Class 9:
Downloadable computer software applications; Downloadable software applications; Computer programs, downloadable; Downloadable publications; Publications (Electronic -), downloadable; Downloadable electronic reports; Reporting software; Database engines; Databases; Computer database servers; Databases (electronic); Database server software; Database management software; Interactive databases; Interactive database software; Interactive software; Computer software for accessing databases; Computer software for application and database integration; Downloadable digital image files authenticated by non-fungible tokens [NFTs]; Downloadable computer software applications for minting non-fungible tokens [NFTs]; Computer software to enable searching of data; Computer software to enable searching and retrieval of data; Computer search engine software; Computer software for creating searchable databases of information and data; Computer software for accessing, browsing and searching online databases; Downloadable computer software for blockchain technology; Downloadable software; Downloadable computer software; Software downloadable from the internet; Business technology software; Software for Smart Contracts; Downloadable application software; Downloadable computer software for use as a digital wallet; Downloadable translation software; Downloadable cloud computing software; Search

engine software; Search marketing software; Software for searching and retrieving information across a computer network; Artificial intelligence software for analysis; Software for the analysis of business data; Facial analysis software; Machine learning software for analysis; Downloadable computer software for remote monitoring and analysis; Computer software for analysing market information; Speech analytics software; Bioinformatics software; Data mining software; Downloadable computer software for managing cryptocurrency transactions using blockchain technology; Software; Maintenance software; Artificial intelligence software; Artificial intelligence and machine learning software; Artificial intelligence software for vehicles; Artificial intelligence software for surveillance; Software for the integration of artificial intelligence and machine learning in the field of Big Data; Artificial intelligence software for healthcare; Interactive software based on artificial intelligence; Artificial intelligence software for driverless cars; Data processing software for graphic representations; Data buffers; Computer software; Computer application software; Computer software for computer aided software engineering; Business intelligence software; Software for converting natural language into machine executable commands; Computer software for testing vulnerability in computers and computer networks; computer software using artificial intelligence for development programs for creating and developing computer programs for others to be used on cloud-based servers; downloadable computer software for designing and publishing conversational user interfaces (cuis) featuring large language models (llms) and generative artificial intelligence (ai) to assist users in tasks, decision-making processes, communication, and analysing data across multiple applications; content creation software using artificial intelligence for users on a social networking, employment, and business networking communication platform; downloadable cloud computing software using artificial intelligence for providing curated content and information on subject matter experts to users; artificially intelligent chatbot computer software and application software for providing customer support and customer services; downloadable or recorded computer software using artificial intelligence for managing, operating, designing, implementing, maintaining, controlling, administering, optimising, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, analysing, virtualising, securing, upgrading, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; downloadable computer software that uses an artificial intelligence model for performing generative text ai tasks and natural language processing ai tasks and for writing content based on a theme, summarising text, document question-answering and simulating natural conversation; downloadable chatbot software using generative artificial intelligence (ai) for locating, analysing, summarising, editing, and providing data and information in response to user inquiries; downloadable computer software using artificial intelligence for generating text, images, video, and sound, editing images, and for users to interact with artificial intelligence chatbots and virtual characters to simulate conversations; downloadable computer software featuring artificial intelligence (ai) that enables users to build features and functionalities into web and mobile-based applications, platforms and programs; downloadable cloud-computing software for running developer and artificial intelligence (ai) workloads in the context of software development, delivery, and hosting; software for use as an application programming interface (api) enabling interaction with large language models; downloadable apis, plug-ins, and enterprise transformation kits for scaling ai programs and integrating workflows; computer software development tools, for use in the fields of artificial intelligence, natural language processing, image content analysis, speech recognition, deep learning, high performance computing, distributed computing, virtualisation machine learning, cluster computing, internet of things, and container management; software development tools relating to artificial intelligence, and report generation; downloadable computer software platforms for generating code, managing databases, and developing applications and websites using artificial intelligence; downloadable computer software for social networking, web based conferencing, audio conferencing, video conferencing, and teleconferencing for use as an application programming interface (api) for communications software facilitating voice over internet protocol (voip) calls, phone calls, video calls, text messages, instant message and online social networking services; downloadable computer software using artificial intelligence (ai) for a secure, serverless runtime capability to deploy and scale intelligent agents and tools across various frameworks, protocols, and models; computer software platforms for assisting software developers in the field of artificial intelligence; downloadable and recorded software applications for development and deployment of artificial intelligence (ai)-enabled applications, including for ai training and ai inference, computer programs, machine learning, software and tools, data centre and cloud computing software, wireless communications, adaptive software application development, application program interfaces (apis), adaptive software deployment and optimised inference models; software that helps track and manage digital assets, including intellectual property rights, licensing agreements, and royalty payments; software for monitoring and managing digital identity, including detection and prevention of unauthorised use of brand names, trademarks, and personal data on online platforms and social media; computer software for the management of intellectual property; downloadable and cloud-based computer software for managing real estate tokenisation, digital asset trading, and investment tracking; software for blockchain-based property management and financial transactions; cryptographic software and hardware for secure digital asset transactions and token storage; mobile applications for real estate investment, crowdfunding, and digital token management; electronic databases featuring property and investment data stored on blockchain or distributed ledger technology; software, enabling the authentication, ownership, availability and trading of digital assets; computer software and programs for the searching, management, monitoring and tracking of intellectual property assets, including trade marks, company names and domain names; downloadable computer software for collecting and aggregating data and information in the fields of intellectual property and insurance for the purpose of providing intellectual property consulting, namely, providing for information on intellectual property strategy, intellectual property asset risks, and intellectual property valuation.

Class 35:
Database management; Business enquiry services; Business enquiries and investigations; Information or enquiries on business and marketing; Business information and inquiries; Business services relating to the establishment of businesses; Business consultation services; Business examinations services; Business research services; Business research and survey services; Business research and information services; Advertising and advertisement services; Advertising and promotion services; Digital advertising services; Advertising

services relating to the provision of business; Advertising and marketing services; Planning services for advertising; Business analysis services; Business data analysis services; Business analysis; Advisory services relating to business analysis; Business research and advisory services; Business research consulting; Research of business information; Business analysis and information services, and market research; Business research for new businesses; Business data research; Business strategy and planning services; Business strategy development services; Business planning services; Business strategy services; Business strategic planning; Consultancy and advisory services in the field of business strategy; Advisory services relating to business planning; Business consultancy services for digital transformation; Statistical analysis and reporting services for business purposes; Assistance, advisory services and consultancy with regard to business analysis; Business management advice and assistance; Assistance and advice regarding business organisation and management; Business management assistance; Data processing; Compilation of data; Computerised data verification; Advisory services (Business -) relating to the exploitation of inventions; Compilation of business information; Business intelligence services; Market intelligence services; Competitive intelligence services; Data processing verification; business consulting services in the field of software development, developer productivity, and artificial intelligence (ai); providing in-depth business analysis and research to identify the most suitable ai tools, systems, and platforms for businesses at any stage of adoption, ensuring an effective and efficient integration process; provision of an online marketplace for buyers and sellers of software; providing online business information in the field of intellectual property management; business services, namely, administration of a program to record intellectual property rights and report violations; business services, namely, providing online, non-downloadable software for intellectual property rights protection and enforcement; business services, namely, providing a program to protect intellectual property rights; business strategy consulting related to intellectual property protection and monetisation; collection and systematisation into computer databases of information and data relating to patents, other intellectual property, innovation, and commercialisation of intellectual property; lead generation and business development services using artificial intelligence (ai); data-driven business analytics for law firms using ai technology; market research services utilising artificial intelligence and data analytics; business advisory services relating to the implementation of artificial intelligence (ai) and automation technologies in scientific workflows.

Class 36:
Electronic funds transfer provided via blockchain technology; Financial transactions via blockchain; Financial analysis; Intellectual property valuation services; Insurance advisory services; Investment advisory services; Management of investment portfolios; Management of portfolios of securities; Asset and portfolio management; Electronic processing of payments; Processing of electronic payments; financial services provided via a digital property management platform; consultancy relating to the financial valuation of intellectual property assets; financing services for the securing of funds for business; financial valuation of intellectual property assets; insurance services relating to insured intellectual property; insurance relating to cyber-attack and cyber liability; financial analysis and research services relating to intellectual property; financial risk assessment of intellectual property.

Class 38:
Providing user access to platforms on the Internet; Providing access to platforms and portals on the Internet; providing online access to ai transformation platforms, enterprise dashboards, collaborative strategy portals, and knowledge engines via telecommunications networks; Electronic transmission of real-time telemetry and diagnostic data from industrial sensory devices to a centralised monitoring platform.

Class 41:
Courses (Training -) relating to law; Training courses; Education courses relating to automation; Courses (Training -) relating to science; organising, arranging and conducting conferences, seminars, webinars and workshops in the field of intellectual property; educational services, namely, arranging and conducting of conferences in the field of finance.

Class 42:
Reconstitution of databases; Hosting of databases; Development of databases; Design of computer database software; Updating of software databases; Providing online non-downloadable computer software for minting non-fungible tokens [NFTs]; Computer analysis; Building research services; User authentication services using blockchain technology; Blockchain as a service [BaaS]; Technical data analysis services; Advisory and information services relating to computer software; Advisory services relating to computer software; Advisory services relating to the use of computer software; Advisory services relating to the rental of computers or computer software; Advisory services relating to computer software design; Technical advisory services relating to computer programs; Development services in the field of computer software and advisory services relating thereto; Computer software installation; Installation of database software; Installation and maintenance of computer software; Installation, setting up and maintenance of computer software; Installation of computer programs; Installation and customisation of computer applications software; Computer software maintenance; Maintenance of and updating of computer software; Updating and maintenance of computer software and programs; Maintenance and upgrading of computer software; Development and maintenance of computer software; Hosting platforms on the Internet; Hosting websites on the Internet; Hosting of portals on the internet; Server hosting; Programming of software for information platforms on the Internet; Research in the field of artificial intelligence; Technology consultation in the field of artificial intelligence; Artificial intelligence consultancy; Research in the field of deep learning; Artificial intelligence as a service [AIaaS]; Research in the field of information technology; Research in the field of computer natural language processing; Platforms for artificial intelligence as software as a service [SaaS]; Providing artificial intelligence computer programs on data networks; Technological research in the field of data mining; Software as a service [SaaS] featuring computer software platforms for artificial intelligence; Software as a service [SaaS] services featuring software for machine learning, deep learning and deep neural networks; Data warehousing; Decoding of data; Data authentication via blockchain; Data storage via blockchain; Certification of data via blockchain; Leasing of computer software; Computer software consulting; Leasing of computer programs; Software as a service [SAAS] services; Digital watermarking; Digitisation of documents; Professional consultancy relating to computer security; Computer security services for protection against illegal network access; providing customised web pages featuring

member-defined information, audio, text, video, and images; providing on-line non-downloadable software using artificial intelligence (ai) for intelligent chat agents and chatbots; providing artificial intelligence computer programs and software on data networks and via online platforms; providing online non-downloadable software for processing and generating text, voice, images, videos, and computer code in response to natural language prompts, visual prompts, text, speech, images, and video, for natural language recognition, processing, analysis, understanding, and generation, for speech recognition, translation, transcription, and translating speech and text from one language to another, and for using and creating generative ai models; providing on-line non-downloadable cloud computing software using artificial intelligence (ai) for machine learning and deep learning for applying generative capabilities to data from a foundational model to enable users to analyse documents, perform comparative analysis, summarise content, generate text, math and reasoning, and execute actions; downloadable software using artificial intelligence (ai), generative ai, and large language models (llms), for performing generative text and natural language processing (nlp) tasks, featuring content generation, summarisation, document-based question answering, data-based question answering, analysis of data and program outputs across multiple programs and the internet, suggesting relevant programs and program features based on user questions, creating technical and economic workflows based on user questions, and conversational interaction including providing contextual guidance to act as a virtual assistant; providing online non-downloadable software and computer programs for sharing datasets for the purpose of machine learning, predictive analytics, and building language and image models, for developing and implementing artificial neural networks, for the purpose of testing artificial intelligence agents, algorithms, or programs, and for using, customising, fine-tuning, and adapting artificial intelligence models; providing on-line non-downloadable software using artificial intelligence (ai) for processing, generation, understanding and analysis of natural language into machine-executable commands; providing on-line non-downloadable software using artificial intelligence (ai) for building personalised intelligent agent experiences with fully-managed memory infrastructure and the ability to customise memory; providing on-line non-downloadable software for creating, generating, editing, querying, interpreting, distilling, summarising, and managing content leveraging ai technology, and for providing chatbot software for simulating conversations; providing online non-downloadable software and cloud platforms using artificial intelligence that route and transmit data between connected devices, applications, and data platforms; providing on-line non-downloadable software using artificial intelligence (ai) for intelligent agents for generating comprehensive reports by conducting thorough research across enterprise and external sources; providing online non-downloadable software using artificial intelligence (ai) for simulating conversations, natural language processing, and replying to user inquiries to assist users in tasks, decision-making processes, communication, and analysing data across multiple applications and the internet; providing temporary use of online non-downloadable cloud computing software using artificial intelligence for use in software development, machine learning, facial and speech recognition; providing online non-downloadable computer software for artificial intelligence and using artificial intelligence for machine learning, voice recognition, image recognition and processing, graphics recognition and processing, text recognition and processing, speech analytics, generating images and videos from text, speech to text conversion, text to speech conversion, searching, licensing, purchasing and downloading digital content, accessing, browsing and searching online databases, and for the integration of artificial intelligence and machine learning in the field of big data; ai development and cloud services; downloadable and recorded software application programming interface (api), and software widget for machine learning, data mining, data query, and data analysis technical design consulting services in the field of computers and wireless computing; providing on-line non-downloadable software using artificial intelligence (ai) for developing and running intelligent agents using virtual machine (vm)-level isolation, identity controls, virtual private cloud (vpc) integration, and flexible network modes; providing online non-downloadable computer software for use in security applications, namely, loss control protection, anti-theft protection, anti-virus protection, intrusion detection, firewall and prevention of computer applications from performing potentially damaging operations, asset management, namely, asset auto-discovery, asset distribution, protection of data, namely, remotely activating automatic geolocation, locking of devices, data encryption and remote deletion of data, through personal computing devices such as laptops, personal computers, personal digital assistants, mobile phones and other computing devices; installation, implementation and ongoing support and maintenance of computer software for computers, computer tablets, personal digital assistants, mobile phones and other computing devices for the protection of data by remotely activating automatic geolocation, locking of devices, data encryption and remote deletion of data; cloud-based storage and management of intellectual property records on all applicable systems including on the blockchain; technological services in the field of digital asset management; platform as a service (paas) featuring software for accessing, viewing and managing intellectual property portfolios; computer software consulting services to assist the management of intellectual property risks of the software development process; hosting and maintenance of secure online platforms providing trust-based digital infrastructure for real-time safety monitoring, alert management, and communication; providing a website featuring information on web privacy, cryptocurrency technologies, software related to digital tokens and digital assets, blockchain and computer ledger technologies; it services for managing online platforms and databases related to trademark, patent, and copyright registrations; providing cybersecurity services to protect digital assets and intellectual property from hacking, piracy, or unauthorised access; providing public key infrastructure administration, identity and access management, and information and product security services; providing technology information in the field of measuring and evaluating digital assets, risk exposure of and to devices or accounts, and network, data, and computer security; providing online non-downloadable computer software that provides monitoring, analysis, auditing, management, detecting, classifying, protecting, reporting, and securing of sensitive information and data located in cloud computing environments for computer and mobile applications, computer and mobile platforms, and user interfaces related thereto; blockchain technology, cryptography, privacy, security, distributed ledger computing, digital tokens and digital assets, providing software related to blockchain and ledger technologies safeguarding intellectual property; providing online non-downloadable software for creating searchable databases of information and data relating to patents, other intellectual property, innovation, and commercialisation of

intellectual property; hosting an online platform featuring tools for analysis of patents and patent applications; providing artificial intelligence based data analysis, pattern discovery, process automation, contextual prediction, predictive analytics, predictive modelling, recognition, segmentation, regression, decision support and visualisation services; advice and research in the field of artificial intelligence technology, cloud computing, cybersecurity, blockchain technology, quantum computing, software as a service (saas) and robotic process automation technology; providing ai-based data analytics services; provision of ai-powered analytics services and apis for integration with third-party software platforms; cybersecurity services.

