Application for a series of 2 marks.

Class 9:

Computers; computer hardware; computer software; application software; computer peripherals for electronic input and output of data; computer software, application software and peripherals for adaptable digital data; computer software and application software development tools; computer software and application software supplied from the Internet; electronic publications in the nature of downloadable maps and location-based data provided from databases or the Internet; computer software and application software supplied on-line from databases, from facilities provided on a global computer network or the Internet; interactive computer software; apparatus for searching electronic information from a global computer network or the Internet; computer software, application software and telecommunications apparatus (including modems) to enable connection to databases and the Internet; parts and fittings for all of the aforesaid goods; computer software and application software for use in relation to map production, digital mapping, navigational and location data; location, orientation, navigation and global positioning systems (GPS) consisting of computers, computer software, transmitters, global positioning system (GPS) receivers and/or satellite receivers; network link (interface) systems; patch cables and parts and accessories therefor; satellite and radio transmitter and receiver apparatus technology, namely processors, mobile telephones and receivers; telecommunications installations, networks and apparatus; computer programmes and application software for use in database management; computer software programs for database management; computer apparatus for addressing; computer software, application software and data, all relating to maps and mapping; map plotting apparatus; computer digital maps; digitised land maps; computer interface instruments and apparatus; computer interface software; application interface software; computer programs and application software for transmitting, processing, manipulating and analysing data; software and firmware for use in creating, manipulating, and interacting with online environments and virtual environments and for remote viewing of navigation within real environments using virtual environment technology; software development tools; computer software and application software used to create, access, share, store, modify and manage personal information and productivity data on computer networks; image recording media pre-recorded with information relating to geographical locations; software and apparatus for downloading, transmitting, receiving and manipulating audiovisual, graphic and written data; downloadable software in the form of mobile applications for displaying and sharing user location data, photographs and images, and for searching for and locating other users and places and interacting therewith; downloadable mobile applications software for displaying stylised icons; mobile telephone application software; software for telecommunication and communication via local or global communications networks, including the Internet, intranets, extranets, television, mobile communication, cellular and satellite networks; downloadable map datasets, including downloadable raster and vector based map data; downloadable map layers, including topographical, 2D and visual layers; downloadable map tiles; downloadable raster and vector tiles; downloadable topographic, 2D and visual tiles; downloadable 2D and 3D digital topographic datasets; computer software and application software for generating, displaying,

***List of cases accepted for opposition purposes as shown in Journal 2026/017 published on
24 April 2026 .***

editing, manipulating and updating vector based topographic maps; downloadable APIs (Application Programming Interfaces) and SDKs (Software Development Kits) for accessing, rendering, styling and consuming map datasets, map tiles, 2D layers, and geospatial data; digital cartographic data layers for use as a visual foundation for geospatial databases; computer software for rendering 2D and 3D map visualisations; digital map layers for use in geographic information systems (GIS); downloadable style files, rendering specifications and cartographic styling libraries for use with map datasets, layers and map tiles; computer software for generating, rendering, styling, serving, caching, integrating and delivering map tiles, 2D tiles, and topographic layers; computer software for rendering and visualising maps in 2D and 3D formats; software for rendering and visualising maps in 2D and 3D formats, including vector based cartographic layers.

Class 16:

Maps; geographic maps; guide maps; land maps; loose-leaf maps; road maps; route maps; maps made of paper; maps made of flexible plastics; plastic-coated maps; maps made of polyart and other synthetic paper substrates; maps made of moisture-proof and water-proof materials; maps made of card; charts; guides; stationery; paper, cardboard; postcards; photographs; photograph albums; geo-data tables; maps in tabular format; calendars; guide books; newsletters; pamphlets; brochures; catalogues; gift tags and labels; printed instructional and teaching materials relating to mapping, topographic data, geospatial data and cartography; printed vector based topographic maps.

