Class 9:
Software, software platforms and software applications; downloadable electronic publications, guides, reports and manuals; all the aforesaid relating to water, wastewater and sewage, and to plants, installations, equipment, apparatus, instruments and systems for treating, processing, handling,

moving, pumping, holding, storing, testing and monitoring the same; software, software platforms and software applications, and downloadable electronic publications, guides, reports and manuals, all relating to the management, functionality, operation, resilience and efficiency of water, waste water and sewage handling, storage and treatment solutions; software, software platforms and software applications, and downloadable electronic publications, guides, reports and manuals, all relating to telematic data and other information and documentation relating to water, waste water and sewage handling, storage and treatment solutions.

Class 35:

Data management, inputting and processing; compilation of statistical data; database management services; compilation, updating and maintenance of data in computer databases; all the aforesaid relating to water, wastewater and sewage, and to plants, installations, equipment, apparatus, instruments and systems for treating, processing, handling, moving, pumping, holding, storing, testing and monitoring the same; data management, inputting and processing, compilation of statistical data, database management services, compilation, updating and maintenance of data in computer databases, all relating to the management, functionality, operation, resilience and efficiency of water, waste water and sewage handling, storage and treatment solutions; data management, inputting and processing, compilation of statistical data, database management services, compilation, updating and maintenance of data in computer databases, all relating to telematic data and other information and documentation relating to water, waste water and sewage handling, storage and treatment solutions; information, advisory and consultancy services relating to all the aforesaid services.

Class 37:

Pumping services in relation to water, wastewater and sewage; pumping of water from and to reservoirs; pumping of water, wastewater and sewage for commercial, industrial, municipal and environmental uses and purposes; installation, repair, servicing, cleaning and maintenance of plants, installations, equipment, apparatus, instruments and systems for treating, processing, handling, testing, monitoring, moving, holding and storing water, wastewater and sewage, and of pumps, pumping systems, generators, engines, water tanks, blowers, air filters, alternators, compressors, pressure regulators, oil separators, valves and filtration systems; installation, maintenance and repair of computer hardware for use in relation to plants, installations, equipment, apparatus, instruments and systems for treating, processing, handling, testing, monitoring, moving, holding and storing water, wastewater and sewage, and in relation to pumps, pumping systems, generators, engines, water tanks, blowers, air filters, alternators, compressors, pressure regulators, oil separators, valves and filtration systems; rental and hire of pumps, pumping systems, generators, engines, water tanks, blowers, air filters, alternators, compressors, pressure regulators, oil separators and valves; rental and hire of construction tools, plants and equipment, bulldozers, excavators, diggers, loaders, dumpers, cranes, road sweeping machines, pumps and mixing machines; vehicle and machinery refurbishment, renovation, repair and maintenance; information, advisory and consultancy services relating to all the aforesaid services; information, advisory and consultancy services relating to plants, installations, equipment, apparatus, instruments and systems for pumping water, wastewater and sewage.

Class 38:

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026 .

Communications services; electronic data transmission services; telematics services; providing access to web portals; all the aforesaid relating to water, wastewater and sewage, and to plants, installations, equipment, apparatus, instruments and systems for treating, processing, handling, moving, pumping, holding, storing, testing and monitoring the same; communications services, electronic data transmission services, telematics services and providing access to web portals, all relating to the management, functionality, operation, resilience and efficiency of water, waste water and sewage handling, storage and treatment solutions; communications services, electronic data transmission services, telematics services and providing access to web portals, all relating to telematic data and other information and documentation relating to water, waste water and sewage handling, storage and treatment solutions; information, advisory and consultancy services relating to all the aforesaid services.

Class 39:

Transportation, moving, storage and holding services in the field of water, wastewater and sewage; removal of water, wastewater and sewage; rental and hire of plants, installations, equipment, apparatus, instruments and systems for transporting, moving, storing and holding water, wastewater and sewage; information, advisory and consultancy services relating to all the aforesaid services.

Class 40:

Treatment, recycling, handling and processing of materials, water, wastewater and sewage; water pollution control services; rental and hire of plants, installations, equipment, apparatus, instruments and systems for treating, processing and handling water, wastewater and sewage, and of filtration systems, dewatering equipment, trommels, machines for processing waste, machines for sorting rubble, silt, sand, gravel, rock, stone or organic material, machines for grading rubble, silt, sand, gravel, rock, stone or organic material, machines for capturing, containing and treatment of concrete washout material and waste concrete, machines for the treatment of concrete washwater, machines for receiving and segregating waste concrete from concrete washwater, and apparatus for the separation of oil from water; regeneration of water and wastewater; water pollution control services; water purification services; water demineralisation services; separation of oil from water; information, advisory and consultancy services relating to all the aforesaid services.

Class 42:

Software as a service [SaaS]; Platform as a service [PaaS]; providing temporary use of non-downloadable software; hosting web portals; provision of technical data; technical data analysis; all the aforesaid relating to water, wastewater and sewage, and relating to plants, installations, equipment, apparatus, instruments and systems for treating, processing, handling, moving, pumping, holding, storing, testing and monitoring the same; software as a service [SaaS], Platform as a service [PaaS], providing temporary use of non-downloadable software, hosting web portals, provision of technical data and technical analysis, all relating to the management, functionality, operation, resilience and efficiency of water and waste water handling, storage and treatment solutions; Software as a service [SaaS], Platform as a service [PaaS], providing temporary use of non-downloadable software, hosting web portals, provision of technical data and technical analysis, all relating to telematic data and other information and documentation relating to water, waste water and sewage handling, storage and treatment solutions; design

and development of computer software, hardware, web based portals and communication systems, all for use with plants, installations, equipment, apparatus, instruments and systems for treating, processing, handling, testing, monitoring, moving, holding and storing water, wastewater and sewage, and for use with pumps, pumping systems, generators, engines, water tanks, blowers, air filters, alternators, compressors, pressure regulators, oil separators, valves and filtration systems; testing and monitoring services in the field of water, wastewater and sewage; testing and monitoring of plants, installations, equipment, apparatus, instruments and systems for treating, processing, handling, testing, monitoring, moving, holding and storing water, wastewater and sewage, and of pumps, pumping systems, generators, engines, water tanks, blowers, air filters, alternators, compressors, pressure regulators, oil separators, valves and filtration systems; rental and hire of plants, installations, equipment, apparatus, instruments and systems for testing and monitoring water, wastewater and sewage; installation, maintenance and repair of computer software for use in the field of water, wastewater and sewage; installation, maintenance and repair of computer software for use in relation to plants, installations, equipment, apparatus, instruments and systems for treating, processing, handling, testing, monitoring, moving, holding and storing water, wastewater and sewage, and in relation to pumps, pumping systems, generators, engines, water tanks, blowers, air filters, alternators, compressors, pressure regulators, oil separators, valves and filtration systems; provision of scientific and technical data and information in the field of water, wastewater and sewage; provision of scientific and technical data and information in relation to plants, installations, equipment, apparatus, instruments and systems for treating, processing, handling, testing, monitoring, moving, holding and storing water, wastewater and sewage, and in relation to pumps, pumping systems, generators, engines, water tanks, blowers, air filters, alternators, compressors, pressure regulators, oil separators, valves and filtration systems; compilation of scientific and technical data and information into computer databases in the field of water, wastewater and sewage; temporary electronic storage of information and data in the field of water, wastewater and sewage; scientific and technical monitoring, analysis and reporting services in the field of water, wastewater and sewage; environmental testing and monitoring services; sampling for pollution; water quality control services; scientific and technical data collection, conversion and management, all in the field of water, wastewater and sewage; laboratory services; laboratory testing services; laboratory and testing services in the field of water, wastewater and sewage; hosting a web-based portal to allow others to view and analyse data in the field of water, wastewater and sewage; information, advisory and consultancy services relating to all the aforesaid services.

The mark consists of a monochrome, stylised design of a character shown from the chest up. The character features a prominent jawline and lower face, and is wearing a dark, wide brimmed hat, dark protective goggles covering the eyes and a long dark collared coat. The stylised words 'Dr Avill' in a gothic font appear superimposed across the chest of the characters coat. The colours black, white, and or grey are used to represent shading and background and are not claimed as a feature of the mark.

Class 9:

Scientific, research, navigation, surveying, photographic, cinematographic, audio-visual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media content, blank digital or analogue recording and storage media; calculating devices; computer software programmes and software applications, including in the nature of mobile apps, web apps, web3 apps, chat bots, desktop apps, embedded apps, enterprise apps, smart contracts, AGI actors, protocol specifications, software library implementations, programming languages, zero knowledge and developer tools, all for use in relation to construction management and monitoring; construction management and monitoring software; software in relation to visual intelligence platforms for remote construction management and monitoring for efficient dispute resolution, collaboration, and communication across construction projects; software in relation to the analysis of technical data based on visual surveillance of a construction project to identify construction errors; software in relation to technical data based on visual surveillance of a construction project to identify non-compliance with safety standards; software in relation to analysis of technical data based on visual surveillance of a construction project to identify accident-risk sites of project; construction planning software; computer software for image processing; computer software for organising and viewing digital images and photographs; computer software for processing digital images; computer software for processing images, graphics and text; computer software for processing information; computer software and downloadable computer software for use in encrypting, decrypting, accessing, updating, manipulating, modifying, organising, storing, backing up, book marking, synchronising, transmitting, and sharing data, documents, files, information, text, photos, images, graphics, music, audio, video, and multimedia content via computer networks, and other communications networks; image recognition software; image processing software; artificial intelligence software; artificial

intelligence software; virtual reality software; augmented reality software; data communication apparatus and instruments; apparatus and instruments for the processing, transmission, storage, logging, reception and retrieval of data, including in the form of encoded data, text, audio, graphic images or video or a combination of these formats; media for storing information, data, images and sound; films, video, audio and graphic images downloadable from the Internet; software, including mobile application software, for use in accessing, updating, manipulating, modifying, organizing, storing, backing up, synchronizing, transmitting and sharing of data, documents, files, information, text, photos, images, graphics, music, audio, video, and multimedia content via global computer networks, mobile telephones, and other communications networks; software, including mobile application software, to enable uploading, downloading, capturing, posting, showing, editing, playing, streaming, viewing, previewing, displaying, tagging, blogging, sharing, manipulating, distributing, publishing, reproducing, of electronic media, multimedia content, videos, movies, pictures, images, text, photos, user-generated content, audio content, and information via the Internet or other computer and communications networks; software, including mobile application software, for the streaming, transmission and encryption and storage, of audio, video, graphics, text and data on and over communication networks; software for planning, design, procurement, construction, control, operation, management, maintenance, monitoring and disposal of objects, assets, plant, buildings, facilities and infrastructure; computer software for use in processing employee and worker time logs; computer software for diagnosing driver and vehicle and fleet vehicle operating data, performance, and compliance; computer software for use in relation to the monitoring, management, operation, and use of vehicles, machines, machinery, equipment and apparatus for the construction and building industries; computer software for equipment readings, real time data transfer and providing monitoring for equipment inspection and maintenance; software programmes and applications for database management and data processing; software that provides real-time, integrated business management intelligence by combining information from various databases and presenting it in user-friendly interface; computer software for use in business intelligence, artificial intelligence and machine learning, data and applied analytics, actuarial services, data modelling, predictive analysis and analysing market information; computer software for business purposes; computer software products for use in business intelligence, artificial intelligence and machine learning, data and applied analytics, actuarial services, data modelling, predictive analysis and analysing market information; computer software development tools; computer utility software; data processing software; computer software for compiling and analysing data; software for creating, modelling, simulating, manipulating, visualising and viewing objects, assets, buildings, facilities, infrastructure, models, plans, systems and processes; asset performance management software; asset optimisation software; asset productivity and performance improvement software; asset management and maintenance software; engineering software; design and planning software; risk management software; project management software; business process management software; business performance and productivity software; software for collecting, systemising, analysing and evaluating data; downloadable software for publishing and sharing digital media and information via global computer and communication networks; downloadable instant messaging software; downloadable communications