Class 45:

Mark 1

Mark 2

Application for a series of 2 marks.

Class 7:
Laser engraving machines; Laser welding apparatus; Portable laser engraving machines; Etching machines; Laser welding machines; Laser welding devices; Portable laser imprinters; Line marking machines; Engraving machines; Computerized engraving machines; Laser cutting torches; Laser cutting machines; Cutting machines; Laser welding apparatus; Peening machines, namely dot peen marking machines; Dot matrix marking machines ; Laser jet marking machines; Inscribing machines.

Class 9:
Smartphone software; Software; Mobile application software; Mobile software; Smartphone software applications, downloadable; Application software; Plugin software; Computer application software; Downloadable smart phone application software; Web application software; QR code labels; Downloadable mobile applications or computer software used to generate, read, or process QR codes and encoded data; All of the above in relation to laser welding, laser engraving, laser etching, laser marking, laser cutting, peening, dot matrix marking, or inscribing.

SHARK FABRICATION TECHNOLOGIES LTD

Representative: Loven Patents and Trademarks Limited
51 Wragby Road Sudbrooke, LINCOLN, LN2 2QU, GB

UK00004433322 20 August 2026
(9, 35, 42)

International priority date claimed:
20 February 2026 (UNITED STATES OF AMERICA)

Class 9:
Downloadable computer software for finding and organizing business information and business contacts and developing sales leads, candidates, vendors, partners, prospects, and others; Downloadable computer software for accessing, extracting, storing, searching, providing, appending, combining, and organizing information from the Internet and other sources regarding people, companies, products, markets, industries, and other categories to develop databases of information or search engines to enable use, extraction, combining, marketing, organizing, and searching of those databases or interactions with other databases; Downloadable computer software for use in customer relationship management (CRM); Downloadable software for compiling and organizing business intelligence; Downloadable computer software for sales lead prospecting, contact discovery, sales and marketing automation, email campaign management, digital advertisement automation, social selling, buyer intent detection, and sales analytics; Downloadable computer software for transmitting emails from a subscriber list; Downloadable computer software for creating searchable databases of information and data; Downloadable computer software using artificial intelligence (AI) for searching and managing business contacts, business and commercial information, sales leads, sales prospects, customer information, sales analytics, advertising campaigns, and advertising analytics, and for creating and managing advertising and marketing campaigns; Downloadable computer software for application and database integration.

Class 35:
Providing commercial and business contact information; Providing business intelligence services; Analyzing and compiling data for measuring the performance of advertising campaigns; Lead generation services.

Class 42:
Software as a service (SAAS) services, namely, hosting software for use by others for finding and organizing business information and business contacts and developing sales leads, candidates, vendors, partners, prospects, and others; Software as a service (SAAS) services featuring software for accessing, extracting, storing, searching, providing, appending, combining, and organizing information from the Internet and other sources regarding people, companies, products, markets, industries, and other categories to develop databases of information or search engines to enable use, extraction, combining, marketing, organizing, and searching of those databases or interactions with other databases; Software as a service (SAAS) services featuring software for use in customer relationship management (CRM); Software as a service (SAAS) services featuring

software for sales lead prospecting, contact discovery, sales and marketing automation, email campaign management, digital advertisement automation, social selling, buyer intent detection, and sales analytics; Software as a service (SAAS) services featuring software for transmitting emails from a subscriber list; Software as a service (SAAS) services featuring software for creating searchable databases of information and data; Providing online non-downloadable software for compiling and organizing business intelligence; Artificial intelligence as a service (AIAAS) services featuring software using artificial intelligence (AI) for searching and managing business contacts, business and commercial information, sales leads, sales prospects, customer information, sales analytics, advertising campaigns, and advertising analytics, and for creating and managing advertising and marketing campaigns; IT integration services; Software as a service (SAAS) services, namely, hosting software for use by others for in connection with data storage and backup, database management, cloud computing, data protection and security, monitoring cloud and application performance, cloud infrastructure management and automation, virtualization, networking, user authentication, remote access, remote support, data sharing, and related technical support in the nature of help desk services for IT infrastructure, operating systems, database systems, and web applications; Providing an on-line searchable database featuring business information and business contacts.

Mark 2

Application for a series of 2 marks.

Class 7:
Robots; industrial robots; robotic machines; robotic mechanisms; robotic platforms; robotic machines for industrial purposes; autonomous robotic machines; autonomous mobile industrial robots; remotely controlled robotic machines; telerobots for industrial operation; robotic arms for industrial purposes; robotic handling apparatus; robotic handling apparatus for industrial purposes; control mechanisms for robots, robotic machines, robotic mechanisms and robotic platforms; engines and motors, other than for land vehicles; aircraft engines; aircraft motors; aeronautical engines; aeroplane engines; aeroplane motors; engines and motors for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; electric motors, other than for land vehicles; electric motors for aircraft; electric motors for aeroplanes; electric motors for unmanned aerial vehicles, uncrewed aerial vehicles and drones; electric engines for the propulsion of aircraft; electric drives for aircraft; gas turbine engines for air vehicles; combustion engines for aircraft; turbojet engines for aircraft; turbines, other than for land vehicles; air turbines for aircraft; propulsion mechanisms, other than for land vehicles; power transmission mechanisms, other than for land vehicles; power transmissions for aircraft; power transmission couplings for aircraft; machine coupling and transmission components, except for land vehicles; transmissions for machines; gearboxes, other than for land vehicles; actuators; actuating mechanisms; hydraulic actuators; pneumatic actuators; actuating mechanisms for aircraft; control mechanisms for machines, engines and motors; control mechanisms for electric motors for aircraft; compressors; turbocompressors; generators; electric generators; pumps; parts, fittings and accessories for robots, robotic machines, robotic mechanisms and robotic platforms; parts and fittings for engines and motors; parts and fittings for aircraft engines and motors; parts and fittings for engines and motors for unmanned aerial vehicles, uncrewed aerial vehicles and drones; parts and fittings for propulsion mechanisms; parts and fittings for all the aforesaid goods. .

Class 9:
Computer hardware; downloadable computer software; recorded computer software; application software; embedded software; firmware; artificial intelligence software; machine learning software; deep learning software; computer vision software; autonomous systems software; software for artificial intelligence, machine learning, deep learning, computer vision and autonomous decision-making; software for robotics and autonomous systems; software for the autonomous, semi-autonomous and remotely controlled operation of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; software for controlling and operating robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; software for the control, navigation, guidance, piloting, operation, monitoring, management and remote control of autonomous, semi-autonomous and remotely operated systems; autonomous control software; flight control software; software for autonomous navigation; software for coordinating multiple autonomous or unmanned systems; software for mission planning, mission management, mission control and mission execution; software for autonomous decision-making, planning and execution of tasks; software for path planning, route planning and motion planning; software for obstacle detection and obstacle avoidance; software for collision detection and collision avoidance; software for object detection, object recognition, object classification and object tracking; software for positioning, localisation, mapping and situational awareness; software for sensor control and sensor management; software for sensor data processing; software for sensor fusion and data fusion; software for collecting, recording, transmitting, processing, analysing, interpreting, displaying, managing and storing sensor data, environmental data, location data, positioning data, navigation data, telemetry data, operational data, diagnostic data, surveillance data and reconnaissance data; software for real-time data collection, processing, analysis and transmission; software for intelligence, surveillance and reconnaissance; software for surveillance, reconnaissance, monitoring, observation, inspection, mapping and data collection; software for command and control systems; software for communications and data transmission; software for telemetry and telematics; software for communications between autonomous and remotely operated systems; software for remote monitoring, remote diagnostics and remote management of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; edge

computing hardware; edge computing devices; edge servers; embedded computer systems; onboard computers; computer hardware for artificial intelligence processing; processors for artificial intelligence and machine learning applications; neural processing units; electronic data processing apparatus; computer hardware and software for local, onboard, edge and offline processing of data and artificial intelligence models; computer hardware and software for the deployment, execution and optimisation of artificial intelligence and machine learning models at the edge; electronic control systems; electronic control apparatus; electronic control units; electronic controllers; electronic control systems for machines, robots and robotic machines; electronic control systems for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; electronic control apparatus for motors and engines; electronic control apparatus for electric motors for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; flight control apparatus; navigation apparatus and instruments; electronic navigation apparatus; autonomous navigation apparatus and systems; guidance apparatus and instruments; positioning apparatus and instruments; localisation apparatus; satellite navigation apparatus; inertial navigation apparatus; apparatus and instruments for controlling, navigating, guiding and piloting aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; sensors; detectors; measuring apparatus and instruments; monitoring apparatus and instruments; electronic sensors; optical sensors; imaging sensors; infrared sensors; thermal sensors; temperature sensors; environmental sensors; position sensors; proximity sensors; distance sensors; motion sensors; electronic sensors for navigation, guidance, positioning, localisation, monitoring and control; sensors for autonomous and remotely operated systems; cameras; digital cameras; video cameras; infrared cameras; thermal imaging cameras; imaging apparatus; thermal imaging apparatus; radar apparatus; radar sensors; lidar apparatus; lidar sensors; laser scanning apparatus; electronic apparatus and instruments for detecting, measuring, monitoring, observing, locating, positioning, mapping and surveying; remote sensing apparatus; communications apparatus and instruments; telecommunications apparatus; radio communications apparatus; wireless communications apparatus; satellite communications apparatus; data communications apparatus; data transmission apparatus; transmitters; receivers; transceivers; radio transmitters and receivers; antennas; telemetry apparatus; telematics apparatus; computer networking and communications hardware; communications hardware for autonomous and remotely operated systems; apparatus for communication between machines, robots, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; remote control apparatus; remote controls for machines; remote controls for robots and robotic machines; remote controls for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; electronic apparatus for the remote operation, control and monitoring of autonomous and unmanned systems; surveillance apparatus; electronic surveillance apparatus; reconnaissance apparatus; electronic monitoring apparatus; observation apparatus; video surveillance apparatus; electronic apparatus and instruments for intelligence, surveillance and reconnaissance; electronic apparatus and systems for remote surveillance, monitoring, detection, observation, reconnaissance, inspection and environmental monitoring; computer hardware, computer software, electronic control apparatus, navigation apparatus, communications apparatus, sensors and monitoring apparatus for robots, robotic machines and autonomous machines; electronic control, navigation, guidance, communications, sensing, monitoring and computing apparatus and systems for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; parts, fittings and accessories for all the aforesaid goods.

Class 12:
Vehicles; air vehicles; aircraft; aeroplanes; unmanned aircraft; uncrewed aircraft; pilotless aircraft; remotely piloted aircraft; remotely controlled aircraft; autonomous aircraft; semi-autonomous aircraft; unmanned aerial vehicles [UAVs]; uncrewed aerial vehicles; drones; aerial drones; autonomous aerial vehicles; remotely piloted aerial vehicles; remotely controlled aerial vehicles; robotic aerial vehicles; electric aircraft; electrically powered aircraft; electrically powered unmanned aerial vehicles, uncrewed aerial vehicles and drones; unmanned, uncrewed, autonomous, semi-autonomous and remotely operated aerial vehicles; unmanned, uncrewed, autonomous, semi-autonomous and remotely operated vehicles for transportation, surveillance, reconnaissance, monitoring, observation, mapping, surveying, inspection, sensing and data collection; aerial vehicles for transportation, surveillance, reconnaissance, monitoring, observation, mapping, surveying, inspection, sensing and data collection; airframes; fuselages; aircraft bodies; wings for aircraft; aircraft wings; rotors for aircraft; propellers for air vehicles; propellers for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; landing gear for aircraft; stabilisers for aircraft; flight control surfaces being structural parts of aircraft; chassis; vehicle chassis; structural parts of aircraft; structural parts of unmanned aerial vehicles, uncrewed aerial vehicles and drones; bodies for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; payload mounts being structural parts of aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; protective housings specially adapted for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; parts, fittings and accessories for aircraft, unmanned aircraft, uncrewed aircraft, autonomous aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, autonomous aerial vehicles, remotely piloted aerial vehicles, remotely controlled aerial vehicles and robotic aerial vehicles; parts, fittings and accessories for all the aforesaid goods. .

Class 37:
Construction services; building construction services; infrastructure construction; construction of infrastructure; construction, erection, assembly, installation, maintenance, repair, servicing, upgrading, renovation and refurbishment of buildings, structures, towers, masts and installations; construction, erection, assembly, installation, maintenance, repair, servicing, upgrading and refurbishment of surveillance towers, observation towers, monitoring towers, sensor towers, communications towers, telecommunications towers and remote monitoring installations; construction, erection, assembly, installation, maintenance, repair, servicing, upgrading and refurbishment of towers and installations incorporating surveillance, monitoring, sensing, detection, imaging, communications, telecommunications, data transmission, navigation, computing and autonomous systems technology; construction, erection, assembly, installation, maintenance, repair and servicing of surveillance, monitoring, observation, reconnaissance, detection, sensing, communications, telecommunications, data collection and environmental monitoring infrastructure; construction, erection, assembly, installation, maintenance, repair and servicing of remote and autonomous surveillance, monitoring, sensing, communications and telecommunications infrastructure;

installation, maintenance, repair, servicing, upgrading and replacement of surveillance apparatus and equipment, monitoring apparatus and equipment, observation apparatus, sensors, detectors, cameras, imaging apparatus, radar apparatus, lidar apparatus, remote sensing apparatus, communications apparatus, telecommunications apparatus, radio communications apparatus, satellite communications apparatus, antennas, data transmission apparatus, telemetry apparatus, navigation apparatus, environmental monitoring apparatus and electronic monitoring apparatus; installation, maintenance, repair, servicing, upgrading and replacement of computer hardware, edge computing hardware, embedded computing hardware, onboard computing hardware, electronic control apparatus, electronic control systems, communications hardware, networking hardware, autonomous systems hardware, remote monitoring hardware and electronic systems and equipment for surveillance, reconnaissance, detection, observation, sensing, communications, data collection, situational awareness and environmental monitoring; installation, maintenance, repair and servicing of electrical equipment, electronic equipment, power supply equipment, electrical power distribution equipment, generators, batteries, battery systems, battery charging equipment, heating equipment and temperature-control equipment; installation, maintenance, repair and servicing of power supply and power management equipment for surveillance towers, monitoring towers, communications towers, remote installations and autonomous systems; installation, maintenance, repair, servicing, upgrading and refurbishment of robots, robotic machines, autonomous robotic machines and remotely controlled robotic machines; installation, maintenance, repair, servicing, upgrading and refurbishment of autonomous machines and autonomous equipment; installation, maintenance, repair and servicing of unmanned and remotely operated equipment; installation, maintenance, repair and servicing of aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; maintenance, repair, servicing and refurbishment of aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; installation, maintenance, repair and servicing of equipment and hardware incorporated into or specially adapted for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; installation, maintenance, repair and servicing of engines and motors; installation, maintenance, repair and servicing of aircraft engines and motors; installation, maintenance, repair and servicing of electric motors for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; installation, maintenance, repair and servicing of propulsion machinery, power transmission mechanisms, actuators, generators, compressors and pumps; installation, maintenance and repair of thermal insulation; installation, maintenance and repair of weatherproofing; installation, maintenance and repair of environmental protection equipment; installation, maintenance and repair of heating and temperature-control equipment; weatherproofing of buildings, structures, towers, installations and equipment; insulation of buildings, structures, towers and installations; construction project management services; construction management services; construction supervision; on-site construction supervision; building project management services; information, advisory and consultancy services relating to all the aforesaid services. .

