Class 9:

Scientific apparatus and instruments; computer hardware and software; scientific, geophysical and surveying apparatus and instruments; airborne and ground-based geophysical sensors; gravity gradiometers including Full Tensor Gradiometry (FTG), Enhanced FTG (eFTG), Integrated FTG (iFTG), and Digital FTG (dFTG); magnetometers; magnetotelluric instruments; ground-penetrating radar (GPR); radar systems; sonars; testing apparatus for diagnostic purposes [other than medical]; storage apparatus for computer data; electronic and fiber optic geophysical data acquisition apparatus and software, namely, electronic and fiber optic seismic sensors and computer hardware and software for collecting, recording, and processing land, marine, and seabed geophysical data; software and hardware for navigation, positioning, and guidance of geophysical energy sources and sensors; data processing equipment and accessories (electrical and mechanical); data mining software; data acquisition and processing software for geophysical exploration; 3D geological modelling software; data processing software; data processing software for graphic representations; computer software for the processing, imaging, and analysis of land, marine, and seabed geophysical data in the field of imaging the earth's subsurface; wired, wireless, and fiber optic sensing systems for collecting geophysical data; scientific energy sources for transmitting acoustic and electromagnetic energy into the earth, comprising ground-contacting and aquatic/marine mechanisms for use in seismic and electromagnetic surveying of the earth; ultrasonic imaging apparatus, not for medical purposes; Light Imaging Detection and Ranging [LIDAR] apparatus; computer hardware and software for geological surveying and reporting; software for studying the soil and subsoil; calculation software; downloadable electronic publications in the field of geophysical surveying; civil engineering and geotechnical software; software for creating topographical and geological maps; software in the field of geophysical exploration, mineral exploration, geothermal exploration, oil and gas exploration; survey instruments; measuring apparatus; apparatus and instruments for physics; downloadable electronic publications; parts and fittings for all the aforesaid.

Class 35:

Dissemination of information relating to the data acquisition, processing, and interpretation applicable to land, marine, and airborne environments; administrative support and data processing services; dissemination of information relating to the recruitment of graduates; business organisation, administration, and management services; business information services; business consultancy services; business consultancy services in the field of geophysical exploration; project management services for geophysical surveys; business advisory services relating to data acquisition and interpretation; consultancy on optimising exploration budgets and timelines; business and management consultancy, assistance, and advice; business management of environmental and sustainability projects; information, consultancy and advisory services for all the aforesaid.

Class 41:

Education and training services; educational services, namely, conducting courses, workshops, and seminars in the field of geophysical exploration and data interpretation; training services for the use of geophysical instruments and software; knowledge transfer programs in collaboration with academic institutions; publication of educational materials and case studies in the field of geoscience; organisation of meetings, conferences, seminars,

webinars; practical training; courses (Training -) relating to analysis, processing of data processing techniques; arranging and conducting of lectures for training purposes; information, consultancy and advisory services for all the aforesaid.

Class 42:

Engineering and consulting services, namely geophysical consulting, seismic survey design and planning, and illumination studies; geophysical exploration services for the mining, oil and gas, renewables, and environmental sectors; data acquisition, processing, and interpretation services for air, land, and sea geophysical surveys; Software as a service [SaaS]; servicing land, aquatic/marine, and seabed geophysical data acquisition systems; seismic signal processing and interpretation services, namely, computer processing of geophysical data; geophysical research services; consultancy relating to geological surveys; marine, aerial, and land surveying services; recordal of seismic data; research and design relating to geophysical software; research (Geological); geological research in the field of natural resources; geological estimations and research; oil-field surveys; analysis services for oil-field exploration; environmental surveys; geo-seismic survey services; water, soil, gas, oil, rock, mineral, and materials analysis; chemical research and analysis; geological and geothermal research, prospecting, and surveying services; geophysical data surveying, acquisition, processing, inversion, and interpretation services in the field of geophysical exploration, mineral exploration, geothermal exploration, oil and gas exploration; provision of technology exploration services; consultation and research in the field of geophysical science in the field of mineral exploration, geothermal exploration, oil and gas exploration; geophysicists services; geophysical technologists services; computer programming relating to geosciences; design, rental, and hiring services, all relating to computers and computer apparatus; design, rental, and hiring services of computer software relating to geosciences; scientific and technological services and research and design services primarily in the geological and/or geoscience field; consultancy on carbon capture and storage (CCS), geothermal, hydrogen, and water resource exploration; provision of software as a service (SaaS) for geophysical data analysis; feasibility studies and survey design; integration of seismic and non-seismic data; research and development in geophysical technologies; environmental impact assessments; development of 3D earth models; information, consultancy and advisory services for all the aforesaid.

Class 9:

Downloadable mobile application software to monitor, display, view, analyse, and compare heart rate data, power output and other fitness factors, and to display a computerised, interactive fitness score to permit users to view, analyse, and compare heart rate data and to compete with other users; Mobile application software; Downloadable mobile application software; Mobile application software incorporating artificial intelligence allowing users to be able to monitor and analyse their data and be given

