Class 6:

Central heating installations (Ducts and pipes of metal for -).

Class 7:

Pumps for heating installations, Pump installations.

Class 9:

Temperature monitors [valves] for central heating radiators, Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; electronic publications; downloadable publications; computer software; media content; intelligent gateways for communication; mobile apps; recorded content; telecommunications apparatus; cellular telephones and other handheld communications or computing devices; personal digital assistants; cables; electronic parts and components; namely, electronic sensors, printed circuit boards, electronic

circuit assemblies, microprocessors, microcontrollers, electronic control modules, signal converters, communication modules including wireless communication devices, modules supporting wireless local area network protocols, short-range wireless communication protocols, low-power mesh networking protocols, cellular modules, integrated circuits, semiconductors, electronic connectors, plugs and sockets, relays, switches and contactors, voltage regulators, transformers, electronic thermostat modules, actuators, battery packs, electronic displays, electronic alarms and alert modules, wiring assemblies and cable assemblies, electronic diagnostic and monitoring modules, and gateway components for Internet-of-Things communication; electronic and electrical connectors; thermostats and thermostat controllers; temperature indicators; thermometers; scales; meters; power supplies; electrical plugs and adaptors; electric and electronic security apparatus and instruments; cameras; monitoring alarms; parts and fittings for all the aforesaid goods; Meters; Gasometers [measuring instruments]; electricity meters; electricity metering apparatus; meter units; computer software for use in remote meter reading and monitoring; meter testing apparatus; power modules; connecting modules for electric controls; control modules (Electric or electronic-); regulating modules; databases; fire sprinklers; sprinkler systems for fire protection and extinguishing; sprinkler apparatus [automatic] for fire extinguishing; charging stations for electric vehicles; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems; Monitoring instruments; Alarm monitoring systems; Environmental monitoring software; Remote monitoring apparatus; Network monitoring cameras for surveillance; Health monitoring software; Measuring, detecting, monitoring and controlling devices; Instruments for monitoring traffic; Network monitoring cameras; Visual monitoring apparatus; Monitoring apparatus and instruments; Apparatus for measuring, monitoring and analyzing electricity consumption; Apparatus for monitoring water consumption; Aural monitoring apparatus; Monitoring control apparatus [electric]; Apparatus for monitoring gas consumption; Monitoring apparatus, electric; Electric monitoring apparatus; Safety monitoring apparatus [electric]; Vapour monitoring apparatus for the detection of leaks; Sensors for monitoring physical movements; Electric motor checking [monitoring or supervision] apparatus; Apparatus for monitoring heat consumption; Sensors, detectors and monitoring instruments; Monitoring apparatus, other than for medical purposes; Listening devices for monitoring babies; Computer software for use in remote meter monitoring; Cloud network monitoring software; Electronic baby monitoring listening devices; Liquid level monitoring apparatus; Voltage monitoring units; Nonintrusive load monitoring [NILM] apparatus; Software for monitoring, analysing, controlling and running physical world operations; Electronic baby monitoring devices; Monitoring units [electric]; Cameras for monitoring and inspecting equipment in a nuclear power station; Downloadable computer software for remote monitoring and analysis; Video cameras adapted for monitoring purposes; Electronic monitoring instruments, other than for medical use; Mains monitoring apparatus (Electric -); Nonintrusive appliance load monitoring [NIALM] apparatus; Apparatus for monitoring electrical energy consumption.

Class 11:

Lighting fittings, heating apparatus and installations, cooling elements, steam generating equipment and systems, cooking apparatus and installations, drying apparatus and installations, apparatus and installations for ventilating, water supply

List of cases accepted for opposition purposes as shown in Journal 2025/050 published on 12 December 2025 .

equipment and installations and sanitary installations., Heating, ventilating, and air conditioning and purification equipment (ambient), Ventilators for heat exchangers, Electrically powered fans for ventilation purposes, Apparatus for ventilating, Ventilating apparatus, Residential ventilating units, Ventilating fans for industrial use, Ventilating fans for commercial use, Ventilating fans for household use.

Class 35:

Retail services in relation to heating equipment; information and telecommunication systems management services.

Class 36:

Advice and financial information in the field of energy consumption and energy performance; financial advice and information in the field of equipment for industrial plants, heating plants, refrigeration plants, air-conditioning and district heating networks, lighting, telecommunications and security, financial advisory services for billing and scheduling of energy consumption expenditure; financial consultancy services for billing and scheduling of equipment costs for industrial plants, heating plants, refrigeration plants, air-conditioning and district heating networks, energy transport infrastructure, energy storage, lighting, telecommunications and security, financial management support services in the field of energy consumption, energy performance or sustainable development; financial consulting in the field of energy consumption, energy performance or sustainable development; insurance services for repairs to collective and individual heating, air-conditioning, electricity, water, refrigeration or gas installations; financial consultancy on tariff offers in the field of energy consumption and management; financial study and advice for improving, developing and renewing energy facilities; energy brokerage services; negotiation (financial transactions) of contracts relating to energy fuels, energy distribution, transport, storage or reception of energy; negotiation (financial transactions) of contracts relating to energy, storage of energy fuels, energy distribution, energy transport; financial studies and advice to improve, develop and renew energy facilities; financial analysis, financial loans services in the field of development and improvement of energy facilities; financing and funding services, financial loans services for heating or production installations using all type of energy, in particular renewable energy; financial information services by telephone in the field of energy consumption and energy efficiency or sustainable development; intermediary services for the management of real estate; advice on real estate matters; real estate appraisal; management of real estate.

Class 37:

Retrofitting of heating, ventilating and air conditioning installations in buildings; Construction of geothermal heating installations; Installation of solar heating systems; Heating equipment installation; Retrofitting of heating installations in buildings; Installation of heating and cooling apparatus; Maintenance and repair of solar heating installations; HVAC (Heating, ventilation and air conditioning) installation, maintenance and repair; Maintenance and repair of heating installations; Repair or maintenance of gas water heaters; Construction of geothermal community heating installations; Heating equipment installation and repair; Installation and repair of heating equipment; Plumbing and gas and water installation; Maintenance and repair of gas and electricity installations; Installation of electricity generation and distribution installations, renewable energy generation

installations, heating and cooling installations, district heating and cooling networks, heat storage or recovery, ventilation, water distribution, air-conditioning; Maintenance of electricity generation and distribution installations, renewable energy generation installations, heating and cooling installations, district heating and cooling networks, heat storage or recovery, ventilation, water distribution, air-conditioning, ventilation, water distribution, air-conditioning; Servicing of electricity generation and distribution installations, renewable energy generation installations, heating and cooling installations, district heating and cooling networks, heat storage or recovery, ventilation, water distribution, air-conditioning; Troubleshooting of electricity generation and distribution installations, renewable energy generation installations, heating and cooling installations, district heating and cooling networks, heat storage or recovery, ventilation, water distribution, air-conditioning; Repair of electricity generation and distribution installations, renewable energy generation installations, heating and cooling installations, district heating and cooling networks, heat storage or recovery, ventilation, water distribution, air-conditioning, Commissions of electricity generation and distribution installations, renewable energy generation installations, heating and cooling installations, district heating and cooling networks, heat storage or recovery, ventilation, water distribution, air-conditioning, and air-conditioning services for energy performance or consumption control; installation, maintenance, servicing, troubleshooting, commissioning of heat pumps, photovoltaic panels, boilers; thermal equipment maintenance service, Heating, ventilation and air-conditioning maintenance; installation and repair of air conditioning equipment, cleaning and repair of boilers; electric appliance installation and repair of electrical appliances and technical equipment in the field of electricity, fire protection and refrigeration; maintenance and repair of energy networks; installation and maintenance of home automation systems as well as programmable logic controllers for energy performance, consumption control or smart grid management (energy distribution networks using computer technology to improve the matching of energy supply and demand).

Class 38:

Remote transmission of data relating to devices, equipment and systems for measuring, analysing and monitoring (control) the production and consumption of energy or fluids, in particular home automation systems or smart grids (energy distribution networks using computer technology to improve the matching of energy supply and demand), between computer terminals and/or between a meter, detector, sensor, information reader and a computer terminal; Provision of access for remote control of devices, equipment and systems for measuring, analysing and monitoring (control) energy or fluid consumption; Provision of access for remote control of devices, equipment and systems for measuring, analysing and monitoring (control) of production, distribution, storage, remote control of devices, equipment and systems for measuring, analysing and monitoring (control) of public transport, urban regulation, motorway regulation, motorway and urban traffic and traffic regulation; telecommunication services and provision of access for remote management services relating to, the control of temperature and heat in an environment, maintenance of gas in an environment, electricity storage in an environment, and/or facilities handling the distribution of stored energy; electronic display services of teletransmitted data and rental of telecommunication equipment for remote metering of energy or fluid consumption, telecommunication, radio communication

List of cases accepted for opposition purposes as shown in Journal 2025/050 published on 12 December 2025 .

and message transmission services in civil and military matters; information transmission services, data communication by telematic means, by radio, by telephone or by computer systems; telecommunications, radio communications and transmission of information messages in public transport networks; transmission and exchange of data and information by telematic, telephone, computer, Internet, Intranet or Extranet networks; on-line data and information transmission networks.

Class 40:

Electric energy production; production of energy from renewable sources, in particular thermal, climatic, geothermal, wind, solar, hydro or biomass energy; rental of energy generators; processing of biomass for energy production; information on biomass processing and energy production facilities; water treatment, air cooling, processing of plant biomass, natural gas and liquefied gas; information and consultancy services in the above fields; sorting and recycling of waste and recovered raw materials for energy production; processing of materials, namely metals, waste; Air and water conditioning and purification; waste and/or water treatment services; air treatment and purification; information, advisory and consultancy services relating to all of the aforesaid.

Class 41:

Organisation and conduct of training workshops, vocational guidance (education or training advice); organisation of competitions, exhibitions and games for educational purposes, publication of books and periodicals and production of films in the field of energy consumption, sustainable development and environmental protection; educational services related to raising the awareness of public or private companies, public or private promoters, craftsmen, industrialists or local authorities to the technological and interoperability needs in the field of energy consumption; organisation and supervision of sports and cultural activities; organisation of professional workshops.

Class 42:

Engineering services and technical analysis, research and consultancy services in the field of energy, sustainable development and energy efficiency; design, maintenance, updating and installation of software in the fields of energy and sustainable development; Engineering work for the establishment of construction plans in the field of energy, in particular gas transport networks, energy storage facilities, electricity production and distribution, renewable energy production facilities, energy installations, thermal heating and refrigeration installations, heating, urban heating networks and urban cooling networks, heat storage or recovery, ventilation, water distribution, air conditioning and air conditioning in the view of energy performance or consumption control; Research and development of new products for third parties in the field of sustainable development; Technical advice and engineering consultancy for the management of industrial installations operating with all types of energy, the management of energy storage facilities, and gas or electricity distribution and supply networks; Analyses (conducting technical projects studies) and industrial technical research relating to home automation and smart grids (energy distribution networks using computer technology to improve the matching of energy supply and demand); quality control services consisting of technical surveys of installations, measurements and condition reports; Technical studies and analyses and diagnoses (performed by engineers) for the installation of facilities for the provision and/or production and/or distribution of energy, namely electricity,

gas, heating and water; studies, technical analyses, diagnoses (performed by engineers) for the installation and operation of data storage centres (data centres); studies, research and expertise (engineering services) in the fields of energy, the environment and sustainable development; technical advice and information relating to energy and energy management; information and technical advice on installations using all types of energy; technical expertise in the fields of electrical, wind, solar, hydraulic, geothermal, thermal, refrigeration, climatic and renewable energy production; technical management of energy production and distribution facilities namely, control of the operation of the facilities, technical advice on the management and monitoring of electricity consumption; IT management services (IT engineering), namely management of IT networks, design, implementation of software; design of software for the management of physical infrastructure of data storage centres (data centres); electronic data storage for third parties; software services for the management of physical infrastructure of data storage centres (data centres); quality control services consisting of technical surveys of installations, measurements and condition reports; Services for the implementation, development and management of online services on information and telecommunication networks and systems; Preparation of technical reports (expertise) on the management of industrial installations and energy production sites; Drawing up technical reports (expertise) on the management of industrial installations and energy production sites, drawing up risk management plans and measurement indicators, proposing progress plans ; Programming for computers in the fields of energy production and consumption, computer platform as a service (PaaS) services offering services, application programming interfaces, and software development kits enabling companies and software developers to develop software services, products and applications; related research and design services in building, construction, architecture and engineering ; engineering in building data modelling ; urban design expertise; technical advice and expertise in construction; consultancy on urban and regional planning ; planning and technical advice for the development of construction projects ; Inspection of factories, all industrial or artisanal production sites, warehouses and buildings intended for the reception of the public, regarding safety [expertise]; technical inspections, especially energy inspections in the property sector (quality control); programming of home automation systems as well as programmable logic controllers for energy performance, consumption control or smart grid management (energy distribution networks using computer technology to improve the matching of energy supply and demand); information and telecommunication systems development services; Information technology services relating to the monitoring services to ensure of data for safety purposes is being collected from energy storage devices, energy installations, renewable energy production installations, heating and cooling installations, heating apparatus, district heating networks installation and district cooling networks or heat storage or recovery, ventilation system, water distribution, and air conditioning systems; Information technology services relating to the monitoring services in relation to the collection of data relating to humidity, temperature, air quality from energy installations, thermal heating and refrigeration installations, heating and district heating systems, district cooling systems, ventilation, water distribution, of air conditioning and air conditioning systems.

