-worked products with removable adhesive layers on their reverse surfaces; adhesive tapes for fixing semiconductors; silicone rubber; silicone semi-worked products; adhesive plastic sheets for use in manufacturing; plastic films with adhesive tape; radio wave absorption materials; electromagnetic shielding materials; radio wave absorption materials made of rubber; plastic semi-worked products for radio wave absorption; non-conducting materials for retaining heat; plastic films or plastic sheets for snow accretion prevention; plastic semi-worked products for snow accretion prevention; porous plastic films; plastic semi-worked products in porous or film form for filtration; filtering materials of semi-processed films of plastic; silicone sealants; polyurethane sealants; adhesive sealant compounds; sealant compounds for joints; static seals; adhesive tapes for hazard marking for industrial purposes; chemical fiber, not for textile use; slag wool (insulator); plastic sheeting for agricultural purposes; double-sided adhesive tapes other than stationery and those for household and medical purposes; adhesive tapes for waterproofing and dust proofing; adhesive tapes made of fluorine resin, not for cosmetic, medical, stationery or household purposes; air-permeable adhesive tapes for industrial purposes; adhesive packaging tapes, other than stationery and not for medical or household purposes; plastic semi-worked products; adhesive-processed plastic films; heat shielding and heat insulating plastic film sheets; filter materials consisting of foamed plastics or plastic film semi-finished products; plastic semi-worked products for vibration control, soundproofing, dustproofing, anticorrosion and waterproofing; films of resin for surface protection; sheets of synthetic resins coated with adhesives; films of synthetic resin; air-permeable plastic films; plastic semi-worked products laminated with materials, such as porous film made of PTFE (polytetrafluoroethylene) and woven fabric or felts, for use as filtering material; films of resin for surface protection of electronical and optical members; films of resin for surface protection of identification plates of resin; films of resin for surface protection of design metal sheets; films of resin for surface protection of metal sheets; films of resin for surface protection of printed board; plastic semi-worked products for use as vibration control reinforcement; plastic films for windows resistant to sunlight and heat; heat-resistant insulating laminated plastic plates suitable for use as substrates; plastic films coated with adhesive agents with optical function; raw gum; rubbers for vibration damping and soundproofing; rubber sheets for insulating purposes; asbestos boards; asbestos powder; plastic films for use in manufacturing; polarizing films for use in manufacturing liquid crystal displays; polarizing films for use in manufacturing flat panel displays; thermally-peelable adhesive sheets for use in manufacturing electronic devices; sealant compounds for joints for waterproofing, airtightness, dustproofing and anticorrosion; filling putty for repairing water leakage; pen-type putty for repairing tile joints; construction material fixing tape; adhesive tapes for building.

Class 19:
Materials, not of metal, for building and construction; rigid pipes, not of metal, for building; asphalt, pitch, tar and bitumen; transportable buildings, not of metal; monuments, not of metal; building panels, not of metal; wall panels, not of metal; wall boards, not of metal; floors, not of metal; ceiling boards, not of metal; buildings, transportable, not of metal; windows, not of metal; window frames, not of metal; non-metallic minerals for building or construction; wall tiles, not of metal; ceramic building materials, bricks and refractory products; plastic building materials; synthetic building materials; asphalt, and asphalt building or construction materials; rubber building or construction materials; plaster for building purposes; lime building or construction materials; building or construction materials of plaster; plastic tiles; plastic pipes for plumbing purposes; buildings, not of metal; erosion control mats integrating plants seeds; road and field marking sheets and strips; road marking sheets and strips; cement and its products; building timber; building stone; building glass; paint spraying booths, not of metal; water-pipe valves, made of cement mortar or concreate; road signs, not of metal, non-luminous and non-mechanical; beacons, not of metal and non-luminous; reservoirs, not of metal or plastics; transportable greenhouses, not of metal, for household use; plaster boards; slag; fittings for buildings of stone, concrete or ceramic material; plastic curing materials for building; heat-resistant sealants [building materials], bitumen-based or tar-based; non-slip membranes made of plastic for staircase.

Class 28:
Games, toys and playthings; video game apparatus; gymnastic and sporting articles; decorations for Christmas trees; supporters for athletic use; adhesive tapes for sports articles; racket grip tapes; grip tapes for baseball bats; grip tapes for

golf clubs; hand wraps for sports use; men's athletic supporters (sports articles); wrist guards (sports articles); wrist guards for athletic use; athletic supporters; dolls; cuddly toys; mascot dolls (toys or playthings); mascot dolls with straps; adhesive athletic supporters for sports; printed lottery tickets, other than toys.

Class 40:
Providing information relating to material treatment; recycling of waste and trash; air purification and treatment of water; printing services; food and drink preservation; custom assembling of materials for others; metal treating; processing of rubber; processing of plastics; plastic film treating; ceramic processing; paper treating; processing of cinematographic films; photographic enlarging; photographic printing; processing of photographic films; water treatment services; wastewater treatment; air freshening; air deodorizing; processing of chemicals; recycling of chemicals; boilermaking; fabric waterproofing; decontamination of hazardous materials; desalination of water; processing of chemical reagents; sorting and disposal of waste and trash; rental of machines and apparatus for treating textiles; rental of metal treating machines and tools; rental of machines and apparatus for processing foods or beverages; rental of machines and apparatus for pulp-making, papermaking or paper-working; rental of water purifying apparatus; rental of water filters; rental of waste compacting machines and apparatus; rental of waste crushing machines and apparatus; rental of chemical processing machines and apparatus; rental of glassware manufacturing machines and apparatus; rental of heating apparatus; rental of air-conditioning apparatus; rental of humidifiers; rental of air purifiers; rental of power generators; rental of printing machines and apparatus; rental of boilers; custom purification, synthesis, and manufacture of pharmaceuticals, agricultural preparations and veterinary preparations; custom extraction, purification, synthesis, manufacture or preparation of pharmaceuticals, agricultural preparations, veterinary preparations, industrial chemicals, and their active pharmaceutical ingredients; processing of medicinal materials; custom manufacture of pharmaceuticals; processing of raw materials for the manufacture of food and beverages; food processing; treatment for removing impurities from food and beverages; providing information relating to water treating services; water recycling and desalination services; treatment and processing of plastic materials.

Class 42:
Computer-aided industrial design, research, testing and analysis services; design and development of computer hardware and software; designing of machines, apparatus, instruments (including their parts) or systems composed of such machines, apparatus and instruments; designing of water treatment equipment; designing of electric wires; design services; computer software design; computer programming; maintenance of computer software; computer system design; software as a service (SaaS); platform as a service (PaaS); cloud computing; electronic data storage; technological advice relating to computers, automobiles and industrial machines; testing, inspection or research of pharmaceuticals, cosmetics or foodstuffs; testing, inspection or research of cells and tissue cultures; research, development, testing and inspection in the field of manufacturing and applications of plastics; research, development, testing and inspection in the field of water treatment; water analysis; water quality control services; monitoring of water quality; underwater exploration; marine, aerial and land surveying; analysis, control and monitoring of air quality; chemical analysis; quality control; styling (industrial design); testing, calibration and inspection of filters; environmental monitoring services; research and development of new products for others; research on building construction or city planning; testing or research on prevention of pollution; testing or research on electricity; testing or research on civil engineering; environmental protection analysis and research; material inspection and evaluation by analytical instruments and physical property evaluation; testing, inspection and research services in the fields of agriculture, livestock breeding and fisheries; testing or research on machines, apparatus and instruments; rental of measuring apparatus; rental of computers; providing computer programs on data networks; rental of laboratory apparatus and instruments; rental of technical drawing instruments; research and development of medical technology; rental of measuring machines and instruments; design of desalination facilities; design of water treatment facilities; materials testing and analyzing; technical research projects and studies; research in the field of environmental conservation and protection; industrial research and design services; environmental testing services to detect contaminants in water; environmental analysis, investigation and research; environmental assessment services; providing technological information about environmentally conscious and green innovations; engineering services of metalworking machines, plastic working machines, and electronic machines and parts thereof; mechanical engineering services; research and development of new products for third parties in the field of plastic materials; rental of scientific microscopes.

Office of Origin: TR

Date of International Registration: 11 June 2024
Date of Designation in the UK: 09 October 2026

NISHANE

Class 3:
Bleaching and cleaning preparations, detergents other than for use in manufacturing operations and for medical purposes, laundry bleach, fabric softeners for laundry use, stain removers, dishwasher detergents; perfumery; non-medicated cosmetics; fragrances; deodorants for personal use and animals; soaps; dental care preparations: dentifrices, denture polishes, tooth whitening preparations, mouth washes, not for medical purposes; abrasive preparations; emery cloth; sandpaper; pumice stone; abrasive pastes; polishing preparations for leather, vinyl, metal and wood, polishes and creams for leather, vinyl, metal and wood, wax for polishing.

Office of Origin: DK

Date of International Registration: 08 September 2026
Date of Designation in the UK: 08 September 2026

ELOME

International priority date claimed: 09 March 2026 (DK) (VA 2026 00383)

Class 3:
Shaving preparations; depilatory preparations; hair, body and skincare products; cosmetic creams; lotions; essential oils for fragrancing, skin care and cosmetic use; cosmetics; soap; gels; fragrances; washing-up detergent; substances for laundry use; cleansing wipes; detergents; air fragrance reed diffusers; scented potpourris; fragrance refills for non-electric room fragrance dispensers.

Class 4:
Perfumed candles; scented candles.

Class 8:
Razor blades; razor knives; razor cases; razors; scissors; hair clippers; nail clippers.

ValvolutionX

International priority date claimed: 18 May 2026 (EM) (019366031)

Class 7:
Machine parts, namely high pressure valves and highest pressure valves; machine parts, namely shutter valves; machine parts, namely flow switches; pressure-regulating valves as machine components; machine parts, namely pressure reducers; machine parts, namely safety valves; check valves [being parts of machines]; machine parts, namely pneumatically operated valves; machine parts, namely hydraulically operated valves; machine parts, namely valves for gases and liquids; machine parts, namely valves for hydrogen applications; fittings being parts of machines or engines for high pressure systems; machine parts, namely components for hydraulic and pneumatic high pressure installations; all the aforesaid goods for industrial high pressure and hydrogen applications; shutter valves; check valves.

Class 11:
Valves for controlling and distributing gases and liquids; high pressure valves and highest pressure values for installations for gas and fluid distribution; pressure relief valves for the control and distribution of gases and fluids; pressure release valves for the control and distribution of gases and fluids; safety valves for the control and distribution of gases and fluids; valves for hydrogen installations; fittings for high pressure installations; parts and fittings of the aforesaid; all the aforesaid goods for industrial high pressure and hydrogen applications.

eMACH.ai

Class 9:
Downloadable mobile application, mobile application software, downloadable mobile applications for the management of data, downloadable mobile applications for the management of information, downloadable mobile applications for the transmission of information, downloadable mobile applications for the transmission of data, computer software of all kinds, including software, computer software, programme, reproduction, processing, transmitting, logging, recording, storing, portal and internet access devices, telecommunication apparatus and equipments, visual and data converters, computing hardwares and data processors and reproducers including those relating to banking and monetary transactions (term considered too vague by the International Bureau pursuant to Rule 13 (2) (b) of the Regulations); computer programs and softwares including their tools and including those relating to but not limited to banking and monetary transactions, money credit management, account management, information and data dissemination, storing and processing; coin handling apparatus all being in relation to banking,

financial, insurance goods included in class 09 (term considered too vague by the International Bureau pursuant to Rule 13 (2) (b) of the Regulations).

Class 36:
Financial transaction and payment services, exchanging money, electronic funds transfer, processing of credit card and debit card payments, issuance of travellers' cheques; financial management and research; financial appraisals, cheque verification; financing and credit services, loans, issuance of credit cards, hire- or lease-purchase financing; crowdfunding; safe deposit services; financial sponsorship; insurance underwriting, actuarial services; brokerage services, securities, insurance, financial, monetary and banking services, financial trading, financial sponsoring, financial transactions, financial research, financial studies, financial assistance, financial clearing, financial management, financial leasing, financial information, financial guardianship, financial underwriting, financial lending, financial assessments, financial evaluations, financial advice, financial consultancy, financial exchange, financial analysis, financial affairs, financial forecasting, financial affairs, financial banking, financial planning, financial securities, financial appraisals, financial valuations, financial brokerage, financial investments, financial management of financial assets, financial management of financial affairs, insurance financial administration, insurance financial management, financial trading services, financial advice services, computerized financial services, providing financial guarantees, financial risk assessment, providing financial grants, financial investment management, financial planning consultancy, financial loan consultation, fiduciary financial management, trustee financial management, financial feasibility studies, financial restructuring services, financial evaluation services, financial guaranty services, financial portfolio management, arranging financial transactions, personal financial planning, financial risk management, financial economic analysis, financial fund management, financial trust planning, financial investment brokerage, financial research services, financial investigation services, financial intermediary services, financial information processing, financial clearing services, organizing financial collections, insolvency services, financial payment services, financial savings services, providing financial information, computerized financial analysis, financial loss management, financial credit services, financial loan services, financial asset management, financial nominee services, financial valuation services, financial solvency investigations, financial data analysis, providing financial information online, financial and fiscal evaluations, financial database services, financial information retrieval services, personal financial banking services, financial strategy consultancy services and other financial services included in class 36 (term considered too vague by the International Bureau pursuant to Rule 13 (2) (b) of the Regulations).

Class 42:
Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software, services of engineers and scientists who undertake evaluations, estimates, research and reports in the scientific and technological fields, including technological consultancy, computer and technology services for securing computer data and personal and financial information and for the detection of unauthorized access to data and information, software as a service (saas), platform as a service (paas) all being in relation to banking, financial, insurance services included in class 42.

POWERING THE WAY THE WORLD MOVES

International priority date claimed: 15 October 2025 (US) (99444682)

Class 7:
Fuel dispensers, and parts therefor, for service stations and fueling stations; vacuum pump system for vapor recovery for fuel dispensers incorporating vapor pumps, fuel dispensing nozzles, fuel dispenser hoses and electronic controllers to recover vapors that are emitted from a vehicle's gas tank during fueling; submersible pumps; pumps for pumping vehicle fuel from fuel storage tanks; machine parts, namely, intake screens for submersible pumps for blocking particles in fuel storage tanks from entering the pumps; vapor vacuum pumps for use in vapor recovery systems for fuel dispensing sites; fuel filtering and conditioning systems used for removing water, particulate, and other contaminants from fuel storage tanks, such systems comprised primarily of a fuel filtering and conditioning apparatus, a programmable logic controller, fuel and water intake apparatuses, and hoses for fuel or water transfer; power tools, namely, air compressors, pneumatic power tools, namely, air wrenches, air ratchets, air grinders, air sanders, air drills, air hammers; electric drills and bits for electric drills; electric welding machines; welding torches; impact wrenches; hydraulic jacks; automatic fuel dispensing nozzles; automatic fueling nozzles; vacuum breakers, namely, pressure relief valves used with fuel dispensing systems.

Class 9:
Computer hardware; downloadable computer operating system software for electronic payment terminals; recorded computer operating system software for electronic payment terminals; downloadable computer software for vehicle fueling stations for managing fuel inventory, sales transactions, fuel pricing, and proper functioning of fueling station equipment; downloadable computer software for authorizing and paying for fuel transactions; downloadable computer software for monitoring of car wash operations, and for providing statistical information concerning car wash operations; downloadable computer software for fleet vehicle tracking and vehicle status, for analyzing fleet vehicle data, for vehicle navigation, and for communicating with vehicle drivers; point-of-sale terminals; point-of-sale systems for service stations and convenience stores consisting of computer hardware, printers, display screens and computer software for controlling and monitoring fuel dispensing systems, payment authorization terminals, electronic cash registers, underground fuel storage containers, car wash machinery, video security systems, lottery terminals, and electronic safes; electronic personal identification number (PIN) pads; secure terminals for electronic transactions; electronic transaction terminals; self-checkout terminals; electronic card readers; bar code readers; contactless electronic payment terminals; computer servers; computer servers, namely, electronic payment servers; media server with embedded software for use with fuel dispensers, which enables fueling stations to advertise and merchandise products and services, and enables customers to order products and services and access the internet from fuel dispensers; self-service electronic food ordering systems consisting primarily of electronic display screens, printers, and interactive kiosks for ordering food; electronic control apparatus for controlling and authorizing the operation of fuel dispensers; forecourt controllers, being electronic control units, for petrol and vehicle fueling stations; electric sensors; radio-frequency identification (RFID) tags; radio-frequency identification (RFID) readers; vehicle identification systems consisting of cameras, sensors, wireless transmitters, antennas, computers, radio-frequency identification (RFID) readers, and wireless routers, for authorizing and tracking vehicle refueling; cash registers; video display units and screens; flow meters for use with fuel dispensers; electronic display screens for fuel dispensers; document printers for fuel dispensers; automatic tank gauges; sensors for fuel line leak detection; leak detectors for fuel lines; liquid level sensors; measuring probes for measuring inventory levels in fuel storage tanks; measuring probes for measuring fuel density in fuel storage tanks; float assembly in the nature of detecting apparatus for use with fuel storage

tank electronic probes, for detection of water and ethanol phase separation in gasoline storage tanks; sensors for measuring water and/or fuel in fuel dispenser pans and containment sumps; sensors for detecting leaks in fuel dispenser pans and containment pans; sensors for detecting leaks in fuel storage tanks; sensors for detecting hydrocarbons in the water table; sensors for detecting hydrocarbon vapors in dry monitoring wells; electronic devices for wirelessly transmitting data from automatic tank gauges using radio frequency technology; vapor flow sensors; vapor pressure sensors; electronic vapor recovery controllers; electronic proportioning valves for vapor recovery from fuel dispensers; vapor flow meters; electronic meter register displays; interconnect boxes for electronic meter register systems, namely, an electronic device consisting primarily of a circuit board, operational software, and wire connectors for power and data; meter registers for use with fluid flow meters; gasoline pump computers; electric pulse transmitters; electronic apparatus, namely, communication hubs and data multiplexers for communicating and distributing electronic data between point-of-sale (POS) systems and fuel dispensers; electronic controllers for communicating and distributing data between point-of-sale (POS) systems and fuel dispensers; battery charging devices for motor vehicles; charging stations for electric vehicles; battery energy storage systems comprised of electric batteries, embedded switching controllers for controlling the operation of cells in the batteries, electronic circuits, and embedded software for operating and controlling the switching controllers and the energy storage systems, all sold as a unit; electric control devices for energy management; computer hardware for car wash installations; programmable electric controller for tunnel car washes; electronic apparatus for the control of car washes; wireless automatic authorization units, namely, radio-frequency identification (RFID) tags and readers, for use with commercial car wash facilities; automotive license plate recognition system comprised primarily of cameras, mounting devices for photographic equipment, and downloadable software for computerized recognition of automotive license plates; battery chargers for tool batteries; clothing and headwear for protection against accidents, injury, and fire; welding helmets; battery testers; radio transceivers and antennas; GPS tracking devices.

Class 35:
Electronic catalog ordering service featuring replacement parts for fuel dispensers; advertising, business administration and business management services; business administration and management services relating to automated payment processing systems, electronic funds transfer systems, and point of sale payment systems for petrol and other vehicle fueling stations; collection and analysis of quality metric data for the convenience store and retail fueling industries, for business purposes; data processing services; wholesale store services featuring computer software and hardware, electronic transaction terminals, outdoor payment terminals, point of sale terminals, forecourt controllers being electronic apparatus and computer hardware for controlling and monitoring vehicle fueling station equipment, electrical and electronic apparatus, cash registers, magnetic data carriers, magnetically encoded cards, integrated circuit cards, transaction cards, smart cards, video display units and screens; tracking and monitoring energy consumption for others for billing purposes; billing services in the fields of electric vehicle charging and energy management; online retail store services featuring power tools, hand tools, protective clothing, automotive repair tools, tool storage boxes and cabinets, and automotive diagnostic equipment.

Class 36:
Financial services in relation to petrol and other vehicle fueling stations, namely, electronic funds transfer services, automated payment processing services, point of sale payment services, and credit and debit card transaction processing services; electronic transfer of funds; electronic funds transfer services; point of sale electronic payment processing services; payment processing services, namely, credit card and debit card transaction processing services; payment and funds verification services; financial analysis, namely, financial forecasting services relating to the cash flow of future car wash locations.

Class 37:
Installation, maintenance, and repair services for electric vehicle charging apparatuses and charging infrastructure; technical support services, namely, technical advice concerning the maintenance and repair of electric vehicle charging apparatuses and charging infrastructure; providing information and technical support services, namely, technical advice concerning the charging of electric vehicles.

Class 42:
Software as a service (SAAS) services featuring software for management of electric vehicle charging apparatuses and charging infrastructure; software as a service (SAAS) services featuring software for use with electric vehicle charging apparatuses and charging infrastructure, namely, for remote diagnostics, energy management, equipment scheduling, processing payments for vehicle charging sessions, and for collecting and reporting usage and utilization data; software as a service (SAAS) services featuring operating system software for electronic payment terminals; providing online, non-downloadable software for vehicle fueling station operators for forecasting fuel needs and scheduling fuel deliveries, for fuel purchasing, for fuel delivery tracking and logistics, and for electronically communicating with fuel truck drivers; providing online non-downloadable software for use by convenience stores and vehicle fueling stations for configuring and monitoring equipment door sensors and alarms to prevent theft and equipment tampering, and for monitoring and controlling convenience store and vehicle fueling station equipment in order to prevent theft, vandalism, and unauthorized access; providing online, non-downloadable software for fuel retailers and fuel servicing organizations for controlling, programming, managing, monitoring and interacting with fuel dispensers; providing online, non-downloadable software for managing and processing payments made via fuel dispensers; providing online, non-downloadable software for mobile device users for interacting remotely with fuel dispensers; providing online, non-downloadable content management software for transmitting advertising to and managing advertising on fuel dispenser screens; providing online, non-downloadable software for managing loyalty programs on fuel dispensers; providing online, non-downloadable software for monitoring, configuring, and controlling service station point-of-sale systems; providing online non-downloadable software that enables operators of fueling stations and fuel dispensing equipment to monitor, analyze data from, configure, and control automatic tank gauges, and for managing and analyzing fuel inventory, and for fuel flow monitoring, and for alarm reporting, and for collecting, storing and reporting

environmental compliance test results at fueling stations; providing on-line non-downloadable software for electric vehicle network operators and providers for electric vehicle charging operations, for monitoring and optimizing electric vehicle charging networks, for electric vehicle charging network management, for managing and optimizing electric vehicle charging, for electric vehicle charging billing, and for providing white labeled mobile applications and white labeled web applications with information, route planning, and mapping all pertaining to electric vehicle charging; providing on-line non-downloadable energy management software for use with electric vehicle charging operations; providing on-line non-downloadable software for forecasting and managing energy usage associated with electric vehicle charging operations; providing on-line non-downloadable artificial intelligence software for optimizing energy usage associated with electric vehicle charging operations; providing on-line non-downloadable software for use with point of sale (POS) systems for marketing automation; providing on-line non-downloadable software for monitoring, controlling, and configuring car wash operations equipment; providing on-line non-downloadable software for marketing of car wash operations, for monitoring and analyzing car wash operations data, and for customer relationship management (CRM); providing on-line non-downloadable software for vehicle and fleet vehicle management, namely, monitoring, tracking, and navigating vehicles and fleet vehicles; providing on-line non-downloadable software for vehicle and fleet vehicle management, namely, diagnostics of vehicle performance data, driver performance data, and driver behavior; providing on-line, non-downloadable content management software for fueling stations and convenience stores; machine condition monitoring services; testing of fuel dispensing equipment, fueling station equipment, and fuel management equipment; monitoring fuel storage tanks and fuel lines to ensure proper functioning, and reporting performance; providing online non-downloadable software for ordering replacement parts for fuel dispensers, and for providing visual renderings of and information about fuel dispensers and fuel dispenser parts; providing online, non-downloadable software for operating point of sale (POS) systems, for payment processing, and for providing data analytics; providing online, non-downloadable software for monitoring, management, and control of fuel dispensers and electronic payment terminals; providing online, non-downloadable software for convenience store and fueling station operators for management and monitoring of convenience store equipment and fueling station equipment; providing online, non-downloadable software for fuel management at fueling locations; providing online, non-downloadable software for use with fueling stations for monitoring fuel tanks, fuel lines, sensors, and automatic tank gauges, for dispatching repair technicians, and for fuel storage reporting and compliance; remote monitoring of the functioning and use of electric vehicle charging apparatuses and charging infrastructure; technical support services, namely, diagnosing problems with electric vehicle charging apparatuses and charging infrastructure; technical support services in the nature of troubleshooting of computer software problems pertaining to software relating to electric vehicle charging, provided by means of a call center; providing on-line, non-downloadable content management software that enables fueling stations and convenience stores to advertise and merchandise products and services, and enables customers to order products and services and access the internet from fuel dispensers.

SHIMENG MO

Class 3:
Soap; cleaning preparations; polishing preparations; grinding preparations; cosmetics; dentifrices; incense; cosmetics for animals; air fragrancing preparations.

Class 5:
Vitamin preparations; medicines for human purposes; medicated sweets; food for babies; nutritional supplements; air purifying preparations; disinfectant wipes; babies' diapers; babies' diaper-pants; insect repellent incense.

Class 14:
Precious metals, unwrought or semi-wrought; jewellery for the head; wristwatches; shoe jewellery; jewellery findings; jewellery boxes; jewellery for women; clocks; jewellery; jewellery, precious stones.

Class 16:
Paper; stickers [stationery]; writing instruments; drawing boards; advertisement boards of paper or cardboard; floor decals; gift wrapping paper; ink; self-adhesive tapes for stationery or household purposes.

Class 18:
Imitation leather; school bags; suitcases; pouch baby carriers; trimmings of leather for furniture; umbrellas; walking sticks; leather leashes; bags for sports; handbags.

Class 20:
Nameplates, not of metal; bassinets; containers, not of metal [storage, transport]; decorations of plastic for foodstuffs; wood and bamboo handicrafts, for example bamboo curtains; works of art of wood, wax, plaster or plastic; head support cushions for babies; high chairs for babies; bumper guards for cots, other than bed linen; mats for infant playpens.

Class 21:
Baby baths, portable; scrubbing brushes; toothbrushes; cosmetic utensils; cloths for cleaning; utensils for household purposes; glass flasks [containers]; ceramics for household purposes; works of art of porcelain, ceramic, earthenware, terra-cotta, or glass; drinking vessels.

Class 24:
Cloth; adhesive fabric for application by heat; wall hangings of textile; felt; towels of textile; bedsheets; bed covers; diaper changing cloths for babies; bed linen; covers [loose] for furniture.

Class 25:

Bibs, sleeved, not of paper; layettes [clothing]; cyclists' clothing; waterproof clothing; dance costumes; sports shoes; caps being headwear; hosiery; sashes for wear; albs.

Class 26:
Edgings for clothing; trimmings for clothing; hair barrettes; buttons; false hair; sewing kits; artificial flowers; collar stays; heat adhesive patches for decoration of textile articles [haberdashery]; zip fasteners.

Class 27:
Carpets; mats; bath mats; floor coverings; door mats; non-slip mats; wallpaper; wall hangings, not of textile; automobile carpets; floor mats of rubber.

Class 29:
Meat; fish, not live; tinned meat; crystallized fruits; preserved vegetables; eggs; milk products; jellies for food; prepared nuts; dried edible black fungi.

Class 30:
Chocolate; cakes; cereal preparations; wheat flour; edible rice paper; peppers [seasonings].

Class 32:
Beer; fruit juices; soda water; non-alcoholic beverages; waters [beverages]; soft drinks; preparations for making non-alcoholic beverages; powders for effervescing beverages; syrups for beverages; vegetable juices [beverages].

Class 41:
Teaching; organization of competitions [education or entertainment]; multimedia library services; publication of books; providing amusement arcade services; zoological garden services; organization of lotteries; gymnastic instruction; entertainment services; translation.

FIRST IMPRESSION

International priority date claimed: 30 July 2025 (BX) (1530007)

Class 9:
Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded or downloadable media, computer software, blank digital or analogue recording and storage media; audiovisual equipment and systems; interactive displays, touchscreens, smart glass [LED]; digital screens, video walls, LED displays, LCD screens; sensors; interactive kiosks; self-service terminals; RFID readers and scanners, electronic identification and detection equipment, radio frequency data transmission peripherals; computer hardware for digital signage and content management; downloadable software for controlling, managing and distributing digital content; data processing, storage and transmission equipment.

Class 35:
Advice and implementation in the field of marketing and advertising via digital screens; production of promotional video tapes, video discs and audiovisual recordings; retail services relating to audiovisual equipment; wholesale services relating to audiovisual equipment; production of video recordings for advertising purposes; production of advertising films; production of advertising material; creation of advertising material; production of visual advertising matter; sound recordings (production of -) for advertising purposes;

production of video recordings for marketing purposes; compilation, production and dissemination of advertising matter; preparation of audiovisual presentations for use in advertising; business consultancy and support services in the field of digital signage, namely the development of advertising concepts, planning and business management of digital screen solutions for promotional purposes and to improve the customer experience for third parties; omnichannel marketing services; business consultancy related to customer experience in physical spaces; advice, consultancy and information regarding the aforementioned services; services in the field of marketing and promotion of brands through digital and audiovisual applications, digital signage and experience technology in stores, showrooms and other physical locations; the aforementioned services are also provided via the internet, apps and other forms of electronic or digital data transfer.

Class 37:
Installation of audiovisual equipment and digital signage systems; advisory services relating to the installation of audiovisual equipment; maintenance and repair of digital screens, av equipment and interactive installations; technical support for the assembly and installation of audiovisual equipment; advice, consultancy and information regarding the aforementioned services; the aforementioned services are also provided via the internet, apps and other forms of electronic or digital data transfer; installation of communication infrastructures for digital signage; installation of audiovisual equipment in physical environments; consultancy in the field of the physical installation of digital experience solutions and audiovisual technologies, including interactive displays, projection systems and sound installations.

Class 38:
Services for the transmission of data, images and sound via digital networks; narrowcasting of video images; transmission of videos, movies, pictures, images, text, photos, games, user-generated content, audio content, and information via the internet; transfer of data via audiovisual equipment; providing access to multimedia content on-line; transmission of user-generated content via the internet; transmission of messages, data and content via the internet and other communications networks; transmission of videos, films, photos, images, text, pictures, games, user-generated content, audio content, and information via the internet; on-premise digital content streaming services; advice, consultancy and information on the aforementioned services; the aforementioned services are also provided via the internet, apps and other forms of electronic or digital data transfer.

Class 41:
Creation of audiovisual content, animations, interactive applications and storytelling; video production; film and video tape film production; special effects animation services for film and video; post-production editing services in the field of music, videos and films; production of audiovisual recordings; rental of audiovisual recordings; audiovisual equipment (rental of -); production of video recordings; showing video recordings; editing of video recordings; audio and video recording services; video recording services; sound and video recordings (rental of -); production of sound and video recordings; providing automatic video recordings; sound and video recordings for educational purposes (production of -); film production, other than advertising films; entertainment services; sporting and cultural activities; rental of lighting equipment; rental of lighting apparatus for theatrical sets; stage lighting equipment (rental of -); production and presentation of audiovisual content at sporting events, entertainment performances and business exhibitions; rental and leasing of audiovisual equipment, including cameras, lenses, screens, recorders, playback, mixing and editing equipment, speakers, cabling and monitors for video, audio and television productions; training and education for users of av systems and digital signage; organization of events, shows and presentations for educational, recreational, sporting and cultural purposes; operation of audiovisual, lighting and sound equipment at events, shows and product presentations; sound engineering services for events; lighting technician services for events; the aforementioned services are also provided via the Internet, apps and other forms of electronic or digital data transfer.

Class 42:
Scientific and technological services and research and design relating thereto; design and development of computer hardware and software; software as a service (SaaS); platform as a service (PaaS); development, implementation and maintenance of software for digital signage and content management; technical design of audiovisual systems in physical environments; monitoring, remote management and IT support of AV installations; technical advice and consultancy in the field of design and development of digital experience solutions and audiovisual technologies, including interactive displays, projection systems and sound systems; advice, consultancy and information regarding the aforementioned services; the aforementioned services are also provided via the internet, apps and other forms of electronic or digital data transfer; installation of software for communication infrastructures for digital signage; monitoring of computer systems for communication infrastructures for digital signage to detect breakdowns.

Date of Designation in the UK: 27 May 2026

International priority date claimed: 03 December 2025 (EM) (019285835)
The mark contains the colour Yellow.

Class 1:
Chemical substances, chemical materials and chemical preparations; tempering and soldering preparations; chemical substances and solutions for deposition processes and for galvanising processes, galvanizing preparations; electrolytes, electrolyte solutions, plating baths and galvanising baths for separating metals and precious metals, in particular for separating gold, silver, rhodium, palladium, platinum (metal), ruthenium, nickel, copper or their alloys.

Class 5:
Alloys for dental, dental technology and medical technology purposes; composites for dental, dental technology and medical technology purposes; metal alloys for dental restoration purposes; ceramics and plastics for dental, dental technology and medical technology purposes; material for stopping teeth, sealing materials for dental and dental technology purposes; materials for preparing and processing models for dental and dental technology purposes; modelling material, namely dental waxes, embedding material, doubling material, fixing material and impression material for dental and dental technology purposes; conductive lacquers and thinners for conductive lacquers for dental technology purposes, surface lacquers for dental modelling materials, in particular for dental plasters; adhesives for dentistry and dental technical purposes; solvents for dental and dental technology purposes.

Class 7:
Electric polishing apparatus and parts and fittings for electric polishing apparatus; ultrasonic cleaning apparatus (in the form of industrial cleaning apparatus) and parts and fittings for ultrasonic cleaning apparatus, 3D printers; electro-plating apparatus; electrolysis apparatus for recycling precious and non-precious metals or alloys thereof, for galvanic processes, for jewellery, refining of precious metals or alloys thereof, for gold salt production, for separating precious metals and stones; ultrasonic cleaning apparatus for laboratory purposes.

Class 9:
Apparatus for scientific research and laboratories; measuring instruments; apparatus and instruments for measuring temperature; apparatus for electrolytic separation; electric and electronic apparatus for electrophoretic separation, included in this class; centrifuges and drying centrifuges for laboratory purposes; electric and electronic control and checking (supervision) equipment for the aforesaid goods; parts and accessories for the aforementioned goods; sensors, detecting apparatus and probes; software, including recorded or provided via the internet, for display and configuration, in particular 3d configuration, of blanks and semi-finished goods for making jewellery; data processing apparatus for dental purposes; computer programs (software and firmware) recorded on data carriers.

Class 10:
Medical-technical instruments and equipment; dental apparatus and instruments and dental apparatus and instruments; dental prostheses, false teeth, dental prostheses, dental implants, dental bridges, dental crowns; polishing units, related parts and related accessories for dental purposes; ultrasonic cleaning apparatus and parts and fittings therefor in the form of medical cleaning apparatus; scanners, in particular 3D scanners, image-processing apparatus and CAD/CAM processing apparatus for dental purposes.

Class 14:
Precious metals and their alloys; unprocessed and semi-processed materials made from precious metals and alloys thereof, namely bars, circular blanks, bands, sheets, wire, pipes, sectional pipes, rings, profile rings, poles and rods, in particular for manufacturing coins, circulation coins, collectible coins and jewellery, clocks and technical apparatus and coatings; articles of precious metal and their alloys, namely coins, circulation coins and collectible coins; precious stones, pearls and imitations thereof; jewellery; rings [jewellery]; rings (jewellery), in particular wedding rings, of precious or common metals or their alloys.

