Construction materials of metal; transportable buildings of metal; non-electric cables and wires of metal; hardware of metal; metal storage or transport containers; safes; products made of common metals, not included in other classes; metal housings for electrical installations; pipes and tubes of metal; handling pallets of metal; sleeves of metal; metal valves and flow control valves; junctions of metal for pipes; metal fencing systems; steel transmission and distribution structures; galvanized and copper bars and couplings; frames of metal; metal components, couplings, joints and support brackets for cables and ducts; chests of metal; metal braces for carrying loads; wheel clamps of metal; binding screws of metal for cables; threaded fasteners of metal; metal support brackets for pipes; elbows of metal for pipes; sealing caps of metal; hose fittings of metal; flanges of metal (collars); nuts of metal; bolts of metal; box fasteners of metal; nozzles of metal; metal coverings; partitions of metal; metal adaptors for tubes; cable ribbons and collars (metal); corrugated tubes and pipes for protecting electric cables; metal couplings and screw fastenings for cables, tubes and pipes; clips; metal couplings for tubes, pipes or corrugated tubes for protecting electric cables; cable joints of metal; junctions of metal; connection elbows or metal connection elbows for tubes, pipes or corrugated tubes for protecting electric cables; components and accessories for all the aforesaid goods; common metals and their alloys, ores.

Class 7:

Machines for use in the fields of electrification, industrial automation; machines for industrial robotics and drive mechanisms, motors and engines, generators, mechanical power mechanisms and drive systems; machine tools and mechanical tools and their components; motors and engines and motor and engine parts other than for land vehicles; clutches and power transmission devices and their components, other than for land vehicles; agricultural implements other than hand-operated; ship propulsion mechanisms; water vehicle propulsion mechanisms; cranes (lifting and hoisting apparatus); mobile cranes; floating cranes; electric and power generators; electricity generators and current generators; handling and transport equipment and installations; couplings and clutches, other than for land vehicles; control apparatus for machines, driving motors or motors and engines; drives for machines; elevator drives; drives for conveyors; wind turbines generating electricity; turbines other than for land vehicles; wind turbines; lifts and lift controls; handling and transport apparatus; conveyors and belt conveyors; turbocompressors; pumps, compressors and blowing machines; mills (machines); drilling rigs, floating or non-floating; lifts (machines) and elevator control apparatus; robots; industrial robots; hydraulic and pneumatic couplings for pipes as parts of machines; components and accessories for all the aforesaid goods.

Class 8:

List of cases accepted for opposition purposes as shown in Journal 2025/045 published on 07 November 2025 .

Hand-operated hand tools and implements; cutlery; side arms, other than firearms; razors; components and accessories for all the aforesaid goods.

Class 9:

Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signaling, detecting, testing and control apparatus and instruments, and their components; apparatus and instruments as well as their components for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for sound, image or data recording, transmission, reproduction or processing; recorded or downloadable media, software, blank digital or analog recording and storage media; mechanisms for coin-operated apparatus; computers and computer peripheral devices; nautical, meteorological, automation, electric, analysis, diagnostic (other than for medical use), display, checking (supervision), monitoring, control, alarm and emergency apparatus, instruments and equipment, and components therefor; apparatus and instruments as well as their components for the production, processing, storage, transport, supply or measurement of the distribution or use of electricity; software (downloadable); tablet computers; data recorders; security, safety, protection and signaling apparatus, instruments and equipment; electric distribution boards and their components; sensors; tubes (electricity); pipework (electricity); cable sheaths (lines); magnetic recording media; chargers for electric batteries; electrical condensers [capacitors]; electric collectors with photovoltaic elements; terminals (electricity), electric wires, conduits and cables; inductors (electricity); electric and electronic apparatus, devices and instruments and their components for the production, distribution and supply of energy by photovoltaic installations; fuel cells; transformers; current inverters; current rectifiers; current converters; connectors (electricity); electric transistors, thyristors, diodes; semiconductor power elements; electric resistances; batteries (cells); electric apparatus; electric recloser; switches; rectifiers; electric relays; ducts [electricity]; electrical safety fuses and devices; distribution boxes [electricity]; distribution boards, racks and plates (electricity); mains distributors and sub-distributors for electrical energy; apparatus and devices for the transport, distribution and control of electric current; solar cells; solar modules; electric cables, electricity conduits and electric wires; electric converters; junction sleeves for electric cables; integrated circuits (chips); printed circuits; electric sockets; gauges; power modules (calculators); energy distribution boards and electric and electronic installations and their components for the remote control of lasers for automated industrial processes; plugboards and distribution consoles (electricity); electrical regulators; electric and electronic apparatus and devices, namely microcircuits, microchips (computer hardware), integrated circuits for defined use, custom integrated circuits and integrated circuits for specific applications; power supplies and their components; database and application integration software; interfaces (for computers); recorded data; radio broadcasting apparatus and equipment; communications equipment; data transmission networks; equipment for telecommunications; electronic, magnetic and optical storage media, floppy disks, compact disks, magnetic disks, optical disks; optical compact disks, data protection backup devices; semiconductor chips for storing technical data; downloadable electronic publications; data processing equipment; microprocessors; downloadable software

