## 26 PREPARATION OF PATENTS AND DESIGNS JOURNAL ENTRIES

### INTRODUCTION

26.01 Entries for the Journal are compiled by members of Litigation Section. The entries are prepared and saved on the H Drive [Litigation/PDJ Journal]. They are submitted to the Publication Section by e-mail on a weekly basis. The Journal entries are submitted for publication three weeks in advance.

### LITIGATION SECTION ACTION

26.02 Every Wednesday, all entries on the H drive are checked by one of the A3s for accuracy.

#### Order of entries

26.03 It is important that within the section headings, the outcome, for example, whether the advert is at the initial stage of the proceedings, open to opposition or allowed etc. is clear for each advert to enable the Publishing electronic system to order the entries appropriately within each section heading.

#### Heading requirements

26.04 All section headings should be checked against the 'Headnotes' list to ensure that they are in the correct format. Examples of advertisements are included in annex 1. The following in particular should be noted:

- All adverts should be in arial font.
- All section headings and patent application numbers should be in bold type and font size 15.
- The proprietors/applicants name should be in capital letters.
- The title of the patent/application should be shown. (It should be noted that we do not always have the title of section 12 PCT cases

but where this is known, it should be entered).

- The outcome (filed/withdrawn/refused, etc) should be included along with the date of the action.
- Where there is an *inter partes* application/reference, the name of the claimant party should be included.

26.05 Advertisements will be produced as free text entries with the exception of:

Details of amendments filed under S27 and S75. These are prepared in the form of a notice for the Journal. The details are also entered on the Summary Listing, located in the S27 and S75 Journal folder on the H drive.

The amendment under S27 and S75 can be filed in paper format or electronically. This is noted on the Journal notice and on the Summary Listing.

#### Sending to Publishing Section

26.06 When the entries have been checked, they should be re-checked by another A3.

26.07 Once the entries have been checked and any errors corrected, the electronic version of the Journal should be sent to Publishing Section. The entries will be collated by Publishing Section with entries from other sections of the Office.

#### Sending Summary Listing to Webmaster

26.08 When the entries in the Journal have been collated and checked, the completed summary listing will be e-mailed to Webmaster by the A3. If any amendments have been filed electronically, they should be retrieved from the Litigation Amend Site and sent as an attachment to the e-mail. The summary listing will then appear on the Web page on the date the Journal is published. If there are no amendments filed under S27 or S75, an e-mail notifying Webmaster that there are no entries should be sent.

### Completion of Journal

- 26.09 The compiled Journal should then be archived on the H drive in the Journal folder. A new folder for the next Journal is then produced from the Journal template.
- 26.10 The Journal file contains a checklist which should be actioned by the A3 responsible for compiling the Journal.
