GRINYL

Class 1:
Industrial chemicals; polymeric intermediates; unprocessed
plastics; synthetic resins, unprocessed; adhesives for use
in industry; unprocessed plastic in the form of powder or
granules; polymers for use in production; thermoplastic
resins [unprocessed]; plastics, in particular polyketones,
polyamides or polyolefins, in the form of melts, chips,
rods, solutions, liquids, emulsions, dispersions, pellets,

powders, pastes, monofilaments, sheets, tubes and granules,
all for industrial uses [plastics in the raw state]; plastics, in
particular polyketones or polyolefins [plastics in the raw state];
polyketones; polyolefins; polyamides.

Class 17:
Plastics in extruded form for use in manufacture; injection
moulding plastics; plastic substances, semi-processed; semi-
worked plastic substances; resins in extruded form; synthetic
resins, semi-processed; semi-processed synthetic polymer
resins; semi-processed plastics, resins, polymers or synthetic
fibres other than for textile use; extruded plastic in the form
of bars, blocks, pellets, rods, sheets and tubes for use in
manufacturing; synthetic fibers, not for use in textiles; flexible
hoses, not of metal; extruded plastics in the form of pellets
for use in manufacture; semi-processed plastics, namely
polyketones, polyamides or polyolefins in the form of rods,
blocks, sheets, rods, filaments, monofilaments, ropes, tubes,
cylinders, plates, sheets and moldings for use in manufacture.

International priority date claimed: 15 May 2024 (CH)
(819161)

Class 6:
Metal valves, metal pipework, brackets and "T" parts, couplings and other metal junctions for pipes and tubes, metal junctions, metal sleeves, metal flanges (collars), metal plugs, metal pipe joints, metal clips for pipes, metal hand wheels, metal compression junctions; metal valves, metal pipes, brackets and "T" parts of pipe junctions, coupling junctions and other metal junctions for tubes and pipes, metal sleeves, metal flanges (collars), metal plugs, metal pipe joints, metal clips for pipes, metal compression junctions.

Class 7:
Valves (parts of machines); electric, electric-motor-driven, electrothermal and electromechanical valve controls; valves included in this class, namely valves being parts of pumps, pump control valves, valves (parts of machines), thermostatic control valves for machines; valves (machine components); actuators included in this class, namely pneumatic valve actuators, hydraulic valve actuators and linear actuators.

Class 9:

*List of cases accepted for opposition purposes as shown in Journal 2025/034 published on
22 August 2025 .*

Temperature sensors filled with wax, liquid or gas and temperature sensors with bimetal elements; electric valve actuators, powered by an electric, thermoelectric and thermomechanical engine; electronic control devices and timers for valve actuators; thermostatic actuators for valves; room thermostats; temperature sensor membranes; electric valve actuator membranes; capillary tubes with temperature sensor and capillary tubes with electric valve actuators; electric control systems and electric actuators for this purpose; electronic regulators and electronic timers for valve control; capillary membranes and tubes for control systems; room thermostats, temperature indicators with elastic, liquid or steam-filled elements or bimetal elements; wireless transmitters and receivers; wireless communication apparatus and instruments; automated control devices for energy management; automation, command, control and monitoring apparatus, systems and instruments, namely computer software for satellite communication and telecommunication and computer software for wireless content transmission and for wireless network communication for HVAC (heating, ventilation and air conditioning) systems communication; domestic energy management systems; heat regulating apparatus; climate control systems; thermostats; downloadable application software; application software for managing and controlling domestic energy management systems; application software for managing and controlling HVAC (heating, ventilation and air conditioning) systems; energy control devices; application software for wireless devices; application software for temperature control; application software for controlling thermostats; energy management software; electrical control devices for energy management; apparatus (monitoring apparatus) for controlling energy consumption; electric actuators.

Class 11:

Parts for heating, steam generating, cooking, refrigerating, drying, ventilating installations, water pipes and for sanitary installations, namely fittings, one-way and multi-way valves, balancing valves, pressure reducing valves, volume control valves, valve parts, thermostat-controlled metal valves, thermostat superstructures for valves, shut-off valves and multi-way valves, fittings; thermostatically controlled thermal control valves being parts of domestic and commercial sanitary and heating installations; thermostatically controlled thermal control valves for domestic and commercial hot water systems as well as for domestic and commercial heating control systems; none of the aforementioned being for industrial use; parts of installations for heating, steam generating, cooking, refrigerating, drying, air conditioning, drinking water and sanitary installations, namely valves, pressure control valves, shut-off valves, flow control valves, valve parts, valve stems, valve regulators, thermostat-controlled metal valves, valve actuators, thermostatic valve actuators and taps, pipe joints, hand wheels and clamp connectors therefor, regulating systems and actuators therefor; thermostatic radiator valves; temperature limiters for central heating radiators, equipped with bimetal elements [thermostatic taps]; spherical ball valves; underfloor heating apparatus and installations.

