Software and hardware for use in the field of quantum computing, quantum computers and quantum error correction; quantum computers; software for managing quantum computing and quantum error correction operations; software for quantum hardware control; computer operating systems for quantum computers; quantum control software; hardware decoders for quantum computers; software for decoding quantum measurement data; software for simulating quantum circuits; software for quantum circuit generation; software for data analytics; software for noise modelling in quantum systems; quantum computing development software; software for quantum algorithm optimization; software for quantum physics applications; software for managing qubit operations; real-time decoding software; software for testing quantum circuits; software for analysing quantum noise sources; quantum computing and quantum error correction analytical software tools; software development kits [SDKs] for quantum computing and quantum error correction; software for the management of the execution time of a computer or quantum computer; communication and networking software; quantum computing and quantum error correction emulators; software for quantum hardware integration; software for quantum computing and quantum error correction research; software for decoding quantum experiments and simulations; software for energy management; software for scientific analysis; software for chemical analysis; software for cloud-based quantum computing and quantum error correction services; software for quantum computer programming; application software for quantum computing and quantum error correction; software for benchmarking quantum devices; software for quantum fidelity measurement; software for machine learning applications in quantum computing and quantum error correction; software for quantum simulation; software for managing quantum memory; software for optimizing quantum control sequences; software for

controlling quantum computing and quantum error correction hardware; middleware and firmware for quantum computing and quantum error correction; software for performing quantum operations; software for quantum computing and quantum error correction education and training; software for quantum circuit visualization; artificial intelligence, machine learning and deep learning software for quantum computing and quantum error correction; artificial intelligence software for decoding quantum error correction data and for real-time quantum decoding; software development tools for use in the fields of science, information technology, artificial intelligence, machine learning and deep learning; software for quantum performance analysis; quantum error correction semiconductor decoder chips; field programmable gate arrays [FPGA] for quantum computing and quantum error correction; system-on-chip [SOC] for quantum computing and quantum error correction; downloadable electronic publications relating to quantum computing, quantum error correction and quantum computers; integrated circuits for quantum computing and quantum error correction; software for the development of pharmaceuticals; scientific apparatus and instruments relating to quantum physics; hardware and software interfaces for quantum computing and quantum error correction; parts and fittings for all the aforesaid goods.

Class 42:

Research, design and development of quantum computers, quantum computing software and computer software platforms for the development of computer software for quantum computers; Software as a Service [SAAS], Artificial Intelligence as a Service [AIaaS] and Platform as a Service [PAAS] services for use in the field of quantum error correction and quantum computing; Artificial Intelligence as a Service [AIaaS] for quantum error correction decoding; cloud-based quantum computing and quantum error correction services; quantum computing and quantum error correction platform services; quantum computing and quantum error correction technology services; hosting of quantum computing and quantum error correction software; quantum software development services; quantum computing and quantum error correction consultancy; quantum algorithm development services; quantum software integration services; Infrastructure as a Service [IAAS] services for quantum computing and quantum error correction; data analysis services for quantum experiments; design, development and testing of computing methods, algorithms and software relating to quantum computers and quantum computing; research, design, development and analysis of environments in the fields of quantum computing, science, information technology, artificial intelligence, machine learning and deep learning; quantum computing and quantum error correction research services; quantum computing benchmarking services; quantum computing optimization services; providing online temporary access to quantum computing and quantum error correction resources; quantum software customization services; quantum computing system design services; software testing services for quantum applications; online platform services for quantum computing development and quantum error correction; technical, troubleshooting, advisory and diagnostic services for quantum computing and quantum error correction software; quantum computing architecture design services; design and development of decoder chips and system-on-chip [SOC] for quantum computing and quantum error correction; design and development of computer hardware architecture for quantum systems; engineering services for quantum computing and quantum error correction systems; design of integrated circuits and chips for quantum error correction; design and development

***List of cases accepted for opposition purposes as shown in Journal 2026/024 published on

CONSTELLATION RETAIL

Class 6:
Vehicle registration plates; .

Class 9:
Computer software; digital recording media; data and information stored on magnetic, optical, microchip, wireless, magneto-optical or solid-state media; databases; downloadable books and electronic publications; media content; electronic and downloadable vouchers and coupons; parts and fitting for the aforesaid goods; all of the aforesaid relating to vehicles and the sale of vehicles; none of the aforementioned goods being in the form of watches or relating to watches.

Class 12:
Vehicles; apparatus for locomotion by land, air or water; motor land vehicles and parts and fittings therefor; parts and fittings for motor land vehicles.

Class 16:
Printed matter, printed publications, periodical publications; books, printed catalogues, magazines, leaflets, brochures, photographs, stationery, pens, pencils, calendars and diaries; all the aforesaid relating to vehicles and the sale of vehicles.

Class 35:
Advertising, marketing and promotional services relating to vehicles; business management; business administration; office functions; auctioneering services; , electronic auctioneering services; online auctioneering services; conduct of auction sales; vehicle auction services; , auction advice and consultancy services; business information and research services; commercial information relating to matching vehicles with potential buyers by means of a database; customer profiling and stock matching for commercial purposes by means of a database; search and selection services; search and selection services provided online; providing a searchable online guide of products for sale; data handling; data processing; data collection services; computerised business information retrieval services; database management; compilation and systemisation of data and information into computer databases; market analysis and research; outsourcing services [business assistance]; outsourcing services in the field of business operations; outsourcing services in the nature of arranging procurement or sale of goods for others; supervision of loyalty schemes and incentive schemes; retail services, shop retail services, mail order retail services and electronic shopping retail services connected with the sale of a variety of motor vehicles and motor vehicle parts; provision of online platforms and digital interfaces for the sale and purchase of motor vehicles;

facilitation of transactions for the buying and selling of vehicles; vehicle dealership services; vehicle imaging services; provision of sales information in respect of the features of a vehicle and inspecting vehicles prior to sale; distribution of publicity materials for sales purposes relating to vehicles; compilation of lists of vehicles for prospective customers; promoting the goods and services of others by means of a preferred customer program; advertising to attract new customer and to maintain the existing customer base; processing purchase orders; advisory, consultancy and information services relating to all the aforesaid; all of the aforesaid relating to vehicles and the sale of vehicles.

Class 36:
Financial services relating to the purchase of motor vehicles; car finance; commercial vehicle finance and motorcycle finance; lease-purchase financing; leasing finance; operating leasing and contract hire; insurance services; insurance brokerage services; benefit card, cash card, charge card, credit card and debit card payments and validation services; credit services; hire purchase, financing, instalment loan financing and loan services; valuation services; vehicle appraisal services; financial transaction and payment processing services in connection with the purchase and sale of vehicles; provision of extended warranties in connection with vehicle sales; advisory, consultancy and information, services relating to all the aforesaid; vehicle appraisals, physical vehicle appraisals and online vehicle appraisals; all of the aforesaid relating to vehicles and the sale of vehicles.

Class 37:
Vehicle, engine or vehicle parts servicing; vehicle diagnostics, maintenance, restoration, reconditioning, refurbishment, repair and aftersales services; garage services for vehicle repair and maintenance; inspection of vehicles prior to maintenance and repair; vehicle washing, valeting, cleaning, painting, spraying, polishing, diagnostic tuning and upholstery services; vehicle preconditioning services; vehicle factory reset services; arranging for the repair of vehicles; installation of vehicle parts and accessories; advisory, consultancy and information services relating to all the aforesaid; all of the aforesaid relating to vehicles and the sale of vehicles.

Class 38:
Telecommunications; communication services for the provision of on-line information and data; services for the gathering and dissemination of information and data; services for the provision of computer based information by electronic, computer, cable, video, radio-paging, teleprinter, telex, tele letter, electronic mail, television, microwave, fibre optic, laser beam, wireless and communications satellite means; providing portals on the Internet; providing online communication forums; providing online chat rooms and electronic bulletin boards; the electronic transmission of bill payment data; electronic mail services; peer to peer photo and video sharing services; advisory, consultancy and information services relating to all the aforesaid; vehicle telematics services; all of the aforesaid relating to vehicles and the sale of vehicles.

Class 39:
Transport services; vehicle collection services; vehicle delivery services; transport of vehicles; vehicle import services; logistics management services; logistics services consisting of the storage, transport and delivery of goods; tracking and tracing of shipments; providing information to others for checking purposes relating to the state of progress of collection and delivery, via the Internet, telephone or mobile devices; rental

Lace and embroidery, ribbons and braid; buttons, hooks and eyes, pins and needles; artificial flowers; badges for wear.

Class 27:

Carpets, rugs, mats and matting, linoleum and other materials for covering existing floors; wall hangings (non-textile); wallpaper.

Class 28:

Games and playthings; playing cards; gymnastic and sporting articles; decorations for Christmas trees; childrens' toy bicycles; toy clocks; durable eco-friendly toys; playhouses; castles; marble runs; musical shakers; vehicles made from boxes; Jigsaws.

Class 29:

Meat, fish, poultry and game; meat extracts; preserved, dried and cooked fruits and vegetables; jellies, jams, fruit sauces; eggs, milk and milk products; edible oils and fats; prepared meals; soups and potato crisps.

Class 30:

Coffee, tea, cocoa, sugar, rice, tapioca, sago, artificial coffee; flour and preparations made from cereals, bread, pastry and confectionery, ices; honey, treacle; yeast, baking-powder, salt, mustard; vinegar, sauces (condiments); spices; ice; sandwiches; prepared meals; pizzas, pies and pasta dishes.