Class 45:

List of cases accepted for opposition purposes as shown in Journal 2025/050 published on 12 December 2025 .

Surveillance services for energy facilities, for heating and cooling installations, for heating apparatus, for district heating and cooling networks, for ventilation systems, for water distribution, for air conditioning and climate control; Consultation in relation to the safety of energy installations, thermal and refrigeration installations, heating, urban heating networks and urban cold storage or heat recovery networks, ventilation, water distribution, air conditioning; Security services for protection of property and individuals; Security consultancy; Motorway and railway security services; Airport security services; Security services relating to the charging of electric vehicles; rental of clothing.

employment, recruitment of personnel, careers, job resources and listings, and professional networking; downloadable computer software for testing skills in the fields of artificial intelligence, machine learning, information technology (IT), business process automation, prompt engineering, and software development; downloadable computer software for assisting companies in attracting and identifying talent, and making hiring decisions; downloadable computer software for work simulation testing of job applicants; downloadable computer software for use in quantitative skill analysis and ranking of potential employees; downloadable computer software for users to sign up for job alerts online and apply for jobs; downloadable publications; data processing apparatus; computer hardware; computers and computer peripherals; earphones; headphones; sunglasses; laptop cases; mobile phone cases; smart watches; smart bands; smart jewelry; wearable computers; wearable cameras; digital media streaming devices; virtual and augmented reality headsets, goggles, glasses, controllers, and remotes; wireless communication devices for providing access to the internet and sending, receiving, and transmitting data, images, audio, video, and multimedia content; intercommunication apparatus; personal digital assistants [PDAs]; media players; smartphones; sound recording, reproducing, and transmitting apparatus; telecommunication apparatus in the form of jewelry; devices for hands-free use of mobile phones; portable and handheld digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, image, and audio files; wireless communication devices featuring voice, data and image transmission including voice, text and picture messaging, a video and still image camera, also functional to purchase audio, games, video and software applications over the air for downloading to the device; user-programmable humanoid robots, not configured; humanoid robots having communication and learning functions for assisting and entertaining people; integrated circuits; microprocessors and semi-conductors.

Class 35:

Advertising; business management, organization and administration; office functions; advertising and marketing; dissemination of advertising for others via the internet; providing on-line web directory services featuring hyperlinks to the websites of others; compiling indexes of information; online comparison shopping services; compiling and maintaining online commercial information directories; advertising and directory services, namely, promoting the services of others by providing a web page featuring links to the websites of others; advertising and promoting the goods and services of others; online retail store services connected with the sale of computer programs, software, mobile software applications, software extensions, software plugins, intelligent agents, digital assistants, and digital media; promoting the goods and services of others; online retail store services connected with the sale of a wide variety of consumer goods of others, namely, cleaning preparations, cosmetic and beauty products, soaps, personal care items, fragrances, dietary supplements, clothing, footwear, hats, hair products, fashion accessories, clothing accessories, sunglasses, bags, backpacks, pet clothing, jewelry, key chains, watches, umbrellas, pet products, costumes, art supplies, office and school supplies, cards, stickers, books, printed matter, stationery, posters, stickers, magnets, gift cards, cutlery, audio-visual equipment, computer hardware, computer accessories, downloadable music files, computer games, downloadable electronic publications, consumer electronics, home automation control devices, information technology equipment, mobile phones, cameras, navigation devices,

recorded content, set-top boxes, smartphones, smartwatches, tablet computers, wearable computers, musical instruments, food cooking equipment, automobile accessories, bicycle accessories, household and kitchen utensils and containers, home furnishings, furniture, cookware, tableware, drinkware, fabrics, textiles, floor coverings, wall coverings, festive decorations, games, figurines, sporting articles, sporting equipment, toys, video game apparatus, food, candy, beverages, gardening products, and kitchen appliances; promoting the goods and services of others by providing links to the retail web sites of others, coupons, offers, consumer reviews, comparison shopping, and discount information; providing consumer product information for the purpose of assisting with the selection of general consumer merchandise to meet the consumer's needs; operating online marketplaces for sellers of goods and/or services; business management of data centers for others; providing employment information; providing career information; employment recruiting consultation; employment staffing consultation services; job placement; employment hiring, recruiting, placement, staffing and career networking services; testing, analysis, and evaluation of the knowledge, skills, and abilities of others for career placement purposes; providing an on-line searchable database featuring employment opportunities and content about employment; providing a web site featuring the ratings, reviews and recommendations on employers and employees and places of employment for use by employees, employers, business owners, and consumers; professional staffing and recruiting services; providing networking opportunities for individuals seeking employment; on-line business networking services; providing on-line employment information in the field of recruitment, careers, job resources and listings, and resumes; advertising and marketing services relating to the recruitment of personnel; providing an interactive web site that facilitates the preparation of resumes and compiling professional and educational experiences; providing business assistance relating to recruitment and placement of staff; providing employers with targeted candidates or potential employees.

Class 38:

Telecommunications services; providing access to databases; providing online forums; transmission of messages; electronic transmission and streaming of data, digital media, audio, video, movies, images, picture, text, photos, user generated content, and audiovisual material; providing user access to computer programs in data networks; provision of access to a global computer network; communication services, namely, electronic transmission of data and documents among computer users; transmission of digital files; transmission of electronic mail; on-line services, namely, message sending; transmission of news; peer-to-peer network computer services, namely, electronic transmission of audio, video and other data and documents among computers; video on demand transmission services; video broadcasting.