Class 38:
Telecommunications services; communication services; electronic communication services; digital communication services; data communication services; data transmission services; electronic data transmission services; wireless communication services; radio communication services; satellite communication services; satellite telecommunications services; telecommunications and communication services for autonomous, semi-autonomous and remotely operated systems; telecommunications and communication services for machines, robots, robotic machines, autonomous robotic machines, remotely controlled robotic machines, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; telemetry services; telemetry communication services; telematics communication services; transmission of telemetry and telematics data; transmission of telemetry data from machines, robots, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, sensors, monitoring equipment and remote installations; electronic transmission of data, signals, messages, images, audio, video and information; transmission and streaming of data; real-time transmission of data; transmission of sensor data, environmental data, location data, positioning data, navigation data, operational data, diagnostic data, telemetry data, surveillance data, reconnaissance data and intelligence data; transmission of command and control data; transmission of command, control and telemetry data; transmission of data and signals for the command, control, navigation, guidance, operation and monitoring of autonomous, semi-autonomous and remotely operated systems; transmission of data and signals for the remote operation and control of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; communication services for the remote operation, control and monitoring of machines, robots, robotic machines, autonomous robotic machines, remotely controlled robotic machines, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; communications between autonomous and remotely operated systems and remote operators, control centres, monitoring centres and command centres; machine-to-machine [M2M] communication services; device-to-device communication services; communications between autonomous machines and devices; vehicle-to-vehicle communication services; vehicle-to-infrastructure communication services; communications services for connected devices; communications services for Internet of Things [IoT] devices and systems; communication services between machines, robots, autonomous systems, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, vehicles, sensors, cameras, surveillance towers, observation towers, monitoring towers, sensor towers, communications towers, remote monitoring installations, communications infrastructure, computer systems and remote operators; transmission of data from sensors, detectors, cameras, imaging apparatus, radar apparatus, lidar apparatus, remote sensing apparatus, navigation apparatus, environmental monitoring apparatus and electronic monitoring apparatus; transmission and streaming of surveillance, monitoring, imaging, sensing and remote-sensing data; transmission of data for surveillance, reconnaissance, observation, monitoring, inspection and environmental monitoring purposes; transmission of situational-awareness data; transmission of data for intelligence, surveillance and reconnaissance purposes; provision of telecommunications and communications links between autonomous and remotely operated equipment and remote operators, remote control centres, monitoring centres and command centres; provision of telecommunications and communications links between robots, autonomous machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles,

drones, sensors, surveillance installations and remote monitoring installations; provision of communications links between onboard computing systems, edge computing systems, remote computing systems, cloud computing systems and autonomous or remotely operated equipment; electronic transmission of data between onboard computers, edge computing systems, remote computer systems and cloud computing systems; secure electronic transmission of data; secure data transmission services; encrypted data transmission services; encrypted electronic communications services; satellite transmission services; satellite communications services; satellite telecommunications services; transmission and reception of data by satellite; transmission of telemetry, command and control data by satellite; satellite transmission of sensor, monitoring, surveillance, navigation, location and operational data; telecommunications services for remote surveillance, monitoring, sensing, detection, observation, reconnaissance, inspection, environmental monitoring and data collection; telecommunications and data transmission services for surveillance towers, observation towers, monitoring towers, sensor towers, communications towers and remote monitoring installations; telecommunications, communications, telemetry and data transmission services for autonomous, semi-autonomous and remotely operated systems and equipment in remote geographical locations; provision of access to telecommunications networks; provision of access to communications networks; rental of telecommunications apparatus; rental of communications apparatus; rental of data transmission apparatus; information, advisory and consultancy services relating to all the aforesaid services.

Class 39:
Transport; transportation services; logistics services; transportation logistics; logistics services relating to the transportation, collection, handling, packaging, storage, warehousing, distribution and delivery of goods, equipment and cargo; supply chain logistics services consisting of the transportation, collection, handling, storage, warehousing, distribution and delivery of goods, equipment and cargo; freight services; freight forwarding services; freight transportation; cargo transportation; collection, transportation, distribution and delivery of goods, equipment and cargo; arranging the transportation, collection, distribution and delivery of goods, equipment and cargo; loading and unloading of goods, equipment and cargo; cargo handling services; freight handling services; handling of goods and equipment for transportation and storage purposes; packing, crating and packaging of goods and equipment for transportation; packaging of goods for transportation and storage; warehousing services; storage services; storage of goods, equipment, machinery, vehicles, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, robots, robotic machines, autonomous systems, electronic equipment, communications equipment, surveillance equipment, monitoring equipment, sensors, spare parts, components, power supplies and other supplies; storage of cargo; secure storage services; storage of equipment and supplies at remote locations; provision of storage facilities; provision of warehousing facilities; provision of storage depots; provision of distribution centres for transportation and storage purposes; provision of logistics facilities for the storage, warehousing, handling, transportation and distribution of goods, equipment and supplies; provision and operation of storage facilities; provision and operation of warehousing facilities; provision and operation of storage depots; provision and operation of logistics facilities for transportation and storage purposes; provision and operation of logistics hubs for transportation, storage, handling and distribution purposes; provision and operation of distribution centres for transportation and storage purposes; management of storage facilities; management of warehouses; management of warehousing facilities; management of storage depots; management of logistics facilities for transportation and storage purposes; management of logistics hubs for transportation, storage, handling and distribution purposes; rental and leasing of warehouses; rental and leasing of warehouse space; rental and leasing of storage facilities; rental of storage space; rental of storage units; rental of storage containers; rental of freight containers; rental of pallets for the transport or storage of goods; rental of space, structures, units and containers for storage and transportation of goods and equipment; provision of logistics infrastructure for the transportation, storage, warehousing, handling and distribution of goods, equipment and supplies; operation of logistics infrastructure for transportation and storage purposes; provision and operation of remote logistics facilities, storage facilities, warehouses, storage depots, logistics hubs and distribution centres for transportation and storage purposes; rental of equipment and installations for the handling, movement, transportation and storage of goods and equipment; rental of automated equipment and installations for the handling and storage of goods; rental of robotic equipment for the handling, movement and storage of goods; rental of autonomous vehicles and autonomous transportation equipment for transportation purposes; transportation and logistics services relating to robots, robotic machines, autonomous machines, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, surveillance equipment, monitoring equipment, communications equipment, sensors, electronic equipment, machinery, spare parts, components, power supplies and other supplies; transportation, storage, warehousing, distribution and delivery of equipment, parts, components and supplies for the operation, maintenance and support of remote and autonomous systems and installations; logistics services for remote locations; logistics services for the transportation, storage, warehousing, handling, distribution and delivery of goods, equipment and supplies in remote geographical locations; transportation, collection, delivery, warehousing, storage, handling and distribution of goods, equipment and supplies in remote geographical locations; provision, operation and management of logistics facilities, storage facilities, warehousing facilities, storage depots, logistics hubs and distribution centres for transportation and storage purposes in remote geographical locations; transportation and delivery of goods, equipment and supplies by land, air and water; air freight services; transportation and delivery of goods, equipment and supplies by aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; transportation and delivery of goods, equipment and supplies using autonomous vehicles; rental of vehicles for transportation purposes; rental of aircraft; rental of unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones for transportation purposes; rental of autonomous vehicles for transportation purposes; tracking and tracing of goods, equipment, freight, cargo and shipments for transportation purposes; tracking and monitoring the location and movement of goods, equipment, freight, cargo and shipments for transportation purposes; provision of information relating to the transportation, collection, delivery, warehousing and storage of goods and equipment; route planning services for

transportation purposes; information, advisory and consultancy services relating to all the aforesaid services.

Class 42:
Design and development of computer hardware and software; computer hardware development; computer software development; computer software design; computer programming; design, development, programming, implementation, configuration, testing, installation, updating, upgrading and maintenance of computer software, application software, embedded software and firmware; software engineering services; design and development of artificial intelligence systems; design and development of artificial intelligence software; design and development of artificial intelligence, machine learning, deep learning, computer vision, robotics, automation and autonomous systems technology; programming of artificial intelligence software; design, development, training, testing, implementation, deployment and optimisation of artificial intelligence and machine learning models; artificial intelligence consultancy; machine learning consultancy; technological consultancy in the fields of artificial intelligence, machine learning, robotics, automation and autonomous systems; design and development of software for artificial intelligence, machine learning, deep learning, computer vision and autonomous decision-making; design and development of software for robotics and autonomous systems; design and development of software for the autonomous, semi-autonomous and remotely controlled operation of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; design and development of software for the control, navigation, guidance, piloting, operation, monitoring, management and remote control of autonomous, semi-autonomous and remotely operated systems; design and development of autonomous control software, flight control software and autonomous navigation software; design and development of software for coordinating multiple autonomous or unmanned systems; design and development of software for mission planning, mission management, mission control and mission execution; design and development of software for autonomous decision-making, planning and execution of tasks; design and development of software for path planning, route planning and motion planning; design and development of software for obstacle detection and avoidance, collision detection and avoidance, object detection, object recognition, object classification and object tracking; design and development of software for positioning, localisation, mapping and situational awareness; design and development of software for sensor control and sensor management; design and development of software for sensor data processing, sensor fusion and data fusion; design and development of software for collecting, recording, transmitting, processing, analysing, interpreting, displaying, managing and storing sensor data, environmental data, location data, positioning data, navigation data, telemetry data, operational data, diagnostic data, surveillance data and reconnaissance data; design and development of software for real-time data collection, processing and analysis; design and development of software for intelligence, surveillance and reconnaissance; design and development of software for surveillance, reconnaissance, monitoring, observation, inspection, mapping and data collection; design and development of software for command and control systems; design and development of software for communications, data transmission, telemetry and telematics; design and development of software for remote monitoring, remote diagnostics and remote management of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; design and development of edge computing systems; design and development of computer hardware and software for edge computing, embedded computing and onboard computing; design and development of computer hardware and software for local, onboard, edge and offline processing of data and artificial intelligence models; design and development of computer hardware and software for the deployment, execution and optimisation of artificial intelligence and machine learning models at the edge; design and development of edge computing systems for autonomous and remotely operated equipment; software as a service [SaaS]; platform as a service [PaaS]; artificial intelligence as a service [AIaaS]; platforms for artificial intelligence as software as a service [SaaS]; providing temporary use of online non-downloadable computer software; providing temporary use of online non-downloadable artificial intelligence and machine learning software; providing artificial intelligence computer programs and software on data networks and via online platforms; software as a service [SaaS] featuring artificial intelligence and machine learning software; platform as a service [PaaS] featuring computer software platforms for artificial intelligence and machine learning; artificial intelligence as a service [AIaaS] featuring artificial intelligence and machine learning software; providing temporary use of online non-downloadable software for the development, training, testing, deployment, execution and management of artificial intelligence and machine learning models; software as a service [SaaS] for the autonomous and semi-autonomous operation of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; providing temporary use of online non-downloadable software for the autonomous and semi-autonomous operation of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; software as a service [SaaS] and artificial intelligence as a service [AIaaS] for autonomous decision-making, autonomous control, navigation, guidance, mission planning, mission management, mission execution, sensor management, sensor fusion, data processing, situational awareness, intelligence, surveillance, reconnaissance, monitoring and command and control; artificial intelligence as a service [AIaaS] for autonomous and semi-autonomous systems; platform as a service [PaaS] for the development, training, testing, deployment, execution, operation and management of artificial intelligence, machine learning and autonomous-systems applications; platform as a service [PaaS] for the development and deployment of software for robots, autonomous machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; cloud computing services; edge computing services; cloud computing services for artificial intelligence, machine learning and autonomous systems; provision of cloud computing platforms for artificial intelligence and machine learning; electronic data storage; technological data analysis services; analysis of technical data; engineering services; technological engineering services; engineering design services; engineering consultancy; engineering services relating to robotics, robotic machines, automation, autonomous systems, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; engineering services relating to electronic control, navigation, guidance, sensing, communications, computing and autonomous systems; design and development of robots and robotic systems; design and development of autonomous and remotely operated systems; technological design and development of autonomous machines,

robots, robotic machines, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; design and development of electronic control, navigation, guidance, sensing, monitoring, communications and computing systems for autonomous machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; technological consultancy relating to robots, robotic machines, autonomous systems, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; technological consultancy relating to surveillance, monitoring, sensing, communications, telemetry, autonomous operation, artificial intelligence and edge computing; testing services; technological testing services; product testing; engineering testing; testing of computer hardware and computer software; testing of artificial intelligence and machine learning systems and models; testing of autonomous systems, robots, robotic machines, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; technological testing of autonomous and remotely operated systems; testing and evaluation of the performance, functionality, safety, reliability, durability and environmental performance of computer hardware, computer software, electronic systems, artificial intelligence systems, autonomous systems, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; testing and evaluation of electronic control, navigation, guidance, sensing, communications, telemetry and computing systems; environmental testing of equipment and technology; technological design and engineering of towers, structures, surveillance installations, monitoring installations, sensing installations and communications installations; technological design and engineering of surveillance towers, observation towers, monitoring towers, sensor towers, communications towers and remote monitoring installations; technological design and engineering of infrastructure incorporating surveillance, monitoring, sensing, detection, imaging, communications, telecommunications, data transmission, navigation, computing and autonomous systems technology; information, advisory and consultancy services relating to all the aforesaid services.

