KAIRODYNAMICS - KAIRO DYNAMICS

Application for a series of 2 marks.

Class 9:

Downloadable and recorded computer software; downloadable and recorded application software; downloadable mobile application software; downloadable and recorded predictive modelling software; downloadable and recorded data analysis software; downloadable and recorded diagnostic software; downloadable and recorded forecasting software; downloadable and recorded monitoring software; downloadable and recorded simulation software; downloadable and recorded decision-support software; downloadable and recorded predictive analytics software; downloadable and recorded artificial intelligence software; downloadable and recorded machine learning software; downloadable software platforms; downloadable application programming interface (API) software; downloadable software development tools; downloadable and recorded computer programs, computer algorithms and data processing software. Downloadable and recorded software for data collection, processing, structuring, integration, classification, clustering, mining, modelling, visualisation, simulation, forecasting, monitoring, anomaly detection, pattern recognition, signal detection, risk scoring, diagnostic analytics, predictive diagnostics, decision support, operational intervention support, alert generation and report generation. Downloadable and recorded software for predictive modelling, dynamic systems modelling, complex systems analysis, time-series analysis, spatial-temporal analysis, statistical modelling, computational modelling, rule-based modelling, machine learning modelling, artificial intelligence modelling, digital twin software, scenario modelling, degradation modelling, failure prediction, fault detection, trend analysis, performance analysis, adaptation analysis, fatigue analysis, recovery analysis, risk analysis and safety analysis. Downloadable and recorded software for identifying, measuring, analysing, monitoring and forecasting changes in system state, performance, reliability, stability, adaptation, deviation, drift, degradation, fatigue, load, recovery, failure susceptibility, breakdown risk, anomaly detection, fault propagation and operational intervention support in dynamic, adaptive, biological, biomechanical, physiological, behavioural, cognitive, digital, mechanical, industrial, environmental, infrastructural, transport, energy, financial, organisational and societal systems. Downloadable and recorded software for use in healthcare, clinical, bioinformatics, physiological, biomechanical, sports performance, human performance, cognitive performance, fatigue and recovery, occupational risk, behavioural analysis, transport, driver monitoring, mobility, aerospace, infrastructure, structural monitoring, energy, power grid, environmental,

climate, agricultural, industrial, manufacturing, predictive maintenance, cybersecurity, operational risk, insurance, financial, economic, workforce, education, population and media analytics. Downloadable and recorded software for processing and interpreting biometric, biomechanical, physiological, behavioural, cognitive, clinical, demographic, environmental, geospatial, satellite, sensor, telemetry, video, image, audio, text, linguistic, social media, financial, operational, network, machine, infrastructure, Internet of Things, wearable device and time-series data. Downloadable databases, datasets, data files, digital models, electronic reports and dashboards relating to predictive modelling, data analysis, diagnostics, system monitoring, dynamic systems, complex systems, risk analysis, performance analysis, degradation analysis, failure prediction, resilience analysis, fatigue analysis, recovery analysis, biomechanical analysis, environmental analysis, infrastructure analysis, operational analytics, forecasting, artificial intelligence and machine learning. Downloadable and recorded software for integration with sensors, wearable devices, cameras, Internet of Things devices, databases, cloud platforms and third-party software systems; downloadable and recorded software for generating alerts, risk scores, forecasts, recommendations, visualisations, reports and decision-support outputs relating to system state, performance, risk, deviation, fatigue, degradation, failure susceptibility, recovery, safety, operational intervention support and forecast outcomes.

Class 42:

Software as a Service (SaaS); Platform as a Service (PaaS); temporary provision of online non-downloadable software; provision of online software platforms; cloud computing services; application service provider (ASP) services featuring software; hosting of software platforms; hosting of databases; providing temporary use of online non-downloadable computer software for data analysis, predictive modelling, diagnostics, monitoring, simulation, forecasting and decision support. Scientific and technological services; scientific research; technological research; engineering research; design and development of computer software; design and development of computer algorithms; design and development of computational models; design and development of predictive models; design and development of diagnostic models; design and development of digital twin software and digital twin models; software engineering services; maintenance, updating and rental of computer software. Data analysis services; data modelling services; data interpretation services; computerised data analysis; statistical analysis services; computational analysis services; processing, interpretation and analysis of scientific, technological, operational, environmental, industrial, biomechanical, physiological, behavioural, cognitive, financial, geospatial and time-series data. Providing temporary use of online non-downloadable software for dynamic systems modelling, complex systems analysis, predictive analytics, anomaly detection, pattern recognition, signal detection, risk analysis, degradation analysis, failure prediction, fault detection, trend analysis, performance analysis, adaptation analysis, fatigue analysis, recovery analysis, resilience analysis, safety analysis, operational intervention support and scenario modelling. Providing temporary use of online non-downloadable software for identifying, measuring, monitoring, analysing and forecasting changes in system state, performance, reliability, stability, adaptation, deviation, drift, degradation, fatigue, load, recovery, failure susceptibility, breakdown risk and fault propagation in biological, biomechanical, physiological, behavioural, cognitive, digital, mechanical, industrial, environmental, infrastructural,

Electrical energy; electricity; renewable electrical energy; energy generated from renewable sources; electrical energy supplied from distributed energy resources; electrical energy supplied from battery energy storage systems.

Class 9:

Electrical energy storage apparatus; electric batteries; rechargeable batteries; lithium-ion batteries; battery packs; battery modules; battery cabinets; battery energy storage systems; home energy storage systems; portable power stations; plug-in electrical energy storage devices; modular battery energy storage systems; battery management systems; battery chargers; electric battery chargers; inverters [electricity]; bidirectional inverters; power inverters; power converters; bidirectional power converters; DC-DC converters; AC-DC converters; electric power controllers; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; electrical control apparatus; electric control devices for energy management; smart plugs; electric sockets; power meters; electricity meters; smart meters; sensors, gateways and controllers for monitoring and controlling energy use; electrical apparatus for monitoring, measuring, managing and controlling electricity consumption, electricity storage and electricity export; grid-interactive battery control apparatus; apparatus for demand response, load control and energy flexibility; apparatus for connecting, monitoring and controlling distributed energy resources; electric vehicle charging apparatus; solar energy control apparatus; solar inverters; photovoltaic inverters; downloadable computer software; downloadable mobile applications; downloadable software for monitoring, controlling, optimising, aggregating and dispatching batteries, battery energy storage systems, solar energy systems, electric vehicle chargers and electrical loads; downloadable software for virtual power plant management; downloadable software for demand response, load control, energy price optimisation, grid services, energy forecasting, electricity trading, grid congestion management, energy data analytics and distributed energy resource management.

Class 35:

Retail services, wholesale services and online retail services connected with the sale of batteries, rechargeable batteries, battery energy storage systems, energy storage apparatus, inverters, power converters, battery chargers, smart plugs, electric sockets, power meters, smart meters, energy monitoring apparatus, energy management systems, solar energy apparatus, electric vehicle charging apparatus, downloadable software and mobile applications; business management services relating to energy storage, energy flexibility, demand response, virtual power plants and distributed energy resources; business administration of energy demand response programmes, energy saving programmes, energy flexibility programmes, virtual power plant programmes and grid services programmes; business consultancy relating to energy efficiency, energy usage, energy procurement, energy demand management, electricity cost optimisation, grid capacity and distributed energy resources; arranging commercial contracts in the field of electricity, demand response, grid services, energy storage, energy flexibility and distributed energy resources; procurement services for others relating to batteries, inverters, power converters, energy storage systems, power electronics, grid connection equipment and energy infrastructure; business project management services for energy infrastructure projects, battery energy storage projects, microgrid projects, grid connection projects and data center

List of cases accepted for opposition purposes as shown in Journal 2026/026 published on 26 June 2026 .

power infrastructure projects; business management of energy infrastructure projects; business data analysis in the field of energy consumption, energy storage, electricity pricing, demand response, grid services and distributed energy resources.