***List of cases accepted for opposition purposes as shown in Journal 2025/024 published on
13 June 2025.***

fitness tips based on their performance when playing sports; Mobile application software to monitor, display, view, analyse running sequences, area of field ran, kilometres covered as a referee during a football match and heat maps of main areas covered during the course of a football match; Mobile application software allowing users to manage their football fixtures, upload team sheets, input football player names and analyse player data such as distance covered and run on the pitch and areas of sports performance improvement; Software sold as an integral component of GPS tracking devices to track, view, analyse, and compare heart rate data and for storing, reporting, monitoring, uploading downloading and communicating fitness training and activity for the purpose of tracking and monitoring health and wellness; Watches that communicate data to smartphones; Downloadable mobile application software for data collection during exercise, namely, data collected from external sensors, software for recording and storing data collected, software to view, analyse, and compare heart rate data; Software for real time and non-real time social interaction, for networking and to view, analyse, and compare heart rate data, number of goals scored, number of expected goals based on shots taken, distance covered during a football match and football match statistics; Downloadable software in the nature of an application for use by individuals participating in exercise classes, physical training, and exercise instruction for detecting, storing and reporting daily human energy expenditure and physical activity level, for developing and monitoring personal activity and exercise plans, training goals and giving feedback on the achieved results; Downloadable mobile application for tracking workouts and fitness activities; Downloadable application programming interface [API] software; Application software for mobile devices; Smart watches; Electronic tracking and monitoring software, hardware, apparatus and equipment; Sports performance monitoring software, hardware, apparatus and equipment; Computer hardware and software for the management, analysis and interpretation of sports-related data, including speed, distance, heart rate, dynamic stress load, impact, acceleration, deceleration and metabolic data; Global Positioning System [GPS] software, hardware, apparatus and equipment; computer hardware and software relating to physiological performance, analysis and testing; Downloadable computer software and software for electronic tracking and monitoring of energy usage, sports-related data, including speed, distance, heart rate, dynamic stress load, impact, acceleration, deceleration and metabolic data, and parts and fittings sold as a unit; Downloadable sports performance monitoring software and hardware for monitoring physical performance of individuals and teams; Apparatus and equipment for monitoring sports performance, namely, wearable electronic monitoring devices incorporating microprocessors, digital display, and accelerometers, and parts and fittings sold as a unit for monitoring sports performance regarding speed, distance, heart rate, dynamic stress load, impact, acceleration, deceleration and metabolic data; Mobile application software to be used on a smart watch; Computer software for social networking and interacting with online communities; Computer software to enable uploading, downloading, accessing, posting, displaying, tagging, blogging, streaming, linking, sharing or otherwise providing electronic media or information via computer and communication networks; Software; Electronic databases recorded on computer media; Digital books downloadable from the Internet; Downloadable information relating to football refereeing; Multi-media recordings; Video recordings; Software for the development of applications for personal computers,

mobile digital electronic devices, PDAs and mobile telephones; Computer software in the nature of an application programming interface (API) for computer software which facilitates online services for social networking, building social networking applications and for allowing data retrieval, upload, download, access and management; Computer software to enable uploading, downloading, accessing, posting, displaying, tagging, streaming, linking, sharing or otherwise providing electronic media or information via computer and communication networks.

Class 25:

Clothing, footwear, headwear; Outer clothing; Sportswear; Athletic clothing; Clothing, footwear and headwear for football, rugby, golf, cycling, motorsport, running, cricket, tennis, fitness and training; Tops; Bottoms; T-shirts; Vests; Sports vests; Sports vests containing pockets on sides, front and back of the garment; Knitwear; Tank tops; Hooded tops; Coats; Rainwear; Waterproof clothing; Jogging pants; Football shirts; Football shorts; Running tops; Running vests; Running shorts; Gymwear; Clothing, footwear and headgear for exercise and fitness; Track suits; Baselayer tops; Baselayer bottoms; Loungewear; Swimwear; Sportswear containing inserts and pockets to carry and store digital wearables such as watches and GPS trackers; Vests containing inserts and pockets to carry and store digital wearables such as watches and GPS trackers.

Class 42:

Computer software design; Computer software allowing users to manage their footballrelated performance records and data; Rental of computer software; Technical services for the downloading of sports performance related statistics and data in order to make adjustments and improvements to physical performance; Providing a website and web based services for online management of football fixtures and uploading and updating of statistics related to free-kicks taken, corners taken, shots taken, expected goals and actual goals, kilometres ran, throw-ins taken and other such statistics related to football; Software as a service, namely, software for recording time in a football match, software for displaying in-game data and scores and software for recording football match footage; Software as a service [SaaS]; Platform as a service [PaaS]; Monitoring of computer systems by remote access; Electronic data storage; Cloud computing; Outsource service providers in the field of information technology; Technical data collation and analysis; Collection and analysis of technical data relating to sports and sports performance, movement, training and conditioning; design and development of computer hardware and software; Design, development, installation and maintenance of software; Design, development, installation and maintenance of computer software relating to physiological condition and performance; Design, development, installation and maintenance of computer software relating to sports science, performance, movement, training and conditioning; design, development, installation and maintenance of computer software for the management, analysis and interpretation of sports-related data, including speed, distance, heart rate, dynamic stress load, impact, acceleration, deceleration and metabolic data; Design, development, installation and maintenance of computer software for analysis, testing, monitoring and tracking; Design, development, installation and maintenance of computer software for real time data processing and analysis; Computer technology consultancy; Computer security consultancy; Computer software technical support services; Maintenance and updating of computer software; Software advisory and consultancy services; Providing a website and web based services for online management of

List of cases accepted for opposition purposes as shown in Journal 2025/024 published on 13 June 2025.