Class 45:
Security services; physical security services; security and protection services; security and surveillance services; security services for the protection of property and individuals; security services for the physical protection of tangible property and individuals; security services for the protection of buildings, structures, facilities, installations, infrastructure and sites; surveillance services; physical surveillance services; remote surveillance services for security purposes; electronic monitoring services for security purposes; security monitoring services; remote security monitoring services; video surveillance services for security purposes; remote video monitoring services for security purposes; monitoring of security systems; monitoring of surveillance systems for security purposes; monitoring of alarms and security alarms; security and surveillance services provided using autonomous, semi-autonomous and remotely operated systems; security and surveillance services provided using robots, robotic machines and autonomous robotic machines; security and surveillance services provided using aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; aerial surveillance services for security purposes; surveillance services by drone; security services based on autonomous and remotely operated systems; remote monitoring and surveillance of land, property, buildings, structures, facilities, sites, installations and infrastructure for physical security purposes; remote monitoring and surveillance of remote installations and infrastructure for physical security purposes; security and surveillance services provided using surveillance towers, observation towers, monitoring towers, sensor towers and remote monitoring installations; security guarding of facilities via remote monitoring systems; monitoring of cameras, sensors, detectors, radar apparatus, lidar apparatus, imaging apparatus and detection systems for physical security purposes; physical security threat detection services; physical security threat monitoring services; detection, identification, assessment and monitoring of physical security threats; monitoring and detection of intrusion, unauthorised physical access and suspicious physical activity for security purposes; perimeter security monitoring services; intrusion detection and monitoring services for physical security purposes; automated physical security monitoring services; automated surveillance services for security purposes; physical security monitoring and surveillance services using artificial intelligence and machine learning; physical security threat detection and monitoring services using artificial intelligence and machine learning; physical security monitoring, surveillance and threat detection services using autonomous systems, cameras, sensors, detectors, radar, lidar, imaging and remote-sensing technologies; security risk assessment services; physical security risk assessment; security threat assessment; physical security threat analysis; assessment and analysis of risks relating to the physical protection of property, individuals, buildings, facilities, installations, infrastructure and sites; security inspection services; physical security consultancy; security consultancy relating to autonomous and remotely operated systems; security consultancy relating to the use of robots, unmanned aerial vehicles and drones for physical security and surveillance purposes; security monitoring and surveillance services for the physical protection of critical infrastructure, industrial facilities, energy infrastructure, communications infrastructure, telecommunications infrastructure, transportation infrastructure, logistics infrastructure, storage facilities, remote installations and strategic assets; physical security threat detection and monitoring relating to critical infrastructure, industrial facilities, remote installations and strategic assets; security monitoring, surveillance, threat detection and physical security risk assessment services for remote geographical locations; physical security and surveillance services for remote installations, infrastructure and sites; rental of security apparatus; rental of security surveillance apparatus and equipment; rental of security monitoring apparatus and equipment; rental of video surveillance apparatus; rental of cameras for security surveillance purposes; rental of autonomous and remotely operated security and surveillance apparatus; rental of security surveillance robots; information, advisory and consultancy services relating to all the aforesaid services.

Mark 2

Application for a series of 2 marks.

Class 7:
Robots; industrial robots; robotic machines; robotic mechanisms; robotic platforms; robotic machines for industrial purposes; autonomous robotic machines; autonomous mobile industrial robots; remotely controlled robotic machines; telerobots for industrial operation; robotic arms for industrial purposes; robotic handling apparatus; robotic handling apparatus for industrial purposes; control mechanisms for robots, robotic machines, robotic mechanisms and robotic platforms; engines and motors, other than for land vehicles; aircraft engines; aircraft motors; aeronautical engines; aeroplane engines; aeroplane motors; engines and motors for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; electric motors, other than for land vehicles; electric motors for aircraft; electric motors for aeroplanes; electric motors for unmanned aerial vehicles, uncrewed aerial vehicles and drones; electric engines for the propulsion of aircraft; electric drives for aircraft; gas turbine engines for air vehicles; combustion engines for aircraft; turbojet engines for aircraft; turbines, other than for land vehicles; air turbines for aircraft; propulsion mechanisms, other than for land vehicles; power transmission mechanisms, other than for land vehicles; power transmissions for aircraft; power transmission couplings for aircraft; machine coupling and transmission components, except for land vehicles; transmissions for machines; gearboxes, other than for land vehicles; actuators; actuating mechanisms; hydraulic actuators; pneumatic actuators; actuating mechanisms for aircraft; control mechanisms for machines, engines and motors; control mechanisms for electric motors for aircraft; compressors; turbocompressors; generators; electric generators; pumps; parts, fittings and accessories for robots, robotic machines, robotic mechanisms and robotic platforms; parts and fittings for engines and motors; parts and fittings for aircraft engines and motors; parts and fittings for engines and motors for unmanned aerial vehicles, uncrewed aerial vehicles and drones; parts and fittings for propulsion mechanisms; parts and fittings for all the aforesaid goods; all the aforesaid goods including goods adapted for use or operation in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments. .

Class 9:
Computer hardware; downloadable computer software; recorded computer software; application software; embedded software; firmware; artificial intelligence software; machine learning software; deep learning software; computer vision software; autonomous systems software; software for artificial intelligence, machine learning, deep learning, computer vision and autonomous decision-making; software for robotics and autonomous systems; software for the autonomous, semi-autonomous and remotely controlled operation of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; software for controlling and operating robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; software for the control, navigation, guidance, piloting, operation, monitoring, management and remote control of autonomous, semi-autonomous and remotely operated systems; autonomous control software; flight control software; software for autonomous navigation; software for coordinating multiple autonomous or unmanned systems; software for mission planning, mission management, mission control and mission execution; software for autonomous decision-making, planning and execution of tasks; software for path planning, route planning and motion planning; software for obstacle detection and obstacle avoidance; software for collision detection and collision avoidance; software for object detection, object recognition, object classification and object tracking; software for positioning, localisation, mapping and situational awareness; software for sensor control and sensor management; software for sensor data processing; software for sensor fusion and data fusion; software for collecting, recording, transmitting, processing, analysing, interpreting, displaying, managing and storing sensor data, environmental data, location data, positioning data, navigation data, telemetry data, operational data, diagnostic data, surveillance data and reconnaissance data; software for real-time data collection,

processing, analysis and transmission; software for intelligence, surveillance and reconnaissance; software for surveillance, reconnaissance, monitoring, observation, inspection, mapping and data collection; software for command and control systems; software for communications and data transmission; software for telemetry and telematics; software for communications between autonomous and remotely operated systems; software for remote monitoring, remote diagnostics and remote management of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; edge computing hardware; edge computing devices; edge servers; embedded computer systems; onboard computers; computer hardware for artificial intelligence processing; processors for artificial intelligence and machine learning applications; neural processing units; electronic data processing apparatus; computer hardware and software for local, onboard, edge and offline processing of data and artificial intelligence models; computer hardware and software for the deployment, execution and optimisation of artificial intelligence and machine learning models at the edge; electronic control systems; electronic control apparatus; electronic control units; electronic controllers; electronic control systems for machines, robots and robotic machines; electronic control systems for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; electronic control apparatus for motors and engines; electronic control apparatus for electric motors for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; flight control apparatus; navigation apparatus and instruments; electronic navigation apparatus; autonomous navigation apparatus and systems; guidance apparatus and instruments; positioning apparatus and instruments; localisation apparatus; satellite navigation apparatus; inertial navigation apparatus; apparatus and instruments for controlling, navigating, guiding and piloting aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; sensors; detectors; measuring apparatus and instruments; monitoring apparatus and instruments; electronic sensors; optical sensors; imaging sensors; infrared sensors; thermal sensors; temperature sensors; environmental sensors; position sensors; proximity sensors; distance sensors; motion sensors; electronic sensors for navigation, guidance, positioning, localisation, monitoring and control; sensors for autonomous and remotely operated systems; cameras; digital cameras; video cameras; infrared cameras; thermal imaging cameras; imaging apparatus; thermal imaging apparatus; radar apparatus; radar sensors; lidar apparatus; lidar sensors; laser scanning apparatus; electronic apparatus and instruments for detecting, measuring, monitoring, observing, locating, positioning, mapping and surveying; remote sensing apparatus; communications apparatus and instruments; telecommunications apparatus; radio communications apparatus; wireless communications apparatus; satellite communications apparatus; data communications apparatus; data transmission apparatus; transmitters; receivers; transceivers; radio transmitters and receivers; antennas; telemetry apparatus; telematics apparatus; computer networking and communications hardware; communications hardware for autonomous and remotely operated systems; apparatus for communication between machines, robots, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; remote control apparatus; remote controls for machines; remote controls for robots and robotic machines; remote controls for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; electronic apparatus for the remote operation, control and monitoring of autonomous and unmanned systems; surveillance apparatus; electronic surveillance apparatus; reconnaissance apparatus; electronic monitoring apparatus; observation apparatus; video surveillance apparatus; electronic apparatus and instruments for intelligence, surveillance and reconnaissance; electronic apparatus and systems for remote surveillance, monitoring, detection, observation, reconnaissance, inspection and environmental monitoring; computer hardware, computer software, electronic control apparatus, navigation apparatus, communications apparatus, sensors and monitoring apparatus for robots, robotic machines and autonomous machines; electronic control, navigation, guidance, communications, sensing, monitoring and computing apparatus and systems for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; parts, fittings and accessories for all the aforesaid goods; all the aforesaid goods including goods adapted for use or operation in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments.

Class 12:
Vehicles; air vehicles; aircraft; aeroplanes; unmanned aircraft; uncrewed aircraft; pilotless aircraft; remotely piloted aircraft; remotely controlled aircraft; autonomous aircraft; semi-autonomous aircraft; unmanned aerial vehicles [UAVs]; uncrewed aerial vehicles; drones; aerial drones; autonomous aerial vehicles; remotely piloted aerial vehicles; remotely controlled aerial vehicles; robotic aerial vehicles; electric aircraft; electrically powered aircraft; electrically powered unmanned aerial vehicles, uncrewed aerial vehicles and drones; unmanned, uncrewed, autonomous, semi-autonomous and remotely operated aerial vehicles; unmanned, uncrewed, autonomous, semi-autonomous and remotely operated vehicles for transportation, surveillance, reconnaissance, monitoring, observation, mapping, surveying, inspection, sensing and data collection; aerial vehicles for transportation, surveillance, reconnaissance, monitoring, observation, mapping, surveying, inspection, sensing and data collection; airframes; fuselages; aircraft bodies; wings for aircraft; aircraft wings; rotors for aircraft; propellers for air vehicles; propellers for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; landing gear for aircraft; stabilisers for aircraft; flight control surfaces being structural parts of aircraft; chassis; vehicle chassis; structural parts of aircraft; structural parts of unmanned aerial vehicles, uncrewed aerial vehicles and drones; bodies for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; payload mounts being structural parts of aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; protective housings specially adapted for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; parts, fittings and accessories for aircraft, unmanned aircraft, uncrewed aircraft, autonomous aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, autonomous aerial vehicles, remotely piloted aerial vehicles, remotely controlled aerial vehicles and robotic aerial vehicles; parts, fittings and accessories for all the aforesaid goods; all the aforesaid goods including goods adapted for use or operation in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments.

Class 37:
Construction services; building construction services; infrastructure construction; construction of infrastructure; construction, erection, assembly, installation, maintenance, repair, servicing, upgrading, renovation and refurbishment of buildings, structures, towers, masts and installations; construction, erection, assembly, installation, maintenance, repair, servicing, upgrading and refurbishment of surveillance towers, observation towers, monitoring towers,

sensor towers, communications towers, telecommunications towers and remote monitoring installations; construction, erection, assembly, installation, maintenance, repair, servicing, upgrading and refurbishment of towers and installations incorporating surveillance, monitoring, sensing, detection, imaging, communications, telecommunications, data transmission, navigation, computing and autonomous systems technology; construction, erection, assembly, installation, maintenance, repair and servicing of surveillance, monitoring, observation, reconnaissance, detection, sensing, communications, telecommunications, data collection and environmental monitoring infrastructure; construction, erection, assembly, installation, maintenance, repair and servicing of remote and autonomous surveillance, monitoring, sensing, communications and telecommunications infrastructure; installation, maintenance, repair, servicing, upgrading and replacement of surveillance apparatus and equipment, monitoring apparatus and equipment, observation apparatus, sensors, detectors, cameras, imaging apparatus, radar apparatus, lidar apparatus, remote sensing apparatus, communications apparatus, telecommunications apparatus, radio communications apparatus, satellite communications apparatus, antennas, data transmission apparatus, telemetry apparatus, navigation apparatus, environmental monitoring apparatus and electronic monitoring apparatus; installation, maintenance, repair, servicing, upgrading and replacement of computer hardware, edge computing hardware, embedded computing hardware, onboard computing hardware, electronic control apparatus, electronic control systems, communications hardware, networking hardware, autonomous systems hardware, remote monitoring hardware and electronic systems and equipment for surveillance, reconnaissance, detection, observation, sensing, communications, data collection, situational awareness and environmental monitoring; installation, maintenance, repair and servicing of electrical equipment, electronic equipment, power supply equipment, electrical power distribution equipment, generators, batteries, battery systems, battery charging equipment, heating equipment and temperature-control equipment; installation, maintenance, repair and servicing of power supply and power management equipment for surveillance towers, monitoring towers, communications towers, remote installations and autonomous systems; installation, maintenance, repair, servicing, upgrading and refurbishment of robots, robotic machines, autonomous robotic machines and remotely controlled robotic machines; installation, maintenance, repair, servicing, upgrading and refurbishment of autonomous machines and autonomous equipment; installation, maintenance, repair and servicing of unmanned and remotely operated equipment; installation, maintenance, repair and servicing of aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; maintenance, repair, servicing and refurbishment of aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; installation, maintenance, repair and servicing of equipment and hardware incorporated into or specially adapted for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; installation, maintenance, repair, servicing and replacement of engines and motors; installation, maintenance, repair and servicing of aircraft engines and motors; installation, maintenance, repair and servicing of electric motors for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; installation, maintenance, repair and servicing of propulsion machinery, power transmission mechanisms, actuators, generators, compressors and pumps; installation, maintenance and repair of thermal insulation; installation, maintenance and repair of weatherproofing; installation, maintenance and repair of environmental protection equipment; installation, maintenance and repair of heating and temperature-control equipment; weatherproofing of buildings, structures, towers, installations and equipment; insulation of buildings, structures, towers and installations; construction, erection, assembly, installation, maintenance, repair, servicing, upgrading and refurbishment of buildings, structures, towers, masts, infrastructure, surveillance installations, monitoring installations, sensing installations, communications installations and telecommunications installations adapted for use or operation in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments; installation, maintenance, repair, servicing, upgrading and refurbishment of surveillance apparatus, monitoring apparatus, sensing apparatus, communications apparatus, telecommunications apparatus, computer hardware, electronic equipment, autonomous systems hardware, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, engines, motors and power supply equipment adapted for use or operation in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments; installation, maintenance and repair of thermal insulation, weatherproofing, environmental protection equipment, heating equipment and temperature-control equipment for buildings, structures, towers, infrastructure, installations, machinery and electronic equipment used or operated in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments; construction project management services; construction management services; construction supervision; on-site construction supervision; building project management services; information, advisory and consultancy services relating to all the aforesaid services.

