Class 35:
Retail, wholesale and online retail services connected with the sale of humanoid robots, humanoid robots incorporating artificial intelligence, artificial friend robots, companion robots with artificial intelligence, companion robots, social robots, service robots, telepresence robots, robotic assistants, collaborative robots (cobots), industrial robots, robotic arms, robots having communication and learning functions for assisting and entertaining people, robotic apparatus, robotic equipment, robotic control apparatus, sensors, cameras, parts, fittings and accessories for robots; retail, wholesale and online retail services connected with the sale of software for operating, controlling, configuring and monitoring humanoid robots, collaborative

robots and robotic systems; distributorship services relating to humanoid robots, artificial friend robots, artificial-intelligence-enabled robots, companion robots, social robots, service robots, robotic assistants, collaborative robots (cobots), industrial robots and robotic equipment; import-export agency services relating to robots and robotic equipment; procurement services for others relating to robots and robotic equipment; providing commercial information and advice for consumers in the choice of humanoid robots, companion robots, artificial friend robots, collaborative robots, robotic systems and robotic equipment.

Class 37:
Installation, commissioning, maintenance, servicing and repair of humanoid robots, artificial-intelligence-enabled robots, artificial friend robots, companion robots, social robots, service robots, telepresence robots, robotic assistants, collaborative robots (cobots), industrial robots, robotic arms, robotic apparatus, robotic systems and robotic equipment; installation, commissioning, maintenance, servicing and repair of robotic hardware, robotic control apparatus, sensors, cameras and peripheral equipment for robots; upgrading of robotic hardware; modification of robotic hardware; information and advisory services relating to the aforesaid services.

Class 42:
Engineering services relating to humanoid robots, artificial-intelligence-enabled humanoid robots, artificial friend robots, collaborative robots (cobots) and robotic systems; design and development of robotic systems; systems integration engineering relating to humanoid robots, collaborative robots and robotic systems; configuration and technical commissioning of humanoid robots, artificial-intelligence-enabled humanoid robots, artificial friend robots, collaborative robots and robotic systems; integration of sensors, cameras, control apparatus and peripheral equipment with humanoid robots, collaborative robots and robotic systems; technical integration and configuration of third-party technology for use with humanoid robots, collaborative robots and robotic systems; testing and technical evaluation of humanoid robots, collaborative robots and robotic systems; technological consultancy relating to humanoid robotics, collaborative robotics, robotic systems and human-robot interaction; technical project studies relating to humanoid robotics, collaborative robotics and robotic systems; information and advisory services relating to the aforesaid services.

COBOT LTD

UK00004456274 07 October 2026
(21, 25, 32, 42)

AI IN A BOTTLE

Class 21:
Household or kitchen utensils and containers; glassware, porcelain and earthenware; bottles; water bottles; drinking bottles; re-usable drinking water bottles.

Class 25:
Clothing, footwear, headgear.

Class 32:
Mineral and aerated waters and other non-alcoholic beverages; fruit beverages and fruit juices; water; drinking water; bottled water; spring water; mineral water.

Class 42:
Artificial intelligence as a service [AIaaS]; Providing artificial intelligence computer programs on data networks; Platforms for artificial intelligence as software as a service [SaaS]; Software as a service [SaaS] featuring computer software platforms for artificial intelligence.

RAINFOREST TO ROCKIES

Class 35:
Promoting tourism to British Columbia; promotion of tourism for others; promoting the goods and services of others in relation to tourism within British Columbia; advertising, promotion, and marketing services in the nature of promoting the goods and services of others in relation to tourism within British Columbia; promoting the goods and services of others in relation to tourism within British Columbia by providing a website featuring links to the websites of others.

Class 39:
Provision of tourism information for British Columbia; provision of information in the field of travel and tourism to British Columbia through the internet; provision of transport information and advice for travel and travel by air, rail, ship, bus, tram and truck for leisure, recreation, tourism, holiday, and vacation travel to and within British Columbia.

Mark 1

Mark 2

Application for a series of 2 marks.

Class 7:
Industrial robots; collaborative robots for industrial purposes (cobots); robotic arms for industrial purposes; SCARA industrial robots; Cartesian industrial robots; mobile industrial robots for manipulating and processing materials; autonomous mobile industrial robots for manipulating and processing materials; robotic manipulators for industrial purposes; robotic workstations consisting of industrial robots and machines; automated industrial robotic cells; robotic apparatus and robotic mechanisms for industrial purposes; robots and robotic apparatus for handling, positioning, manipulating, lifting, transferring, conveying, feeding, loading and unloading workpieces and goods; pick-and-place robots; palletising robots; depalletising robots; robotic sorting machines; robotic packing and packaging machines; robotic labelling machines; robotic filling machines; robotic mechanisms for material handling; robots for machine tools; industrial robots for machine tending; robotic apparatus for tending CNC machines and machine tools; automated assembly machines; industrial robots for assembly; robots for welding; robotic welding machines; robotic MIG welding machines; robotic TIG welding machines; robotic laser welding machines; robotic plasma welding machines; robotic electric welding apparatus; robotic electric arc welding apparatus; robotic spot-welding apparatus; robotic soldering apparatus; industrial robots for soldering; robotic electric arc cutting apparatus; robotic cutting machines; plasma cutting machines; plasma gouging machines; robotic electric glue guns; bonding machines; robotic bonding apparatus; dispensing machines; robotic dispensing machines; industrial robots for dispensing adhesives, sealants, lubricants and other materials; industrial robots and machines for gluing, adhesive application, sealing, potting, gasketing, lubrication and filling; robotic painting machines; automatic robotic spray guns for paint; robotic spraying machines; coating machines; industrial robots for painting, spraying, powder coating and coating applications; plasma cleaning machines and apparatus; industrial machines for plasma treatment and surface treatment; industrial robots for drilling, screwdriving, fastening, cutting and assembly; drilling machines; robotic electric hand drills; automatic tool changers for industrial robots; robotic tool holders being parts of machines; robotic positioners being machines; end effectors for industrial robots; grippers for industrial robots; robotic finishing machines; industrial robots and machines for sanding, polishing, grinding, deburring, cleaning and surface finishing; grinding machines; polishing machines; sanding machines; surface treatment machines; industrial printing machines; industrial inkjet printing machines; printing machines; laser marking machines; engraving machines; electromechanical marking machines; robotic marking and labelling machines; 3D printers; industrial 3D printers; extrusion machines; industrial robots for positioning and manipulating workpieces and instruments during inspection, measuring, testing and quality-control operations; industrial robotic mechanisms for handling material samples; industrial machines for separating materials; robotic cleaning machines; robots for cleaning; robotic vacuum cleaners; robotic household cleaning machines; robotic laundry machines; robotic washing machines; robotic sweeping machines; robotic floor polishing machines; agricultural harvesting robots; robotic mechanisms used in agriculture; robotic mechanisms for processing vegetables, fruits and food; food processing machines incorporating robotic mechanisms; machines and robotic mechanisms for cutting, mixing, blending, slicing, sorting, feeding, filling, capping and packing food products; robotic arms for preparing beverages; automatic vending machines incorporating robotic mechanisms; fluid dispensing machines for industrial use; construction machines and robotic mechanisms for construction purposes; industrial robotic mechanisms for bricklaying, handling construction materials and automated construction applications; robotic exoskeleton suits, other than for medical purposes; linear tracks for industrial robots; conveyors being machines; machine tools; robotic end effectors being parts of industrial machines; tool holders being parts of machines; parts and fittings for all the aforesaid goods.

Class 9:
Recorded and downloadable computer software for programming, teaching, simulating, digitally modelling, controlling, monitoring and diagnosing robots, collaborative robots, robotic workcells and industrial automation systems; recorded and downloadable computer software for robot motion planning, path planning, collision detection, navigation and fleet management of automated guided vehicles and autonomous mobile robots; recorded and downloadable computer software for machine vision, image recognition, weld-seam tracking,

welding-process monitoring, industrial measurement, product inspection, quality control, durability testing, force and torque testing, and the collection and analysis of data from robotic systems; recorded and downloadable graphical user interface software and human-machine interface software for robotics and automation; recorded and downloadable middleware, device drivers and communications software for integrating robots, machine tools, end effectors, controllers and sensors; recorded and downloadable artificial intelligence and machine-learning software for robotic control, object recognition, motion planning and industrial process optimisation; recorded and downloadable software for controlling robotic cameras, photographic equipment, video equipment and lighting systems; electronic controllers for robots; programmable logic controllers; electrical and electronic control panels for robots; electronic teach pendants; human-machine interface computer hardware; computer hardware for robotic control and industrial automation; joysticks for use with computers, other than for video games; force sensors; torque sensors; pressure sensors; temperature sensors; proximity sensors; position sensors; optical sensors; laser scanners for industrial measurement and robot navigation; radar apparatus for robot navigation and safety monitoring; electronic apparatus for monitoring the operation and safety of robotic systems; machine-vision systems consisting of cameras, optical sensors, image processors and recorded image-processing software; cameras for industrial inspection; optical scanners; three-dimensional scanners; photographic cameras; cinematographic cameras; digital video cameras; gimbals for digital cameras; camera mounts and camera supports; apparatus and instruments for industrial measuring, testing and inspection; apparatus for testing the durability, endurance and fatigue resistance of industrial products and components; force and torque measuring apparatus; data acquisition apparatus; telemetry apparatus; laboratory sampling apparatus, other than for medical use; laboratory robots; teaching robots; telepresence robots; electronic apparatus for teaching robotics; training simulators for robotics and industrial automation; recorded and downloadable educational software relating to robotics and automation; downloadable electronic publications and downloadable instructional videos relating to robotics and automation; parts and fittings for all the aforesaid hardware goods.

