instruments, namely, instruments for gathering, measuring and processing data for use in the fields of artificial intelligence, deep learning, machine learning, distributed computing, high performance computing, virtualization, natural language generation, statistical learning, supervised learning, data mining, unsupervised learning, and predictive analytics; software development tools; simulation, modeling and data processing software and hardware for use in data visualization, data analysis, data interpretation, data mining, predictive analytics, accessing and editing large-scale data, interactive visual computing, design of information graphics, video streaming, maximizing graphics processing and performance; electronic computing software platform for self-driving and autonomous vehicles; computer hardware and software for vehicle components for the purpose of vehicle navigation, travel and trip planning and communication with vehicles.

Class 38:

Electronic transmission of data and messages; telecommunication services, namely, local and long-distance transmission of data; telecommunication services, namely, transmission of voice, graphics and video by means of wired and wireless networks; telephony communication services; streaming and live streaming of video, audiovisual, and interactive audiovisual content via the internet; teleconferencing services; providing access to computer, electronic and online databases; telecommunications services, namely, electronic transmission of data, messages, graphics, images, audio, video and information; communications by computer networks; electronic exchange of voice, data, audio, video, text and graphics accessible via computer and telecommunications networks; digital and satellite transmission; transmission of data between linked computer systems by on-board wireless and satellite data networks; computer transmission of communications, sounds and images; communications by computer terminals; transmission of information by data communications for assisting decision making.

Class 42:

Software as a service; platform as a service; scientific research and technological services; providing online non-downloadable software; development and design of interactive websites; providing online non-downloadable software for data management, especially software for stream data management, real-time data management, adaptive data exchange, data indexing, geo-temporal data indexing, distributed data management, distributed data synchronization as well as temporal data synchronization; providing online non-downloadable software for detecting, disabling, and targeting moving targets; advanced product research in the field of artificial intelligence; providing non-downloadable artificial intelligence software; providing non-downloadable interactive software based on artificial intelligence; providing non-downloadable artificial intelligence software for processing real-time data for predictive analytics; providing non-downloadable artificial intelligence software for use in tactical decision support systems; providing non-downloadable artificial intelligence software for training personnel in strategic operations; providing non-downloadable artificial intelligence simulator-software for air combat training; providing non-downloadable software for storage, management and network management of digital media and enhancement of graphical and video display; providing

Class 4:

Electrical energy; electrical energy produced from solar energy; electrical energy produced from renewable sources; electrical energy produced from photovoltaic installations converting solar radiation to electrical energy; biofuels; carburants; fuels.

Class 7:

Electricity generators; current generators; generators of electrical energy produced from solar energy; generators of electrical energy produced from renewable sources; generators for electric power produced by photovoltaic installations converting solar radiation to electrical energy; dynamos; electric motors other than for land vehicles.

Class 9:

Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; measuring, signaling and checking (supervision) apparatus and instruments for monitoring the consumption and distribution of domestic, residential or professional consumption of electricity; electric accumulators; electric actuators; electric collectors; energy regulators; electric apparatus for commutation; electrical condensers [capacitors]; electricity conduits; connectors [electricity]; electric converters; electric checking and measuring apparatus; distribution boards and control panels [electricity]; transformers [electricity]; distribution boxes [electricity]; terminals [electricity]; charging stations for electric vehicles; chargers for electric accumulators; solar panels for electricity production; photovoltaic cells, modules inverters and batteries; photovoltaic apparatus and installations for producing electricity; photovoltaic installations; photovoltaic installations producing electrical energy; photovoltaic apparatus and installations converting solar radiation to electrical energy; meteorological instruments; photovoltaic apparatus and installations for solar electricity production; automatic solar tracking sensors; solar energy collectors for electricity generation; electronic sensors for measuring solar radiation; solar batteries for industrial and domestic use; downloadable software and software applications; recorded or downloadable software platforms; software applications for mobile telephones; mobile applications and software platforms enabling online management of energy.

Class 11:

Thermal conversion solar sensors [heating]; thermal-conversion solar collectors [heating]; industrial solar furnaces; heat regenerators; thermal storage apparatus for heating [solar energy]; solar cell lighting apparatus.

Class 35:

Advice regarding business management; market studies and research in the field of energy distribution; market analysis, studies and canvassing in the field of photovoltaic installations; cost price analysis; business appraisal; provision of business information; providing commercial information and advice for consumers with respect to energy distribution; economic advice and information on the consumption of electric or non-electric energy, particularly with conducting tariff simulations and consumption forecasts; economic forecasting; negotiation and conclusion of commercial transactions for others; cost price analysis in the field of energy distribution; computer file management in the field of energy distribution; compiling information in a central file in the field of energy distribution; economic forecasting in the field of energy distribution; public relations in the field of energy distribution; commercial promotion, in particular commercial promotion in the field of photovoltaic installations and electricity production; retail and wholesale services for photovoltaic installations; commercial intermediary services in the context of matching various professionals with customers; commercial project management services in the framework of construction projects; cost analysis service with respect to energy distribution.

