structures for the production of natural gas; Construction of geothermal energy installations; Maintenance and repair of energy generating installations.

Class 39:

Transport; Packaging and storage of goods; Travel arrangement; Car rental; Distribution of energy; Electricity distribution; Freight brokerage [forwarding (Am.)]; Traffic information; Transport brokerage; Transport by pipeline; Vehicle rental; Distribution by pipeline and cable; Storage of energy and fuels; Packaging and storage of goods; Distribution of renewable energy; Electricity distribution; Distribution of gas; Transportation of waste; Delivery of fuel; Transmission of oil or gas through pipelines; Distribution of renewable energy; Storage of liquids; Collection of liquid waste; Arrangement of the storage of fuels; Car sharing services; Rental services related to vehicles, transportation, and storage; Provision of car parks and car parking services; Rental of garages and parking places; Arrangement of the transportation of fuels; Arranging of vehicle hire; Provision of information relating to road transport; Delivery of fuel; Storage of waste; Water supplying; Water distribution; Unloading cargo; Cargo handling; Transport of goods; Clearance [removal and transportation] of waste; Fuel bunkering services [storage]; Arrangement of the transportation of fuels; Providing road and traffic information; Storage of energy and fuels; Storage of oil; Storage of liquefied natural gas on ships; Transport of oil; Transport of natural gas; Pipeline transport of gases; Storage of captured carbon dioxide for others; Transport of captured carbon dioxide for others; Public utility services in natural gas distribution; Distribution of renewable energy; Energy distribution; Information and advisory services in relation to the distribution of energy.

Class 40:

Information relating to the processing of oil, gas, petroleum products, combustible materials, chemicals, water, waste and contaminated soil and land; Treatment of waste; Energy production; Energy generation by means of renewable energy; Water treating; Surface energy patterning; Custom manufacture and assembly services; Rental of equipment for the treatment and transformation of materials, for energy production and for custom manufacturing; Production of electrical power from renewable sources; Generation of electricity from solar energy; Treatment, in relation to the following goods: Materials made of plastics and Paper and Cardboard; Handling of sheets and bags of plastic materials, cardboard or paper; Printing and print finishing on sheets and bags of plastic materials, cardboard or paper; Refining of oil; Processing of oil; Gas production services; Refining of petroleum products; Reprocessing lubrication oils; Generation of gas and electricity; Electricity generating; Generation of electricity from geothermal energy; Generation of electrical power using carbon sequestration; Waste incineration; Recycling of waste; Electricity generating; Generation of power; Recycling of waste; Food and drink preservation; Treatment of waste; Waste incineration; Water treatment and purification; Processing of fuel materials; Carbon capture; Production of electrical power from renewable sources; Industrial activities including carbon capture and magnetic confinement fusion; Fusion; Carbon capture.

Class 41:

Teaching; Training; Entertainment services; Sporting and cultural activities; Training in the field of renewable energy; Publication of magazines, Publication of books; Teaching; Educational academy and university services; research and professional consultancy relating to education and training;

organising and conducting conferences, seminars, exhibitions, symposiums and discussion forums; Photography, News reporters services; Providing on-line electronic publications, not downloadable; Publication of books, electronic books and journals; Translation and interpretation; Vocational guidance [education or training advice]; Professional services relating to educational policies; Professional advisory services relating to philosophy, language and psychology, anthropology, studies relating to the energy and the sustainable energy sector, studies relating to the human resources sector; university courses; Conducting classes in relation to the following fields: Power and renewable energy; Training; Publishing, reporting, and writing of texts; Education, entertainment; Publication services.

Class 42:

Scientific and technological services and research and design relating thereto; industrial research and industrial analysis; Design and development of computer hardware and software; IT services; Software development, programming and implementation; Design and development of software for control, regulation and monitoring of solar energy systems; Scientific technological services; Rental of science and technology equipment; Natural science services; Testing, authentication and quality control; Design and development of regenerative energy generation systems; Scientific services and design relating thereto; Technological services and design relating thereto; Industrial analysis services; Industrial research; Quality control and authentication services; Diagnostic testing for industrial lubricants; Engineering services; Engineering services in the field of environmental technology; Engineering services for the gas industry; Advisory services relating to design engineering; Engineering services in the field of energy technology; Engineering services relating to energy supply systems; Engineering services in the field of electrical power and natural gas production; Engineering services relating to gas transport and supply systems; Provision of technical consultancy to the oil refining industry; Water analysis; Environmental testing of exhaust emissions; Research in the reduction of carbon emissions; Technical research in the field of carbon offsetting; Design and development of regenerative energy generation systems; Design of equipment for the transportation of waste; Environmental monitoring of waste treatment areas; Research relating to waste analysis; Environmental monitoring of waste storage areas; Technical research; Advisory services relating to energy efficiency; Condition monitoring relating to lubricants; Condition monitoring relating to oils; Assaying minerals or oils; Scientific research and analysis; Laboratory services; Technical project studies in the field of carbon offsetting; Conducting technical project studies; Research and development services; Engineering project management services; Geophysical exploration for the oil, gas and mining industries; Engineering consultancy services; Technological consultancy; Biotechnological research relating to the petroleum industry; Design and development of energy distribution networks; Technological consultancy in the fields of energy production and use; All the aforesaid services also being for the metaverse; Engineering; Scientific research and technological services; Chemistry services; Research in the field of chemistry.