Class 31:

Agricultural, horticultural and forestry products; live animals; fresh fruits and vegetables, seeds, natural plants and flowers; foodstuffs for animals; malt; food and beverages for animals.

Class 32:

Beers; mineral and aerated waters; non-alcoholic drinks; fruit drinks and fruit juices; syrups for making beverages; shandy, de-alcoholised drinks, non-alcoholic beers and wines.

Class 35:

Advertising; business management; business administration; office functions; electronic data storage; organisation, operation and supervision of loyalty and incentive schemes; advertising services provided via the Internet; production of television and radio advertisements; accountancy; auctioneering; trade fairs; opinion polling; data processing; provision of business information; retail services connected with the sale of clothing.

Class 38:

Telecommunications services; chat room services; portal services; e-mail services; providing user access to the Internet; radio and television broadcasting.

Class 41:

Providing of training; entertainment; on-line entertainment; sporting and cultural activities; lottery services; electronic games services provided by means of the Internet; the provision of on-line electronic publications.

Class 42:

Electronic data storage.

Class 7:

Cranes; fixed cranes; dock cranes; locomotive cranes; floating cranes; mobile cranes; movable cranes; crawler cranes; unloading cranes; stacker crane arms; mobile dock cranes; self-propelled cranes; excavators; excavators being self propelled machines; conveyors; industrial conveyors; loaders [conveyors]; articulated loaders; tractor loaders; front end loaders; dredging machines; autonomous cranes; autonomous fixed cranes; autonomous dock cranes; autonomous locomotive cranes; autonomous floating cranes; autonomous mobile cranes; autonomous movable cranes; autonomous crawler cranes; autonomous unloading cranes; autonomous stacker crane arms; autonomous mobile dock cranes; autonomous self-propelled cranes; autonomous excavators; autonomous excavators being self propelled machines; autonomous conveyors; autonomous industrial conveyors; autonomous loaders [conveyors]; autonomous articulated loaders; autonomous tractor loaders; autonomous front end loaders; autonomous dredging machines; parts and fittings for all of the aforesaid.

Class 9:

Scientific, research, navigation, surveying, measuring, signalling, detecting, testing, inspecting apparatus and instruments relating to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous processes; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity relating to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous

List of cases accepted for opposition purposes as shown in Journal 2026/024 published on 12 June 2026 .

processes; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media relating to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous processes; computers and computer peripheral devices relating to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous processes; computer software and computer hardware for use in relation to autonomous infrastructure, industrial systems and processes; computer software and computer hardware for use in three-dimensional mapping of environments; computer software and computer hardware for use in simulating automated processes; computers for autonomous driving; computers for autonomous-driving vehicles; autonomous driving control systems for vehicles; vehicle autonomous driving systems featuring interactive displays; computer programs for use in autonomous control of vehicles; computer programs for use in autonomous driving of vehicles; computer programs for use in the autonomous navigation of vehicles; software for the operation, control, maintenance and management of autonomous vehicles; software for vehicle to vehicle communication; software for collecting, tracking, analysing, evaluating and reporting data in the field of autonomous vehicles; software for battery and fuel management in autonomous vehicles; software for autonomous vehicle theft protection; navigation software; navigation apparatus and instruments; computerised surveillance systems for autonomous vehicles; control systems for autonomous vehicles; data processing equipment; autonomous vehicle tracking apparatus; autonomous vehicle tracking systems; battery charging devices for autonomous vehicles; charging stations for autonomous vehicles; driver assistance systems for autonomous vehicles; vehicle autonomous driving systems; application software; mobile application software; software to control vehicles remotely; computer software and hardware for autonomous vehicle navigation; software for autonomous vehicle fleet management; software for coordinating, scheduling, booking, and dispatching autonomous vehicles for passenger and freight transport; automatic steering apparatus for vehicles; downloadable mobile applications for coordinating transportation services; downloadable mobile applications for coordinating, scheduling, booking, and dispatching vehicles for passenger and freight transport and delivery services; computer software and hardware for autonomous vehicle fleet coordination, navigation, steering, calibrating, direction, scheduling, booking, dispatching, and management; mobile application software for autonomous vehicles, remote controlled vehicles and autonomous car sharing; software and mobile applications for autonomous vehicles, remote-controlled vehicles and autonomous car sharing; software for traffic and environment analysis, environment perception and hazard analysis; software for natural language processing, facial and emotion recognition; software platforms for remote control of vehicles and autonomous vehicles; software for use in telematics and diagnostics; artificial intelligence software for use in relation to autonomous vehicles; software for environmental detection, 3D object detection and 3D tracking; software for tracking and detecting behavioural information of the motion and trajectory of objects; satellite apparatus and equipment; software and software platforms for advertising, business management, organization and administration, business management of a vehicle fleet for others, business analysis and information services, and market research in relation to

autonomous vehicles, fleet management services in the nature of tracking and optimization of fleet vehicles for commercial purposes, business advisory services in the field of optimization of upstream logistics and supply chains, business advisory and consulting services in the field of operation and management of autonomous vehicles, autonomous infrastructure, industrial systems and processes, data management, data processing, database management, data entry and data processing, business data analysis, compilation of data, automated data processing, data collection services, systematization of data in computer databases, collating of data in computer databases; software and software platforms for arranging installation and repair services, vehicle and autonomous vehicle maintenance, repair, servicing, polishing, cleaning, washing and tuning services, vehicle and autonomous vehicle fuelling services, vehicle and autonomous vehicle battery charging, vehicle and autonomous vehicle breakdown assistance, installation of electric and electronic equipment in automobiles, retrofitting of computer hardware, sensors and equipment to vehicles, installation of satellite poles; software and software platforms for providing telecommunications services, transmission of sound, picture and data signals, transmission of voice data, images, signals and messages in the field of vehicle diagnostic information, maintenance reminders, traffic status, and directional guidance information to emergency personnel and vehicle operators, electronic transmission of signals for a global satellite navigation system, transmission of telemetry, sounds, images, signals and data for autonomous vehicles, audio, video, telemetry, signal and data broadcasting from autonomous vehicles, transmission of data relating to environmental analytics; software and software platforms for travel arrangement, booking, monitoring and managing transportation and delivery services by autonomous vehicles, providing autonomous vehicle booking services, booking, monitoring and managing transportation of passengers by autonomous vehicles, booking, monitoring and managing delivery of goods by autonomous vehicles, booking, monitoring and managing autonomous vehicle rental services, booking, monitoring and managing transportation of luggage by autonomous vehicles, autonomous vehicle fleet management, scheduling and optimising transport and travel by autonomous vehicles, travel planning based on environmental and traffic data, providing location information; software for managing connected environments; software for vehicle to everything communication; software for management of vehicle to everything communication systems.

Class 12:

Autonomous vehicles; autonomous cars; autonomous motor vehicles; autonomous electric vehicles; autonomous trucks; autonomous electric shuttles; autonomous trolleys; electric trolleys; personal autonomous electric vehicles; autonomous hydrogen-powered vehicles; autonomous hydrogen-powered trucks; autonomous hydrogen-powered buses; autonomous moving platforms for transporting people, goods and machinery; autonomous personal vehicles; autonomous vehicles for use as goods carriers; autonomous vehicles for use as people carriers; autonomous boats; autonomous ships; autonomous watercraft and seacraft; autonomous aircraft; autonomous drones; unmanned aerial vehicles; autonomous straddle carriers; autonomous forklift trucks; autonomous reach-stackers (forklifts); autonomous vehicles for transporting cargo and heavy materials; autonomous vehicles for moving cargo and heavy materials; parts and fittings for all of the aforesaid.

Class 35:

List of cases accepted for opposition purposes as shown in Journal 2026/024 published on 12 June 2026 .

Advertising relating to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous processes; business management, organization and administration relating to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous processes; business management of a vehicle fleet -for others; business analysis and information services, and market research in relation to autonomous vehicles and autonomous infrastructure, industrial systems and processes; fleet management services in the nature of tracking and optimization of fleet vehicles for commercial purposes; business advisory services in the field of optimization of upstream logistics and supply chains; business advisory and consulting services in the field of operation and management of autonomous vehicles and autonomous infrastructure, industrial systems and processes; data management; data processing; database management; data entry and data processing; business data analysis; compilation of data; automated data processing; data collection services; systematization of data in computer databases; collating of data in computer databases; connected vehicle business management; information, advisory and consultancy services relating to all of the aforesaid.

Class 37:

Installation and repair services relating to autonomous vehicles, electric and electronic equipment in autonomous vehicles, parts and fittings of autonomous vehicles, computer hardware for autonomous vehicles, autonomous vehicle safety equipment, telecommunications equipment, data processing equipment, battery and vehicle charging stations, satellite apparatus and equipment, and platforms and smart platforms for boarding and alighting from autonomous vehicles; autonomous vehicle maintenance, repair, servicing, polishing, cleaning, washing and tuning services; autonomous vehicle fuelling services; autonomous vehicle battery charging; autonomous vehicle breakdown assistance; arranging autonomous vehicle maintenance, repair, servicing, polishing, cleaning, washing and tuning services; autonomous vehicle construction services; installation of electric and electronic equipment in automobiles; retrofitting of computer hardware, sensors and equipment to vehicles; installation of satellite poles; installation, repair and maintenance of three-dimensional environmental mapping equipment; information, advisory and consultancy services relating to all of the aforesaid.

