Class 9:

Personal security alarms that connect to a wireless communications network; Electronic personal emergency response system consisting of a device worn on the body with a button that users push to notify others in the event of an emergency, and a remote unit that dials out on the telephone for help; Emergency signal transmitters; Portable emergency intercoms; Emergency notification system comprised of a data processor and a user input device for connecting the data processor to an emergency response entity through a communication network and allowing audio and data communication between the processor and the entity; Electronic devices for locating and tracking people using wireless communication networks and cellular communication networks; Downloadable software in the nature of a mobile application for use as a personal security alarm, for sending and receiving emergency notifications and for transmitting videos and pictures of security incidents; Downloadable software in the nature of a mobile application for facilitating the evacuation of individuals in emergency situations; Downloadable software in the nature of a mobile application for broadcasting emergency messages and signals on electronic signage and computer displays, audio

broadcasting equipment, and lighting systems in emergency situations; Downloadable software in the nature of a mobile application for remote monitoring and control of door locks, alarm systems, smoke and heat detectors, and surveillance camera systems in emergency situations; Downloadable software in the nature of a mobile application for organizing and presenting emergency response procedures and instructions.

Class 41:

Educational services, namely, conducting drills, classes, seminars, and workshops in the fields of public safety, crisis management, natural disasters, violent incidents, chemical hazards, fire hazards, bullying prevention and youth behavior, classroom management, student behavior management, student behavioral support, trauma recovery, professional development training, student behavioral assessment and consultation, suicide prevention, suicide awareness, and intervention and prevention training, and distribution of training materials in connection therewith.

Class 42:

Providing temporary use of on-line non-downloadable software for use as a personal security alarm, for sending and receiving emergency notifications and for transmitting videos and pictures of security incidents; Providing temporary use of on-line non-downloadable cloud computing software for managing, storing, delivering in the nature of electronic transmission, identifying, and accessing facility information and facility safety information in the nature of video feeds, floor plans, and safety plans before, during, and after an emergency situation; Providing temporary use of on-line non-downloadable cloud computing software for facilitating the evacuation of individuals in emergency situations; Providing temporary use of on-line non-downloadable cloud computing software for broadcasting emergency messages and signals on electronic signage and computer displays, audio broadcasting equipment, and lighting systems in emergency situations; Providing temporary use of on-line non-downloadable cloud computing software for remote monitoring and control of door locks, alarm systems, smoke and heat detectors, and surveillance camera systems in emergency situations; Providing temporary use of on-line non-downloadable software for emergency planning and response use by authorized community first responders in assessing risk, providing site assessments, providing assistance with planning for and responding to emergency events, providing interactive maps and floor plans for emergency responders, and providing online coordination of planning and response data; Providing temporary use of on-line non-downloadable cloud computing software for gathering and storing data relevant to crime events for state and federal reporting requirements; Software as a service (SAAS) services featuring software for performing behavioral assessments and cognitive assessments, aiding in risk assessment by generating behavioral patterns for review and creating a behavioral profile and providing data analytics that aggregate assessment results for groups of individuals for the purpose of safety consulting; Providing temporary use of on-line non-downloadable software for screening for risk of suicide and provide situational awareness and recommendations for intervention.

Class 45:

Emergency response alarm monitoring services, namely, monitoring of alert devices by a remote monitoring center for the dispatch of emergency public health and security services and notification to third parties; Remote monitoring

EVEO

Class 1:

Chemical preparations for use in industry and science; chemical preparations for use in biotechnology and bioprocessing; chemical preparations for use in cell culture and cell therapy manufacturing; Chemical preparations for use in cryopreservation; media for cell culture for scientific and industrial use; media for cell culture for use in the biotechnological industry; media for cell culture for use in non-medical research laboratories; blood culture media for scientific use; media supplements and additives for cell culture (not for medical use); buffer solutions for laboratory and industrial use; reagents for use in biological and biochemical processes; liquid buffers; cell culture buffers for scientific and industrial use; cell culture buffers for use in the biotechnological industry; cell culture buffers for use in non-medical research laboratories.

Class 5:

Cell culture media for medical and therapeutic use; cell growth media for growing cells for medical and therapeutic use; media supplements and additives for medical cell culture; reagents for medical, clinical or diagnostic use; biological preparations for medical and therapeutic purposes; diagnostic preparations, materials and reagents for medical or clinical laboratory use; preparations for use in the cryopreservation of cells for medical purposes.