Class 38:
Telecommunications services; communication services; electronic communication services; digital communication services; data communication services; data transmission services; electronic data transmission services; wireless communication services; radio communication services; satellite communication services; satellite telecommunications services; telecommunications and communication services for autonomous, semi-autonomous and remotely operated systems; telecommunications and communication services for machines, robots, robotic machines, autonomous robotic machines, remotely controlled robotic machines, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; telemetry services; telemetry communication services; telematics communication services; transmission of telemetry and telematics data; transmission of telemetry data from machines, robots, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, sensors, monitoring equipment and remote installations; electronic transmission of data, signals, messages, images, audio, video and information; transmission and streaming of data; real-time transmission of data; transmission of sensor data, environmental data, location data, positioning data, navigation data, operational data, diagnostic data, telemetry data, surveillance data, reconnaissance data and intelligence data; transmission of command and control data; transmission of command, control and telemetry data; transmission of data and signals for the command, control, navigation, guidance, operation and monitoring of autonomous, semi-autonomous and remotely

operated systems; transmission of data and signals for the remote operation and control of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; communication services for the remote operation, control and monitoring of machines, robots, robotic machines, autonomous robotic machines, remotely controlled robotic machines, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; communications between autonomous and remotely operated systems and remote operators, control centres, monitoring centres and command centres; machine-to-machine [M2M] communication services; device-to-device communication services; communications between autonomous machines and devices; vehicle-to-vehicle communication services; vehicle-to-infrastructure communication services; communications services for connected devices; communications services for Internet of Things [IoT] devices and systems; communication services between machines, robots, autonomous systems, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, vehicles, sensors, cameras, surveillance towers, observation towers, monitoring towers, sensor towers, communications towers, remote monitoring installations, communications infrastructure, computer systems and remote operators; transmission of data from sensors, detectors, cameras, imaging apparatus, radar apparatus, lidar apparatus, remote sensing apparatus, navigation apparatus, environmental monitoring apparatus and electronic monitoring apparatus; transmission and streaming of surveillance, monitoring, imaging, sensing and remote-sensing data; transmission of data for surveillance, reconnaissance, observation, monitoring, inspection and environmental monitoring purposes; transmission of situational-awareness data; transmission of data for intelligence, surveillance and reconnaissance purposes; provision of telecommunications and communications links between autonomous and remotely operated equipment and remote operators, remote control centres, monitoring centres and command centres; provision of telecommunications and communications links between robots, autonomous machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, sensors, surveillance installations and remote monitoring installations; provision of communications links between onboard computing systems, edge computing systems, remote computing systems, cloud computing systems and autonomous or remotely operated equipment; electronic transmission of data between onboard computers, edge computing systems, remote computer systems and cloud computing systems; secure electronic transmission of data; secure data transmission services; encrypted data transmission services; encrypted electronic communications services; satellite transmission services; satellite communications services; satellite telecommunications services; transmission and reception of data by satellite; transmission of telemetry, command and control data by satellite; satellite transmission of sensor, monitoring, surveillance, navigation, location and operational data; telecommunications services for remote surveillance, monitoring, sensing, detection, observation, reconnaissance, inspection, environmental monitoring and data collection; telecommunications and data transmission services for surveillance towers, observation towers, monitoring towers, sensor towers, communications towers and remote monitoring installations; telecommunications, communications, telemetry and data transmission services for autonomous, semi-autonomous and remotely operated systems and equipment operating in remote geographical locations and in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments; provision of access to telecommunications networks; provision of access to communications networks; rental of telecommunications apparatus; rental of communications apparatus; rental of data transmission apparatus; information, advisory and consultancy services relating to all the aforesaid services.

Class 39:
Transport; transportation services; logistics services; transportation logistics; logistics services relating to the transportation, collection, handling, packaging, storage, warehousing, distribution and delivery of goods, equipment and cargo; supply chain logistics services consisting of the transportation, collection, handling, storage, warehousing, distribution and delivery of goods, equipment and cargo; freight services; freight forwarding services; freight transportation; cargo transportation; collection, transportation, distribution and delivery of goods, equipment and cargo; arranging the transportation, collection, distribution and delivery of goods, equipment and cargo; loading and unloading of goods, equipment and cargo; cargo handling services; freight handling services; handling of goods and equipment for transportation and storage purposes; packing, crating and packaging of goods and equipment for transportation; packaging of goods for transportation and storage; warehousing services; storage services; storage of goods, equipment, machinery, vehicles, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, robots, robotic machines, autonomous systems, electronic equipment, communications equipment, surveillance equipment, monitoring equipment, sensors, spare parts, components, power supplies and other supplies; storage of cargo; secure storage services; storage of equipment and supplies at remote locations; provision of storage facilities; provision of warehousing facilities; provision of storage depots; provision of distribution centres for transportation and storage purposes; provision of logistics facilities for the storage, warehousing, handling, transportation and distribution of goods, equipment and supplies; provision and operation of storage facilities; provision and operation of warehousing facilities; provision and operation of storage depots; provision and operation of logistics facilities for transportation and storage purposes; provision and operation of logistics hubs for transportation, storage, handling and distribution purposes; provision and operation of distribution centres for transportation and storage purposes; management of storage facilities; management of warehouses; management of warehousing facilities; management of storage depots; management of logistics facilities for transportation and storage purposes; management of logistics hubs for transportation, storage, handling and distribution purposes; rental and leasing of warehouses; rental and leasing of warehouse space; rental and leasing of storage facilities; rental of storage space; rental of storage units; rental of storage containers; rental of freight containers; rental of pallets for the transport or storage of goods; rental of space, structures, units and containers for storage and transportation of goods and equipment; provision of logistics infrastructure for the transportation, storage, warehousing, handling and distribution of goods, equipment and supplies; operation of logistics infrastructure for transportation and storage purposes; provision and operation of remote logistics facilities, storage facilities, warehouses, storage depots, logistics hubs and distribution centres for transportation and storage purposes; rental of equipment and installations for the handling, movement, transportation and storage of goods and equipment; rental of

automated equipment and installations for the handling and storage of goods; rental of robotic equipment for the handling, movement and storage of goods; rental of autonomous vehicles and autonomous transportation equipment for transportation purposes; transportation and logistics services relating to robots, robotic machines, autonomous machines, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, surveillance equipment, monitoring equipment, communications equipment, sensors, electronic equipment, machinery, spare parts, components, power supplies and other supplies; transportation, storage, warehousing, distribution and delivery of equipment, parts, components and supplies for the operation, maintenance and support of remote and autonomous systems and installations; logistics services for remote locations; logistics services for the transportation, storage, warehousing, handling, distribution and delivery of goods, equipment and supplies in remote geographical locations; transportation, collection, delivery, warehousing, storage, handling and distribution of goods, equipment and supplies in remote geographical locations; transportation, collection, delivery, warehousing, storage, handling and distribution of goods, equipment and supplies in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments; logistics services in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments; provision, operation and management of logistics facilities, storage facilities, warehousing facilities, storage depots, logistics hubs and distribution centres for transportation and storage purposes in remote geographical locations and in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments; transportation and delivery of goods, equipment and supplies by land, air and water; air freight services; transportation and delivery of goods, equipment and supplies by aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; transportation and delivery of goods, equipment and supplies using autonomous vehicles; rental of vehicles for transportation purposes; rental of aircraft; rental of unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones for transportation purposes; rental of autonomous vehicles for transportation purposes; tracking and tracing of goods, equipment, freight, cargo and shipments for transportation purposes; tracking and monitoring the location and movement of goods, equipment, freight, cargo and shipments for transportation purposes; provision of information relating to the transportation, collection, delivery, warehousing and storage of goods and equipment; route planning services for transportation purposes; information, advisory and consultancy services relating to all the aforesaid services.

Class 42:
Scientific and technological services and research and design relating thereto; scientific research; technological research; scientific and technological research services; research and development services; industrial research; technological research and development; product research and development; research and development in the fields of artificial intelligence, machine learning, deep learning, computer vision, robotics, automation and autonomous systems; research and development of computer hardware and software; research and development of artificial intelligence systems, artificial intelligence software, machine learning systems and machine learning models; research and development relating to autonomous and remotely operated systems, robots, robotic machines, autonomous machines, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; design and development of computer hardware and software; computer hardware development; computer software development; computer software design; computer programming; design, development, programming, implementation, configuration, testing, installation, updating, upgrading and maintenance of computer software, application software, embedded software and firmware; software engineering services; design and development of artificial intelligence systems; design and development of artificial intelligence software; design and development of artificial intelligence, machine learning, deep learning, computer vision, robotics, automation and autonomous systems technology; programming of artificial intelligence software; design, development, training, testing, implementation, deployment and optimisation of artificial intelligence and machine learning models; artificial intelligence consultancy; machine learning consultancy; technological consultancy in the fields of artificial intelligence, machine learning, robotics, automation and autonomous systems; design and development of software for artificial intelligence, machine learning, deep learning, computer vision and autonomous decision-making; design and development of software for robotics and autonomous systems; design and development of software for the autonomous, semi-autonomous and remotely controlled operation of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; design and development of software for the control, navigation, guidance, piloting, operation, monitoring, management and remote control of autonomous, semi-autonomous and remotely operated systems; design and development of autonomous control software; flight control software and autonomous navigation software; design and development of software for coordinating multiple autonomous or unmanned systems; design and development of software for mission planning, mission management, mission control and mission execution; design and development of software for autonomous decision-making, planning and execution of tasks; design and development of software for path planning, route planning and motion planning; design and development of software for obstacle detection and avoidance, collision detection and avoidance, object detection, object recognition, object classification and object tracking; design and development of software for positioning, localisation, mapping and situational awareness; design and development of software for sensor control and sensor management; design and development of software for sensor data processing, sensor fusion and data fusion; design and development of software for collecting, recording, transmitting, processing, analysing, interpreting, displaying, managing and storing sensor data, environmental data, location data, positioning data, navigation data, telemetry data, operational data, diagnostic data, surveillance data and reconnaissance data; design and development of software for real-time data collection, processing and analysis; design and development of software for intelligence, surveillance and reconnaissance; design and development of software for surveillance, reconnaissance, monitoring, observation, inspection, mapping and data collection; design and development of software for command and control systems; design and development of software for communications, data transmission, telemetry and telematics; design and development of software for remote monitoring, remote diagnostics and remote management of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; design and development of edge computing systems; design and

development of computer hardware and software for edge computing, embedded computing and onboard computing; design and development of computer hardware and software for local, onboard, edge and offline processing of data and artificial intelligence models; design and development of computer hardware and software for the deployment, execution and optimisation of artificial intelligence and machine learning models at the edge; design and development of edge computing systems for autonomous and remotely operated equipment; software as a service [SaaS]; platform as a service [PaaS]; artificial intelligence as a service [AIaaS]; platforms for artificial intelligence as software as a service [SaaS]; providing temporary use of online non-downloadable computer software; providing temporary use of online non-downloadable artificial intelligence and machine learning software; providing artificial intelligence computer programs and software on data networks and via online platforms; software as a service [SaaS] featuring artificial intelligence and machine learning software; platform as a service [PaaS] featuring computer software platforms for artificial intelligence and machine learning; artificial intelligence as a service [AIaaS] featuring artificial intelligence and machine learning software; providing temporary use of online non-downloadable software for the development, training, testing, deployment, execution and management of artificial intelligence and machine learning models; software as a service [SaaS] for the autonomous and semi-autonomous operation of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; providing temporary use of online non-downloadable software for the autonomous and semi-autonomous operation of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; software as a service [SaaS] and artificial intelligence as a service [AIaaS] for autonomous decision-making, autonomous control, navigation, guidance, mission planning, mission management, mission execution, sensor management, sensor fusion, data processing, situational awareness, intelligence, surveillance, reconnaissance, monitoring and command and control; artificial intelligence as a service [AIaaS] for autonomous and semi-autonomous systems; platform as a service [PaaS] for the development, training, testing, deployment, execution, operation and management of artificial intelligence, machine learning and autonomous-systems applications; platform as a service [PaaS] for the development and deployment of software for robots, autonomous machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; cloud computing services; edge computing services; cloud computing services for artificial intelligence, machine learning and autonomous systems; provision of cloud computing platforms for artificial intelligence and machine learning; electronic data storage; technological data analysis services; analysis of technical data; engineering services; technological engineering services; engineering research; engineering design services; engineering consultancy; engineering services relating to robotics, robotic machines, automation, autonomous systems, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; engineering services relating to electronic control, navigation, guidance, sensing, communications, computing and autonomous systems; design and development of robots and robotic systems; design and development of autonomous and remotely operated systems; technological design and development of autonomous machines, robots, robotic machines, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; design and development of electronic control, navigation, guidance, sensing, monitoring, communications and computing systems for autonomous machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; technological consultancy relating to robots, robotic machines, autonomous systems, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; technological consultancy relating to surveillance, monitoring, sensing, communications, telemetry, autonomous operation, artificial intelligence and edge computing; testing services; technological testing services; product testing; engineering testing; testing of computer hardware and computer software; testing of artificial intelligence and machine learning systems and models; testing of autonomous systems, robots, robotic machines, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; technological testing of autonomous and remotely operated systems; testing and evaluation of the performance, functionality, safety, reliability, durability and environmental performance of computer hardware, computer software, electronic systems, artificial intelligence systems, autonomous systems, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; testing and evaluation of electronic control, navigation, guidance, sensing, communications, telemetry and computing systems; scientific and technological research relating to operation in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments; research and development of technology, computer hardware, computer software, artificial intelligence systems, autonomous systems, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones for use or operation in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments; research, design, development, engineering, technological testing and technological consultancy relating to the operation and performance of computer hardware, computer software, artificial intelligence systems, autonomous systems, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments; technological research, engineering, design, development and testing relating to equipment, autonomous systems, electronic systems, computer systems, sensing systems, communications systems and surveillance and monitoring systems adapted for use or operation in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments; testing and evaluation of equipment, computer hardware, computer software, electronic systems, artificial intelligence systems, autonomous systems, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones under extreme environmental and climatic conditions, extreme cold, polar and Arctic conditions; environmental testing of equipment and technology; technological design and engineering of towers, structures, surveillance installations, monitoring installations, sensing installations and communications installations; technological design and engineering of surveillance towers, observation towers, monitoring towers, sensor towers, communications towers and remote monitoring installations; technological design and engineering of infrastructure incorporating surveillance, monitoring, sensing, detection, imaging, communications, telecommunications, data transmission, navigation, computing and autonomous systems technology; technological design and engineering of towers, structures, infrastructure, surveillance

installations, monitoring installations, sensing installations and communications installations adapted for use or operation in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments; information, advisory and consultancy services relating to all the aforesaid services.