Class 12:
Driverless transport vehicles; automated guided vehicles (AGVs); automated guided vehicles for material handling; automated guided vehicles for transporting goods in factories and warehouses; automated guided vehicle transport platforms; automated guided carts; autonomous mobile robots being vehicles; autonomous land vehicles for internal material flow; autonomous transport vehicles; self-driving transport vehicles; robotic transport vehicles; autonomous delivery vehicles; mobile robotic platforms being vehicles; wheeled robotic vehicles for transportation of goods; robotic vehicles for use in factories, warehouses, healthcare facilities, commercial premises and other indoor environments; autonomous carts; driverless carts; autonomous mobile transporters; parts and fittings for all the aforesaid goods.

Class 35:
Retail, wholesale and online retail services connected with the sale of industrial robots, collaborative robots (cobots), robotic arms, SCARA robots, Cartesian robots, humanoid robots, humanoid robots incorporating artificial intelligence, companion robots, social robots, service robots, telepresence robots, teaching robots, laboratory robots, quadruped robots, hexapod robots, multi-legged robots, wearable robots, robotic exoskeletons, medical and rehabilitation robots, robotic assistants, mobile industrial robots, autonomous mobile robots, automated guided vehicles (AGVs), automated guided vehicle systems, automated guided carts, robotic transport vehicles, robotic workstations, automated robotic cells and robotic equipment; retail, wholesale and online retail services connected with the sale of robotic welding, MIG welding, TIG welding, laser welding, spot welding and soldering systems and equipment; retail, wholesale and online retail services connected with the sale of robotic handling, pick-and-place, palletising, depalletising, loading, unloading, machine-tending, CNC-tending, conveying, assembly, lifting, feeding, sorting and end-of-line automation systems; retail, wholesale and online retail services connected with the sale of robotic gluing, adhesive application, bonding, dispensing, lubrication, sealing, potting, gasketing and filling systems; retail, wholesale and online retail services connected with the sale of robotic painting, spraying, powder-coating, plasma-treatment, plasma-cleaning, surface-treatment and coating systems; retail, wholesale and online retail services connected with the sale of robotic cutting, plasma-cutting, drilling, screwdriving, fastening, gouging, tool-changing and tooling systems; retail, wholesale and online retail services connected with the sale of robotic end effectors, grippers, tool changers, robotic tools and robotic peripheral equipment; retail, wholesale and online retail services connected with the sale of robotic sanding, polishing, grinding, deburring, cleaning and finishing systems; retail, wholesale and online retail services connected with the sale of robotic inspection, quality-control, testing, durability-testing, force-testing, sampling, measuring, scanning, telemetry and machine-vision systems; retail, wholesale and online retail services connected with the sale of sensors, cameras, vision equipment and measuring apparatus; retail, wholesale and online retail services connected with the sale of industrial printers, industrial inkjet printers, robotic printing systems, laser marking machines, marking equipment, labelling machines, 3D printers and additive-manufacturing equipment; retail, wholesale and online retail services connected with the sale of teaching robots, educational robots, laboratory robots, robotics training equipment, robot controllers, teach pendants, computer hardware and software for controlling, programming, monitoring and operating robots; retail, wholesale and online retail services connected with the sale of wearable robots, robotic exoskeletons, medical robots, rehabilitation robots, physiotherapy robots, massage robots, assistive robots, clinical robots, surgical robotic equipment and medical robotic equipment; retail, wholesale and online retail services connected with the sale of cameras, photographic apparatus, video equipment, robotic camera systems, robotic camera mounts, gimbals, lighting equipment and audio-visual equipment for use with robots; retail, wholesale and online retail services connected with the sale of cleaning robots, hygiene robots, disinfection robots, sanitation equipment, ultraviolet disinfection equipment, robotic sweeping, washing, mopping and brushing equipment; retail, wholesale and online retail services connected with the sale of walking robots, quadruped robots, hexapod robots, multi-legged robots, humanoid robots, companion robots and artificial-intelligence-enabled robots; retail, wholesale and online retail services connected with the sale of construction robots, bricklaying robots, plastering robots, site-automation equipment and robotic systems for construction; retail, wholesale and online retail services connected with the sale of robotic systems for harvesting, fresh-produce handling, feeding, tipping,

packing, unpacking, sorting and end-of-line handling; retail, wholesale and online retail services connected with the sale of robotic food-processing systems, food cutting, mixing, blending, slicing, capping, dispensing and preparation equipment; retail, wholesale and online retail services connected with the sale of robotic food-service systems, beverage-preparation robots, coffee-making robotic systems, ice-cream dispensing robotic systems, automated serving systems and robotic vending systems; retail, wholesale and online retail services connected with the sale of robot control software, graphical user interface software, human-machine interface equipment, robot simulation software, robot programming software and automation software; import-export agency services relating to robots, automated guided vehicles, robotic systems and automation equipment; procurement services for others relating to robots, automated guided vehicles, robotic equipment and automation equipment; providing commercial information and advice in relation to the selection and purchase of robots, automated guided vehicles, autonomous mobile robots, robotic systems, robotic equipment and automation equipment.

Class 37:
Installation, commissioning being the installation and setting-up of physical equipment, maintenance, servicing, repair, hardware upgrading and hardware modification of industrial robots, collaborative robots (cobots), robotic arms, SCARA robots, Cartesian robots, humanoid robots, companion robots, service robots, mobile industrial robots, autonomous mobile robots, automated guided vehicles (AGVs), automated guided vehicle systems, automated guided carts, robotic transport vehicles, robotic workstations, automated robotic cells, robotic apparatus, robotic systems and automation equipment; installation, commissioning, maintenance, servicing and repair of robotic welding, MIG welding, TIG welding, laser welding, spot welding and soldering systems and equipment; installation, commissioning, maintenance, servicing and repair of robotic handling, pick-and-place, palletising, depalletising, loading, unloading, machine-tending, CNC-tending, conveying, assembly, lifting, feeding, sorting and end-of-line systems; installation, commissioning, maintenance, servicing and repair of robotic gluing, bonding, adhesive-dispensing, lubrication, sealing, potting, gasketing and filling systems; installation, commissioning, maintenance, servicing and repair of robotic painting, spraying, powder-coating, plasma-treatment, plasma-cleaning, surface-treatment and coating equipment; installation, commissioning, maintenance, servicing and repair of robotic cutting, drilling, screwdriving, fastening, gouging, tooling and tool-changing systems; installation, commissioning, maintenance, servicing and repair of robotic sanding, polishing, grinding, deburring, cleaning and finishing systems; installation, commissioning, maintenance, servicing and repair of robotic inspection, quality-control, testing, measuring, scanning, telemetry and machine-vision systems; installation, maintenance and repair of sensors, cameras, imaging apparatus and measuring equipment; installation, commissioning, maintenance, servicing and repair of industrial printing machines, robotic printing and marking systems, laser marking equipment, labelling equipment and 3D printing equipment; installation, commissioning, maintenance, servicing and repair of teaching robots, laboratory robots and robotic training equipment; installation, maintenance, servicing and repair of wearable robots, robotic exoskeletons, assistive robotic equipment, medical robots, rehabilitation robots, physiotherapy robots and medical and rehabilitation equipment; installation, maintenance and repair of photographic apparatus, cameras, robotic camera equipment, gimbals, lighting apparatus and audio-visual hardware; installation, commissioning, maintenance, servicing and repair of robotic cleaning, hygiene, disinfection and sanitation equipment; installation, commissioning, maintenance, servicing and repair of walking robots, quadruped robots, multi-legged robots, humanoid robots and robotic assistants; installation, commissioning, maintenance, servicing and repair of robotic construction equipment and site-automation equipment; installation, commissioning, maintenance, servicing and repair of robotic fresh-produce handling, harvesting, packing, sorting and food-processing systems; installation, commissioning, maintenance, servicing and repair of robotic beverage-preparation, food-service and dispensing systems; installation, commissioning, maintenance, servicing and repair of automated guided vehicle (AGV) systems, AGV hardware, autonomous mobile robot fleets and associated material-handling equipment; installation, maintenance, servicing and repair of robotic hardware, robot controllers, control apparatus, end effectors, grippers, tool changers, sensors, cameras, conveyors, peripheral equipment and computer hardware used with robotic systems; all the aforesaid installation, commissioning, maintenance, servicing, repair, upgrading and modification services relating to physical hardware; information and advisory services relating to all the aforesaid services.

