maintenance of chemical and electrochemical reactors; repair of industrial waste treatment machines; repair and maintenance of water purifying apparatus; installation, assembly [installation], repair and maintenance of water and waste water purifying apparatus and machines as well as purification installations for sewage, soil, sediments, air and sludge; repair of air filtering apparatus.

Class 40:

Chemical decontamination services; electrochemical decontamination services; land decontamination; decontamination of hazardous materials; decontamination of contaminated soil; decontamination of contaminated water; decontamination of contaminated waste; decontamination of contaminated waste water; decontamination of contaminated sediments; decontamination of contaminated air; decontamination of contaminated sludge; water treatment services; water treatment and purification; environmental remediation services, namely, treatment of soil, waste and water; environmental remediation services, namely, treatment of water, soil, sediments, air and sludge to reduce the concentration of chemicals, toxic substances, contaminants, chemicals, forever chemicals, compounds falling under the stockholm convention, fluorinated organic compounds, per- and polyfluorinated organic compounds, per- and polyfluoro alkyl substances, mixed per-/poly-fluoro-/halo-substances, pharmaceuticals, antibiotics, pesticides, flame-retardants, poly-chloro-dibenzodioxines, poly-chloro-dibenzodifurans, poly-cyclic-aromatic compounds, and transformer oils; all aforesaid services using chemical means, electrochemical means, biochemical means, plasma treatment, sonication treatment, ultrasonic treatment, hydrodynamic cavitation, bio remediation means, super critical water oxidation, hydrothermal alkaline treatment, photochemical means, photocatalytic means, UV irradiation, ozone treatment, incineration, and pyrolysis; consulting in the field of water treatment; rental of chemical and electrochemical reactors for the treatment of waste material; rental of chemical and electrochemical reactors for decomposing chemicals, toxic substances, contaminants, forever chemicals, compounds falling under the stockholm convention, fluorinated organic compounds, per- and polyfluorinated organic compounds, per- and polyfluoro alkyl substances, mixed per-/poly-fluoro-/halo-substances, pharmaceuticals, antibiotics, pesticides, flame-retardants, poly-chloro-dibenzodioxines, poly-chloro-dibenzodifurans, poly-cyclic-aromatic compounds, and transformer oils; rental of chemical and electrochemical reactors for reducing the concentration of chemicals, toxic substances, contaminants, forever chemicals, compounds falling under the stockholm convention, fluorinated organic compounds, per- and polyfluorinated organic compounds, per- and polyfluoro alkyl substances, mixed per-/poly-fluoro-/halo-substances, pharmaceuticals, antibiotics, pesticides, flame-retardants, poly-chloro-dibenzodioxines, poly-chloro-dibenzodifurans, poly-cyclic-aromatic compounds, and transformer oils.

Class 42:

Engineering services; natural science services; chemist's services, in particular development of alternatives to toxic substances, contaminants, forever chemicals, compounds falling under the stockholm convention, fluorinated organic compounds, per- and polyfluorinated organic compounds, per- and polyfluoro alkyl substances, mixed per-/poly-fluoro-/halo-substances, pharmaceuticals, antibiotics, pesticides, flame-retardants, poly-chloro-dibenzodioxines, poly-chloro-dibenzodifurans, poly-cyclic-aromatic compounds, and transformer oils.

