Class 9:

Downloadable computer software relating to mining, geology and engineering; downloadable computer software for the simulation of sub-surface environments; downloadable computer software for the planning, design and control of ventilation, airflow, pressure, and climate; downloadable computer software for the projection of fan, cooling and air filtration requirements; downloadable computer software for the calculation of capital and operating costs relating to ventilation, airflow, pressure and climate; downloadable computer software for the simulation of fires, heat and contaminant flow; downloadable computer software for the planning, design and control of mine ventilation systems; downloadable computer software for the simulation of airflow in subsurface atmospheres; downloadable computer software for heat load estimation and refrigeration planning; downloadable computer software for the simulation of fan and duct installations; downloadable civil and structural engineering software; downloadable computer-aided engineering software; downloadable environmental control and monitoring software; downloadable electronic publications relating to mining, geology

List of cases accepted for opposition purposes as shown in Journal 2026/023 published on 05 June 2026 .

and engineering; downloadable electronic publications relating to subsurface ventilation engineering; downloadable electronic publications relating to the planning, design and control of the environment in underground openings; downloadable videos and podcasts relating to mining and engineering; downloadable videos and podcasts relating to subsurface ventilation engineering.

Class 35:

Business consultancy and advisory services relating to mining, geology and engineering; business research and information services relating to mining, geology and engineering; business analysis services relating to mining, geology and engineering; management consultancy services relating to mining, geology and engineering; business auditing services for mining and exploration projects and operations; business advisory services relating to the corporate structure of mining, geology and engineering businesses; compilation of statistical models for the provision of market dynamics information in the fields of mining, geology and engineering; business statistical studies in the fields of mining, geology and engineering; data processing, systematisation and management in the fields of mining, geology and engineering; compilation of commercial statistical information in the fields of mining, geology and engineering; compilation of statistical data for use in the fields of mining, geology and engineering; compilation of mathematical data for use in the fields of mining, geology and engineering; account auditing in the fields of mining, geology and engineering; carbon accounting; benchmarking services; benchmarking and evaluation of business organisation practices in the fields of mining geology and engineering; information, advisory and consultancy relating to the aforesaid services.

Class 36:

Financial due diligence services relating to mining and exploration projects and operations; financial analysis and research services relating to mining and exploration projects and operations; financial economic analysis services relating to mining and exploration projects and operations; financial evaluation of development costs relating to the oil, gas and mining industries; financial valuation services relating to mining and exploration projects and operations; costs evaluation [financial appraisal] relating to mining and exploration projects and operations; financial information and evaluations in the fields of mining, geology and engineering; brokerage of carbon offsets; brokerage of carbon credits; liability guarantee services in the fields of mining, geology and engineering; information, advisory and consultancy relating to the aforesaid services.

Class 37:

Excavation services, and extraction of natural resources; mining services; mining extraction services; mining for precious stones and precious metals; repair of mining machinery; maintenance and cleaning of mining equipment; providing information relating to the repair and maintenance of mining machines and apparatus; rental of drilling and mining machines and apparatus; rental of automotive machinery for use in mining; providing information relating to the rental of mining machines and apparatus; onsite construction supervision of civil engineering works; site preparation; site grading; site clearance; site levelling; drainage services; land drainage; soil dredging; soil stabilisation; soil piling; soil blasting; soil foundation work; information, advisory and consultancy relating to the aforesaid services.

Class 41:

Education and training services in the fields of mining, geology and engineering; educational services providing instruction in policy relating to mining, geology and engineering; providing online videos, videocasts, audio recordings and podcasts, non-downloadable, in the fields of mining, geology and engineering; organising and conducting educational conferences, workshops and seminars in the fields of mining, geology and engineering; cultural services and activities in the fields of mining, geology and engineering; information, advisory and consultancy relating to the aforesaid services.

Class 42:

Scientific and technological services and research and design relating thereto; scientific risk assessment; mining risk assessment; mining and mineral exploration services; exploration services in the oil, gas and mining industries; geological exploration; underwater exploration; gas exploration; oil exploration; petroleum exploration; oil field exploration; mineral exploration; mineral and oil assaying; classification of minerals; chemical services relating to mineralogy; research relating to mineral resources; geophysical exploration; conducting feasibility studies relative to gas, oil, petroleum and mineral exploration; analytical services relating to the exploration of oil fields; geoenvironmental engineering; engineering design and research in the oil, gas and mining industries; analysis and testing services in the fields of mining, geology and engineering; technical project evaluation services for mining; geological exploration; geological research; geological surveys; geological prospecting; geological test drilling; geological estimation and research; analysis of geological samples; geophysical exploration for the oil, gas and mining industries; analysis and testing services in the fields of gas, oil, petroleum and mineral exploration; consultancy services relating to mining, geology and engineering; technological consultancy in the fields of mining, geology and engineering; research in the field of excavation; drawing up of expert technical opinions in connection with oil, gas and mineral deposits; testing, authentication and quality control services in the fields of mining, geology and engineering; quality assessments in the fields of mining, geology and engineering; quality audits in the fields of mining, geology and engineering; quality checking in the fields of mining, geology and engineering; quality control in the fields of mining, geology and engineering; quality testing in the fields of mining, geology and engineering; quality assurance services in the fields of mining, geology and engineering; grading of precious stones, metals and minerals; technical measuring; technical surveying; technical studies; technical research; technical testing; technical engineering; technical data analysis; technical project studies; technical project planning; technical writing; preparation of technical manuals and studies; technical consultation in the fields of mining, geology and engineering; preparation of scientific and technological reports in the fields of mining, geology and engineering; airborne remote monitoring and sensing relating to environmental explorations; water analysis; monitoring and analysis of water quality; water quality control services; environmental testing services to detect contaminants in water; classification of minerals; metallurgical analysis; metallurgical laboratory services; metallurgical testing; technical research and product studies in the field of carbon offsetting; research in the reduction of carbon emissions; greenhouse gas emission measuring and analysis; providing scientific information and advice relating to net zero emissions; providing technological information about environmentally-conscious and green innovations; environmental surveys; environmental monitoring; energy auditing; energy monitoring for others for energy

***List of cases accepted for opposition purposes as shown in Journal 2026/023 published on
05 June 2026 .***

auditing purposes; metallurgical analysis; metallurgical testing; assessing chemical information in relation to hazards; assessing toxicological information in relation to hazards; environmental hazard assessment; environmental surveys; environmental testing; technical assessments relating to water and mass balance; environmental assessment services; environmental hazard assessment; technical consultancy in the field of environmental technology; engineering services; engineering consultancy; civil and structural engineering services; engineering surveying; geoenvironmental engineering; technical consulting in the field of geoenvironmental engineering; engineering project management services; conducting engineering feasibility studies; environmental engineering services; geological, geotechnical, environmental, hydrological and metallurgical engineering analysis and research services; geostatistical, geological, environmental, and hydrological surveying; design of metallurgical processes; metallurgical analysis; geophysical exploration and interpretation for the mining and mineral exploration industries; earth science services; soil analysing services; measuring of earth samples; soil testing services; mapping services; design of models; design of computer-simulated models; design and development of computer software for mine simulation; Software as a Service (SaaS) featuring software for use in mining, geology and engineering; Software as a service [SaaS] featuring software for machine learning; Platform as a Service (SaaS) featuring software platforms for use in mining, geology and engineering; design and development of computer hardware and software for use in mining, geology and engineering; provision of online, non-downloadable software for use in mining, geology and engineering; Artificial intelligence as a Service (AIaaS) for use in mining, geology and engineering; mathematical research searches in the fields of mining, geology and engineering; design of mathematical models for use in the fields of mining, geology and engineering; design of 3D models of geomorphological units; sampling for pollution and contamination; materials sampling for analysis purposes; research relating to waste analysis; environmental monitoring of waste storage and waste treatment areas; information, advisory and consultancy relating to the aforesaid services.

SRK EXPLORATION

Class 9:

Downloadable computer software relating to mining, geology and engineering; downloadable computer software for the simulation of sub-surface environments; downloadable computer software for the planning, design and control of ventilation, airflow, pressure, and climate; downloadable computer software for the projection of fan, cooling and air filtration requirements; downloadable computer software for the calculation of capital and operating costs relating to ventilation, airflow, pressure and

climate; downloadable computer software for the simulation of fires, heat and contaminant flow; downloadable computer software for the planning, design and control of mine ventilation systems; downloadable computer software for the simulation of airflow in subsurface atmospheres; downloadable computer software for heat load estimation and refrigeration planning; downloadable computer software for the simulation of fan and duct installations; downloadable civil and structural engineering software; downloadable computer-aided engineering software; downloadable environmental control and monitoring software; downloadable electronic publications relating to mining, geology and engineering; downloadable electronic publications relating to subsurface ventilation engineering; downloadable electronic publications relating to the planning, design and control of the environment in underground openings; downloadable videos and podcasts relating to mining and engineering; downloadable videos and podcasts relating to subsurface ventilation engineering.

Class 35:

Business consultancy and advisory services relating to mining, geology and engineering; business research and information services relating to mining, geology and engineering; business analysis services relating to mining, geology and engineering; management consultancy services relating to mining, geology and engineering; business auditing services for mining and exploration projects and operations; business advisory services relating to the corporate structure of mining, geology and engineering businesses; compilation of statistical models for the provision of market dynamics information in the fields of mining, geology and engineering; business statistical studies in the fields of mining, geology and engineering; data processing, systematisation and management in the fields of mining, geology and engineering; compilation of commercial statistical information in the fields of mining, geology and engineering; compilation of statistical data for use in the fields of mining, geology and engineering; compilation of mathematical data for use in the fields of mining, geology and engineering; account auditing in the fields of mining, geology and engineering; carbon accounting; benchmarking services; benchmarking and evaluation of business organisation practices in the fields of mining geology and engineering; information, advisory and consultancy relating to the aforesaid services.