Class 42:
Engineering services and technological consultancy relating to robotics and automation; systems integration engineering; design and development of industrial robots, collaborative robotic systems, robotic workcells, automated production lines, robotic end effectors and robotic peripheral equipment; engineering design and development of robotic systems for welding, soldering, handling, picking and placing, palletising, depalletising, loading, unloading, machine tending, assembly, gluing, bonding, dispensing, sealing, painting, coating, cutting, drilling, fastening, surface treatment, sanding, polishing, grinding and deburring; engineering design and development of robotic systems for printing, marking, additive manufacturing, inspection, measurement, testing, laboratory automation, agriculture, harvesting, fresh-produce handling, food processing, beverage preparation, cleaning, disinfection and construction; engineering design and development of robotic systems for education, photography, video capture, camera positioning, lighting control, household assistance, medical applications, physiotherapy, rehabilitation and massage; engineering design and development of wearable robotic systems; engineering design and development of automated guided vehicle systems, autonomous mobile robotic systems and mobile robotic platforms; technological consultancy relating to robotic navigation, fleet coordination and the integration of robots with transport vehicles; programming of robots; remote programming of robots; design and development of computer hardware and software for robotics and automation; development of software interfaces, graphical user interfaces, human-machine interfaces, device drivers and communications software for robotic systems; development of software for robot simulation, digital modelling of robotic workcells, motion planning, collision detection, machine vision, industrial process control and automated vehicle navigation; research and development relating to artificial intelligence and machine learning for robotics and automation; installation, configuration, integration, maintenance, updating and upgrading of computer software for robotics and automation; technical support services consisting of troubleshooting computer software problems relating to robotics and automation; software as a service featuring software

for programming, simulating, controlling, monitoring and diagnosing robots, robotic workcells, automated guided vehicles and autonomous mobile robots; platform as a service featuring computer software platforms for developing and integrating robotics and automation applications; technical feasibility studies relating to robotics and automation; technological consultancy relating to the safety of robotic installations; engineering testing and validation of robotic systems; calibration of robotic measuring and sensing apparatus; technical inspection, quality control, material testing and product testing of industrial products and components; durability, endurance, fatigue, force and torque testing of industrial products and components; information, advisory and consultancy services relating to all the aforesaid services.

Class 9:
Software; downloadable software; downloadable software for big data processing and analytics; downloadable software for accessing, managing and connecting to data warehouses, data assets, data files, data sources; downloadable software for application database integration; downloadable software for use in ETL (extract, transform, load) data processing; downloadable software for compiling, organizing, visualizing, sharing and analyzing business intelligence; desktop and mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways, for collection, analysis, sharing, interpretation and management of data; downloadable software featuring libraries for data science training; downloadable software featuring libraries for data analytics; downloadable software featuring libraries for machine learning training; downloadable software featuring libraries for artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; downloadable software featuring artificial intelligence and machine learning technology; downloadable software for artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; downloadable software for collecting, managing, editing, organizing, modifying, transmitting, sharing, and storing of data; downloadable software for modifying and enabling transmission of images, audio, audio visual and video content and data; downloadable software for processing images, graphics, audio, video, and text; downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; downloadable software for use in data centers and data storage; downloadable software for use as an application programming interface (API); downloadable software development tools; downloadable software development tools for building, designing, deploying, and monitoring applications for use in data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics; downloadable software development tools for building, designing, deploying, and monitoring applications featuring artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; downloadable software development kits (SDKs); downloadable software for use in data analytics, data migration, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, data governance, data science; downloadable software for use in data governance, namely, software featuring artificial intelligence that allows users to define and manage policies for gathering, querying, storing, processing, sharing, accessing and disposing of data, create data clean rooms, and track data lineage; downloadable software for retrieval augmented generation (RAG); downloadable software for retrieval augmented generation (RAG) for use in generative AI applications; downloadable software for retrieval augmented generation (RAG) for use in data analytics, data migration, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, data governance, data science; downloadable podcasts in the field of data analytics, data migration, data importing, data wrangling, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, data integration, data warehousing, data processing, data governance, data science, artificial intelligence,

machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; downloadable software for cybersecurity information and event management (SIEM); downloadable software for cybersecurity analytics; downloadable software for cybersecurity threat detection, threat hunting, incident response, investigation, and cybersecurity data analytics; downloadable software for collecting, ingesting, storing, indexing, normalizing, correlating, and analyzing cybersecurity security telemetry, log data, and event data from cloud, network, endpoint, application, and infrastructure sources; downloadable software for unifying cybersecurity telemetry utilizing open storage; downloadable software for normalizing cybersecurity security data to standardized formats; downloadable artificial intelligence and machine learning software for detecting log data anomalies, identifying cybersecurity threats, automating cybersecurity investigations, and generating cybersecurity insights; downloadable software for scalable cybersecurity data processing and analytics on a data intelligence platform; downloadable software providing cybersecurity dashboards, visualizations, reporting, and workflow automation.

Class 35:
Database management; database management consultancy; business consulting in the field of artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; business data analysis; business data consultancy; providing an online marketplace featuring downloadable software applications, data sets, data notebooks, artificial intelligence models, machine learning models; Business data management and processing services, namely, data analytics, data sharing, data collection, data interpretation, data queries, and data governance for business purposes; business consulting in the field of cybersecurity information and event management (SIEM).

Class 41:
Educational services; conducting conferences, seminars, classes workshops, courses, and webinars; training services; providing training for certification; providing non-downloadable podcasts; conducting conferences, seminars, classes workshops, courses, and webinars in field of data analytics, data migration, data importing, data wrangling, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, data integration, data warehousing, data processing, data governance, data science, artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; training services in the field of data analytics, data migration, data importing, data wrangling, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, data integration, data warehousing, data processing, data governance, data science, artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; providing training for certification in the field of data analytics, data migration, data importing, data wrangling, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, data integration, data warehousing, data processing, data governance, data science, artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; non-downloadable publications and blogs in the field of data analytics, data migration, data importing, data wrangling, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, data integration, data warehousing, data processing, data governance, data science, artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; non-downloadable podcasts in the field of data analytics, data migration, data importing, data wrangling, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, data integration, data warehousing, data processing, data governance, data science, artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; non-downloadable publications and blogs; conducting conferences, seminars, classes workshops, courses, and webinars in field of cybersecurity information and event management (SIEM); providing training for certification in the field of cybersecurity information and event management (SIEM); non-downloadable publications and blogs in the field of cybersecurity information and event management (SIEM); providing non-downloadable podcasts in the field of cybersecurity information and event management (SIEM).

Class 42:
Providing online non-downloadable software; providing online non-downloadable software for big data processing and analytics; providing online non-downloadable software for accessing, managing and connecting to data warehouses, data assets, data files, data sources; providing online non-downloadable software for application database integration; providing online non-downloadable software for use in ETL (extract, transform, load) data processing; providing online non-downloadable software for compiling, organizing, visualizing, sharing and analyzing business intelligence; providing online non-downloadable desktop and mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways, for collection, analysis, sharing, interpretation and management of data; providing online non-downloadable software featuring libraries for data science training; providing online non-downloadable software featuring libraries for data analytics; providing online non-downloadable software featuring libraries for machine learning training; providing online non-downloadable software featuring libraries for artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; providing online non-downloadable software featuring artificial intelligence and machine learning technology; providing online non-downloadable software for artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; providing online non-downloadable software for collecting, managing, editing, organizing, modifying, transmitting, sharing, and storing of data; providing online non-downloadable software for

