VISION-AS-A-SERVICE

International priority date claimed:

11 April 2025 (UNITED STATES OF AMERICA)

Class 9:

Downloadable software for use with onboard hardware namely, cameras, sensors, processors, memory, and storage devices, for capturing, processing, and transmitting live and recorded video, along with metadata including geolocation and vehicle performance data in commercial motor vehicles; downloadable software for facilitating communication between onboard systems and vehicle-based systems to support safety programs, fuel economy optimization, operational analysis, and identification of maintenance anomalies; downloadable applications for configuring, managing, and monitoring systems and integrated third-party applications; computer hardware and pre-installed or recorded software for edge computing and onboard application execution; downloadable software development tools and APIs for use by fleet operators, OEMs, and third-party developers to create compatible applications for vehicle-based computing.

Class 12:

Vehicles and apparatus for locomotion by land, namely, commercial motor vehicles equipped with integrated electronic vision systems comprised of cameras, sensors, and digital displays for enhanced situational awareness, driver assistance, and collision avoidance; structural parts for vehicles, namely, externally and internally mounted vision modules designed to replace or supplement traditional mirrors, incorporating digital imaging, edge computing, and wireless data transmission technologies.

Class 38:

Telecommunications services, namely, the electronic transmission of data, video, images, and telemetry from commercial motor vehicles to cloud-based processing platforms and remote monitoring systems; transmission of live and recorded video feeds from vehicle-mounted vision systems for real-time driver support, operational oversight, and safety compliance; providing access to a centralized communications network enabling the secure exchange of telematics, sensor data, and visual intelligence between vehicles, fleet operators, and third-party applications.

Class 39:

Providing information services in the field of commercial vehicle transportation and fleet logistics, enabled by onboard hardware and software; namely, collecting, transmitting, and analyzing location data, video feeds, and vehicle performance metrics to support routing optimization, driver behavior monitoring, fuel efficiency improvement, and predictive maintenance; providing

List of cases accepted for opposition purposes as shown in Journal 2025/042 published on 17 October 2025 .

telematics-based services including vehicle tracking, driver status updates, vehicle health monitoring, and operational visibility for fleet management; providing logistics data analytics services to fleet operators to improve vehicle safety, regulatory compliance, delivery performance, and route efficiency.

Class 42:

Providing a cloud-based platform integrating software and hardware components, namely, onboard cameras, sensors, processors, memory, storage devices, and edge computing technologies, for enabling third-party, customer, and proprietary application development and deployment in commercial motor vehicles; providing temporary use of non-downloadable software accessed via the internet for vehicle safety enhancement, fuel economy optimization, operational efficiency, and predictive maintenance support; providing Platform-as-a-Service (PaaS) featuring software development tools, application programming interfaces (APIs), and a development sandbox environment for creating and testing vehicle-based applications; providing a web-based platform functioning as a marketplace for applications developed for commercial vehicle platforms; providing backend infrastructure and software services to support third-party application integration, compliance enforcement, performance monitoring, and revenue sharing; hosting of software applications and digital content developed by fleet operators, and third-party developers; providing backend tools for application promotion, monetization, billing, and reconciliation; providing technical support services relating to application hosting, data access, system configuration, and platform compliance.

Mark 2

List of cases accepted for opposition purposes as shown in Journal 2025/042 published on 17 October 2025 .

Application for a series of 2 marks.

Class 1:

Moistening preparations for use in dyeing; wetting preparations for use in dyeing; Plastic masterbatches; Glass-staining chemicals; Plastic panel-staining chemicals; Preparations for preventing the tarnishing of glass and / or plastic panels; Anti-tarnishing chemicals for glass and /or plastic windows; Chemical coatings for glass and / or plastic panels; chemical additives, heat-blocking additives, nanoparticle additives and / or chemical coatings for panels, coverings and / or sheets for greenhouses; chemical additives, heat-blocking additives, nanoparticle additives and / or chemical coatings for polytunnels and /or polyhouses, and covers and / or sheets therefor; chemical additives to polymers; heat-blocking chemical additives to polymers; additives (chemical -) for polymers; polymer solutions; chemical polymers; polymer coatings [other than paints]; chemicals for use in polymerisations; polymer compounds for use in manufacture; polymer-based compounds for use in manufacture.

