network traffic, and for visualizing, planning, and simulating computer network architecture; downloadable or recorded operating system software using artificial intelligence for router and network infrastructure management; downloadable or recorded operating system software using artificial intelligence that hosts computer software using artificial intelligence applications and facilitates interactions with other computers and peripherals across enterprise networks; downloadable or recorded computer networking software using artificial intelligence; downloadable or recorded computer software using artificial intelligence, namely, downloadable operating system programs for router management services; downloadable or recorded computer software using artificial intelligence for managing, operating, designing, implementing, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; downloadable or recorded computer software using artificial intelligence for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of network applications, network programs, computer applications, and computer programs; downloadable or recorded computer software using artificial intelligence for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of routers, network switches, wireless networks access points, wired network access points, network infrastructure, computer infrastructure, and data centers; downloadable or recorded computer software using artificial intelligence for managing, operating, designing, implementing, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; downloadable or recorded computer software using artificial intelligence for automation, operation, management, and control of operation of computer infrastructure and networking infrastructure; downloadable or recorded software using artificial intelligence for management, control, and operation of computer and networking applications; downloadable or recorded computer networking software using artificial intelligence for the administration, management, and optimization of computer networks; downloadable or recorded software using artificial intelligence for developing and operating cloud computer networks and applications; downloadable or recorded computer software using artificial intelligence for routing, switching, transmitting, processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing, switching, security orchestration and management; downloadable or recorded computer software using artificial intelligence for operating, optimizing, configuring, maintaining,

monitoring, managing, and deploying software using artificial intelligence over cloud computing networks; downloadable or recorded computer software using artificial intelligence, namely, open network application platforms for the development, deployment, testing, configuration, monitoring, and automation of network applications; downloadable or recorded computer software using artificial intelligence for data security and data protection; downloadable or recorded computer software using artificial intelligence for providing security functionality in networks, namely, providing firewall filters, access control, virtual private networks (VPN), interoperability with router security protocols, and protection against network intrusion and viruses; downloadable or recorded computer software using artificial intelligence for computer network security, namely, software using artificial intelligence for traffic prioritization, secure access control, user identification, encryption, security management, and intrusion prevention; downloadable or recorded computer software using artificial intelligence for monitoring, analyzing or reporting of network information, data and traffic; downloadable or recorded computer software using artificial intelligence for interconnecting, monitoring, managing, controlling, analyzing, securing and operating local, wide area, wireless networks, and data centers; downloadable or recorded secure access service edge (SASE) software using artificial intelligence for data and network security; downloadable or recorded computer software using artificial intelligence for design, deployment, and operation of data center networks and of cloud-computing infrastructure; downloadable or recorded computer software using artificial intelligence for implementing automation of computer networks, for testing and validating computer networks, for managing and monitoring computer network traffic, and for visualizing, planning, and simulating computer network architecture; computer hardware and recorded or downloadable software sold as a unit for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; computer hardware and recorded or downloadable software sold as a unit for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, and troubleshooting of network applications, network programs, computer applications, and computer programs; computer hardware and recorded or downloadable software sold as a unit for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; computer hardware and recorded or downloadable software sold as a unit for routing, switching, transmitting,

List of cases accepted for opposition purposes as shown in Journal 2025/045 published on 07 November 2025 .

processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing and management; computer hardware and recorded or downloadable software sold as a unit for programming local, wide, and global area networks and network infrastructure in mobile devices, televisions, and other video devices; downloadable webcasts, web seminars, case studies, audio files, and videos in the fields of interconnecting, establishing, managing, securing, monitoring, troubleshooting, operating, accessing, and automation of computer hardware, computer software, artificial intelligence, machine learning, technology, peripherals, operating systems, local networks, widearea networks, wired networks, wireless networks, computer networks, network infrastructure, network security, web browsers, electronic devices, cloud computing, and data security for cloud computing environments; videos and accompanying downloadable materials in the fields of cloud computing and data security for cloud computing environments; downloadable educational videos and accompanying downloadable training materials for use in association therewith in the fields of cloud computing and data security for cloud computing environments.