flame-retardants, poly-chloro-dibenzodioxines, poly-chloro-dibenzodifurans, poly-cyclic-aromatic compounds, and transformer oils; chemical research; chemical analysis; chemical technological research; chemical laboratory services; chemical analytical examinations; testing of chemicals; engineering consulting services, in particular related to the remediation of toxic substances, contaminants, chemicals, forever chemicals, compounds falling under the stockholm convention, fluorinated organic compounds, per- and polyfluorinated organic compounds, per- and polyfluoro alkyl substances, per-/poly-fluoro-/halo-substances, pharmaceuticals, antibiotics, pesticides, flame-retardants, poly-chloro-dibenzodioxines, poly-chloro-dibenzodifurans, poly-cyclic-aromatic compounds, and transformer oils in groundwater, drinking water, wastewater, surface water, soil, sediments, air and sludge; industrial analysis and research services in the fields of groundwater, drinking water, wastewater, surface water, soil, sediments, air and sludge; industrial analysis regarding the content of, toxic substances, contaminants, chemicals, forever chemicals, compounds falling under the stockholm convention, fluorinated organic compounds, per- and polyfluorinated organic compounds, per- and polyfluoro alkyl substances, per-/poly-fluoro-/halo-substances, pharmaceuticals, antibiotics, pesticides, flame-retardants, poly-chloro-dibenzodioxines, poly-chloro-dibenzodifurans, poly-cyclic-aromatic compounds, and transformer oils in groundwater, drinking water, wastewater, surface water, soil, sediments, air and sludge in groundwater, drinking water, wastewater, surface water, soil, sediments, air, sludge, air, food, beverages, blood samples, and products, in particular in electronics, toys, cosmetics, lubricants, food packaging, textiles; certification, in particular, quality control for others; quality testing of products for certification purposes; testing, analysis and evaluation of the goods of others for the purpose of evaluating levels of contaminants in the goods of others; testing, analysis and evaluation of the services of others for the purpose of evaluating levels of contaminants produced by the services of others; sampling services of groundwater, drinking water, wastewater, surface water, soil, sediments, air and sludge for scientific analysis purposes and decontamination purposes; toxicology services; consulting services in the field of environmental assessment and planning; environmental services, namely, technical consultation in the field of environmental science; hydrologic study of surface and groundwater; scientific research relating to the impact of consumer and industrial products on the environment; laboratory services for analysis of groundwater, drinking water, wastewater, surface water, soil, sediments, air and sludge; research and development of new products, in particular of electrochemical electrodes, electrochemical reactors and apparatus for decontamination; research in chemistry; engineering project studies; rental of science and technology equipment; analysis of the quality of water, groundwater, drinking water, wastewater, surface water, soil, sediments, air and sludge; conducting industrial experiments; preparation of technological reports; preparation of reports relating to technical research; professional consultancy relating to technology; scientific and technological services and research and design relating thereto; industrial analysis and research services; certification [quality control]; testing, analysis and evaluation of the goods and services of others for the purpose of certification; chemical product standard certification services; development of sensors, in particular of inline sensors and real time sensors for the detection of toxic substances,

Class 9:

Regulating, control and monitoring apparatus, devices and instruments, in particular for windmills for generating energy, rotors, generators and transmissions; sensors and software for recording, monitoring, function checking, maintenance, servicing, inspection, tracking, access control, optimisation of the lifecycle and reliability of couplings, transmissions, generators, machines and engines.

Class 35:

Collection, compilation and systemisation of data, management of data, compilation of statistics for the purposes of monitoring, maintaining, servicing and adjusting machine parts, couplings and gears and electronic controls for machines, machine parts, electronic controls, machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles, gear box casings, other than for land vehicles, motors and engines, other than for land vehicles, brakes, other than for land vehicles, safety couplings, torque limiting elements for couplings, cam sprockets, belt pulleys, in particular belt pulleys for timing belts and V-belts, chains for power engines and drive units and starters therefor (other than for land vehicles), articulated chains, link chains for continuously

variable transmissions, torque limiters, clamping elements, in particular clamping elements for couplings, sprocket gears and belt pulleys, drive trains, clamping elements for drive units, chain clamping elements, timing belts, V-belts, cone clamping elements, hub clamping elements, clamping elements for foundation bolts, clamping elements for screw threads, electromechanical clamping elements, machine parts, namely axles, engaging and disengaging devices, tappets, rods, housings, housing covers, machine frames, stands for machines, machine beds, connecting rods and piston rods, cam shafts, cams, cranks, crank shafts, V-belt pulleys, pulleys, belt tensioners, friction couplings, magnetic couplings, shaft couplings, brakes and brake linings, clutch and brake levers, bearings, bearing brackets, bearing shells, ring lubrication bearings, pedestal bearings and hanging bearings, roller bearings, needle bearings, roller bearings, oils, lubrication guns, grease guns, stuffing boxes, bevel wheels, worm wheels, worm gears, friction wheels, toothed wheels, flywheels, disc flywheels, cruise control apparatus, controls, valve operators, valves for steam engines and power engines, toothed gear transmissions, continuously variable transmissions, variators, saddlery, belts and leather goods for technical purposes, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, sealing washers, gaskets, sleeves, discs and electronic controls, in particular for the purposes of monitoring, maintenance, servicing, optimising the service life and reliability and adapting the aforesaid goods by means of software.