Class 41:

Education; providing of training; entertainment; sporting and cultural activities; providing online electronic publications, not downloadable; educational services, namely, organizing and conducting conferences, seminars, classes, and workshops in the fields of artificial intelligence, machine learning, information technology (IT), business process automation, prompt engineering, project management, and software development; providing online news, information and commentary in the fields of artificial intelligence, machine learning, information

List of cases accepted for opposition purposes as shown in Journal 2025/050 published on 12 December 2025 .

technology (IT), business process automation, prompt engineering, project management, and software development; organizing educational and entertainment conferences in the field of artificial intelligence, machine learning, information technology (IT), business process automation, prompt engineering, project management, and software development; providing online non-downloadable publications in the nature of journals, blogs and articles in the field of artificial intelligence, machine learning, information technology (IT), business process automation, prompt engineering, project management, and software development; training services in the field of artificial intelligence, machine learning, information technology (IT), business process automation, prompt engineering, project management, and software development; entertainment services provided in virtual environments; entertainment information; providing online videos, not downloadable; entertainment services, namely, providing online, non-downloadable virtual badges, emoticons, and emotes for use in virtual environments; arranging, organizing and conducting of competitions, games and quizzes; organization and presentation of shows, competitions, games, concerts and entertainment events; entertainment services in the nature of development, creation, production, distribution, and post-production of film, audio, radio, motion pictures, television shows, and multimedia entertainment content; providing on-line information and news in the field of employment training; providing job training in the field of artificial intelligence, machine learning, information technology (IT), business process automation, prompt engineering, project management, and software development; IT training services; conducting online instruction and courses in the fields of artificial intelligence, machine learning, information technology (IT), business process automation, prompt engineering, project management, and software development; providing a website featuring non-downloadable videos in the fields of artificial intelligence, machine learning, information technology (IT), business process automation, prompt engineering, project management, and software development; providing training for certification in the fields of artificial intelligence, machine learning, information technology (IT), business process automation, prompt engineering, project management, and software development; providing web-based and in-person classes in the fields of artificial intelligence, machine learning, information technology (IT), business process automation, prompt engineering, project management, and software development; providing online non-downloadable course materials, namely, instructional, educational, and teaching materials in the fields of artificial intelligence, machine learning, information technology (IT), business process automation, prompt engineering, project management, and software development.

Class 42:

Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; providing online non-downloadable computer software; software as a service [SaaS]; platform as a service [PaaS]; research and development services in the field of artificial intelligence, computer science and machine learning; research, design and development of computer programs and software; providing online non-downloadable computer software for developing and operating artificial intelligence-based applications; providing online non-downloadable software used for training and simulating artificial intelligence models;

application service provider featuring application programming interface (API) software; providing online non-downloadable software and computer programs for using language models; providing online non-downloadable software and computer programs for machine learning; providing online non-downloadable software and computer programs for natural language processing, generation, understanding, reasoning, and analysis; providing online non-downloadable software and computer programs for detecting, recognizing, processing, analyzing, understanding, creating, generating, enhancing, and/or editing text, voice, speech, audio, images, graphics, and/or video; providing online non-downloadable software and computer programs for conversion of text and data files into software code, for detecting, recognizing, processing, analyzing, understanding, generating and/or editing software code, and for multilingual text and speech recognition, translation, and transcription; providing online non-downloadable software and computer programs for sharing datasets for the purpose of machine learning, predictive analytics, and building language and image models, for developing and implementing artificial neural networks, for the purpose of testing artificial intelligence agents, algorithms, or programs, and for using, customizing, fine-tuning, and adapting artificial intelligence models; providing online non-downloadable software and computer programs for task automation and workflow orchestration; providing online non-downloadable software and computer programs for building, using, and deploying autonomous agents, semi-autonomous agents, and intelligent agents; providing online non-downloadable software and computer programs for drafting, summarizing, designing, generating, creating, editing and publishing documents, written content, spreadsheets, presentations, and emails; provision of search engines for the internet; providing a website featuring a media aggregator and search engine for internet content; computer services, namely, providing search engines for obtaining data, images, audio and video on a global computer network; providing customized on-line web pages featuring user-defined information, which includes search engines and on-line web links to other web sites; providing online non-downloadable cloud computing software using artificial intelligence for use in industry-specific software development and machine learning; software as a service (SAAS) services featuring software using artificial intelligence for industry-specific end-to-end and cloud-to-edge solutions for software development and machine learning; providing online non-downloadable augmented reality (AR) and virtual reality (VR) software for AI-assisted interaction, simulation, and training; software as a service (SAAS) services featuring software for leveraging quantum computing resources to optimize AI model performance; providing online non-downloadable software and computer programs for data processing, encryption, anonymization, and privacy-preserving machine learning; providing online non-downloadable software and computer programs for multi-modal processing and understanding of text, audio, image, and video; providing online non-downloadable software and computer programs for generating synthetic data and synthetic training environments; providing online non-downloadable software and computer programs for retrieval-augmented generation, and knowledge graph construction; providing online non-downloadable software and computer programs for transmitting, streaming, displaying, accessing, and browsing data, information, user-generated content, digital content, computer software, computer games, audio works, visual works, and audiovisual works; providing online non-downloadable software and computer programs

List of cases accepted for opposition purposes as shown in Journal 2025/050 published on 12 December 2025 .

for transmitting, accessing, viewing, searching, uploading, downloading, sharing, integrating, displaying, purchasing, subscribing to, storing, and transferring data, computer programs, software, mobile software applications, software extensions, software plugins, intelligent agents, digital assistants, and digital media; providing online non-downloadable software and computer programs for developing and publishing computer programs, software, mobile software applications, software extensions, software plugins, intelligent agents, digital assistants, and digital media; providing online non-downloadable software and computer programs for providing access to online virtual environments; providing online non-downloadable software and computer programs for collaborating, instant messaging, video communications, audio communications; software as a service (SAAS) services featuring software using artificial intelligence for cybersecurity; providing online non-downloadable software and computer programs for accessing, browsing and searching online databases; providing online non-downloadable software and computer programs for database, document, and data management, for workflow management, for personal information management, and for project management; software as a service (SAAS) services featuring software for data visualization, data analytics, predictive analytics; providing online non-downloadable software for searching, browsing, accessing, processing, analyzing, monitoring, understanding, and taking action in response to websites, user interfaces, and data; providing online non-downloadable software for browsing the global computer network and secure private networks; providing online non-downloadable software using an artificial intelligence browser; providing online non-downloadable software for interacting with a browser to research, extract, copy, and store data; providing user authentication services using single sign-on technology for online software applications; providing user authentication services using biometric hardware and software technology for e-commerce transactions; providing temporary use of on-line non-downloadable single sign-on software; providing online non-downloadable software for security, user authentication, and password and log in management and protection; providing online non-downloadable software for shopping; providing online non-downloadable software for recommending, comparing, and selecting the products and services of others; providing online non-downloadable software for providing information and links to retail websites, coupons, offers, consumer reviews, comparison shopping, and discount information, and for facilitating e-commerce transactions; rental of data center facilities; rental of space in a computer colocation facility for containerized data centers of others; technical consulting services in the fields of datacenter architecture, public and private cloud computing solutions, and evaluation and implementation of internet technology and services; providing online non-downloadable software for use in assessing, monitoring, administration and management of data centers and datacenter devices, and public and private cloud computing IT and application systems and resources; providing online non-downloadable software for managing cloud computing resources; providing online non-downloadable software for messaging, chat and social networking; providing online non-downloadable software for transmitting, receiving, accessing, viewing, uploading, downloading, broadcasting, sharing, integrating, displaying, formatting, organizing, storing, transferring and streaming of data, text, digital media, images, audio, video, user generated content, and animations; providing online non-downloadable software for creating, displaying and sharing emoticons; creating a virtual environment in the

