CENTRAL ENQUIRY UNIT

Concept House
Cardiff Road
Newport
South Wales
NP9 1RH

Enquiry line:	0645 500 505	All calls to this number are charged at local rate.
Text telephone:	0645 222 250	The Central Enquiry Unit has installed a Minicom 7000 Plus telephone. The telephone has a keyboard and display screen which enables people who have hearing loss or speech impairment to communicate with the office by typing out their conversation on their text telephone rather than speaking. An operator from the central Enquiry Unit will then type a response.
E-mail Address:	Enquiries@patent.gov.uk	
Web Site:	http://www.patent.gov.uk	
Fax Number:	+44(0) 1633 813 600	
Opening hours:	09.00am to 17.00pm, Monday to Friday	
Public Searches:	The Central Enquiry Unit has a public trade mark search facility. This is available by appointment during Office Hours. To arrange an appointment please telephone 0645 500 505 .	

** Indicates an Official Notice which has not previously appeared in this Journal or which has been amended

Complaints Procedure

The Patent Office is committed to providing high quality best value services.

If things go wrong, we need to know.

If you wish to complain about the quality of service you have received from us and cannot resolve the problem with the person you have been dealing with or his/her manager, please write to:

Alison Brimelow
Chief Executive
The Patent Office
PO Box No 49
Cardiff Road
Newport
South Wales NP9 1YU

E-mail: Box49@patent.gov.uk

Your complaint will be acknowledged within one working day and you will receive a full reply within 10 working days. If, in exceptional circumstances, we cannot meet this target, we will explain why and give you a new deadline.

If you have followed this procedure and are still not satisfied, you have the right to ask your MP to take up your complaint and our handling of it with the Parliamentary Commissioner for Administration (the "Ombudsman"). Your local Citizen's Advice Bureau will give you the address of your MP. You may get further advice from the Ombudsman's office at:

The Parliamentary Ombudsman
Office of the Parliamentary Commissioner for
Administration
Millbank Tower
Millbank
London SW1P 4PU

Helpline: 0171 217 4163
Fax: 0171 217 4160
E-mail: opca-enqu@ombudsman.org.uk

The Office has developed a leaflet detailing all aspects of its complaints procedure: copies can be obtained by phoning our Central Enquiry Unit on 0645 500505.

National Security

Attention is drawn to the provisions of section 23 of the Patents Act 1977 which provides that no application for a patent for ANY invention may be made abroad by a person resident in the United Kingdom, without permission from the comptroller, unless application for a patent for the same invention has first been made in the United Kingdom, and six weeks have elapsed from the date of such application and no directions prohibiting publication or communication have been given or all such directions have been cancelled. Requests for permission from the comptroller to make an application abroad should be made even if for example such an application is required by contract with a foreign firm. Requests will be facilitated by explicitly addressing them "For attention in Room G.R70".

Normally the written authority required by section 23 will be posted from Newport on the same day that the request is received. If this degree of urgency does not suffice a telephone enquiry should first be made to 01633 813558.

* Changes to Postcodes - Advance Information *

Postcodes for the Newport area formally change with effect from April 2000 but the new codes can be used now. The present Patent Office, Newport postcode, NP9 1RH becomes NP10 8QQ and Nine Mile Point, presently NP1 7HZ, becomes NP11 7HZ.

In summary:

Patent Office, Newport currently NP9 1RH becomes NP10 8QQ - effective now

Patent Office, Nine Mile Point currently NP1 7HZ becomes NP11 7HZ - effective now.

* Patent Document Number and Date Formats for the Year 2000 *

The Office has decided to retain the current format of GB patent numbers and dates into the millenium.

Application numbers in the year 2000 will therefore start with "00" which will represent the year in the format CCYYNNNN.N. For example, GB0012345.6.

The publication number format will not change: the numbering sequence will continue serially with no year component.

Dates will include 4 digit or 2 digit years as now.

All dates and patent numbers on outgoing electronic media will be formatted as they are now, unless the Office is specifically requested by individual recipients to change them. Although the Office will make every effort to meet such requests before the millenium it cannot guarantee to do so.

