Class 7:
Printing machines; offset printing machines; rotary web fed
printing machines; rotary sheet fed printing machines; screen
printing machines; pad printing machines; flexographic printing
machines; gravure printing machines; printing machines for
use on sheet metal; printing machines for use on cans; printing
machines for use on hollow bodies; printing machines for
corrugated cardboard; inkjet printing machines and apparatus;
laser marking machines and apparatus; laser printing machines
and apparatus; marking machines; lacquering machines;
packaging machines; coating machines, in particular working
rotationally, for web-type and separate materials; digital
printing and marking machines based on electrophotography,
magnetography, xerography, ink jet; exposure apparatus, being
parts for printing machines for contact printing or creating
circuit and print templates; numbering, imprinting and marking

machines, in particular for the graphics sector, the packaging sector and data processing; labellers [machines]; engraving machines; machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; palette changing and transferring machines; stacking machines; machines for handling sheets and plates of metal; foodstuff distribution machines; machines and apparatus for the surface treatment of metals; hot stamping machines and apparatus; thermal transfer machines and apparatus; rotary die-cutters for punching of printed matter or paper or plastics; flat-bed die cutters for stamping printed matter or paper or plastics; carton bonding machines; addressing and marking machines for printed matter; machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; printing plates; flexographic printing plates; rolling mills; presses [machines for industrial purposes]; machines for battery electrode manufacture; machines for coating film supports; fittings for all the aforesaid goods, the aforesaid goods included in this class, namely in relation to the following goods: offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labellers [machines], engraving machines, rotary punching, flat bed punching, carton bonding machines, rolling mills; presses [machines for industrial purposes]; machines for battery electrode manufacture; machines for coating film supports; machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastic or metal or organic or inorganic materials, namely control apparatus, printing units, inking units, dampening units, painting units, roller changers and folding apparatus; machines and mechanical apparatus for storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour inkjet printing machines for industrial purposes, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials;

conveyors [machines], belts for conveyors, conveying apparatus for transporting printed matter or printing materials or rolls of printing materials or paper or rolls of paper or plastic or rolls of plastic or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, can printing machines, hollow body printing machines, corrugated cardboard printing machines, inkjet printing machines and apparatus, industrial inkjet printing machines, in particular having one or more inkjets, single-colour or multi-colour inkjet printing machines for industrial purposes, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, painting machines, packaging machines, coating machines, digital printing and marking machines, labelling machines and engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastic or metal or organic or inorganic materials; machines and mechanical apparatus for the folding of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical devices for changing and/or bending and/or punching printing plates and/or flexographic printing plates; machines and mechanical apparatus for the storing of printing plates for printing machines; conveying machines, conveyor belts, conveying apparatus for conveying printing plates for printing machines; machines and mechanical apparatus for cleaning rollers in inking apparatus or damping units and/or cylinders and/or lacquering units and/or inkjet print heads and/or laser systems in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour inkjet printing machines for industrial purposes, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for storing and/or adjusting rollers in inking apparatus or damping units and/or cylinders and/or lacquering units and/or inkjet printing modules and/or laser systems in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour inkjet printing machines for industrial purposes, laser marking machines and apparatus, laser printing machines and apparatus, marking machines,

lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for adjustment, for inking apparatus and/or damping units and/or printer engine cylinders and/or for lacquering units in printer engines and/or in lacquering units and/or for inkjet printing modules and/or laser systems; parts for inking apparatus and/or damping units and/or inkjet printing modules and/or laser systems and cylinders in tempering machines, included in this class; machines and mechanical apparatus for adjusting cutting equipment and/or cutting cylinders in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour inkjet printing machines for industrial purposes, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for adjusting registers and/or register marks in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour inkjet printing machines for industrial purposes, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for adjusting web tension settings in printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour inkjet printing machines for industrial purposes, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics

machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; filters [parts of machines or engines]; separators; filters for cleaning cooling air, for engines; blowing engines; fibre separators (machines); air compressors and air ejectors for machines; collecting machines for compacting, filling and pressing of particles, dust and fibres separated from machines; air conveying devices (air conditioning), namely compressors; blowing machines; air compressors; accessories, included in this class, for the aforesaid printing machines, offset printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labellers, engraving machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; fittings, included in this class, for the aforesaid filters, separators, air filters, blowers, fibre separators, air compressors and air ejectors for machines, collecting machines for compacting, filling and pressing of particles, dust and fibres separated from machines; machines and mechanical apparatus for producing security labels, securities, banknotes and/or components therefor; machines and mechanical apparatus for applying security labels and/or components therefor; machines and mechanical apparatus for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; parts for the aforesaid goods and accessories for the aforesaid goods, included in this class.

Class 9:

Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in this class, for printing machines, screen printing machines, rotary web fed printing machines, rotary sheet fed printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics

software; downloadable computer programs, namely, compilers, assemblers, visual development software and applications development environments for developing computer applications; downloadable computer software development tools in the nature of downloadable computer software for use in creating applications and smart contracts, developing graphical user interfaces and providing data exchanges and communications between programs and computers in a distributed or networked environment; downloadable computer programs intended for use in the design, development, writing and commissioning of applications, general programs and smart contracts.

Class 36:

Financial services, namely, providing a virtual digital currency and digital token in the nature of virtual currency for use by members of an on-line community via a global computer network; cryptocurrency exchange services, namely, exchange services for a digital virtual currency and digital token in the nature of virtual currency, incorporating cryptographic protocols, used to operate and build applications and blockchains on a decentralized computer platform and as a method of payment for goods and services.

Class 38:

Providing online forums for the transmission of messages and information among users concerning data, information, publications and digital content in the field of computer software development; sending messages via electronic transmission; communication services, namely, electronic transmission of data, information, publications and digital content among users; providing an online forum for accessing, sharing and transmitting messages, text, information, documents, publications and digital content among users; providing access to computer networks, namely, providing multiple-user access to a computer network of applications built on a blockchain software platform; providing access to a discussion website on the Internet concerning technical information with respect to computers and concerning a computer project management method known as model-based design.

Class 41:

Publication of on-line blogs and providing non-downloadable publications in the nature of articles, tutorials, guides, technical explainers, and technical documentation in the fields of blockchain technology and distributed computing platforms via a website; developing, arranging, and conducting educational conferences in the field of blockchain technology; educational services, namely, developing, arranging and conducting classes, seminars, conferences, workshops, retreats, camps and field trips in the field of blockchain technology and distributed computing platforms, and distribution of training material in connection therewith.

Class 42:

Software development services; design, development and implementation of software for distributed computing platforms; design, development and implementation of software in the field of blockchains; research and development of computer software; software development and product development consulting in the field of distributed computing platforms; software development and product development consulting in the field of blockchains; providing online

non-downloadable hosted software, namely, software in the nature of utility programs, and language and interpretation processors, via computer networks, namely, the Internet, telecommunication networks and on mobile data services; technical support services with respect to software, namely, troubleshooting of computer software problems; customer support services in relation to computer software, namely, troubleshooting of computer software problems; services for maintenance of computer software; computer programming; computer system analysis; computer software research, design and development services; providing online technical information in the nature of technology information in the field of computers; providing online information in the field of the design and development of computer hardware and software, and including for a computer project management method in the nature of model-based design technical support services in the nature of providing information in the field of software, provided via online journals and blogs; consultation, advisory and information services relating to the aforesaid services, namely, consultation, advisory, and information services in the field of computer software; providing online, non-downloadable hosted software on computer networks being the internet, telecommunication networks and on mobile data services for analyzing data, for troubleshooting in the field of technical information with respect to computers; providing temporary use of online non-downloadable software applications accessible via a website for utility programs, and language and interpretation processors; information technology (IT) consultancy relating to the installation, maintenance, and repair of computer software; providing online non-downloadable computer application software for blockchain-based platforms, namely, software platforms for distributed applications and software using a consensus engine incorporating blockchain technology for securing data with cryptographic information; providing online non-downloadable computer software platforms for developing and building of distributed software applications and distributed computing platforms; providing online non-downloadable computer software platforms for blockchains, namely, software for securing data with cryptographic information.

Class 1:
Thermal paste.

Class 2:
Paints; varnishes; lacquers; anti-rust products; colorants; dyes; printing inks; marking inks and engraving inks.

Class 4:
Oil for electric motors and engines.

