estate, and geopolitics; Insurance claims auditing services; Providing business information in the fields of imagery and geospatial data, agriculture, natural resources, and geopolitical issues; Providing in-person promotional forums in the fields of insurance, building and construction, catastrophes, climate, environment and weather events and issues, natural resources, geopolitics, and agriculture; Providing information and analysis relating to business risk management in field of insurance; Trade information in the field of insurance; Compilation and analysis of business information to assist in risk management and analysis, risk analytics, risk calculation, risk mitigation, risk forecasting, financial risk assessment, financial and investment analysis; Preparing electronic reports for business or commercial purposes in the fields of insurance, insurance services, insurance management and analysis, risk management and analysis, risk analytics, risk calculation, risk mitigation, risk forecasting, financial risk assessment, and financial and investment analysis; Risk management services; Preparing electronic reports for business strategic and operational purposes in the fields of insurance, insurance services, insurance management and analysis, risk management and analysis, risk analytics, risk calculation, risk mitigation, risk forecasting, financial risk assessment, and financial and investment analysis; Business data analysis for measuring the effectiveness of advertisements and targeting consumers; Business research; Providing data in the field of consumer behavior, namely, marketing information about consumer behavior; Maintaining a registry in the field of heavy machinery with information on ownership and theft of assets; Maintaining a registry of investigators of stolen equipment; Compiling and analyzing data, namely, business data for use in the insurance and financial industries; Compilation and analysis of information, namely, data compiling and analyzing in the field of insurance, relating to wildfires and analysis of risk associated with wildfires; Compilation and analysis of ratings information, namely, business risk assessment in the field of wildfires, used to evaluate risk; Business consulting in the fields of weather, climate and environmental risk; Compilation and analysis of data to assist in insurance claims management and analysis, and business risk management and analysis; Providing business information, namely, business information related to weather-related events, other catastrophic events, and business information related to estimates of insured loss and actual insured loss resulting from catastrophic events; Compilation and analysis of insurance data in the fields of agriculture, transportation, supply chain logistics, engineering, weather, environment and climate, insurance, construction, real estate, law enforcement, emergency services, government, and geopolitics, all for insurance analysis; Compiling and analyzing data for insurance analysis purposes; Consulting in the fields of natural resources management and geopolitics; Providing on-line information in the field of property and casualty insurance loss, namely, claims auditing; Providing on-line information in the field of insurance premium audits, for outsourcing insurance premium audits and for linking users of insurance premium audit services to high-quality vendors; Providing on-line information in the field of estimating contracting work to receive, track, document and manage repair estimates and property replacement costs; Providing on-line information in the field of screening candidates for verification of education, credentials, and employment history for business purposes; Providing on-line information in the field of estimating contracting work for cost estimating and other assessments in the building, construction, repair, restoration, maintenance and remodelling industries; Providing information about insurance and potential insured,

namely, providing statistical evaluation of insurance claims performance measures for others; Consulting about managing business risk relating to catastrophes; Providing in person promotional forums in the fields of technology in insurance, real estate, building and construction, catastrophes, climate, environment and weather events and issues, natural resources, geopolitics, and agriculture; Providing business risk information relating to cybersecurity and cyber risks; Compilation and analysis of business data in the field of cybersecurity and cyber risk assessment; Compiling, providing and updating an index of building construction remodelling activities; Providing business information about agricultural commodities, namely, production yield information via a global computer network; Business information services, namely, reporting of information and data about the transport of commodities; Providing analytics in the field of insurance, namely, analysis of business risk used to make decisions about insurance underwriting and insurance claims; Business data analysis of the effects of weather and catastrophic events on business performance, in the fields of insurance; Providing information and analytics on consumer spending; Providing information and analytics about consumer behaviour and consumer response to marketing, products and services; Providing information and analytics about market conditions; Providing data in the field of identity resolution and consumer intelligence; Providing consumer intelligence data, lead intelligence data, TCPA consent verification, data and marketing personalization data; Business consultancy services in the fields of natural and man-made risks, property and casualty risks, catastrophic risks, weather-related risks, cyber risks, climate risks, insurance, reinsurance, insurance portfolio management, insurance linked securities, and risk management; Business consultancy services; Providing business information.