Class 35:

Business management consultancy; business consultancy; business information services; all provided on-line from a computer data base or the Internet; compilation of directories for publishing on the Internet; provision of space on web sites for advertising goods and services; business administration services for the processing of sales made on the Internet; provision of business management information; provision of computerised business management information; computerised data-base management; data-base management; provision of business assistance; provision of business management assistance; data processing; computer database management; provision of business information; consultancy on data processing; retail store services and online retail services connected with the sale of computer software, application software, maps, mapping tools, navigational tools, map plotting apparatus, digital maps, guide books, newsletters, pamphlets, brochures, catalogues; market research; business and marketing research services; geo-spatial data management; geo-data services; retail services and online retail services in relation to downloadable map datasets, map layers, map tiles, topographic, 2D and 3D datasets, geospatial APIs (Application Programming Interfaces) and SDKs (Software Development Kits) plugins, tools and style files; provision of business information relating to geospatial data; provision of business consultancy relating to geographic information systems (GIS); compilation, systemisation, maintenance and updating of geospatial datasets and digital topographic data for business purposes; database management services relating to digital mapping, vector-based topographic data and spatial datasets; provision of commercial information, business data and analytics derived from geospatial data; subscription management services relating to access to map datasets, map layers, map tiles, 2D datasets and geospatial APIs (Application Programming Interfaces); subscription-based data supply services relating to digital maps, topographic datasets and geospatial information; data processing services in the field of geospatial and topographic

data; commercial administration services relating to the licensing of digital topographic datasets and geospatial data collections.

Class 38:

Telecommunication services; telecommunication of information (including web pages), computer programs and any other data; providing telecommunications connections to a global computer network, the internet, and to databases; providing user access to a global computer network, the internet, and to databases; electronic mail services; message sending and receiving services; broadcasting services; transmission and distribution of data or audio visual images via a global computer network or the internet; providing on-line forums for transmission of messages among computer users; provision of access to data networks, in particular to the Internet, to Internet forums, the worldwide web and to server services; electronic transmission of data and documents via the Internet and other databases; electronic transmission of audiovisual, graphic or written files via electronic communication networks; information on telecommunications; mobile telecommunication services; electronic mail; operating and maintaining an online environment, enabling transmission of electronic messages among computer users, providing chat rooms, electronic bulletin boards and forums, and delivery of audio, video and multimedia content; operating and maintaining an online environment for users to participate in research, experimentation and discussion relating to digital mapping, get feedback from their peers, form virtual communities, and engage in social networking; providing access to online web facilities for others for organizing and creating online content, and interactive exchanges; provision of user access to digital data and mapping products and services via download form to the Internet; portal/online access services; leasing of access time to a computer database; providing access to business knowledge relating to the use, display and production of maps, digital mapping, surveying, cartography, digital data and location-based data; providing access to technical information relating to the use, display and production of maps, digital mapping, surveying, cartography, digital data, and location-based data; provision of access to digital topographic data, vector based map datasets and geospatial information; electronic transmission, streaming and delivery of digital mapping data and topographic datasets, map layers, map tiles, 2D tiles; providing online access to 2D and 3D map visualisation layers; transmission of digital cartographic data for use in geographic information systems (GIS) and geospatial databases; provision of access to online platforms for displaying, querying, downloading and updating digital topographic map layers; provision of access to online map tile servers, tile servers, 2D tile servers and geospatial APIs (Application Programming Interfaces); providing online, non-downloadable map visualisation services enabling the viewing, querying and inspection of digital topographic datasets.

Class 41:

Preparation and publication of maps; providing on-line electronic publications in the form of maps and location-based data (not downloadable); providing publications in the form of maps and location-based data from local or global communications networks, including the internet, intranets, extranets, television, mobile communication, cellular and satellite networks; providing publications from a global computer network or the Internet which may be browsed; education and training relating to digital mapping, map and typographic datasets, 2D geospatial datasets, map layers, map tiles, APIs (Application Programming Interfaces) and SDKs (Software Development Kits) and related geospatial technologies; publication of digital cartographic data

List of cases accepted for opposition purposes as shown in Journal 2026/017 published on 24 April 2026 .

for browsing online; provision of online maps; provision of online map viewer services for accessing, viewing and exploring topographic data and geospatial datasets; providing online, non downloadable 2D and 3D map visualisation layers.

