## Os Elements

Class 1:
Fertilisers; Fertilizers; Gypsum for use as a fertilizer; Liquid fertilisers; Fertilizers for soil; Multi-nutrient fertilizers; Compound fertilisers; Hydroponic fertilizers; Mineral fertilizers; Salts [fertilisers]; Additives (Chemical -) for fertilisers; Soil additives [fertilising].

Class 35:
Wholesale services in relation to chemicals for use in horticulture; Retail services in relation to chemicals for use in horticulture; Retail services in relation to horticulture products.

## Bainy

Class 21:
Mugs; Coffee mugs.

Class 25:
Hooded sweat shirts; T-shirts; V-neck sweaters; Printed t-shirts; Jackets (Stuff -) [clothing].

Class 41:
Entertainment; On-line entertainment.

## Cirra

Class 3:
Scented wax melts.

Class 4:
Candle wax; Candles; Wicks for candles; Scented candles; Perfumed candles; Candles (Perfumed -); Wax lights; Special occasion candles.

Class 5:
Aromatherapy fragrance candles.

Class 21:
Hairbrushes; Hair brushes; Hair combs; Brushes; Brushes, except paintbrushes; Candle jars [holders].

Class 24:
Towels; Hooded towels; Turban towels for drying hair; Towels of textile; Towels [textile]; Towels [of textile]; Textile hair drying towels; Towels of textiles.

Class 26:
Hair scrunchies; Hair ornaments, hair rollers, hair fastening articles, and false hair; Hair twisters [hair accessories]; Claw clips [hair accessories]; Hair curl clips; Hairbands; Hair clips.

## TDK LaunchEngine

Class 9:
Electronic components; Electrical components; Power regulating apparatus; Electrical and electronic test apparatus and instruments; Electricity measuring instruments; Capacitors, in particular, multilayer ceramic chip capacitors, multilayer capacitors, ceramic capacitors, lead disc-type capacitors, high voltage ceramic capacitors, multilayer ceramic chip capacitors with dipped radial lead, ultra high voltage ceramic capacitors, PLZT (lead lanthanum zirconate titanate) ceramic capacitors, and three-terminal feedthrough capacitors; Capacitor components, namely, Power Factor Correction (PFC) and Harmonic Filtering components [Power regulating apparatus], conductive plates, insulating dielectric material, leads for circuit connection, and capacitor casing; Inductors, in particular, surface mounted (SMD/SMT) inductors, leaded Inductors, high current flat wire inductors, coupled inductors, and power inductors; Coils, namely, surface mounted (SMD/SMT) coils, leaded electric coils, transponder coils, Power Factor Correction (PFC) choke coils, and choke coils; EMC (Electromagnetic Compatibility) Components [Electronic components], namely, chip beads, noise suppression filters, noise filters, ESD (Electrostatic Discharge) notch filters, three-terminal filters, signal line common mode chokes, signal line common mode filters, common mode chokes, common mode chokes coils, common mode filters, power line common mode chokes, power line common mode filters, differential mode chokes, clamp filters, ferrite core