sports-related statistics and game data; Providing a web site that gives users the ability to upload photographs; Computer services, namely, providing an interactive web site featuring technology that allows users to manage their online photograph and social networking accounts; Computer services, namely, creating virtual communities for registered users to participate in discussions and engage in social, business and community networking; Application service provider (ASP) featuring software to enable or facilitate the uploading, downloading, streaming, posting, displaying, linking, sharing or otherwise providing electronic media or information over communication networks; Providing a web site featuring technology that enables online users to create personal profiles featuring social networking information; Providing temporary use of non-downloadable software applications for social networking, creating a virtual community, and transmission of audio, video, photographic images, text, graphics and data; Sports science services relating to sports performance, movement, training and conditioning; Design and development of computer hardware and software; Design, development, installation and maintenance of computer software; Design, development, installation and maintenance of computer software relating to physiological condition and performance; Design, development, installation and maintenance of computer software relating to sports science, performance, movement, training and conditioning; Design, development, installation and maintenance of computer software for the management, analysis and interpretation of sports-related data, including speed, distance, heart rate, dynamic stress load, impact, acceleration, deceleration and metabolic data; design, development, installation and maintenance of computer software for analysis, testing, monitoring and tracking; design, development, installation and maintenance of computer software for real time data processing and analysis; Providing temporary use of non-downloadable software for global positioning system; Information, advice and consultancy in relation to the foregoing.

assistant software for performing tasks or services on behalf of a user that is activated by user input, location awareness, and online information; Downloadable computer software, downloadable mobile application software, and downloadable computer application software, all for creating and generating text; Downloadable computer programs and downloadable computer software for using language models; Downloadable computer software, downloadable mobile application software, and downloadable computer application software, all for sharing datasets for the purpose of machine learning; Downloadable computer software, downloadable mobile application software, and downloadable computer application software, all for predictive analytics; Downloadable artificial intelligence software, namely, machine learning software, visual perception software, speech or language recognition software, decision-making software, translation software, touch recognition software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; Downloadable software for converting natural language into machine-executable commands; Downloadable software, namely, an interpretive software interface for facilitating interaction between humans and machines; Downloadable virtual assistant software that can perform tasks or services on behalf of a user that is activated by user input, location awareness, and online information; Downloadable software for facilitating machine learning; Downloadable computer software, namely, an interpretive interface for facilitating interaction between humans and machines; Downloadable computer software development tools; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for accessing, browsing and searching online databases; Downloadable electronic publications; Downloadable computer software; Downloadable application programming interface (API) software; Downloadable computer operating system software; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for social networking; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for creating, managing, accessing, and interacting with groups within virtual communities; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for creating, managing, and interacting with an online community; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for organizing events, searching for events, calendaring and managing events; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting text, images, audio, audio visual and

video content and data; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for enabling transmission of images, audio, audio visual and video content and data; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for sending and receiving electronic messages, alerts, notifications and reminders; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for creating, accessing, browsing, and searching audio, video, and multimedia content, games, and software applications, and software application marketplaces; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in creating, managing, measuring, and disseminating advertising of others; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for building user interfaces; Downloadable computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Downloadable computer software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for gesture recognition, object tracking, motion control, and content visualization; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for navigating virtual reality, augmented reality, and mixed reality environments; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for enabling users to experience virtual reality, augmented reality and mixed reality visualization, manipulation, and immersion; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in creating and designing virtual reality, augmented reality and mixed reality software; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for enabling electronic devices to share data and communicate with each other; Downloadable

computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for streaming multimedia entertainment content, audio-visual content, video content, and associated text and data; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality, augmented reality, and mixed reality experiences; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for using artificial intelligence for home automation; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for voice recognition for use in connection with the transmission of voice and data; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for controlling, integrating, operating, connecting, and managing internet of things (IoT) enabled devices and voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Downloadable location-aware software for searching, determining and sharing locations; Downloadable parental control software; Virtual reality software; Downloadable virtual reality software; Augmented reality software; Downloadable augmented reality software; Mixed reality software; Downloadable mixed reality software; Computer hardware; Virtual reality, augmented reality and mixed reality computer hardware; Virtual reality, augmented reality and mixed reality controllers; Wearable activity trackers; Smartwatches; Smartwatch bands; Smartbands; Motion tracking sensors for virtual reality, augmented reality and mixed reality technology; Sensors and detectors, namely, electrodermal activity sensors, accelerometers, gyroscope, electromyography (EMG) sensor and surface electromyography (SEMG) sensors; Interfaces for computers, namely, electromyography (EMG) and surface electromyography (SEMG) wristbands allowing users to interface with computer hardware via electrical signals from muscle activations; Human computer interface device consisting of electronic nerve sensors; Electronic devices, namely, wristbands for controlling computers, mobile devices, smart glasses, head-mounted displays, and home entertainment devices and appliances; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for the artificial production of human speech and text; Downloadable computer software, downloadable mobile

application software, and downloadable computer application software for mobile devices and computers, all for use in artificial intelligence for image recognition; Downloadable voice command and recognition software; Downloadable computer software, downloadable mobile application software, and downloadable computer application software, all for building language models; Head-mounted video display; Headsets; Virtual reality, augmented reality and mixed reality headsets; Virtual reality, augmented reality and mixed reality glasses; Computer peripheral devices; Wearable peripherals for computers, tablet computers, mobile devices, smart glasses, head-mounted displays and home entertainment devices and appliances; Wearable computer hardware; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality, augmented reality, and mixed reality world experiences; Remote controls for mobile devices; Personal digital assistants; Smart glasses; Digital media streaming devices; Headphones; Batteries; Battery chargers; Cables, namely, electric cables, power cables and connection cables; Power adapters; Holders, armbands, clips and carrying cases specially adapted for mobile devices; Wall mounts for mounting mobile devices; Stands for mobile devices; Audio speakers; Telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the internet; Magnetically encoded credit cards and payment cards; Laser equipment for non-medical purposes; Earphones; Electronic sensor devices, cameras, projectors, and microphones for gesture, facial, and voice detection, capture and recognition; Cameras; Battery case; Battery packs; Power charging and power management devices for mobile electronic devices; Electrical adapters; Electrical and electronic connectors; Bags, protective covers, and cases for mobile devices and smartglasses; Faceplates; Facial interfaces; Customizable fitted plastic films known as skins for covering and protecting electronic apparatus, namely, mobile electronic devices, tablet computers, headsets, glasses, earphones, headphones; Electrical audio and speaker cables and connectors; Docking stations for mobile electronic devices; Cables for optical signal transmission; Headset straps; Wireless transmitters and receivers for reproduction of sound and signals; Wearable computers in the nature of activity trackers in the form of vests using haptic technology; Wearable computers in the nature of physical interface between the virtual world and a user's skin in the form of vests using haptic technology; Optical lenses; Stylus pens for touch screen devices.