Class 37:

Repair and maintenance of machines, machine parts and electronic controls; consultancy relating to the maintenance and repair of machines, machine parts and electronic controls; repair and maintenance of wind turbines, in particular electrical generators and gears; installation of couplings and gear boxes; cleaning, repair and maintenance of couplings and gear boxes; repair and maintenance of sensors for recording of operating conditions, functional controls and status controls; repair and maintenance of machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles, gear box casings, other than for land vehicles, motors and engines, other than for land vehicles, brakes, other than for land vehicles, safety couplings, torque limiting elements for couplings, cam sprockets, belt pulleys, in particular belt pulleys for timing belts and V-belts, chains for power engines and drive units and starters therefor (other than for land vehicles), articulated chains, link chains for continuously variable transmissions, torque limiters, clamping elements, in particular clamping elements for couplings, sprocket gears and belt pulleys, drive trains, clamping elements for drive units, chain clamping elements, timing belts, V-belts, cone clamping elements, hub clamping elements, clamping elements for foundation bolts, clamping elements for screw threading, electromechanical clamping elements, machine parts, namely axles, engaging and disengaging devices, tappets, rods, housings, housing covers, machine frames, stands for machines, machine beds, connecting rods and piston rods, cam shafts, cams, cranks, crank shafts, v-belt pulleys, pulleys, belt tensioners, friction couplings, magnetic couplings, shaft couplings, brakes and brake linings,

clutch and brake levers, bearings, bearing brackets, bearing shells, ring lubrication bearings, pedestal bearings and hanging bearings, roller bearings, needle bearings, roller bearings, oils, lubrication guns, grease guns, stuffing boxes, bevel wheels, worm wheels, worm gears, friction wheels, toothed wheels, flywheels, disc flywheels, cruise control apparatus, controls, valve operators, valves for steam engines and power engines, toothed gear transmissions, continuously variable transmissions, variators, saddlery, belts and leather goods for technical purposes, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, sealing washers, gaskets, sleeves, discs; maintenance of wind turbines, in particular electric generators and gears; maintenance of sensors for recording of operating conditions, functional controls and status controls; maintenance of machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles.

Class 40:

Custom manufacturing of machines, machine parts, driving belts, transport belts and electronic controls; custom manufacturing of wind turbines, in particular electric generators and gears; custom manufacturing of sensors for recording of operating conditions, functional controls and status controls; custom manufacturing of machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles, gear box casings, other than for land vehicles, motors and engines, other than for land vehicles, brakes, other than for land vehicles, safety couplings, torque limiting elements for couplings, cam sprockets, belt pulleys, in particular belt pulleys for timing belts and V-belts, chains for power engines and drive units and starters therefor (other than for land vehicles), articulated chains, link chains for continuously variable transmissions, torque limiters, clamping elements, in particular clamping elements for couplings, sprocket gears and belt pulleys, drive trains, clamping elements for drive units, chain clamping elements, timing belts, V-belts, cone clamping elements, hub clamping elements, clamping elements for foundation bolts, clamping elements for screw threading, electromechanical clamping elements, machine parts, namely axles, engaging and disengaging devices, tappets, rods, housings, housing covers, machine frames, stands for machines, machine beds, connecting rods and piston rods, cam shafts, cams, cranks, crank shafts, V-belt pulleys, pulleys, belt tensioners, friction couplings, magnetic couplings, shaft couplings, brakes and brake linings, clutch and brake levers, bearings, bearing brackets, bearing shells, ring lubrication bearings, pedestal bearings and hanging bearings, roller bearings, needle bearings, roller bearings, oils, lubrication guns, grease guns, stuffing boxes, bevel wheels, worm wheels, worm gears, friction wheels, toothed wheels, flywheels, disc flywheels, cruise control apparatus, controls, valve operators, valves for steam engines and power engines, toothed gear transmissions, continuously variable transmissions, variators, saddlery, belts and leather goods for technical purposes, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, sealing washers, gaskets, sleeves, discs.