nature of an online community for users to create, produce, edit, manipulate, transmit, share, and comment on videos or other electronic media; providing online non-downloadable software for accessing, browsing, and searching online databases and recommending multimedia content; providing online non-downloadable software for streaming audiovisual and multimedia content to mobile digital electronic devices; providing online non-downloadable software, namely, parental control software; providing online non-downloadable software for developing and publishing applications for interactive streaming; providing online non-downloadable software that enables users to designate specific content for future viewing; providing online non-downloadable software for creating and editing of film, movies, video, digital audio and images; providing online non-downloadable software for recording, editing, mixing, analysing, restoring, converting, compressing, mastering and producing digital audio; providing online non-downloadable software for audio production and audio composition; providing online non-downloadable software for post-production restoration, color correction, and editing of video and images; providing online non-downloadable software for job matching; providing online non-downloadable software for locating and applying for jobs; providing online non-downloadable software for advertising job vacancies; providing online non-downloadable software for recruitment, hiring, video interviewing, and organizing the hiring and applicant tracking process for employers and employees; providing online non-downloadable software for sourcing and screening candidates, scheduling interviews, allowing access to employers to conduct interviews, and communicate with candidates; providing online non-downloadable software for creating customized web pages featuring user-defined information, personal profiles, audio and images; providing online non-downloadable software for users to access and interact with information and databases in the fields of employment, recruitment of personnel, careers, job resources and listings, and professional networking; providing online non-downloadable software for testing skills in the fields of artificial intelligence, machine learning, information technology (IT), business process automation, prompt engineering, project management, and software development; providing online non-downloadable software for assisting companies in attracting and identifying talent and making hiring decisions; providing online non-downloadable software for work simulation testing of job applicants; providing online non-downloadable software for use in quantitative skill analysis and ranking of potential employees; providing online non-downloadable software for users to sign up for job alerts online and apply for jobs; testing, analysis, and evaluation of the knowledge, skills, and abilities of others in the fields of artificial intelligence, machine learning, information technology (IT), business process automation, prompt engineering, project management, and software development to determine conformity with certification standards of proficiency of professional skills; providing online non-downloadable software for extracting and retrieving information and data for others by means of global computer networks; computer services, namely, monitoring, tracking and reporting on the performance of the website and online content of others; providing online non-downloadable software for optimizing website navigation; searching and retrieving information, sites, and other resources available on computer networks for others; hosting of digital content on the internet; providing a website featuring technical information relating to computer software; providing computer software consulting services; technical support services, namely, troubleshooting

List of cases accepted for opposition purposes as shown in Journal 2025/050 published on 12 December 2025 .

in the nature of diagnosing and repairing computer software problems.

Class 45:

Online social networking services; licensing of intellectual property; licensing of computer software; user identity verification services; online social networking services, namely, facilitating social introductions or interactions among individuals; providing an internet website portal for engaging in social networking; providing information, news, commentary, and databases in the field of social networking; social introduction and networking services.

Marketing services; advertising; business management, organization, and administration; office functions; advertising, marketing, and promotional services; commercial administration of the licensing of the goods and services of others; the bringing together, for the benefit of others, of a variety of telecommunication service plans and telecommunications service activation enabling consumers to conveniently compare and purchase those services in retail stores and through online websites; retail store services and online retail store services featuring mobile telephones and mobile telephone accessories; the bringing together, for the benefit of others, of services relating to the sale of prepaid wireless air time minutes and wireless communication services enabling consumers to conveniently compare and purchase those services in retail stores and through online websites; distributorship services relating to mobile telephones and mobile telephone accessories; the bringing together, for the benefit of others, of distributorship services relating to prepaid wireless air time minutes and wireless communication services enabling consumers to conveniently compare and purchase those services; arranging subscriptions to telecommunication services for others; providing promotional marketing services to businesses in the broadband and media industries; marketing the goods and services of others via location-based messaging; online advertising and marketing services via wireless networks; marketing research services in the nature of tracking consumer behavior and analyzing consumer trends; advice on the analysis of consumer buying habits and needs provided with the help of sensory, quality and quantity-related data; marketing and consulting services in the field of promoting and tracking the goods, services, and brands of others through all public communication means; business monitoring and consulting services, namely, tracking websites and applications of others to provide strategy, insight, marketing, sales, operation, product design, particularly specializing in the use of analytic and statistic models for the understanding and predicting of consumers, businesses, and market trends and actions; consumer loyalty services for commercial, promotional, and/or advertising purposes; marketing, branding, and virtual consumer engagement strategy consultancy; commercial administration of the licensing of telecommunication services of others; retail and subscription services, namely, retail store services and subscription-based retail store services in the field of mobile phones; the bringing together, for the benefit of others, of retail and subscription services in connection with wireless communication services enabling consumers to conveniently compare and purchase those services in retail stores and through online websites; providing commercial information on shopping; providing consumer information via a website.