Class 2:

Paints; Varnishes; Alizarine dyes; Aluminium paints; Aluminium powder for painting; Carbon black [pigment]; Dyes; Pigments; Coatings [paints]; Titanium dioxide [pigment]; Dyestuffs.

Class 6:

Frames of metal for building; Frames of metal for greenhouses; Pillars of metal for building; Pillars of metal for greenhouses; Greenhouses of metal, transportable; Building materials of metal / construction materials of metal, including metal materials for greenhouses; Greenhouse frames of metal; Framework of metal for building including greenhouses; parts and fittings for all of the aforementioned.

Class 17:

Compositions to prevent the radiation of heat; Insulating varnish; Insulating paints; Insulating films; Plastic sheeting; Polypropylene sheeting; Polyethylene sheeting; polymer films; heat-blocking panels, coverings and / or sheets for greenhouses; heat-blocking panels, coverings and / or sheets for polytunnels and /or polyhouses, and covers and / or sheets therefor; parts and fittings for all of the aforementioned.

Class 19:

Framework, not of metal, for building including greenhouses; Windows made of plastics for greenhouses; Coatings [building materials] for greenhouse panels and roofs of plastics, polycarbonates, polypropylene, polyethylene and / or acrylics; Roofing, not of metal or glass, for greenhouses; Polycarbonate greenhouse panels; Acrylic greenhouse panels; ETFE greenhouse panels; Polypropylene panels; Plastics for building greenhouses; Greenhouse frames, not of metal; Pillars, not of metal, for greenhouses; Smart plastic panels for greenhouses; Smart plastic panels for greenhouses for regulating the air temperature, soil temperature, energy transfer and / or water usage within the structure; parts and fittings for all of the aforementioned.

Class 20:

Furnishings for providing shade; Interior textile window blinds; Indoor window blinds of textile; Window blinds for providing shade; Parts and fittings for all of the aforementioned.

Class 22:

Awnings of textile; Nets; Shade nets; Nets for providing shade; Outdoor blinds of textile; parts and fittings for all of the aforementioned.

Class 37:

Construction including construction of greenhouses; Building construction supervision; Greenhouse construction supervision; Control system installation, maintenance and repair; Providing construction information; Roofing services including roofing services for greenhouses; Construction consultancy services including greenhouses.

Class 44:

Consultancy in the field of viticulture; Cultivation of plants; Horticulture services and/or consultancy; Plant nursery services and/or consultancy; Viticulture services and/or consultancy; Consultancy regarding optimising conditions for agriculture, horticulture, plants and crops; consultancy in the field of agriculture.

Class 7:

Generators; generators of electricity; current generators; diesel electric generators; solar power generators; electrical generators using solar cells; emergency power generators; portable electric power generators; high-voltage generators; marine generators; gas operated power generators; uninterruptible power supply generating machines; engines for the generation of electricity; alternators; electric alternators; electric generator power sets; machine tools; couplings for machines; agricultural machines; agricultural machine tools; compressors; air compressors; oil-free air compressors; refrigerator compressors; parts, fittings and accessories for the aforesaid.

Class 9:

Apparatus and instruments for accumulating, storing and controlling electricity; apparatus and instruments for regulating, controlling, and conducting the distribution of electricity; photovoltaic apparatus for generating electricity; batteries; electrical storage batteries; solar batteries; solar battery chargers; solar modules; solar cells; solar panels; solar panels and cells for electricity generation; solar energy collectors for electricity generation; load banks; load cells; energy control devices; energy regulators; ultracapacitors for energy storage; accumulators; transformers; electrical transformers; current transformers; distribution transformers; electric control devices for energy management; energy regulators; energy control devices; apparatus for monitoring energy consumption; switchgear; electrical cables; electrical distributors; distribution boards; parts, fittings and accessories for the aforesaid.