Class 42:

Providing online non-downloadable software, software as a service (SAAS) services, and platform as a service (PAAS) services featuring software for controlling, integrating, operating, connecting, and managing internet of things (IoT) enabled devices and voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Providing online non-downloadable personal assistant software, software as a service (SAAS) services and platform as a service (PAAS) services featuring personal assistant software; Providing online non-downloadable software, software as a service (SAAS) services, and platform as a service (PAAS) services featuring software for mobile devices and computers, all for the artificial production of human-like speech and text; Providing online non-

IRCAM AMPLIFY

Registration of this mark shall give no rights to the exclusive use of 'AMPLIFY'.

International priority date claimed: 12 June 2024 (FR)
(5061928)

Class 9:

Audio apparatus; digital audio interface apparatus; audio recording apparatus; audio mixing apparatus; audio dubbing apparatus; electronic audio apparatus; audio processing apparatus; apparatus for downloading audio content from the Internet; digital audio tapes; audio compressors; switches for routing audio and digital signals; audio electronic crossover; audio devices and radio receivers; digital audio discs; audio transmitters; equalizers [audio apparatus]; audio recordings; musical audio recordings; audio recorders; digital audio

***List of cases accepted for opposition purposes as shown in Journal 2025/024 published on
13 June 2025.***

recorders; audio interfaces; digital audio players; audio books; application software for streaming audiovisual media content via the Internet; audio editing software; software for monitoring the operation of audio devices; software for processing audio content; audio digitizers; audio mixers with built-in amplifier; power mixers [audio apparatus]; computer hardware for processing audio signals; computer hardware for routing audio and digital signals; parts and component parts of audio apparatus; audio circuit boards; signal processors for audio speakers; audio receivers; audio noise reducers; digital audio servers; routers for routing audio and digital signals; audio recording media; audio transmitters; audio timers; audio mixing consoles; audio mixing and mastering desks for recording studios; electronic distribution systems for audio signals.

Class 35:

Production of sound recordings for advertising purposes; production of sound recordings for marketing purposes; promoting the music of others by providing online portfolios on an online site; online retail services for downloadable digital music; transcribing audio communications; compilation of statistics; market studies; opinion polling; customer experience surveys conducted for commercial purposes.

Class 38:

Transmission of sound or visual recordings on networks; sound, video and information transmission; computer-aided transmission of sound; transmission of sound, image and data signals; transmission of sound via interactive multimedia networks; sound transmission via electronic means; electronic transmission and retransmission of sounds, images, documents, messages and data; music broadcasting; providing access to digital music web sites on the Internet; providing access to digital music websites on the Internet; delivery of digital music by telecommunications; transmitting text messages [SMSs], images, speech, sound, music and text between mobile telecommunication devices; audio broadcasting; digital audio broadcasting; broadcasting of video and audio programs on the Internet; audio, video and multimedia broadcasting via the Internet and other communications networks; provision of telecommunication access to audio content provided via the Internet; audio communication services; rental of apparatus for transmitting audio signals; digital transmission services for audio and video data; video and audio streaming services; audio teleconferences; digital audio and/or video telecommunication services; transmission of audio content via the Internet; transmission of audio and video content via computer networks; transmission of audio content via ISDN lines; transmission of audio data; transmission of audio data via the Internet.

Class 41:

Education; training; entertainment; sporting and cultural activities; publication of books; electronic publication of books and journals online; rental of acoustic recording equipment; rental of acoustic reproduction equipment; providing digital sound recordings, not downloadable, on the Internet; rental of video and sound recording apparatus; rental of sound recordings; rental of sound recording equipment; rental of public address systems; production of sound recordings; production of sound and music recordings; production of soundtracks for entertainment purposes; production of entertainment in the form of sound recordings; sound recording studio services; entertainment in the nature of light and sound shows; rental of sound reproduction apparatus; editing

or recording of sounds and images; production of sound recordings; sound recording services; services of an engineer in the field of audio technology; producing musical works in a recording studio; production of music videos; production of music; musical performances; publishing and recording services in the field of music; music publishing services; music composition services; music transcription services; composition of music for third parties; recording of music; teaching and training in the field of music and entertainment; provision of digital music (non-downloadable) from the Internet; provision of non-downloadable music online; rental of audio tapes with recorded music; provision of information, commentary and articles in the field of music via computer networks; providing information in the field of music; providing digital music [not downloadable] on the Internet; providing digital music [not downloadable] from MP3 websites; provision of non-downloadable electronic publications on line in the field of music; provision of non-downloadable music online; music mixing services; music production services; music transcription for others; digital music services on the Internet [entertainment]; music recording studio services; editing of sound recordings; audio, video and multimedia production and photography; audio tape editing; rental of audio books; rental of apparatus for recording audio signals; rental of audio equipment; providing online non-downloadable audio; providing online information related to audio and visual media; production of audio entertainment; production of original audio recordings; production of audio programs; publication of audio books; audio recording services; audio studios; training services for audio engineers.