Class 36:

Financial services relating to energy products, energy storage systems and energy infrastructure; financing of batteries, battery energy storage systems, inverters, power converters, electric vehicle charging apparatus, solar energy apparatus, energy management systems and distributed energy resources; financing of energy infrastructure projects; financing of virtual power plant projects; financing of microgrid projects; financing of grid connection infrastructure; financing of data center power infrastructure; project financing; infrastructure financing; asset financing; equipment financing; lease financing; hire-purchase financing; arranging finance for energy products, energy storage systems, energy infrastructure and distributed energy resource projects; arranging credit for the purchase, lease, subscription or rental of energy products; credit brokerage; financial leasing of batteries, battery energy storage systems, energy storage apparatus and energy infrastructure; financial management of energy infrastructure assets; financial administration of revenue sharing, incentive payments and savings-sharing arrangements relating to energy storage, demand response, grid services, virtual power plants and distributed energy resources; investment services relating to energy storage, energy infrastructure, virtual power plants and distributed energy resources; brokerage of electricity; brokerage of renewable energy credits; brokerage of carbon credits; financial consultancy relating to energy products, energy storage, energy infrastructure, grid services, virtual power plants and distributed energy resources.

Class 37:

Installation, commissioning, maintenance and repair of batteries, battery energy storage systems, electrical energy storage apparatus, inverters, power converters, battery chargers, smart plugs, electric sockets, power meters, smart meters, electric vehicle charging apparatus, solar energy apparatus, energy management systems and virtual power plant hardware; electric appliance installation and repair; services of electricians; installation, maintenance and repair of computer hardware for energy management systems, virtual power plant systems and distributed energy resource systems; construction, installation, commissioning, maintenance and repair of energy infrastructure; construction, installation, commissioning, maintenance and repair of electrical power infrastructure, microgrids, grid connection infrastructure, power distribution systems, switchgear, substations, battery energy storage installations and power management systems; installation, maintenance and repair of power infrastructure for data centers; building construction supervision relating to energy infrastructure, battery energy storage projects, grid connection projects, microgrid projects and data center power infrastructure projects.

Class 38:

Telecommunications services; electronic transmission of data; transmission of digital files; transmission of messages, data and information relating to energy consumption, energy storage, electricity pricing, electricity distribution, grid capacity, demand response, virtual power plants and distributed energy resources; communications by computer terminals; communications by cellular networks; communications by fibre optic networks; wireless communication services; machine-

to-machine communication services; Internet of Things [IoT] communication services; providing telecommunications connections to computer networks, cloud platforms and distributed energy resources; providing access to databases in the field of energy management, energy storage, virtual power plants, grid services and distributed energy resources; providing access to online platforms and portals for monitoring, managing and controlling batteries, energy storage systems, electric vehicle chargers, electrical loads, microgrids and energy infrastructure; data streaming services relating to energy systems and distributed energy resources; telecommunications services for remote monitoring, control and dispatch of batteries, energy storage systems and distributed energy resources; telecommunications services for communication between energy devices, cloud software, utilities, aggregators, grid operators, data centers and customers.

Class 39:

Distribution of energy; electricity distribution; distribution and supply of electricity; storage of electricity; energy storage services; electricity storage services; supply and distribution of electricity from distributed energy resources; supply and distribution of electricity from battery energy storage systems; dispatch of distributed energy resources; aggregation and dispatch of distributed energy resources for grid balancing, demand response, energy flexibility, grid congestion management and electricity distribution purposes; provision of energy capacity services; provision of electricity capacity services; energy distribution services for homes, businesses, utilities and data centers; consultancy, advisory and information services relating to energy distribution, electricity distribution, energy storage, electricity storage, grid capacity and distributed energy resources.

Class 40:

Production of energy; generation of electricity; production of renewable energy; production of renewable green energy; generation of electricity from distributed energy resources; generation of electricity from battery energy storage systems; generation of electricity for homes, businesses, utilities and data centers; custom manufacture of batteries, battery energy storage systems, inverters, power converters, energy storage apparatus, power electronics, energy management systems and energy infrastructure; consultancy, advisory and information services relating to energy production, electricity generation and renewable energy generation.

Class 42:

Software as a service [SaaS]; platform as a service [PaaS]; software as a service [SaaS] and platform as a service [PaaS] featuring software for energy management, virtual power plant operation, demand response, load control, battery optimisation, electricity price optimisation, energy forecasting, energy data analytics, grid services, grid congestion management, energy flexibility and the monitoring, control, aggregation and dispatch of distributed energy resources; providing temporary use of non-downloadable software for monitoring, controlling, optimising, aggregating and dispatching batteries, battery energy storage systems, solar energy systems, electric vehicle chargers and electrical loads; cloud-based energy management software services; design and development of computer hardware and software for energy storage, energy management, virtual power plants, demand response, grid services and distributed energy resources; engineering services in the field of energy storage, power electronics, battery energy storage systems, microgrids,

List of cases accepted for opposition purposes as shown in Journal 2026/026 published on 26 June 2026 .

virtual power plants, grid connections, grid capacity, data center power infrastructure and distributed energy resources; technical design and planning of energy infrastructure; technical design and planning of battery energy storage systems, microgrids, grid connection infrastructure and data center power infrastructure; technical project studies relating to electricity networks, grid capacity, energy storage, demand response, virtual power plants and data center power supply; energy auditing; technological consultancy relating to energy efficiency, battery systems, energy storage, power electronics, virtual power plants, grid connection, grid capacity, demand response, load control, data center energy infrastructure and distributed energy resources; electronic monitoring of batteries, energy storage systems, electrical loads, electricity consumption and distributed energy resources using computers and sensors.

Pumps [machines]; Pumps [parts of machines, engines or motors]; Speed change gears being parts of machines; Glow plugs for Diesel engines; Fuel filters for vehicle engines; Bushings [parts of machines]; Catalytic converters; Springs [parts of machines]; Electric hammers; Window closers, electric; Electric screwdrivers; Dynamos; Electricity generators; Electric generator power sets; Engine cooling radiators; Engine fuel pumps; Spark plugs for engines; Valves [parts of machines]; Taps [parts of machines, engines or motors]; Transmission shafts, other than for land vehicles; Transmission gears for machines; Transmission control mechanisms; Power transmission couplings for machines; Dispensing valves being machine parts; Carburetors; Pistons [parts of machines or engines]; Pneumatic controls for machines, motors and engines; Speed governors for machines, engines and motors; Guides for machines; Aprons [parts of machines]; Fans for machine engines; Machine pumps; Gear wheels for machines; Clutches for machines; Brakes for machines; Timing belts for machines; Mechanical seals [machine parts]; Oil filters for engines; Shock absorbers for machines; Air filters for engines; Compressors for air conditioners; Shaft couplings [machines]; couplings for machines; Ignition devices for motors of land vehicles; Fans for motors and engines; oil coolers for motors; Intake manifolds for motors; Water pumps for use in motors and engines; Timing belts for motors; Starters for motors; Turbochargers for motors; Intake manifolds for internal combustion engines; Disc brakes being parts of machines; Expansion tanks [parts of machines]; Pulleys [parts of machines]; Air pumps; Pneumatically operable valves; Ignition coils for automotive engines; machine couplings and transmission components for machines; Cooling radiators for motors and engines; Air

List of cases accepted for opposition purposes as shown in Journal 2026/026 published on 26 June 2026 .