Class 35:
Advertising, marketing and promotional services; business management; business administration; wholesale service, retail services and mail order retail services, being provided online, in relation to chemical substances, chemical materials and chemical preparations; wholesale service, retail services and mail order retail services, being provided online, in relation to alloys for dental, dental technology and medical technology purposes; wholesale services and retail services, and mail order retail services, also via the Internet, in relation to the following goods: ceramics and materials of plastic for dental purposes, for dental technical purposes and for technical medical purposes, materials for filling teeth, teeth filling

materials and sealing materials for dental and dental technical purposes; wholesale service, retail services and mail order retail services, being provided online, in relation to materials for preparing and processing models for dental and dental technology; wholesale service, retail services and mail order retail services, being provided online, in relation to adhesives for dental and dental technology purposes and solvents for dental and dental technology purposes; wholesale services and retail services, and mail order retail services, also via the Internet, in relation to the following goods: common metals and their alloys, copper and copper alloys, unprocessed and semi-processed materials made from the aforesaid metals and alloys, namely bars, circular blanks, bands, sheets, wire, pipes, sectional pipes, rings, profile rings, poles and rods, in particular for manufacturing coins, circulation coins, collectible coins and jewellery, clocks and technical apparatus and coatings and welding and brazing materials; wholesale service, retail services and mail order retail services, being provided online, in relation to scientific research and laboratory apparatus, measuring instruments and apparatus and instruments for measuring temperature; wholesale service, retail services and mail order retail services, being provided online, in relation to apparatus for electrolytic separation, galvanising apparatus, electrolytic polishing apparatus, electric polishing apparatus, electrolysing apparatus and electric and electronic apparatus for electrophoretic separation; wholesale service, retail services and mail order retail services, being provided online, in relation to centrifuges and drying centrifuges for laboratory purposes and ultrasonic cleaning apparatus; wholesale services and retail services, and mail order retail services, also via the Internet, in relation to the following goods: electric and electronic control and inspection equipment, sensors, detectors and probes, software, including being recorded or provided via the Internet, electric and electronic apparatus for dental purposes, data-processing apparatus and computer programs recorded on data carriers; wholesale service, retail services and mail order retail services, being provided online, in relation to furnaces, ceramic kilns, sintering furnaces, smelting furnaces and water treatment apparatus; wholesale services and retail services, and mail order retail services, also via the Internet, in relation to the following goods: precious metals and alloys thereof, unprocessed and semi-processed materials made from precious metals and alloys thereof, namely bars, circular blanks, bands, sheets, wire, pipes, sectional pipes, rings, profile rings, poles and rods, in particular for manufacturing coins, circulation coins, collectible coins and jewellery, clocks and technical apparatus and coatings, articles made of precious metals and their alloys, namely precious stones, pearls and imitations thereof, jewellery, jewellery and rings being jewellery.

Class 36:
Investment services.

Class 40:
Treatment of materials, namely metal casting, metal plating, gilding, silver plating, engraving, embossing, custom 3D printing for others; recycling, in particular of metals and precious metals; galvanization, surface galvanisation; coating services, namely chemical coatings, electrodeposition, coating of surfaces, CVD (chemical vapour deposition) coating and PVD (physical vapour deposition) coating; engraving, in particular engraving of jewellery and coin engraving, embossing, in particular coin minting.

International priority date claimed: 03 December 2025 (EM) (019285838)
The mark contains the colours blue, yellow and white.

Class 1:
Chemical substances, chemical materials and chemical preparations; tempering and soldering preparations; chemical substances and solutions for deposition processes and for galvanising processes, galvanizing preparations; electrolytes, electrolyte solutions, plating baths and galvanising baths for separating metals and precious metals, in particular for separating gold, silver, rhodium, palladium, platinum (metal), ruthenium, nickel, copper or their alloys.

Class 5:
Alloys for dental, dental technology and medical technology purposes; composites for dental, dental technology and medical technology purposes; metal alloys for dental restoration purposes; ceramics and plastics for dental, dental technology and medical technology purposes; material for stopping teeth, sealing materials for dental and dental technology purposes; materials for preparing and processing models for dental and dental technology purposes; modelling material, namely dental waxes, embedding material, doubling material, fixing material and impression material for dental and dental technology purposes; conductive lacquers and thinners for conductive lacquers for dental technology purposes, surface lacquers for dental modelling materials, in particular for dental plasters; adhesives for dentistry and dental technical purposes; solvents for dental and dental technology purposes.

Class 7:
Electric polishing apparatus and parts and fittings for electric polishing apparatus; ultrasonic cleaning apparatus (in the form of industrial cleaning apparatus) and parts and fittings for ultrasonic cleaning apparatus, 3D printers; electro-plating apparatus; electrolysis apparatus for recycling precious and non-precious metals or alloys thereof, for galvanic processes, for jewellery, refining of precious metals or alloys thereof, for gold salt production, for separating precious metals and stones; ultrasonic cleaning apparatus for laboratory purposes.

Class 9:
Apparatus for scientific research and laboratories; measuring instruments; apparatus and instruments for measuring temperature; apparatus for electrolytic separation; electric

and electronic apparatus for electrophoretic separation, included in this class; centrifuges and drying centrifuges for laboratory purposes; electric and electronic control and checking (supervision) equipment for the aforesaid goods; parts and accessories for the aforementioned goods; sensors, detecting apparatus and probes; software, including recorded or provided via the internet, for display and configuration, in particular 3d configuration, of blanks and semi-finished goods for making jewellery; data processing apparatus for dental purposes; computer programs (software and firmware) recorded on data carriers.

Class 10:
Medical-technical instruments and equipment; dental apparatus and instruments and dental apparatus and instruments; dental prostheses, false teeth, dental prostheses, dental implants, dental bridges, dental crowns; polishing units, related parts and related accessories for dental purposes; ultrasonic cleaning apparatus and parts and fittings therefor in the form of medical cleaning apparatus; scanners, in particular 3D scanners, image-processing apparatus and CAD/CAM processing apparatus for dental purposes.

Class 14:
Precious metals and their alloys; unprocessed and semi-processed materials made from precious metals and alloys thereof, namely bars, circular blanks, bands, sheets, wire, pipes, sectional pipes, rings, profile rings, poles and rods, in particular for manufacturing coins, circulation coins, collectible coins and jewellery, clocks and technical apparatus and coatings; articles of precious metal and their alloys, namely coins, circulation coins and collectible coins; precious stones, pearls and imitations thereof; jewellery; rings [jewellery]; rings (jewellery), in particular wedding rings, of precious or common metals or their alloys.

Class 35:
Advertising, marketing and promotional services; business management; business administration; wholesale service, retail services and mail order retail services, being provided online, in relation to chemical substances, chemical materials and chemical preparations; wholesale service, retail services and mail order retail services, being provided online, in relation to alloys for dental, dental technology and medical technology purposes; wholesale services and retail services, and mail order retail services, also via the Internet, in relation to the following goods: ceramics and materials of plastic for dental purposes, for dental technical purposes and for technical medical purposes, materials for filling teeth, teeth filling materials and sealing materials for dental and dental technical purposes; wholesale service, retail services and mail order retail services, being provided online, in relation to materials for preparing and processing models for dental and dental technology; wholesale service, retail services and mail order retail services, being provided online, in relation to adhesives for dental and dental technology purposes and solvents for dental and dental technology purposes; wholesale services and retail services, and mail order retail services, also via the Internet, in relation to the following goods: common metals and their alloys, copper and copper alloys, unprocessed and semi-processed materials made from the aforesaid metals and alloys, namely bars, circular blanks, bands, sheets, wire, pipes, sectional pipes, rings, profile rings, poles and rods, in particular for manufacturing coins, circulation coins, collectible coins and jewellery, clocks and technical apparatus and coatings and welding and brazing materials wholesale service, retail services and mail order retail services, being provided online, in relation to scientific research and laboratory apparatus, measuring instruments and apparatus and instruments for measuring temperature; wholesale service, retail services and mail order retail services, being provided online, in relation to apparatus for electrolytic separation, galvanising apparatus, electrolytic polishing apparatus, electric polishing apparatus, electrolysing apparatus and electric and electronic apparatus for electrophoretic separation; wholesale service, retail services and mail order retail services, being provided online, in relation to centrifuges and drying centrifuges for laboratory purposes and ultrasonic cleaning apparatus; wholesale services and retail services, and mail order retail services, also via the Internet, in relation to the following goods: electric and electronic control and inspection equipment, sensors, detectors and probes, software, including being recorded or provided via the Internet, electric and electronic apparatus for dental purposes, data-processing apparatus and computer programs recorded on data carriers; wholesale service, retail services and mail order retail services, being provided online, in relation to furnaces, ceramic kilns, sintering furnaces, smelting furnaces and water treatment apparatus; wholesale services and retail services, and mail order retail services, also via the Internet, in relation to the following goods: precious metals and alloys thereof, unprocessed and semi-processed materials made from precious metals and alloys thereof, namely bars, circular blanks, bands, sheets, wire, pipes, sectional pipes, rings, profile rings, poles and rods, in particular for manufacturing coins, circulation coins, collectible coins and jewellery, clocks and technical apparatus and coatings, articles made of precious metals and their alloys, namely precious stones, pearls and imitations thereof, jewellery, jewellery and rings being jewellery.

Class 36:
Investment services.

Class 40:
Treatment of materials, namely metal casting, metal plating, gilding, silver plating, engraving, embossing, custom 3D printing for others; recycling, in particular of metals and precious metals; galvanization, surface galvanisation; coating services, namely chemical coatings, electrodeposition, coating of surfaces, CVD (chemical vapour deposition) coating and PVD (physical vapour deposition) coating; engraving, in particular engraving of jewellery and coin engraving, embossing, in particular coin minting.

International priority date claimed: 30 January 2026 (US) (99626093)

Class 9:
Downloadable software development kits (SDK); downloadable software for creating artificial intelligence agents; downloadable software for building, testing, and deploying agentic applications; downloadable software for building, testing, and deploying agentic applications to integrate with APIs, model context protocol (MCP) servers, other agentic protocol servers or tools, and other artificial intelligence (AI) applications, tools and systems; downloadable software for use in securing, managing and extending application programming interfaces (APIs), microservices, service meshes, and software functions; downloadable software for use in securing, managing and extending AI agents, agentic applications, MCP servers, other agentic protocol servers or tools, and other AI applications, tools and systems and related software and network traffic and data functions; downloadable software for use in creating and maintaining technical documents, API documentation, onboarding software, and generating sample code; downloadable software for use in monitoring, visualizing and inspecting application API, microservices and software functions traffic and data; downloadable software for use in monitoring, visualizing and inspecting AI agents, agentic applications, MCP servers, other agentic protocol servers or tools, and other AI applications, tools and systems and related software and network traffic and data functions; downloadable software for orchestrating, configuring, securing, monitoring and logging network traffic and data within networks and software architectures; downloadable software for orchestrating, configuring, securing, monitoring and logging network traffic and data within and among AI agents, agentic applications, MCP servers, other agentic protocol servers or tools, and other AI applications, tools and systems and related software; downloadable software for use in securing, managing and extending APIs and microservices; downloadable software for use in software development; downloadable computer software development tools; downloadable computer software for use as an application programming interface (API); downloadable computer software using artificial intelligence (AI) for creating artificial intelligence agents; downloadable computer software using artificial intelligence (AI) for building, testing, and deploying agentic applications; downloadable computer software using artificial intelligence (AI) for building, testing, and deploying agentic applications to integrate with APIs, model context protocol (MCP) servers, other agentic protocol servers or tools, and other artificial intelligence (AI) systems; downloadable computer software using artificial intelligence (AI) for use in securing, managing and extending application programming interfaces (APIs), microservices and software functions; downloadable computer software using artificial intelligence (AI) for use in creating and maintaining technical documents, API documentation, onboarding software, and generating sample code; downloadable computer software using artificial intelligence (AI) for use in monitoring, visualizing and inspecting application API, microservices and software functions traffic and data; downloadable computer software using artificial intelligence (AI) for orchestrating, configuring, securing, monitoring and logging network traffic and data within networks and software architectures use in securing, managing and extending application programming interfaces (APIs) and microservices; downloadable computer software using artificial intelligence (AI) for orchestrating, configuring, securing, monitoring and logging network traffic and data within and among AI agents, agentic applications, MCP servers, other agentic protocol servers or tools, and other AI applications, tools and systems and related software; downloadable computer software using artificial intelligence (AI) for use in software development; downloadable e-books in the field of software development, application programming

interfaces (APIs), microservices, service meshes, and artificial intelligence; downloadable computer software for application and database integration.

Class 41:
On-line journals, namely, blogs featuring information in the field of software development, application programming interfaces (APIs), microservices, service meshes, and artificial intelligence; education services, namely, providing non-downloadable webinars in the field of software development, application programming interfaces (APIs), microservices, service meshes, and artificial intelligence; providing online non-downloadable publications in the nature of training materials in the field of software development, application programming interfaces (APIs), microservices, service meshes, and artificial intelligence; providing non-downloadable videos in the field of software development, application programming interfaces (APIs), microservices, service meshes, and artificial intelligence via a website; arranging and conducting of conferences in the field of software development, application programming interfaces (APIs), microservices, service meshes, artificial intelligence, and artificial intelligence network and software infrastructure and tools; education services, namely, providing live and on-line classes, seminars, and workshops in the field of software development, application programming interfaces (APIs), microservices, service meshes, artificial intelligence, and artificial intelligence network and software infrastructure and tools.

Class 42:
Providing temporary use of online non-downloadable software development kits (SDKs); design and development of artificial intelligence (AI) software; software as a service (SAAS) services featuring software for creating artificial intelligence agents; software as a service (SAAS) services featuring software for use in securing, managing and extending application programming interfaces (APIs), microservices and software functions; software as a service (SAAS) services featuring software for use in securing, managing and extending AI agents, agentic applications, model context protocol (MCP) servers, other agentic protocol servers or tools, and other AI applications, tools and systems and related software and network traffic and data functions; software as a service (SAAS) services featuring software for use in creating and maintaining technical documents, API documentation, onboarding software, and generating sample code; software as a service (SAAS) services featuring software for use in monitoring, visualizing and inspecting application API, microservices and software functions traffic and data; software as a service (SAAS) services featuring software for use in monitoring, visualizing and inspecting AI agents, agentic applications, MCP servers, other agentic protocol servers or tools, and other AI applications, tools and systems and related software and network traffic and data functions; software as a service (SAAS) services featuring software for orchestrating, configuring, securing, monitoring and logging network traffic and data within networks and software architectures; Software as a service (SAAS) services featuring software for orchestrating, configuring, securing, monitoring and logging network traffic and data within and among AI agents, agentic applications, MCP servers, other agentic protocol servers or tools, and other AI applications, tools and systems and related software and network traffic and data functions; Software as a service (SAAS) services featuring software for use in securing, managing and extending application programming interfaces (APIs) and microservices; Software as a service (SAAS) services featuring software for use in securing, managing and extending AI agents, agentic applications, MCP servers, other agentic protocol servers or tools, and other AI applications, tools and systems and related software and network traffic and data functions; Providing temporary use of on-line non-downloadable software and applications using artificial intelligence (AI) for building, testing, and deploying agentic applications; providing temporary use of on-line non-downloadable software and applications using artificial intelligence (AI) for building, testing, and deploying agentic applications to integrate with APIs, model context protocol (MCP) servers, other agentic protocol servers or tools, and other artificial intelligence (AI) applications, tools and systems; providing temporary use of on-line non-downloadable software and applications using artificial intelligence (AI) for creating artificial intelligence agents; providing temporary use of on-line non-downloadable software and applications using artificial intelligence (AI) for use in securing, managing and extending application programming interfaces (APIs), microservices, service meshes, and software functions; providing temporary use of on-line non-downloadable software and applications using artificial intelligence (AI) for use in creating and maintaining technical documents, API documentation, onboarding software, and generating sample code; providing temporary use of on-line non-downloadable software and applications using artificial intelligence (AI) for use in monitoring, visualizing and inspecting application API, microservices and software functions traffic and data; providing temporary use of on-line non-downloadable software and applications using artificial intelligence (AI) for orchestrating, configuring, securing, monitoring and logging network traffic and data within networks and software architectures; providing temporary use of on-line non-downloadable software and applications using artificial intelligence (AI) for use in securing, managing and extending application programming interfaces (APIs) and microservices; software as a service (SAAS) services featuring software for application and database integration; providing temporary use of on-line non-downloadable software development tools; computer software consulting; computer technology consultancy; computer software design and development; computer network design for others; technical support services, namely, troubleshooting of computer software problems; technical consulting in the field of artificial intelligence (AI) software customization; design, programming, and maintenance of computer software platforms; providing information in the field of maintenance of computer software platforms; development of computer codes, computer platforms and computer programs for others; providing online non-downloadable software for data migration; data migration services; development of software for secure network operations; integration of computer systems and networks; business technology software consultation services; providing information on computer technology and programming via a website; artificial intelligence as a service (AIAAS) services featuring software using artificial intelligence for data analytics; artificial intelligence as a service (AIAAS) services featuring software using artificial intelligence for creating and integrating computer models; technological consultation in the technology field of computer network software architectures and computer software applications architectures, including computer network software architectures and software development.

EARENDIL

International priority date claimed: 03 February 2026 (US) (99631561)

Class 9:
Downloadable software featuring artificial intelligence for managing, organizing, prioritizing, and processing digital correspondence, including email, electronic messages, and online communications; downloadable software featuring artificial intelligence for enabling, analyzing, and managing digital communications and agentic workflows; downloadable software featuring artificial intelligence for answering questions, analyzing documents, translating text, and participating in digital communication conversations; downloadable software for digital communication management, ai-powered digital communication, and natural language processing; downloadable software platform featuring computer software platforms for building digital communication-integrated applications; downloadable software for business advisory services in the field of digital communications and artificial intelligence.

Class 35:
Business consulting services in the field of digital communications and artificial intelligence.

Class 42:
Providing online, non-downloadable software featuring artificial intelligence for managing, organizing, prioritizing, and processing digital correspondence, including email, electronic messages, and online communications; providing online, non-downloadable software featuring artificial intelligence for enabling, analyzing, and managing digital communications and agentic workflows; providing online, non-downloadable software featuring artificial intelligence for answering questions, analyzing documents, translating text, and participating in digital communication conversations; providing online, non-downloadable software for digital communication management, ai-powered digital communication, and natural language processing; platform as a service (paas) services featuring computer software platforms for building digital communication-integrated applications; research and development services in the field of artificial intelligence, machine learning, and natural language processing; custom software development in the field of ai agents and digital communication tools; providing online, non-downloadable software for business advisory services in the field of digital communications and artificial intelligence.

WO0000001934088(1, 4, 6, 7, 9, 11, 12, 19, 35, 36, 37, 38, 39, 40, 41, 42, 43, 45)
Office of Origin: DE

Date of International Registration: 28 April 2026
Date of Designation in the UK: 28 April 2026

International priority date claimed: 02 December 2025 (DE) (30 2025 125 351)
Dark grey and white.

Class 1:
Gaseous and liquid industrial gases; hydrogen.

Class 4:
Fuels and illuminants; electrical energy; hydrogen [fuel]; liquefied petroleum gas for use as a fuel.

Class 6:
Storage tanks, frames, mounting systems, racks and carriers for photovoltaic and solar thermal systems made of metal; roofing of metal, incorporating photovoltaic cells; metal pipes, valves or slides [except as machine parts], made of metal; pipes, tubes and hoses and accessories for these, including valves, made of metal.

Class 7:
Pumps, compressors and blowing machines for liquid gas and hydrogen supply; wind power plants [windmills] in combination with water power [water turbines] or compressed air [compressed air turbines], supplemented by storage systems such as batteries, as hybrid systems for the generation of electrical power; machines for the generation of energy, in particular of electrical and thermal energy and steam; power turbines; machines for the generation of electrical energy; machines and plants for the generation of energy; power-generating plants, consisting of wind power generators; hydrogen dispensing pumps for service stations; geothermal electricity generators.

Class 9:
Computer hardware for monitoring authentication and enabling access to internet platforms; computer hardware for

operating internet platforms; computer hardware for planning, monitoring, analyzing, controlling and executing processes in the physical world [Internet of Things]; software for monitoring authentication and enabling access to internet platforms; software for operating internet platforms; software for planning, monitoring, analyzing, controlling and executing processes in the physical world [Internet of Things]; hardware for planning, monitoring, analyzing, controlling and executing operations in the virtual world; software for planning, monitoring, analyzing, controlling and executing operations in the virtual world; podcasts, downloadable podcasts; hardware and software for transmitting image and sound recordings; hardware and software for displaying images in three-dimensional form; software for controlling, monitoring, authorizing and enabling access to, and for operating, data transmission systems of all types via fixed land lines; software for controlling, monitoring, authorizing and enabling access to, and for operating low-energy wide-area networks and other radio technologies; hardware for controlling, monitoring, authorizing and enabling access to, and for operating low-energy wide-area networks and other radio technologies; hardware and software for artificial intelligence; charging stations for electric vehicles; battery charging devices for motor vehicles; charging stations for vehicles; software drivers for electronic devices that enable computer hardware and electronic devices to communicate with each other; electric batteries; electric batteries for power supply for electric vehicles; batteries for electric vehicles; devices and instruments for storing, conducting, switching, converting, accumulating, regulating and controlling electricity; accumulators [electric]; accumulators [electric] for vehicles; electric cables; electric transformers; electricity indicators; electricity connectors; junction boxes [electricity]; electricity limiters; electric fault clearing apparatus; electric control apparatus for energy management; electric sockets; data processing equipment; computer programs for information, analysis and reporting relating to energy usage, energy efficiency, energy conservation, cost analysis, management, energy analysis and bill management; mobile applications for information, analysis and reporting related to energy use, energy efficiency, energy conservation, cost analysis, management, energy analysis and bill management; measuring, monitoring and controlling apparatus and instruments for the transport and distribution of, and supply with electrical energy; power distribution boxes; network connection parts; fiber optic cables; fiber optic cables; ultra-high conductive materials for electrical lines and cables; superconductive materials for electrical lines and cables; superconductive electronic energy storage media; supra-absorbent electronic energy storage media; fuel cells; electrodes for fuel cells; electrolysis devices for laboratory use; roof covering elements adapted to solar thermal and photovoltaic collectors [solar modules]; machines and plants for conversion and distribution of energy; machines for the distribution of energy, in particular of electrical and thermal energy and steam.

Class 11:
Lighting, heating, steam generating, cooking, refrigeration, drying, ventilation and plumbing appliances, and sanitary equipment for use in solar thermal or photovoltaic systems; heat accumulators, boilers, long-term heat accumulators; solar heat collectors; air conditioning systems; parts of air conditioning systems; heat pumps; solar collectors [heating]; solar furnaces; solar thermal collectors [heating], solar heating installations, solar heating systems, heat accumulating devices for heating purposes [solar energy], heat accumulating devices for heating purposes [solar energy]; solar installations for heat generation; heat pumps for energy processing; installations and equipment for the generation and transmission of cold local heating and cold road heating.

Class 12:
Electric vehicles; e-bikes; hydrogen-powered vehicles; fuel cell cars; parts for the aforementioned vehicles.

Class 19:
Roof covering elements [building materials, not of metal] for solar thermal and photovoltaic collectors.

Class 35:
Advertising; marketing; business management; business administration; office work; updating advertising material; preparing cost/price analyses; business information; advice on organizing and managing companies; business management consultancy; human resources consultancy; procurement services for third parties [purchasing of goods and services for other companies]; import and export agency services; professional business consultancy; bookkeeping; computerized file management; advertising agency services; auctioneering services; administrative services for the relocation of businesses; conducting data transcription; economic forecasting services; provision of information in commercial and business matters; provision of information and advice for consumers in commercial and business matters [consumer advice]; billing services; organizational consulting in business matters; outsourcing services [business assistance services]; systematizing data in computer databases; auctioneering services; business management consulting services; business planning and consulting services in the field of energy, heating, cooling and hydrogen supply; business planning, business appraisals for financial valuation and business management consulting services; consulting services for all of the aforementioned services; retail and wholesale services for artificial intelligence hardware and software.

Class 36:
Insurance; financial services; banking; real estate affairs; asset management; financial advisory services for energy, telecommunications, water and wastewater projects, as well as in the field of hydrogen supply and cold local heating and cold road heating; financial advisory services in the fields of energy, telecommunications, water and wastewater, as well as in the field of hydrogen supply and cold local heating and cold road heating; real estate brokerage services in the areas of energy, gas and water; financial advice on investment, subsidies and financing of facilities in the field of energy, telecommunications and hydrogen supply, as well as cold local heating and cold road heating; CO2 emissions trading [brokerage]; brokerage services related to emission rights; consulting on all the aforesaid services; provision of equity capital for companies; venture capital services, in particular the provision of funding for developing and newly established companies; investment advice in the field of venture capital; brokerage and management of financial interests in companies; financial advice on the brokerage and management of financial interests in companies.

Class 37:

Construction and maintenance of gas stations, fuel systems and filling systems; vehicle service stations (fueling and maintenance); filling services for motor vehicles and fuel cell vehicles; refueling of vehicles with hydrogen gas; installation, repair and maintenance of gas, water and electricity systems; maintenance and reparation services for fault clearance of electrical systems; maintenance and reparation services for fault clearance of networks in the field of energy and hydrogen supply; civil engineering construction, in particular the construction and installation of networks and plants in the field of energy and hydrogen supply; installation of energy systems; laying of power grids; construction of power plants; construction work for the installation of plants in the field of energy, gas, environmental, climate and process engineering; building maintenance and repair; repair and maintenance of networks and plants in the field of refrigeration, heating, energy and hydrogen supply; repair, maintenance and servicing of supply systems in real estate, in particular heating and electrical systems; maintenance of a district heating pipeline network; maintenance of district heating meters; maintenance of transformer stations, gas control stations and switchgear; plant construction in the field of telecommunications, radio technology and data transmission and consulting services in the aforementioned areas as well as fault analysis and fault clearance of the aforementioned systems; maintenance and repair of systems, lines and equipment in the field of telecommunications, radio technology and data transmission, as well as advice in this field, and fault analysis and fault clearance of the aforementioned systems; advice on all of the aforementioned services; technical building management, namely maintenance and repair of supply facilities in buildings; maintenance of hardware for data processing equipment.

Class 38:
Telecommunications services; transmission of data and content via the internet and other communications networks; transmission of sound and images via satellite, radio networks of all kinds or interactive multimedia networks; telecommunications using platforms and portals on the internet; provision of access to digital and electronic communications networks and digital and electronic databases; protected data, sound and image transmission services; transmission of digital content via data networks, including streaming and video-on-demand; transmission of digital data via data networks, including for planning, monitoring, analyzing, controlling and executing processes in the physical world [Internet of Things]; transmission of digital data via data networks, including for planning, monitoring, analyzing, controlling and executing processes in the virtual world; providing access to information and information offers for retrieval from the internet and from other data networks; consulting on all of the aforementioned services; streaming services.

Class 39:
Transportation; energy supply by distributing energy; transportation, distribution and supply of gas, electricity, hydrogen and water; disposal [transport] of wastewater; storage of gas and hydrogen, heat and cold; storage of electricity; rental of energy and water, heat and cold supply facilities and lines and wastewater disposal facilities and lines; rental of vehicles and automobiles; storage of fuels; consulting on all of the above services.

Class 40:
Gas production; electricity production; electricity production from renewable sources; electricity production from solar energy; electricity production from wind energy; electricity production from wave energy; electricity production from hydropower; electricity production from hydrogen; hydrogen production; recycling services; rental of equipment for the production of electrical energy; production of thermal energy, heat and steam; fuel treatment; gas production and treatment; water production and treatment; consulting on all of the above services.

Class 41:
Education; training; knowledge transfer [training]; entertainment; sporting and cultural activities; publishing of printed material, except for advertising purposes; online provision of electronic, non-downloadable publications; audio, video and multimedia productions; training on simulators; provision of non-downloadable audio, video and multimedia productions [streaming services]; compilation of programs on the internet; consultancy services for all of the above services.

Class 42:
Technological consultancy in the energy sector; scientific and technological services; analysis and research work, in particular technical energy consultancy; development, creation and maintenance of data processing programs in the field of energy and hydrogen supply; technical measurements, in particular measurements in the field of consumption measurement of electrical and thermal energy; consultancy in the field of energy saving and efficiency; technical inspection of electrical installations, in particular switchgear and transformer stations; industrial analysis and research services and engineering services in the field of electricity generation, cold local heating and cold road heating and energy and hydrogen supply; research in the field of hydrogen fuel cells; technical advice in the energy sector; technical project planning; development of technical devices in the field of energy and hydrogen supply; technical consultancy relating to energy consumption, data security consultancy and environmental protection consultancy; technical measurements of energy consumption; engineering services in the field of consumption metering, recording, capturing, processing, evaluating and transmitting data, in particular measurement data; creating programs and databases [software] in the field of energy and hydrogen supply; consultancy in the field of energy efficiency, including in the form of consumer advice, regarding energy consumption, energy use and conservation, electricity grid utilization, emissions and climate protection; engineering services in the field of digital data storage and data transmission via radio, cable and satellite networks of all kinds; technical project management; architectural services; conducting technical project management and planning for construction projects; development and adaptation of computer software, in particular user-specific further development and/or adaptation of standard software; installation of software; hardware and software consultancy; development and adaptation of computer software in networks and configuration of computer networks using software; rental of computer software and hardware; development and programming of hardware and software for artificial intelligence and maintenance of software for artificial intelligence; cloud storage services for electronic data; provision of temporary use of non-downloadable online operating software for access to web servers and co-location servers for cloud computing and third-party cloud data storage

facilities; consultancy on all of the above services; building inspection services [surveying], in the course of building construction, repair and maintenance of networks and plants in the field of refrigeration, heating, energy and hydrogen supply.

Class 43:
Provision of food and drink; temporary accommodation.

Class 45:
Licensing of software; licensing of intellectual property rights.

Office of Origin: ES

Date of International Registration: 06 April 2026
Date of Designation in the UK: 06 April 2026

The mark contains the colours Green, white and gray

Class 16:
Boxes of paper or cardboard; cardboard boxes for packaging; cardboard boxes for packages; cardboard boxes for industrial packaging; cardboard boxes for delivering goods; paper boxes for transporting objects; packaging boxes (of cardboard); boxes of paper for packaging; collapsible cardboard box; cardboard boxes for food; prefabricated boxes for packaging; containers of paper for packaging; packaging of paper; packaging of cardboard; packaging material of cardboard; wrapping and packaging materials [filler] of paper or cardboard; materials made of recycled paper for packaging; containers of cardboard; cardboard containers for packages; cardboard containers for packaging; packaging containers of regenerated cellulose; packaging containers of paper; containers of paper for packages; containers of paper for packaging; industrial packaging containers of paper; storage containers made of paper; containers of paper for packaging.

Class 20:
Non-metallic storage or transport containers; stacking boxes of wood; stacking boxes of plastic; wooden storage boxes; plastic boxes for stacking purposes; wooden storage boxes; storage boxes, not of metal; boxes of wood; boxes of wood or plastic; wooden boxes for industrial packaging; boxes made of plastic materials for packaging; boxes made of plastic; boxes made of plastic for packaging; plastic boxes (large) for industrial use; transport boxes (not of metal); boxes made of wood covered with paper; boxes made of laminated plastic materials; assembled wooden boxes for packaging; assembled plastic boxes for packaging; nesting boxes; boxes not of metal; plastic boxes for storage; wooden boxes for stacking purposes; collapsible wooden boxes for packaging; collapsible plastic boxes for packaging; portable boxes (containers) of wood; portable boxes (containers) of plastic; boxes other than of metal; crates; crates (boxes) of wood or plastic materials; containers in the form of boxes of wood; bottle casings of wood; pallets, not of metal; loading pallets, not of metal; transport pallets, not of metal; cardboard pallets; wooden pallets.

Class 35:
Advertising, marketing and promotional services; import and export agency services; wholesale and retail services for cardboard box packaging, both in shops and via global computer networks; wholesale and retail services in shops and via global computer networks for wooden crates and pallets; wholesale and retail services in shops and via global computer networks for plastic crates and pallets; wholesale and retail services in shops and via global computer networks for non-metallic crates and pallets.

Class 40:
Recycling services for all types of packaging; Recycling services for all types of boxes; recycling services for all types of pallets; recycling of waste and trash; treatment of waste materials; recycling of waste; recycling of wood; recycling of plastics and plastic materials; recycling and treatment of waste; recycling of paper; recycling services; treatment (recycling) of waste; treatment and recycling of packaging, boxes and pallets.

Class 42:
Industrial analysis, industrial research and industrial design services; Design and development of consumer products; industrial packaging design services; design of packaging materials; packaging design; packaging design for third parties; box design for third parties; pallet design for third parties.

Class 9:

Computer software; downloadable and recorded computer programs; downloadable software applications for use with mobile devices (mobile apps); application software for smartphones and tablet PCs; data processing software; software for enterprise resource planning (ERP software); software for materials management, production planning, financial accounting, logistics and human resources; software for controlling and optimizing business processes; software for standardized order processing; software for logistics; downloadable electronic publications; electronic databases (recorded); data carriers with recorded computer software.

Class 41:
Education and training; organization and conducting of seminars, courses, workshops and training programs; training of users of computer hardware and computer software, including software for handling the entire business processes of a company, including accounting, logistics and human resources; conducting training courses relating to computer software; IT training; online education and e- learning services; provision of electronic publications [not downloadable]; creation of teaching materials.

Class 42:
Design and development of computer hardware and software; scientific and technological services and related design services; IT services, namely development, programming and implementation of software; software as a service [SaaS]; platform as a service [PaaS]; cloud computing; hosting services; provision of temporary use of non-downloadable software; provision of virtual computer environments via cloud computing; rental of computer software; installation of computer software; maintenance and updating of computer software; configuration of computer networks by means of software; IT consulting, advisory and information services; technical project management in the field of information technology; computer system analysis; electronic data storage; conversion of computer programs and data [other than physical conversion]; implementation of IT programs in networks; troubleshooting of software [IT support]; consultancy in the field of software as a service [SaaS].

UNREAL

Class 9:
Downloadable game software; downloadable video game software; downloadable virtual reality game software; downloadable augmented reality software for playing computer games; downloadable computer game software for personal computers and home video game consoles; downloadable computer game software for use on mobile and cellular phones; downloadable computer software, namely, game engine software for video game development and operation; downloadable computer software applications for designing, developing and publishing games; downloadable computer software development tools; downloadable software development tools for game design; downloadable software development tools for designing and developing computer game software and video game software; downloadable software development tools for designing and developing interactive experiences; downloadable software for creating avatars, building virtual objects, and interacting with users and objects in virtual worlds; downloadable computer game software featuring virtual goods, namely, in-game props, devices, tools weapons, cosmetics, and items for use in online virtual worlds; downloadable computer software platforms for designing, developing, and publishing video games; downloadable computer software platforms for designing, developing, and publishing interactive experiences; downloadable computer software platforms for game development and operation; downloadable computer software platforms for designing, developing and hosting playable maps, playable content and interactive experiences; downloadable software for use in the creation of computer programs and software, virtual spaces, virtual worlds, online universes, 2d and 3d sites, 2d and 3d content, and immersive interactive experiences; downloadable chatbot software for replying to questions from creators related to software development; downloadable chatbot software for replying to questions from players related to in-game content; downloadable computer

application software for creating image files for use in virtual environments; downloadable computer software for creating digital animation and special effects of images; downloadable computer game software; downloadable interactive game software.

Class 35:
On-line retail store services connected with the sale of game software, video games, computer games, and game programs; on-line retail store services connected with the sale of software for use in the creation of computer programs and software, virtual spaces, virtual worlds, online universes, 2d and 3d sites, 2d and 3d content, and immersive and realistic interactive experiences; on-line retail store services connected with the sale of software for use in the creation of fully immersive and interactive animations, simulations, and visualizations; online retail store services connected with the sale of virtual goods, namely, computer programs featuring avatars, characters, environments, structures, props, furniture, vehicles, weapons, tools, devices, cosmetics, toys, emotes, gestures, and in-game items for use in online virtual worlds.

Class 38:
Streaming of audiovisual material on the internet; streaming of e-sports material on the internet; audio and video broadcasting services over the internet in the field of video games; audio and video broadcasting services over the internet in the field of e-sports; webcasting services; providing an on-line forum for transmission of messages among computer users in the fields of games, video games, and e-sports; streaming of audio, visual and audiovisual material via a global computer network; streaming of audio, visual and multimedia content material on the internet.