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026.

software for electronically exchanging voice, data, video and graphics accessible via computer, mobile, wireless, and telecommunication networks; downloadable computer software for processing images, graphics, audio, video, and text; downloadable computer software for use in developing computer programmes; printed publications in electronically readable form; electronic and recorded multimedia publications including those sold and distributed online; downloadable on-line electronic publications; downloadable software for storing and managing electronic data, accessing databases, and internet security; downloadable software for the electronic transmission of information, data, documents, voice, and images; downloadable audio, visual, and audio-visual files and recordings, featuring multimedia entertainment programs and content; downloadable webcasts and podcasts; computer hardware; image analysers; data storage devices, computer storage subsystems for storage and backup of electronic data; cameras including still cameras, video cameras, video surveillance cameras, photographic cameras, and closed circuit television cameras; cases and covers for cameras, video cameras, and smartphones and mobile phones, including waterproof cases and covers.

Class 37:

Construction services; installation and repair services; restoration, maintenance, repair, installation, servicing, and remanufacture services, namely, new installations, retrofitting, preventative maintenance, and repair services in relation to camera and video surveillance apparatus and equipment for use in commercial, residential, industrial, and heavy civil projects; aftersales services in the nature of installation, maintenance, cleaning, repair, restoration, and servicing as provided in the construction and building industry; providing information relating to the progress of a construction project, of construction errors, of bottlenecks in a construction project, of non-compliance with construction project plans and of non-compliance with safety standards; construction consultancy in relation to control and supervision of a construction site; providing information regarding a construction site and the operational status of construction; construction project management services namely, planning, supervision, monitoring, compliance with construction safety and building codes, project scheduling, response to project setbacks and deficiencies, and control of construction projects; the aforesaid services also provided online and via the internet; information, consultancy and advisory services in relation to the aforesaid services including online and via the internet and digital, electronic and telecommunication networks.

Class 42:

Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software including in relation to visual intelligence platforms for remote construction management and monitoring for efficient dispute resolution, collaboration, and communication across construction projects; computer programming; providing temporary use of non-downloadable computer applications and software namely for equipment readings, real time data transfer, and management and monitoring of construction sites and building sites, including with respect to inspection, safety, and maintenance; hosting databases containing proprietary collections of information; creating indexes of information, web-sites and other information sources; engineering and

technical consultation; testing, control, diagnosis, calibration, and monitoring of equipment and machinery including via computer networks; software and hardware maintenance and support; rental of application software; rental of camera hardware, hosting on-line web facilities for others for sharing of data, documents, files, code, text, photos, images, graphics, sound, voice, music, audio, video, multimedia content and other electronic information; consultancy in the field of cloud computing networks and applications; programming of operating software for accessing and using a cloud computing network; design and development of operating software for accessing and using a cloud computing network; leasing of operating software for accessing and using a cloud computing network; cloud computing and cloud computing services, namely hosting websites in the cloud; rental of operating software for accessing and using a cloud computing network; consultancy and information services relating to information technology architecture and infrastructure; technical consulting services in the fields of information technology architecture, public and private cloud computing solutions, and evaluation and implementation of internet technology and services; consulting in the field of cloud infrastructure; software as a service for business management purposes; design and writing of computer software; rental of computer hardware and computer software; design of image and video processing software; consultancy in the field of computer software; development of software application solutions; electronic storage of digital video files; hosting a web site for the electronic storage of digital photographs and videos; development and updating of application software for the electronic storage of digital photographs and videos; design and development of software in the field of mobile applications; electronic storage of images; technical analysis of data acquired from construction project sites; design and development of image processing software for processing real time images of a construction project to monitor and forecast progress of the construction project, analysing monitored progress of construction project to identify bottlenecks to compliance with a project flow plan; analysing of technical data based on visual surveillance of a construction project to identify construction errors; analysing of technical data based on visual surveillance of a construction project to identify non-compliance with safety standards; analysing of technical data based on visual surveillance of a construction project to identify accident-risk sites of project; construction planning; software as a service (SaaS) for use in accessing, updating, manipulating, modifying, organizing, storing, backing up, synchronizing, transmitting and sharing of data, documents, files, information, text, photos, images, graphics, music, audio, video, and multimedia content via global computer networks, mobile telephones, and other communications networks; software as a service (SaaS) to enable uploading, downloading, capturing, posting, showing, editing, playing, streaming, viewing, previewing, displaying, tagging, blogging, sharing, manipulating, distributing, publishing, reproducing, of electronic media, multimedia content, videos, movies, pictures, images, text, photos, user-generated content, audio content, and information via the Internet or other computer and communications networks; software as a service (SaaS) for the streaming, transmission and encryption and storage, of audio, video, graphics, text and data on and over communication network; software as a service (SaaS) in the field of artificial intelligence-based software products for analysis of data, pattern discovery, business process automation, contextual prediction, predictive analysis, predictive modelling, recognition namely,

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026.

object character recognition, object detection and computer vision, classification of third part data, data segmentation and visualisation of all sectors of business data; information technology (IT) services (computer hardware, software and peripherals design and technical consultancy) related to the aforesaid software; the aforesaid services also provided online and via the internet; information, consultancy and advisory services in relation to the aforesaid services including online and via the internet and digital, electronic and telecommunication networks.

TIMESCAPES LIMITED

Representative: Trademark Tonic Limited
86-90 Paul Street, London, EC2A 4NE, GB

UK00004339800 12 February 2026

International Forest School Association

Class 41:
Education, training, workshops, courses, conferences, publishing educational materials.

Archimedes Earth Limited

UK00004425051 03 August 2026
(30)

EDMOND & CHARLES

Class 30:
TEA, COFFEE, HOT CHOCOLATE, BISCUITS,
SHORTBREAD, CAKES, BAKERY PRODUCTS,
CHOCOLATE, CONFECTIONARY, MACARONS.

C.T.R ESTATES LTD

UK00004411313 03 July 2026
(7, 9, 37, 42)

Class 7:
Lifts; lift installations; elevators and escalators; stair lifts; hydraulic lifts; goods and freight lifts; service lifts; site lifts; wheelchair and mobility scooter lifts; vehicle lifts; passenger lifts; lifting machines, platforms, and tables; food lifts and dumbwaiters; parts and fittings for all the aforementioned goods.

Class 9:
Control panels for lifts, escalators, elevators, and lifting machines; control panel for lifts, lift installations, elevators and escalators, stair lifts, hydraulic lifts, goods and freight lifts, service lifts, site lifts, wheelchair and mobility scooter lifts, vehicle lifts, passenger lifts, lifting machines, lifting platforms and lifting tables, food lifts and dumbwaiters; electrical and

electronic control apparatus and instruments; electrical and electronic control apparatus and instruments for lifts, escalators, elevators, and lifting machines; electrical and electronic control apparatus and instruments for lifts, lift installations, elevators and escalators, stair lifts, hydraulic lifts, goods and freight lifts, service lifts, site lifts, wheelchair and mobility scooter lifts, vehicle lifts, passenger lifts, lifting machines, lifting platforms and lifting tables, food lifts and dumbwaiters; computers and computer software for use in the operation, control, and servicing of lifts, escalators, elevators, and lifting machines; computers and computer software for use in the operation of lifts, lift installations, elevators and escalators, stair lifts, hydraulic lifts, goods and freight lifts, service lifts, site lifts, wheelchair and mobility scooter lifts, vehicle lifts, passenger lifts, lifting machines, lifting platforms and lifting tables, food lifts and dumbwaiters; parts and fittings for all the aforementioned goods.

Class 37:

Installation, servicing, maintenance, repair, modification, and renovation services relating to lifts, escalators, elevators, and lifting machines; installation, servicing, maintenance, repair, modification, and renovation services relating to lifts, lift installations, elevators and escalators, stair lifts, hydraulic lifts, goods and freight lifts, service lifts, site lifts, wheelchair and mobility scooter lifts, vehicle lifts, passenger lifts, lifting machines, lifting platforms and lifting tables, food lifts and dumbwaiters; information, advice, and consultancy services relating to the installation, repair, maintenance and servicing of lifts, escalators, elevators, and lifting machines; information, advice, and consultancy services relating to the installation, repair, maintenance and servicing of lifts, escalators, elevators, and lifting machines lifts, lift installations, elevators and escalators, stair lifts, hydraulic lifts, goods and freight lifts, service lifts, site lifts, wheelchair and mobility scooter lifts, vehicle lifts, passenger lifts, lifting machines, lifting platforms and lifting tables, food lifts and dumbwaiters; rental of lifting equipment and apparatus; advice and consultancy services relating to the rental of lifting equipment and apparatus; advice and consultancy services relating to the rental of lifts, lift installations, elevators and escalators, stair lifts, hydraulic lifts, goods and freight lifts, service lifts, site lifts, wheelchair and mobility scooter lifts, vehicle lifts, passenger lifts, lifting machines, lifting platforms and lifting tables, food lifts and dumbwaiters.