filters for automobile engines; Water pumps for land vehicles; Oil pumps for land vehicle engines; Automobile oil pans; High-pressure pumps for washing appliances and installations; Crank shafts; Fuel filters; Lubricating installations [parts of machines]; Grease boxes [parts of machines]; Elevating apparatus; Regulators [parts of machines]; Cam chains; Cam shafts; Cowlings [parts of machines]; Pressure regulators [parts of machines]; compressors [machines]; compressors for refrigerators; Hydraulic pumps; Hydraulic Torque Wrenches; Hydraulic tools; Hydraulic accumulators being parts of machines; Cylinders being parts of machines; Hydraulic intensifiers being parts of machines; Injectors for engines; Starters for engines; Cylinder heads for engines; Oil coolers for engines; Exhaust manifold for engines; Rocker arms for engines; Oil separators; Vehicle washing installations; Superchargers; Housings [parts of machines]; Vacuum pumps; Steam/oil separators; Steam condensers [parts of machines] Cone brakes being parts of machines; Window openers, electric; Fuel pumps for motor vehicles; Expansion tanks [parts of vehicle cooling radiators]; air screwdrivers; socket spanners [machines]; power-operated socket spanners; Electronic controls for motors.

Class 8:

Spanners [hand tools]; spanners, hand-operated; Hammers [hand tools]; Screwdrivers, non-electric; Adjustable wrenches [hand tools]; Expanders [hand tools]; Woodworking wrecking bars; Pliers; socket spanners [hand tools]; Awls. .

Class 9:

Scientific, research, photographic, audiovisual, optical, weighing, measuring, signaling, detecting, testing, inspecting apparatus and instruments; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; Sensors; Sensors for use in the control of motors; Electric locks for vehicles; Testing apparatus for checking electronic devices; Touch screens; Transducers; electric actuators; Switches, electric; Electrical control panels; Cables, electric; Electric current switches; Circuit boards; Locks, electric; Coils, electric; Voltage regulators; Voltage surge protectors; Materials for electricity mains [wires, cables]; Power switches; Electronic touch sensitive switches; Electric locks; Electronic motion sensitive switches; Resistors; Electric breakers [switches]; Insulating gloves for protection against accidents; Electric relays; Acceleration sensors; Mirrors [optics]; Control panels [electricity]; Radar machines and apparatus; vehicle dipsticks; Flowmeters; Pressure sensors; Solenoid valves [electromagnetic switches]; Inverters [electricity]; Electric wire harnesses for automobiles; Electronic control units; Scanners [data processing equipment]; biometric locks; Aerials; Temperature sensors; Resonators; Liquid level sensors; Oil level sensors; Galvanic batteries; Remote control apparatus; Igniting apparatus, electric, for igniting at a distance; Rearview cameras for vehicles; Oil level indicators for vehicles; Steering apparatus, automatic, for vehicles; Optical glass; Light switches; Lighting ballasts; Current rectifiers; plug adapters; Solenoid valves; warning; signs [luminous]; Calipers; Control devices (Automatic -); Fuse; Fuse wire; Limiters [electricity]; Thermostats; Temperature switches; Humidity switches; Electric thermostats; Gloves for protection against accidents.

Class 11:

Beverage refrigerators for use in cars; Lamps; Lampshades; Drying apparatus; Pipes [parts of sanitary installations]; Heating

apparatus; Air conditioning apparatus; Filters for air conditioning coils [parts of distilling, heating or cooling installations]; Cooling appliances and installations; Fountains; Automobile lights; Radiator caps; Vehicle headlights; Defrosters for vehicles; Heating apparatus for vehicles; Ventilation [air-conditioning] installations for vehicles; Evaporators; Lamps for vehicle direction indicators.

Class 12:

Brake shoes for motor cars; Transmissions [land vehicle parts]; Interior trim for automobiles; Hoods for vehicle engines; Vehicle bonnet pins; Vehicle hood pins; Trailer hitches for vehicles; Sun-blinds adapted for automobiles; Axles for vehicles; Mudguards; Power tailgates (Am.) [parts of land vehicles]; Windscreen wipers; Rearview mirrors; Brakes for motor cars; Driving motors for land vehicles; Transmission shafts for land vehicles; Couplings for land vehicles; Motors for land vehicles; Axles for land vehicles; Gearing for land vehicles; Transmission mechanisms for land vehicles; Engine mounts for land vehicles; Reversing gears [for land vehicles]; Block brakes for land vehicles; Connecting rods for land vehicles, other than parts of motors and engines; Pneumatic or hydraulic linear actuators for land vehicles; Hydraulic torque converters for land vehicles; Caps for vehicle fuel tanks; Brake shoes for land vehicles; Fuel tanks for land vehicles; Wheel trims; Motorcycle handlebars; Fitted motorcycle covers; Air pumps [vehicle accessories]; Bumpers for automobiles; Spare tire carriers for vehicles; Vehicle windows; Automobile bodies; Body panels for vehicles; Clips adapted for fastening automobile parts to automobile bodies; Automobile chassis electronic brakes for vehicles; hydraulic control systems for vehicles; Luggage racks for motor cars; Shock absorbers for automobiles; Motor car convertible tops; Vehicle running boards; Automobile door handles; Spoilers for automobiles; Automobile dashboards; Axles and cardan shaft for motor vehicles; Clutch mechanisms for motor cars; Sun visors for automobiles; Automobile windshield sunshades; Car seats; Tow bars for trailers; Undercarriages for vehicles; Balance weights for vehicle wheels; Upholstery for vehicles; Vehicle joysticks; Brake discs for vehicles; Brake pads for vehicles; Brake blocks for vehicles; Windshields for vehicles; Vehicle covers [shaped]; Horns for vehicles; Hubs for vehicle wheels; Torsion bars for vehicles; Brake levers for vehicles; Vehicle suspension springs; caps for vehicle gas tanks; caps for vehicle petrol tanks; Brakes for vehicles; Vehicle seats; Seat covers for vehicles; Bearings [parts of vehicles]; Steering racks for vehicles; Automobile windshield wipers; Radiator grilles for vehicles; Wheel rim protectors for automobiles; Shock absorbing springs for automobiles; Belt pulleys for land vehicles; Dust shield for land vehicles; Vehicle seat covers; Anti-skid chains.

Class 16:

Vehicle bumper stickers; Decorative stickers for cars; paper wipes for cleaning. .

Class 17:

Stuffing of rubber or plastic; O-rings; Rubber sleeves for protecting parts of machines; Electrical insulating materials; electrical insulators made of rubber; adhesive sealants; caulking compounds; Threads of rubber, not for textile use; Flexible tubes, not of metal; Pipe muffers, not of metal; Sealant compounds for joints; clutch and brake lining materials, partly processed; Gaskets; non-metallic connectors for pipes; connectors, not of metal, for pipes; hose pipes made of plastic; flexible pipes, tubes and hoses, not of metal; Shock-absorbing buffers of rubber;

List of cases accepted for opposition purposes as shown in Journal 2026/026 published on 26 June 2026 .

Connecting hose for vehicle radiators; Plastic rods and bars; Waterproof packings.

Class 19:

Crash barriers, not of metal; Partitions, not of metal; Props, not of metal; Non-metallic door surrounds; Door panels, not of metal; Sills, not of metal; Laths, not of metal; Fences, not of metal. .

Class 20:

Containers, not of metal [storage, transport]; Tool chests, not of metal, empty; tool boxes, not of metal, empty; Door handles, not of metal; Latches, not of metal; tumblers, not of metal [parts of locks]; runners, not of metal, for sliding doors; Collars, not of metal, for fastening pipes; Locks, not of metal, for vehicles; Pulleys of plastics for blinds; Containers, not of metal, for storage; Sealing caps, not of metal.

