Class 9:

Software; computer software platforms; computer hardware and software for loading, storing, downloading, synchronizing and analyzing data (text and image files) in databases; software and software applications for analysis, checking, control, optimization, ethical and legally compliant usage, corporate management [governance] and machine learning [artificial intelligence [AI]] of software and software applications for machine learning [artificial intelligence [AI]]; computer software platforms for analysis, checking, monitoring, optimization, ethical and legally compliant usage, corporate management [governance] and machine learning [artificial intelligence [AI]] of software and software applications for machine learning [artificial intelligence [AI]].

Class 42:

Design and development of testing and analytical methods; conducting of technical data analyses; computer-aided scientific analysis; industrial analysis and research services; design and development of software; design, development and configuration of computer hardware and software; installation and maintenance of software; Platform as a Service (PaaS); Software as a Service (SaaS); Infrastructure as a Service (IaaS); design and development of testing and analytical methods for software and software applications for machine learning [artificial intelligence [AI]]; design, development, configuration, installation, provision, rental, maintenance and repair of software and software applications for analysis, checking, monitoring, optimization, technical quality [performance] measurement, ethical and legally compliant usage, corporate management [governance] and machine learning [artificial intelligence [AI]] of software and software applications for machine learning [artificial intelligence [AI]]; platform as a service [PaaS] for analysis, checking, monitoring,

optimizing, technical quality [performance] measurement, ethical and legally compliant usage, corporate management [governance] and machine learning [artificial intelligence [AI]] of software and software applications for machine learning [artificial intelligence [AI]]; providing technological information and recommendations on technical quality [performance] measurement and ethical and legally compliant usage of software and software applications for machine learning [artificial intelligence [AI]]; providing technological information and recommendations for analysis, checking, monitoring, optimizing, reproducing and implementing processes, inventory and legally compliant risk assessment concerning the use of software and software applications for machine learning [artificial intelligence [AI]]; providing data for the identification and analysis of risks concerning the use of software and software applications for machine learning [artificial intelligence [AI]].

Class 45:

Legal services; checking compliance with legal provisions (compliance/good governance); checking of standards and practices to ensure compliance with laws and regulations by third parties; checking compliance with regulatory provisions; checking of standards and practices aimed at ensuring compliance with laws, regulations, regulatory provisions as well as codes of conduct; checking compliance with regulatory provisions or codes of conduct by third parties concerning the use of software and software applications with machine learning [artificial intelligence [AI]] capabilities.

The mark consists of the letter "C" appearing in large bold font on the left side of the design, with the number 3 appearing in superscript above the letter "C". To the right of the letter "C" are the words COMPACT, CURVE and CONVEYOR in bold font with each word increasing in the level of bold stylization. The word COMPACT is aligned at the middle of the letter C, followed by CURVE appearing underneath, and then

Class 1:

Chemicals used in industry, science, photography, agriculture, horticulture and forestry; animal manure; potting soil; soil for growing; unprocessed artificial resins and unprocessed plastics; fire extinguishing compositions; adhesives for industrial purposes.

Class 7:

Hydraulic machines, machine tools and industrial robots for processing and shaping wood, metals, glass, plastics and minerals, 3D printers; construction machines and robotic mechanisms (machines) for use in construction: bulldozers, diggers (machines), excavators, road construction and road paving machines, drilling machines, rock drilling machines, road sweeping machines; lifting, loading and transmission machines and robotic mechanisms (machines) for lifting, loading and transmission purposes: elevators, escalators and cranes; machines and robotic mechanisms (machines) for use in agriculture and animal breeding, machines and robotic mechanisms (machines) for processing cereals, fruits, vegetables and food; machines for preparing and processing beverages; engines and motors, other than for land vehicles, parts and fittings therefor: hydraulic and pneumatic controls for engines and motors, brake linings, brake pads, brake segments, brake shoes other than for vehicles, crankshafts, gearboxes, other than for land vehicles, cylinders for engines, pistons for engines, turbines, not for land vehicles, filters for engines and motors, oil, air and fuel filters for land vehicle engines, exhausts for land vehicle engines, exhaust manifolds for land vehicle engines, engine cylinders for land vehicles, engine cylinder heads for land vehicles, pistons for land