modifying and enabling transmission of images, audio, audio visual and video content and data; providing online non-downloadable software for processing images, graphics, audio, video, and text; providing online non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; providing online non-downloadable software for use in data centers and data storage; providing online non-downloadable software for use as an application programming interface (API); providing online non-downloadable software development tools; providing online non-downloadable software development tools for building, designing, deploying, and monitoring applications for use in data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics; providing online non-downloadable software development tools for building, designing, deploying, and monitoring applications featuring artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; providing online non-downloadable software development kits (SDKs); software as a service (SAAS) services; software as a service (SAAS) services featuring software for big data processing and analytics; software as a service (SAAS) services, namely, featuring software for accessing, managing and connecting to data warehouses, data assets, data files, data sources; software as a service (SAAS) services featuring software for application database integration; software as a service (SAAS) services featuring software for use in ETL (extract, transform, load) data processing; software as a service (SAAS) services featuring software for compiling, organizing, visualizing, sharing and analyzing business intelligence; software as a service (SAAS) services featuring desktop and mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways, for collection, analysis, sharing, interpretation and management of data; software as a service (SAAS) services featuring software featuring libraries for data science training; software as a service (SAAS) services featuring software featuring libraries for data analytics; software as a service (SAAS) services featuring software featuring libraries for machine learning training; software as a service (SAAS) services featuring software featuring libraries for artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; software as a service (SAAS) services featuring software featuring artificial intelligence and machine learning technology; software as a service (SAAS) services featuring software for artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; software as a service (SAAS) services featuring software for collecting, managing, editing, organizing, modifying, transmitting, sharing, and storing of data; software as a service (SAAS) services featuring software for modifying and enabling transmission of images, audio, audio visual and video content and data; software as a service (SAAS) services featuring software for processing images, graphics, audio, video, and text; software as a service (SAAS) services featuring software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; software as a service (SAAS) services featuring software for use in data centers and data storage; software as a service (SAAS) services featuring software for use as an application programming interface (API); software as a service (SAAS) services featuring software development tools; software as a service (SAAS) services featuring software development tools for building, designing, deploying, and monitoring applications for use in data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics; software as a service (SAAS) services featuring software development tools for building, designing, deploying, and monitoring applications featuring artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; software as a service (SAAS) services featuring software development kits (SDKs); platform as a services (PAAS) services; platform as a services (PAAS) services featuring software for big data processing and analytics; platform as a services (PAAS) services, namely, featuring software for accessing, managing and connecting to data warehouses, data assets, data files, data sources; platform as a services (PAAS) services featuring software for use in ETL (extract, transform, load) data processing; platform as a services (PAAS) services featuring software for compiling, organizing, visualizing, sharing and analyzing business intelligence; platform as a services (PAAS) services featuring desktop and mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways, for collection, analysis, sharing, interpretation and management of data; platform as a services (PAAS) services featuring software featuring libraries for data science training; platform as a services (PAAS) services featuring software featuring libraries for data analytics; platform as a services (PAAS) services featuring software featuring libraries for machine learning training; platform as a services (PAAS) services featuring software featuring libraries for artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; platform as a services (PAAS) services featuring software featuring artificial intelligence and machine learning technology; platform as a services (PAAS) services featuring software for artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; platform as a services (PAAS) services featuring software for collecting, managing, editing, organizing, modifying, transmitting, sharing, and storing of data; platform as a services (PAAS) services featuring software for modifying and enabling transmission of images, audio, audio visual and video content and data; platform as a services (PAAS) services featuring software for processing images, graphics, audio, video, and text; platform as a services (PAAS) services featuring software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; platform as a services (PAAS) services featuring software for use in data centers and data storage; platform as a services (PAAS) services featuring software for

use as an application programming interface (API); platform as a services (PAAS) services featuring software development tools; platform as a services (PAAS) services featuring software development tools for building, designing, deploying, and monitoring applications for use in data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics; platform as a services (PAAS) services featuring software development tools for building, designing, deploying, and monitoring applications featuring artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; platform as a services (PAAS) services featuring software development kits (SDKs); data mining; computer services, namely, hosting of search platforms on the Internet to allow users to index, integrate, warehouse, mine, process, share, collect, interpret, research, query, visualize, and analyze data; custom design and development of computer software; software engineering services for data processing; development and creation of computer programs for data processing and analysis; providing a website featuring information in the fields of technology, computers, computer software, computer networks, web services, mobile computing and artificial intelligence; technology consulting in the field of artificial intelligence, machine learning, deep learning, large language models (LLMs), natural language generation, statistical learning, supervised learning, un-supervised learning, predictive analytics and business intelligence; providing of online non-downloadable software for use in data analytics, data migration, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, data governance, data science; providing online non-downloadable software featuring artificial intelligence for use in data governance, namely, software that allows users to define and manage policies for gathering, querying, storing, processing, sharing, accessing and disposing of data, create data clean rooms, and track data lineage; providing online non-downloadable software for retrieval augmented generation (RAG); providing online non-downloadable software for retrieval augmented generation (RAG) for use in generative AI applications; providing online non-downloadable software for retrieval augmented generation (RAG) for use in data analytics, data migration, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, data governance, data science; software as a service (SAAS) services, namely, featuring software use in data analytics, data migration, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, data governance, data science; platform as a services (PAAS) services, namely, featuring software for data analytics, data migration, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, data governance, data science; application service provider services, namely, hosting, managing, developing and maintaining applications, and software of others in the fields of big data processing and analytics, data analytics, data migration, data importing, data wrangling, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, data integration, data warehousing, data processing, data governance, data science; computer services, namely, hosting of artificial intelligence models, machine learning models, and large language models (LLMs); computer services, namely, hosting of artificial intelligence models, machine learning models, and large language models (LLMs) to allow users to perform search queries and develop inference; technology consulting in the field of data analytics, data migration, data importing, data wrangling, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, data integration, data warehousing, data processing, data governance, and data science; providing online non-downloadable software for cybersecurity information and event management (SIEM); providing online non-downloadable software for cybersecurity analytics; providing online non-downloadable software for cybersecurity threat detection, threat hunting, incident response, investigation, and cybersecurity data analytics; providing online non-downloadable software for collecting, ingesting, storing, indexing, normalizing, correlating, and analyzing cybersecurity security telemetry, log data, and event data from cloud, network, endpoint, application, and infrastructure sources; providing online non-downloadable software for unifying cybersecurity telemetry utilizing open storage; providing online non-downloadable software for normalizing cybersecurity security data to standardized formats; providing online non-downloadable artificial intelligence and machine learning software for detecting log data anomalies, identifying cybersecurity threats, automating cybersecurity investigations, and generating cybersecurity insights; providing online non-downloadable software for scalable cybersecurity data processing and analytics on a data intelligence platform; providing online non-downloadable software providing cybersecurity dashboards, visualizations, reporting, and workflow automation; Software as a Service (SaaS) services featuring software for cybersecurity information and event management (SIEM); Software as a Service (SaaS) services featuring software for cybersecurity analytics; Software as a Service (SaaS) services featuring software for cybersecurity threat detection, threat hunting, incident response, investigation, and cybersecurity data analytics; Software as a Service (SaaS) services featuring software for collecting, ingesting, storing, indexing, normalizing, correlating, and analyzing cybersecurity security telemetry, log data, and event data from cloud, network, endpoint, application, and infrastructure sources; Software as a Service (SaaS) services featuring software for unifying cybersecurity telemetry utilizing open storage; Software as a Service (SaaS) services featuring software for normalizing cybersecurity security data to standardized formats; Software as a Service (SaaS) services featuring artificial intelligence and machine learning software for detecting log data anomalies, identifying cybersecurity threats, automating cybersecurity investigations, and generating cybersecurity insights; Software as a Service (SaaS) services featuring software for scalable cybersecurity data processing and analytics on a data intelligence platform; Software as a Service (SaaS) services featuring software providing cybersecurity dashboards, visualizations, reporting, and workflow automation; platform as a services (PAAS) services featuring software for cybersecurity information and event management (SIEM); platform as a services (PAAS) services featuring software for cybersecurity analytics; platform as a services (PAAS) services featuring software for cybersecurity threat detection, threat hunting, incident response, investigation, and cybersecurity data analytics; platform as a services (PAAS) services featuring software for collecting, ingesting, storing, indexing, normalizing, correlating, and analyzing cybersecurity security telemetry, log data, and event data from cloud, network, endpoint, application, and infrastructure sources; platform as a services (PAAS)

services featuring software for unifying cybersecurity telemetry utilizing open storage; platform as a services (PAAS) services featuring software for normalizing cybersecurity security data to standardized formats; platform as a services (PAAS) services featuring artificial intelligence and machine learning software for detecting log data anomalies, identifying cybersecurity threats, automating cybersecurity investigations, and generating cybersecurity insights; platform as a services (PAAS) services featuring software for scalable cybersecurity data processing and analytics on a data intelligence platform; platform as a services (PAAS) services featuring software providing cybersecurity dashboards, visualizations, reporting, and workflow automation; cloud computing services featuring software for scalable cybersecurity data storage and analytics; technical support services, namely, monitoring of computer systems for detecting cybersecurity threats and investigating security incidents; IT services, namely technical data management and processing services, namely, data analytics, data migration, data importing, data wrangling. data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, data integration, data warehousing, data governance, and data science.