Class 21:

Portable coolers, non-electric; beverage coolers [containers]; Potholders; Closures for pot lids; Watering cans; Microfiber cloths for cleaning; thermally insulated cup holders; insulating sleeve holder for beverage cups; oil cruets, not of precious metal.

Class 25:

Headgear; tops [clothing]; Gloves including those made of skin, hide or fur; Driving gloves.

Class 27:

Carpets for automobiles; Floor mats for vehicles; Non-slip mats; Floor mats. .

Class 35:

Presentation of goods on communication media, for retail purposes; Promotion of goods and services for others; Providing business information via a web site; Promoting the goods and services of others via a global computer network; Providing consumer product information; Sales management services; Marketing the goods and services of others.

**List of cases accepted for opposition purposes as shown in Journal 2026/026 published on
26 June 2026 .**

The logo for 'TRIPLE SIX' is rendered in a bold, black, stylized font. The letters are thick and blocky, with a slightly irregular, hand-drawn appearance. The 'T' and 'R' are particularly prominent, with the 'R' having a long, horizontal tail that extends to the right. The 'S' is also very large and bold, with a thick, curved shape. The 'I' and 'X' are also bold, with the 'X' having a thick, blocky structure. The overall impression is one of strength and modernity.

Class 12:

Rearview mirrors [vehicle parts]; Brake systems for vehicles; Suspension struts [vehicle parts]; Shock absorbing springs for vehicles; Tonneau covers; Ball joints [vehicle parts]; Suspension arms for cable cars; Connecting rods for land vehicles, other than parts of motors and engines; Coupling sleeves (non-electric -) [parts of engines for land vehicles]; Idler arms [vehicle parts]; Steering linkages for vehicles; Stabilizers [wheels] for use on bicycles; Axles for air suspension systems in vehicles; Storage containers adapted for use in vehicles; Motorcycle tires; Tires for vehicle wheels; Tires for land vehicles; Tyres for agricultural vehicles; Automobile tires; Tyres for trucks; Tires; Spare tire carriers for vehicles; Vehicle wheel hubs; Axles and cardan shaft for motor vehicles; Tyres for vehicle wheels; .

keep pharmaceuticals, chemical reagents and laboratory and diagnostic specimens cold; reusable and refreezable cool packs for commercial packaging use.

Class 16:

Packaging containers of paper; cardboard packaging; paperboard packaging; packaging containers, primarily made of paper, cardboard or corrugated paperboard, used to package, protect, insulate, and/or absorb impact energy to consumer and industrial goods; shipping containers, primarily made of paper, cardboard or paperboard, used to package, protect, insulate, and/or absorb impact energy to consumer and industrial goods; shipping containers, primarily made of paper, cardboard or paperboard, used to package, protect, and insulate medical, medicinal, biological, or laboratory items; packaging containers comprised of paper, cardboard or paperboard for food and beverages; paper trays for food packaging; plastic flexible packaging film sold in bulk to industrial and commercial manufacturers; insulated shipping containers of paper or cardboard; insulated shipping mailers being packaging containers of paper; laboratory consumables, namely absorbent sheets made of polymer-impregnated paper; printed scorecard of package design evaluation results; printed scorecard of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics.

Class 17:

Plastic containers of refrigerant for use with or within packaging, packaging systems, shipping containers or shipping systems; refrigerant foam bricks for use with or within packaging, packaging systems, shipping containers or shipping systems; cool packs for use with or within packaging or shipping containers; packs containing phase change material for use with or within packaging, packaging systems, shipping containers or shipping systems to control temperature; packs, containers and carriers containing phase change material for use in packaging or shipping containers to control the temperature of medicines, drugs, pharmaceuticals and bio-sensitive materials and products; heat protection barriers; heat resistant fabrics; barriers for the protection against cold; insulating material and fillers; insulating sheets, coatings, and fabrics; packing and insulating materials; non-paper packaging systems composed of plastic exterior containers, for physical and thermal protection of items during shipping; insulating polymeric shells, namely, exterior containers made of expanded polystyrene foam, polyurethane or vacuum insulated panel materials, containing phase change materials used for thermal protection of goods during shipping; packaging containers of insulating paper material; insulated polystyrene shipping containers; air cargo polystyrene shipping containers; molded foam insulated shipping containers and packaging; adhesive tapes, strips, bands and films; bags, envelopes, pouches of rubber for packaging; packing materials of rubber or plastics; packing materials for forming seals; padding of rubber or plastic.

Class 20:

Packaging containers primarily made of plastics used to package, protect, insulate, and/or absorb impact energy in consumer and industrial goods; laboratory specimen and sample shipping containers made of plastics to package, protect, insulate, and/or absorb impact energy in medical or laboratory items; insulated non-metal shipping containers for transporting food and other edibles; reusable insulated non-metal shipping containers for transporting food and other edibles; non-metal insulated shipping containers for protecting and transporting refrigerated or frozen goods and

materials; non-paper and primarily non-metal portable insulated shipping containers; non-metal medical containers for storage, transportation and maintenance of standard temperature during transport for medications, transplant organs, blood and other medical or biological items; insulated containers for packaging purposes; insulated packaging; isothermal packaging; thermal protection containers for packaging purposes; thermal protection packaging; insulated and thermal protection packaging for the commercial transportation of goods; polystyrene packaging boxes; temperature controlled packaging; temperature controlled packaging for use in the transportation and shipping of medicines, drugs, pharmaceuticals and bio-sensitive materials and products; temperature sensitive packaging; temperature sensitive packaging for the use in the transportation and shipping of medicines, drugs, pharmaceuticals and bio-sensitive materials and products, all of the aforementioned predominantly made of or containing polystyrene; packaging containers of plastic; insulated shipping containers not of metal or paper; insulated shipping mailers being packaging containers of plastic; containers for transport, not of metal; nonmetal containers for the transport of medications, transplant organs, blood and other medical or biological items; crates and pallets, non-metallic; packaging boxes in collapsible form.

Class 21:

Reusable, refreezable ice packs for use in packaging; refrigerant packs to keep food and drink cold; non-electric portable coolers; insulated containers for food or beverages; insulated carriers for food or beverages; cold packs used to keep food or drink cold; refreezable ice substitutes in packaged form, namely, cold packs used to keep food or drink cold; interior trays for use in portable coolers; interior organizers for use in portable coolers; interior dividers for portable coolers; exterior trays for portable coolers; exterior caddies for non-electric portable coolers; accessories for portable coolers; insulating sleeve holder for bottles, cans or containers; insulating sleeve holders for beverage cans; refrigerant packs for use with or within packaging, packaging systems, shipping containers or shipping systems; gel-based cool packs; refrigerant containing packs, plastic containers and foam bricks, each for use in packaging or shipping containers to control the temperature of medicines, drugs, pharmaceuticals and bio-sensitive materials and products.

Class 35:

Compilation and provision of business information in the form of scorecards of package design evaluation results; compilation and provision of business information in the form of scorecards of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics; providing information in the nature of scorecards of package design evaluation results for the purpose of selecting packaging that meets the customer's specifications; on-line retail store services connected with the sale of non-electric portable coolers, portable cooler accessories, insulated containers for food or beverages, insulated carriers for food or beverages, cold packs used to keep food or drink cold, interior trays for portable coolers, interior organizers for portable coolers, interior dividers for portable coolers, exterior trays for portable coolers, exterior caddies for non-electric portable coolers, and refreezable ice substitutes in packaged form, namely, cold packs used to keep food or drink cold.