Class 45:
Security services; physical security services; security and protection services; security and surveillance services; security services for the protection of property and individuals; security services for the physical protection of tangible property and individuals; security services for the protection of buildings, structures, facilities, installations, infrastructure and sites; surveillance services; physical surveillance services; remote surveillance services for security purposes; electronic monitoring services for security purposes; security monitoring services; remote security monitoring services; video surveillance services for security purposes; remote video monitoring services for security purposes; monitoring of security systems; monitoring of surveillance systems for security purposes; monitoring of alarms and security alarms; security and surveillance services provided using autonomous, semi-autonomous and remotely operated systems; security and surveillance services provided using robots, robotic machines and autonomous robotic machines; security and surveillance services provided using aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; aerial surveillance services for security purposes; surveillance services by drone; security services based on autonomous and remotely operated systems; remote monitoring and surveillance of land, property, buildings, structures, facilities, sites, installations and infrastructure for physical security purposes; remote monitoring and surveillance of remote installations and infrastructure for physical security purposes; security and surveillance services provided using surveillance towers, observation towers, monitoring towers, sensor towers and remote monitoring installations; security guarding of facilities via remote monitoring systems; monitoring of cameras, sensors, detectors, radar apparatus, lidar apparatus, imaging apparatus and detection systems for physical security purposes; physical security threat detection services; physical security threat monitoring services; detection, identification, assessment and monitoring of physical security threats; monitoring and detection of intrusion, unauthorised physical access and suspicious physical activity for security purposes; perimeter security monitoring services; intrusion detection and monitoring services for physical security purposes; automated physical security monitoring services; automated surveillance services for security purposes; physical security monitoring and surveillance services using artificial intelligence and machine learning; physical security threat detection and monitoring services using artificial intelligence and machine learning; physical security monitoring, surveillance and threat detection services using autonomous systems, cameras, sensors, detectors, radar, lidar, imaging and remote-sensing technologies; security risk assessment services; physical security risk assessment; security threat assessment; physical security threat analysis; assessment and analysis of risks relating to the physical protection of property, individuals, buildings, facilities, installations, infrastructure and sites; security inspection services; physical security consultancy; security consultancy relating to autonomous and remotely operated systems; security consultancy relating to the use of robots, unmanned aerial vehicles and drones for physical security and surveillance purposes; security monitoring and surveillance services for the physical protection of critical infrastructure, industrial facilities, energy infrastructure, communications infrastructure, telecommunications infrastructure, transportation infrastructure, logistics infrastructure, storage facilities, remote installations and strategic assets; physical security threat detection and monitoring relating to critical infrastructure, industrial facilities, remote installations and strategic assets; security monitoring, surveillance, threat detection and physical security risk assessment services for remote geographical locations; physical security and surveillance services for remote installations, infrastructure and sites; physical security monitoring, surveillance, threat detection and physical security risk assessment services in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments; security monitoring and surveillance services for the physical protection of property, buildings, facilities, installations, infrastructure and strategic assets in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments; physical security monitoring, surveillance, threat detection and physical security risk assessment services using autonomous and remotely operated systems, robots, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones in extreme environmental and climatic conditions, extreme cold, polar environments and Arctic environments; rental of security apparatus; rental of security surveillance apparatus and equipment; rental of security monitoring apparatus and equipment; rental of video surveillance apparatus; rental of cameras for security surveillance purposes; rental of autonomous and remotely operated security and surveillance apparatus; rental of security surveillance robots; information, advisory and consultancy services relating to all the aforesaid services.

(9, 45)

MudPilot

Class 9:
Smartphone software; Software; Mobile application software; Mobile software; Smartphone software applications, downloadable; Computer application software; Web application software; Computer application software for mobile phones; Software applications; Application software for smart phones; Computer software applications; Computer software.

Class 45:
Computer software licensing; Licensing of computer software.

Oilfield International Services Ltd

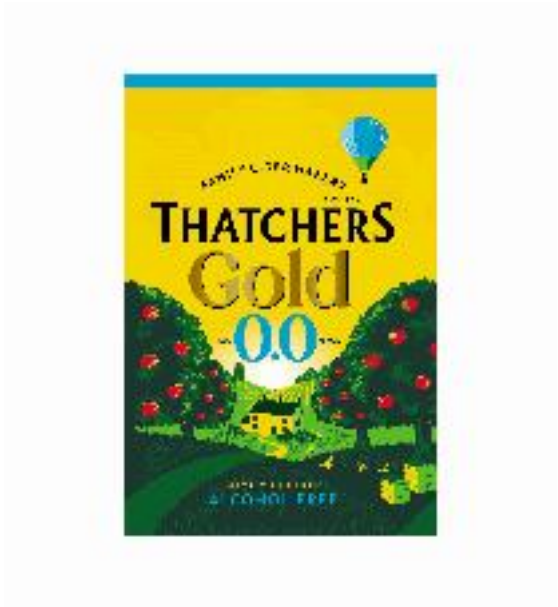
UK00004414272 10 July 2026
(25)

Supersonic

Class 25:

Bucket hats; Hats; Bucket caps; Beanie hats; Bobble hats; Beanies; Caps [headwear]; Shirts; Sweat shirts; T-shirts; Printed t-shirts; Hoodies.

Robert Winkworth



UK00004442350 08 September 2026
(41)

Class 41:
Online game services through mobile devices; Interactive computer game services; Publishing of interactive computer and video game software; Video game arcade services; Online computer game services; Video game services; Game services; Video game entertainment services.

Remarkable Innovation Ltd

UK00004440050 03 September 2026
(32, 33)

Class 32:
Alcohol free beverages; Alcohol free cider; Non-alcoholic beverages; Non-alcoholic beverages containing fruit juices; Beverages (Non-alcoholic -); Carbonated non-alcoholic drinks; Carbonated soft drinks; Cider, non-alcoholic; De-alcoholised drinks; Flavoured carbonated beverages; Fruit beverages; Fruit beverages (non-alcoholic); Fruit-flavoured soft drinks; Fruit-flavoured beverages; Fruit flavoured carbonated drinks; Non-alcoholic carbonated beverages; Non- alcoholic drinks; Non-alcoholic flavoured carbonated beverages; Non-alcoholic fruit drinks; Soft drinks; Apple juice beverages; Juices; Preparations for making beverages; Ale; Beer; Beer and brewery products; Beer-based beverages; IPA (Indian Pale Ale); India pale ales (IPAs); Lager; Low alcohol beer; Craft beers; Flavoured beers; Pale ale; Stout; All produced in Somerset.

Class 33:
Cider; Ciders; Dry cider; Sweet cider; Perry; Beverages (Alcoholic -), except beer; Alcoholic beverages [except beers]; Alcoholic beverages, except beer; Alcoholic beverages (except beer); Alcoholic beverages containing fruit; Alcoholic beverages of fruit; Alcoholic fruit beverages; Low alcohol cider; Low alcoholic drinks; All produced in Somerset.

BAD GUY PADEL

Class 25:
T-shirts; Hoodies.

Class 28:
Sport balls; Rackets; Racket cases; Tapes for rackets; Balls for playing sports.

Class 35:
Retail services connected with the sale of clothing and clothing accessories; Online retail store services relating to clothing; Retail services relating to sporting goods.

Liam Connolly

UK00004442464 08 September 2026
(9, 28)

BubbleUp

Class 9:
Electronic game software for mobile phones; Computer game software for use on mobile and cellular phones; Computer game software for use on mobile devices; Downloadable software in the nature of a mobile application for playing games; Mobile apps; Software for mobile phones; Downloadable computer games.

Class 28:
Electronic educational teaching games; Educational games; Musical games.

Kris Brough

UK00004442487 08 September 2026
(9, 16, 25, 28, 41, 42)

AgentChamp - Agent Champ

Application for a series of 2 marks.

Class 9:
Downloadable electronic books; downloadable children's books; downloadable audio books; educational computer software; children's educational software for teaching reading, phonics and reading comprehension; educational mobile applications; downloadable educational computer games; downloadable educational publications in the field of reading; downloadable worksheets in the field of reading comprehension; downloadable virtual goods, namely, virtual clothing, footwear, headwear, accessories and equipment for use in online educational platforms and computer games; downloadable software for creating and generating children's stories; downloadable software for text-to-speech conversion; downloadable software for assessing and tracking reading progress; downloadable software featuring artificial intelligence for generating educational content; downloadable software for teaching phonics.

Class 16:
Printed matter; printed educational materials; children's books; story books; activity books; workbooks; printed teaching materials in the field of reading comprehension; printed teaching materials in the field of phonics; posters; flash cards; printed collectable cards; stickers; certificates; reward charts; bookmarks; printed reading records.

Class 25:
Clothing; children's clothing; t-shirts; hooded tops; sweatshirts; hats; caps being headwear; footwear; slippers; socks; costumes; masquerade costumes; fancy dress costumes; children's fancy dress costumes; character costumes; capes; pyjamas; onesies.

Class 28:
Toys; games; playthings; plush toys; soft toys; toy figures; collectable toy figures; board games; card games; toy masks; play costumes for children; costume accessories for children's play; dress-up accessories being playthings; toy gadgets; educational toys; jigsaw puzzles.

Class 41:
Education services; educational services in the field of reading, phonics and reading comprehension; teaching services; tuition; educational assessment services; educational testing; publication of books; electronic publishing; publication of texts, other than publicity texts; providing online electronic publications, not downloadable; providing online non-downloadable children's books; providing online non-downloadable audio books; providing online non-downloadable videos; providing online educational games; entertainment services in the nature of interactive story-based games; organising of educational competitions; providing information in the field of education.

Class 42:
Software as a service [SaaS]; design and development of computer software; software as a service [SaaS] featuring software for teaching reading and reading comprehension; software as a service [SaaS] featuring software for generating children's stories; software as a service [SaaS] featuring software for tracking and reporting pupil reading progress; hosting of digital content in the field of children's reading; providing temporary use of online non-downloadable software for creating avatars.

Yishi Rituals

Class 3:
Cosmetics; Toiletries; Body cleaning and beauty care preparations; Deodorants and antiperspirants; Skin, eye and nail care preparations; Hair preparations and treatments; Oral hygiene preparations; Non-medicated toiletries; Fragrances for personal use; Essential oils for cosmetic purposes; Non-medicated cosmetics and toiletry preparations; Non-medicated skincare preparations; Cosmetic preparations for skin care; Hair care preparations; Incense; Air fragrancing preparations; Essential oils for the care of the skin; Massage oils and lotions; Non-medicated bath preparations; Cosmetic masks; Make-up preparations for the face and body; Make-up removing preparations; Topical skin sprays for cosmetic purposes; Body mist; Cosmetic creams for firming skin around eyes; Lip care preparations.

Class 10:
Medical and veterinary apparatus and instruments; Physiotherapy and rehabilitation equipment; Massage apparatus; Apparatus for physiotherapeutic treatment; Acupuncture instruments; Acupuncture needles; Apparatus for the stimulation of acupuncture points; Acupressure apparatus; Apparatus for acupressure therapy; Acupressure mats; Cupping glasses for moxibustion therapy; Moxibustion apparatus; Manual massage instruments; Thermal massage pads; Body massagers; Facial rollers for massage; Body-scraping plates for meridian scraping therapy; Disposable steam-heated patches for therapeutic purposes; Cups for use in cupping therapy.

Class 21:
Tableware, cookware and containers; Glassware; Cosmetic, hygiene and beauty care utensils; Dental cleaning articles; Household utensils for cleaning, brushes and brush-making materials; Unworked and semi-worked glass, not for building; Articles for the care of clothing and footwear; Works of art of porcelain, ceramic, earthenware, terra-cotta, clay or glass; Works of art and decorations, including sculptures, made primarily of ceramics or glass, or of substitutes for these; Cosmetic utensils; Cosmetic brushes; Cosmetic spatulas; Incense burners; Aromatic oil diffusers, other than reed diffusers, electric and non-electric; Tea infusers; Tea strainers; Tea sets; Tea services [tableware]; Teapots; Combs.

Class 30:
Cereal bars and energy bars; Coffee, teas and cocoa and substitutes therefor; Breakfast cereals, porridge and grits; Salts, seasonings, flavourings and condiments; Processed grains, starches, and goods made thereof, baking preparations and yeasts; Sugars, sweeteners for culinary purposes, sweet coatings and fillings, edible bee products, and edible decorations; Tea; Herbal tea; Tea bags; Fruit teas; Rice porridge; Herbal infusions; Dried herbs for culinary purposes; Preserved herbs; Preparations for making beverages [tea based]; Tea extracts for culinary purposes; Confectionery; Curried food pastes; Flavoring syrup.

Class 35:

Advertising, marketing and promotional services; Providing business information via a website; Provision of an online marketplace for buyers and sellers of goods and services; Promoting the goods and services of others via computer and communication networks; Loyalty, incentive and bonus program services; Online retail services relating to cosmetics; Online retail store services relating to cosmetic and beauty products; Retail services in relation to toiletries; Retail services in relation to beauty implements for humans; Retail services in relation to teas; Retail services in relation to medical instruments; Retail services in relation to tableware; Retail services in relation to jewellery; Wholesale services in relation to jewellery; Retail services in relation to clothing; Wholesale services in relation to clothing; Retail services in relation to dietary supplements; Wholesale services in relation to dietary supplements; Retail services in relation to confectionery; Wholesale services in relation to confectionery; Retail services in relation to printed matter; Wholesale services in relation to printed matter; Retail services in relation to pet products; Retail services in relation to downloadable electronic publications.

Class 41:
Education and instruction services; Online education services; Arranging and conducting of seminars and workshops; Entertainment services; Organisation of conferences, exhibitions and competitions; Organising community cultural events; Audio, video and multimedia production, and photography; Publishing, reporting, and writing of texts; Providing entertainment information via a website; Providing multi-media entertainment via a website; Sports and fitness services; Live performance services; Education; Training; Health and wellness training; Health education; Bodywork therapy instruction; Education services relating to therapeutic treatments; Tuition in medicinal herbalism; Meditation training; Teaching of meditation practices; Conducting courses, seminars and workshops; Arranging professional workshop and training courses; Providing online courses of instruction; Providing on-line videos, not downloadable; Providing online publications, not downloadable; Exercise instruction; Instruction courses relating to physical fitness.

Class 44:
Human healthcare services; Human hygiene and beauty care; Beauty care; Cosmetic body care services; Providing health information via a website; Hair care services; Spa services; Animal healthcare services; Acupressure therapy; Meridian scraping therapy (Gua Sha); Reflexology services; Bodywork therapy; Aromatherapy services; Herbalism; Consultation services relating to skin care; Acupuncture; Cupping therapy; Moxibustion; Massage; Massage therapy services; Therapy services; Meditation services.

computer software and software applications for cryptocurrency and cryptographic asset management; computer software and software applications for cross-blockchain transfers; GPS tracking and location devices; electronic tracking apparatus and instruments; computer software and software applications utilising blockchain technology and artificial intelligence for tracking and tracing of non-fungible tokens (NFTs); computer software and software applications utilising blockchain technology and artificial intelligence for tracking carbon, energy consumption, energy usage and carbon footprint; navigation and tracking devices and software; measurement apparatus and software; apparatus for tracking carbon or energy usage; computer software and software applications utilising blockchain technology and artificial intelligence for tracking and tracing carbon and carbon credits; computer software and software applications utilising blockchain technology and artificial intelligence for analysing and reporting the usage of carbon credits; downloadable computer software and applications using artificial intelligence in the fields of carbon and energy; software and software applications for greenhouse gas accounting; downloadable digital files authenticated by non-fungible tokens (NFTs); downloadable digital files authenticated by non-fungible tokens (NFTs) relating to carbon credits; downloadable digital certificates authenticated by non-fungible tokens [NFTs], relating to carbon credits; blockchain tokens; blockchain tokens linked to carbon credits; blockchain tokens for auditing, tracking and certifying data; blockchain tokens for auditing, tracking and certifying energy generation, regeneration, consumption and usage, carbon, carbon emissions and carbon footprint; computer software, mobile software applications and downloadable software utilising artificial intelligence and machine learning for issuing tokens of value, redeeming tokens of value, tracking the use and trading of tokens of value, and delivering advice and consultancy in relation thereto; software for smart contracts; computer software for blockchain software applications and wallets; computer software utilising blockchain technology for use as an application programming interface (API); computer software and software applications to facilitate the transfer of blockchain tokens, non-fungible tokens and cryptographic assets; computer software and software applications for operating marketplaces on which crypto-assets, blockchain tokens, non-fungible tokens, security tokens, carbon credits and carbon offsets are issued, transferred, sold and purchased; downloadable electronic publications; downloadable podcasts, videos, media, videocasts, electronic reports, mobile coupons and e-books; electronic publications; downloadable multimedia files; downloadable electronic newsletters; downloadable computer software providing a virtual marketplace; downloadable electronic data files featuring non-fungible tokens; downloadable tokens of value; computer software and software applications for data authentication and certification; computer software and software applications utilising blockchain technology for authentication and certification of data; computer software and software applications for allowing, enabling and facilitating payments and financial transactions; computer software and software applications for use in protecting the environment, restoring ecosystems and protecting biodiversity; computer software and software applications for reporting on the distribution and allocation of financial payments; computer software and software applications for the review and management of payments to environment and sustainability initiatives; computer software and software applications for collecting, distributing, allocating and tracking financial payments; software for application programming interfaces (API); computer software and software applications for the review and management of payments to environment and sustainability initiatives; computer software and software applications for maintaining a registry of traceable financial payments; computer software and software applications that provide commercial financial transaction data, account management, financial reporting, accounting features and related reference information; computer software and software applications enabling retailers, supermarkets and brands to configure, manage and report on product-linked or transaction-linked environmental contributions; computer software and software applications for stock keeping unit (SKU) level configuration of environmental contributions, mapping of product categories to supported projects, and automated allocation of merchant-funded contributions; computer software and software applications showing the allocation, traceability and environmental impact of financial contributions derived from retail transactions.