with case [Electromagnetic filters], feedthrough capacitors, feedthrough filters, power line EMC (Electromagnetic Compatibility) filters, EMC (Electromagnetic Compatibility) filters, active leakage current filters, current filters, electric reactors, output filters, LCL (inductor-capacitor-inductor) filters, ferrites for EMC (Electromagnetic Compatibility) suppression, noise suppression sheets, power line chokes, high-current ring core chokes, choking coils [impedance], EMI (Electromagnetic interference) chokes, power EMC (Electromagnetic Compatibility) filters, active leakage current filter, and EMC (Electromagnetic Compatibility) feedthrough filters; Radio-frequency components, including filters, diplexers, triplexers, baluns, directional couplers, dividers, splitters, chip antennas, isolators, circulators, and antennas; Electrical surge and spike protection units, including voltage protection devices, temperature protection devices, diode, ceramic transient voltage suppressors, varistors, surge arresters, current protection devices, PTC (positive-temperature-coefficient) inrush current limiters, and NTC (negative-temperature-coefficient) inrush current limiters; Sensors; Sensors, including temperature sensors, NTC (negative-temperature-coefficient) thermistors, PTC (positive-temperature-coefficient) thermistors, level sensors, pressure sensors, humidity sensors, surface potential sensors, toner density, quantity sensors, stroke sensors, gear tooth sensors, current sensors, angle sensors, hall switches, linear hall sensors, hall sensors, MEMS (Micro Electro-Mechanical Systems) sensor, motion sensors, inertial sensors, vibration sensor, inclinometers, TMR (Tunneling magnetoresistance) sensors, NTC (negative-temperature-coefficient) temperature measurement sensors, NTC (negative-temperature-coefficient) elements, NTC (negative-temperature-coefficient) sensor assembly, NTC (negative-temperature-coefficient) sensor systems, motor protection sensors, pressure sensor elements, pressure sensor transmitters, ultrasonic sensors, clamp AC current sensors, powder level sensors, piezoelectric toner sensors, magnetic toner density sensors, magnetic toner quantity sensors, magnetic toner sensors, toner density sensors, toner quantity sensors, toner sensors, MEMS (Micro Electro-Mechanical Systems) gyros sensors, and MEMS (Micro Electro-Mechanical Systems) accelerometers; Ceramic capacitors; Contactors [Electric switches]; Buzzers; Microphones; Piezo speakers; Piezoelectric actuators; Electric Actuators; MEMS (Micro Electro-Mechanical Systems) microphones; Microphone; Multilayer piezo actuator stacks; Electric apparatus for generating atmospheric-pressure plasma and low-pressure plasma; Electric control and regulating apparatus, and chemical and physical apparatus for generating low-pressure plasma using at least one piezoelectric element and for generating atmospheric-pressure plasma, included in Class 9; Ozonisers [ozonators]; High-voltage contactors [Electric switches]; Switching spark gaps [Electric switches]; Piezoelectric buzzers; Electromagnetic buzzers; Transformers, in particular, current sense transformers, step-up transformers, pulse transformers; Ferrite cores [electromagnetic filters]; Noise suppressors [electrical components]; Magnetic sheet shield; Magnetic sheet shield for the purposes of blocking NFC signals; Radio-frequency anechoic chambers; Electromagnetic wave absorber panels for anechoic chambers; Anechoic Chambers; Radio Wave Absorbers; Filters for radio interference suppression; EMC (Electromagnetic Compatibility) measurement apparatus; Electronic power supplies; Switching power supplies; AC-DC power supplies; DC-DC converters; Programmable power supplies; High voltage power supplies; Bidirectional converters; Programmable electronic loads; Embedded DC-DC converters; Magnets, in particular, ferrite magnets and neodymium magnets; Flash storage, namely, solid-state drive [SSD] modules connected over a PCIe (Peripheral Component Interconnect Express) interface compliant connection, solid-state drives [SSD], flash memories, CF (CompactFlash) card [flash memory], NAND flash memories, solid-state drive [SSD] connected over a SATA interface compliant connection, Secure Digital (SD) memory cards, microSD card [Secure Digital (SD) Memory Cards], memory card, flash memory controllers, and memory controllers; Wireless chargers; Wireless power transfer units and modules, in particular, electromagnetic coil units for wireless electric power transfer [wireless charger]; Transparent conductive film [electric conductors]; Solar cells; HDD (hard disk drive) heads, in particular, magnetic heads, and magnetic recording heads; Batteries, in particular, electric batteries, Lithium-Ion batteries, rechargeable batteries, and rechargeable electric batteries; Solid-State Batteries; All-solid-state batteries; IC (Integrated Circuit); ASIC (Application Specific Integrated Circuit); Microcontrollers; Micromodules [Circuit boards provided with integrated circuits]; Circuit boards; Electric circuit boards; Printed circuit boards; Software, in particular, computer software, computer programs, downloadable positioning software, positioning software, and machine learning software; Thermometer; Aluminium electrolytic capacitors, namely, capacitors with screw terminals, large snap-in multipin capacitors, ultra-compact snap-in capacitors, axial capacitors, hybrid polymer capacitors, and single-ended (radial) capacitors; Film capacitors, namely, metallised polyester capacitors, metallised polypropylene capacitors, EMI (Electromagnetic interference) suppression capacitors, and power capacitors; Power factor correction (PFC) and harmonic filtering components [Power regulating apparatus], namely, PFC (power factor correction) capacitors, MV (medium voltage) surge capacitors, vacuum contactors, active harmonic filter and power optimizers, static var generator, PFC (power factor correction) controllers, capacitor contactors, thyristor modules, and grid analysis tool; Monitoring apparatus and instruments; visual monitoring apparatus; video cameras; video surveillance cameras; camera controller; Electrical system controls; Optical image stabilization modules; Optical image stabilization actuators; Optical image stabilizers; Electric circuits; Hard disk drive suspensions; Blank magnetic tapes; Blank magnetic discs; Blank magnetic optical disks; Blank optical disks; Compact discs, DVDs and other optical storage discs; Earphones; Headphones; Electronic devices incorporating SAW (surface acoustic wave) components and modules; parts and fittings for all the aforementioned goods; Software, namely, software for advertising, business management, business development, marketing research or analysis, business consultancy, investment management, venture capital funding service, start-up support, designing of machines, apparatus or instruments [including their parts], design of integrated circuits, consulting services in the field of product design and development, testing or research on machines, apparatus or instruments [including their parts], software design and development, artificial intelligence, and technological consultancy; Downloadable software comprising software for advertising, business management, business development, marketing research or analysis, business consultancy, investment management, venture capital funding service, start-up support, designing of machines, apparatus or instruments [including their parts], design of integrated circuits, consulting services in the field of product design and development, testing or research on machines, apparatus or instruments [including