vehicle engines, carburetors for land vehicles, fuel conversion apparatus for land vehicle engines, injectors for land vehicle engines, fuel economisers for land vehicle engines, pumps for land vehicle engines, clack valves [parts of machines], pressure valves [parts of machines], starters for motors and engines, dynamos for land vehicle engines, sparking plugs for land vehicle engines; bearings (parts of machines), roller or ball bearings; machines for mounting and detaching tires; alternators, current generators, electric generators, current generators operated with solar energy; painting machines, automatic spray guns for paint, electric, hydraulic and pneumatic punching machines and guns, electric adhesive tape dispensers [machines], electric guns for compressed gas or liquid spraying machines, electric hand drills, electric hand saws, electric jigsaw machines, spiral binding machines for industrial use, compressed air machines, compressors (machines), vehicle washing installations, industrial robots with the abovementioned functions; electric and gas-operated welding apparatus, electric arc welding apparatus, electric soldering apparatus, electric arc cutting apparatus, electrodes for welding machines, industrial robots (machines) with the abovementioned functions; printing machines; packaging machines, filling, plugging and sealing machines, labellers (machines), sorting machines for industrial use, industrial robots (machines) with the abovementioned functions, electric packing machines for plugging and sealing of plastics; machines for textile processing, sewing machines, industrial robots (machines) with the abovementioned functions; pumps [machines]; compressed air pumps, fuel dispensing pumps for service stations, self-regulating fuel pumps; electric kitchen machines for chopping, grinding, crushing, mixing and mincing foodstuff, washing machines, laundry washing machines, dishwashers, spin driers (not heated), electric cleaning machines for cleaning floors, carpets or floorings, vacuum cleaners and parts thereof; automatic vending machines; galvanizing and electroplating machines; electric door openers and closers; joints [parts of engines], joints [parts of machines].

Class 40:

Treatment of common metals; treatment of precious metals; processing of photographic and cinematographic films; photocomposing, photographic printing, photogravure; drying, canning, freezing, cooking, smoking, corning foodstuff; providing information in the field of food manufacturing; slaughtering of animals; leather working and fur conditioning; saddlery working; textile treating, wool treating; dressmaking, embroidery; woodworking and timber processing; framing of works of art; treatment of liquids, chemicals, gas and air for industrial use; grinding of glass and optical glass; custom assembling of materials for others; services of a dental technician; pottery firing; production of energy; rental of generators; paper treating; printing, bookbinding; treatment of plastics.

Class 42:

Scientific and industrial analysis and research services; engineering; engineering and architectural design services; testing services for the certification of quality and standards; computer services, namely, computer programming, computer virus protection services, computer system design, creating, maintaining and updating websites for others, computer software design, updating and rental of computer software, providing search engines for the internet, hosting websites, consultancy in the design and development of computer

Office of Origin: EM

Date of International Registration: 16 January 2025

Date of Designation in the UK: 16 January 2025

The logo consists of the word "SIEMENS" in a bold, blue, sans-serif typeface. The letters are evenly spaced and the overall appearance is clean and professional.

International priority date claimed: 31 July 2024 (EM)
(019061749)

The mark contains the colour Petrol (RGB: 0,153,153, CMYK: 100/0/40/0, Pantone: 321 C, RAL Classic: 5018).

