based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely credit card terminals, interactive touch screen terminals, smart mirror touchscreens, interactive mirrors self-service terminals, multi- functional electronic payment terminals, electronic ticket dispensing terminals, point of sale (POS) terminals, optoelectronic measuring devices for creating touch or gesture-sensitive surfaces that interact with computer and other technology systems, mobile application software for virtual queuing, and mobile application software for order pick-up and click and collect, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, computers, computer workstations, laptop computers, laptops, laptop locks, tablet computers, electronic devices to charge and secure tablet computers, thin client computers, desktop computers, computer terminals, tablet monitors, multimedia terminals, portable handheld computers, wearable technology devices (including smartwatches, virtual reality headsets, virtual reality googles, smart glasses, and virtual reality glasses, together with the operating software for them), wearable monitors used to measure biometric data for medical uses, wearable computers in the nature of smartwatches and wearable activity trackers and computer application software for use with wearable computer devices, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, servers (including computer servers, edge servers, computers with edge computing technology for storing data locally, web servers, computer network servers, digital audio servers, servers for web hosting, IP video servers, digital media servers, proxy servers, file servers, co-location servers, load balancing servers, redundancy servers, media servers, database servers, network servers, cloud servers, servers for home automation, internet servers, intranet servers, and communications servers), software for all these servers (including cloud server software, file server software, application server software, and computer software for controlling and managing access server applications), software for data capture, software for data back-up and recovery, software for data storage, cloud computing software and mobile computing and operating platforms consisting of data transceivers , wireless networks and gateways for collection and management of data, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely , computer hardware modules for use in electronic devices using the internet of things (IoT), computer hardware for the collection of positioning data, mobile data terminals (MDTs), remote controls for mobile electronic devices , computer networking hardware, USB hardware, hardware testing software, hardware reliability software and power access ports for use with electrical control panels for connecting multiple data and electrical devices, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email;

procurement services, webshop services, web-based catalogue services, online ordering services , and the bringing together , for the benefit of others, of a variety of goods, namely, power supplies for lights , sirens and public address systems , solar power panels, recorded control software for regulating power from solar panels, distribution boxes for electrical power, apparatus for transforming or controlling the distribution of electric current, auxiliary power units for supplying electrical power , electrical power distribution units, transfer switch control and changeover switch devices for controlling the transfer of the supply of power from one power source to another, switchgear for automatic standby, voltage surge protectors for computers, telephone line surge suppressors and line noise reduction units, emergency power generators together with computer hardware and software for monitoring and controlling emergency power generators, power management devices comprised of boost regulators and battery chargers , circuit blocks within power management devices comprised of boost regulators and battery chargers, uninterruptible power supplies for computers, mobile power supply units [namely battery packs] , electrical power converters, electric switch boxes, current converters, distribution boards (namely, switchboards) , power distribution panels, power control panels , power controllers, uninterruptible power supply apparatus [battery], uninterruptible electrical power supplies, and intelligent power distribution units (1-PDUs) embedded with software for remote power control and environment monitoring, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks , telephone, smartphone, the internet or email ; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely , data storage apparatus, converged infrastructure (which consists of a pre-packaged bundle of computer hardware and software systems , including computer servers, storage devices, networking equipment and apparatus and software to manage them), hyperconverged infrastructure (consisting of software for storage and management of data on computer servers), cold aisle containment system (for use in regulating temperature of computer servers in data centers, featuring raised flooring, perforated floor tiles, dual sliding doors and retractable roof system) , racks for computer servers, mounting racks for computer hardware, mounting racks for telecommunications hardware, racks for audio-visual equipment , redundant array of independent disks (RAID) controllers and keys, mobile carts for computer servers, tablet computers and flat screens, caddies for computer storage drives, and cages for storage of hard drives for computers, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, electric installations for the remote control of industrial operations, facilities management software (to control building environment, access and security systems), access control and alarm monitoring systems, USB computer access control keys, electronic plant moisture sensors, cooling and air-conditioning systems for temperature-controlled environments using remote monitoring hardware and downloadable software, temperature and humidity sensors for computers, climate control systems (consisting of digital thermostats for cooling equipment and a programmable logic controller (PLC) with' input and output features, for temperature and humidity which works

with a remote digital read-out controller), fan units for cooling computers, cooling liquids for computer processors, heatsink assemblies for cooling computers, heatsink paste for computers, and wireless remote temperature humidity monitors for building maintenance, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, downloadable emoticons, downloadable animated cartoons, computer application software featuring games and gaming, downloadable software in the nature of a mobile application for playing games, downloadable game related software applications, virtual reality games software, electronic sports training simulators, virtual reality [VR] motion simulators, virtual reality models, software for generating virtual images, augmented reality software, computer application software for streaming audio-visual media content via the internet, augmented reality software for use in mobile devices, computer software for the design and development of products to enhance creativity, photo and video sharing, social networking and interactivity of computer languages, gaming machines (namely, electronic slot and bingo machines), devices which accept a wager, electronic and electro-mechanical casino gaming tables with video output, gaming machines for gambling including slot machines and video lottery terminals, video gaming consoles for gambling, video game consoles, controllers for game consoles, downloadable computer game software for gambling machines, and betting software, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, Internet of Things [IoT] sensors, vibration sensors, odour sensors, smoke detectors, carbon monoxide detectors, sensors for detecting water leaks, electronic proximity sensors and switches and computer software for connecting, operating, integrating, controlling and managing these sensors via wireless networks, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, heating, ventilating and air-conditioning (HVAC) systems, electronic monitors to collect operational data and settings, including temperature data and settings, from HVAC equipment to ensure proper functioning, home and office automation systems (comprised of computer hardware, wireless and wired controllers and software) for automating lighting, security, HVAC and electrical power, lighting control software for use in commercial and industrial facilities, light systems (comprising light sensors and switches), and a computer hardware and recorded software system for remotely monitoring environmental conditions and controlling devices within a building, facility, grounds or designated spatial area, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, computer application software for use in

implementing the Internet of Things [IoT], computer software for controlling networked devices in the Internet of Things [IoT], computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices via wireless networks, and software development kits (SDKs) comprising of software development tools with software for use as an application programming interface (API) for creating software and applications related to internet-connected consumer electronic devices, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, computer-networked NAS storage hardware, computer hardware and software for wireless content delivery, computer hardware being firewalls, computer networking hardware, computer operating software, VPN (virtual private network) hardware, VPN (virtual private network) operating software, operating software for creating, managing and sharing virtual goods, computer operating software for virtual environments, downloadable application software for virtual environments, virtual server software, application software for cloud computing services, cloud-computing software for deploying virtual machines to a cloud computing platform, and cloud-computing software for managing virtual machines on a cloud computing platform, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, computers with preinstalled operating system software, computer hardware for telecommunications, computer hardware and recorded computer software for retail inventory management sold as a unit, computer hardware (for communicating audio, video and data between computers via a global computer network, wide-area computer networks, and peer-to-peer computer networks), computer hardware and recorded computer software for setting up and configuring local area networks sold as a unit, computer hardware for use in providing a secure cloud computing network, apparatus for networking computers, (namely, switches, converters, access points, routers, switch ports, extenders, adapters, and load balancing devices), computer hard drives, tape drives for computers, blank digital storage media, solid-state drives [SSD], solid-state hybrid drives [SSHD], power inverters for use with computers, wireless network locators being computer hardware, port replicators being computer hardware, and hard drive disc arrays for computers, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, computer peripheral equipment (including wireless computer peripherals), computer cables featuring locks and keys for securing computers and computer accessories, power cords, modem cords, ethernet cords, power adapters for use with portable electronic devices, cable ties and cable leads for computers and phones, adapters for computers and phones, lighting for computers, fans for computers, filters for computer screens, anti-glare screens for computers, audio adapter cables, printer cables, video cables, keyboards and monitors for computers, trackballs, keyboards for smartphones, stabilisers

for smart phones, dashboard marts, laser projection virtual keyboards, touchscreen monitors for computers, curved monitors for computers, electronic interactive whiteboards, electronic pens, computer whiteboards, wearable computer peripherals in the nature of wireless mice, pointing devices (including computer mice and wireless computer mice and LED laser pointing devices), speakers for computers and phones, cooling pads for laptop computers, headphones, headsets, earbuds (including wireless earbuds), earphones (Including wireless earphones), transcription sets for use with computers, adapter cables for headphones, adapter cables for microphones, adapter cables for speaker microphones, smart speakers, speakers, voice recorders, batteries for computers and mobile phones, battery chargers for computers and mobile phones, battery charger docking cradles for computers and mobile phones, docking stations for computers, wireless charging stands for smartphones, protective dust covers for computers, smart glasses for use with computers, carry cases for computers and mobile phones, holsters for mobile phones, stands and mounts designed for holding computers, printers, computer peripherals, mobile phones, smartphones, and personal digital assistants (PDAs), stands (for microphones, amplifiers and audio speakers), calculators, cleaning cloths, wipes and sprays for computers, display screen protectors for shade and privacy for electronic devices, protective covers and cases for electronic devices, bags for electronic devices, mounting racks for computer monitors and laptop computers, portable digital music players, computer security hardware (namely, alarms and keys for use with computers, computer peripherals, and computer accessories), and backpacks for electronic devices, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, data communication hardware, telecommunications apparatus and instruments, telecommunications equipment consisting of fibre-optic transceivers, fibre-optic repeaters, converters and optimisers, wave division multiplexers, free-space optics transmission systems, switches, ethernet switches, routers including network routers, wireless routers, wide area network (WAN) routers and computer network routers, VDSL aggregators, terminators and repeaters, and metal cabinets specially adapted to protect telecommunications equipment in the nature of fibre-optic cables, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, telephones, smartphones, satellite phones, expandable screen mobile phones, deskphones, mobile phones, and wireless communication devices for voice, data or image transmission, software for networking these goods to computer networks, and software for infrastructure management of data for these goods and also for computers, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, telecommunications and data networking hardware (consisting of devices for transporting and aggregating voice, data and video communications across multiple network

infrastructures and communication protocols), VOIP phones, interoperative communication systems (designed to provide radio, streaming video, wireless internet and VOIP phones), intercoms, video intercoms, wireless telephony apparatus, data computer hardware (for upload, storage, retrieval, download, transmission and delivery of digital content), computer hardware and recorded computer software programs sold as a unit for the integration of text, audio, graphics, still images and moving pictures into an interactive delivery for multimedia applications and computer hardware for high-speed processing and storage of data using multiple CPUs, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, global positioning system (GPS) receivers for use with mobile phones, GPS data logger for recording trips and classifying them into different accounts, GPS navigation devices, GPS tracking devices, adapters for coupling a GPS receiver to the microphone input of a digital camcorder, protective carrying cases specially adapted for global positioning system (GPS) apparatus, vehicle mounted GPS sensors for determining the rate of motion for a vehicle, satellite navigational systems, namely, a global positioning system (GPS), wearable global positioning systems (GPS), vehicle locator and recovery devices programmed to use global positioning systems (GPS) and cellular telecommunications, computer hardware for collecting positioning data and processing positioning data, and computer software for dynamic tomography apparatus, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, computer software for creating electronic databases featuring roadway, geographic, map, public transit line information, public transit route information, public transit timetables and schedules and other public transit information recorded on computer media, navigation software for calculating and displaying routes, public transit navigation systems featuring interactive digital map displays, interactive instructions and user generated information, vehicle tracking devices (comprised of computer software and computer hardware, sensors, transmitters, receivers and global positioning satellite receivers) for use in connection with vehicle tracking and vehicle monitoring and computer software for mobile applications that enable interaction and interface between vehicles and mobile devices, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, computer cables, power cables, telecommunication cables, electronic cables, USB cables, cables for optical signal transmission, coaxial cables, fibre optic cables, data synchronisation cables, structured cabling systems (comprised of telecommunications cables and hardware), data cables, high definition multi-media interface cables, battery cables, electrical interconnect cables, data cables, high definition multi-media interface cables, tethers specially adapted for maintaining a secure connection between data cables and electronic device ports, and instruments used to test and certify