Class 41:
Entertainment services, namely, providing webcasts in the field of video games; providing on-line computer games; providing online computer games featuring virtual worlds in which users can interact for entertainment purposes; entertainment services, namely, providing on-line computer games; entertainment services, namely, providing online video games; virtual reality game services provided on-line from a computer network; providing online augmented reality games; providing online computer games featuring virtual environments in which users can interact for entertainment purposes; providing online computer games featuring virtual worlds in which users can buy, play, create, and discuss games and playable content for entertainment purposes; providing online computer games featuring virtual worlds in which users can attend concerts and events for entertainment purposes; entertainment in the nature of e-sports competitions; organization of e-sports competitions; arranging and conducting e-sports competitions; multimedia entertainment software publishing services; multimedia publishing of video game software; multimedia publishing of computer game software; multimedia publishing relating to video game software; entertainment services, namely, providing webcasts in the field of e-sports.

Class 42:
Providing online non-downloadable game software; providing online non-downloadable game programs; providing temporary use of non-downloadable game software; providing temporary use of online non-downloadable computer game programs; providing temporary use of online non-downloadable software for playing games; providing online non-downloadable software for playing computer games in virtual worlds; providing online non-downloadable software for playing computer games in virtual environments; providing temporary use of on-line non-downloadable software development tools for video games; providing temporary use of on-line non-downloadable software for video game development; providing temporary use of on-line non-downloadable software development tools; providing temporary use of on-line non-downloadable software development tools for the design and development of computer game software and video game software; providing online non-downloadable computer software platforms for video game design, development, publication and operation; platform as a service (paas) featuring computer software platforms for use in video game development; platform as a service (paas) featuring computer software platforms for use in video game design, development, and operation; software as a service (saas) services featuring software for video game development; software as a service (saas) services featuring software for video game design, development, and operation.

Class 45:
Licensing of software in the framework of software publishing; licensing of intellectual property rights.

The mark contains the colour turquoise.

Class 9:
Batteries; battery charging devices; battery charge monitors; battery charge indicators; electric batteries for powering electric vehicles; electric power distribution apparatus; power supply units; electric accumulators; electric control devices for energy management in vehicles; low-voltage distributors, in particular charging stations for energy and power supply; electrical power outlet boxes; chargers; electric car charging piles; charging stations for electrical vehicles; apparatus for monitoring and controlling energy consumption and energy storage in vehicles; mobile applications, downloadable, for monitoring, displaying, and mapping the location and availability of charging stations for electric vehicles; software for operation, management and control of charging infrastructures; electromobility software, in particular for passenger vehicles, buses, lorries, motorcycles, scooters, ships and bicycles; software for managing the supply of electricity, in particular for passenger vehicles, buses, lorries, motorcycles, scooters, ships, bicycles and industrial plug connections; software for recording sensor data, energy measurement systems and energy measuring apparatus; software for monitoring, access management, regulation, pricing, payment, billing, invoicing, tariff and product management, customer relationship management (crm), archiving, controlling, accounting, dunning, data administration, data management, data evaluation and customer communication, in particular in the fields of charging infrastructures, industrial plug connections, sensor technology, energy and parking area management; application software (apps); software for websites and customer portals; software for supplying electricity and energy; software for distributing energy; software for energy management; software for controlling energy consumption; software for checking the efficient use of energy; software for energy certification; software for managing electricity consumption; software for improving energy efficiency; software for fault notification and allocation of service technicians; application software (apps) for accessing and billing booking transactions, in particular in the fields of charging infrastructures, parking area management and rental systems; terminals for the electronic payment of charges with credit and charge cards; parts and fittings for the aforesaid goods, included in this class.

Class 35:
Wholesale services and retail services in relation to charging stations for supplying energy and electricity; billing of charging stations and low-voltage distributors; organizational and administrative management of charging stations and low-voltage distributors; business information and consultancy services relating to low-voltage distribution and charging infrastructures; professional business consultancy in relation to cloud services; invoicing services; auto pool business management services; administrative management of automobile fleets; professional business development of charging infrastructures; professional business consultancy in relation to e-mobility; preparing and placing advertisements for others; business administration and dissemination of advertising via the internet, in particular via a cloud platform; billing of WLAN hotspots; compilation of SIM-card-based telecommunications services provided by others to enable customers to easily compare and select these services; administrative management of access permissions for charging infrastructures; consultancy and information via a hotline in relation to the aforesaid services in this class; rental, hire and leasing of objects in connection with the providing of the aforesaid services, included in this class; consultancy and

information in relation to the aforesaid services, included in this class.

Class 37:
Vehicle refueling and recharging; charging of batteries and accumulators, in particular of vehicles; vehicle battery swapping services; charging services for electric vehicles; providing and operating of charging stations for electric vehicles; installation, maintenance, repair, and servicing of apparatus and equipment for powering electric vehicles; rental, hire and leasing of objects in connection with the providing of the aforesaid services, included in this class; consultancy and information in relation to the aforesaid services, included in this class.

Class 38:
Providing of access to a cloud platform for monitoring, access management, regulation, pricing, payment, billing, invoicing, tariff and product management, customer relationship management (CRM), controlling, accounting, dunning, archiving, data administration, data management, data evaluation and customer communication, in particular in the fields of charging infrastructures, industrial plug connections, sensor technology, energy and parking area management; provision of internet access services; providing of access to WLAN hotspots; providing access to databases; telecommunications via the internet for making it possible to reserve, activate and pay for charging stations to recharge passenger vehicles, buses, lorries, motorcycles, scooters, ships, bicycles; consultancy and information via a hotline relating to the aforesaid services in this class; rental, hire and leasing of objects in connection with the providing of the aforesaid services, included in this class; consultancy and information in relation to the aforesaid services, included in this class.

Class 39:
Provision and operation of low-voltage distributors for the distribution of energy; distribution of energy; travel information services, including information on the availability of charging stations for electric vehicles; rental, hire and leasing of objects in connection with the providing of the aforesaid services, included in this class; consultancy and information in relation to the aforesaid services, included in this class.

Class 42:
Providing and rental of electronic memory space on the internet; providing online non-downloadable computer software for arranging maintenance measures for plug-in devices and low-voltage distributors with electricity take-off points; providing online non-downloadable computer software for arranging the billing of electricity supply operations and electricity procurement at various electricity take-off points; platform as a service [PaaS] featuring cloud platform software for monitoring, access management, regulation, pricing, payment, billing, invoicing, tariff and product management, customer relationship management (CRM), controlling, accounting, dunning, archiving, data administration, data management, data evaluation and customer communication, in particular in the fields of charging infrastructures, industrial plug connections, sensor technology, energy and parking area management; computer software consultancy; software as a service (SaaS); rental of software and providing of online non-downloadable software; computer centre services and cloud computing services, in particular providing of computing capacity, electronic data storage and network capacities; design, development, updating and maintenance of software and internet platforms; development of an internet platform for monitoring, access management, regulation, pricing, payment, billing, invoicing, tariff and product management, customer relationship management (CRM), controlling, accounting, dunning, archiving, data administration, data management, data evaluation and customer communication, in particular in the fields of charging infrastructures, industrial plug connections, sensor technology, energy and parking area management; technological engineering analysis of operational data for energy load management and optimisation purposes; engineering services, namely evaluation of technically collected data for energy load management and optimisation purposes; installation of, maintenance of and troubleshooting of software; technological monitoring of the operational reliability of apparatus, sensors, energy measuring systems and energy measuring apparatus; scientific and technological services and research, in particular the technical analysis of travel data, travel profiles and energy costs; scientific and technological services and research, in particular in the field of charging infrastructures and electromobility; technological consultancy; technological consultancy relating to energy efficiency, energy saving and management of energy consumption; providing of online non-downloadable software for arranging access authorisation to electricity take-off points, in particular via a cloud platform; cloud computing services for recording, processing, electronic storage and reproduction of data for monitoring, access management, regulation, pricing, payment, billing, invoicing, tariff and product management, customer relationship management (CRM), controlling, accounting, dunning, archiving, data administration, data management, data evaluation and customer communication, in particular in the fields of charging infrastructures, industrial plug connections, sensor technology, energy and parking area management; rental, hire and leasing of objects in connection with the providing of the aforesaid services, included in this class; consultancy and information in relation to the aforesaid services, included in this class.

Date of International Registration: 03 August 2026
Date of Designation in the UK: 03 August 2026

DexCap

Class 7:
Industrial robots; robotic packaging machines; robotic lawnmowers; industrial robots for welding; robots for cleaning pipe systems; electric welding apparatus; control mechanisms for machines, engines or motors; handling machines, automatic [manipulators]; metalworking machines; machines for the electronic industry.

Class 9:
User programmable unconfigured humanoid robots; telepresence robots; security surveillance robots; teaching robots; anthropoid robots with artificial intelligence for use in scientific research; anthropoid robots having communication and learning functions for assisting and entertaining people; laboratory robots; computer program (downloadable software); mobile phone software applications, downloadable; computer peripheral devices; data processing apparatus; measuring apparatus; simulators for the steering and control of vehicles; interactive touch screen terminals; wearable activity trackers; data gloves.

Class 42:
Research in the field of artificial intelligence; technology consultation in the field of artificial intelligence; quality control; technological research; mechanical research; scientific research and development; industrial design.

HM
Precious Metals

International priority date claimed: 03 December 2025 (EM) (019285858)
The mark contains the colours Blue, yellow and white.

Class 1:
Chemical substances, chemical materials and chemical preparations; tempering and soldering preparations; chemical substances and solutions for deposition processes and for galvanising processes, galvanizing preparations; electrolytes, electrolyte solutions, plating baths and galvanising baths for separating metals and precious metals, in particular for separating gold, silver, rhodium, palladium, platinum (metal), ruthenium, nickel, copper or their alloys.

Class 5:
Alloys for dental, dental technology and medical technology purposes; composites for dental, dental technology and medical technology purposes; metal alloys for dental restoration purposes; ceramics and plastics for dental, dental technology and medical technology purposes; material for stopping teeth, sealing materials for dental and dental technology purposes; materials for preparing and processing models for dental and dental technology purposes; modelling material, namely dental waxes, embedding material, doubling material, fixing material and impression material for dental and dental technology purposes; conductive lacquers and thinners for conductive lacquers for dental technology purposes, surface lacquers for dental modelling materials, in particular for dental plasters; adhesives for dentistry and dental technical purposes; solvents for dental and dental technology purposes.

Class 7:
Electric polishing apparatus and parts and fittings for electric polishing apparatus; ultrasonic cleaning apparatus (in the form of industrial cleaning apparatus) and parts and fittings for ultrasonic cleaning apparatus, 3D printers; electro-plating apparatus; electrolysis apparatus for recycling precious and non-precious metals or alloys thereof, for galvanic processes, for jewellery, refining of precious metals or alloys thereof, for gold salt production, for separating precious metals and stones; ultrasonic cleaning apparatus for laboratory purposes.

Class 9:
Apparatus for scientific research and laboratories; measuring instruments; apparatus and instruments for measuring temperature; apparatus for electrolytic separation; electric and electronic apparatus for electrophoretic separation, included in this class; centrifuges and drying centrifuges for laboratory purposes; electric and electronic control and checking (supervision) equipment for the aforesaid goods; parts and accessories for the aforementioned goods; sensors, detecting apparatus and probes; software, including recorded or provided via the internet, for display and configuration, in particular 3d configuration, of blanks and semi-finished goods for making jewellery; data processing apparatus for dental purposes; computer programs (software and firmware) recorded on data carriers.

Class 10:
Medical-technical instruments and equipment; dental apparatus and instruments and dental apparatus and instruments; dental prostheses, false teeth, dental prostheses, dental implants, dental bridges, dental crowns; polishing units, related parts and related accessories for dental purposes; ultrasonic cleaning apparatus and parts and fittings therefor in the form of medical cleaning apparatus; scanners, in particular 3D scanners, image-processing apparatus and CAD/CAM processing apparatus for dental purposes.

Class 14:
Precious metals and their alloys; unprocessed and semi-processed materials made from precious metals and alloys thereof, namely bars, circular blanks, bands, sheets, wire, pipes, sectional pipes, rings, profile rings, poles and rods, in particular for manufacturing coins, circulation coins, collectible coins and jewellery, clocks and technical apparatus and coatings; articles of precious metal and their alloys, namely coins, circulation coins and collectible coins; precious stones, pearls

and imitations thereof; jewellery; rings [jewellery]; rings (jewellery), in particular wedding rings, of precious or common metals or their alloys.

Class 35:
Advertising, marketing and promotional services; business management; business administration; wholesale services, retail services and mail order retail services, including the trading services being provided online, in relation to chemical substances, chemical materials and chemical preparations; wholesale services, retail services and mail order retail services, including the trading services being provided online, in relation to alloys for dental, dental technology and medical technology purposes; wholesale services, retail services and mail order retail services, also via the internet, in relation to the following goods: ceramics and materials of plastic for dental purposes, for dental technical purposes and for technical medical purposes, materials for filling teeth, teeth filling materials and sealing materials for dental and dental technical purposes; wholesale services, retail services and mail order retail services, including the trading services being provided online, in relation to materials for preparing and processing models for dental and dental technology; wholesale services, retail services and mail order retail services, including the trading services being provided online, in relation to adhesives for dental and dental technology purposes and solvents for dental and dental technology purposes; wholesale services, retail services and mail order retail services, also via the internet, in relation to the following goods: common metals and their alloys, copper and copper alloys, unprocessed and semi-processed materials made from the aforesaid metals and alloys, namely bars, circular blanks, bands, sheets, wire, pipes, sectional pipes, rings, profile rings, poles and rods, in particular for manufacturing coins, circulation coins, collectible coins and jewellery, clocks and technical apparatus and coatings and welding and brazing materials; wholesale services, retail services and mail order retail services, including the trading services being provided online, in relation to scientific research and laboratory apparatus, measuring instruments and apparatus and instruments for measuring temperature; wholesale services, retail services and mail order retail services, including the trading services being provided online, in relation to apparatus for electrolytic separation, galvanising apparatus, electrolytic polishing apparatus, electric polishing apparatus, electrolysing apparatus and electric and electronic apparatus for electrophoretic separation; wholesale services, retail services and mail order retail services, including the trading services being provided online, in relation to centrifuges and drying centrifuges for laboratory purposes and ultrasonic cleaning apparatus; wholesale services, retail services and mail order retail services, also via the internet, in relation to the following goods: electric and electronic control and inspection equipment, sensors, detectors and probes, software, including being recorded or provided via the Internet, electric and electronic apparatus for dental purposes, data-processing apparatus and computer programs recorded on data carriers; wholesale services, retail services and mail order retail services, including the trading services being provided online, in relation to furnaces, ceramic kilns, sintering furnaces, smelting furnaces and water treatment apparatus; wholesale services, retail services and mail order retail services, also via the internet, in relation to precious metals and alloys thereof, unprocessed and semi-processed materials made from precious metals and alloys thereof, namely bars, circular blanks, bands, sheets, wire, pipes, sectional pipes, rings, profile rings, poles and rods, in particular for manufacturing coins, circulation coins, collectible coins and jewellery, clocks and technical apparatus and coatings, articles made of precious metals and their alloys, namely precious stones, pearls and imitations thereof, jewellery, jewellery and rings being jewellery.

Class 36:
Investment services.

Class 40:
Treatment of materials, namely metal casting, metal plating, gilding, silver plating, engraving, embossing, custom 3D printing for others; recycling, in particular of metals and precious metals; galvanization, surface galvanisation; coating services, namely chemical coatings, electrodeposition, coating of surfaces, CVD (chemical vapour deposition) coating and PVD (physical vapour deposition) coating; engraving, in particular engraving of jewellery and coin engraving, embossing, in particular coin minting.

RUN X | World Treadmill Championship

The trademark consists of the words “RUN X” placed in the centre of a rectangular outline, with the upper part of the letters shifted slightly towards the right of the lower part, followed by a vertical space and the text “World Treadmill Championship” in smaller type, spread over three lines. Colours are not claimed.

International priority date claimed: 23 October 2025 (IT) (302025000163690)

Class 9:
Diving suits, divers' masks, ear plugs for divers, nose clips for divers, gloves for divers, breathing apparatus for underwater swimming; computer apps, digital media, downloadable audio and audiovisual recordings, ergometers, scales with body mass analysers, smartwatches, wearable activity trackers; application software to allow users to enter, download, share, view and store information, goals and activities in the field of health and fitness, and to send messages; downloadable mobile applications featuring recreation, sport and exercise; application software for the design, control and management of gyms and bio-medical rehabilitation centers; application software for customer profiling, management of training programs, loyalty, involvement and motivation of members, management of relationships with members inside and outside the gym; hardware and software to allow gym users to manage their training, by accessing the training program and the results obtained, as well as all information on courses, products and services; USB keys, interfaces and devices and equipment in general to assist users in training, for monitoring the amount of movement, to record the activity carried out with the gym equipment and transfer the information to the user's account; glasses for sport.

Class 18:
Leather and imitations of leather; animal skins and hides; luggage and carrying bags; umbrellas and parasols; walking sticks; whips, harness and saddlery; collars, leashes and clothing for animals; bags; bags for sports; travelling bags; haversacks; duffel bags; wheeled bags; valises; attaché cases; rucksacks; multi-purpose sports bag; suitcases.

Class 25:
Clothing, footwear, headwear; sports clothing; gymnastic clothing; shoes; sports shoes and footwear; sneakers; headwear; hats; bathing caps; skull caps; shower caps; head sweatbands; pants; trousers; shorts; t-shirts; sports bras; jackets (clothing); socks; hoods (clothing); gym suit; sports vests; polo shirts; windcheater; track and field sport shoes; athletic apparel; cuffs.

Class 28:
Games, toys and playthings; video game apparatus; gymnastic and sporting articles; decorations for Christmas trees; gymnastic apparatus; machines and equipment for physical exercises and physical training; machines for aerobic and cardiovascular exercise; machines for elliptical exercise; treadmills; cycle simulators; step simulators; rowing machines; equipment for weight lifting; machines for bust rotation; machines for torso flexing/extension; exercise benches; stretching equipment; barbells; weights for exercise; dumbbells; weighted ankle bands; machines and equipment for indoor physical exercises; treadmills; gym balls; core, and back exercise cushions for home and office seating; console and console controls for sports, fitness and exercise equipment in general.

Class 35:
Advertising; business management, organization and administration; office functions; telemarketing services; assistance in product commercialization, within the framework of a franchise contract; retail services, wholesale services or

on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of deodorants, room fragrances enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of sanitary preparations for personal hygiene, antibacterial, dietary supplements, meal replacements and dietetic food and beverages enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of computer apps, digital media, downloadable audio and audiovisual recordings, ergometers, scales with body mass analysers, smartwatches, wearable activity trackers, application software, downloadable mobile applications, hardware and software to allow gym users to manage their training, USB pen drives, interfaces and devices and equipment to assist users in training, glasses for sports enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of equipment and machines for prevention, evaluation, and rehabilitation, pulse meters, heart rate monitoring apparatus, body composition monitors enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of bicycles, electric bicycles, lights, pumps, chains, handlebars, luggage racks, pedals, saddles, mudguards, gearboxes, brakes, tires, wheels, shock absorbers, frames, all for bicycles and electric bicycles, enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of manuals enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of bags, bags for sports, travelling sets [leatherware], haversacks, duffel bag, wheeled bags, valises, attaché cases, rucksacks, multi-purpose sports bag, suitcases enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of storage racks for physical fitness equipment, benches for sports fields, storage racks for sports equipment, ball chairs, chairs, cushions and pillows, furniture cabinets enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of drinking bottles, beverage containers, plastic beverage containers, containers for domestic use, water bottles, isothermal bags enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of towels of textile, face towels of textile, children's towels, towels made of textile materials, textile dry hair towels, sports towels of textiles, golf towel, beach towels enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of clothing, sports clothing, gymnastic clothing, shoes, sports shoes and footwear, sneakers, headwear, hats, bathing caps, skull caps, shower caps, head sweating bands, pants, trousers, shorts, t- shirts, sports bras, jackets (clothing), socks, hoods (clothing), gym suit, sports vests, polo shirts, windcheater, track and field sport shoes, athletic apparel, cuffs enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of gymnastic mats, yoga mats, floor coverings enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of sporting articles enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of gymnastic articles, machines and equipment for physical exercises and physical training, console and console controls for sports, fitness and exercise equipment in general enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of yoghurts, creams made from milk and eggs, fruit based jams and marmalades enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of coffee, tea, cocoa, oatmeal and corn flakes, bread, breadsticks, crackers, rusks, cookies enabling consumers to conveniently view and purchase those goods; retail services, wholesale services or on-line retail store services connected with the sale of, as well as the bringing together, for the benefit of others, (excluding the transport thereof) of sports drinks, fruit juice-based non-alcoholic drinks enabling consumers to conveniently view and purchase those goods; promotion of fitness and sporting events; promotion of meetings, workshops, round tables, in the gymnastic, sports, muscle rehabilitation and physical well-being sector.

Class 41:
Education; providing of training; entertainment; sporting and cultural activities; physical education; organisation of sporting competitions; organisation of events in the sports and fitness sector in indoor and outdoor venues; services of gymnasiums and gymnastic-sporting centers; organisation of fitness and sporting events; organisation of gymnastics competitions; organisation of meetings, workshops, round tables, in the gymnastic, sports, muscle rehabilitation and physical well-being sector; training in the field of e-sports; provision of e-sports facilities; organisation of e-sports events and competitions; on-line publication of journals, namely, blog services featuring the topics regarding local community, exercise, fitness, fitness training; providing fitness classes; fitness instruction, nutrition, health, wellness and personal development training; on-line publication of journals, namely,

blog services featuring user-defined content in the field of social-networking; training; arranging of training courses; providing on-line interactive health, exercise, fitness, physical training and personal development classes; providing sports facilities; rental of sports equipment.

Class 9:
Communication software for connecting computer network users; computer software for use in providing multiple user access to a global computer information network; computer chatbot software for simulating conversations; collaboration management software platforms, recorded or downloadable; compiler software; computer application software for mobile phones; computer programmes for document management; computer programs [downloadable software]; computer programs and software for image processing used for mobile phones; computer software applications, downloadable; computer software for converting document images into electronic formats; computer software for database management; computer hardware and software for artificial intelligence; computer software for document management; computer software for information management; computer software for organizing and viewing digital images and photographs; computer software platforms; computer software to enable searching and retrieval of data; data processing software; database management software; downloadable application software; downloadable artificial intelligence software; downloadable collaboration management software platforms; downloadable computer software for daily tasks management; downloadable computer software for data processing; downloadable computer software for optical character recognition; downloadable computer software for processing digital images; downloadable computer software for searching and retrieving information; downloadable computer software for the collection of data and information; downloadable computer software for the sharing of data and information; downloadable computer software for the storage of data and information; downloadable computer software using generative artificial intelligence; downloadable content management software; downloadable document management software; downloadable expense management software; downloadable intelligent personal assistant [IPA] software; downloadable software applications for mobile phones; downloadable software for financial management; downloadable software using artificial intelligence for summarizing texts; downloadable translation software; software and applications for mobile devices; software for processing images, graphics and text.

Class 35:
Business file management; business management consultancy and advisory services; business management consultancy in the field of information technology; compilation and input of information into computer databases; compilation and systematisation of information in databanks; compilation and systemisation of information into computer databases; compilation of data into computer databases; computer data entry services; computer data processing; computer file management; computerised book-keeping; computerised file management; computerised information processing;

computerised inventory control; computerised inventory management; computerised inventory preparation; computerised management of medical records and files; data collection for others; data compilation for others; data entry services; data handling; data inputting services; data management advice; data management consultancy; data processing management; data processing, systematisation and management services; maintenance of personnel records for others; online retail store services for computer software; records management services, namely, document indexing for others.

Class 42:
Artificial intelligence as a service [AIaaS] featuring software using artificial intelligence for use in electronic setup, storage, backup and management of data and applications; artificial intelligence consultancy; artificial intelligence technology services; back-up of computer data; computer programming for data processing; computer programming services for data warehousing; computerised data storage; computerised data storage services; computerised technical data analysis; conversion of data from physical to electronic media; conversion of data or documents from physical to electronic media; conversion of document data from one computer format to another; conversion of images from physical to electronic media; creating programmes for data processing; creating an online community in the form of a website for registered users to form virtual communities and engage in social networking services; creation, maintenance, and updating of computer software; design and development of computer systems; design and development of data display systems; design and development of data entry systems; design and development of data output systems; design and development of data processing systems; design and development of data retrieval software; design and development of data storage systems; design and development of databases; design and development of image processing software; design and development of systems for data input, output, processing, display and storage; developing and updating computer software; development of software application solutions; electronic data storage and data back-up services; electronic storage of files and documents; electronic storage of financial information; electronic storage of images; electronic storage of medical records; hosting online web facilities for others for sharing online content; hosting platforms on the internet; hosting software platforms for data sharing and transmission; image processing software design; information and advisory services relating to software as a service [saas]; online provision of non-downloadable web-based software; platform as a service [paas]; providing online non-downloadable artificial intelligence software; providing online non-downloadable computer software; providing online non-downloadable computer chatbot software using artificial intelligence for simulating conversations; providing online non-downloadable generative artificial intelligence software; providing online non-downloadable software [application service provider]; providing online non-downloadable software for data migration; providing online non-downloadable web-based software and software applications; providing temporary use of non-downloadable software for analysing financial data and generating reports; providing temporary use of non-downloadable software to enable sharing of multimedia content and comments among users; providing temporary use of online non-downloadable computer software for language translation; providing temporary use of on-line non-downloadable software for database management; providing temporary use of on-line non-downloadable software for importing and managing data; providing temporary use of online non-downloadable software using artificial intelligence to automate and perform tasks; providing temporary use of web-based applications; providing temporary use of web-based software; software as a service [SaaS]; software as a service [SaaS] featuring software for invoice management; software as a service [SaaS] services featuring software for data management; updating and maintenance of computer software.

FIXONAL PTE. LTD.

WO0000001947152(9, 35, 37, 42, 45)
Office of Origin: AU

Date of International Registration: 15 May 2026
Date of Designation in the UK: 15 May 2026

PENSAI

International priority date claimed: 17 November 2025 (AU) (2604222)

Class 9:
Downloadable and recorded computer software using artificial intelligence and machine learning for industrial monitoring, workplace safety, quality inspection, predictive maintenance and process optimisation; computer software for real-time image and video analysis; downloadable cloud-connected software for use in manufacturing, logistics and workplace safety; computer-vision software for detection of personal protective equipment (PPE), unsafe behaviour and production anomalies; edge-computing software for industrial cameras and sensors; downloadable applications for monitoring, analysing and controlling machines and production lines; electronic devices, cameras and sensors configured for AI-based monitoring; computer hardware incorporating AI processors and embedded vision systems.

Class 35:
Business consultancy and advisory services relating to manufacturing performance, workplace safety and process efficiency; compilation, analysis and systematisation of industrial and operational data for business purposes; business intelligence services using artificial intelligence and machine learning; data processing and business data analytics for manufacturing, logistics and workplace operations; providing business reports, business information via dashboards, and benchmarking derived from AI-based monitoring systems.

Class 37:
Maintenance of cloud and edge-computing computer hardware systems for industrial use.

Class 42:
Software-as-a-service (SaaS) featuring artificial-intelligence platforms for manufacturing monitoring, workplace safety

and quality assurance; platform-as-a-service (PaaS) for deploying and managing AI models; design and development of computer-vision, machine-learning and industrial-automation software; hosting of software for data analysis and digital-twin integration; remote monitoring of computer systems, machines and production environments; development of cloud and edge-computing systems for industrial use; consultancy in the field of artificial intelligence software and data science; maintenance of software systems.

Class 45:
Legal and regulatory compliance auditing being monitoring of safety regulatory compliance in industrial workplaces; consultancy and auditing services relating to occupational health and safety legal and regulatory compliance; providing occupational safety information and emergency alerts regarding workplace safety breaches via computer networks; advisory services relating to regulatory safety requirements.

Computer software; software platforms; computer software development tools; software for cloud computing services; cloud computing software; open source software; computer software to enable the searching of data; downloadable application programming interfaces; search engine software; software for vector searching; vector search engine software; deep learning search engines; software for search engine optimisation; software for searching and matching information across different content formats; software for neural search; downloadable computer software for use in the field of neural networks, neural search engines, machine learning, deep learning and artificial intelligence; downloadable computer

software for neural networks, neural search engines, machine learning, deep learning and artificial intelligence; computer software development tools to enable users to build search engines and information retrieval and processing systems; data mining software; computer software for creating searchable databases of information and data; computer software for use in the field of search, logging, security, cybersecurity, observability and analytics; data engines; database engines; databases; vector databases; downloadable computer software for use in searching, indexing, organizing, managing, processing, storing, retrieving, analyzing, and reporting information and data; downloadable computer software for collecting, managing, searching, and viewing records of transactions or activities on computer systems; downloadable computer software for performing analytics on and monitoring application performance of proprietary and open source software applications; downloadable computer software for enabling artificial intelligence, generative artificial intelligence and machine learning; downloadable software using generative artificial intelligence, artificial intelligence, machine learning, vector search, contextual relevance and neural network transformer models; downloadable software using generative artificial intelligence, artificial intelligence, machine learning, vector search, contextual relevance and neural network transformer models to analyze, generate and present predictive analytics and data; downloadable software for use in technical data analysis in the fields of machine learning, generative artificial intelligence and artificial intelligence; downloadable software for generating predictive analytics and data using generative artificial intelligence, artificial intelligence, machine learning, vector search, contextual relevance and neural network transformer models.

Class 42:
Providing and operating of search engines; providing and operating computerised search applications and solutions; providing and operating of search engines for the Internet; providing and operating neural search engines; computerised neural search services; computerised deep learning search services; providing temporary use of non-downloadable computer software; providing temporary use of non-downloadable open source computer software; providing temporary use of non-downloadable computer software development tools; providing temporary use of non-downloadable software for cloud computing services; providing temporary use of non-downloadable computer software development tools to enable users to build search engines and information retrieval and processing systems; providing temporary use of non-downloadable computer software for searching; providing temporary use of non-downloadable software for searching and matching information across different content formats; providing temporary use of non-downloadable computer software to enable the searching of data; providing temporary use of non-downloadable application programming interfaces; providing temporary use of non-downloadable computer software for use in the field of neural networks, neural search engines, machine learning, deep learning and artificial intelligence; providing temporary use of non-downloadable computer software for neural networks, neural search engines, machine learning, deep learning and artificial intelligence; software as a service (SaaS); platform as a service (PaaS); software as a service (SaaS) and platform as a service (PaaS) for use in the field of search and search engines; software as a service [SaaS] featuring software for deep neural networks; platforms for artificial intelligence as software as a service [SaaS]; software as a service [SaaS] services featuring software for machine learning, deep learning and deep neural networks; providing temporary use of non-downloadable computer software for search engine optimisation and data mining; providing temporary use of non-downloadable computer software for creating searchable databases of information and data; providing temporary use of non-downloadable computer software for use in the field of search, logging, security, cybersecurity, observability and analytics; providing online non-downloadable software for use in searching, indexing, organizing, managing, processing, storing, retrieving, analyzing, and reporting information and data; providing online non-downloadable software for collecting, managing, searching, and viewing records of transactions or activities on computer systems; providing online non-downloadable software for performing analytics on and monitoring application performance of proprietary and open source software applications; providing temporary use of non-downloadable software for enabling artificial intelligence and machine learning; computer software technical support services; technical support services, namely, installation, administration, and troubleshooting of software applications; providing temporary use of non-downloadable software using artificial intelligence, generative artificial intelligence and machine learning; providing temporary use of non-downloadable software using generative artificial intelligence, artificial intelligence, machine learning, vector search, contextual relevance and neural network transformer models; providing temporary use of non-downloadable software using generative artificial intelligence, artificial intelligence, machine learning, vector search, contextual relevance and neural network transformer models to analyze, generate and present predictive analytics and data; providing temporary use of non-downloadable software for use in technical data analysis using artificial intelligence, generative artificial intelligence and machine learning; providing temporary use of non-downloadable software for generating predictive analytics and data using generative artificial intelligence, artificial intelligence, machine learning, vector search, contextual relevance and neural network transformer models; technical data analysis; data mining; data warehousing; data encryption services; development of databases and systems for storing data; engineering, development, programming, implementation, updating, maintenance, repair and design services for software, software packages, search engines and database systems; web hosting; server hosting; hosting of databases; cloud hosting provider services; computerised data storage services; cloud computing services; cloud storage services for electronic data; cloud computing and software as a service (SaaS) services, namely, hosting computer software applications of others for searching, indexing, organizing, managing, processing, storing, retrieving, analyzing and reporting information and data; technical support and consulting services relating to the above services; information, advisory and consultancy services relating to all the aforesaid services.

toolor

The mark consists solely of literal elements in Latin characters. The distinctive feature of the mark is the first letter "t", which contains two horizontal bars at the top instead of the usual single bar. The second bar is dynamic and functional and may be positioned at varying distances above the first bar depending on the graphic elements used in advertising campaigns. The

lettering is smooth and rounded. The mark has no meaning and therefore no translation.

Class 25:
Clothing; footwear; headwear.

Class 35:
Business management; business organization; business administration; office functions.

Office of Origin: TR

Date of International Registration: 04 March 2026
Date of Designation in the UK: 04 March 2026

NEOPRO

Class 3:
Bleaching preparations and cleaning substances, namely detergents, bleaching preparations, fabric softeners, stain removers and dishwashing preparations; perfumery; cosmetics; fragrances for personal use, including deodorants for humans and animals (excluding medicated cosmetics); soaps (excluding medicated soaps); dental care preparations, namely toothpastes, tooth polishing and whitening preparations and non-medicated mouthwashes; abrasives, namely emery cloth, sandpaper, pumice stones and abrasive pastes; polishing and care preparations for leather, vinyl, metal and wood, namely polishes, care creams and polishing wax.

Class 5:
Pharmaceutical and veterinary preparations; chemical products for medical and veterinary purposes; radioactive substances for medical purposes; medicated cosmetics; dietetic substances adapted for medical use and veterinary use; dietary supplements and food supplements for humans and animals; medical preparations for slimming purposes; baby food; medicinal

herbs and herbal beverages for medicinal purposes; dental preparations, namely dental filling materials, dental impression materials and adhesives and materials for repairing teeth and dental prostheses; sanitary preparations, namely sanitary pads, tampons, medical plasters, medical dressings and bandaging materials, diapers of paper or textiles for babies, adults and pets; preparations for destroying vermin, pests, harmful plants, fungi and rodents; deodorants other than for humans or animals; air purifying and deodorizing preparations; disinfectants; antiseptics; medicated detergents; medicated soaps; disinfectant soaps; antibacterial hand lotions.

