software for real-time data collection, processing, analysis and transmission; software for intelligence, surveillance and reconnaissance; software for surveillance, reconnaissance, monitoring, observation, inspection, mapping and data collection; software for command and control systems; software for communications and data transmission; software for telemetry and telematics; software for communications between autonomous and remotely operated systems; software for remote monitoring, remote diagnostics and remote management of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; edge computing hardware; edge computing devices; edge servers; embedded computer systems; onboard computers; computer hardware for artificial intelligence processing; processors for artificial intelligence and machine learning applications; neural processing units; electronic data processing apparatus; computer hardware and software for local, onboard, edge and offline processing of data and artificial intelligence models; computer hardware and software for the deployment, execution and optimisation of artificial intelligence and machine learning models at the edge; electronic control systems; electronic control apparatus; electronic control units; electronic controllers; electronic control systems for machines, robots and robotic machines; electronic control systems for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; electronic control apparatus for motors and engines; electronic control apparatus for electric motors for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; flight control apparatus; navigation apparatus and instruments; electronic navigation apparatus; autonomous navigation apparatus and systems; guidance apparatus and instruments; positioning apparatus and instruments; localisation apparatus; satellite navigation apparatus; inertial navigation apparatus; apparatus and instruments for controlling, navigating, guiding and piloting aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; sensors; detectors; measuring apparatus and instruments; monitoring apparatus and instruments; electronic sensors; optical sensors; imaging sensors; infrared sensors; thermal sensors; temperature sensors; environmental sensors; position sensors; proximity sensors; distance sensors; motion sensors; electronic sensors for navigation, guidance, positioning, localisation, monitoring and control; sensors for autonomous and remotely operated systems; cameras; digital cameras; video cameras; infrared cameras; thermal imaging cameras; imaging apparatus; thermal imaging apparatus; radar apparatus; radar sensors; lidar apparatus; lidar sensors; laser scanning apparatus; electronic apparatus and instruments for detecting, measuring, monitoring, observing, locating, positioning, mapping and surveying; remote sensing apparatus; communications apparatus and instruments; telecommunications apparatus; radio communications apparatus; wireless communications apparatus; satellite communications apparatus; data communications apparatus; data transmission apparatus; transmitters; receivers; transceivers; radio transmitters and receivers; antennas; telemetry apparatus; telematics apparatus; computer networking and communications hardware; communications hardware for autonomous and remotely operated systems; apparatus for communication between machines, robots, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; remote control apparatus; remote controls for machines; remote controls for robots and robotic machines; remote controls for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; electronic apparatus for the remote operation, control and monitoring of autonomous and unmanned systems; surveillance apparatus; electronic surveillance apparatus; reconnaissance apparatus; electronic monitoring apparatus; observation apparatus; video surveillance apparatus; electronic apparatus and instruments for intelligence, surveillance and reconnaissance; electronic apparatus and systems for remote surveillance, monitoring, detection, observation, reconnaissance, inspection and environmental monitoring; computer hardware, computer software, electronic control apparatus, navigation apparatus, communications apparatus, sensors and monitoring apparatus for robots, robotic machines and autonomous machines; electronic control, navigation, guidance, communications, sensing, monitoring and computing apparatus and systems for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; parts, fittings and accessories for all the aforesaid goods.

Class 12:
Vehicles; air vehicles; aircraft; aeroplanes; unmanned aircraft; uncrewed aircraft; pilotless aircraft; remotely piloted aircraft; remotely controlled aircraft; autonomous aircraft; semi-

