- . constructions and fittings for containing cold or heat—F4U, Heating and cooling systems &c
- . holders and containers for photographic materials during their exposure, changing processes—G2X, Miscellaneous photographic processes and apparatus

The exclusion references listed in this heading are not exhaustive. Reference should be made to the appropriate general heading/s for processes, materials, elements or devices which may be more widely applicable than can appropriately be classified in this heading

Relationship with the Universal Indexing Schedules (heading U1S)

As classification in this heading explicitly or inherently connotes use or application, and the heading is not concerned with materials *per se*, U1S will rarely be applied to specifications classified here

Operative date for Key entries

The operative dates of the terms in this heading are:

1. for terms annotated by a marginal code that of the Edition corresponding to the code
2. for all other terms earlier than that of Edition A

To facilitate searches for combinations of features, throughout this heading each feature is indexed for which a coded term is available, irrespective of novelty