Class 6:
Containers of metal for storage or transport; metal hydrogen tanks other than for vehicles; metal fuel tanks other than for vehicles; metal industrial containers for vehicle battery packaging; metal tubing [parts of engines for land vehicles];

metal tubing for dispensing hydrogen inside land vehicles; automotive metal tubing for pumping, calibration, filtering, pressure regulation, chemical, thermal or mechanical protection.

Class 7:

Machine tools; machines for painting, gluing, welding, punching, cutting and machining; spray guns for paint and distribution of glue; vulcanization, lifting and brazing apparatus, soldering apparatus included in this class, vaporization apparatus, apparatus for machining and mechanical tools for the automobile industry and the production of parts for motor vehicles; anti-pollution devices for engines; electric, pneumatic and hydraulic devices for opening vehicle doors and windows; vending machines; robots for the automotive industry and the manufacture of parts for motor vehicles; industrial presses for the manufacture of parts for motor vehicles; molds (parts of machines) for the automotive industry and for the manufacture of parts for motor vehicles; electric machines and apparatus for cleaning; sweeping machines; road construction machines, bulldozers, snow plows as well as rubber treads as parts of the tracks of such vehicles; 3D printers; compression molding machines; injection molding machines; extrusion molding machines; electricity generators; filament winding machines intended for use in the manufacture of hydrogen tanks; roof opening mechanisms for vehicles; valves, canisters, filters and modules for pumping, gauging, filtration, pressure regulation, mechanical, thermal or chemical protection; components, parts of vehicles, systems, control units and vehicle modules included in this class, namely, all parts relating to de-pollution.

Class 9:

On-board computers for vehicles; Registered on-board computer and calculator programs; software (recorded programs); artificial intelligence software; systems for detecting, processing, signaling and following stationary and moving objects around a vehicle; on-board electronic driving assistance systems; advanced driver assistance systems for vehicles, namely, adaptive cruise control, lane departure controls and alarm, blind spot detection controls and alarm, and controls and alarms reducing the risk of collisions and accidents; electronic control devices for vehicle driving assistance; autonomous and semi-autonomous driving control systems for vehicles; autonomous and semi-autonomous driving systems featuring interactive displays; electronic apparatus intended for vehicle driving assistance; computer software and computer hardware for use in relation to advanced driving assistance systems; computer software and computer hardware for controlling, operating, driving and monitoring vehicles; computer software and computer hardware enabling object detection, object classification and high-definition mapping; computer software and computer hardware for data acquisition and data analysis; computer software and computer hardware for collecting and analyzing data generated by external sources and vehicle sensors; computer software and computer hardware for transmitting data in a vehicle and for communications between and among vehicles and a cloud platform; computer software and computer hardware enabling interaction and interfacing between vehicles and mobile devices; computer software for coordinating delivery, freight and transportation services by automated vehicles; gasoline gauges; electric control apparatus used in the field of mobility; simulators for controlling vehicles; electric

monitoring apparatus used in the field of mobility; voltage regulators for vehicles; sensors; electromagnetic sensor for determining the speed, angle, distance, volume and nature of an object; radars and antennas integrated into vehicle body parts for parking assistance and driving assistance; waveguides for electromagnetic wave propagation; antennas for reception, antennas for transmission of images, sounds and data; transmitters of electronic signals; electronic signal receivers; light detection and ranging [LIDAR] apparatus for vehicles; road-marking detection apparatus; navigation apparatus for vehicles (on-board computers); electronic apparatus for vehicle parking assistance; electronic apparatus for detecting and warning of continuous or discontinuous line crossing for vehicles; electronic apparatus for detecting, recognizing and reading road traffic signs; battery modules; electric batteries; electric batteries for vehicles; battery packs for vehicles; fuel cells for vehicles; electric accumulators for vehicles; power supply units for vehicles [batteries]; containers for vehicle accumulators [batteries]; battery boxes for vehicles; cooling system for electric vehicle batteries; cooling plates for electric vehicle batteries; control units, sensors and actuators used to control, monitor, regulate and diagnose, on board vehicles, systems, modules and components relating to the production, storage, supply and transformation of energy, and the decontamination of vehicles; on-board computer and calculator programs and software for the control, monitoring, regulation and diagnosis, on board vehicles, of systems, modules, control units and vehicle components relating to the production, storage, supply and conversion of energy, and the decontamination of vehicles; electric and electronic weighing, measuring and checking apparatus and instruments used in the field of mobility; apparatus and instruments for sound, image and data recording, transmission, reproduction and processing; apparatus for reading, recording, transmitting and reproducing data; electronic devices for digital display; electronic notice boards; computerized visual display units; vehicle fuses; junction boxes [electricity] for vehicle batteries; electric control devices for energy management for vehicles; apparatus for analyzing light sources for vehicles; apparatus for analyzing light intensity variation for vehicles; apparatus for analyzing light source variation for vehicles; light source sensors for vehicles; light intensity variation sensors for vehicles; light source variation sensors for vehicles; equipment for communication via Internet link or similar equipment and for data display inside a vehicle; electric, electronic or optical equipment, on board vehicles, including land vehicles, for steering, signaling, controlling, for information, safety as well as processing of information and signals (sounds, images, data) related thereto; electronic management systems for lighting and signaling and cameras; in-vehicle cameras; vehicle reversing cameras; multi-camera systems for vehicles; image processing software for on-board vehicle cameras; facial analysis software; gesture recognition software; software programmed to optimize filament winding; downloadable security software; software for network security and computer units; on-board vehicle surveillance devices and systems, for detecting and analyzing driver and passenger behaviors and emotions, and to warn them of danger and improve their driving experiences; electronic systems for controlling the filling of fuel tanks; electronic systems for controlling the filling of hydrogen tanks; electronic systems for controlling and monitoring the charging and performance of vehicle batteries; electronic systems for controlling and monitoring the charging and performance of vehicle fuel cells; electronic systems for

controlling and monitoring the performance status of high-pressure hydrogen tanks; photovoltaic energy accumulators used in the field of mobility; photovoltaic cells used in the field of mobility; photovoltaic inverters used in the field of mobility; DC-DC converter, namely, electronic power circuits enabling the conversion of a direct current (DC) source of one specified voltage level to a different level; system for activating lighting apparatus by electronic devices for reading, transmitting and processing data emitted by a vehicle; Chargers for electric cars; charger cover for electric cars; vehicle dashboard indicator lights; apparatus for controlling the temperature of fuel batteries and cells; temperature regulators for fuel batteries and cells; energy conversion apparatus for vehicles; components, parts of vehicles, systems, control units and vehicle modules included in this class, namely, all parts relating to the production, storage, supply and conversion of any form of energy on board the vehicles.

Class 11:

Lighting apparatus for vehicles; lighting apparatus for vehicle decoration; vehicle headlights; lights for vehicles; parking lights for vehicles; light bulbs for directional signals for vehicles; anti-glare devices for vehicles [lamp fittings]; anti-glare lighting systems for other drivers; lighting systems for automatic activation and deactivation of high beam when approaching another vehicle; lighting systems for automatic activation and deactivation of high beam when approaching a pedestrian; lighting systems for automatic activation and deactivation of high beam when approaching a lit section of road; heating apparatus for defrosting windows of vehicles; defrosters for vehicles; heaters for vehicles; demisting heating apparatus for vehicles; polymerization installations; heating polymerization units; activation system for lighting, heating and drying apparatus triggered by electronic devices for reading, transmitting and processing data emitted by a vehicle; lighting for display purposes inside and outside a vehicle; vehicle dashboard bulbs.

Class 12:

Vehicles; apparatus for locomotion by land, air or water; motor vehicles, motorcycles, vans, trucks; electric motor vehicles; hybrid automobile; all-terrain vehicles; buses; heavy-duty vehicles; tramcar; trains; airplanes; helicopters; rotorcraft; aircraft; dirigible balloons (airships); drones; boats; ships; seaplanes; parts of vehicles; parts and components for vehicles namely bodywork parts, bodywork component parts, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, vehicle front casing, floor, shock absorber; modules (parts) of vehicles; structural elements for motor vehicles; aerodynamic elements for vehicles, deflectors, spoilers, air guides for vehicles; grille; vehicle chassis; fuel tanks for vehicles; hydrogen tanks for vehicles; caps for vehicle gasoline tanks; fuel tanks (all types of fuel) for land vehicles; vehicle dashboards.