autonomous aircraft; unmanned aerial vehicles [UAVs]; uncrewed aerial vehicles; drones; aerial drones; autonomous aerial vehicles; remotely piloted aerial vehicles; remotely controlled aerial vehicles; robotic aerial vehicles; electric aircraft; electrically powered aircraft; electrically powered unmanned aerial vehicles, uncrewed aerial vehicles and drones; unmanned, uncrewed, autonomous, semi-autonomous and remotely operated aerial vehicles; unmanned, uncrewed, autonomous, semi-autonomous and remotely operated vehicles for transportation, surveillance, reconnaissance, monitoring, observation, mapping, surveying, inspection, sensing and data collection; aerial vehicles for transportation, surveillance, reconnaissance, monitoring, observation, mapping, surveying, inspection, sensing and data collection; airframes; fuselages; aircraft bodies; wings for aircraft; aircraft wings; rotors for aircraft; propellers for air vehicles; propellers for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; landing gear for aircraft; stabilisers for aircraft; flight control surfaces being structural parts of aircraft; chassis; vehicle chassis; structural parts of aircraft; structural parts of unmanned aerial vehicles, uncrewed aerial vehicles and drones; bodies for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; payload mounts being structural parts of aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; protective housings specially adapted for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; parts, fittings and accessories for aircraft, unmanned aircraft, uncrewed aircraft, autonomous aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, autonomous aerial vehicles, remotely piloted aerial vehicles, remotely controlled aerial vehicles and robotic aerial vehicles; parts, fittings and accessories for all the aforesaid goods. .

Class 37:
Construction services; building construction services; infrastructure construction; construction of infrastructure; construction, erection, assembly, installation, maintenance, repair, servicing, upgrading, renovation and refurbishment of buildings, structures, towers, masts and installations; construction, erection, assembly, installation, maintenance, repair, servicing, upgrading and refurbishment of surveillance towers, observation towers, monitoring towers, sensor towers, communications towers, telecommunications towers and remote monitoring installations; construction, erection, assembly, installation, maintenance, repair, servicing, upgrading and refurbishment of towers and installations incorporating surveillance, monitoring, sensing, detection, imaging, communications, telecommunications, data transmission, navigation, computing and autonomous systems technology; construction, erection, assembly, installation, maintenance, repair and servicing of surveillance, monitoring, observation, reconnaissance, detection, sensing, communications, telecommunications, data collection and environmental monitoring infrastructure; construction, erection, assembly, installation, maintenance, repair and servicing of remote and autonomous surveillance, monitoring, sensing, communications and telecommunications infrastructure; installation, maintenance, repair, servicing, upgrading and replacement of surveillance apparatus and equipment, monitoring apparatus and equipment, observation apparatus, sensors, detectors, cameras, imaging apparatus, radar apparatus, lidar apparatus, remote sensing apparatus, communications apparatus, telecommunications apparatus, radio communications apparatus, satellite communications apparatus, antennas, data transmission apparatus, telemetry apparatus, navigation apparatus, environmental monitoring apparatus and electronic monitoring apparatus; installation, maintenance, repair, servicing, upgrading and replacement of computer hardware, edge computing hardware, embedded computing hardware, onboard computing hardware, electronic control apparatus, electronic control systems, communications hardware, networking hardware, autonomous systems hardware, remote monitoring hardware and electronic systems and equipment for surveillance, reconnaissance, detection, observation, sensing, communications, data collection, situational awareness and environmental monitoring; installation, maintenance, repair and servicing of electrical equipment, electronic equipment, power supply equipment, electrical power distribution equipment, generators, batteries, battery systems, battery charging equipment, heating equipment and temperature-control equipment; installation, maintenance, repair and servicing of power supply and power management equipment for surveillance towers, monitoring towers, communications towers, remote installations and autonomous systems; installation, maintenance, repair, servicing, upgrading and refurbishment of robots, robotic machines, autonomous robotic machines and remotely controlled robotic machines; installation, maintenance, repair, servicing, upgrading and refurbishment of autonomous machines and autonomous equipment; installation, maintenance, repair and servicing of unmanned and remotely operated equipment; installation, maintenance, repair and servicing of aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; maintenance, repair, servicing and refurbishment of aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; installation, maintenance, repair and servicing of equipment and hardware incorporated into or specially adapted for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; installation, maintenance, repair and servicing of engines and motors; installation, maintenance, repair and servicing of aircraft engines and motors; installation, maintenance, repair and servicing of electric motors for aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; installation, maintenance, repair and servicing of propulsion machinery, power transmission mechanisms, actuators, generators, compressors and pumps; installation, maintenance and repair of thermal insulation; installation, maintenance and repair of weatherproofing; installation, maintenance and repair of environmental protection equipment; installation, maintenance and repair of heating and temperature-control equipment; weatherproofing of buildings, structures, towers, installations and equipment; insulation of buildings, structures, towers and installations; construction project management services; construction management services; construction supervision; on-site construction supervision; building project management services; information, advisory and consultancy services relating to all the aforesaid services. .