their parts], software design and development, artificial intelligence, and technological consultancy; Data storage devices comprising software for advertising, business management, business development, marketing research or analysis, business consultancy, investment management, venture capital funding service, start-up support, designing of machines, apparatus or instruments [including their parts], design of integrated circuits, consulting services in the field of product design and development, testing or research on machines, apparatus or instruments [including their parts], software design and development, artificial intelligence, and technological consultancy; CD, DVD, data-stick, etc. comprising software for advertising, business management, business development, marketing research or analysis, business consultancy, investment management, venture capital funding service, start-up support, designing of machines, apparatus or instruments [including their parts], design of integrated circuits, consulting services in the field of product design and development, testing or research on machines, apparatus or instruments [including their parts], software design and development, artificial intelligence, and technological consultancy; Computer software, namely, software for advertising, business management, business development, marketing research or analysis, business consultancy, investment management, venture capital funding service, start-up support, designing of machines, apparatus or instruments [including their parts], design of integrated circuits, consulting services in the field of product design and development, testing or research on machines, apparatus or instruments [including their parts], software design and development, artificial intelligence, and technological consultancy; Training manuals in electronic format for advertising, business management, business development, marketing research or analysis, business consultancy, investment management, venture capital funding service, start-up support, designing of machines, apparatus or instruments [including their parts], design of integrated circuits, consulting services in the field of product design and development, testing or research on machines, apparatus or instruments [including their parts], software design and development, artificial intelligence, and technological consultancy; Simulation software tools for advertising, business management, business development, marketing research or analysis, business consultancy, investment management, venture capital funding service, start-up support, designing of machines, apparatus or instruments [including their parts], design of integrated circuits, consulting services in the field of product design and development, testing or research on machines, apparatus or instruments [including their parts], software design and development, artificial intelligence, and technological consultancy.

Class 35:
Advertising; Business management, organization and administration; Office functions; Marketing research or analysis; Business management analysis; business consultancy; Consulting services in the field of new business venture development; Business consulting services for emerging and start-up companies; Business development services, namely, providing start-up support for businesses of others.

Class 36:
Capital investment; Venture capital funding services for companies; Venture capital funding services to emerging and start-up companies; Venture capital advisory services.

Class 42:
Design services relating to machines, apparatus, instruments [including their parts] or systems composed of such machines, apparatus and instruments; Product design; Industrial design; Design of integrated circuits; Technological advice relating to computers, automobiles and industrial machines; Consulting services in the field of product design and development; Testing services in the field of electrical engineering; Testing and research of machines, apparatus and instruments [including their parts]; Product testing; Computer software design; Computer programming; Maintenance of computer software; Providing computer programs on data networks; Software as a service [SaaS]; Providing online non downloadable computer software; Rental of computer software; Artificial intelligence as a service [AIaaS]; Technology consultation in the field of artificial intelligence (AI); Research in the field of artificial intelligence technology; Computer software consultancy; Consultation services relating to business technology software; Consulting services in the field of software as a service (SAAS); Consulting services in the field of providing online, non-downloadable software and applications; Consultation services relating to computer software.