Class 42:

Consulting services in the fields of design and implementation of computer networks, cloud computing, data center design, storage design, data center infrastructure, computer network and network infrastructure management, computer network security, computer software, development and use of computer hardware, development and use of computer networking equipment, computer network design, storage design, network security, cloud security, network virtualization, and computer network analytics; consulting services in the field of software scripts for network automation; consulting services for developing computer systems, applications, architecture, and computer hardware, software, and firmware, namely, application development computer software programs; technical support services, namely, troubleshooting in the nature of diagnosing problems for computer hardware for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, and securing of computer networks, local networks, wide-area networks, wired networks, wireless networks, network infrastructure, routers, switches, cloud computer networks, and data centers; technical support services, namely, troubleshooting in the nature of diagnosing problems for computer software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, and securing of computer networks, local networks, wide-area networks, wired networks, wireless networks, network infrastructure, routers, switches, cloud computer networks, and data centers; technical support services, namely, migration of data centers, servers, and databases between computer networks; technical support services in the fields of computer, data, email, web, and network security, namely, monitoring of network systems for technical and computer security purposes; technical support services in the fields of computer software, development, and use of computer hardware, computer networking equipment, telecommunications equipment, computer network design, storage design, cloud computing, network security, cloud security, data center design, and analytics, namely, providing

live and online diagnosing of problems, service desk, and help desk services in all of the above-listed fields; computer network design for others; computer programming; design and development of computer software applications for network efficiency improvement, storage design, cloud security, and data center design; design, testing, engineering, and research services relating to computers, telecommunications technology, computer networks, computer software, computer hardware, computer programming, and network security, and advisory services regarding designing, building, testing, engineering, operating, research and development in the above-listed fields; design and development of computer networks, local networks, wide-area networks, wired networks, wireless networks, and devices for network connectivity; testing, analysis, and evaluation of computer networks for the purposes of designing, building, and operation of computer networks; technical management in the field of computer networks; technical consulting in the field of the administration of computer networks; technical management in the field of administration of computer networks for designing, building, testing, engineering, and operating computer networks; consulting services in the field of cloud computing; computer management services, namely, the monitoring, reporting, management of, and automation of data traffic across wireless communications networks and the internet; management of wireless networks for others; computer network assessment for testing, analysis, and evaluation and providing authentication services, namely, restricting unauthorized network access by users without credentials; providing information via a website and via computer networks in the field of computer networking; providing technical information online in the fields of local networks, wide-area networks, wireless networks, computer networks, routers, network infrastructure, network applications, network programs, computer applications, computer programs, data, network traffic, network information, cloud computer networks, cloud programs, and data centers, namely, providing information regarding hardware and software performance as part of computer networking; installation, maintenance, and repair services in regards to computer software in the fields of computer networks, telecommunications, networking, communications, and network security; technical support services, namely, troubleshooting in the nature of repairing computer software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, and securing of local networks, wide-area networks, wireless networks, and wired networks; computer services namely, remote and on-site management of the information technology (IT) systems of others; providing online non-downloadable software for management of artificial intelligence computer networks; providing online non-downloadable software for managing, designing, implementing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; providing online non-downloadable software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking,

List of cases accepted for opposition purposes as shown in Journal 2025/045 published on 07 November 2025 .

upgrading, and troubleshooting of network applications, network programs, computer applications, and computer programs; providing online non-downloadable software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of routers, network switches, wireless networks access points, wired network access points, network infrastructure, computer infrastructure, and data centers; providing online non-downloadable software for managing, designing, implementing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; providing online non-downloadable software for routing, switching, transmitting, processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing, switching, orchestration, and management; providing online non-downloadable software for providing security functionality in networks, namely, providing firewall filters, access control, virtual private networks (VPN), interoperability with router security protocols, protection against network intrusion and viruses, encryption and authentication of data, data-loss prevention, data recovery, network security, and detection, filtering, analyzing, managing and blocking of electronic communications; providing online non-downloadable software, namely, non-downloadable open network application platforms for the development, deployment, testing, configuration, monitoring, and automation of network applications; providing online non-downloadable software for programming local, wide, and global area networks and network infrastructure in mobile devices, televisions, and other video devices; providing online non-downloadable software for automation, visibility, operation, management, and control of operation of networking infrastructure, and automation, visibility, operation, management, orchestration, and control of operation of computer applications, and services within a computer networking infrastructure; providing online non-downloadable, cloud-based software featuring a virtual assistant for use in managing, monitoring, troubleshooting, and automation of computer networks through artificial intelligence and machine learning; providing online, non-downloadable artificial intelligence and machine learning software for use in computer network management, monitoring, automation, diagnostics, troubleshooting, self repair, and providing repair recommendations; providing online nondownloadable secure access service edge (SASE) software for data and network security; providing online nondownloadable software for use in hierarchical and distributed network processing, computer network analytics, computer network monitoring, computer network management, data storage, computer network security, controlling computer network access, data mining, monitoring, analyzing, and controlling machine-to-machine communications and human-machine interaction; providing online non-downloadable software for computer network management, network infrastructure management, information technology infrastructure management, and data center infrastructure management; providing online non-downloadable computer