saddlery, belts and leather goods for technical purposes, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, sealing washers, gaskets, sleeves, discs; all the above in particular for the purposes of inspecting, monitoring and optimising the service life and reliability of machines, machine parts and electric controls; custom construction of machines, machine parts and electronic controls; custom construction of wind turbines, in particular electric generators and gears; custom construction of sensors for recording of operating conditions, functional controls and status controls; custom construction of machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles, gear box casings, other than for land vehicles, motors and engines, other than for land vehicles, brakes, other than for land vehicles, safety couplings, torque limiting elements for couplings, cam sprockets, belt pulleys, in particular belt pulleys for timing belts and V-belts, chains for power engines and drive units and starters therefor (other than for land vehicles), articulated chains, link chains for continuously variable transmissions, torque limiters, clamping elements, in particular clamping elements for couplings, sprocket gears and belt pulleys, drive trains, clamping elements for drive units, chain clamping elements, timing belts, V-belts, cone clamping elements, hub clamping elements, clamping elements for foundation bolts, clamping elements for screw threading, electromechanical clamping elements, machine parts, namely axles, engaging and disengaging devices, tappets, rods, housings, housing covers, machine frames, stands for machines, machine beds, connecting rods and piston rods, cam shafts, cams, cranks, crank shafts, V-belt pulleys, pulleys, belt tensioners, friction couplings, magnetic couplings, shaft couplings, brakes and brake linings, clutch and brake levers, bearings, bearing brackets, bearing shells, ring lubrication bearings, pedestal bearings and hanging bearings, roller bearings, needle bearings, roller bearings, oils, lubrication guns, grease guns, stuffing boxes, bevel wheels, worm wheels, worm gears, friction wheels, toothed wheels, flywheels, disc flywheels, cruise control apparatus, controls, valve operators, valves for steam engines and power engines, toothed gear transmissions, continuously variable transmissions, variators, saddlery, belts and leather goods for technical purposes, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, sealing washers, gaskets, sleeves, discs.

Class 42:

Development of machine, machine parts and electronic controls; monitoring and inspection of machines, machine parts and electronic controls, in particular with regard to their service life; technical advice relating to the development of machines, machine parts and electronic controls; IT services, namely the development, programming and implementation of software for selecting drive mechanisms and for monitoring and functional and status control of electric, electronic and mechanical equipment or systems, machines, machine parts and electronic controls, in particular for the purposes of inspecting, monitoring and optimising the service life and reliability of machines, machine parts and electronic controls; computer system analysis for the purposes of monitoring, maintenance,

servicing and adaptation of machines, machine parts and electronic controls, in particular with regard to their service life; consultancy in relation to computer system analysis for the purposes of monitoring, maintenance, servicing and adaptation of machines, machine parts and electronic controls, in particular with regard to their service life; electronic storage and protection of data relating to the monitoring, maintenance, servicing and adaptation of machines, machine parts and electronic controls; development, technical advice, monitoring and inspection of wind turbines, in particular electric generators and gears; data analysis for planning and operating couplings and gear boxes; providing of hardware and software for compiling and analysing data for planning and operating commercial and industrial installations, in particular couplings and gear boxes; cloud computing and technical consultancy for operating couplings and gear boxes; technological services to optimise the operation of clutches and gears; technical advice on and development, monitoring and inspection of sensors for recording of operating conditions, functional controls and status controls; technical advice on and development, monitoring and inspection of machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles, gear box casings, other than for land vehicles, motors and engines, other than for land vehicles, brakes, other than for land vehicles, safety couplings, torque limiting elements for couplings, cam sprockets, belt pulleys, in particular belt pulleys for timing belts and V-belts, chains for power engines and drive units and starters therefor (other than for land vehicles), articulated chains, link chains for continuously variable transmissions, torque limiters, clamping elements, in particular clamping elements for couplings, sprocket gears and belt pulleys, drive trains, clamping elements for drive units, chain clamping elements, timing belts, V-belts, cone clamping elements, hub clamping elements, clamping elements for foundation bolts, clamping elements for screw threading, electromechanical clamping elements, machine parts, namely axles, engaging and disengaging devices, tappets, rods, housings, housing covers, machine frames, stands for machines, machine beds, connecting rods and piston rods, cam shafts, cams, cranks, crank shafts, V-belt pulleys, pulleys, belt tensioners, friction couplings, magnetic couplings, shaft couplings, brakes and brake linings, clutch and brake levers, bearings, bearing brackets, bearing shells, ring lubrication bearings, pedestal bearings and hanging bearings, roller bearings, needle bearings, roller bearings, oils, lubrication guns, grease guns, stuffing boxes, bevel wheels, worm wheels, worm gears, friction wheels, toothed wheels, flywheels, disc flywheels, cruise control apparatus, controls, valve operators, valves for steam engines and power engines, toothed gear transmissions, continuously variable transmissions, variators, saddlery, belts and leather goods for technical purposes, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, sealing washers, gaskets, sleeves, discs; monitoring and functional and status control of the aforesaid goods by means of sensors; all the above in particular for the purposes of inspecting, monitoring and optimising the service life and reliability of machines, machine parts and electronic controls, electronic storage and protection of data relating to the monitoring, maintenance, servicing and adaptation of machines, machine parts and electronic controls.