Class 38:
Telecommunications services; communication services; electronic communication services; digital communication services; data communication services; data transmission services; electronic data transmission services; wireless communication services; radio communication services; satellite communication services; satellite telecommunications services; telecommunications and communication services for autonomous, semi-autonomous and remotely operated systems; telecommunications and communication services for machines, robots, robotic machines, autonomous robotic machines, remotely controlled robotic machines, aircraft, unmanned

aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; telemetry services; telemetry communication services; telematics communication services; transmission of telemetry and telematics data; transmission of telemetry data from machines, robots, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, sensors, monitoring equipment and remote installations; electronic transmission of data, signals, messages, images, audio, video and information; transmission and streaming of data; real-time transmission of data; transmission of sensor data, environmental data, location data, positioning data, navigation data, operational data, diagnostic data, telemetry data, surveillance data, reconnaissance data and intelligence data; transmission of command and control data; transmission of command, control and telemetry data; transmission of data and signals for the command, control, navigation, guidance, operation and monitoring of autonomous, semi-autonomous and remotely operated systems; transmission of data and signals for the remote operation and control of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; communication services for the remote operation, control and monitoring of machines, robots, robotic machines, autonomous robotic machines, remotely controlled robotic machines, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; communications between autonomous and remotely operated systems and remote operators, control centres, monitoring centres and command centres; machine-to-machine [M2M] communication services; device-to-device communication services; communications between autonomous machines and devices; vehicle-to-vehicle communication services; vehicle-to-infrastructure communication services; communications services for connected devices; communications services for Internet of Things [IoT] devices and systems; communication services between machines, robots, autonomous systems, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, vehicles, sensors, cameras, surveillance towers, observation towers, monitoring towers, sensor towers, communications towers, remote monitoring installations, communications infrastructure, computer systems and remote operators; transmission of data from sensors, detectors, cameras, imaging apparatus, radar apparatus, lidar apparatus, remote sensing apparatus, navigation apparatus, environmental monitoring apparatus and electronic monitoring apparatus; transmission and streaming of surveillance, monitoring, imaging, sensing and remote-sensing data; transmission of data for surveillance, reconnaissance, observation, monitoring, inspection and environmental monitoring purposes; transmission of situational-awareness data; transmission of data for intelligence, surveillance and reconnaissance purposes; provision of telecommunications and communications links between autonomous and remotely operated equipment and remote operators, remote control centres, monitoring centres and command centres; provision of telecommunications and communications links between robots, autonomous machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, sensors, surveillance installations and remote monitoring installations; provision of communications links between onboard computing systems, edge computing systems, remote computing systems, cloud computing systems and autonomous or remotely operated equipment; electronic transmission of data between onboard computers, edge computing systems, remote computer systems and cloud computing systems; secure electronic transmission of data; secure data transmission services; encrypted data transmission services; encrypted electronic communications services; satellite transmission services; satellite communications services; satellite telecommunications services; transmission and reception of data by satellite; transmission of telemetry, command and control data by satellite; satellite transmission of sensor, monitoring, surveillance, navigation, location and operational data; telecommunications services for remote surveillance, monitoring, sensing, detection, observation, reconnaissance, inspection, environmental monitoring and data collection; telecommunications and data transmission services for surveillance towers, observation towers, monitoring towers, sensor towers, communications towers and remote monitoring installations; telecommunications, communications, telemetry and data transmission services for autonomous, semi-autonomous and remotely operated systems and equipment in remote geographical locations; provision of access to telecommunications networks; provision of access to communications networks; rental of telecommunications apparatus; rental of communications apparatus; rental of data transmission apparatus; information, advisory and consultancy services relating to all the aforesaid services.