programs for use in accessing and viewing computer network infrastructure and systems; non-downloadable software for managing wireless access points and local area network access points; providing online non-downloadable software for use in edge analytics; platform-as-a-service (PaaS) featuring software for enabling business enterprises, data centers, and telecommunication service providers to deploy, manage, troubleshoot, track and upgrade network software and services; software-as-a-service (SaaS) services featuring software for managing computer networks and telecommunications networks, providing data security, monitoring network performance, and collecting and analyzing network usage data and user, device, application and customer activity data; software-as-a-service (SaaS) services featuring software for connecting, operating, and managing networked devices via wireless or wired networks; software-as-a-service (SaaS) services featuring software for connecting, operating, and managing networked internet of things (IoT) devices; software-as-a-service (SaaS) services featuring software for managing machine-to-machine applications and machine-to-machine networks; providing online non-downloadable software and cloud platforms for machine-to-machine networks for data connectivity, device management, configuration, provisioning, management, integration and control of internet of things (IoT) devices; fog computing services, namely, providing virtual computer systems in which computing resources and application services are distributed as a decentralized computing infrastructure; providing online non-downloadable software and cloud platforms that route and transmit data between connected devices, applications, and data platforms; providing online nondownloadable software and cloud platforms for collecting, connecting, transmitting and analyzing machine-to-machine data from and between connected devices, applications, and computer networks; software-as-a-service (SaaS) services featuring software for designing, planning, provisioning, operating and optimizing computer networks and telecommunications networks; platform-as-a-service (PaaS) services featuring software for designing, planning, provisioning, operating and optimizing computer networks and telecommunications networks; software-as-a-service (SaaS) services featuring software for data security and for monitoring, analyzing and optimizing computer networks and web application performance; platform-as-a-service (PaaS) services featuring computer software platforms for data security and for monitoring, analyzing and optimizing computer networks and web application performance; providing online non-downloadable software for design, deployment, and operation of data center networks and of cloud-computing infrastructure; providing online non-downloadable software for implementing automation of computer networks, for testing and validating computer networks, for managing and monitoring computer network traffic, and for visualizing, planning, and simulating computer network architecture; providing online non-downloadable software using artificial intelligence for managing, designing, implementing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; providing online non-downloadable software using artificial intelligence for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating,

List of cases accepted for opposition purposes as shown in Journal 2025/045 published on 07 November 2025 .

browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of network applications, network programs, computer applications, and computer programs; providing online non-downloadable software using artificial intelligence for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of routers, network switches, wireless networks access points, wired network access points, network infrastructure, computer infrastructure, and data centers; providing online non-downloadable software using artificial intelligence for managing, designing, implementing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; providing online nondownloadable software using artificial intelligence for routing, switching, transmitting, processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing, switching, orchestration, and management; providing online nondownloadable software using artificial intelligence for providing security functionality in networks, namely, providing firewall filters, access control, virtual private networks (VPN), interoperability with router security protocols, protection against network intrusion and viruses, encryption and authentication of data, data-loss prevention, data recovery, network security, and detection, filtering, analyzing, managing and blocking of electronic communications; providing online non-downloadable software using artificial intelligence, namely, non-downloadable open network application platforms for the development, deployment, testing, configuration, monitoring, and automation of network applications; providing online non-downloadable software using artificial intelligence for programming local, wide, and global area networks and network infrastructure in mobile devices, televisions, and other video devices; providing online non-downloadable software using artificial intelligence for automation, visibility, operation, management, and control of operation of networking infrastructure, and automation, visibility, operation, management, orchestration, and control of operation of computer applications, and services within a computer networking infrastructure; providing online non-downloadable, cloud-based software featuring a virtual assistant for use in managing, monitoring, troubleshooting, and automation of computer networks through artificial intelligence and machine learning; providing online, non-downloadable artificial intelligence and machine learning software using artificial intelligence for use in computer network management, monitoring, automation, diagnostics, troubleshooting, self-repair, and providing repair recommendations; providing online non-downloadable secure access service edge (SASE) software using artificial intelligence for data and network security; providing online nondownloadable software using artificial intelligence for use in hierarchical and distributed network processing, computer network analytics, computer network monitoring, computer network management, data storage, computer network security, controlling computer network access, data mining, monitoring, analyzing, and controlling