Class 11:

Apparatus for lighting, heating, refrigerating, drying and ventilating; sanitary installations; HVAC systems (heating, ventilation and air conditioning); air handlers; air conditioning apparatus and installations; air conditioning apparatus and installations for commercial use; air conditioners; air treatment equipment; cooling apparatus and installations; apparatus for cooling air; apparatus and installations for refrigerating; refrigerators; chillers; spot coolers for cooling air; cooling towers; evaporative and closed loop cooling towers; air and water cooled chillers for chilling liquids and gases; dehumidifiers; industrial dehumidifiers; electric dehumidifiers; refrigerant dehumidifiers; desiccant dehumidifiers; drying apparatus and installations; air dryers; air heating apparatus and installations; commercial heating installations; electric heaters for radiative, conductive, and convective heating; heat exchangers; heat pumps; heat pumps for energy processing; storage heaters; heaters for temporary structures; solar heating installations and apparatus; solar heating panels; solar energy collectors for heating; solar cell lighting apparatus; solar lights; lighting; lighting apparatus; electric lighting apparatus; commercial lighting fixtures; parts, fittings and accessories for the aforesaid. .

Class 37:

Maintenance, repair and installation of power generating apparatus, alternators, machine tools, fuel tanks, compressors, air compressors, oil-free air compressors, batteries, transformers, load banks, cable and distribution equipment, electrical distribution systems, solar heating and lighting apparatus, energy control devices, temperature and moisture control equipment, energy regulators electrical distributors, solar

powered systems, solar powered heating and lighting systems, energy-saving apparatus, gas supply and distribution apparatus, power distribution apparatus, HVAC (heating, ventilation and air conditioning) systems, air conditioning apparatus and installations, cooling apparatus and installations, drying apparatus and installations, air heating apparatus and installations, heat pumps and lighting apparatus; rental of air compressors, oil-free air compressors, construction equipment and building apparatus; information, consultancy and advisory services in relation to the aforesaid.

Class 39:

Rental of power distribution, transmission, storage and supply systems; electricity distribution, transmission and supply; power distribution, transmission and supply; renewable energy distribution, transmission and supply; consultancy services relating to the distribution of energy; consultancy services relating to the distribution of electricity; providing information relating to the distribution of energy; providing information relating to the distribution of electricity; storage of energy and fuels; information, consultancy and advisory services related to the aforesaid.

Class 40:

Rental of energy generating equipment; rental of generators; rental of air conditioning apparatus and installations; rental of heating apparatus and installations; rental of cooling apparatus and installations; rental of air drying apparatus and installations; rental of dehumidifiers, heating, cooling and drying apparatus for commercial use; energy production; energy generation; electricity generation; generation of electricity from renewable sources; generation of electricity from solar energy; consultancy services relating to the generation of electrical power; information, consultancy and advisory services related to the aforesaid.

Class 42:

Design and development of software for control, regulation and monitoring of energy systems; design and development of software for control, regulation and monitoring of solar energy systems; design and development of energy generation systems; design and development of energy distribution networks; rental of load banks for testing electrical power sources; scientific and industrial research services; research in the field of energy; consultancy relating to technological services in the field of power and energy supply; engineering services in the field of electrical power; consultancy relating to the provision of temporary power solutions; consultancy and advisory services relating to energy efficiency; information, consultancy and advisory services related to the aforesaid.

Application for a series of 2 marks.

Class 9:

Electric and electrical measuring and power control apparatus, installations and equipment; apparatus, installations and equipment for supply and distribution of energy; controls for installations and equipment for gas, thermal heat, oil and electricity production, supply and distribution included in Class 9; gas, oil, thermal heat, electricity and energy meters; metering apparatus; scientific, surveying, electric, optical, weighing, measuring, signalling, and checking (supervision) apparatus and instruments; apparatus and terminals for use in transfer of funds and payment of bills; cash dispenser machines; utility meters; smart cards, keys and tokens; parts and fittings in relation to the foregoing; electronic metering equipment for dispensing of gas or home heating oil; metering apparatus for domestic-use oil, electricity and thermal heat; operating systems for dispensing, metering and storage of gas or home heating oil, electricity and thermal heat; credit and debit cards; computer software for the monitoring and control of energy consumption; smart meters; electricity transformers; computer software for the collection of data from electricity, gas, oil or water meters; heating meters; central heating programmers; temperature monitors [valves] for central heating radiators; equipment and systems for dispensing, metering and storage of electricity, thermal heat, gas, oil and district heating; metering apparatus for domestic-use oil, gas, electricity and thermal heat; thermal heat units supplied via a heat meter and transmitted through a communal or district heating system; gas or home heating oil cells.