Class 39:

Transport; packaging and storage of goods other than fuels, gases or biofuels; packaging, wrapping, storage, delivery and

List of cases accepted for opposition purposes as shown in Journal 2026/026 published on 26 June 2026 .

transportation of goods other than fuels, gases or biofuels; packaging, wrapping, storage, delivery and transportation of medical goods; packaging, wrapping, storage, delivery and transportation of pharmaceuticals; packaging, wrapping, storage, delivery and transportation of vaccines; advise and consultancy in respect of all the aforesaid services.

Class 41:

Providing temporary use of non-downloadable scorecard in the nature of reports of package design evaluation results; providing temporary use of non-downloadable scorecard in the nature of reports of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics; providing temporary use of non-downloadable electronic scorecard in the nature of reports of package design evaluation results; providing temporary use of non-downloadable electronic scorecard in the nature of reports of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics.

Class 42:

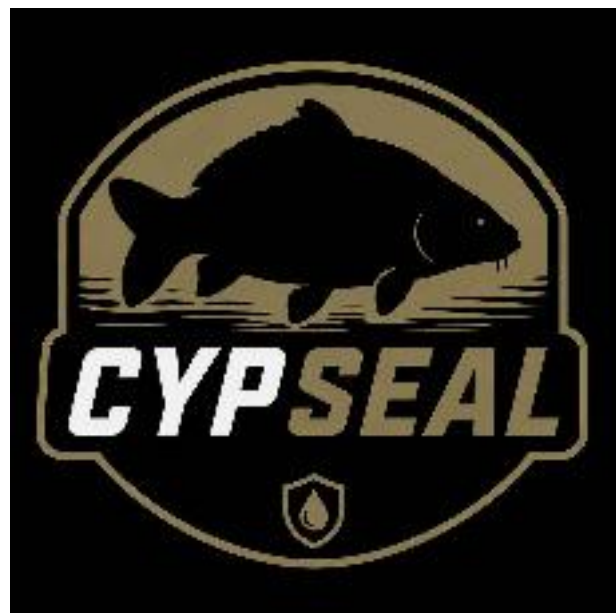

Technical research and design services relating to packaging materials for goods other than fuels, gases or biofuels; testing services for others, namely, testing the physical and thermal characteristics of containers, storage devices and shipping systems for goods other than fuels, gases or biofuels; platform as a service (PAAS) featuring computer software platforms for use in client order entry, status and report generation, improving and facilitating management of customer and vendor projects, coordination of project-based collaboration between employees, customers and vendors, and improvement of project/job workflow; packaging design for others for packaging of goods other than fuels, gases or biofuels; consulting services in the nature of quantitative evaluation of packaging design using weighted parameters in the nature of cost, performance metrics, and environmental metrics; packaging evaluation services considering parameters in the nature of cost, performance metrics, and environmental metrics; providing on-line, non-downloadable software application for quantitative evaluation of packaging design using weighted parameters in the nature of cost, performance metrics, and environmental metrics; providing a scorecard of package design evaluation results; providing a scorecard of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics; providing an electronic scorecard of package design evaluation results; providing an electronic scorecard of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics; platform as a service (PAAS) featuring computer software platforms for use in improving and facilitating management of global pharmaceutical and biological shipments utilizing temperature controlled packaging of all sizes and all transportation modes.

(1, 6, 9, 10, 11, 16, 17, 20, 21, 35, 39, 41, 42)

International priority date claimed:
03 November 2025 (UNITED STATES OF AMERICA)

Class 1:

Chemical solutions or gels for use as an ice substitute, the chemical solutions or gels contained in flexible packets, rigid plastic containers, or other carriers; phase change materials, in the nature of chemical solutions and gels, for use in controlling the temperature of items in shipping or storage containers; single-use and multiple-use packets containing a chemical solution or gel for use in controlling the temperature of items in an insulated container to keep items in the container at a selected temperature; temperature stabilizers.

Class 6:

Beverage pouches made of flexible foil; flexible metal foil packaging materials for use in the manufacture of pouches, bags and lids; insulated shipping containers of metal, excluding shipping containers for fuel, gas or biofuel; insulated shipping mailers being packaging containers of metal foil; metallized polyester envelopes containing nanoporous material for use within packaging materials.

Class 9:

Downloadable software application for quantitative evaluation of packaging design using weighted parameters in the nature of cost, performance metrics, and environmental metrics; downloadable electronic scorecard of package design evaluation results;

downloadable electronic scorecard of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics.

Class 10:

Containers adapted for transportation of medical and pharmaceutical substances, namely, shipping containers specially adapted for holding and carrying pharmaceuticals, biopharmaceuticals, human tissues and organs; thermally insulated containers made from polystyrene for use in the transportation at controlled temperatures of pharmaceuticals, biopharmaceuticals, human tissues and organs; cool packs to maintain low temperatures being component parts of shipping containers specially adapted for the transportation of pharmaceuticals, biopharmaceuticals, human tissues and organs; refrigerant packs to keep pharmaceuticals, chemical reagents and laboratory and diagnostic specimens cold; ice bags for medical use; medical ice packs; non-medicated hot and cold compresses for therapeutic purposes.

Class 11:

Temperature-controlled portable insulated shipping containers and mailers; reusable temperature-controlled portable insulated shipping containers; temperature-controlled thermal packaging systems for shipping or transporting goods featuring insulated containers and one or more refrigerants; temperature-controlled portable insulated shipping containers for use in shipping pharmaceuticals, or biologics; containers for storage, transportation and maintenance of temperature during transport for transplant organs, tissues, medications, blood and other medical or biological items; thermal management systems for transporting transplant organs, tissues, medications, blood and other medical or biological items requiring temperature maintenance within specific ranges during transport, the thermal management systems composed of exterior containers in the nature of paper or plastic, and interior refrigerants; thermal management system composed of paper or plastic packaging materials, phase change materials, and vacuum insulated panels for transporting transplant organs, tissues, medications, blood and other medical items requiring stable temperatures during transport; temperature-controlled portable non-metal insulated shipping containers that contain vacuum insulation panels for controlling the temperature of pharmaceuticals, biologics, or perishable food during transport; temperature-controlled portable insulated shipping containers for use in shipping perishable food; reusable temperature controlled-portable insulated shipping containers for use in shipping perishable food; phase change materials, namely, chemical compositions for use in controlling temperature sold as an integral component of temperature-controlled portable insulated shipping containers; reusable and refreezable cool packs to keep pharmaceuticals, chemical reagents and laboratory and diagnostic specimens cold; reusable and refreezable cool packs for commercial packaging use.

Class 16:

Packaging containers of paper; cardboard packaging; paperboard packaging; packaging containers, primarily made of paper, cardboard or corrugated paperboard, used to package, protect, insulate, and/or absorb impact energy to consumer and industrial goods; shipping containers, primarily made of paper, cardboard or paperboard, used to package, protect, insulate, and/or absorb impact energy to consumer and industrial goods; shipping containers, primarily made of paper, cardboard or paperboard, used to package, protect, and insulate medical, medicinal, biological, or laboratory items; packaging

***List of cases accepted for opposition purposes as shown in Journal 2026/026 published on
26 June 2026 .***

containers comprised of paper, cardboard or paperboard for food and beverages; paper trays for food packaging; plastic flexible packaging film sold in bulk to industrial and commercial manufacturers; insulated shipping containers of paper or cardboard; insulated shipping mailers being packaging containers of paper; laboratory consumables, namely absorbent sheets made of polymer-impregnated paper; printed scorecard of package design evaluation results; printed scorecard of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics.