Class 36:

Financial due diligence services relating to mining and exploration projects and operations; financial analysis and research services relating to mining and exploration projects and operations; financial economic analysis services relating to mining and exploration projects and operations; financial evaluation of development costs relating to the oil, gas and mining industries; financial valuation services relating to mining and exploration projects and operations; costs evaluation [financial appraisal] relating to mining and exploration projects and operations; financial information and evaluations in the fields of mining, geology and engineering; brokerage of carbon offsets; brokerage of carbon credits; liability guarantee services in the fields of mining, geology and engineering; information, advisory and consultancy relating to the aforesaid services.

Class 37:

Excavation services, and extraction of natural resources; mining services; mining extraction services; mining for precious stones and precious metals; repair of mining machinery; maintenance and cleaning of mining equipment; providing information

List of cases accepted for opposition purposes as shown in Journal 2026/023 published on 05 June 2026 .

relating to the repair and maintenance of mining machines and apparatus; rental of drilling and mining machines and apparatus; rental of automotive machinery for use in mining; providing information relating to the rental of mining machines and apparatus; onsite construction supervision of civil engineering works; site preparation; site grading; site clearance; site levelling; drainage services; land drainage; soil dredging; soil stabilisation; soil piling; soil blasting; soil foundation work; information, advisory and consultancy relating to the aforesaid services.

Class 41:

Education and training services in the fields of mining, geology and engineering; educational services providing instruction in policy relating to mining, geology and engineering; providing online videos, videocasts, audio recordings and podcasts, non-downloadable, in the fields of mining, geology and engineering; organising and conducting educational conferences, workshops and seminars in the fields of mining, geology and engineering; cultural services and activities in the fields of mining, geology and engineering; information, advisory and consultancy relating to the aforesaid services.

Class 42:

Scientific and technological services and research and design relating thereto; scientific risk assessment; mining risk assessment; mining and mineral exploration services; exploration services in the oil, gas and mining industries; geological exploration; underwater exploration; gas exploration; oil exploration; petroleum exploration; oil field exploration; mineral exploration; mineral and oil assaying; classification of minerals; chemical services relating to mineralogy; research relating to mineral resources; geophysical exploration; conducting feasibility studies relative to gas, oil, petroleum and mineral exploration; analytical services relating to the exploration of oil fields; geoenvironmental engineering; engineering design and research in the oil, gas and mining industries; analysis and testing services in the fields of mining, geology and engineering; technical project evaluation services for mining; geological exploration; geological research; geological surveys; geological prospecting; geological test drilling; geological estimation and research; analysis of geological samples; geophysical exploration for the oil, gas and mining industries; analysis and testing services in the fields of gas, oil, petroleum and mineral exploration; consultancy services relating to mining, geology and engineering; technological consultancy in the fields of mining, geology and engineering; research in the field of excavation; drawing up of expert technical opinions in connection with oil, gas and mineral deposits; testing, authentication and quality control services in the fields of mining, geology and engineering; quality assessments in the fields of mining, geology and engineering; quality audits in the fields of mining, geology and engineering; quality checking in the fields of mining, geology and engineering; quality control in the fields of mining, geology and engineering; quality testing in the fields of mining, geology and engineering; quality assurance services in the fields of mining, geology and engineering; grading of precious stones, metals and minerals; technical measuring; technical surveying; technical studies; technical research; technical testing; technical engineering; technical data analysis; technical project studies; technical project planning; technical writing; preparation of technical manuals and studies; technical consultation in the fields of mining, geology and engineering; preparation of scientific and technological reports in the fields of mining, geology and engineering; airborne remote monitoring and sensing relating to environmental explorations; water analysis; monitoring and

analysis of water quality; water quality control services; environmental testing services to detect contaminants in water; classification of minerals; metallurgical analysis; metallurgical laboratory services; metallurgical testing; technical research and product studies in the field of carbon offsetting; research in the reduction of carbon emissions; greenhouse gas emission measuring and analysis; providing scientific information and advice relating to net zero emissions; providing technological information about environmentally-conscious and green innovations; environmental surveys; environmental monitoring; energy auditing; energy monitoring for others for energy auditing purposes; metallurgical analysis; metallurgical testing; assessing chemical information in relation to hazards; assessing toxicological information in relation to hazards; environmental hazard assessment; environmental surveys; environmental testing; technical assessments relating to water and mass balance; environmental assessment services; environmental hazard assessment; technical consultancy in the field of environmental technology; engineering services; engineering consultancy; civil and structural engineering services; engineering surveying; geoenvironmental engineering; technical consulting in the field of geoenvironmental engineering; engineering project management services; conducting engineering feasibility studies; environmental engineering services; geological, geotechnical, environmental, hydrological and metallurgical engineering analysis and research services; geostatistical, geological, environmental, and hydrological surveying; design of metallurgical processes; metallurgical analysis; geophysical exploration and interpretation for the mining and mineral exploration industries; earth science services; soil analysing services; measuring of earth samples; soil testing services; mapping services; design of models; design of computer-simulated models; design and development of computer software for mine simulation; Software as a Service (SaaS) featuring software for use in mining, geology and engineering; Software as a service [SaaS] featuring software for machine learning; Platform as a Service (SaaS) featuring software platforms for use in mining, geology and engineering; design and development of computer hardware and software for use in mining, geology and engineering; provision of online, non-downloadable software for use in mining, geology and engineering; Artificial intelligence as a Service (AIaaS) for use in mining, geology and engineering; mathematical research searches in the fields of mining, geology and engineering; design of mathematical models for use in the fields of mining, geology and engineering; design of 3D models of geomorphological units; sampling for pollution and contamination; materials sampling for analysis purposes; research relating to waste analysis; environmental monitoring of waste storage and waste treatment areas; information, advisory and consultancy relating to the aforesaid services.