of goods, namely, electronic encryption units, downloadable computer software for use in the encryption and decryption of digital files (including audio, video, text, binary, still images, graphics and multimedia files), sterilization equipment for personal protective equipment, embedded software for communicating temperature data to track illness symptoms sold as a component of thermometers for medical purposes, electronic temperature monitors for medical use, personal protective equipment, health monitoring devices consisting of blood pressure monitors, thermometers and pedometers, thermometers for medical purposes and non- medical infrared thermometers, enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; business management advice relating to marketing; advertising the goods and services of others by mail order; on-line advertising for others via a computer communications network; organisation and conducting of product presentations via the internet; production of teleshopping programmes; provision of an online marketplace for buyers and sellers of goods and services; import-export agency services; project management methodology; storage and retrieval of documentation products, document templates, models and reports relating to project management and project management methodology; computerised business information retrieval of documentation products, document templates, models and reports relating to project management, project management methodology, and management of customer service relations; procurement services, webshop services, web-based catalogue services, online ordering services, and the bringing together, for the benefit of others, of a variety of goods, namely, office machines, time clocks [time recording devices], computerized time clocks with fingerprint recognition, and time zone clocks enabling customers to conveniently view and purchase these goods by means of online ordering via computer, computer networks, telephone, smartphone, the internet or email; rental of electronic voting systems and providing operators therefor; providing a buyback credit program for technological equipment such as computers and telephone systems; providing a buy- back program for used personal electronic devices.

Class 37:

Outsource service providers in the field of information technology consulting relating to installation, maintenance and repair of computer hardware; providing information relating to repairs; construction project management services; technical consultation in the field of artificial intelligence hardware customisation; outsource service providers in the field of information technology consulting relating to the installation, maintenance and repair of electronic self-check-out point of sale (POS) terminals and other POS systems, touchscreens and other parts of interactive computer kiosk systems; outsource service providers in the field of information technology consulting relating to installation, maintenance and repair of computer terminals embedded with software for access to patient medical records and other medical records; installation, maintenance and repair of computer hardware; customising computer hardware; updating of computer hardware; outsource service providers in the field of information technology consulting relating to installation, maintenance and repair of computer hardware for monitoring, operating or controlling digital signage and other electronic apparatus for use in advertising, video cameras for teleconferencing, automatic doors and gates, electronic control systems for turnstiles, cash dispensing machines, cooling and air-conditioning systems for temperature-controlled environments, electronic monitors to collect operational data

and settings from HVAC equipment, electronic control gear (ECGs) for LED lamps, light fixtures and street lighting, electronically operated high security lock cylinders, automatic apparatus for opening and closing windows, fanlights, skylights and ventilation flaps, fire suppression systems, environmental monitoring system comprised of meters and sensors that measure pressure, humidity, temperature and includes alarm and reporting functions, power supplies for lights, sirens and public address systems, electronic terminals for highway toll collection , electronic slot and bingo machines, security mirrors for surveillance , surveillance drones, smart mirror touchscreens, closed circuit TV systems , electric and electronic video surveillance installations , X- ray security screening machines, telepresence robots , and humanoid robots with artificial intelligence for preparing beverages and having communication and learning functions for assisting and entertaining people; installation , maintenance and repair of security systems; maintenance of security systems using remote monitoring hardware and downloadable software; technical support services, namely, troubleshooting in the nature of the repair of computer hardware ; providing technical support, namely, technical advice concerning the installation , repair and maintenance of electric or electronic apparatus , equipment and devices used for automated or partly automated industrial operations; updating of computer networking and telecommunications hardware ; implementation of data communications over infrastructures supplied by third parties , in the nature of installation and maintenance of computers, computer hardware , computer hardware for database management, computer hardware for data processing , computer hardware for telecommunications, computer network-attached storage [NAS] hardware, LAN (local operating network) hardware , wide area network [WAN] hardware, and virtual private network[VPN] hardware; installation, maintenance and repair of computer workstations; installation of computer networking hardware for switching network infrastructures; installation of computer networking hardware for local area and wide area computer networks , namely , computer servers, adapters , switches , routers , and hubs ; turnkey installation services of computer networking hardware for cloud computing network infrastructures featuring data center clusters, data centers, and computers with edge computing technology in the nature of processing and storing data locally rather than all received data to central data centers or cloud storage repositories; installation , maintenance and repair of building automation equipment ; installation, maintenance and repair of automated process control systems, namely, micro-processor based hardware and software used to monitor the status of industrial machinery, namely , turbines, generators and compressors; building maintenance and repair ; maintenance and repair of office buildings; installation, maintenance and repair of machines; installation , maintenance and repair of remote control apparatus ; installation, maintenance and repair of electric installations for the remote control of industrial operations; installation , maintenance and repair of electronic apparatus for the remote control of industrial operations; installation, maintenance and repair of surgical, medical, dental and veterinary apparatus and instruments ; technical support services , namely, troubleshooting in-the nature of repair of medical equipment; machinery maintenance and repair; computer support services being installation, repair and maintenance of computer hardware and peripherals; refurbishing of computers; repair of notebook computers; refurbishing of notebook computers ; refurbishing of tablet computers ; repair of tablet computers; installation , maintenance and repair of

and recorded software to connect, operate, integrate, control and manage the internet of things (IoT) electronic devices; providing information relating to the repair or maintenance of consumer electrical appliances; installation, maintenance and repair of multifunction electronic devices for use in copying, printing, scanning, video capturing and/or transmitting documents and images; installation of audiovisual equipment; advisory services relating to the installation of audiovisual equipment; installation, maintenance and repair of interactive computer kiosk systems comprised primarily of computers, computer hardware, computer peripherals, and computer touchscreens for use in providing directory assistance in shopping malls, shops, department stores, railways, airports, seaports, public transportation, sports facilities and cultural facilities; installation, maintenance and repair of interactive computer kiosk systems comprised primarily of computers, computer hardware, computer peripherals, and computer touchscreens; installation, maintenance and repair of interactive computer kiosk systems comprised primarily of computers, computer hardware, computer peripherals, and computer touchscreens for use as vending machines for mobile/cell phone accessories; providing information relating to the repair or maintenance of vending machines; installation, maintenance and repair of electronic point-of-sale (POS) systems comprised primarily of point-of-sale terminals, bar code readers, touchscreen monitors, keyboards, document printers, scanners, and recorded operating software; installation and repair of vending machines; installation, maintenance and repair of lottery ticket dispensing terminals; installation, maintenance and repair of parking lot ticket dispensing terminals, electronic; installation of point of purchase displays; installation, maintenance and repair of electronic apparatus, namely, electronic display boards, plasma display boards, and electronic display screens; installation, maintenance and repair of electronic apparatus, namely plasma display panels; installation maintenance and repair of electronic display interfaces; installation, maintenance and repair of electronic LCD advertisement display units with multi-networking (TCP/IP) capabilities and remote connectivity; installation, maintenance and repair of electronic apparatus, namely digital signage; installation, maintenance and repair of point-of-sale (POS) terminals for making contactless payments; installation, maintenance and repair of self-checkout terminals; installation, maintenance and repair of point-of-sale (POS) terminals; maintenance of point-of-sale (POS) terminals using remote monitoring hardware and downloadable software; installation, maintenance and repair of check stands for retail stores in the nature of electronic checkout stations for point of sale; installation, maintenance and repair of multi-functional electronic payment terminals; installation, maintenance and repair of secure terminals for electronic transactions; installation, maintenance and repair of electronic machines for reading credit cards and recording financial transactions; installation, maintenance and repair of interactive touch screen terminals; installation, maintenance and repair of credit card terminals; installation, maintenance and repair of satellite communications (SATCOM) terminals; installation, maintenance and repair of multi-functional computer terminals with payment function; installation, maintenance and repair of electronic ticket dispensing terminals; installation, maintenance and repair of ticket issuing, reading and recording machines; installation, maintenance and repair of telephone terminals; installation, maintenance and repair of computer terminals; installation, maintenance and repair of computer terminals for banking purposes; installation, maintenance and repair of electronic terminals for highway toll collection; installation of

electronic and digital connection to a call centre; installation of electronic LED signs; installation of electronic interactive whiteboards; installation, maintenance and repair of scanners for data processing; installation, maintenance and repair of three dimensional (3D) printers; installation, maintenance and repair of port security and shipping container scanning systems comprising electronic x-ray scanners, video cameras and recorders, and GPS transceivers; installation, maintenance and repair of full-body X-ray scanners for security purposes; installation, maintenance and repair of gaming machines, namely, electronic slot and bingo machines, devices which accept a wager and electronic and electro-mechanical casino gaming tables with video output; providing information relating to the repair of game machines and apparatus; repair of power supply connectors and adapters for use with portable electronic devices; repair and maintenance of electronic navigational and positioning apparatus and instruments; laying of cables; installation of cables for Internet access; laying of electronic cables; laying and burying of cables; laying of underground cables; laying of underwater cables; replacement of cables (including electronic, underground and underwater cables); laying, repair, maintenance, replacement and refurbishment of pipelines; laying, repair, maintenance, replacement and refurbishment of cables, including for internet access and the networking of computers; operating computer network infrastructures, namely, installation and maintenance of cables for the networking of computers; laying of demarcation extension cables, namely cables which connect a telecommunications provider's wiring to the cables for networking of computers; installation of utilities in construction sites; installation, maintenance and repair of electronic equipment, namely, transformers, baluns, and cables, all used in connection with computers, computer peripheral devices, televisions, audio-video equipment, closed-circuit TV equipment and telecommunication equipment; installation, maintenance and repair of time clocks [time recording devices], computerized time clock with fingerprint recognition, and time zone clocks; rental of machines, tools and apparatus for building construction; rental of earth moving equipment and excavators; installation, maintenance and repair of security mirrors for surveillance; repair and maintenance of surveillance drones; installation, maintenance and repair of smart mirror touchscreens; installation, maintenance and repair of video cameras; installation, maintenance and repair of closed circuit TV systems for security and surveillance, namely, cameras, switchers, monitors, microphones, and recorders; installation, maintenance and repair of smart shelves (being shelves for retail stores fitted with weight sensors, shelf cameras, electronic shelf labels (ESLs), digital shelf labels, digital displays, RFID tags and RFID readers which detect when an item bearing a digital label has been purchased or removed from shelves); maintenance and repair of wireless television set for providing video conferencing and telephone service over the Internet; installation, maintenance and repair of computer hardware for IP video surveillance; installation, maintenance and repair of electric and electronic video surveillance installations; installation, maintenance and repair of facial and speech recognition apparatus; installation, maintenance and repair of security devices, namely, mobile image projection device for displaying retinal images; installation, maintenance and repair of security products, namely, entry door systems comprising touch pads and security doors; installation, maintenance and repair of entry/exit security portals comprised of an electronic passageway equipped with biometric devices for identification verification and detection of impermissible items being