Class 39:
Transport; transportation services; logistics services; transportation logistics; logistics services relating to the transportation, collection, handling, packaging, storage, warehousing, distribution and delivery of goods, equipment and cargo; supply chain logistics services consisting of the transportation, collection, handling, storage, warehousing, distribution and delivery of goods, equipment and cargo; freight services; freight forwarding services; freight transportation; cargo transportation; collection, transportation, distribution and delivery of goods, equipment and cargo; arranging the transportation, collection, distribution and delivery of goods, equipment and cargo; loading and unloading of goods, equipment and cargo; cargo handling services; freight handling services; handling of goods and equipment for transportation and storage purposes; packing, crating and packaging of goods and equipment for transportation; packaging of goods for transportation and storage; warehousing services; storage services; storage of goods, equipment, machinery, vehicles, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, robots, robotic machines, autonomous systems, electronic equipment, communications equipment, surveillance equipment, monitoring equipment, sensors, spare parts, components, power supplies and other supplies; storage of cargo; secure storage services; storage of equipment and supplies at remote locations; provision of storage facilities; provision of warehousing facilities; provision of storage depots; provision of distribution centres for transportation and storage purposes; provision of logistics facilities for the storage, warehousing, handling, transportation and distribution of goods, equipment and supplies; provision and operation of storage facilities; provision and operation of warehousing facilities; provision and operation of storage depots; provision and operation of logistics facilities for transportation and storage purposes; provision and operation of logistics hubs for transportation, storage, handling and distribution purposes; provision and operation of distribution centres for transportation and storage purposes; management of storage facilities; management of warehouses; management of warehousing facilities; management of storage depots; management of logistics facilities for transportation and storage purposes; management of logistics hubs for transportation,

storage, handling and distribution purposes; rental and leasing of warehouses; rental and leasing of warehouse space; rental and leasing of storage facilities; rental of storage space; rental of storage units; rental of storage containers; rental of freight containers; rental of pallets for the transport or storage of goods; rental of space, structures, units and containers for storage and transportation of goods and equipment; provision of logistics infrastructure for the transportation, storage, warehousing, handling and distribution of goods, equipment and supplies; operation of logistics infrastructure for transportation and storage purposes; provision and operation of remote logistics facilities, storage facilities, warehouses, storage depots, logistics hubs and distribution centres for transportation and storage purposes; rental of equipment and installations for the handling, movement, transportation and storage of goods and equipment; rental of automated equipment and installations for the handling and storage of goods; rental of robotic equipment for the handling, movement and storage of goods; rental of autonomous vehicles and autonomous transportation equipment for transportation purposes; transportation and logistics services relating to robots, robotic machines, autonomous machines, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles, drones, surveillance equipment, monitoring equipment, communications equipment, sensors, electronic equipment, machinery, spare parts, components, power supplies and other supplies; transportation, storage, warehousing, distribution and delivery of equipment, parts, components and supplies for the operation, maintenance and support of remote and autonomous systems and installations; logistics services for remote locations; logistics services for the transportation, storage, warehousing, handling, distribution and delivery of goods, equipment and supplies in remote geographical locations; transportation, collection, delivery, warehousing, storage, handling and distribution of goods, equipment and supplies in remote geographical locations; provision, operation and management of logistics facilities, storage facilities, warehousing facilities, storage depots, logistics hubs and distribution centres for transportation and storage purposes in remote geographical locations; transportation and delivery of goods, equipment and supplies by land, air and water; air freight services; transportation and delivery of goods, equipment and supplies by aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; transportation and delivery of goods, equipment and supplies using autonomous vehicles; rental of vehicles for transportation purposes; rental of aircraft; rental of unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones for transportation purposes; rental of autonomous vehicles for transportation purposes; tracking and tracing of goods, equipment, freight, cargo and shipments for transportation purposes; tracking and monitoring the location and movement of goods, equipment, freight, cargo and shipments for transportation purposes; provision of information relating to the transportation, collection, delivery, warehousing and storage of goods and equipment; route planning services for transportation purposes; information, advisory and consultancy services relating to all the aforesaid services.