Gaming software; Recorded computer game programs; 3D computer graphics software; Development environment software; Software for product development; Application development software; Media development software; Web development software; Software development programs; Development kits; Software development programmes; Downloadable computer software for use as an electronic wallet; Electronic notepads; Electronic notebooks; Downloadable computer software for use as a digital wallet; Electronic identification cards; Electronic game software for handheld electronic devices; Electronic key cards; Computer software for use on handheld mobile digital electronic devices and other consumer electronics; Electronic chips; Electronic scanners; Wearable digital electronic communication devices; Electronic circuit cards; Electronic mail terminals; Electronic card readers; Electronic ID cards; Electronic diaries; Electronic pens; Software for the operational management of portable magnetic and electronic cards; Electronic styluses; Digital electronic controllers; Databases (electronic); Electronic databases; Electronic mail and messaging software; Information storage devices [electric or electronic]; Electronic tablets; Software related to handheld digital electronic devices; Printed electronic circuits; Electronic cables; Electronic game software for mobile phones; Electronic memory devices; Electric and electronic components; Electronic security tags; Computer documentation in electronic form; Electronic components; Security token hardware for user authentication; Security tokens [encryption devices]; Computer software for biometric systems for the identification and authentication of persons; Email software; Computer software for use in providing multiple user access to a global computer information network; USB web keys; Computer software for authorising access to data bases; E-mail software; Computer software for accessing information directories that may be downloaded from the global computer network; Computer database servers; RAM [random access memory] card; Internet access software; Data and file management and database software; USB web keys for automatically launching pre-programmed website URLs; Data encryption apparatus; Biometric identity cards; Computer software for creating searchable databases of information and data; Database server software; Wristband computer devices; File server software; Computer programs for user interface design; Proxy server software; Content access software; Graphical user interface software; Computer software for controlling and managing access server applications; Computer screen filters; Database synchronization software; Computer interface cards; Workout logging software; Computer software to enable retrieval of data; Operating system software; Operating system programs for smartphones; Operating systems; Computer operating systems; Operating system programs; Computer operating system programmes; Software for mobile device management; Mobile device management software; Computer software for use in migrating between different computer network operating systems; Local mobile telephone systems; Embedded operating software; Application software for mobile devices; System and system support software, and firmware; Computer application software for mobile telephones; Computer application software for mobile phones; Computer operating programs; Application software for mobile phones; Software for operating and managing integrated circuit components; Software applications for use with mobile devices; Software and applications for mobile devices; Software applications for mobile devices; Mobile application software; Computer operating programmes; Mobile telecommunications apparatus; Computer software for Global Positioning Systems; Computer game software for use on mobile and cellular phones; USB operating software; Computer software for mobile phones; Electronic devices used to locate lost articles employing the global positioning system or cellular communication networks; Mobile telecommunication apparatus; Software for mobile phones; System support software; Mobile data apparatus; Augmented reality software for use in mobile devices; Computer operating programs, recorded; Programs (Computer operating -) recorded; Recorded computer operating programs; Computer software for controlling the operation of audio and video devices; Computer programs and software for image processing used for mobile phones; Interactive computer systems; Utility programs for performing computer system diagnostics; Reservation systems software; Mobile data communications apparatus; Middleware for management of software functions on electronic devices; Software for operating an online shop; Application software for wireless devices; Personal computer application software for managing document control systems; USB [universal serial bus] operating software; Batteries for use with mobile telecommunication devices; Personal computer application software for document control systems; Document management system software; Workflow management system software; Management information system [MIS] software; Software development kit [SDK]; Development tool programs; Web site development software; Software for the planning, integration and optimisation of smart city applications; Software for the planning, integration and optimization of Smart City applications; Mobile apps; Educational mobile applications; Downloadable mobile applications for the management of information; Downloadable applications for use with mobile devices; Downloadable applications for mobile devices; Business application software; Downloadable software in the nature of a mobile application for dark kitchen delivery and ordering; Application simulation software; Enterprise application software [EAS]; Downloadable mobile applications for the transmission of data; Application software for smart phones; Downloadable mobile applications for the transmission of information; Downloadable mobile applications for use with wearable computer devices; Computer software for application and database integration; Web application and server software; Application server software; Application software for robot; Application software for social networking services via internet; Application suites [software]; Ethernet hardware; USB hardware; Wearable computer hardware; Mounting racks for computer hardware; Mounting racks for telecommunications hardware; Communications servers [computer hardware]; Computer network-attached storage [NAS] hardware; Computer network-attached storage (NAS) hardware; Data communications hardware; Computer hardware for the processing of positioning data; Computer hardware modules for use in Internet of Things electronic devices; Firmware for computer peripherals; Computer hardware modules for use with the Internet of Things [IoT]; Computer hardware for the collection of positioning data; Computer hardware for the compilation of positioning data; Augmented reality computer hardware; Computer hardware for the transmission of positioning data; Computer hardware for tracking driver behaviour; Computer hardware modules for use in electronic devices using the Internet of Things [IoT]; Computer hardware for the dissemination of positioning