List of cases accepted for opposition purposes as shown in Journal 2026/023 published on 05 June 2026 .

Class 9:

Downloadable computer software relating to mining, geology and engineering; downloadable computer software for the simulation of sub-surface environments; downloadable computer software for the planning, design and control of ventilation, airflow, pressure, and climate; downloadable computer software for the projection of fan, cooling and air filtration requirements; downloadable computer software for the calculation of capital and operating costs relating to ventilation, airflow, pressure and climate; downloadable computer software for the simulation of fires, heat and contaminant flow; downloadable computer software for the planning, design and control of mine ventilation systems; downloadable computer software for the simulation of airflow in subsurface atmospheres; downloadable computer software for heat load estimation and refrigeration planning; downloadable computer software for the simulation of fan and duct installations; downloadable civil and structural engineering software; downloadable computer-aided engineering software; downloadable environmental control and monitoring software; downloadable electronic publications relating to mining, geology and engineering; downloadable electronic publications relating to subsurface ventilation engineering; downloadable electronic publications relating to the planning, design and control of the environment in underground openings; downloadable videos and podcasts relating to mining and engineering; downloadable videos and podcasts relating to subsurface ventilation engineering.

Class 35:

Business consultancy and advisory services relating to mining, geology and engineering; business research and information services relating to mining, geology and engineering; business analysis services relating to mining, geology and engineering; management consultancy services relating to mining, geology and engineering; business auditing services for mining and exploration projects and operations; business advisory services relating to the corporate structure of mining, geology and engineering businesses; compilation of statistical models for the provision of market dynamics information in the fields of mining, geology and engineering; business statistical studies in the fields of mining, geology and engineering; data processing, systematisation and management in the fields of mining, geology and engineering; compilation of commercial statistical information in the fields of mining, geology and engineering; compilation of statistical data for use in the fields of mining, geology and engineering; compilation of mathematical data for use in the fields of mining, geology and engineering; account auditing in the fields of mining, geology and engineering; carbon accounting; benchmarking services; benchmarking and evaluation of business organisation practices in the fields of

mining geology and engineering; information, advisory and consultancy relating to the aforesaid services.

Class 36:

Financial due diligence services relating to mining and exploration projects and operations; financial analysis and research services relating to mining and exploration projects and operations; financial economic analysis services relating to mining and exploration projects and operations; financial evaluation of development costs relating to the oil, gas and mining industries; financial valuation services relating to mining and exploration projects and operations; costs evaluation [financial appraisal] relating to mining and exploration projects and operations; financial information and evaluations in the fields of mining, geology and engineering; brokerage of carbon offsets; brokerage of carbon credits; liability guarantee services in the fields of mining, geology and engineering; information, advisory and consultancy relating to the aforesaid services.

Class 37:

Excavation services, and extraction of natural resources; mining services; mining extraction services; mining for precious stones and precious metals; repair of mining machinery; maintenance and cleaning of mining equipment; providing information relating to the repair and maintenance of mining machines and apparatus; rental of drilling and mining machines and apparatus; rental of automotive machinery for use in mining; providing information relating to the rental of mining machines and apparatus; onsite construction supervision of civil engineering works; site preparation; site grading; site clearance; site levelling; drainage services; land drainage; soil dredging; soil stabilisation; soil piling; soil blasting; soil foundation work; information, advisory and consultancy relating to the aforesaid services.

Class 41:

Education and training services in the fields of mining, geology and engineering; educational services providing instruction in policy relating to mining, geology and engineering; providing online videos, videocasts, audio recordings and podcasts, non-downloadable, in the fields of mining, geology and engineering; organising and conducting educational conferences, workshops and seminars in the fields of mining, geology and engineering; cultural services and activities in the fields of mining, geology and engineering; information, advisory and consultancy relating to the aforesaid services.