applications for use with mobile devices; semiconductors; printed circuit boards; data backup devices; operating system programs for computers; modems; sensors, gateways and antennas for the Internet of Things (IoT); application computer software, particularly for implementing the Internet of Things (IoT); computer hardware modules intended for use in the Internet of Things (IoT); computer hardware and software intended for use in electronic apparatus using the Internet of Things (IoT); computer hardware and software for data analysis, machine learning, automation processes and Internet of Things (IoT) applications; software enabling the implementation and provision of machine learning, artificial intelligence, analysis of large amounts of data in terms of relationships between the data and the analysis of the data; computer software development tools; electric and electronic regulators and control systems; application software for the Internet of things (IoT) and regulation and monitoring applications; computer servers; computer software platforms; downloadable software for blockchain technology; downloadable virtual goods, namely virtual goods in the fields of electrification, drive mechanisms, motors and engines, generators and mechanical transmission, automation products as well as downloadable digital files in the field of robotics, authenticated by non-fungible tokens (NFTs); control apparatus for controlling industrial robots; computer hardware and software for regulating and controlling industrial robots; software for the automation of robot processes for industrial automation; apparatus and instruments for controlling and regulating robots; educational robots; surveillance robots for security; application software for robots; electric control apparatus for robots; laboratory robots; humanoid robots with artificial intelligence for scientific research purposes; telepresence robots; charging stations for electric vehicles; electric accumulators for vehicles; interference suppression devices; storage devices for data processing systems; breakers (circuit breakers); voltmeters; automatic control apparatus for vehicles; high-voltage overhead lines; electric cables; transformers (electric); electric control units for machines and motors and engines; electrical and electronic control apparatus and instruments; nautical apparatus and instruments; sockets, plugs and other contacts [electric connections]; housings for electrical installations; components and accessories for all the aforesaid goods.

Class 10:

Surgical, medical, dental and veterinary apparatus and instruments; therapeutic and assistance devices designed for people with disabilities; massage apparatus; apparatus, devices and articles for child care; electric apparatus and instruments for medical use; electrodes for medical use; lasers for surgical, medical, dental and veterinary use; nanobots for medical use; surgical robots; robotic exoskeleton suits for medical use; sensors (measuring apparatus) for medical use; components and accessories for all the aforesaid goods.

Class 11:

Apparatus and installations for lighting, heating, cooling, steam generation, drying, ventilation and water supply; solar thermal collectors (heating); ventilating and air-conditioning installations; chromatography apparatus for industrial use; nuclear fuel processing and nuclear reaction braking installations; regulating and safety accessories for gas apparatus; lighting apparatus for use in hazardous and difficult environments, including large-area lighting, linear lighting,

narrow/small lighting, emergency lighting, security lighting and floodlighting; components and accessories for all the aforesaid goods.

Class 12:

Vehicles; apparatus for locomotion by land, air or water; automated guided vehicles; robotic cars; electric cars; driving chains for land, air, sea and rail vehicles; aeronautical apparatus and machines; screw-propellers; vertical blade propellers; propellers for boats; hydraulic circuits for vehicles; transmission chains and bearings for transmission shafts for land vehicles; turbines for land vehicles; couplings for land vehicles; remote-controlled vehicles other than toys; components and accessories for all the aforesaid goods; electric motors and engines for cars; gear boxes for land vehicles; gearing for land vehicles; engines for land vehicles.

Class 16:

Printing products (printed matter); bookbinding material; stationery and office requisites, except furniture; drawing materials and materials for artists; paintbrushes; instructional or teaching material; printing type, printing blocks; adhesive labels, paper labels; stationery as well as teaching or instructional material; components and accessories for all the aforesaid goods; paper and cardboard; photographs; adhesives for stationery or household purposes; plastic sheets, films and bags for wrapping and packaging.

Class 17:

Non-metal flexible tubes, pipes and couplings; insulators; insulating foams; soundproofing materials; pipe joints not of metal; joints for tubes, pipes and corrugated pipes; plastic pipe couplings; connectors of plastic; non-metal elbows or coupling elbows for tubes, pipes or corrugated pipes for protecting electric cables; sleeves of plastic materials; materials, mainly made of plastic, for binding and identifying cables and wires; heat-shrinkable insulation sheaths for cables and wires; components and accessories for all the aforementioned articles; unprocessed and semi-processed rubber, gutta-percha, gum, asbestos, mica and substitutes for all these materials; semi-processed plastics and resins intended for use in production; caulking, packing and insulating materials; pipe sleeves, not of metal.