* Berne Convention for the Protection of Literary and Artistic Works *

Accession by the Kyrgyz Republic

On 8 April 1999, the Government of the Kyrgyz Republic deposited its instrument of accession to the Berne Convention for the Protection of Literary and Artistic Works of 9 September 1886, as revised at Paris on 24 July 1971, and amended on 28 September 1979.

The Berne Convention as revised will enter into force, with respect to the Kyrgyz Republic on 8 July 1999. On that date, the Kyrgyz Republic will also become a member of the International Union for the Protection of Literary and Artistic Works ("Berne Union"), founded by the Berne Convention.

Official Notices - cont

The Government of the Sultanate of Oman

On 14 April 1999, the Government of the Sultanate of Oman deposited its instrument of accession to the Berne Convention for the Protection of Literary and Artistic Works of 9 September 1886, as revised at Paris on 24 July 1971, and amended on 28 September 1979.

The said instrument of accession contains the following declaration: "pursuant to Article 33(2) of the said Convention, as so revised, the Government of the Sultanate of Oman declares that the Sultanate of Oman does not consider itself bound by the provisions of paragraph (1) of Article 33 of that Convention". (Translation)

The Berne Convention as revised will enter into force, with respect to the Sultanate of Oman on 14 July 1999. On that date, the Sultanate of Oman will also become a member of the International Union for the Protection of Literary and Artistic Works ("Berne Union"), founded by the Berne Convention.

The Hashemite Kingdom of Jordan

On 28 April 1999, the Government of the Hashemite Kingdom of Jordan deposited its instrument of accession to the Berne Convention for the Protection of Literary and Artistic Works of 9 September 1886, as revised at Paris on 24 July 1971, and amended on 28 September 1979.

The said instrument of accession contains the following declaration: "pursuant to Article 33(2) of the said Convention, as so revised, the Government of Jordan declares that Jordan does not consider itself bound by the provisions of paragraph (1) of Article 33 of that Convention".

The Berne Convention as revised will enter into force, with respect to the Hashemite Kingdom of Jordan on 28 July 1999. On that date, the Hashemite Kingdom of Jordan will also become a member of the International Union for the Protection of Literary and Artistic Works ("Berne Union"), founded by the Berne Convention.

*** Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure *****Notification by the Republic of Korea to a Change of Address of the Korean Culture Center of Microorganisms (KCCM)**

Notification has been received from WIPO of a written communication on 29 March 1999, from the Government of the Republic of Korea, informing WIPO of the new address of the Korean Culture Center of Microorganisms (KCCM), an international depository authority under the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure, done at Budapest on 28 April 1977 and amended on 26 September 1980.

The new address of the said international depository authority is as follows:

Korean Culture Center of Microorganisms (KCCM)
361-221, Yurim B/D
Honje 1, Sudaemun
Seoul, 120-091
Republic of Korea

*** Paris Convention for the Protection of Industrial Property *****The Government of the Sultanate of Oman**

Notification has been received from WIPO of the deposit by the Government of the Sultanate of Oman on 14 April 1999, of its instrument of accession to the Paris Convention for the Protection of Industrial Property of 20 March 1883 as revised at Stockholm on 14 July 1967 and amended on 28 September 1979.

The said instrument of accession contains the following declaration: "pursuant to Article 28(2) of the said Convention, the Government of the Sultanate of Oman declares that the Sultanate of Oman does not consider itself bound by the provisions of paragraph (1) of Article 28 of the said Convention." (Translation)

The Convention will enter into force, with respect to the Government of the Sultanate of Oman, on 14 July 1999. On that date the Government of the Sultanate of Oman will become a member of the Paris Union.

*** International Convention for the Protection of New Varieties of Plants (UPOV) *****Accession by the People's Republic of China**

On 23 March 1999, the Government of the People's Republic of China deposited its instrument of accession of the International Convention for the Protection of New Varieties of Plants of 2 December 1961, as revised at Geneva on 10 November 1972 and 23 October 1978, and on 19 March 1991 (the 1991 Act).

The said instrument of accession contains a declaration that "the 1978 Act of the International Convention for the Protection of New Varieties of Plants shall not apply to the Hong Kong Special Administrative Region of the People's Republic of China until the Government of the People's Republic of China notifies otherwise." (Translation)

The said Convention International will enter into force with respect to the People's Republic of China, on 23 April 1999.