Class 42:

Scientific and technological services and research and design relating thereto; scientific risk assessment; mining risk assessment; mining and mineral exploration services; exploration services in the oil, gas and mining industries; geological exploration; underwater exploration; gas exploration; oil exploration; petroleum exploration; oil field exploration; mineral exploration; mineral and oil assaying; classification of minerals; chemical services relating to mineralogy; research relating to mineral resources; geophysical exploration; conducting feasibility studies relative to gas, oil, petroleum and mineral exploration; analytical services relating to the exploration of oil fields; geoenvironmental engineering; engineering design and research in the oil, gas and mining industries; analysis and testing services in the fields of mining, geology and engineering; technical project evaluation services for mining; geological exploration; geological research; geological surveys; geological prospecting; geological test drilling; geological estimation and research; analysis of geological samples; geophysical exploration

***List of cases accepted for opposition purposes as shown in Journal 2026/023 published on
05 June 2026 .***

for the oil, gas and mining industries; analysis and testing services in the fields of gas, oil, petroleum and mineral exploration; consultancy services relating to mining, geology and engineering; technological consultancy in the fields of mining, geology and engineering; research in the field of excavation; drawing up of expert technical opinions in connection with oil, gas and mineral deposits; testing, authentication and quality control services in the fields of mining, geology and engineering; quality assessments in the fields of mining, geology and engineering; quality audits in the fields of mining, geology and engineering; quality checking in the fields of mining, geology and engineering; quality control in the fields of mining, geology and engineering; quality testing in the fields of mining, geology and engineering; quality assurance services in the fields of mining, geology and engineering; grading of precious stones, metals and minerals; technical measuring; technical surveying; technical studies; technical research; technical testing; technical engineering; technical data analysis; technical project studies; technical project planning; technical writing; preparation of technical manuals and studies; technical consultation in the fields of mining, geology and engineering; preparation of scientific and technological reports in the fields of mining, geology and engineering; airborne remote monitoring and sensing relating to environmental explorations; water analysis; monitoring and analysis of water quality; water quality control services; environmental testing services to detect contaminants in water; classification of minerals; metallurgical analysis; metallurgical laboratory services; metallurgical testing; technical research and product studies in the field of carbon offsetting; research in the reduction of carbon emissions; greenhouse gas emission measuring and analysis; providing scientific information and advice relating to net zero emissions; providing technological information about environmentally-conscious and green innovations; environmental surveys; environmental monitoring; energy auditing; energy monitoring for others for energy auditing purposes; metallurgical analysis; metallurgical testing; assessing chemical information in relation to hazards; assessing toxicological information in relation to hazards; environmental hazard assessment; environmental surveys; environmental testing; technical assessments relating to water and mass balance; environmental assessment services; environmental hazard assessment; technical consultancy in the field of environmental technology; engineering services; engineering consultancy; civil and structural engineering services; engineering surveying; geoenvironmental engineering; technical consulting in the field of geoenvironmental engineering; engineering project management services; conducting engineering feasibility studies; environmental engineering services; geological, geotechnical, environmental, hydrological and metallurgical engineering analysis and research services; geostatistical, geological, environmental, and hydrological surveying; design of metallurgical processes; metallurgical analysis; geophysical exploration and interpretation for the mining and mineral exploration industries; earth science services; soil analysing services; measuring of earth samples; soil testing services; mapping services; design of models; design of computer-simulated models; design and development of computer software for mine simulation; Software as a Service (SaaS) featuring software for use in mining, geology and engineering; Software as a service [SaaS] featuring software for machine learning; Platform as a Service (SaaS) featuring software platforms for use in mining, geology and engineering; design and development of computer hardware and software for use in mining, geology and engineering; provision of online, non-downloadable software for

use in mining, geology and engineering; Artificial intelligence as a Service (AIaaS) for use in mining, geology and engineering; mathematical research searches in the fields of mining, geology and engineering; design of mathematical models for use in the fields of mining, geology and engineering; design of 3D models of geomorphological units; sampling for pollution and contamination; materials sampling for analysis purposes; research relating to waste analysis; environmental monitoring of waste storage and waste treatment areas; information, advisory and consultancy relating to the aforesaid services.