Class 37:

Repair, maintenance and installation of control valves; repair, installation and maintenance of domestic energy management systems; repair, installation and maintenance services with respect to apparatus for heating, refrigerating, ventilating,

supply and distribution of water, temperature adjustment, lighting, energy supply, air conditioning and security systems in buildings; installation of energy-efficient apparatus; information, advisory and consultancy services with respect to the repair, installation and servicing of climate control systems and HVAC (heating, ventilation and air conditioning) systems.

Class 42:

Providing information and advice as well as consultant services with respect to energy saving, energy management and energy efficiency; consultant services in the field of energy efficiency; design and development of energy management software; energy auditing; engineering services in the field of energy technology; technological analyses and energy audits with respect to energy consumption in buildings.

photometric analyzers (other than for medical use); sensors, detectors and monitoring instruments; autonomous driving control systems for vehicles; automatic altitude indicators; data loggers and recorders; low power microcontrollers; liquid level switches; level switches; wind pressure gauges; apparatus for measuring, monitoring and analyzing electricity consumption; load cells; airborne data acquisition instruments; testing apparatus for diagnostic purposes, not for medical purposes; luminous indicators; stroboscopes; home automation systems; switchboard indicating lamps; scientific research and laboratory apparatus, educational apparatus and simulators; weather information apparatus; teaching apparatus; teaching and instructional apparatus; electronic sports training simulators; electronic sports training simulators (computer hardware and software-based teaching apparatus); electronic collars to train animals; electronic instructional and teaching apparatus and instruments; digital weather stations; diagnostic apparatus for testing food; Virtual Reality (VR) motion simulators.

Class 11:

Apparatus and installations for lighting, heating, steam generating, cooking, cooling, refrigerating, drying, ventilating, water supply and sanitary purposes; cooling and refrigerating appliances and devices belonging to this class; refrigerating apparatus and installations; refrigerators; refrigerating cabinets; refrigerating display cabinets; electric wine coolers; freezers; chest freezers; freezer cabinets, upright freezers; fridge-freezers, combination refrigerator-freezers; ice makers; ice chests; ice boxes, electric cool boxes; cooking appliances, apparatus and installations; cooking stoves, cookers, household stoves; multicookers; hot plates, plate warmers; kitchen ranges; kitchen ranges (ovens); electric, gas and combined cookers; ovens; built-in ovens; hot air ovens; steam ovens; structural plates for ovens, framework of metal for ovens; cooking rings, hobs, cooking plates; induction, glass ceramic and combined cooking hobs; portable induction hobs; steam cookers; warming drawers for kitchens; microwave ovens (cooking apparatus); egg cookers; extractor hoods for kitchens; cooker hoods, range hoods; ventilation hoods; rotisseries; griddle plates; barbecues; grills (cooking appliances), griddles (cooking appliances); contact grills; toasters, bread toasters; bread baking apparatus, bread-making machines; roasting apparatus; electric waffle irons; pressure cooking saucepans, electric; electric deep fryers; roasters; coffee machines; electric coffee brewers; electric coffee percolators, electric coffee machines; food driers; electric oil presses; electric appliances for making yogurt; electric laundry driers, tumble driers (heat driers); drying apparatus; desiccating apparatus; hair driers; hand drying apparatus for washrooms; electric boilers; electric kettles; water heaters (apparatus); electric water heaters; gas fired water heaters; gas boilers; boilers; boilers for hot water supply installations; hot water tanks; boilers other than parts of machines; pellet boilers; log boilers; heat pumps; air conditioning apparatus; ventilating fans; ventilators (parts of air-conditioning installations); fans (air-conditioning); air purifying apparatus and machines; air sterilisers; water purifying apparatus and machines; water sterilizers; air humidifying installations; air humidifiers (ionizers); dehumidifiers; solar thermal collectors (heating), solar heating panels; radiators (heating); electric radiators; bathroom tubular radiators; fan heaters; toilets (water closets); toilet bowls; toilet seats; urinals (sanitary fixtures); wash-hand basins (parts of sanitary installations), wash-hand bowls (parts of sanitary installations); bidets; bath tubs; bath tub

panels; massage bath installations, spa baths (vessels); bath screens, bathtub enclosures; showers; shower bases; shower enclosures, shower cubicles; massage shower cabins, massage showers (massage shower panels); taps (faucets); bath fittings; bath linings; parts and fittings of the afore-mentioned goods belonging to this class.