Class 11:

Gas fired back boiler units for domestic central heating; heating boilers; space heating apparatus; domestic heating utensils; solar heating panels; heating units; radiators heating; infrared heating panels; expansion tanks for central heating installations; apparatus for heating, cooling and refrigerating purposes; heat energy processing installation; waste heat energy processing installation; heat regenerators; heating apparatus; heating installations; heat exchangers; heat sinks for use in heating apparatus; underground heat sinks for use in heating apparatus; air conditioning apparatus; heating boilers; electric boilers; central heating systems and boilers; condensing boilers; micro combined heat and power systems; radiators; solar heating panels and apparatus; water heaters; electric heaters; electrical storage heaters; thermal storage heaters; thermostatic valves.

Class 35:

*List of cases accepted for opposition purposes as shown in Journal 2025/042 published on
17 October 2025 .*

Retail services relating to energy, gas, gaseous fuels, oil, thermal heat, electricity and fuels and provision of specialist business operations services for management of metering equipment; setting up, organisation, administration, operation and supervision of customer loyalty schemes and incentive and promotional schemes; office facilities management services; procurement of contracts concerning oil, thermal heat, electricity and gas supply; business management; business administration; office functions; billing services; information, consultancy and advisory services relating to the foregoing.

Class 37:

Construction, installation, repair and maintenance services; installation, repair and maintenance services for electrical and gas apparatus, infrastructures and installations; construction, installation fitting, repair and maintenance of buildings and pipelines; fitting, repair and maintenance services for apparatus or installations supplying electricity, oil, thermal heat and gas; installation and servicing of engineering systems; plumbing services; installation, maintenance and repair of communication networks, communication systems, fire and intruder alarms; building, construction, supervision, repair and maintenance of bridges, roads, tunnels, railways, underground and other structures; building project management; building refurbishment; damp proofing and fire proofing of buildings and other structure during construction; renovation and restoration of buildings and other structures; central heating installation; heating equipment repair; installation of heating apparatus; routine servicing of heating apparatus; energy contracting services namely supply of electricity, oil, thermal heat and gas to a selected point of use; consultancy, information and advisory services relating to all the aforesaid services.

Class 39:

Supply, storage, metering, transmission, distribution, delivery and transportation of energy, gas, gaseous fuel, electricity, thermal heat, oil and fuels; transport; packaging, storage and delivery of goods; energy, gas, gaseous fuels, oil, electricity, thermal heat and fuels distribution; distribution of energy for heating and cooling buildings; advisory, information and consultancy services relating to the supply and distribution of gas, electricity and other forms of energy.

Class 40:

Production of energy; electricity generation; thermal heat generation; production of fuel, gas and oil; rental of heating apparatus; consultancy, information and advisory services relating to all of the aforesaid services.

Class 42:

Civil engineering; Metering services.

(4, 9, 11, 12, 16, 25, 35, 36, 37, 38, 39, 41, 42)

Class 4:

Gas and oil fuels; natural gas; hydrogen for use as a fuel; industrial oils and greases; lubricants; fuels; gas, gaseous fuels, oils; fossil fuels; electricity; electrical energy; electrical energy from renewable sources; electrical energy from non-renewable sources.

Class 9:

Electric and electronic control apparatus, systems, devices and installations; programmable control apparatus; remote control apparatus; temperature controllers; temperature controlling apparatus; thermostats; energy control devices; thermostat control apparatus; thermal controls; boiler control apparatus; communications controllers; electrical and electronic control devices for energy and power management; software; computer software; software and mobile applications for the management of energy, insurance and services accounts, including bill payments, tariff and product selection, monitoring usage, reviewing statements and accessing customer services; energy and power management software; software for control, regulation and monitoring of energy systems; software and hardware for remotely controlling and monitoring household devices, home electrical systems, and surveillance and security systems in homes; household energy saving and control apparatus; household energy measuring and monitoring apparatus; electric and electronic control devices for home energy management; communications software for connecting to global computer networks; software for temperature and lighting control; multiple control signal transmission units; network controlling apparatus; communication interface units; interface software; interactive software accessible on computers and via mobile telephones; mobile phone applications; wireless communication