## VERITAS

Class 9:
Downloadable computer software for the life cycle assessment of vehicles, for the assessment of greenhouse gas emissions, air pollutant emissions, vehicle performance, techno-economic factors and material-resource impacts across production, operation and disposal phases; Computer software; Computer software applications.

Class 42:
Software as a service (SaaS) featuring software for the life cycle assessment of vehicles, for the assessment of greenhouse gas emissions, air pollutant emissions, vehicle performance, techno-economic factors and material-resource impacts across production, operation and disposal phases; Life cycle assessment services for vehicles; scientific and technological analysis relating to the assessment of greenhouse gas emissions, air pollutant emissions, vehicle performance, techno-economic factors and material-resource impacts across production, operation and disposal phases; Software as a service [SaaS]; Greenhouse gas emission measuring and analysis; Environmental assessment services; Materials testing and evaluation; Design, development and implementation of software; Design and development of testing and analysis methods; Development of computer programs for analysis of exhaust gas emissions; Scientific research and development; Assessment in the field of technology provided by engineers; Providing scientific information in the fields of climate change and global warming.

## ONPOINT

Class 9:
Telemetry devices for motor vehicles; Telematic apparatus; Vehicle tracking systems; Driver assistance systems for motor vehicles; On-board electronic systems in land vehicles for providing driving assistance; Integrated electronic safety systems for land vehicles; Telematic terminal apparatus; Tachographs; Automobile data recorder; Rearview cameras for vehicles; Cameras for vehicles; Video camcorders; Video cameras; Video recorders; Mobile application software; Application software for mobile phones; Application software for mobile devices; Downloadable mobile applications; Downloadable software in the nature of a mobile application; Downloadable applications for use with mobile devices; Downloadable applications for mobile devices; Software applications for use with mobile devices; Software applications for mobile devices; Downloadable software applications for mobile phones; Downloadable mobile applications for the management of data; Downloadable mobile applications for the management of information; Downloadable mobile applications for the transmission of data; Downloadable smart phone application software; Application software for smart phones; Downloadable mobile applications for the transmission of information; Downloadable smart phone applications (software); Machine-to-Machine [M2M] applications; Communications apparatus for vehicles; Mobile data communications apparatus; Telemetry devices for engine applications.

Class 39:
Tracking of passenger vehicles by computer or via GPS; Tracking of passenger or freight vehicles by computer or via GPS; Transport information service; Computerised transport information services; Provision of information relating to road transport; Services for the provision of information relating to motor transport; Route planning services; Route planning [navigation services]; Providing road and traffic information; GPS navigation services.

Class 42:
Software as a service [SaaS]; Platform as a service [PaaS]; Application service provider [ASP] services; Software as a service [SaaS] featuring software for machine learning; Software as a service [SaaS] featuring computer software platforms for artificial intelligence; Providing temporary use of non-downloadable software; Providing temporary use of on-line non-downloadable software for the management of data; Providing temporary use of on-line non-downloadable software for the transmission of data; Providing temporary use of non-downloadable computer software for tracking freight over computer networks, intranets and the internet; Design and development of route planning software; Design and development of computer software architecture; Design and development of computer software; Design and development of computer hardware; Design and development of computer software for logistics; Design and development of computer firmware; Updating and maintenance of computer software; Design of software for embedded devices; Updating of software for embedded devices; Hosting of platforms on the Internet; Hosting of databases; Hosting of computerized data, files, applications and information; Cloud computing services; Electronic data storage.