Class 36:

Providing information about property and casualty insurance and underwriting risks, risk and evaluation, and risk management, for use by insurance companies in handling insurance claims and insurance investigations, about pending and historical insurance claims, and the adequacy of insurance coverage; Providing insurance information relating to changes in automobile insurance policies; Insurance rating services and information relative thereto, namely, benchmarking expected loss for financial risk assessment purposes, and computing and providing information about computation of insurance premium information; Providing insurance appraisals and evaluations, namely, appraisals of personal and real property insurance claims, and repair cost appraisal; Providing real-time insurance claims processing reports to insurance carriers and restoration contractors; Providing insurance claims processing featuring automated claims administration management, tracking, and monitoring of all stages of insurance claims handling; Insurance consulting in the nature of evaluating issued insurance policy information in conjunction with third party data libraries and proprietary databases and assessing rating factor errors in premium auditing to enhance actuarial analysis, and determining for others the accuracy and validity of insurance policyholders data used for the calculation of insurance policy premiums; Providing reports for mortgage originators and lenders containing information in making decisions about loans; Providing insurance information regarding the data of insurance policy transactions to comply with requirements to notify lien holders, secured parties, or mortgagees of changes in insurance coverage or policies; Providing information in the field of insurance claims, namely, assessment of insurance claims; Providing information on property damage and terrain,

List of cases accepted for opposition purposes as shown in Journal 2025/052 published on 26 December 2025 .

namely, financial appraisal of damages and information about insurance and financial risks relating to damage to property and terrain, to assist in insurance claims administration and analysis, insurance and financial risk management and analysis, financial risk assessment, and financial and investment analysis, and real estate valuation, and real estate risk management and analysis; Insurance underwriting information services; Insurance analysis services, namely, assessing insurance claims, and analyzing insurance information for purposes of financial risk assessment; Providing information and analytics on financial risk relating to specific geographic regions, weather, climate and environmental events, other catastrophes, world events, and other loss events; Providing insurance and financial risk analysis information and information for investors, manufacturers, insurance carriers, commodities traders, investors, and those in the supply chain, in the field of climate, environment, world events, and disaster risk management; Providing financial risk and investment data regarding climate, environment, world events, and disasters for use in the insurance and financial fields; Consulting and advisory services and providing information in the field of insurance; Providing information and analytics regarding property locations and characteristics, namely, insurance risks derived from property locations for purposes of insurance and financial risk assessment; Providing insurance ratings information, namely, insurance data analyzing insurance loss history and financial information used to evaluate insurance and financial risk; Consulting and advisory services in the fields of financial risk assessment, financial and investment analysis; Financial consultancy and financial risk management; Insurance claims administration; Services to insurance companies, Intermediaries and sellers in the nature of assessment and management of medical insurance underwriting risk, and claims adjustments on insurance products; Providing information about vehicle insurance and underwriting risks, risk assessment and evaluation, and risk management; Providing information about vehicles, namely, information about damage and repair appraisal and repair cost, for insurance and financial purposes; Providing vehicle history reports, namely, providing reports about damage and repair appraisal for insurance risk evaluation purposes; Providing information on and analysis of fire protection efforts, namely, insurance and financial risk associated with fire ratings of local communities, to assist in underwriting of insurance and financial services products; Providing ratings information relating to fire protection efforts, namely, insurance risk assessment information used to evaluate insurance and financial risk; Providing information on and analysis of wildfires and risk associated with wildfires, namely, insurance risk information, and ratings information relating to wildfires, namely, insurance risk assessment information, used to evaluate risk, all of the foregoing used to evaluate insurance and financial risk; Providing information in the field of insurance claims risk management, namely, information on weather and natural hazards; Insurance risk assessment relating to the effects of weather and natural hazards; Providing information in the field of insurance, namely, risk analysis information on weather and other perils; Providing information over a global computer network in the field of financial risk analysis information about weather and other perils; Providing insurance underwriting and insurance rating data, namely, insurance and financial risk rating data for insurance use via an online database; Compilation and analysis of data for financial purposes to assist in financial risk assessment, and financial and investment analysis; Providing insurance and financial risk information, namely, information related to weather events and other catastrophes in the nature of information