List of cases accepted for opposition purposes as shown in Journal 2025/042 published on 17 October 2025 .

apparatus; communication networks; surveillance apparatus; burglar alarms; security control apparatus; electronic and automatic access security apparatus; security video cameras and television monitors; intruder detection systems and apparatus; software to control building access and security systems; meters; meters for measuring and monitoring energy; computer software for use in meter reading, monitoring and reporting; smart meters; smart meters, namely meters for testing, displaying and reporting on-going energy usage; electricity meters; electrical meters; gas meters; gas-flow meters; water meters; fuel dispensing, metering and storage equipment and systems; visual display units; apparatus, equipment and instruments for measuring the efficiency, performance and consumption of gas boilers; electric and electronic power consumption sensors, wireless transceivers, computer network interface devices and software for monitoring electrical energy systems, managing and analysing energy consumption information associated with electrical energy systems and detecting faults in electrical energy systems; solar panels; fuel cells; solar cells; solar modules; solar batteries; electrical apparatus utilising solar cells; apparatus for the testing of solar cells and solar panels; photovoltaic cells and modules; solar electric systems and solar electric installations for use in providing power to commercial, residential and industrial premises; photovoltaic apparatus and installations for generating solar electricity; inverters; solid state electronic controls used to regulate current flow; electronic control units including software for monitoring solar electric or wind power systems; photosensors; calibrated photovoltaic reference cells; capacitors; ultracapacitors; circuit breakers and electric circuit closers; energy storage apparatus; electricity storage apparatus; batteries; electric battery chargers; power supply devices for battery chargers; battery charging equipment and apparatus; vehicle battery charging apparatus and equipment; electric apparatus for charging vehicle batteries; charging systems for electric powered vehicles; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; mobile communication terminals; mobile data communications apparatus; data transmitting apparatus; alarms; alert systems; data processing equipment; computers; computer hardware; plugs; wireless apparatus; leak detection apparatus; sensors and detectors, motion sensors; smoke detectors; gas detectors; carbon monoxide detectors; fire alarms; electrical switches; electrical plugs; electrical sockets; electrical adaptors and remote controls for electrical equipment and devices; downloadable electronic publications; downloadable audio and video recordings; parts, fittings and accessories for the aforementioned goods.

Class 11:

Apparatus for heating, lighting, steam generating, drying, ventilating, air conditioning, water supply and sanitary purposes; central heating apparatus and installations; boilers; boilers being parts of central heating installations; security lights; lighting; light bulbs; control devices for heating, lighting, steam generating, drying, ventilating, air conditioning, water supply and sanitary installations; apparatus for controlling temperature in heating installations; thermostatic valves; automatic temperature regulators for central heating systems; heat pumps; heat pumps for energy processing; ground source heat pumps; air source heat pumps; exhaust gas heat pumps; solar collectors for heating; solar heating apparatus and installations; solar heating panels; parts, fittings and accessories for the aforementioned goods.

Class 12:

Vehicles; electric vehicles; apparatus for locomotion by land, air or water; motors (including electric motors) and engines for land vehicles; vehicle body parts; vans; body panels for vehicles; parts, fittings and accessories for the aforementioned goods.

Class 16:

Paper; printed paper; printed certificates; promotional publications; flyers; posters; brochures; pamphlets and leaflets; books; handbooks; magazines; journals; printed research reports; white papers; cards; identification cards; name cards; name badges; visiting cards; instructional manuals and materials; training manuals.

Class 25:

Clothing, footwear, headgear; jackets; t-shirts; tops; polo shirts; work clothes; working overalls; uniforms; uniforms for commercial use.