Class 13:

Pyrophoric substances; pyrotechnic products.

Class 17:

Dielectrics [insulators]; non-metal tubes for dispensing cooling fluids in batteries; non-metal tubes for dispensing hydrogen, water, air and coolants in fuel cells; non-metal flexible tubing [parts of engines for land vehicles]; non-metal flexible tubing for dispensing hydrogen inside land vehicles;

List of cases accepted for opposition purposes as shown in Journal 2025/031 published on 01 August 2025.

non-metal automotive flexible tubing for pumping, calibration, filtering, pressure regulation, chemical, thermal or mechanical protection.

Class 20:

Tanks not of metal nor masonry; hydrogen tanks not of metal; fuel tanks, not of metal, other than for vehicles.

Class 35:

Business organization consultancy; consultancy services in business management; assistance in business management and business consulting for companies; compilation of statistical reports and market studies; computer data management; collection and systematization of data in a central file; Wholesale and retail services for the following products: thermal paste, paints, varnishes, lacquers, anti-rust products, colorants, dyes, printing inks, marking inks and engraving inks, oil for electric motors, metal containers for storage or transport, metal hydrogen tanks other than for vehicles, metal fuel tanks other than for vehicles, metal industrial containers for packaging vehicle batteries, machine tools, machines for painting, gluing, welding, punching, cutting and machining, guns for painting and dispensing glue, vulcanization, lifting, brazing apparatus, welding apparatus included in this class, vaporization apparatus, apparatus for machining and mechanical tools for the automotive industry and the manufacture of parts for automobiles, anti-pollution devices for motors and engines, electric, pneumatic and hydraulic devices for opening vehicle doors and windows, automatic vending machines, robots for the automobile industry and the manufacture of parts for automobiles, industrial presses for the manufacture of parts for automobiles, molds [parts of machines] for the automobile industry and for the manufacture of automobile parts, electric cleaning machines and apparatus, sweeping machines, road making machines, bulldozers, snow plows as well as rubber treads as parts of tracks of such vehicles, 3D printers, compression molding machines, injection molding machines, extrusion molding machines, electricity generators, filament winding machines intended for use in the manufacture of hydrogen tanks, adaptive cruise control, lane tracking controls and alarm, blind spot detection controls and alarm, and collision and accident risk controls and alarms, electronic control devices for vehicle driving assistance, autonomous and semi-autonomous driving control systems for vehicles, autonomous and semi-autonomous driving systems with interactive displays, electronic apparatus intended for use in driving vehicles, computer software and computer hardware for use in relation to advanced driver assistance systems, computer software and computer hardware for controlling, operating, driving and monitoring vehicles, computer software and computer hardware enabling object detection, object classification and high-definition mapping, computer software and computer hardware for data acquisition and data analysis, computer software and computer hardware for collecting and analyzing data generated by external sources and vehicle sensors, computer software and computer hardware for the transmission of data in a vehicle and for communications between and among vehicles and a cloud-based platform, computer software and computer hardware enabling interaction and interfacing between vehicles and mobile devices, computer software for coordinating delivery services, freight and transport by automated vehicles, gasoline gauges, electric control apparatus for use in the field of mobility, simulators for controlling vehicles, electric

monitoring apparatus used in the field of mobility, voltage regulators for vehicles, sensors, electromagnetic sensors for determining the speed, angle, distance, volume and nature of an object, radars and antennas integrated in vehicle bodywork parts for parking assistance and driving assistance, waveguides for electromagnetic wave propagation, reception antennas, antennas for emitting images, sound and data, electronic signal transmitters, electronic signal receivers, light detection and ranging [LIDAR] apparatus for vehicles, ground marking detection apparatus, navigation apparatus for vehicles [on-board computers], electronic apparatus for vehicle parking assistance, electronic apparatus for detecting and warning of continuous or non-continuous line crossing for vehicles, electronic apparatus for detecting, recognizing and reading road traffic signs, battery modules, electric batteries, electric batteries for vehicles, battery packs for vehicles, fuel cells for vehicles, electric accumulators for vehicles, electric power supply units for vehicles [batteries], containers for vehicle accumulators [batteries], battery boxes for vehicles, cooling system for electric batteries for vehicles, cooling plates for electric batteries for vehicles, control units, sensors and actuators on board vehicles used for controlling, monitoring, regulating and diagnosing systems, modules and components relating to the production, storage, supply and conversion of energy, as well as pollution control of vehicles, vehicle on-board computer programs and calculators and software for controlling, monitoring, regulating and diagnosing vehicle systems, modules, control units and components relating to the production, storage, supply and conversion of energy, as well as the pollution control of vehicles, electric and electronic weighing, measuring and checking apparatus and instruments used in the field of mobility, apparatus and instruments for recording, transmitting, reproducing and processing sound, images and data, apparatus for reading, recording, transmitting and reproducing data, electronic digital display devices, electronic notice boards, computerized visual display units, vehicle fuses, junction boxes [electricity] for vehicle batteries, electric control devices for energy management for vehicles, apparatus for analyzing light sources for vehicles, apparatus for analyzing light intensity variation for vehicles, apparatus for analyzing light source variation for vehicles, light source sensors for vehicles, light intensity variation sensors for vehicles, light source variation sensors for vehicles, equipment for communication via Internet link or similar equipment and data display inside the vehicle, electric, electronic or optical equipment, on board vehicles, including land vehicles, for conducting, signaling, controlling, information, safety as well as processing information and signals [sounds, images, data] relating thereto, electronic lighting and signaling management system and cameras, vehicle on-board cameras, rearview cameras for vehicles, multi-camera systems for vehicles, image processing software for in-vehicle cameras, facial analysis software, gesture recognition software, programmed software to optimize filament winding, downloadable computer security software, software for the security of computer networks and units, vehicle on-board monitoring devices and systems, enabling the detection and analysis of driver and passenger behaviors and emotions, and preventing danger and improving their driving experiences, electronic systems for controlling fuel tank filling, electronic systems for controlling hydrogen tank filling, electronic systems for controlling and monitoring the charging and performance of vehicle batteries, electronic systems for controlling and monitoring the charging and performance of vehicle fuel cells, electronic systems

for controlling and monitoring the performance of high-pressure hydrogen tanks, photovoltaic energy accumulators for use in the field of mobility, photovoltaic cells used in the field of mobility, photovoltaic inverters used in the field of mobility, DC-DC converter, namely power electronics circuit for converting a direct current source [DC] of a specific voltage level to a different level, system for activating lighting apparatus by electronic devices for reading, transmitting and processing data emitted by a vehicle, chargers for electric cars, covers for electric car chargers, dashboard indicator lights for vehicles, temperature control apparatus for batteries and fuel cells, temperature regulators for batteries and fuel cells, lighting apparatus for vehicles, lighting apparatus for vehicle decoration, vehicle headlights, lights for vehicles, position lights for vehicles, directional signal light bulbs for vehicles, anti-glare devices for vehicles [lamp fittings], anti-glare lighting systems for other drivers, lighting systems to automatically activate and deactivate high beam when approaching another vehicle, lighting systems to automatically activate and deactivate high beam when approaching a pedestrian, lighting systems to automatically activate and deactivate high beam when approaching a lit section of road, heating apparatus for defrosting vehicle windows, defrosters for vehicles, heating installations for vehicles, anti-fog heating devices for vehicles, polymerization installations, heating polymerization units, activation system for lighting, heating and drying apparatus triggered by electronic devices for reading, transmitting and processing data emitted by a vehicles, lighting for display purposes inside and outside a vehicle, vehicle dashboard bulbs, vehicles, apparatus for locomotion by land air or water, motor vehicles, motorcycles, vans, trucks, electric motor vehicles, hybrid cars, all-terrain vehicles, buses, heavy-duty vehicles, tramcars, trains, airplanes, helicopters, rotorcraft, aircraft, airships, drones, boats, ships, seaplanes, constituent parts of vehicles, parts and components for vehicles namely bodywork parts, component parts of bodyworks, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, automobile front casing, floor, shock absorber, vehicle modules, roof opening mechanisms for vehicles, structural elements for motor vehicles, aerodynamic elements for vehicles, deflector, spoiler, air guide for vehicles, grille, vehicle chassis, fuel tanks for vehicles, hydrogen tanks for vehicles, caps for vehicle gas tanks, components, component parts of vehicles, systems, vehicle control units and modules included in this class, components, component parts of vehicles, systems, vehicle control units and modules included in this class namely all parts relating to the production, storage, supply and conversion of all forms of energy on board vehicles, as well as pollution control, tanks, tubing, valves, canisters, filters and modules for pumping, gauging, filtering, pressure regulation, mechanical, thermal or chemical protection, energy conversion apparatus for vehicles, vehicle dashboards, pyrophoric substances, pyrotechnic products, pyrophoric substances, pyrotechnic products, dielectrics [insulators], non-metal tubes for dispensing coolants in batteries, non-metal tubes for the distribution of hydrogen fluids, water, air and coolants in fuel cells, tanks, not made of metal nor of masonry, non-metal hydrogen tanks, non-metal fuel tanks other than for vehicles.