Class 38:

Telecommunications services relating to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous processes; transmission of sound, picture and data signals relating to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous processes; transmission of voice data, images, signals and messages in the fields of autonomous infrastructure, industrial systems and processes, and autonomous vehicle diagnostic information, maintenance reminders, traffic status, and directional guidance information to emergency personnel and vehicle operators; electronic transmission of signals for a global satellite navigation system; transmission of telemetry, sounds, images, signals and data for autonomous vehicles; audio, video, telemetry, signal and data broadcasting from autonomous vehicles; transmission of data relating to environmental analytics and autonomous infrastructure, industrial systems and processes; information, advisory and consultancy services relating to all of the aforesaid.

Class 39:

Transport services relating to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous processes; travel arrangement services relating to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous processes; transportation and delivery services by autonomous vehicles; providing autonomous vehicle booking services; transportation of passengers by autonomous vehicles; delivery of goods by autonomous vehicles; autonomous vehicle rental services; transportation of luggage by autonomous vehicles; autonomous vehicle fleet management; scheduling and optimising transport and travel by autonomous vehicles; travel planning based on environmental and traffic data; providing location information; information, advisory and consultancy services relating to all of the aforesaid.

Class 42:

Scientific and technological services and research and design relating to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous processes; design and development of computer hardware and software for use in relation to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous processes; software as a service (SaaS) services for use in relation to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous processes; platform as a service (PaaS) services for use in relation to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous processes; computer services relating to computer hardware and software for use in relation to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous processes; computer software services relating to computer hardware and software for use in relation to autonomous vehicles, autonomous vehicle fleets, autonomous infrastructure, autonomous industrial systems and autonomous processes; providing online non-downloadable software for use in relation to autonomous infrastructure, industrial systems and processes; providing online non-downloadable software for use in three-dimensional mapping of environments; providing online non-downloadable software for use in simulating automated processes; providing online non-downloadable software for battery and fuel management in autonomous vehicles; providing online non-downloadable software for vehicle theft protection; providing online non-downloadable software for navigation; autonomous vehicle design and development services; autonomous vehicle testing, weighing and inspection services; safety technology services relating to autonomous vehicles; remote monitoring of autonomous passenger vehicles, fleet maintenance and repair, passenger interaction, payment verification, vehicle software testing and validation, data collection of a driveable environment, and 3D map generation for vehicles, all for use in relation to autonomous vehicle fleets; providing online non-downloadable software for operation, control, monitoring and processing data of autonomous vehicles; providing online non-downloadable software for monitoring,

***List of cases accepted for opposition purposes as shown in Journal 2026/024 published on
12 June 2026 .***

controlling and operating autonomous vehicles; providing online non-downloadable software for the connection to computer networks of autonomous vehicles and for data analytics regarding the operation of autonomous vehicles; providing online non-downloadable software services for transportation services, namely, coordinating, booking, and dispatching autonomous vehicles; research and development relating to autonomous vehicles; providing a website featuring online non-downloadable software for scheduling and coordinating autonomous vehicle transportation services; software as a service (SaaS) services featuring software for managing, dispatching, navigating, controlling, notifying riders, and scheduling fleets of autonomous vehicles; providing non-downloadable software and software platforms for advertising, business management, organization and administration, business management of a vehicle fleet for others, business analysis and information services, and market research in relation to autonomous vehicles, fleet management services in the nature of tracking and optimization of fleet vehicles for commercial purposes, business advisory services in the field of optimization of upstream logistics and supply chains, business advisory and consulting services in the field of operation and management of autonomous vehicles, autonomous infrastructure, industrial systems and processes, data management, data processing, database management, data entry and data processing, business data analysis, compilation of data, automated data processing, data collection services, systematization of data in computer databases, collating of data in computer databases; providing non-downloadable software and software platforms for arranging installation and repair services, vehicle and autonomous vehicle maintenance, repair, servicing, polishing, cleaning, washing and tuning services, vehicle and autonomous vehicle fuelling services, vehicle and autonomous vehicle battery charging, vehicle and autonomous vehicle breakdown assistance, installation of electric and electronic equipment in automobiles, retrofitting of computer hardware, sensors and equipment to autonomous vehicles, installation of satellite poles; providing non-downloadable software and software platforms for providing telecommunications services, transmission of sound, picture and data signals, transmission of voice data, images, signals and messages in the field of vehicle diagnostic information, maintenance reminders, traffic status, and directional guidance information to emergency personnel and vehicle operators, electronic transmission of signals for a global satellite navigation system, transmission of telemetry, sounds, images, signals and data for autonomous vehicles, audio, video, telemetry, signal and data broadcasting from autonomous vehicles, transmission of data relating to environmental analytics; providing non-downloadable software and software platforms for travel arrangement, booking, monitoring and managing transportation and delivery services by autonomous vehicles, providing autonomous vehicle booking services, booking, monitoring and managing transportation of passengers by autonomous vehicles, booking, monitoring and managing delivery of goods by autonomous vehicles, booking, monitoring and managing autonomous vehicle rental services, booking, monitoring and managing transportation of luggage by autonomous vehicles, autonomous vehicle fleet management, scheduling and optimising transport and travel by autonomous vehicles, travel planning based on environmental and traffic data, providing location information; providing non-downloadable software and software platforms for the management of connected environments; providing non-downloadable software and software platforms for vehicle to everything communication; providing non-downloadable software and software platforms for

management of vehicle to everything communication systems; information, advisory and consultancy services relating to all of the aforesaid.

Class 9:

Computer software; computer software for recording, organising, transmitting, tracking, reviewing, and receiving text, data, audio, image and digital files; computer software and application software for smartphones and mobile devices for organising, transmitting, tracking, reviewing, and receiving text, data, audio, image and digital files in relation to gymnastics;

computer software and application software for smartphones and mobile devices for organising, transmitting, tracking, reviewing, and receiving text, data, audio, image and digital files in relation to competitions, education, training and tuition in the field of gymnastics; computer software and application software for smartphones and mobile devices for organising, transmitting, tracking, reviewing, and receiving text, data, audio, image and digital files in relation to hosting resources in the field of gymnastics; computer software and application software for smartphones and mobile devices for organising, transmitting, tracking, reviewing, and receiving text, data, audio, image and digital files to enable consumers to conduct home learning in relation to gymnastics; computer software and application software for smartphones and mobile devices for organising, transmitting, tracking, reviewing, and receiving text, data, audio, image and digital files for managing, delivering and entering competitions; computer software and application software for smartphones and mobile devices for creating personalised gymnastics training programs; recorded content; media content; mobile apps; downloadable publications; downloadable sound recordings; downloadable videos; downloadable media content; electronic publications; downloadable articles, brochures, information, leaflets, magazines, newsletters, scorecards, text and tickets; CDs; DVDs; headphones; earphones; electronic score display apparatus; electronic scoreboards; time recording apparatus and instruments; mobile phone cases, covers, and screen protectors; cases, covers and screen protectors for tablets and mobile electronic devices; goggles for sports; height charts; clothing, footwear and headgear for protection against accident, irradiation or fire; protective helmets; mouth guards for sports; parts and fittings for all the aforesaid goods.

Class 14:

Jewellery; badges of precious metal; commemorative medals; commemorative shields; commemorative trophies; figurines and statuettes made of precious metal; key chains; key charms; key fobs; key rings; medals; pins (jewellery); ornamental pins; ornaments made or coated with precious or semi-precious metal; presentation boxes for trophies and medals; prize cups of precious metal; trophies made of precious metals and precious metal alloys; wristbands; watches and horological instruments; parts and fittings for all the aforesaid goods.

Class 16:

Printed materials; printed educational materials; instructional and teaching materials (except apparatus); books; textbooks; brochures; magazines; stationery, namely ring binders, folders, pens, pencils, rubbers, rulers, sharpeners, pencil cases, notebooks, notepads; posters; journals; diaries; calendars; postcards; activity books; stickers; sticker albums; stamps; wall charts; wall planners; timetables; presentation folders; presentation folders for displaying medals; printed certificates; tickets; programmes; prints; pictures; flags of paper; parts and fittings for all the aforesaid goods. .

Class 18:

Bags; cloth bags; duffle bags; gym bags; sports bags; sports bags for protective helmets; canvas bags; cosmetics bags; wallets; purses; luggage; luggage labels; umbrellas; parts and fittings for all the aforesaid goods.

Class 21:

Household or kitchen containers and utensils, water bottles, sports bottles, drinking bottles, shaker bottles, containers for food

List of cases accepted for opposition purposes as shown in Journal 2026/024 published on 12 June 2026 .

and drink, cups, mugs, glasses, tumblers, ornaments, statues, statuettes, figurines, plaques, trophies, works of art, models and decorative objects made of porcelain, terra-cotta or glass, ceramic ornaments, tableware; parts and fittings for all the aforesaid goods.

Class 24:

Articles of textile material; badges made of fabric material; banners of textile or plastic; fabric flags; towels; bed and household linen; kitchen and table linen; cloths; parts and fittings for all the aforesaid goods.

