MODON

The mark consists of the word 'MODON' in a stylized Latin script. The first letter 'O' is depicted as an open circular shape with a dot above it, resembling the appearance of the Arabic letter "noon". The letter 'D' is also stylized with a curved design that gives it a unique appearance similar to the Arabic letter (dal). The three middle letters are abstracted from the original English letters to read "MODON" in Arabic from right to left. The mark is presented in black and white, with no claim made to color.

powered fans for ventilation purposes, electrically powered air blowers for air-conditioning purposes, solar powered ventilation apparatus; environmental control apparatus and installations for the purposes of sanitizing, namely ozonizers for sanitizing purposes, air cleaning filters [parts of air cleaning machines or installations], electric air purifiers, electric water purifiers for household purposes, water purifiers for industrial use, electric humidifiers, portable decontamination apparatus, wastewater purification units, water conditioning units; desalination installations; steam heating apparatus for industrial purposes; heating installations for industrial purposes.

Class 35:

Business project management services for construction projects; commercial intermediation services; retail services for construction equipment; wholesale services for construction equipment; energy price comparison services; preparation of energy consumption statements; billing services in the field of energy; import-export agencies in the field of energy; procurement of contracts concerning energy supply; procurement services in the nature of purchasing energy supply for others; tracking and monitoring energy consumption for others for account auditing purposes; retail services for metal hardware; wholesale services for metal hardware; retail and wholesale services for non-metallic building materials; retail and wholesale services in relation to aluminium; retail and wholesale services in relation to common metals, unwrought or semi-wrought; retail and wholesale services in relation to alloys of common metal; distributorship services in the field of aluminium; retail and wholesale services in relation to electricity generators; Negotiation and conclusion of commercial transactions for procurement of electricity for third parties; retail services relating to electric charging infrastructures for electric vehicles; business management of infrastructures for electric vehicles; subscription services to electric vehicle charging services; electricity meter reading for billing purposes; arranging subscriptions to electric vehicle charging services; retail and wholesale services for electricity measuring instruments; business management supervision in the field of electric mobility; business project management services in the field of electric mobility; price comparison services relating to gas, electricity and water utilities; auditing utility rates for others; utility meter reading for billing purposes; retail services relating to electric charging infrastructures for hybrid vehicles; sales promotion and publicity relating to electric vehicle charging services; providing advice in the field of business efficiency; wholesale services for lighting.

Class 36:

Energy brokerage services; brokerage of renewable energy credits; brokerage of financial investments in energy companies; brokerage of solar renewable energy credits; consultancy concerning financing of energy projects; agencies for collecting gas or electric power utility payments; arranging finance for construction projects; lease-purchase financing of mobile and modular constructions; real estate affairs relating to industrial premises; real estate management services relating to industrial premises; investment trust services; services of brokers dealing in shares and property.

Class 37:

Building and construction services; construction engineering services [construction consultancy]; construction engineering services [construction supervision]; construction project

management [construction supervision]; commercial property construction; communications infrastructure construction; construction equipment rental; construction of commercial buildings; construction of industrial plants; construction, repair and maintenance of power plants; construction of energy and power generating installations being structures; construction of solar power plants; construction of wind power plants; construction, maintenance and renovation of public works; power infrastructure construction; provision of construction advice; construction of structures for the production of natural gas; construction of structures for the storage of natural gas; construction of structures for the transportation of natural gas; real estate development [building and construction services]; construction of roads, sewers and water supply systems; construction, repair and maintenance of heat insulation systems; extraction of natural gas; installation of gas pipelines; gas supply system repair services; installation of gas detection systems; mining extraction, oil and gas drilling; compressed natural gas [CNG] fueling equipment installation, maintenance and repair; installation, maintenance and repair of gas and electricity systems; installation of apparatus for supply and distribution of gas; installation, maintenance and repair of gas, electricity and water supply apparatus; mining of metals; mining of metal ores; mining extraction services; installation, maintenance and repair of apparatus for processing metals; earthworks [excavation] in the field of the mining industry; mining extraction of minerals; construction of residential buildings; servicing and repair of lifting apparatus; construction work relating to the installation and maintenance of electrical systems.