Class 7:

Electricity generators; electrical generating machines; engines and motors for the generation of electricity; uninterruptible power supply generating machines; pumps and compressors being parts of machines, motors and engines; compressors; machines and machine tools for treatment of materials and for manufacturing; cutting, drilling, abrading, sharpening and surface treatment machines and apparatus; knife sharpening machines; machines, machine tools, and power-operated tools and apparatus, for fastening and joining; welding and soldering machines and devices; welding machines; machine tools; electrically driven machine tools; electric tin openers; power operated tools; food and beverage processing and preparation machines and apparatus; electric kitchen machines; kitchen

grinders, electric; electric food grinders; kneading machines; beaters, electric; electric fruit presses; juice extractors; juice centrifuges; meat mincing machines [electric machines]; food cutting machines; machines for preparing food [industrial]; machines for making aerated beverages [electric]; beverage pumps; waste management and recycling machines; waste grinders and waste presses [electric waste disposal units]; garbage disposals; compressors [compactors] for waste collection containers; moving and handling equipment; conveyors and conveyor belts; materials handling conveyors; industrial conveyors; sorting machines for industry; belts for conveyors; band conveyors; belt conveyors; automatic conveyor installations; roller conveyors; packaging machines; electrical apparatus for sealing plastics [packaging]; lifting and hoisting equipment, elevators and escalators; spindle hoists; opening and closing mechanisms; electrically operated drives for drawing curtains; door openers, electric; door closers, electric; transport machines; sorting machines, other than for money; industrial robots; housekeeping robots for household purpose; automated robotic handling apparatus for loading and unloading of goods; indoor self-driving robots for industrial use; robotic arms for industrial purposes; robotic handling apparatus; indoor self-driving robots for industrial use; robotic mechanisms being parts of loading-unloading machines and apparatus; industrial robots with artificial intelligence; industrial robots for use in manufacture; engines, powertrains, and machine parts, and controls for the operation of machines and engines; actuators for dampers; bearings for engines; belt drives; belts for motors and engines; bushings [parts of machines]; compact motor starters; drive shafts, other than for land vehicles; drives for machines; driving devices for machines; electric alternating current motor drives; electric drives for motors [other than for land vehicles]; electric motors, and their parts, not for land vehicles; electric driving motors for machines; electric alternators for machines; electric ignition devices [other than for igniting at a distance]; electric brushes being parts of machines; turbines for power generation; electric propulsion mechanisms for machines; electrical brakes for machines; starting couplings for machines; filters for engines; fuel valves; fuel filters; injectors; electric drives for machine tools; electric power generators; gear boxes being parts of machines; gear boxes, other than for land vehicles; high-frequency motor spindles with high frequency electric converters and power supply units; hydraulic engines and motors; motors and engines (except for land vehicles); machine coupling and transmission components, except for land vehicles, and parts therefor; motors for machines; power transmission belts for machines, motors and engines used in industrial applications; rotary actuators; soft motor starters; spindles for machine tools; spindle shafts [parts of machines]; spindle shafts [parts of engines]; spindle shafts [parts of motors]; standby generators; starters for motors and engines; valves; dispensing machines; vending machines; vending machines for food and beverages; automatic vending machines; sweeping, cleaning, washing and laundering machines; brushes for vacuum cleaners; clothes washing machines; dishwashers; dust filters and bags for vacuum cleaners; electric shoe polishers; electric window cleaning equipment; hoses for vacuum cleaners; ironing machines and laundry presses; ironing presses; ironing machines; laundry washing machines; machines and apparatus for cleaning, electric; robotic vacuum cleaners; spin dryers; vacuum cleaners; wet and dry vacuum cleaners; chemical processing equipment; parts for all the aforesaid goods, included in this class.

Class 1:

Thermal paste.

Class 2:

Paints; varnishes; lacquers; anti-rust products; colorants; dyes; printing inks; marking inks and engraving inks.

Class 4:

Oil for electric motors and engines.

Class 6:

Containers of metal for storage or transport; metal hydrogen tanks other than for vehicles; metal fuel tanks other than for vehicles; metal industrial containers for vehicle battery packaging; metal tubing [parts of engines for land vehicles]; metal tubing for dispensing hydrogen inside land vehicles; automotive metal tubing for pumping, calibration, filtering, pressure regulation, chemical, thermal or mechanical protection.