Class 25:

Clothing; footwear; headgear; clothing for gymnastics; sportswear; leotards; t-shirts; trousers; leggings (trousers); shorts; vests; sweatshirts; hooded sweatshirts; fleeces; jackets; gloves; scarves; sweatbands; fancy dress costumes; socks; gymnastic shoes; hats; caps; head bands; parts and fittings for all the aforesaid goods. .

Class 26:

Lanyards; buttons; pins; badges for wear not of precious metal; embroidered badges; decorative ribbons; prize ribbons; shoe laces; competitor's numbers; patches for clothing; numerals or letters for marking linen and clothing; hair accessories, namely hair grips, hair slides, hair pins, hair bands, hair scrunchies, hair ribbons, hair bows and hair elastics; parts and fittings for all the aforesaid goods. .

Class 27:

Gymnastic mats.

Class 28:

Toys, games and playthings; board games; sporting articles and equipment; gymnastic articles and apparatus; balls for sport; balls for play; skipping ropes; plastic toys; cuddly toys; plush toys; soft toys; dolls; beanbags; rhythmic gymnastics ribbons; hoops for rhythmic gymnastics; hoops for exercise; parts and fittings for all the aforesaid goods. .

Class 35:

Advertising, marketing and promotional services; promotion of sports competitions and events; promotion of special events; promotion of goods and services through sponsorship of sports events; merchandising; loyalty, incentive and bonus program services; organisation, operation and supervision of loyalty and incentive schemes; administration of membership schemes; organisation, arrangement and conducting of competitions and prize draws for commercial or advertising purposes; production of television and radio advertisements; promotion of participation and competition in sports and gymnastics; ticket promotion for sporting, cultural and entertainment events; retail services and online retail services in relation to the sale of computer software, computer software for recording, organising, transmitting, tracking, reviewing, and receiving text, data, audio, image and digital files, computer software and application software for smartphones and mobile devices for organising, transmitting, tracking, reviewing, and receiving text, data, audio, image and digital files in relation to gymnastics, computer software and application software for smartphones and mobile devices for organising, transmitting, tracking, reviewing, and receiving text, data, audio, image and digital files in relation to competitions, education, training and tuition in the field of gymnastics, computer software and application software for smartphones and mobile devices for organising, transmitting, tracking, reviewing, and

receiving text, data, audio, image and digital files in relation to hosting resources in the field of gymnastics, computer software and application software for smartphones and mobile devices for organising, transmitting, tracking, reviewing, and receiving text, data, audio, image and digital files to enable consumers to conduct home learning in relation to gymnastics, computer software and application software for smartphones and mobile devices for organising, transmitting, tracking, reviewing, and receiving text, data, audio, image and digital files for managing, delivering and entering competitions, computer software and application software for smartphones and mobile devices for creating personalised gymnastics training programs, recorded content, media content, mobile apps, downloadable publications, downloadable sound recordings, downloadable videos, downloadable media content, electronic publications, downloadable articles, downloadable brochures, downloadable information, downloadable leaflets, downloadable magazines, downloadable newsletters, downloadable scorecards, downloadable text and downloadable tickets, CDs, DVDs, headphones, earphones, electronic score display apparatus, electronic scoreboards, time recording apparatus and instruments, mobile phone cases, mobile phone covers, and mobile phone screen protectors, cases for tablets and mobile electronic devices, covers and screen protectors for tablets and mobile electronic devices, sunglasses, cases for sunglasses, chains and covers for sunglasses, goggles for sports, height charts, clothing, footwear and headgear for protection against accident, irradiation or fire, protective helmets and sports bags for protective helmets, mouth guards for sports, jewellery, badges of precious metal, commemorative medals, commemorative shields, commemorative trophies, figurines and statuettes made of precious metal, key chains, key charms, key fobs, key rings, medals, pins (jewellery), ornamental pins, ornaments made or coated with precious or semi-precious metal, presentation boxes for trophies and medals, prize cups of precious metal, trophies made of precious metals and precious metal alloys, wristbands, watches and horological instruments, printed materials, printed educational materials, instructional and teaching materials (except apparatus), books, textbooks, brochures, magazines, stationery, namely ring binders, folders, pens, pencils, rubbers, rulers, sharpeners, pencil cases, notebooks, notepads, posters, journals, diaries, calendars, postcards, activity books, stickers, sticker albums, stamps, wall charts, wall planners, timetables, presentation folders, presentation folders for displaying medals, printed certificates, tickets, programmes, prints, pictures, flags of paper, bags, cloth bags, duffle bags, gym bags, sports bags, canvas bags, cosmetics bags, wallets, purses, luggage, luggage labels, umbrellas, household or kitchen containers and utensils, water bottles, sports bottles, drinking bottles, shaker bottles, containers for food and drink, cups, mugs, glasses, tumblers, ornaments, statues, statuettes, figurines, plaques, trophies, works of art, models and decorative objects made of porcelain, terra-cotta or glass, ceramic ornaments, tableware, articles of textile material, badges made of fabric material, banners of textile or plastic, fabric flags, towels, bed and household linen, kitchen and table linen, cloths, clothing, footwear, headgear, clothing for gymnastics, sportswear, leotards, t-shirts, trousers, leggings (trousers), shorts, vests, sweatshirts, hooded sweatshirts, fleeces, jackets, gloves, scarves, sweatbands, fancy dress costumes, socks, gymnastic shoes, hats, caps, head bands, lanyards, buttons, pins, badges for wear not of precious metal, embroidered badges, decorative ribbons, prize ribbons, shoe laces, competitor's numbers, patches for clothing, numerals or letters for marking linen and clothing, hair accessories, namely hair grips, hair slides,

devices, namely personal digital assistants and software related thereto; mp3 players; handheld computers; electronic organisers; electronic notepads; carry cases designed and intended of the abovementioned goods; downloadable music files, downloadable screensavers and wallpapers; safety harnesses; parts and fittings for all the aforesaid goods.

Class 16:

Stationery and office requisites; printed matter; teaching materials; books; photographs; paper, plastic bags; wrapping material and packing paper; periodical publications; calendars; photographic albums; greeting cards; Christmas cards; postcards; diaries; address books; personal organisers in paper form; newsletters; leaflets; catalogues; geographical maps; mats for beer glasses; portraits; magazines; match programmes; souvenir programmes; tickets for sporting events; match tickets; brochures; stickers; photocards; albums; binders; packaging; posters; prints; artists' materials; paintings; engraving plates; engravings; paper knives; lithographic works of art; paperweights; pens; pen and pencil cases, pen holders and pen clips; drawing instruments, drawing materials and drawing sets; crayons; paper flags; book markers; chart pointers; stencils; coasters; cheque book and passport holders; table mats and table napkins of paper; removable tattoos (decalcomanias); flags and pennants of paper; scrapbooks; sketch books; story books; colouring books; water-colours; easels; modelling clay; drawing pads; drawing boards; sticker books; stamp pads; instructional materials; paper table cloths; paper table mats; paper table napkins; comics; books for children; children's magazines; publications for children; stationery for children's educational activities; stationery for children's playing activities; children's slates; pencil boxes; children's club magazines; disposable napkins; disposable napkin pants formed primarily of paper; disposable training pants for children; bibs; bubble packs; cardboard; cardboard articles; bags formed primarily of paper or cardboard; song books; slate pencils; badges of cardboard; badges made of paper; tissues formed of paper; document holders.

Class 18:

Leather; imitations of leather; belts; trunks; bags and holdalls; luggage including travelling cases; handbags; shoulder bags; waist bags; backpacks and rucksacks; all purpose sports bags; kit bags; vanity cases; overnight bags; duffle bags; garment bags for travel; travelling bags; umbrellas and parasols; wallets and purses; walking sticks; card cases, key cases and notecases; cases of leather or of leather board; leather laces; boot bags; shoe bags; suit carriers; business card holders; golf umbrellas; suitcases; satchels; schools bags; cases; gym bags; beach bags; shopping bags; shoulder belts; saddle bags; shoulder bags for use by children; sling bags for carrying infants; parts and fittings for all of the aforesaid goods.

Class 25:

Clothing, headwear and footwear; replica kits, replica shorts, replica shirts, replica socks; clothing of leather and of imitation leather; belts; money belts; T-shirts, polo shirts, rugby shirts, jackets, ties, bow ties, pullovers, trousers, socks, shirts, skirts, dresses, sweaters, sweatshirts, pants, jerseys, jumpers, waistcoats, kilts, pyjama suits, night suits, night shirts, night dresses, dressing robes; underwear; boxer shorts, briefs, bras, lingerie, garters, hosiery, corsets, bodices; romper suits, bibs; children's clothing; articles of outer clothing; blazers, coats, fleece tops and fleece suits, padded jackets; knitwear; leisure suits; sports jerseys; sports clothing; track suits, training suits,

rugby tops, rugby shorts, leotards, bathing suits, bikinis, swimming trunks, beachwear, sports bras, jock straps; clothing for babies; waterproof clothing; wax jackets, oil skins, galoshes, anoraks, wet suits; braces; hats and caps; hats and caps for children and for babies; shoes, sandals, slippers, training shoes, boots, rugby boots, ski boots; gloves, mittens and scarves; earasais; trews; stoles; costumes; fancy dress outfits; sports bags shaped to contain footwear.