carried through; installation, maintenance and repair of X-ray security screening machines; installation of electronic personal identification number (PIN) pads; installation, maintenance and repair of electronic locks incorporating biometric scanners; installation, changing, replacement and repair of locks; installation, maintenance and repair of programmable locking systems, consisting of electronic cylindrical locksets and keypads; maintenance of programmable locking systems using remote monitoring hardware and downloadable software; installation, maintenance and repair of biometric hand scanners, biometric fingerprint scanners, biometric iris scanners, and biometric retinal scanners; installation, repair and maintenance of mouse scanners; installation, maintenance and repair of barcode scanners; installation, maintenance and repair of optical scanners; installation, maintenance and repair of fingerprint scanners; installation, maintenance and repair of electronic readers and controllers for controlling access to a premises; installation of theft prevention devices; installation, maintenance and repair of metal cabinets specially adapted to protect telecommunications equipment in the form of fibre-optic cables; installation, maintenance and repair of telepresence robots; installation, maintenance and repair of humanoid robots with artificial intelligence for preparing beverages and having communication and learning functions for assisting and entertaining people; installation, maintenance and repair of stand-alone information devices, namely, voice and manual controlled audio speakers with personal digital assistant capabilities for use in entertainment venues, sports venues, and cultural venues for setting controls for lighting, heating, air conditioning, audio-visual apparatus, placing bets, playing computer games, playing quizzes, ordering foods and drinks and buying merchandise; installation of apparatus for recording, transmission or reproduction of sound or images; cleaning of office buildings and commercial premises; waste cleaning services; cleaning of recycled packaging; cleaning and maintenance of buildings and rooms in buildings containing computers, data processing equipment, data communications apparatus, computer networking apparatus, computer systems and telecommunications apparatus and instruments; installation, maintenance and repair of office and smart home hubs comprised of voice-activated speakers, computer hardware and downloadable software for controlling networked devices in the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms; general contractor services provided to the cellular communications industry for installation of cellular communications equipment; maintenance and repair of medical diagnostic equipment; maintenance and repair of medical machines and apparatus; repair of medical devices; repair and maintenance services for diagnostic cardiology equipment; repair and maintenance services for anaesthesia and ultrasound equipment; installation and maintenance of medical devices; repair services for medical diagnostic imaging, clinical and biomedical equipment; installation, maintenance and repair of computer hardware and recorded software for operating medical imaging apparatus; installation, maintenance and repair of electronic apparatus, namely stand-alone displays for medical images; recycling of electronic and electrical appliances; providing information relating to the repair or maintenance of waste crushing machines and apparatus; provision of information relating to the repair or maintenance of waste compacting machines and apparatus; recycling services in the nature of cleaning and refurbishing computers, computer servers, data processing equipment, data communications apparatus, computer networking apparatus,

computer systems and telecommunications apparatus and instruments; consulting services relating to the construction of buildings as they relate to computers, data communications apparatus, data processing equipment, and telecommunication apparatus; information and advice in the fields of installation, maintenance, repair and recycling services for computers, computer hardware, computer servers, power supplies computer hardware for telecommunications, computer network-attached storage [NAS] hardware, LAN (local operating network) hardware, wide area network [WAN] hardware, virtual private network [VPN] hardware, telephones, telephone lines, and cabling for telecommunications; recycling services in the nature of cleaning and refurbishing digital signage and audio visual products sold therewith; recycling services in the nature of cleaning and refurbishing intelligent personal assistant devices (including virtual concierge and virtual assistant devices) comprising voice-activated speakers, digital signage, computer hardware and recorded software; recycling services in the nature of cleaning and refurbishing computer terminals embedded with software for access to patient medical records and other medical information; recycling services in the nature of cleaning and refurbishing electronic audio-visual display kiosks and vending machines for mobile/cell phone accessories; recycling services in the nature of cleaning and refurbishing electronic self-checkout point of sale (POS) terminals and other parts of interactive computer kiosk systems; recycling services in the nature of cleaning and refurbishing multi-functional payment terminals and electronic ticket dispensing terminals; recycling services in the nature of cleaning and refurbishing advertising signage; recycling services in the nature of cleaning and refurbishing office machines and equipment; recycling services in the nature of cleaning and refurbishing computer printers, scanners for data processing and three dimensional printers ; recycling services in the nature of cleaning and refurbishing lighting equipment; recycling services in the nature of cleaning and refurbishing building scaffolds , working and building platforms; recycling services in the nature of cleaning and refurbishing building automation equipment; recycling services in the nature of cleaning and refurbishing electronic apparatus and devices . for automated or partly automated industrial operations; recycling services in the nature of cleaning and refurbishing remote control apparatus; recycling services in the nature of cleaning and refurbishing motion-sensitive security lights and electronic control gear for led lamps and light fixtures and street lighting; recycling services in the nature of cleaning and refurbishing security mirrors, smart mirrors, interactive mirrors, and smart mirror touchscreens ; recycling services in the nature of cleaning and refurbishing fire alarms; recycling services in the nature of cleaning and refurbishing video cameras, cameras for facial recognition, and CCTV; recycling services in the nature of cleaning and refurbishing shipping container scanning systems ; recycling services in the nature of cleaning and refurbishing smart shelves (being shelves fitted with sensors for detecting when items have been removed from shelves); recycling services in the nature of cleaning and refurbishing video conferencing cameras , video projection monitors and portable projectors for use with computers; recycling services in the nature of cleaning and refurbishing facial recognition apparatus, biometric scanners, projection devices for scanning retinal images, and other apparatus for ID of persons; recycling services in the nature of cleaning and refurbishing entry door systems, apparatus for electronic locking of doors, and entry/exit security portals comprising an electronic passageway equipped with devices for detection of impermissible items;

recycling services in the nature of cleaning and refurbishing theft prevention devices; recycling services in the nature of cleaning and refurbishing apparatus for checking the authenticity of banknotes; recycling services in the nature of cleaning and refurbishing x-ray machines and other medical imaging equipment; recycling services in the nature of cleaning and refurbishing computer hardware and recorded software for operating medical imaging apparatus ; recycling services in the nature of cleaning and refurbishing HVAC equipment; recycling services in the nature of cleaning and refurbishing telepresence robots and other telecommunications apparatus; recycling services in the nature of cleaning and refurbishing humanoid robots having communication and learning functions for assisting and entertaining people; recycling services in the nature of cleaning and refurbishing apparatus for recording, transmission or reproduction of sound or images; recycling services in the nature of cleaning and refurbishing humidity sensors for computers; recycling services in the nature of cleaning and refurbishing climate control systems in datacentres; recycling services in the nature of cold aisle containment systems featuring raised flooring, perforated floor tiles , dual sliding doors and retractable roofs for use in regulating temperatures of servers in datacentres ; recycling services in the nature of cleaning and refurbishing power sources and power backup systems , namely , electric power generators and electric storage batteries ; recycling services in the nature of cleaning and refurbishing power surge protectors for computers, uninterruptible power supply apparatus and intelligent power distribution units [i-PDUs] embedded with software for remote power control and environment monitoring; consultancy relating to the building and construction of datacentres ; installation, maintenance and repair of telecommunications and data networking hardware, namely, devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; installation, maintenance and repair services for data processing equipment, data communications apparatus and telecommunications apparatus and instruments, namely, network routers, computer hardware for telecommunications, computer network-attached storage [NAS] hardware, [LAN] local operating hardware, wide area network hardware [WAN] hardware, virtual private network [VPN] hardware, telephones, telephone lines, portable computer hardware for instant messaging, wireless adaptors used to link computers to a telecommunications network, optical switches, optical transmitters, range extenders, antennas, and mounting racks adapted for telecommunications hardware and hardware and embedded operating software to test and certify new and existing data and voice communication cable and coaxial cable; installation, repair and maintenance of electronic and optical communications instruments and components, namely, optical receivers, digital transmitters and optical transceivers; rental of construction equipment; rental of construction machines; rental of lifting apparatus for use in construction; rental of robots for building maintenance; information concerning rental of equipment for construction and building; installation of wiring in accessible geographical locations for distribution of electricity suitable for electric vehicle recharging stations; rental of sterilization equipment for personal protective equipment; customizing, maintaining, and updating computer hardware used by others to develop blockchain-based software applications; consultancy, information and advice in relation to all the aforesaid services.

Class 38:

Implementation of data communications over infrastructures supplied by third parties; telepresence services; telepresence conferencing services; communications via analogue and digital computer terminals; computer transmission of information accessed via a code or a terminal; communication via computer terminals, by digital transmission or by satellite; electronic order transmission services; electronic transmission of data and documents via computer terminals and electronic devices; electronic transmission of messages; teleconferencing and telepresence communication services offered by means of a kiosk; internet cafe services, namely, providing telecommunications connections to the internet in a cafe environment; providing virtual private network (VPN) services; teleconferencing and video conferencing services; providing virtual facilities for real-time interaction among computer users; providing online virtual reality-based forums for work collaboration; electronic messaging system, namely, electronic queuing services; electronic bulletin board services; electronic store-and-forward messaging; electronic exchange of data stored in databases accessible via telecommunication networks; transmission of sound, video and information from web cams, video cameras or mobile phones, all featuring live or recorded materials; providing chatrooms in virtual environments; virtual chatrooms established via text messaging; providing third party users with access to telecommunication infrastructure; telecommunications reseller services for businesses, namely, providing long distance telecommunication services, voice telecommunication services, local telephone service, and Internet access services; telecommunication services, namely, providing access to pictures, video, alarm status, building plans and other building and security information at a remote station; encrypted electronic transmission and delivery of recovered data; telecommunication services, namely, providing advanced calling features; data transmission and reception services via telecommunication means; signal transmission for electronic commerce via telecommunication systems and data communication systems; digital network telecommunications services; providing access to telecommunication networks; telecommunication services via computer networks and computer terminals, namely, electronic transmission of data and information via computer networks and internet portals; telecommunication services via computer networks and computer terminals, namely, electronic transmission of business data, financial data, patient medical records, data from medical imaging equipment, data from medical monitoring equipment, facial recognition data, surveillance data, e-ticketing data, public transit information, humidity and temperature readings for maintaining data centers, GPS data, and e-commerce data via computer networks and internet portals; telecommunication services via computer networks and computer terminals, namely, electronic transmission of business data, financial data, patient medical records, data from medical imaging equipment, data from medical monitoring equipment, facial recognition data, surveillance data, e-ticketing data, public transit information, humidity and temperature readings for maintaining data centers, GPS data, e-commerce data and information via computer networks and internet portals in the fields of computers, computer hardware, computer hardware and computer software for database management, computer hardware for data processing, computer hardware for telecommunications, computer network-attached storage [NAS] hardware, LAN (local operating network) hardware, wide area network [WAN] hardware, and virtual private network [VPN] hardware; providing electronic telecommunication connections; provision of telecommunication

access and links to computer databases and networks in the nature of providing access to a global computer network; provision of telecommunication access and links to internet platforms in the nature of providing access to a global computer network; arranging and leasing access time to computer database in the nature of providing access to databases; telecommunication services, namely, transmission of land and long distance transmission of voice messages, text messages, images and documents by means of communication by telephone, telegraph services, cable and satellite television transmission; telecommunication services, namely, providing electronic message alerts via the internet notifying individuals of a changed status or condition of a sensing device in a security system; providing telecommunications connections to blockchain networks; rental of telecommunication apparatus and instruments; rental of equipment for telecommunications; rental of equipment for broadcasting; rental of telecommunication apparatus and instruments, namely, telephones, telephone headsets, wireless headsets, adaptors for headsets, cell phones, facsimile apparatus, modems, radio and television transmitters and receivers, and video conferencing equipment; rental of video-conference facilities; rental of telepresence robots; rental and leasing of data communication apparatus; rental of telecommunication facilities; providing facilities and equipment for video conferencing; rental of smartphones; rental of telephone answering apparatus; rental of apparatus for transmitting images; rental of communication apparatus and implements; rental of computer communication apparatus and instruments; voice over internet protocol (VOiP) services; information and advice in relation to all the aforesaid services.