Class 35:
Business management; business consultancy; administration of customer loyalty, rewards and incentive schemes; the bringing together, for the benefit of others, of a variety of crypto-assets, blockchain tokens, security tokens, non-fungible tokens, carbon credits and carbon offsets, enabling customers to conveniently view, compare, trade and purchase the same; providing online marketplaces for sellers of goods and services; providing an online marketplace in the field of carbon credits and voluntary offsets; providing an online marketplace for exchanging goods and services with other users via a website; providing business information and advice in the field of blockchain technology and cryptocurrency; compilation and analysis of business data in the field of blockchain technology and cryptocurrency; compilation and analysis of business data in the field of carbon; tracking carbon for others for cost accounting and account auditing purposes; tracking and monitoring energy consumption for others for cost accounting and account auditing purposes; computerised auditing; maintaining a registry of information; maintaining a registry or database of carbon credits and carbon offsets; maintaining a registry or database of carbon emission, carbon footprint, energy consumption, energy usage, energy generation and energy regeneration data; maintaining a registry or database of energy providers; maintaining a database or registry of audited

energy providers; maintaining a registry of traceable carbon credits; maintaining a registry of traceable and tracked security tokens or non-fungible tokens linked to carbon credits; providing online marketplaces for carbon credit trading; providing online marketplaces for the sale and trade of crypto-assets, blockchain tokens, security tokens, non-fungible tokens, carbon credits and carbon offsets; retail services and wholesale services related to carbon credits, virtual goods, downloadable tokens, non-fungible tokens and carbon offsets; online retail services for carbon offsetting; provision of information relating to carbon offsetting; tracking and reporting the distribution of transactions to various environmental and sustainability projects and initiatives; compilation of environmental statistics; maintaining records of financial transactions; administration, allocation and settlement of environmental contributions generated from retailer and brand sales, including the distribution of those contributions to verified environmental, biodiversity and ecosystem-restoration projects; information, advisory and consultancy services related to the foregoing.

Class 36:
Financial services; financial services with the purpose of protecting the environment, restoring ecosystems and protecting biodiversity; merchant services, namely, payment transaction processing services; financial payment services; financial payment services with the purpose of protecting the environment, restoring ecosystems and protecting biodiversity; financial payment services for supporting environmental and sustainability initiatives; investment services; investment services related to environmental and sustainability projects and initiatives; investment services with the purpose of protecting the environment, restoring ecosystems and protecting biodiversity; financial transactions and transaction services; collection of payments; payment processing; account debiting services; automated payment services; conducting of financial transactions; conducting of financial transactions online; electronic transfer of funds; execution of financial transactions; payment verification services; charitable collections; arranging charitable collections for others; organisation of collections to fund environmental and sustainability projects and initiatives; providing the means for businesses to collect payments for funding and supporting environmental and sustainability projects and initiatives; financial sponsorship; fundraising; processing payments for the purchase of goods and services via an electronic communications network; payment administration services; financial services in the nature of tracking charitable donations, attributing them to environmental and sustainable projects and initiatives for others, and associated reporting; charitable fundraising services by means of a website where donors search for and attribute financial payments to specific charities or projects aimed at protecting the environment, restoring ecosystems and protecting biodiversity; charitable fundraising services by means of a website where donors search for and attribute financial payments to environmental and sustainability projects and initiatives; financial reporting; financial reporting related to the allocation of payments and donations to various environmental and sustainability projects and initiatives; financial record keeping; financial services in the nature of charitable services, namely, coordination of the procurement and distribution of financial donations from businesses to a range of environmental and sustainability projects and initiatives; financial record keeping in the nature of tracking, reporting and analysing the distribution of transactions to various environmental and sustainability projects and initiatives; financial services enabling the application of fixed fees, percentage uplifts or product-level margins to the sale of goods or customer transactions for the purpose of supporting environmental and sustainability projects; merchant-funded micro-contribution services allowing businesses to embed environmental contributions into stock keeping unit (SKU) level pricing, basket-level checkout flows or payment transactions; financial services enabling banks and financial institutions to allocate a percentage of transaction value, interest payments, fees or other account-based flows to environmental and sustainability projects; consultancy concerning financing of energy projects; consultancy in relation to the financing of projects in the field of carbon; allocation of carbon credits; carbon credit intermediation; issuing tokens of value; digital token trading; digital token transfer services; issuing blockchain tokens of value; carbon brokerage; carbon credit trading; issuing of carbon credits; carbon offset services, namely the acquisition, aggregation and supply of carbon offsets for and to the voluntary offset market, the creation and operation of carbon offsetting schemes in the voluntary offset market and the provision of information relating to carbon offsetting for the voluntary offset market; financial services in the field of cryptocurrency, digital and cryptographic assets; providing information relating to the issue of tokens of value; financial risk assessment; financial risk management; financial and investment market risk analysis, appraisal and projection; financial transactions via blockchain; information, advisory and consultancy services in relation to the foregoing.

Class 42:
Scientific and technological services and research and design relating thereto; industrial analysis and industrial research services; design and development of computer hardware and software; data authentication and certification services; data authentication and certification via blockchain; providing temporary use of non-downloadable computer programs; Blockchain as a Service [BaaS]; Software as a Service [SaaS]; Platform as a Service [PaaS]; Software as a Service [SaaS] utilising artificial intelligence; Software as a Service [SaaS] for blockchain technology; Software as a Service [SaaS] and Platform as a Service [PaaS] for tracking carbon; Software as a Service [SaaS] utilising blockchain; Software as a Service [SaaS], hosting of web portals and the provision of non-downloadable computer programs for use in protecting the environment, restoring ecosystems and protecting biodiversity; Software as a Service [SaaS], hosting of web portals and the provision of non-downloadable computer programs for allowing, enabling and facilitating payments and financial transactions; Software as a Service [SaaS], hosting of web portals and the provision of non-downloadable computer programs for reporting on the distribution and allocation of financial payments; Software as a Service [SaaS], hosting of web portals and the provision of non-downloadable computer programs for the review and management of payments to environment and sustainability initiatives; Software as a Service [SaaS], hosting of web portals and the provision of non-downloadable computer programs for collecting, distributing, allocating and tracking financial payments; Blockchain as a Service [BaaS] for tracing and tracking carbon, carbon credits, energy and energy usage; Software as a Service [SaaS] and Platform as a Service [PaaS] for cryptocurrency and cryptographic asset management; Software as a Service [SaaS] and Platform as a Service [PaaS] for cross-blockchain transfers; Software as a Service [SaaS] utilising blockchain technology, and Blockchain as a Service [BaaS] for authentication and certification of data; Software as a Service [SaaS] utilising blockchain technology and artificial intelligence,

and Blockchain as a Service [BaaS] for tracking and tracing non-fungible tokens; Software as a Service [SaaS] utilising blockchain technology and artificial intelligence, and Blockchain as a Service [BaaS] for tracking energy consumption and usage, carbon, carbon emissions and carbon footprint; Software as a Service [SaaS] and Blockchain as a Service [BaaS] for track and trace services; Software as a Service [SaaS] and Blockchain as a Service [BaaS] for tracking, presenting and managing energy usage, carbon, carbon emissions and carbon footprint; Software as a Service [SaaS] utilising artificial intelligence and Blockchain as a Service [BaaS] for tracking and tracing carbon and carbon credits; Software as a Service [SaaS] utilising artificial intelligence and Blockchain as a Service [BaaS] for analysing and reporting the usage of carbon credits; Software as a Service [SaaS] utilising artificial intelligence and Blockchain as a Service [BaaS] in the fields of energy and carbon; Software as a Service [SaaS] and Blockchain as a Service [BaaS] for greenhouse gas accounting; Software as a Service [SaaS] and Blockchain as a Service [BaaS] used in conjunction with machine learning and artificial intelligence for issuing tokens of value, redeeming tokens of value, tracking the use of and trading of tokens of value, and delivering advice and consultancy in relation thereto; Software as a Service [SaaS] for smart contracts; Software as a Service [SaaS] for application programming interfaces (API); Software as a Service [SaaS] to facilitate the transfer of blockchain tokens, non-fungible tokens and cryptographic assets; Software as a Service [SaaS] for operating marketplaces on which crypto-assets, blockchain tokens, non-fungible tokens, carbon credits and carbon offsets are issued, transferred, sold and purchased; subscription-based Software as a Service [SaaS], Platform as a Service [PaaS] and Blockchain as a Service [BaaS]; energy auditing; programming of energy management software; programming of carbon management software; technical consultancy in the field of energy saving, carbon, carbon emissions, carbon footprints, energy usage, energy tracking and energy efficiency; research in the field of carbon and energy; development of energy and power management systems; design and development of carbon and energy management, carbon and energy usage and carbon and energy tracking software, including software employing blockchain technology; recording and analysing data relating to energy consumption and carbon footprints; using blockchain technology and software to record, track and analyse data relating to carbon, energy use, energy transfer and energy consumption; certification services for the energy efficiency of buildings and businesses; providing technical advice relating to energy-saving measures; technological consultancy in the field of alternative energy generation; technological analysis services relating to carbon and energy; conducting research and technical project studies relating to the use of natural energy; conducting research and technical project studies relating to carbon, carbon credits and carbon offsets; design and development of software for control, regulation and monitoring of energy systems; research into the reduction of carbon emissions; carbon auditing; product certification services; testing, analysis and evaluation of the services of others for certification purposes; testing, analysis and evaluation of energy usage for certification purposes; certification of energy usage; certification of carbon emissions and carbon footprints; auditing of energy usage; auditing and certification of energy usage, regeneration and generation using blockchain technology; technical assessment of renewable energy deposits; quantification of carbon credits deposits; platforms for artificial intelligence as Software as a Service [SaaS]; hosting web portals; hosting web portals that use blockchain technology for carbon project management; hosting web portals for energy and carbon auditing, tracking and tracing; hosting web portals that utilise blockchain technology for energy auditing, tracking and tracing; compilation of environmental information; carbon offsetting services; evaluation of environmental impact; management of projects for carbon offsetting purposes; energy auditing services in relation to carbon offsetting; providing artificial intelligence computer programs on data networks; artificial intelligence technology consultation; platforms for artificial intelligence as Software as a Service [SaaS] in the carbon and energy fields; financial data authentication via blockchain; Platform as a Service [PaaS] in the field of carbon tracking, tracing and management; temporary use of non-downloadable computer programs, software, software platforms and software applications in the fields of carbon and energy; certification services for carbon credits; Software as a Service [SaaS] and Platform as a Service [PaaS] for blockchain technology; advisory and consultancy services relating to environmental pollution, environmental protection, safety of the environment, reducing the quantity of greenhouse gasses in the atmosphere, carbon management, energy consumption, energy efficiency, energy conservation, energy alternatives, restoring ecosystems, protecting biodiversity and environmental best practice; Software as a Service [SaaS], hosting of web portals and the provision of non-downloadable computer programs for maintaining a registry of traceable financial payments; Software as a Service [SaaS], hosting of web portals and the provision of non-downloadable computer programs that provide commercial financial transaction data, account management, financial reporting, accounting features and related reference information; Software as a Service [SaaS] and Software as a Service [SaaS] and non-downloadable software for application programming interfaces (API) enabling retailers, supermarkets and brands to configure, manage and report on product-linked or transaction-linked environmental contributions; Software as a Service [SaaS] and non-downloadable software for stock keeping unit (SKU) level configuration of environmental contributions, mapping of product categories to supported projects, and automated allocation of merchant-funded contributions; Software as a Service [SaaS], hosting of web portals and the provision of non-downloadable computer software showing the allocation, traceability and environmental impact of financial contributions derived from retail transactions; information, advisory and consultancy services in relation to the foregoing.

TBT METHOD

Class 41:
Education and training; Training courses; Conducting workshops [training]; Bodywork therapy instruction.

Class 44:
Therapy services; Bodywork therapy.

Urban Goddess Empowerment Ltd

UK00004443023 09 September 2026
(9, 35, 38, 41, 42)

Africa Manifest Trade Readiness Index (TRI)

Class 9:
Downloadable computer software; downloadable application software; artificial intelligence software; business assessment software; business analysis software; software for assessing, measuring, scoring and benchmarking business and trade readiness; software for identifying business capability gaps; software for collecting, processing, analysing and managing business data; software for generating business assessments, scores, reports and recommendations; downloadable electronic reports and publications relating to business and trade readiness.

Class 35:
Business assessment services; business analysis services; business evaluation services; business benchmarking services; business intelligence services; commercial information services; analysis of business data; assessment and evaluation of business capabilities and commercial readiness; assessment and benchmarking of businesses for trade and market participation; business diagnostic services; identification and analysis of business capability gaps; preparation of business assessment reports; business advisory and consultancy services relating to business capability, commercial readiness and trade readiness.

Class 38:
Providing access to databases; providing access to online databases; providing access to digital platforms; provision of electronic access to databases and digital platforms for the exchange of business information; electronic data exchange services; transmission of business data and information by electronic means.

Class 41:

Education and training services; business training services; provision of training relating to business capability development, commercial readiness and trade readiness; arranging and conducting training programmes, workshops and seminars; provision of online training; provision of educational information relating to business and trade readiness; publication of educational and training materials; provision of non-downloadable electronic publications relating to business capability development and trade readiness.

Class 42:
Software as a service [SaaS]; platform as a service [PaaS]; non-downloadable software for analysing business data and generating assessments, scores, recommendations and capability-development pathways; providing temporary use of online non-downloadable software for assessing, measuring, scoring and benchmarking business and trade readiness; providing temporary use of online non-downloadable software for identifying business capability gaps; providing temporary use of online non-downloadable software for collecting, processing and analysing business data; design and development of computer software; hosting of digital platforms; technological consultancy relating to business assessment and data analysis.