Class 28:

Games; board games; automatic games other than coin-operated and those adapted for use with television receivers only; coin-operated video games; electronic game equipment; hand held electronic games and hand held units for playing electronic games other than those adapted for use with an external display screen or monitor; handheld video games; protective carrying cases specially adapted for handheld video games; controllers for games consoles; stand alone video output game machines; stand alone video game machines; electronic amusement apparatus adapted for use with liquid crystal displays; games adapted for use with dot matrix crystal displays; jigsaws; electronic games; toys and playthings; sporting articles; rugby balls; balls for sport; playing balls; footballs; mini footballs and mini rugby balls; stress balls; soft toys; teddy bears; dice; dominoes; dolls and figurines; flying discs; playing cards; toy vehicles; masks and toy masks; building blocks; marbles; mobiles; parlour games; rattles; spinning tops; darts; balloons; bath toys and toys for use in swimming pools; practical jokes (novelties); games apparatus; conjuring apparatus and instruments and magicians' sets; gymnastic and body training apparatus; body building apparatus; bar bells; dumb bells; shin guards; knee guards; elbow guards; wrist guards; leg guards; gloves for games; skateboards, roller skates; skating boots; skis; surfboards, surf skis, water skis; scooters; paragliders; fishing rods, fishing tackle and fishing bags; golf clubs, golf bags and golf accessories; bags adapted for carrying sporting articles; articles for use in golf; golf clubs, golf balls, markers for golf balls, golf bags, covers for golf clubs, head covers for clubs, tags for golf bags, golf tees, bags for golf shoes, golf tools; kites; skittles; paintball guns and paintballs; rocking horses; ornaments for Christmas trees; Christmas crackers; sleighs; bob-sleighs; automatic and coin operated amusement machines; confetti; swings, slides, climbing frames and climbing apparatus; remote control toys and playthings; animated toys and playthings; electronic toys; electronic educational toys; bath toys; safety restraints for use in sport; toy bicycles; exercise bicycles; toy tableware; playground apparatus; automatic slot machines; children's bicycles, fancy dress outfits and costumes, being children's playthings; video games apparatus; games apparatus adapted for use with television receivers; game machines, electronic amusement machines and electronic, electrical and/or mechanical amusement machines, comprising and/or adapted for use with an external display screen or monitor; body armour for the protection of various parts of the body for use in sports activities; parts and fittings for all the aforesaid goods.

Class 32:

Beer, stout, ales; mineral and aerated waters and other non-alcoholic drinks, fruit juices and fruit drinks, syrups and other preparations for making beverages; table waters and seltzer waters; vegetable juices, aperitifs non alcoholic; sports drinks; isotonic drinks; water; bottled water; flavoured water.

Class 33:

List of cases accepted for opposition purposes as shown in Journal 2026/024 published on 12 June 2026 .

Alcoholic beverages, whisky, wines, liqueurs, cocktails and spirits (beverages); aperitifs.

Class 35:

Retail services, electronic shopping retail services, retail services provided by mail order, all connected with books, home entertainment products (televisions, compact disc players, music centres, high fidelity amplifiers, receivers, speakers and stereo systems), textiles, clothing, footwear, headgear, fresh food, organic foodstuffs, organic drinks, fruits and vegetables, fresh fruits and vegetables, herbs, beers, mineral and aerated waters, sports drinks, isotonic drinks, snack foods, crisps, ready meals, sports merchandise, housewares, first aid kits, vitamin and mineral preparations, razors, safety razors, travel adaptors, travel pressure socks, travel socks, travel guides, luggage, computer games, video games, video discs, videos, DVDs, CD-ROMs, beauty products, toiletries, after-shaves, colognes, sports clothing, sports footwear, replica kit, casual wear, training wear, leisurewear, fashion wear, sunglasses, electronic organisers, personal audio, sporting articles, jewellery, golf equipment, golf accessories, badges, keyrings, tags, bag tags, balls, rugby balls, stationery, trophies, games, cameras, photographic equipment, computers, handheld computers, portable digital electronic devices; advertising, marketing and promotional services; business management services relating to sport; arranging and conducting exhibitions; agency services for promoting and management of sports and media personalities, celebrities, after dinner speakers and motivational speakers; business advice and assistance relating sports clubs and sporting facilities; consultancy, information and advisory services relating to all of the aforesaid services.

Class 38:

Telecommunications; communication services; telecommunication of information (including web pages) and any other data; radio, television and cable television and satellite broadcasting; musical broadcasting; broadcasting via wireless application protocol; broadcasting via the Internet or by other electronic means; provision of RSS feeds over the Internet; teletext services; telephone and telecommunication services; electronic mail services; provision of telecommunications access and links to computer databases and the Internet; transmission of radio and television programmes; computer aided transmission of messages and images; electronic mail; transmission of messages; facsimile services; cellular telephone communication services; electronic bulletin board services; message sending services; teleconferencing services; subscription television broadcasting; music broadcasting; broadcasting services relating to entertainment and to people; data broadcasting services; information services relating to broadcasting; providing Internet chatrooms; Internet portal services; providing access to digital music websites on the Internet; broadcasting, dissemination and transmission of visual images, audio information, graphics, data and other information, using radio, telecommunications apparatus, electronic media or the Internet; live transmissions accessible via home pages on the Internet (webcam); providing access to a computer server by way of telephone lines, cable, network connections and the Internet; news agencies; broadcasting services via the uploading, posting, playing, streaming, displaying, blogging, distribution of multimedia content, videos, images, games, audio content and information via a communication network, computer network or the Internet; webcasting services; operating weblogs (blogs); consultancy, information and advisory services relating to all of the aforesaid services.

Class 39:

Travel agency services; arranging of tours; booking agency services for travel; arranging of travel, travel courier and guide services; storage, packaging and transportation of goods by air, land and water; ticket agency (travel); consultancy, information and advisory services relating to the aforesaid services.

Class 41:

Publication of books; publication of electronic books, manuals and magazines on-line; publication of electronic journals and web logs featuring user-generated or specified content; publishing services, arranging and conducting of seminars; organisation of seminars, conferences and master classes; sporting services, organisation of sporting events and activities, recreational services; entertainment; arranging of sporting events; entertainment provided during intervals of sporting events; information relating to entertainment or sports, provided on-line from a computer database or the Internet; providing entertainment through computer networks; providing computer game software, music and/or pictures through computer networks; providing new data for computer game software through computer networks; operation of interactive electronic media entertainment facilities; provision of amusement facilities by computer online systems; provision of computer and video games, and computer and video games software via a computer database, a computer network or the internet, or interactive television; electronic games services provided by means of the Internet or via a computer based system; online games (non-downloadable); providing entertainment and sports images and videos (not downloadable) from a computer database or the Internet; sports information provided online from a computer database or the Internet; musical concerts; museum services; ticket reservation services; ticket procurement and information services for sports events; ticket agency (sports and entertainment); electronic games services provided by means of the Internet; club services; sports coaching; sports development; presentation of live performances; physical education, training (practical demonstrations), sport camp services, education relating to sports and leisure, organisation of sporting events and competitions, organisation of exhibitions, film production, provision of exhibition and museum facilities, performances, provision of stadium conference and exhibition services, rental of stadium facilities and sports apparatus; photographic services; master of ceremony services for parties and special events; entertainment services, entertainment agency services; entertainment information; hospitality services (entertainment); corporate hospitality (entertainment); fan club services; cultural activities; organisation of shows and demonstrations; practical demonstrations for educational and/or entertainment purposes; arranging and presentation of events and workshops in relation to lifestyle, sports and entertainment; arranging and organising personal appearances, demonstrations and award presentations; arranging and conducting of lectures, events, exhibitions, presentations and seminars for educational, sports and/or entertainment purposes; information relating to sports, entertainment or education provided online from a computer database or the Internet; consultancy, information and advisory services relating to all of the aforesaid services.

Class 43:

Hospitality services (food and drink); accommodation services; corporate hospitality (provision of food and drink); hospitality suites (provision of accommodation, food or drink); sporting lunches and dinners; hotel services; services for providing food and drink; temporary accommodation; catering; restaurants;

List of cases accepted for opposition purposes as shown in Journal 2026/024 published on 12 June 2026.

cafeterias; snack-bars; bistros; bars; canteens; self service restaurants; travel agency services for booking accommodation; consultancy and advisory services relating to all of the aforesaid services.