Class 7:

Machine tools; machines for painting, gluing, welding, punching, cutting and machining; spray guns for paint and distribution of glue; vulcanization, lifting and brazing apparatus, soldering apparatus included in this class, vaporization apparatus, apparatus for machining and mechanical tools for the automobile industry and the production of parts for motor vehicles; anti-pollution devices for engines; electric, pneumatic and hydraulic devices for opening vehicle doors and windows; vending machines; robots for the automotive industry and the manufacture of parts for motor vehicles; industrial presses for the manufacture of parts for

motor vehicles; molds (parts of machines) for the automotive industry and for the manufacture of parts for motor vehicles; electric machines and apparatus for cleaning; sweeping machines; road construction machines, bulldozers, snow plows as well as rubber treads as parts of the tracks of such vehicles; 3D printers; compression molding machines; injection molding machines; extrusion molding machines; electricity generators; filament winding machines intended for use in the manufacture of hydrogen tanks; roof opening mechanisms for vehicles; valves, canisters, filters and modules for pumping, gauging, filtration, pressure regulation, mechanical, thermal or chemical protection; components, parts of vehicles, systems, control units and vehicle modules included in this class, namely, all parts relating to de-pollution.

Class 9:

On-board computers for vehicles; Registered on-board computer and calculator programs; software (recorded programs); artificial intelligence software; systems for detecting, processing, signaling and following stationary and moving objects around a vehicle; on-board electronic driving assistance systems; advanced driver assistance systems for vehicles, namely, adaptive cruise control, lane departure controls and alarm, blind spot detection controls and alarm, and controls and alarms reducing the risk of collisions and accidents; electronic control devices for vehicle driving assistance; autonomous and semi-autonomous driving control systems for vehicles; autonomous and semi-autonomous driving systems featuring interactive displays; electronic apparatus intended for vehicle driving assistance; computer software and computer hardware for use in relation to advanced driving assistance systems; computer software and computer hardware for controlling, operating, driving and monitoring vehicles; computer software and computer hardware enabling object detection, object classification and high-definition mapping; computer software and computer hardware for data acquisition and data analysis; computer software and computer hardware for collecting and analyzing data generated by external sources and vehicle sensors; computer software and computer hardware for transmitting data in a vehicle and for communications between and among vehicles and a cloud platform; computer software and computer hardware enabling interaction and interfacing between vehicles and mobile devices; computer software for coordinating delivery, freight and transportation services by automated vehicles; gasoline gauges; electric control apparatus used in the field of mobility; simulators for controlling vehicles; electric monitoring apparatus used in the field of mobility; voltage regulators for vehicles; sensors; electromagnetic sensor for determining the speed, angle, distance, volume and nature of an object; radars and antennas integrated into vehicle body parts for parking assistance and driving assistance; waveguides for electromagnetic wave propagation; antennas for reception, antennas for transmission of images, sounds and data; transmitters of electronic signals; electronic signal receivers; light detection and ranging [LIDAR] apparatus for vehicles; road-marking detection apparatus; navigation apparatus for vehicles (on-board computers); electronic apparatus for vehicle parking assistance; electronic apparatus for detecting and warning of continuous or discontinuous line crossing for vehicles; electronic apparatus for detecting, recognizing and reading road traffic signs; battery modules; electric batteries; electric batteries for vehicles; battery packs for vehicles; fuel cells for vehicles; electric accumulators for