Accession by the Federative Republic of Brazil

On 23 April 1999, the Government of the Federative Republic of Brazil deposited its instrument of accession of the International Convention for the Protection of New Varieties of Plants of 2 December 1961, as revised at Geneva on 10 November 1972 and 23 October 1978, and on 19 March 1991 (the 1991 Act).

The said Convention International will enter into force with respect to the Federative Republic of Brazil, on 23 May 1999.

Accession by the Republic of Panama

On 23 April 1999, the Government of the Republic of Panama deposited its instrument of accession of the International Convention for the Protection of New Varieties of Plants of 2 December 1961, as revised at Geneva on 10 November 1972 and 23 October 1978, and on 19 March 1991 (the 1991 Act).

Official Notices - cont

The said Convention International will enter into force with respect to the Republic of Panama, on 23 May 1999.

Accession by the Republic of Bolivia

On 21 April 1999, the Government of the Republic of Bolivia deposited its instrument of accession of the International Convention for the Protection of New Varieties of Plants of 2 December 1961, as revised at Geneva on 10 November 1972 and 23 October 1978, and on 19 March 1991 (the 1991 Act).

The said Convention International will enter into force with respect to the Republic of Bolivia, on 21 May 1999.

Accession by the Republic of Kenya

On 13 April 1999, the Government of the Republic of Kenya deposited its instrument of accession of the International Convention for the Protection of New Varieties of Plants of 2 December 1961, as revised at Geneva on 10 November 1972 and 23 October 1978, and on 19 March 1991 (the 1991 Act).

The said Convention International will enter into force with respect to the Republic of Kenya, on 13 May 1999.

Specifications on Sale in London

Current Specifications available for sale at the London Front Office during the week commencing 16 June 1999 are in the range GB 2331689 - GB 2332350.

Abstracts

Weekly classified abstract pamphlets are being published at the same time as the corresponding patent specifications or as soon as possible thereafter.

Information Retrieval Services

Publications and services available include The Classification Key, Abridgments and Abstracts, Name Index, Selected Patent Specification Service, Subject Matter Tabulation service and Classification Manuals. Additional particulars are given in this journal in the last issue of each month.

Indexes used in this Journal

The head notes to some of the indexes in this Journal include examples of entries appearing in the indexes. Where appropriate, component parts of the examples are preceded by a two-figure INID code (Internationally agreed Numbers for the Identification of bibliographic Data) and include two-letter country codes.

The codes are those of standards ST9 and ST3 respectively of the World Intellectual Property Organisation (WIPO) and more details are given quarterly in this Journal in the last issues in January, April, July and October.

Where an entry includes a name, then the entry is formatted according to standard ST20 of WIPO. Details of this standard are also given quarterly in the Journal in the last issue in January, April, July and October.

Proceedings under the Patents Act 1977

Applications for Patents Filed

Application Number Range

GB9908822.1 - GB9909371.8

This index sets out details of applications for patents filed in the application number range given above. The entries are arranged in alphabetical order according to the applicant's name. Where there are joint applicants, then the entry under the name of the first applicant sets out details of the application, including the names of the other applicants. The entries under the names of the other applicants are cross referenced to the entry for the first applicant.

Each entry in the index under the name of the (or the first) applicant provides the following information: the name(s) of the applicant(s); the title of the invention; the filing date of the application; any priority details; and the application number allotted to the application.

Where an application is requesting an early date under Section 8, 12,15(4), or 37 of the Act, then the filing date of the earlier application is included (see example 2). Where an application is derived from an application under the Patent Cooperation Treaty or is converted from a European Patent Application, then the application number, the publication number, and the date of filing of the PCT or EP application are included (see example 3).

The application number includes, at its end, a check digit. The full application number, including the check digit, should be quoted in all correspondence concerning proceedings in respect of an application up to the grant of a patent. When the application is published under Section 16(1) of the Act, it will be accorded to a seven-figure serial number. This should be used only when seeking to identify printed copies of the specification and its abstract and to make enquiries concerning entries in the Register of Patents.