NU QUANTUM

Class 9:

Recorded and downloadable multimedia files; quantum computers; quantum computer hardware; quantum computer hardware for use in quantum error correction; quantum networking devices; quantum networking software; communication protocols for quantum computing and quantum error correction; distributed quantum computers; quantum processors; simulation software; simulation apparatus; electronic control apparatus for quantum computing, namely, qubit control apparatus and quantum stacks; scientific apparatus for outputting, receiving, splitting, transmitting and reflecting beams of light; scientific apparatus for emitting single photons; imaging apparatus; quantum dot light-emitting diodes (QLED); quantum dots, namely, crystalline semiconductor material; optical apparatus and instruments, enhancers and correctors; qubit state sensors; ion beam supply apparatus; ion trapping apparatus; measuring apparatus for quantum computing systems; quantum resonators; software for digital distributed storage; printed circuits; integrated circuits for quantum computing and quantum error correction; field programmable gate arrays [FPGA] for quantum computing and quantum error correction; system-on-chip [SOC] for quantum computing and quantum error correction; superconducting electronic circuits; optical circuits comprising input/output [I/O] ports; digital input/output [I/O] modules; electrical signalling apparatus; electric switching apparatus; data switching apparatus; decoding apparatus and instruments; hardware decoders for quantum computers; quantum error correction decoder chips; software for decoding quantum measurement data; position determining sensors; computer hardware and software for the compilation, processing, transmission and dissemination of positioning data; particle detectors; photon detectors; scientific apparatus for detecting, monitoring and manipulating particles in a quantum environment; scientific apparatus to distribute quantum entanglement; scientific apparatus for tuning, locking and stabilising the length of optical cavities; scientific apparatus and instruments relating to quantum physics; quantum computing software; software for performing quantum operations; quantum computing software for use in quantum error correction; software development kits [SDKs] for use in quantum

***List of cases accepted for opposition purposes as shown in Journal 2026/024 published on
12 June 2026 .***

computing and quantum error correction; quantum computing development software; quantum control software; software for quantum hardware integration; computer software for collecting, recording, analysing and managing data from quantum computing experiments, simulations and activities; software for quantum circuit analysis and visualization; quantum computing and quantum error correction emulators; quantum computing and quantum error correction analytical software tools; software and software platforms for identifying and assessing algorithms to perform error correction, and for identifying opportunities to use error corrected quantum computing data; quantum computing nodes; scientific, computing, electronic and optical apparatus and equipment for generating quantum entanglement between quantum units; computer software for controlling quantum units; software for optimizing quantum control sequences; software for quantum algorithm optimization; artificial intelligence, machine learning and deep learning software for quantum computing and quantum error correction; software for measuring and analysing the performance and capacity of quantum devices; computer software for use in accessing, updating, manipulating, modifying, organizing, storing, backing up, synchronizing, transmitting and sharing data, documents, files, information and multimedia content; downloadable electronic publications; recordings of images, audio, visual and audiovisual content, provided by downloading and/or streaming from the internet or other communications networks; downloadable information sheets, newsletters, teaching and training materials; downloadable electronic reports; software for education and training in quantum computing and quantum error correction; parts, fittings and accessories for all the aforesaid goods.

Class 42:

Design and development of quantum computing hardware and software; design and development of distributed quantum computers, quantum computing systems and quantum computing software platforms; design and development of quantum computing stacks; design and development of field programmable gate arrays [FPGA] chips, decoder chips and system-on-chip [SOC] for quantum computing and quantum error correction; design and development of quantum computer architecture; design of computer cluster configurations; configuration of quantum hardware systems; design and development of communication protocols for quantum computing and quantum error correction; data analysis services; design and development of systems for data input, output, processing, display and storage; design and development of computer software for use with computer-controlled switching systems; design and development of computer software for process control; design of integrated circuits; design of chips [integrated circuits]; design of integrated circuits and chips for quantum computing and quantum error correction; design and development of electronic control apparatus for quantum computing, namely, qubit control apparatus and quantum stacks; design of measurement systems; design services relating to data processors; custom design of prototypes in the field of quantum computing; custom design of quantum software; design of models; research, design, development and analysis of quantum computing environments; conducting industrial experiments; developing programs for simulating experiments or series of experiments in a virtual optical laboratory; Quantum-as-a-Service [QaaS]; Quantum-Computing-as-a-Service [QCaaS]; Platform-as-a-service [PaaS]; artificial intelligence as a service [AIaaS]; Software as a service [SaaS]; Infrastructure as a Service [IAAS]; providing Software as a Service [SAAS], Quantum as a Service [QAAS] and Quantum Computing

as a Service [QCaaS] for collecting, recording, analysing and managing data from quantum computing experiments and simulations, for identifying and assessing algorithms to perform error correction, and for identifying opportunities to use error corrected quantum computing data; quantum software integration services; quantum computing; quantum error correction services; quantum computing optimisation services; providing cloud-based access to quantum computers and quantum simulation software; cloud-based quantum computing and quantum error correction services; providing online, non-downloadable software for quantum computing and quantum error correction; providing temporary use of online non-downloadable software for accessing and using a quantum computing network; hosting of quantum computing and quantum error correction software; engineering services for quantum computing and quantum error correction systems; software analytics and validation services for quantum computing and quantum error correction; scientific, technological and industrial research and industrial analysis in the fields of quantum computing, quantum error correction, quantum technology, quantum simulation, quantum communication technology, and quantum precision measuring; research, design, development and testing of computing hardware and software relating to the entanglement of quantum units; research, design, development and testing of ion trapping apparatus; technical research in the field of optical interconnection technology; research in the field of artificial intelligence; quality control and testing of hardware and software for quantum computing and quantum error correction; performance evaluation, validation testing, benchmarking, planning and strategy services for quantum computing and quantum error correction technologies and systems; information technology services for quantum computing and quantum error correction; quantum expert consultancy services in connection with quantum computing equipment and computing networks; advice and consultancy in relation to quantum computing and quantum computing strategy; advice and consultancy in relation to quantum computing applications and quantum computer networking applications; technical, troubleshooting, advisory and diagnostic services for quantum computing and quantum error correction software; consultancy and information services relating to information technology architecture and infrastructure; provision of reports relating to quantum computing; information, advice and assistance relating to all of the aforesaid services.

Class 9:

Scientific, research, surveying, measuring, detecting, testing and inspecting apparatus and instruments; apparatus and instruments for recording, transmitting, storing, reproducing or processing data; computer software and hardware; calculating devices; storage media; computers and computer peripheral devices; data processing equipment; scientific instruments; electronic components; laboratory instruments and equipment; automated laboratory instruments and equipment; computer software, computer hardware, laboratory instruments and laboratory equipment, and robotics systems for use in computational and experimental labs; computer software, computer hardware, laboratory instruments and laboratory equipment, and robotics systems for use in automated labs; computer software, computer hardware, laboratory instruments and laboratory equipment, and robotics systems for use in conjunction with artificial intelligence, artificial intelligence models and physics-based models; downloadable and recorded software platforms; computer programmes for data processing; data and image processing software for making three dimensional models; data processing programs; data sets, recorded or downloadable; downloadable computer software for the transmission of data; recorded data files; software for the analysis of scientific data; software for the analysis of time series data; downloadable and recorded software for collecting, collating, analysing, interpreting and reporting on data; downloadable and recorded software platforms for collecting, collating, analysing, interpreting and reporting on data; computer hardware, electrodes, sensors being component parts of scientific instruments for investigating materials and molecules, optical sensors, electrochemical sensors, temperature sensors, capacitive sensors, acoustic sensors, light sensors, fluorescence sensors, flow sensors, liquid sensors, level sensors, motion sensors, position sensors, pH sensors, conductivity sensors, spectroscopy sensors, chemical phase sensors, optofluidic waveguide sensors, droplet sensors, physical state sensors, phase change sensors, pressure sensors, probes for scientific purposes, laboratory equipment being scientific instruments for investigating materials and molecules, laboratory equipment, namely, microfluidic chips, syringe pumps, pressure controllers, microvalves, micropumps, droplet generators, capillaries and tubing, manifolds and reservoirs, microscopes, spectroscopy equipment and spectrometers, centrifuges, pH meters, chromatography equipment, high-performance liquid chromatography (HPLC) equipment, gas chromatography equipment, liquid chromatography equipment, infrared spectroscopy equipment, atomic absorption spectroscopy equipment, atomic emission spectroscopy equipment, mass spectrometry equipment, laboratory equipment for testing biophysical properties, laboratory equipment for generating data readouts relating to biophysical properties of molecules and materials, electrical circuits, electronic circuits, lasers not for medical purposes, lasers for computing, lasers being component parts of scientific instruments for investigating materials and

molecules, lasers for measuring molecular properties, lasers for measuring properties of materials, lasers for creating optical readouts, and lasers for measuring olfactory and gustatory properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, optical fibers, oscilloscopes and control interfaces for computers and for scientific instruments; apparatus and instruments for recording, transmitting, storing, reproducing or processing data; computer hardware; recorded and downloadable computer software, namely software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software for use with biological computers for measuring properties of molecules and materials and characterising molecules and mixtures based on those properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses; recorded and downloadable computer software, namely, software embedded computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software for use in biocomputing for measuring properties of molecules and materials and characterising molecules and mixtures based on those properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses; recorded and downloadable computer software, namely, software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in materials science for collecting, collating, analysing and interpreting data relating to properties of molecules and materials and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses; recorded and downloadable computer software, namely software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in collecting, collating, analysing and interpreting data relating to smell, taste and touch; recorded and downloadable computer software, namely, software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in collecting, collating, analysing and interpreting data obtained from chemical and electrical inputs; recorded and downloadable computer software, namely, software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in collecting, collating, analysing and interpreting data relating to biological material; recorded and downloadable graphical user interface and dashboard computer software, namely, software for displaying data relating to molecules, materials, liquids, liquid interactions, molecular characterisation, sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, and material characterisation and software for displaying data obtained from scientific instruments; recorded and downloadable application programming interface