Class 42:
Design and development of computer hardware and software; computer hardware development; computer software development; computer software design; computer programming; design, development, programming, implementation, configuration, testing, installation, updating, upgrading and maintenance of computer software, application software, embedded software and firmware; software engineering services; design and development of artificial intelligence systems; design and development of artificial intelligence software; design and development of artificial intelligence, machine learning, deep learning, computer vision, robotics, automation and autonomous systems technology; programming of artificial intelligence software; design, development, training, testing, implementation, deployment and optimisation of artificial intelligence and machine learning models; artificial intelligence consultancy; machine learning consultancy; technological consultancy in the fields of artificial intelligence, machine learning, robotics, automation and autonomous systems; design and development of software for artificial intelligence, machine learning, deep learning, computer vision and autonomous decision-making; design and development of software for robotics and autonomous systems; design and development of software for the autonomous, semi-autonomous and remotely controlled operation of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; design and development of software for the control, navigation, guidance, piloting, operation, monitoring, management and remote control of autonomous, semi-autonomous and remotely operated systems; design and development of autonomous control software, flight control software and autonomous navigation software; design and development of software for coordinating multiple autonomous or unmanned systems; design and development of software for mission planning, mission management, mission control and mission execution; design and development of software for autonomous decision-making, planning and execution of tasks; design and development of software for path planning, route planning and motion planning; design and development of software for obstacle detection and avoidance, collision detection and avoidance, object detection, object recognition, object classification and object tracking; design and development of software for positioning, localisation, mapping and situational awareness; design and development of software for sensor control and sensor management; design and development of software for sensor data processing, sensor fusion and data fusion; design and development of software for collecting, recording, transmitting, processing, analysing, interpreting, displaying, managing and storing sensor data, environmental data, location data, positioning data, navigation data, telemetry data, operational data, diagnostic data, surveillance data and reconnaissance data; design and development of software for real-time data collection, processing and analysis; design and development of software for intelligence, surveillance and reconnaissance; design and development of software for surveillance, reconnaissance, monitoring, observation, inspection, mapping and data collection; design and development of software for command and control systems; design and development of software for communications, data transmission, telemetry and telematics; design and development of software for remote monitoring, remote diagnostics and remote management of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; design and development of edge computing systems; design and development of computer hardware and software for edge computing, embedded computing and onboard computing; design and development of computer hardware and software for local, onboard, edge and offline processing of data and artificial intelligence models; design and development of computer hardware and software for the deployment, execution and optimisation of artificial

intelligence and machine learning models at the edge; design and development of edge computing systems for autonomous and remotely operated equipment; software as a service [SaaS]; platform as a service [PaaS]; artificial intelligence as a service [AIaaS]; platforms for artificial intelligence as software as a service [SaaS]; providing temporary use of online non-downloadable computer software; providing temporary use of online non-downloadable artificial intelligence and machine learning software; providing artificial intelligence computer programs and software on data networks and via online platforms; software as a service [SaaS] featuring artificial intelligence and machine learning software; platform as a service [PaaS] featuring computer software platforms for artificial intelligence and machine learning; artificial intelligence as a service [AIaaS] featuring artificial intelligence and machine learning software; providing temporary use of online non-downloadable software for the development, training, testing, deployment, execution and management of artificial intelligence and machine learning models; software as a service [SaaS] for the autonomous and semi-autonomous operation of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; providing temporary use of online non-downloadable software for the autonomous and semi-autonomous operation of machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; software as a service [SaaS] and artificial intelligence as a service [AIaaS] for autonomous decision-making, autonomous control, navigation, guidance, mission planning, mission management, mission execution, sensor management, sensor fusion, data processing, situational awareness, intelligence, surveillance, reconnaissance, monitoring and command and control; artificial intelligence as a service [AIaaS] for autonomous and semi-autonomous systems; platform as a service [PaaS] for the development, training, testing, deployment, execution, operation and management of artificial intelligence, machine learning and autonomous-systems applications; platform as a service [PaaS] for the development and deployment of software for robots, autonomous machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; cloud computing services; edge computing services; cloud computing services for artificial intelligence, machine learning and autonomous systems; provision of cloud computing platforms for artificial intelligence and machine learning; electronic data storage; technological data analysis services; analysis of technical data; engineering services; technological engineering services; engineering design services; engineering consultancy; engineering services relating to robotics, robotic machines, automation, autonomous systems, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; engineering services relating to electronic control, navigation, guidance, sensing, communications, computing and autonomous systems; design and development of robots and robotic systems; design and development of autonomous and remotely operated systems; technological design and development of autonomous machines, robots, robotic machines, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; design and development of electronic control, navigation, guidance, sensing, monitoring, communications and computing systems for autonomous machines, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; technological consultancy relating to robots, robotic machines, autonomous systems, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; technological consultancy relating to surveillance, monitoring, sensing, communications, telemetry, autonomous operation, artificial intelligence and edge computing; testing services; technological testing services; product testing; engineering testing; testing of computer hardware and computer software; testing of artificial intelligence and machine learning systems and models; testing of autonomous systems, robots, robotic machines, aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; technological testing of autonomous and remotely operated systems; testing and evaluation of the performance, functionality, safety, reliability, durability and environmental performance of computer hardware, computer software, electronic systems, artificial intelligence systems, autonomous systems, robots, robotic machines, aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; testing and evaluation of electronic control, navigation, guidance, sensing, communications, telemetry and computing systems; environmental testing of equipment and technology; technological design and engineering of towers, structures, surveillance installations, monitoring installations, sensing installations and communications installations; technological design and engineering of surveillance towers, observation towers, monitoring towers, sensor towers, communications towers and remote monitoring installations; technological design and engineering of infrastructure incorporating surveillance, monitoring, sensing, detection, imaging, communications, telecommunications, data transmission, navigation, computing and autonomous systems technology; information, advisory and consultancy services relating to all the aforesaid services.