vehicles; power supply units for vehicles [batteries]; containers for vehicle accumulators [batteries]; battery boxes for vehicles; cooling system for electric vehicle batteries; cooling plates for electric vehicle batteries; control units, sensors and actuators used to control, monitor, regulate and diagnose, on board vehicles, systems, modules and components relating to the production, storage, supply and transformation of energy, and the decontamination of vehicles; on-board computer and calculator programs and software for the control, monitoring, regulation and diagnosis, on board vehicles, of systems, modules, control units and vehicle components relating to the production, storage, supply and conversion of energy, and the decontamination of vehicles; electric and electronic weighing, measuring and checking apparatus and instruments used in the field of mobility; apparatus and instruments for sound, image and data recording, transmission, reproduction and processing; apparatus for reading, recording, transmitting and reproducing data; electronic devices for digital display; electronic notice boards; computerized visual display units; vehicle fuses; junction boxes [electricity] for vehicle batteries; electric control devices for energy management for vehicles; apparatus for analyzing light sources for vehicles; apparatus for analyzing light intensity variation for vehicles; apparatus for analyzing light source variation for vehicles; light source sensors for vehicles; light intensity variation sensors for vehicles; light source variation sensors for vehicles; equipment for communication via Internet link or similar equipment and for data display inside a vehicle; electric, electronic or optical equipment, on board vehicles, including land vehicles, for steering, signaling, controlling, for information, safety as well as processing of information and signals (sounds, images, data) related thereto; electronic management systems for lighting and signaling and cameras; in-vehicle cameras; vehicle reversing cameras; multi-camera systems for vehicles; image processing software for on-board vehicle cameras; facial analysis software; gesture recognition software; software programmed to optimize filament winding; downloadable security software; software for network security and computer units; on-board vehicle surveillance devices and systems, for detecting and analyzing driver and passenger behaviors and emotions, and to warn them of danger and improve their driving experiences; electronic systems for controlling the filling of fuel tanks; electronic systems for controlling the filling of hydrogen tanks; electronic systems for controlling and monitoring the charging and performance of vehicle batteries; electronic systems for controlling and monitoring the charging and performance of vehicle fuel cells; electronic systems for controlling and monitoring the performance status of high-pressure hydrogen tanks; photovoltaic energy accumulators used in the field of mobility; photovoltaic cells used in the field of mobility; photovoltaic inverters used in the field of mobility; DC-DC converter, namely, electronic power circuits enabling the conversion of a direct current (DC) source of one specified voltage level to a different level; system for activating lighting apparatus by electronic devices for reading, transmitting and processing data emitted by a vehicle; Chargers for electric cars; charger cover for electric cars; vehicle dashboard indicator lights; apparatus for controlling the temperature of fuel batteries and cells; temperature regulators for fuel batteries and cells; energy conversion apparatus for vehicles; components, parts of vehicles, systems, control units and vehicle modules included in this class, namely, all parts relating to the production, storage, supply and conversion of any form of energy on board the vehicles.

Class 11:

Lighting apparatus for vehicles; lighting apparatus for vehicle decoration; vehicle headlights; lights for vehicles; parking lights for vehicles; light bulbs for directional signals for vehicles; anti-glare devices for vehicles [lamp fittings]; anti-glare lighting systems for other drivers; lighting systems for automatic activation and deactivation of high beam when approaching another vehicle; lighting systems for automatic activation and deactivation of high beam when approaching a pedestrian; lighting systems for automatic activation and deactivation of high beam when approaching a lit section of road; heating apparatus for defrosting windows of vehicles; defrosters for vehicles; heaters for vehicles; demisting heating apparatus for vehicles; polymerization installations; heating polymerization units; activation system for lighting, heating and drying apparatus triggered by electronic devices for reading, transmitting and processing data emitted by a vehicle; lighting for display purposes inside and outside a vehicle; vehicle dashboard bulbs.