Class 37:

Vehicle maintenance; vehicle lubrication [greasing]; Installing exterior, interior and mechanical parts of vehicles for personalization purposes [tuning]; vehicle washing; vehicle

cleaning; vehicle polishing; repair services in the case of vehicle breakdown; anti-rust treatment for vehicles; charging of vehicle batteries; electric vehicle charging; maintenance, installation and replacement constituent parts of vehicles, parts and components for vehicles namely bodywork parts, component parts of bodyworks, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, automobile front casing, floor, shock absorber, vehicle modules, roof opening mechanisms for vehicles, structural elements for motor vehicles, aerodynamic elements for vehicles, deflector, spoiler, air guide for vehicles, grille, vehicle chassis, fuel tanks for vehicles, hydrogen tanks for vehicles, caps for vehicle gas tanks, components, component parts of vehicles, systems, vehicle control units and modules, components, component parts of vehicles, systems, vehicle control units and modules namely all parts relating to the production, storage, supply and conversion of all forms of energy on board vehicles, as well as pollution control, tanks, tubing, valves, canisters, filters and modules for pumping, gauging, filtering, pressure regulation, mechanical, thermal or chemical protection, fuel cells for vehicles, electric batteries for vehicles, battery packs for vehicles, energy conversion apparatus for vehicles; maintenance, installation and replacement of lighting apparatus for vehicles, vehicle headlights, lights for vehicles, position lights for vehicles, directional signal light bulbs for vehicles, anti-glare devices for vehicles [lamp fittings], anti-frost heating apparatus for vehicle windows, defrosters for vehicles, heating installations for vehicles, anti-fog heating devices for vehicles, polymerization installations, heating polymerization units.

Class 38:

Telecommunications; communications by computer terminals; providing access to databases; electronic transmission of data related to land vehicles; rental of telecommunication equipment; telecommunications services for radio location and identification of land vehicles; radio, telephone communications; message transmission; providing private access to computer databases.

Class 39:

Collecting end-of-life batteries and fuel cells.

Class 40:

Treating plastics, metals, composite materials; recycling services for plastic materials; printing services; 3D printing to order for third parties; die casting services; die-casting of metals; molding of synthetic products; engraving; laser engraving; polymerization; custom manufacture of automobiles and automobile parts; recycling end-of-life fuel batteries and cells.

Class 42:

Technical planning and technical advice; work planning (engineers' services) and technical project planning; technical advice services with respect to environmental protection; industrial analysis services; industrial analysis and consultation services with respect to environmental protection and conservation; scientific and technological information and technical advice services in connection with environmental awareness; design, updating and rental of software and databases; design, development and updating of artificial intelligence software; research and development of new products for third parties; technical research and

The mark consists of the words "WELL COWORKING RATED" in capital font at the center of A circle. The word "WELL" is situated above the word "COWORKING," the word "COWORKING" is situated above the word "RATED." There is a series of semi-circles situated around the words "WELL COWORKING RATED".
Registration of this mark shall give no rights to the exclusive use of "COWORKING".

Class 9:

Downloadable materials, namely, multimedia files containing artwork, text, audio, video, and internet web links, text files, video recordings and video files, audio recordings, images and written documents in the fields of human health, wellness and well-being, the design, construction, operation, maintenance and management of flexible workspaces, co-working spaces and other venues and indoor environments, protocols, guidelines, policies and best practices for maintaining and providing training and informative content related to healthy business operations that promote human well-being in coworking spaces and flexible workspaces and that relate to restorative places, productive work environments, air and water quality, maintenance operation policies and well-being education and engagement.

Class 41:

Providing online, non-downloadable, publications and content, namely, educational, training, orientation and marketing videos, audio recordings, webcast recordings, infographics, articles, manuals, journals, surveys, assessments, questionnaires and images in the fields of human health, wellness and well-being, the design, construction, operation, maintenance and management of flexible workspaces and coworking spaces and that promote restorative places, productive work environments, air and water quality, maintenance operation policies and well-being education and engagement.

Class 42:

Developing quality control and accreditation standards and practices for the design, construction, operation, maintenance and management of coworking spaces and flexible workspaces

Class 1:

Thermal paste.

Class 2:

Paints; varnishes; lacquers; anti-rust products; colorants; dyes; printing inks; marking inks and engraving inks.

Class 4:

Oil for electric motors and engines.

Class 6:

Containers of metal for storage or transport; metal hydrogen tanks other than for vehicles; metal fuel tanks other than for vehicles; metal industrial containers for vehicle battery packaging; metal tubing [parts of engines for land vehicles]; metal tubing for dispensing hydrogen inside land vehicles; automotive metal tubing for pumping, calibration, filtering, pressure regulation, chemical, thermal or mechanical protection.

Class 7:

Machine tools; machines for painting, gluing, welding, punching, cutting and machining; spray guns for paint and distribution of glue; vulcanization, lifting and brazing apparatus, soldering apparatus included in this class, vaporization apparatus, apparatus for machining and mechanical tools for the automobile industry and the production of parts for motor vehicles; anti-pollution devices for engines; electric, pneumatic and hydraulic devices for opening vehicle doors and windows; vending machines; robots for the automotive industry and the manufacture of parts for motor vehicles; industrial presses for the manufacture of parts for motor vehicles; molds (parts of machines) for the automotive industry and for the manufacture of parts for motor vehicles; electric machines and apparatus for cleaning; sweeping machines; road construction machines, bulldozers, snow plows as well as rubber treads as parts of the tracks of such vehicles; 3D printers; compression molding machines; injection molding machines; extrusion molding machines; electricity generators; filament winding machines intended for use in the manufacture of hydrogen tanks; roof opening mechanisms for vehicles; valves, canisters, filters and modules for pumping, gauging, filtration, pressure regulation, mechanical, thermal or chemical protection; components, parts of vehicles, systems, control units and vehicle modules included in this class, namely, all parts relating to de-pollution.

Class 9:

On-board computers for vehicles; Registered on-board computer and calculator programs; software (recorded programs); artificial intelligence software; systems for detecting, processing, signaling and following stationary and moving objects around a vehicle; on-board electronic driving assistance systems; advanced driver assistance systems for vehicles, namely, adaptive cruise control, lane departure controls and alarm, blind spot detection controls and alarm, and controls and alarms reducing the risk of collisions and accidents; electronic control devices for vehicle driving assistance; autonomous and semi-autonomous driving control systems for vehicles; autonomous and semi-autonomous driving systems featuring interactive displays; electronic apparatus intended for vehicle driving assistance; computer software and computer hardware for use in relation to advanced driving assistance systems; computer software and computer hardware for controlling, operating, driving and monitoring vehicles; computer software and computer hardware enabling object detection, object classification and high-definition mapping; computer software and computer hardware for data acquisition and data analysis; computer software and computer hardware for collecting and analyzing data generated by external sources and vehicle sensors; computer software and computer hardware for transmitting data in a vehicle and for communications between and among vehicles and a cloud platform; computer software and computer hardware enabling interaction and interfacing between vehicles and mobile devices; computer software for coordinating delivery, freight and transportation services by automated vehicles; gasoline gauges; electric control apparatus used in the field of mobility; simulators for controlling vehicles; electric monitoring apparatus used in the field of mobility; voltage regulators for vehicles; sensors; electromagnetic sensor for determining the speed, angle, distance, volume and nature of an object; radars and antennas integrated into vehicle body parts for parking assistance and driving assistance; waveguides for electromagnetic wave propagation; antennas