These applications will not be available to the public for inspection or purchase until the date of publication under Section 16(1) of the Act. This date will be advertised in a subsequent issue of this Journal.

There follows three examples of entries for this index. The first example shows an entry under the name of the first applicant for an application having joint applicants, and includes an entry under the name of one of the other applicants. The second example shows an entry for a divisional application and includes priority details. The third example shows an application derived from a PCT application.

Example 1

Applications terminated after Publication under Section 16(1)

This index lists, according to the year of application and in ascending application number within each year, applications which have been withdrawn, treated as having been withdrawn, refused, or treated as having been refused, after publication under Section 16(1). Alongside each application is the related publication number.

Applications published : Subject-Matter Index

GB2332131 - GB2332350

This index sets out details of applications in the above number range which are published under Section 16(1) as from the date of publication of this issue of the Journal. Printed copies of the applications, together with the front pages containing their abstracts and bibliographic and classification data, and copies of search report under section 17, are now available at £2.67 per copy (including postage) from The Patent Office (Sales), Concept House, Cardiff Road, Newport, South Wales NP9 1RH. These items are also available, but for a limited period only, to personal callers at 25 Southampton Buildings, London WC2A 1AY.

The index also includes applications in the above number range derived from applications under the Patent Cooperation Treaty (PCT) which have entered the UK national phase. Printed copies of the front page of these applications are similarly available together with English translations of those applications published under the PCT in a language other than English.

Each entry in the index provides the following information: the publication number; the application number; the date on which the application was filed at the Office; the name(s) of the applicant(s) and the country of incorporation; the abstract title; any priority details; the United Kingdom Classification Heading(s) assigned to the application; and the International Patent Classification assigned to the application.

Where an application is requesting an early date under Section 8, 12, 15(4), or 37 of the Act, then the application number and the date of filing of the earlier application are included (see example 2). Where an application is derived from an application under the Patent Cooperation Treaty or is converted from a European Patent application, then the application number, the date of filing, the publication number and the date of publication of the PCT or EP application are included (see example 3).

In the index, the entries are grouped in ascending publication number order according to the UK Classification Headings. The UK Heading is given at the beginning of each group. Where an application has been classified in a supplementary (or secondary) Heading, then the entry under the primary Heading includes details of the application and the entry under the supplementary Heading is in the form of a cross reference to the primary Heading (see example 4).

The publication number is the seven figure number given to an application when it is published and by which it will be recorded on the Register of Patents. Printed copies of each application will also be identified by the publication number, followed by the document type "A". This identification should be quoted in full when ordering copies. However, for all proceedings up to grant of a patent, the application number originally assigned should be used.

There follows four examples of entries for this index. The first does not include any information on priorities, earlier applications, or PCT or EP applications. The second and third include priority information. In addition, the second includes information carried for a divisional application, and the third includes information

carried for an application derived from a PCT application. The fourth example shows an entry under a supplementary Heading.

Example 1

Applications Published: Name Index

This index lists, in alphabetical order, the names of applicants and inventors for the applications the publication of which is announced in this issue of the Journal. The entry under the name of the applicant sets out the details of the application including the name of any inventor who is not also an applicant. Where an inventor is also an applicant, the name appears in the index only as an applicant. Where there are joint applicants, details of the application are given only for the entry under the name of a first applicant, the entries under the names of the other applicants being cross referenced to the entry for the first applicant. Where an inventor is not also an applicant, the entry under the name of the inventor is cross referenced to the entry of the applicant, or the first applicant in the case of joint applicants.

Each entry under the name of the (or the first) applicant provides the following information: the name(s) of the applicant(s); the country of incorporation; the names of inventors who are not also applicants; the UK Classification Headings accorded to the

application; and the publication number of the application. There follows three examples of entries for this index. The first example shows the entry for an application having two joint applicants and an inventor who is not also an applicant, the second shows the entry for the other applicant.

Patents granted: Number Index

Patents whose grant is indicated in the index below take effect for the purposes of all provisions of the Act subsequent to Section 25(1) as from the date of publication of this issue of the Journal. Printed copies of the corresponding specifications of the patents identified by the publication number listed, and followed by the letter "B", are now available for sale at £4.04 per copy (including postage). These items are available from The Patent Office (Sales), Concept House, Cardiff Road, Newport, South Wales NP9 1RH and, for a limited period only, to personal callers at 25 Southampton Buildings, London WC2A 1AY.