Class 45:
Security services; physical security services; security and protection services; security and surveillance services; security services for the protection of property and individuals; security services for the physical protection of tangible property and individuals; security services for the protection of buildings, structures, facilities, installations, infrastructure and sites; surveillance services; physical surveillance services; remote surveillance services for security purposes; electronic monitoring services for security purposes; security monitoring services; remote security monitoring services; video surveillance services for security purposes; remote video monitoring services for security purposes; monitoring of security systems; monitoring of surveillance systems for security purposes; monitoring of alarms and security alarms; security and surveillance services provided using autonomous, semi-autonomous and remotely operated systems; security and surveillance services provided using robots, robotic machines and autonomous robotic machines; security and surveillance services provided using aircraft, unmanned aircraft, uncrewed aircraft, unmanned aerial vehicles, uncrewed aerial vehicles and drones; aerial surveillance services for security purposes; surveillance services by drone; security services based on autonomous and remotely operated systems; remote monitoring and surveillance of land, property, buildings, structures, facilities, sites, installations and infrastructure for physical security purposes; remote monitoring and surveillance of remote installations and infrastructure for physical security purposes; security and surveillance services provided using surveillance towers, observation towers, monitoring towers, sensor towers and remote monitoring installations; security guarding of facilities via remote monitoring systems; monitoring of cameras, sensors, detectors, radar apparatus, lidar apparatus, imaging apparatus and detection systems for physical security purposes; physical

security threat detection services; physical security threat monitoring services; detection, identification, assessment and monitoring of physical security threats; monitoring and detection of intrusion, unauthorised physical access and suspicious physical activity for security purposes; perimeter security monitoring services; intrusion detection and monitoring services for physical security purposes; automated physical security monitoring services; automated surveillance services for security purposes; physical security monitoring and surveillance services using artificial intelligence and machine learning; physical security threat detection and monitoring services using artificial intelligence and machine learning; physical security monitoring, surveillance and threat detection services using autonomous systems, cameras, sensors, detectors, radar, lidar, imaging and remote-sensing technologies; security risk assessment services; physical security risk assessment; security threat assessment; physical security threat analysis; assessment and analysis of risks relating to the physical protection of property, individuals, buildings, facilities, installations, infrastructure and sites; security inspection services; physical security consultancy; security consultancy relating to autonomous and remotely operated systems; security consultancy relating to the use of robots, unmanned aerial vehicles and drones for physical security and surveillance purposes; security monitoring and surveillance services for the physical protection of critical infrastructure, industrial facilities, energy infrastructure, communications infrastructure, telecommunications infrastructure, transportation infrastructure, logistics infrastructure, storage facilities, remote installations and strategic assets; physical security threat detection and monitoring relating to critical infrastructure, industrial facilities, remote installations and strategic assets; security monitoring, surveillance, threat detection and physical security risk assessment services for remote geographical locations; physical security and surveillance services for remote installations, infrastructure and sites; rental of security apparatus; rental of security surveillance apparatus and equipment; rental of security monitoring apparatus and equipment; rental of video surveillance apparatus; rental of cameras for security surveillance purposes; rental of autonomous and remotely operated security and surveillance apparatus; rental of security surveillance robots; information, advisory and consultancy services relating to all the aforesaid services.
