Downloadable software in the nature of a mobile application for {enhancing computer and network security, controlling access to content, websites and online portals, blocking pop-ups, banners, video advertisements, third-party trackers, and removing advertisements from webpages}; Downloadable computer software for {enhancing computer and network security, controlling access to content, websites and online portals, blocking pop-ups, banners, video advertisements, third-party trackers, and removing advertisements from webpages}; Downloadable computer software for the creation of firewalls.

Class 35:

Subscription-based online retail store services in the field of mobile software applications, security software, computer software, computer software to control access to content, websites and portals, downloadable software, software for blocking pop-ups, banners, and video advertisements, software for blocking third-party trackers, software for web browsers used to remove advertising from the internet, downloadable add-on software to enhance web browser privacy and security, browser extension software to block advertisements; Online retail store services connected with the sale of mobile software applications, security software, computer software, computer software to control access to content, websites and portals, downloadable software, software for blocking pop-ups, banners, and video advertisements, software for blocking third-party trackers, software for web browsers used to remove advertising from the internet, downloadable add-on software to enhance web browser privacy and security, browser extension software to block advertisements.

Class 42:

Design and development of computer software for {blocking pop-ups, banners, and video advertisements}; Software as a service (SAAS) services featuring software for {blocking pop-ups, banners, and video advertisements}; Cloud computing featuring software for use {in blocking pop-ups, banners, and video advertisements}; Rental of computer application software for {blocking pop-ups, banners, and video advertisements}; Customizing computer software; Computer systems analysis.