Class 42:

Research and design of lifts and lift apparatus; research and design of elevators and escalators, stair lifts, hydraulic lifts, goods and freight lifts, service lifts, site lifts, wheelchair and mobility scooter lifts, vehicle lifts, passenger lifts, lifting machines, lifting platforms and lifting tables, food lifts and dumbwaiters; monitoring and inspection of lifts and elevators; safety testing and monitoring relating to lifting equipment and apparatus; safety testing and monitoring relating to lifts, escalators, elevators, and lifting machines; safety testing and monitoring relating to lifts, lift installations, elevators and escalators, stair lifts, hydraulic lifts, goods and freight lifts, service lifts, site lifts, wheelchair and mobility scooter lifts, vehicle lifts, passenger lifts, lifting machines, lifting platforms and lifting tables, food lifts and dumbwaiters; performance diagnostics services relating to lifting equipment and apparatus; performance diagnostic services relating to lifts, escalators, elevators, and lifting machines; performance diagnostic services relating to lifts, lift installations, elevators and escalators, stair lifts, hydraulic lifts, goods and freight lifts, service lifts, site lifts, wheelchair and mobility

***List of cases accepted for opposition purposes as shown in Journal 2026/033 published on

VELO

Class 17:

Insulation, damping and barrier materials; seals, sealing materials, sealants and fillers; goods [semi-finished] made of rubber, rubber compounds, rubber-like materials, plastic, artificial resins, polyurethane and synthetic resins; plastic [semi-processed]; non-metallic materials for noise reduction [soundproofing]; non-metallic materials for noise absorption [soundproofing]; acoustic baffles for soundproofing purposes; damping materials for soundproofing purposes; vibration dampers; panels and blocks of rubber; panels and blocks of rubber compounds; panels and blocks of rubber-like materials; panels and blocks of rubber with integrated metallic elements; panels and blocks of rubber compounds with integrated metallic elements; panels and blocks of rubber-like materials with integrated metallic elements; damping panels; insulating panels; sound-absorbing panels; soundproofing panels; insulating matting; shock-absorbing materials; packing materials; spacers of rubber, rubber compounds or rubber-like materials [except fasteners for pipes]; non-metallic articles and materials for vibration damping, vibration suppression, sound insulation, sound absorption, shock absorption, vibration insulation and structure-borne sound decoupling; filling materials of rubber, rubber compounds or rubber-like materials; filling materials of plastic; rubber; semi-processed rubber; synthetic rubber; recycled rubber; granules of rubber; rubber derivatives; substitutes for rubber; non-metallic building protection mats for use in building for the protection of building materials or construction parts against mechanical damage; non-metallic moulded parts and profiles for decoupling building elements; floor coverings and mats for the reduction of sound and vibration emissions on traffic routes or at locations with strongly occurring

sound and vibration emissions; chamber filling elements being damping and insulating materials of rubber, rubber compounds, rubber-like materials and plastic, for example for use in road building and railway building; filling elements being damping and insulating materials of rubber, rubber compounds, rubber-like materials and plastic, for example for use in road building and railway building; parts and fittings for all the aforesaid goods, included in this class.

Class 19:

Building materials, not of metal; building elements, not of metal; road building materials, not of metal; road building elements, not of metal; building materials, not of metal, for traffic routes; building elements, not of metal, for traffic routes; building materials, not of metal, for level crossings; building elements, not of metal, for level crossings; pavements, not of metal; buildings, not of metal; transportable buildings, not of metal; floors, not of metal; sleepers, not of metal; railway sleepers, not of metal; track sleepers, not of metal; non-metallic building elements, namely beams, panels, blocks, moulded parts and assembly elements; panels of rubber with integrated metallic elements for building purposes; chamber filling elements [railway building materials and road building materials, not of metal]; track rail supports, not of metal, for building purposes, for example for the use in road building and railway building; assembly kits [building materials and building elements, not of metal] for level crossings and parts thereof; non-metallic assembly kits for level crossings and non-metallic parts thereof, namely panels, road surface materials, rail surrounds, rail base layer panels and rail matting for building purposes; intumescent building materials; non-metallic building materials and elements with vibration reducing, vibration suppressing, shock-absorbing, sound-insulating and sound-absorbing properties; layers of material having elastic and sound-absorbing properties for use as non-metallic building materials in the manufacture of multilayer subfloors; non-metallic stabilization fabrics for building purposes; non-metallic connecting elements for panels for building purposes; path edgings, not of metal; panels and moulded parts of rubber, rubber compounds or rubber-like materials for building purposes, for example for producing level crossings; supporting structures and supporting elements, not of metal, for building purposes, for example for supporting panels and moulded parts; parts and fittings for all the aforesaid goods, included in this class.

Class 37:

Construction; road construction; construction supervision; construction consultancy; building, construction and demolition; installation, cleaning, repair and maintenance services with respect to building materials of metal, building elements of metal, road building materials of metal, road building elements of metal, building materials of metal for traffic routes, building elements of metal for traffic routes, building materials of metal for level crossings, building elements of metal for level crossings, pavements of metal, buildings of metal, transportable buildings of metal, floors of metal, sleepers of metal, railway sleepers of metal, track sleepers of metal, beams of metal, panels of common metal, panels of metal for building purposes, moulded parts of metal, construction elements of metal for building purposes, wire nets, wire gauzes, chamber filling elements [railway building materials and road building materials of metal], track rail supports of metal for building purposes, metallic materials for noise reduction [soundproofing], metallic materials for noise absorption [soundproofing], walls of metal, connecting elements of metal for panels for building purposes, path edgings of metal, ironmongery, supporting structures of

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026.

metal for building purposes, supporting elements of metal for building purposes, parts and fittings for all the aforesaid goods; installation, cleaning, repair and maintenance services with respect to hand-operated tools, hand-operated implements, hand-operated tools and implements for building, hand-operated tools and implements for construction, repair and maintenance, hand-operated tools and implements for treatment of materials, hand-operated tools and implements for assembling panels, moulded parts and track sleepers, lifting tools, parts and fittings for all the aforesaid goods; installation, cleaning, repair and maintenance services with respect to insulation materials, damping materials, barrier materials, seals, sealing materials, sealants, fillers, goods [semi-finished] made of rubber, goods [semi-finished] made of rubber compounds, goods [semi-finished] made of rubber-like materials, goods [semi-finished] made of plastic, goods [semi-finished] made of artificial resins, goods [semi-finished] made of polyurethane, goods [semi-finished] made of synthetic resins, plastic [semi-processed], non-metallic materials for noise reduction [soundproofing], non-metallic materials for noise absorption [soundproofing], acoustic baffles for soundproofing purposes, damping materials for soundproofing purposes, vibration dampers, panels of rubber, blocks of rubber, panels of rubber compounds, blocks of rubber compounds, panels of rubber-like materials, blocks of rubber-like materials, panels of rubber with integrated metallic elements, blocks of rubber with integrated metallic elements, panels of rubber compounds with integrated metallic elements, blocks of rubber compounds with integrated metallic elements, panels of rubber-like materials with integrated metallic elements, blocks of rubber-like materials with integrated metallic elements, damping panels, insulating panels, sound-absorbing panels, soundproofing panels, insulating matting, shock-absorbing materials, packing materials, spacers of rubber, spacers of rubber compounds, spacers of rubber-like materials, non-metallic articles and materials for vibration damping, non-metallic articles and materials for vibration suppression, non-metallic articles and materials for sound insulation, non-metallic articles and materials for sound absorption, non-metallic articles and materials for shock absorption, non-metallic articles and materials for vibration insulation, non-metallic articles and materials for structure-borne sound decoupling, filling materials of rubber, filling materials of rubber compounds, filling materials of rubber-like materials, filling materials of plastic, rubber, semi-processed rubber, synthetic rubber, recycled rubber, granules of rubber, rubber derivatives, substitutes for rubber, non-metallic building protection mats for use in building for the protection of building materials or construction parts against mechanical damage, non-metallic moulded parts for decoupling building elements, non-metallic moulded profiles for decoupling building elements, floor coverings for the reduction of sound and vibration emissions on traffic routes or at locations with strongly occurring sound and vibration emissions, mats for the reduction of sound and vibration emissions on traffic routes or at locations with strongly occurring sound and vibration emissions, chamber filling elements being damping materials, chamber filling elements being insulating materials, filling elements being damping materials, filling elements being insulating materials, parts and fittings for all the aforesaid goods; installation, cleaning, repair and maintenance services with respect to non-metallic building materials, non-metallic building elements, non-metallic road building materials, non-metallic road building elements, non-metallic building materials for traffic routes, non-metallic building elements for traffic routes, non-metallic building materials for level crossings, non-metallic building

elements for level crossings, non-metallic pavements, non-metallic buildings, non-metallic transportable buildings, non-metallic floors, non-metallic sleepers, non-metallic railway sleepers, non-metallic track sleepers, non-metallic beams being building elements, non-metallic panels being building elements, non-metallic blocks being building elements, non-metallic moulded parts being building elements, non-metallic assembly elements being building elements, panels of rubber with integrated metallic elements for building purposes, chamber filling elements [railway building materials and road building materials, not of metal], non-metallic track rail supports for building purposes, assembly kits [building materials and building elements, not of metal] for level crossings, parts of assembly kits [building materials and building elements, not of metal] for level crossings, intumescent building materials, non-metallic building materials with vibration reducing, vibration suppressing, shock-absorbing, sound-insulating and sound-absorbing properties, non-metallic building elements with vibration reducing, vibration suppressing, shock-absorbing, sound-insulating and sound-absorbing properties, layers of material having elastic and sound-absorbing properties for use as non-metallic building materials, non-metallic stabilization fabrics for building purposes, non-metallic connecting elements for panels for building purposes, non-metallic path edgings, panels of rubber for building purposes, panels of rubber compounds for building purposes, panels of rubber-like materials for building purposes, moulded parts of rubber for building purposes, moulded parts of rubber compounds for building purposes, moulded parts of rubber-like materials for building purposes, non-metallic supporting structures for building purposes, non-metallic supporting elements for building purposes, parts and fittings for all the aforesaid goods; installation, cleaning, repair and maintenance services with respect to non-metallic assembly kits for level crossings and non-metallic parts thereof, namely panels, road surface materials, rail surrounds, rail base layer panels and rail matting for building purposes; hire, rental and leasing of goods associated with the provision of all the aforesaid services, included in this class; consultancy and information services relating to all the aforesaid services, included in this class.