Class 35:

Advertising, marketing and promotional services; publication of publicity materials; publication of advertising matter; issuing and updating of advertising texts; advertisement for others on the Internet; advertising automobiles for sale by means of the Internet; information services relating to advertising; distribution of advertising, marketing and promotional material; digital marketing; targeted marketing; provision of information relating to advertising; provision of information relating to marketing; direct marketing advertising; direct marketing; referral marketing; placing advertisements for others; placing of advertisements; planning of marketing strategies; marketing services in the field of web site traffic optimization; modelling for advertising or sales promotion; merchandising; classified advertising; updating of advertising material; production of advertising material; consumer profiling for commercial or marketing purposes; marketing services; advertising; publicity services; advertising agency services; advertising services relating to public works; advertising and publicity offers; response advertising; estimations for marketing purposes; evaluating the impact of advertising on audiences; publication of publicity texts; publication of publicity materials and texts; publication of advertising texts; publication of publicity materials on-line; providing advertising services; provision of advertising space, time and media; advertising services relating to in vivo imaging products; advertising services relating to pharmaceutical products; advertising services relating to the commercialization of new products; advertising services relating to the sale of goods; advertising services relating to in vivo imaging apparatus; advertising services relating to the motor vehicle industry; advertising services relating to newspapers; advertising services relating to the transport industries; advertising services relating to real property; advertising services relating to the provision of business; advertising services relating to financial investment; advertising services relating to databases; advertising services relating to books; advertising services relating to the sale of motor vehicles; advertising services relating to motor vehicles; advertising services relating to the recruitment of personnel; advertising services relating to the sale of personal property; advertising services by means of television screen based text; advertising services on the internet: advertising particularly services for the promotion of goods; advertising services relating to the travel industries; advertising services by means of text on the television screen; advertising services provided via the internet; advertising services provided via a database; advertising services provided by a radio and television advertising agency; advertising of the goods of other vendors, enabling customers to conveniently view and compare the goods of those vendors; advertising, marketing and promotional consultancy, advisory and assistance services; advertising services to create brand identity for others; advertising services to promote public awareness of environmental matters; advertising services to promote public awareness in the field of social welfare; advertising services to promote public awareness of medical issues; advertising services to promote public awareness of social

List of cases accepted for opposition purposes as shown in Journal 2025/034 published on 22 August 2025 .

issues; advertising services for the literary industry; advertising services to promote the sale of beverages; advertising for others; advertising services to promote public awareness of environmental issues and initiatives; advertising services to promote public awareness of medical conditions; advertising services to create corporate and brand identity; advertising services to promote public awareness of the benefits of shopping locally; advertising services for architects; advertising services provided for florists; advertising services for the promotion of electronic commerce; advertising services for the promotion of beverages; advertising services relating to esports events; advertising services relating to the marine and maritime industry; advertising services relating to hotels; advertising services relating to cosmetics; advertising services relating to jewelry; advertising services relating to perfumery; advertising in the popular and professional press; advertising in periodicals, brochures and newspapers; advertising of the services of other vendors, enabling customers to conveniently view and compare the services of those vendors; banner advertising; advertising by transmission of on-line publicity for third parties through electronic communications networks; advertising through all public communication means; advertisement via mobile phone networks; advertising services provided via the internet; advertising via electronic media and specifically the internet; advertising particularly services for the promotion of goods; advertising of business web sites; pay per click advertising; advertising via electronic media, particularly via the internet; advertising in the field of tourism and travel; electronic billboard advertising; advertising of commercial or residential real estate; advertising of cinematographic films; advertising of cinemas; advertising the goods and services of online vendors via a searchable online guide; search engine optimisation; advertising services for the promotion of e-commerce; advertising services for promoting the brokerage of stocks and other securities; advertising services relating to financial investment; advertising services relating to pharmaceuticals for the treatment of diabetes; advertising services relating to travel; advertising services by means of sandwich boards; advertising and promotion services and related consulting; advertising particularly services for the promotion of goods; cinema advertising; advertising in the field of telematic and telephone networks; advertising, including on-line advertising on a computer network; advertising, including promotion of products and services of third parties through sponsoring arrangements and licence agreements relating to international sports' events; advertising relating to transport and delivery; advertising services relating to financial services; advertising relating to pharmaceutical products and in-vivo imaging products; business promotion services provided by audio/visual means; business advertising services relating to franchising; organization of fashion parades for sales promotion purposes; organizing of prize draws for promotional purposes; organizing of prize draws for advertising purposes; arranging and conducting marketing promotional events for others; business marketing services; business promotion; affiliate marketing; arrangement of advertising; arranging of advertising in cinemas; arranging of product launches; lead generation services; presentation of companies on the Internet and other media; presentation of companies and their goods and services on the Internet; post-production editing of advertising or commercials; mediation of advertising; sales promotion for third parties; sales promotion for others; sales promotion for others through trading stamp schemes; sales promotion using audiovisual media; sales promotions at point of purchase or