TDK Launch Engine

Class 9:
Electronic components; Electrical components; Power regulating apparatus; Electrical and electronic test apparatus and instruments; Electricity measuring instruments; Capacitors, in particular, multilayer ceramic chip capacitors, multilayer capacitors, ceramic capacitors, lead disc-type capacitors, high voltage ceramic capacitors, multilayer ceramic chip capacitors with dipped radial lead, ultra high voltage ceramic capacitors, PLZT (lead lanthanum zirconate titanate) ceramic capacitors, and three-terminal feedthrough capacitors; Capacitor components, namely, Power Factor Correction (PFC) and Harmonic Filtering components [Power regulating apparatus], conductive plates, insulating dielectric material, leads for circuit connection, and capacitor casing; Inductors, in particular, surface mounted (SMD/SMT) inductors, leaded Inductors, high current flat wire inductors, coupled inductors, and power inductors; Coils, namely, surface mounted (SMD/SMT) coils, leaded electric coils, transponder coils, Power Factor Correction (PFC) choke coils, and choke coils; EMC (Electromagnetic Compatibility) Components [Electronic components], namely, chip beads, noise suppression filters, noise filters, ESD (Electrostatic Discharge) notch filters, three-terminal filters, signal line common mode chokes, signal line common mode filters, common mode chokes, common mode chokes coils, common mode filters, power line common mode chokes, power line common mode filters, differential mode chokes, clamp filters, ferrite core with case [Electromagnetic filters], feedthrough capacitors, feedthrough filters, power line EMC (Electromagnetic Compatibility) filters, EMC (Electromagnetic Compatibility) filters, active leakage current filters, current filters, electric reactors, output filters, LCL (inductor-capacitor-inductor) filters, ferrites for EMC (Electromagnetic Compatibility) suppression, noise suppression sheets, power line chokes, high-current ring core chokes, choking coils [impedance], EMI (Electromagnetic interference) chokes, power EMC (Electromagnetic Compatibility) filters, active leakage current filter, and EMC (Electromagnetic Compatibility) feedthrough filters; Radio-frequency components, including filters, diplexers, triplexers, baluns, directional couplers, dividers, splitters, chip antennas, isolators, circulators, and antennas; Electrical surge and spike protection units, including voltage protection devices, temperature protection devices, diode, ceramic transient voltage suppressors, varistors, surge arresters, current protection devices, PTC (positive-temperature-coefficient) inrush current limiters, and NTC (negative-temperature-coefficient) inrush current limiters; Sensors; Sensors, including temperature sensors, NTC (negative-temperature-coefficient) thermistors, PTC (positive-temperature-coefficient) thermistors, level sensors, pressure sensors, humidity sensors, surface potential sensors, toner density, quantity sensors, stroke sensors, gear tooth sensors, current sensors, angle sensors, hall switches, linear hall sensors, hall sensors, MEMS (Micro Electro-Mechanical Systems) sensor, motion sensors, inertial sensors, vibration sensor, inclinometers, TMR (Tunneling magnetoresistance) sensors, NTC (negative-temperature-coefficient) temperature measurement sensors, NTC (negative-temperature-coefficient) elements, NTC (negative-temperature-coefficient) sensor assembly, NTC (negative-temperature-coefficient) sensor systems, motor protection sensors, pressure sensor elements, pressure sensor transmitters, ultrasonic sensors, clamp AC current sensors, powder level sensors, piezoelectric toner sensors, magnetic toner density sensors, magnetic toner quantity sensors, magnetic toner sensors, toner density sensors, toner quantity sensors, toner sensors, MEMS (Micro Electro-Mechanical Systems) gyros sensors, and MEMS (Micro Electro-Mechanical Systems) accelerometers; Ceramic capacitors; Contactors [Electric switches]; Buzzers; Microphones; Piezo speakers; Piezoelectric actuators; Electric Actuators; MEMS (Micro Electro-Mechanical Systems) microphones; Microphone; Multilayer piezo actuator stacks; Electric apparatus for generating atmospheric-pressure plasma and low-pressure plasma; Electric control and regulating apparatus, and chemical and physical apparatus for generating low-pressure plasma using at least one piezoelectric element and for generating atmospheric-pressure plasma, included in Class 9; Ozonisers [ozonators]; High-voltage contactors [Electric switches]; Switching spark gaps [Electric switches]; Piezoelectric buzzers; Electromagnetic buzzers; Transformers, in particular, current sense transformers, step-up transformers, pulse transformers; Ferrite cores [electromagnetic filters]; Noise suppressors [electrical components]; Magnetic sheet shield; Magnetic sheet shield for the purposes of blocking NFC signals; Radio-frequency anechoic chambers; Electromagnetic wave absorber panels for anechoic chambers; Anechoic Chambers; Radio Wave Absorbers; Filters for radio interference suppression; EMC (Electromagnetic Compatibility) measurement apparatus; Electronic power supplies; Switching power supplies; AC-DC power supplies; DC-DC converters; Programmable power supplies; High voltage power supplies; Bidirectional converters; Programmable electronic loads; Embedded DC-DC converters; Magnets, in particular, ferrite magnets and neodymium magnets; Flash storage, namely, solid-state drive [SSD] modules connected over a PCIe (Peripheral Component Interconnect Express) interface compliant connection, solid-state drives [SSD], flash memories, CF (CompactFlash) card [flash memory], NAND flash memories, solid-state drive [SSD] connected over a SATA interface compliant connection, Secure Digital (SD) memory cards, microSD card [Secure Digital (SD) Memory Cards], memory card, flash memory controllers, and memory controllers; Wireless chargers; Wireless power transfer units and modules, in particular, electromagnetic coil units for wireless electric power transfer [wireless charger]; Transparent conductive film [electric conductors]; Solar cells; HDD (hard disk drive) heads, in particular, magnetic heads, and magnetic recording heads; Batteries, in particular, electric batteries, Lithium-Ion batteries, rechargeable batteries, and rechargeable electric batteries; Solid-State Batteries; All-solid-state batteries; IC (Integrated Circuit); ASIC (Application Specific Integrated Circuit); Microcontrollers; Micromodules [Circuit boards provided with integrated circuits]; Circuit boards; Electric circuit boards; Printed circuit boards;