Class 35:
Advertising, marketing and public relations; organization of exhibitions and trade fairs for commercial or advertising purposes; provision of an online marketplace for buyers and sellers of goods and services; office functions; secretarial services; arranging newspaper subscriptions for others; compilation of statistics; rental of photocopying machines; systemization of information into computer databases; telephone answering for unavailable subscribers; business management, business administration and business consultancy; accounting; commercial consultancy services; personnel recruitment, personnel placement, employment agencies, import-export agencies; temporary personnel placement services; auctioneering; the bringing together, for the benefit of others, of a variety of goods, namely, chemicals used in industry, science, photography, agriculture, horticulture and forestry, manures and soils, unprocessed artificial resins and unprocessed plastics, fire extinguishing compositions, adhesives not for medical, household and stationery purposes, paints, varnishes, lacquers, preservatives against rust, preservatives against deterioration of wood, thinners and binders for paints, pigments, preservatives for metals, shoe dyes, printing dyes and ink, toners (including filled toner cartridges), colorants for food, pharmaceuticals and beverages, raw natural resins, metals in foil and powder form for painters, decorators, printers and artists, bleaching and cleaning preparations, detergents other than for use in manufacturing operations and for medical purposes, laundry bleach, fabric softeners for laundry use, stain removers, dishwasher detergents, perfumery, non-medicated cosmetics, fragrances, deodorants for personal use and animals, soaps, dental care preparations: dentifrices, denture polishes, tooth whitening preparations, mouth washes, not for medical purposes, abrasive preparations, emery cloth, sandpaper, pumice stone, abrasive pastes, polishing preparations for leather, vinyl, metal and wood, polishes and creams for leather, vinyl, metal and wood, wax for polishing, industrial oils and greases, cutting fluids, dust absorbing, wetting and binding compositions, solid fuels: coal, firewood, liquid and gas fuels, petrol, diesel oil, liquified petroleum gas, natural gas, fuel oil and their non-chemical additives, candles, wicks, semi-finished wax, wax and paraffin for lighting purposes, electrical energy, pharmaceutical and veterinary preparations for medical purposes, chemical preparations for medical and veterinary purposes, chemical reagents for pharmaceutical and veterinary purposes, medicated cosmetics, dietary supplements for pharmaceutical and veterinary purposes, dietary supplements, nutritional supplements, medical preparations for slimming purposes, food for babies, herbs and herbal beverages adapted for medicinal purposes, dental preparations and articles: teeth filling material, dental impression material, dental adhesives and material for repairing teeth, sanitary preparations for medical use: hygienic pads, hygienic tampons, plasters, materials for dressings, diapers made of paper and textiles for babies, adults and pets, preparations for destroying vermin, herbicides, fungicides, preparations for destroying rodents, deodorants, other than for human beings or for animals, air purifying preparations, air deodorising preparations, disinfectants, antiseptics, detergents for medical purposes, medicated soaps, disinfectant soaps, antibacterial hand lotions, ores of non-precious metal, common metals and their alloys and semi-finished products made of these materials: irons for construction, mats and stirrups of common metals for buildings, common metals in the form of plate, billet, stick, profile, sheet and sheeting, goods and materials of common metal used for storage, wrapping, packaging and sheltering purposes, containers of metal (storage, transport), buildings of metal, frames of metal for building, poles of metal for building, metal boxes, packaging containers of metal, aluminium foil, fences made of metal, guard barriers of metal, metal tubes, storage containers of metal, metal containers for the transportation of goods, ladders of metal, goods of common metal for filtering and sifting purposes, included in this class, doors, windows, shutters, jalousies and their cases and fittings of metal, non-electric cables and wires of metal, ironmongery, small hardware of metal: screws of metal, nails, bolts of metal, nuts of metal, pegs of metal, flakes of metal, pitons of metal, metal chains, furniture casters of metal, fittings of metal for furniture, industrial metal wheels, door handles of metal, window handles of metal, hinges of metal, metal latches, metal locks, metal keys for locks, metal rings for carrying keys, metal pulleys, ventilation ducts, vents, vent covers, pipes, chimney caps, manhole covers, grilles of metal for ventilation, heating, sewage, telephone, underground electricity and air conditioning installations, metal panels or boards (non-luminous and non-mechanical) used for signalling, route showing, publicity purposes, signboards of metal, advertisement columns of metal, signaling panels of metal, non-luminous and non-mechanical traffic signs of metal, pipes of metal for transportation of liquids and gas, drilling pipes of metal and their metal fittings, valves of metal, couplings of metal for pipes, elbows of metal for pipes, clips of metal for pipes, connectors of metal for pipes, safes (strong boxes) of metal, metal railway materials, metal rails, metal railway ties, railway switches, bollards of metal, floating docks of metal, mooring buoys of metal, anchors, metal moulds for casting, other than machine parts, works of art made of common metals or their alloys, trophies of common metal, metal closures, bottle caps of metal, metal poles, metal pillars, scaffolding of metal, metal stakes, metal towers, metal pallets and metal ropes for lifting, loading and transportation purposes, metal hangers, ties, straps, tapes and bands used for load-lifting and load-carrying, wheel chocks made primarily of metal, metal profile laths for vehicles for the purposes of decoration, machines, machine tools and industrial robots for processing and shaping wood, metals, glass, plastics and minerals, 3D printers, construction machines and robotic mechanisms (machines) for use in construction: bulldozers, diggers (machines), excavators, road construction and road paving machines, drilling machines, rock drilling machines, road sweeping machines, lifting, loading and transmission machines and robotic mechanisms (machines) for lifting, loading and transmission purposes: elevators, escalators and cranes, machines and robotic mechanisms (machines) for use in agriculture and animal breeding, machines and robotic mechanisms (machines) for processing cereals, fruits, vegetables and food, machines for preparing and processing

beverages, engines and motors, other than for land vehicles, parts and fittings therefor: hydraulic and pneumatic controls for engines and motors, brakes other than for vehicles, brake linings for engines, crankshafts, gearboxes, other than for land vehicles, cylinders for engines, pistons for engines, turbines, not for land vehicles, filters for engines and motors, oil, air and fuel filters for land vehicle engines, exhausts for land vehicle engines, exhaust manifolds for land vehicle engines, engine cylinders for land vehicles, engine cylinder heads for land vehicles, pistons for land vehicle engines, carburetors for land vehicles, fuel conversion apparatus for land vehicle engines, injectors for land vehicle engines, fuel economisers for land vehicle engines, pumps for land vehicle engines, valves for land vehicle engines, starter motors for land vehicles, dynamos for land vehicle engines, sparking plugs for land vehicle engines, bearings (parts of machines), roller or ball bearings, machines for mounting and detaching tires, alternators, current generators, electric generators, current generators operated with solar energy, electric and gas-operated welding apparatus, electric arc welding apparatus, electric soldering apparatus, electric arc cutting apparatus, electrodes for welding machines, industrial robots (machines) with the abovementioned functions, printing machines, packaging machines, filling, plugging and sealing machines, labellers (machines), sorting machines, industrial robots (machines) with the abovementioned functions, electric packing machines for plugging and sealing of plastics, machines for textile processing, sewing machines, industrial robots (machines) with the abovementioned functions, pumps other than parts of machines or engines, fuel dispensing pumps for service stations, self-regulating fuel pumps, electric kitchen machines for chopping, grinding, crushing, mixing and mincing foodstuff, washing machines, laundry washing machines, dishwashers, spin driers (not heated), electric cleaning machines for cleaning floors, carpets or floorings, vacuum cleaners and parts thereof, automatic vending machines, galvanizing and electroplating machines, electric door openers and closers, gaskets for engines and motors, forks, spoons, knives and non-electric cutters, slicers, peelers for kitchen use, including those made of precious metals, side arms and blades (weapons), tools and apparatus included in this class for personal beauty care use: tools and apparatus included in this class for shaving, depilation, manicure and pedicure, electric hand implements for straightening and curling hair, scissors, hand-operated [non-electric] hand tools included in this class for the repair of machines, apparatus and vehicles and for use in construction, agriculture, horticulture and forestry, none of them being power tools, electric or non-electric irons, steam irons, handles for hand-operated hand tools, measurement apparatus and equipment including those for scientific, nautical, topographic, meteorologic, industrial and laboratory purposes, thermometers, not for medical purposes, barometers, ammeters, voltmeters, hygrometers, testing apparatus not for medical purposes, telescopes, periscopes, directional compasses, speed indicators, laboratory apparatus, microscopes, magnifying glasses, stills, binoculars, ovens and furnaces for laboratory experiments, apparatus for recording, transmission or reproduction of sound or images, cameras, photographic cameras, television apparatus, video recorders, CD and DVD players and recorders, MP3 players, computers, desktop computers, tablet computers, wearable technological devices (smart watches, wristbands, head-mounted devices) microphones, loudspeakers, earphones, telecommunications apparatus, apparatus for the reproduction of sound or images, computer peripheral devices, cell phones, covers for cell phones, telephone apparatus, computer printers, scanners [data processing equipment], photocopiers, magnetic and optical data carriers and computer software and programmes recorded thereto, downloadable and recordable electronic publications, encoded magnetic and optical cards, movies, TV series and video music clips recorded on magnetic, optical and electronic media, antennas, satellite antennas, amplifiers for antennas, parts of the aforementioned goods, ticket dispensers, automatic teller machines (ATM), electronic components used in the electronic parts of machines and apparatus: semi-conductors, electronic circuits, integrated circuits, chips [integrated circuits], diodes, transistors [electronic], magnetic heads for electronic apparatus, electronic locks, photocells, remote control apparatus for opening and closing doors, optical sensors, counters and quantity indicators for measuring the quantity of consumption, automatic time switches, clothing for protection against accidents, irradiation and fire, safety vests and life-saving apparatus and equipment, eyeglasses, sunglasses, optical lenses and cases, containers, parts and components thereof, apparatus and instruments for conducting, transforming, accumulating or controlling electricity, electric plugs, junction boxes [electricity], electric switches, circuit breakers, fuses, lighting ballasts, battery starter cables, electrical circuit boards, electric resistances, electric sockets, transformers [electricity], electrical adapters, battery chargers, electric door bells, electric and electronic cables, batteries, electric accumulators, solar panels for production of electricity, alarms and anti-theft alarms, other than for vehicles, electric bells, signalling apparatus and instruments, luminous or mechanical signs for traffic use, fire extinguishing apparatus, fire engines, fire hose and fire hose nozzles, radar apparatus, sonars, night vision apparatus and instruments, decorative magnets, metronomes, surgical, medical, dental and veterinary apparatus and instruments, furniture especially made for medical purposes, artificial limbs and prostheses, medical orthopaedic articles: corsets for medical purposes, orthopaedic shoes, elastic bandages and supportive bandages, surgical gowns and surgical sterile sheets, adult sexual aids, condoms, babies' bottles, babies' pacifiers, teats, gum massagers for babies, bracelets and rings for medical purposes, anti-rheumatism bracelets, anti-rheumatism rings, lighting installations, lights for vehicles and interior-exterior spaces, heating installations using solid, liquid or gas fuels or electricity: central heating boilers, boilers for heating installations, radiators [heating], heat exchangers, not parts of machines, stoves, kitchen stoves, solar thermal collectors [heating], steam, gas and fog generators: steam boilers, other than parts of machines, acetylene generators, oxygen generators, nitrogen generators, installations for air-conditioning and ventilating, cooling installations and freezers, electric and gas-powered devices, installations and apparatus for cooking, drying and boiling: cookers, electric cooking pots, electric water heaters, barbecues, electric laundry driers, hair driers, hand drying apparatus, sanitary installations: taps [faucets], shower installations, toilets [water-closets], shower and bathing cubicles, bath tubs, toilet seats, sinks, wash-hand basins [parts of sanitary installations], washers for water taps, stuffings (tap valves), water softening apparatus, water purification apparatus, water purification installations, waste water purification installations, electric bed warmers and electric blankets, not for medical use, electric pillow warmers, electric or non-electric footwarmers, hot water bottles, electrically heated socks, filters for aquariums and aquarium filtration apparatus, industrial type installations for cooking,

drying and cooling purposes, pasteurizers and sterilizers, motor land vehicles, motorcycles, mopeds, engines and motors for land vehicles, clutches for land vehicles, transmissions, transmission belts and transmission chains for land vehicles, gearing for land vehicles, brakes, brake discs and brake linings for land vehicles, vehicle chassis, automobile bonnets, vehicle suspension springs, shock absorbers for automobiles, gearboxes for land vehicles, steering wheels for vehicles, rims for vehicle wheels, bicycles and their bodies, handlebars and mudguards for bicycles, vehicle bodies, tipping bodies for trucks, trailers for tractors, frigorific bodies for land vehicles, trailer hitches for vehicles, vehicle seats, head-rests for vehicle seats, safety seats for children, for vehicles, seat covers for vehicles, vehicle covers (shaped), sun-blinds adapted for vehicles, direction signals and arms for direction signals for vehicles, windscreen wipers and wiper arms for vehicles, inner tubes and tires for vehicle wheels, tubeless tires, tire-fixing sets comprised of tire patches and tire valves for vehicles, windows for vehicles, safety windows for vehicles, rearview mirrors and wing mirrors for vehicles, anti-skid chains for vehicles, luggage carriers for vehicles, bicycle and ski carriers for cars, saddles for bicycles or motorcycles, air pumps for vehicles, for inflating tires, anti-theft alarms for vehicles, horns for vehicles, safety belts for vehicle seats, air bags (safety devices for automobiles), baby carriages, wheelchairs, pushchairs, wheelbarrows, shopping carts, single or multi-wheeled wheelbarrows, shopping trolleys, grocery carts, handling carts, rail vehicles: locomotives, trains, trams, waggons, cable cars, chairlifts, vehicles for locomotion by water and their parts, other than their motors and engines, vehicles for locomotion by air and their parts, other than their motors and engines, firearms, air pistols (weapons), spring-loaded firearms, adapted cases and shoulder straps therefor, heavy weapons, mortars and rockets, fireworks, sprays for personal defence purposes, jewellery, imitation jewellery, gold, precious stones and jewellery made thereof, cufflinks, tie pins, statuettes and figurines of precious metal, clocks, watches and chronometrical instruments, chronometers and their parts, watch straps, trophies made of precious metal, rosaries, musical instruments and cases for musical instruments, paper and cardboard, paper and cardboard for packaging and wrapping purposes, cardboard boxes, paper towels, toilet paper, paper napkins, plastic materials for packaging and wrapping purposes, printing blocks and types, bookbinding material, printed publications, printed matter, books, magazines, newspapers, bill books, printed dispatch notes, printed vouchers, calendars, posters, photographs [printed], paintings, stickers [stationery], postage stamps, stationery, office stationery, instructional and teaching material [except furniture and apparatus], writing and drawing implements, artists' materials, paper products for stationery purposes, adhesives for stationery purposes, pens, pencils, erasers, adhesive tapes for stationery purposes, cardboard cartons [artists' materials], writing paper, copying paper, paper rolls for cash registers, drawing materials, chalkboards, painting pencils, watercolors [paintings], office requisites, paint rollers and paintbrushes for painting, rubber, gutta-percha, gum, asbestos, mica and semi-finished synthetic goods made from these materials in the form of powder, bars, panels and foils included in this class, insulation, stopping and sealing materials: insulating paints, insulating fabrics, insulating tape and band, insulation covers for industrial machinery, joint sealant compounds for joints, gaskets, o-rings for sealing purposes (other than gaskets for motors, cylinders and washer for water taps), flexible pipes made from rubber and plastic, hoses made of plastic and rubber, including those used for vehicles, junctions for pipes of plastic and rubber, pipe jackets of plastic and rubber, hoses of textile material, junctions for pipes, not of metal, pipe jackets, not of metal, connecting hose for vehicle radiators, profile laths made of synthetic materials for vehicles for the purposes of decoration, unworked or semi-worked leather and animal skins, imitations of leather, stout leather, leather used for linings, goods made of leather, imitations of leather or other materials, designed for carrying items, included in this class, bags, wallets, boxes and trunks made of leather or stout leather, keycases, trunks [luggage], suitcases, umbrellas, parasols, sun umbrellas, walking sticks, whips, harness, saddlery, stirrups, straps of leather (saddlery), sand, gravel, crushed stone, asphalt, bitumen, cement, gypsum, plaster, concrete, marble blocks for construction, included in this class, building materials (as finished products) made of concrete, gypsum, clay, potters' clay, stone, marble, wood, plastics and synthetic materials for building, construction, road construction purposes, included in this class: non-metallic buildings, non-metallic building materials, poles, not of metal for power lines, barriers not of metal, natural and synthetic coverings in the form of panels and sheets, being building materials, bitumen cardboard for roofing, bitumen covering for roofing, doors and windows of wood and synthetic materials, traffic signs not of metal, non-luminous and non-mechanical, for roads, monuments and statuettes of stone, concrete and marble, building glass, prefabricated swimming pools not of metal (structures), aquarium sand, furniture, made of any kind of material, mattresses, pillows, air mattresses and cushions, not for medical purposes, water beds, mirrors, beehives, artificial honeycombs and sections of wood for honeycombs, bouncing chairs for babies, playpens for babies, cradles, infant walkers, display boards, frames for pictures and paintings, identity plates, identification bracelets, name plates, identification tags, made of wood or synthetic materials, packaging containers of wood or plastics, casks for use in transportation or storage, barrels, storage drums, tanks, boxes, storage containers, transportation containers, chests, loading pallets and closures for the aforementioned goods, of wood or plastics, small hardware goods of wood or synthetic materials included in this class, furniture fittings, of wood or synthetic materials, opening and closing mechanisms of wood or synthetic materials, ornaments and decorative goods of wood, cork, reed, cane, wicker, horn, bone, ivory, whalebone, shell, amber, mother-of-pearl, meerschaum, beeswax, plastic or plaster namely figurines, holiday ornaments for walls, sculptures, trophies, baskets, not of metal, fishing baskets, kennels, nesting boxes and beds for household pets, portable ladders and mobile boarding stairs of wood or synthetic materials, bamboo curtains, roller indoor blinds [for interiors], slatted indoor blinds, vertical indoor blinds, bead curtains for decoration, curtain hooks, curtain rings, curtain tie-backs, curtain rods, non-metal wheel chocks, hand-operated non-electric cleaning instruments and appliances: brushes, except paintbrushes, steel chips for cleaning, sponges for cleaning, steel wool for cleaning, cloths of textile for cleaning, gloves for dishwashing, non-electric polishing machines for household purposes, brooms for carpets, mops, toothbrushes, electric toothbrushes, dental floss, shaving brushes, hair brushes, combs, non-electric household or kitchen utensils, included in this class, [other than forks, knives, spoons], services [dishes], pots and pans, bottle openers, flower pots, drinking straws, non-electric cooking utensils, ironing boards and shaped covers therefor, drying racks for washing, clothes drying hangers, cages for household pets, indoor aquariums, vivariums and

indoor terrariums for animals and plant cultivation, ornaments and decorative goods of glass, porcelain, earthenware or clay namely statues, figurines, vases and trophies, mouse traps, insect traps, electric devices for attracting and killing flies and insects, fly catchers, fly swatters, perfume burners, perfume sprayers, perfume vaporizers, electric or non-electric make-up removing appliances, powder puffs, toilet cases, nozzles for sprinkler hose, nozzles for watering cans, watering devices, garden watering cans, unworked or semi-worked glass, except building glass, mosaics of glass and powdered glass for decoration, except for building, glass wool other than for insulation or textile use, ropes, strings, rope ladders, hammocks, fishing nets, tents, awnings, tarpaulins, sails, vehicle covers, not fitted, bags of textile, for packaging, padding and stuffing materials, except of rubber and plastics, including those of wool and cotton, synthetic fibers for textile use, raw spun fiber, glass fibers for textile use, yarns and threads for textile use, threads and yarns for sewing, embroidery and knitting, thread, elastic yarns and threads for textile use, woven or non-woven textile fabrics, textile goods for household use: curtains, bed covers, sheets (textile), pillowcases, blankets, quilts, towels, flags, pennants, labels of textile, swaddling blankets, sleeping bags for camping, clothing, including underwear and outerclothing, other than special purpose protective clothing, socks, mufflers [clothing], shawls, bandanas, scarves, belts [clothing], footwear, shoes, slippers, sandals, headgear, hats, caps with visors, berets, caps [headwear], skull caps, laces and embroidery, guipure lace, festoons, ribbons (haberdashery), ribbons and braid, reinforcing tapes for clothing, cords for clothing, letters and numerals for marking linen, embroidered emblems, badges for wear, not of precious metal, shoulder pads for clothing, buttons for clothing, fastenings for clothing, eyelets for clothing, zippers, buckles for shoes and belts, rivet buttons, adhesive tapes [haberdashery], fasteners, pins, other than jewellery, needles, sewing needles, needles for sewing machines, lacing needles, needles for knitting and embroidery, boxes for needles, needle cushions, artificial flowers, artificial fruits, hair pins, hair buckles, hair bands, decorative articles for the hair, not made of precious metal, wigs, hair extensions, electric or non-electric hair curlers, other than hand implements, carpets, rugs, mats, prayer rugs, linoleum, artificial turf, linoleum for covering floors, gymnasium mats, wallpaper, wall hangings not of textile games and toys, arcade video game machines, game apparatus and machines for use with an external display screen and monitor, including those coin-operated, toys for animals, toys for outdoor playgrounds, parks and game parks, gymnastic and sporting articles, fishing tackle, artificial fishing bait, decoys for hunting and fishing, artificial Christmas trees, ornaments for Christmas trees, artificial snow for Christmas trees, rattles (playthings), novelties for parties, novelty toys for playing jokes and for parties, paper party hats, meat, fish, poultry and game, processed meat products, dried pulses, soups, bouillon, processed olives, olive paste, milks of animal origin, milks of herbal origin, milk products, butter, edible oils, dried, preserved, frozen, cooked, smoked or salted fruits and vegetables, tomato paste, prepared nuts and dried fruits as snacks, hazelnut spreads and peanut butter, tahini (sesame seed paste), eggs and powdered eggs, potato chips, coffee, cocoa, coffee or cocoa based beverages, chocolate based beverages, pasta, stuffed dumplings, noodles, pastries and bakery products based on flour, desserts based on flour and chocolate, bread, simit [Turkish ring-shaped bagel covered with sesame seeds], poğaça [Turkish bagel], pita, sandwiches, katmer [Turkish pastry], pies, cakes, baklava [Turkish dessert based on dough coated with syrup], kadayif [Turkish dessert based on dough], desserts based on dough coated with syrup, puddings, custard, kazandibi [Turkish pudding], rice pudding, keşkül [Turkish pudding], honey, bee glue for human consumption, propolis for food purposes, condiments for foodstuff, vanilla (flavoring), spices, sauces (condiments), tomato sauce, yeast, baking powder, flour, semolina, starch for food, sugar, cube sugar, powdered sugar, tea, iced tea, confectionery, chocolate, biscuits, crackers, wafers, chewing gums, ice-cream, edible ices, salt, cereal-based snack food, popcorn, crushed oats, corn chips, breakfast cereals, processed wheat for human consumption, crushed barley for human consumption, processed oats for human consumption, processed rye for human consumption, rice, molasses for food, agricultural and horticultural products, seeds, forestry products, live animals, fertilized eggs for hatching, plants, dried plants for decoration, fresh garden herbs, dried garden herbs for decoration, animal foodstuffs, malt not for human consumption, underlays for pets, cat litters, beers, preparations for making beer, mineral water, spring water, table water, soda water, fruit juices and vegetable juices [beverages], fruit and vegetable concentrates for making beverages and non-alcoholic fruit extracts for making beverages, soft drinks, energy drinks, protein-enriched sports beverages, alcoholic beverages (except beers), wines, raki [traditional Turkish alcoholic drink], whisky, liqueurs, alcoholic cocktails, tobacco, chewing tobacco, cigarettes, cigars, smokers' articles including those made of precious metals: pipes, mouthpieces for cigars and cigarettes, ashtrays, tobacco boxes, pocket apparatus for rolling cigarettes, cigarette paper, tobacco pipes, firestones, lighters for smokers, electronic cigarettes and their cartridges, matches, enabling customers to conveniently view and purchase those goods, such services may be provided by retail stores, wholesale outlets, by means of electronic media or through mail order catalogues.

Class 44:
Medical services; beauty care services; veterinary services; animal breeding; animal husbandry; farrier services; agriculture, horticulture and forestry services; landscape design services; consultancy relating to workplace and personnel health.

FUJIFILM PRESCALE MOTION

International priority date claimed: 10 April 2026 (JP) (2026-040786)

Class 9:
Electronic machines, apparatus and their parts, namely, computers, computer hardware, computer peripheral devices, tablet computers, computer terminals, scanners, electronic components, display units for computers, semi-conductor elements, image sensors, other than for medical use, image processors; computers and their peripherals; pressure measuring apparatus in the form of film; computer programs; computer programs for pressure image analysis; measuring or testing machines and instruments; sensors [measurement apparatus], other than for medical use; image sensors (other than for medical purposes); photographic apparatus and instruments; cinematographic machines and apparatus; optical machines and apparatus; optical readers; computer software for processing digital images; computer programs and software for image processing used for mobile phones; computer software for converting document images into electronic formats; software for processing images, graphics and text; image and video frequency apparatus; visual display units; image recognition software; electronic imaging devices; computer programs for receiving and storing music and image files via telecommunication lines; apparatus for measuring surfaces and shapes; optical measuring instruments; pressure measuring apparatus; electronic data recorders for recording measured values; measuring glassware; measuring instruments; optical detectors for measurement; luminescence measuring devices; precision measuring machines and instruments; color difference measuring instruments; telemetering apparatus; laboratory apparatus and instruments; light boxes for photography; cameras; camera lenses; optical lenses; electric cables; data cables; video cables; telecommunication cables; electronic cables; cables, electric; sheet-type tactile sensors for measuring pressure distribution; sheet-type apparatus for measuring pressure distribution; downloadable image files; pre-recorded data carriers for use with computers; computer software for data and document capture, transmission, storage and indexing; telecommunication machines and apparatus; radio communication machines and apparatus; portable radio communication machines and apparatus.

Class 42:
Designing of machines, apparatus, instruments [including their parts] or systems composed of such machines, apparatus and instruments; computer software design, computer programming, or maintenance of computer software; technological advice relating to computers, automobiles and industrial machines; testing or research on machines, apparatus and instruments; rental of measuring apparatus; rental of computers; providing computer programs on data networks; software as a service [SaaS]; providing online non-downloadable computer software; hosting computer websites; providing computer programs for pressure image analysis; providing computer programs for data analysis; cloud computing for storing, analyzing and sharing pressure measurement data and information; cloud computing; providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; rental of operating software for accessing and using cloud computing networks; consultancy, advisory and information services relating to cloud computing; electronic storage of data, drawings, documents, digital photographs, music, images, videos and electronic data by means of cloud computing; scanning of images [conversion from physical to electronic media]; electronic storage of digital images; providing computer programs for digital image processing; electronic storage services for archiving databases, images and other electronic data; conversion of electronic data formats to photographic images; image processing software design; design of analytical and measuring instruments; calibration of analytical apparatus; rental of measuring apparatus and instruments; creation of control programs for automated measurement, assembly, adjustment and related visualization; rental of laboratory apparatus and instruments; rental of server memory space via computer communication networks; data processing using computers; design and development of data processing systems; rental of data processing programs; rental of data processing apparatus; electronic storage of electronic data by computers.

Class 9:
Operating computer software for main frame computers; monitors (computer hardware); computer hardware; apparatus for recording images; monitors (computer programs); computer game programs; recorded computer game programs; communications servers (computer hardware); electronic components for gambling machines; computer application software featuring games and gaming; computer software for the administration of on-line games and gaming; computer hardware for games and gaming; computer systems; computer operating system software; computer terminals; interactive terminals; multimedia terminals; electronic terminals for generating lottery tickets; interactive touch screen terminals; computer touchscreens; electronic display panels; liquid crystal display screens; digital signage display panels; multimedia apparatus and instruments; interactive multimedia software for playing games; computer screens; lcd large-screen displays; liquid crystal displays [lcds] for home theatres; media streaming software; computer application software for streaming audio-visual media content via the internet; software; computer gaming software; computer software packages; computer software, recorded; software drivers; virtual reality software; games software; entertainment software for computer games; computer programs for network management; electronic lottery tickets; computer software platforms; operating systems; interactive computer systems; operating system programs; computer game software for use with on-line interactive games; interactive casino games provided through

a computer or mobile platform; electronic ticket examination machines; computer hardware and software for gambling, gambling machines, gambling games on the internet and via telecommunication network; software for slot machines, betting software, software for video slot games, for casino games, for gambling and bingo games, that can be played online and on any type of computer device, including arcade games, personal computers, portable devices and mobile phones; multimedia software.

Class 28:
Gaming machines for gambling; chips for gambling; mah-jong; arcade games; gambling machines operating with coins, notes and cards; games; electronic games; parlor games; gaming chips; gaming tables; slot machines [gaming machines]; LCD game machines; slot machines and gaming devices; coin-operated amusement machines; roulette chips; poker chips; chips and dice [gaming equipment]; gaming equipment for casinos; roulette tables; gaming roulette wheels; casino games; gambling machines and amusement machines, automatic and coin-operated; coin-operated amusement machines and / or electronic coin-operated amusement machines with or without the possibility of gain; boxes for coin-operated amusement machines, slot machines and gaming machines; electronic or electrotechnical amusement machines and apparatus, gaming machines, coin-operated entertainment machines; housings for coin-operated amusement machines, gaming equipment, gaming machines, machines for gambling; electropneumatic and electrical gambling machines (slot machines); electronic targets for games and sports; lottery tickets; lottery scratch cards; scratch cards for playing lottery games; parlor game equipment and accessories therefor, included in this class, in particular gaming tokens, chips and marbles; parlor games, game apparatus and equipment, and accessories therefor, included in this class, in particular electronic targets, backgammon games, scratch cards, playing cards, lottery cards, dice.

Class 41:
Gambling; gaming services for entertainment purposes; casino, gaming and gambling services; training in the development of software systems; provision of gaming equipment for gambling halls; providing casino equipment [gambling]; gaming machine entertainment services; providing casino facilities [gambling]; amusement arcade services; games equipment rental; rental of gaming machines; providing amusement arcade services; rental of gaming machines with images of fruits; editing or recording of sounds and images; sound recording and video entertainment services; hire of sound reproducing apparatus; provision of gaming equipment for casinos; online gambling services; entertainment services related to exploitation of amusement arcades, on-line casinos and on-line betting services via websites; online interactive entertainment; on-line casino services; online game services through mobile devices; providing online entertainment in the nature of game tournaments; providing on-line information in the field of computer gaming entertainment; sports betting services; online sports betting services; lottery services; organization of lotteries; conducting lotteries; prize draws [lotteries]; conducting lotteries for others; providing slot machine parlors; rental of slot machines [gaming machines]; providing online games and games of chance.

International priority date claimed: 20 August 2026 (SG) (40202622280Y)

Class 5:
Biochemical preparations for medical purposes; biochemicals for pharmaceutical use; biochemicals for use as indicators for medical use; biological preparations for medical purposes; biological reagents for medical or veterinary purposes; chemicals for medical purposes; chemicals for pharmaceutical use; diagnostic agents for medical purposes; diagnostic preparations and materials for medical and veterinary purposes; diagnostic products for medical purposes; dyes for medical purposes; fluorescent dyes for medical purposes; in vitro diagnostic preparations for medical purposes; intravenous solutions for medical purposes; pharmaceuticals, medical and veterinary preparations; pharmaceuticals; preparations for medical diagnostic purposes; preparations for medical purposes; preparations for use in analysis for medical purposes; radiological contrast media for medical purposes; radiological contrast substances for medical purposes; radiological preparations for medical purposes; reagents for medical purposes; surgical dyes; universal reagents for automated test systems for medical purposes.

Class 9:
Apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; ancillary input and output devices for computers; application software; artificial intelligence software; bioinformatics software; biosensors based on fluorescence-optical principles of measurement; cameras; cloud servers; computers and computer peripheral devices; computer hardware; computer software; computer programs [downloadable software]; computer programs for scientific data analysis; computer software to enable searching and retrieval of data; data processing software; diagnostic imaging apparatus, other than for medical use; digital cameras for industrial use; digital cameras; downloadable application software for cloud computing; downloadable cloud computing software; downloadable computer software using artificial intelligence in the field of medical diagnosis; downloadable computer software using artificial intelligence for data analysis; downloadable computer software using machine learning for data analysis; downloadable computer software; downloadable machine learning software for analysis; downloadable machine learning software for healthcare; downloadable medical imaging software; downloadable mobile apps; downloadable software for the analysis of business data; electric power supplies for endoscopes for medical purposes; electronic hardware for image processing; electronic imaging devices; endoscopes for industrial use; endoscopes for technical purposes; firmware; fluorescence microscopes; gamma cameras, not for medical purposes; imaging apparatus; imaging installations; measuring apparatus and instruments; measuring apparatus for photometric analysis, other than for medical use; measuring apparatus for spectroscopic analysis, other than for medical use; microscopes for medical use; optical imaging apparatus, other than for medical use; optical microscopes; optical viewing apparatus, other than for medical use; oscilloscopes; portable electronic apparatus for the analysis of machine data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; real-time data processing apparatus; remote control apparatus for cameras; remotely controlled cameras and other remotely controlled sensors; retinal cameras, other than for medical use; scanning apparatus, other than for medical use; scientific apparatus and instruments; scientific apparatus for diagnostic testing of biological samples; scientific apparatus for industry; scientific apparatus for use in analytical tests; scientific apparatus for use in diagnostic applications; scientific apparatus for use in laboratories; scientific apparatus for use in the processing of histological specimens; scientific electronic apparatus; scientific research and laboratory apparatus; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; sensor apparatus, other than for medical use; sensors for real time data input apparatus; sensors for real time data output apparatus; software as a medical device [SaMD], downloadable; software for diagnostics and troubleshooting; software; sound amplifying apparatus; sound monitoring apparatus; sound recording apparatus; surgical microscopes; surgical training simulators; teaching apparatus relating to medical matters; test apparatus for scientific use; thermal imaging apparatus, other than for medical use; thermal imaging cameras; thermographic apparatus, other than for medical use; thermography apparatus; ultrasonic diagnostic apparatus for laboratory use; ultrasonic measuring apparatus; ultrasonic testing apparatus, other than for medical use; ultrasound diagnostic apparatus, not for medical purposes; ultrasound imaging devices, other than for medical use; virtual reality software for medical teaching; visual display apparatus; visual inspection apparatus; visual monitoring apparatus; visualization apparatus; wearable cameras; X-ray film imaging apparatus, other than for medical use; X-ray fluorescence analysers.

Class 10:
Analysing apparatus for medical purposes; apparatus for analysing images for medical use; apparatus for medical analysis; apparatus for medical diagnostic purposes; apparatus for medical image formation; diagnostic imaging apparatus for medical use; diagnostic tools for medical purposes; electrical appliances for surgical purposes; electromedical apparatus; electronic apparatus for medical use with computers; electronic medical apparatus; endoscopy cameras for medical purposes; fiberscopes for medical use; gamma cameras for medical purposes; imaging apparatus for medical use; magnetic resonance imaging [MRI] apparatus for medical purposes; measuring apparatus for medical use; ophthalmic cameras for medical purposes; optical imaging apparatus for medical diagnostic use; orthopaedic articles; retinal cameras for medical use; scanning apparatus for medical use; sensor apparatus for medical use in diagnosis; surgical, medical, dental and veterinary apparatus and instruments; suture materials; television cameras adapted for medical use; thermal image

apparatus for medical use; thermographic apparatus for medical purposes; ultrasonic diagnostic apparatus for medical purposes; ultrasonic imaging apparatus for medical purposes; ultrasonic testing apparatus for medical use; X-ray apparatus for medical purposes.

Class 37:
Installation, repair, upgrading and maintenance of medical imaging equipment; installation, repair, upgrading and maintenance of hardware and apparatus for medical imaging systems; installation, repair, upgrading and maintenance of hardware and apparatus for imaging systems; installation, repair, upgrading and maintenance of computer hardware and peripherals; maintenance and repair of medical instruments, apparatus and equipment; the provision of information, advice, technical support services, namely, troubleshooting in the nature of computer hardware repair and maintenance, and consultancy relating to all of the aforesaid.

Class 42:
Analysis of statistical data for scientific research; biomedical research services; clinical surgery research; clinical research; computer programming in the medical field; computer programming for data analysis; computer software integration; computerised technical data analysis; design and development of computer software for use with medical technology; design and development of medical diagnostic apparatus; design and development of medical technology; design and development of software for importing and managing data; design and development of testing and analysis methods; integration of computer systems and computer networks; medical research laboratory services; medical research and development; rental of software for importing and managing data; research and development services; research and development in the field of artificial intelligence; research and development in the field of pharmaceuticals; research and development of computer hardware; research and development of computer software; scientific and technological services and research and design relating thereto; scientific research and development; scientific research for medical purposes; software as a service [SaaS] featuring software for artificial intelligence; technical data analysis services; installation, repair and maintenance of firmware; installation, maintenance, updating, upgrading and repair of computer software; the provision of information, advice, computer software technical support services, and consultancy relating to all of the aforesaid.