This index lists the granted patents in ascending publication number order. Each entry in the index provides the following information: the publication number; the application number; the date on which the application was filed at the Office; the name(s) of the proprietor(s) and the country of incorporation; the name(s) of the inventor(s); the title of the invention; any priority details; the United Kingdom Classification Heading(s) assigned to the application; and the International Patent Classification assigned to the application.

Where an application is requesting an early date under Section 8, 12, 15(4), or 37 of the Act, then the application number and date of filing the earlier application are included (see example 2). Where an application is derived from an application under the Patent Cooperation Treaty or is converted from a European patent application, then the application number, the date of filing, the publication number, and the date of publication of the PCT or EP application are included (see example 3).

There follows three examples of entries for this index. The first does not include any information on priorities, earlier applications, or PCT or EP applications. The second and third include priority information. In addition, the second includes information carried for a divisional application, and the third includes information carried for an application derived from a PCT application.

Example 1

Patents granted: Subject-Matter Index

This index is based on the current UK Classification Key. The Classification of the specification of an individual patent may differ from that of the specification accompanying the application published under Section 16 for various reasons such as changes in the subject matter disclosed in these specifications or changes to the Key.

Patents granted: Name Index

This index lists, in alphabetical order, the names of proprietors and inventors for patents whose grant is announced in this issue of the Journal. The entry under the name of the proprietor sets out the details of the patent including the name of any inventor who is not also a proprietor. Where an inventor is also a proprietor, the name appears in the index only as a proprietor. Where there are joint proprietors, details of the patent are given only for the entry under the name of a first proprietor, the entries under the names of the other proprietors being cross referenced to the entry for the first proprietor. Where an inventor is not also a proprietor, then the entry under the name of the inventor is cross referenced to the entry for the proprietor, or the first proprietor in the case of joint proprietors.

Each entry under the name of the (or the first) proprietor provides the following information: the name(s) of the proprietor(s); the country of incorporation; the names of inventors who are not also proprietors; the UK Classification Headings accorded to the patent; and the publication number of the patent.

There follows three examples of entries in this index. The first example illustrates the case where there is a single proprietor who is also the inventor. The second example illustrates the case where there is a single proprietor and an inventor who is not also a proprietor, and includes the entry for the inventor. The third example illustrates the case where there are joint proprietors and an inventor who is not also a proprietor, and includes the entries for the other proprietors and the inventor.

European Patents granted

Grants mentioned in EPO Bulletin No 99/25 dated 16 June 1999

This index lists, in ascending publication number order, European patents designating the United Kingdom as a Contracting State, which have been granted under Article 97 of the European Patent Convention as of the date of the EPO Bulletin mentioned above. For each entry in this index, the first item is the publication number of the European application and the second item is the application number. The item (NOT ENGLISH) is used to indicate when the language of publication is French or German, and the last item is the name(s) of the proprietor(s). For patents having a publication language of French or German, an English translation must be filed if the patent is to continue to be effective in the UK.

There follows an example of an entry for this index.

Translations filed: European Patents

This index lists European Patents designating the United Kingdom as a Contracting State, for which a translation has been filed under Section 77(6)(a). The entries are arranged in blocks in order of date on which the filing of the translation was entered in the Register. Within each block, the entries are arranged in ascending publication number order with the application number, the date on which grant took effect in the UK, and the name of the proprietor given against each publication number.

There follows an example of an entry in the index.

(Date of entry in Register) **15 DEC 1989**
 (11) EP0145872 (21) EP84111927.4
 (Effective date of UK grant) 20 Dec 1989
 (73) Black and Decker Overseas AG

Translations filed: European Patents - cont

Translations filed: Amended European Patents

This index lists amended European Patents designating the United Kingdom as a Contracting State, for which a translation has been filed under Section 77(6)(b). Each entry comprises the date on which the filing of the translation was entered in the Register, the publication number, the application number, the date of grant, and the name of the proprietor.

There follows an example of an entry for this index.