for reception, antennas for transmission of images, sounds and data; transmitters of electronic signals; electronic signal receivers; light detection and ranging [LIDAR] apparatus for vehicles; road-marking detection apparatus; navigation apparatus for vehicles (on-board computers); electronic apparatus for vehicle parking assistance; electronic apparatus for detecting and warning of continuous or discontinuous line crossing for vehicles; electronic apparatus for detecting, recognizing and reading road traffic signs; battery modules; electric batteries; electric batteries for vehicles; battery packs for vehicles; fuel cells for vehicles; electric accumulators for vehicles; power supply units for vehicles [batteries]; containers for vehicle accumulators [batteries]; battery boxes for vehicles; cooling system for electric vehicle batteries; cooling plates for electric vehicle batteries; control units, sensors and actuators used to control, monitor, regulate and diagnose, on board vehicles, systems, modules and components relating to the production, storage, supply and transformation of energy, and the decontamination of vehicles; on-board computer and calculator programs and software for the control, monitoring, regulation and diagnosis, on board vehicles, of systems, modules, control units and vehicle components relating to the production, storage, supply and conversion of energy, and the decontamination of vehicles; electric and electronic weighing, measuring and checking apparatus and instruments used in the field of mobility; apparatus and instruments for sound, image and data recording, transmission, reproduction and processing; apparatus for reading, recording, transmitting and reproducing data; electronic devices for digital display; electronic notice boards; computerized visual display units; vehicle fuses; junction boxes [electricity] for vehicle batteries; electric control devices for energy management for vehicles; apparatus for analyzing light intensity variation for vehicles; apparatus for analyzing light source variation for vehicles; light source sensors for vehicles; light intensity variation sensors for vehicles; light source variation sensors for vehicles; equipment for communication via Internet link or similar equipment and for data display inside a vehicle; electric, electronic or optical equipment, on board vehicles, including land vehicles, for steering, signaling, controlling, for information, safety as well as processing of information and signals (sounds, images, data) related thereto; electronic management systems for lighting and signaling and cameras; in-vehicle cameras; vehicle reversing cameras; multi-camera systems for vehicles; image processing software for on-board vehicle cameras; facial analysis software; gesture recognition software; software programmed to optimize filament winding; downloadable security software; software for network security and computer units; on-board vehicle surveillance devices and systems, for detecting and analyzing driver and passenger behaviors and emotions, and to warn them of danger and improve their driving experiences; electronic systems for controlling the filling of fuel tanks; electronic systems for controlling the filling of hydrogen tanks; electronic systems for controlling and monitoring the charging and performance of vehicle batteries; electronic systems for controlling and monitoring the charging and performance of vehicle fuel cells; electronic systems for controlling and monitoring the performance status of high-pressure hydrogen tanks; photovoltaic energy accumulators used in the field of mobility; photovoltaic cells used in the field of mobility; photovoltaic inverters used in the field of mobility; DC-DC converter, namely, electronic power circuits enabling the conversion of a direct current (DC) source of one specified

voltage level to a different level; system for activating lighting apparatus by electronic devices for reading, transmitting and processing data emitted by a vehicle; Chargers for electric cars; charger cover for electric cars; vehicle dashboard indicator lights; apparatus for controlling the temperature of fuel batteries and cells; temperature regulators for fuel batteries and cells; energy conversion apparatus for vehicles; components, parts of vehicles, systems, control units and vehicle modules included in this class, namely, all parts relating to the production, storage, supply and conversion of any form of energy on board the vehicles.

Class 11:

Lighting apparatus for vehicles; lighting apparatus for vehicle decoration; vehicle headlights; lights for vehicles; parking lights for vehicles; light bulbs for directional signals for vehicles; anti-glare devices for vehicles [lamp fittings]; anti-glare lighting systems for other drivers; lighting systems for automatic activation and deactivation of high beam when approaching another vehicle; lighting systems for automatic activation and deactivation of high beam when approaching a pedestrian; lighting systems for automatic activation and deactivation of high beam when approaching a lit section of road; heating apparatus for defrosting windows of vehicles; defrosters for vehicles; heaters for vehicles; demisting heating apparatus for vehicles; polymerization installations; heating polymerization units; activation system for lighting, heating and drying apparatus triggered by electronic devices for reading, transmitting and processing data emitted by a vehicle; lighting for display purposes inside and outside a vehicle; vehicle dashboard bulbs.

Class 12:

Vehicles; apparatus for locomotion by land, air or water; motor vehicles, motorcycles, vans, trucks; electric motor vehicles; hybrid automobile; all-terrain vehicles; buses; heavy-duty vehicles; tramcar; trains; airplanes; helicopters; rotorcraft; aircraft; dirigible balloons (airships); drones; boats; ships; seaplanes; parts of vehicles; parts and components for vehicles namely bodywork parts, bodywork component parts, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, vehicle front casing, floor, shock absorber; modules (parts) of vehicles; structural elements for motor vehicles; aerodynamic elements for vehicles, deflectors, spoilers, air guides for vehicles; grille; vehicle chassis; fuel tanks for vehicles; hydrogen tanks for vehicles; caps for vehicle gasoline tanks; fuel tanks (all types of fuel) for land vehicles; vehicle dashboards.

Class 13:

Pyrophoric substances; pyrotechnic products.

Class 17:

Dielectrics [insulators]; non-metal tubes for dispensing cooling fluids in batteries; non-metal tubes for dispensing hydrogen, water, air and coolants in fuel cells; non-metal flexible tubing [parts of engines for land vehicles]; non-metal flexible tubing for dispensing hydrogen inside land vehicles; non-metal automotive flexible tubing for pumping, calibration, filtering, pressure regulation, chemical, thermal or mechanical protection.

Class 20:

List of cases accepted for opposition purposes as shown in Journal 2025/031 published on 01 August 2025.

Tanks not of metal nor masonry; hydrogen tanks not of metal; fuel tanks, not of metal, other than for vehicles.

Class 35:

Business organization consultancy; consultancy services in business management; assistance in business management and business consulting for companies; compilation of statistical reports and market studies; computer data management; collection and systematization of data in a central file; Wholesale and retail services for the following products: thermal paste, paints, varnishes, lacquers, anti-rust products, colorants, dyes, printing inks, marking inks and engraving inks, oil for electric motors, metal containers for storage or transport, metal hydrogen tanks other than for vehicles, metal fuel tanks other than for vehicles, metal industrial containers for packaging vehicle batteries, machine tools, machines for painting, gluing, welding, punching, cutting and machining, guns for painting and dispensing glue, vulcanization, lifting, brazing apparatus, welding apparatus included in this class, vaporization apparatus, apparatus for machining and mechanical tools for the automotive industry and the manufacture of parts for automobiles, anti-pollution devices for motors and engines, electric, pneumatic and hydraulic devices for opening vehicle doors and windows, automatic vending machines, robots for the automobile industry and the manufacture of parts for automobiles, industrial presses for the manufacture of parts for automobiles, molds [parts of machines] for the automobile industry and for the manufacture of automobile parts, electric cleaning machines and apparatus, sweeping machines, road making machines, bulldozers, snow plows as well as rubber treads as parts of tracks of such vehicles, 3D printers, compression molding machines, injection molding machines, extrusion molding machines, electricity generators, filament winding machines intended for use in the manufacture of hydrogen tanks, adaptive cruise control, lane tracking controls and alarm, blind spot detection controls and alarm, and collision and accident risk controls and alarms, electronic control devices for vehicle driving assistance, autonomous and semi-autonomous driving control systems for vehicles, autonomous and semi-autonomous driving systems with interactive displays, electronic apparatus intended for use in driving vehicles, computer software and computer hardware for use in relation to advanced driver assistance systems, computer software and computer hardware for controlling, operating, driving and monitoring vehicles, computer software and computer hardware enabling object detection, object classification and high-definition mapping, computer software and computer hardware for data acquisition and data analysis, computer software and computer hardware for collecting and analyzing data generated by external sources and vehicle sensors, computer software and computer hardware for the transmission of data in a vehicle and for communications between and among vehicles and a cloud-based platform, computer software and computer hardware enabling interaction and interfacing between vehicles and mobile devices, computer software for coordinating delivery services, freight and transport by automated vehicles, gasoline gauges, electric control apparatus for use in the field of mobility, simulators for controlling vehicles, electric monitoring apparatus used in the field of mobility, voltage regulators for vehicles, sensors, electromagnetic sensors for determining the speed, angle, distance, volume and nature of an object, radars and antennas integrated in vehicle bodywork parts for parking assistance and driving assistance, waveguides