Class 19:

Non-metallic construction materials; non-metallic rigid pipes for building; transportable buildings not of metal; monuments not of metal; non-metal construction beams; advertisement columns, not of metal; beacons not of metal, non luminous; signaling panels and plates, non-metal, non-luminous and non-mechanical; components and accessories for all the aforesaid goods; asphalt, pitch, tar and bitumen.

Class 20:

Furniture, mirrors, picture frames; transport or storage containers not of metal; non-metallic transport and handling pallets; plastic valves or flow control valves other than parts of machines; non-metal pipe and cable clamping collars; cotter pins, nuts, caps, socket head bolts, bolts, fittings, containers, boxes, not made of metal; components and accessories for all the aforesaid goods; unworked or semi-worked bone, horn, whalebone or mother-of-pearl; shells; meerscham; yellow amber.

Class 21:

Household or kitchen utensils and containers; cooking utensils and tableware, except forks, knives and spoons; brushes, except paintbrushes; brush-making materials; cleaning material; unworked or semi-worked glass, except building glass; glassware.

Class 25:

Clothing, footwear, headwear.

Class 35:

Advertising; commercial business administration, organization and management; office functions; public relations; market studies; computerized file management services; collection, compilation, systematization and updating of data in computer databases; cost price analysis; advice on personnel management; business appraisal; economic forecasting; compilation of statistics; compilation of commercial efficiency reports and compilation of corporate efficiency reports; accounting; professional commercial resource planning; import-export agencies; opinion polling; organization of exhibitions for commercial or advertising purposes; computerized online ordering and shipping services for electric, electronic and lighting products, as well as related equipment and accessories, offered via a global computer network; wholesale or retail services, online or offline, for products for electrification, industrial automation, robotics and drives, motors and engines, generators, mechanical transmission products and integrated digital drive solutions; press relations services; organization, operation and monitoring of loyalty and incentive schemes; provision of business information; commercial lobbying services; company evaluation (benchmarking); providing commercial information and consumer information; advertising intermediary services related to the rental of advertising space in newspapers, brokerage and rental of advertising spaces on the Internet, services for preparing and concluding commercial transactions for third parties, commercial intermediation services, personnel recruitment and placement; commercial intermediary services in the field of group purchasing; business evaluation services; commercial analyses, commercial research and commercial information, particularly compliance assessment, commercial business assessment, corporate assessments and analyses; data processing and management; assessing commercial opportunities concerning commercial matters connected with corporate management; commercial and business networking; updating and maintenance of data in computer databases; statistical analyses and reporting services for commercial purposes; retail and wholesale services, including on the Internet for downloadable or non-downloadable virtual goods, namely virtual goods for electrification, drive mechanisms, motors and engines, generators and mechanical power transmission, automation and robotics products; retail and wholesale services, including on the Internet for downloadable or non-downloadable virtual goods, namely virtual goods for electrification, drive mechanisms, motors and engines, generators and mechanical transmission, automation and robotics products (authenticated by non-fungible tokens); retail and wholesale services, including on the Internet, for software, electric vehicles, components and accessories for electric vehicles; provision of information and advice relating to all the aforesaid services.

Class 36:

List of cases accepted for opposition purposes as shown in Journal 2025/045 published on 07 November 2025 .

Financial, monetary and banking services; insurance services; real estate services; financial sponsorship; financial sponsorship; provision of information and advice relating to all the aforesaid services.

Class 37:

Construction services; installation and repair services; installation, servicing and repair services relating to products in the fields of electrification, industrial automation, robotics and drive mechanisms, motors and engines, generators, mechanical power transmission products and integrated digital drive solutions; maintenance, repair and installation of industrial equipment and power lines; maintenance, repair and installation of computers and computer network equipment; underwater construction; maintenance, installation and repair of computer hardware and computer network installations; mining of natural resources; project management in the field of construction (works supervision); installation, repair and servicing of measuring apparatus and instruments; rental of industrial robots intended for use in the context of construction, repair, maintenance and installation services; servicing and repair services for vehicles; repairing, servicing, refueling and recharging electric vehicles; installation, repair and servicing works relating to charging stations for electric vehicles; installation, servicing, repair and troubleshooting of electric machines and equipment; pipeline construction and maintenance; installation, maintenance, repair and update of computer hardware; provision of information and advice relating to all the aforesaid services.