Class 36:

Financial transaction services with respect to energy, electrical energy, natural gas; financial operations; real-estate operations;

**List of cases accepted for opposition purposes as shown in Journal 2025/034 published on

financial analysis; financing services; loans (financing); preparation of quotes for cost estimation purposes; financing services for renewable energy projects; advice relating to energy project financing; provision of financial information; leasing of farms; organization of financing for construction projects.

Class 37:

Installation, renovation, servicing, repair and maintenance of apparatus for measuring and controlling energy; construction, servicing and repair of solar energy installations; installation, restoration, repair and maintenance of electric wiring; interference suppression in electrical installations; services provided by electricians; construction and maintenance services relating to civil engineering; provision of information with respect to construction; building (construction) supervision; installation, servicing, maintenance, reconditioning and repair of photovoltaic installations and apparatus; installation, servicing, maintenance, reconditioning and repair of installations for renewable energy production; installation and servicing of electric recharging points; electric vehicle charging; construction of buildings intended for accommodating photovoltaic installations; construction of photovoltaic installations; installation, maintenance and repair of photovoltaic installations converting solar radiation to electrical energy; installation of residential and non-residential solar panel energy systems; earth moving services; installation of utilities in construction sites; installation of electric boards for photovoltaic installations; construction project management [construction work supervision] in the field of photovoltaic installations by master builders; roofing works for building intended for hosting photovoltaic installations converting solar radiation to electrical energy.

Class 39:

Distribution of energy; electricity distribution; distribution of energy and electricity produced from solar energy; distribution of energy and electricity generated from photovoltaic installations or power plants converting solar radiation to electrical energy; supply of energy and electricity; supply of energy and electricity produced from photovoltaic installations and power plants converting solar radiation to electrical energy; storage of energy and electricity; storage of energy and electricity produced from photovoltaic installations or power plants converting solar radiation to electrical energy; distribution of electricity to domestic, residential and professional end customers; electricity transportation services.

Class 40:

Production of electricity; production of energy; production of renewable green energy; production of electricity from solar energy; production of electricity from photovoltaic installations or power plants converting solar radiation to electrical energy; rental of photovoltaic power plants or installations; rental of electricity generators; manufacture of photovoltaic power plants or installations; upcycling (waste recycling); operation of photovoltaic installations converting solar radiation to electrical energy.

Class 42:

Conducting of technical project studies; advice with respect to energy saving; construction drafting; research and development with respect to photovoltaic installations or power plants; research and development with respect to the production of

electricity and the production of electricity from solar energy; research and development with respect to the production of electricity from the conversion of solar radiation; design and development of photovoltaic installations and power plants; advice, research and planning with respect to ecology; advice, research and planning with respect to energy transition; energy auditing; energy transition audits; environmental impact study; providing geographic information; geological prospecting; geotechnical investigations; environmental engineering; surveying [engineering work]; meteorological information services; research in the field of environmental protection and conservation and climate change; provision of meteorological information; Design of photovoltaic solar systems; design and development of software for controlling, adjusting and controlling solar energy systems; design and development of software architecture; development of software application solutions; temporary provision of non-downloadable software applications accessible via a website; computer Platform as a Service [PaaS]; Software as a Service [SaaS] being software for online energy management; design, programming, adaptation, maintenance and updating of computer software and platforms in the field of energy management; management of construction projects by design offices [planning, design and establishment of construction plans].

Class 44:

Agriculture, aquaculture, horticulture and forestry services; tree planting for carbon offsetting purposes; cultivation of plants; reforestation services; viticulture services; weed killing; vermin exterminating in agriculture, aquaculture, horticulture and forestry; aerial and surface spreading of fertilizers and other agricultural chemicals; pest control services for agriculture, aquaculture, horticulture and forestry; rental of farming equipment; aerial and surface spreading of fertilizers and other agricultural chemicals.

Class 45:

Legal assistance for drafting contracts with respect to electricity; legal assistance for drafting contracts with respect to electricity produced from solar energy; legal assistance for drafting leases, in particular leases relating to photovoltaic installations or power plants; legal assistance in drafting and tracking the procurement of building permits; legal services in relation to contract negotiation for third parties; legal research in the field of environmental protection; audit services for legal compliance purposes; audit services for regulatory compliance purposes.