(Date of entry in Register) **24 DEC 1989**
(11) EP0131027 (21) EP84900404.9 (45) 17 Dec 1986
(73) Smith and Company

EP0467733 EP91401722.3 30 Nov 1994
SEB S.A.

Translations filed: Claims of European Applications

This index lists, in ascending serial number order, applications for European Patents designating the United Kingdom as a Contracting State, for which a translation of claims has been filed under Section 78(7).

EP 0670377
EP 0904152
EP 0907890
EP 0912470
EP 0914460
EP 0915924

European Patents void

This index lists European Patents designating the United Kingdom as a Contracting State, which were published in French or German and for which an English translation has not been filed within the period prescribed by the Patents Rules. In accordance with Section 77(7), they are therefore treated as always having been void. The patents are listed in ascending publication number order. Against each publication number is the corresponding application number and the date of the European Bulletin in which grant by the EPO was announced.

There follows an example of an entry in the index.

European Patents revoked

This index lists European Patents designating the United Kingdom as a Contracting State which have been revoked by the EPO under Article 102 of the European Patent Convention. The index is arranged according to the date on which the patent was revoked with the earliest date first. Each entry includes the above date, the publication number, and the application number of the revoked patent.

There follows an example of an entry in the index.

DEVELOPMENT LIMITED Communication system
apparatus and method. Reference under Section 8(1) by
Cerise Innovation Technology Limited filed on 18 March
1999.

Section 27 Amendment of Specification after Grant

Application(s) made for Amendment of Specification

The details of the amendments proposed, which may now be
inspected at the Patent Office, will be advertised later (unless the
application is abandoned); the application will then be open to
opposition. The date included in the entry is the date of filing of
the application.

EP 0573962 MITSUBISHI DENKI KABUSHIKI KAISHA
Numerical control device for tool driving along non-orthogonal
mechanical axes 21 May 1999.

EP 0600473 MITSUBISHI DENKI KABUSHIKI KAISHA
Method for synthesizing a knowledge base and fuzzy control
system using the same 21 May 1999.

EP 0604902 MITSUBISHI DENKI KABUSHIKI KAISHA
Gas discharge image display method 21 May 1999.

GB 2308076 TECEXEC LIMITED A mixing apparatus
24 May 1999.

Application(s) for Amendment of Specification now open to Opposition

Any person may give notice of opposition to [any of] the
undermentioned Application(s) by filing Patents Form No 15/77
within two months from the date of publication of this Journal. If
no notice of opposition is received, the amendments will be

allowed by the Comptroller in the present advertised form.

N.B. Any paging referred to is that of the printed specification.

EP 0522590 MITSUBISHI DENKI KABUSHIKI KAISHA
Communication device for factory automation network.

Section 46 Licences of Right

Licence of Right Endorsement under Section 46(1)

The patents listed below have been endorsed Licences of Right in the Register with effect from the dates specified. Annual fees on these patents are payable at half the full rate and any person is entitled as of right to a licence under any such patent.

Any person who claims that the proprietor or the patent is, or was at the time of entry, precluded by a contract in which the claimant is interested from granting licences under the patent may, within 2 months after the making of the relevant entry, apply to the Comptroller for cancellation of the entry. For further information contact 01633 814656.

Section 117 Correction of Errors in Patents and Applications

Case decided by the Comptroller

Correction(s) allowed

EP 0186410 KABUSHIKI KAISHA TOSHIBA Surface acoustic wave resonator. Request for correction filed on 19 May 1998 was allowed on 19 May 1999.

Rule 110 Alteration of Time Limits

EP 0827608 **EP 96919576.7**
Daimler- Benz Aktiengesellschaft

request has been filed under Rule 110(4) of the Rules 1995 to extend the period for filing a translation of the specification.

This patent was announced as void in the Official Journal (Patents) 5740 dated 12.05.1999.

EP 0467135 **EP 91110804.1**
E. I. DU PONT DEMOURS AND COMPANY

Following a request under Rule 110(4) of the Rules 1995 to extend the period for filing a translation of the specification, a translation has now been filed in accordance with Section

77(6)(a).

This patent was announced as void in the Official Journal (Patents) dated 17.06.1998. The patent is now reinstated with a grant date effective in the UK of 17.12.1997.