about the effects and potential effects of such events on premiums, and estimates of insured loss and actual insured loss resulting from catastrophic events, to assist in insurance claims management and analysis, financial risk management and analysis, financial risk assessment, and financial and investment analysis, and for assessing insurance and financial risk; Providing insurance to value portfolio analysis; Providing estimates of the costs of building repair, namely, repair cost evaluation; Compilation and analysis of financial data in the fields of energy and natural resources, agriculture, mining, transportation, supply chain logistics, engineering, weather, environment and climate, insurance, finance, construction, real estate, law enforcement, emergency services, real estate, and geopolitics, all for financial analysis; Compilation and analysis of ratings information, namely, insurance risk assessment in the field of wildfires, used to evaluate risk; Providing risk analysis ratings information, namely, insurance risk assessment, to the insurance industry relating to wildfires used to evaluate risk; Consulting and services related thereto in the nature of consultation in the fields of insurance; Providing online information in the field of property and casualty insurance loss, namely, claims auditing information; Providing on-line information in the field of real estate appraisal and valuation for real estate property assessment and creation of real property valuation reports for others; Providing on-line information in the field of claims administration for managing workers compensation claims; Providing on-line information, namely, providing online financial calculators for use in executing residential insurance and valuation calculations; Providing on-line information in the field of personal and real estate appraisals and repair cost evaluation to receive, track, document and manage insurance claims, property valuations, repair estimates and property replacement costs; Providing on-line information in the fields of insurance, insurance claims processing and administration used in insurance claims handling and that allows for collaboration among insurance underwriters, insurance claims personnel and insurance policyholders; Providing on-line information in the field of repair cost evaluation for cost estimating in the building, construction, repair, restoration, maintenance and remodeling industries; Providing on-line information in the field of insurance claims assessment; Providing information about insurance and prospective insureds and reports relating to insurance, namely, information about insurance claims assessment, claims adjustment, actuarial information, insurance underwriting information, insurance claims history information, asset valuation and history, and insurance coverage verification; Providing estimates of the costs of building repair, restoration, and reconstruction, namely, providing replacement cost valuation; Providing on-line information in the field of replacement cost valuation for cost estimating and other assessments in the building, construction, repair, restoration, maintenance and remodeling industries; Providing information about insurance and potential insureds, namely, assessment of insurance claims; Providing information and analytics in the field of cyber insurance and cybersecurity risks; Consulting and advisory services in the field of cyber insurance and cybersecurity risks; Providing information and analytics about health data to assist in life insurance underwriting, life insurance and pension analytics, insurance claim insights, insurance compliance and fraud detection, and actuarial and portfolio modeling; Insurance consulting services in the field of workers' compensation, liability and no-fault insurance, Medicare set asides, Medicare insurance reporting, conditional payment management, Medicare and insurance compliance

List of cases accepted for opposition purposes as shown in Journal 2025/052 published on 26 December 2025 .

audits, and Medicaid compliance; Insurance rating services using credit data; Providing information in the nature of insurance statistics related to motor vehicles for determining insurance premiums and for other insurance rating purposes; Insurance underwriting and administration services, namely, analysis of statistics and data concerning risks to assist with premium underwriting and pricing; Providing insurance information and analytics relating to vehicles, performance of vehicles and vehicle operators, location of vehicles, and frequency of vehicle use; Providing information and analytics regarding insureds and potential insureds for purposes of insurance and risk assessment; Predictive modeling services in the field of insurance; Providing analytics in the field of insurance, namely, analysis of financial risk used to make decisions about insurance underwriting and insurance claims; Providing information and analysis on aerial, terrestrial, and satellite imagery, photographic data, and geospatial data, for insurance risk assessment; Providing insurance and financial assessments of loss and potential loss resulting from catastrophes, to assist in insurance claims management and analysis, insurance risk management and analysis, financial risk assessment, and financial and investment analysis; Providing information, namely, appraisal information for insurance claims and insurance underwriting, to assist in insurance underwriting and the analysis of insurance risk; Technical data analysis, namely, statistical data analysis of the financial impacts of weather and catastrophic events, all for use in the fields of insurance; Providing information about real property, personal property, and owners and occupants of real property, in the field of insurance; Data verification and validation services provided to insurance companies, namely, providing data to verify the accuracy and status of information about real property, personal property, owners and occupants of real property, and insureds; Providing insurance and financial information to assist insurers with insurance and regulatory compliance requirements; Providing medical data via an online portal and API interface, to assist in insurance claims management and analysis, and for use by independent medical exam entities, group health insurers, and law firms; all specifically excluding investment advisory, investment consulting, asset allocation, wealth management, mutual fund management, or financial planning services, including annuities, stocks, bonds, and mutual funds; Providing insurance information; consulting, advisory, and analysis services in the fields of insurance, reinsurance, financial risk management, insurance and reinsurance portfolio risk, financial modeling and actuarial ratings, finance, and financial investment; providing information in the field of insurance risk management.