Class 42:

Technical appraisals concerning design (engineers' services) in the field of sound and music; scientific research in the field of sound and music; technical research in the field of sound and music; software design; software development; research and development of new products for third parties; conducting of technical project studies; software development (design); software installation; software maintenance; updating of software; software rental; computer system analysis; computer system design; advice regarding information technology; Software as a Service (SaaS); monitoring of audible warning signals; development and design of sound carriers; sound digitization; encoding of digital music; electronic storage of digital music; design of software for audio and video operators; development of software for audio and video operators; design of computer hardware for audio and video operators; development of computer hardware for audio and video operators; electronic storage of audio files; electronic storage of digital audio files; technical engineering in the field of sound and acoustics; engineering testing in the field of sound and acoustics; engineering services in the field of sound and acoustics; engineering work in the field of sound and acoustics.

Class 45:

Licensing of musical works; licensing services in the field of music publishing; legal services relating to the protection and exploitation of copyright for film, television, theater and musical productions; legal services relating to the exploitation of ancillary rights in the field of film, television, video and music productions; licensing of rights relating to audio productions.

Radio systems; radio beacons; radio buoys; radio relays;
masts for wireless aerials; radio echo sounders; spark-
guards; radiotelephones; radio antennas; wireless locks; radio
receiving tuners; radio direction finders; radio transmitters;
radiotelephony sets; remote control apparatus; radio pagers;
filters for radio interference suppression; function generators;
beacon receivers; radio-frequency filters; radio signal antennas;
radiotelegraphy sets; radio-frequency components; radio wave
transmitting aerials; CB radios; portable transmitters; radio-
frequency power meters; radio-frequency modulators; radio
operated door lock controls; radio-controlled lifebuoys; mobile
radio transmitting apparatus; mobile radio receiving apparatus;
digital function generators; radio frequency identification
devices [transponders]; radio transceivers; radio transmitters
for remote controls; radio apparatus and instruments; air
traffic control radio equipment; radio receivers for remote
controls; radio beacon machines and apparatus; beeper
carrying cases; gyro sensors using GPS functions; terminals for
radiotelephones; radio-frequency identification (RFID) readers;
radio-frequency identification (RFID) tags; devices for wireless
radio transmission; single-channel radio communication
apparatus for fixed stations; aeronautical radio communication
machines and apparatus; radio monitors for reproduction
of sound and signals; computer game software for use on
mobile and cellular phones; computer software to enhance
the audio-visual capabilities of multimedia applications;
computer software for the remote control of telephone sets
and radiotelephony sets; computer software for controlling
the operation of audio and video devices; wireless controllers
to remotely monitor and control the function and status
of security systems; electronic devices used to locate lost
articles employing the global positioning system or cellular
communication networks; wireless controllers to remotely
monitor and control the function and status of other electrical,
electronic, and mechanical devices or systems; radar systems;
radar apparatus; radar antennas; radar displays; radar receivers;
radar detectors; radar jamming apparatus; radar transmitters;
radar reflecting apparatus; microwave detectors [radar]; radar
apparatus for vehicles; radar connectors; radar guns for sporting
events; radar receivers with amplifier.

Class 35:

Wholesale and retail trade services in relation to radio systems,
radio beacons, radio buoys, radio relays, masts for wireless
aerials, radio echo sounders, spark-guards, radiotelephones,
radio antennas, wireless locks, radio receiving tuners, radio
direction finders, radio transmitters, radiotelephony sets, remote
control apparatus, radio pagers, filters for radio interference

Office of Origin: FR

Date of International Registration: 10 April 2025
Date of Designation in the UK: 10 April 2025

JELLY JOB

International priority date claimed: 05 December 2024 (FR)
(5103372)

Class 3:
Make-up products.

L'OREAL

WO0000001843103(7, 9, 35, 42)
Office of Origin: EM

Date of International Registration: 13 December 2024
Date of Designation in the UK: 13 December 2024

International priority date claimed: 14 June 2024 (EM)
(019041538)

The mark contains the colours red and black.

Class 7:

Current generators; power supply apparatus [generators]; electric generators with solar cells or for solar cells; solar power generators; portable electric power generators.

Class 9:

Apparatus and instruments for accumulating and storing electricity; apparatus and instruments for controlling electricity; batteries including lithium-ion, nickel-cadmium, sodium ion and solar-powered batteries; electrical cells and batteries including rechargeable electrical cells and batteries; accumulators including lithium-ion, nickel-cadmium and solar-powered accumulators; chargers for electric batteries and accumulators; electronic power supplies; battery adapters; power units [batteries]; power units [transformers]; power packs [batteries]; portable power supplies (rechargeable batteries); voltage regulators; voltage converters; uninterruptible electrical power supplies; electric batteries, cells, accumulators and chargers for powering electric vehicles namely bikes, push scooters, scooters, hover boards, electric skates, electric unicycles, cars, mopeds, vans, lorries, motor busses, rail vehicles, tram cars, trolley buses, forklift trucks, motor-driven quadricycles, construction vehicles, industrial vehicles, self-balancing electric vehicles, wheelchairs, wheeled personal mobility transportation devices, e-mobility vehicles, agriculture vehicles, tractors, automated guided vehicles (AGV); electric batteries, cells, accumulators and chargers for powering electric machines and tools for industrial use namely mineworking machines, machines for metal, wood and plastics processing, construction machines, packaging machines and material production and processing machines, thermostats, cameras, emergency lighting, emergency power generators; electric batteries, cells, accumulators and chargers for powering electric machines and tools for household use namely vacuums, steam mops, robots for cleaning, pressure washing machines; electric batteries, cells, accumulators and chargers for powering electric machines and tools for gardening purposes namely lawnmowers, hedge cutters, grass cutters, scissors, saws, string trimmers, blowers, leaf blowers, brooms, garden scythes, wood milling machines; electric batteries, cells and accumulators and chargers for powering electric machines and tools for medical purpose namely defibrillators, respirators, dentists' lasers, X-ray apparatus, surgical saws and drillers, electrocardiograph monitors, pulse rate monitors, heart signal monitors, apparatus for dialysis, contrast injection molding machines, medical beds, medical lifters; electric batteries, cells and accumulators and chargers for powering electric power operated machines and tools namely drilling machines, screwing-in tools, sanding