Proceedings under EC Regulations 1768/92 and 1610/96 (Supplementary Protection Certificates for Medicinal Products and Plant Protection Products, respectively)

These entries include details of all proceedings relating to Supplementary Protection Certificates. Applications for Supplementary Protection Certificates are numbered in a single yearly sequence commencing SPC/GB93/001 covering both medicinal and plant protection products and the same number is retained for the granted certificate. Proceedings are open to public inspection but the granted certificate is not separately published.

The entries are grouped in categories according to the type of proceedings. Within each category the entries are arranged in alphabetical order according to the name of the applicant for, or holder of, the certificate and provide the following information; the name and address of the applicant or holder; the product in respect of which the certificate has been applied for or granted; the product type; ie. "Medicinal" or "Plant Protection"; the number and date of the first authorisation under Directive 65/65/EEC or Directive 81/851/EEC to place the product on the market as a medicinal product in the United Kingdom or the number and date of the first authorisation under Article 4 of Directive 91/414/EEC or an equivalent provision of national law to place the product on the market as a plant protection product in the United Kingdom; where relevant, the country; number and date of the first authorisation to place the product on the market in the European Community; the number and title of the basic UK patent or European patent (UK) which protects the product; and the number of the application or certificate.

The entries will also state as appropriate: the filing date of the application; the date of grant or rejection of the application; the maximum period of the granted certificate; the effective period of the certificate on entry into force; and the date of lapse or invalidity of the certificate.

There follows three examples of entries under these proceedings. The first relates to a new application for a certificate based on a European patent designating the United Kingdom and having first authorisation of the product in the United Kingdom. The second example relates to a certificate granted based, once again, on a European patent designating the United Kingdom but with the first product authorisation in the EEC in Denmark. The third refers to a certificate entering into force based on a United Kingdom patent with first product authorisation in the EEC in Belgium.

SPCs LODGED

AgrEvo UK Limited

Hauxton, Cambridge, CB2 5HU

Product: Fluquinconazole

Product Type: Plant Protection

Authorised: UK 09368 23 December 1998
FR 9200286 01 June 1993

Patent : EP(UK) 0183458, Fungicidal azole compounds

SPC/GB99/021

Date Lodged: 21 May 1999

Example 1: Applications for Certificates Filed

- (71) Ohmeda Pharmaceutical Products Division Inc.
110 Allen Road, Liberty Corner, NJ 07938 USA
- (95) *Product:* 2-(Difluoromethoxy)-1,1,1,2-tetrafluoroethane ("Desflurane")
- Product Type:* Medicinal
- (92) *Authorised:* UK 0022/0120 19 July 1993
- (68) *Patent No:* EP(UK) 0285237 (54) 2-(Difluoromethoxy)-1,1,1,2-tetrafluoroethane as an anaesthetic
- (21) SPC/GB93/175 (22) *Lodged:* 24 December 1993

Example 2: Certificates Granted

- (73) Aktiebolaget Hassle
Karagatan 5,S-431 83 Molndal, Sweden
- (95) *Product:* Felodipine
- Product Type:* Medicinal
- (92) *Authorised:* UK 0017/0235-0236 15 November 1993
- (93) DK 6499 21 January 1988
- (68) *Patent No:* EP(UK) 0007293 (54) 2,6-dimethyl-4-(2,3-dichlorophenyl)-1,4-dihydropyridine-3,5-dicarboxylic acid-3-methyl ester-5-ethyl ester having hypotensive properties, process for its preparation and pharmaceutical preparations containing it.
- (11) SPC/GB93/134 *Date Granted:* 14 January 1994
- (94) *Maximum period expires:* 20 January 2003

Example 3: Certificates entered into force

- (73) American Cyanamid Company
Burden Avenue, Township of Wayne, State of New Jersey 06904, United States of America
- (95) *Product:* Felbinac (4-biphenyl acetic acid)
- Product Type:* Medicinal
- (92) *Authorised:* UK 0095/0119 28 October 1988
- (93) BE 536 1S 91 F 7 21 June 1988
- (68) *Patent No:* GB 1402691(54) Compositions of 4-Biphenyl Acetic Acid
- (11) SPC/GB93/151
- (24) *Date entered into force* 7 September 1993

Erratum for Journal No. 5736

SPCs GRANTED

Zeneca Inc.