Class 12:

Vehicles; apparatus for locomotion by land, air or water; motor vehicles, motorcycles, vans, trucks; electric motor vehicles; hybrid automobile; all-terrain vehicles; buses; heavy-duty vehicles; tramcar; trains; airplanes; helicopters; rotorcraft; aircraft; dirigible balloons (airships); drones; boats; ships; seaplanes; parts of vehicles; parts and components for vehicles namely bodywork parts, bodywork component parts, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, vehicle front casing, floor, shock absorber; modules (parts) of vehicles; structural elements for motor vehicles; aerodynamic elements for vehicles, deflectors, spoilers, air guides for vehicles; grille; vehicle chassis; fuel tanks for vehicles; hydrogen tanks for vehicles; caps for vehicle gasoline tanks; fuel tanks (all types of fuel) for land vehicles; vehicle dashboards.

Class 13:

Pyrophoric substances; pyrotechnic products.

Class 17:

Dielectrics [insulators]; non-metal tubes for dispensing cooling fluids in batteries; non-metal tubes for dispensing hydrogen, water, air and coolants in fuel cells; non-metal flexible tubing [parts of engines for land vehicles]; non-metal flexible tubing for dispensing hydrogen inside land vehicles; non-metal automotive flexible tubing for pumping, calibration, filtering, pressure regulation, chemical, thermal or mechanical protection.

Class 20:

Tanks not of metal nor masonry; hydrogen tanks not of metal; fuel tanks, not of metal, other than for vehicles.

Class 35:

Business organization consultancy; consultancy services in business management; assistance in business management and business consulting for companies; compilation of statistical reports and market studies; computer data management; collection and systematization of data in a central file; Wholesale and retail services for the following products: thermal paste, paints, varnishes, lacquers, anti-rust products, colorants, dyes, printing inks, marking inks and engraving

to automatically activate and deactivate high beam when approaching another vehicle, lighting systems to automatically activate and deactivate high beam when approaching a pedestrian, lighting systems to automatically activate and deactivate high beam when approaching a lit section of road, heating apparatus for defrosting vehicle windows, defrosters for vehicles, heating installations for vehicles, anti-fog heating devices for vehicles, polymerization installations, heating polymerization units, activation system for lighting, heating and drying apparatus triggered by electronic devices for reading, transmitting and processing data emitted by a vehicles, lighting for display purposes inside and outside a vehicle, vehicle dashboard bulbs, vehicles, apparatus for locomotion by land air or water, motor vehicles, motorcycles, vans, trucks, electric motor vehicles, hybrid cars, all-terrain vehicles, buses, heavy-duty vehicles, tramcars, trains, airplanes, helicopters, rotorcraft, aircraft, airships, drones, boats, ships, seaplanes, constituent parts of vehicles, parts and components for vehicles namely bodywork parts, component parts of bodyworks, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, automobile front casing, floor, shock absorber, vehicle modules, roof opening mechanisms for vehicles, structural elements for motor vehicles, aerodynamic elements for vehicles, deflector, spoiler, air guide for vehicles, grille, vehicle chassis, fuel tanks for vehicles, hydrogen tanks for vehicles, caps for vehicle gas tanks, components, component parts of vehicles, systems, vehicle control units and modules included in this class, components, component parts of vehicles, systems, vehicle control units and modules included in this class namely all parts relating to the production, storage, supply and conversion of all forms of energy on board vehicles, as well as pollution control, tanks, tubing, valves, canisters, filters and modules for pumping, gauging, filtering, pressure regulation, mechanical, thermal or chemical protection, energy conversion apparatus for vehicles, vehicle dashboards, pyrophoric substances, pyrotechnic products, pyrophoric substances, pyrotechnic products, dielectrics [insulators], non-metal tubes for dispensing coolants in batteries, non-metal tubes for the distribution of hydrogen fluids, water, air and coolants in fuel cells, tanks, not made of metal nor of masonry, non-metal hydrogen tanks, non-metal fuel tanks other than for vehicles.