Class 39:

Supply chain logistics and reverse logistics services, namely, storage, transportation and delivery of goods for others by air, rail, ship or truck; logistic services in the field of transportation services for others; temporary storage of deliveries; providing temporary physical storage of electronically stored data and information; physical storage of electronic data; transport and storage of waste; provision of information and consultancy relating to transport and storage of waste; collection and redistribution of recycled material; distribution services; collecting, warehousing, transporting, packaging and delivering of goods, in particular computers and other information technology equipment, data communication apparatus, computer keyboards and other types of computer peripheral devices, smartphones and other types of handheld electronic devices, personal digital assistants (PDAs), apparatus and instruments for recording, transmitting or reproduction of sound or images, computer servers and other equipment for use in datacentres and for the operation of computer network infrastructure, disc drives and other data storage devices, scanners and other data processing equipment, cables and other equipment for use in networking computers, electronic self-check-out point of sale (POS) terminals and other POS systems, touchscreens and other parts of interactive computer kiosk systems, X-ray machines and other medical imaging equipment, interactive mirrors and other interactive technologies products, computer terminals embedded with software for access to patient medical records and other medical records, light-emitting diodes (LED) displays and other lighting equipment, telecommunications apparatus and instruments, video cameras and other surveillance equipment, wireless communications devices, humidity sensors for computers and other climate control systems, facial recognition apparatus and other apparatus for ID of persons, entry door systems and other security equipment, mobile elevated work

platforms [MEWPS] and other health and safety apparatus used in construction, fire alarms and other safety equipment, digital signage and other electronic apparatus for use in advertising, batteries and other uninterruptible power supplies, footrests and other ergonomic products for use with computers, global positioning satellite (GPS) receivers and other vehicle tracking devices, security robots and other types of automated surveillance devices, office and home automation hubs in the Internet of Things (IoT); rental of security drones; rental of surveillance drones; rental of drones; rental of GPS-equipped vehicles, namely, scooters, electric cars and bicycles; rental of GPS equipment for navigational purposes; rental of photography drones; rental of delivery drones; rental of warehouse space; rental of recycling containers; rental of warehouses; rental of storage containers; rental of storage lockers; rental of navigational systems; mail, freight and express services, namely, parcel delivery; franking of mail; mail processing, namely, the sending of inbound, outbound and returned mail; physical storage and retrieval of electronically stored documentation products, documentation templates, models and reports relating to project management; waste oil collection for recycling; junk, trash and debris removal [transport]; trash services, namely, rental of dumpsters; trash services, namely, rental of dump trailers and roll-off trailers; collection and transport of electronic scrap; moving company services; transporting goods via motor vehicles, automobiles, trucks, railways, ships and planes; packaging and storage of goods; arranging for the transportation of goods via motor vehicles, automobiles, trucks, railways, ships and planes; providing transportation information; courier services; arranging for courier services; consultancy, information and advice in relation to all of the aforesaid services.

Class 40:

Providing technical information in the field of power generation; generation of power through operation of power generation equipment and facilities; rental of power-generating equipment; rental of auxiliary power units for supplying electrical power; rental of electrical transformers; rental of electricity generators; rental of electricity generators that may also be used as electric motors for vehicles; recycling; recycling of electronic batteries; recycling of electric batteries; recycling of electrical appliances, electronic appliances and electric appliances; custom assembling of electronic components for mobile telephones; waste destruction services; waste treatment; waste recycling services; recycling of waste; recycling of waste and rubbish; sorting of waste and recyclable material; recycling of waste materials; recycling of scrap; reclamation of material from waste; upcycling in the nature of waste recycling; treatment and recycling of packaging; rental of inkjet printers for use with computers; rental of batteries; rental of 3D printers; rental of printers for use with computers; rental of thermal printers for use with computers; rental of laser printers for use with computers; rental of document printers for use with computers; rental of air-conditioning apparatus; rental of space cooling apparatus; rental of electric fans for cooling; rental of waste compacting machines; rental of machines and apparatus for developing, printing and enlarging photographs; rental of machines and apparatus for film development, photograph printing, photograph enlargement or photograph finishing; rental of industrial robots for use in manufacturing; material treatment services in connection with recycling; information, advice and consultancy in relation to the treatment, recycling, transformation and incineration of waste; treatment of materials, namely, affixing and embedding product authentication security devices and materials in a wide variety of products and documents to protect against

security consultancy; computer security consultancy; computer security consultancy in the field of scanning and penetration testing of computers and networks to assess information security vulnerability; computer security services in the nature of administering digital keys; computer forensic services; development of security systems and contingency planning for information systems; computer security services, namely, enforcing, restricting and controlling access privileges of users of computing resources for cloud, mobile or network resources based on assigned credentials; promoting the use of the security assurance best practices of others in the field of cloud computing; computer services, namely, remote and on-site management of the information technology (IT) cloud computing systems of others; software as a service (SaaS) services featuring software for remote management and deployment of cloud computing information technology systems; providing non-downloadable computer software for access to security and providing non-downloadable computer software for data synchronization; providing non-downloadable computer software for the safeguarding of digital files; providing non-downloadable computer software for the analysis and reporting of firewall log data; data security services in the nature of providing online, non-downloadable firewalls; computer firewall services; providing non-downloadable computer software for detecting, blocking and intercepting malware and other threats to computer hardware and software; providing non-downloadable computer software for identity security and identity management information security; computer security consultancy in the field of scanning and penetration testing of computers and computer networks to assess information security vulnerability; development of customized software for others for use in risk assessment, information security, business analysis, audit and audit planning, and sales management; electronic monitoring of personally identifying information to detect identity theft via the internet; computer programming, namely, encryption of information maintained on computers; diagnosing faults, errors, defects and security vulnerabilities in websites, computing platforms, computer networks and mobile applications; development of software for secure network operations; electronic monitoring services of computers, portable electronic devices, smartphones, telecommunications apparatus and data processing apparatus, for data security purposes; data encryption and decoding services; encryption of messages for others; computer services, namely, encrypted data recovery services; internet protocol (IP) address verification services; electronic transfer of cryptocurrency; installation of computer software for cryptocurrency mining; infrastructure as a service (IaaS) , also known as hosting services, of software for use by others; providing power backup services, namely, providing backup computer programs and emergency power backup for computer servers; infrastructure as a service (IaaS) services, namely, hosting servers for use by others; application service provider, namely, hosting, managing, developing, and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; server administration; remote server administration; administration of mail servers; hosting the websites of others on a global computer network; hosting the software, websites and other computer applications of others on a virtual private server; hosting of websites; hosting of mobile websites; hosting the websites of others on a computer server for a global computer network; hosting computer websites; web

hosting services; hosting of mobile applications; maintenance of websites and hosting on line web facilities for others; hosting of computerised data, files, applications and information; cloud hosting of electronic databases; hosting virtual environments; hosting of e-commerce platforms on the internet; developing and hosting a server on a global computer network for the purpose of facilitating e-commerce via such a server; hosting of web portals; hosting of platforms on the internet; hosting software platforms for virtual reality-based work collaboration; hosting of portals on the internet; hosting of operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; hosting of computer servers (including computer servers, edge servers, computer network servers, digital audio servers, servers for web hosting, IP video servers, digital media servers, proxy servers, file servers, network servers, cloud servers, servers for home automation, internet servers, intra net servers, and communications servers) and providing non-downloadable software for controlling and managing access to computer servers; providing non-downloadable cloud server software; providing non-downloadable file server software; providing non-downloadable application server software; providing non-downloadable virtual server software; providing databases as a service (DBaaS) , namely, cloud hosting of computer databases for others; computer applications support services, namely, dynamic application acceleration services in the nature of writing and updating of computer software to improve application speed, namely, hosting of computer software applications of others in order to improve data traffic speed; design, development, installation and maintenance of database software; computer services, namely, providing databases as a service (DBaaS) featuring a customizable software platform for collecting, analyzing, integrating, transforming and providing access to data and information; software as a service (SaaS) services featuring software for use in database management, service desk management, computer system and application development, deployment and management, computer access control, artificial intelligence, cognitive artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics business intelligence, data center management, computer network management, server hosting and cloud hosting; cloud computing services, namely, cloud hosting provider services; cloud computing, namely, software as a service featuring software for configuring, managing, tracking, monitoring, controlling and operating wireless networks, wireless devices, information technology (IT) systems, and remote controlled devices; software as a service (SaaS) services in the nature of hosting cloud-based software of others; planning, design and implementation of computer technologies for others; information technology consulting, research and information services in the fields of IT services, IT infrastructure, IT security, data analysis, cloud computing, public and private cloud computing solutions, cloud computing security, capture and storage of information and data, data management, storage of information and data and computer networks, analytics, mobile application development, website development, and software development; consulting services in the field of cloud computing; intelligent natural language understanding services using cloud-based software technology; providing virtual computer environments through cloud computing; providing virtual computer systems through cloud computing; software as a service (SaaS) services featuring software for providing a virtual computing environment accessible via the internet for the purpose of application

development, deployment and management; providing non-downloadable cloud-computing software for deploying virtual machines to a cloud computing platform; providing non-downloadable cloud-computing software for managing virtual machines on a cloud computing platform; platform as a service (PasS) featuring computer software platforms for a virtual computing environment accessible via the internet for the purpose of application development, deployment and management; installation and repair of computer software, including mobile performance of such services on customer premises; refurbishing, namely repair of computer firmware and computer software; customizing computer software; customized design of computer hardware; computer programming services; computer software engineering; design, technological research, development, updating, modification, testing, implementation, installation and maintenance of computer software; design and development of computer software for switching network infrastructures; design of downloadable computer application software; software as a service (SaaS) services featuring software for computer system and application development, deployment and management; updating and maintenance services for operating software and software for managing and controlling data; installation, maintenance and repair of software for computer systems; design and development of interactive software based on artificial intelligence; custom design of software packages; design, technological research, development, updating, modification, testing, implementation, installation and maintenance of computer software and application software for mobile phones and other handheld electronic devices; design of computer application software for mobile phones, tablet computers and other portable electronic devices; installation, maintenance and repair of cell phone related software; unlocking of mobile phones; design and development of computer software in the field of tablet applications; updating of software for embedded devices; updating of smartphone software; design of telecommunication apparatus and instruments; design and development of computer software architecture; design and development of computer hardware architecture; design and development of operating software for computer networks and servers computer programming for data processing; technical design and planning of telecommunications networks; design and planning services relating to telecommunication equipment; technical advisory services relating to data processing; design and development of data storage systems; design and development of internet security programs; design of computers; design and development of wireless communication systems for transmission and reception of voice, data and video; providing non-downloadable computer software for data exchange using wireless communications technologies and for use with personal digital assistants; software as a service featuring software for the management and deployment of computing resources across computer networks; providing artificial intelligence computer programs on data networks; development of computer codes, computer platforms and computer programs for others; installation and maintenance of internet access software; research, design, development, implementation, installation, testing, maintenance, customisation, upgrading and updating of computer software for connecting, operating, integrating, controlling, and managing internet of things (IoT) electronic devices; testing, monitoring and inspection of stationary batteries; testing, analysis and evaluation of service providers to determine conformity with established accreditation standards; artificial intelligence testing of software; machine learning testing of software; automated testing of software; providing on