Insulated cable for electrical installations; Electrical cable; Cable connectors; Cable splices for electric cables; Coaxial cable; Electrical cable connectors; Cable adapters; Coaxial cable connectors; Telecommunications cable; Cable junctions for electric cables; Electric wire and cable; Electrical wiring installations; Antenna cables; Cable channels (Electric -); Cable

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026.

ducts (Electric -); Network cables; Cable boxes (Electric -); Cable covers [conduits]; Ribbon cable; Network cabling; Telecommunications cables; Ethernet cables; Electrical cables for use in connections; Telecommunication cables; Connection cables; Communications cables; Computer network adapters; Connections for electric cables; Network routers; Connecting electrical cables; Fibre-optic cables; Cables and wires; Computer cables; Computer network bridges; Computer network routers; Computer network switches; Telephone cables; Data cables; Network junction points for telephone exchange networks; Coaxial cables; Cables (Coaxial -); Electrical cables; Network communication equipment; Network communication devices; Telecommunications networks; Network hubs; Optical cables; Network servers; Computer network hubs; Power cables; Data transmission cables; Feeder cables; Radio relay cables; Communications networks; LAN [local area network] access points for connecting network computer users; Optical networks; Adapter cables (Electric -); Electric adapter cables; Electric wires and cables; Electric cables and wires; Computer network hardware; Cable identification markers for electric cables; Optical fibre cables; Video cables; Cables for earthing; Jumper cables; Loudspeaker cables; Computer networks; Aerials for telecommunications networks; Threaded electrical cable connectors; Cables for electrical signal transmission; Conduit for electric cables; Optical fiber cables; Computer cabling; Cables for optical signal transmission; Wireless local area network devices; Fibre optic cables; Extension cables; Signal cables for IT, AV and telecommunication; Network communication apparatus; Fibre optics; Fiber optics; Fibre optic connectors; Fibre optic couplings; Cables (Fibre [fiber Am.] optic -); Fibre [fiber (Am.)] optic cables; Fiber optic cables; Junction sleeves for fibre optics; Fibre optic panels; Fiber optic cable; Fiber optic couplings; Fibre optic telecommunications apparatus; Sheaths for optical fibre cable; Optical fiber connectors; Optical fibres; Optical fibers; Optical fibers [fibres]; Polarization-maintaining optical fibers; Light conducting filaments [optical fibers [fibres]]; Optical fibers [fibres] [light conducting filaments]; Polarisation maintaining optical fibres; Optical fibres [light conducting filaments]; Optical fibers [light conducting filaments]; Optical waveguides; Dispersion shifted optical fibres; Electrical connections; Electrical components; Electrical switches; Electrical wires; Electrical circuits; Electrical plugs; Electrical conductors; Electrical cabling; Electrical outlets; Electrical connection boxes; Electrical conduits; Electrical adaptors; Electrical adapters; Electrical contacts; Electrical connectors; Electrical circuit components; Electrical cords; Electrical and electronic connectors; Electronic and electrical connectors; Electrical terminals; Electrical telecommunications instruments; Electrical communications apparatus; Electrical power outlet boxes; Electrical telecommunications apparatus; Electrical ducts; Electrical telegraph wires; Junctions [electrical]; Insulated electrical cables; Plug-in electrical connectors; Ducting for electric cables; Cable couplings (Electric -); Connection blocks [electric cable]; Insulated cables (Electric -); Insulated electric cables; Modem cables; Data networks; Telecommunications apparatus for use with mobile networks; LAN [local operating network] hardware; VPN [virtual private network] hardware; Computer network server; Wide area network (WAN) routers; Data transmission networks; WAN [wide area network] hardware; Railway signals; Data communications apparatus; Network access server hardware; Ducts [electricity]; Electricity ducts; Metal ducts [electric]; Electric cables; Cables, electric.

Class 20:

Trunking (Non-metallic -) for cables carrying telephone signals; Cable trunking of non-metallic materials [other than electric]; Cable connectors (Non-electric -) of non-metallic materials; Cable trays of non-metallic materials [other than electric]; Cable boxes of non-metallic materials (Non-electric -); Splice connectors (Plastic -) for non-electric cables.

Class 37:

Installation of cables for Internet access; Installation of hardware and cables for Internet access; Antenna installation and repair; Telephone installation; Telephone installation and repair; Installation of radio equipment; Electrical installation services; Installation of electrical earthing; Installation and repair of telecommunications networks; Installation and repair of telecommunications hardware; Installation of radio telephone equipment; Installation of electrical grounding; Installation of telephones; Installation of radios; Installation of communication equipment; Installation of computer networks; Installation, maintenance and repair of telecommunications equipment; Installation of racks; Installation of communications networks; Installation and repair of computer hardware; Installation of radio apparatus; Installation and maintenance of hardware for computer networks and Internet access; Computer hardware and telecommunication apparatus installation, maintenance and repair; Installation of computers; Installation of communications network instruments; Installation of radio telephone apparatus; Computer hardware (Installation, maintenance and repair of -); Installation, maintenance and repair of computer hardware; Computer installation and maintenance services; Installation of computer systems; Installation of ground anchors; Installing of telecommunications networks; Installation of wireless telecommunications equipment and wireless local area networks; Electrical wiring services; Repairing construction works; Electrical contractor services; Construction of civil engineering works; Cable laying; Laying of cable; Laying and burial of cable; Beneath ground construction work relating to foundation laying; Beneath ground construction work relating to cabling; Building of foundations; Construction of foundations for buildings; Construction of foundations for civil engineering structures; Construction of piles; Dismantling of buildings; Erection of structural steel constructions; Construction services; Communications infrastructure construction; Maintenance of data communication networks; Installation of integrated radio networks; Installation of data network apparatus; Installation, maintenance and repair of computer network and information technology equipment; Maintenance and repair of communications networks; Maintenance and repair of computer networks; Maintenance and repair of data communications networks; Maintenance and repair of communications systems; Maintenance and repair of telecommunications networks, apparatus, and instruments; Installation, maintenance and repair of broadcasting apparatus; Rail infrastructure construction; Infrastructure construction; Civil infrastructure construction; Power infrastructure construction; Civil construction services; Civil engineering construction; Civil engineering demolition; Services for the rental of machinery for civil engineering; Installation of traffic management systems; Building demolition; Demolition of buildings; Building, construction and demolition; Demolition of structures; Dismantling of industrial equipment; Repair or maintenance of telecommunication machines and apparatus.

Class 38:

Cable transmission; Telecommunications services provided via fiber optic, wireless and cable networks; Provision

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026.

of telecommunication connections to a global computer network; Providing telecommunications connections to a global computer network; Communications via fiber-optic networks; Providing telecommunications connections to a global computer network or databases; Communications via fibre-optic networks; Telecommunication network services; Communications by fibre-optic networks; Providing telecommunications connections to a global communication network or databases; Providing telecommunications connection to a global computer network; Electronic network communications; Computer network communication services; Communications by fiber [fibre] optic networks; Fibre optic telecommunications services; Optical fibre telecommunications services; Communications by fibre optic networks; Communications by fiber optic networks; Communication by fibre optic networks; Communication via optical fibre networks; Communication via fibre optical networks; Telecommunications services provided by means of optical fibre networks; Transmission of data by cable; Provision of communications facilities via cable; Communication services by cable; Geolocation services [telecommunications services]; Telecommunications services; Telecommunication services; Communications services; Telephony services; Telecommunications services, namely providing fiber optic network services; Mobile telecommunications services; Mobile telecommunications network services; Data communications services; Communication services; Cellular telecommunications services; Mobile telecommunication network services; Provision of telecommunication connections for data centres; Radio communication network services; Transmission of information on optical telecommunication networks; Telecommunications services between computer networks; Telegraph telecommunications services; Telecommunications routing and junction services; Providing user access to global computer networks; Providing multiple-user access to a global computer network; Providing access to telecommunication networks.

Class 39:

Warehousing services; Storage services; Removal of waste; Waste removal; Waste removal [transport]; Clearance [removal and transportation] of waste.

Class 42:

Computer network services; Electrical engineering services; Engineering work; Custom design and engineering of telephony systems, cable television systems and fiber optics; Engineering services; Design and development of telecommunications networks; Configuration of computer systems and networks; Provision of technical support in the operation of computing networks; Integration of computer systems and networks; Computer network configuration services; Product design; Product design and development; New product design; Design of products; Design of engineering products; Design and development of engineering products; New products (Design of -); Design and development of new products; Design and development of industrial products; Engineering design; Technical design; Design of tooling; Tool design; Product development for others; Design of tools; Provision of data centre facilities; Civil engineering; Civil engineering design services; Testing of telecommunication signals; Testing, analysis and monitoring of telecommunication signals; Engineering (engineering work).

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026.

for sensor processing, perception, prediction, planning, route planning, trajectory planning, behaviour planning, motion planning, navigation and control; sensor-to-control software for autonomous vehicles, driver assistance systems, robots, robotic systems and autonomous machines; embedded software and firmware for vehicles, autonomous vehicles, driver assistance systems, automated driving systems, robots, robotic systems and autonomous machines; software for configuring, customising, updating and maintaining autonomous driving behaviour, vehicle behaviour and robotic behaviour; behaviour configuration software; software for active safety systems, collision avoidance, hazard detection, driver assistance, hands-free driving, hands-off driving, eyes-off driving, automated driving and autonomous driving; driver assistance software; advanced driver assistance software; active safety software for vehicles; software for over-the-air software updates for vehicles, autonomous vehicles, driver assistance systems, robots, robotic systems and autonomous machines; software for diagnostics, monitoring, support, maintenance and safety maintenance of vehicles, autonomous vehicles, driver assistance systems, robots, robotic systems and autonomous machines; software for fleet management; software for vehicle and robot control, navigation, deployment, scheduling, booking and dispatching; autonomous taxi fleet software; robotaxi fleet software; autonomous delivery vehicle software; autonomous logistics vehicle software; software for arranging, booking, dispatching, operating and managing autonomous vehicles, robotaxis, autonomous delivery vehicles and autonomous vehicle fleets; software for autonomous mobility services, ride-hailing services, ride-sharing services, transport services, delivery services and logistics services; software development tools; software development kits; application programming interfaces; middleware; runtimes; software libraries; configuration files; data models; simulation tools; software tools for autonomous vehicle, robotics and embodied artificial intelligence development; software for model training, model fine-tuning, model evaluation, model validation, model verification, model monitoring, model deployment and machine learning operations; software for AI explainability, visual question answering, natural-language interaction with autonomous systems, and the explanation, visualisation and interpretation of artificial intelligence model outputs, driving decisions and robotic actions; software for collecting, processing, annotating, labelling, curating, aggregating, analysing, interpreting, displaying, managing, visualising and mining vehicle data, sensor data, fleet data, telematics data, driving data, robotic operating data, simulation data and synthetic data; data collection software for robotics algorithms, autonomous driving algorithms, driver assistance algorithms and embodied artificial intelligence algorithms; datasets, data models and data corpora in the field of autonomous driving, vehicle operation, driver assistance, robotics, sensor data, telematics, simulation and embodied artificial intelligence; multimedia files relating to autonomous driving, artificial intelligence, robotics, simulation and embodied artificial intelligence; vehicle control systems being parts of vehicles; safety systems being parts of vehicles; active safety systems being parts of vehicles; collision avoidance systems being parts of vehicles.