Class 7:

Machines and automated equipment for biotechnology and bioprocessing; automated machines and systems for

cell processing; machines and automated equipment for manufacturing cell therapies; automated machines and systems for autologous cell therapy manufacturing; machines for culturing, expanding, processing, cryopreserving and handling cells; non-disposable enclosed bioreactors for cell culturing; bioreactors for industrial use; automated bioreactors for cell culturing and cell expansion; integrated automated systems comprising bioreactors and mechanical components for cell culturing and cell processing and cryopreservation; automated equipment for closed-system biological processing; parts, fittings and components for all the aforesaid machines and systems; bioreactors for use in manufacturing biopharmaceuticals; machines and apparatus for the controlled freezing and cryopreservation of cells.

Class 9:

Computer software for controlling, monitoring and operating automated cell therapy manufacturing systems; computer hardware for controlling, monitoring and operating automated cell manufacturing systems; software for managing autologous cell therapy manufacturing processes; software for controlling and monitoring cell culturing, cell activation, cell modification, cell expansion, cell selection and cryopreservation processes; software for controlling and monitoring bioreactor processes; hardware for controlling and monitoring bioreactor processes; downloadable software for laboratory, bioprocessing and manufacturing use; computer software for research and development in relation to controlling and monitoring cell culturing, cell activation, cell modification, cell expansion and cell selection; computer hardware for research and development in relation to controlling and monitoring cell culturing, cell activation, cell modification, cell expansion and cell selection; process optimisation software for controlling, monitoring and operating automated cell therapy systems; electronic control units, controllers and control panels for automated cell therapy manufacturing equipment; monitoring apparatus and electronic devices for use in cell therapy manufacturing; optical apparatus, sensors, detectors and imaging devices for monitoring cell cultures; electronic measurement and monitoring apparatus for biological and biochemical processes; electronic equipment for manufacturing autologous cell therapies, for use with enclosed bioreactors and disposable units; cell culture apparatus for laboratory, bioprocessing and manufacturing use; bioreactors for cell culturing; bioreactors for cell culture; disposable units and single-use components for cell culture and cell processing; single-use bags for cell culturing and cell processing; disposable bags and containers for laboratory and scientific use; laboratory storage tubes; electronic control and monitoring equipment for cryopreservation processes in cell therapy manufacturing; bioreactors for scientific use.

Class 10:

Medical and laboratory apparatus and instruments; apparatus and instruments for use in autologous cell therapy; apparatus for culturing, processing, cryopreserving, counting, modifying and expanding cells for medical purposes; bioreactors for medical and clinical cell therapy applications; apparatus for handling and processing biological materials for therapeutic use; cell counting units for medical use; cell culture instruments for medical use; apparatus for controlled freezing and cryopreservation of cells for therapeutic use; bioreactors for medical use.

Class 16:

Plastic bags for use in bioreactors and biological processing systems; disposable units and single-use components, namely

List of cases accepted for opposition purposes as shown in Journal 2026/005 published on 30 January 2026 .

plastic sheets, bags, films and containers, for cell culture, cell processing and cryopreservation; single-use bags for cell culturing, cell processing and cryopreservation; printed manuals, user guides and instructional materials relating to cell therapy manufacturing equipment, apparatus, software and systems.

Class 37:

Installation of cell therapy manufacturing equipment, apparatus and systems; maintenance and repair of automated cell therapy manufacturing equipment, apparatus and systems; calibration, servicing and troubleshooting of bioreactors, cryopreservation and monitoring equipment, apparatus and systems.

Class 40:

Cryopreservation services; cryogenic preservation; cryogenic storage of biological tissues; cryogenic storage of cell culture and blood culture.

Class 41:

Training services relating to the operation of cell therapy manufacturing equipment, apparatus and systems; training in the use of software for cell culturing and cell therapy manufacturing; instructional services relating to the operation of cell therapy manufacturing equipment, apparatus and systems; educational services relating to cell therapy, cell culturing and bioprocessing technologies.

Class 42:

Design and development of computer software for cell therapy manufacturing; software as a service (saas) featuring software for controlling and monitoring cell therapy manufacturing equipment, apparatus and systems; engineering and technical consultancy relating to cell therapy manufacturing equipment, apparatus and systems; scientific and technological services relating to cell culturing, cell therapy and biotechnology; research and development services in the field of cell therapy; research and development in the field of biotechnology; data analysis services relating to biological, biochemical and cell therapy manufacturing data; development, customization and maintenance of software for cell therapy manufacturing systems; providing information relating to research in the fields of biotechnology and cell therapy; maintenance, updating and repair of software for automated cell therapy manufacturing equipment, apparatus and systems; installation services for software for automated cell therapy manufacturing equipment, apparatus and systems; technical support services relating to cell therapy manufacturing equipment, apparatus and systems; technical support services relating to software for cell therapy manufacturing equipment, apparatus and systems; rental of scientific equipment for controlling and monitoring cell therapy manufacturing; rental of laboratory services for controlling and monitoring cell therapy manufacturing; development of programmes for batch trajectory prediction in cell culture; design and development of computer software for evaluation and calculation of data.