Class 37:

Providing information and analysis in the field of building construction, building inspection in the course of construction, roofs, other features of building structures, structural material and contents of buildings and land and conditions in the nature of damage and need for repair or replacement, for use in building inspections, risk assessment, hazard assessment, and reconstruction assessment; Providing information and analysis in the field of construction of building structures, roofs, other features of building structures; Consulting in the fields of building in the nature of building construction and repair of damages to buildings caused by catastrophes; Providing online information in the field of building construction information, for detecting, identifying, measuring and analyzing roofs, building structures, property, terrain, and other objects and conditions; Providing online information in the field of rebuilding and repair of building structures, roofs, and other features of property,

for creating drawings, floorplans, and schematics of property; Providing online information in the field of building inspection in the course of construction for use in inspection, evaluation and assessment of buildings.

Class 38:

Automatic electronic transmission of notifications of changes in automobile liability insurance policies to state motor vehicle departments; Providing access over a global computer network to databases and information for use in insurance, risk management, risk assessment, and risk analysis, all relating to loss prevention; Providing access to a database with information and analysis concerning the natural hazards that have occurred at property addresses or locations; Electronic transmittal of information and analysis concerning the natural hazards that have occurred at property addresses or locations.

Class 39:

Providing information in the field of transportation; Providing information about the transport of commodities.

Class 41:

Educational services, namely, conducting seminars, lectures, workshops and web seminars, for the insurance, insurance premium audit, law enforcement, and fraud detection fields, and providing training manuals in connection therewith; Providing online publications, namely, newsletters in the field of property and casualty insurance claim; Providing on-line information circulars containing actuarial data and analysis for use in insurance rate-making and other actuarial processes; Educational services, namely, providing in-person and on-line training courses, seminars and workshops and providing round table and panel discussions, in the fields of insurance, building and construction, climate, environment, catastrophes, weather events and issues, geopolitics, and agriculture; Online non-downloadable white papers, research papers, instruction books, and tutorials, all in the fields of insurance, real estate, building and construction, catastrophes, climate, environment, weather events and issues, geopolitics, and agriculture; Providing online publications in the nature of reports, briefs, and newsletters in the field of insurance, risk management and analysis, risk analytics, risk calculation, risk mitigation, risk forecasting, financial risk assessment and financial and investment analysis; Developing educational programs for use by law enforcement agencies to deter theft and find stolen property; Providing online non-downloadable electronic publications in the nature of maps featuring information and analytics relating to wildfires and risk associated with wildfires; Providing online non-downloadable publications in the nature of electronic reports with information on and analysis of wildfires via a global computer network; Educational services, namely, conducting conferences in the fields of catastrophe insurance and catastrophe response; Providing news in the nature of current event reporting related to weather catastrophes; Providing in person educational forums in the fields of insurance, building and construction, catastrophes, climate, environment and weather events and issues, geopolitics, and agriculture; Providing on-line webinars in the fields of insurance, building and construction, climate, environment, catastrophes, weather events and issues, surveillance, geopolitics, and agriculture; Providing non -downloadable electronic publications, namely, electronic reports with information on and analysis of fire protection efforts via a global computer network; Providing an online non- downloadable publication, namely, glossary of technical terms regarding the loss and theft of heavy

List of cases accepted for opposition purposes as shown in Journal 2025/052 published on 26 December 2025 .

construction equipment for use by insurance companies, manufacturers and law enforcement; Providing in-person educational forums in the fields of insurance, building and construction, catastrophes, climate, environment and weather events and issues, geopolitics, and agriculture; Providing on-line non-downloadable publications in the nature of electronic reports with information and analytics relating to insurance data; Arranging and conducting business conferences for persons in the business of insurance and risk management.