3 Dimensional Indication

Class 9:
Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded

and downloadable media, computer software, blank digital or analogue recording and storage media; information technology and audiovisual equipment; magnets, magnetizers and demagnetizers; apparatus, instruments and cables for electricity; optical devices, enhancers and correctors; safety, security, protection and signalling devices; navigation, guidance, tracking, targeting and map making devices; measuring, detecting and monitoring instruments, indicators and controllers; automatic indicators of low pressure in vehicle tyres; mileage recorders for vehicles; eyewear, spectacle cases, binoculars, magnifying glasses [optics]; sunglasses; mobile phone case with cords; mobile phone chains; covers for smartphones; vehicle breakdown warning triangles; vehicle breakdown warning lamps, other than parts of vehicles; batteries, electric and parts therefor; accumulators, electric and parts therefor; fuel cells and parts therefor; solar batteries; batteries, electric, for vehicles; chargers for batteries, electric; burglar alarms; fire alarms; smoke alarms; gas alarms; fire extinguishers; scales; spirit levels; electronic control devices and power supply apparatus for vehicle headlights and parts therefor; light-emitting diodes [LED]; electronic power controllers; electric and electronic controllers; regulating apparatus and control instruments; simulators for the steering and control of vehicles; artificial intelligence software for vehicles; voltage regulators for vehicles; speed indicators; revolution counters; thermometers; parking meters; measuring apparatus and measuring instruments; lifesaving apparatus and equipment, namely life-saving rafts, fire escapes, safety nets, safety tarpaulins, life belts, life buoys, life jackets; electrical fuses; relays, electric; laser, not for medical purposes, laser pointers; remote control apparatus, remote controls; aerials; navigation apparatus for vehicles [on-board computers]; mobile telephones; telephone apparatus; television apparatus; video telephones; radios; directional compasses; navigating apparatus [compasses]; navigational instruments; telematic apparatus; telematic terminal apparatus; magnetic, electronic and optical recording media, phonograph records, compact discs, DVDs and other digital recording media; sound recording carriers, juke boxes, musical, compact discs [read-only memory]; downloadable music files; headphones; loudspeakers; cabinets for loudspeakers; signs, luminous; compact disc players; DVD players; phototelegraphy apparatus; projection apparatus; cameras [photography]; films, exposed; film cameras; photocopiers; electronic translation apparatus (computers); electronic pocket translators; encoded magnetic cards; integrated circuit cards [smart cards]; encoded telephone cards; coin-operated mechanisms; automated teller machines [ATM]; cash registers, calculating devices; data processing equipment; computers; electronic agendas; facsimile machines; monitors [computer hardware] and monitors [computer programs]; computer peripheral devices; computer programs for use in the autonomous driving of vehicles; computer programs for use in the autonomous navigation of vehicles; computer programs for use in the autonomous control of vehicles; computer programs, recorded and downloadable, for the compilation of electronic data; computer software platforms, recorded or downloadable; software; application software; mobile Apps; games software; downloadable interactive entertainment software for playing video games; video games [computer games] in the form of computer programs recorded on data carriers; pocket calculators; downloadable computer programs that can virtually represent goods in the form of, parts and accessories of vehicles, clothing, toys, sporting articles and equipment as well as art objects for use in online virtual worlds; digital collectibles in the nature of downloadable virtual goods in the form of vehicle parts and accessories, clothing, toys, sporting goods and equipment as well as art objects, authenticated by non fungible tokens (NFTs) using blockchain-based software technology, for use in virtual environments; digital collectibles in the nature of downloadable image and video files, arts, entertainment, sports and popular culture, authenticated by non fungible tokens (NFTs) using blockchain-based software technology; digital material, namely unique downloadable data units as unique creative work in the fields of automotive industry, art, entertainment, sports and pop culture; crash test dummies; microscopes; cables, electric; socket outlets; igniting apparatus, electric, for igniting at a distance; electronic locks; electronic controllers and electronic control systems; security tokens [encryption devices]; covers for tablet computers; black boxes [data recorders]; digital weather stations; charging stations for electric vehicles; interactive touch screen terminals; smart rings; electric and electronic effects units for musical instruments; audio interfaces; equalizers [audio apparatus]; parking sensors for vehicles; teaching robots; humanoid robots with artificial intelligence; personal digital assistants [PDAs]; rearview cameras for vehicles; electric wiring harnesses for vehicles; telecommunication apparatus in the form of jewellery; data gloves; parts and fittings of all aforesaid goods, included in this class

Class 12:
Powertrains, including engines and motors, for land vehicles; propulsion mechanisms for land vehicles; chassis for vehicles; couplings for land vehicles; shock absorbers for vehicles; shock absorbing springs for vehicles; pneumatic tyres; tyres for vehicle wheels; rims for vehicle wheels; solid rubber tyres for vehicle wheels; vehicle wheels; hubs for vehicle wheels; lug nuts for vehicle wheels; inner tubes for pneumatic tyres; casings for pneumatic tyres; tyre mousse inserts; repair outfits for inner tubes, adhesive rubber patches for repairing inner tubes; spikes for tyres; tire snow chains [land vehicle parts]; non-skid devices for vehicle tyres; vehicle seats; rearview mirrors; head rests for vehicle seats; security systems for vehicles [other than locks]; anti-theft devices for vehicles; cigar lighters for automobiles; trailers and semi trailers for vehicles; trailer hitches for vehicles; omnibuses; motorcycles; mopeds; bicycles; electric bicycles; camera drones; helicams; cable transport apparatus and installations; carts, shopping trolleys, luggage carts, trolleys for hand traction, trolleys [mobile carts]; aircraft; boats, ships; locomotives; motor buses; caravans; tractors; two-wheeled vehicles, scooters [vehicles]; self-balancing boards; self-balancing electric unicycles; self-balancing one wheeled electric scooters; chairlifts, cableways; wheelchairs; prams; small wagons for transporting children; clips adapted for fastening automobile parts to automobile bodies; tumbler holders adapted for use in motor vehicles; parts and accessories for all the above-mentioned goods, included in this class.

Class 14:
Precious stones, pearls, precious metals and imitations thereof; jewellery; chronometers and clocks; wristwatches, stopwatches, pocket watches, cases for clock- and watchmaking; jewelry cases [caskets or boxes]; bracelets made of embroidered textile [jewellery]; tie pins; cuff links; pins [jewellery]; other goods made of precious metals and precious stones and imitations thereof, namely statues, figures, ornaments, coins, tokens of value, works of art made of precious metal, key rings;

charms for key rings; metal key fobs; leather and imitation leather key fobs; key fobs, not of metal; jewel cases; jewellery charms; metal key rings; hat ornaments of precious metal; shoe jewellery; rosaries; misbaha [prayer beads]; parts and accessories for all the above mentioned goods, included in this class.

Class 16:
Paper and cardboard; drawing materials and materials for artists; filtering materials of paper; bags and articles for packaging, wrapping and storage of paper, cardboard or plastics; bookbinding material; photographs [printed]; stationery; adhesives for stationery or household purposes; artists' materials; brushes for the application of paints; typewriters, electric or non-electric; writing instruments and office requisites, except furniture; teaching materials [except apparatus]; plastic materials for packaging; printing fonts; printing blocks; atlases; calendars; advent calendars; geographical maps; printed publications; printed promotional material; notebooks; postcards; bookmarkers; notepads; document holders [stationery]; pens; ball pens and pencils; flags of paper; table napkins of paper; copying paper [stationery]; toilet paper; paper handtowels; wrapping paper; ink; stamps [seals]; drawing instruments; drawing material; painters' easels; paintings [pictures], framed or unframed; modelling materials; banners of paper; parts and fittings of all the aforementioned goods included in this class.

Class 18:
Luggage, bags, wallets and carrying bags; umbrellas and parasols; walking sticks; trunks and suitcases; bags included in this class, especially sport bags, attaché cases and handbags; rucksacks; pocket wallets, purses; toiletry bags; key cases; saddlebags; clothing for pets; saddlery, whips and clothing for pets; bags [envelopes, pouches] of leather, for packaging; labels of leather; tefillin [phylacteries]; leather, unworked or semi-worked; animal skins, hides; luggage tags [leatherware]; parts and fittings of all the aforementioned goods included in this class.

Class 25:
Headwear; clothing; footwear; polo shirts; combinations [clothing]; tee-shirts; coats; jackets [clothing]; bandanas [neckerchiefs]; pants; trousers; layettes [clothing]; bathing suits; raincoats; theatrical costumes; shoes; football shoes; hats; caps being headwear; stockings; gloves [clothing]; shawls and stoles; neckties; belts [clothing]; shower caps; foundation garments.

Class 35:
Retail and wholesale services in relation to, vehicle parts and accessories, motors and power units for land vehicles, chassis for land vehicles, and tires for vehicle wheels; retail and wholesale services for mail order in relation to vehicle parts and accessories, motors and power units for land vehicles, chassis for land vehicles and tires for vehicle wheels; retail and wholesale services via the internet in relation to vehicle parts and accessories, motors and power units for land vehicles, chassis for and tires for vehicle wheels; retail and wholesale services relating to teleshopping consignments in relation to vehicle parts and accessories, motors and power units for land/farm vehicles, chassis for land/farm vehicles and tires for vehicle wheels; the bringing together, but not transporting, of a variety of vehicle parts and accessories, motors and engines for land vehicles, vehicle chassis and tires for vehicle wheels for the benefit of others, enabling customers to view and purchase the goods in a retail outlet; mediation of contracts for third parties on the purchase and sale of motor vehicle parts and accessories, engines and powertrains for land vehicles, chassis for vehicles and tires for vehicle wheels; business management of transportation fleet [for others]; commercial information and advice for consumers [consumer advice shop]; administrative order processing; arranging of contracts for others for the buying and selling of goods; business management and organization consultancy; assistance, advisory services and consultancy with regard to business management; advertising; marketing; business management; business administration; clerical services; personnel management consultancy; radio and television advertising; organization of trade fairs for commercial or advertising purposes; news clipping services; presentation of goods on communication media, for retail purposes; public relations; compiling indexes of information for commercial or advertising purposes; auctioneering; sales promotion for others; promotion of goods and services through sponsorship of sports events; personnel recruitment; administrative services for the relocation of businesses; book keeping; sponsorship search

Class 37:
Building, construction and demolition; installation, cleaning, repair and maintenance relating to machines and motor vehicles; rental of tools, machines and equipment for construction, demolition, cleaning and maintenance; mining; oil and gas extraction; extermination, disinfection and pest control; conversion, repair, servicing, dismantling, maintenance, care, cleaning and painting of vehicles, motors [except painting], wheels for vehicles and parts therefor; vehicle fueling services; vehicle breakdown repair services; custom conversion of motor vehicle bodies, chassis, motors and engines (tuning), included in this class; painting of vehicles; vehicle polishing; anti-rust treatment for vehicles; vehicle maintenance; vehicle cleaning; retreading of tyres; maintenance, cleaning and repair of boilers and burners; repair information; construction information; installation of doors and windows; quarrying services; machinery installation, maintenance and repair; airplane maintenance and repair; shipbuilding; photographic apparatus repair; clock and watch repair; repair of security locks; rustproofing; furniture maintenance; leather care, cleaning and repair; disinfecting; burglar alarm installation and repair; consultancy and information relating to the above-mentioned services, included in this class.

Class 39:
Transport; packaging and storage of goods; arranging of transportation for travel tours; travel and passenger transportation; towing; taxi transport; transport by motor vehicles; transportation logistics; vehicle rental, especially rental of automobiles; transport of persons, in particular by buses; car sharing services; arranging of passenger transportation services for others via an online application; freight brokerage services; delivery of goods and packages; storage of electricity; electricity distribution; traffic information; controlling of fleet vehicles using electronic navigational and positioning apparatus.

Class 41:
Class 41 Publishing and reporting; education, entertainment and sport services; translation and interpretation; training;

sporting and cultural activities; arranging and conducting cultural and/or sporting events; promotion of talent and young talent through training and further training consultancy; presentation of live performances; conducting games on computer networks and the Internet; academies [education]; education information; organization of competitions [education or entertainment]; organization, arranging and conducting of colloquia, conferences, congresses and symposiums, seminars and workshops [training]; organization of exhibitions for cultural or educational purposes; coaching [training]; vocational retraining; organization of sports competitions; lending library services; publication of books; online publication of electronic books and journals; club services [entertainment or education]; animal training; organization of lotteries; consultancy and information relating to the abovementioned services, included in this class

Class 43:
Services for providing food and drink; temporary accommodation.

Gray, blue and white

Class 3:
Bleaching preparations and other substances for laundry use; products for cleaning, preparations for polishing, degreasing products, and products for sharpening; soaps; perfumery products, essential oils, beauty and body and care products, hair lotions; dentifrices.

Class 5:
Pharmaceutical and veterinary products; sanitary preparations for medical use; dietetic substances and foodstuffs for medical or veterinary use, food for babies; food supplements for humans and animals; plasters, material for dressings; materials for dental fillings and dental impressions; disinfectants; products for destroying vermin; fungicides, herbicides.

Class 9:
Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission and/or reproduction of sounds and/or images; magnetic recording media and sound recording disks; compact disks, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; software for computers; fire-extinguishing apparatus.

Class 10:
Surgical, medical, dental and veterinary apparatus and instruments, artificial limbs, eyes and teeth; orthopedic articles; suture materials; babies' pacifiers (teats); pacifier clips; feeding bottles; feeding bottle teats.

Class 16:
Paper and cardboard; printed matter; bookbinding material; photographs (printed); stationery; adhesives for stationery or household purposes; artists' materials; paintbrushes; typewriters and office requisites (except furniture); instructional or teaching material (except apparatus); plastic materials for packaging (included in this class); printing type; printing blocks.

Class 18:

Leather and imitations of leather; animal skins and hides; traveling bags and trunks; umbrellas and parasols; walking sticks; whips, harness and saddlery; baby-changing bags.

Class 25:
Clothing, footwear, headwear.

Class 28:
Games, toys; dolls; gymnastic and sporting articles included in this class; christmas tree ornaments and decorations.

Class 35:
Advertising; business management; administration of commercial affairs; office functions.

Class 36:
Financial, monetary and banking services; insurance services; real estate services.

Class 41:
Teaching; training services; entertainment services; sporting and cultural activities.

Class 42:
Medical research; scientific research services for medical purposes; pharmaceutical research and development services; scientific and technological services as well as research and design services relating thereto; industrial analysis and industrial research services; design and development of computer hardware and software.

Class 43:
Provision of food and accommodation in specialized health resorts for the promotion of well-being and the general state of customers' health; services for providing food and drink for patients or clients; accommodation services in physical rehabilitation and motor re-education centers; services for providing food and beverages.

Class 44:
Medical and surgical services; sports medicine services; medical and health care clinic services; medical clinic services; sanatorium services; medical assistance; medical laboratory services for the analysis of samples taken from patients; medical assistance consultancy provided by doctors and other specialized medical personnel; beauty care services for human beings; clinic and hospital services; health care services provided by spas; home nursing aid services; individual counseling and medical services provided to patients; advice with respect to health; provision of health care information by telephone and the Internet; provision of information relating to medical services; provision of information relating to medicine preparation and dispensing.

digital photo frames, albums, photograph mounting materials, calendars, postcards, photograph storage boxes, metal cases for photograph storage, photographic film storage boxes, metal cases for photographic film storage, decorative stickers for cameras, and decorative stickers for photographs in virtual environments; downloadable computer software programs for displaying photographs, photograph stands, stationery, printed matter, picture frames for photographs, printing machines, photocopiers, photo printers for smartphones, cases for photo printers for smartphones, printers and their parts and accessories, printing paper, paper, lenses for television cameras, lenses for video cameras, video cameras, camcorders, digital camcorders, camcorders with digital camera functions, projectors, clocks and watches, key holders, commemorative cups, commemorative shields, personal ornaments, shoe ornaments of precious metal, clothing, headwear, bags, bag fittings, leather containers for packaging, mugs, cushions, coins other than for use as currency, and paper money other than for use as currency in virtual environments; downloadable computer software for streaming and storing content consisting of sound, music, image, video and text data and three-dimensional shape data such as avatar files.

Class 42:
Providing computer programs on data networks; rental of computers; providing temporary use of non-downloadable computer software; platform as a service [PaaS]; software as a service [SaaS]; providing online non-downloadable computer software for minting non-fungible tokens [NFTs]; hosting virtual environments; hosting software platforms for virtual reality-based work collaboration; artificial intelligence as a service [AIaaS]; hosting platforms on the Internet; server hosting; providing virtual computer systems through cloud computing; providing electronic storage space [web space] on the Internet; providing computer software for cloud computing; providing computer software; electronic data storage; blockchain as a service [BaaS]; rental of server memory space; hosting computer websites; cloud computing; providing online non-downloadable computer software; rental of computer software; hosting of digital content on the Internet; rental of software for Internet access; providing temporary use of online non-downloadable computer software for collecting, analyzing and organizing data in the field of deep learning; online data storage; electronic storage of digital audio files; electronic storage of digital video files; electronic storage of digital photographs; electronic storage of digital images; electronic storage of files and documents; electronic storage services for archiving databases, images and other electronic data; rental of software for data processing; rental of operating software for accessing and using a cloud computing network; providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; providing computer software authenticated by non-fungible tokens [NFTs]; providing computer software for viewing, editing, compositing and printing captured digital images; providing temporary use of non-downloadable computer operating programs that enable scanning, uploading, reviewing, editing, linking and storing printed photographs; providing temporary use of non-downloadable computer application programs that enable scanning, uploading, reviewing, editing, linking and storing printed photographs; providing computer software for converting sound, music, still images and moving images into two-dimensional codes; providing computer firmware; providing computer software for creating, viewing, managing, trading and collecting sound, music, images, videos, texts and three dimensional shape data such as avatar files; software as a service [SaaS] featuring software for registered users to host, manage and organize virtual events and chat rooms; providing online non-downloadable computer software for database management; providing computer programs for image recognition; providing online non-downloadable software; providing augmented reality software; providing computer programs and software for image processing; providing computer programs and software for editing and compositing captured digital images; design and development of image processing software; computer software design, computer programming, or maintenance of computer software; providing technological information relating to information processing results of big data, data logs or electronic data using computers; computer software design; updating of computer software; digitization of analog photographs; digitization of photographs [scanning]; conversion of data or documents from physical to electronic media; computer technology consultancy; information technology [IT] consultancy; technological consultancy services for digital transformation; user authentication services using technology for e-commerce transactions; digitization of documents [scanning]; rental of smartglasses; rental of server memory space via computer communication networks; electronic storage of image data, sound data, text data, audio data, video data and other electronic data by computers; electronic storage of music, sound, photographs, drawings, papers, documents, digital photographs, image data, audio data, text data, video data and electronic data by computers; electronic storage of text data, image data, audio data, video data and other electronic data by computers; electronic storage of electronic data by computers; electronic storage of sound, data, images, videos, photographs and books by cloud computing; providing hosting platforms on the Internet for distributing multimedia content; creation, design and maintenance of websites for online communities providing sound, music, images, videos and text; creation, design and maintenance of websites for online communities providing image files in the form of three-dimensional shape data of avatars; providing computer programs for displaying cameras, digital cameras, instant cameras, lenses for cameras, lens mount adapters for cameras, camera flashes, camera cases, lens filters for cameras, blower brushes for cameras, tripods for cameras, camera straps, parts and accessories for cameras, photographic machines and apparatus, photographic materials, photographic film, binoculars, telescopes and optical machines and apparatus in virtual environments; providing computer programs for displaying digital photo frames, albums, photograph mounting materials, calendars, postcards, photograph storage boxes, metal cases for photograph storage, photographic film storage boxes, metal cases for photographic film storage, decorative stickers for cameras, decorative stickers for photographs, photographs, photograph stands, stationery, printed matter, picture frames for photographs, printing machines, photocopiers, photo printers for smartphones, cases for photo printers for smartphones, printers and their parts and accessories, printing paper, paper, lenses for television cameras, lenses for video cameras, video cameras, camcorders, digital camcorders, camcorders with digital camera functions and projectors in virtual environments; providing computer programs for displaying cameras, digital cameras and camcorders in virtual environments.

Marketing services; advertising services; display of advertisements for others; search engine optimization; procurement services for third parties (purchasing goods and services for other businesses); administrative processing of purchase orders; order-taking and invoicing, including in the context of e-commerce; wholesale or semi-wholesale ordering services; commercial information and advice for consumers (consumer advice shop); demonstration of goods; advertising of goods of other providers, enabling customers to conveniently view and compare the goods of such providers; dissemination (distribution) of samples; import-export agencies; commercial administration of licenses for third-party goods and services; business management of wholesale or semi-wholesale outlets; presentation of goods on all communication media for retail, wholesale and semi-wholesale purposes; advertising; dissemination of advertising material (leaflets, prospectuses, printed matter, samples); organization of exhibitions for commercial or advertising purposes; organization of trade fairs for commercial or advertising purposes; online advertising on a computer network; sales promotion for third parties; business contacts [business brokerage services]; data management services; digital data processing; data bank services, namely, systematization and compilation of data in data banks; retail, wholesale, semi-wholesale, mail-order retail or online retail and retail store services for the following goods: forks, knives, spoons, spectacles, sunglasses; retail, wholesale, semi-wholesale, mail-order retail or online retail and retail store services for the following goods: precious metals and their alloys, jewelry, precious and semi-precious stones, timepieces and chronometric instruments; retail, wholesale, semi-wholesale, mail-order retail or online retail and retail store services for the following goods: paper and cardboard, printed matter, stationery and office requisites, except furniture, drawing material and material for artists, cardboard boxes, cardboard packaging boxes, paper boxes; retail, wholesale, semi-wholesale, mail-order retail or online retail and retail store services for the following goods: leather and imitations of leather, goods of leather or imitations of leather, namely briefcases, card cases (wallets), coin purses, wallets, trunks and suitcases, traveling sets, handbags, travel bags, school bags, backpacks, sports bags, wheeled bags; retail, wholesale, semi-wholesale, mail-order retail or online retail and retail store services for the following goods: briefcases, card cases (wallets), coin purses, wallets; retail, wholesale, semi-wholesale, mail-order retail or online retail and retail store services for the following goods: trunks and suitcases, traveling sets, handbags, travel bags, school bags, backpacks, sports bags (other than those adapted for their contents), wheeled bags; retail, wholesale, semi-wholesale, mail-order retail or online retail and retail store services for the following goods: umbrellas, parasols and walking sticks, clothing, footwear, headwear, belts (clothing); retail, wholesale, semi-wholesale, mail-order retail or online retail and retail store services for the following goods: furniture, mirrors, picture frames, cupboards, coat hangers, clothes stands (furniture) and clothes hooks; retail, wholesale or semi-wholesale services for the following goods: household or kitchen utensils and containers, cooking utensils and crockery, combs and sponges, brushes, except paintbrushes, brush-making materials, cleaning materials, unworked or semi-worked glass, except building glass, glassware, porcelain and earthenware; retail, wholesale, semi-wholesale, mail-order retail or online retail and retail store services for the following goods: textiles and substitutes thereof, household linen, curtains of textile or plastic materials; retail, wholesale, semi-wholesale, mail-order retail or online retail and retail store services for the following goods: carpets, rugs, mats and matting, linoleum and other floor coverings, wall hangings not of textile materials; retail, wholesale, semi-wholesale, mail-order retail or online retail and retail store services for the following goods: games, toys, video game apparatus, gymnastic and sporting articles, decorations for Christmas trees; The bringing together, for the benefit of third parties, a variety of goods (excluding the transport thereof) being: forks, knives, spoons, spectacles, sunglasses, to enable customers to conveniently compare and purchase those products; the bringing together, for the benefit of third parties, a variety of products (excluding the transport thereof) made of precious metals and their alloys, jewelry, precious and semi-precious stones, timepieces and chronometric instruments, to enable customers to conveniently compare and purchase those products; the bringing together, for the benefit of third parties, a variety of goods (excluding the transport thereof) made of paper and cardboard, printed matter, stationery and office requisites, except furniture, drawing materials and materials for artists, cardboard boxes, cardboard packaging boxes, paper boxes, to enable customers to conveniently compare and purchase those goods; the bringing together, for the benefit of third parties, a variety of goods (excluding the transport thereof) being: leather and imitations of leather, articles made of leather or imitations of leather, namely, portfolio cases, card cases (notecases), coin purses, wallets, trunks and suitcases, traveling sets, handbags, traveling bags, school bags, backpacks, sports bags, wheeled bags, enabling customers to conveniently compare and purchase those products; the bringing together, for the benefit of third parties, a variety of goods (excluding the transport thereof) being: portfolio cases, card cases (notecases), coin purses, wallets, enabling customers to conveniently compare and purchase those products; the bringing together, for the benefit of third parties, a variety of goods (excluding the transport thereof) being: trunks and suitcases, traveling sets, handbags, traveling bags, school bags, backpacks, sports bags (other than those adapted to the products for which they are intended), wheeled bags, to enable customers to conveniently compare and purchase those products; the bringing together, for the benefit of third parties, a variety of goods (excluding the transport thereof) being: umbrellas, parasols and walking sticks, clothing, shoes, headwear, belts (apparel), enabling customers to conveniently compare and purchase those products; the bringing together, for the benefit of third parties, a variety of goods (excluding the transport

thereof) being: furniture, mirrors (looking glasses), picture frames, cupboards, clothes hangers, clothes stands (furniture) and clothes hooks, enabling customers to conveniently compare and purchase those products; the bringing together, for the benefit of third parties, a variety of goods (excluding the transport thereof) being: household or kitchen utensils and containers, cooking utensils and crockery, combs and sponges, brushes, except paintbrushes, brushmaking materials, articles for cleaning purposes, unworked or semi-worked glass, except construction glass, glassware, porcelain and earthenware, to enable customers to conveniently compare and purchase those products; the bringing together, for the benefit of third parties, a variety of goods (excluding the transport thereof) being: textiles and substitutes therefor, household linen, curtains of textile or plastic, enabling customers to conveniently compare and purchase those products; the bringing together, for the benefit of third parties, a variety of goods (excluding the transport thereof) being: mats, doormats, matting, linoleum and other floor coverings, wall hangings, not made of textile, enabling customers to conveniently compare and purchase those products; the bringing together, for the benefit of third parties, a variety of goods (excluding the transport thereof) being: games, toys, video game apparatus, gymnastics and sporting articles, decorations for christmas trees, enabling customers to conveniently compare and purchase those products .

ERAM

Representative: Forresters IP LLP
The Gherkin (11th Floor) 30 St Mary Axe London EC3A 8BF UNITED KINGDOM

WO0000001946385(16, 25, 35)

Date of International Registration: 29 July 2026
Date of Designation in the UK: 29 July 2026

WONDERMATCH

International priority date claimed: 28 July 2026 (FR) (5282747)

Class 16:
Packaging boxes of cardboard; coupons; printed vouchers and gift certificates; gift boxes.

Class 25:
Footwear; headwear; hosiery; caps; long scarves; socks; sports shoes; underwear; sports underwear; tracksuits; sports jerseys; football jerseys; basketball jerseys; rugby shirts; polo shirts; pullovers; ready-made clothing; sportswear.

Class 35:
Retail and online sales services for footwear, headwear, hosiery, caps, scarves, socks, sports shoes, underwear, sports underwear, tracksuits, sports jerseys, football jerseys, basketball jerseys, rugby shirts, polo shirts, pullovers, ready-made clothing, sports clothing; individual and subscription sales service in the context of a mystery box containing footwear, headwear, hosiery, caps, scarves, socks, sports shoes, underwear, sports underwear, tracksuits, sports jerseys, football jerseys, basketball jerseys, rugby shirts, polo shirts, pullovers, ready-made clothing, sports clothing; sale of gift certificates and gift sets, with or without clothing items included.

WONDERBOX

Date of International Registration: 15 June 2026
Date of Designation in the UK: 15 June 2026

Combinano

Class 16:
Filter media of paper; filter paper for liquid and gaseous media; paper in the nature of filtering materials for general industrial use in the filtration of liquids and gases; paper containing or coated with nanofibers; paper for use in manufacturing filters for liquids and gases.

Class 24:
Fabrics for textile use; filtering materials of textile, namely, synthetic fiber fabrics for use in filtering liquids and gases; filtration components, namely, woven and non-woven textile fabrics for use as filtering liquids and gases; textiles, namely, textile fabrics containing or coated with nanofibers for use in manufacturing filters for liquid and gaseous media.

grmtools

International priority date claimed: 12 November 2025 (EM) (019275217)

Class 9:
Recorded or downloadable computer programs and software for electroacoustic music generation, composing, editing and production; computer applications for sound creation, synthesis and processing; electronic equipment for sound production and processing; hardware and software interfaces for computer-assisted music; electronic sound control and modulation apparatus; electric and electronic effect devices for musical instruments; data processing apparatus; apparatus for sound recording, reproduction and transmission; downloadable software applications; Web application software; cabinets for loudspeakers; integrated and printed circuits; couplers [data processing equipment]; acoustic couplers; music sequencer devices; cabinets for loudspeakers; music and sound files, recorded or downloadable; audio equalizers, mixers and interfaces; monitors [computer programs]; recorded or downloadable software platforms; MIDI control devices (digital interfaces for musical instruments) other than musical instruments.

Class 15:
Acoustic, electronic and electroacoustic music instruments; synthesizers [musical instruments]; drum machines; MIDI instruments (digital interface for musical instruments); accessories for musical instruments, particularly bags and cases specially adapted for holding musical instruments and accessories for musical instruments.

Class 42:
Development, design, updating, maintenance and hosting of software for generating, composing and processing acoustic, electronic and electroacoustic music; research and technological development services in computer music and electroacoustic music; consulting and technical assistance in programming and optimization of computer-assisted music software; Software as a Service (SaaS) relating to acoustic, electronic and electroacoustic music generation, composition and processing; computer Platform as a Service (PaaS) relating to acoustic, electronic and electroacoustic music generation, composition and processing; design of computer-simulated models relating to acoustic, electronic and electroacoustic music generation, composition and processing; development of computer programs and platforms; computer code writing; provision of recorded or downloadable software; provision of virtual computer systems by means of cloud computing; updating of software relating to acoustic, electronic and electroacoustic music generation, composition and processing.

International priority date claimed: 07 January 2026 (JP) (2026-001227)

Class 7:
Metalworking machines and tools; bending machines; boring machines; broaches being machine tool; drilling machines; planing machines; oil hydraulic presses for metalworking; cutting machines for metalworking; grinding machines for metalworking; lathes (machine tools); nickel plating machines; galvanizing machines; electroplating machines; press dies for metal forming; forging moulds; connectors and cables manufacturing machines; wire forming machines; wire welding machines; internal grinding machine; electric arc cutting apparatus; chemical processing machines and apparatus; plastic processing machines; semiconductor manufacturing machines; machine elements, not for land vehicles; active vibration isolators or other vibration isolators and vibration isolation tables for metalworking machines and tools; seismic isolation devices for machines; seismic isolation devices for mounting to machines; linear guide, machine elements not for land vehicles; pneumatic or hydraulic actuators, other than for land vehicles; pneumatic or hydraulic linear actuators, other than for land vehicles; control mechanisms for semiconductor manufacturing machines; anti-vibration mountings for semiconductor manufacturing machines; shock absorbers for machines; oil refining machines; excavating machines; assembling machines for connectors; machines for working cables; cable cutting machines; peeling machines; terminal crimping machines; mechanically operated hand-held crimpers; wires, cables, connectors, and substrates of electronic components crimping, splicing and inserting machines; linear motors; terminal crimping machines for electric wires; control mechanisms for motors; motors and parts thereof; servomotors and parts thereof; welding robots and their parts and fittings; self- driving robots for conveying goods indoors and their parts and fittings; self-driving robots for conveying goods indoors in factories, warehouses and their parts and fittings; robots for carrying foods and tableware in restaurants and their parts and fittings; parts and fittings of metalworking robots; robots for sawing wood and their parts and fittings; food or beverage processing robots and their parts and fittings; robots for assembling electronic circuits and their parts and fittings; automatic assembly machines for connectors; electrolytic polishing apparatus; electrolytic polishing tanks.

Class 8:
Hand tools, hand operated, other than bladed or pointed hand tools; hand tools for electrical apparatus related to connector assembly, electrical termination, and removing electrical insulation; crimping pliers; crimping pliers for connectors; edge tools (hand tools); hand-operated cutting tools; wire cutters.

Class 9:
Laboratory apparatus and instruments; laboratory centrifuges; constant temperature incubators for laboratory use; measuring or testing machines and instruments; measuring or testing machines and instruments for determining angular rate; measuring or testing machines and instruments for determining acceleration; measuring or testing machines and instruments for determining azimuth or direction; measuring or testing machines and instruments for determining position; distance measuring apparatus; altimeters; inclinometers; gyrocompasses; directional compasses; magnetic compasses; marine compasses; seismographs; tachometers; phase indicators; speed indicators; power distribution or control machines and apparatus; electric power distribution machines; rotary converters; power controllers; electric switches; electric relays; current rectifiers; electric circuit closers; local switches; electric transformers; electrical controlling devices; electrical and electronic control apparatus and instruments; electric control panels; electrical switches; electric contacts; electric or magnetic meters and testers; circuit testers; antenna parameter measuring apparatus; metal detectors; electricity measuring instruments; electromagnetic measuring detectors; magnetometers; frequency meters; resistance measuring instruments; voltmeters; wavemeters; ammeters; wattmeters; oscillators; electric wires and cables; light conducting filaments; photographic apparatus and instruments; cameras; cinematographic machines and apparatus; optical machines and apparatus; optical sensors; optical scanners; electrical communication machines and instruments; remote control apparatus; electric installations for the remote control of industrial operations; marine radio communication machines and apparatus; aeronautical radio communication machines and apparatus; couplers (data processing equipment); optical couplers; acoustic couplers; computers; computer hardware; computer peripherals; software for computer programs and computer software tools for use in training, controlling, and operating robots and for designing, developing and creating other computer applications for robots; electronic machines, apparatus for creation of computer programs to make robots carry out specific behaviors; data processing apparatus; cyclotrons; accelerometers; acceleration sensors; gyroscopes; position sensors; angle sensors; angular rate sensors; sensors (measurement apparatus), other than for medical use; sensors for determining position; sensors for determining velocity; sensors for determining acceleration; photovoltaic cells and modules; parts of photovoltaic cells; fittings for photovoltaic cells; solar cells; electric connectors; electrolysers for laboratory use; stabilizers for cameras or video cameras for mounting on aircraft, for mounting on ships, for mounting on land vehicles, for shooting films or for shooting videos using antivibration devices with gyrosensors; camera

stabilizers; stabilizers with gyroscopes for cameras; connectors (electricity); connectors for telecommunication cables; connectors for circuit boards; fiber optic connectors; cable connectors; plug-in connectors; plug connectors; connectors for computers; threaded electrical cable connectors; round plug connectors; threaded cable connectors of metal; plug connectors for automobiles; insulated electrical connectors; electrical connectors; electrical header connectors; power connectors; connectors for electronic circuits; connectors for electronic machines and apparatus; wire connectors (electricity); telephone connectors; connectors for laboratory apparatus and instruments; connectors for power distribution or control machines and apparatus; connectors for batteries; power supply connectors for electric vehicles such as electric vehicles, hybrid cars, bicycles with electric motors; charging connectors for electric vehicles such as electric vehicles, hybrid cars, bicycles with electric motors; coils, electric; optical mirrors; optical filters; conversion devices to convert to digital signal using resolvers for detecting positions or angles of apparatus as sensors; resolver controller; encoders (measuring or testing machines and instruments); rotary encoders; magnetic encoders; linear encoders; printed circuit boards; memory boards; printed circuit boards incorporating integrated circuits; electrical circuit boards; printed wiring boards; terminals (electricity); parts of electrical connection apparatus; electronic circuits and parts therefor; computer cables; data transmission cables; data synchronization cables; optical cables; fiber optics; fiber optic cables; cables for high definition multimedia interfaces; telecommunication cables; touch panels; touch panels for computers; touch panels for personal digital assistants; magnetic cores; resistance wires; electrodes; antennas; phase modifiers; connectors for in-vehicle navigational instruments; connectors for navigation system apparatus having a function of VICS (vehicle information and communication system), connectors with cables; connectors for GPS (global positioning system) transceivers, connectors with cables; cable connectors for radio wave beacon base station machines; connectors for vehicle-mounted camera apparatus; connectors for infotainment devices; connectors for camera modules for ADAS (advanced driver assistance system); connectors for electronic controls for self-balancing for vehicles; connectors for automatic control machines and apparatus for vehicles; connectors for electronic controls for autonomous traveling for vehicles; connectors for electronic controls for automatic driving for vehicles; connectors for electrical communication machines and instruments for autonomous driving of automobiles; connectors for electrical and electronic control apparatus and instruments for autonomous driving of automobiles; connectors for remote control apparatus for autonomous driving of automobiles; connectors for photographic apparatus and instruments for autonomous driving of automobiles; control apparatus for actuators; connectors for high frequency coaxial cables; connectors having a waterproof function and to enable electric appliances to be connected with cables with one touch (one touch waterproof connectors); board-to-board connectors; board-to-wire connectors; connectors for flexible flat cables (FFC); connectors for electrical wires for automobiles; connectors for boards for flexible printed circuits (FPC); small and ultra-small connectors; connectors for coaxial cables; connectors to connect electrical equipment and electronic devices for automobiles; connectors for cables for transmitting differential signals; cable harnesses; wiring harnesses; charging appliances, electric connections, connectors (electricity) and control panels (electricity) for electric vehicles or hybrid cars; charging stations for electric vehicles; connectors for charging stations for electric vehicles; charge and discharge apparatus; connectors for charge and discharge apparatus; charge and discharge apparatus for electric vehicles; connectors for charge and discharge apparatus for electric vehicles; bi-directional charging apparatus; connectors for bi-directional charging apparatus; power supply units; connectors for power supply units; apparatus for supplying electricity; connectors for apparatus for supplying electricity; apparatus for bi-directional supplying electricity; connectors for apparatus for bi-directional supplying electricity; electrical power supplies; connectors for electrical power supplies; emergency electrical power supplies; connectors for emergency electrical power supplies; electric cables with connectors; waterproofed connectors (electricity); hybrid connectors (electricity); connectors for high-definition multimedia interface cables; connectors for digital cameras; connectors for in-vehicle digital cameras; connectors for in-vehicle telecommunication apparatus; connectors for mutual cable connection; high density connectors for mutual cable connection; connectors for high speed data transmission; connectors (electricity) which are processed surface treatment; connectors (electricity) which are processed chemical surface treatment; connectors (electricity) which are processed surface treatment to prevent wear of coating such as silver plating; connectors (electricity) which are processed chemical surface treatment to prevent wear of coating such as silver plating; sensors using micro electro mechanical systems technology (measurement apparatus), other than for medical use; magnetic gyrocompasses; gyrometers; gyrosensors; optical position sensors; velocity sensors; distance sensors; level sensors; failure detection sensors; pressure sensors; geomagnetic sensors; radio altimeters; inertial navigation equipment; data logging equipment (data recorders); diagnostic apparatus, not for medical purposes; computer programs and software; computer software, recorded; data processing software; computer software for processing information; communications software; software for diagnostics and troubleshooting; computers for managing control devices for aircraft; computer software and computer programs for driving, enabling and extending the functionality of semiconductor devices, micro electro mechanical systems devices, and signal processors; application software for operating and managing drones; flight control software (computer software) for drones; microcontrollers; programmable logic controllers; electronic control circuits; circuit boards; circuit boards provided with integrated circuits; computer circuit boards; flexible circuit boards; remote control apparatus or remote control machines to control and operate drones, unmanned aerial vehicles and to communicate with them; inertial measurement units for drones; gyroscopes for drones; electric actuators; electric linear actuators; accelerometers for oilfield excavating machines.