Class 12:

Vehicles; apparatus for locomotion by land; land vehicles; road vehicles; motor vehicles; passenger vehicles; cars; electric vehicles; autonomous vehicles; self-driving vehicles; driverless vehicles; automated vehicles; autonomous land vehicles; autonomous road vehicles; autonomous cars; self-driving

cars; driverless cars; automated cars; robotaxis; autonomous taxis; autonomous passenger vehicles; autonomous shuttles; autonomous buses; autonomous delivery vehicles; autonomous logistics vehicles; robotic vehicles; robotic land vehicles; vehicles for autonomous mobility services; vehicles for ride-hailing services; vehicles for ride-sharing services; vehicles for transport services; vehicles for delivery services; vehicles for logistics services; vehicles incorporating autonomous driving systems; vehicles incorporating automated driving systems; vehicles incorporating advanced driver assistance systems; vehicles incorporating driver assistance systems; vehicles incorporating active safety systems; vehicles incorporating collision avoidance systems; vehicles incorporating automated steering, braking, acceleration, navigation or control systems; vehicles incorporating sensors, cameras, radar, lidar, computing apparatus or control apparatus for autonomous driving, automated driving or driver assistance; vehicle platforms for autonomous vehicles, self-driving vehicles, driverless vehicles, robotaxis, autonomous delivery vehicles and robotic vehicles; structural parts and fittings for autonomous vehicles, self-driving vehicles, driverless vehicles, robotaxis, autonomous delivery vehicles and robotic vehicles; steering systems for vehicles; braking systems for vehicles; drive-by-wire systems for vehicles; propulsion systems for land vehicles; transmissions for land vehicles; parts and fittings for all of the aforesaid.

Class 39:

Transport; arrangement of transport; arrangement of transportation of passengers; arrangement of transportation of passengers by cars, autonomous vehicles and robotaxis; arrangement of transportation of people; arrangement of transportation of goods; transportation of passengers; transportation of passengers by car; transportation of passengers by autonomous vehicles; transportation of passengers by robotaxis; autonomous vehicle transport services; robotaxi transport services; autonomous taxi services; ride-hailing transport services; ride-sharing transport services; mobility-as-a-service transport services; transport by autonomous vehicles; transport by driverless vehicles; transport by automated vehicles; chauffeur services; taxi services; car transport services; car sharing services; vehicle sharing services; booking of transport; booking of transportation via a website, software application or mobile application; booking of transport by autonomous vehicles; booking of robotaxi transport; arranging, booking, scheduling and dispatching vehicles, autonomous vehicles, robotaxis and autonomous vehicle fleets; fleet transport services; management of vehicle fleets for transport purposes; providing information relating to transport, autonomous vehicle transport, robotaxi transport, ride-hailing, ride-sharing, routes, journeys, fares, bookings, vehicle location and vehicle availability; vehicle routing services; route planning services; navigation services for transport purposes; travel arrangement; arrangement of travel; arranging and booking of journeys; arrangement of vehicle rental; booking of hire cars; delivery of goods; delivery of goods by autonomous vehicles; autonomous delivery services; collection, transport and delivery of packages by road; logistics services consisting of the transport, packaging and storage of goods; freight and cargo transport services; transport and delivery services using autonomous vehicles, robotic vehicles and autonomous delivery vehicles; information, advisory and consultancy services relating to all of the aforesaid.

Class 42:

Technological, scientific and research services in the field of robotics, self-driving cars, autonomous vehicles, driver

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026.

assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, robots, robotic systems, autonomous machines, embodied artificial intelligence systems and autonomous vehicle technology; research, design and development of computer software, artificial intelligence software, machine learning software, reinforcement learning software, computer vision software, foundation model software, multimodal artificial intelligence model software, world model software, generative world model software, vision-language model software and vision-language-action model software; research, design and development of software and systems for self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, robotic systems, autonomous machines, embodied artificial intelligence systems and robots; research, design and development of artificial intelligence algorithms, machine learning algorithms, reinforcement learning algorithms, computer vision algorithms, foundation models, multimodal artificial intelligence models, world models, generative world models, vision-language models and vision-language-action models; research, design and development of virtual reality software, simulation software and virtual testing environments for the purpose of training, testing, evaluating, validating and verifying self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, robotic systems, autonomous machines, embodied artificial intelligence systems and robots; research, design and development of computer software for fleet management; research, design and development of computer software for vehicle and robot control, navigation, deployment, scheduling, booking and dispatching; research, design and development of computer software for arranging, booking, dispatching, operating and managing autonomous vehicles, robotaxis, autonomous delivery vehicles and autonomous vehicle fleets; research, design and development of computer software for autonomous mobility services, ride-hailing services, ride-sharing services, transport services, delivery services and logistics services; research, design and development of software for analysing, collecting, annotating, labelling, curating, aggregating, interpreting, processing, displaying, managing, visualising and mining data in the field of self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, robotic systems, autonomous machines, embodied artificial intelligence systems and robots; software as a service [SaaS]; platform as a service [PaaS]; cloud computing services; software as a service [SaaS], platform as a service [PaaS] and cloud computing services featuring software for machine learning, reinforcement learning, artificial intelligence, computer vision, autonomous driving, driver assistance, robotics, simulation and embodied artificial intelligence; software as a service [SaaS], platform as a service [PaaS] and cloud computing services featuring foundation model software, multimodal artificial intelligence model software, world model software, generative world model software, simulation software, validation software, verification software, AI explainability software, data processing software and behaviour configuration software for autonomous vehicles, driver assistance systems, robotic systems, autonomous machines and embodied artificial intelligence systems; providing virtual computer systems and virtual computer environments through cloud computing for the purpose of training, testing, evaluating, validating and verifying self-driving cars, autonomous vehicles, driver assistance systems,

advanced driver assistance systems, automated driving systems, autonomous driving systems, robotic systems, autonomous machines, embodied artificial intelligence systems and robots; providing online non-downloadable software for model training, model fine-tuning, model evaluation, model validation, model verification, model monitoring, model deployment and machine learning operations; machine learning operations services; cloud-based machine learning infrastructure services; software as a service [SaaS] and cloud computing services for fleet management; software as a service [SaaS] and cloud computing services for vehicle and robot control, deployment, navigation, scheduling, booking and dispatching; software as a service [SaaS] and cloud computing services for arranging, booking, dispatching, operating and managing autonomous vehicles, robotaxis, autonomous delivery vehicles and autonomous vehicle fleets; software as a service [SaaS] and cloud computing services for autonomous mobility services, ride-hailing services, ride-sharing services, transport services, delivery services and logistics services; software as a service [SaaS] and cloud computing services for analysing, collecting, annotating, labelling, curating, aggregating, interpreting, processing, displaying, managing, visualising and mining data in the field of self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, robotic systems, autonomous machines, embodied artificial intelligence systems and robots; data-as-a-service services in the field of autonomous driving, vehicle operation, driver assistance, robotics, sensor data, telematics, simulation and embodied artificial intelligence; providing online non-downloadable artificial intelligence software for generating synthetic scenes, synthetic multi-camera video, simulated sensor outputs, simulated environment data, driving scenarios, robotic scenarios, scenario data and synthetic data for use in the development, testing, evaluation, validation and training of autonomous vehicles, driver assistance systems, robots, robotic systems, autonomous machines and embodied artificial intelligence systems; providing online non-downloadable generative world model software for modelling, predicting and generating physical environments, driving environments, robotic operating environments, driving scenarios, robotic interaction scenarios and safety-critical scenarios; providing online non-downloadable software for generating, replaying, modifying, re-rendering, transferring and evaluating driving scenarios, robotic scenarios, safety-critical scenarios, rare scenarios, edge-case scenarios and counterfactual scenarios; providing online non-downloadable software for re-rendering and transferring scenarios across vehicle types, robotic platforms, sensor configurations and operating environments; simulation as a service for autonomous vehicle, driver assistance, robotics and embodied artificial intelligence development; computer simulation services for testing, evaluation, validation and verification of autonomous driving software, driver assistance software, robotic control software, robotic perception software and embodied artificial intelligence models; virtual testing of self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, robots, robotic systems, autonomous machines and embodied artificial intelligence systems using computer simulations; creation, development, programming and implementation of simulation software in the field of self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, robotic systems, autonomous machines and embodied artificial intelligence systems

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026.

and robots; creation of simulation programs for autonomous vehicles, driver assistance systems, robots, robotic systems, autonomous machines and embodied artificial intelligence systems; design, development, testing, evaluation, validation and verification of computer software for autonomous vehicles, driver assistance systems, robots, robotic systems, autonomous machines and embodied artificial intelligence systems; simulation, testing, verification, validation, safety assurance and performance evaluation services for autonomous driving systems, driver assistance systems, robotic systems, autonomous machines and embodied artificial intelligence systems; providing virtual testing environments and digital simulation environments for autonomous vehicle, driver assistance, robotics and embodied artificial intelligence development; providing software for AI explainability, visual question answering, natural-language interaction with autonomous systems, and the explanation, visualisation and interpretation of artificial intelligence model outputs, driving decisions and robotic actions; providing online non-downloadable software for configuring and customising autonomous driving behaviour, vehicle behaviour and robotic behaviour; providing online non-downloadable software for over-the-air software updates, software maintenance, safety maintenance, diagnostics, monitoring and support for autonomous vehicles, driver assistance systems, robotic systems and autonomous machines; artificial intelligence consultancy, research and development services in the field of autonomous vehicles, driver assistance, robotics, simulation and embodied artificial intelligence; information, advisory and consultancy services relating to all of the aforesaid.

*List of cases accepted for opposition purposes as shown in Journal 2026/033 published on
14 August 2026.*

Class 9:

Games and apparatus for games for use with or incorporating a television screen or video monitor; coin or token operated electrical or electronic amusement apparatus; computer software; computer games; electrically, magnetically and optically recorded data for computers.

Class 16:

Paper, cardboard and goods made from these materials, not included in other classes; printed matter; book binding material; photographs; stationery; adhesives for stationery or household purposes; artists' materials; paint brushes; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); printers' type; printing blocks; printed publications, magazines; posters and prints; stationery; writing sets; writing paper; paper; cardboard articles; books, calendars, paper ornaments, postcards, transfers, albums, boxes, greeting cards, pens and pencils; instructional and teaching materials; diaries; office requisites; packing materials; labels; stickers; binders and folders; book markers; envelopes; maps; paper napkins; paper handkerchiefs; photographs; paper clips; paper weights; pen cases; scrapbooks; tokens.