Class 38:

Telecommunications; data transmission services, particularly via global computer networks; providing access to computer databases and information via global computer networks; provision of access to global computer networks; electronic message sending and receiving services; communication through networks; transmitting sound, images, signals and data through networks; wireless broadcasting services for radio and television programs; providing Internet access services; providing access to electronic communication services; provision of access to data on computer networks; transmitting messages, data and content on the Internet and other computer and communication networks; creating access to computer databases; rental of access time to databases; providing connections between computer hardware and network equipment and the cloud; providing connections between information technology systems and operational technology systems; press and information agency services (news); broadcasting of radio and television programs; providing telecommunications connections to a global computer network; provision of user access to computer programs in data networks; provision of video conferencing services; wireless mobile telephone services; computer-aided transmission of messages and images; paging services (radio, telephone or other electronic means of communication); satellite transmission; telephone services; telephone exchange switching services (telecommunications); rental of telecommunication equipment; rental of message sending apparatus; rental of access time to global computer networks; telematic services; sending data and transmitting documents by telematic services; providing access to platforms and portals on the Internet; transmission of podcasts; provision of information and advice relating to all the aforesaid services.

Class 39:

Transport; packaging and storage of merchandise; travel organization; distribution and transport of energy and electricity; distribution of water and gas; delivery of merchandise; freightage; unloading; transport by pipelines; transport and storage of waste; machine and container filling services; chauffeur services; piloting; parking services; vehicle rental; fleet vehicle management using navigation and positioning apparatus; logistics services with respect to transport; car-sharing services; organization of passenger transport services for third parties via an online application; electricity storage (warehousing); provision of information with respect to traffic; business removal services; provision of information and advice relating to all the aforesaid services.

Class 40:

Provision of information relating to the treatment of materials; recycling of trash and waste; air purification and water treatment; printing services; food and beverage preservation; treatment of waste and hazardous substances; production of energy; waste treatment, oil treatment; air treatment; air purification, air freshening; refining services; rental of power generators; sorting waste and recyclable materials; custom manufacture of transportable prefabricated houses; custom manufacture of housings for electrical installations; energy treatment and transformation; rental of equipment for energy production; rental of industrial robots for industrial production; provision of information and advice relating to all the aforesaid services.

Class 41:

Education; training; entertainment; sporting and cultural activities; provision of courses through an online platform; electronic desktop publishing; publication of books; publishing texts (excluding publicity texts); editing services, other than printing; drafting and publishing of texts other than advertising texts; organizing training, seminars, conferences, workshops, events and exhibitions; provision of non-downloadable electronic publications online; organizing exhibitions for scientific purposes; podcast production; publication of statistics; provision of information and advice relating to all the aforesaid services.

Class 42:

Scientific and technological services as well as research and design services relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computers and software; information technology services; industrial research, advice, planning and design of industrial installations; testing of materials; underwater and underground exploration; advice in the field of environmental protection; architectural services; engineering; energy auditing; monitoring and control of industrial processes; information technology monitoring of industrial sites and power plants; technical measuring and testing services; computer technology advisory services in the field of data and Internet security; research, design and development of production lines, machines, industrial robots, robots as well as computer software and hardware for the control and provision of production lines, machines, machine tools, robots and industrial robots; technological advice with respect to production lines, machines, industrial robots, robots, computer hardware and software and industrial automated logistics; Software as a Service (SaaS); temporary provision of

online non-downloadable operating software for accessing and using a cloud computing network; hosting of platforms on the Internet; creation of data processing programs; software as a service (SaaS) with machine learning software, data retrieval, data analysis and artificial intelligence services; providing technical information on the use of computers, computer hardware, software and computer networks; configuration, installation, maintenance, troubleshooting, repair and updating of software; computer Platform as a Service (PaaS); cloud computing; providing online non-downloadable cloud-based software; providing non-downloadable software applications for use with mobile apparatus; provision of computer programs on data networks, particularly on the Internet and the World Wide Web; design and development of computer hardware and software for industrial applications; industrial analysis services; services of a network engineer, including advice with respect to computer and network security; scientific and industrial research and advice with respect to network technology; artificial intelligence research; technological advice on artificial intelligence; software as a service (SaaS) with computer software platforms for artificial intelligence; Engineering in relation to robotics; designing and developing computer software for industrial automation; software as a service (SaaS) in the field of industrial automation; providing technical advice relating to computer hardware and software, particularly in the field of industrial automation; server hosting; authentication of data via a blockchain; data storage via a blockchain; certification of data via a blockchain; Blockchain as a Service (BaaS); user authentication using blockchain technology; hosting non-rechargeable virtual goods, namely virtual goods in the fields of electrification, drive mechanisms, motors and engines, generators and mechanical transmission, automation and robotics products; providing non-downloadable digital files authenticated by non-fungible tokens [NFTs]; technical advice concerning solar energy installations, photovoltaic installations and charging stations for electric vehicles; providing scientific information and technological advice with respect to e-mobility; industrial design services; packaging designer services; quality control; underwater exploration; engineering consultancy on environmental impact, advice with respect to energy saving, technical advice on energy-saving measures, technical advice in the field of energy saving and energy efficiency; carrying out chemical analyses; oil prospecting; oil-well testing; conducting analyses for oil extraction services; conducting appraisals on oil reserves; services provided by a physicist; technical advice with respect to computers; recovery of computer data; software maintenance; computer system analysis; research and development of new products; research in the field of technology and engineering; developing technical instruction manuals; engineering, including engineering advice; construction work planning; technical project planning and advice relating thereto; rental of computer software and data processing equipment; provision of information and advice relating to all the aforesaid services.