particular being equipped with sensors for collecting operating statuses, function and status checks; saddlery, belts and leather goods for technical purposes, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, sealing washers, sleeves, discs, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls.

Class 9:

Regulating, control and monitoring apparatus, devices and instruments, in particular for windmills for generating energy, rotors, generators and transmissions; sensors and software for recording, monitoring, function checking, maintenance, servicing, inspection, tracking, access control, optimisation of the lifecycle and reliability of couplings, transmissions, generators, machines and engines.

Class 35:

Collection, compilation and systemisation of data, management of data, compilation of statistics for the purposes of monitoring, maintaining, servicing and adjusting machine parts, couplings and gears and electronic controls for machines, machine parts, electronic controls, machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles, gear box casings, other than for land vehicles, motors and engines, other than for land vehicles, brakes, other than for land vehicles, safety couplings, torque limiting elements for couplings, cam sprockets, belt pulleys, in particular belt pulleys for timing belts and V-belts, chains for power engines and drive units and starters therefor (other than for land vehicles), articulated chains, link chains for continuously variable transmissions, torque limiters, clamping elements, in particular clamping elements for couplings, sprocket gears and belt pulleys, drive trains, clamping elements for drive units, chain clamping elements, timing belts, V-belts, cone clamping elements, hub clamping elements, clamping elements for foundation bolts, clamping elements for screw threads, electromechanical clamping elements, machine parts, namely axles, engaging and disengaging devices, tappets, rods, housings, housing covers, machine frames, stands for machines, machine beds, connecting rods and piston rods, cam shafts, cams, cranks, crank shafts, V-belt pulleys, pulleys, belt tensioners, friction couplings, magnetic couplings, shaft couplings, brakes and brake linings, clutch and brake levers, bearings, bearing brackets, bearing shells, ring lubrication bearings, pedestal bearings and hanging bearings, roller bearings, needle bearings, roller bearings, oils, lubrication guns, grease guns, stuffing boxes, bevel wheels, worm wheels, worm gears, friction wheels, toothed wheels, flywheels, disc flywheels, cruise control apparatus, controls, valve operators, valves for steam engines and power engines, toothed gear transmissions, continuously variable transmissions, variators, saddlery, belts and leather goods for technical purposes, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, sealing washers, gaskets, sleeves, discs and electronic controls, in particular for the purposes of monitoring, maintenance, servicing, optimising the service life and reliability and adapting the aforesaid goods by means of software.

Class 37:

Repair and maintenance of machines, machine parts and electronic controls; consultancy relating to the maintenance and repair of machines, machine parts and electronic controls; repair and maintenance of wind turbines, in particular electrical generators and gears; installation of couplings and gear boxes; cleaning, repair and maintenance of couplings and gear boxes; repair and maintenance of sensors for recording of operating conditions, functional controls and status controls; repair and maintenance of machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles, gear box casings, other than for land vehicles, motors and engines, other than for land vehicles, brakes, other than for land vehicles, safety couplings, torque limiting elements for couplings, cam sprockets, belt pulleys, in particular belt pulleys for timing belts and V-belts, chains for power engines and drive units and starters therefor (other than for land vehicles), articulated chains, link chains for continuously variable transmissions, torque limiters, clamping elements, in particular clamping elements for couplings, sprocket gears and belt pulleys, drive trains, clamping elements for drive units, chain clamping elements, timing belts, V-belts, cone clamping elements, hub clamping elements, clamping elements for foundation bolts, clamping elements for screw threading, electromechanical clamping elements, machine parts, namely axles, engaging and disengaging devices, tappets, rods, housings, housing covers, machine frames, stands for machines, machine beds, connecting rods and piston rods, cam shafts, cams, cranks, crank shafts, v-belt pulleys, pulleys, belt tensioners, friction couplings, magnetic couplings, shaft couplings, brakes and brake linings, clutch and brake levers, bearings, bearing brackets, bearing shells, ring lubrication bearings, pedestal bearings and hanging bearings, roller bearings, needle bearings, roller bearings, oils, lubrication guns, grease guns, stuffing boxes, bevel wheels, worm wheels, worm gears, friction wheels, toothed wheels, flywheels, disc flywheels, cruise control apparatus, controls, valve operators, valves for steam engines and power engines, toothed gear transmissions, continuously variable transmissions, variators, saddlery, belts and leather goods for technical purposes, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, sealing washers, gaskets, sleeves, discs; maintenance of wind turbines, in particular electric generators and gears; maintenance of sensors for recording of operating conditions, functional controls and status controls; maintenance of machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles.

Class 40:

Custom manufacturing of machines, machine parts, driving belts, transport belts and electronic controls; custom manufacturing of wind turbines, in particular electric generators and gears; custom manufacturing of sensors for recording of

operating conditions, functional controls and status controls; custom manufacturing of machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles, gear box casings, other than for land vehicles, motors and engines, other than for land vehicles, brakes, other than for land vehicles, safety couplings, torque limiting elements for couplings, cam sprockets, belt pulleys, in particular belt pulleys for timing belts and V-belts, chains for power engines and drive units and starters therefor (other than for land vehicles), articulated chains, link chains for continuously variable transmissions, torque limiters, clamping elements, in particular clamping elements for couplings, sprocket gears and belt pulleys, drive trains, clamping elements for drive units, chain clamping elements, timing belts, V-belts, cone clamping elements, hub clamping elements, clamping elements for foundation bolts, clamping elements for screw threading, electromechanical clamping elements, machine parts, namely axles, engaging and disengaging devices, tappets, rods, housings, housing covers, machine frames, stands for machines, machine beds, connecting rods and piston rods, cam shafts, cams, cranks, crank shafts, V-belt pulleys, pulleys, belt tensioners, friction couplings, magnetic couplings, shaft couplings, brakes and brake linings, clutch and brake levers, bearings, bearing brackets, bearing shells, ring lubrication bearings, pedestal bearings and hanging bearings, roller bearings, needle bearings, roller bearings, oils, lubrication guns, grease guns, stuffing boxes, bevel wheels, worm wheels, worm gears, friction wheels, toothed wheels, flywheels, disc flywheels, cruise control apparatus, controls, valve operators, valves for steam engines and power engines, toothed gear transmissions, continuously variable transmissions, variators, saddlery, belts and leather goods for technical purposes, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, sealing washers, gaskets, sleeves, discs; all the above in particular for the purposes of inspecting, monitoring and optimising the service life and reliability of machines, machine parts and electric controls; custom construction of machines, machine parts and electronic controls; custom construction of wind turbines, in particular electric generators and gears; custom construction of sensors for recording of operating conditions, functional controls and status controls; custom construction of machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles, gear box casings, other than for land vehicles, motors and engines, other than for land vehicles, brakes, other than for land vehicles, safety couplings, torque limiting elements for couplings, cam sprockets, belt pulleys, in particular belt pulleys for timing belts and V-belts, chains for power engines and drive units and starters therefor (other than for land vehicles), articulated chains, link chains for continuously variable transmissions, torque limiters, clamping elements, in particular clamping elements for couplings, sprocket gears and belt pulleys, drive trains, clamping elements for drive units, chain clamping elements, timing belts, V-belts,