Class 36:

Financial and payment platform services; financial transactions and payment services; financial, monetary, and banking services; telecommunication reseller service, namely, telecommunication air time brokerage services; wireless telephone payment services, namely, wireless mobile telephone rate plans; financial services; payment management services; electronic banking services

List of cases accepted for opposition purposes as shown in Journal 2025/050 published on 12 December 2025 .

related to the facilitation of electronic transfers of funds over telecommunications; services related to the facilitation of electronic payments via telecommunications; electronic transfers of funds via a mobile application; mobile e-Wallet services; payments by mobile contactless payment services; contactless payment services; direct account management online; electronic transfer of money for others; providing electronic processing of electronic funds transfer, credit card, debit card, electronic check and electronic, mobile and online payments; financial services, namely, electronic funds transfer; clearing and reconciling financial transactions via a global computer network and wireless networks; providing a wide variety of payment and financial services, namely, credit card payment processing services, issuing credit cards and providing personal and business lines of credit, electronic payment services involving electronic processing and subsequent transmission of bill payment data, bill payment services with guaranteed payment delivery, all conducted via a global communications network; credit card and debit card transaction processing services; providing payment and financial services, namely, electronic creation, processing, transmission and reconciliation of invoice payments; credit card transaction processing services; credit services, namely, providing revolving credit account services; bill payments services; providing electronic mobile payment services for others in the nature of providing secure commercial transactions and payment options using a mobile device at a point of sale; credit card transaction processing services and payment processing services in the field of credit card payments and electronic payments; electronic foreign exchange payment processing; payment processing services, namely, providing virtual currency transaction processing services for others; prepaid purchase card services, namely, processing electronic payments through prepaid cards, issuing prepaid credit cards; on-line prepaid card services, namely, processing of prepaid card transactions and payments; issuing prepaid debit cards for electronic cash transactions.

Class 38:

Telecommunications Services; transmission of digital files and electronic mail; providing user access to global computer networks; radio and television broadcasting; video-on-demand transmission; providing internet chatrooms and online forums; telephone and voice mail services; teleconferencing and videoconferencing services; mobile telephone communication; mobile telephone services and telecommunications also by cable; wireless broadband communication services; wireless communication services, namely, wireless mobile telephone calling, electronic messaging, and data transmission service plans; electronic transmission of geolocation data from mobile devices; transmission of location-based messaging; transfer of data by telecommunications; telecommunication access services; telecommunications services, namely, local, long distance and international transmission of voice, data, text, video, advertising, gaming and graphics by means of mobile, wireless devices and the internet; cellular telecommunications services, namely, real-time transmission of voice, audio, video and data between wireless telecommunications devices; text and picture wireless messaging service; instant messaging services; electronic, electric, and digital transmission of voice, data, images, signals, and messages; electronic voice messaging, namely, the recording and transmission of voice messages by telephone and mobile wireless devices; telecommunication services for providing multiple-user access to a global computer network; electronic transmission and streaming of digital media content for others via global and local computer networks;

providing user access to a global computer network; electronic transmission of e-mail; network roaming services provided as part of mobile telephone services; network roaming services provided as part of wireless internet services; rental of access time to global computer networks; providing access to databases; cable television broadcasting; communications by telephone; communications by cellular phones; communications by computer terminals; communications by fibre optic networks / communications by fiber optic networks; computer aided transmission of messages and images; electronic bulletin board services [telecommunications services]; information about telecommunication; providing internet chatrooms; message sending; rental of message sending apparatus; providing online forums; paging services [radio, telephone or other means of electronic communication]; radio broadcasting; radio communications; satellite transmission; streaming of data; providing telecommunication channels for teleshopping services; providing telecommunications connections to a global computer network; telecommunications routing and junction services; teleconferencing services; telephone services; television broadcasting; transmission of electronic mail; transmission of greeting cards online; transmission of digital files; videoconferencing services; voice mail services; wireless broadcasting; telephone and cable communication services; telecommuting services to enable telecommuting services; telephone call card services; telecommunication services to enable sending and receiving, storage and processing of information; communication through documents, letters, images, sounds and voices of people, writing and audio-visual and electronic communications; exchange of information and news via electronic devices; cable transmission; providing telecommunication services for providing information through communication with multilateral media and providing telecommunication services through interaction with the multilateral media; information communication consultancy services; transmission or presentation of information for commercial or personal purposes from a computer storage location; e-mail services; remote Internet services; electronic transfer of information including through web pages, Internet logs, or storage record information and date; telegram services; remote access services; provision of remote connections for access to the Internet and Intranet, all of which are included in Category; phone services and communications cable; electronic and telecommunication transmission services; telephone telecommunications services provided via prepaid telephone calling cards; send and receive, store and process information; communications services for the transmission of information by electronic means in the form of documents, messages, images, sounds and voice messages; provision of telecommunication services to enable the exchange of news and information through electronic and computer cables and radio devices; satellite communications; wired and wireless communication services; consultation services related to telecommunication services; e-mail services, telecommunications services remotely related to the Internet; electronic transfer of information through web pages; computer programs and any other information; providing telecommunication services to connect and communicate remotely to the internet to places where log information is stored; telegram messaging services; services access to telecommunications; provide remote connections to access the Internet and internal network (the Internet).

Class 41:

Education; providing of training; entertainment; sporting and cultural activities; educational services, namely, providing

List of cases accepted for opposition purposes as shown in Journal 2025/050 published on 12 December 2025 .

information and training in the fields of telecommunications products and services; entertainment services, namely, organizing community sporting and cultural events; entertainment services, namely, providing information by means of a global computer network in the fields of entertainment, popular culture, sports, current events, gaming, shopping, news, weather, traffic, social networking, theater, performing and visual arts, consumer interests, technology, science, health, finance, business, politics, travel, world affairs, music, fashion, and commentary.

Class 42:

Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; providing non-downloadable software for the distribution and customization of consumer-generated content and content of others selected based on the geographic location of a mobile phone or other wireless digital device; application service provider featuring application programming interface (API) software for use in accessing, managing, monitoring, using, and enrolling in mobile phone calling and data plans; software as a service (SAAS) services featuring software for providing telecommunication services; software as a service (SAAS) services featuring software for providing mobile phone and wireless device services; software as a service (SAAS) services featuring software for use in accessing, managing, monitoring, using, and enrolling in prepaid wireless services; software as a service (SAAS) services featuring software for use in accessing, managing, monitoring, using, and enrolling in mobile phone calling and data plans; cloud computing services namely software for use in the transmission, uploading, transferring, downloading, storing, and sharing of data, documents, files, information, text, photos, images, graphics, music, audio, video and multimedia content in the field of mobile telecommunications ; providing on-line non- downloadable software for the transmission, uploading, transferring, downloading, storing, and sharing data, documents, files, information, text, photos, images, graphics, music, audio, video, and multimedia content; providing temporary use of online non-downloadable software for processing electronic payments; providing temporary use of online non-downloadable software for creating, preparing, managing, sending, processing, tracking, and reconciling invoices; providing temporary use of online non-downloadable software for issuing receipts regarding mobile payment transactions; providing temporary use of online non-downloadable authentication software for controlling access to and communications with computers and computer networks; Providing temporary use of online, non-downloadable software for enabling the electronic transfer of money between users; providing temporary user of online, non-downloadable software to transfer, split, and share funds between users; providing temporary use of online, non-downloadable software for enabling processing of electronic funds transfers and payments, credit card, debit card, electronic check and electronic, mobile and online payments; providing temporary use of online non-downloadable software for promoting the goods and services of others, namely, providing information regarding rewards, discounts, cash back, coupons, rebates, vouchers and special offers for the goods and services of others.