1800 Concord Pike, Wilmington, Delaware 19897, U.S.A.

Product: Zafirlukast and optionally in the form of a pharmaceutically acceptable salt.

Product Type: Medicinal

Authorised: UK 12619/018 5 June 1998
IE PA 51/67/1 03 January 1996

Patent : EP(UK) 0199543, Heterocyclic amid derivatives

SPC/GB98/033

Date Granted: 23 March 1999
Maximum period expires: 02 January 2011

Proceedings under the Registered Designs Act 1949

Certificates of Registration issued

Week Ending 4 June 1999

The designs in this list, except those registered in respect of wallpaper, lace and textiles, are open to public inspection and may be inspected at the Patent Office without provision of a copy free of charge. Photocopies of Design representation and Register entries may be obtained on payment of the prescribed fee of £5.00 in respect of each design. Photographic copies, where

reproduction is from a large or coloured specimen or a photograph that will not effectively photocopy, may be obtainable exceptionally at market price.

Designs registered in respect of wallpaper and lace are not open for inspection for a period of two years, and for textile articles for a period of three years, from the date of issue of the registration certificate.

The Science Reference and Information Service

MOVE OF THE BRITISH LIBRARY SCIENCE COLLECTIONS TO ST PANCRAS:

TIMETABLE OF OPENINGS AND SERVICE AVAILABILITY

The move to the British Library's new St Pancras building of the science, business and patent collections sited at Holborn, Aldwych and Chancery House has begun. First to move is the material presently housed at Aldwych, to be followed by the Holborn collection, then Chancery House. The complete move of stock, services and staff will take approximately 5 months.

The Library will keep all service closures as short as possible but disruptions to services are bound to occur during this period. Very limited access to material at St Pancras - by appointment only - will be provided from 10 February. An interim service will operate from 24 March, with full services resuming from early June 1999.

The key opening and closing dates for reading room and associated services are as follows:

21 January 1999

The Aldwych reading room (life sciences and technologies, medicines, agriculture, mathematics, astronomy and earth sciences) closed. The telephone enquiry service will remain available for advice and assistance (0171 412 7288).

10 February 1999

Very limited access offered to material which has arrived at St Pancras

A limited number of appointments will be made each day for those whose research needs are immediate and who need access to material at St Pancras. Appointments, available to reader pass holders only, may be made on Monday to Friday 10am to 5pm. Bookings will be taken from 1 February on 0171 412 7288.

13 February 1999

The physical sciences, engineering and computing reading areas close at Holborn. The business reading area at Holborn also closes. (The British Library-Lloyds TSB Business Line will operate unchanged throughout the move period: 0171 412 7454/7977). The patents reading areas continue to be open at Holborn and Chancery House. The main Holborn telephone enquiry service continues on 0171 412 7494/7496.

24 March 1999

An interim service (no appointment necessary) will be in place Monday to Friday 9.30 am to 5 pm giving access at St Pancras to a range of, but not all, science material. The full Business Information Service reopens on 24 March.

8 April 1999

The interim service is extended to include access to the remaining science collections and the Social Policy Information Service (SPIS). SPIS gives access to official publications and social sciences material.

April/May 1999

The patent collections will move from Holborn and Chancery House. Closure dates of current patent reading areas will be announced shortly.

Early June 1999

The move will be complete. Reading room services based on science, business, patents and official publications and social sciences material, will be fully operational from the beginning of June.

Reader Passes

Users of the Aldwych, Holborn and Chancery House reading rooms should apply for reader passes - necessary for access to St Pancras reading rooms - as soon as possible. Applications should be made in person at the enquiry desks in the Holborn and Aldwych reading rooms only. Please do not apply directly at St Pancras at this stage.

Information on the science moves will be updated regularly on the Library's website: www.bl.uk

General information on the book moves and service availability is available on 0171 412 7288/7494/7496.

The Library's Patent Express copying service and the British Library-Lloyds TSB Business Line will remain operational throughout the move, subject to the availability of stock.