Class 39:
Distribution of energy; storage of energy and fuels; information and advisory services in relation to the distribution of energy; providing information on chemical storage of energy via a website; storage, distribution and supply of energy and fuel; supply of electrical energy, gas, water and district heating; leasing the use of power lines to third parties for the transmission of electricity; public utility services in the nature of electricity distribution.

Class 40:
Energy generation services; conversion of waste energy into electricity [energy recycling services]; conversion of waste energy into steam [energy recycling services]; leasing of energy generating equipment; processing and transforming of wind energy into electricity; processing and transforming of wave energy into electricity; processing and transforming of geothermal energy into electricity; processing and transforming of solar energy into electricity; processing and transforming of stored wind energy, stored wave energy, stored geothermal energy, stored solar energy into electricity; production of energy by power plants; production of renewable green energy; consultancy in the field of energy generation; production of electrical energy from renewable sources; production and processing of fuels, of energy from renewable sources and of energy from conventional sources, namely oil, natural gas, coal, nuclear energy; processing of natural gas; gas production services; natural gas liquefaction services; advisory services relating to production of electricity from liquefied natural gas; processing and transforming of mineral resources and of other raw materials, namely caustic soda, calcined coke, bauxite residues, foundry alloys, various metal, and mineral residues; treatment of metals; extrusion of metal alloys; recycling of

metals; metal fabrication and finishing services; treatment of common metal materials; processing of earth materials to obtain metals [material processing]; drilling of metals; electro and metal coating, metal treating and casting, hardening of metal and metal products; provision of information in the field of mineral processing; recycling of minerals; sorting of waste and recyclable materials [transformation]; recycling of mineral waste; soil, waste or water treatment services [environmental remediation services]; treatment of waste materials in the field of environmental pollution control; sewage treatment services; water recycling and desalination services.

Class 41:
Provision of educational and training services in relation to metals, energy production, minerals, and fuels; arranging and conducting of conferences, seminars, exhibitions and symposiums in relation to metals, energy production, minerals, and fuels; training in the use of construction machinery.

Class 42:
Engineering and technological consultancy for metal processing systems; engineering and technical support services for the design and configuration of hardware and software systems for use in metal finishing operations; computer programming for the energy industry; design and development of software for control, regulation and monitoring of solar energy systems; energy auditing services; energy consultancy in the field of increase savings by improving energy efficiency; design and development of energy distribution networks; development of energy and power management systems; engineering services in the field of energy technology; engineering services relating to energy supply systems; monitoring services relating to energy efficiency performance; professional consultancy in the field of energy saving; rental of meters for the recording of energy consumption; research in the field of renewable energy; design and development of regenerative energy generation systems; energy auditing services relating to electricity and natural gas; technological analysis relating to energy and power needs of others; technological consultancy in the field of alternative energy generation; conducting research and technical project studies relating to the use of natural energy; construction drafting services; construction planning services; construction research services; providing quality assurance in the construction industry; design of solar photovoltaic systems; research and development services relating to solar cells and electricity generation; scientific and industrial research in the field of photovoltaics and solar collectors; technical development of structural elements, devices and systems for solar collectors and photovoltaic plants; mineral exploration services; mineral quality evaluation; scientific research in the field of environmental conservation; technical consulting in the field of environmental engineering; providing technological information about environmentally conscious and green innovations; environmental testing; environmental assessment services; underground utility mapping services.

Class 45:
Political lobbying services relating to energy policies; inspection of factories for safety purposes; regulatory compliance auditing; licensing services relating to the manufacture of goods; monitoring services of gas alarm systems; electronic monitoring services for control of building environmental access and security systems; legal research in the field of environmental conservation.

infrastructures for electric vehicles; subscription services to electric vehicle charging services; electricity meter reading for billing purposes; arranging subscriptions to electric vehicle charging services; retail and wholesale services for electricity measuring instruments; business management supervision in the field of electric mobility; business project management services in the field of electric mobility; price comparison services relating to gas, electricity and water utilities; auditing utility rates for others; utility meter reading for billing purposes; retail services relating to electric charging infrastructures for hybrid vehicles; sales promotion and publicity relating to electric vehicle charging services; providing advice in the field of business efficiency; wholesale services for lighting.