Class 43:
Services for providing food and beverages.

Class 44:
Medical services; veterinary services; hygienic and beauty care for human beings or animals; agriculture, aquaculture, horticulture and forestry services.

Class 45:

Legal services; security services for physical protection of property and individuals; licensing services for industrial and intellectual property rights; legal services relating to patent exploitation; standards and practices examination services for participants in a certification program in order to check their compliance with energy saving standards, environmental standards, laws and regulations; Lobbying services other than for commercial purposes; court and out-of-court dispute resolution services; provision of information and advice relating to all the aforesaid services.

to the medical field; data processing software related to image data; database synchronization software; downloadable mobile applications for use with wearable computer devices; downloadable computer software for remote monitoring and analysis; downloadable software for smart devices for heart rate monitoring; downloadable electronic publications; downloadable image files; downloadable graphics for mobile devices; electronic publications, provided on digital data carriers or via the Internet, online or via other (electronic) channel; file synchronization software; graphical user interface software; graphical user interface software for medical imaging; health monitoring software; image analyzers; interface software; interactive electronic publications; interactive software based on artificial intelligence; machine learning software; machine learning software for healthcare; machine learning software for analysis; medical simulators [teaching aids]; mobile phone software applications; operating system programs; operating system software; operating systems; point to point communication systems; robotic process automation (RPA) software; software as a medical device (SaMD), downloadable; software for use in the field of healthcare; software for card readers; software for the integration of artificial intelligence and machine learning in the field of Big Data; software for monitoring, analysing, controlling and running physical world operations; software for remote diagnostics; software related to the medical and health care field for use in virtual reality and virtual reality platforms; software for use in the field of medical imaging; virtual and augmented reality software; virtual reality software for medical teaching; apparatus for recording, transmission or reproduction of data, sound or images; apparatus and instruments for data processing; alarms; apparatus and instruments for accumulating and storing electricity; batteries; battery packs; card reading equipment; computer hardware for remotely accessing and transmitting data; computer hardware modules for use with the Internet of Things (IoT); computer hardware modules for use in electronic devices using Internet of Things (IoT); computer hardware for the collection, editing, organizing, modifying, book marking, transmission, reporting, viewing, storage and sharing of data, images, video, multimedia files and information; computers; computer hardware; computer peripheral devices; chargers for batteries; data carriers; data processing systems; data processing equipment; digital data carriers; DECT monitors; digital video monitors; electrical remote control apparatus; electrical monitoring apparatus; electrical controlling devices; electronic sensing and monitoring devices; humanoid robots with artificial intelligence for use in healthcare; humanoid robots having communication and learning functions for assisting people; imaging apparatus; monitors (hardware); optical apparatus and instruments; optical data media; robotic electrical control systems; remote control apparatus; screens; simulators; teaching apparatus; wearable communications apparatus; wearable computer hardware; wearable digital electronic devices capable of providing access to internet; wireless communication apparatus and systems; workflow software; workflow management system software; all of the above in relation to the medical and health care field.

Class 10:

Medical imaging apparatus; diagnostic imaging apparatus for medical use; apparatus for analyzing images for medical use; surgical robots; robotic exoskeleton suits for medical purposes; wearable walking assistive robots for medical purposes; wearable monitors used to measure biometric data for medical

use; apparatus for monitoring vital signs; apparatus for blood monitoring (for medical use); diagnostic, examination, and monitoring equipment; analyzers for medical use; apparatus for use in medical analysis; all of the above in relation to the medical and health care field.

Class 35:

Management of health care clinics for others; administrative management of health care clinics; business management; business administration; business data analysis; business evaluation services in business matters; business analysis services; business data analysis services; business information services; business management analysis; business process management; business organization and operation consultancy; business management for hospitals; development of hospital management systems; data processing, systematization and management; business consultancy services; business consultancy services for digital transformation; business administration services in the field of healthcare; computerized management of medical records and files; data processing services in the field of healthcare; health care cost management; compilation and dissemination of business statistics relating to health care utilization; all of the above in relation to the medical and health care field.