Class 42:

Providing online, non-downloadable software for use in profiling healthcare provider billing activity in order to identify and prevent fraud, waste, and abuse; Providing on-line non-downloadable software programs for use in analyzing property and casualty insurance loss information; Providing on-line non-downloadable software programs for use as an automated valuation model for real estate property assessment and creation of real property valuation reports for others; Providing on-line non-downloadable software for accessing, storing, retrieving and updating driver and motor vehicle records; Providing on-line non-downloadable software for managing workers compensation claims; Providing on-line non-downloadable software for use by the insurance industry to electronically pre-fill insurance applications with applicant information; Providing on-line non-downloadable software for use in executing residential insurance and valuation calculations; Providing on-line non-downloadable software featuring a spatial assessment tool that offers geographic maps displaying insurance risk assessment data and information, namely, risk addresses, risk assessment, exposure concentrations, and information regarding target areas for underwriting new business; Providing on-line non-downloadable software for conducting insurance premium audits, for outsourcing insurance premium audits and for linking users of insurance premium audit services to high-quality vendors; Providing on-line non-downloadable software for providing real-time claims management reports to insurance carriers and restoration contractors via a secure on-line website; Providing on line non-downloadable software to receive, track, document and manage insurance claims, property valuations, repair estimates and property replacement costs; Providing on-line non-downloadable software used in insurance claims handling for collaboration among insurance underwriters, insurance claims personnel and insurance policyholders; Providing on-line non-downloadable software for weather-related simulations, forecasts and modeling, to insurance companies and farmers, concerning the risk of weather related losses; Providing on-line non-downloadable software for screening candidates for employment for criminal records and verification of education, credentials, and employment history; Providing on-line databases featuring weather-related catastrophic events; Application service provider featuring software for providing an on-line computer database that facilitates audits of insurance premiums; Providing climate forecast information; Providing an interactive website featuring technology that allows users to view, annotate and manipulate geospatial data related to properties, structures and characteristics of the earth and objects upon the earth; Providing information and analysis, namely, measurements of building structures, roofs, other features of building structures, property, terrain, and structural material and contents of buildings and land and conditions in the nature of damage and need for repair or replacement, using imagery and remote sensing technologies; Providing geographic information and measurement information through the collection, manipulation,

processing, and/or formatting of images and geographic measurements of geographic locations, namely, photography taken from aerial vehicles, aerial surveying using remote sensing technologies; Providing computer representations of geographic locations, namely, computer mapping and modeling services created from aerial, terrestrial, satellite and geospatial imagery and other imagery and remote sensing technologies; Providing three dimensional imagery using computer modeling, and computer modeling with measurements and images of building structures, roofs, other features of building structures, property, terrain and structural material and contents of buildings and land and conditions in the nature of damage and need for repair or replacement; Obtaining information and imagery, and providing information, imagery, and analysis, namely, computer modeling and computer electronic imaging of building structures, roofs, other features of building structures, property, terrain, other objects and conditions, weather, natural hazards, climate, environment, and natural disasters, for use in building inspections, risk assessment, hazard assessment, reconstruction assessment, and to assist in insurance claims management and analysis; Providing on-line non downloadable software for cost estimating and other assessments in the building, construction, repair, restoration, maintenance and remodeling industries; Providing on line non-downloadable software a for detecting, identifying, analyzing roofs, building structures, property, terrain, and other objects and conditions; Providing on-line non downloadable software for accessing, analyzing, managing and organizing data and generating reports for use with aerial, terrestrial, satellite and geospatial imagery and other imagery and remote sensing technologies, and with photographic data, geospatial data, locational data, and other information and data from remote sensing technologies; Providing on-line non-downloadable software for creating drawings, floorplans, and schematics of building structures, roofs, other features of building structures, property, terrain and other objects in the nature of structural material and contents of buildings and land and conditions in the nature of damage and need for repair or replacement; Providing on-line non-downloadable software for integrating electronic data and other information with real world environments; Providing on-line non-downloadable software for use in detection, inspection, evaluation and assessment of buildings and other objects in the nature of structural material and contents of buildings and land and conditions in the nature of damage and need for repair or replacement; Providing on-line non-downloadable software for risk assessment, analysis and management and hazard assessment, analysis and management; Providing on-line non-downloadable software to assist in insurance claims assessment, analysis and management; Providing on-line non downloadable software for capturing, storing, management, processing and transmitting photos, videos and other sensory and detection information; Providing on-line non downloadable software used for capturing, storing and accessing images and geographic, locational and other data regarding the captured, stored and accessed images; Providing an interactive website featuring information and analysis, namely, engineering information in the field of building structures, roofs, other features of building structures, property, terrain, other objects in the nature of structural material and contents of buildings and land and conditions in the nature of damage and need for repair or replacement, weather, environment, climate, and natural disasters; Providing an interactive website featuring information and analysis, namely, provision of information in the fields of weather, environmental analysis, and climate