Class 17:

Plastic containers of refrigerant for use with or within packaging, packaging systems, shipping containers or shipping systems; refrigerant foam bricks for use with or within packaging, packaging systems, shipping containers or shipping systems; cool packs for use with or within packaging or shipping containers; packs containing phase change material for use with or within packaging, packaging systems, shipping containers or shipping systems to control temperature; packs, containers and carriers containing phase change material for use in packaging or shipping containers to control the temperature of medicines, drugs, pharmaceuticals and bio-sensitive materials and products; heat protection barriers; heat resistant fabrics; barriers for the protection against cold; insulating material and fillers; insulating sheets, coatings, and fabrics; packing and insulating materials; non-paper packaging systems composed of plastic exterior containers, for physical and thermal protection of items during shipping; insulating polymeric shells, namely, exterior containers made of expanded polystyrene foam, polyurethane or vacuum insulated panel materials, containing phase change materials used for thermal protection of goods during shipping; packaging containers of insulating paper material; insulated polystyrene shipping containers; air cargo polystyrene shipping containers; molded foam insulated shipping containers and packaging; adhesive tapes, strips, bands and films; bags, envelopes, pouches of rubber for packaging; packing materials of rubber or plastics; packing materials for forming seals; padding of rubber or plastic.

Class 20:

Packaging containers primarily made of plastics used to package, protect, insulate, and/or absorb impact energy to consumer and industrial goods; laboratory specimen and sample shipping containers made of plastics to package, protect, insulate, and/or absorb impact energy to medical or laboratory items; insulated non-metal shipping containers for transporting food and other edibles; reusable insulated non-metal shipping containers for transporting food and other edibles; non-metal insulated shipping containers for protecting and transporting refrigerated or frozen goods and materials; non-paper and primarily non-metal portable insulated shipping containers; non-metal medical containers for storage, transportation and maintenance of standard temperature during transport for medications, transplant organs, blood and other medical or biological items; insulated containers for packaging purposes; insulated packaging; isothermal packaging; thermal protection containers for packaging purposes; thermal protection packaging; insulated and thermal protection packaging for the commercial transportation of goods; polystyrene packaging boxes; temperature controlled packaging; temperature controlled packaging for use in the transportation and shipping of medicines, drugs, pharmaceuticals and bio-sensitive materials and products; temperature sensitive packaging; temperature sensitive packaging for the use in the transportation and shipping of medicines, drugs, pharmaceuticals and bio-sensitive

materials and products, all of the aforementioned predominantly made of or containing polystyrene; packaging containers of plastic; insulated shipping containers not of metal or paper; insulated shipping mailers being packaging containers of plastic; containers for transport, not of metal; nonmetal containers for the transport of medications, transplant organs, blood and other medical or biological items; crates and pallets, non-metallic; packaging boxes in collapsible form.

Class 21:

Reusable, refreezable ice packs for use in packaging; refrigerant packs to keep food and drink cold; non-electric portable coolers; insulated containers for food or beverages; insulated carriers for food or beverages; cold packs used to keep food or drink cold; refreezable ice substitutes in packaged form, namely, cold packs used to keep food or drink cold; interior trays for use in portable coolers; interior organizers for use in portable coolers; interior dividers for portable coolers; exterior trays for portable coolers; exterior caddies for non-electric portable coolers; accessories for portable coolers; insulating sleeve holder for bottles, cans or containers; insulating sleeve holders for beverage cans; refrigerant packs for use with or within packaging, packaging systems, shipping containers or shipping systems; gel-based cool packs; refrigerant containing packs, plastic containers and foam bricks, each for use in packaging or shipping containers to control the temperature of medicines, drugs, pharmaceuticals and bio-sensitive materials and products.

Class 35:

Compilation and provision of business information in the form of scorecards of package design evaluation results; compilation and provision of business information in the form of scorecards of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics; providing information in the nature of scorecards of package design evaluation results for the purpose of selecting packaging that meets the customer's specifications; on-line retail store services connected with the sale of non-electric portable coolers, portable cooler accessories, insulated containers for food or beverages, insulated carriers for food or beverages, cold packs used to keep food or drink cold, interior trays for portable coolers, interior organizers for portable coolers, interior dividers for portable coolers, exterior trays for portable coolers, exterior caddies for non-electric portable coolers, and refreezable ice substitutes in packaged form, namely, cold packs used to keep food or drink cold.

Class 39:

Transport; packaging and storage of goods other than fuels, gases or biofuels; packaging, wrapping, storage, delivery and transportation of goods other than fuels, gases or biofuels; packaging, wrapping, storage, delivery and transportation of medical goods; packaging, wrapping, storage, delivery and transportation of pharmaceuticals; packaging, wrapping, storage, delivery and transportation of vaccines; advise and consultancy in respect of all the aforesaid services.

Class 41:

Providing temporary use of non-downloadable scorecard in the nature of reports of package design evaluation results; providing temporary use of non-downloadable scorecard in the nature of reports of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics; providing temporary use of non-downloadable electronic scorecard in the nature of reports of

List of cases accepted for opposition purposes as shown in Journal 2026/026 published on 26 June 2026 .

package design evaluation results; providing temporary use of non-downloadable electronic scorecard in the nature of reports of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics.

Class 42:

Technical research and design services relating to packaging materials for goods other than fuels, gases or biofuels; testing services for others, namely, testing the physical and thermal characteristics of containers, storage devices and shipping systems for goods other than fuels, gases or biofuels; platform as a service (PAAS) featuring computer software platforms for use in client order entry, status and report generation, improving and facilitating management of customer and vendor projects, coordination of project-based collaboration between employees, customers and vendors, and improvement of project/job workflow; packaging design for others for packaging of goods other than fuels, gases or biofuels; consulting services in the nature of quantitative evaluation of packaging design using weighted parameters in the nature of cost, performance metrics, and environmental metrics; packaging evaluation services considering parameters in the nature of cost, performance metrics, and environmental metrics; providing on-line, non-downloadable software application for quantitative evaluation of packaging design using weighted parameters in the nature of cost, performance metrics, and environmental metrics; providing a scorecard of package design evaluation results; providing a scorecard of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics; providing an electronic scorecard of package design evaluation results; providing an electronic scorecard of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics; platform as a service (PAAS) featuring computer software platforms for use in improving and facilitating management of global pharmaceutical and biological shipments utilizing temperature controlled packaging of all sizes and all transportation modes.

Class 17:

Plastic containers of refrigerant for use with or within packaging, packaging systems, shipping containers or shipping systems; refrigerant foam bricks for use with or within packaging, packaging systems, shipping containers or shipping systems; cool packs for use with or within packaging or shipping containers; packs containing phase change material for use with or within packaging, packaging systems, shipping containers or shipping systems to control temperature; packs, containers and carriers containing phase change material for use in packaging or shipping containers to control the temperature of medicines, drugs, pharmaceuticals and bio-sensitive materials and products; heat protection barriers; heat resistant fabrics; barriers for the protection against cold; insulating material and fillers; insulating sheets, coatings, and fabrics; packing and insulating materials; non-paper packaging systems composed of plastic exterior containers, for physical and thermal protection of items during shipping; insulating polymeric shells, namely, exterior containers made of expanded polystyrene foam, polyurethane or vacuum insulated panel materials, containing phase change materials used for thermal protection of goods during shipping; packaging containers of insulating paper material; insulated polystyrene shipping containers; air cargo polystyrene shipping containers; molded foam insulated shipping containers and packaging; adhesive tapes, strips, bands and films; bags, envelopes, pouches of rubber for packaging; packing materials of rubber or plastics; packing materials for forming seals; padding of rubber or plastic.