publishing of electronic publications for others; Publishing services, namely, publishing online works of others featuring user-created photographs, images, videos, text and graphics; Providing online non-downloadable entertainment content; Providing online non-downloadable multimedia entertainment content in the form of avatars, graphic icons, symbols, fanciful designs, comics, phrases, and graphical depictions of people, places and things; Film and video production; Multimedia entertainment services in the nature of recording, production, post-production and distribution services in the fields of television, film and multimedia entertainment; Production and distribution of television shows; Providing online non-downloadable video clips and other multimedia digital content in the nature of television episodes, shorts, graphics, and images containing audio, video, artwork, and/or text from or related to an ongoing television series; Providing non-downloadable television shows via a video-on-demand transmission service; Entertainment services in the nature of ongoing television series in the fields of comedy, crime, documentary, drama, horror, mystery, news, and romance; Entertainment services in the nature of augmented reality content; Entertainment services in the nature of augmented reality content, namely, providing online augmented reality computer games and online interactive augmented reality computer games; Providing online computer games; Entertainment services, namely, providing non-downloadable videos over the internet or other communications networks in the field of user-created entertainment content, namely, photos, multimedia videos, graphics, animations, messages, and images created by others; Education services, namely, providing on-line tutorial sessions, non-downloadable tutorial videos, tutoring, classes, and training courses and workshops, all in the field of creating, editing, sharing, sending, and monetizing digital photos, videos, images, emojis, avatars, emoticons, text, audio, augmented reality content, and video games to others via the global computer network; Arranging and conducting educational conferences; Organizing and hosting social entertainment events in the fields of augmented reality and creating, editing, sharing and sending digital photos, videos, images, emojis, avatars, emoticons, text, audio, and video games; Organizing and hosting educational events in the fields of augmented reality and creating, editing, sharing and sending digital photos, videos, images, emojis, avatars, emoticons, text, audio, and video games; Education services, namely, providing on-line tutorial sessions, non-downloadable tutorial videos, tutoring, classes, and training courses and workshops, all in the field of creating, editing, sharing, sending, and monetizing augmented reality content, digital photos, videos, images, emojis, avatars, emoticons, text, audio, and video games to others via the global computer network; On-line journals, namely, blogs in the field of augmented reality; Entertainment services in the nature of development and production of augmented-reality-based multimedia entertainment content; Development and production of augmented-reality-based multimedia entertainment content; Providing information via the internet in the fields of entertainment and music; Provision of entertainment information relating to augmented-reality-based multimedia entertainment content; Providing photographic images, videos, music, audio, music, text, graphics, and other information from searchable indexes and databases, by means of the internet and communication networks.

Class 42:

Scientific and technological services and research and design relating thereto; Design and development of computer hardware and software; Software development; Design and development

of information and communications technology; Hosting digital content on the internet; Providing online web facilities for managing and sharing online photographs, videos, text, music and digital content; Computer services, namely, creating virtual communities for registered users to participate in discussions and engage in social, business and community networking; Application service provider (ASP) services; Application service provider (ASP) services, namely, hosting computer software applications of others; Application service provider (ASP) featuring software to enable or facilitate the uploading, downloading, streaming, editing, modifying, posting, displaying, linking, sharing, transmission or otherwise providing photographs, videos, music and electronic media or information over the internet and communication networks; Providing temporary use of on-line non-downloadable software applications for photo and video sharing; Providing temporary use of on-line non-downloadable authentication software for controlling access to and communications with computers and computer networks; Providing software as a service (SaaS) featuring software for processing electronic payments; Providing temporary use of non-downloadable software for the development of electronic computer generated codes to identify products and process electronic payments; Providing electronic verification of on-line orders featuring general consumer merchandise; Providing temporary scannable electronic codes to identify products and process electronic payments; Providing temporary use of non-downloadable software for the collection, recommendation, organization, transmission, storage, and display of data and information, namely, user-generated content, games, third-party content, photos, video, and audio-visual material; Providing user authentication services using single sign-on technology for online software applications; Providing temporary use of non-downloadable software for modifying the appearance and enabling transmission of photographs and videos; Providing temporary use of non-downloadable software for use in taking and editing photographs and recording and editing videos; Providing temporary use of non-downloadable software for streaming audio-visual media content via a global computer network and to mobile and digital electronic devices; Providing temporary use of non-downloadable computer software which allows users to build and access social network information including address book, friend lists, profiles, preferences and personal data; Software for managing contact information in mobile device address books; Providing temporary use of non-downloadable software for sending digital photos, videos, images, audio-visual content and text to others via a global computer network; Providing temporary use of non-downloadable computer software for use in mobile devices, namely, augmented reality software for integrating electronic data with real world environments for the purpose of viewing, capturing, recording and editing augmented images and augmented videos; Providing temporary use of non-downloadable software for use in creating and designing augmented reality and virtual reality experiences; Providing temporary use of non-downloadable software for object recognition, sound recognition, and scanning the environment for augmented reality and virtual reality experiences; Providing temporary use of non-downloadable software for tracking motion in, visualizing, manipulating, viewing, transmitting, and displaying images, video, audio, and data for augmented reality and virtual reality experiences; Providing temporary use of non-downloadable computer software application which allows users to create avatars, graphic icons, symbols, graphical depictions of people, places and things, fanciful designs,

List of cases accepted for opposition purposes as shown in Journal 2026/023 published on 05 June 2026 .