machines, milling machines, notchers, cutting apparatus, agriculture equipment; electrical and electronic components for electric vehicles namely bikes, push scooters, scooters, hover boards, electric skates, electric unicycles, cars, mopeds, vans, lorries, motor busses, rail vehicles, tram cars, trolley buses, forklift trucks, motor-driven quadricycles, construction vehicles, industrial vehicles, self-balancing electric vehicles, wheelchairs, wheeled personal mobility transportation devices, e-mobility vehicles, agriculture vehicles, tractors, automated guided vehicles (AGV); electrical and electronic components for machines and tools for industrial use namely mineworking machines, machines for metal, wood and plastics processing, construction machines, packaging machines and material production and processing machines, thermostats, cameras, emergency lighting, emergency power generators; electrical and electronic components for machines and tools for household use namely vacuums, steam mops, robots for cleaning, pressure washing machines; electrical and electronic components for machines and tools for gardening purposes namely lawnmowers, hedge cutters, grass cutters, scissors, saws, string trimmers, blowers, leaf blowers, brooms, garden scythes, wood milling machines; electrical and electronic components for electric machines and tools for medical purpose namely defibrillators, respirators, dentists' lasers, X-ray apparatus, surgical saws and drillers, electrocardiograph monitors, pulse rate monitors, heart signal monitors, apparatus for dialysis, contrast injection molding machines, medical beds, medical lifters; electrical and electronic components for electric machines and tools for electric power operated machines and tools namely drilling machines, screwing-in tools, sanding machines, milling machines, notchers, cutting apparatus, agriculture equipment; power modules for electric vehicles namely battery modules, cell modules, high voltage batteries for powering electric vehicles namely bikes, push scooters, scooters, hover boards, electric skates, electric unicycles, cars, mopeds, vans, lorries, motor busses, rail vehicles, tram cars, trolley buses, forklift trucks, motor-driven quadricycles, construction vehicles, industrial vehicles, self-balancing electric vehicles, wheelchairs, wheeled personal mobility transportation devices, e-mobility vehicles, agriculture vehicles, tractors, automated guided vehicles (AGV); power modules for electric machines and tools for industrial use namely mineworking machines, machines for metal, wood and plastics processing, construction machines, packaging machines and material production and processing machines, thermostats, cameras, emergency lighting, emergency power generators; power modules for electric machines and tools for household use namely vacuums, steam mops, robots for cleaning, pressure washing machines; power modules for electric machines and tools for gardening purposes namely lawnmowers, hedge cutters, grass cutters, scissors, saws, string trimmers, blowers, leaf blowers, brooms, garden scythes, wood milling machines; power modules for electric machines and tools for medical purpose namely defibrillators, respirators, dentists' lasers, X-ray apparatus, surgical saws and drillers, electrocardiograph monitors, pulse rate monitors, heart signal monitors, apparatus for dialysis, contrast injection molding machines, medical beds, medical lifters; power modules for electric power operated machines and tools namely drilling machines, screwing-in tools, sanding machines, milling machines, notchers, cutting apparatus, agriculture equipment; apparatus for energy storage, energy supply, battery charging, energy retrieval, energy controlling, display, driver assistance systems, user communications and electric and

13 June 2025 .***

electronic sensors and tracking apparatus for electric vehicles namely bikes, push scooters, scooters, hover boards, electric skates, electric unicycles, cars, mopeds, vans, lorries, motor busses, rail vehicles, tram cars, trolley buses, forklift trucks, motor-driven quadricycles, construction vehicles, industrial vehicles, self-balancing electric vehicles, wheelchairs, wheeled personal mobility transportation devices, e-mobility vehicles, agriculture vehicles, tractors, automated guided vehicles (AGV); apparatus for energy storage, energy supply, battery charging, energy controlling and display for electric machines and tools for industrial use namely mineworking machines, machines for metal, wood and plastics processing, construction machines, packaging machines and material production and processing machines, thermostats, cameras, emergency lighting, emergency power generators; apparatus for energy storage, energy supply, battery charging, energy controlling and display for electric machines and tools for household use namely vacuums, steam mops, robots for cleaning, pressure washing machines; apparatus for energy storage, energy supply, battery charging, energy controlling and display for electric machines and tools for gardening purposes namely lawnmowers, hedge cutters, grass cutters, scissors, saws, string trimmers, blowers, leaf blowers, brooms, garden scythes, wood milling machines; apparatus for energy storage, energy supply, battery charging, energy controlling and display for electric machines and tools for medical purpose namely defibrillators, respirators, dentists' lasers, X-ray apparatus, surgical saws and drillers, electrocardiograph monitors, pulse rate monitors, heart signal monitors, apparatus for dialysis, contrast injection molding machines, medical beds, medical lifters; apparatus for energy storage, energy supply, battery charging, energy controlling and display for electric power operated machines and tools namely drilling machines, screwing-in tools, sanding machines, milling machines, notchers, cutting apparatus, agriculture equipment; electricity and energy storage apparatus including for use with electric vehicles charger; modular energy storage apparatus including modular energy storage systems for photovoltaic and renewable energy installations; electrical grid stabilising apparatus; software for battery systems namely software applications for service of battery systems, software applications for mobiles, smartwatches, wearables for communication with user of battery systems, software applications for integration the battery systems with external operators systems namely systems of rental for electric vehicles namely bikes, push scooters, scooters, hover boards, electric skates, electric unicycles, mopeds, self-balancing electric vehicles, wheelchairs, wheeled personal mobility transportation devices; computer software for battery systems; software for diagnostics and troubleshooting of battery systems; software for comprehensive service and warranty management of battery systems; electronic displays; charging apparatus, power distribution apparatus, power management apparatus, thermal management apparatus, energy storage apparatus as a part of rechargeable energy storage systems (RESS) for electric vehicles namely bikes, push scooters, scooters, hover boards, electric skates, electric unicycles, cars, mopeds, vans, lorries, motor busses, rail vehicles, tram cars, trolley buses, forklift trucks, motor-driven quadricycles, construction vehicles, industrial vehicles, self-balancing electric vehicles, wheelchairs, wheeled personal mobility transportation devices, e-mobility vehicles, agriculture vehicles, tractors, automated guided vehicles (AGV); power distribution apparatus, power supply apparatus, charging apparatus, power monitoring and diagnostic apparatus, telemetry apparatus