Class 21:

Household or kitchen utensils and containers; combs and sponges; brushes (except paint brushes); brush-making materials; articles for cleaning purposes; steel wool; un-worked or semi-worked glass (except glass used in building); glassware, porcelain and earthenware not included in other classes ornaments, statuettes and figurines of ceramic, china, crystal, glass, earthenware, terra cotta and porcelain; tableware; plates and ornamental plates; plaques of ceramic, china, clay, earthenware, glass, porcelain or pottery; drinking vessels; mugs; jugs; tankards; glass stemware; bottles, insulated bottles and flasks; jars; egg cups; lunch boxes; drink coasters (other than of paper or table linen); serving trays; candlesticks; napkin rings and holders; soap boxes; tooth brushes.

Class 25:

Clothing, footwear, headgear.

Class 41:

Providing gaming on computer systems and via on-line internet and other network communications.

Class 9:
Downloadable computer software; downloadable mobile applications; downloadable computer software for searching, listing and analysing property and real estate investment opportunities; downloadable mobile applications for accessing property listings, educational content and business directories.

Class 35:
Advertising; marketing services; advertising and marketing of real estate and property investment opportunities; provision

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026.

of an online marketplace for buyers and sellers of goods and services; compilation and provision of online business directories; business networking services; provision of business information via a website; arranging of business introductions.

Class 36:

Real estate services; real estate agency services; provision of information relating to real estate; real estate investment services; providing property listings and real estate information via the internet; financial information services; provision of financial information via a website; financial evaluation and calculation services relating to real estate; arranging of introductions to providers of mortgage and property finance services.

Class 41:

Education and training services; providing online training courses; arranging and conducting of seminars, workshops and webinars; providing online non-downloadable videos; providing online electronic publications, not downloadable; publication of educational materials; mentoring [training]; education and training relating to property investment and real estate.

Class 42:

Software as a service [SaaS]; platform as a service [PaaS]; providing temporary use of online non-downloadable software; design and development of computer software; design, creation, hosting and maintenance of websites for others; hosting of online web facilities for others.

KINMOOT LTD

Computer software; application software; computer software for self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, autonomous machines, robots, robotic systems and embodied artificial intelligence systems; computer software using artificial intelligence; artificial intelligence software; machine learning software; reinforcement learning software; computer vision software; foundation model software; multimodal artificial intelligence model software; world model software; generative world model software; vision-language model software; vision-language-action model software; artificial intelligence, computer vision, reinforcement learning and machine learning software for robotics applications, autonomous vehicle applications, driver assistance applications and embodied artificial intelligence applications; artificial

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026.

intelligence software for simulation, virtual reality, self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, autonomous driving systems, autonomous machines, robots, robotic systems and embodied artificial intelligence systems; artificial intelligence software for generating synthetic scenes, synthetic multi-camera video, simulated sensor outputs, simulated environment data, driving scenarios, robotic scenarios, scenario data and synthetic data for use in the development, testing, evaluation, validation and training of autonomous vehicles, driver assistance systems, robots, robotic systems, autonomous machines and embodied artificial intelligence systems; software for modelling, predicting and generating physical environments, driving environments, robotic operating environments, driving scenarios, robotic interaction scenarios and safety-critical scenarios; computer software for open-loop and closed-loop simulation of autonomous vehicles, driver assistance systems, robots, robotic systems, autonomous machines and embodied artificial intelligence systems; computer software for generating, replaying, modifying, re-rendering, transferring and evaluating driving scenarios, robotic scenarios, safety-critical scenarios, rare scenarios, edge-case scenarios and counterfactual scenarios; computer software for re-rendering and transferring scenarios across vehicle types, robotic platforms, sensor configurations and operating environments; simulation software; virtual reality software; virtual reality training simulation software for autonomous vehicles, driver assistance systems, robots, robotic systems, autonomous machines and embodied artificial intelligence systems; software for sensor processing, perception, prediction, planning, route planning, trajectory planning, behaviour planning, motion planning, navigation and control; sensor-to-control software for autonomous vehicles, driver assistance systems, robots, robotic systems and autonomous machines; embedded software and firmware for vehicles, autonomous vehicles, driver assistance systems, automated driving systems, robots, robotic systems and autonomous machines; software for configuring, customising, updating and maintaining autonomous driving behaviour, vehicle behaviour and robotic behaviour; behaviour configuration software; software for active safety systems, collision avoidance, hazard detection, driver assistance, hands-free driving, hands-off driving, eyes-off driving, automated driving and autonomous driving; driver assistance software; advanced driver assistance software; active safety software for vehicles; software for over-the-air software updates for vehicles, autonomous vehicles, driver assistance systems, robots, robotic systems and autonomous machines; software for diagnostics, monitoring, support, maintenance and safety maintenance of vehicles, autonomous vehicles, driver assistance systems, robots, robotic systems and autonomous machines; software for fleet management; software for vehicle and robot control, navigation, deployment, scheduling, booking and dispatching; autonomous taxi fleet software; robotaxi fleet software; autonomous delivery vehicle software; autonomous logistics vehicle software; software for arranging, booking, dispatching, operating and managing autonomous vehicles, robotaxis, autonomous delivery vehicles and autonomous vehicle fleets; software for autonomous mobility services, ride-hailing services, ride-sharing services, transport services, delivery services and logistics services; software development tools; software development kits; application programming interfaces; middleware; runtimes; software libraries; configuration files; data models; simulation tools; software tools for autonomous vehicle, robotics and embodied artificial intelligence development; software for

model training, model fine-tuning, model evaluation, model validation, model verification, model monitoring, model deployment and machine learning operations; software for AI explainability, visual question answering, natural-language interaction with autonomous systems, and the explanation, visualisation and interpretation of artificial intelligence model outputs, driving decisions and robotic actions; software for collecting, processing, annotating, labelling, curating, aggregating, analysing, interpreting, displaying, managing, visualising and mining vehicle data, sensor data, fleet data, telematics data, driving data, robotic operating data, simulation data and synthetic data; data collection software for robotics algorithms, autonomous driving algorithms, driver assistance algorithms and embodied artificial intelligence algorithms; datasets, data models and data corpora in the field of autonomous driving, vehicle operation, driver assistance, robotics, sensor data, telematics, simulation and embodied artificial intelligence; multimedia files relating to autonomous driving, artificial intelligence, robotics, simulation and embodied artificial intelligence; vehicle control systems being parts of vehicles; safety systems being parts of vehicles; active safety systems being parts of vehicles; collision avoidance systems being parts of vehicles.

Class 12:

Vehicles; apparatus for locomotion by land; land vehicles; road vehicles; motor vehicles; passenger vehicles; cars; electric vehicles; autonomous vehicles; self-driving vehicles; driverless vehicles; automated vehicles; autonomous land vehicles; autonomous road vehicles; autonomous cars; self-driving cars; driverless cars; automated cars; robotaxis; autonomous taxis; autonomous passenger vehicles; autonomous shuttles; autonomous buses; autonomous delivery vehicles; autonomous logistics vehicles; robotic vehicles; robotic land vehicles; vehicles for autonomous mobility services; vehicles for ride-hailing services; vehicles for ride-sharing services; vehicles for transport services; vehicles for delivery services; vehicles for logistics services; vehicles incorporating autonomous driving systems; vehicles incorporating automated driving systems; vehicles incorporating advanced driver assistance systems; vehicles incorporating driver assistance systems; vehicles incorporating active safety systems; vehicles incorporating collision avoidance systems; vehicles incorporating automated steering, braking, acceleration, navigation or control systems; vehicles incorporating sensors, cameras, radar, lidar, computing apparatus or control apparatus for autonomous driving, automated driving or driver assistance; vehicle platforms for autonomous vehicles, self-driving vehicles, driverless vehicles, robotaxis, autonomous delivery vehicles and robotic vehicles; structural parts and fittings for autonomous vehicles, self-driving vehicles, driverless vehicles, robotaxis, autonomous delivery vehicles and robotic vehicles; steering systems for vehicles; braking systems for vehicles; drive-by-wire systems for vehicles; propulsion systems for land vehicles; transmissions for land vehicles; parts and fittings for all of the aforesaid.

Class 39:

Transport; arrangement of transport; arrangement of transportation of passengers; arrangement of transportation of passengers by cars, autonomous vehicles and robotaxis; arrangement of transportation of people; arrangement of transportation of goods; transportation of passengers; transportation of passengers by car; transportation of passengers by autonomous vehicles; transportation of passengers by robotaxis; autonomous vehicle transport services; robotaxi

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026.

transport services; autonomous taxi services; ride-hailing transport services; ride-sharing transport services; mobility-as-a-service transport services; transport by autonomous vehicles; transport by driverless vehicles; transport by automated vehicles; chauffeur services; taxi services; car transport services; car sharing services; vehicle sharing services; booking of transport; booking of transportation via a website, software application or mobile application; booking of transport by autonomous vehicles; booking of robotaxi transport; arranging, booking, scheduling and dispatching vehicles, autonomous vehicles, robotaxis and autonomous vehicle fleets; fleet transport services; management of vehicle fleets for transport purposes; providing information relating to transport, autonomous vehicle transport, robotaxi transport, ride-hailing, ride-sharing, routes, journeys, fares, bookings, vehicle location and vehicle availability; vehicle routing services; route planning services; navigation services for transport purposes; travel arrangement; arrangement of travel; arranging and booking of journeys; arrangement of vehicle rental; booking of hire cars; delivery of goods; delivery of goods by autonomous vehicles; autonomous delivery services; collection, transport and delivery of packages by road; logistics services consisting of the transport, packaging and storage of goods; freight and cargo transport services; transport and delivery services using autonomous vehicles, robotic vehicles and autonomous delivery vehicles; information, advisory and consultancy services relating to all of the aforesaid.