StrucPro

Class 1:

Chemicals used in industry, unprocessed resins, unprocessed plastics, fibre reinforced polymeric resins, artificial resins for use in manufacture, chemical resins (semi-finished), coating materials made from resins, fibres impregnated with synthetic resins for use as raw materials; mouldable synthetic resins, synthetic resins; adhesive fillers; filler materials for plastics; reinforced plastic fillers; reinforcing fillers; synthetic resin fillers; modifiers for thermoset polymeric materials; chemical preparations for use in providing fire retarding properties; fire

retardant preparations; fire retarding chemicals; raw materials for use as coatings [other than pigments]; waterproof coatings [chemical, other than paints]; adhesives for industrial use in the form of coatings; chemical products in the nature of protective coatings; chemicals for use in the manufacture of flame retardant coatings; coating compositions having waterproofing properties; coating materials made from synthetic resins; coatings [chemical, other than building materials]; coatings for waterproofing [chemicals]; polymer coatings [other than paints]; plastics in the form of gels; adhesive compositions for use in industry; adhesive compounds with a base of epoxy resins; adhesive plastics; adhesives for use in bonding materials [industrial]; adhesives for use in construction; adhesives for use in science; adhesives for waterproofing; chemical compounds for use in the manufacture of adhesives; compounds of adhesives and plastics [other than for household or stationery use]; mixtures of resin and filler for use as an adhesive; structural adhesives for automotive use; structural adhesives for building use; structural adhesives for use in building, producing and fabricating wind turbines; Epoxy resins; Resins (Epoxy -), unprocessed; Unprocessed epoxy resin; Hardeners for epoxy resins; Synthetic resin adhesives for laminating purposes; Laminating agents; epoxy laminating resin.

Class 2:

Paints, varnishes, lacquers, preservatives against deterioration, natural resins, coatings in the form of paints; solvents; organic pigments; pigments; pigments for protective coatings; pigments in powder form; acrylic coatings in the nature of paint; coatings [paints]; coatings for waterproofing [except chemicals]; epoxy resin coatings; materials in the nature of coatings for building purposes [paints]; pigments for protective coatings; powder coatings; resinous coatings; resins for coating purposes; additives for use in coatings; coatings for waterproofing [except chemicals]; polyester gel coatings for fibreglass moulds. epoxy primers; Epoxy coatings; Epoxy resins for use in covering floors [coatings]; Epoxy resins for use in covering walls [coatings].

Class 7:

Moulds, turbines, blades for turbines, blades for wind turbines, turbine blades for power generation; shells, roots and spars for wind turbines; parts and fittings for wind turbines.

Class 12:

Parts for vehicles, including for boats, aeroplanes, lorries and railway vehicles, namely bodywork parts, chassis, cellular panels, hatch covers, interior trim parts of automobiles, seat pillars, seat posts, spars being parts of watercraft, struts, suspension parts of vehicles, reinforcement strips for use in vehicle bodies, fairings for vehicles, bodywork linings for vehicles, bodywork facings for vehicles, structures for car floor pans, structures for car boot floors, roof linings for vehicles, vehicle roofs, railway vehicle interior panels, composite parts for use in linings, side walls, ceilings, dado panels, window panels, partitions, fixtures, galleys, stowages, bars, airducts, all being for vehicles and aircraft; parts for watercraft, namely ceilings, roof linings, wall linings and bulkheads; road trailers, load carrying trailers, trailers, vehicle trailers, railway rolling stock, flooring structures for vehicles, vehicle body panels and flooring, aircraft interior panels; body panels; marine masts, hulls, spars, road trailers, load carrying trailers, trailers, vehicle trailers, railway rolling stock, flooring structures for vehicles, vehicle body panels and flooring; aircraft interior panels; body panels.

Class 17:

List of cases accepted for opposition purposes as shown in Journal 2025/050 published on 12 December 2025 .

Resins, prepreps, glass fibre laminates, carbon fibre laminates, polymeric fibre laminates, unprocessed resin laminated prepreps, gap filling tapes, sealing tape, plastics tapes, resin impregnated tapes, adhesive tape resins for use in flooring, artificial resins, fibre reinforced resinous materials; fibres impregnated with polymeric resins for use in manufacture, semi-finished resins, pre-impregnated fibre reinforced resinous materials for moulding, repair resins, resin impregnated materials for fabricating vehicle parts, resins for application to floors, resins for use in moulding, plastics in extruded form for use in manufacture, semi-worked polymer resins, fibres impregnated with synthetic resins for use in manufacture, pre-impregnated fibre reinforced resinous materials for moulding, resin impregnated tapes for fabricating vehicle parts; thermosetting resins [semi-processed]; expansion joint fillers; insulating fillers; mixtures of plastics with fillers for use as intermediates; mixtures of resins with fillers for use as intermediates; panels of plastics [for use in manufacture]; panels of plastics [semi-worked]; fire retardant materials for building purposes; flame retardant materials; filtering materials of semi processed foams of plastics, flame retardant plastics foam material, semi processed flexible foamed plastics, foam for use in manufacture, foam for use in insulation, foamed plastics in extruded form for use in manufacture, laminates containing foams, plastic foam materials for use in manufacture, semi processed articles of foam plastics; insulating coatings; gels for forming protective seals against moisture; adhesive films; adhesive materials [other than for industrial use]; goods made from these materials not included in other classes; Tapes of epoxy impregnated fibreglass for insulating; fibre reinforced synthetic resins for use in manufacture.

Class 19:

Non-metallic pipes and walkways, masts, planks, stringers, non-metallic building materials in the form of tapes; spars for use in building, flooring (non-metallic), flooring compounds of synthetic resins, bridges and bridge units (not of metal); non-metallic building materials being columns, and/or structures; fire retardant panels (non-metallic) for use in construction; flame retardant building materials; building panels, not of metal; composite panels of non-metallic materials for use in building; expanded honeycombs (non-metallic) being filler for sandwich panels; fire retardant panels (non-metallic) for use in construction; expanded honeycombs (non-metallic); flexible fillers (non-metallic) for building; non-metallic building materials, materials made from foam for use in building; coatings [building materials]; cement [other than adhesives]; Epoxy grout; Building materials reinforced with plastics and glass fibres.