***List of cases accepted for opposition purposes as shown in Journal 2026/024 published on
12 June 2026 .***

(API) software and operating systems software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics ; recorded and downloadable computer platform software, namely, software for collecting, collating, analysing and interpreting data; recorded and downloadable computer software, namely, software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in collecting, collating, analysing and interpreting data from biological computers; recorded and downloadable computer software, namely, software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in testing materials and liquids; recorded and downloadable computer software, namely, software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in classification of chemicals; recorded and downloadable computer software, namely, software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in the development of foods, pharmaceuticals and materials; recorded and downloadable computer software, namely, software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in decoding, analysing and interpreting molecular behaviour; recorded and downloadable computer software, including embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in mapping complex materials; recorded and downloadable computer software, namely, software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in identifying ingredient replacement in products, new product development and contamination testing; recorded and downloadable computer software, namely, software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in detection and classification of chemicals; recorded and downloadable computer software, namely, software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in predicting the effects of chemicals and efficacy of pharmaceuticals; calculating machines; blank electronic storage media; computers and computer peripheral devices; data processing equipment; scientific instruments, namely, optical sensors, electrochemical sensors, temperature sensors, capacitive sensors, acoustic sensors, light sensors, fluorescence sensors, flow sensors, liquid sensors, level sensors, motion sensors, position sensors, pH sensors, conductivity sensors, spectroscopy sensors, chemical phase sensors, optofluidic waveguide sensors, droplet sensors, physical state sensors, phase change sensors, pressure sensors, probes for scientific purposes,, laboratory equipment, namely, microfluidic chips, syringe pumps, pressure controllers, microvalves, micropumps, droplet generators, capillaries and tubing, manifolds and reservoirs, microscopes, spectroscopy equipment and spectrometers, centrifuges, pH meters, chromatography equipment, high-performance liquid chromatography (HPLC) equipment, gas chromatography equipment, liquid chromatography equipment, infrared spectroscopy equipment, atomic absorption spectroscopy equipment, atomic emission spectroscopy equipment, mass spectrometry equipment, laboratory equipment for testing biophysical properties, laboratory equipment for generating data readouts relating to biophysical properties of molecules and materials and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, electrical circuits, electronic circuits, lasers not for medical purposes, optical fibers, oscilloscopes and control interfaces for computer hardware, biological computers, scientific instruments, liquid computers, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics, all for collecting data relating to liquids, liquid interactions and material characterisation; electronic components of computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics, namely, microfluid chips, syringe pumps, pressure controllers, microvalves, micropumps, droplet generators, capillaries and tubing, manifolds and reservoirs, microscopes, spectroscopy equipment and spectrometers, centrifuges, pH meters, chromatography equipment, high-performance liquid chromatography (HPLC) equipment, gas chromatography equipment, liquid chromatography equipment, infrared spectroscopy equipment, atomic absorption spectroscopy equipment, atomic emission spectroscopy equipment, mass

chromatography (HPLC) equipment, and robotics and standalone software, for use in molecular testing; recorded and downloadable computer software, namely, software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in identifying ingredient replacement in products, new product development and contamination testing; recorded and downloadable computer software, namely, software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in detecting and classifying of chemicals; recorded and downloadable computer software, namely, software embedded into computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics and standalone software, for use in predicting the effects of chemicals and efficacy of pharmaceuticals; calculating machines; blank electronic storage media; computers and computer peripheral devices; data processing equipment; scientific instruments, namely, optical sensors, electrochemical sensors, temperature sensors, capacitive sensors, acoustic sensors, light sensors, fluorescence sensors, flow sensors, liquid sensors, level sensors, motion sensors, position sensors, pH sensors, conductivity sensors, spectroscopy sensors, chemical phase sensors, optofluidic waveguide sensors, droplet sensors, physical state sensors, phase change sensors, pressure sensors, probes for scientific purposes,, laboratory equipment, namely, microfluidic chips, syringe pumps, pressure controllers, microvalves, micropumps, droplet generators, capillaries and tubing, manifolds and reservoirs, microscopes, spectroscopy equipment and spectrometers, centrifuges, pH meters, chromatography equipment, high-performance liquid chromatography (HPLC) equipment, gas chromatography equipment, liquid chromatography equipment, infrared spectroscopy equipment, atomic absorption spectroscopy equipment, atomic emission spectroscopy equipment, mass spectrometry equipment, laboratory equipment for testing biophysical properties, laboratory equipment for generating data readouts relating to biophysical properties of molecules and materials and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, electrical circuits, electronic circuits, lasers not for medical purposes, optical fibers, oscilloscopes and control interfaces for computer hardware, biological computers, scientific instruments, liquid computers, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics, all for collecting data relating to liquids, liquid interactions and material characterisation; electronic components of computer hardware, biological computers, liquid computers, scientific instruments, lab instruments for handling liquids, high-performance liquid chromatography (HPLC) equipment, and robotics, namely, microfluid chips, syringe pumps, pressure controllers, microvalves, micropumps, droplet generators, capillaries and tubing, manifolds and reservoirs, microscopes, spectroscopy equipment and spectrometers, centrifuges, pH meters, chromatography equipment, high-performance liquid chromatography (HPLC) equipment, gas chromatography equipment, liquid chromatography equipment, infrared spectroscopy equipment, atomic absorption spectroscopy equipment, atomic emission spectroscopy equipment, mass

***List of cases accepted for opposition purposes as shown in Journal 2026/024 published on
12 June 2026 .***

spectrometry equipment, laboratory equipment for testing biophysical properties, laboratory equipment for generating data readouts relating to biophysical properties of molecules and materials and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, all being electronic components of computer hardware, sensors, electronic laboratory equipment, electronic circuits, lasers, optical fibers, oscilloscopes and control interfaces; all of the aforesaid also for use in relation to artificial intelligence, machine learning, reservoir computing and data collection, compilation, processing and verification and data analytics.

Class 35:

Data management; data processing; data analytics services; computerised data verification; compilation of data; data collection services; electronic data processing; data processing, systematisation and management; compilation of information onto computer databases; collating of data in computer databases; collection and systematisation of information into computer databases; compilation of statistical data for use in scientific research; data management, namely, compiling information relating to biocomputing, materials science, biological material into computer databases; business data management services, namely, data processing services for the purposes of business data research and business data analysis; data management, namely, compiling information obtained from chemical, electrical and sensory inputs into computer databases; data management, namely, compiling information into computer databases relating to testing materials and liquids, classification of chemicals, development of foods, pharmaceuticals and materials, molecular behaviour, laboratory and artificial intelligence-driven research, mapping complex materials, molecular testing, ingredient replacement in products, new product development, contamination testing, data relating to smell, taste and touch, detection and classification of chemicals, and predicting the effects of chemicals and efficacy of pharmaceuticals; data processing; computerised data processing relating to biocomputing, materials science, biological material; computerised business data verification, namely, verifying the accuracy of business data; compilation of business data for business purposes; business data collection for business purposes; electronic data processing; compilation and systematisation of data relating to biocomputing, materials science, and biological material into computer databases; data processing and systematisation of business data into computer databases; data processing and systematisation into computer databases of data obtained from chemical and electrical inputs, and sensory inputs; compilation of information onto computer databases; information, advisory and consultancy services relating to all of the aforesaid.

Class 42:

Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; data mining; electronic data storage; technical data analysis; development of data programs; database design and development; programming of data processing equipment; compilation of data-processing programs; data conversion of electronic information; preparation of data processing programmes; maintenance of data processing software; design of data processing apparatus; development of data processing apparatus; testing of electronic data

processing systems; software engineering; software design; software research; software development; software creation; software customisation services; computer software rental; computer hardware development; hardware design; computer hardware rental; computer hardware design; customized design of computer hardware; providing online, non-downloadable software; providing temporary use of non-downloadable software; providing temporary use of non-downloadable computer software; providing online non-downloadable platform software; providing online, non-downloadable software for reviewing data; providing online, non-downloadable software for the analysis of scientific data; providing online, non-downloadable software for the analysis of time series data; scientific and technological services relating to biocomputing, materials science, biological material and research and design relating thereto, namely research in the fields of artificial intelligence, machine learning, reservoir computing, biocomputing, materials science and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses; scientific and technological services relating to training of machine learning models and design of computers, scientific instruments, biocomputers and liquid computers that have machine learning capacity; scientific and technological services, namely, development of molecules and chemical formulations and scientific research and design relating thereto; scientific and technological research in the field of smell and taste and research and design of new products, scientific instruments and computing systems relating thereto; scientific and technological research in the field of raw and derived data, algorithms and encoding and decoding of information, and design of new products, scientific instruments and computing systems relating thereto; scientific and technological research in the field of application in real-time processing and design of new products and computing systems relating thereto; scientific and technological research services relating to sensor fusion and research and design of new products, scientific instruments and computing systems relating thereto; scientific and technological research services relating to chemical and electrical inputs, and sensory inputs and research and design of new products, scientific instruments and computing systems relating thereto; scientific and technological research relating to testing materials and liquids, to classification of chemicals, to development of foods, pharmaceuticals and materials, to decoding, analysing and interpreting molecular behaviour, to laboratory and artificial intelligence-driven research, to mapping complex materials, to molecular testing, to ingredient replacement in products, new product development and contamination testing, to interpreting data relating to smell, taste and touch, to detection and classification of chemicals, and to predicting the effects of chemicals and efficacy of pharmaceuticals and design of new products, scientific instruments and computing systems relating thereto; technical engineering services in the nature of industrial analysis, industrial research and industrial design services; quality control for others; authentication of data relating to biocomputing, materials science, biological material; authentication of data for the purposes of training machine learning models; authentication of data obtained from chemical and electrical inputs, and sensory inputs; authentication of data relating to testing materials and liquids, to classification of chemicals, to development of foods, pharmaceuticals and materials, to decoding, analysing and interpreting molecular behaviour, to laboratory and artificial intelligence-driven research, to mapping complex materials, to molecular testing,