Class 20:

Packaging containers primarily made of plastics used to package, protect, insulate, and/or absorb impact energy to consumer and industrial goods; laboratory specimen and sample shipping containers made of plastics to package, protect, insulate, and/or absorb impact energy to medical or laboratory items; insulated non-metal shipping containers for transporting food and other edibles; reusable insulated non-metal shipping containers for transporting food and other edibles; non-metal insulated shipping containers for protecting and transporting refrigerated or frozen goods and materials; non-paper and primarily non-metal portable insulated shipping containers; non-metal medical containers for storage, transportation and maintenance of standard temperature during transport for medications, transplant organs, blood and other medical or biological items; insulated containers for packaging purposes; insulated packaging; isothermal packaging; thermal protection containers for packaging purposes; thermal protection packaging; insulated and thermal protection packaging for the commercial transportation of goods; polystyrene packaging boxes; temperature controlled packaging; temperature controlled packaging for use in the transportation and shipping of medicines, drugs, pharmaceuticals and bio-sensitive materials and products; temperature sensitive packaging; temperature sensitive packaging for the use in the transportation and shipping of medicines, drugs, pharmaceuticals and bio-sensitive materials and products, all of the aforementioned predominantly made of or containing polystyrene; packaging containers of plastic; insulated shipping containers not of metal or paper; insulated shipping mailers being packaging containers of plastic; containers for transport, not of metal; nonmetal containers for the transport of medications, transplant organs, blood and other medical or biological items; crates and pallets, non-metallic; packaging boxes in collapsible form.

Class 21:

Reusable, refreezable ice packs for use in packaging; refrigerant packs to keep food and drink cold; portable coolers; non-electric portable coolers; insulated containers for food or beverages; insulated carriers for food or beverages; cold packs used to keep food or drink cold; refreezable ice substitutes in packaged form, namely, cold packs used to keep food or drink cold; interior trays for use in portable coolers; interior organizers for use in portable coolers; interior dividers for portable coolers; exterior trays for portable coolers; exterior caddies for non-electric portable coolers; accessories for portable coolers; insulating sleeve holder for bottles, cans or containers; insulating sleeve holders for beverage cans; refrigerant packs for use with or within packaging, packaging systems, shipping containers or shipping systems; gel-based cool packs; refrigerant containing packs, plastic containers and foam bricks, each for use in packaging or shipping containers to control the temperature of medicines, drugs, pharmaceuticals and bio-sensitive materials and products.

Class 35:

Compilation and provision of business information in the form of scorecards of package design evaluation results; compilation and provision of business information in the form of scorecards of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics; providing information in the nature of scorecards of package design evaluation results for the purpose of selecting packaging that meets the customer's specifications; on-line retail store services connected with the sale of non-electric portable coolers, portable cooler accessories, insulated containers for food or beverages, insulated carriers for food or beverages, cold packs used to keep food or drink cold, interior trays for portable coolers, interior organizers for portable coolers, interior dividers for portable coolers, exterior trays for portable coolers, exterior caddies for non-electric portable coolers, and refreezable ice substitutes in packaged form, namely, cold packs used to keep food or drink cold.

Class 39:

Transport; packaging and storage of goods; packaging, wrapping, storage, delivery and transportation of goods; packaging, wrapping, storage, delivery and transportation of medical goods; packaging, wrapping, storage, delivery and transportation of pharmaceuticals; packaging, wrapping, storage, delivery and transportation of vaccines; advise and consultancy in respect of all the aforesaid services.

Class 41:

Providing temporary use of non-downloadable scorecard in the nature of reports of package design evaluation results; providing temporary use of non-downloadable scorecard in the nature of reports of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics; providing temporary use of non-downloadable electronic scorecard in the nature of reports of package design evaluation results; providing temporary use of non-downloadable electronic scorecard in the nature of reports of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics.

Class 42:

Technical research and design services relating to packaging materials; testing services for others, namely, testing the physical and thermal characteristics of containers, storage devices and shipping systems; platform as a service (PAAS) featuring

***List of cases accepted for opposition purposes as shown in Journal 2026/026 published on
26 June 2026 .***

computer software platforms for use in client order entry, status and report generation, improving and facilitating management of customer and vendor projects, coordination of project-based collaboration between employees, customers and vendors, and improvement of project/job workflow; packaging design for others; consulting services in the nature of quantitative evaluation of packaging design using weighted parameters in the nature of cost, performance metrics, and environmental metrics; packaging evaluation services considering parameters in the nature of cost, performance metrics, and environmental metrics; providing on-line, non-downloadable software application for quantitative evaluation of packaging design using weighted parameters in the nature of cost, performance metrics, and environmental metrics; providing a scorecard of package design evaluation results; providing a scorecard of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics; providing an electronic scorecard of package design evaluation results; providing an electronic scorecard of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics; platform as a service (PAAS) featuring computer software platforms for use in improving and facilitating management of global pharmaceutical and biological shipments utilizing temperature controlled packaging of all sizes and all transportation modes.

EVERY DEGREE MATTERS

International priority date claimed:

05 November 2025 (UNITED STATES OF AMERICA)

Class 1:

Chemical solutions or gels for use as an ice substitute, the chemical solutions or gels contained in flexible packets, rigid plastic containers, or other carriers; phase change materials, in the nature of chemical solutions and gels, for use in controlling the temperature of items in shipping or storage containers; single-use and multiple-use packets containing a chemical solution or gel for use in controlling the temperature of items in an insulated container to keep items in the container at a selected temperature; temperature stabilizers.

Class 6:

Beverage pouches made of flexible foil; flexible metal foil packaging materials for use in the manufacture of pouches, bags and lids; insulated shipping containers of metal; insulated shipping mailers being packaging containers of metal foil; metallized polyester envelopes containing nanoporous material for use within packaging materials.

Class 9:

Downloadable software application for quantitative evaluation of packaging design using weighted parameters in the nature of cost, performance metrics, and environmental metrics; downloadable electronic scorecard of package design evaluation results; downloadable electronic scorecard of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics.

Class 10:

Containers adapted for transportation of medical and pharmaceutical substances, namely, shipping containers specially adapted for holding and carrying pharmaceuticals, biopharmaceuticals, human tissues and organs; thermally insulated containers made from polystyrene for use in the transportation at controlled temperatures of pharmaceuticals, biopharmaceuticals, human tissues and organs; cool packs to maintain low temperatures being component parts of shipping containers specially adapted for the transportation of pharmaceuticals, biopharmaceuticals, human tissues and organs; refrigerant packs to keep pharmaceuticals, chemical reagents and laboratory and diagnostic specimens cold; ice bags for medical use; medical ice packs; non-medicated hot and cold compresses for therapeutic purposes.

Class 11:

Temperature-controlled portable insulated shipping containers and mailers; reusable temperature-controlled portable insulated shipping containers and mailers; temperature-controlled thermal packaging systems for shipping or transporting goods featuring insulated containers and one or more refrigerants; temperature-controlled portable insulated shipping containers for use in shipping pharmaceuticals, or biologics; containers for storage, transportation and maintenance of temperature during transport for transplant organs, tissues, medications, blood and other medical or biological items; thermal management systems for transporting transplant organs, tissues, medications, blood and other medical or biological items requiring temperature

List of cases accepted for opposition purposes as shown in Journal 2026/026 published on 26 June 2026 .

maintenance within specific ranges during transport, the thermal management systems composed of exterior containers in the nature of paper or plastic, and interior refrigerants; thermal management system composed of paper or plastic packaging materials, phase change materials, and vacuum insulated panels for transporting transplant organs, tissues, medications, blood and other medical items requiring stable temperatures during transport; temperature-controlled portable non-metal insulated shipping containers that contain vacuum insulation panels for controlling the temperature of pharmaceuticals, biologics, or perishable food during transport; temperature-controlled portable insulated shipping containers for use in shipping perishable food; reusable temperature controlled-portable insulated shipping containers for use in shipping perishable food; phase change materials, namely, chemical compositions for use in controlling temperature sold as an integral component of temperature-controlled portable insulated shipping containers; reusable and refreezable cool packs to keep pharmaceuticals, chemical reagents and laboratory and diagnostic specimens cold; reusable and refreezable cool packs for commercial packaging use.