Software, in particular, computer software, computer programs, downloadable positioning software, positioning software, and machine learning software; Thermometer; Aluminium electrolytic capacitors, namely, capacitors with screw terminals, large snap-in multipin capacitors, ultra-compact snap-in capacitors, axial capacitors, hybrid polymer capacitors, and single-ended (radial) capacitors; Film capacitors, namely, metallised polyester capacitors, metallised polypropylene capacitors, EMI (Electromagnetic interference) suppression capacitors, and power capacitors; Power factor correction (PFC) and harmonic filtering components [Power regulating apparatus], namely, PFC (power factor correction) capacitors, MV (medium voltage) surge capacitors, vacuum contactors, active harmonic filter and power optimizers, static var generator, PFC (power factor correction) controllers, capacitor contactors, thyristor modules, and grid analysis tool; Monitoring apparatus and instruments; visual monitoring apparatus; video cameras; video surveillance cameras; camera controller; Electrical system controls; Optical image stabilization modules; Optical image stabilization actuators; Computer software for modifying audio, video, and audio-visual content; Computer software for modifying and enabling transmission of video, audio, audio-visual and video content and data; Computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Computer software for social networking and interacting with online communities; Computer software for processing images, graphics, audio, video, and text; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for social networking; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for creating, managing, accessing, and interacting with groups within virtual communities; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for organizing events, searching for events, calendaring and managing events; Downloadable mobile application software for enabling users to modify their photos and videos and for adding special effects to their photos and videos using generative artificial intelligence; Downloadable mobile application software for enabling users to modify their photos and videos and for adding special effects to their photos and videos using artificial intelligence; Downloadable mobile application software using generative artificial intelligence to create, organize, and

modify photos, videos, audio, text, and data; Downloadable mobile application software using artificial intelligence to create, organize, and modify photos, videos, audio, text, and data; Downloadable mobile application software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; Downloadable mobile application software for engaging in social networking; Downloadable mobile application software for uploading, downloading, sharing, or otherwise providing electronic media, videos, images, text, photos and user-generated content via the internet and other communication networks; Downloadable mobile application software for multimedia content creation and social media content creation; Downloadable mobile application software for creating, modifying, sharing and enabling transmission of images, audio, audio visual and video content with special effects; Downloadable mobile application software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality effects, namely, graphics, animations, text, and drawings; Downloadable mobile application software for the collection, organizing, modifying, transmission, storage and sharing of data and information; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting text, images, audio, audio visual and video content and data; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for enabling transmission of images, audio, audio visual and video content and data; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for sending and receiving electronic messages, alerts, notifications and reminders; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for creating, accessing, browsing, and searching audio, video, and multimedia content, games, and software applications; Downloadable application programming interface (API) software for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual personal assistants; Downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for the artificial production of human-like speech and text; Downloadable computer chatbot software for simulating conversations; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for using artificial intelligence for use as a digital companion; Downloadable personal assistant software; Downloadable artificial intelligence personal assistant software for performing tasks or services on behalf of a user that is activated by user input, location awareness, and online information; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for machine-learning based language and speech processing software; Downloadable software for using artificial intelligence for machine learning; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in connection with language models; Downloadable software for using artificial intelligence for conversational query; Downloadable software for using artificial intelligence for speech or language recognition and translation; Downloadable software for using artificial intelligence for processing, generation, understanding and analysis of natural language into machine-executable commands; Downloadable artificial intelligence software for accessing, browsing, and searching online databases; Downloadable computer virtual assistant software, downloadable mobile application virtual assistant software, and downloadable computer application virtual assistant software that can perform tasks or services on behalf of a user that is activated by user input, location awareness, and online information; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for natural language processing, generation, understanding and analysis; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for creating, generating and modifying images and videos from text commands; Downloadable computer software, downloadable mobile application software, and downloadable computer application software, all for creating and generating videos from text commands; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for creating and generating images from text commands; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in connection with large data models for the creation, generation and modification of images and videos from text commands; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in connection with large data models for the creation and generation of images from text commands; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for machine learning based image creation, generation, and modification from text commands; Downloadable artificial intelligence software for machine learning; Downloadable artificial intelligence software for visual perception; Downloadable artificial intelligence software for speech or language recognition and translation; Downloadable artificial intelligence software for decision-making; Downloadable artificial intelligence software for conversational query; Downloadable artificial intelligence