Class 37:

Maintenance and repair of computer hardware; maintenance and repair of data-processing apparatus; maintenance and repair services, in particular maintenance and repair of surgical, medical and healthcare apparatus; upgrading of computer hardware; rental of battery chargers; replacement of batteries; all of the above in relation to the medical and health care field.

Class 38:

Communication services; communication services between computers; communication services between data banks; communication services (electronic -); communication services for the electronic transmission of data; communication services, namely, electronic transmission of data and documents among users of computers; digital communication services; data communication services; data communication consultancy services; data communication via electronic aids; data communication via electronic mail; data communication via telecommunication means; data communication, computerized; data transmission; data transmission services via satellite; data transmission via internet; data transmission via telecommunication means; data transmission via computers; data transmission via computer systems; data transmission via electronic mail; data transfer services; electronic data transmission; electronic and digital transmission of data, voice, images, signals, information, messages and multimedia files via computer terminals and electronic devices; electrical data transmission via remote data processing network, including the internet; electronic messaging services; electronic data exchange; online messaging services; provision of access to data or documents stored electronically in central files for remote consultation; providing telecommunications connections to a global computer network or databases; rental of wireless communication systems; wireless communication services; providing multiple-user access to a global computer network; providing multiple-user access to a global computer information network; providing multiple-user access to a global computer information network in the field of health care; providing access to databases; providing access to databases

in the field of health care; providing access to databases on the internet; providing access to computer networks; providing online virtual reality-based forums for work collaboration; providing online facilities for real-time interaction with other computer users; provision of access to electronic messaging systems in the field of health care; provision of access to electronic messaging systems; remote data access services; remote transmission of data by means of telecommunications; rental of computer communication apparatus and instruments; transmission of data, audio, video and multimedia files; all of the above in relation to the medical and health care field.

Class 41:

Training and education; educational and training services in the medical field and the field of health care; educational and training services in the field of online and offline systems used in health care and in the medical field; educational and training services in the use of data processing programs; clinical training; providing electronic publications; providing interactive electronic publications; publication of the results of clinical trials; rental of teaching robots; rental of training simulators; rental of humanoid robots having communication and learning functions for training people, via simulators; training services provided via simulators; all of the above in relation to the medical and health care field.

Class 42:

Advice and consultancy in relation to computer systems, computer software, computer networking applications and computer hardware; authentication services; authentication services for computer security; computer programming, in particular for others and in the medical field; computer programming, in particular for medical data; consulting services in the field of software as a service (SaaS); consulting services in the field of platform as a service (PaaS); consultancy and information services related to computer system integration; consultancy and information services related to updating and maintenance of software; consultancy related to software for communication services; computerised analysis of technical data; computer system analysis; computer security services; creation of control programs for automated measurement, assembly, adjustment, and related visualization; cloud computing; cloud computing services; cloud hosting provider services; clinical and medical research; clinical trials; clinical trials (conducting); clinical research services; data duplication and conversion services; data coding services; design and development of computer software for use with medical technology; design and development of software for medical applications; design and development of computer software in the field of health care; design and development of data processing software and apparatus; design and development of computer platforms; design and development of virtual reality software; design and development of virtual reality platforms; design and development of software for instant messaging; design, rental, upgrading and updating of computer software; design and development of software for acquiring, collecting, editing, organizing, processing, analyzing, modifying, transmitting, reporting, viewing, storing and sharing of data, digital images, video and multimedia files; design and development of operating software; design and development of operating software for accessing and using a cloud computing network; encryption, decryption and authentication of information, messages and data; hosting services, including hosting of databases, web portals, websites,

platform, digital content; Application service provider (ASP) services, namely hosting computer software applications of others; hosting software platforms for virtual-reality-based work collaboration; hosting multimedia educational content; hosting of Access Control as a Service (ACaaS) servers and software; information technology support services for the medical and healthcare industries; information technology support services related to the healthcare and medical field; information technology consultancy, advisory and information services related to the healthcare and medical field; installation, repair and maintenance of computer software; interactive hosting services which allow the users to publish and share their own content and images online; technical analysis services of images; IT security, protection and restoration; monitoring of computer systems by remote access; monitoring of computer system operation by remote access; Platform as a Service (PaaS); Platforms for artificial intelligence as software as a service (SaaS); Platform as a service (PaaS) featuring software platforms for transmission of images, audio-visual content, video content and messages; Platform as a Service, including cloud-based platforms related to healthcare; Platform as a Service, including cloud-based platforms related to the medical field; Platform as a Service, including virtual reality platforms related to health care and the medical field; providing information about the results of clinical trials; providing medical and scientific research information in the field of clinical trials; providing and operating a remote medical and industrial operation software platform; remote medical and industrial operation software service; remote server administration; rental of software; rental of application software; rental of computers; rental of data-processing apparatus; rental of user-programmable humanoid robots, not configured; research services related to the health care and medical field; services for the planning (design) of hospitals; scientific investigations for medical purposes; scientific research for medical purposes; Software as a service (SaaS); Software as a service (SaaS) featuring software for machine learning; Software as a service (SaaS) featuring software for deep learning; Software as a service (SaaS) featuring software for deep neural networks; Software as a service (SaaS) featuring software platforms for artificial intelligence; Software as a service (SaaS) featuring computer software platforms for artificial intelligence; Software as a Service (SaaS) related to health care; Software as a Service (SaaS) related to the medical field; software customization services; software implementation and installation; scientific research services related to the health care; technical research services; all of the above in relation to the medical and health care field.