sale, for others; promoting the sale of fashion goods through promotional articles in magazines; promoting the sale of goods and services of others through promotional events; sales promotion; updating of advertising information on a computer database; sales promotion services; sales promotion services for others; arranging of competitions for advertising purposes; arranging of presentations for advertising purposes; arranging and conducting of marketing events; arranging and conducting of promotional events; arranging and conducting of advertising events; promoting the goods and services of others; production of advertising material; computerized business promotion; promotional advertising provided by telephone; promotion services relating to esports events; promotional services provided by telephone; promotion services; business promotion; promotion of insurance services, on behalf of third parties; promoting the artwork of others by means of providing online portfolios via a website; online advertising on a computer network; web indexing for commercial or advertising purposes; on-line advertising and marketing services; on-line promotion of computer networks and websites; advertising and publicity services; advertising and marketing services provided via communications channels; advertising and marketing services provided by means of social media; advertising and marketing; advertisement and publicity services by television, radio, mail; publicity and sales promotion services; media buying services; classified advertising; digital advertising services; online community management services being outsourcing services in the field of customer relationship management; online member-based community media brand marketing services; marketing services relating to esports events; telemarketing services; telephone marketing services (not selling); brand strategy services; promotional marketing services using audiovisual media; trade promotional services; product demonstrations and product display services; loyalty, incentive and bonus program services; advertising, promotional and public relations services; market campaigns; influencer marketing; marketing through product placement for others in virtual environments; marketing in the framework of software publishing; internet marketing; marketing by telephone; real estate marketing; product marketing; event marketing; marketing the goods and services of others; trade show and commercial exhibition services; trade marketing (other than selling); product sampling; brand testing; blogger outreach services; services with regard to product presentation to the public; corporate identity services; brand creation services; brand creation services (advertising and promotion); online advertising network matching services for connecting advertisers to websites; layout services for advertising purposes; editing of publicity texts; bill-posting; compilation of statistics relating to advertising; collection of information relating to advertising; provision of information relating to marketing; design of marketing surveys; providing marketing information via websites; providing searchable online advertising guides; providing business marketing information; provision of information relating to advertising; providing user reviews for commercial or advertising purposes; provision and rental of advertising space, time and media; arranging advertising contracts for others; arranging advertising and promotional contracts for others; arranging and placing of advertisements; administration of incentive award programs to promote the sale of the goods and services of others; administration of contests for advertising purposes; market prospecting; provision of information relating to marketing.

Class 38:

Telecommunication services; audio communications services; audiovisual communication services; automatic transfer of digital data using telecommunications channels; wireless communications services; wireless broadband communication services; electronic communications services; electronic communication services for preparing financial information; electronic communication services for transmission by means of aerials; communication services for the electronic transmission of data; electronic communication services for transmission by means of cables; delivery of messages by audiovisual means; delivery of messages by electronic media; delivery of messages by audiovisual media; delivery of digital audio and/or video recordings by telecommunications; charitable services, namely telecommunication services; digital transmission of data via the Internet; digital transmission of data; digital transmission of voice; digital communications services; remote transmission of data by means of telecommunications; remote transmission of audio signals by means of telecommunications; time sharing services for communications apparatus; communication of information by satellite; communication of information by electronic means; cable transmission of sounds, images, signals and data; communication services by cable; interactive transmission of video over digital networks; interactive video text services; interactive telecommunications services; interactive communication services; information services relating to electronic communication networks; information services relating to telecommunications; information relating to communications; information and advisory services relating to telecommunication services; geolocation services (telecommunications services); communication services provided electronically; transmission of sound by electronic means; electronic transmission of instant messages and data; electronic transmission of messages and data; services for the electronic transmission of images; electronic transmission of written communications; electronic transmission and retransmission of sounds, images, documents, messages and data; services for the electronic transmission of voices; electronic network communications; electronic communications services relating to credit card authorization; data communication by electronic means; packet transmission of data and images; optical fibre telecommunications services; network transmission of sounds, images, signals and data; network conferencing services; remote transmission of audio signals by means of telecommunications; providing facilities and equipment for video conferencing; providing video conferencing services; provision of telecommunications connections for telephone chat lines; provision of wireless application protocol services including those utilising a secure communications channel; provision of broadband telecommunications access; satellite capacity provision (telecommunications); provision of reports relating to communications; provision of communications facilities for the interchange of digital data; provision of communications facilities for interchange of electronic data; providing communication services through the use of phone cards or debit cards; providing information relating to wireless communication; providing information about telecommunication; information services about telecommunication; providing high speed access to computer and communication networks; providing electronic telecommunication connections; providing access to electronic communications networks and electronic databases;