machine-to-machine communications and human-machine interaction; providing online nondownloadable software using artificial intelligence for computer network management, network infrastructure management, information technology infrastructure management, and data center infrastructure management; providing online non-downloadable software using artificial intelligence for computer network management; providing online non-downloadable computer programs using artificial intelligence for use in accessing and viewing computer network infrastructure and systems; non-downloadable software using artificial intelligence for managing wireless access points and local area network access points; providing online non-downloadable software using artificial intelligence for use in edge analytics; platform-as-a-service (PaaS) featuring software using artificial intelligence for enabling business enterprises, data centers, and telecommunication service providers to deploy, manage, troubleshoot, track and upgrade network software and services; software-as-a-service (SaaS) services featuring software using artificial intelligence for managing computer networks and telecommunications networks, providing data security, monitoring network performance, and collecting and analyzing network usage data and user, device, application and customer activity data; software-as-a-service (SaaS) services featuring software using artificial intelligence for connecting, operating, and managing networked devices via wireless or wired networks; software-as-a-service (SaaS) services featuring software using artificial intelligence for connecting, operating, and managing networked internet of things (IoT) devices; software-as-a-service (SaaS) services featuring software using artificial intelligence for managing machine-to-machine applications and machine-to-machine networks; providing online nondownloadable and cloud platforms using artificial intelligence for machine-to-machine networks for data connectivity, device management, configuration, provisioning, management, integration and control of internet of things (IoT) devices; providing online non-downloadable software and cloud platforms using artificial intelligence that route and transmit data between connected devices, applications, and data platforms; providing online non-downloadable software and cloud platforms using artificial intelligence for collecting, connecting, transmitting and analyzing machine-to-machine data from and between connected devices, applications, and computer networks; software-as-a-service (SaaS) services featuring software using artificial intelligence for designing, planning, provisioning, operating and optimizing computer networks and telecommunications networks; platform-as-a-service (PaaS) services featuring software using artificial intelligence for designing, planning, provisioning, operating and optimizing computer networks and telecommunications networks; software-as-a-service (SaaS) services featuring software using artificial intelligence for data security and for monitoring, analyzing and optimizing computer networks and web application performance; platform-as-a-service (PaaS) services featuring computer software platforms using artificial intelligence for data security and for monitoring, analyzing and optimizing computer networks and web application performance; providing online non-downloadable software using artificial intelligence for design, deployment, and operation of data center networks and of cloud-computing infrastructure; providing online non-downloadable software using artificial intelligence for implementing automation of computer networks, for testing and validating computer networks, for managing and monitoring computer network traffic, and for visualizing, planning, and simulating computer network architecture.

Class 1:

Chemicals for use in industry, science and photography, as well as in agriculture, horticulture and forestry; biological preparations for use in industry and science; proteins for the manufacture of human foodstuffs which form emulsions or have emulsifying properties; proteins for the manufacture of human foodstuffs which form gel or which have gelling properties; proteins for the manufacture of human foodstuffs which hold water or have water holding properties; gelling agents for human foodstuffs or beverages; absorption agents; emulsifiers for use in the manufacture of foods; wetting agents; stabilising agents for use in food; foaming agents; emulsifiers; texturing agents for use in the manufacture of foods; texturants for food and beverage; sweet particulates and inclusions, sweet sauces, texture systems, sweet and savoury flavours being chemical or organic compositions for use in manufacture of food and beverages; casein; flavour improvers for foods, beverages and oral care products; chemical based food, drink and oral care additives; chemicals for use in brewing; enzymes for the brewing industry; caseinate; chemical products derived from milk for use in industry; chemical products for preserving foodstuffs or beverages; preserving agents for foods and beverages; proteins for use in industry; proteins for the food industry; proteins for the beverage industry; proteins for use in manufacture; food protein as a raw material; proteins for use in the manufacture of foodstuffs or beverages; proteins for use in the manufacture of food supplements; enzymes for use in flavouring; flavour enhancers for foods, beverages and oral care products; chemical products for the preparation of flavourings; enzymes (other than for medical or veterinary use); enzyme preparations for the food industry; enzyme preparations for the beverage industry; enzyme preparations for use in the baking, confectionery, dairy, meat, human nutrition or animal nutrition industries; fungal enzymes for use in the food industry or beverage industry; fungal enzymes for use in the baking, brewing, confectionery, dairy, meat, human nutrition or animal nutrition industries; fermentation extract; chemical additives for use in fermentation; enzymes for use in fermentation; proteins for use in fermentation technology; ferments for use in the food industry or beverage industry; ferments for use in the baking, brewing, confectionery, dairy, meat, human nutrition or animal nutrition industries; chemical products for the fresh-keeping and preserving of food; chemical products for preserving products during storage; food preservative compositions; food preservatives; catalysts; catalysts for use in the food industry or beverage industry; catalysts for use in the baking, brewing, confectionery, dairy, meat, human nutrition or animal nutrition industries; natural extracts and distillates for use in the food industry or beverage industry; natural extracts and distillates for

List of cases accepted for opposition purposes as shown in Journal 2025/045 published on 07 November 2025 .

use in the baking, brewing, confectionery, dairy, meat, human nutrition or animal nutrition industries; beta glucan for use in the food industry or beverage industry; beta glucan for use in the baking, confectionery, dairy, meat, human nutrition or animal nutrition industries; prebiotic bacteria and probiotic bacteria for use in the food industry or beverage industry; prebiotic bacteria and probiotic bacteria for use in the baking, brewing, confectionery, dairy, meat, human nutrition or animal nutrition industries; prebiotic or probiotic bacterial formulations (other than for medical use); nutritional lipids and nutritional bases for use in the food industry or beverage industry; nutritional lipids and nutritional bases for use in the baking, confectionery, dairy, meat, human nutrition or animal nutrition industries; enzymes produced through fermentation of yeast, bacterial or fungal strains; whey and demineralised whey for use in the food industry or beverage industry; whey and demineralised whey for use in the baking, confectionery, dairy, meat, human nutrition or animal nutrition industries; nutrition agents for processing living cells (other than for medical use); nutrition agents for living cells (other than for medical use); protein hydrolysates; recombinant proteins for nutrition of living cells (other than for medical use); media for cell culture for use in the biotechnical industry or in non-medical research laboratories; cultures of cell media (other than for medical or veterinary use); excipients, other than for medical use; chemical preparations for use in pharmaceuticals; chemical preparations for use in the manufacture of pharmaceuticals; chemical preparations for use in the pharmaceutical industry; chemical preparations for use in nutraceuticals; pharmaceutical excipients used in the manufacture of pharmaceuticals; cellulose ethers; chemicals and polymers used for coating and/or encapsulating vitamin and/or mineral supplements, pharmaceuticals, food supplements, herbal products or food products; enzymes for use in the manufacture of nutraceuticals; hydrolysed vegetable protein; lipid mixtures for use as additives in foodstuffs; lipid mixtures for use as additives in beverages and mixes for making beverages; excipients for pharmaceutical purposes; pharmaceutical excipients.

Class 5:

Pharmaceuticals, medical and veterinary preparations; sanitary preparations for medical purposes; dietetic food and substances adapted for medical or veterinary use, food for babies; dietary supplements for human beings and animals; Pharmaceutical preparations; chemical preparations for pharmaceutical purposes; pharmaceutical preparations and substances; delivery agents in the form of coatings for tablets that facilitate the delivery of vitamin and/or mineral supplements, pharmaceutical preparations, food supplements or herbal products in Class 5; cellulose ethers for pharmaceutical, medical or dietetic purposes; casein dietary supplements; dietary supplements and dietetic preparations; enzyme dietary supplements; nutritional supplements; nutritional supplements consisting of fungal extracts; prebiotic supplements; probiotic supplements; protein supplements; food supplements; feed supplements for veterinary use; medicated food supplements; medicated supplements for animal feedstuffs; nutrition agents for processing living cells (for medical or veterinary use); nutrition agents for living cells (for medical or veterinary use); recombinant proteins for nutrition of living cells (for medical or veterinary use); media for cell culture for use in medical research laboratories; cultures of cell media (for medical or veterinary use); nutraceuticals for therapeutic purposes; nutraceuticals for use as a dietary supplement; carbohydrate-based nutritional drink mix for use as a meal replacement; coating and encapsulating materials for pharmaceuticals (other

