NPLQ

Class 9:

Downloadable educational course materials; Downloadable educational media; Downloadable electronic publications; Electronic publications (downloadable); Video films; Downloadable video recordings; Pre-recorded videos; Electronic publications, downloadable; Downloadable software; Downloadable videos.

Class 16:

Printed educational materials; Printed teaching material; Educational and instructional material; Instructional and teaching materials; Teaching materials; Teaching manuals; Instructional and teaching material; Instructional manuals for teaching purposes; Paper teaching materials; Instructional and teaching material (except apparatus); Teaching materials [except apparatus]; Printed training materials; Manuals; Handbooks [manuals]; Manuals [handbooks]; Training manuals; Printed manuals; Manuals for instructional purposes; Printed matter; Workbooks containing exercises; Printed lessons.

Class 41:

Educational and training services; Educational services for providing courses of instruction; Education services relating to water safety; Provision of training services for business; Organisation of training courses; Training courses; Education and training; Training services relating to first aid; Vocational training services; Arranging and conducting of training courses; Arranging and conducting of workshops; Arranging and conducting of seminars; Providing of training, teaching and

tuition; Medical training and teaching; Teaching of life saving techniques; Conducting instructional courses; Providing courses of instruction; Training and instruction; Providing courses of instruction for young people; Provision of training courses for young people in preparation for vocations; Publication of printed matter, other than publicity texts, in electronic form; Publication of printed matter in electronic form; Publication of printed matter; Providing online electronic publications; Video recordings [not downloadable] provided from the internet; Publication of manuals; Publication of training manuals; Education services; Providing of training; Providing digital music [not downloadable] from the internet.

The Royal Lifesaving Society UK

UK00004340539 13 February 2026
(9, 42)

VUER

International priority date claimed:

19 September 2025 (UNITED STATES OF AMERICA)

Class 9:

Downloadable software for simulation, visualization, and interaction with physics-enabled 3D environments; downloadable tools for robotics, artificial intelligence, and machine learning model development; downloadable virtual environments for use in training and testing control algorithms; downloadable software for managing datasets and annotations related to 3D scenes and synthetic data; software for generating, manipulating, and labeling photorealistic simulated data; downloadable software featuring generative world models for creating dynamic, procedural 3D environments and scenarios; downloadable APIs and SDKs for real-time 3D simulation and rendering; downloadable generative models for synthesizing realistic physics simulations, object interactions, and environmental conditions; all for use in scientific research, software development, robotics engineering, and virtual testing.

Class 42:

Providing temporary use of non-downloadable software for simulating and visualizing interactive 3D environments; platform as a service (PaaS) featuring tools for training and evaluating robotics and machine learning models in synthetic scenes; cloud-based generative world model services for creating, modifying, and deploying procedural simulation environments; providing an online platform for dataset creation, labeling, and automated data pipelines; design and development of software tools for photorealistic rendering, simulation scripting, and procedural generation of assets; hosting and deployment of generative AI models for world simulation, scene generation, and predictive physics modeling; software hosting services for collaborative experiment tracking, visualization, and version control in robotics and AI applications; providing online non-downloadable software utilizing generative models to create diverse training scenarios and edge cases for robot learning.