Class 42:

Technological, scientific and research services in the field of robotics, self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, robots, robotic systems, autonomous machines, embodied artificial intelligence systems and autonomous vehicle technology; research, design and development of computer software, artificial intelligence software, machine learning software, reinforcement learning software, computer vision software, foundation model software, multimodal artificial intelligence model software, world model software, generative world model software, vision-language model software and vision-language-action model software; research, design and development of software and systems for self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, robotic systems, autonomous machines, embodied artificial intelligence systems and robots; research, design and development of artificial intelligence algorithms, machine learning algorithms, reinforcement learning algorithms, computer vision algorithms, foundation models, multimodal artificial intelligence models, world models, generative world models, vision-language models and vision-language-action models; research, design and development of virtual reality software, simulation software and virtual testing environments for the purpose of training, testing, evaluating, validating and verifying self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, robotic systems, autonomous machines, embodied artificial intelligence systems and robots; research, design and development of computer software for fleet management; research, design and development of computer software for vehicle and robot control, navigation, deployment, scheduling, booking and dispatching; research, design and development of computer software for arranging, booking, dispatching, operating and managing autonomous vehicles, robotaxis, autonomous delivery vehicles and autonomous

vehicle fleets; research, design and development of computer software for autonomous mobility services, ride-hailing services, ride-sharing services, transport services, delivery services and logistics services; research, design and development of software for analysing, collecting, annotating, labelling, curating, aggregating, interpreting, processing, displaying, managing, visualising and mining data in the field of self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, robotic systems, autonomous machines, embodied artificial intelligence systems and robots; software as a service [SaaS]; platform as a service [PaaS]; cloud computing services; software as a service [SaaS], platform as a service [PaaS] and cloud computing services featuring software for machine learning, reinforcement learning, artificial intelligence, computer vision, autonomous driving, driver assistance, robotics, simulation and embodied artificial intelligence; software as a service [SaaS], platform as a service [PaaS] and cloud computing services featuring foundation model software, multimodal artificial intelligence model software, world model software, generative world model software, simulation software, validation software, verification software, AI explainability software, data processing software and behaviour configuration software for autonomous vehicles, driver assistance systems, robotic systems, autonomous machines and embodied artificial intelligence systems; providing virtual computer systems and virtual computer environments through cloud computing for the purpose of training, testing, evaluating, validating and verifying self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, robotic systems, autonomous machines, embodied artificial intelligence systems and robots; providing online non-downloadable software for model training, model fine-tuning, model evaluation, model validation, model verification, model monitoring, model deployment and machine learning operations; machine learning operations services; cloud-based machine learning infrastructure services; software as a service [SaaS] and cloud computing services for fleet management; software as a service [SaaS] and cloud computing services for vehicle and robot control, deployment, navigation, scheduling, booking and dispatching; software as a service [SaaS] and cloud computing services for arranging, booking, dispatching, operating and managing autonomous vehicles, robotaxis, autonomous delivery vehicles and autonomous vehicle fleets; software as a service [SaaS] and cloud computing services for autonomous mobility services, ride-hailing services, ride-sharing services, transport services, delivery services and logistics services; software as a service [SaaS] and cloud computing services for analysing, collecting, annotating, labelling, curating, aggregating, interpreting, processing, displaying, managing, visualising and mining data in the field of self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, robotic systems, autonomous machines, embodied artificial intelligence systems and robots; data-as-a-service services in the field of autonomous driving, vehicle operation, driver assistance, robotics, sensor data, telematics, simulation and embodied artificial intelligence; providing online non-downloadable artificial intelligence software for generating synthetic scenes, synthetic multi-camera video, simulated sensor outputs, simulated environment data, driving scenarios, robotic scenarios, scenario data and synthetic data for use in the development, testing, evaluation, validation and training of autonomous vehicles, driver assistance

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026.

systems, robots, robotic systems, autonomous machines and embodied artificial intelligence systems; providing online non-downloadable generative world model software for modelling, predicting and generating physical environments, driving environments, robotic operating environments, driving scenarios, robotic interaction scenarios and safety-critical scenarios; providing online non-downloadable software for generating, replaying, modifying, re-rendering, transferring and evaluating driving scenarios, robotic scenarios, safety-critical scenarios, rare scenarios, edge-case scenarios and counterfactual scenarios; providing online non-downloadable software for re-rendering and transferring scenarios across vehicle types, robotic platforms, sensor configurations and operating environments; simulation as a service for autonomous vehicle, driver assistance, robotics and embodied artificial intelligence development; computer simulation services for testing, evaluation, validation and verification of autonomous driving software, driver assistance software, robotic control software, robotic perception software and embodied artificial intelligence models; virtual testing of self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, robots, robotic systems, autonomous machines and embodied artificial intelligence systems using computer simulations; creation, development, programming and implementation of simulation software in the field of self-driving cars, autonomous vehicles, driver assistance systems, advanced driver assistance systems, automated driving systems, autonomous driving systems, robotic systems, autonomous machines, embodied artificial intelligence systems and robots; creation of simulation programs for autonomous vehicles, driver assistance systems, robots, robotic systems, autonomous machines and embodied artificial intelligence systems; design, development, testing, evaluation, validation and verification of computer software for autonomous vehicles, driver assistance systems, robots, robotic systems, autonomous machines and embodied artificial intelligence systems; simulation, testing, verification, validation, safety assurance and performance evaluation services for autonomous driving systems, driver assistance systems, robotic systems, autonomous machines and embodied artificial intelligence systems; providing virtual testing environments and digital simulation environments for autonomous vehicle, driver assistance, robotics and embodied artificial intelligence development; providing software for AI explainability, visual question answering, natural-language interaction with autonomous systems, and the explanation, visualisation and interpretation of artificial intelligence model outputs, driving decisions and robotic actions; providing online non-downloadable software for configuring and customising autonomous driving behaviour, vehicle behaviour and robotic behaviour; providing online non-downloadable software for over-the-air software updates, software maintenance, safety maintenance, diagnostics, monitoring and support for autonomous vehicles, driver assistance systems, robotic systems and autonomous machines; artificial intelligence consultancy, research and development services in the field of autonomous vehicles, driver assistance, robotics, simulation and embodied artificial intelligence; information, advisory and consultancy services relating to all of the aforesaid.

BREATHA - Breatha - BreathA

Application for a series of 3 marks.

Class 1:

Chemical preparations for preparing plaster surfaces; chemical preparations in the form of primers for preparing plaster surfaces; chemical preparations for preparing surfaces for plastering; chemical preparations for plastering; bonding agents for plaster; hardening agents for plaster; adhesives for plaster; adhesives for securing plaster; chemical additives for plaster; retarders for use with plaster; agglutinants for plaster; chemical preparations for sealing; chemical preparations for sealing plastered surfaces; chemical sealants for the sealing of surfaces; chemical sealants for the sealing of plastered surfaces.

Class 2:

Primer and sealer coatings; primer and sealer coatings for application to walls, ceilings and floors; primer compounds; paints; varnishes; lacquers; paints for use on plastered surfaces; varnishes for use on plastered surfaces; lacquers for use on plastered surfaces; paint primers for plastered surfaces; sealer coatings for plastered surfaces, in the form of paints. .

Class 17:

Insulating materials; thermal insulating materials; acoustic insulating materials; insulating boards not for building; insulating plaster; insulating plasterboards; insulating coatings; insulating adhesives.

Class 19:

Building and construction materials; building boards, not of metal; plasterboards; plaster; boards made of plaster substitutes, not of metal; boards made of plaster substitutes for building and construction, not of metal; plaster substitutes; plaster substitutes for building and construction; drywall; mould resistant plasterboards; mould resistant drywall; wall boards; floor boards, not of metal; ceiling boards, not of metal; boards for walls and floors, not of metal ; boards of gypsum plaster; gypsum wallboards; gypsum board; building and construction materials, namely, mortar, mortar mixes, bonding mortar for building purposes, renders, interior and exterior wall linings, interior and exterior plaster wall linings, low carbon and carbon negative plaster wall boards, low carbon and carbon negative wall boards, plaster and plasterboards, none of metal; building boards of plaster, not of metal; non-metallic boards made of plaster substitutes, namely gypsum-based boards, cement-bonded fibre boards, polymer-modified plaster replacement compounds, and cementitious wall finishings; non-metallic boards made of plaster substitutes for building and construction, namely gypsum-based boards, cement-bonded fibre boards, polymer-modified plaster replacement compounds, and cementitious wall finishings; plaster substitutes, namely gypsum-based plaster, cement-based plaster, polymer-modified plaster replacement compounds, and cementitious wall finishings; plaster substitutes for building and construction, namely gypsum-based plaster, cement-based plaster, polymer-modified plaster replacement compounds, and cementitious wall finishings; wallboards of plaster; floor boards of plaster; ceiling boards of plaster; boards for walls and floors of plaster; gypsum wall boards; mould resistant gypsum wall boards; building boards made of plaster substitutes; wall boards; building and construction materials, not of metal; plaster substitutes (non-metallic building materials); plaster substitutes (non-metallic) for building and construction; wall boards, not

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026 .

of metal; renderings; interior and exterior wall linings, not of metal; low carbon and carbon negative wall boards (not of metal); renders (wall coatings); mortar for building; mortar mixes for building; plaster renders for building; lime render for building; bio-composite renders for building; cement renders; interior and exterior wall linings, not of metal, for building.

Class 1:
Reagents used in science, including for forensic examinations and test kits used in science, in particular for verifying, diagnosing and monitoring and predicting the progress (including post-treatment) of illnesses, such as inflammatory, infectious, central nervous system, cardiovascular, neurological, endocrine, autoimmune, metabolic and genetic diseases and cancer; chemical, biochemical and biological products and reagents for industrial and scientific purposes; diagnostic preparations for scientific purposes; enzymes [other than for medical use] for labelling DNA, RNA and proteins; enzymes [other than for medical use] in detecting DNA, RNA and proteins; chemical preparations for use in multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; chemical reagents for use in multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; biomolecule labelling kits comprising reagents for use in scientific research; chemical diagnostic reagents for industrial use; chemical reagents for identification of microorganisms, other than for medical or veterinary use; chemical reagents for laboratory use, other than for medical or veterinary use; chemical reagents for molecular biology, other than for medical or veterinary use; chemical reagents for non-medical purposes; chemical reagents for scientific purposes; chemical reagents for susceptibility determinations, other than for medical or veterinary use; chemical reagents for use in analytical tests, other than for medical or veterinary use; chemical reagents for use in biotechnology, other than for medical or veterinary use; chemical reagents for use in diagnosis, other than for medical or veterinary use; chemical reagents for use in diagnostic tests,

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026 .