for electric vehicles namely bikes, push scooters, scooters, hover boards, electric skates, electric unicycles, cars, mopeds, vans, lorries, motor busses, rail vehicles, tram cars, trolley buses, forklift trucks, motor-driven quadricycles, construction vehicles, industrial vehicles, self-balancing electric vehicles, wheelchairs, wheeled personal mobility transportation devices, e-mobility vehicles, agriculture vehicles, tractors, automated guided vehicles (AGV); electrical and electronic components; uninterruptible power supply apparatus [battery]; regulated power supply apparatus; apparatus for improving power efficiency; programmed-data-carrying electronic circuits; circuits [electric or electronic]; electronic circuits; battery management systems [BMS].

Class 35:

Retail and wholesale services in relation to current generators, power supply apparatus [generators], electric generators with solar cells or for solar cells, solar power generators; retail and wholesale services in relation to apparatus and instruments for accumulating and storing electricity, apparatus and instruments for controlling electricity, batteries including lithium-ion, nickel-cadmium and solar-powered batteries, electrical cells and batteries including rechargeable electrical cells and batteries, accumulators including lithium-ion, nickel-cadmium and solar-powered accumulators; retail and wholesale services in relation to: chargers for electric batteries and accumulators, electronic power supplies, battery adapters, power units [batteries], power units [transformers], power packs [batteries], portable power supplies (rechargeable batteries), voltage regulators, voltage converters, uninterruptible electrical power supplies; retail and wholesale services in relation to electric batteries, cells, accumulators and chargers for powering electric vehicles namely bikes, push scooters, scooters, hover boards, electric skates, electric unicycles, cars, mopeds, vans, lorries, motor busses, rail vehicles, tram cars, trolley buses, forklift trucks, motor-driven quadricycles, construction vehicles, industrial vehicles, self-balancing electric vehicles, wheelchairs, wheeled personal mobility transportation devices, e-mobility vehicles, agriculture vehicles, tractors, automated guided vehicles (AGV); retail and wholesale services in relation to electric batteries, cells, accumulators and chargers for powering electric machines and tools for industrial use namely mineworking machines, machines for metal, wood and plastics processing, construction machines, packaging machines and material production and processing machines, thermostats, cameras, emergency lighting, emergency power generators; retail and wholesale services in relation to electric batteries, cells, accumulators and chargers for powering electric machines and tools for household use namely vacuums, steam mops, robots for cleaning, pressure washing machines; retail and wholesale services in relation to electric batteries, cells, accumulators and chargers for powering electric machines and tools for gardening purposes namely lawnmowers, hedge cutters, grass cutters, scissors, saws, string trimmers, blowers, leaf blowers, brooms, garden scythes, wood milling machines; retail and wholesale services in relation to electric batteries, cells and accumulators and chargers for powering electric machines and tools for medical purpose namely defibrillators, respirators, dentists' lasers, X-ray apparatus, surgical saws and drillers, electrocardiograph monitors, pulse rate monitors, heart signal monitors, apparatus for dialysis, contrast injection molding machines, medical beds, medical lifters; retail and wholesale services in relation to electric batteries, cells and accumulators and chargers for powering