for electromagnetic wave propagation, reception antennas, antennas for emitting images, sound and data, electronic signal transmitters, electronic signal receivers, light detection and ranging [LIDAR] apparatus for vehicles, ground marking detection apparatus, navigation apparatus for vehicles [on-board computers], electronic apparatus for vehicle parking assistance, electronic apparatus for detecting and warning of continuous or non-continuous line crossing for vehicles, electronic apparatus for detecting, recognizing and reading road traffic signs, battery modules, electric batteries, electric batteries for vehicles, battery packs for vehicles, fuel cells for vehicles, electric accumulators for vehicles, electric power supply units for vehicles [batteries], containers for vehicle accumulators [batteries], battery boxes for vehicles, cooling system for electric batteries for vehicles, cooling plates for electric batteries for vehicles, control units, sensors and actuators on board vehicles used for controlling, monitoring, regulating and diagnosing systems, modules and components relating to the production, storage, supply and conversion of energy, as well as pollution control of vehicles, vehicle on-board computer programs and calculators and software for controlling, monitoring, regulating and diagnosing vehicle systems, modules, control units and components relating to the production, storage, supply and conversion of energy, as well as the pollution control of vehicles, electric and electronic weighing, measuring and checking apparatus and instruments used in the field of mobility, apparatus and instruments for recording, transmitting, reproducing and processing sound, images and data, apparatus for reading, recording, transmitting and reproducing data, electronic digital display devices, electronic notice boards, computerized visual display units, vehicle fuses, junction boxes [electricity] for vehicle batteries, electric control devices for energy management for vehicles, apparatus for analyzing light sources for vehicles, apparatus for analyzing light intensity variation for vehicles, apparatus for analyzing light source variation for vehicles, light source sensors for vehicles, light intensity variation sensors for vehicles, light source variation sensors for vehicles, equipment for communication via Internet link or similar equipment and data display inside the vehicle, electric, electronic or optical equipment, on board vehicles, including land vehicles, for conducting, signaling, controlling, information, safety as well as processing information and signals [sounds, images, data] relating thereto, electronic lighting and signaling management system and cameras, vehicle on-board cameras, rearview cameras for vehicles, multi-camera systems for vehicles, image processing software for in-vehicle cameras, facial analysis software, gesture recognition software, programmed software to optimize filament winding, downloadable computer security software, software for the security of computer networks and units, vehicle on-board monitoring devices and systems, enabling the detection and analysis of driver and passenger behaviors and emotions, and preventing danger and improving their driving experiences, electronic systems for controlling fuel tank filling, electronic systems for controlling hydrogen tank filling, electronic systems for controlling and monitoring the charging and performance of vehicle batteries, electronic systems for controlling and monitoring the charging and performance of vehicle fuel cells, electronic systems for controlling and monitoring the performance of high-pressure hydrogen tanks, photovoltaic energy accumulators for use in the field of mobility, photovoltaic cells used in the field of mobility, photovoltaic inverters used in the field of mobility, DC-DC converter, namely power electronics

circuit for converting a direct current source [DC] of a specific voltage level to a different level, system for activating lighting apparatus by electronic devices for reading, transmitting and processing data emitted by a vehicle, chargers for electric cars, covers for electric car chargers, dashboard indicator lights for vehicles, temperature control apparatus for batteries and fuel cells, temperature regulators for batteries and fuel cells, lighting apparatus for vehicles, lighting apparatus for vehicle decoration, vehicle headlights, lights for vehicles, position lights for vehicles, directional signal light bulbs for vehicles, anti-glare devices for vehicles [lamp fittings], anti-glare lighting systems for other drivers, lighting systems to automatically activate and deactivate high beam when approaching another vehicle, lighting systems to automatically activate and deactivate high beam when approaching a pedestrian, lighting systems to automatically activate and deactivate high beam when approaching a lit section of road, heating apparatus for defrosting vehicle windows, defrosters for vehicles, heating installations for vehicles, anti-fog heating devices for vehicles, polymerization installations, heating polymerization units, activation system for lighting, heating and drying apparatus triggered by electronic devices for reading, transmitting and processing data emitted by a vehicles, lighting for display purposes inside and outside a vehicle, vehicle dashboard bulbs, vehicles, apparatus for locomotion by land air or water, motor vehicles, motorcycles, vans, trucks, electric motor vehicles, hybrid cars, all-terrain vehicles, buses, heavy-duty vehicles, tramcars, trains, airplanes, helicopters, rotorcraft, aircraft, airships, drones, boats, ships, seaplanes, constituent parts of vehicles, parts and components for vehicles namely bodywork parts, component parts of bodyworks, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, automobile front casing, floor, shock absorber, vehicle modules, roof opening mechanisms for vehicles, structural elements for motor vehicles, aerodynamic elements for vehicles, deflector, spoiler, air guide for vehicles, grille, vehicle chassis, fuel tanks for vehicles, hydrogen tanks for vehicles, caps for vehicle gas tanks, components, component parts of vehicles, systems, vehicle control units and modules included in this class, components, component parts of vehicles, systems, vehicle control units and modules included in this class namely all parts relating to the production, storage, supply and conversion of all forms of energy on board vehicles, as well as pollution control, tanks, tubing, valves, canisters, filters and modules for pumping, gauging, filtering, pressure regulation, mechanical, thermal or chemical protection, energy conversion apparatus for vehicles, vehicle dashboards, pyrophoric substances, pyrotechnic products, pyrophoric substances, pyrotechnic products, dielectrics [insulators], non-metal tubes for dispensing coolants in batteries, non-metal tubes for the distribution of hydrogen fluids, water, air and coolants in fuel cells, tanks, not made of metal nor of masonry, non-metal hydrogen tanks, non-metal fuel tanks other than for vehicles.

Class 37:

Vehicle maintenance; vehicle lubrication [greasing]; Installing exterior, interior and mechanical parts of vehicles for personalization purposes [tuning]; vehicle washing; vehicle cleaning; vehicle polishing; repair services in the case of vehicle breakdown; anti-rust treatment for vehicles; charging of vehicle batteries; electric vehicle charging; maintenance, installation and replacement constituent parts of vehicles, parts and components for vehicles namely bodywork parts,

component parts of bodyworks, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, automobile front casing, floor, shock absorber, vehicle modules, roof opening mechanisms for vehicles, structural elements for motor vehicles, aerodynamic elements for vehicles, deflector, spoiler, air guide for vehicles, grille, vehicle chassis, fuel tanks for vehicles, hydrogen tanks for vehicles, caps for vehicle gas tanks, components, component parts of vehicles, systems, vehicle control units and modules, components, component parts of vehicles, systems, vehicle control units and modules namely all parts relating to the production, storage, supply and conversion of all forms of energy on board vehicles, as well as pollution control, tanks, tubing, valves, canisters, filters and modules for pumping, gauging, filtering, pressure regulation, mechanical, thermal or chemical protection, fuel cells for vehicles, electric batteries for vehicles, battery packs for vehicles, energy conversion apparatus for vehicles; maintenance, installation and replacement of lighting apparatus for vehicles, vehicle headlights, lights for vehicles, position lights for vehicles, directional signal light bulbs for vehicles, anti-glare devices for vehicles [lamp fittings], anti-frost heating apparatus for vehicle windows, defrosters for vehicles, heating installations for vehicles, anti-fog heating devices for vehicles, polymerization installations, heating polymerization units.

Class 38:

Telecommunications; communications by computer terminals; providing access to databases; electronic transmission of data related to land vehicles; rental of telecommunication equipment; telecommunications services for radio location and identification of land vehicles; radio, telephone communications; message transmission; providing private access to computer databases.

Class 39:

Collecting end-of-life batteries and fuel cells.

Class 40:

Treating plastics, metals, composite materials; recycling services for plastic materials; printing services; 3D printing to order for third parties; die casting services; die-casting of metals; molding of synthetic products; engraving; laser engraving; polymerization; custom manufacture of automobiles and automobile parts; recycling end-of-life fuel batteries and cells.