comics and phrases that can be posted, shared and transmitted via multi-media messaging (MMS), text messaging (SMS), the internet, and other communication networks; Providing temporary use of non-downloadable software for the purpose of analysing the interactions and engagement between users for the purpose of ranking relationships; Providing temporary use of non-downloadable software for the purpose of tracking, accessing and sharing the location of users; Providing temporary use of non-downloadable software for recording, tracking, accessing and sharing of past and real-time location data for the purpose of sharing a user's location with others; Hosting of digital content on the internet; Hosting online web facilities for others for managing and sharing online content; Providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information, by means of computer and communication networks; Computer services; Computer programming services; Computer services, namely, creating virtual communities for registered users to participate in discussions and engage in social, business and community networking; Application service provider (asp) featuring software to enable or facilitate the uploading, downloading, streaming, posting, displaying, linking, sharing or otherwise providing electronic media or information over communication networks; Providing temporary use of non-downloadable software granting users early or exclusive access to new and experimental features; Software-as-a-service (saas) services featuring software for integrating electronic data with real world environments for the purpose of experiencing, viewing, capturing, recording and editing augmented images and augmented videos; Computer programming services for creating videos, games and multiplayer augmented reality experiences; Collaborative computer programming for others in the nature of hackathons; Platform-as-a-service (PaaS) featuring software for creating, generating, managing, viewing, decimating, converting, and rendering computer-generated imagery (CGI), three-dimensional (3D), and augmented-reality (AR) assets; Graphic-design services, namely, creation and design of CGI, 3D, and AR assets; PaaS featuring software for publishing computer-generated imagery (CGI), three-dimensional (3D), and augmented-reality (AR) assets for ecommerce and retail; PaaS featuring software for viewing products, images, and three-dimensional (3D) objects in an augmented-reality (AR) environment; PaaS featuring software for ecommerce user-data analytics and measuring and tracking ecommerce website usage; Computer services for the analysis of data, namely, computer systems analysis, taking measurements and sizing for apparel, and creating personalized fit profiles; Web site hosting services, software as a service (SaaS) services featuring software for use in data analysis, taking measurements and sizing for apparel, and creating personalized fit profiles, and rental of software; Providing online temporary use of non-downloadable software for use in data analysis, taking measurements and sizing for apparel, and creating personalized fit profiles; Non-downloadable computer software for cameras, video cameras, and video recorders; Non-downloadable computer software for setting up, configuring, and controlling wearable computer hardware and peripherals; Non-downloadable computer software for use in creating and designing augmented reality and virtual reality experiences; Non-downloadable augmented reality and virtual reality software for use in mobile devices for integrating electronic data with real and virtual world environment in the fields of entertainment, photography, communications, and online social networking;

Non-downloadable computer software for database management, data processing, taking measurements and sizing for apparel, and creating personalized fit profiles; Software-as-a-service (SaaS) services featuring software for integrating electronic data with real world environments for the purpose of allowing consumers to virtually try-on clothing, apparel, accessories, and other wearable goods; Software-as-a-service (SaaS) services featuring software for integrating electronic data with real world environments for the purpose of allowing consumers to superimpose a to-scale rendering of consumer goods including furniture, accessories, décor, decorations, and housewares into a real world environment; Non-downloadable augmented reality software for mobile phones, personal computers, portable media players, and handheld computers for integrating electronic data with real world environments for the purpose of creating an online catalogue of 3D models of consumer products such as clothing, accessories, footwear, and jewellery; Non-downloadable augmented reality software for virtual product try-on experiences; Non-downloadable computer software for the marketing, advertising, and promotion of consumer retail goods; Non-downloadable computer software using artificial intelligence for machine learning; Non-downloadable machine learning software for product try-on experiences; Non-downloadable computer e-commerce software to allow users to perform electronic business transactions via a global computer network; Providing a website featuring non-downloadable pre-recorded musical sound recordings, musical performances and musical videos; Providing a website featuring non-downloadable photographs, pre-recorded videos and other non-downloadable multimedia content featuring multimedia entertainment, and online social networking; Providing a website featuring blogs and non-downloadable publications in the nature of magazines, journals, emails, newsletters and articles in the field of augmented reality.

Class 45:

On-line social networking services; Licensing of intellectual property; Licensing of intellectual property, namely, user created avatars, graphical icons, symbols, fanciful designs, comics, phrases, and graphical depictions of people, places and things.

Class 9:

Mobile applications for emotional literacy education; downloadable software for children's emotional development; digital educational content.

Class 16:

Picture books printed on paper or board; children's books printed on paper or board; printed educational materials; instructional and teaching materials in printed form; printed guides; educational posters; educational workbooks; printed matter; all relating to emotional literacy and child development; none of the aforesaid being made of textile or fabric material.

Class 41:

List of cases accepted for opposition purposes as shown in Journal 2026/023 published on 05 June 2026 .

Educational services relating to emotional literacy and child development; provision of educational materials online; online educational workshops and seminars; educational training services for parents, teachers and therapists; publication of educational content; provision of online non-downloadable publications.

Class 42:

Provision of an online community platform for parents, educators and healthcare professionals featuring discussion forums, peer support, expert-led workshops and educational resources relating to children's emotional literacy and child development.