List of cases accepted for opposition purposes as shown in Journal 2025/052 published on 26 December 2025 .

science; Providing an interactive website featuring information, and analysis, namely, provision of information in the field of forensic analysis; Providing information, and analysis in the fields of weather, environmental analysis, climate science, and forensic analysis; Providing on line non-downloadable software for use in analysis, predictive modeling, and creating reports, relating to property damages, loss information, climate, environment, weather events, catastrophes, and other events and conditions; Providing information and analysis, namely, scientific information in the fields of landscape conditions, climate science, and environmental analysis, and changes and risks associated therewith using aerial, terrestrial, satellite and other imagery and remote sensing technologies; Providing on-line non-downloadable software for controlling imaging and other sensory and detection apparatus and technologies; Providing an interactive website featuring technology that allows users to access, review, comment on, receive training on, and provide feedback on, software and services in the field of insurance and conduct interactive discussions in the field of insurance; Providing on-line non-downloadable software for use in valuations of real estate, buildings, fixtures, personal property and other objects; Providing on-line non-downloadable software for documenting, inventorying, and monitoring personal, commercial, and industrial property and any damage thereto and status, condition, value and location thereof; Providing on-line non-downloadable software for communicating with insurance policyholders and insurance industry professionals, for providing and tracking customer surveys and for estimating the costs of insurance, construction, engineering, remodeling or replacement of residential, commercial, industrial and agricultural buildings and the fixtures and contents thereof; Providing on-line non-downloadable software, namely, graphic based construction estimation software to estimate the cost of building or repairing structures and other objects in the nature of structural material and contents of buildings and land; Providing on-line non-downloadable software, namely, non-downloadable cost estimation, project management and analytic reporting software; Providing on-line non-downloadable software for identifying, estimating and valuing insuring, remodeling, replacement and construction costs; Providing on-line non-downloadable software for analytics regarding weather, hazards and other events and conditions in the nature of climates, environment, and catastrophes; Providing a database featuring information and analysis about weather, environmental assessments, climate science and natural hazards in the nature of weather and geological event modeling and simulation; Providing on-line non-downloadable software for creating reports about weather, environment, climate, and natural hazards; Electronic storage services, namely, storing data for others; Providing on-line non-downloadable software for education and training in the fields of insurance cost valuation and residential construction and remodeling; Providing on-line non-downloadable software for identifying documenting, inventorying, and monitoring personal, commercial, and industrial property and any damage thereto and status, condition, value and location thereof; Providing on-line non-downloadable software for calculating the costs of repairs and for monitoring of claims under home warranties and building insurance policies; Providing on-line non-downloadable software for calculating the costs of, tracking the progress and payments of, and reporting personal property claims; Providing on-line databases and preparation of customized reports and analytical documents delivered electronically featuring scientific research and analysis, computer modeling, simulations, and forecasting, on weather, environment, climate and natural