data; Electronic device software drivers that allow computer hardware and electronic devices to communicate with each other; Wearable computer peripherals; Computer peripheral equipment; Computer telephony equipment; Trackballs [computer peripherals]; Computer sub-assemblies; Computer housings; Computer components and parts; Multifunction computer keyboards; Stands for computer equipment; Computer peripheral devices; Peripheral devices (Computer -); Peripheral equipment for computers; Computer styluses; Covers for computer keyboards; Computer software for cellular phones; Computer software for the remote control of office machines and equipment; Wearable computer peripheral devices; Computer modules; Components for computers; Computer keyboard keycaps; Keyboards; Keyboard terminals; Wireless keyboards; Multifunction keyboards; Telephone sets with screen and keyboard; Keyboard cases for smartphones; Cases for smartphone incorporating a keyboard; Keyboards for smartphones; Keyboards for tablets; Computer mouse pads; Wrist rest pads for keyboards; Mouse pads [computer peripheral]; Wrist rests for computer mouse users; Devices for the projection of virtual keyboards; Mouse [computer peripheral]; Stylus pens for touchscreens; Keyboards for mobile phones; Trackballs [computer apparatus]; Mats for use with a computer mouse; Capacitive styluses for touch screen devices; Mouse pads; Pads (Mouse -); Touchpads for computers; Trackballs; Wrist rests for use with computer peripherals; Capacitive finger sleeves for touchscreen devices; Wireless keypads; Keypads; Wireless computer mice; Touchscreen monitors; Display screen filters adapted for use with tablet computers; Computer mice; Computer software for instrument tuning; Touch screen pens; Wireless headsets for tablet computers; Notebook computer cooling pads; Mouses for computers; Adjustable desktop mounts for tablet computers; Guitar cables; Tablet computer cases; Pens with conductive point for touch screen devices; Cooling pads for laptop computers; Digitiser pads; Touchscreen sensors; Smartphone screen magnifiers; Display screen filters adapted for use with computer monitors; Computer interface boards; Wireless remote controls for portable electronic devices and computers; Computer interface apparatus; Netbook computers; Replacement mouse feet; Computer software for recording sound; Computer display monitors; Touch pads [electronic]; Headsets; Wireless headsets; Telephone headsets; Headphones; Headsets for smartphones; Wireless headsets for smartphones; Wireless headsets for cellphones; In-ear headphones; Wireless headphones; Hands-free headsets for cell phones; Earbuds; Earphones; Stereo headphones; Wireless headsets for mobile phones; Headsets for mobile telephones; Adapter cables for headphones; Wireless headsets for use with mobile telephones; Headsets for use with computers; Wireless headsets for smart phones; Two-way plugs for headphones; Ear pads for headphones; Telephone earpieces; Wireless speaker microphones; Earphones for smartphones; Microphone cables; Binaural microphones; Hands-free microphones for cell phones; Wireless audio speakers; Noise cancelling headphones; Earphones for cellular telephones; Headphones for smart phones; Earpieces for remote communication; Mobile phone speakers; Cases for headphones; Wireless speakers; Ear phones; Earphones for use with mobile telecommunication devices; Anti-dust plugs for earphone jacks; Speakerphones; Hands-free kits for telephones; Speakers for video conferencing; Hands-free kits for cell phones; Audio conferencing equipment; Dustproof plugs for jacks of mobile phones; Microphones; Mobile High-Definition Link (MHL) cables; Audio adaptors; Pairable wireless speakers; Audio cables; Mobile phone ring stands; Dust proof plugs for earphone jacks; Audio cable; Devices for hands-free use of mobile phones; Audio cable testers; Audio cable connectors; Mobile phone straps; USB Dongles [Wireless network adapters]; USB cables for cellphones; Straps for telephone handsets; Wireless charging pads for smartphones; Microphones for communication devices; Auxiliary speakers for mobile phones; Wireless telephony apparatus; Hands-free holders for cell phones; Personal headphones for use with sound transmitting systems; Universal serial bus [USB] dongle [Wireless network adapters]; Mobile phone ring holders; VOIP phones; Telephone adapters; Mobile phone battery chargers; Electronic microphone splitters; Wireless telephones; Ring stands for mobile telephones; Dashboard mounts for mobile phones; Adapter plugs; Bone conduction earphones; Wireless battery chargers; Portable speaker docks; Docking stations; Computer docking station; Laptop docking stations; Tablet docking stations; Electronic docking stations; Docking stations for smartphones; Mobile phone docking stations; Docking stations for mobile phones; Charging docks; Work stations [computer apparatus]; Work stations [computers]; Speaker docks; Data bus interface units; Monitors; Monitor screens; Monitor speakers; Display monitors; LCD monitors; Computer monitor frames; Video monitor controllers; Video monitors; Tablet monitors; Monitors for computers; Colour monitors; Wearable monitors; LED monitors; Wearable video display monitors; Commercial monitors; Monitors [computer programs]; Anti-glare filters for computer monitors; Video projection monitors; Mounting devices for monitors; Wireless controllers to remotely monitor and control the function and status of security systems; Wide-aspect ratio monitors; Video conferencing monitors; Liquid crystal display [LCD] monitors; LCD [Liquid Crystal Display] monitors; Mounting brackets adapted for computer monitors; Remote monitoring apparatus; Hard disks; Hard disk drives; Hard disk controllers; Portable hard disk drives; Portable hard disk drives for computers; Hard drives; Blank hard disks for computers; Miniature hard disk drive storage units; Disk drives; External computer hard drives; External hard drives; Computer disk drives; Disk drives for computers; Drives (Disk -) for computers; Mobile hard drives; Disks, magnetic; Jackets for computer disks; Solid-state drive [SSD]; USB flash drives [not pre-recorded]; Backup drives for computers; CD drives for computers ; Boxes adapted for storing computer software disks; USB flash drives; Blank USB flash drives; HDD duplicators; Solid state drives; Flash memory; Memory cards; Memory modules; Memory sticks; Memory devices; Buffer memory devices; Memory apparatus; Flash memory card; Flash memory cards; Memory boards; Memory storage devices; Computer memory devices; Computer memory apparatus; Memory card cases; Flash memory card readers; Memory card readers; Non-volatile memories; Firmware memory devices; Semiconductor memory devices; Memory expansion cards; Memory expansion modules; IC memory cards; Prerecorded flash memory cards; Blank flash memory cards; Semi-conductor memory units; Portable flash memory devices; Electronic memory circuits; Electronic memory units; Read only memory [rom] cards; Computer memories; Integrated circuit memory cards; Secure Digital (SD) Memory Cards; Memory devices for use with data processing apparatus; Read only memory [rom] cartridges; Solid-state memories; Semi-conductor memories; Memories for use with computers; Electronic memory integrated circuit chips; Volatile memories; Electronic memories; External memories for cellphones; Memories for data processing equipment; Integrated circuit memories; Computer buffers; Storage apparatus for computer data; Computer chipsets for

use in transmitting data to and from a central processing unit; Microprocessor cards; Central processing unit [CPU] coolers; Computer hardware for signal processing of audio and video; Flash card adapters; Central processing unit [CPU] fans; Flash card readers; Computer programmes for image processing; Image processors; Interface cards for data processing apparatus; Coolers for processors for data processing apparatus; Storage apparatus for computer programs; Magnetic data storage media; Microprocessor cores; Data buffers; Data storage programs; Computer programmes for data processing; Computer card adapter; Computer peripheral apparatus; Multiprocessor chips; Data processors; Solid-state hybrid drive [SSHD]; Universal serial bus drives; Universal serial bus [USB] drives; USB adapters; USB modems; USB cables; USB chargers; USB sticks; USB flash drives with micro USB connectors compatible with mobile phones; USB hubs; USB port cards; Luminous USB cables; USB wireless routers; USB readers; Universal serial bus (USB) devices; USB card readers; Blank USB cards; Ethernet adapter; Ethernet adapters; Ethernet controllers; Ethernet cards; Anti-dust plugs for charger ports; Ethernet transceivers; Modem cables; Display serial interfaces [DSI]; Ethernet switches; Firmware and device drivers; External modems; Adapter cables (Electric -); Electric adapter cables; Cable adapters; Computer serial ports; Electric plug adapters; Wireless chargers; Cable modems; Battery chargers for laptop computers; Adapter connectors (Electric -); Ethernet repeaters; Plug adaptors; LAN computer cards; Plug connectors; PC cards; Firmware; Jack cables; Wireless portable printers for use with laptops and mobile devices; Printer cables; Battery chargers for tablet computers; PC mice; BIOS software; Portable chargers; Battery adapters; Port sharing printer controllers; Cable connectors; Signal cables for IT, AV and telecommunication; Stick computers; Coaxial cable; Telecommunications cable; Electrical cable; Coaxial cable connectors; Electrical cable connectors; Electric wire and cable; Cable harnesses; Threaded electrical cable connectors; Coaxial cables; Cables (Coaxial -); Antenna cables; Telephone cable heads; Fiber optic cable; Telecommunications cables; Cables and wires; Telephone cables; Connection cables; Threaded cable connectors of metal; Telecommunication cables; Fibre-optic cables; Electric wires and cables; Electric cables and wires; Connections for electric cables; Thermocouple cables; Electrical cables; Electric cables; Cables, electric; Jumper cables; Connecting electrical cables; Video cables; Feeder cables; Electrical cables for use in connections; Gender changers [cable adapters]; Smartphones; Wearable smartphones; Smartphone battery chargers; Wrist-mounted smartphones; Waterproof smartphone cases; Foldable smartphones; Mobile phones; Mobile phone screen protectors; Expandable screen smartphones; Selfie sticks used as smartphone accessories; Braille mobile phones; Chargers for smartphones; Mobile phone chargers; Battery chargers for mobile phones; Batteries for mobile phones; Chargers for mobile phones; Mobile phone cases; Displays for mobile phones; Holders adapted for cell phones and smartphones; Gimbals for smartphones; Displays for smartphones; Cases for mobile phones; Mobile telecommunications handsets; Holders adapted for mobile telephones and smartphones; Straps for mobile phones; Digital phones; Mobile phone covers; Wearable smart phones; Dashboard mats adapted for holding cell phones and smartphones; Digital cellular phones; Dashboard mats adapted for holding mobile telephones and smartphones; Downloadable emoticons for mobile phones; Selfie ring lights for smartphones; Waterproof cases for smartphones; Flip covers for mobile phones; Downloadable graphics for mobile phones; Display modules for mobile phones; Carriers adapted for mobile phones; Cases for smartphones; Screen protectors for mobile telephones; Downloadable ringtones for mobile phones; Mobile computers; Covers for smartphones; Holders adapted for mobile phones; Auxiliary batteries for mobile phones; Cellular phones; Smart phones; Programs for smartphones; Internet phones; Carrying cases for mobile phones; Protective cases for mobile phones; Cases adapted for mobile phones; Video phones; Stands adapted for mobile phones; Fast chargers for mobile devices; Screen protectors for cell phones; Watchbands that communicate data to smartphones; Handheld computing devices; Webcams; CAM software; Computer software to enable teleconferencing, videoconferencing and videophone services; Computer chatbot software for simulating conversations; Pre recorded computer software; Video editing software; Computer programs for editing images, sound and video; Computer-aided manufacturing [CAM] software; Computer software supplied on the Internet; Computer software for tracking driver behaviour; Video streaming devices; Video conferencing equipment; Computer application software for streaming audio-visual media content via the internet; Video printers; Virtual classroom software; Virtual assistant software; Recorded computer programs; Computer programs, recorded; Network junction points for telephone exchange networks; Wireless transmitters; Wireless receivers; Wireless communication devices; Wireless switches; Antennas for wireless communications apparatus; Wireless transmitters and receivers; Wireless communication apparatus; Wireless signal boosters; Wireless communication instruments; Aerials for wireless communications apparatus; Masts for wireless aerials; Wireless aerials (Masts for -); Masts [wireless aerials]; Two-way wireless communication systems; Wireless communication devices for the transmission of multimedia content; Cooling pads for wireless computers; Electronic game software for wireless devices; Apparatus for wireless transmission of acoustic information; Wireless communication devices for voice, data, or image transmission; Wireless transmitting and receiving equipment; Computer software for wireless content delivery; Super High Frequency [SHF] wireless network apparatus; Extremely High Frequency [EHF] wireless network apparatus; Electric mobile digital communication devices; Telecommunications devices; Handheld communication devices; Wearable digital electronic devices capable of providing access to the Internet; Internet servers; Internet of Things [IoT] sensors; Internet of Things [IoT] range extenders [antennas]; Internet of Things [IoT] gateways; Adapters [electricity]; LAN access points; Software for ensuring the security of electronic mail; Privacy software; Computer software for the remote control of security apparatus; Privacy protection software; Social software; Computer software for document management; Maintenance software; Computer software programs for database management; Business intelligence software; Document automation software; Business technology software; Security surveillance apparatus; Automatic security barriers; Holographic security apparatus; Handheld security wands; Data processing programs recorded on machine-readable data carriers; Data processing systems; Data communications software; Data compression software; Covers for data storage devices; Apparatus for the transmission of data; Data transmission apparatus; Data synchronization cables; Data processing software; Computers for use in data management; Data storage apparatus; Apparatus for data storage; Data communications apparatus; Data processing programs; Cases for data storage devices; Data cables; Encryption apparatus; Electronic encryption units; Data encoding apparatus;