Class 12:
Vessels and their parts and fittings; aircraft and their parts and fittings; railway rolling stock and their parts and fittings; automobiles and their parts and fittings; mechanical elements for land vehicles; suspension shock absorbers for vehicles; airbags for vehicles; axles for vehicles; spindles for land vehicles; shaft couplings for land vehicles; gear wheels for land vehicles; drive gears for land vehicles; gears for vehicles; structural parts of marine vessels; structural parts for boats; structural parts for airplanes; structural parts for helicopters; structural parts for trains; structural parts for automobiles;

transmission components for land vehicles; electric cars; electric cars and their parts and fittings; plug-in hybrid cars; hybrid cars; hybrid cars and their parts and fittings; driverless cars; fuel cell electric cars; robotic cars; air bags (safety devices for automobiles); parts for air bags (safety devices for automobiles); remote control vehicles, other than toys; unmanned aerial vehicles (UAVs); unmanned aerial vehicles and their parts and fittings; camera drones; photography drones; civilian drones; civilian drones and their parts and fittings; industrial drones; industrial drones and their parts and fittings; industrial drones with sensors and their parts and fittings; military drones; delivery drones; autogyros; gyrocopters; pneumatic or hydraulic actuators for land vehicles; pneumatic or hydraulic linear actuators for land vehicles; self-driving robots for outdoor package delivery and their parts and fittings.

Class 37:
Construction; construction of buildings; laying of cable; excavation services; repair or maintenance of vessels; aircraft maintenance or repair; repair or maintenance of automobiles; repair or maintenance of railway rolling stock; repair or maintenance of cinematographic machines and apparatus; repair or maintenance of chemical processing machines and apparatus; repair or maintenance of metalworking machines and tools; repair or maintenance of optical machines and instruments; repair or maintenance of photographic machines and apparatus; repair or maintenance of measuring and testing machines and instruments; repair or maintenance of telecommunication machines and apparatus; repair or maintenance of electronic machines and apparatus; repair or maintenance of power distribution or control machines and apparatus; repair or maintenance of semiconductor manufacturing machines and systems; repair or maintenance of plastic processing machines and apparatus; repair or maintenance of laboratory apparatus and instruments.

Class 42:
Testing or research on machines, apparatus and instruments; testing the functionality of machines; testing the functionality of apparatus and instruments; testing or research on electricity; quality control of goods and services; oil prospecting; computer software design, computer programming, or maintenance of computer software; conversion of computer programs and data, other than physical conversion; providing computer programs on data networks; providing non-downloadable software and computer programs to control touch panels and sensors; providing non-downloadable software and computer programs to determine angular rate, acceleration, azimuth, direction and position; providing non-downloadable software and computer programs to control industrial robots; electronic data storage; designing of machines, apparatus, instruments (including their parts) or systems composed of such machines, apparatus and instruments; design services, other than for advertising; industrial design; design of mechanical components; design of optical components; design of mechanical, electromechanical and optoelectronic apparatus and instruments; design of electronic circuit boards; technological advice relating to computers, automobiles and industrial machines; rental of measuring apparatus; rental of technical drawing instruments; rental of computers; rental of laboratory apparatus and instruments; research and development of new products in the field of connectors.

JAPAN AVIATION ELECTRONICS INDUSTRY, LIMITED

Representative: Shin-Ei, P.C.

Date of International Registration: 10 August 2026
Date of Designation in the UK: 10 August 2026

Accela Prime

International priority date claimed: 13 February 2026 (US) (99652078)

Class 9:
Computer software embedded in medical linear accelerators for use in the fields of radiotherapy and radiosurgery for radiation treatment.

Class 10:
Medical apparatus and systems, used for therapeutic and radiographic purposes, namely, medical charged particle accelerators used in radiotherapy and radiosurgery; medical linear accelerators used in radiotherapy and radiosurgery; medical linear accelerators used in radiotherapy and radiosurgery for radiation treatment; medical apparatus for radiation treatment planning composed of medical image processors, memory, and data input devices for displaying, storing and manipulating medical images, and for identifying anatomic and other structures on medical images for radiation treatment; image based systems for patient positioning and motion management composed of medical imaging apparatus; medical radiation apparatus, namely, radiation beam collimation apparatus for shaping the radiation beam for radiation treatment; medical imaging apparatus for radiation treatment; medical apparatus for patient positioning and motion management during radiation treatment, composed of implantable transponders and electromagnetic detector arrays.

International priority date claimed: 09 October 2025 (EM) (019258606)
The mark contains the colour Orange HEX-E4522A.

Class 9:
Computers; computer hardware; integrated computer hardware and downloadable computer operating software; computer hardware with preinstalled computer operating software; computer servers; downloadable computer software to manage, analyze, retrieve, monitor, maintain, report on, structure, model, forecast, present and display data and information from computer databases, applications and the internet, and for the development, analysis, management, integration, deployment, virtualization and maintenance of computer software and hardware; downloadable computer software applications to manage, monitor, track and organize data, namely, web services software, application server software, business intelligence software, internet and intranet portal software, computer software to automate data warehousing, content management software, telephony software, electronic mail software, electronic messaging software, scheduling software, social networking software, wireless communications software, operating system software, computer utility software, computer networking software, security and identity management software, virtualization software, cloud computing software, voice enablement software, computer programs for use in developing and executing other computer programs on computers, computer networks, and global communications networks; downloadable computer software applications in the fields of marketing, sales, customer service, contracts, human resources, clinical research, health care, health sciences, education, communications and telecommunications, call centers, customer relationship management, human capital management, public sector administration, public and private utilities, transportation, insurance, processing, analysis and management of financial transactions, governance, risk and compliance management for use in the fields of finance, banking, insurance and capital markets, corporate financials, and corporate governance, risk and compliance, project portfolio management, supply chain management, orders, procurement, inventory, assets, projects and manufacturing, business process outsourcing, business consolidation management, business risk management, business quality management, business project management, business stakeholder-shareholder relationship management, and strategic business, simulation, enterprise and resource planning; downloadable computer software to customize, adapt, supplement and update computer software programs, computer software platforms and computer software applications; downloadable database software to manage, monitor, track and organize data; downloadable computer software, namely, a full line of middleware software; electronic publications, namely, books, pamphlets, and user manuals concerning computer software and hardware, and related topics, and electronic catalogues offering such goods.

Class 35:
Analysis and consulting services in the field of business information management, namely, business analysis, business enterprise modeling, and business information organization; advisory and consultancy services in the nature of business process improvements for driving business operational efficiencies; organisation, arranging and conducting trade shows connected with the sale of computers, software, information technology, and cloud services development; on-line retail store services in the field of computer programs for business, entertainment, scientific, technical, commercial, educational and personal computing uses, and printed material related thereto; data processing, systematisation and management; commercial administration of the licensing of the goods and services of others; web site traffic optimization; business management and organization consultancy; business advisory services, consultancy and information.

Class 41:
Educational services, namely, organisation, arranging, and conducting educational conferences and programs and providing courses of instruction and workshops in the field of computers, computer software, computer peripherals, computer networking, technology planning, business management; seminars, courses and workshops in the fields of testing, analysis and evaluation of the goods and services of others for the purpose of certification; providing educational courses in the field of software adaptation and use; providing on-line digital publications in the nature of reports, manuals, journals, monographs, and newsletters in the fields of software for customization, adaption, supplementation and updating computer software programs, computer software platforms and computer software applications.

Class 42:
Computer services, namely, consultation in the field of computer software, design and development of computers and computer hardware; programming, design, development, implementation, maintenance, updating and repair of computer software for others; technical support services for computer software, namely, providing updates, upgrades, patches, fixes and technical documentation; providing information via the Internet in the fields of computers, design and development of computer hardware, computer programming, and computer software; computer services, namely, creating and maintaining web sites for others; hosting the web sites of others on computer servers for local area networks, intranets, and the Internet; consultation services and providing technical assistance related to the design, creation, hosting, maintenance,

operation, and management of web sites for others; application service provider (ASP), namely, hosting computer software applications of others; leasing of computer hardware and software for use in cloud computing; rental of computer hardware and software; leasing of computer hardware; computer services, namely, providing computer software, platforms, infrastructure, databases and data as a service; computer services, namely, providing cloud computing services in the field of a full line of computer software to manage, analyze, retrieve, monitor, maintain, report on, structure, model, forecast, present and display data and information from computer databases, applications and the Internet, and for the development, analysis, management, integration, deployment, virtualization and maintenance of computer software and hardware; providing temporary use of on-line downloadable database software to manage, monitor, track and organize data; providing temporary use of on-line downloadable computer software applications to manage, monitor, track and organize data and information, namely, web services software, application server software, business intelligence software, Internet and intranet portal software, computer software to automate data warehousing, content management software, telephony software, electronic mail software, electronic messaging software, scheduling software, social networking software, wireless communications software, operating system software, computer utility software, computer networking software, security and identity management software, virtualization software, cloud computing software, voice enablement software, and computer programs for use in developing and executing other computer programs on computers, computer networks, and global communications networks; providing temporary use of on-line downloadable computer software applications to manage, monitor, track and organize data and information in the fields of marketing, sales, customer service, contracts, human resources, clinical research, health care, health sciences, education, communications and telecommunications, call centers, customer relationship management, public sector administration, public and private utilities, transportation, insurance, financial transaction processing, analysis and management, governance, risk and compliance management, management of supply chains, orders, procurement, inventory, assets, projects and manufacturing, business process outsourcing, business consolidation management, business quality management, business project management, business stakeholder-shareholder relationship management, and strategic business, simulation, enterprise and resource planning; computer services, namely, providing computer software as a service (SaaS) to collect, manage, analyze, retrieve, monitor, maintain, report on, structure, model, forecast, present and display data and information in the fields of marketing, sales, customer service, contracts, human resources, clinical research, health care, health sciences, education, communications and telecommunications, call centers, customer relationship management, public sector administration, public and private utilities, transportation, insurance, financial transaction processing, analysis and management, governance, risk and compliance management, management of supply chains, orders, procurement, inventory, assets, projects and manufacturing, business process outsourcing, business consolidation management, business quality management, business project management, business stakeholder-shareholder relationship management, and strategic business, simulation, enterprise and resource planning; computer services, namely, providing platforms as a service (PaaS) and infrastructure as a service (IaaS) featuring computer software and hardware platforms for creating web applications, data storage and backup, database management, virtualization, networking, collaboration, access, support, cloud computing, data sharing, data security, administration and management of computer software and hardware, and distribution and transmission of data and information; computer services, namely, providing databases as a service (DBaaS), namely, cloud hosting of computer databases for others; computer services, namely, providing data as a service through a customizable software platform for collecting, analyzing, integrating, transforming and providing access to data and information; platform as a service (PaaS) featuring computer software platforms for multi-chain, multi-cloud network management that deploys nodes and connects them to blockchains, and that enables users to manage blockchain applications; providing on-line non-downloadable computer software for enabling users to electronically create, exchange, store, send, receive, accept, and transmit digital tokens based on the blockchain technology; computer services, namely, providing on-line non-downloadable computer software for developing, building, and operating distributed applications; software as a service (SaaS) services featuring software for the encryption and authentication of the integrity of all data, digital assets, documents, and files across multiple channels using blockchain technology; platform as a service (PaaS) featuring blockchain-based computer software platforms and distributed computing software platforms for auditing and verifying digital information and codes; design, development and implementation of audit and security computer software for blockchain-based platforms; electronic data storage, namely, providing a blockchain technology-based, distributed database ledger for the storage of public, private or encrypted data, transactions and information; developing and updating of computer software for use in managing blockchain data; application service provider (ASP) featuring application programming interface (API) software for providing a platform for the development, testing, and integration of blockchain software applications; application service provider (ASP), namely, hosting computer application software for the purpose of developing, testing, and integrating blockchain applications and software; software as a service (SaaS) featuring software for developing, deploying, updating, and monitoring the performance of machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence applications; software as a service (SaaS) featuring software for customization, adaption, supplementation and updating computer software programs, computer software platforms and computer software applications; platform as a service (PaaS) featuring computer software platforms for building, hosting, and deploying chatbots and digital assistants; software as a service (SaaS) services featuring software for building, hosting, and deploying chatbots and digital assistants; application service provider (ASP) featuring application programming interface (API) software for building, hosting, and deploying chatbots and digital assistants; consulting services in the field of software as a service (SaaS), namely, providing machine learning based predictive security, threat detection, security analytics, remediation and in-context cognitive advice to users seeking to protect and secure computer systems; computer consulting services regarding the customization and design of computer software; computer software design for others which interfaces with the application programs of others.

International Technology Group B.V.

Representative:Rösler Rasch van der Heide & Partner Patent- und Rechtsanwälte Partnerschaftsgesellschaft mbB Bodenseestr. 18 81241 München GERMANY

WO0000001947541(16, 31, 35, 42, 44)
Office of Origin: FR

&YOU WELLNESS

Registration of this designation shall give no right to the exclusive use of the word "WELLNESS"

International priority date claimed: 21 February 2026 (US) (99663182)

Class 3:
Ampoules sold filled with beauty serums; ampoules sold filled with beauty serums for use on lips, face, skin, and hair; beauty serums; topical skin sprays for cosmetic purposes.

Class 5:
Transdermal patches featuring vitamins and supplements for use in increasing energy; vitamin supplement patches; powdered nutritional supplement drink mix and concentrate; powdered nutritional supplement drink mix containing proteins, vitamins, bioactive peptides, ceramoside, and blends thereof; dietary supplement drink mixes; powdered nutritional supplement drink mix; probiotic supplements; dietary food supplements; beverages containing chlorophyll for use as a nutritional supplement; nutritional supplements, namely, probiotic compositions; vitamin and mineral supplements; dietary supplement beverage for aiding sleep, increasing energy, promoting hydration, promoting digestion, and weight loss; protein dietary supplements; liquid protein supplements; vitamin supplements; herbal tinctures for medical purposes.

Class 9:
Wearable computers in the nature of smartwatches; wearable technological devices being smartwatches; wearable activity trackers.

Class 10:
Portable medical devices with sensors to monitor the physical movements of a patient wearing or carrying the device; wearable monitors used to measure biometric data for medical use; transdermal drug delivery patches sold without medication, namely patches wearable over skin for transdermal drug delivery sold without medication.

Class 44:
Intravenous (IV) hydration therapy services; intravenous (IV) vitamin therapy services.

International priority date claimed: 23 January 2026 (FR) (5220108)

Class 9:
Apparatus and instruments for data, image and/or sound display, recording, storage, processing, analysis, transmission and/or distribution; television apparatus; apparatus and devices for videoconferencing, teleconferencing and audioconferencing; video surveillance apparatus; apparatus for the dynamic display of data; camcorders; digital video cameras; video surveillance cameras; digital cameras connected to a computer [web cameras]; magnetic, digital, audio, optical and sound recording media; cD-ROMs; videodisks; compact discs; magnetic disks; audio discs; videotapes; audio and video cassettes; editing devices for video films; video recorders; readers [data processing equipment]; cassette players; players and recorders of digital video discs and compact discs; dVD players; projection apparatus; video projectors; projection screens; touch screens [electronic]; electronic touch-sensitive display screens; loudspeakers; computer peripherals; computer programs; software [recorded programs]; computer hardware; digital boards; software for local and wide-area network interconnection, management, securing and operation; computer terminals; computer programs for project management; project management software; file sharing software; data storage programs; software for use in enabling videoconferencing and teleconferencing services; software for the remote control of security apparatus; software for controlling the operation of audio and video devices.

Class 35:
Computer file management; data processing; transcription of data; collection of data; database management; data management; compilation and systematization of information in databases; collection of data in a central file; updating and maintenance of data in computer databases; archiving (input, collection and systemization of data) for companies; consulting, assistance and information services relating to business management; business management services; organization of exhibitions for commercial or advertising purposes.

Class 37:
Installation, maintenance and repair of apparatus and instruments for sound, image and data recording, transmission and reproduction; installation, maintenance and repair of

videoconferencing, teleconferencing and video surveillance apparatus and systems; installation, maintenance and repair of home automation rooms and audiovisual, network and telephony systems and equipment; installation, maintenance and repair of telecommunication equipment; installation, maintenance and repair of security equipment; installation of audiovisual equipment; installation, maintenance and repair of apparatus for dynamic display of data, apparatus for telecommunication network management and their systems for local and wide-area network switching, interconnection, management, securing and operation; provision of advice relating to audiovisual equipment installations; information services with respect to installation, maintenance and repair of apparatus and instruments for sound, image and data recording, transmission, manipulation, editing and reproduction and of video conferencing, audioconferencing, teleconferencing and video surveillance systems, apparatus for dynamic display of data, telecommunication network management apparatus and their communication and interconnection systems; installation of computer hardware for computer networks and telecommunication networks.

Class 38:
Telecommunications; communications via computer terminals or via fiber-optic networks or via satellite networks; audio conferencing, teleconferencing and videoconferencing; transmission of videos on a computer network; communications by fiber-optic networks; providing access to the Internet, telephone services, rental of telecommunication apparatus with or without option to purchase; computer-aided transmission of messages and images; communications by computer terminals; organization of electronic conferencing services; rental of apparatus and instruments for the transmission of sound, images and data, of apparatus and systems for videoconferencing, audio conferencing, teleconferencing, of apparatus for managing telecommunication networks and their switching and interconnection management systems and the operation of local and wide area networks; rental of teleconferencing, videoconferencing, audio conferencing equipment with or without an option to purchase.

Class 41:
Videotape film production; videotape editing; dubbing; movie studios; organization and conducting of conferences, seminars and exhibitions; recording studios; training in the fields of teleconferencing, videoconferencing, audioconferencing and video surveillance; rental of public address systems; rental of sound recording equipment; rental of film projection equipment; rental of video cameras; rental of audiovisual and photographic equipment and facilities; rental of video equipment; video recording projection services; rental of audio-video equipment with or without option to purchase; rental of videotapes with or without option to purchase; rental of apparatus and instruments for recording and reproducing sound, images and data.

Class 42:
Design, programming, maintenance and rental of software for integration of audiovisual, sound system and digital signage solutions; design, programming, maintenance and rental of Software as a Service (SaaS) for integration of audiovisual, sound system and digital signage solutions; design and development of data storage systems; consultant services with respect to integration of audiovisual, sound system and digital signage solutions; electronic storage services for archiving databases, images and other electronic data; conversion of documents from physical to electronic media; creation and maintenance of websites for third parties; conducting scientific feasibility studies for third parties in the field of equipment for conference rooms, arenas, meeting rooms, classrooms, shops and buildings; engineering services for teleconferencing, videoconferencing and video teleconferencing; testing and simulation of audiovisual solution performances.

Class 43:
Rental of meeting rooms; temporary provision of meeting, conference and exhibition rooms.

Class 45:
Rental of video surveillance cameras; rental of video surveillance equipment; video surveillance of facilities, viewable via a global computer network [online surveillance services]; security advice relating to access control and video surveillance systems.

Class 7:
Laser cutting torches; laser engraving machines; portable laser engraving machines; laser drilling machines for stone working; laser engraving machines for woodworking; laser welding devices; laser welding machines; laser welding machines; laser welding machines; laser welding devices.

Class 9:
Super luminescent laser diodes; lasers; laser diodes; light-emitting electronic pointers; laser projection televisions; lasers for industrial use; lasers for scientific use; laser installations, other than for medical use; laser apparatus; rescue laser signalling flares; target sights for guns [laser]; target sights for artillery [laser]; laser measuring systems; laser level measuring apparatus; laser scanning densitometers; laser range finders; lasers for measuring purposes; laser sensors; laser detectors; laser speed detectors.

Class 10:
Lasers for medical purposes; lasers for medical purposes; laser instruments for medical use; laser installations for medical use; laser pointers for medical use; laser beam delivery instruments for medical use; laser machining tools for medical use; medical instruments incorporating lasers; lasers capable of producing pulsating laser beams [for medical use]; laser light treatment instruments for medical use; lasers incorporating optical fibres for medical use; apparatus for the application of laser radiation for medical purposes; apparatus for the application of laser radiation for surgical purposes; laser cutting tools for medical use; lasers for use in surgery.

Class 11:

Nuclear reactors; nuclear generators; installations for processing nuclear fuels; nuclear power plant installations; reactor vessels; nuclear installations; laser driven fusion reactors; laser-based fusion reactors; laser-based fusion nuclear power plants.

Class 40:
Electricity generating; generation of power; production of energy by nuclear power plants; generation of nuclear energy; conversion of nuclear fuels; processing of nuclear fuels; production of energy by power plants; production of energy by laser driven fusion; consultancy services relating to the generation of electrical power; advisory services relating to energy generation; energy production through laser-based fusion; laser engraving; treatment of materials by laser beam; laser scribing services; laser scribing.

Class 42:
Consultancy services relating to nuclear engineering; nuclear engineering services; testing of nuclear material; research in the field of nuclear energy; research in the field of energy production based on laser driven fusion; research and development of technology in the field of fusion power energy production; research and development of technology in the field of power plants; technical design and planning of power stations; technical consultancy relating to the use of nuclear energy; technical research in the field of laser technology; science and technology services; design and development of lasers; consultancy services in connection with the development of lasers; research in the field of energy production through laser-based fusion; technical research in the field of laser cutting; technical research in the field of 3D laser forming; technological consultancy relating to the production of nuclear energy.

CLASSDOJO

Class 9:
Downloadable software featuring sending virtual awards, class participation reporting, and photo, video, and text communication tools for use by educators and others for the purpose of positively reinforcing behaviors and skills of students and children; downloadable software in the field of education, featuring sending virtual awards and photos, video, and text communication tools for giving feedback to others through a points system; students development tracking software, namely, software featuring class participation reporting, grade entry and reporting, virtual award entry and reporting; downloadable software featuring voice, data, and image messaging for facilitating communication among educators; downloadable software that allows teachers to share students' work with parents instantly for facilitating communication among teachers, students, and parents of students; downloadable software for educators, students, and parents of students featuring electronic photo, video, and text communication tools.

Class 38:
Electronic messaging transmission via the internet; providing online electronic bulletin boards and chat rooms for transmission of messages among teachers, students, and parents of students in the field of education; communication services, namely, providing electronic transmission of photos and videos among educators, parents of students, and students over a private or public computer network.

Class 42:
Providing temporary use of non-downloadable software for educators, students, and parents of students, featuring electronic video, photo, and text communication tools via a website.

Date of Designation in the UK: 15 September 2026

SPORTIV

International priority date claimed: 02 April 2026 (US) (99740507)

Class 5:
Dietary and nutritional supplements; dietary supplement drink mixes; dietary supplements in the form of powder; powdered nutritional supplement drink mix; powdered nutritional supplement drink mix containing leucine, lysine, threonine, creatine monohydrate, electrolytes, magnesium, vitamin C, vitamin B, and zinc; nutritional and dietary supplements formed and packaged as bars; vitamin and mineral supplements; health food supplements; nutritional supplement shakes; nutritional supplement energy bars; nutritional supplements in the form of capsules, tablets, powder, gummies, and gels; protein supplement shakes; protein dietary supplements; whey protein supplements; soy protein for use as a nutritional supplement in various powdered and ready-to-drink beverages; nutritional supplement in the nature of a nutrient-dense, protein-based drink mix.

Class 29:
Nut-based food bars; soy-based food bars; fruit-based food bars; nut- and dried fruit- based snack bars; seed-based snack bars; dairy-based powders for making dairy-based food beverages and shakes.

Class 30:
Granola-based snack bars; granola; cereal-based energy bars; cereal-based snack foods; breakfast cereals; rolled oats; cereal bars; grain-based food bars; chocolate-based snack bars.

Class 32:
Concentrates, syrups or powders for making soft drinks or tea-flavored beverages; concentrates and powders used in the preparation of energy drinks and fruit-flavored beverages; powders for making protein-enriched water beverages; protein-enriched water beverages; whey beverages; whey-based beverages; energy drinks; powders for making energy drinks; energy drinks enhanced with vitamins, minerals, and nutrients; fruit juice beverages; fruit-flavored beverages; powders for making fruit-based beverages.

SHAPTH

International priority date claimed: 06 March 2026 (DE) (30 2026 104 973)

Class 9:
Data processing apparatus; computer hardware; software; software for government work; software for the secure storage and transmission of data; software for operating cloud storage services; computer programmes for data processing; computer software for creating searchable databases of information and data; computer software for wireless content delivery; computer software for database management; communications processing computer software; computer software for authorising access to databases; interfaces for computers; application software for mobile devices (e. g. smartphones, tablets); software for state and local governments; electronic publications, downloadable; databases.

Class 38:
Telecommunication services; telecommunications information from central databases; computer aided transmission of messages and images; electronic transmission of messages and data; electronic transmission of personal data to public health departments; transmission of digital files; provision of telecommunications access to databases and the internet; interactive communications services by means of computer; internet based telecommunication services; communications services for accessing a database; communications services for the exchange of data in electronic form; provision of on-line communications services; communication by computer; telecommunication gateway services; telecommunications services for providing access to computer databases; telecommunications services to obtain information from data banks; providing secure access to central computer systems or portals via the internet; communication via platforms and portals on the internet with citizens, businesses, and government agencies; provision of telecommunications facilities for the exchange of electronic files; providing access to online communication links for forwarding personal data to public health departments and government agencies.

Class 41:
Providing on-line publications; publication of material which can be accessed from databases or from the internet; library services provided by means of a computerised database; library services related to documents stored and retrieved by electronic means; electronic data processing training; arranging of training

courses; instructional services relating to data processing; provision of instruction courses in general management.

Class 42:
Services of an EDP programmer; consultancy in the field of computers; design and development of computer hardware and software; computer programming; computer programming for data processing and communication systems; designing and development of software for administrative processing in public administration; updating of computer programs; computer security consultancy; computer software consultancy; computer software programming services; maintenance of computer programs; development of computer systems; hosting platforms on the internet; electronic data back-up; computer network services; debugging computer software for others; remote computer backup services; configuration of computer systems and networks; software as a service [SaaS]; security services for protection against illegal network access; electronic data storage and data back-up services; platform as a service [PaaS]; infrastructure as a service [IaaS]; services provided by an application service provider (ASP); cloud-based data protection services; cloud hosting provider services; research relating to the computerised automation of administrative processes.

Freistaat Bayern (Bayerisches Landesamt für Gesundheit und Lebensmittelsicherheit)

Representative:SKW Schwarz Rechtsanwälte Steuerberater Partnerschaft mbB
Wittelsbacherplatz 1 80333 München GERMANY

WO0000001802789(8, 9, 16, 42, 45)
Office of Origin: UA

Date of International Registration: 09 February 2024
Date of Designation in the UK: 29 July 2026

The mark comprises of the colours Black, blue, pink, purple and yellow.

Class 8:
Side arms, other than firearms.

Class 9:
Monitoring apparatus, other than for medical purposes; electronic key fobs being remote control apparatus; downloadable graphics for mobile phones; downloadable electronic publications; electronic access control systems for interlocking doors; biometric locks; locks, electric; padlocks, electronic; acoustic alarms; wearable computers; computer hardware; recorded computer software; computer game software, downloadable; computer game software, recorded; computer peripheral devices; downloadable computer programs; computer programs, recorded; computer operating programs, recorded; computer software applications, downloadable; computer software platforms, recorded or downloadable; observation instruments; theft prevention installations, electric; portable power chargers; signals, luminous or mechanical; alarms; downloadable images; downloadable image files; encoded identification bracelets, magnetic (other than for medical purposes).

Class 16:
Fountain pens; notebooks; pamphlets; booklets; greeting cards; printed matter; printed publications; labels of paper or cardboard; newsletters; calendars; flyers; stickers [stationery]; office supplies; printed periodicals; stands for pens and pencils; apparatus for mounting photographs; manuals [handbooks].

Class 42:
Research in the field of telecommunications technology; research in the field of artificial intelligence technology; electronic data storage; electronic monitoring of personally identifying information to detect identity theft via the internet; providing virtual computer systems through cloud computing; providing geographic information; providing information relating to computer technology and programming via a website; providing online geographic maps, not downloadable; providing search engines for the internet; installation of computer software; conversion of data or documents from physical to electronic media; conversion of computer programs and data, other than physical conversion; computer technology consulting; telecommunication network security consultancy; telecommunications technology consultancy; internet security consultancy; computer software consultancy; consultancy in the design and development of computer hardware; monitoring of computer system operation by remote access; writing of computer code; scientific research; maintenance of computer software; updating of computer software; computer programming services for data processing; software engineering services for data processing; software as a service [SaaS]; computer system design; computer software design; rental of computer software; development of computer platforms; software development in the framework of software publishing; creating and designing website-based indexes of information for others [information technology services].

Class 45:
Locating and tracking of lost people; physical security consultancy; monitoring of burglar and security alarms; medical alarm monitoring; babysitting; pet sitting; house sitting; providing non-medical in-home care services for individuals; security guarding of facilities via remote monitoring systems; rental of fire alarms; rental of video surveillance cameras; guard services.

Date of Designation in the UK: 21 August 2026

DESIGN WITH A PURPOSE

International priority date claimed: 10 April 2026 (EM) (019345963)

Class 20:
Furniture; office furniture; school furniture; tables; office desks; table tops; chests of drawers; cupboards; bookcases; furniture shelves; screens [furniture]; benches [furniture]; mirrors (silvered glass); seating furniture; seats; easy chairs; sofas; office armchairs; chairs being office furniture.

Class 35:
Business administration; business management; business economics and consultancy related thereto; commercial assistance and consultancy regarding the exploitation and commercialization of business; commercial project management; business management services related to process management; management of contracts regarding the acquisition and the sale of goods; retail services in relation to furniture including office furniture, school furniture, tables, office desks, table tops, chests of drawers, cupboards, bookcases, furniture shelves, screens [furniture], benches [furniture], mirrors (silvered glass), seating furniture, seats, easy chairs, sofas, office armchairs and chairs being office furniture.

Class 42:
Services of an architect relating to the management of building projects and interior project; development of construction and interior design projects; services of an architect; interior design; services of an architect or a designer relating to the adjustment and decoration of existing and new buildings; services of an architect or a designer relating to the design of interiors of offices, stores and buildings; consultancy relating to the aforementioned services; all the aforementioned explicitly excluding technical consultancy and providing of expertise in connection with the organization of trade fairs and exhibitions.

International priority date claimed: 25 March 2026 (EM) (019336707)
The mark contains the colours purple, magenta, dark blue and white.

Class 37:
Construction services; installation of plant; construction of chemical plants; industrial plant construction; repair or maintenance of chemical plants; maintenance and repair of industrial plants; installation of environmental engineering systems; consultancy relating to the maintenance and repair of environmental control systems; construction of civil engineering works, management of engineering works and supervision of engineering work; building construction supervision; construction consultancy; construction information; repair information.

Class 40:
Soil, waste or water treatment services [environmental remediation services]; reclamation of material from waste; treatment [reclamation] of material from waste; treatment [reclamation] of industrial waste; recovery of critical raw materials from industrial waste; recovery of critical raw materials from industrial byproducts; recycling and waste treatment; treatment of toxic sludges; material treatment information; energy production; treatment of waste materials in the field of environmental pollution control.

Class 42:
Technical research; engineering project studies; technical design; technical planning and design of metal treatment plants; engineering services; technical design and planning of industrial plants; technical design and planning of chemical plants; architectural services; science and technology services; industrial and scientific research services; technical research; research and development services in the field of chemistry; design services; industrial analysis and research services; engineering consultancy services; industrial testing of engineering works; architectural consultancy; design and development of new technology for others; technological research; technological consultancy; engineering services in the field of building technology; architectural services for industrial plants or complexes and buildings.

Date of Designation in the UK: 13 October 2026

Class 9:
Downloadable translation software; artificial intelligence software; interactive software based on artificial intelligence; training software; language training software based on artificial intelligence.

Class 41:
Language tuition; translation and interpretation; language tuition; second language educational services.

Class 42:
Software and application programming for language learning; design and development of software application for language learning.

Date of Designation in the UK: 13 August 2026

International priority date claimed: 17 March 2026 (IL) (391954)

Class 9:
Electro-mechanical systems comprising sensors, optical apparatus, electric actuators, computer hardware and computer software for testing, scanning, measuring and maintaining cell cultures and collecting, analyzing and producing assay data on

cells, producing analysis reports of the data and providing cloud storage of the data and reports.

Class 42:
Lab as a service services (LaaS) for testing, scanning and measuring cell cultures based on assays and for collecting, analyzing and producing biological data on cells, producing analysis reports of the data and providing cloud storage of the data and reports.

Class 1:
Gases for use in the manufacture of semiconductors; hydrogen; hydrogen compounds; liquid hydrogen; polyketone resins.

Class 4:
Hydrogen fuel; fuel gas; solidified gases [fuel]; ethanol fuel.