Unity Energy Limited

Class 9:
Solar photovoltaic panels; solar photovoltaic modules; photovoltaic inverters; electrical control apparatus for solar energy systems; batteries; rechargeable batteries; battery storage systems; electrical energy storage apparatus; electric vehicle charging apparatus; electric vehicle charging stations; charging cables for electric vehicles; electrical control apparatus for electric vehicle charging; electrical distribution apparatus; electrical switching apparatus; electricity meters; electrical monitoring apparatus; smart home control apparatus; home energy management apparatus; downloadable software and mobile applications for monitoring, managing, optimising and controlling energy consumption, generation and storage.

Class 11:
Heat pumps; air source heat pumps; air-to-air heat pumps; air-to-water heat pumps; heat pump water heaters; water heaters; hot water heating apparatus; boilers; heating apparatus; central heating apparatus; air conditioning apparatus; ventilation apparatus; heating, ventilation and air conditioning apparatus; mechanical ventilation with heat recovery apparatus; parts and fittings for the aforesaid goods.

Class 35:
Retail services, online retail services and wholesale services in relation to solar photovoltaic panels, photovoltaic inverters, batteries, battery storage systems, electric vehicle charging apparatus, electrical equipment, heat pumps, water heaters, boilers, heating apparatus, air conditioning apparatus, ventilation apparatus, mechanical ventilation with heat recovery apparatus, smart home apparatus and home energy management apparatus; provision of commercial information and advice to consumers in relation to the selection of energy, heating, cooling, ventilation, electrical and smart home products.

Class 37:
Installation, servicing, maintenance and repair of heat pumps; installation, servicing, maintenance and repair of water heating apparatus; installation, servicing, maintenance and repair of boilers and heating systems; installation, servicing, maintenance and repair of air conditioning systems; installation, servicing, maintenance and repair of ventilation systems and mechanical ventilation with heat recovery systems; installation, servicing, maintenance and repair of solar photovoltaic systems; installation, servicing, maintenance and repair of battery storage systems; installation, servicing, maintenance and repair of electric vehicle charging apparatus; electrical installation, maintenance and repair services; installation, commissioning, maintenance and repair of smart home and home energy management apparatus.

Class 42:
Technical design and consultancy services relating to heating, cooling, ventilation, solar photovoltaic, battery storage, electric vehicle charging and electrical systems; technical planning and design of energy systems; energy auditing; energy assessment services; technical analysis of energy consumption; technical project studies relating to energy systems; design and integration of smart home and home energy management systems; Software as a Service (SaaS) featuring software for monitoring, managing, optimising and controlling energy consumption, generation and storage; providing temporary use of non-downloadable software for energy monitoring, management, optimisation, reporting and remote control.

RUBRIK

Class 9:
Downloadable computer software for translating natural language instructions into machine logic and policies for monitoring, governing, and remediating the behavior of artificial intelligence (AI) agents; Downloadable computer software for monitoring, analyzing, and tracking the behavior, performance, and actions of artificial intelligence (AI) agents, including monitoring agent interactions with data, identities, and applications; Downloadable computer software for governing and controlling AI agents, namely, enforcing policy based controls on agent behavior, access, permissions, and actions; Downloadable computer software for remediating and reversing AI agent actions, namely, software for rolling back unintended, unauthorized, or destructive modifications made by AI agents; Downloadable computer software for AI agent discovery and inventory, namely, software for identifying and mapping AI agents across enterprise environments; Downloadable computer security software for monitoring, detecting, and responding to AI driven risks; Downloadable computer software for data security, data governance, and improving system resiliency against cybersecurity threats using AI based analytics; Downloadable software for auditing AI agent activity, maintaining immutable audit trails, and generating compliance reports; Downloadable computer software for managing and configuring AI agent policies, guardrails, and operational parameters; Downloadable computer software for AI driven analysis and evaluation of data, logs, and system events; Downloadable software development tools for building, integrating, training, and deploying AI agents; Downloadable computer software for retrieval augmented generation (RAG) for generative AI; Downloadable computer software for using artificial intelligence for natural language processing (NLP), generation, understanding and analysis, and using artificial intelligence for machine learning; Downloadable computer software for artificial intelligence, namely, software for developing, running and analyzing algorithms that are able to learn to analyze, classify, and take actions in response to threats and unauthorized exposure of data; Computer software platforms, downloadable, for use in developing and deploying artificial intelligence, including no-code and low-code model training platforms, pre-trained models, scalable installation environments, large language models (LLM), retrieval-augmented generation (RAG), and artificial intelligence agent services; Computer software platforms, downloadable, for use in training, fine-tuning, and deploying artificial intelligence models; Downloadable computer software for artificial intelligence, namely, software for developing, running and analyzing algorithms that are able to learn to analyze, classify, and take actions in response to exposure to data; Downloadable computer software for data services, namely, data storage, collection, analysis, processing, monitoring, optimization, reproduction, indexing, encrypting, networking, security, transmission, virtualization, backup, replication, and recovery; Downloadable computer software for data storage, collection, analysis, processing, monitoring, optimization, reproduction, networking, security, transmission, virtualization, backup, replication, and recovery; Downloadable computer software for managing, accessing, searching, and querying databases; Downloadable computer software for analyzing and summarizing information from a database or file system; Downloadable computer software for use in analysis and evaluation of data; Downloadable computer chatbot software for simulating conversations; Downloadable application programming interface (API) software; Computer software platforms, downloadable, for developing, running and analyzing algorithms that are able to learn to analyze, classify, and take actions in response to exposure to data; Downloadable computer programs and downloadable computer software for use with foundation models; Downloadable computer programs and downloadable computer software for use with foundation models, namely, large artificial intelligence models trained on a large quantity of data; Downloadable computer programs and downloadable computer software for building, managing, updating, developing, training, evaluating, and monitoring generative artificial intelligence applications powered by machine learning, deep learning, and artificial intelligence; Downloadable computer programs and downloadable computer software to manage and analyze large volumes of content using machine learning, deep learning, and artificial intelligence; downloadable computer programs and downloadable computer software using machine learning and artificial intelligence to process, understand, analyze, and generate text, images, speech, sound, and video; Downloadable computer programs and downloadable computer software for generating text, images, speech, sound, and video in response to natural language text commands and prompts using machine learning, deep learning, and artificial intelligence; Downloadable software development kits (SDK); Downloadable computer software using artificial intelligence (AI) for natural language processing (NLP), generation, understanding and analysis, and machine learning; Downloadable computer software for data services in the field of artificial intelligence, namely, data storage, collection, analysis, processing, monitoring, optimization, reproduction, indexing, encrypting, networking, security, transmission, and virtualization; Downloadable computer software for using and customizing foundational models, namely, large artificial intelligence models trained on a large quantity of data; Computer software platforms, downloadable, for use in training, fine-tuning, and deploying large language models (LLMs); Computer software platforms, downloadable, for use in training, fine-tuning, and deploying large language models (LLMs) via

low-rank adaption (LoRA) techniques; Computer software platforms, downloadable, for use in training, fine-tuning, and deploying large language models (LLMs) in the fields of code generation, content summarization, customer service automation, code documentation, and structured information extraction; Computer software platforms, downloadable, for use in deploying embedding models.

Class 42:
Software-as-a-Service (Saas) services featuring software for translating natural language instructions into machine logic and policies for monitoring, governing, and remediating the behavior of artificial intelligence (AI) agents; Providing temporary use of non downloadable cloud based software for monitoring AI agents, namely, software for observing agent behavior, activity, and interactions with enterprise systems; Providing temporary use of non downloadable cloud based software for governing AI agents, namely, software for defining, applying, and enforcing policy based controls over AI agent access, behavior, and actions in real time; Providing temporary use of non downloadable cloud based software for remediating or reversing AI agent actions, namely, software for rolling back unintended, unauthorized, or destructive modifications made by AI agents; Software as a service (SaaS) services featuring software for auto discovering and mapping AI agents across enterprise environments and third party platforms; Software as a service (SaaS) services featuring software for AI agent risk management, including security monitoring, threat detection, and vulnerability analysis; Software as a service (SaaS) services featuring software for AI governance, compliance, auditing, and generating immutable audit trails; Providing temporary use of non downloadable software for configuring AI agent guardrails, usage limits, policies, and operational parameters; Platform as a service (PaaS) featuring computer software platforms for deploying, managing, and orchestrating AI agents; Providing temporary use of non downloadable software for AI powered security, incident response, and system resiliency against cybersecurity threats; Technical consulting services in the field of AI agent operations, governance, system integration, and secure deployment; Providing temporary use of non-downloadable cloud-based software for using retrieval augmented generation (RAG) for generative AI; Providing temporary use of non-downloadable cloud-based software for using artificial intelligence for natural language processing (NLP), generation, understanding and analysis, and using artificial intelligence for machine learning; Software-as-a-service (SAAS) services featuring software for artificial intelligence, namely, software for developing, running and analyzing algorithms that are able to learn to analyze, classify, and take actions in response to threats and unauthorized exposure of data; Platform as a service (PAAS) featuring computer software platforms for use in developing and deploying artificial intelligence, including no-code and low-code model training platforms, pre-trained models, scalable installation environments, large language models (LLM), retrieval-augmented generation (RAG), and artificial intelligence agent services; Platform as a service (PAAS) featuring computer software platforms for use in training, fine-tuning, and deploying large language models (LLMs); Providing temporary use of non-downloadable cloud-based software for artificial intelligence, namely, software for developing, running and analyzing algorithms that are able to learn to analyze, classify, and take actions in response to exposure to data; Providing temporary use of non-downloadable cloud-based software for data services, namely, data storage, collection, analysis, processing, monitoring, optimization, reproduction, indexing, encrypting, networking, security, transmission, virtualization, backup, replication, and recovery; Providing temporary use of non-downloadable cloud-based software for data storage, collection, analysis, processing, monitoring, optimization, reproduction, networking, security, transmission, virtualization, backup, replication, and recovery; Providing temporary use of non-downloadable cloud-based software for managing, accessing, searching, and querying databases; Providing temporary use of non-downloadable cloud-based software for analyzing and summarizing information from a database or file system; Providing temporary use of non-downloadable cloud-based software for use in analysis and evaluation of data; Software-as-a-service (SAAS) services featuring software for use retrieval augmented generation (RAG) for generative AI; Software-as-a-service (SAAS) services featuring software for using artificial intelligence for natural language processing (NLP), generation, understanding and analysis, and using artificial intelligence for machine learning; Software-as-a-service (SAAS) services featuring software for artificial intelligence, namely, software for developing, running and analyzing algorithms that are able to learn to analyze, classify, and take actions in response to exposure to data; Software-as-a-service (SAAS) services featuring software for data services, namely, data storage, collection, analysis, processing, monitoring, optimization, reproduction, indexing, encrypting, networking, security, transmission, virtualization, backup, replication, and recovery; Software-as-a-service (SAAS) services featuring software for data storage, collection, analysis, processing, monitoring, optimization, reproduction, networking, security, transmission, virtualization, backup, replication, and recovery; Software-as-a-service (SAAS) services featuring software for managing, accessing, searching, and querying databases; Software-as-a-service (SAAS) services featuring software for analyzing and summarizing information from a database or file system; Software-as-a-service (SAAS) services featuring software for use in analysis and evaluation of data; Providing temporary use of online non-downloadable computer chatbot software for simulating conversations; Application service provider featuring application programming interface (API) software; Providing online non-downloadable computer software platforms for developing, running and analyzing algorithms that are able to learn to analyze, classify, and take actions in response to exposure to data; Software as a service (SaaS) services featuring software for use with foundation models; Providing online non-downloadable software for use with foundation models; Providing temporary use of online non-downloadable cloud computing software for use with foundation models; Software as a service (SaaS) services featuring software for use with foundation models, namely, large artificial intelligence models trained on a large quantity of data; Providing online non-downloadable software for use with foundation models, namely, large artificial intelligence models trained on a large quantity of data; Providing temporary use of online non-downloadable cloud computing software for use with foundation models, namely, large artificial intelligence models trained on a large quantity of data; software as a service (SaaS) services featuring software for building, managing, updating, developing, training, evaluating, and monitoring generative user experiences powered by machine learning, deep learning, and artificial intelligence; providing online non-downloadable software for building, managing, updating, developing, training, evaluating, and monitoring generative user experiences powered by machine learning, deep learning, and artificial intelligence; Providing temporary use of online non-

downloadable cloud computing software for building, managing, updating, developing, training, evaluating, and monitoring generative user experiences powered by machine learning, deep learning, and artificial intelligence; software as a service (SaaS) services featuring software using machine learning and artificial intelligence to process, understand, analyze, and generate text, images, speech, sound, and video; providing temporary use of non-downloadable software using machine learning and artificial intelligence to process, understand, analyze, and generate text, images, speech, sound, and video; Providing temporary use of online non-downloadable cloud computing software using machine learning and artificial intelligence to process, understand, analyze, and generate text, images, speech, sound, and video; software as a service (SaaS) services featuring software for generating text, images, speech, sound, and video in response to natural language text commands and prompts using machine learning, deep learning, and artificial intelligence; providing online non-downloadable software for generating text, images, speech, sound, and video in response to natural language text commands and prompts using machine learning, deep learning, and artificial intelligence; Providing temporary use of online non-downloadable cloud computing software for generating text, images, speech, sound, and video in response to natural language text commands and prompts using machine learning, deep learning, and artificial intelligence; Computer security consultancy in the field of data security; Data security consultancy; Data protection services, namely, data security consultancy as to data security, encryption, and secure data processing; Computer security consultancy in the field of cybersecurity consisting of cloud-based data security; software as a service (SAAS) services featuring software for data security; Platform as a service (PAAS) featuring computer software platforms for data security and governance; Computer technical support services, namely, data security consultancy and cloud-based data security; Software as a service (SAAS) services featuring software for artificial intelligence, namely, software for developing, running and analyzing algorithms that are able to learn to analyze, classify, and take actions in response to exposure to data; Software as a service (SAAS) services featuring software for data services in the field of artificial intelligence, namely, data storage, collection, analysis, processing, monitoring, optimization, reproduction, indexing, encrypting, networking, security, transmission, and virtualization; Providing on-line non-downloadable software for using and customizing foundational models, namely, large artificial intelligence models trained on a large quantity of data; Platform as a service (PAAS) featuring computer software platforms for use in training, fine-tuning, and deploying artificial intelligence models; Platform as a service (PAAS) featuring computer software platforms for use in training, fine-tuning, and deploying large language models (LLMs) via low-rank adaption (LoRA) techniques; Platform as a service (PAAS) featuring computer software platforms for use in training, fine-tuning, and deploying large language models (LLMs) in the fields of code generation, content summarization, customer service automation, code documentation, and structured information extraction; Platform as a service (PAAS) featuring computer software platforms for use in deploying embedding models; Computer services, namely, cloud hosting provider services; Computer services, namely, remote management of the information technology (IT) systems of others; Computer services, namely, providing virtual private cloud servers to others; Providing temporary use of non-downloadable cloud-based software for natural language processing (NLP), generation, understanding and analysis, and machine learning, all of the aforementioned services using artificial intelligence.