Class 16:

Packaging containers of paper; cardboard packaging; paperboard packaging; packaging containers, primarily made of paper, cardboard or corrugated paperboard, used to package, protect, insulate, and/or absorb impact energy to consumer and industrial goods; shipping containers, primarily made of paper, cardboard or paperboard, used to package, protect, insulate, and/or absorb impact energy to consumer and industrial goods; shipping containers, primarily made of paper, cardboard or paperboard, used to package, protect, and insulate medical, medicinal, biological, or laboratory items; packaging containers comprised of paper, cardboard or paperboard for food and beverages; paper trays for food packaging; plastic flexible packaging film sold in bulk to industrial and commercial manufacturers; insulated shipping containers of paper or cardboard; insulated shipping mailers being packaging containers of paper; laboratory consumables, namely absorbent sheets made of polymer-impregnated paper; printed scorecard of package design evaluation results; printed scorecard of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics.

Class 17:

Plastic containers of refrigerant for use with or within packaging, packaging systems, shipping containers or shipping systems; refrigerant foam bricks for use with or within packaging, packaging systems, shipping containers or shipping systems; cool packs for use with or within packaging or shipping containers; packs containing phase change material for use with or within packaging, packaging systems, shipping containers or shipping systems to control temperature; packs, containers and carriers containing phase change material for use in packaging or shipping containers to control the temperature of medicines, drugs, pharmaceuticals and bio-sensitive materials and products; heat protection barriers; heat resistant fabrics; barriers for the protection against cold; insulating material and fillers; insulating sheets, coatings, and fabrics; packing and insulating materials; non-paper packaging systems composed of plastic exterior containers, for physical and thermal protection of items during shipping; insulating polymeric shells, namely, exterior containers made of expanded polystyrene foam, polyurethane or vacuum insulated panel materials, containing phase change materials used for thermal protection of goods during shipping; packaging containers of insulating paper material; insulated polystyrene

shipping containers; air cargo polystyrene shipping containers; molded foam insulated shipping containers and packaging; adhesive tapes, strips, bands and films; bags, envelopes, pouches of rubber for packaging; packing materials of rubber or plastics; packing materials for forming seals; padding of rubber or plastic.

Class 20:

Packaging containers primarily made of plastics used to package, protect, insulate, and/or absorb impact energy to consumer and industrial goods; laboratory specimen and sample shipping containers made of plastics to package, protect, insulate, and/or absorb impact energy to medical or laboratory items; insulated non-metal shipping containers for transporting food and other edibles; reusable insulated non-metal shipping containers for transporting food and other edibles; non-metal insulated shipping containers for protecting and transporting refrigerated or frozen goods and materials; non-paper and primarily non-metal portable insulated shipping containers; non-metal medical containers for storage, transportation and maintenance of standard temperature during transport for medications, transplant organs, blood and other medical or biological items; insulated containers for packaging purposes; insulated packaging; isothermal packaging; thermal protection containers for packaging purposes; thermal protection packaging; insulated and thermal protection packaging for the commercial transportation of goods; polystyrene packaging boxes; temperature controlled packaging; temperature controlled packaging for use in the transportation and shipping of medicines, drugs, pharmaceuticals and bio-sensitive materials and products; temperature sensitive packaging; temperature sensitive packaging for the use in the transportation and shipping of medicines, drugs, pharmaceuticals and bio-sensitive materials and products, all of the aforementioned predominantly made of or containing polystyrene; packaging containers of plastic; insulated shipping containers not of metal or paper; insulated shipping mailers being packaging containers of plastic; containers for transport, not of metal; nonmetal containers for the transport of medications, transplant organs, blood and other medical or biological items; crates and pallets, non-metallic; packaging boxes in collapsible form.

Class 21:

Reusable, refreezable ice packs for use in packaging; refrigerant packs to keep food and drink cold; portable coolers; non-electric portable coolers; insulated containers for food or beverages; insulated carriers for food or beverages; cold packs used to keep food or drink cold; refreezable ice substitutes in packaged form, namely, cold packs used to keep food or drink cold; interior trays for use in portable coolers; interior organizers for use in portable coolers; interior dividers for portable coolers; exterior trays for portable coolers; exterior caddies for non-electric portable coolers; accessories for portable coolers; insulating sleeve holder for bottles, cans or containers; insulating sleeve holders for beverage cans; refrigerant packs for use with or within packaging, packaging systems, shipping containers or shipping systems; gel-based cool packs; refrigerant containing packs, plastic containers and foam bricks, each for use in packaging or shipping containers to control the temperature of medicines, drugs, pharmaceuticals and bio-sensitive materials and products.

Class 35:

Compilation and provision of business information in the form of scorecards of package design evaluation results; compilation and provision of business information in the form of scorecards of package design evaluation results based on weighted parameters

List of cases accepted for opposition purposes as shown in Journal 2026/026 published on 26 June 2026 .

in the nature of cost, performance metrics, and environmental metrics; providing information in the nature of scorecards of package design evaluation results for the purpose of selecting packaging that meets the customer's specifications; on-line retail store services connected with the sale of non-electric portable coolers, portable cooler accessories, insulated containers for food or beverages, insulated carriers for food or beverages, cold packs used to keep food or drink cold, interior trays for portable coolers, interior organizers for portable coolers, interior dividers for portable coolers, exterior trays for portable coolers, exterior caddies for non-electric portable coolers, and refreezable ice substitutes in packaged form, namely, cold packs used to keep food or drink cold.

Class 39:

Transport; packaging and storage of goods; packaging, wrapping, storage, delivery and transportation of goods; packaging, wrapping, storage, delivery and transportation of medical goods; packaging, wrapping, storage, delivery and transportation of pharmaceuticals; packaging, wrapping, storage, delivery and transportation of vaccines; advise and consultancy in respect of all the aforesaid services.

Class 41:

Providing temporary use of non-downloadable scorecard in the nature of reports of package design evaluation results; providing temporary use of non-downloadable scorecard in the nature of reports of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics; providing temporary use of non-downloadable electronic scorecard in the nature of reports of package design evaluation results; providing temporary use of non-downloadable electronic scorecard in the nature of reports of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics.

Class 42:

Technical research and design services relating to packaging materials; testing services for others, namely, testing the physical and thermal characteristics of containers, storage devices and shipping systems; platform as a service (PAAS) featuring computer software platforms for use in client order entry, status and report generation, improving and facilitating management of customer and vendor projects, coordination of project-based collaboration between employees, customers and vendors, and improvement of project/job workflow; packaging design for others; consulting services in the nature of quantitative evaluation of packaging design using weighted parameters in the nature of cost, performance metrics, and environmental metrics; packaging evaluation services considering parameters in the nature of cost, performance metrics, and environmental metrics; providing on-line, non-downloadable software application for quantitative evaluation of packaging design using weighted parameters in the nature of cost, performance metrics, and environmental metrics; providing a scorecard of package design evaluation results; providing a scorecard of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics; providing an electronic scorecard of package design evaluation results; providing an electronic scorecard of package design evaluation results based on weighted parameters in the nature of cost, performance metrics, and environmental metrics; platform as a service (PAAS) featuring computer software platforms for use in improving and facilitating management of global pharmaceutical and biological

shipments utilizing temperature controlled packaging of all sizes and all transportation modes.