Class 37:

Marine engineering; application of coatings to buildings, floors, water vehicles, and cars; application of surface coatings; repair, maintenance and installation services, construction engineering; advisory, information and consultancy services concerning the foregoing.

Application for a series of 2 marks.

Class 9:

Security control apparatus; security surveillance apparatus; security systems for buildings; security systems, other than for vehicles; security warning apparatus; telephone security instruments; transmitters for use in security; cellular telecommunications instruments; telecommunications security instruments; burglar alarm apparatus (other than for vehicles); electrical control panels for burglar alarm systems; tele-radio controls for electronic burglar alarms; global positioning instruments; alarm management apparatus; alarm signalling apparatus; alarm systems incorporating control and visual display apparatus; alarms; anti-theft alarm installations (other than for vehicles); cellular radio alarm communication apparatus; commercial alarm systems for buildings; intruder alarms (other than for vehicles); remotely controlled alarm locks; access control cards; telecommunications alarm apparatus; computer monitoring apparatus; computer hardware; computer routers; LTE routers; 4G routers; machine to machine communication equipment; internet of things communication equipment; telematics communication equipment; cellular modems; computer software; mobile apps; device automation software; software for remote management of device and data usage; software for remote management of computer hardware; downloadable user manuals in electronic form; IoT sensors and gateways; wearable devices for workplace safety monitoring; electronic location badges; environmental hazard sensors; health and safety signal transmitters; Hardware, software, IoT, downloadable tech; Electrical and electronic alarm communication devices; downloadable software for monitoring, managing, and controlling alarm systems; downloadable mobile applications for controlling alarm outputs and receiving alerts; fire alarms; smoke detectors; IoT devices and sensors for building, industrial, and workplace safety; SIM cards and embedded connectivity modules; computer hardware and software for security and safety monitoring; wearable devices and smart badges for use in workplace safety; downloadable cloud-based software for use in alarm response and data management; apparatus for transmission of data; telecommunications apparatus for use in security and safety systems. .

Class 10:

Medical devices adapted for occupational health monitoring; apparatus for monitoring vital signs; integrated health and safety diagnostic tools.

Class 16:

Printed manuals, instructional materials, user guides and technical documentation relating to alarm systems, fire systems, monitoring devices, and workplace safety.

Class 35:

Business consultancy and advisory services relating to alarm and security system deployment; provision of online portals for managing subscriptions, usage and customer accounts; data compilation and analysis services relating to fire and security systems; database management; provision of commercial information via global computer networks; business consultancy

List of cases accepted for opposition purposes as shown in Journal 2025/050 published on 12 December 2025 .

relating to IoT and safety systems; subscription and billing management; software and systems licensing services; Business data analytics; provision of online business information platforms; business management and consultancy services relating to procurement; data analysis services relating to security and safety performance; compilation and systemisation of information into computer databases; business consultancy relating to workplace safety systems and alarm monitoring; business support services for security operations; commercial management of device connectivity services; subscription management and billing services for SaaS and connectivity plans .

Class 37:

Installation, repair and maintenance of security systems, fire alarms, telecommunications apparatus and electronic monitoring devices.

Class 38:

Telecommunications; mobile telephone communication services; cellular telecommunications services; data transmission services over telecommunications networks; digital network telecommunications services; operation of telecommunications apparatus; providing telecommunications connections to a global computer network; remote transmission of data by means of telecommunications; satellite telecommunications services; providing user access to a global computer network (service providers); providing user access to global positioning signals for navigation purposes; telecommunications security; communication between computers; providing access to online computer databases; web portal services; data communication over multiple network pathways; VPN services; video communication services; video transmission services; Communications & Connectivity; Telecommunications services; transmission of alarm signals, data and video over global communication networks; secure messaging services for alarm and safety systems; data communication services for IoT devices; provision of access to remote monitoring platforms; mobile and wireless communications services relating to security and fire alarm systems; leasing of telecommunications lines for connectivity services. .

Class 41:

Training services relating to the use, installation and management of security, fire alarm, IoT and monitoring systems; publication of instructional materials; provision of online training, workshops, and certification; Training and certification; Training services in the fields of security, alarm monitoring, and workplace safety; education services relating to the configuration, use and management of alarm systems and IoT devices; certification of technicians and operators of alarm and safety systems; publication of instructional materials in electronic form; provision of non-downloadable webinars, workshops and courses in relation to alarm connectivity software and systems. .

Class 42:

Design and development of computer hardware and software; software as a service (SaaS); platform as a service (PaaS); cloud computing services; encryption and cybersecurity services; artificial intelligence computer analysis; remote monitoring and diagnostics; API services; development of integrated control software for alarm networks; cloud data storage; design of software interfaces; SaaS; diagnostics, analytics, cloud platforms; Software as a Service (SaaS) featuring

software for use in configuring, diagnosing, managing and monitoring alarm and safety devices; provision of online non-downloadable software for use in controlling and analysing data from IoT and alarm systems; cloud computing services; development and maintenance of software for alarm monitoring and control; platform as a service (PaaS) for managing connectivity services; encryption services; providing virtual infrastructure for monitoring industrial and workplace safety; technical support services in connection with alarm connectivity software; software customisation and remote diagnostics for alarm communication devices; Provision of online platforms for business data monitoring and analytics .

Class 44:

Health and wellness monitoring using wearable devices; physiological monitoring for workplace safety; safety surveillance and alert systems to protect health in industrial settings; Health & Safety Monitoring; Monitoring of physiological conditions and vital signs for workplace safety purposes; health and safety monitoring using wearable devices and connected sensors; wellness monitoring systems for industrial environments. .

Class 45:

Security services; security services for the protection of property and individuals; access control services; rental of burglar, security or fire alarms; monitoring of security and fire alarm systems; remote surveillance and emergency response services; control centre services; licensing of software; Security and fire monitoring; control room services; Monitoring of security and fire alarm systems; remote monitoring of electronic devices for security and safety purposes; emergency response monitoring services; control room services for surveillance and alarm response; monitoring of alerts and automated notifications for use in industrial and commercial environments; security services for the protection of property and individuals through the use of alarm and sensor systems; surveillance services via remote platforms. .