Communications server software; File synchronization software; Internet messaging software; Encoding and decoding apparatus; Computer software for the transmission of positioning data; Computer networking and data communications equipment; Computer software to enable the provision of electronic media via communications networks; Computer software to enable the provision of information via communications networks; Computer hardware for remotely accessing and transmitting data; Cloud server software; Computer utility programs for data compression; Unified communications software; Computer software to automate data warehousing; Decoder software; Data communications receivers; Encoding and decoding apparatus and instruments.

Class 35:
Business data analysis services; Retail services in relation to computer hardware; Retail services in relation to computer software; Business consultancy relating to the administration of information technology; Business management consulting services in the field of information technology; Retail services in relation to information technology equipment; Consultancy services relating to the procurement of goods and services; Procurement of goods on behalf of other businesses; Procurement services for others [purchasing goods and services for other businesses]; Wholesale services in relation to computer hardware; Wholesale services in relation to computer software; Retail services in relation to smartphones; Retail services in relation to audio-visual equipment; Business management consultancy; Risk management consultancy [business]; Business process management consultancy; Subscriptions (arranging -) to a telematics, telephone or computer service [internet]; Arranging subscriptions to telephone services; Retail services in relation to mobile phones; Business project management services; Management of computer files; Retail services for computer software; Business strategy development services; Computer database management; Computer file management; Management of computer databases; Compilation and input of information into computer databases; Data search in computer files for others; Computer data processing; Providing business directory information via a global computer network; Providing business information directory services, via a global computer network; Business information services provided online from a global computer network or the internet; Information services relating to data processing; Business information; Information (Business -); Provision of computerised business information data; Data management; Data entry and data processing; Data processing for the collection of data for business purposes; Data processing; Data processing management; Data retrieval services; Data management services; Provision of information relating to data processing; Data processing services; Data collection services; Data processing verification; Collection of data; Provision of business data; Business data analysis; Analysis of business data; Data processing, systematisation and management; Advisory services relating to data processing; Administrative support and data processing services; Consultancy relating to data processing; Advisory services relating to electronic data processing.

Class 37:
Installation of computer hardware; Upgrading of computer hardware; Installation of hardware for computer systems; Maintenance and repair of computer hardware; Computer installation services; Computer maintenance services; Information technology consultancy relating to installation, maintenance and repair of computer hardware; Installation of computer networks; Installation and maintenance of hardware for computer networks and Internet access; Maintenance and repair of computer networks; Telephone installation; Telephone repair; Installation of telephone lines; Installation of hardware and cables for Internet access; Installation of wireless telecommunications equipment and wireless local area networks; Installing of telecommunications networks; Updating of computer networking and telecommunications hardware; Installation of security system; Installation of cables for Internet access; Installation of cellular communications systems; Installation of computer systems; Installation of security systems; Installation of computerised information systems; Installation of access control systems; Maintenance of computer hardware; Repair of computer hardware; Installation and repair of computer hardware; Installation and repair of telecommunications hardware; Maintenance and repair of computers [hardware]; Repair and maintenance of computer and telecommunications hardware; Computer hardware (Installation, maintenance and repair of -); Installation, maintenance and repair of computer hardware; Maintenance and repair of hardware; Maintenance services relating to computer hardware; Computer hardware and telecommunication apparatus installation, maintenance and repair; Installation of hardware for Internet access; Maintenance and repair of hardware for data processing apparatus; Consultancy relating to the installation, maintenance and repair of computer hardware; Installation, repair and maintenance of computers and computer peripherals; Cable laying; Laying of cable; Installation of communications networks; Installation of data network apparatus; Installation of communications network instruments; Installation of security and safety equipment; Advisory services relating to the installation of security and safety equipment; Maintenance and repair of security systems; Information services relating to maintenance of security systems; Installation of residential security apparatus; Information services relating to installation of security systems.

Class 41:
Electronic data processing training; Training relating to computer hardware; Training services relating to computer software; Training services relating to the use of information technology; Provision of courses of instruction in the management of information technology; Arranging and conducting of seminars and workshops; Arranging and conducting of training workshops; Conducting educational workshops in the field of business; Provision of training via a global computer network; Training of personnel to ensure maximum security protection; Computer training services; Educational and training programs in the field of risk management; Publishing of interactive computer and video game software; Game services; Video game services; Providing online video games; Providing on-line video games; Training in the development of software systems; Interactive computer game services; Training services in the field of computer software development; Training in the operation of software systems; Online game services through mobile devices; Training in the operation of computerised systems; Provision of games by means of a computer based system; Training services relating to the installation of computer controlled test systems; Training services relating to the maintenance of computer controlled test systems; Education services relating to the application of computer software; Educational services for teaching keyboard writing; Services for the provision of training in the use of computer keyboards; Training in the operation of computer memories; Training in the development of computer memories; Training in the design of computer memories; Games services provided via computer networks

and global communication networks; Education information; Information (Education -); Education information services; Educational information services; Educational services relating to information technology; Training relating to data processing; Services for data processing instruction; Education services relating to data processing.