Class 7:
AC servo motor driver [other than for land vehicles]; LNG pumps for LNG vehicle engines; control valves for regulating the flow of gases and liquids [parts of machines]; gas welding machines; gas pressure regulators [parts of machines]; pressure boosting pumps; pressure reducers as parts of machines; pneumatic pumps; industrial robots; AC generators [alternators]; AC motors; cylinders for motors and engines; unmanned vending machine; electricity generators; valves [parts of pumps]; electric motors, and their parts, not for land vehicles; oxyacetylene welding machines; hydraulic motors for industrial machines; chemical machines for industrial purposes; electric arc welding machines; air cleaners [parts of engines]; heat exchangers [parts of machines]; etching apparatus for manufacturing organic electroluminescence display; hydraulic pressure pump; inverter digital welding machines; fuel dispensing pumps for service stations; fuel pumps for service stations; DC generators; vacuum pumps [machines]; solar-powered electricity generators; machine tools for removing waste material; plasma welding machines;

compressed hydrogen gas supply apparatus for hydrogen fuel cell vehicle engines; compressed biogas supply apparatus for biogas vehicle engines; gas supply compressors for gas plants; control valves for regulating gas flow in gas plants [parts of machines]; gearboxes for non-land vehicles; gears for machines; direct current motors, other than for land vehicles; power transmission gears for machines; direct current motors; engines and motors for the generation of electricity; laser welding machines; high-pressure surface cleaning machines; shock absorbers for machines, other than for land vehicles; brakes for machines, other than for land vehicles; textile machinery.

Class 9:
Computer software relating to the handling of financial transactions; computer software for processing financial transactions for financial institutions; computer software for managing financial transaction records for financial institutions; computer terminals for banking; computer game program [software] for financial securities trading simulation; cash registers; automatic cash registers; automated teller machines [ATM]; banknote sorting machines; credit card reader; credit card machines; cash dispensers; automatic cash sorting and counting machines; relays, electric; fibre optic cables; network operating system programs; large battery packs; electrical reactors [inductors]; high-voltage reactors; electrical terminal boxes; switchboards; distribution consoles [electricity]; distribution boards [electricity]; distribution boxes [electricity]; transformers; shunt reactors; electric control devices for energy management; electrical power distribution blocks; power distribution boxes; transformers [electricity]; solar panels for the production of electricity; electric energy storage devices; electric power converters; power distributors [electrical]; current converters; electric current switches; electric current control devices; current limiters; connections for electric lines; connectors for electric lines; wire connectors [electricity]; voltage surge protectors; voltage monitor modules; voltage stabilizing power supplies; voltage stabilizers; voltage regulators; batteries; battery chargers; electric apparatus for commutation; circuit breakers; photovoltaic modules; solar energy storage devices for generating electricity; circuit closers; rotary converters; unmanned payment terminals; devices for verifying the authenticity of banknotes; point-of-sale [POS] terminals; computer software for cash management; electric switchgear; high voltage transformers; remote control electrical installations for industrial use; overcurrent protection devices; computer programs for network management; computer software programs for substation system management using networks; earth leakage detectors; software for data processing; computer software for database management; devices for processing, transmitting and storing database information; power controllers; power supply apparatus for microgrids; computer software for microgrids; static synchronous compensators [STATCOM]; battery energy storage systems; remote control apparatus; automatic distribution boards; electrical terminals; electrical control devices; secondary batteries; power supply devices; integrated computer software programs for preventive diagnosis and asset management of power facilities; diagnostic apparatus for power facilities; measuring devices for measuring, monitoring and analyzing power consumption; rectifiers; condensers [capacitors]; charging devices; communication equipment; fuses; gas analysing instruments; decompression chambers; mechanisms for coin-operated electronic apparatus.

Class 11:
Cocks for gas pipes; regulating and safety accessories for gas apparatus; gas scrubbing apparatus; air sterilizing devices; air filtering installations; air purifying apparatus and machines; industrial furnaces; cooling installations and machines; water sterilizing and disinfecting devices; water filtering apparatus; hydrogen generator using water electrolysis, steam reformation, methanol, ammonia dissociation; oxygen generator using water electrolysis; exhaust gas purification apparatus; water purifiers for industrial purpose; disinfectant apparatus; liquefied gas evaporators; heat exchangers, other than parts of machines; waste water treatment apparatus; apparatus for filtering greenhouse gases; industrial refrigeration containers for the purpose of low temperature treatment of materials; cooling apparatus, electric; apparatus for the production of hydrogen, carbon dioxide and/or carbon monoxide by electrolysis, steam reforming, methanol or ammonia decomposition or other treatment; gas supply installations consisting of control devices, valves, safety components, monitoring devices, display devices and optional mixing devices; gas condensers, other than parts of machines; gas regulating and safety accessories; regulating and safety accessories for gas pipes; polymerization installations.

Class 22:
Silk fibers; ropes; ramie fiber; true hemp fiber [raw]; raw cotton; raw cotton fibers; cordage; nets [not of metal or asbestos]; raw silk; semi-synthetic fibers for textile use; regenerated fibers for textile use; polyester fibers for textile use; plastic fibers for textile use; synthetic fibers for textile use; chemical fibers for textile use; synthetic ropes; chemical fiber nettings; inorganic fibres for textile use; raw wool fibres.

Class 23:
High tenacity yarns for textile use; nylon yarns for textile use; cotton thread and yarn; sanitary-treated threads and yarns for textile use made of cotton blended with synthetic fibers; bonded yarns for textile use; spandex yarn; semi-synthetic fiber thread and yarn for textile use; regenerated fiber thread and yarn for textile use; elastic thread and yarn for textile use; threads of plastic materials for textile use; chemical-fiber threads and yarns for textile use; synthetic fiber thread and yarn for textile use; synthetic fiber thread and yarn; chemical fiber based mixed thread and yarn; heat-resistant yarn and thread; semi-synthetic fiber thread and yarn; spun yarn; threads and yarns; sewing thread and yarn; regenerated fiber thread and yarn; threads and yarns for textile use; polyester yarns for textile use.

Class 24:
Laminated fabrics; cotton fabrics; semi-synthetic fiber fabrics; waterproof fabrics; narrow woven fabrics; regenerated fiber yarn fabrics; sheets [textile]; textile material; coated fabrics; chemical fiber base mixed fabrics; knitted fabric; fabrics for footwear; embroidered fabrics; fabrics for textile use; non-woven fabrics.

Class 25:
Golf clothing, other than gloves; ready-made clothing; underwear; knitwear; leggings; hats; mufflers; shorts; cold-weather clothing; cold-weather gloves; brassieres; blouses; shirts; swimwear; scarves; stockings; footwear; children's clothing; socks; overalls; dresses; uniforms; infant wear; clothing; gloves for clothing; work clothes; pajamas; jackets;

jumpers; jeans; coats; t-shirts; pants; underpants; waterproof clothing; tracksuits.

Class 35:
Retail services for chemical fibers for textile use; retail services for threads and yarns for textile use; retail services for liquid hydrogen; retail services for hydrogen compounds; retail services for compressed hydrogen; retail services for hydrogen; sales agency services for industrial chemical compositions containing hydrogen; database management; business management and organization consultancy; commercial administration of the licensing of the goods and services of others; sales agency services for organic acid compounds.

Class 36:
Real estate rental; rental of buildings; real estate management of industrial sites; rental of ATM machines; financial brokerage services via mobile and internet platforms.

Class 37:
Installation, maintenance and repair of ATM machines; construction of structures for storage of natural gas; construction of structures for production of natural gas; installation, maintenance and repair of compressed natural gas chargers; installation of gas supply and distribution apparatus; gas extraction services; installation, maintenance and repair of gas supply apparatus; construction of power plants for renewable energy [including solar and wind power]; maintenance of data processing and computer equipment; consultancy relating to the construction of data centers; installation, maintenance and repair of computer hardware for electronic data processing systems; installation, maintenance and repair of telecommunication networks/devices/equipment; building construction; maintenance and repair of power generation apparatus and installations; installation and repair of electrical devices; general construction contracting services; installation of machinery; maintenance of machinery; repair of machinery.

Class 39:
Gas supplying for companies, plants, institutions and individuals; storage of energy and fuels; storage of gas; distribution of liquid fuel through pipelines; charging stations services for electric vehicles; providing information and consultancy relating to energy distribution; logistics transportation services.

Class 40:
Gas processing services; gas compression services; production of energy; production of gas and electricity; rental of electrical transformers; textile finishing services; textile dyeing and processing services; textile dyeing services; synthetic resin processing services.

Class 42:
Software development; installation and maintenance of computer software; technical consultancy relating to gas use, gas processing, gas supply and gas production in the field of chemical research; chemical technology research in the field of hydrogen; chemical engineering research relating to liquid hydrogen technology; engineering relating to gas utilization and application for industrial and scientific purposes; research and development in the field of renewable energy; data storage services; providing computer facilities for the electronic storage of digital data; development of systems for data processing; design of electrical transformers; mechanical research; cloud computing services; technical monitoring of gas supply machinery and apparatus; technical monitoring of gas plants; development of data processing software; research in the field of semiconductor manufacturing; research relating to environmental protection; research in the field of energy.

International priority date claimed: 16 July 2026 (EM) (019395995)

Class 1:
Basic chemicals and basic petrochemicals, including acetic acid, methane carboxylic acid, ethanoic acid, methane carbonyl and ethanoyl, all for industrial use; solvents for industrial use, insofar as not included in other classes; propylene oxide and its derivatives, including butanediol, glycol, deicing fluids and polyols, all for industrial use; styrene, benzene and chemical aromatic compounds insofar as not included in other classes, for industrial use; chemical compounds with aromatic properties, for industrial use; polymers, including olefin polymers, olefin copolymers and compositions thereof, all for industrial use; catalysts; chemical additives for fuels.

Class 4:
Fuels, including petrol, (jet) aircraft fuel and diesel; lubricants; refined petroleum products (fuels and lubricants); non-chemical additives for fuels.

Class 17:
Olefin polymers or copolymers being semi-finished products, compositions of olefin polymers or copolymers being semi-finished products for industrial use.

Class 42:
Research into chemical and petrochemical processes, whether or not for improving existing processes; development of chemical and petrochemical processes; engineering services in the field of chemical and petrochemical process technologies, as well as advising and consultancy on that subject; technical consultancy and design services regarding chemical and petrochemical process technologies; industrial design; preparation of expert reports in the field of chemical and petrochemical process technologies, also to be used as technical documentation; chemical analyses; technical supervision and inspection services in the field of process technologies.

Class 45:
Consultancy in the field of intellectual property; legal administration of industrial property rights, including licensing; all the aforementioned services in relation to chemical and petrochemical processes.

Chiever B.V.

Representative:CHIEVER BV
2Amsterdam Eduard van Beinumstraat 10, 3rd Floor NL-1077 CZ Amsterdam NETHERLANDS

WO0000001934103(9, 35, 42)
Office of Origin: AU

Date of International Registration: 22 June 2026
Date of Designation in the UK: 22 June 2026

The mark contains the colours dark blue, light blue and orange. The mark consists of a stylised circular device positioned to the left of the word element “corePLAN”. The circular device comprises multiple concentric, incomplete rings forming a segmented circular shape. The rings are predominantly dark blue, with a contrasting segment in orange appearing on the upper right portion of the circle. The circular device creates the impression of a dynamic, partially open ring. To the right of the device appears the word “corePLAN” in a stylised sans-serif font. The word “core” is presented in lowercase letters in orange. The word “PLAN” appears in uppercase letters in a light blue colour. The elements are arranged horizontally on a single line, with the circular device preceding the word element.

Class 9:
Data processing software; data communications software; process controlling software; computer software; computer software designed to estimate costs; computer software designed to estimate resource requirements; computer software downloaded from the internet; computer software for business purposes; computer software packages; interactive computer software; computer software programs for database management; computer software programs for spreadsheet management; computer programs for financial management; computer programs for project management; computer programs for use in database management.

Class 35:
Business administration services; billing services; cost analysis; cost price analysis; business administration advisory services; advisory services for business management; business advisory services; business analysis services; business data analysis services; business data analysis; business consulting services for digital transformation; business advisory services relating to

the management of businesses; computerized file management; advisory services relating to business risk management; business project management; data base management; data management; database management; computerised database management.

Class 42:
Engineering project management services; scientific and technological services; platform as a service (PaaS); application service provider (ASP) services; software as a service (SaaS); digitisation of documents (scanning).

Thyra

International priority date claimed: 12 November 2025 (EM) (019275098)

Class 7:
Aviation drive trains; step-up gears for vehicles [other than land vehicles]; turbines, other than for land vehicles; mechanical engine parts for land vehicles; parts and fittings of the aforesaid.

Class 9:
Electronic control apparatus, control systems and control modules for use in relation to the following goods: unmanned aircraft vehicles and aerial drones; flight control apparatus; remote control devices; electronic regulators; instruments for electric and electronic testing; digital controls and programmable controllers; electronic control apparatus, actuation and control systems and control modules for start devices and launchers for unmanned aircraft; data transmission and/or communication apparatus; radio modules, radio receiving tuners, radio transmitters, telemeters and aerials; apparatus for navigation, position fixing apparatus and gps systems; electronic systems for positioning and flight monitoring; sensors and sensor units, in particular radar sensors, lidar sensors, infra red sensors, optical sensors and acoustic sensors; electronic targeting, fire control and

monitoring systems, other than the aforesaid for firearms; optical, opto-electronic and electro-optical observation, sighting and detection devices; apparatus providing night vision and thermal imaging cameras; laser rangefinders; electronic devices for image processing; systems for merging data and evaluating sensor data; electronic jammers; apparatus for radio, signal and communications suppression; electromagnetic jamming devices; radar and radio signal detection devices; electronic systems for detecting, locating and classifying unmanned aircraft; electronic drone defence systems; computer hardware for flight control, data processing and communications; electric power supply, charging and battery systems for electronic control apparatus; interface modules and apparatus for the transmission of data; flight recorders and electronic inspection and evaluation units; downloadable computer software for flight control, mission planning, stabilisation, obstacle detection, collision avoidance, autonomous navigation, targeting and mission analysis; downloadable computer software for artificial intelligence and machine learning for evaluating sensor data; downloadable computer software for controlling and monitoring drone fleets; downloadable simulation software for flight emissions and training purposes; downloadable computer software for integrating, visualising and analysing flight data; control units and storage batteries for use in relation to the following goods: aerial drones; chargers for electric batteries for use in relation to the following goods: aerial drones; defence systems relating to drone and unmanned aerial systems comprised of signal jammers, and/or laser equipment; defence systems relating to drone and unmanned aerial systems comprised of signal jammers and/or lasers for the purpose of intercepting unmanned aerial systems.

Class 12:
Aircraft; unmanned aerial vehicles [UAVs]; drones; intercepting drones [defence drones]; combat drones and surveillance drones; military and civilian drones; electrically powered aircraft; multicopters, quadrocopters, hexacopters, octocopters; remote controlled flying objects; air vehicles; launching gear and start systems for use in relation to the following goods: unmanned aeroplanes; mobile take-off platforms and take-off frames; take-off and landing equipment for drones; net ejectors for the capture of unmanned aircraft; mechanical or pneumatic launchers for take-off of unmanned aircraft; flight frames for drones, propellers for drones, rotor blades for drones, landing gear for drones, carrier systems for drones, holders for drones; devices for landing drones; devices for assembling drones; aircraft parts, namely take-off and salvage devices for drones; camera drones; structural parts for aircraft; mechanical take-off devices and take-off systems for use in relation to the following goods: unmanned aeroplanes; pneumatic or mechanical launchers for take-off of unmanned aircraft; mechanical devices for take-off, salvage or capture of drones; take-off and landing equipment for drones; mobile take-off platforms and take-off frames; mechanical or pneumatic launchers for take-off of unmanned aircraft.

Class 13:
Defensive weapon systems; defence systems relating to drone and unmanned aerial systems comprised of precision weapons; explosives; detonators; ammunition; ballistic weapons; projectiles [weapons]; remote controlled missiles and guided projectiles; bombs; artillery guns [cannons] and firearms; weapon-launching apparatus; remote-controlled kinetic missiles for disabling and/or neutralising unmanned aerial systems; firing control installations in the nature of sighting devices, other than telescopic sights, for firearms; kinetic weapons for neutralising unmanned aerial systems; surface to air weapons; air to surface weapons; decoy weapons; remote-controlled kinetic missiles in the form of guided missiles for neutralising other unmanned aerial systems via impact; ballistic weapons and projectiles for use with robots, vehicles and drones; anti-ballistic missiles; remotely-operated weapons; gun turrets, gun carriages, missile launchers, countermeasure launchers, and decoy weapon launchers for later installation in or on aircraft, unmanned vehicles, drones, land vehicles, or marine vehicles; defence systems relating to drones and unmanned aerial systems comprised of precision targeted weapons for the purpose of intercepting unmanned aerial systems; parts and fittings for the aforementioned goods.

Class 42:
Science and technology services; industrial analysis and research services; design and development of computer hardware and software; design, development and testing of drones, unmanned aircraft and control systems therefor; development of the following goods: software for artificial intelligence and machine learning for controlling autonomous aircraft; development and integration of sensor, navigation and communications systems; development of the following goods: programs for simulating flight missions in a virtual optical laboratory; technological research in the field of aerospace technologies; development of the following goods: systems for drone defence and air safety surveillance; technical consultancy in the following fields: flight control, robotics and IT services; programming of electronic control systems; writing of control programs; design of CAD/CAM software for construction and automated production.

Class 45:
Security services for the protection of property and individuals; security monitoring of public, industrial and military installations; providing drone services for monitoring and control of borders, infrastructures and property; detection, tracking and defence services for unmanned aircraft; security consultancy relating to the deployment and defence of drones.

CREAO AI PTE. LTD.

WO0000001933543(9, 16, 35, 38, 41, 42)
Office of Origin: US

Date of International Registration: 19 January 2026
Date of Designation in the UK: 19 January 2026

The mark consists of the styled wording "NEXTFin.AI", adopting a modern geometric font design, emphasizing the brand's sense of technology, forward-thinking, and innovation. The "NEXT" and "AI" portion is constructed with crisp, straight lines in a simple and elegant typeface, evoking a futuristic feel. The letter "X" is specially designed to present a dynamic crossing effect, symbolizing breakthrough and transformation, and highlighting the brand concept of "next step" and "next-generation solutions." The "Fin" part is placed within a rightward-expanding flag-shaped graphic, with bold and distinctive lettering. This composition conveys a sense of stability and direction, representing the brand's professionalism and leadership.

Class 9:
Downloadable computer software applications for providing users with news content; downloadable mobile applications for providing users with news content; downloadable tablet applications for providing users with news content; recorded computer software for providing users with news content; downloadable computer software using artificial intelligence (AI) for providing users with news content; downloadable electronic publications in the nature of books and magazines in the field of providing users with news content.

Class 16:
Printed manuals in the field of news; printed periodicals in the field of news; printed magazines in the field of news.

Class 35:
Advertising, including on-line advertising on a computer network; on-line advertising on computer networks; rental of advertising time on communication media; organizing exhibitions for commercial or advertising purposes; organization of trade fairs; provision of an online marketplace for buyers and sellers of goods and services.

Class 38:
News agencies, namely, the transmission of news items to news reporting organizations; internet broadcasting services; electronic message sending; message sending via a website; electronic transmission of mail and messages; providing an on-line forum for finance, sports, technology, and media news.

Class 41:
Providing on-line courses of instruction in the field of finance, sports, technology, and media news via a website; training services in the field of business knowledge; providing training in the field of finance, sports, technology, and media news; production of podcasts; publishing of books, magazines; publishing of electronic publications; publishing of web magazines; digital video, audio, and multimedia publishing services; writing of articles for periodicals other than for advertising or publicity; arranging and conducting of in-person educational forums in the field of finance, sports, technology, and media news; providing an in-person cultural, educational forum in the field of finance, sports, technology, and media news.

Class 42:
Software design and development; user interface (UI) design.

Specifications have been restricted as follows:

Class 41:
Electronic games services provided by means of the Internet; Gaming services; Game services provided online from a computer network; none of the aforesaid relating to the provision, operation or supply of an iGaming platform.

UK00004429721 (2026/034, 21 August 2026)
Specifications have been restricted as follows:

Class 20:
Furniture and furnishings; Countertops; Tables; Work tables; Shelving; Shelving units; Trolleys [furniture]; Counter stands; Display stands, all the foregoing goods being intended for use in professional kitchens, restaurants and catering establishments and none of these goods being intended for use in libraries or educational establishments; Counter tops for use with sinks; Sink liners; Tea carts; Parts, fittings and accessories for the aforesaid goods.

Class 35:
Retail and wholesale services connected with the sale of furniture and furnishings, countertops, tables, work tables, shelving, shelving units, trolleys [furniture], counter stands and display stands, all the foregoing goods being intended for use in professional kitchens, restaurants and catering establishments and none of these goods being intended for use in libraries or educational establishments; Retail and wholesale services connected with the sale of apparatus, installations and appliances for use in cooking and baking, apparatus, installations and appliances for use in warming and heating food and beverages, apparatus, installations and appliances for use in cooling, freezing and refrigerating food and beverages, cookware, kitchen utensils, cooking utensils, cleaning utensils, heat-insulating containers for beverages and foodstuffs, rolling pins, graters, immersion heaters, ovens, hobs, cookers, cooking ranges, electric and gas fryers for cooking, char broilers for cooking, induction cooktops, electrical and gas griddles for cooking, electric grills, deep fryers, waffle makers, crepe machines, refrigerators, freezers, wine refrigerators, freezer cabinets, fridges, commercial blast chillers and freezers, water and ice dispensers, filters for water and ice dispensers, juice and slush dispensers, filters for juice and slush dispensers, ice makers, ice cream makers, ice cream freezers, portable ice bins for refrigerating, burger presses, electric, electric broilers, gas fired broilers, kebab cooking machines, rotisseries, electric rotisseries, heated cabinets for foodstuffs, chilling cabinets, drier cabinets, fermentation apparatus for industrial purposes, proving cabinets for dough, electric chocolate makers, apparatus, installations and appliances for use in warming and heating chocolate, kettles, electric, cooking pots, electric, bath boilers, portable cooking kits for outdoor use, barbecue cooking apparatus, wood stoves, pizza ovens, sinks, kitchen machines, kitchen tools (poweroperated), electric food mixers, electric meat slicers, electric food blenders, electric kitchen grinders, electric juicers, cleaning appliances utilizing steam, dishwashers, sealing machines for use with foodstuffs, vacuum packing machines for use with foodstuffs, vacuum bags for use with packing and sealing machines, food processors, electrical food processors, cutters [machines], mixers [kitchen machines], vegetable cutting machines, kneading machines, dough kneading machines, dough rounding machines (electric -), dough dividing machines (electric -), pasta cutters [machines], machines for making pasta, electric sausage stuffers, sausage machines, electric meat grinders, saws, electric vegetable peelers, electric fruit peelers, electric graters, bread slicers [hand-operated], bread cutting machines, hand-operated cutting tools, cutlery, kitchen knives, and cutting implements for kitchen use, knives, knife sharpeners, cleavers, non-electric vegetable peelers, vegetable slicers, vegetable knives, vegetable choppers, non-electric fruit peelers, fruit knives, cheese slicers, cheese knives, tableware [knives, forks and spoons], counter tops for use with sinks, sink liners, tea carts, and parts, fittings and accessories for the aforesaid goods.

UK00004432874 (2026/044, 30 October 2026)
Specifications have been restricted as follows:

Class 7:
Pumps, compressors and blowers; Vacuum pumps; Vacuum pump installations; Oil sealed pumps; Oil sealed rotary pumps; Oil sealed piston pumps; Booster pumps; Dry pumps; Dry vacuum pumps; Industrial dry pumps; Parts, fittings and accessories of the aforementioned.

UK00004425177 (2026/041, 09 October 2026)
Specifications have been restricted as follows:

Class 9:
Downloadable computer software for business networking, business benchmarking relating to the commercial performance and growth of businesses, and connecting founders, investors and advisors; downloadable mobile applications for business networking and business benchmarking relating to the commercial performance and growth of businesses; downloadable computer software using artificial intelligence for generating business growth recommendations, commercial insights and business performance analysis, being business application software, software for facilitating professional connections between people, and business nan-technical consultancy software; downloadable computer software for peer comparison of business performance metrics; downloadable computer software for Creating, reviewing and analysing pitch decks, market sizing reports and fundraising plans; downloadable computer software for managing startup accelerator and incubator programmes; downloadable electronic publications in the field of business scaling, entrepreneurship and investment; none of the aforesaid comprising downloadable computer software for specialist artificial intelligence model development, training, fine-tuning or evaluation services for third parties, Al model training data annotation or labelling services, benchmarking of Al models or Al agents, or the

implementation or integration of artificial intelligence model infrastructure for third parties.

Class 35:
Business networking services; business consultancy services; business advisory services for startups and scale-up companies; business benchmarking services relating to the commercial performance and growth of businesses; business data analysis relating to commercial performance, business development and business growth; market research; market analysis; providing business information; business intelligence services relating to commercial performance, business development and business growth; arranging and conducting business networking events; business introduction services; business matching services, namely connecting founders with investors, advisors and business partners; business management assistance for accelerator and incubator programmes; compilation and systemisation of information into computer databases; none of the aforesaid in the fields of or for specialist artificial intelligence model development, training, fine-tuning or evaluation services for third parties, Al model training data annotation or labelling services, benchmarking of Al models or Al agents, or the implementation or integration of artificial intelligence model infrastructure for third parties.

Class 42:
Software as a service [SaaS] featuring software for business networking, business benchmarking relating to the commercial performance and growth of businesses, and connecting founders, investors and advisors; providing temporary use of online non-downloadable software using artificial intelligence for generating business growth recommendations, commercial insights and business performance analysis, such software being business application software, software for facilitating professional connections between people, and business non-technical consultancy software; providing temporary use of online non-downloadable software for pitch deck review, market sizing, fundraising planning, competitor monitoring and accelerator programme management; hosting of an online platform for business networking and collaboration; design and development of computer Software, being business application software, software for facilitating professional connections between people, and business non- technical consultancy software; none of the aforesaid in the fields of or for specialist artificial intelligence model development, training, fine-tuning or evaluation services for third parties, Al model training data annotation or labelling services, benchmarking of Al models or Al agents, or the implementation or integration of artificial intelligence model infrastructure for third parties.

UK00004425180 (2026/041, 09 October 2026)
Specifications have been restricted as follows:

Class 9:
Downloadable computer software for business networking, business benchmarking relating to the commercial performance and growth of businesses, and connecting founders, investors and advisors; downloadable mobile applications for business networking and business benchmarking relating to the commercial performance and growth of businesses; downloadable computer software using artificial intelligence for generating business growth recommendations, commercial insights and business performance analysis, being business application software, software for facilitating professional connections between people, and business non-technical consultancy software; downloadable computer software for peer comparison of business performance metrics; downloadable computer software for creating, reviewing and analysing pitch decks, market sizing reports and fundraising plans; downloadable computer software for managing startup accelerator and incubator programmes; downloadable electronic publications in the field of business scaling, entrepreneurship and investment; none of the aforesaid comprising downloadable computer software for specialist artificial intelligence model development, training, fine-tuning or evaluation services for third parties, Al model training data annotation Or labelling services, benchmarking of Al models or Al agents, or the implementation or integration of artificial intelligence model infrastructure for third parties.

Class 35:
Business networking services; business consultancy services; business advisory services for startups and scale-up companies; business benchmarking services relating to the commercial performance and growth of businesses; business data analysis relating to commercial performance, business development and business growth; market research; market analysis; providing business information; business intelligence services relating to commercial performance, business development and business growth; arranging and conducting business networking events; business introduction services; business matching services, namely connecting founders with investors, advisors and business partners; business management assistance for accelerator and incubator programmes; compilation and systemisation of information into computer databases; none of the aforesaid in the fields of or for specialist artificial intelligence model development, training, fine-tuning or evaluation services for third parties, Al model training data annotation Or labelling services, benchmarking of Al models or Al agents, or the implementation or integration of artificial intelligence model infrastructure for third parties.

Class 42:
Software as a service [SaaS] featuring software for business networking, business benchmarking relating to the commercial performance and growth of businesses, and connecting founders, investors and advisors; providing temporary use of online non- downloadable software using artificial intelligence for generating business growth recommendations, commercial insights and business performance analysis, such software being business application software, software for facilitating professional connections between people, and business non-technical consultancy software; providing temporary use of online non-downloadable software for pitch deck review, market sizing, fundraising planning, competitor monitoring and accelerator programme management; hosting of an online platform for business networking and collaboration; design and development of computer software, being business application software, software for facilitating professional connections between people, and business non- technical consultancy Software; none of the aforesaid in the fields of or for Specialist artificial intelligence model development, training, fine-tuning or evaluation services for third parties, Al model training data annotation or labelling services, benchmarking of Al models or Al agents, or the implementation or integration of artificial intelligence model infrastructure for third parties.

UK00004437417 (2026/037, 11 September 2026)

UK00004450166 (2026/041, 09 October 2026)

Specifications have been restricted as follows:

Class 30:
Biscuits; chocolate biscuits; savoury biscuits; cakes; chocolate; pastries; confectionery; cereals, expressly excluding rice; cookies; sauces.

UK00004449750 (2026/042, 16 October 2026)
Specifications have been restricted as follows:

Class 9:
Downloadable computer software and mobile applications featuring artificial intelligence for conversational interaction, virtual assistant functions, and business process automation. Downloadable artificial intelligence software for generative creation of text, images, video, 3D model authoring, computer code, and computer-aided design.

Class 42:
Artificial intelligence as a service (AIaaS) featuring non-downloadable artificial intelligence software for conversational virtual assistants, automated task execution, and the automated generation of digital content and data outputs. Software as a service (SaaS) featuring generative artificial intelligence software tools.

UK00004435023 (2026/041, 09 October 2026)
Specifications have been restricted as follows:

Class 16:
Printed books; Printed booklets; Printed pamphlets; Printed publications; Books; Printed manuals; Printed cards; Blank journal books; Printed teaching materials; Printed programmes.

Class 25:
Robes: cloaks: hooded sweatshirts: scarves: sweat shirts: T-shirts: jackets: [clothing]: hats: caps:[headwear] all of the aforesaid relating to cultural festivals and gatherings.

Class 41:
Organisation of cultural events; Organising events for cultural purposes; Organising community cultural events; Conducting of cultural events; Organising of recreational events.

UK00004424758 (2026/033, 14 August 2026)
Specifications have been restricted as follows:

Class 9:
Downloadable mobile applications for finding meals and for counting, tracking and logging the calories, macronutrients and prices of food and meals, including restaurant and supermarket meals.

Class 42:
Software as a service [SaaS] for finding meals and for counting, tracking and logging the calories, macronutrients and prices of food and meals, including restaurant and supermarket meals.

UK00004431391 (2026/035, 28 August 2026)
Specifications have been restricted as follows:

Class 3:
Perfume; Perfume oils; Perfumery and fragrances; Fragrances; Cologne; Room perfume sprays; Liquid perfumes; Fragrance emitting wicks for room fragrance; Aftershave lotions; Body fragrances; Household fragrances; Room perfumes in spray form; Perfumery products; Room fragrances; Aftershave; Perfumed soaps; Solid perfumes; Aftershave balms; Roll-on deodorants [toiletries]; Natural perfumery.

UK00004446416 (2026/040, 02 October 2026)
Specifications have been restricted as follows:

Class 3:
Non-medicated skin care preparations for animals; non-medicated preparations containing honey for the care of animal skin.

Class 5:
Veterinary preparations; wound dressings for veterinary use; wound dressings containing honey, for veterinary use; burn dressings for veterinary use; gels and creams for veterinary purposes; preparations for the treatment and management of wounds and bums In animals; honey adapted for veterinary purposes; medical grade honey for veterinary purposes.

UK00004422322 (2026/041, 09 October 2026)
Specifications have been restricted as follows:

Class 9:
Downloadable and recorded content; Safety, security, protection and signalling devices; Databases; Software; Application software; Software for monitoring, analysing, controlling and running physical world operations; System and system support software, and firmware; Communication, networking and social networking software; Data and file management and database software; Communication software; Satellite imagery photo-interpretation software; Alarms and warning

equipment; Protective and safety equipment; Annunciators; Computer hardware; Electronic global positioning systems; Navigation, guidance, tracking, targeting and map making equipment; Satellite navigational apparatus; Communications equipment; Data processing equipment and accessories (electrical and mechanical); Information technology and audio-visual, multimedia and photographic equipment; Broadcasting equipment; Computer networking and data communications equipment; Point-to-point communications equipment; Satellite apparatus; Satellite processors; Satellite receiving apparatus; Satellites; Antennas and aerials as communications equipment; Computer components and parts; Computers and computer hardware; all of the aforesaid to be provided to the aerospace, satellites and satellite communications industry sectors and specifically excluding investigative and digital forensics, fraud investigations, business investigation and intelligence services, data recovery, asset tracing and recovery cyber security and intelligence services and other private investigations services.

Class 12:
Air and space vehicles; Parts and fittings for vehicles, not covering airport and land vehicles; Vehicles and conveyances, not covering airport and land vehicles and conveyances; Water vehicles; Aeronautical apparatus, machines and appliances; Launch vehicles for satellites; Space vehicles; Parts and fittings for air and space vehicles.

Class 38:
Provision and rental of telecommunications facilities and equipment; Telecommunication services; Consultancy in the field of telecommunications; Air to ground telecommunications services; Broadcasting services; Communication of information by satellite; Communications services; Communication services by satellite; Computer communication and Internet access; Consultancy services relating to data communications; Data transmission; Operation of telecommunications satellites; Information about telecommunication; Satellite capacity provision [telecommunications]; Satellite transmission; Secured data, sound and image transmission services.

Class 42:
Design services; IT services; Science and technology services; Computer hardware development; data coding services; Hosting services, software as a service, and rental of software; IT consultancy, advisory and information services; Rental of computer hardware and facilities; Software development, programming and implementation; Advisory services relating to energy efficiency; Consultancy relating to filtration technology; Development of engines; Engineering services; Natural science services; Provision of scientific information; Rental of science and technology equipment; Technical consultation in the field of aerospace engineering; Design services for vehicles; all of the aforesaid services to be provided to the aerospace, satellites and satellite communications industry sectors and specifically excluding investigative and digital forensics, fraud investigations, business investigation and intelligence services, data recovery, asset tracing and recovery, cyber security and intelligence services and other private investigations services.

UK00004423829 (2026/034, 21 August 2026)
Specifications have been restricted as follows:

Class 9:
Mobile application software; Downloadable smart phone applications (software); Software for mobile phones; Mobile software; Computer software for mobile phones; Computer application software for mobile phones; Software applications for mobile devices; Software and applications for mobile devices; Mobile apps; Application software for mobile phones; Downloadable smart phone application software; Smartphone software; Application software for mobile devices; Smartphone software applications, downloadable; Downloadable application software for smart phones; Downloadable software in the nature of a mobile application; Downloadable software applications for mobile phones; Application software for smart phones; Downloadable mobile applications; Downloadable applications for mobile devices; Web application software; Downloadable application software; Application software; Software for smartphones; Navigation software; Interactive computer software that provides navigational and travel information; GPS navigation systems; Software for GPS navigation; Software for GPS navigation systems; Software; all of the aforesaid goods for use in relation to navigation, route planning, positioning, and transport and travel information, and none being related to pensions, insurance, financial services, education, academic assessment, women's health and wellness products or services, breast pumps, breastfeeding and infant feeding products or related healthcare products and services.

Class 42:
Hosting of mobile applications; Software as a service [SaaS] featuring software for machine learning; Software as a service; Software as a service [SaaS]; all of the aforesaid services for use in relation to navigation, route planning, positioning, and transport and travel information, and none being related to pensions, insurance, financial services, education, academic assessment, women's health and wellness products or services, breast pumps, breastfeeding and infant feeding products or related healthcare products and services.

UK00004442258 (2026/039, 25 September 2026)
Specifications have been restricted as follows:

Class 9:
Downloadable computer application software for mobile phones, namely, software for processing electronic payments and for transferring funds to and from others, other financial transactions, and electronic wallet services; computer software for processing electronic payments, funds transfers, and financial transactions; computer software for managing electronic wallets; computer software for financial management, and financial research; computer software for point-of-sale (POS) transactions; none of the foregoing related to music, podcasts or entertainment.

Class 42:
Hosting of software and web platforms for processing electronic payments, funds transfers, and financial transactions; providing temporary use of non-downloadable software for electronic wallet management; hosting of software for financial analysis and market data analysis; user authentication services using technology for e- commerce and financial transactions; data encryption and computer security services; none of the foregoing related to music, podcasts or entertainment.