line non-downloadable software for simulation of environments for the purpose of testing artificial intelligence agents, algorithms or programs; graphical user interface testing of software; design and development of computer software for use with medical technology; design, technological research and development of computer hardware; testing of computers; testing of computer hardware; deployment of computer hardware, namely, development and testing of converged infrastructure, and data center infrastructure hardware systems; development and testing of computer software; testing of computing equipment; testing the functionality of machines; testing the functionality of apparatus and instruments; consulting services in the field of testing of electronic components and electronic systems; design and development of virtual reality software; hosting software platforms for virtual reality-based virtual worlds; providing technology advisory services in the field of virtual currency; electronic tracking of computers, data communication apparatus, data processing equipment, telecommunication apparatus and instruments by way of global positioning software to ensure their proper functioning; design of computer operating software; design of computer interface software; design of computer software for use as an application programming interface [API] ; providing non-downloadable software, also known as software as a service (SaaS) , for user interface design; design of software for creating and operating a graphic user interface; design and testing of application software for mobile phones, tablet computers, personal digital assistants, smartphones, smartwatches, wearable computer hardware, videophones, voice command devices, smart speakers, virtual reality glasses, audio-visual kiosks, and smart TVs; inspection services regarding the energy efficiency of buildings for purposes of improving energy efficiency; consultancy services regarding environmental issues, environmental planning, energy efficiency, energy efficiency of waste management and energy conservation as all relate to computers, data communications apparatuses, data processing equipment, and telecommunication apparatus and instruments; consultancy services regarding energy efficiency of data centers and construction of data centers; creating and maintaining of databases to hold information regarding compliance with licences for the use of computer software; data warehousing; data migration services; data mining services; transfer of data from on-premises server infrastructure to cloud-based storage; technical support services, namely, migration of datacentre, server and database applications; website re-platforming services; website migration services; design and development of software and hardware for data and multimedia content conversion from and to different protocols; design and development of software and hardware for compression and decompression of multimedia contents; cross- platform conversion of digital content into other forms of digital content; conversion of data and documents from physical to electronic media; content migration and population services, namely, the transfer of website content from one management system to another management system, including content management system (CMS) , web content management (WCM) , enterprise content management (ECM) , digital asset management system (DAM) , document management system (DMS) , electronic document and records management system (Edrm) and enterprise file sync and share system (EFSS) ; hiring out data processing equipment; leasing of computer software for computer software installation and maintenance; leasing of computer apparatus; computer leasing; leasing computer facilities; leasing of computer equipment; leasing of access to a computer; leasing access time to a computer; rental

of load banks for testing electrical power sources; rental of computers; rental of computer peripheral devices; rental of server memory space; rental of decentralized cloud storage facility for containerized data centers of others; rental of web servers and co-location servers for containerized data centers of others; rental of space in a computer co-location facility for containerized data centers of others; rental of a database server; rental of data center facilities; leasing of data center facilities; rental of computer hardware; rental of computers relating to computer security and prevention of computer risks; rental of data processing apparatus; rental of data processing equipment; rental services relating to data processing equipment and computers; rental of smart card readers; rental of virtual reality and augmented reality headsets; rental of computer software; updating and rental of software for data processing; rental of computer software for financial management; rental of computer software for collecting, analyzing and organizing data in the field of deep learning; rental of operating software for computer networks and computer servers; rental of operating software for accessing and using a cloud computing network; leasing and rental of computer hardware, computer peripherals, and computer software for switching network infrastructures; rental of computer software for cryptocurrency mining; rental of computer hardware for cryptocurrency mining; rental of humanoid robots with artificial intelligence (AI) ; rental of user-programmable humanoid robots, not configured; rental of smart glasses; rental of computer game software; software as a service (SaaS) services featuring software for accessing, browsing and searching software application marketplaces; software as a service (SaaS) services featuring computer software for accessing, browsing and searching on line databases; providing temporary use of online non- downloadable computer chatbot software for simulating conversations; software as a service (SaaS) service featuring internet bots being computer programs; software as a service (SaaS) services featuring software for operating telepresence environments; software as a service (SaaS) services featuring software for operating and controlling video conferencing cameras (also known as VC cameras) , video projection monitors (including video walls) , and wireless television sets for providing video conferencing; providing non-downloadable software for connecting, operating, integrating, controlling, and managing telepresence robots, self- driving robots for delivery, humanoid robots as care givers to care recipients, for machine learning for use in robots and humanoid robots having communication and learning functions for assisting and entertaining people; software as a service (SaaS) featuring software for data processing; providing non-downloadable computer software for operating printers (including three dimensional printers) ; providing non-downloadable computer software for operating multifunction electronic devices for use in copying, printing, scanning, video capturing, and transmitting documents; scanning of photographs for digitization; scanning of documents for digitization; providing non-downloadable computer software for operating laser projection virtual keyboards, touchscreen monitors for computers, curved monitors for computers, electronic interactive whiteboards, computer whiteboards, wearable computer peripherals in the nature of wireless mice, pointing devices (including computer mice and wireless computer mice and LED laser pointing devices) , smart speakers and speakers for computers; providing non-downloadable software for connecting, operating, integrating, controlling, and managing office automation hubs comprised of voice- activated speakers, computer hardware and recorded software for controlling networked devices in the internet

of things (IoT) ; providing non-downloadable computer application software for use in implementing the internet of things [IoT] ; software as a service (SaaS) services featuring software for the development of software for connecting, operating, integrating, controlling, and managing the internet of things (IoT) electronic devices; providing non-downloadable computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices via wireless networks; providing a website featuring technology enabling users to remotely view, monitor, program, operate and control large and small appliances, security alarms, fire alarms, electrical systems and security systems in buildings, homes, offices and vehicles; design, development, implementation, installation, testing, maintenance, customising, updating, and upgrading of application software for smart home, smart office, smart hotel room and smart healthcare room automation hubs for controlling networked devices in the internet of things (IoT) ; providing non-downloadable home automation and home device integration software; providing non-downloadable computer software for connecting, operating, integrating, controlling, and managing electric lighting apparatus; software as a service (SaaS) services featuring software for connecting, operating, integrating, controlling, and managing motion- sensitive security lights and street lighting; providing non-downloadable computer software for the connecting, operating, integrating, controlling, and managing fire alarms; software as a service (SaaS) services featuring software for connecting, operating, integrating, controlling, and managing CCTV systems for security and surveillance; providing non-downloadable computer software for use in handwriting identification; providing non- downloadable computer software for the identification and verification of persons based on one or more biometric characteristics; software as a service (SaaS) services featuring software for connecting, operating, integrating, controlling, and managing biometric scanners, video magnifier cameras, and computer hardware for IP video surveillance; providing non-downloadable software for connecting, operating, integrating, controlling, managing and transmitting information from security surveillance robots, security surveillance drones, automated self-contained surveillance devices that can be remotely deployed, security mirrors for surveillance, smart mirrors, interactive-mirrors, smart mirror touchscreens, electric and electronic video surveillance installations, port security and shipping container scanning systems, security alarms, x-ray security scanners, mouse scanners, fingerprint scanners, passport scanners, cheque scanners, optical scanners, biometric scanners, biometric identification apparatus, magnetic card scanners, security token hardware, security alarm controllers, iris recognition security devices, and mobile image projection devices for displaying retinal images; providing on line non-downloadable software using artificial intelligence for machine learning software for surveillance; software as a service (SaaS) featuring software for connecting, operating, integrating, controlling, and managing (including remotely) entry door systems (comprising touch pads and security doors, LCD monitors for security purposes, motion sensors for security alarms, security control panels and motion detectors, and electronically operated high security lock cylinders) ; software as a service (SaaS) featuring software for connecting, operating, integrating, controlling, and managing electronic locks, door locks, window locks, small lockable cupboards for stowing away personal digital devices including mobiles phones, anti- theft locks for personal electronic devices, electronic locks incorporating biometric scanners, biometric

door locks, programmable locking systems (consisting of electronic cylindrical locks and keypads) , wearable cameras and combination video cameras and two-way radios worn on the body for use by security guards; software as a service (SaaS) featuring software for connecting, operating, integrating, controlling, managing and transmitting information obtained from hand scanners, electronic security tags, acoustic tags and magnetic tags, reed switches for use with security control panels, and personal security alarms; software as a service (SaaS) featuring software for connecting, operating, integrating, controlling, and managing entry/exit security portals comprising an electronic passageway equipped with devices for detection of impermissible items and for transmitting information obtained from cards encoded with security features for identification purposes; providing non- downloadable computer software for using artificial intelligence for cameras for facial recognition; providing non-downloadable software for connecting, operating, integrating, controlling, and managing remote presence management products comprising switches and consoles, alarm, sensor and power management devices; providing non-downloadable software for health and safety training for the workplace and construction sites; providing non-downloadable software for connecting, operating, integrating, controlling, and managing mobile elevated work platforms (MEWPS) ; software as a service (SaaS) services featuring software development kits (SDKs) consisting of computer software development tools for the development of voice service delivery and natural language understanding technology across global computer networks, wireless networks, and electronic communications networks; providing mobile application software for connecting, operating, integrating, controlling, and managing audio speakers; providing non-downloadable software for video telephony, voice command and voice recognition; intelligent voice recognition services using cloud-based software technology; providing non-downloadable computer software for enabling hands-free use of a mobile phone through voice recognition; providing non-downloadable software for controlling stand-alone voice-controlled personal assistant devices; providing non-downloadable voice-enabled software applications for personal information management; providing non-downloadable computer software for controlling stand-alone voice-controlled information and personal assistant devices; software as a service (SaaS) featuring voice-activated computer software for providing consumer resources for searching, locating, rating, evaluating and providing directions for the purchase, consumption and use of a wide range of consumer products, services, and information (including news and TV and radio listings) over a global communications network and using any connected access mode in any format, namely, mobile communication devices, desktop internet, email, voice or social media channels; virtual reality [VR] motion simulators programming of software for evaluating customer behaviour in on line shops; software as a service (SaaS) featuring software for connecting, operating, integrating, controlling, managing and programming digital signage systems and electronic transit information signs; providing non-downloadable software for transmitting data obtained from smart shelves (being shelves for retail stores fitted with weight sensors, shelf cameras, electronic shelf labels (ESLs) , electronic tags for goods, digital displays, RFID tags and RFID readers which detect when an item bearing a digital label has been purchased or removed from shelves) ; providing non-downloadable software for receiving and processing financial data from electronic machines for reading credit cards and recording financial