Class 42:

Technical planning and technical advice; work planning (engineers' services) and technical project planning; technical advice services with respect to environmental protection; industrial analysis services; industrial analysis and consultation services with respect to environmental protection and conservation; scientific and technological information and technical advice services in connection with environmental awareness; design, updating and rental of software and databases; design, development and updating of artificial intelligence software; research and development of new products for third parties; technical research and development; research and development in mechanics; research and development in physics; research and development in chemistry, bio-chemistry and electrochemistry; advice with respect to energy saving; research and development relating to environmental protection; testing of materials; research and

Class 1:
Thermal paste.

Class 2:

Paints; varnishes; lacquers; anti-rust products; colorants; dyes; printing inks; marking inks and engraving inks.

Class 4:

Oil for electric motors and engines.

Class 6:

Containers of metal for storage or transport; metal hydrogen tanks other than for vehicles; metal fuel tanks other than for vehicles; metal industrial containers for vehicle battery packaging; metal tubing [parts of engines for land vehicles]; metal tubing for dispensing hydrogen inside land vehicles; automotive metal tubing for pumping, calibration, filtering, pressure regulation, chemical, thermal or mechanical protection.

Class 7:

Machine tools; machines for painting, gluing, welding, punching, cutting and machining; spray guns for paint and distribution of glue; vulcanization, lifting and brazing apparatus, soldering apparatus included in this class, vaporization apparatus, apparatus for machining and mechanical tools for the automobile industry and the production of parts for motor vehicles; anti-pollution devices for engines; electric, pneumatic and hydraulic devices for opening vehicle doors and windows; vending machines; robots for the automotive industry and the manufacture of parts for motor vehicles; industrial presses for the manufacture of parts for motor vehicles; molds (parts of machines) for the automotive industry and for the manufacture of parts for motor vehicles; electric machines and apparatus for cleaning; sweeping machines; road construction machines, bulldozers, snow plows as well as rubber treads as parts of the tracks of such vehicles; 3D printers; compression molding machines; injection molding machines; extrusion molding machines; electricity generators; filament winding machines intended for use in the manufacture of hydrogen tanks; roof opening mechanisms for vehicles; valves, canisters, filters and modules for pumping, gauging, filtration, pressure regulation, mechanical, thermal or chemical protection; components, parts of vehicles, systems, control units and vehicle modules included in this class, namely, all parts relating to de-pollution.

Class 9:

On-board computers for vehicles; Registered on-board computer and calculator programs; software (recorded programs); artificial intelligence software; systems for detecting, processing, signaling and following stationary and moving objects around a vehicle; on-board electronic driving assistance systems; advanced driver assistance systems for vehicles, namely, adaptive cruise control, lane departure controls and alarm, blind spot detection controls and alarm, and controls and alarms reducing the risk of collisions and accidents; electronic control devices for vehicle driving assistance; autonomous and semi-autonomous driving control systems for vehicles; autonomous and semi-autonomous driving systems featuring interactive displays; electronic apparatus intended for vehicle driving assistance; computer software and computer hardware for use in relation to advanced driving assistance systems; computer software and computer hardware for controlling, operating, driving and monitoring vehicles; computer software and computer hardware enabling object detection, object classification and high-definition mapping; computer software and computer hardware for

data acquisition and data analysis; computer software and computer hardware for collecting and analyzing data generated by external sources and vehicle sensors; computer software and computer hardware for transmitting data in a vehicle and for communications between and among vehicles and a cloud platform; computer software and computer hardware enabling interaction and interfacing between vehicles and mobile devices; computer software for coordinating delivery, freight and transportation services by automated vehicles; gasoline gauges; electric control apparatus used in the field of mobility; simulators for controlling vehicles; electric monitoring apparatus used in the field of mobility; voltage regulators for vehicles; sensors; electromagnetic sensor for determining the speed, angle, distance, volume and nature of an object; radars and antennas integrated into vehicle body parts for parking assistance and driving assistance; waveguides for electromagnetic wave propagation; antennas for reception, antennas for transmission of images, sounds and data; transmitters of electronic signals; electronic signal receivers; light detection and ranging [LIDAR] apparatus for vehicles; road-marking detection apparatus; navigation apparatus for vehicles (on-board computers); electronic apparatus for vehicle parking assistance; electronic apparatus for detecting and warning of continuous or discontinuous line crossing for vehicles; electronic apparatus for detecting, recognizing and reading road traffic signs; battery modules; electric batteries; electric batteries for vehicles; battery packs for vehicles; fuel cells for vehicles; electric accumulators for vehicles; power supply units for vehicles [batteries]; containers for vehicle accumulators [batteries]; battery boxes for vehicles; cooling system for electric vehicle batteries; cooling plates for electric vehicle batteries; control units, sensors and actuators used to control, monitor, regulate and diagnose, on board vehicles, systems, modules and components relating to the production, storage, supply and transformation of energy, and the decontamination of vehicles; on-board computer and calculator programs and software for the control, monitoring, regulation and diagnosis, on board vehicles, of systems, modules, control units and vehicle components relating to the production, storage, supply and conversion of energy, and the decontamination of vehicles; electric and electronic weighing, measuring and checking apparatus and instruments used in the field of mobility; apparatus and instruments for sound, image and data recording, transmission, reproduction and processing; apparatus for reading, recording, transmitting and reproducing data; electronic devices for digital display; electronic notice boards; computerized visual display units; vehicle fuses; junction boxes [electricity] for vehicle batteries; electric control devices for energy management for vehicles; apparatus for analyzing light sources for vehicles; apparatus for analyzing light intensity variation for vehicles; apparatus for analyzing light source variation for vehicles; light source sensors for vehicles; light intensity variation sensors for vehicles; light source variation sensors for vehicles; equipment for communication via Internet link or similar equipment and for data display inside a vehicle; electric, electronic or optical equipment, on board vehicles, including land vehicles, for steering, signaling, controlling, for information, safety as well as processing of information and signals (sounds, images, data) related thereto; electronic management systems for lighting and signaling and cameras; in-vehicle cameras; vehicle reversing cameras; multi-camera systems for vehicles; image processing software for on-board vehicle cameras; facial analysis software; gesture recognition software; software

programmed to optimize filament winding; downloadable security software; software for network security and computer units; on-board vehicle surveillance devices and systems, for detecting and analyzing driver and passenger behaviors and emotions, and to warn them of danger and improve their driving experiences; electronic systems for controlling the filling of fuel tanks; electronic systems for controlling the filling of hydrogen tanks; electronic systems for controlling and monitoring the charging and performance of vehicle batteries; electronic systems for controlling and monitoring the charging and performance of vehicle fuel cells; electronic systems for controlling and monitoring the performance status of high-pressure hydrogen tanks; photovoltaic energy accumulators used in the field of mobility; photovoltaic cells used in the field of mobility; photovoltaic inverters used in the field of mobility; DC-DC converter, namely, electronic power circuits enabling the conversion of a direct current (DC) source of one specified voltage level to a different level; system for activating lighting apparatus by electronic devices for reading, transmitting and processing data emitted by a vehicle; Chargers for electric cars; charger cover for electric cars; vehicle dashboard indicator lights; apparatus for controlling the temperature of fuel batteries and cells; temperature regulators for fuel batteries and cells; energy conversion apparatus for vehicles; components, parts of vehicles, systems, control units and vehicle modules included in this class, namely, all parts relating to the production, storage, supply and conversion of any form of energy on board the vehicles.

Class 11:

Lighting apparatus for vehicles; lighting apparatus for vehicle decoration; vehicle headlights; lights for vehicles; parking lights for vehicles; light bulbs for directional signals for vehicles; anti-glare devices for vehicles [lamp fittings]; anti-glare lighting systems for other drivers; lighting systems for automatic activation and deactivation of high beam when approaching another vehicle; lighting systems for automatic activation and deactivation of high beam when approaching a pedestrian; lighting systems for automatic activation and deactivation of high beam when approaching a lit section of road; heating apparatus for defrosting windows of vehicles; defrosters for vehicles; heaters for vehicles; demisting heating apparatus for vehicles; polymerization installations; heating polymerization units; activation system for lighting, heating and drying apparatus triggered by electronic devices for reading, transmitting and processing data emitted by a vehicle; lighting for display purposes inside and outside a vehicle; vehicle dashboard bulbs.