Class 37:

Vehicle maintenance; vehicle lubrication [greasing]; Installing exterior, interior and mechanical parts of vehicles for personalization purposes [tuning]; vehicle washing; vehicle cleaning; vehicle polishing; repair services in the case of vehicle breakdown; anti-rust treatment for vehicles; charging of vehicle batteries; electric vehicle charging; maintenance, installation and replacement constituent parts of vehicles, parts and components for vehicles namely bodywork parts, component parts of bodyworks, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, automobile front casing, floor, shock absorber, vehicle modules, roof opening mechanisms for vehicles, structural elements for motor vehicles, aerodynamic elements for vehicles, deflector, spoiler, air guide for vehicles, grille, vehicle chassis, fuel tanks for vehicles, hydrogen tanks for vehicles, caps for vehicle gas tanks, components, component parts of vehicles, systems, vehicle control units and modules, components, component parts of vehicles, systems, vehicle control units and modules namely all parts relating to the production, storage, supply and conversion of

all forms of energy on board vehicles, as well as pollution control, tanks, tubing, valves, canisters, filters and modules for pumping, gauging, filtering, pressure regulation, mechanical, thermal or chemical protection, fuel cells for vehicles, electric batteries for vehicles, battery packs for vehicles, energy conversion apparatus for vehicles; maintenance, installation and replacement of lighting apparatus for vehicles, vehicle headlights, lights for vehicles, position lights for vehicles, directional signal light bulbs for vehicles, anti-glare devices for vehicles [lamp fittings], anti-frost heating apparatus for vehicle windows, defrosters for vehicles, heating installations for vehicles, anti-fog heating devices for vehicles, polymerization installations, heating polymerization units.

Class 38:

Telecommunications; communications by computer terminals; providing access to databases; electronic transmission of data related to land vehicles; rental of telecommunication equipment; telecommunications services for radio location and identification of land vehicles; radio, telephone communications; message transmission; providing private access to computer databases.

Class 39:

Collecting end-of-life batteries and fuel cells.

Class 40:

Treating plastics, metals, composite materials; recycling services for plastic materials; printing services; 3D printing to order for third parties; die casting services; die-casting of metals; molding of synthetic products; engraving; laser engraving; polymerization; custom manufacture of automobiles and automobile parts; recycling end-of-life fuel batteries and cells.

Class 42:

Technical planning and technical advice; work planning (engineers' services) and technical project planning; technical advice services with respect to environmental protection; industrial analysis services; industrial analysis and consultation services with respect to environmental protection and conservation; scientific and technological information and technical advice services in connection with environmental awareness; design, updating and rental of software and databases; design, development and updating of artificial intelligence software; research and development of new products for third parties; technical research and development; research and development in mechanics; research and development in physics; research and development in chemistry, bio-chemistry and electrochemistry; advice with respect to energy saving; research and development relating to environmental protection; testing of materials; research and development of systems, modules, components, computer programs and software for vehicles; research and development in the field of reducing vehicle weight and emissions; research and development of sensors, particularly electromagnetic sensors for determining the speed, angle, distance, volume and nature of an object; research and development of radars and antennas integrated into vehicle body parts for parking assistance and driving assistance; research and development of actuators, and control units; research and development of tooling and production lines for the automotive industry; research and development of vehicle dashboard indicators; research and development of temperature control apparatus

Figurative mark consisting of the image of a square with rounded corners rotated about 30° framing a stylized blue letter "F". The letter consists of two rectangles perpendicular to each other and partially overlapping. Along the diagonal of the square starting from the upper left corner, there are three small squares, two of which are white like the background and the third blue. The latter, with the two rectangles, goes to form the letter "F".

International priority date claimed: 27 November 2024 (IT)
(302024000176490)

The mark contains the colours white, blue and black.

Blue: the blue areas form the main body of the stylized "F" and consist of three distinct geometric shapes—a large top-right rectangle, a vertical rectangle on the left, and a smaller square toward the lower right; white: the white space sits centrally within the composition and acts as the negative space that shapes the horizontal bar of the "F"; black: the black is used to outline the tilted square that frames the entire design.