Class 42:
Authentication services for computer security; User authentication services using single sign-on technology for online software applications; Administration of user rights in computer networks; Data encryption services; Monitoring of computer systems for detecting unauthorized access or data breach; Computer security threat analysis for protecting data; Computer security consultancy; Computer services for the analysis of data; Technical data analysis services; Data security consultancy; Data migration services; Troubleshooting of computer hardware and software problems; Configuration of computer software; Design of computer software; Installation of computer software; Maintenance of computer software; Updating of computer software; Consultancy and advice on computer software and hardware; Software as a service [SaaS]; Computer software consultancy services; Software development services; Computer software technical support services; Information technology [IT] support services [troubleshooting of software]; Cloud computing services; Consulting services in the field of cloud computing; Cloud-based data protection services ; Information technology consultancy; Consultancy and information services relating to information technology architecture and infrastructure; Information technology support services; Hosting of websites; Creating, maintaining and hosting the web sites of others; Configuration of computer systems and networks; Integration of computer systems and networks; Provision of security services for computer networks, computer access and computerised transactions; Computer firewall services; Development and design of mobile applications; Application system testing consultancy; Computer security system monitoring services; Provision of computer security risk management programs; Computer virus protection services; Computer security services for protection against illegal network access; Internet security consultancy; Data recovery services; Electronic data storage and data back-up services; Off-site data backup; Data warehousing; Disaster recovery services for computer systems; Website design and development; Website design consultancy; IT project management; Computer project management services; Server hosting; Server administration; Remote server administration; Data security services [firewalls]; Computer network configuration services; Telecommunication network security consultancy; Providing temporary use of online non-downloadable software; Providing temporary use of non-downloadable business software; Providing temporary use of on-line non-downloadable software for the management of data; Providing temporary use of web-based software; Providing temporary use of online non-downloadable software for accessing and using a cloud computing network; Providing online non-downloadable computer software; Providing online, non-downloadable software; Providing temporary use of non-downloadable software; Providing temporary use of on-line non-downloadable software; Providing on-line non-downloadable software for database management; Providing temporary use of on-line non-downloadable software development tools; Providing online non-downloadable software for use in communication; Providing online non-downloadable software for word processing; Providing temporary use of on-line non-downloadable software for database management; Providing temporary use of online non-downloadable software for word processing; Providing temporary use of on-line non-downloadable software for the management of information; Providing temporary use of on-line non-downloadable software for inventory management; Providing temporary use of on-line non-downloadable software for processing electronic payments; Providing temporary use of on-line non-downloadable operating software for computer networks and servers; Providing temporary use of on-line non-downloadable software for the transmission of data; Providing temporary use of on-line non-downloadable software for web site development; Providing temporary use of on-line non-downloadable software for importing and managing data; Providing temporary use of on-line non-downloadable software for the transmission of information; Providing temporary use of on-line non-downloadable single sign-on software; Providing online non-downloadable software for use in supply chain management; Computer and computer software rental; Rental of computer hardware and computer software; Rental of computer hardware and computer peripherals; Rental of computers and computer software; Computer programming; Programming (Computer -); Computer forensics; Time-sharing (Computer -); Computer engineering; Computer programming for the internet; Computer programming and maintenance of computer programs; Writing of computer software; Copying of computer software; Computer software engineering; Repair of computer software; Computer software research; Computer programming for telecommunications; Computer design; Maintenance of computer software relating to computer security and prevention of computer risks; Renting computer software; Software (Rental of computer -); Computer software rental; Computer software (Rental of -); Rental of computer software; Computer software installation; Computer software (Installation of -); Computer software design; Development of computer hardware and software; Computer software integration; Computer software development; Development of computer software; Computer software consultancy; Consultancy (Computer software -); Software engineering; Computer software consulting; Computer hardware and software design; Design of computer hardware and software; Software development in the framework of software publishing; Software authoring; Computer software (Design of -); Software design (Computer -); Software development; Development of software; Update of computer software; Testing of computer software; Design of software; Software design; Rental of computer hardware and software; Duplication of computer software; Development of computer database software; Design and development of computer hardware and software; Installation of software; Software installation; Computer software maintenance; Computer software (Maintenance of -); Leasing of computer software; Computer software design services; Services for the design of computer software; Design of computer database software; Developing computer software; Upgrading of computer software; Software as a service [SaaS] featuring software for machine learning; Development of computer software application solutions; Computer software programming services; Hiring of computer software; Computer software consultation; Computer programming and software design; Rental of computer software and programs; Rental of computer database software; Debugging computer software for others; Services for designing computer software; Design of computer machine and computer software for commercial analysis and reporting; Services for the writing of computer software; Design and writing of computer software; Providing temporary use of non downloadable computer software; Software

as a service [SaaS] featuring software platforms for electronic gaming; Software as a service [SaaS] featuring software platforms for graphic design; Development of interactive multimedia software; Technical services for the downloading of software; Video game software development; Video game software design; Programming of video game software; Rental of video game software; Video game development services; Development of video and computer games; Design and development of video game software; Design of games; Development of computer game software; Development of hardware for video games; Computer programming of video games; Computer programming of video and computer games; Technical services for the downloading of video games; Programming of computer game software; Design of computer game software; Rental of computer game software; Development of computer hardware for computer games; Design and development of computer game software; Design and development of computer game software and virtual reality software; Computer programming of computer games; Design and development of software for website development; Software design and development; Design, development and implementation of software; Product development; Software development, programming and implementation; Development and testing of software; Development of computer platforms; Computer system design and development; Product design and development; Design and development of software in the field of mobile applications; Design and development of route planning software; Design and development of software for inventory management; Database design and development; Design and development of computer software; Computer software design and development; Design and development of networks; Design and development of driver software; Design and development of computer firmware; Evaluation of product development; Design, development and programming of computer software; Design and development of virtual reality software; Design and development of computer peripherals; Design and development of firmware systems; Design and development of operating system software; Programming of software for website development; Research, development, design and upgrading of computer software; Development of hardware for use in connection with electronic and interactive multimedia games; Design and development of computer software for logistics; Product research and development; Design and development of software for database management; Analysis of product development; Design and development of antivirus software; Development of computers; Design and development of computer software for process control; Design and development of computer hardware; Research and development of computer software; Design and development of databases; Development of driver software; Design and testing for new product development; Development of computer systems; Computer systems development; Industrial process development; Design and development of telecommunications systems; Product development consultation; Development of computer programs; Rental of software for website development; Development of computer firmware; Development of software for communication systems; Consultancy relating to software design and development; Electronic storage of digital audio files; Electronic storage services for archiving electronic data; Electronic storage of documents; Electronic storage of digital video files; Electronic storage of digital images; Encryption, decryption and authentication of information, messages and data; Authentication of pictures; Configuration of computer firmware; Authentication of diamonds; Installation of Internet access software; Authentication of stamps; Providing user authentication services using single sign-on technology for online software applications; Leasing of access to a computer; Recovery of computer data; Configuration of computer networks using software; Maintenance of software for Internet access; Developing of driver and operating system software; Development of operating system software; Design of operating system software; Rental of operating software for computer networks and servers; Computer system monitoring services; Rental of operating software for accessing and using a cloud computing network; Computer system integration services; Maintenance of computer software used for operating filling apparatus and machines; Design and development of operating software for computer networks and servers; Design and development of operating software for accessing and using a cloud computing network; Programming of operating software for accessing and using a cloud computing network; Programming of operating software for computer networks and servers; Design and development of operating software for cloud computing networks; Design and development of virtual private network (VPN) operating software; Development of computer software for use with computer-controlled switching systems; Computer system design; Design (Computer system -); Computer systems integration services; Monitoring of network systems; Providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; Maintenance of software for communication systems; Services for the design of computer systems; Computer system analysis; Monitoring of computer systems for security purposes; Consultancy in the field of computer system integration; Installation, maintenance and repair of software for computer systems; Design and development of software for instant messaging; Development of application software for delivery of multimedia content; Website development services; Database development services; Design and development of single sign-on software; Design and development of computer database software; Design and development of software for importing and managing data; Design and development of electronic database software; Development of data programs; Design and development of data retrieval software; Design and development of Internet security programs; Design and development of computer database programs; Development services relating to computer software application solutions; Research and development services; Design and development of data processing software; Design and development of multimedia products; Consultancy relating to the design and development of computer software programs; Intranet design, development and maintenance; Development and maintenance of computer software; Advisory services in the field of product development and quality improvement of software; Design and development of computer software for others; Design and development of word processing software; Design and development of new products; Design and development of data processing programs; Design and development of image processing software; Development of software for secure network operations; Consultancy relating to the design and development of computer database programs; Consultancy relating to the design and development of computer programs; Research relating to the development of computer software; Development (Research and -) of products; Development and maintenance of computer database software; Design and development of computer databases; Development of software for audio and video operators; Design and development of computer software for evaluation and calculation of data;

Research relating to the development of computer programs and software; Analysis and evaluation of product development; Smartphone software design; Development of computer programmes; Computer hardware (Consultancy in the design and development of -); Consultancy in the design and development of computer hardware; Research and development of new products; Research and development services in connection with physics; Development of new products; Hosting of mobile applications; Rental of application software; Design and development of telecommunications networks; Industrial development services; Design and development of data processing systems; Application service provider [ASP], namely, hosting computer software applications of others; Design and development of wireless computer networks; Design of mobile telephones; Hardware design; Design of computer hardware; Computer hardware (Design of -); Computer hardware design; Computer hardware development; Development of computer hardware; Testing of computer hardware; Leasing of computer hardware; Computer hardware leasing; Design services for computer hardware; Computer hardware design services; Designing of computer hardware; Rental of computer hardware; Computer hardware rental; Customized design of computer hardware; Configuring computer hardware using software; Renting out hardware and software; Design of computer hardware for the manufacturing industries; Design services relating to computer hardware; Rental of computer hardware and facilities; Diagnosing computer hardware problems using software; Development of computer hardware for the manufacturing industries; Design and development of computer hardware for the manufacturing industry; Design of hardware for audio and video operators; Design and development of computer hardware for the manufacturing industries; Computer hardware (Consultancy in the field of -); Consultancy in the field of computer hardware; Design of hardware for digital signal processing; Advice relating to the design of computer hardware; Providing information about the design and development of computer hardware and software; Development of hardware for audio and video operators; Consultations in the field of computer hardware; Technical project studies in the field of computer hardware and software; Design services relating to computer hardware and to computer programmes; Design and development of software and hardware for signal amplification and transmission; Technical consultancy relating to the use of computer hardware; Research in the field of computer hardware; Providing technical advice relating to computer hardware and software; Advisory services relating to computer hardware design; Development of hardware for digital signal processing; Design of computer peripherals; Rental of computer peripherals; Rental of computer software, data processing equipment and computer peripheral devices; Rental of computer equipment; Development of computer peripherals;