communication services for the electronic transmission of voices; communication services for the transmission of information; communication services for the electronic transmission of images; communication services for the delivery of emergency messages; communication services for the electronic transmission of data; communication services for the transmission of information by electronic means; telex message communication services; communication services by satellite; communications services; communications services for the exchange of data in electronic form; communications via multinational telecommunication networks; communications by television for meeting; peer to peer communication; communication by hertzian wave; communication by electronic media; communication of data by means of telecommunications; communication by electronic means; communication of information by electronic means; electronic and telecommunication transmission services; telecommunications access services; digital transmission services for audio and video data; digital transmission services; reception of television programs for onward transmission to subscribers; on-line information services relating to telecommunications; satellite transmission of sound; satellite transmission of sounds, images, signals and data; sound and picture transmission via satellite; transmission of data, sound and images via satellites; satellite transmission; telecommunication services by satellite; communication services by satellite; computer-aided transmission of text; computer-aided transmission of sound; communications by computer and providing access to the Internet; transmission of sound, video and information; transmission of sound via interactive multimedia networks; transmission of sound via satellite; transmission of sound or visual recordings over networks; transmission of sound and vision via satellite or interactive multimedia networks; video transmission via digital networks; transmission of video films; relaying of television programs by extra-terrestrial satellite; transmission of messages, data and content via the Internet and other communications networks; transmission of location-based messaging; transmission of messages and images; message sending; transmission of vision via interactive multimedia networks; transmission of pictures by satellite; signal transmission for electronic commerce via telecommunication systems and data communication systems; transmission of encrypted communications; transmission of dispatches by electronic means; transmission of data, sound and images via satellites; satellite transmission of data, sound and images; data transmission for others; transmission of data, messages and information; transfer of data by telecommunications; transmission of data via satellite; transmission of data by communications satellite; transfer of data by telecommunications; data transmission; electronic transmission of written communications; transmission of news and current affairs information; transmission of short messages (SMS), images, speech, sound, music and text communications between mobile telecommunications devices; transmission of short messages; transmission of coded messages and images; transmission of information for business purposes; transmission of information for domestic purposes; transmission of information by data communications for assisting decision making; transmission of information through video communication systems; transmission of information via national and international networks; transmission of information by electronic communications networks; transmission of information

List of cases accepted for opposition purposes as shown in Journal 2025/034 published on 22 August 2025 .

on optical telecommunication networks; transmission of information in the audiovisual field; transmission of database information via telecommunications networks; transmission and reception (transmission) of database information via the telecommunication network; transmission of audio and video content via satellite; transmission of interactive television program guides; transmission of news items to news reporting organizations; sending of telegrams; message sending, receiving and forwarding; sending (transmission) of news; information about telecommunication; retransmission of images via satellite; data communication services accessible by password; data communication services accessible by access code; telecommunications services, namely, personal communication services; telecommunication services by satellite; telecommunications services provided via fiber optic, wireless and cable networks; air to ground telecommunications services; telecommunications services provided by means of optical fibre networks; telecommunications services between computer networks; telecommunications services using cellular radio networks; telecommunications services for aircraft passengers; telecommunications services for the distribution of data; telecommunications services to obtain information from data banks; digital network telecommunications services; telecommunication of information (including web pages); telephone and mobile telephone services; electronic communications consultancy; telecommunications consultancy; advisory services relating to communications equipment; communication network consultancy; consultancy in the field of telecommunications; information, consultancy and advisory services relating to telecommunications; consultancy services relating to data communications; advisory services in the field of telecommunications; consulting services in the field of electronic communications; advisory and consultancy services relating to wireless communications and wireless communications equipment; professional consultancy relating to telecommunications; professional consulting services relating to telecommunications; communication services provided electronically; services for the electronic transmission of information; services for the electronic transmission of images; services for the electronic transmission of documents; videoconferencing services; video transmission services; video communication services; secured data, sound and image transmission services; audiotext services; message services; telecommunications routing and junction services; telecommunication network services; telecommunications access services; optical fibre telecommunications services; wide band radio communication services; satellite video conferencing services; communication services by satellite; satellite communication services; satellite communication services for business users; data transmission; data transmission services over telecommunications networks; services of data transmission over telecommunications network; information transmission services via digital networks; data transmission and reception services via telecommunication means; voice and data transmission services; television screen based text transmission services; information transmission services via digital networks; message sending services; message sending and receiving services; unified messaging services; video uploading services; photo uploading services; mobile media services in the nature of electronic transmission of entertainment media content; mobile telecommunication network services; value added network (communication) services; communication services by cable; interactive broadcasting and communications services; electronic and