operations, contactless card scanners, secure digital (SD) card readers, and near-field communication (NFC) technology-enabled readers; providing non-downloadable software for receiving and processing data encoded micro particulates, tags and taggants of plastic, metal or silicate for use in the field of passive labelling, tracing or tracking of persons, animals, vehicles or goods of any kind, and delivery drones; software as a service (SaaS) services featuring computer software for business analytics relating to AI-driven financial investment forecasting and performance; software as a service (SaaS) services featuring enterprise software and enterprise application software [EAS] ; software as a service (SaaS) services featuring software for receiving and processing financial data from electronic point of sale (POS) terminals, vending machines, self-service check-out terminals and electronic ticket dispensing terminals; software as a service (SaaS) services featuring software for updating information sent to interactive computer kiosk systems for use in providing directory assistance, wayfinding information in shops and public transport, for click and collect functionality, and for receiving remote assistance from customer services staff; software as a service (SaaS) featuring software for mobile phones for wireless queue buzzers, mobile application software for virtual queuing, and mobile application software for order pick-up and click and collect functionality; providing non-downloadable operating software for creating, managing and sharing virtual goods; providing temporary use of online non- downloadable software for creating, modifying, and sharing image files of virtual goods; software as a service (SaaS) services featuring software for online and offline tracking of customers' behaviours for the purposes of sales and marketing; software as a service (SaaS) services featuring software for processing market research information; software as a service (SaaS) services featuring computer software and tools for information strategies to use in marketing to profile or target end customers; software as a service (SaaS) services featuring product lifecycle management software; software as a service (SaaS) services featuring software applications for customer relationship management [CRM] ; software as a service (SaaS) services featuring software relating to marketing campaign management; software as a service (SaaS) featuring application software for use in processing, tracking, calculating, measuring and analysing information and data in the fields of advertising, marketing, branding, sales, commerce, market research, customer engagement, and customer experience; software as a service { SaaS } services featuring computer software for connecting with global positioning satellite (GPS) receivers and other vehicle tracking devices which enables interaction and interface between motor vehicles and mobile devices; software as a service (SaaS) services for creating electronic databases for public transit route information and geographic maps; providing non-downloadable personal vehicle integration software; providing non-downloadable computer software for mobile applications that enable interaction and interface between vehicles and mobile devices; providing non-downloadable computer application software for use with wearable computer devices and wearable healthcare devices; providing non-downloadable software for automation of medical devices and cameras to assist in the care of people staying in hospitals, healthcare facilities, care home, rehabilitation facilities, and assisted-living accommodation; providing non- downloadable application software for watchbands that communicate data to smartphones; providing non-downloadable software for the operation of haptic communication apparatus; providing technology information in the field of wearable technological

products, such as smartwatches, wearable healthcare devices, virtual reality headsets, and jewellery incorporating a computer storage device containing medical information for medical alert purposes; providing non-downloadable assistive software, being software which supports and assists individuals with disabilities, restricted mobility or other impairments to perform functions that might otherwise be difficult or impossible; providing non-downloadable artificial intelligence (AI) software for healthcare; software as a service (SaaS) services featuring AI machine learning software for receiving, processing, transmitting and displaying data from computer hardware in medical patient monitoring equipment; software as a service (SaaS) services featuring software as a medical device (Sa MD) for wireless remote control and synchronisation of computer tomography (CT) apparatus and X-ray machines; software as a service (SaaS) featuring software for access to and management of patient medical records and all hospital databases and systems, including medical imaging and test results; providing non-downloadable computer software for operating medical imaging apparatus; software as a service (SaaS) services featuring software for operating telemetry devices for medical applications; providing non-downloadable software for transmitting through the internet data obtained from apparatus for medical diagnostic testing in the fields of cancer or other tissue-based diagnostic testing, cytology and cell-based testing; providing non-downloadable computer software for transmitting through the internet medical information obtained from medical devices containing computer hardware for monitoring blood oxygen saturation, blood gas concentrations, respiratory events, and vital signs; providing non-downloadable software for MRI diagnostic apparatus, testing apparatus for medical diagnostic purposes, magnetic resonance CT apparatus, and medical ultrasound apparatus; providing non-downloadable software for operating handheld ultrasound units for cardiac diagnosis, screening and cardiovascular patient follow-up; providing non-downloadable software for medical devices for information management for use in web-based physical examination and assessment of patients in a remote, clinical setting; providing non-downloadable software for medical patient training simulators; providing non-downloadable software for tablet computers to provide multimedia entertainment and social networking, designed for bed-side use by patients in hospitals, retirement homes, care homes and other healthcare facilities; providing non-downloadable computer software to enhance the audio-visual capabilities of multimedia applications (namely, for the integration of text, audio, graphics, still images and moving pictures); software as a service (SaaS) services featuring software used for providing search engine services; software as a service (SaaS) services featuring software to manage the creation and modification of digital content, also known as a content management system (CMS); software as a service (SaaS) services featuring adaptive software; providing non-downloadable application software for operating Illustration boards displaying words, phrases, and pictures for use by patients to communicate with health care providers; providing non-downloadable application software for operating and controlling headwall gas and electricity distribution units (comprising power strips, surge protectors or electrical power distribution apparatus for use in hospital facilities); providing non-downloadable software for interactive computer kiosk systems (comprised primarily of computers, computer hardware, computer software, computer peripherals, and computer touchscreens) for checking-in for appointments and procedures at hospitals, GP surgeries and other healthcare facilities; software as a service (SaaS)

services featuring computer programs for word processing; software as a service (SaaS) services featuring computer software for electronic document management; providing non-downloadable computer software for access to document management, authoring, storage and retrieval systems; providing non-downloadable computer software for the categorization, research and retrieval of documents and data on internal computer networks; providing non-downloadable computer software for managing stock control systems; providing non-downloadable computer software for managing personal contact information; providing non-downloadable computer software for access to websites on customized intranets and sites on global communications networks; providing non-downloadable computer software for the manufacture, processing and provision of text and graphics information, locally or by means of remote transmission; providing non-downloadable computer software for use in database management for managing personal and business information; information and advice in relation all of the aforesaid services.

Class 45:

Monitoring (including remote electronic monitoring by use of a computer) of burglar and security alarm systems, video cameras for surveillance purposes and security mirrors for surveillance; monitoring of computer systems in the nature of surveillance services relating to the physical safety of persons and security of tangible property; emergency response alarm monitoring services, namely, monitoring of alert devices by a remote monitoring center for the dispatch of emergency public health and security services and notification to third parties; analysis and consultation pertaining to workplace safety; regulatory compliance consulting in the field of security laws; legal services in the field of data security; legal services in the field of privacy and security laws relating to software; information in the field of workplace safety; health and safety risk management; health and safety risk assessment services; safety evaluation; rental of equipment for safety, rescue, security and enforcement; advisory services in relation to safety; rental of protective helmets; rental of protective clothing and protective equipment for safety purposes; rental of security camera surveillance equipment; surveillance services by drone; rental of video surveillance cameras; rental of crowd control barriers; rental of security surveillance robots; security services for the physical protection of tangible property regarding anti-theft and anti-tampering measures for mobile phones, smartphones, satellite phones, cell phones, personal digital assistant devices (PDAs), earbuds (including wireless earbuds), earphones (including wireless earphones), smart speakers, computers, portable electronic devices, data communication apparatus, data processing equipment, and telecommunication apparatus and instruments; electronic tagging and tracking for the physical protection of tangible property, namely GPS equipment, mobile phones, smartphones, satellite phones, cell phones, personal digital assistant devices (PDAs), earbuds (including wireless earbuds), earphones (including wireless earphones), smart speakers, computers, portable electronic devices, data communication apparatus, data processing equipment, and telecommunication apparatus and instruments; security services regarding buildings which contain computers, portable electronic devices, data communication apparatus, data processing equipment, and telecommunication apparatus and instruments; security services for buildings, namely, providing physical access to properties via a remote call-in locking device; providing security surveillance of premises for others; opening of security locks; theft protection services in the nature of assigning

CONNECTING BRILLIANT THINGS

Class 7:

Automatic vending machines; vending machines for telecommunications goods; robots for use in industry; transportation robots; housekeeping robots for household purposes; industrial robots for use in manufacturing; dispensing machines; waste management and recycling machines; food and beverage processing and preparation machine and apparatus; sweeping, cleaning, washing and laundering machines.

Class 9:

Downloadable digital music; virtual reality software; augmented reality software; software for use with wearable electronic devices; software for payment transactions; software for management of cryptocurrency and digital assets; authentication software; organisational and productivity software; financial management software; software to facilitate the borrowing of money from financial institutions; routers; tv boxes; mobile telecommunications devices; Internet of Things [IOT] gateways; Internet of Things [IOT] sensors; Internet of Things [IOT] range extenders [antennas]; computer hardware modules for use with the Internet of Things [IOT]; computer application software for use in implementing the Internet of Things [IOT]; computer hardware modules for use in electronic devices using the Internet of Things [IOT]; software; application software; communication, networking and social networking software; software for the management of data, files and databases; media and publishing software; artificial intelligence and machine learning software; content management software; e-commerce and e-payment software; databases (electronic); interactive databases; communications equipment; peripherals adapted for use with computers and smart devices; computers and computer hardware; payment terminals; cameras; electric cables and wires; safety, security, protection and signalling devices; sensors, detectors and monitoring instruments; digital sensors; television apparatus; smart sticks for televisions; smart boxes for televisions; video streaming devices; blockchain technology software; wearable smart devices; smart home hubs; downloadable virtual goods for use in virtual worlds namely avatar enhancements, accessories and customisations, and items resembling furniture, clothing, footwear, headgear, bags, jewellery, time instruments, home décor, floor coverings, wall coverings, ceiling coverings, dwellings, real estate, vehicles, conveyances, sporting articles, consumer electronics, pets, plants, emotes, food, drink, cosmetics, musical instruments, toys, games, playthings, tradeable cards, badges, statues, works of art, collectable cards, displays, signage, teleporters, tableware,

cookware, cosmetic utensils, kitchen utensils, fabric, textile goods, and storage containers; smart home devices made from recycled materials; robots with artificial intelligence; application software for robot; teaching robots; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, supervision, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic, digital and optical data carriers and storage media; recording discs; mechanisms for coin operated apparatus; cash registers; calculating machines; data processing equipment; peripheral equipment for computers; programmed-data-carrying electronic circuits; recorded media; data cards; memory cards; smart cards; SIM cards; integrated circuit cards; telephone cards; magnetic cards, encoded cards; computer hardware and firmware; computer programs; software to enable uploading, posting, showing, displaying, tagging, blogging, sharing or otherwise providing electronic media or information over the Internet or other communication's networks; software to enable the playing of games on telecommunications apparatus; software to enable the playing of games over the Internet or other communications networks; software to be run on the Internet, on computer, on mobile phones or other electronic devices; software downloadable from the Internet; computer software for the redirection of messages; Internet e-mail, and/or other data to one or more electronic handheld devices including smartphones, mobile phones, tablets, PDAs, handheld computers, portable media players, GPS handheld units, and handheld gaming consoles, from a data store on or associated with a personal computer or a server; computer software for the synchronization of data between a remote station or device and a fixed SD-Cards; compact discs; digital music; digital versatile discs; devices for playing music; tablet computers, PDA's (Personal Digital Assistants), pocket PCs, tablet PCs, laptop computers, electronic organizers, electronic notepads; subscriber identity module cards whether for use in telecommunications apparatus or otherwise; telecommunications apparatus and equipment; mobile telecommunication apparatus and equipment; telecommunications systems and installations; telecommunications network apparatus; wireless and non-wireless routers; femtocells; USB dongle; drivers software for telecommunications networks and for telecommunications apparatus; telephones, mobile telephones and telephone handsets; mobile digital electronic devices; global positioning system (GPS) devices; adapters for use with telephones; batteries; vehicle batteries; electric vehicle batteries; battery chargers for use with telephones; mobile phone and smartphone accessories; bags and cases specially adapted for holding or carrying portable telephones and telephone equipment and accessories; image processing apparatus, instruments and equipment; electronic publications (downloadable); mouse mats; magnets; ring lights for smartphones; smartphones; electric car charging piles; car chargers; battery chargers; electric car charger; charging docks; drone detection systems; parts and fittings for all the aforesaid goods.

