Class 1:
Gaseous and liquid industrial gases; hydrogen.

Class 4:
Fuels and illuminants; electrical energy; hydrogen [fuel]; liquefied petroleum gas for use as a fuel.

Class 6:
Storage tanks, frames, mounting systems, racks and carriers for photovoltaic and solar thermal systems made of metal; roofing of metal, incorporating photovoltaic cells; metal pipes, valves or slides [except as machine parts], made of metal; pipes, tubes and hoses and accessories for these, including valves, made of metal.

Class 7:
Pumps, compressors and blowing machines for liquid gas and hydrogen supply; wind power plants [windmills] in combination with water power [water turbines] or compressed air [compressed air turbines], supplemented by storage systems such as batteries, as hybrid systems for the generation of electrical power; machines for the generation of energy, in particular of electrical and thermal energy and steam; power turbines; machines for the generation of electrical energy; machines and plants for the generation of energy; power-generating plants, consisting of wind power generators; hydrogen dispensing pumps for service stations; geothermal electricity generators.

Class 9:
Hardware for monitoring authentication and enabling access to internet platforms; hardware for operating internet platforms; hardware for planning, monitoring, analyzing, controlling and executing processes in the physical world [Internet of Things]; software for monitoring authentication and enabling access to internet platforms; software for operating internet platforms; software for planning, monitoring, analyzing, controlling and executing processes in the physical world [Internet of Things]; hardware for planning, monitoring, analyzing, controlling

and executing operations in the virtual world; software for planning, monitoring, analyzing, controlling and executing operations in the virtual world; podcasts, downloadable podcasts; hardware and software for transmitting image and sound recordings; hardware and software for displaying images in three-dimensional form; software for controlling, monitoring, authorizing and enabling access to, and for operating, data transmission systems of all types via fixed land lines; software for controlling, monitoring, authorizing and enabling access to, and for operating low-energy wide-area networks and other radio technologies; hardware for controlling, monitoring, authorizing and enabling access to, and for operating low-energy wide-area networks and other radio technologies; hardware and software for artificial intelligence; charging stations for electric vehicles; battery charging devices for motor vehicles; charging stations for vehicles; software drivers for electronic devices that enable computer hardware and electronic devices to communicate with each other; electric batteries; electric batteries for power supply for electric vehicles; batteries for electric vehicles; devices and instruments for storing, conducting, switching, converting, accumulating, regulating and controlling electricity; accumulators [electric]; accumulators [electric] for vehicles; electric cables; electric transformers; electricity indicators; electricity connectors; junction boxes [electricity]; electricity limiters; electric fault clearing apparatus; electric control apparatus for energy management; electric sockets; data processing equipment; computer programs for information, analysis and reporting relating to energy usage, energy efficiency, energy conservation, cost analysis, management, energy analysis and bill management; mobile applications for information, analysis and reporting related to energy use, energy efficiency, energy conservation, cost analysis, management, energy analysis and bill management; measuring, monitoring and controlling apparatus and instruments for the transport and distribution of, and supply in, electrical energy; power distribution boxes; network connection parts; fiber optic cables; fiber optic cables; ultra-high conductive materials for electrical lines and cables; superconductive materials for electrical lines and cables; superconductive electronic energy storage media; supra-absorbent electronic energy storage media; fuel cells; electrodes for fuel cells; electrolysis devices for laboratory use; roof covering elements adapted to solar thermal and photovoltaic collectors [solar modules]; machines and plants for conversion and distribution of energy; machines for the distribution of energy, in particular of electrical and thermal energy and steam.

Class 11:
Lighting, heating, steam generating, cooking, refrigeration, drying, ventilation and plumbing appliances, and sanitary equipment for use in solar thermal or photovoltaic systems; heat accumulators, boilers, long-term heat accumulators; solar heat collectors; air conditioning systems; parts of air conditioning systems; heat accumulators; heat pumps; solar collectors [heating]; solar furnaces; solar thermal collectors [heating], solar heating installations, solar heating systems, heat accumulating devices for heating purposes [solar energy], heat accumulating devices for heating purposes [solar energy]; solar installations for heat generation; heat pumps for energy processing; installations and equipment for the generation and transmission of cold local heating and cold road heating.

Class 12:

List of cases accepted for opposition purposes as shown in Journal 2026/013 published on 27 March 2026 .

Electric vehicles; e-bikes; hydrogen-powered vehicles; fuel cell cars; parts for the aforementioned vehicles.

Class 19:

Roof covering elements [building materials, not of metal] for solar thermal and photovoltaic collectors.

Class 35:

Advertising; marketing; business management; company administration; office work; updating advertising material; preparing cost/price analyses; business information; advice on organizing and managing companies; management consultancy; human resources consultancy; procurement services for third parties [purchasing of goods and services for other companies]; import and export agency services; business consultancy; bookkeeping; computerized file management; advertising agency services; auctioneering services; administrative services for the relocation of businesses; conducting data transcription; economic forecasting services; provision of information in commercial and business matters; provision of information and advice for consumers in commercial and business matters [consumer advice]; billing services; organizational consulting in business matters; outsourcing services [business assistance services]; systematizing data in computer databases; auction and bidding services; business management consulting services; business planning and consulting services in the field of energy, heating, cooling and hydrogen supply; business planning, business appraisals for financial valuation and business management consulting services; retail and wholesale services for artificial intelligence hardware and software; consulting services for all of the aforementioned services.