telecommunication transmission services; message collection and transmission services; provision of telecommunication connections for data centers; provision of communications facilities for the interchange of digital data; providing electronic telecommunication connections; providing of access to telecommunication warehousing services; providing access to telecommunication networks; providing wireless telecommunications via electronic communications networks; virtual chatrooms established via text messaging; video transmission services; video communication services; secure transmission of data, sound or images; telecommunications routing and junction services; operation of telecommunications satellites; operation of a telecommunications network; operation of telecommunications systems; operation of wide-band telecommunications networks; operating of electronic communications networks; operating of electronic communications systems; teleconferencing and video conferencing services; telecommunications routing and junction services; telecommunications services relating to electronic commerce; provision and rental of telecommunications facilities and equipment; rental of telecommunication equipment; providing third party users with access to telecommunication infrastructure; provision of teleconferencing facilities; provision of teleconferencing facilities for educational purposes; provision of telecommunication facilities for educational purposes; provision of telecommunication facilities; providing access to telecommunication infrastructure to third party users.

Class 40:

Custom manufacture and assembly services; custom assembling of electronic components for communication devices; custom manufacture of elastomeric components; custom manufacture of thermoplastic components; custom manufacture of semiconductor circuits; custom manufacture of semiconductor components, devices and circuits; custom manufacture of communication devices for others; 3D reproduction services; custom assembling of materials for others; assembly of products for others; air and water conditioning and purification; water purification; air freshening; air purification.

Class 42:

IT services; computer project management services; IT project management; administration of user rights in computer networks; server administration; IT service management (ITSM); administration of mail servers; remote server administration; providing search engines for the Internet; search engine operation; technological services relating to computers; technological research relating to computers; technical research relating to computers; technical research in the field of computer vision; internet security consultancy; advisory and information services relating to computer peripherals; IT consultancy, advisory and information services; computer network services; computer diagnostic services; computer design and programming services; data migration services; data duplication and conversion services, data coding services; computer network configuration services; hosting services, software as a service, and rental of software; digital watermarking; monitoring of computer system operation by remote access; development of systems for the storage of data; development of systems for the transmission of data; development of systems for the processing of data; development of computer systems; development of computer based networks; computer hardware development; development

List of cases accepted for opposition purposes as shown in Journal 2025/034 published on 22 August 2025 .

of computers; software development, programming and implementation; development and testing of computing methods, algorithms and software; development of data processing apparatus; research relating to the computerised automation of industrial processes; research relating to the computerised automation of administrative processes; research relating to the computerised automation of technical processes; research relating to computers; research relating to data processing; research in the field of telecommunications technology; research in the field of artificial intelligence technology; research in the field of data processing technology; research in the field of information technology; computer programming services for the analysis of data; computer analysis; preparation of computer programs for data processing; certification of data via blockchain; updating of memory banks of computer systems; troubleshooting of computer hardware and software problems; troubleshooting in the nature of diagnosing problems with consumer electronics; design of data storage systems; design of computer machine and computer software for commercial analysis and reporting; design of data processing apparatus; design, creation and programming of web pages; design and development of data storage systems; design and development of data display systems; design and development of data entry systems; design and development of systems for data input, output, processing, display and storage; design and development of data processing systems; computer system design and development; design and development of computer peripherals; design and development of electronic database software; design and development of data processing apparatus; design and development of wireless data transmission apparatus; design and development of wireless data transmission apparatus, instruments and equipment; monitoring of computer systems by remote access; planning, design, development and maintenance of online websites for third parties; creation of computing platforms for third parties; integration of computer systems and networks; diagnosing computer hardware problems using software; computer system analysis; analytical services relating to computers; computer project management in the field of electronic data processing (EDP); maintenance of data processing software; providing temporary use of on-line non-downloadable software development tools; science and technology services; monitoring of audio warning signals; monitoring of telecommunication signals; technical project planning; analytical laboratory services; conducting technical project studies; industrial analysis and research services; analysis of telecommunication signals; technological research; research in measurement technology; sea water desalination technology research; research of new products for others; product research; computer-aided industrial design; computer aided industrial analysis services; psychological research; conducting technical project studies; preparation of technical studies; preparation of engineering drawings; preparation of reports relating to technical research; preparation of technological research reports; consultancy services relating to technological research; optical research laboratory services; design and development of electronic data security systems; design and development of engineering products; design and development of regenerative energy generation systems; design and development of consumer products; design and development of industrial products; providing on-line information in the field of technological research from a computer database or the Internet; services for the development of methods of testing; services for the provision