Class 12:

Drones; military drones; civilian drones; camera drones; rescue drones; delivery drones; self-driving robots for delivery; self-driving transport vehicles; anti-theft, security and safety devices and equipment for vehicles; parts and fittings for all the aforesaid goods.

Class 28:

wood fuels; biodiesel; bio heating oil; natural gas; propane gas; butane gas; liquid petroleum gases; biofuels; combustible gases; combustible fuels; fuels for heating appliances; fuels for heating purposes; fuels for motor vehicles; fuels in liquid form; fuels for lighting barbecues; fuels for cooking; butane for lighting purposes; butane fuels; butane lighter fuels; butane gas as a household fuel; butane gases as fuel; electrical energy; electrical energy obtained from non-renewable energies; electricity; liquid fuels; liquid gases; gas for heating; gas for cooking; gases for lighting; gases for use as fuel; gaseous fuels; gas mixtures; propane as fuel; propane for lighting purposes; propane for heating purposes; bottled propane gas; base oils for lubricants; non-chemical additives for improving fuel and combustion properties; industrial oils; biomethane fuel; biomass fuels; electrical energy obtained from renewable sources; methanol fuel; ethanol fuel; ethanol [fuel]; synthetic oils; synthetic lubricating oils; e-fuels; wicks; heating oil; candles; mazut; mineral fuels; mineral lubricating oils; mineral fuel; night lights; naphtha; non-chemical additives for power and fuel; oils for technical purposes; paraffin; petroleum [crude or refined]; petroleum ether; rapeseed oil for industrial purposes; castor oil for technical purposes; colza oil for industrial purposes; cutting oils; sunflower oil for industrial purposes; dust binding agents; stearin; coal oil; coal tar oil; technical fats; firelighters for coal.

Class 6:

Containers of metal for liquid gas; tanks of metal for the storage of liquefied gases; tanks of metal for the transportation of liquefied gases; pressure gas cylinders made of metal; bottles of metal for gas; metal parts for gas pipes; steel cylinders for compressed gas; metal pipes for gas pipelines.

Class 7:

Fuel dispensing pumps for service stations.

Class 11:

Gas ovens; gas cookers; gas boilers; gas lamps; gas regulators; gas burners; gas operated apparatus for cooking; gas grills; gas fire radiants; portable gas burners; gas operated apparatus for heating; gas fired broilers; gas fired space heating apparatus; gas fired heating installations; gas space heaters; gas fuelled central heating installations; gas boilers for central heating; regulating apparatus for gas apparatus; pressure relief apparatus for use with gas installations; regulating apparatus for gas pipes; pressure controllers [regulators] for gas pipes; safety fittings for gas pipes; safety valves for gas pipes; regulating apparatus for gas pipe installations; heating apparatus for gaseous fuels; stop cocks for regulating gas.

Class 16:

Printed matter in the energy sector, in particular journals, magazines, books, stickers, calendars, posters, pennants, banners, flags, printed or embossed cards, not encoded and not magnetic, made of cardboard or plastic [all included in this class].

Class 35:

Advertising; commercial business management; retail and wholesale services in the areas of coal lighter fluid, gasoline [fuel], petroleum and petroleum products, natural gas, LPG, CNG, biofuels and biofuels, fuel gases, biofuel gases, fuels, mineral fuels, biofuels, commercial rapeseed oil, synthetic fuels, e-fuels, methane, hydrogen, ammonia, CO₂, synthetic

oils and fats and wood pellets; import-export agency services; commercial information and advice for consumers; publication of printed materials [also in electronic form] for advertising purposes.

Class 36:
Financial services in the field of emissions trading; ship broker services.

Class 37:
Installation and repair of heating systems; services of a petrol station, namely refueling motor vehicles with petrol and fuels; refueling of motor vehicles with urea solution according to DIN 70700 via fuel nozzle at filling stations; electric battery charging services for vehicles at service stations; refueling of vehicles; charging batteries and power storage devices; aircraft refueling; aircraft fuel discharge; installation of biogas plants, petrol stations, tank farms; refueling of ships; construction of biogas plants and tank farms; property developer services, namely implementation of construction projects; management of construction of biogas plants; installation of gas supply and distribution apparatus; repair of gas supply systems; installation of gas and water pipelines; installation of gas piping systems; construction of oil and gas storage facilities; underground construction work related to gas supply pipes; underground construction work related to gas supply lines; repair of gas and electricity systems; maintenance and repair of oil and gas storage facilities; repair of gas supply equipment as part of an emergency service.

Class 39:
Transport; packaging and storage of goods; storage of goods for third parties, in particular storage of oils, chemicals and fuels in tank and bunker stations; chartering ships for third parties; shipbrokerage; services of a shipping company, namely the transport of people and goods by ship; organization of fuel storage; storage of cargo after transportation; storage of cargo before transportation; distribution of energy; porter services [transportation]; port services [docking services]; marina services [berthing, mooring, storage]; distribution of biomethane fuel; cargo handling and freight services; boat chartering [transshipment]; loading ships with cargo; cargo handling of merchant ships [transshipment]; transport of cargo by ship; ship loading operations; ship unloading; loading ships; transportation logistics services in the land and water transport sector; pipeline transports; conveyance of gases and liquids through pipeline networks; storage of goods, especially oil, gas, coal, chemicals, CO₂ and energy; delivery of goods, in particular oil, gas, chemicals, coal and pellets, wood fuels; rental of storage capacity; providing information about warehousing; transmission and transport of electric current, heating energy or water; supplying consumers by delivering electricity, heating, gas or water; transport and distribution of gas, supply to consumers by delivery of solid, liquid and gaseous fuels, in particular natural gas, liquefied natural gas, biogas, fuel mixtures [gaseous]; distribution of gas; electricity distribution; storage and distribution of oil products and sustainable aviation fuels at airports; operation of stations at airports; transport and distribution of natural gas and liquefied gas to end customers and wholesalers; distribution of gas; gas delivery; storage of gas; storage of gaseous fuels; services related to gas storage; storage of hazardous materials; storage of industrial gases; supply [transport] of industrial gases.

Class 40:

Rental of heating systems; production of energy; production of electricity; production of electrical energy from renewable sources; generation of process and heat energy, heating energy/heat, compressed steam air, electricity, process heat and biogas.

Class 42:

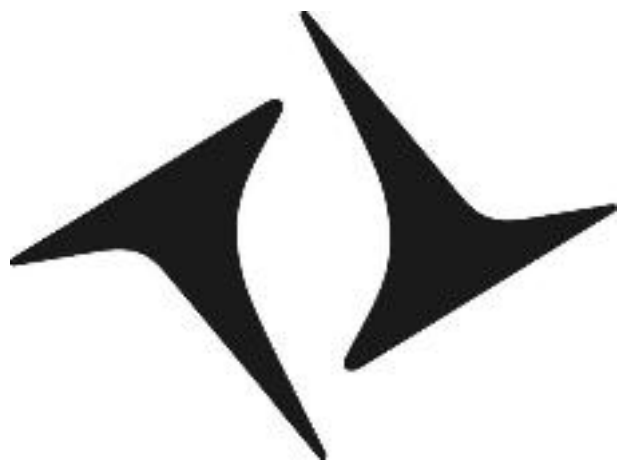

Consultancy in the field of energy-saving; consultancy relating to scientific research in the field of environmental protection; research in the field of environmental protection; environmental assessment services; architectural services; engineering services; services provided by a property developer, namely construction drafting; analysis of mineral oil products, ethanol, vegetable oils, biodiesel; determination of safety-relevant key performance indicators [quality assurance services]; quality management, namely services for quality assurance; environmental testing, inspection and monitoring services; technical writing of safety data sheets; research and development of specifications for energy products; technological consultancy in the fields of energy production and use; technological consultancy in the field of alternative energy generation; review of the efficient use of energy; conducting technical tests and checks; technical measuring services; preparation of reports relating to technical research; preparation of technical reports; technical advice in the field of environmental technology; technical project planning; conducting technical project studies relating to franchising; conducting environmental impact assessments; technical advice in connection with energy saving measures; scientific advisory services relating to sustainability reporting; preparation of scientific reports in the field of sustainability.

Specifications have been restricted as follows:

Class 9:

Broadband installations; communications and telecommunications apparatus and instruments; computer software and telecommunications apparatus to enable connection to databases and the Internet; computer hardware for telecommunications; computer hardware; computer network hardware; computer software; wireless hardware; control apparatus; wireless communication apparatus; wireless computer peripherals; wireless transmitters and receivers; computer hardware, namely, communications servers, network routers and modems; routers; wireless routers; wide area network (WAN) routers; fibre optic cables; fibre optic modems; communication apparatus for use in digital infrastructure projects; servers for web hosting; broadcasting satellites; satellite transmitters and receivers; satellite communication apparatus; ethernet hardware; ethernet adapters, cables, cards, controllers, repeaters, switches and transceivers; computers; computer memory hardware; computer network attached storage (NAS) hardware; apparatus and instruments for recording, transmission or reproduction of sound, images or encoded data; network cabling, servers, cards and boards; telecommunications networks; computer networks; data networks; communications networks; networking software; computer network hardware; network controlling apparatus; communication, networking and social networking software; network management control apparatus; wireless local area network devices; electrical and electronic accessories and peripheral equipment designed and adapted for use with computers, audio-visual apparatus and electronic games equipment and apparatus for use with a monitor or television receiver; electrical and electronic apparatus and instruments all for processing, logging, storing, transmission, retrieval or reception of data; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems; optical and electro-optical apparatus and instruments; VPN [virtual private network] hardware; computer hardware for signal processing of audio

and video; data transmission apparatus; data networks; data cards, data cables and data carriers; data capture and data encryption apparatus; encryption apparatus and software; data protection backup units; data link cables; discs, tapes and wires all being magnetic data carriers; data processing apparatus and software; apparatus for the collection and compilation of positioning data; computer programs; electronic device software drivers that allow computer hardware and electronic devices to communicate with each other; computer software supplied from the Internet; VPN [virtual private network] operating software; software for network and device security; electronic security systems for home network; computer programs for accessing, browsing and searching online databases; computer software for the remote control of security apparatus, encryption, data searching and social networking; email software; voice processing software; voice-activated software; voice and data transmitters and receivers; audio recorders; computer hardware and software for providing integrated telephone communication with computerized global information networks; telephones, mobile telephones and telephone handsets; adapters for use with telephones; accessories for telephones and telephone handsets; telephony management software, mobile telephone, smartphone and tablet software; television apparatus and instruments; radio-telephone apparatus and instruments; software for mobile phones; chargers for mobile phones; mobile phones; VOIP phones; cloud servers; application software for cloud computing services; peripheral equipment for computers; key boards; microphones; portable apparatus for recording, transmission and reproduction of music and video; remote controllers; batteries; battery chargers; blank and pre-recorded magnetic cards; security tokens [encryption devices]; electronic databases; audio books; electronic books; downloadable electronic publications; electronic instructional and teaching apparatus and instruments; closed circuit television systems (CCTV); closed circuit TV [CCTV] software; parts and fittings and carry cases for all the aforesaid goods; none of the aforesaid relating to aerospace engineering, space technology, satellite systems, or the design, manufacture or operation of spacecraft or space hardware.