other than for medical or veterinary use; chemical reagents for use in genetic research; chemical reagents for use in industry; chemical reagents for use in science, other than for medical or veterinary use; chemical reagents, other than for medical or veterinary purposes; chemical test reagents [other than medical or veterinary]; diagnostic kits comprising specimen receptors and reagents for testing for selected bacteria; diagnostic reagents and preparations, except for medical or veterinary use; diagnostic reagents for in vitro use in biochemistry, clinical chemistry and microbiology; reagents (Chemical -) other than for medical or veterinary purposes; reagents for analytical purposes [other than for medical or veterinary purposes]; reagents for chemical analyses; reagents for in-vitro laboratory use [other than for medical or veterinary purposes]; reagents for industrial purposes; reagents for laboratory purposes [other than for medical or veterinary purposes]; reagents for medical research; reagents for microbiological analysis [other than for medical or veterinary purposes]; reagents for research purposes; reagents for scientific or medical research use; reagents for scientific purposes; reagents for use in analysis [other than for medical or veterinary purposes]; reagents for use in analytical tests [other than for medical or veterinary purposes]; reagents for use in biological processing [other than for medical or veterinary purposes]; reagents for use in diagnostic tests [other than for medical or veterinary purposes]; reagents for use in scientific apparatus for chemical or biological analysis; reagents used in science; diagnostic reagents for scientific use; diagnostic reagents, except for medical or veterinary use; diagnostic reagents, other than for medical laboratory use; diagnostic reagents, other than for medical use for sale in kit form; in-vivo diagnostic reagents for scientific use; laboratory reagents for scientific use; test reagents [other than for medical use]; testing reagents for industrial use; testing reagents for scientific use; diagnostic chemicals [other than for medical or veterinary use]; diagnostic preparations for scientific or research use; diagnostic preparations for scientific or research use other than for medical use; diagnostic preparations for scientific purposes; diagnostic preparations other than for medical or veterinary purposes; diagnostic preparations used in science; diagnostic preparations, except for medical or veterinary use; diagnostic preparations, other than for medical or veterinary purposes; diagnostic reagents for in-vitro use [other than medical]; diagnostic reagents for scientific or research use; diagnostic substances, other than for medical use; diagnostic testing materials, other than for medical use; chemical products for diagnostic use [scientific]; clinical diagnostics, other than for medical or veterinary use; in vivo diagnostic scanning agents for scientific use; chemical preparations for use in DNA analysis [other than medical]; enzymes [other than for medical or veterinary use]; enzymes derived from biotechnological processes for use in industry; enzymes for industrial purposes; enzymes for scientific purposes; enzymes for technical use; enzymes for use as biochemical catalysts.

Class 5:

Medical, veterinary and pharmaceutical preparations; diagnostic testing materials for medical and veterinary purposes; chemical, biochemical and biological products and reagents for medical and veterinary purposes; clinical medical and veterinary reagents; clinical diagnostic reagents; assays for testing of body fluids; chemical preparations for testing body fluids for medical and veterinary purposes; chemical preparations for use in DNA, RNA and protein analysis [medical]; chemical preparations for testing blood for medical purposes and veterinary purposes; pharmaceutical products; reagents for medical use, for verifying, diagnosing and monitoring and predicting

the progress (including post-treatment) of inflammatory, infectious, central nervous system, cardiovascular, neurological, endocrine, autoimmune, metabolic and genetic diseases and cancer, in particular consisting of reagents and processing chemicals; chemical preparations for use in multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; clinical medical and veterinary reagents for multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; diagnostic preparations for medical and veterinary purposes for multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; diagnostic preparations for medical and veterinary use; diagnostic testing materials for medical and veterinary use; in vitro diagnostic preparations for medical and veterinary use; biological reagents for medical use; biological reagents for veterinary use; chemical diagnostic reagents for medical use; chemical reagents for medical or veterinary purposes; chemical reagents for medical use; chemical reagents for veterinary use; chemical test reagents [medical]; chemical test reagents [veterinary]; clinical diagnostic reagents; clinical medical reagents; diagnostic biomarker reagents for medical purposes; diagnostic chemical reagents for medical use; reagents (chemical -) for medical or veterinary purposes; reagents for analytical purposes [for medical purposes]; reagents for analytical purposes [for veterinary purposes]; reagents for in-vitro laboratory use [for medical purposes]; reagents for in-vitro laboratory use [for veterinary purposes]; reagents for medical use; reagents for microbiological analysis [for medical purposes]; reagents for microbiological analysis [for veterinary purposes]; reagents for use in analysis [for medical purposes]; reagents for use in analysis [for veterinary purposes]; medical diagnostic reagents; medical diagnostic reagents and assays for testing of body fluids; veterinary diagnostic reagents; diagnostic agents for medical use; diagnostic agents for pharmaceutical use; diagnostic preparations and materials; diagnostic preparations for medical and veterinary use; diagnostic preparations for medical or veterinary purposes; reagents and media for medical and veterinary diagnostic purposes; enzymes for medical purposes; enzymes for veterinary purposes.

Class 9:

Software and application software for use in the fields of scientific, laboratory, medical, clinical, veterinary, and pharmaceutical research, and for research and applications in the fields of biotechnology, biochemistry, microbiology, multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; software and application software for use in the detection, diagnosis, prognosis, monitoring, treatment and management of illnesses and diseases, and detecting, labelling, and analysing DNA, RNA and proteins; software and application software for scientific and medical analysis of multiomic, genetic, epigenetic, genomic, epigenomic, transcriptomic, proteomic and fragmentomic data; software and application software for use in analytical tests; artificial intelligence and machine learning software for use in the fields of scientific, laboratory, medical, clinical, veterinary, and pharmaceutical research, and for research and applications in the fields of biotechnology, biochemistry, microbiology, multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; artificial intelligence and machine learning software for use in the detection, diagnosis, prognosis, monitoring, treatment and management of illnesses and diseases, including detecting,

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026.

labelling and analysing DNA, RNA and proteins; artificial intelligence and machine learning software for use in scientific and medical analysis of multiomic, genetic, epigenetic, genomic, epigenomic, transcriptomic, proteomic and fragmentomic data; artificial intelligence and machine learning software for use in analytical tests; downloadable and recorded content in the fields of scientific, laboratory, medical, clinical, veterinary, and pharmaceutical research, and for research and applications in the fields of biotechnology, biochemistry, microbiology, multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; downloadable and recorded content for use in the detection, diagnosis, prognosis, monitoring, treatment and management of illnesses and diseases, including detecting, labelling and analysing DNA, RNA and proteins; downloadable and recorded content for use in scientific and medical analysis of multiomic, genetic, epigenetic, genomic, epigenomic, transcriptomic, proteomic and fragmentomic data; downloadable and recorded content for use in analytical tests; electronic publications in the fields of scientific, laboratory, medical, clinical, veterinary, and pharmaceutical research, and for research and applications in the fields of biotechnology, biochemistry, microbiology, multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; electronic publications in the fields of the detection, diagnosis, prognosis, monitoring, treatment and management of illnesses and diseases, including detecting, labelling and analysing DNA, RNA and proteins; electronic publications in the field of scientific and medical analysis of multiomic, genetic, epigenetic, genomic, epigenomic, transcriptomic, proteomic and fragmentomic data; electronic publications in the field of analytical tests.

Class 42:

Scientific consultancy; laboratory services; provision of information and data relating to medical and veterinary research and development; biochemistry consultancy; scientific testing services; biological testing; medical, veterinary and pharmacological research services; biochemical research; scientific research; research laboratories; genetic research; laboratory research; provision of research services; research services relating to DNA, RNA and protein testing; research, development and design of scientific, veterinary and medical testing products; providing medical, veterinary and scientific research information in the field of medical and clinical trials and medical and genetic testing; research in the fields of multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; research services relating to multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; computer aided diagnostic testing services; computer diagnostic services; DNA screening for scientific research purposes; conducting clinical trials; conducting clinical trials for pharmaceutical products; providing information about the results of clinical trials for pharmaceutical products; providing medical and scientific research information in the field of pharmaceuticals and clinical trials; clinical research; clinical trials; biological research, clinical research and medical research; software as a service (SaaS) services for use in the fields of scientific, laboratory, medical, clinical, veterinary, and pharmaceutical research, and for research and applications in the fields of biotechnology, biochemistry, microbiology, multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; software as a service (SaaS) services for use in the detection, diagnosis, prognosis, monitoring, treatment and management of illnesses and diseases,

and detecting, labelling, and analysing DNA, RNA and proteins; software as a service (SaaS) services for scientific and medical analysis of multiomic, genetic, epigenetic, genomic, epigenomic, transcriptomic, proteomic and fragmentomic data; software as a service (SaaS) services for use in analytical tests; software as a service (SaaS) services featuring software using artificial intelligence and machine learning software for use in the fields of scientific, laboratory, medical, clinical, veterinary, and pharmaceutical research, and for research and applications in the fields of biotechnology, biochemistry, microbiology, multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; software as a service (SaaS) services featuring software using artificial intelligence and machine learning software for use in the detection, diagnosis, prognosis, monitoring, treatment and management of illnesses and diseases, and detecting, labelling, and analysing DNA, RNA and proteins; software as a service (SaaS) services featuring software using artificial intelligence and machine learning software for scientific and medical analysis of multiomic, genetic, epigenetic, genomic, epigenomic, transcriptomic, proteomic and fragmentomic data; software as a service (SaaS) services featuring software using artificial intelligence and machine learning software for use in analytical tests; design and development of computer software in the fields of multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; product design and development, and design and development of new technology for others; product design and development, and design and development of new technology for others in the fields of science, medicine, veterinary medicine, pharmaceuticals, biotechnology, biochemistry, microbiology, multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; product design and development, and design and development of new technology for others for use in the detection, diagnosis, prognosis, monitoring, treatment and management of illnesses and diseases, and detecting, labelling, and analysing DNA, RNA and proteins; product design and development, and design and development of new technology for others for use in analytical tests; design and development of scientific and medical diagnostic apparatus and equipment; DNA sequencing technology research; structural and functional analysis of genes and genomes; information, advisory and consultancy services relating the aforesaid.

Class 44:

Medical services; veterinary services; advisory services relating to medical and veterinary services; medical and veterinary testing; medical and veterinary diagnosis services; analysis of data for medical and veterinary purposes; genetic testing; medical, veterinary and health services relating to DNA, RNA and protein testing of humans and animals; medical and veterinary analysis services; laboratory analysis services for medical and veterinary purposes; DNA, RNA and protein screening for medical and veterinary purposes; medical and veterinary analysis services relating to multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; medical, veterinary and health services relating to multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; laboratory analysis services relating to multiomics, genetics, epigenetics, genomics, epigenomics, proteomics, transcriptomics and fragmentomics; medical diagnostic services; medical testing for diagnostic or treatment purposes; optical imaging for medical diagnostic use; DNA screening for medical purposes; medical

List of cases accepted for opposition purposes as shown in Journal 2026/033 published on 14 August 2026.

and health services relating to DNA, genetics and genetic testing; RNA or DNA analysis for cancer diagnosis and prognosis; information, advisory and consultancy services relating the aforesaid.