than paints or oils); dietetic foods and foodstuffs for nursing mothers, nutritional supplements for medical use, nutritional mineral supplements; plant-, vegetable- or fruit-based nutritional supplements for medical use; vitamin preparations; mineral food supplements; food for infants; powdered milk for babies; lacteal flour for babies; foodstuffs and food substances for medical use for children and patients.

Class 29:

Meat, fish, poultry and game; meat extracts; preserved, frozen, dried and cooked fruits and vegetables; jellies, jams, compotes; eggs; milk, cheese, butter, yogurt and other milk products; oils and fats for food; dairy powders; cheese powder; cream powder; powdered butter; powdered cultured dairy products; milk powder; milk fat; milk fat preparations; powdered milk fat; curd; dairy products and dairy substitutes; milk; milk products; edible oils and fats; lipids being edible fats; beverages consisting principally of milk; beverages having a milk base; beverages made with yoghurt; birds eggs and egg products; cheese; cheese products; cheese spreads; dairy desserts; dairy-based spreads; dairy puddings; dairy spreads; dairy-based beverages; dairy-based dips; dips; desserts made from milk products; dried milk powder; flavoured milk; flavoured milk beverages; flavoured milk powder for making drinks; milk based beverages [milk predominating]; milk beverages, milk predominating; milk-based beverages containing coffee; milk-based beverages containing fruit juice; milk-based beverages containing fruits; pre-cooked soup; preparations for making soup; vegetable-based spreads; whey; yoghurt; preparations for addition to, or for use in making, dairy products, ice-cream, ice cream desserts, ice cream confections, frozen confections, frozen yoghurt, sorbet, sherbets, sundaes, yoghurt or milk shakes, namely, crystallized fruit, dried fruit, processed nuts, and nut butters; clusters made primarily with potato chips, dried fruits, and processed nuts; inclusions for dairy products, ice cream, ice cream desserts, ice cream confections, frozen confections, frozen yoghurt, sorbet, sherbets, sundaes, yoghurt or milk shakes, namely, dried and crystallized fruit, processed and candied nuts, and nut butters, including pieces of any of the foregoing; inclusions for dairy products, ice-cream, ice cream desserts, ice cream confections, frozen confections, frozen yoghurt, sorbet, sherbets, sundaes, yoghurt or milk shakes, namely, clusters made primarily of potato chips, dried and crystallized fruit, and processed and candied nuts; fruit, nut or dairy based sweet particulates and inclusions, sweet sauces, texture systems, sweet and savoury flavours; dairy products that include added toppings or mix-ins; meat; fish; poultry; game; meat extracts; preserved fruits; preserved vegetables; dried fruits; dried vegetables; cooked fruits; cooked vegetables; jellies; jams; compotes; eggs; prepared meals, dishes and snack foods consisting primarily of meat, meat substitutes, fish, poultry, game, seafood, shellfish, fruit, nuts, seeds, vegetables, mushrooms, dairy products, dairy substitutes, eggs, legumes or tofu; dried mushrooms; preserved mushrooms; prepared mushrooms; crisps; dried fruit; dried pulses; edible seeds; fish and seafood spreads; flavoured nuts; fruit salads; meat paste; meat spreads; meat stocks; meat, prepared; meat, preserved; meat, processed; nuts being cooked; nuts being dried; nuts being preserved; nuts, prepared; potato salad; prepared fruits; prepared legumes; prepared nuts; prepared pulses; prepared salads; prepared vegetable products; prepared vegetables; processed fruits; processed meat products; processed nuts; processed seafood products; processed vegetables; pulses, dried; pulses, prepared; pulses, preserved; pulses, processed; seafood products; seafood, not live; seafood, processed; seeds, prepared; shellfish,

List of cases accepted for opposition purposes as shown in Journal 2025/045 published on 07 November 2025 .

not live; snack mixes consisting of dehydrated fruit and processed nuts; soup mixes; soups; soya beans, preserved, for food; textured vegetable protein for use as a meat extender; tofu; vegetable extracts for culinary purposes; vegetable salads; vegetable-based meat substitutes; non-dairy creamers; dairy-based creamers; shortening enzyme-modified whole milk powder; non-dairy milk; stocks, broths and bouillons; pickles; fruit and vegetable based extracts used as additives in the manufacture of foodstuffs.