Class 35:

Advertising; marketing; marketing, advertising and promotion services; market study and research services; Business management; business administration; office functions; energy usage management; consulting services in the field of energy efficiency; management of telephone call centres; outsourcing services; data processing and data management; market forecasting; economic forecasting; provision of business information; procurement of contracts concerning energy supply; procurement, namely, purchasing electricity and gas for retail customers; arranging of trading transactions and commercial contracts; subscription services relating to an electric battery charging service; subscription services relating to a charging service for electric vehicles; subscription services to a supply, storage and distribution network of gas, electricity and energy; subscription services in relation to connected homes (being homes where multiple electric devices are networked or otherwise integrated together to create a home environment that can be easily controlled); gas and electricity tariff information services; energy price comparison services; comparison services for prices for electric vehicle charging; administration of loyalty programmes involving discounts or incentives; organisation, operation and supervision of incentive and loyalty schemes; customer loyalty and reward schemes; tracking and monitoring energy consumption for others; billing services; billing services in the fields of energy and utilities; business and advisory services relating to the purchase and/or sale of gas, gaseous fuels and electricity; utility bill management services, namely, tracking, reporting, analysing and delivering energy information in the form of utility bills and utility meter data rate schedules; provision of energy usage and billing information including the provision of such information online or electronically; utility meter reading services; meter reading of gas and electricity consumption; vehicle fleet management; auctioning of vehicles; information, advisory and consultancy services relating to all the aforesaid services.

Class 36:

Financial services; investment services; monetary affairs; financial risk management services; financial services for the payment of bills; bill payment services; electronic payment services; contactless payment services; direct debit services; credit services; invoice discounting services; issuing of discount coupons; insurance services; residential and landlord insurance; trade and construction insurance; insurance brokerage services; loan and credit facilities; financing of energy projects; financing for renewable technologies including heat pumps, solar panels

List of cases accepted for opposition purposes as shown in Journal 2025/042 published on 17 October 2025 .

and EV chargers; insurance for maintenance and repair of boilers, appliances, heating systems, central heating systems, central heating controls and other related appliances; insurance for maintenance and repair of plumbing, drains and home electrics; insurance for maintenance and repair of kitchen and other household appliances; insurance for the maintenance and repair of home energy systems including for energy collection and the storage, distribution and processing of gas, electricity and renewable energy; insurance for the maintenance and repair of electric vehicle charge points, solar panels, heat pumps, home batteries and other renewable technologies; direct debiting and discount services; financial lending; personal lending; financial lending for home improvement; financial lending services for personal purposes; financing of commercial appliances and equipment; financing of home and commercial appliances and equipment; energy brokerage services; brokerage of energy to retail customers in the form of electricity and gas; brokerage of emission rights; derivatives trading services, trading of financial derivatives; information, advisory and consultancy services relating to all the aforesaid services.

Class 37:

Building construction; services for the maintenance, repair, unblocking, cleaning, clearing, descaling, sterilising, disinfecting, fumigating and deodorising of drainage and piping systems, sewers, manholes, grating, culverts, chambers, gullies, flues and channels for the passage of liquids, solids or of gases; hygienic cleansing for buildings, mobile structures, vehicles, tanks, baths and pools; plumbing services; installation, maintenance and repair of pipes, cisterns, tanks, heating and potable water systems; glazier services; roofing, carpentry and electrician services; construction and repair of roofs; resurfacing and tiling of roofs; repair of roof guttering, rain channels and drain pipes; installation, repair and maintenance of electricity supply apparatus and of fixtures thereof and of electrical and electronic apparatus and instruments; electrical repairs, installation and contracting services for residential and commercial wiring or electrical apparatus and appliances, electrical panels, electrical outlets, fuse boards, switches and light fixtures; cleaning services; carpet laying and carpet fitting services; fitting of blinds and curtains; locksmith services; installation and maintenance of bolts, locks, grills, alarms, safes, security devices and of closed circuit television; installation, maintenance and repair of burglar alarms and security systems; installation of residential security apparatus; installation of hardware and cables for Internet access; installation of hardware for computer networks; installation, maintenance, servicing and repair of computer hardware, household devices, home electrical systems and surveillance and security systems in homes; installation, maintenance, servicing and repair of kitchen and other household appliances; installation of communications network instruments; installation, maintenance, servicing and repair of apparatus for heating, lighting, sanitation, ventilation, air conditioning and water supply; installation, servicing, maintenance and repair of boilers and central heating systems; installation, maintenance and repair of apparatus and systems for monitoring the performance of boilers and heating systems; installation, servicing, maintenance and repair of heating and lighting control apparatus; construction, refurbishment, inspection, repair, maintenance and decommissioning of pipelines; installation, refurbishment, inspection, repair, maintenance and decommissioning of energy supply installations and energy production plants; construction, repair and maintenance of gas installations; installation, servicing, repair and maintenance of instruments, appliances