software for converting natural language into machine-executable commands; Downloadable intelligent personal assistant software for performing tasks or services on behalf of a user that is activated by user input, location awareness, and online information; Downloadable computer software, downloadable mobile application software, and downloadable computer application software, all for creating and generating text; Downloadable computer programs and downloadable computer software for using language models; Downloadable computer software, downloadable mobile application software, and downloadable computer application software, all for sharing datasets for the purpose of machine learning; Downloadable computer software, downloadable mobile application software, and downloadable computer application software, all for predictive analytics; Downloadable artificial intelligence software, namely, machine learning software, visual perception software, speech or language recognition software, decision-making software, translation software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; Downloadable software for converting natural language into machine-executable commands; Downloadable software, namely, an interpretive software interface for facilitating interaction between humans and machines; Downloadable virtual assistant software that can perform tasks or services on behalf of a user that is activated by user input, location awareness, and online information; Downloadable software for facilitating machine learning; Downloadable computer software, namely, an interpretive interface for facilitating interaction between humans and machines; Downloadable computer software development tools; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for accessing, browsing and searching online databases; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in creating, managing, measuring, and disseminating advertising of others; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for building user interfaces; Downloadable computer software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for enabling electronic devices to share data and communicate with each other; Downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Downloadable voice command and recognition software; Downloadable computer software, downloadable mobile application software, and downloadable computer application software, all for building language models; Downloadable location-aware software for searching, determining and sharing locations.

Class 42:
Computer software that gives users the ability to upload, edit, and share videos and audio-visual content; Providing online facilities that give users the ability to upload, modify and share videos; Computer software for viewing and interacting with a feed of videos, audio, audio-visual and video content and associated text and data; Providing on-line non-downloadable software and software as a service (SAAS) services featuring software for enabling users to modify their photos and videos and for adding special effects to their photos and videos using generative artificial intelligence; Providing on-line non-downloadable software and software as a service (SAAS) services featuring software for enabling users to modify their photos and videos and for adding special effects to their photos and videos using artificial intelligence; Providing on-line non-downloadable software and software as a service (SAAS) services featuring software for using generative artificial intelligence to create, organize, and modify photos, videos, audio, text, and data; Providing on-line non-downloadable software and software as a service (SAAS) services featuring software for using artificial intelligence to create, organize, and modify photos, videos, audio, text, and data; Providing on-line non-downloadable software and software as a service (SAAS) services featuring software for using generative artificial intelligence for developing and creating advertising materials for others; Providing on-line non-downloadable software and software as a service (SAAS) services featuring software for using artificial intelligence for developing and creating advertising materials for others; Providing online non-downloadable software and software as a service (SAAS) services featuring software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; Providing online facilities in the nature of online network environments featuring technology that enables online users to engage in social networking; Providing on-line non-downloadable software and software as a service (SAAS) services featuring software for uploading, downloading, sharing, or otherwise providing electronic media, videos, images, text, photos and user-generated content via the internet and other communication networks; Providing on-line non-downloadable software and software as a service (SAAS) services featuring software for multimedia content creation and social media content creation; Providing temporary use of online non-downloadable computer software and software as a service (SAAS) services featuring software for creating, modifying, sharing and enabling transmission of images, audio, audio visual and video content with special effects; Providing on-line non-downloadable software and software as a service (SAAS) services featuring software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality effects, namely, graphics, animations, text, and drawings; Providing temporary use of online non-downloadable computer software and software as a service (SAAS) services featuring software for the collection, organizing, modifying, transmission, storage and sharing of data and information; Providing online non-downloadable software, software as a service (SAAS) services, and platform as a service (PAAS) services featuring software for controlling, integrating, operating, connecting, and managing internet of things (IoT) enabled devices and voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Providing online non-downloadable personal assistant software, software as a service (SAAS) services and platform as a service (PAAS) services featuring personal assistant software; Providing online non-downloadable software, software as a service (SAAS) services, and platform as a service (PAAS) services featuring software for