of technological information; services for monitoring industrial processes; technological design services; technological planning services; technical research; technical inspection services; expert reporting services relating to technology; air flow particle counting services; measurement evaluation services; air flow measurement services; mathematical research services; laboratory testing; industrial research; industrial analysis services; industrial development services; photogrammetry services; technical data analysis services; air flow acoustic measurement services; recording data relating to energy consumption in buildings; development of testing methods; development of machining techniques; development of energy and power management systems; development of consumer products; development of new technology for others; development of new products; research laboratories; research to develop new products; research services; research and development services; research in the field of computer security; conducting of technical feasibility studies; testing of telecommunication signals; technological consultancy in the fields of energy production and use; technological consultancy; technological consultancy services; technological services relating to manufacture; technological services; conducting technical project studies; technological analysis relating to energy and power needs of others; consumer product safety testing consultation; providing technical advice relating to energy-saving measures; technical consultancy relating to product development; technical consultancy services relating to computer programming; technical studies; technical research relating to automatic identification systems; consultancy in the field of energy-saving; consultancy in the field of industrial research; telecommunications technology consultancy; technological consultancy; computer technology consultancy; advisory services relating to the use of energy; advisory services relating to energy efficiency; consultancy services in the field of technological development; conducting technical project studies; professional consultancy relating to technology; professional consultancy relating to the conservation of energy; professional consultancy relating to the science of ergonomics; mechanical research; scientific research; scientific laboratory services; scientific testing services; scientific design services; testing, authentication and quality control; testing the functionality of apparatus and instruments; testing the functionality of machines; examination of welded fabrications to determine properties; examination of welded fabrications to determine structure; examination of welded fabrications to determine soundness; inspection of goods for quality control; inspection of plant and machinery; inspection of apparatus; debugging computer software for others; design and testing for new product development; design and testing of new products; quality control relating to computer systems; quality control relating to computer software; quality control of raw materials; quality control of services; quality control of manufactured goods; quality control of partly manufactured goods; quality control of goods and services; quality checking and testing; quality control; conducting of quality control tests; quality control testing; conducting industrial tests; industrial testing; analysis of product design; analysis of product development; analysis and evaluation of product development; analysis and evaluation of product design; testing of new products; quality control testing; material testing; material testing for fault detection; component testing; product quality testing; product testing; consumer product safety testing and consultation; materials testing and evaluation; materials testing and analysing; testing of filters; testing of electronic data

List of cases accepted for opposition purposes as shown in Journal 2025/034 published on 22 August 2025 .

processing systems; testing of machinery; testing, analysis and monitoring of telecommunication signals; safety technological testing services; website usability testing services; conformance testing services; website load testing services; material testing services; air flow component testing services; electromagnetic compatibility testing services; technical testing services; technical inspection services; technical measuring; technical measuring and testing; computer aided diagnostic testing services; certification services of messages transmitted via telecommunications; certification services of data transmitted via telecommunications; authentication services (control) of messages transmitted via telecommunications; authentication services (control) of data transmitted via telecommunications; user authentication services using technology for e-commerce transactions; product failure analysis services; process monitoring for quality assurance; development of measuring and testing methods; testing of computers; computer aided industrial testing; computer aided testing services; evaluation of performance of computer systems against bench-mark references; evaluation of performance of data-processing against bench-mark references; product quality control testing; consumer product safety testing; product safety testing; toxicity testing for research purposes; testing of computer programs; testing of computing equipment; testing of computers; design services; design of brand names; design of computer databases; design sketching of packaging, containers, dinnerware and table utensils; design planning; design services for exhibitions; design services for data processing systems; custom design services; shopfitting design consultancy services; provision of model files for 3D printing; provision of information relating to industrial design; providing information in the field of product design; providing information in the field of product development; rental of design equipment; construction drafting; planning and design of retail premises; creating, designing and maintaining web sites; creation of internet web sites; constructing an internet platform for electronic commerce; creating electronically stored web pages for online services and the internet; electronic site authoring; creating of home pages for computer networks; industrial design; industrial and graphic art design; graphic design for the compilation of web pages on the internet; graphic design of advertising logos; graphic design of promotional materials; graphic design of book covers; graphic arts design; architectural design for exterior decoration; architectural design for interior decoration; interior design; design of interior decor for shops; fridge magnet sticker design; design of logos for corporate identity; design of computer cluster configurations; design of communication systems; design of molds; product design; styling (industrial design); design of industrial products; designing and developing webpages on the Internet; design and development of computer hardware; database design and development; design and development of networks; design and development of new products; design and development of multimedia products; product design and development; design and graphic arts design for the creation of web pages on the Internet; design and graphic arts design for the creation of web sites; design of graphics and of livery for corporate identity; packaging design; designing of electronic systems; designing of electrical systems; homepage and webpage design; design of home pages; design of homepages and websites; brochure design; pattern design; business card design; design of three dimensional displays; design of printed matter; design of printed material; design of typefaces; design of telecommunications apparatus and equipment; designing feasibility studies on designs;