and apparatus all utilising gas; installation of insulation materials; building insulation; installation, servicing, repair and maintenance of gas, oil or electrical appliances or instruments using gas, oil or electricity; installation, servicing, repair and maintenance of gas, oil, electricity or water meters, air conditioning and ventilation appliances; installation, maintenance, servicing and repair of solar heating and power installations; installation, maintenance, servicing and repair of batteries and energy storage apparatus; laying, repair, maintenance and inspection of pipelines; recharging services for electric vehicles; installation, maintenance, servicing and repair of apparatus, fixtures and instruments for charging electric vehicles; installation of equipment and facilities for the collection, storage, distribution, processing of gas, electricity and renewable energy; construction, installation, maintenance and repair of stations for charging electric vehicles and batteries on public roads and spaces; vehicle battery charging services; electric vehicle battery charging services; information, advisory and consultancy services relating to all the aforesaid services.

Class 38:

Telecommunications services; electronic transmission of messages, data, images and signals; telecommunications and data communication services; providing access to a computer network; transmission of sound, picture and data signals; transmission of sound or visual recordings over networks; message sending via a website; providing access to web pages; electronic transmission of data and documents via the Internet or other databases; chat room services; delivery of data and messages by electronic transmission; electronic message sending; message sending, receiving and forwarding; online services, namely, message sending; communication by computer, computer intercommunication; wireless communications services; wireless transmission of data and information; wireless telephone services; providing access to an interactive user interface; providing access to an online interface; providing access to an online interface for controlling heating, water supply, lighting, sanitation, air conditioning, ventilation and security apparatus; providing access to an online interface for controlling apparatus for EV charging, battery charging and other renewable technology; communications by means of mobile phones, global computer networks, the Internet and wireless transmission; wireless communications services; communications by means of mobile phones, global computer networks, the Internet and wireless transmission that connect to gas boilers and other apparatus for heating, lighting, steam generating, drying, ventilating, air conditioning, water supply and sanitary purposes; communications by means of mobile phones, global computer networks, the Internet and wireless transmission that connect to apparatus for EV charging, battery charging and other renewable technology; provision of e-mail services; alarm services, messaging services and alert services via the Internet, e-mail, computer networks and telecommunications networks relating to home security and to home energy use, management and consumption; electronic transmission of messages, images and signals; information, advisory and consultancy services relating to all the aforesaid services.

Class 39:

Storage, metering, distribution, transportation and delivery of electricity; storage, metering, distribution, transportation and delivery of oil and gas; storage, metering, distribution, transportation and delivery of electrical energy from renewable sources; transmission and supply of electricity; transmission and

List of cases accepted for opposition purposes as shown in Journal 2025/042 published on 17 October 2025 .

supply of oil and gas; transmission and supply of electrical energy from renewable sources; transport services; vehicle rental; transport, packaging and storage of goods; information, advisory and consultancy services relating to all the aforesaid services.

Class 41:

Training services relating to the selection, installation, operation, repair and maintenance of electrical, oil or gas fired apparatus and instruments; education services relating to the energy, gas, oil and electricity industry; education; providing of training; educational and training services in relation to carbon offsetting, conservation, the provision and conservation of energy, energy sources, energy efficiency, environmental issues, environmental pollution and environmental protection; entertainment; sporting and cultural activities; organising of competitions; organising exhibitions for cultural or educational purposes; production of radio and television programmes, production of shows and videos; production of educational and instructional films relating to energy and the selection, installation, operation, repair and maintenance of electrical, oil or gas fired apparatus and instruments; providing on-line publications (non-downloadable); provision of non-downloadable videos; entertainment in the nature of competitions; information, consultancy and advice relating to the aforesaid services.