mobile devices and computers, all for the artificial production of human-like speech and text; Providing online non-downloadable software, software as a service (SAAS) services, and platform as a service (PAAS) services featuring software, all for natural language processing, generation, understanding and analysis; Providing online non-downloadable software, software as a service (SAAS) services, and platform as a service (PAAS) services featuring computer chatbot software for simulating conversations; Providing online non-downloadable software, software as a service (SAAS) services, and platform as a service (PAAS) services featuring software for using artificial intelligence for processing, generation, understanding and analysis of natural language into machine executable commands; Providing online non-downloadable software, software as a service (SAAS) services, and platform as a service (PAAS) services featuring software for mobile devices and computers, all for using artificial intelligence for use as a digital companion; Providing online non-downloadable software and software as a service (SAAS) services featuring software for use in connection with language models; Providing online non-downloadable software and software as a service (SAAS) services featuring software for using artificial intelligence for image recognition; Research and development services in the field of artificial intelligence; Providing online non-downloadable software and software as a service (SAAS) services featuring software for use in connection with accessing, browsing and searching online databases; Providing a website featuring information in the fields of technology and software development via the internet and communication networks; Providing temporary use of online non-downloadable software tools for software development; Providing a website featuring information in the field of artificial intelligence; Providing temporary use of non-downloadable software applications in the field of artificial intelligence; Providing online non-downloadable software, software as a service (SAAS) services, and platform as a service (PAAS) services featuring software for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all for creating, generating, and modifying images and videos from text commands; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all for use in connection with language data models for the creation, generation, and modification of images and videos from text commands; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all in the field of artificial intelligence, namely, software for building conversational query systems and digital assistants using artificial intelligence; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all for establishing an interpretive interface for facilitating interaction between humans and machines; Providing an online forum, chat rooms and electronic bulletin boards for transmission of messages among users in the field of general interest; Providing online non-downloadable software tools for software development; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all in the nature of a query engine; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all using artificial intelligence for machine learning; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all using artificial intelligence for visual perception; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all using artificial intelligence for decision-making; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all using artificial intelligence for converting natural language into machine-executable commands; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all for the artificial production of human speech and text; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all for machine-learning based language and speech processing software; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all for creating and generating text; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all for computer system and application development, deployment, and management; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all for sharing datasets for the purpose of machine learning; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all for predictive analytics; Application service provider (ASP); Computer services; Providing online non-downloadable software and software as a service (SAAS) services featuring software, all for building user interfaces; Providing online non-downloadable software and software as a service (SAAS) services featuring software, all for customizing personal and group profiles or webpages featuring user-defined or specified information, including, audio, video, images, text, content, and data; Providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all for social networking, managing social networking content, and creating a virtual community; Providing online non-downloadable software and software as a service (SAAS) services, all for creating and managing social media profiles and user accounts; Providing online non-downloadable computer software and software as a service (SAAS) services featuring software, and platform as a service (PAAS) services featuring computer software platforms, all for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting text, images, audio, audio visual and video content and data; Providing online non-downloadable software and software as a service (SAAS) services, all for creating, editing, uploading, downloading, accessing, viewing, posting,

displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, transmitting, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; Providing online non-downloadable software and software as a service (SAAS) services, all for searching, determining, and sharing locations; Providing online non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of interest; Providing online non-downloadable software for organizing events, searching for events, calendaring and managing events; Providing online non-downloadable software and software as a service (SAAS) services featuring software, all for accessing, browsing, and searching online databases, audio, video and multimedia content, games, and software applications; Providing online non-downloadable software and platform as a service (PAAS) services featuring computer software platforms, all for home automation and home device integration software; Providing online non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices;