computer website design; designing websites for advertising purposes; design services for data processing systems; design of exhibition stands; design of sets for television programs; design of computer databases; computer system design; computer specification design; design of manufacturing methods; design of online social networking software; design of face recognition software; design services for display systems for presentation purposes; consumer product design; design of electric circuit boards; design of lighting systems; design of instruments; design of optical components; design of optical and microoptical components; design of ornamental layouts; technical design services relating to heating apparatus; new product design; shop interior design; packaging design services; design services relating to data processing test tools; design services relating to computer hardware and to computer programs; design services relating to the reproduction of documents; design services relating to data processing tools; design services relating to the publication of documents; computer system design; design services for display systems for promotional purposes; design services relating to model making for entertainment purposes; design services relating to model making for presentation purposes; design services relating to model making for exhibition purposes; logo design services; Internet web site design services; industrial packaging design services; web site design and creation services; packaging design; brand design services; interior design services and information and advisory services relating thereto; interior design services for the retail industry; shop interior design; interior and exterior design services; computer graphics services; graphic design; product development for others; product development; development of diagnostic apparatus; research relating to design; product research and development; computer aided design of molds; computer-aided design of video graphics; computer aided design for manufacturing operations; computer aided graphic design; computer aided design services; preparation of reports relating to industrial design; preparation of reports relating to design; design and planning services relating to telecommunication equipment; design of prototypes; visual design; rendering of computer graphics (digital imaging services); technological services relating to design; technological services and design relating thereto; technical consulting in the field of interior design; product development consultation; web site design consultancy; interior decoration consultation; consultancy in the field of technological design; design feasibility studies; professional consultancy relating to industrial design; website development services; computer graphics design services; design services relating to data processors; design services relating to the development of computerized information processing systems; design services relating to integrated circuits; design services relating to data transmission test tools; design services relating to shop displays. time sharing services for communications apparatus; advisory and consultancy services relating to wireless communications equipment;.

Class 45:

Safety, security and law enforcement services; alarm monitoring services; home security alarm monitoring; content moderation for internet chatrooms; information services relating to safety; information services relating to health and safety at the workplace and in public places; security assessment of risks; safety evaluation; providing reconnaissance and surveillance services; providing authentication of personal identification information

List of cases accepted for opposition purposes as shown in Journal 2025/034 published on 22 August 2025 .

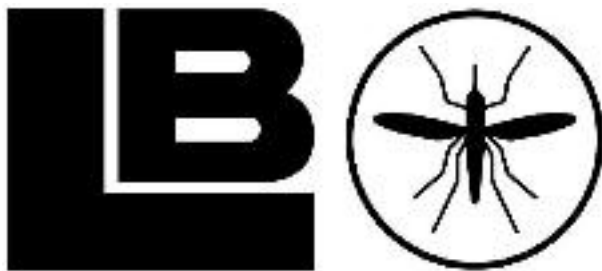

(identification verification services); closed-circuit surveillance; monitoring of burglar and security alarms; surveillance services; monitoring of security systems; inspection of factories for safety purposes; electronic monitoring services for security purposes; identity validation services; advisory services in relation to safety; advisory services relating to the preparation of standards to assure compliance with laws and regulations; guard services for preventing the intrusion of burglars; guard services; fingerprinting services; key holding services; providing background check services; services for validation of identity; security services for buildings; security services for the protection of property; physical security consultancy; consultancy on regulations on safety at work; consulting in the field of workplace safety; consultancy in the field of safety; consultancy in the field of data theft and identity theft; security guard services.

ConnectLife, d.o.o.

Representative:Patentna pisarna d.o.o.
Čopova 14, p.p. 1725 SI-1001 Ljubljana SLOVENIA

WO0000001743663(12, 16, 17)
Office of Origin: IT

Date of International Registration: 08 May 2023
Date of Designation in the UK: 23 April 2025

The trademark consists in the wording LB where the letter B is written in smaller dimensions and it is included in the letter L. Next to the letters, inside a circular figure appears a stylized representation of a mosquito.

Class 12:
Handle bar grips [parts of motorcycles].

Class 16:
Decorative stickers for helmets; decorative stickers for motorcycles and cars; stationery stickers.

Class 17:
Adhesive protectors of rubber for motorcycles; sleeves of rubber for protecting articles from damage through impact; shock-absorbing buffers of rubber; adhesive materials in the form of strips.

PREZZO PAZZO DI MASTRANTONIO DARIO

Representative:GIAMBROCONO & C S.P.A.