UK00004424216 (2026/033, 14 August 2026)
Specifications have been restricted as follows:

Class 9:

Downloadable mobile application software for home companion robots; Chatbot software for simulating conversations for home companion robots; User-programmable unconfigured humanoid home companion robots; Facial recognition devices for home companion robots; Electric apparatus for remote control signals for home companion robots; Home companion humanoid robots with communication and learning functions for assisting humans and for entertainment; Teaching robots; Humanoid robots with artificial intelligence for scientific research; Remote control apparatus for home companion robots; none of the aforesaid in relation to education, television entertainment, on-demand television services, telecommunications, broadcasting, broadband, fixed line and mobile telephony services, advertising services, sponsorship services, weather forecast and smart home services, home protection and security services.

Class 35:
Advertising; Provision of commercial enterprise information and commercial information via global computer networks; Purchasing services for others (purchasing goods or services for other businesses); Sales promotion for others; Online marketplace for buyers and sellers of goods and services; Import and export agency services; Computer database systematization; All of the aforesaid in relation to the production and retail of home companion robots; Commercial auditing; Vending machine rental; Cash register rental; Sponsorship search; Display stands for sales purposes rental; Retail services for pharmaceutical, veterinary, sanitary preparations and medical supplies; None of the aforesaid in relation to education, entertainment, on-demand television services, telecommunications, broadcasting, broadband, fixed line and mobile telephony services, advertising services, sponsorship services, weather forecast and smart home services, home protection and security services.

Class 42:
Research in the field of artificial intelligence for home companion robots; Research and development of new products for others, namely, home companion robots; Quality control; Material testing; Industrial design (styling); Software as a service (SaaS) for home companion robots; Computer programming for home companion robots; Virtual computer systems provision through cloud computing for home companion robots; Computer hardware design and development consulting for home companion robots; Rental of user-programmable unconfigured home companion humanoid robots; None of the aforesaid in relation to education, entertainment, on-demand television services, telecommunications, broadcasting, broadband, fixed line and mobile telephony services, advertising services, sponsorship services, weather forecast and smart home services, home protection and security services.

UK00004422775 (2026/033, 14 August 2026)
Specifications have been restricted as follows:

UK00004467515 (2026/046, 13 November 2026)
Specifications have been restricted as follows:

UK00004425834 (2026/033, 14 August 2026)
Specifications have been restricted as follows:

Class 9:
Application software for mobile devices; Web application software; Mobile apps; Downloadable software, relating to dance, therapy and wellbeing; Downloadable educational media, relating to dance, therapy and wellbeing; Downloadable electronic newsletters, relating to dance, therapy and wellbeing; none of the aforesaid goods provided in the field of or for academia or scientific research.

Class 41:
Bodywork therapy instruction; Education services relating to therapeutic treatments; Online education services, relating to dance, therapy and wellbeing; Providing online videos, not downloadable, relating to dance, therapy and wellbeing; none of the aforesaid services provided in the field of or for academia or scientific research.

UK00004405707 (2026/033, 14 August 2026)
Specifications have been restricted as follows:

Class 9:
Downloadable computer software for drafting, editing and formatting text but not including the drafting, editing and formatting of examination and assessment scripts in the fields of education, examinations, qualifications, tuition, instruction and training; downloadable computer software for word processing; downloadable application software for word processing; downloadable computer software for document creation and editing but not including the drafting, editing and formatting of examination and assessment scripts in the fields of education, examinations, qualifications, tuition, instruction and training; downloadable computer software for managing and formatting written content but not including examination and assessment scripts in the fields of education, examinations, qualifications, tuition, instruction and training; downloadable artificial intelligence software; downloadable software using artificial intelligence (AI) for writing content based on a theme but not including examination and assessment scripts in the fields of education, examinations, qualifications, tuition, instruction and training; machine learning software; downloadable computer software using artificial intelligence (AI) for use in machine learning in the fields of word processing, text creation and article writing but not including examination and assessment scripts in the fields of education, examinations, qualifications, tuition, instruction and training; downloadable computer software platforms for creating, editing and publishing written articles and written text but not including examination and assessment scripts in the fields of education, examinations, qualifications, tuition, instruction and training; downloadable software incorporating artificial intelligence for generating, editing and analysing text but not including examination and assessment scripts in the fields of education, examinations, qualifications, tuition, instruction and training; computer software platforms, but not for use with examination and assessment scripts in the fields of education, examinations, qualifications, tuition, instruction and training; computer software platforms, recorded or downloadable, but not for use with examination and assessment scripts in the fields of education, examinations, qualifications, tuition, instruction and training; computer programs, recorded, but not for use with examination and assessment scripts in the fields of education, examinations, qualifications, tuition, instruction and training; electronic publications, downloadable, but not including examination and assessment scripts in the fields of education, examinations, qualifications, tuition, instruction and training.

Class 41:

Publishing services; publication of texts, other than publicity texts; publication of electronic books and journals on-line; providing online publications, not downloadable; writing services; creative writing for others; editing of written text; proofreading of texts; custom writing services for non-advertising purposes; publishing of electronic publications; multimedia publishing of books, magazines, journals, software, games, music, and electronic publications; writing of articles for journals other than for advertising or publicity; copy editing; written text editing; publication and editing of printed matter; none of the aforesaid services to include examination and assessment scripts, examination papers, materials for the testing and marking of candidates in the fields of education, training, qualification and assessment; information, advisory and consultancy services relating to all the aforesaid services.

Class 42:
Providing online, non-downloadable software; providing temporary use of non-downloadable software; software as a service (SaaS); platform as a service (PaaS); artificial intelligence as a service [AIaaS]; platforms for artificial intelligence as software as a service [SaaS]; software as a service [SaaS] featuring computer software platforms for artificial intelligence; hosting software platforms; hosting platforms on the Internet; providing temporary use of non-downloadable software for drafting, editing and formatting text; providing temporary use of non- downloadable artificial intelligence software; providing temporary use of non-downloadable software incorporating artificial intelligence for generating and editing text; design and development of computer software; computer programming; development of computer platforms; maintenance of computer software; providing temporary use of non-downloadable software for drafting, editing and formatting text; providing temporary use of non-downloadable software for document creation and editing; Software as a service (SAAS) services featuring software for generating, editing, formatting and analysing written content; platform as a service (PAAS) featuring computer software platforms for generating, editing, formatting and analysing written content; providing on-line non-downloadable software using artificial intelligence (AI) for use in generating, editing, formatting and analysing written content; application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software and web sites of others in the fields of word processing, text creation and article writing; design and development of on-line computer software systems; design and development of computer software for drafting, editing and formatting text; none of the aforesaid services to include examination and assessment scripts, examination papers, materials for the testing and marking of candidates in the fields of education, training, qualification and assessment; information, advisory and consultancy services relating to all the aforesaid services.

UK00004440035 (2026/038, 18 September 2026)

UK00004440035 (2026/038, 18 September 2026)
Specifications have been restricted as follows:

Class 42:
Software as a service [SaaS] featuring software for staff scheduling, rota planning, shift allocation, shift cover management and workforce management; Platform as a Service [PaaS] in the field of staff scheduling and workforce management; Application service provider [ASP], namely, hosting computer software applications of others in the field of staff scheduling and workforce management; Cloud computing services in the field of staff scheduling and workforce management.

UK00004435023 (2026/041, 09 October 2026)
Specifications have been restricted as follows:

Class 16:
Printed books; Printed booklets; Printed pamphlets; Printed publications; Books; Printed manuals; Printed cards; Blank journal books; Printed teaching materials; Printed programmes.

Class 25:
Robes: cloaks: hooded sweatshirts: scarves: sweat shirts: T-shirts: jackets: [clothing]: hats: caps:[headwear] all of the aforesaid relating to cultural festivals and gatherings.

Class 41:
Organisation of cultural events; Organising events for cultural purposes; Organising community cultural events; Conducting of cultural events; Organising of recreational events; none of the aforesaid relating to fitness, sport, training, or health related services.

UK00004442371 (2026/039, 25 September 2026)
Specifications have been restricted as follows:

UK00004398197 (2026/034, 21 August 2026)
Specifications have been restricted as follows:

Class 9:
Computer software, apparatus, instruments, equipment and devices for sequencing, sampling, testing, discovery, integration, normalisation, equalisation, measuring, detection, targeting and transcript capture of DNA, RNA, nucleic acid, nucleic acid biomarkers, novel genes, isoforms, proteins and protein variants; computer software, apparatus, instruments, equipment and devices for sequencing, sampling, testing, discovery, integration, normalisation, equalisation, measuring, detection, targeting and transcript capture of genetic data, information and materials; computer software, apparatus, instruments, equipment and devices for sequencing, sampling, testing, discovery, integration, normalisation, equalisation, measuring, detection, targeting and transcript capture of biological data, information and materials; laboratory equipment, apparatus, devices, systems and software for DNA, RNA and polynucleic acid sample sequencing, sampling, testing, discovery, integration, normalisation, equalisation, measuring, detection, targeting and transcript capture; laboratory equipment, apparatus, devices, systems and software for preparation, purification, amplification, labelling and analysis of biological samples and materials; laboratory equipment, apparatus, devices, systems and software, namely, nucleic acid sequencers and synthesizers, instruments for preparation of nucleic acid samples, protein sequencers, genetic analysers, separation apparatus, nucleic acid purification apparatus, nucleic acid quantitation apparatus, thermal cyclers, cytometry apparatus, protein and peptide synthesizers, mass spectrometers and chromatographs; laboratory equipment for identification and detection of the presence of biologicals or chemicals in a sample; devices for analysis of genome information; biotechnological apparatus; nucleic acid sequencers for scientific purposes; microbiological analysis, detection, screening and testing apparatus; apparatus and devices for carrying out diagnostic tests (other than for medical

purposes); laboratory apparatus, devices and instruments for identifying, measuring, analysing, sequencing or synthesising small molecules, genomes, DNA, RNA or other nucleic acids, proteins, peptides, hormones, metabolic markers and sugars; apparatus and devices for use in DNA, RNA, protein and polynucleic acid sequencing; none of the aforesaid being for use in, or relating to, the field of microscopy.

Class 10:
Medical, veterinary, pharmaceutical and clinical apparatus for sequencing, sampling, testing, discovery, integration, normalisation, equalisation, measuring, detection, targeting and transcript capture of DNA, RNA, nucleic acid, nucleic acid biomarkers, novel genes, isoforms, proteins and protein variants; medical, veterinary, pharmaceutical and clinical diagnostic devices, apparatus, tools and instruments; biological and microbiological analysis, detection, screening and testing apparatus; medical, veterinary, pharmaceutical and clinical apparatus for detecting, identifying, testing and analysing DNA, RNA, proteins, peptides, hormones , metabolic markers and sugars; medical, veterinary, pharmaceutical and clinical apparatus, instruments, equipment and devices for use in detection of proteins, peptides, sugars or metabolites; medical, veterinary, pharmaceutical and clinical apparatus and instruments for biological, bacteriological, chemical, biochemical and molecular analysis; medical, veterinary, pharmaceutical and clinical apparatus, devices and instruments for identifying, measuring, analysing, sequencing or synthesising small molecules, genomes, DNA, RNA or other nucleic acids, proteins, peptides, hormones, metabolic markers and sugars; diagnostic and testing apparatus, for medical purposes; none of the aforesaid being for use in, or relating to, the field of microscopy.

Class 42:
Research, development, analysis and testing services relating to DNA, RNA, nucleic acid, nucleic acid biomarkers, novel genes, isoforms, proteins and protein variants; scientific research relating to genetics; genetic research, testing, screening, analysis and engineering; biological and biotechnological research and analysis; biological laboratory services; preparation of biological samples for testing, research and analysis purposes; medical, clinical and biological research and development services; research and development in the field of diagnostic preparations; provision of information and data relating to medical research and development; conducting clinical trials; research, development and analysis in the field of molecular biology; blood analysis services for scientific and research purposes; laboratory services; laboratory testing services; structural and functional analysis of genomes; biological, microbiological and viral screening and testing services; research, design and development relating to biological and microbiological tests and testing apparatus; diagnostic testing relating to human or animal health; analysis and testing of physiological samples; medical, scientific and technical research services; biochemical research and development; chemical analysis; pharmaceutical research and development; medical, clinical, biological, scientific and technological research, development, analysis and testing services; research, development, analysis and testing services relating to genome sequencing; information, advisory and consultancy services relating to all the aforesaid services; none of the aforesaid being provided in, or relating to, the field of microscopy.

Class 44:
Medical sequencing, sampling, testing, discovery, integration, normalisation, equalisation, measuring, detection, targeting and transcript capture services relating to DNA, RNA, nucleic acid, nucleic acid biomarkers, novel genes, isoforms, proteins and protein variants; animal tissue bank services; cryotherapy services; collection and preservation of animal genetic materials; revival and restoration of animal genetic materials; veterinary services relating to testing of DNA, RNA, nucleic acid, nucleic acid biomarkers, novel genes, isoforms, proteins and protein variants; veterinary services relating to the treatment and processing of stem cells; genetic testing of animals for diagnostic and treatment purposes; medical diagnostic services; medical screening and testing services; medical monitoring and reporting services; optical imaging for medical diagnostic use; medical testing for diagnostic or treatment purposes; medical data services; DNA and RNA testing, screening, extraction and purification services for medical purposes; medical evaluation services; medical screening, testing, monitoring, reporting and analysis services relating to genome sequencing; medical services in the nature of amplifying, labelling, detecting, analysing and sequencing nucleic acids; medical screening, testing, monitoring, reporting and analysis services relating to cells, tissues, gene expressions, gene and genome sequences, genome annotation, genome mapping, genome interaction and annotation, all for medical purposes; information, advisory and consultancy services relating to all the aforesaid services; none of the aforesaid being provided in, or relating to, the field of microscopy.

UK00004427299 (2026/034, 21 August 2026)
Specifications have been restricted as follows:

Class 9:
Software for special educational needs and educational support, namely mobile and web applications for the screening, identification, assessment and coordination of special educational needs in children; software for educational management, data reporting and case coordination for use by schools, local authorities and healthcare.

UK00004441389 (2026/038, 18 September 2026)
Specifications have been restricted as follows:

Class 43:
Bar and restaurant services; Restaurant and bar services; Take-out restaurant services; Salad bars[restaurant services]; Fast-food restaurant services; Restaurant services; Take-away restaurant services; Restaurant reservation services; Restaurants; Grill restaurants; Carry-out restaurants; Reservation of restaurants; Fast food restaurants; Serving food and drink in restaurants and bars; Serving food and drink for guests in restaurants; Booking of restaurant seats; Provision of food and drink in restaurants; Providing food and drink in restaurants and bars; Restaurant services for the provision of fast food; Mobile restaurant services; Catering of food and drinks; Self-service restaurant services; Providing food and drink for guests in restaurants; Tourist restaurants; Food and drink catering; Catering of food and drink; Catering(Food and drink-); Catering in fast-food cafeterias; Serving food and drink in doughnut shops; Food and drink catering for banquets; Serving food and drink in Internet cafes; Delicatessens[restaurants]; Reservation and booking services for restaurants and meals; Restaurant services incorporating licensed bar facilities; Restaurant information services; Café

services; Cocktail lounge buffets; Restaurants(Self-service-); Self-service restaurants; Providing restaurant services; Eateries; Providing food and drink in doughnut shops; Food and drink catering for cocktail parties; Bistro services; Serving food and drinks; Providing food and drink in bistros; Take-away food and drink services; Food and drink catering for institutions; Takeaway food and drink services; Providing food and drink in Internet cafes; Serving food and drink for guests; Hospitality services [food and drink]; Catering for the provision of food and drink; Making reservations and bookings for restaurants and meals; Agency services for reservation of restaurants; Take-away food services; Providing reviews of restaurants and bars; Catering services for providing Spanish cuisine; Take-away fast food services; Takeaway food services; Providing food and drink catering services for exhibition facilities; Providing of food and drink via a mobile truck; Providing food and drink for guests; Sushi restaurant services; Carvery restaurant services; Japanese restaurant services; Spanish restaurant services; Ramen restaurant services; Tempura restaurant services; Washoku restaurant services; Udon and soba restaurant services; Catering services for providing Japanese cuisine; Consultancy services in the field of food and drink catering; Pizza parlors; Tapas bars; Catering services for company cafeterias; Hookah bar services; Beer bar services; Brasserie services; Snack bar services; Providing food and drink catering services for convention facilities; Salad bars; Corporate hospitality (provision of food and drink); Club services for the provision of food and drink.

UK00004392914 (2026/042, 16 October 2026)
Specifications have been restricted as follows:

Class 9:
Computer software, mobile application software and platform software for providing financial services none of the aforesaid relating to football financing; computer software, mobile application software and platform software for providing information on financial services none of the aforesaid relating to football financing; computer software, mobile application software and platform software for providing financial ratings and credit reports none of the aforesaid relating to football financing; computer software, mobile application software and platform software for providing credit assessment and credit screening services; computer software, mobile application software and platform software for providing credit reporting services; computer software, mobile application software and platform software for providing credit rating services; computer software, mobile application software and platform software for providing credit scoring services; computer software, mobile application software and platform software for the preparation of credit reports; computer software, mobile application software and platform software for credit application processing; computer software, mobile application software and platform software for collection and systemization of data; computer software, mobile application software and platform software for providing data processing and data verification services; computer software, mobile application software and platform software for the aggregation of financial data; computer software, mobile application software and platform software for the aggregation of personal financial data; computer software, mobile application software and platform software for providing financial advice none of the aforesaid relating to football financing; computer software, mobile application software and platform software for customer profiling; computer software, mobile application software and platform software for matching consumers with financial products and financial instruments, including credit cards, personal loans, mortgages, car finance deals, mobile phone contracts, pension funds; computer software, mobile application software and platform software enabling customers to communicate with providers of financial services; computer software, mobile application software and platform software for marketing of financial products none of the aforesaid relating to football financing; computer software, mobile application software and platform software for providing advice on debt management and debt repayment; financial management software none of the aforesaid relating to football financing; computer software, mobile application software and platform software for internet security, data security, data recovery and IT security, protection and restoration; computer software, mobile application software and platform software for accessing, browsing and searching online databases; electronic publications recorded on computer media; electronic databases recorded on computer media; databases; interactive databases; downloadable electronic reports; downloadable publications; electronic publications; downloadable electronic publications; downloadable electronic publications in the field of finance none of the aforesaid relating to football financing; downloadable electronic publications in the field of credit reporting; downloadable educational media; financial management software; open banking software; downloadable computer programs, computer software, platform software and application software for the provision of the aggregation of open banking data; downloadable publications in the field of open banking; parts and fittings for all the aforesaid goods.

Class 35:
Financial marketing none of the aforesaid relating to football financing; marketing of financial products none of the aforesaid relating to football financing; customer targeting and marketing services; direct marketing; consumer research; price comparison services; collecting business information; collection of data; collection and systemization of business data; provision of business advice; provision of business information; business advice relating to financial rating; data analysis; data processing services; online data processing services; data processing management; computerised data processing; data processing for businesses; compilation of business data; computerised data verification; data retrieval services; database management services; computerised data verification; customer profiling services; business risk management services; the bringing together, for the benefit of others, of a variety of financial services, enabling consumers to conveniently compare and purchase those services none of the aforesaid relating to football financing; business administration services in the field of open banking; information, advisory and consultancy services relating to all the aforesaid.

Class 36:
Insurance; financial affairs none of the aforesaid relating to football financing; monetary affairs none of the aforesaid relating to football financing; real estate affairs; financial services none of the aforesaid relating to football financing; loan services none of the aforesaid relating to football financing; financial payment services; payment processing; pension services; credit card services; appraisal and evaluation of real estate; valuations in real estate matters; credit reference agency services; credit assessment and credit screening services; credit rating services; credit reporting services; preparation of credit rating reports; credit repair services; credit

brokerage; credit risk information services; credit scoring services; credit score card services; consumer credit history services; previous credit application history services; credit information services; evaluation of the credit worthiness of companies and private individuals; providing information in the field of credit application processing, risk analysis, financial and related data analysis, risk modelling and analytics and analysis; providing information over the Internet in the field of credit application processing, risk analysis, financial and related data analysis, risk modelling and analytics and analysis; credit inquiry and consultancy services; financial consultancy relating to credit services; advisory services relating to credit and debit control; debt management services; financial assessment of company credit and providing information relating thereto; financial assessment of individual credit and providing information relating thereto; advisory services relating to financial planning; investment services; investment management; financial investment none of the aforesaid relating to football financing; investment analysis none of the aforesaid relating to football financing; investment management services none of the aforesaid relating to football financing; investment advisory services none of the aforesaid relating to football financing; financial investment services none of the aforesaid relating to football financing; consumer credit consultancy; financial advisory services relating to credit none of the aforesaid relating to football financing; financial rating and credit reports; financial verification; aggregation of financial data; aggregation of company financial data; aggregation of personal financial data; providing information in relation to credit management; insurance services relating to credit; risk management services; banking none of the aforesaid relating to football financing; mortgage brokerage; Mortgage services; financial services relating to mortgages; open-banking services; open banking services, namely providing secure access to bank records and other financial information in order to receive information from competing financial service providers; financial services provided via open banking apis; information, advisory and consultancy services relating to all the aforesaid.

Class 42:
Computerised analysis of data; rental of software for analysing financial data none of the aforesaid relating to football financing; programming of software for analysing financial data; providing temporary use of non-downloadable software for analysing financial data and generating reports none of the aforesaid relating to football financing; design of information systems relating to finance; internet security consultancy; data security consultancy; data security services; computer security system monitoring services; computer security threat analysis for protecting data; electronic monitoring of credit card activity to detect fraud via the internet; electronic monitoring of personally identifying information to detect identity theft via the internet; monitoring of computer systems for detecting unauthorized access or data breach; platform as a service (paas) and software as a service (saas) relating to open banking; open banking enabled rewards and point-of-sale promotional incentives; information, advisory and consultancy services relating to the aforesaid.

UK00004439626 (2026/038, 18 September 2026)
Specifications have been restricted as follows:

Class 3:
Non-medicated cosmetics and toiletry preparations; Cleaning, polishing and abrasive preparations for bicycles ; Body cream; Degreasing preparations for bicycles , other than for use in manufacturing processes; Cleaning preparations for bicycles ; Non-medicated skin care preparations; Skin care preparations; Moisturising creams; Moisturising preparations; Polishing preparations for bicycles ; Anti-chafing creams; degreasing preparations for bicycles; degreasing preparations for bicycle chains; cleaning preparations for bicycles; cleaning preparations for bicycle chains; Polishing preparations for bicycles; Polishing preparations for bicycle chain.

Class 4:
Lubricants for bicycles ; lubricants for bicycle chains; Lubricating preparations for bicycles; Lubricating preparations for bicycle chains; Industrial oils and greases for bicycles; wax for bicycles.

UK00004395681 (2026/033, 14 August 2026)
Specifications have been restricted as follows:

Class 9:
Downloadable and recorded artificial intelligence software; downloadable and recorded software for data aggregation, analysis and interpretation; downloadable and recorded software for generating market intelligence and predictive analytics; downloadable and recorded software for use in shipping, maritime, freight, commodities and global trade markets; downloadable and recorded software for analysing vessel, cargo, freight and trade data; downloadable and recorded machine learning software; downloadable and recorded software for workflow automation and decision support in shipping and trade operations; downloadable and recorded software platforms for providing market insights relating to freight and global trade; downloadable and recorded application programming interfaces for software integration in relation to shipping and trade data systems; none of the above goods relating to courier services, passenger travel, passenger travel booking platforms, and courier and passenger travel management platforms; none of the aforementioned goods being wireless networking hardware or software for improving wireless coverage in high-density deployment.

Class 42:
Providing temporary use of non-downloadable artificial intelligence software; providing temporary use of non-downloadable software for aggregating, processing and analysing shipping, freight, maritime and global trade data; design and development of artificial intelligence software; cloud computing services; data mining services; hosting of software platforms; providing temporary use of non-downloadable software for generating market intelligence relating to shipping, freight, commodities and international trade; technological consultancy relating to artificial intelligence and shipping technology; software development services for maritime and global trade industries; none of the above services relating to courier services, passenger travel, passenger travel booking platforms, and courier and passenger travel management platforms; none of the aforementioned services being related to wireless networking hardware or software for improving wireless coverage in high-density deployment.

UK00004440760 (2026/038, 18 September 2026)
Specifications have been restricted as follows:

Class 42:
Software as a service (SAAS) services featuring software for real-time capturing, processing, and analyzing surgical team operational data; Software as a service (SAAS) featuring software for generating and maintaining comprehensive digital procedural models of surgical workflows and operating room environments; Software as a service (SAAS) services featuring software for modeling, simulating, and evaluating surgical team performance, logistical workflows, and personnel interactions; Software as a service (SAAS) services featuring software for providing spatial computing, visualization, and mapping of surgical environments and operational activities; Software as a service (SAAS) featuring software for aggregating, benchmarking, and analyzing surgical team performance data across institutions and performing real-time and retrospective analysis of surgical workflow sequences, team coordination, and procedural efficiency metrics; Software as a service (SAAS) services featuring software using artificial intelligence (AI) for real-time capturing, processing, and analyzing surgical team operational data ; Software as a service (SAAS) featuring software using artificial intelligence (AI) for generating and maintaining comprehensive digital procedural models of surgical workflows and operating room environments ; Software as a service (SAAS) featuring software using artificial intelligence (AI) for modeling, simulating, and evaluating surgical team performance, logistical workflows, and personnel interactions; Software as a service (SAAS) services featuring software using artificial intelligence (AI) for providing spatial computing, visualization, and mapping of surgical environments and operational activities; aggregating, benchmarking, and analyzing surgical team performance data across institutions and performing real-time and retrospective analysis of surgical workflow sequences, team coordination, and procedural efficiency metrics; Platform as a service (PAAS) featuring computer software platforms for real-time capturing, processing, and analyzing surgical team operational data; Platform as a service (PAAS) featuring computer software platforms for generating and maintaining comprehensive digital procedural models of surgical workflows and operating room environments; Platform as a service (PAAS) featuring computer software platforms for modeling, simulating, and evaluating surgical team performance, logistical workflows, and personnel interactions; Platform as a service (PAAS) featuring computer software platforms for providing spatial computing, visualization, and mapping of surgical environments and operational activities; Platform as a service (PAAS) featuring computer software platforms for aggregating, benchmarking, and analyzing surgical team performance data across institutions and performing real-time and retrospective analysis of surgical workflow sequences, team coordination, and procedural efficiency metrics; Providing temporary use of online non downloadable computer software for real-time capturing, processing, and analyzing surgical team operational data; Providing temporary use of online non-downloadable computer software for generating and maintaining comprehensive digital procedural models of surgical workflows and operating room environments ; Providing temporary use of online non-downloadable computer software for modeling, simulating, and evaluating surgical team performance, logistical workflows, and personnel interactions; Providing temporary use of online non-downloadable computer software for providing spatial computing, visualization, and mapping of surgical environments and operational activities; Providing temporary use of online non-downloadable computer software for aggregating, benchmarking, and analyzing surgical team performance data across institutions and performing real-time and retrospective analysis of surgical workflow sequences, team coordination, and procedural efficiency metrics; Providing on-line non-downloadable software using artificial intelligence (AI) for real-time capturing, processing, and analyzing surgical team operational data; Providing on-line non- downloadable software using artificial intelligence (AI) for generating and maintaining comprehensive digital procedural models of surgical workflows and operating room environments; Providing on-line non-downloadable software using artificial intelligence (AI) for modeling, simulating, and evaluating surgical team performance, logistical workflows, and personnel interactions; Providing on-line non-downloadable software using artificial intelligence (AI) for providing spatial computing, visualization, and mapping of surgical environments and operational activities; Providing on-line non-downloadable software using artificial intelligence (AI) for aggregating, benchmarking, and analyzing surgical team performance data across institutions and performing real-time and retrospective analysis of surgical workflow sequences, team coordination, and procedural efficiency metrics.

UK00004411186 (2026/039, 25 September 2026)
Specifications have been restricted as follows:

Class 35:
Advertising the goods and services of online vendors via a searchable online guide; Online advertising; Online marketing; all of the aforesaid in relation to travel holiday packages; Promotion [advertising] of travel; none of the aforesaid in relation to education, entertainment, on-demand television services, telecommunications, broadcasting, broadband, fixed line and mobile telephony services, sponsorship services, weather forecast and smart home services, home protection and security services.

Class 43:
Booking of hotel accommodation for religious pilgrimage travel holiday packages; Agency services for booking hotel accommodation for religious pilgrimage travel holiday packages; Travel agency services for booking accommodation; Accommodation reservation services for religious pilgrimage travel holiday packages; Reservation of tourist accommodation for religious pilgrimage travel holiday packages; Room accommodation booking for religious pilgrimage travel holiday packages.

UK00004469759 (2026/046, 13 November 2026)
Specifications have been restricted as follows:

Class 29:
Extra virgin olive oil, all being organic.

UK00004426149 (2026/033, 14 August 2026)
Specifications have been restricted as follows:

Class 42:
Software as a service [SaaS]; none of the aforementioned in the field of dating, romantic and social introductions, social networking, and business networking.

UK00004432202 (2026/038, 18 September 2026)

UK00004442491 (2026/039, 25 September 2026)
Specifications have been restricted as follows:

Class 37:
Real estate development services; real estate development and construction of building complexes, residential buildings and properties, housing estates, commercial buildings, office buildings and shopping centres; repair and maintenance services relating to building complexes, residential buildings and properties, housing estates, commercial buildings, office buildings, shopping centres and parking structures; information, advisory and consultancy services relating to all the aforesaid services; all the aforesaid services also provided online, from a computer database, via the internet, via mobile telephone and via other means of communication.

UK00004440955 (2026/038, 18 September 2026)
Specifications have been restricted as follows:

Class 9:
Downloadable mobile applications; downloadable computer software; downloadable software; none of the aforementioned goods being for electronic publications, electronic publishing or electronic book readers.

UK00004443061 (2026/042, 16 October 2026)
Specifications have been restricted as follows:

Class 25:
Clothing; Jackets [clothing]; Knitwear [clothing]; Ready-to-wear clothing; Gloves [clothing]; Jerseys [clothing]; Denims [clothing]; Shorts [clothing]; Leather clothing; Knitted clothing; Embroidered clothing; Belts [clothing]; Casual clothing; Ready-made clothing; Clothing for leisure wear; Leisure clothing; Tops [clothing]; Men's clothing.

Class 35:
Retail services connected with the sale of clothing and clothing accessories; Providing business information via a web site; Rental of advertising space on web sites; Providing an on-line commercial information directory on the internet; Providing a searchable online advertising guide featuring the goods and services of other on-line vendors on the internet; Provision of an online marketplace for buyers and sellers of goods and services; Consumer market information services; Market reporting services; Providing a searchable online advertising guide featuring the goods and services of online vendors; Advertising the goods and services of online vendors via a searchable online guide; Providing market information in relation to consumer products; Business intermediary and advisory services in the field of selling products and rendering services; Online business networking services; Market analysis services relating to the sale of antiques; Market analysis services relating to the sale of goods; Online marketing; Online advertising services; Business intermediary services; Advertising services for the promotion of e-commerce; Advertising of the goods of other vendors, enabling customers to conveniently view and compare the goods of those vendors; Provision of online price comparison services; Provision of on-line business and commercial information; Advertising of the services of other vendors, enabling customers to conveniently view and compare the services of those vendors; Appraisal of business opportunities.

Class 41:
Providing entertainment information via a website; Providing video entertainment via a website; Educational information provided on-line from a computer database or the internet; Publication of texts in the form of electronic media; Provision of entertainment services through the media of publications; Online entertainment services.

UK00004395591 (2026/034, 21 August 2026)
Specifications have been restricted as follows:

Class 7:
Machine tools; Refrigerant compressors; Refrigeration condensers; Pumps [machines]; all of these products excluding those related to the manufacture, distribution, and sale of valves, pressure regulators, and pressurized gas control systems.

Class 11:
Air-conditioning apparatus for data centers; Commercial air-conditioning apparatus; Industrial air-conditioning apparatus; Central air-conditioning apparatus; Air-conditioning apparatus; Room air conditioners; Cooling apparatus; Electric air-conditioning apparatus; Cooling apparatus and installations; Evaporative air cooling installations; Air cooling devices; Commercial air-conditioning installations; Industrial air-conditioning installations; Central air-conditioning systems; Air conditioning installations; Central air-conditioning installations [for industrial purposes]; Cooling installations for freezing; Freezing cooling systems; Gas operated devices used in cooling; Cooling installations for liquids; Cooling installations for fluids; Industrial cooling installations; Installations for the cooling of air; Installations for indoor snowmaking; Cooling installations for water; Cooling installations for liquids; Residential air conditioning units; Refrigerating apparatus; Heat pumps; Heating and ventilating apparatus and installations; all of these products excluding those related to the manufacture, distribution, and sale of valves, pressure regulators, and pressurized gas control systems.

Class 37:
Installation, maintenance and repair services; all of these services, excluding those related to the manufacture, distribution, and sale of valves, pressure regulators, and pressurized gas control systems.

Class 42:
Conducting technical project studies; Technical researches; Technical project planning; Surveying [engineering]; Research and development of new products for others; all of these services, excluding those related to the manufacture, distribution, and sale of valves, pressure regulators, and pressurized gas control systems.

UK00004458025 (2026/043, 23 October 2026)
Specifications have been restricted as follows:

Class 9:
Downloadable software; Downloadable cloud computing software; Downloadable computer software for use as an application programming interface (API); Computer software platforms; Artificial intelligence software; none of the aforesaid goods relating to the banking, financial services, payment processing, and financial technology fields.

Class 35:
Business consultancy; Business management consultancy; Customer relationship management, none of the aforesaid services being in relation to the banking, financial services, payment processing, and financial technology fields.

Class 42:
Providing online non-downloadable computer software; Software as a service [SaaS] featuring software for machine learning; Artificial intelligence consultancy; Artificial intelligence as a service (AIAAS); Software as a service [SaaS] featuring computer software platforms for artificial intelligence; Information technology [IT] consultancy; Software design and development; Cloud hosting provider services; Electronic data storage; Software as a service [SaaS]; none of the aforesaid services being in relation to the banking, financial services, payment processing, and financial technology fields.

UK00004350430 (2026/033, 14 August 2026)
Specifications have been restricted as follows:

Class 42:
Jewellery design services; wedding jewellery design services; product design and development; product research and development; new product design; jewellery and watch packaging design; design services relating to jewellery and watch packaging; design and personalisation of jewellery; custom design services; industrial design; graphic design.

UK00004414393 (2026/039, 25 September 2026)
Specifications have been restricted as follows:

Class 36:
Financial services; Financial investment services; Financial research services; Banking and financial services; Financial consultancy services; Financial affairs services; Financial management services relating to medical institutions; Financial consulting services; Financial management services; Financial management services relating to dental institutions; Financial investment research services; Financial investment management services; Financial and investment consultancy services; Financial information services; Financial sponsorship services; Financial consultation services; Financial planning services; Financial and monetary services; Financial appraisal services; Financial advisory services; Financial consultancy and information services; Financial management services relating to nursing institutions; Financial savings services; Financial services relating to investment; Brokering of financial services; Financial services relating to business; Insurance and financial information and consultancy services; Financial brokerage services; Financial investigation services; Financial consultancy services relating to investments; Financial investment advisory services; Financial investment fund services; Consultancy services relating to financial investment; Financial services relating to pensions; Financial and monetary services, and banking; Personal financial planning services; Financial management services relating to hospitals; Financial services relating to insurance; Computerised financial services; Advisory services relating to financial investments; Financial advisory and management services; Financial management advisory services; Financial market information services; Financial intermediary services; Financial information and advisory services; Financial advice and consultancy services; Consultancy relating to educational financial assistance; Finance services; Advisory services relating to financial investment; Financial strategy consultancy services; Personal financial planning advisory services; Financial services provided to partnerships; Financial services relating to savings; Financial services relating to wealth management; Financial advisory services for companies; Financial investment services in relation to the printing industry; Financial transaction services; Financial advisory and consultancy services; Financial consultancy and advisory services.