Class 36:

Energy brokerage services; brokerage of renewable energy credits; brokerage of financial investments in energy companies; brokerage of solar renewable energy credits; consultancy concerning financing of energy projects; agencies for collecting gas or electric power utility payments; arranging finance for construction projects; lease-purchase financing of mobile and modular constructions; real estate affairs relating to industrial premises; real estate management services relating to industrial premises; investment trust services; services of brokers dealing in shares and property.

Class 37:

Building and construction services; construction engineering services [construction consultancy]; construction engineering services [construction supervision]; construction project management [construction supervision]; commercial property construction; communications infrastructure construction; construction equipment rental; construction of commercial buildings; construction of industrial plants; construction, repair and maintenance of power plants; construction of energy and power generating installations being structures; construction of solar power plants; construction of wind power plants; construction, maintenance and renovation of public works; power infrastructure construction; provision of construction advice; construction of structures for the production of natural gas; construction of structures for the storage of natural gas; construction of structures for the transportation of natural gas; real estate development [building and construction services]; construction of roads, sewers and water supply systems; construction, repair and maintenance of heat insulation systems; extraction of natural gas; installation of gas pipelines; gas supply system repair services; installation of gas detection systems; mining extraction, oil and gas drilling; compressed natural gas [CNG] fueling equipment installation, maintenance and repair; installation, maintenance and repair of gas and electricity systems; installation of apparatus for supply and distribution of gas; installation, maintenance and repair of gas, electricity and water supply apparatus; mining of metals; mining of metal ores; mining extraction services; installation, maintenance and repair of apparatus for processing metals; earthworks [excavation] in the field of the mining industry; mining extraction of minerals; construction of residential buildings; servicing and repair of lifting apparatus; construction work relating to the installation and maintenance of electrical systems.

Class 39:

Distribution of energy; storage of energy and fuels; information and advisory services in relation to the distribution of energy;

providing information on chemical storage of energy via a website; storage, distribution and supply of energy and fuel; supply of electrical energy, gas, water and district heating; leasing the use of power lines to third parties for the transmission of electricity; public utility services in the nature of electricity distribution.

Class 40:

Energy generation services; conversion of waste energy into electricity [energy recycling services]; conversion of waste energy into steam [energy recycling services]; leasing of energy generating equipment; processing and transforming of wind energy into electricity; processing and transforming of wave energy into electricity; processing and transforming of geothermal energy into electricity; processing and transforming of solar energy into electricity; processing and transforming of stored wind energy, stored wave energy, stored geothermal energy, stored solar energy into electricity; production of energy by power plants; production of renewable green energy; consultancy in the field of energy generation; production of electrical energy from renewable sources; production and processing of fuels, of energy from renewable sources and of energy from conventional sources, namely oil, natural gas, coal, nuclear energy; processing of natural gas; gas production services; natural gas liquefaction services; advisory services relating to production of electricity from liquefied natural gas; processing and transforming of mineral resources and of other raw materials, namely caustic soda, calcined coke, bauxite residues, foundry alloys, various metal, and mineral residues; treatment of metals; extrusion of metal alloys; recycling of metals; metal fabrication and finishing services; treatment of common metal materials; processing of earth materials to obtain metals [material processing]; drilling of metals; electro and metal coating, metal treating and casting, hardening of metal and metal products; provision of information in the field of mineral processing; recycling of minerals; sorting of waste and recyclable materials [transformation]; recycling of mineral waste; soil, waste or water treatment services [environmental remediation services]; treatment of waste materials in the field of environmental pollution control; sewage treatment services; water recycling and desalination services.

Class 41:

Provision of educational and training services in relation to metals, energy production, minerals, and fuels; arranging and conducting of conferences, seminars, exhibitions and symposiums in relation to metals, energy production, minerals, and fuels; training in the use of construction machinery.

Class 42:

Engineering and technological consultancy for metal processing systems; engineering and technical support services for the design and configuration of hardware and software systems for use in metal finishing operations; computer programming for the energy industry; design and development of software for control, regulation and monitoring of solar energy systems; energy auditing services; energy consultancy in the field of increase savings by improving energy efficiency; design and development of energy distribution networks; development of energy and power management systems; engineering services in the field of energy technology; engineering services relating to energy supply systems; monitoring services relating to energy efficiency performance; professional consultancy in the field of energy saving; rental of meters for the recording of