Class 30:

Coffee, tea, cocoa and substitutes therefor; rice, pasta and noodles; tapioca and sago; flour and preparations made from cereals; bread, pastries and confectionery; chocolate; ice cream, sorbets and other edible ices; sugar, honey, treacle; yeast, baking-powder; salt, seasonings, spices, preserved herbs; vinegar, sauces and other condiments; ice (frozen water); food flavourings; flavourings, other than essential oils, for foods; flavourings, other than essential oils, for beverages; salts, seasonings, flavourings and condiments; substances imparting taste for addition to foodstuffs or beverages (other than essential oils); malt-based food preparations; malt extracts for food; malt extracts for use as flavouring; natural smoke condensates (flavourings) for foodstuffs or beverages; coatings, rubs, marinades and glazes for foodstuffs; clusters made primarily with pretzels, rice, popcorn, crackers, processed and ready to eat cereals, processed grains, chocolate and candy; chocolate and candy for adding to dairy products, frozen yoghurt or ice cream; dairy confectionery, frozen yoghurt or ice cream that include added toppings or mix-ins; starch-based binding agents for ice cream; thickening agents for use in cooking; coffee; tea; cocoa; artificial coffee; preparations made from cereals; confectionery; edible ices; sauces (condiments); bases for making milk shakes [flavourings]; blends of seasonings; chocolate based products; chocolate flavourings; condiments; cooking essences; dried herbs; dry seasonings; edible spices; extracts used as flavouring [not essential oils]; flavour enhancers for food [other than essential oils]; essences for foodstuffs, except etheric essences and essential oils; flavourings and seasonings; fruit sauces; marinades; processed herbs; relish [condiment]; sauces; savoury food flavourings for animal foods [other than essential oils]; savoury food flavourings for food [other than essential oils]; savoury sauces, chutneys and pastes; seasonings; spices; vegetable thickeners; cooking sauces; dressings for salad; gravies; gravy mixes; preparations for making up into sauces; preparations for making gravy; salsas; savoury sauces used as condiments; cereal bars and energy bars; bakery goods; candies [sweets]; chilled desserts; crackers; crème caramel; custard; dessert mousses [confectionery]; dessert puddings; foodstuffs containing chocolate [as the main constituent]; foodstuffs containing cocoa [as the main constituent]; imitation chocolate; sweets (candy), candy bars and chewing gum; pastries, cakes, tarts and biscuits (cookies); prepared desserts [chocolate based]; prepared desserts [confectionery]; savoury biscuits; snack foods consisting principally of confectionery; pastries; pasties; prepared desserts [pastries]; wafers; chocolate candies; chocolate bars; natural sweeteners; sweet glazes and fillings; flavouring syrups; glucose syrups for food; topping syrup; frozen confectionery; frozen yoghurt [confectionery ices]; ice beverages with a chocolate base; ice beverages with a cocoa base; ice beverages with a coffee base; ice cream; ice cream mixes; ice cream substitute; non-dairy ice cream; artificial tea; beverages containing chocolate; beverages with a chocolate base; beverages with a cocoa base; beverages with coffee base; beverages with tea base; chocolate; chocolate-based beverages with milk; cocoa beverages with milk; coffee beverages with