Class 42:

Cartography services; provision of mapping information on-line from a computer database or from facilities on the Internet; information relating to computer hardware or software provided on-line from a global computer network or the internet; computer software development; software development; creating and maintaining web-sites; services for the design of maps; services for the digitalisation of maps; provision of information from an on-line database and/or via the Internet, and including the provision of information to wireless and/or handheld devices; designing, managing and monitoring online forums for discussion; preparation of maps in digital form; hosting of digital content, namely, on-line journals, forums and blogs; hosting of digital content on the Internet; development of interactive multimedia software; creating an online community for users to participate in research, experimentation and discussion relating to digital mapping; technical consultancy services and research relating to mapping, digital mapping, surveying, cartography, digital data and location-based data; mapping services; software as a service including providing metadata tagging and website tagging for others; industrial analysis and research services; development of software; operating search engines; consultancy in the field of mapping services; electronic data storage; design, creation, development and maintenance of vector based digital topographic maps; development and maintenance of digital cartographic data layers for geospatial databases and geographic information systems (GIS); software as a service (SaaS) for accessing, querying, visualising, styling, generating, serving and caching map datasets, map layers, map tiles, 2D and 3D geospatial data and map layers; design and development of digital mapping tools and topographic data processing systems; geospatial data analysis services; platform as a service (PaaS) featuring software platforms for accessing geospatial APIs (Application Programming Interfaces), including APIs for map datasets, map tiles, 2D and 3D datasets; hosting of digital map datasets, map tiles, 2D tiles, hosting of map tile servers, 2D tile servers and geospatial API (Application Programming Interface) services; provision of temporary online use of non downloadable mapping software and platforms for accessing, querying and visualising topographic datasets; providing temporary use of online non-downloadable software development tools, SDKs (Software Development Kits) and APIs (Application Programming Interfaces) for building applications using map datasets, map tiles, 2D datasets, and imagery layers; technical consultancy relating to the integration and use of map datasets, map tiles, 2D and 3D geospatial data, and geospatial APIs (Application Programming Interfaces).

Juicy Energy

Class 4:
Electrical energy; Energy (Electrical -); Electricity.

Class 9:

Electric control devices for energy management; Electrical storage batteries; Electric storage batteries; Storage cells [electric]; Electricity storage apparatus; Lithium batteries; Electrical batteries; Apparatus for monitoring electrical energy consumption; Energy control devices; Inverters [electricity]; Electricity inverters; Apparatus for measuring, monitoring and analyzing electricity consumption; Monitoring apparatus, electric; Electric monitoring apparatus; Electric control devices for heating management; Gas flow monitors.

Class 35:

Retail services relating to batteries; Billing services in the field of energy; Retail services in relation to domestic electrical equipment.

Class 37:

Replacement of batteries; Electrical installation services; Installation of energy-saving apparatus; Repair of electrical equipment; Maintenance and repair of electronic equipment; Advisory services relating to the maintenance and repair of mechanical and electrical equipment; Installation of electricity generators.

Class 39:

Electricity storage; Storage of electricity; Distribution of energy; Energy (Distribution of -); Energy distribution; Electricity supply and distribution; Electricity distribution services; Distribution of electricity to households; Electricity distribution; Distribution of electricity; Supply of electricity; Electricity distribution and supply; Electricity supply services; Distribution of renewable energy; Storage of energy and fuels.

Class 40:

Rental of batteries; Leasing of energy generating equipment; Energy production; Production of energy; Energy (Production of -); Generation of electricity; Electricity generation; Electricity generating; Generating of electricity.

Class 42:

Programming of energy management software; Design and development of energy management software; Development of energy and power management systems; Advisory services relating to the use of energy; Professional consultancy relating to energy efficiency in buildings; Software as a service.