hazards, terrorist threats, and pandemics; Providing on-line, non-downloadable software for creating and viewing reports and maps about weather, environment, climate and natural hazards; Providing a website featuring temporary use of non-downloadable software for creating and viewing reports and maps; Obtaining and providing information and imagery, namely, scientific research information, computer modeling, simulations, and forecasting, on weather events, catastrophes, environment, and climate, terrorist threats and pandemics, to assist in insurance claims management and analysis, risk management and analysis, financial risk assessment, financial and investment analysis, and real estate valuation, and real estate risk management and analysis; Providing on line non-downloadable software for risk management and analysis, risk analytics, risk calculation, risk mitigation, risk forecasting, financial risk assessment, and financial and investment analysis; Providing on-line non-downloadable software for accessing information on risk in specific geographic regions, catastrophic events, weather events, world events, and other potential loss events; Providing on-line non-downloadable software for accessing information on risk relating to human rights, political stability, security, corruption, safety, conflicts, terrorism, food security, water security, energy security, climate change and poverty; Providing on-line non-downloadable risk modeling software for analyzing business and financial risk, and software for climate, environment and disaster risk management; Providing on-line non-downloadable software for use in analysis, predictive modeling, and creating reports, relating to catastrophic loss information, weather events, other catastrophes, and world events; Hosting on-line databases featuring information and analytics on risk in particular geographic regions, weather and natural hazards, weather-related events, other catastrophic events, world events, other loss events; Hosting on-line databases featuring information and analytics on risk relating to human rights, political stability, security, corruption, safety, conflicts, terrorism, food security, water security, energy security, climate change and poverty; Hosting of a website featuring information and analytics in the fields of insurance, insurance services, insurance management and analysis, risk management and analysis, risk analytics, risk calculation, risk mitigation, risk forecasting, financial risk assessment, and financial and investment analysis; Consultancy services in the field of simulation software for the modeling of natural and man-made events, catastrophe modeling software, weather modeling software, environment modeling software, climate modeling software, consultancy services in the field of risk management software, loss modeling software, software to model rebuild and replacement costs for damaged structures; Providing on-line databases featuring weather information and weather reporting; Providing on-line non-downloadable software for use in analysis, predictive modeling, and creating reports, relating to catastrophic loss information, weather events and other catastrophes, terrorist threats, and pandemics; Reporting services, namely, weather reporting; Providing on-line non-downloadable software for analyzing risk relating to weather and other perils; Weather forecasting information services; Research in the field of weather, climate and the environment; Consulting and advisory services in the field of weather, climate, and environmental risk; Providing on-line non-downloadable searchable computer databases featuring geographic information derived from scientific research on wildfires, and featuring scientific research information about wildfire risk factors for risk analysis purposes; Providing a website featuring information in the nature of geographic information derived from scientific research on wildfires, and

List of cases accepted for opposition purposes as shown in Journal 2025/052 published on 26 December 2025 .