Class 42:

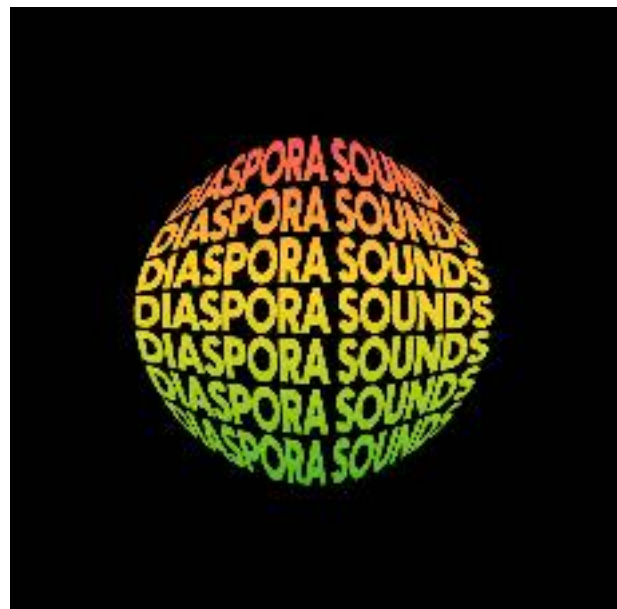

Scientific and technological services and research and design relating thereto; industrial analysis and research services; creation, maintenance and hosting of websites; information, advisory and consultancy services relating to the use of energy, energy efficiency and energy-saving; developing of integrated energy concepts; preparation of technical reports; preparing and providing engineering or technical reports relating to energy consumption; design and development of systems for generating and using energy; installation, maintenance, updating, design, rental and repair of software, computer programs and computer systems; selection, capture and storage of data relating to energy consumption; design and development of computer systems, hardware and software; engineering services in the fields of planning and deploying electrical energy systems and analysing and managing energy system efficiency; engineering services in the field of energy technology; technological analysis relating to energy and power needs of others; Software as a service [SAAS]; platform as a service [PAAS]; Software as a Service [SaaS] and platform as a service [PaaS] in relation to power and energy management; Software as a Service [SaaS] and platform as a service [PaaS] for control, regulation and monitoring of energy systems; cloud-based software as a service (SAAS) featuring software for analysing electrical power consumption data at monitored locations; providing information and hosting of platforms enabling consumers to view, manage and control the use of energy, electricity, gas and other utilities; providing information and hosting of platforms for transactions and communications relating to energy and the supply and sale of energy; energy auditing; auditing of energy consumption in buildings and domestic homes; auditing of the energy efficiency of apparatus used for heating, lighting, steam generating, drying, ventilating, air conditioning, water supply and sanitary purposes; auditing, assessing and advising on energy consumption and safety and efficiency of gas, oil or electrical appliances; surveying services; provision of expert appraisals relating to energy, sustainability and the environment; services relating to the checking of the safety of apparatus used for the purpose of generating, transmitting and distributing electricity, gas and oil; infrastructure as a service for electric vehicles;

design, development and engineering services in relation to infrastructure, systems, networks, software and apparatus for the charging of electric vehicles; design, development and engineering services in relation to infrastructure, systems, networks, software and apparatus for the fuelling of vehicles powered by hydrogen or other gases; engineering work in the field of production, management, distribution of electric power, gas and renewable energy; design and development of energy and power management systems; design and development of energy distribution networks; design and development of energy management software; design and development of software for control, regulation and monitoring of energy systems; engineering services relating to energy supply systems; design and development of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; design, development and engineering services for batteries and other energy storage apparatus; architectural, engineering and construction design services featuring means for energy conservation for residential and commercial premises; lighting design for homes and commercial buildings; home automation services, namely, remote monitoring of electricity generating equipment and apparatus for heating, lighting, ventilating, air conditioning, EV charging, battery charging and other renewable technology via the use of wireless, telephonic, electric and web monitoring technologies; providing technological information about environmentally-conscious and green innovations; information, advisory and consultancy services relating to all the aforesaid services.