Class 36:

Arranging the provision of finance for digital infrastructure operations; consultancy services relating to the financing of digital infrastructure projects; financial evaluation of development costs relating to digital infrastructure projects; financial consultancy relating to digital infrastructure investment; providing working capital; provision of finance for digital infrastructure projects; financial services; credit, lending and loan services; arranging of financial investments; providing and arranging loans against security; asset management services; capital investment fund management; computerized financial services; credit facility services; financial administration and management services; financial analysis services; financial management of risk capital, investment capital and development capital; financial and investment market risk analysis, appraisal and projection; financial intermediary services; financial investment services; financial services in the nature of an investment security; financing of projects; investment portfolio management; investment services; management of funds; project capital investment services; project finance services; providing financial assistance to social and charitable organizations; venture capital fund management; provision of financial information relating to the finance industry involved in environmentally focused

investments; arranging of overdrafts; financing of bridging loans; credit rating services; capital investment brokerage; brokerage of carbon offsets; brokerage of financial investments; digital currency brokerage services; security brokerage; provision of finance for business ventures; financial control of investment results; financial guarantee services; financial planning and investment advisory services; research services relating to finance; business credit reporting and verification services; credit recovery and collection services; debt consolidation services; financial trust operations; financing of investments; funds transfer services; insurance services; insurance risk management; payment and credit services; credit consolidation services; currency trading services; currency exchange services; digital currency exchange services; forecasting of foreign exchange rates; debt recovery services; debt management services; electronic transfer of digital tokens incorporating cryptographic protocols used to operate on a computer platform in the field of blockchain technology; escrow services; financial advisory services provided for controllers; financing of electrical and electronic transmission media systems; insolvency services; monetary exchange operations; pension fund management and administration services; providing digital currency for use by members of an online community via a global computer network; providing digital token for use by members of an online community via a global computer network; providing money transfer services via mobile devices and global computer networks; providing project grants for environmental projects; rental, hire and lease of equipment for processing financial payment cards; services in relation to secure handling of online financial transaction data; stockbroking agency services; tax consultancy and planning services; trust services; underwriting services; virtual currency services; consultancy, information and advisory services relating to all of the aforesaid services; none of the aforesaid relating to aerospace engineering, space technology, satellite systems, or the design, manufacture or operation of spacecraft or space hardware.

Class 38:

Telecommunications services; broadband communications services; wireless broadband communication services; broadcasting and transmission of data, sound or images; communication services; online communication services; broadcasting services; data streaming; data transfer services; Internet service provider [ISP] services; providing telecommunications connections to the Internet or databases; telecommunications services relating to the Internet; communications by fibre optic networks; providing user access to the Internet; telecommunication access services; satellite communication services; provision of broadband telecommunications access; data communications services; data transmission services over telecommunications networks; computer network connection services including Internet, Intranet and Extranet connection services; hiring, rental and leasing of communications apparatus; transmission and reception of data and of information; telecommunication services via digital networks; telecommunications services provided via platforms and portals on the Internet and other media; communication via computer terminals, by digital transmission or by satellite; satellite transmission services; electronic transmission of data and documents via computer terminals and electronic devices; providing internet connections; providing electronic telecommunications connections; providing access to computer networks; providing access to Internet platforms; providing access to

telecommunications networks; providing access via data networks to software for Internet access; providing third party users with access to telecommunications infrastructure; digital transmission services; digital network telecommunications services; digital communication services; digital data transfer; data bank interconnection services; communication by computer; communications services by satellite, television and/or radio; transfer of data by telecommunication; telecommunications, communications, telephone, facsimile, telex, message collection and transmission and electronic mail services; provision of telecommunications access and links to computer databases and to the Internet; telecommunication of information (including web pages), computer programs and any other data; data streaming, transfer, transmission and interchange services; providing virtual private network (VPN) services; communication via virtual private networks [VPN]; Voice over Internet Protocol [VoIP] services; rental of telecommunications lines; rental of communications systems; rental of telecommunication devices and equipment enabling connection to networks; rental of telecommunications routers; Internet portal services; provision and rental of access time to data banks; provision of communications facilities for the interchange of digital data; provision of telecommunication connections for data centres; provision of telecommunications connections to a global computer network; digital transmission of data; electronic and digital transmission of voice, data, images, signals and messages; electronic transmission of computer programmes via the Internet; leasing of access time to a computer database; on-line information services relating to telecommunications; provision of access to an electronic on-line network for information retrieval; video communication, conferencing, messaging and telephone services; providing access to online directories, databases, current events websites and blogs, and on-line reference materials; computer aided transmission of messages and images; Email services; providing Internet access via fibre optic broadband networks; providing Internet access via wireless broadband networks; providing telecommunications access to server centres; operation of telecommunications satellites; Internet and digital transmission services for audio, video, or graphical data; Integrated Services Digital Network [ISDN] services; providing directories for telephone numbers, network home page addresses, addresses and telephone number of people, places, and organizations; broadcasting and delivery of multimedia content over electronic communications networks; operation of a digitalized media platform for the exchange of messages and information; audio broadcasting and transmission of educational and entertainment digital media; hire, leasing or rental of apparatus, instruments, installations or components for use in the provision of the aforementioned services; consultancy, information and advisory services relating to all of the aforesaid services; none of the aforesaid relating to aerospace engineering, space technology, satellite systems, or the design, manufacture or operation of spacecraft or space hardware.

Class 42:

Infrastructure as a service [IaaS]; design, development, installation, maintenance and updating of computer software, computer hardware, computer platforms, internet platforms, computer databases, telecommunication networks, computer based networks and wireless computer networks; design of information technology infrastructure for others; hosting digital content on the internet; hosting of platforms on the Internet; hosting digital platforms for mobility as a service [MaaS];

data encryption services; data recovery services; computer network services; computer network design for others; computer system design using agile development methods; computer programming services; leasing of software; computer programming for the digital infrastructure sector; programming of computer software for evaluation and calculation of data; providing non-downloadable software applications; providing temporary use of non-downloadable computer software; providing temporary use of non-downloadable computer software for digital infrastructure management; providing temporary use of non-downloadable software for enabling members of an online community to spend and trade digital assets; providing temporary use of on-line non-downloadable software for processing electronic payments; providing temporary use of online non-downloadable software in the field of finance, loans or investment; software engineering services; technical project planning; technical project studies in the fields of digital infrastructure, IoT, social responsibility, climate change and carbon offsetting; technological consultancy services for digital transformation; research, design and development services relating to network interfaces and communication systems; provision of data centre facilities; providing virtual computer systems through cloud computing; providing computer facilities for the electronic storage of digital data; providing technology consulting in the field of digital infrastructure; providing an online trading platform for investment funds brokerage; programming of operating software for computer networks and servers; planning of digital infrastructure systems; online data storage; IT project management; digital forensic analysis; design of telecommunications apparatus and devices; design and development of computer software for process control; conversion of documents from physical to electronic media; cross-platform conversion of digital content into other forms of digital content; consultancy and information services relating to information technology architecture and infrastructure; Access Control as a Service (ACaaS); application service provider (ASP) services; platform as a service (PAAS) services; software as a service (SAAS) services; Software as a service [SaaS] featuring software for machine learning, deep learning and artificial neural networks; hosting of websites, databases, memory space, servers, communication platforms, interactive applications, mobile applications and platforms on the Internet; cloud computing; cloud hosting provider services; cloud-based data protection services; providing a virtual computing environment accessible via the internet; computer services; IT security, protection and restoration; data security services; provision of security services for computer networks, computer access and computerized transactions; data security services; computer security services; monitoring of computer systems for detecting unauthorized access or data breach; rental of software for Internet access; rental of operating software for accessing and using a cloud computing network application service provider, namely, providing, hosting, managing, developing and maintaining applications, software, websites and databases; rental of computer software, data processing equipment and computer peripheral devices; cloud hosting provider services; providing software, non-downloadable, accessible over a global computer network; provision of technical support in the operation of computing networks; monitoring of network systems; design and development of data storage systems; data storage, other than physical storage; electronic big data storage; telecommunication network security consultancy; encoding of digital images; data encryption and

decoding services; encryption, decryption and authentication of information, messages and data; providing, developing and designing software, non-downloadable, accessible over a global computer network, for managing computer applications; cloud computing featuring software for use in database management; authentication, issuance and validation of digital certificates and digital keys; data authentication via blockchain; Blockchain as a service [BaaS] for creating and managing non-fungible tokens [NFTs] in the form of virtual goods; creating an online community for registered users to form virtual communities and engage in social networking services in the field of blockchain technology; telecommunication network security consultancy; technical data analysis; technical consultancy in the field of digital forensic science; research in the field of computer security, internet security and data security; research in the field of artificial intelligence technology; providing artificial intelligence computer programs on data networks; platforms for artificial intelligence as software as a service [SaaS]; outsourced services in the field of artificial intelligence; electronic monitoring of credit card activity to detect fraud via the internet; development and testing of computing methods, algorithms and software; design and development of software and hardware for producing, recording and processing digital and analog signals; design and development of computer software for the collection, transmission and analysis of big data; monitoring of computer systems by remote access; off-site data backup; backup services for computer hard drive data; computer security services for protection against illegal network access; computer virus protection services; design, development and programming of Internet security programs; provision of access to and leasing of access time to computer databases including filtering of information provided from on-line from computer databases and the Internet; rental of web servers; leasing of computer hardware; computer rental; rental services relating to data processing equipment and computers; providing on-line non-downloadable internet browser software; certification services of data transmitted via telecommunications; provision of computer storage space; website design and development for others; writing of control programs; server hosting; rental of server memory space; rental of web servers and co-location servers for containerized data centres of others; rental of data centre facilities; rental of decentralized cloud storage facility for containerized data centres of others; rental of operating software for accessing and using a cloud computing network; rental of software for importing and managing data; programming of online, non-downloadable virtual goods for use in virtual environments; digital compression of computer data; cloud computing services; cloud-stored data protection services; design and development of computer software for cloud computing; custom design and engineering of telephony systems, communication systems and fibre optics; control technology consulting services; research and development services; industrial research and analysis services; scientific research and analysis services; provision of scientific information, advice and consultancy in relation to climate change and carbon offsetting; conducting technological project studies; research and development services in the fields of digital infrastructure projects; technical design, development, planning and delivery of digital infrastructure projects; technical data analysis services; research in the field of climate change and reduction of carbon emissions; environmental surveys; product design and development; product safety testing; testing of apparatus for certification purposes; technical advice relating to

safety; development of power assemblies; traceability, testing, authentication and quality control services; operating search engines; consultancy, information and advisory services relating to all of the aforesaid services; none of the aforesaid relating to aerospace engineering, space technology, satellite systems, or the design, manufacture or operation of spacecraft or space hardware.