featuring scientific research information about wildfire risk factors, and technology that enables users to analyze the risk associated with wildfires for insurance purposes; Providing on-line non-downloadable software for analyzing risk analysis information relating to residential and commercial property; Providing an interactive website featuring technology that allows users to access and download information, analysis and reports on fire protection efforts to assist communities with evaluating fire risk; Data validation services provided to insurance companies, law enforcement agencies and equipment owners, namely, providing customized computer search and retrieval based on specific customer requests in the field of data to verify the accuracy and status of the Product Identification Number for equipment electronically or via the telephone; Developing databases and investigative resources, namely, development of investigative databases containing information about assets and theft of assets for use by law enforcement agencies to deter theft; Providing on-line, non-downloadable software for use in insurance, risk management, risk assessment, and risk analysis, all relating to loss prevention; Providing on-line, non-downloadable software for insurance claims management and case management and reviewing, analyzing, and tracking of insurance claims data; Providing on-line, non-downloadable software for incident investigating and reporting; Providing on-line, non-downloadable software for identifying and investigating theft and fraud; Providing on-line, non-downloadable software for insurance investigations; Providing on-line, non-downloadable software for providing estimates of loss to assist in settlement of insurance claims; Providing on-line, non-downloadable software for data collection, analytics, and providing alerts, on crimes, accidents, other safety events in the workplace and brand protection issues; Providing on-line, non-downloadable software to assist property owners and law enforcement to investigate and recover stolen or damaged property, to share and analyze information regarding crimes, and for reporting of criminal activity; Providing on-line, non-downloadable software for monitoring employee compliance; Providing on-line, non-downloadable software for screening employees and candidates for employment for criminal records and verification of education, credentials, and employment history; Providing on-line, non-downloadable software for use in risk mitigation arising from weather events and for using weather forecasting information to make decisions regarding merchandising; Providing on-line, non-downloadable software for analyzing data and creating reports relating to risk and loss prevention; Electronic storage services, namely, storing data for use in insurance, risk management, risk assessment, and risk analysis, all relating to loss prevention; Providing on-line non-downloadable software to access information about insurance and prospective insureds and to order reports relating to insurance; Providing on-line non-downloadable computer software for screening employees and candidates for employment concerning criminal records, driving records, for verification of social security numbers, education and employment history, and for managing, monitoring and analyzing information about drivers; Providing on-line, non-downloadable software for identifying damage to vehicles; Compilation and analysis of scientific research data in the fields of energy and natural resources, agriculture, mining, transportation, engineering, weather, environment and climate; Providing temporary use of on-line, non-downloadable software for automated claims administration management, tracking, and monitoring of all stages of insurance claims handling; Providing information and analysis, namely, information in the field of land

evaluation surveying of terrain; Providing an interactive website featuring technology through which data about vehicles that have been in accidents can be uploaded, information about vehicle insurers can be located, and insurers can be alerted about vehicles in accidents; Providing on-line computer databases featuring risk analysis information in the nature of computer modeling, simulation and forecasting about weather; Providing information and analysis, namely, land and geological surveying information and analysis, and providing home inspection information and analysis for repair, restoration and renovation, all relating to building structures, roofs, other features of building structures, structural material and contents of buildings, and land and conditions in the nature of damage and need for repair or replacement, for use in building inspections, risk assessment, hazard assessment, reconstruction assessment, and to assist in insurance claims management and analysis; Providing an interactive website featuring information, imagery, and analysis in the field of cartography, and geographical information systems; Providing information, imagery, and analysis in the field of cartography, and geographical information systems; Obtaining and providing information on agriculture, namely, agricultural research, to assist in insurance claims management and analysis, risk management and analysis, financial risk assessment, financial and investment analysis, and real estate valuation, and real estate risk management and analysis; Hosting an interactive website featuring technologies that allows users to send and receive notifications about information regarding theft of assets via electronic message alerts; Providing an interactive website featuring information and analysis in the field of natural resources, namely, environmental risk assessments; Providing information on and analysis of fire protection efforts, namely, provision of mapping as it pertains to fire prevention, to assist in underwriting of insurance and financial services products; Providing ratings information, namely, calculation and simulation of wildfire risk factors; Providing information on agriculture, namely, predictive modeling information on weather to estimate agricultural crop losses, to assist in insurance claims management and analysis, risk management and analysis, financial risk assessment, financial and investment analysis, and real estate valuation, and real estate risk management and analysis; Providing an interactive website featuring information and analysis relating to agriculture, namely, predictive modeling information on weather to estimate agricultural crop losses; On-line non-downloadable software for claims estimation, claims analysis, underwriting analysis, insurance rating, data analysis, loss analysis, data acquisition, storage and retrieval, mapping, reconstruction cost analysis, replacement cost generation and analysis, exposure analysis, data processing, fraud detection, network analysis, imagery analysis, text recognition, object identification, risk identification, lead verification and risk analysis in the field of insurance; Consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; Computer services associated with unique identifiers of lead events, namely, providing customized on-line non-downloadable software for the analysis, tracking, monitoring, authentication, certification, verification, and validation of lead events; Computer services, namely, on-line non-downloadable software for identifying, tracking, capturing, and analyzing consumer events before, during, and after the creation of a lead; Computer services, namely, on-line non-downloadable software for identifying, tracking, capturing, and analyzing consumer events before a consumer purchases one or more goods or services; Providing on-line non-downloadable risk modeling software for analyzing