cone clamping elements, hub clamping elements, clamping elements for foundation bolts, clamping elements for screw threading, electromechanical clamping elements, machine parts, namely axles, engaging and disengaging devices, tappets, rods, housings, housing covers, machine frames, stands for machines, machine beds, connecting rods and piston rods, cam shafts, cams, cranks, crank shafts, V-belt pulleys, pulleys, belt tensioners, friction couplings, magnetic couplings, shaft couplings, brakes and brake linings, clutch and brake levers, bearings, bearing brackets, bearing shells, ring lubrication bearings, pedestal bearings and hanging bearings, roller bearings, needle bearings, roller bearings, oils, lubrication guns, grease guns, stuffing boxes, bevel wheels, worm wheels, worm gears, friction wheels, toothed wheels, flywheels, disc flywheels, cruise control apparatus, controls, valve operators, valves for steam engines and power engines, toothed gear transmissions, continuously variable transmissions, variators, saddlery, belts and leather goods for technical purposes, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, sealing washers, gaskets, sleeves, discs.

Class 42:

Development of machine, machine parts and electronic controls; monitoring and inspection of machines, machine parts and electronic controls, in particular with regard to their service life; technical advice relating to the development of machines, machine parts and electronic controls; IT services, namely the development, programming and implementation of software for selecting drive mechanisms and for monitoring and functional and status control of electric, electronic and mechanical equipment or systems, machines, machine parts and electronic controls, in particular for the purposes of inspecting, monitoring and optimising the service life and reliability of machines, machine parts and electronic controls; computer system analysis for the purposes of monitoring, maintenance, servicing and adaptation of machines, machine parts and electronic controls, in particular with regard to their service life; consultancy in relation to computer system analysis for the purposes of monitoring, maintenance, servicing and adaptation of machines, machine parts and electronic controls, in particular with regard to their service life; electronic storage and protection of data relating to the monitoring, maintenance, servicing and adaptation of machines, machine parts and electronic controls; development, technical advice, monitoring and inspection of wind turbines, in particular electric generators and gears; data analysis for planning and operating couplings and gear boxes; providing of hardware and software for compiling and analysing data for planning and operating commercial and industrial installations, in particular couplings and gear boxes; cloud computing and technical consultancy for operating couplings and gear boxes; technological services to optimise the operation of clutches and gears; technical advice on and development, monitoring and inspection of sensors for recording of operating conditions, functional controls and status controls; technical advice on and development, monitoring and inspection of machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles, gear box casings, other than for land vehicles, motors and engines, other than for land

vehicles, brakes, other than for land vehicles, safety couplings, torque limiting elements for couplings, cam sprockets, belt pulleys, in particular belt pulleys for timing belts and V-belts, chains for power engines and drive units and starters therefor (other than for land vehicles), articulated chains, link chains for continuously variable transmissions, torque limiters, clamping elements, in particular clamping elements for couplings, sprocket gears and belt pulleys, drive trains, clamping elements for drive units, chain clamping elements, timing belts, V-belts, cone clamping elements, hub clamping elements, clamping elements for foundation bolts, clamping elements for screw threading, electromechanical clamping elements, machine parts, namely axles, engaging and disengaging devices, tappets, rods, housings, housing covers, machine frames, stands for machines, machine beds, connecting rods and piston rods, cam shafts, cams, cranks, crank shafts, V-belt pulleys, pulleys, belt tensioners, friction couplings, magnetic couplings, shaft couplings, brakes and brake linings, clutch and brake levers, bearings, bearing brackets, bearing shells, ring lubrication bearings, pedestal bearings and hanging bearings, roller bearings, needle bearings, roller bearings, oils, lubrication guns, grease guns, stuffing boxes, bevel wheels, worm wheels, worm gears, friction wheels, toothed wheels, flywheels, disc flywheels, cruise control apparatus, controls, valve operators, valves for steam engines and power engines, toothed gear transmissions, continuously variable transmissions, variators, saddlery, belts and leather goods for technical purposes, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, sealing washers, gaskets, sleeves, discs; monitoring and functional and status control of the aforesaid goods by means of sensors; all the above in particular for the purposes of inspecting, monitoring and optimising the service life and reliability of machines, machine parts and electronic controls, electronic storage and protection of data relating to the monitoring, maintenance, servicing and adaptation of machines, machine parts and electronic controls.