***List of cases accepted for opposition purposes as shown in Journal 2026/024 published on
12 June 2026 .***

to ingredient replacement in products, new product development and contamination testing, to interpreting data relating to smell, taste and touch, to detection and classification of chemicals, and to predicting the effects of chemicals and efficacy of pharmaceuticals; design and development of computer hardware and software; data mining; electronic data storage; technical data analysis relating to biocomputing, materials science, biological material; technical analysis of data obtained from chemical and electrical inputs, and sensory inputs; technical analysis of data relating to testing materials and liquids, to classification of chemicals, to development of foods, pharmaceuticals and materials, to decoding, analysing and interpreting molecular behaviour, to laboratory and artificial intelligence-driven research, to mapping complex materials, to molecular testing, to ingredient replacement in products, new product development and contamination testing, to interpreting data relating to smell, taste and touch, to detection and classification of chemicals, and to predicting the effects of chemicals and efficacy of pharmaceuticals; development of computer data programs; development of computer data programs in the nature of application programming interfaces (APIs); database design and development; programming of data processing equipment; design and providing temporary use of computer data programmes for compilation of data relating to biocomputing, materials science, biological material; design and providing temporary use of computer data programmes for compilation of data obtained from chemical and electrical inputs, and sensory inputs; design and providing temporary use of computer data programmes for compilation of data relating to testing materials and liquids, to classification of chemicals, to development of foods, pharmaceuticals and materials, to decoding, analysing and interpreting molecular behaviour, to laboratory and artificial intelligence-driven research, to mapping complex materials, to molecular testing, to ingredient replacement in products, new product development and contamination testing, to interpreting data relating to smell, taste and touch, to detection and classification of chemicals, and to predicting the effects of chemicals and efficacy of pharmaceuticals; design and providing temporary use of computer data programmes for compilation of data for the purposes of training of machine learning models; data conversion of electronic information; preparation of data processing programmes, namely, development of computer software, including software platforms, for technical data analysis relating to biocomputing, materials science, biological material; preparation of data processing programmes, namely, development of computer software for technical analysis of data obtained from chemical and electrical inputs, and sensory inputs; preparation of data processing programmes, namely, development of computer software for technical analysis relating to testing materials and liquids, to classification of chemicals, to development of foods, pharmaceuticals and materials, to decoding, analysing and interpreting molecular behaviour, to laboratory and artificial intelligence-driven research, to mapping complex materials, to molecular testing, to ingredient replacement in products, new product development and contamination testing, to interpreting data relating to smell, taste and touch, to detection and classification of chemicals, and to predicting the effects of chemicals and efficacy of pharmaceuticals; design and development of computer data processing programmes for the purposes of training of machine learning models; preparation of data processing programmes, namely, development of computer software for the development of molecules and chemical formulations, and for analysing smell and taste, for analysing raw and derived data, and

encoding and decoding of information; maintenance of data processing software; design of data processing apparatus; development of data processing apparatus, namely computer hardware design; testing of electronic data processing systems; software engineering; software design; software research; software development; software creation; software customisation services; rental of computer software, including software platforms, for collecting, collating, analysing and interpreting data in the field of artificial intelligence, machine learning, reservoir computing, biocomputing, materials science, molecular properties, material properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses; rental of computer software, including software platforms, for training of machine learning models, for analysis of data obtained from chemical and electrical inputs, and sensory inputs, for testing materials and liquids, for classification of chemicals, for development of foods, pharmaceuticals and materials, for decoding, analysing and interpreting molecular behaviour, for laboratory and artificial intelligence-driven research in the field of artificial intelligence, machine learning, reservoir computing, biocomputing, materials science, scientific instruments, molecular properties, material properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, for mapping complex materials, for molecular testing, for identifying and testing ingredient replacement in products, new product development and contamination testing, for interpreting data relating to smell, taste and touch, for detection and classification of chemicals, and for predicting the effects of chemicals and efficacy of pharmaceuticals; rental of computer software for the development of molecules and chemical formulations, for analysing smell and taste, for analysing raw and derived data in the field of biocomputing and materials science, including data relating to molecular properties, material properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, developing algorithms and encoding and decoding of information, for application in real-time processing of data in the field of biocomputing and materials science, including data relating to molecular properties, material properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, and for sensor fusion, namely the combination of information from multiple sensors; computer hardware development; computer hardware rental; computer hardware design; customized design of computer hardware; providing online, non-downloadable software, including software platforms, for data analysis relating to biocomputing, materials science, biological material; providing online, non-downloadable cloud-, web- and browser-based software for analysis of data obtained from chemical and electrical inputs, and sensory inputs, for testing materials and liquids, for classification of chemicals, for development of foods, pharmaceuticals and materials, for decoding, analysing and interpreting molecular behaviour, for laboratory and artificial intelligence-driven research in the field of artificial intelligence, machine learning, reservoir computing, scientific instruments, biocomputing and materials science, including research relating to molecular properties, material properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, for mapping complex materials, for molecular testing, for ingredient replacement in products, new product development and contamination testing, for interpreting data relating to smell,

List of cases accepted for opposition purposes as shown in Journal 2026/024 published on 12 June 2026 .

taste and touch, for detection and classification of chemicals, and for predicting the effects of chemicals and efficacy of pharmaceuticals; providing online, non-downloadable software for the development of molecules and chemical formulations, for analysing smell and taste, for analysing raw and derived data in the field of biocomputing and materials science, including data relating to molecular properties, material properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, developing algorithms and encoding and decoding of information, for application in real-time processing of data in the field of biocomputing and materials science, including data relating to molecular properties, material properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, and for sensor fusion, namely the combination of information from multiple sensors; providing online, non-downloadable software, including software platforms, for training of machine learning models, for analysis of data obtained from chemical and electrical inputs, and sensory inputs; providing online, non-downloadable software, including software platforms, for testing materials and liquids, for classification of chemicals, for development of foods, pharmaceuticals and materials, for decoding, analysing and interpreting molecular behaviour, for laboratory and artificial intelligence-driven research in the field of biocomputing and materials science, including research relating to molecular properties, material properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, for mapping complex materials, for molecular testing, for ingredient replacement in products, new product development and contamination testing, for interpreting data relating to smell, taste and touch, for detection and classification of chemicals, and for predicting the effects of chemicals and efficacy of pharmaceuticals; providing online, non-downloadable software being software platforms for testing materials and liquids, for classification of chemicals, for development of foods, pharmaceuticals and materials, for decoding, analysing and interpreting molecular behaviour, for laboratory and artificial intelligence-driven research in the field of biocomputing and materials science, for mapping complex materials, for molecular testing, for ingredient replacement in products, new product development and contamination testing, for interpreting data relating to smell, taste and touch, for detection and classification of chemicals, for analysing, interpreting, collating, processing, reporting and reviewing data related to molecular properties, material properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, and for predicting the effects of chemicals and efficacy of pharmaceuticals and application programming interfaces (APIs); providing online, non-downloadable software, including software platforms, for hosting machine learning models; providing temporary use of online non-downloadable software, including software platforms, for data analysis relating to biocomputing, materials science, biological material; providing online, non-downloadable cloud-, web- and browser-based software for analysis of data obtained from chemical and electrical inputs, and sensory inputs, for testing materials and liquids, for classification of chemicals, for development of foods, pharmaceuticals and materials, for decoding, analysing and interpreting molecular behaviour, for laboratory and artificial intelligence-driven research in the field of artificial intelligence, machine learning, reservoir computing, biocomputing, scientific instruments and materials science,

including research relating to molecular properties, material properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, for mapping complex materials, for molecular testing, for ingredient replacement in products, new product development and contamination testing, for interpreting data relating to smell, taste and touch, for detection and classification of chemicals, and for predicting the effects of chemicals and efficacy of pharmaceuticals; providing temporary use of online non-downloadable software for the development of molecules and chemical formulations, for analysing smell and taste, for analysing raw and derived data in the field of biocomputing and materials science including data relating to molecular properties, material properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, developing algorithms and encoding and decoding of information, for application in real-time processing of data in the field of biocomputing and materials science, including data relating to molecular properties, material properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, and for sensor fusion, namely the combination of information from multiple sensors; providing temporary use of online non-downloadable software, including software platforms, for training of machine learning models, for analysis of data obtained from chemical and electrical inputs, and sensory inputs; providing temporary use of online non-downloadable software, including software platforms, relating to testing materials and liquids, to classification of chemicals, to development of foods, pharmaceuticals and materials, to decoding, analysing and interpreting molecular behaviour, to laboratory and artificial intelligence-driven research in the field of artificial intelligence, machine learning, reservoir computing, biocomputing and materials science, including research relating to molecular properties, material properties and sensory classification, being the classification of materials and molecules based on how they are perceived by human senses, to mapping complex materials, to molecular testing, to ingredient replacement in products, new product development and contamination testing, to interpreting data relating to smell, taste and touch, to detection and classification of chemicals, and to predicting the effects of chemicals and efficacy of pharmaceuticals; providing temporary use of online non-downloadable software, including software platforms, for hosting machine learning models; all of the aforesaid also relating to artificial intelligence, machine learning, reservoir computing and data collection, compilation, processing and verification and data analytics; information, advisory and consultancy services in the field of artificial intelligence, machine learning, reservoir computing and scientific research and technological design and development involving data collection, compilation, processing and verification.