Class 12:

Vehicles; apparatus for locomotion by land, air or water; motor vehicles, motorcycles, vans, trucks; electric motor vehicles; hybrid automobile; all-terrain vehicles; buses; heavy-duty vehicles; tramcar; trains; airplanes; helicopters; rotorcraft; aircraft; dirigible balloons (airships); drones; boats; ships; seaplanes; parts of vehicles; parts and components for vehicles namely bodywork parts, bodywork component parts, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, vehicle front casing, floor, shock absorber; modules (parts) of vehicles; structural elements for motor vehicles; aerodynamic elements for vehicles, deflectors, spoilers, air guides for vehicles; grille; vehicle chassis; fuel tanks for vehicles; hydrogen tanks for

vehicles; caps for vehicle gasoline tanks; fuel tanks (all types of fuel) for land vehicles; vehicle dashboards.

Class 13:

Pyrophoric substances; pyrotechnic products.

Class 17:

Dielectrics [insulators]; non-metal tubes for dispensing cooling fluids in batteries; non-metal tubes for dispensing hydrogen, water, air and coolants in fuel cells; non-metal flexible tubing [parts of engines for land vehicles]; non-metal flexible tubing for dispensing hydrogen inside land vehicles; non-metal automotive flexible tubing for pumping, calibration, filtering, pressure regulation, chemical, thermal or mechanical protection.

Class 20:

Tanks not of metal nor masonry; hydrogen tanks not of metal; fuel tanks, not of metal, other than for vehicles.

Class 35:

Business organization consultancy; consultancy services in business management; assistance in business management and business consulting for companies; compilation of statistical reports and market studies; computer data management; collection and systematization of data in a central file; Wholesale and retail services for the following products: thermal paste, paints, varnishes, lacquers, anti-rust products, colorants, dyes, printing inks, marking inks and engraving inks, oil for electric motors, metal containers for storage or transport, metal hydrogen tanks other than for vehicles, metal fuel tanks other than for vehicles, metal industrial containers for packaging vehicle batteries, machine tools, machines for painting, gluing, welding, punching, cutting and machining, guns for painting and dispensing glue, vulcanization, lifting, brazing apparatus, welding apparatus included in this class, vaporization apparatus, apparatus for machining and mechanical tools for the automotive industry and the manufacture of parts for automobiles, anti-pollution devices for motors and engines, electric, pneumatic and hydraulic devices for opening vehicle doors and windows, automatic vending machines, robots for the automobile industry and the manufacture of parts for automobiles, industrial presses for the manufacture of parts for automobiles, molds [parts of machines] for the automobile industry and for the manufacture of automobile parts, electric cleaning machines and apparatus, sweeping machines, road making machines, bulldozers, snow plows as well as rubber treads as parts of tracks of such vehicles, 3D printers, compression molding machines, injection molding machines, extrusion molding machines, electricity generators, filament winding machines intended for use in the manufacture of hydrogen tanks, adaptive cruise control, lane tracking controls and alarm, blind spot detection controls and alarm, and collision and accident risk controls and alarms, electronic control devices for vehicle driving assistance, autonomous and semi-autonomous driving control systems for vehicles, autonomous and semi-autonomous driving systems with interactive displays, electronic apparatus intended for use in driving vehicles, computer software and computer hardware for use in relation to advanced driver assistance systems, computer software and computer hardware for controlling, operating, driving and monitoring vehicles, computer software and computer hardware enabling object detection, object classification and high-definition

energy conversion apparatus for vehicles, vehicle dashboards, pyrophoric substances, pyrotechnic products, pyrophoric substances, pyrotechnic products, dielectrics [insulators], non-metal tubes for dispensing coolants in batteries, non-metal tubes for the distribution of hydrogen fluids, water, air and coolants in fuel cells, tanks, not made of metal nor of masonry, non-metal hydrogen tanks, non-metal fuel tanks other than for vehicles.

Class 37:

Vehicle maintenance; vehicle lubrication [greasing]; Installing exterior, interior and mechanical parts of vehicles for personalization purposes [tuning]; vehicle washing; vehicle cleaning; vehicle polishing; repair services in the case of vehicle breakdown; anti-rust treatment for vehicles; charging of vehicle batteries; electric vehicle charging; maintenance, installation and replacement constituent parts of vehicles, parts and components for vehicles namely bodywork parts, component parts of bodyworks, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, automobile front casing, floor, shock absorber, vehicle modules, roof opening mechanisms for vehicles, structural elements for motor vehicles, aerodynamic elements for vehicles, deflector, spoiler, air guide for vehicles, grille, vehicle chassis, fuel tanks for vehicles, hydrogen tanks for vehicles, caps for vehicle gas tanks, components, component parts of vehicles, systems, vehicle control units and modules, components, component parts of vehicles, systems, vehicle control units and modules namely all parts relating to the production, storage, supply and conversion of all forms of energy on board vehicles, as well as pollution control, tanks, tubing, valves, canisters, filters and modules for pumping, gauging, filtering, pressure regulation, mechanical, thermal or chemical protection, fuel cells for vehicles, electric batteries for vehicles, battery packs for vehicles, energy conversion apparatus for vehicles; maintenance, installation and replacement of lighting apparatus for vehicles, vehicle headlights, lights for vehicles, position lights for vehicles, directional signal light bulbs for vehicles, anti-glare devices for vehicles [lamp fittings], anti-frost heating apparatus for vehicle windows, defrosters for vehicles, heating installations for vehicles, anti-fog heating devices for vehicles, polymerization installations, heating polymerization units.

Class 38:

Telecommunications; communications by computer terminals; providing access to databases; electronic transmission of data related to land vehicles; rental of telecommunication equipment; telecommunications services for radio location and identification of land vehicles; radio, telephone communications; message transmission; providing private access to computer databases.

Class 39:

Collecting end-of-life batteries and fuel cells.

Class 40:

Treating plastics, metals, composite materials; recycling services for plastic materials; printing services; 3D printing to order for third parties; die casting services; die-casting of metals; molding of synthetic products; engraving; laser engraving; polymerization; custom manufacture of automobiles and automobile parts; recycling end-of-life fuel batteries and cells.

Class 42:

Technical planning and technical advice; work planning (engineers' services) and technical project planning; technical advice services with respect to environmental protection; industrial analysis services; industrial analysis and consultation services with respect to environmental protection and conservation; scientific and technological information and technical advice services in connection with environmental awareness; design, updating and rental of software and databases; design, development and updating of artificial intelligence software; research and development of new products for third parties; technical research and development; research and development in mechanics; research and development in physics; research and development in chemistry, bio-chemistry and electrochemistry; advice with respect to energy saving; research and development relating to environmental protection; testing of materials; research and development of systems, modules, components, computer programs and software for vehicles; research and development in the field of reducing vehicle weight and emissions; research and development of sensors, particularly electromagnetic sensors for determining the speed, angle, distance, volume and nature of an object; research and development of radars and antennas integrated into vehicle body parts for parking assistance and driving assistance; research and development of actuators, and control units; research and development of tooling and production lines for the automotive industry; research and development of vehicle dashboard indicators; research and development of temperature control apparatus for fuel batteries and cells; research and development of temperature regulators for fuel batteries and cells; technical advice on product development, manufacturing devices, control devices, fuel system control; technical advice in relation to controlling the filling process of fuel system tanks, measurement of fuel system emissions and vehicles as well as spare parts of the fuel system; research and development of vehicle component parts, parts and components for vehicles namely bodywork parts, bodywork component parts, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, vehicle front casing, floor, shock absorbers, vehicle modules, roof opening mechanisms for vehicles, structural elements for motor vehicles, aerodynamic elements for vehicles, deflector, spoiler, air guide for vehicles, radiator grille, vehicle chassis, fuel tanks for vehicles, hydrogen tanks for vehicles, caps for vehicle gas tanks, vehicle dashboards; research and development of vehicle components, component parts, systems, control units and modules; research and development of components, component parts of vehicles, systems, vehicle control unit and modules namely all parts relating to the production, storage, supply and conversion of all forms of energy on board vehicles, as well as pollution control; research and development of tanks, tubing, valves, canisters, filters and modules for pumping, gauging, filtering, pressure regulation, mechanical, thermal or chemical protection; research and development of fuel cells for vehicles, electric batteries for vehicles, battery packs for vehicles, battery modules and electric batteries; research and development of energy conversion apparatus for vehicles; research and development of lighting apparatus for vehicles, lighting apparatus for vehicle decoration, vehicle headlights, lights for vehicles, position lights for vehicles, directional signal light bulbs for vehicles, anti-glare devices for vehicles [lamp fittings], anti-glare lighting systems for other drivers, lighting systems to automatically activate and