milk; coffee flavourings; preparations for making beverages [cocoa based]; preparations for making beverages [tea based]; preparations for making beverages [coffee based]; preparations for making beverages [chocolate based]; tea extracts; cereals; doughs, batters, and mixes therefor; dried and fresh pastas, noodles and dumplings; food preparations based on grains; organic thickening agents for cooking foodstuffs; natural starches for food; modified starches for food [not medical]; preparations for making bakery products; processed cereals for food for human consumption; processed grains for food for human consumption; thickening agents for cooking foodstuffs; yeast and leavening agents; pre-mixes ready for baking; bread mixes; pastry mixes; cocoa, cereal, sugar or confectionery based sweet particulates and inclusions, sweet sauces, texture systems, sweet and savoury flavours; yeast; yeast extracts; baking-powder; salt; mustard; vinegar; ice; prepared meals or dishes consisting of rice, with added meat, fish or vegetables; prepared meals, dishes or snack foods consisting primarily of cereals, grains, pasta, pastry, bread, confectionery, rice or noodles; dairy flavours; natural based extracts (flavourings) used as additives in the manufacture of foodstuffs; pickling solutions for use in the food industry or beverage industry; pickling solutions for use in the baking, confectionery, dairy, meat, human nutrition or animal nutrition industries; inclusions for dairy products, ice-cream, ice cream desserts, ice cream confections, frozen confections, frozen yoghurt, sorbet, sherbets, sundaes, yoghurt or milk shakes, namely, popcorn, pretzels, crackers, hard candies, toffees, candy and chocolate brittles, candy and chocolate barks, cookie dough, chocolate, and caramel, including pieces of any of the foregoing; inclusions for dairy products, ice-cream, ice cream desserts, ice cream confections, frozen confections, frozen yoghurt, sorbet, sherbets, sundaes, yoghurt or milk shakes, namely, flavouring and topping syrups, sauces, processed and ready-to-eat cereal pieces and clusters made primarily of processed and ready-to-eat cereal pieces, pretzels, crackers, candy sprinkles and other confectionery pieces, namely, chocolate confectionery and confectionery made of sugar.

Class 35:

Business management, organization and administration; office functions; advertising; marketing and on-line marketing services; market research and market analysis; marketing strategy; brand planning and development; data compilation and analytics; information, advisory and consultancy services relating to all of the aforesaid services; retail and wholesale services, including via a global computer network in connection with food, beverages, nutritional supplements, and ingredients for food, beverages and nutritional supplements; retail services relating to food; retail services in relation to foodstuffs; retail services via catalogues related to foodstuffs; retail services in relation to dairy products; retail services via global computer networks related to foodstuffs; wholesale ordering services; wholesale services in relation to foodstuffs; wholesale services in relation to dairy products.

Class 42:

Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; research services; product research; industrial research; food research; biochemical research; biotechnical research; chemical research; engineering research; development and research of products; research and development services; research and development in the food industry and beverage industry; research and development in the baking, brewing,

List of cases accepted for opposition purposes as shown in Journal 2025/045 published on 07 November 2025 .

confectionery, dairy, meat, human nutrition or animal nutrition industries; research and development in the field of pharmaceutical preparations and nutraceuticals; technical consultancy in relation to research in the food industry and beverage industry; technical consultancy in relation to research in the baking, brewing, confectionery, dairy, meat, human nutrition or animal nutrition industries; food analysis, evaluation and testing services; food engineering; science and technology services; flavour analysis, evaluation and testing; product design and development; food technology services (other than education and training); product research and development; research, development and design services relating to food products and beverages; graphic design services; software as a service; providing temporary use of non-downloadable software in the fields of agribusiness, farming, animal care and plant care; providing temporary use of non-downloadable software in the field of dairy industry information; providing temporary use of non-downloadable software to supply and enable others to access information, results, testing information, trading information, supply information, industry reports and financial transaction information, all in the fields of agribusiness, farming and the dairy industry; information technology; laboratory services; laboratory analysis; laboratory testing; services of a chemical and/or biological laboratory; quality assessment; quality control; quality checking; quality assurance services; provision of farm management information systems; laboratory analysis services relating to animal and plant care; laboratory analysis services relating to animal and plant nutrition; information, advisory and consultancy services relating to all of the aforesaid services; Food sanitation consultation; Inspection of foodstuffs; Testing of foodstuffs; Research of foodstuffs; Testing of irradiated food; Computerised food analysis services; Professional advisory services relating to food technology; Quality control relating to the hygiene of food; Quality control relating to the hygiene of foodstuffs; Research and development services in the field of food; Technical consultancy in relation to research services relating to foods and dietary supplements; Technical consultancy in relation to the technical research in the field of food and beverages; providing temporary use of non-downloadable software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling virtual goods, digital goods, digital assets and digital collectibles, namely virtual and digital food, beverages, providing temporary use of non-downloadable software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling unique digital certificates registered in a blockchain; data storage via blockchain; certification of data via blockchain; provision of advice and information related to all the aforementioned services.