electric power operated machines and tools namely drilling machines, screwing-in tools, sanding machines, milling machines, notchers, cutting apparatus, agriculture equipment; retail and wholesale services in relation to electrical and electronic components for electric vehicles namely bikes, push scooters, scooters, hover boards, electric skates, electric unicycles, cars, mopeds, vans, lorries, motor busses, rail vehicles, tram cars, trolley buses, forklift trucks, motor-driven quadricycles, construction vehicles, industrial vehicles, self-balancing electric vehicles, wheelchairs, wheeled personal mobility transportation devices, e-mobility vehicles, agriculture vehicles, tractors, automated guided vehicles (AGV); retail and wholesale services in relation to electrical and electronic components for machines and tools for industrial use namely mineworking machines, machines for metal, wood and plastics processing, construction machines, packaging machines and material production and processing machines, thermostats, cameras, emergency lighting, emergency power generators; retail and wholesale services in relation to electrical and electronic components for machines and tools for household use namely vacuums, steam mops, robots for cleaning, pressure washing machines; retail and wholesale services in relation to electrical and electronic components for electric machines and tools for medical purpose namely defibrillators, respirators, dentists' lasers, X-ray apparatus, surgical saws and drillers, electrocardiograph monitors, pulse rate monitors, heart signal monitors, apparatus for dialysis, contrast injection molding machines, medical beds, medical lifters; retail and wholesale services in relation to electrical and electronic components for electric machines and tools for electric power operated machines and tools namely drilling machines, screwing-in tools, sanding machines, milling machines, notchers, cutting apparatus, agriculture equipment; retail and wholesale services in relation to power modules for electric vehicles namely battery modules, cell modules, high voltage batteries for powering electric vehicles namely bikes, push scooters, scooters, hover boards, electric skates, electric unicycles, cars, mopeds, vans, lorries, motor busses, rail vehicles, tram cars, trolley buses, forklift trucks, motor-driven quadricycles, construction vehicles, industrial vehicles, self-balancing electric vehicles, wheelchairs, wheeled personal mobility transportation devices, e-mobility vehicles, agriculture vehicles, tractors, automated guided vehicles (AGV); retail and wholesale services in relation to power modules for electric machines and tools for industrial use namely mineworking machines, machines for metal, wood and plastics processing, construction machines, packaging machines and material production and processing machines, thermostats, cameras, emergency lighting, emergency power generators; retail and wholesale services in relation to power modules for electric machines and tools for household use namely vacuums, steam mops, robots for cleaning, pressure washing machines; retail and wholesale services in relation to power modules for electric machines and tools for gardening purposes namely lawnmowers, hedge cutters, grass cutters, scissors, saws, string trimmers, blowers, leaf blowers, brooms, garden scythes, wood milling machines; retail and wholesale services in relation to power modules for electric machines and tools for medical purpose namely defibrillators, respirators, dentists' lasers, X-ray apparatus, surgical saws and drillers, electrocardiograph monitors, pulse rate monitors, heart signal monitors, apparatus for dialysis, contrast injection molding machines, medical beds, medical lifters; retail and wholesale services in relation to power modules for electric power operated machines and

tools namely drilling machines, screwing-in tools, sanding machines, milling machines, notchers, cutting apparatus, agriculture equipment; retail and wholesale services in relation to apparatus for energy storage, energy supply, battery charging, energy retrieval, energy controlling, display, driver assistance systems, user communications and electric and electronic sensors and tracking apparatus for electric vehicles namely bikes, push scooters, scooters, hover boards, electric skates, electric unicycles, cars, mopeds, vans, lorries, motor busses, rail vehicles, tram cars, trolley buses, forklift trucks, motor-driven quadricycles, construction vehicles, industrial vehicles, selfbalancing electric vehicles, wheelchairs, wheeled personal mobility transportation devices, e-mobility vehicles, agriculture vehicles, tractors, automated guided vehicles (AGV); retail and wholesale services in relation to apparatus for energy storage, energy supply, battery charging, energy controlling and display for electric machines and tools for industrial use namely mineworking machines, machines for metal, wood and plastics processing, construction machines, packaging machines and material production and processing machines, thermostats, cameras, emergency lighting, emergency power generators; retail and wholesale services in relation to apparatus for energy storage, energy supply, battery charging, energy controlling and display for electric machines and tools for household use namely vacuums, steam mops, robots for cleaning, pressure washing machines; retail and wholesale services in relation to apparatus for energy storage, energy supply, battery charging, energy controlling and display for electric machines and tools for gardening purposes namely lawnmowers, hedge cutters, grass cutters, scissors, saws, string trimmers, blowers, leaf blowers, brooms, garden scythes, wood milling machines; retail and wholesale services in relation to apparatus for energy storage, energy supply, battery charging, energy controlling and display for electric machines and tools for medical purpose namely defibrillators, respirators, dentists' lasers, X-ray apparatus, surgical saws and drillers, electrocardiograph monitors, pulse rate monitors, heart signal monitors, apparatus for dialysis, contrast injection molding machines, medical beds, medical lifters; retail and wholesale services in relation to apparatus for energy storage, energy supply, battery charging, energy controlling and display for electric power operated machines and tools namely drilling machines, screwing-in tools, sanding machines, milling machines, notchers, cutting apparatus, agriculture equipment; retail and wholesale services in relation to charging apparatus, power distribution apparatus, power management apparatus, thermal management apparatus, energy storage apparatus as a part of rechargeable energy storage systems (RESS) for electric vehicles namely bikes, push scooters, scooters, hover boards, electric skates, electric unicycles, cars, mopeds, vans, lorries, motor busses, rail vehicles, tram cars, trolley buses, forklift trucks, motor-driven quadricycles, construction vehicles, industrial vehicles, self-balancing electric vehicles, wheelchairs, wheeled personal mobility transportation devices, e-mobility vehicles, agriculture vehicles, tractors, automated guided vehicles (AGV); retail and wholesale services in relation to power distribution apparatus, power supply apparatus, charging apparatus, power monitoring and diagnostic apparatus, telemetry apparatus for electric vehicles namely bikes, push scooters, scooters, hover boards, electric skates, electric unicycles, cars, mopeds, vans, lorries, motor busses, rail vehicles, tram cars, trolley buses, forklift trucks, motor-driven quadricycles, construction vehicles, industrial vehicles, self-balancing electric vehicles, wheelchairs, wheeled personal mobility transportation devices,

List of cases accepted for opposition purposes as shown in Journal 2025/024 published on 13 June 2025 .