Class 44:

Advisory services relating to medical apparatus and instruments; advisory services relating to medical problems; advisory services relating to medical services; medical clinic services; health care; home health care services; health care services; health care advisory services; health advice and information services; health clinic services; health clinic services (medical); healthcare and medical clinics; medical assistance; medical services; medical advisory services; medical clinic services; medical screening; medical advisory services relating to medical software; medical analysis services; medical analysis services for the diagnosis and treatment of persons; medical care and analysis services relating to patient treatment; medical imaging services; monitoring of patients; mobile medical clinic services; preparation of reports relating

Class 1:

Industrial chemicals and other chemicals, namely chemical products, chemical preparations, chemical agents, and chemical additives, for use in petroleum refining, semiconductor

manufacturing, pulp and paper production, iron and steel manufacturing, mineral extraction and delivery and other industrial manufacturing and production processes; plant growth regulating preparations; fertilizers; reagent paper, other than for medical or veterinary purposes; purified water, ultrapure water, reclaimed water for industrial use; sand-based filter media; organic digestate [fertiliser]; test paper, chemical; industrial chemicals used for water treatment; industrial chemicals used for wastewater treatment; industrial chemicals used for water purification.

Class 9:

Laboratory apparatus and instruments; measuring or testing machines and instruments; power distribution or control machines and apparatus; ozone generators; electrolysis cells for laboratory use; electrical cells and batteries; electrical communication machines and instruments; electrodes; recorded video discs and video tapes; water quality measuring instruments; remote control apparatus; remote control telemetering machines and instruments; ultrasonic flow meters; ultrasonic interface level meters; water quality analyzers; information collection terminal device with the capability to store data measured through remote monitoring and transmit the stored data upon request; automatic regulating machines and instruments; flowmeters; pressure measuring instruments; telecommunication machines and apparatus for network control; automatic control device for measuring, monitoring, and controlling data related to the operation and energy usage of water treatment facilities; wireless control devices for remotely monitoring and controlling the functions and status of other electrical, electronic, and mechanical devices or systems; wireless communication apparatus; wireless relay devices; data communication apparatus and instruments; image processing apparatus; microbial fuel cells; boiler control instruments; detectors; measuring apparatus; densitometers, not for medical purposes; precision measuring apparatus; measuring devices, electric; sensors [measurement apparatus], other than for medical use; optical profilers; electric installations for the remote control of industrial operations.

Class 11:

Pure water production apparatus for industrial purposes; water purifying apparatus for industrial purposes; water purifying apparatus for industrial purposes and their accessories; waste water treatment tanks for industrial purposes; septic tanks for industrial purposes; water pollution control equipment; waste water treatment tanks for household purposes; boilers, other than parts of machines; septic tanks for household purposes; heaters; freezing machines and apparatus for industrial purposes; air conditioners for industrial purposes; chromatography apparatus for industrial purposes; wastewater treatment equipment and their accessories; membrane filters for wastewater treatment equipment; membrane filters for water purifying apparatus for industrial purposes; chemical injection apparatus for cooling water treatment equipment for air conditioning; chemical injection apparatus for water purification equipment for cooling water in factories; chemical injection apparatus for water purification equipment for industrial purposes; chemical injection apparatus for water pollution control equipment; chemical injection apparatus for industrial waste incineration equipment; water filtration apparatus using reverse osmosis membranes (excluding those for household use); desalination units; dewatering equipment for wastewater treatment; portable water purification apparatus

for disaster use; water pollution purification device equipped with a function to collect and store measurement data, such as operating status and energy consumption, and transmit it wirelessly to control panels or databases; pure water production apparatus and ultrapure water production apparatus equipped with functions to collect and store measurement data such as operating status and energy consumption, and transmit it wirelessly to control panels or databases; water softening apparatus for industrial purposes; drinking water filters for industrial purposes; pure water production apparatus for dishwashing for industrial purposes; household water purifiers for water taps; water purifying apparatus for household purposes; household tap-water filters, non-electric; portable water purifying apparatus; water purifying apparatus for industrial purposes; pure water production apparatus for household use; water softening apparatus for household use; electrolyzed hypochlorous water generators for industrial purposes; water ionizers for household purposes; beverage dispensers for household use and their accessories; electric hot and cold water dispensers for household use and their accessories; electric hot and cold water dispensers for industrial purposes and their accessories; filter cartridges for water purifying apparatus for household use; filter cartridges for water purifying machines for industrial purposes; desalination plants; water purification installations; industrial apparatus for purifying water; electronic chemical injection apparatus that automatically adjusts the amount of water treatment chemicals injected according to the results of water quality measurements.