Anne Kut a partner in Robert & Anne Partnership

for product registration, warranty administration and customer support relating to building climate, energy and environmental systems; Parts, fittings and accessories for all the aforesaid goods.

Class 11:

Air conditioning apparatus and installations; Heating apparatus and installations; Cooling apparatus and installations; Refrigeration apparatus and installations; Apparatus, installations and systems for heating, cooling, air conditioning, refrigeration, ventilation and indoor air quality control; Furnaces; Boilers; Ductless air conditioning systems; Packaged heating and cooling systems; Fan coil units; Evaporators; Indoor air quality apparatus, namely air purifiers, air filters, ventilators, humidifiers, dehumidifiers and ultraviolet air treatment apparatus; Parts, fittings and accessories for all the aforesaid goods.

Class 37:

Installation, maintenance, and repair services, including preventive maintenance services and subscription-based maintenance services, for HVAC equipment and systems, heating equipment and systems, cooling equipment and systems, air conditioning equipment and systems, refrigeration equipment and systems, ventilation equipment and indoor air quality systems, temperature-controlled cargo containers, temperature-controlled cargo storage units and facilities, temperature-controlled cargo vehicles, gas ignition systems, gas detection systems, hazard mitigation systems, building alarm systems, fire and smoke alarm systems, fire suppression systems and fire safety systems, building security systems, building access systems, electronic lock systems, credentialing equipment, real estate access systems, and remote access management equipment; HVAC contractor services.

Class 42:

Software as a service (SaaS); Software as a service (SaaS) for HVAC Systems, Building Management Systems (BMS), Building Automation Systems (BAS); Platform as a service (PaaS); Platform as a service (PaaS) for HVAC Systems, Building Management Systems (BMS), Building Automation Systems (BAS); Computer systems analysis; Computer systems analysis for HVAC Systems, Building Management Systems (BMS), Building Automation Systems (BAS); Computer programming services; Computer programming services for HVAC Systems, Building Management Systems (BMS), Building Automation Systems (BAS); Design and development of computer hardware and computer software; Design and development of computer hardware and computer software for HVAC Systems, Building Management Systems (BMS), Building Automation Systems (BAS); Scientific and technological consultancy services; Scientific and technological consultancy services relating to HVAC Systems, Building Management Systems (BMS), Building Automation Systems (BAS); Rental and leasing of computers; Rental and leasing of computers for HVAC Systems, Building Management Systems (BMS), Building Automation Systems (BAS); Engineering services; Engineering services for HVAC Systems, Building Management Systems (BMS), Building Automation Systems (BAS); Operation and management of data centres; HVAC system design and simulation software; Software for predictive maintenance, optimization, and control of HVAC systems; Energy efficiency and environmental performance analysis software for HVAC systems; Building energy management system software; Data analytics and reporting services for HVAC systems; Technical consultancy and advisory services relating to HVAC system

design, energy efficiency, and indoor air quality; Information, advisory and consultancy services relating to all of the aforesaid services; Online platform as a service featuring non-downloadable software and mobile applications for collecting, analyzing, and reporting data from residential and commercial buildings, including Building Management Systems (BMS), Building Automation Systems (BAS), and third-party sensors for mechanical and electrical equipment, enabling control and adjustment of building equipment to optimize performance and meet industry standards for efficiency and wellness; Maintenance of computer software, including mobile application software; Remote monitoring and management of HVAC, refrigeration, temperature-controlled cargo systems and facilities, gas ignition and detection systems, hazard mitigation systems, security and fire alarm systems, building security and access systems, fire suppression and safety products, electronic lock systems, credentialing and real estate access equipment, and remote access management equipment, as well as technical support services for diagnosing problems with these systems; Provision of a website enabling users to remotely view, monitor, program, operate, and control the aforementioned equipment and systems; Computer services for remote management of building and cargo-related systems and equipment; Providing online non-downloadable software and platform as a service (PAAS) for data center thermal management and Data Center Infrastructure Management, including technical support and advisory services related to installation, maintenance, repair, and management of data centers and heating/cooling apparatus for data centers and similar facilities; Scientific research consultancy, design, testing, research, and network analysis services in data center management, data analysis, systemization, processing, software asset management and optimization, network mapping, capacity planning and utilization, project task management, and reporting; Technological consultancy in data center architecture and building management systems for thermal management; computer design, testing, programming, hardware and software design; online computer database and database design in data center management; industrial analysis and research for energy auditing and efficiency improvement; engineering services and design, drafting of plans and drawings; computer project management, help desk, migration services, and technical support; Computerized data analysis using proprietary software for evaluating and collecting service data on software, data center management, asset management, network mapping, capacity planning, and reporting; technical data analysis for technology specification, requirement analysis, and recommendations; technical advice on computer programs and electronic data storage via interactive websites or global computer networks; operation and management of data centers with remote and on-site infrastructure services for public and private cloud computing IT and applications; advisory, information, and consultancy services related to data center management and design and development of automated building management systems and controllers for temperature, humidity, and electrical regulation.