Class 37:

Maintenance of water treatment equipment; repair or maintenance of chemical processing machines and apparatus; repair, maintenance, and operation management of water purification equipment; maintenance and operation management of water treatment facilities; construction of pool facilities; maintenance of pool facilities; dredging; construction and maintenance services relating to civil engineering; machinery installation; electrical installation services; telecommunication wiring; construction services; repair or maintenance of measuring and testing machines and instruments; burner maintenance or repair; repair or maintenance of boilers; pump repair or maintenance; repair or maintenance of telecommunication machines and apparatus; repair or maintenance of power distribution or control machines and apparatus; repair and maintenance of electricity generators; repair or maintenance of electric motors; repair or maintenance of waste compacting machines and apparatus; repair or maintenance of waste crushing machines and apparatus; online monitoring of the operating status of industrial waste incineration equipment; online remote monitoring of the operational and processing status of water treatment facilities in buildings and factory buildings; online remote monitoring of the operational and processing status of wastewater treatment facilities; online remote monitoring of the operational and processing status of purified water, drinking water, and reclaimed water treatment facilities; remote monitoring of the operational status of building air conditioning and plumbing equipment via telecommunication; monitoring of the operational and processing status of chemical injection apparatus for adding chemicals to steam supplied to papermaking machine dryers in paper factories; repair or maintenance of microbial fuel cell power generation devices; online remote monitoring of the operational and processing status of biogas power generation facilities; online remote

monitoring of the operational and processing status of microbial fuel cell power generation devices; chemical cleaning of nuclear plants and industrial plants; mechanical cleaning of nuclear plants and industrial plants; physical cleaning of semiconductor jigs; maintenance of industrial plants; physical cleaning of precision parts, electrical components, and electronic components; consulting on the physical cleaning of precision parts, electrical components, and electronic components; consulting on chemical cleaning work of industrial plants; consulting on mechanical cleaning work of industrial plants; repair or maintenance of chemical plants; maintenance of boilers and water treatment equipment for boiler; operation management of boilers; repair or maintenance of dewatering machines for sludge treatment; repair or maintenance of waste treatment equipment; repair or maintenance of wastewater treatment equipment; operation management of waste treatment equipment; plumbing; provision of construction information; installation, repair and maintenance of clean room facilities and equipment; repair or maintenance of chemical plants and providing information relating thereto; repair or maintenance of chemical processing machines and apparatus and providing information relating thereto; installation of environmental control systems; machinery installation; installation of control systems for air conditioning; installation of industrial machinery; cleaning of semiconductor jigs; cleaning of precision parts, electrical components, and electronic components; consulting on the cleaning processing of precision parts, electrical components, and electronic components; chemical cleaning of semiconductor jigs; chemical cleaning of precision parts, electrical components, and electronic components; consulting on the chemical cleaning of precision parts, electrical components, and electronic components.

Class 40:

Water treatment; consulting on water treatment; providing information on water treatment; regeneration of ion exchange resins; contract separation and purification using chromatography equipment; soil and groundwater remediation; processing of domestic waste and trash; processing of industrial waste; rental of chemical processing machines and apparatus; rental of waste compacting machines and apparatus; rental of waste crushing machines and apparatus; rental of machines and apparatus for processing foods or beverages; recycling of waste and trash; sorting and disposal of industrial waste and trash; sorting and disposal of domestic waste and trash; boiler water treatment; quality improvement and purification treatment of steam generated from boilers, and providing advice, consulting, and information on these treatments; coatings of semiconductor jigs; coatings of precision parts, electrical components, and electronic components; water treating; wastewater treatment; upcycling [waste recycling]; regeneration processing of used filtration membranes [waste recycling]; consulting in the field of restoration of reverse osmosis membranes and other filtration membranes [waste recycling]; recycling of chemicals; information, advice and consultancy services relating to the recycling of waste and trash; rental of chemical processing machines and apparatus and providing information relating thereto; rental of waste compacting machines and apparatus and provision of related information; rental of waste crushing machines and apparatus and provision of related information; contaminated soil remediation.

Class 42:
