metal or coated therewith, signs of precious metal or coated therewith, medals and medallions, coins, paper, cardboard, printed matter, photographs, stationery, artists' materials, paint brushes, office requisites, instructional and teaching materials, plastic materials for packaging, newspapers, magazines and periodical publications, printed publicity and promotional material, printed programmes, books, booklets, brochures, leaflets, newsletters, comic books, diaries, personal organisers, address books, albums, photograph albums, autograph books, autographed photographs, and autographed paper items, scrap books, catalogues, manuals, files and folders, binders, programme binders, poster magazines, calendars, note pads and note books, writing pads, drawing pads, jotters, envelopes, labels, bookmarks, bookends, paperweights, posters, trading cards, collectors' cards, stickers, transfers, decalcomanias, stencils, maps, charts, wall charts, tickets, timetables, printed forms, certificates, menus, paper for gift vouchers, philatelic stamps, printed patterns, paper flags and pennants, paper banners, signs and advertisement boards of paper and cardboard, cards, greeting cards, birthday cards, postcards, gift wrap and packaging paper, gift tags, gift bags, carrier bags, packaging bags, letter openers, blackboards, chalk, writing instruments, drawing instruments, pens, pencils, pencil sharpeners, erasers, rulers, cases and boxes for pens and pencils, pen and pencil holders, ink, ink pads, rubber stamps, paint boxes, signed photographs, prints and pictures, art prints, graphic prints, representations and reproductions, lithographs, engravings and etchings, portraits, paper towels, paper handkerchiefs, toilet paper, beer mats, paper and cardboard coasters, paper and cardboard place mats, paper table cloths and napkins, money clips, luggage, bags, travelling bags and cases, trunks, sports bags, athletic bags, kit bags, gym bags, garment bags, boot and shoe bags, holdalls, back packs, rucksacks, folding bags and cases, duffel bags, school bags, satchels, brief cases, shoulder bags, waist bags, belt bags, handbags, pocketbooks, tote bags, shopping bags, toilet bags, covers for bags, liners for bags,

wallets, purses, card wallets, card cases, business card cases, card holders, luggage label holders, luggage tags, luggage straps, umbrellas and parasols, walking sticks, leather straps, collars, leads and leashes for animals, clothing and covers for animals, furniture and parts and fittings therefor, mirrors, picture frames, photograph frames, ornaments of wood, wax, plaster, plastic or resin, busts of wood, wax, plaster, plastic or resin, figurines of wood, wax, plaster, plastic or resin, statues and statuettes of wood, wax, plaster, plastic or resin, works of art of wood, wax, plaster, plastic or resin, models of wood, wax, plaster, plastic or resin, trophies of wood, wax, plaster, plastic or resin, plates of wood, wax, plaster, plastic or resin, plaques of wood, wax, plaster, plastic or resin, shields of wood, wax, plaster, plastic or resin, signs of wood, wax, plaster, plastic or resin, name plates, house numbers, coat hangers, stacking trays, plastic key rings, name badges, plastic key cards (not encoded), display stands, display boards, advertisement boards, advertising signs and banners of plastic, bins, plastic storage boxes, seats and seating, holders for pennants, decorations of plastic for foodstuffs, fans for personal use, sleeping bags, cushions and pillows, bean bags, bedding, animal housing and beds, decorative mobiles, household and kitchen utensils and containers, combs and sponges, brushes, glassware, porcelain, pottery and earthenware, chinaware, cookware, tableware, crockery, plates, commemorative plates, bowls, egg cups, drinking vessels, cups, mugs, insulated mugs and cups, drinking glasses, tankards, bottles, drinking bottles, water bottles, hydration bottles, sports bottles, drinking straws, bottle openers, corkscrews, decanters, flasks, vacuum flasks, bottle covers, food and drink containers, insulated food and drink containers, coolers for food and drinks, bottle buckets, cocktail shakers, juice squeezers, strainers, siphons for carbonated water, stands for bottles, menu card holders, name card holders, napkin holders, cutlery holders, condiment holders, salt cellars, toothpick holders and toothpicks, butter dishes, serving trays, coasters, not of paper or textiles, lunch boxes, lunch bags, picnic ware, decorative objects made of glass, ceramic, china, earthenware or porcelain, ornaments of glass, ceramic, china, earthenware or porcelain, busts of glass, ceramic, china, earthenware or porcelain, figurines of glass, ceramic, china, earthenware or porcelain, statues and statuettes of glass, ceramic, china, earthenware or porcelain, works of art of glass, ceramic, china, earthenware or porcelain, models of glass, ceramic, china, earthenware or porcelain, trophies of glass, ceramic, china, earthenware or porcelain, plates of glass, ceramic, china, earthenware or porcelain, plaques of glass, ceramic, china, earthenware or porcelain, shields of glass, ceramic, china, earthenware or porcelain, signs of glass, ceramic, china, earthenware or porcelain, model stadia of glass, ceramic, china, earthenware or porcelain, enamelled glass, vases, perfume bottles, candlesticks, money boxes and piggy banks, tea cosies, toothbrushes, holders for toothbrushes, soap boxes and holders, shaving brushes and shaving brush holders, fitted vanity cases, cosmetic powder compacts, household gloves, articles for cleaning, shoe horns, refuse bins, litter bins, flower pots, baskets for domestic use, cages for household pets, feeding dishes and bowls for pets, storage boxes for household use, textiles, textile piece goods, textiles for making articles of clothing, curtains, textile wall hangings, covers for cushions, bed linen, bed covers, sheets and pillow cases, duvet covers, blankets, lap rugs, bath linen, towels, flannels, table linen, table cloths, table mats and coasters, napkins, tea towels, bar towels, flags and pennants, banners, clothing, footwear, headwear, articles of outer clothing, sportswear, leisurewear, sports kits, sports shirts, sports shorts, sports socks, replica football kits, replica football shirts, replica football shorts, replica football socks, training clothing, tracksuits, training pants, sweatshirts, sweatpants, jackets, coats, waterproof clothing, anoraks, shirts, tops, t shirts, polo shirts, vests, singlets, knitwear, jerseys, pullovers, sweaters, hooded tops, cardigans, waistcoats, suits, trousers, pants, shorts, ties, underwear, briefs, nightwear, swimwear, socks, gloves, mittens, scarves, wristbands, headbands, ready-made clothes linings, shoes, boots, sandals, slippers, sports shoes, training shoes, football boots and shoes, studs for football boots, hats, caps, sun visors, belts, aprons (clothing), uniforms, articles of clothing, footwear and headwear for babies and children, bodysuits, romper suits, sleep suits, bibs, baby boots, face coverings, face masks, badges for wear, ornamental novelty badges, badges of textile materials, embroidered badges, rosettes, patches, buttons, ribbons, clothing and shoe fasteners, shoe laces, shoe ornaments, hat ornaments, hairbands and slides, hair ornaments, sewing thimbles, brooches for clothing, belt clasps, buckles, numerals or letters for marking linen, competitor numbers, expanding bands for holding sleeves, reins for guiding children, lanyards for wear, floor coverings, carpets, rugs, mats, wall coverings, non-textile wall hangings, wallpaper, games and playthings and parts and fittings therefor, gymnastic and sporting articles and parts and fittings therefor, toys, sports games, sporting equipment, balls for games, playing balls, footballs, miniature footballs, miniature replica football kits, goal posts, goal nets, gloves for games, gloves for sports, football gloves, protective padding and supports for sports, shin guards, knee guards, elbow guards, exercise apparatus and equipment, sports training apparatus, bags adapted for sporting articles, bags specially adapted for sports equipment, sports whistles, rattles, tables for indoor football, articles for playing golf, golf balls, golf tees, golf ball markers, divot repair tools for golf, golf bags, golf club covers, golf gloves, articles for playing darts, dart boards, darts and dart flights, dice, dominoes, marbles, dolls, action figure toys, soft toys, teddy bears, toy vehicles, electronic games, video games, controllers for video games and covers therefor, board games, card games, playing cards, playing card cases, puzzles, jigsaw puzzles, models in kit form, toy mobiles, infant toys, decorations for Christmas trees, Christmas crackers, party novelty hats, confetti, toy masks, costumes being children's playthings, balloons, pet toys, lottery scratch cards, meat, fish, poultry and game, jellies, jams, fruit sauces, milk and milk products, meat products, cooked meats, sausages, burgers, kebabs, fish products, seafoods, edible shellfish and shellfish products, poultry products, game products, fruit products, vegetable products, potato products, potato chips, potato crisps, edible nuts, processed peanuts, dairy products, cheese, milk drinks, flavoured milk drinks, milkshakes, snack foods, prepared meals, instant meals, soups and preparations for making soups, bakery products, bread, buns, pies, pasties, sausage rolls, sandwiches, bread rolls, hot dogs, toasted sandwiches, cakes, edible cake decorations, biscuits, cookies, pastry and pastry products, puddings, desserts, pancakes, waffles, gingerbread, popcorn, ices, ice cream and ice cream products, frozen confections, ice lollies, confectionery, sweets, candy, mints, non-medicated chewing gum, edible candy rock, toffee, fudge, chocolate, chocolate products, chocolate beverages, cocoa, liquorice, lozenges, cereal bars, energy bars, mustard, vinegar, salt, pepper, sugar, sauces, pizzas, pasta and pasta products, rice, coffee, tea, non-alcoholic drinks, drinking water, mineral and aerated water, fruit and drinks and fruit juices, isotonic drinks, carbonated beverages, soft drinks, lemonades, cola drinks, energy drinks, soda water, ginger beer, beers, lagers, ales, porter and stout, syrups and other preparations for making beverages, alcoholic beverages,

wines, spirits, distilled beverages, liqueurs, whisky, cider, perry, sparkling wines, champagne, lighters for smokers, smoker's articles, matches, electronic cigarettes, liquid solutions for use in electronic cigarettes; information, advisory and consultancy services in relation to all of the aforesaid.

Class 38:
Telecommunications; broadcasting; broadcasting and transmission of television and radio programmes; audio and/or video broadcasting; data transmission and data broadcasting; cable, satellite and terrestrial broadcasting services; broadcasting via the Internet and other computer and communications networks; broadcasting, transmission, reception and other dissemination of text, messages, information, data, sound and images; wireless communication services; transmission of digital files; communications services by satellite, television and/or radio; electronic communications via the Internet and other computer and communications networks; webcasting services; multimedia telecommunications; telephone and mobile telephone services; electronic mail services; news agency services; message sending; online communication services; electronic bulletin board services; provision of discussion forums and chat room services; provision of online forums for communication on topics of general interest; information, advisory and consultancy services in relation to all of the aforesaid.

Class 41:
Entertainment; sporting and cultural activities; education; providing of training; sporting services; organisation of sporting events; provision of entertainment, training, recreational, sporting and cultural activities and facilities; instruction and educational services; education and training in relation to sports; football academy services; football coaching, football schools and schooling; arranging and conducting of education and training in relation to football; arranging, conducting and provision of football instructional courses; football entertainment services; entertainment in the nature of football games; physical education; fitness training services; physiotherapy training; sport and holiday camp services (in the nature of entertainment); rental of sporting equipment; practical training and demonstrations; arranging, organising and conducting of conferences, conventions, seminars, events and exhibitions; arranging, organising and conducting of games, contests and competitions; organising community sporting and cultural events; hospitality services (entertainment); lotteries; gaming services; arranging, organising and conducting of award ceremonies; provision of museum facilities; provision and management of stadium facilities and services; rental of stadium facilities; presentation of live performances; provision of club sporting services; sports club services; health club services; provision of health club, fitness club and gymnasium facilities; provision of sports information services; provision of information relating to football; sporting information services, namely scouting of players; fan club services; fan club membership scheme services; box office services; booking and ticketing services for sports, entertainment, cultural and educational events; entertainment, training, recreational, and sporting information services provided via the Internet and other computer and communications networks; education and entertainment services provided by means of radio, television, telephony, the Internet and online databases; provision of cinematographic and video entertainment; entertainment and educational services featuring electronic media, multimedia content, audio and video content, movies, pictures, photographs, graphics, images, text and related information provided via the Internet and other computer and communications networks; streamable audio and video recordings; streamable music, sounds, images, graphics, videos, games, text or data; entertainment, education, sporting and cultural activities provided online and in online virtual worlds; arranging, organising and hosting of virtual entertainment, educational, sporting and cultural events and activities; organising online and virtual sporting events, activities, games and competitions; providing virtual environments in which users can interact for recreational, leisure or entertainment purposes; provision of online games featuring virtual goods or virtual currencies; providing online, non-downloadable virtual clothing, footwear, headwear, bags and sports equipment for use online and in online virtual worlds for entertainment purposes; entertainment services, namely, providing online, non-downloadable virtual goods; providing temporary use of non-downloadable game software featuring virtual goods; entertainment services, namely, providing online, non-downloadable virtual merchandise; film production; production of video recordings, sound recordings, DVDs, CDs, CD-ROMs, video and audio tapes; production and distribution of television and radio programmes; production of sporting events for television and radio; publication of magazines, books, texts and printed matter; publishing by electronic means; providing online non-downloadable electronic publications; provision of television programmes, radio programmes, films, audio and/or visual material and games online (not downloadable); publication of news online; information relating to sport and entertainment provided online from a computer database or the Internet; information, advisory and consultancy services in relation to all of the aforesaid.

Class 43:
Services for providing food and drink; temporary accommodation; accommodation services; provision of facilities for the consumption of food and drink; preparation of meals, foodstuffs and beverages; catering services; restaurants; cafés; cafeterias; canteens; snack-bars; takeaway food services; bars; wine bars; sports bars; tea shop and coffee shop services; hospitality services; hotel services; hire, lease, and rental of rooms; provision of accommodation and facilities for conferences, conventions, seminars, events and exhibitions; booking and reservation services for conferences, conventions, seminars, events and exhibitions; provision of trade show facilities; provision of accommodation and facilities for parties, banquets and weddings; provision of day care services for infants and/or children; information, advisory and consultancy services in relation to all of the aforesaid.

Dancing Fruit

Class 9:
Downloadable videos; Video tapes with recorded animated cartoons; Video streaming devices; Musical video recordings.

Class 16:
Cartoon prints; Children's books.

Class 18:
Schoolchildren's backpacks.

Class 21:
Children's potties.

Class 24:
Children's blankets.

Class 25:
Children's clothing; Babies' clothing; Infants' clothing.

Class 35:
Retail services connected with the sale of clothing and clothing accessories; Online retail services for downloadable and pre-recorded music and movies.

Class 38:
Transmission of videos, movies, pictures, images, text, photos, games, user-generated content, audio content, and information via the Internet; Video, audio and television streaming services; Streaming audio and video material on the Internet.

Class 41:
Production of animation; Production of animated cartoons; Theatrical performances both animated and live action.

Class 45:
Film, television and video licensing; Cartoon character licensing [legal services].

Mark 1

ESR Technology

Mark 2

ESR Technology

Application for a series of 2 marks.

Class 4:
Lubricants; lubricants for industrial use; solid or liquid lubricants; solid lubricant films; lubricants suitable for use in spacecraft or satellites; lubricants for the space and vacuum industries.

Class 9:
Testing and inspection equipment, instruments and devices; non-destructive testing and inspection equipment; ultrasonic testing and inspection equipment; ultrasonic probes; measuring

apparatus and instruments; tribometers; sensors; parts and fittings for the aforesaid; computer software and hardware; data analysis software; computer software for risk assessment, safety analysis, interpreting ultrasonic signals, interpretation of test results; software for creating searchable databases of information and data; computer software platforms; software applications; downloadable electronic publications.

Class 35:
Commercial advisory services; strategic business planning services; business risk management consultancy; business management, research and consulting services; business data analysis; business consultancy and advice in the fields of space, tribology, testing, safety and risk management; business strategy consulting; business project management services; business consultancy in relation to product or process development.

Class 37:
Lubrication services; lubrication services for the space and vacuum industries; lubrication of spacecraft components; inspection services using non-destructive testing (NDT) or non-intrusive inspection (NII) methodologies relating to the safety, condition, construction, installation, maintenance, repair, servicing or decommissioning of industrial plant, machinery, equipment, structures, engineering installations, components and vessels, including pressure vessels, storage tanks, turbines, structural foundations, aerospace, marine, space, tribology, transport and energy infrastructure, mechanical hardware and spacecraft components including inspection for maintenance, risk assessment and safety purposes, together with risk-based inspection planning services for the maintenance of industrial plant and engineering installations.

Class 40:
Custom manufacture of products, devices and mechanisms in the fields of space, tribology, engineering, or safety testing, inspection and risk management; assembly of products for others; custom assembling of materials and mechanisms for others; treatment of materials; consultancy, advisory and information services relating to the aforesaid.

Class 41:
Education and training; vocational training; technical training; training in the operation of test and inspection equipment; training in the operation of ultrasonic inspection equipment; training courses, technical programmes, workshops, seminars, forums, industry forums, exhibitions and conferences; collaborative industry focused forums, collaborative forums for sharing best practice in testing, inspection and structural integrity and for advancing in-service non-destructive testing; education and training in relation to non-destructive testing and inspection techniques and in the operation of inspection and test equipment; downloadable electronic publications; provision of advice and information in relation to the aforesaid.

Class 42:
Scientific, industrial and technological research, design and development; research and development in the field of tribology; research and development for the space industries; industrial research in connection with advancing and testing new inspection techniques; testing services; evaluation of devices and mechanisms for use in space, tribology or safety testing, inspection and management; component testing; technical testing; material testing; testing of devices and mechanisms in thermal and vacuum conditions; testing of spacecraft mechanisms, components and subsystems; testing of tribological components; design of devices and mechanisms, particularly those for use in space; product development in the fields of space, tribology, safety testing and risk management; design and development of prototypes; professional and technical consultancy; ultrasonic inspections and assessment; industrial analysis services; testing services for the certification of quality or standards; testing, analysis and evaluation of techniques for in-service non-destructive testing and risk assessment; risk assessment services; asset integrity management consultancy; qualitative and quantitative assessment; quality and safety testing, evaluation and accreditation services, inspection services; environmental testing; technical testing relating to benchmarking; process safety management services including hazard analysis and quantitative risk assessment; engineering services; engineering consultancy: engineering, safety and risk consultancy specialising in high-hazard industries and complex environments; preparation of technical reports; design and development of technical frameworks and platforms for managing innovation processes; development of models and analytical methods for evaluation and optimisation of innovation systems and micromechanical testing instruments; digital tribology; Software as a service (SaaS); electronic data storage; providing a commercial searchable database; creating and maintaining an online, interactive knowledge base for registered users to connect, collaborate, and engage with industry expertise and methods; provision of information in relation to the above services; providing the above services online including via an online forum or portal; advisory and consultancy relating to the above; hosting of software as a service (SaaS); technical inspection services using non-destructive testing (NDT) or non-intrusive inspection (NII) methodologies including evaluation of inspection data relating to the structural integrity and residual life of industrial assets and the application of statistical, quantitative and qualitative modelling techniques to assess health, safety and operational risks, predict asset performance, support risk-informed decision making, and optimise asset integrity and lifecycle management; consultancy, advisory and information services relating to the aforesaid.

Class 45:
Safety and risk assessment; evaluation, development and implementation of safety strategies; safety risk management consultancy; safety evaluations and inspections; industry safety consultancy; supporting member associations by providing expertise in regulatory issues; provision of benchmarking and reference information in the field of non-destructive testing; preparation of expert opinions and reports related to non-destructive testing; provision of information in relation to the above services including online, via an online forum, emails, webinars, weblogs and social media applications; providing the above services online including via an online forum or portal; advisory and consultancy relating to the aforesaid services.

Fire alarms; Fire detectors; Alarm systems; Security alarms; Security alarm systems [other than for vehicles]; Closed circuit television systems (CCTV); Access control systems (Automatic -); Access control systems (Electric -); Electronic access control system for buildings; Access control installations (Automatic -); Access control installations (Electric -); Fire extinguishers.

Class 37:
Fire alarm repair; Fire alarm installation; Fire alarms (Installation of -); Fire alarm installation and repair; Maintenance and repair of fire alarm systems; Fire detection system installation; Maintenance and servicing of security alarms; Maintenance of fire alarm installations; Installation of security systems; Maintenance and servicing of fire alarm systems; Services for the installation of alarms; Installation of access control systems; Maintenance and repair of access control systems; Fire extinguisher recharging services; Repair or maintenance of electric lighting apparatus; Repair or maintenance of fire alarms; Maintenance and repair of security systems.

Class 42:
Engineering services relating to the design of electronic systems.

Class 45:
Monitoring of fire alarms; Leasing of fire alarms; Monitoring of burglar and security alarms; Alarm monitoring services; Monitoring of alarms; Monitoring of security systems.

SS Systems Limited

UK00004456572 07 October 2026
(35)

Class 35:
Business management consultancy in the field of executive and leadership development.

Improview Limited

UK00004456403 07 October 2026
(9, 38, 42)

LiveMIC

Class 9:
Downloadable and recorded computer software; downloadable software for remote broadcasting; downloadable software for remote contribution to radio broadcasts; downloadable software for the transmission of live audio between broadcast studios and remote locations; downloadable software for controlling audio input devices and audio levels in broadcasting; downloadable software for monitoring studio audio feeds; downloadable software for voice tracking; downloadable mobile applications for remote broadcasting; downloadable electronic publications, user manuals and guides relating to remote broadcasting software.

Class 38:
Telecommunications services; transmission of audio content via the Internet and computer networks; transmission of live audio between broadcast studios and remote locations; providing access to online platforms for remote contribution to radio broadcasts; information, advisory and consultancy services relating to the transmission of audio content.

Class 42:
Software as a service [SaaS]; providing online non-downloadable software for remote broadcasting; providing online non-downloadable software for remote contribution to radio broadcasts; providing temporary use of non-downloadable web applications for the transmission of live audio between broadcast studios and remote locations; providing online non-downloadable software for controlling audio input devices and audio levels in broadcasting; providing online non-downloadable software for voice tracking; hosting of computer software and platforms for others; design, development, maintenance and updating of computer software; technical support services relating to computer software, namely troubleshooting of software problems; information, advisory and consultancy services relating to remote broadcasting software.

CLAREN

Class 9:
Artificial intelligence software; artificial intelligence software for analysis; artificial software for use in the legal sector; artificial intelligence software for answering legal contract queries; artificial intelligence software for legal assistance in preparing and amending contracts; artificial intelligence software for identifying risks in contracts; artificial intelligence software for translations; artificial intelligence software for comparing legal documents; artificial intelligence software for legal research; artificial intelligence software for contract review, contract redlining, clause risk analysis, and extraction of contractual terms; artificial intelligence software for assisting with legal operations; artificial intelligence software for providing suggested amendments to contracts; artificial intelligence software for automation of legal tasks; artificial intelligence software for locating, triaging and automating legal requests; computer software (stored or downloadable) for amending legal documents; computer software (stored or downloadable) for amending contracts; platform software; platform software for use in the legal sector; platform software for automating workflows in the legal sector; computer software for workflow automation in the legal sector; computer software for analysing legal documents; artificial intelligence, machine learning and large language model software; artificial intelligence, machine learning and large language model software for analysis of data and documents; computer software for answering legal contract queries; computer software for legal assistance in preparing and amending contracts; computer software for identifying risks in contracts; computer software for translations; computer software for comparing legal documents; computer software for legal research; computer software for contract review, contract redlining, clause risk analysis, and extraction of contractual terms; computer software for assisting with legal operations; computer software for providing suggested amendments to contracts; computer software for automation of legal tasks; computer software for locating, triaging and automating legal requests; computer software for use in accessing, updating, manipulating, modifying, organising, storing, backing up, synchronising, transmitting and sharing data, documents, files, information and multimedia content via a global computer network; computer application software for managing, migrating, recovering, retrieving, sharing, storing, synchronizing, transferring information and data via a global computer network, mobile telephones, computers, and other communication devices; software providing an interface or gateway to networks that allows multiple-user access to a global information and communication network connected by common protocols for the exchange, transfer and dissemination of voice, data, facsimile, e-mail, voice mail, cross media messaging, video, audio, documents, files and information; computer software (stored or downloadable) for providing and managing digital or virtual data rooms and for communication in digital or virtual data rooms via data communication networks; computer software (stored or downloadable) for capturing, accessing, viewing, printing, managing, processing and storing data and documents; computer software (stored or downloadable) for converting documents into standard format; computer hardware; computer software (stored or downloadable) for capturing, accessing, viewing, reviewing, analysing, printing, managing, processing and storing data and documents; computer software (stored or downloadable) for providing and managing digital or virtual data rooms and for communication in digital or virtual data rooms via data communication networks; software for the integration of artificial intelligence and machine learning in the field of Big Data; artificial intelligence and machine learning software; software for smart contracts; downloadable computer software for creating and generating text; software for legal document analysis, contract management, and compliance monitoring; software for automating legal processes, including contract generation, negotiation, and post-execution analysis; software for legal review and analysis; computer software for identifying and creating definitions for new legal concepts; software for documentation and data analysis; software for data storage; software for searching across computer networks; data and file management and database software; computer software for creating searchable database of information and data; software for creating and managing legal playbooks, including acceptable criteria for contract

review; risk detection software; software for synthesising human speech and text; software for processing, generating, understanding, and analysing natural language; downloadable software for advanced search functionality, risk identification, and workflow reporting for contract management; downloadable computer programs and downloadable computer software for the artificial production of human speech and text; software for legal document analysis, contract management, and compliance monitoring; software for automating legal processes, including contract generation, negotiation, and post-execution analysis; software for legal review and analysis; computer software for automating contract negotiation and drafting agreements; artificial intelligence software for negotiating contracts and agreements; computer software for sending, receiving, and managing draft contracts and agreements; computer software for integrating artificial intelligence; software for automating legal processes, including contract generation, negotiation, and post-execution analysis; software for legal review and analysis; computer software for automating legal tasks and executing workflows; software for providing customisable dashboards to monitor contract data, legal workflows, and KPIs across contracts; software for facilitating the monitoring of legal workflows and obligations through contract data insights and reporting; artificial intelligence software for automating contract management, drafting, and review; software for providing virtual legal assistants for executing tasks and managing contracts; software for processing, generating, understanding, and analysing natural language; downloadable computer programs and downloadable computer software for the artificial production of human speech and text; artificial intelligence software for analysing legal clauses and defining new legal terms; AI-powered software for analysing contracts and identifying patterns and context for clause definition; software for generating and modifying definitions of legal concepts based on user inputs; downloadable mobile applications for legal analysis, clause identification, and contract review; computer software for providing instant, legally accurate answers to contract queries; downloadable mobile applications for contract management, negotiation, and review; software for creating user-generated content; software for processing, generating, understanding, and analysing natural language; downloadable computer programs and downloadable computer software for the artificial production of human speech and text; software for legal document analysis, contract management, and compliance monitoring; AI-powered chatbot software for legal contract review, redrafting, and querying; software for querying legal contracts and data in a repository, providing real-time responses and insights; software enabling AI-powered chatbot access for contract review and redrafting; AI-powered software that enables users to query contracts, receive answers, and redraft live contracts; software for providing conversational memory and contextual responses to legal queries; AI-based legal software with generative and analytical AI models for handling complex contract queries; AI-based language model software that reduces AI hallucinations and increases response reliability; downloadable software for using a multi-model approach in delivering AI-powered solutions, enhancing accuracy, and mitigating hallucinations; generative AI software featuring a multi-model system for providing contextually accurate answers and solutions; downloadable software for querying and inspecting data across executed contracts and other legal documents; multi-language AI software for contract query handling and redrafting with legal accuracy; AI-powered software for automating legal processes and workflows; downloadable mobile applications for automating legal tasks, contract management, and workflow execution; AI-based software for executing tasks based on user instructions in any language; software for managing and processing legal instructions and requests; AI-powered software with memory capabilities for tailoring responses based on past interactions; legal-specific chatbot software with memory and contextual understanding for handling complex queries; computer software for managing and analysing contracts, including live and executed contracts, using artificial intelligence (AI); AI-powered software for content creation; software for synthesising human speech and text; AI-powered software for automatically extracting key data points and legal concepts from contracts; AI-powered contract management software for establishing criteria and definitions for legal clauses; software for automatically identifying and categorizing clauses in a contract repository; Contract Lifecycle Management (CLM) software for structuring, managing, and analysing contract data; software for providing insights into contractual landscapes, identifying risks and opportunities in executed contracts; AI-based software for extracting, structuring, and organising contract data automatically upon upload; AI-powered software for generating and providing real-time reporting of key metrics, including contract obligations and version histories; computer software for automating the entire contract negotiation process without human intervention; Artificial intelligence software for opening, reviewing, and redrafting contracts automatically; AI-powered software for sending and receiving revised contracts in a negotiation process; software for enabling AI to initiate and manage contract negotiations between parties, including review, redrafting, and communication; software to verify AI generated data; software in relation to retrieval-augmented generation; chatbot software for simulating conversations; AI powered chatbots for contract review and negotiation; virtual assistant software; software for creating automated content; software for creating user-generated content; AI-powered software for content creation; AI-based software for handling contract revisions and negotiating terms without human input; Downloadable software for automating contract negotiations, review, and redrafting between parties; Software for facilitating automatic contract exchanges and revisions during negotiation; AI-driven contract management software for facilitating negotiations, including tracking and monitoring negotiation stages; software for natural language processing (NLP) using multiple AI models working collaboratively to deliver comprehensive answers and solutions; software featuring a large language model (LLM) with multiple AI models offering unique perspectives and balanced expertise; software for combining outputs of multiple AI models to provide consensus-driven responses using a probabilistic mixing layer; AI-powered software for enhancing the accuracy of natural language processing through a collaborative multi-model approach; software for delivering probabilistic consensus-driven answers and solutions in natural language processing; education and training materials in electronic form; none of the aforesaid in relation to computer software or computer hardware for use in relation to automotive racing or racing car performance.

Class 35:
Business assistance, management and administrative services; data processing; data transcription; business data analysis services; collection of data; computerised data verification; computerised data processing; systemisation of information into computer databases; automated data processing; collating of data in computer databases; computerised file management; advisory services relating to business management and

business operations; advisory services relating to business management and business operations in the legal sector; business services relating to contract management, negotiation, and drafting; business consulting services for implementing contract automation and negotiation solutions; online contract management services; systematisation and compilation of data into computer databases; processing and reproduction of data and documents; providing AI-powered chatbot services for real-time contract review, analysis, and redrafting; cloud-based contract management services utilizing AI for querying, redrafting, and legal analysis; business assistance services using AI-powered tools to provide legally accurate answers to contract queries; providing contract review services via an AI-powered chatbot interface to inspect and analyse executed contracts; business services for managing and analysing contracts using AI-powered contract lifecycle management (CLM) systems; business consulting services for implementing AI-driven solutions for contract data extraction, analysis, and reporting; business services for enhancing legal operations efficiency through AI-based contract analysis, reporting, and insights; consulting services for implementing AI-powered systems for defining legal concepts and clauses; providing services for modifying and customizing legal clause definitions and review criteria for contracts; business services for automating legal contract review and redrafting with AI-powered chatbots; consulting services for implementing AI-powered chatbot systems for legal contract review and management; data analysis and management services for legal contracts using AI-powered chatbots; providing AI-powered tools and services for identifying risks and opportunities in executed contracts and managing contract workflows; business solutions for contract management with AI-powered advanced search, reporting, and workflow tracking; business organisation consultancy; business organisational consultancy in due-diligence examinations; data analysis services for contract review and negotiation; data analysis services for identifying legal concepts, clauses, and creating definitions in contracts; business solutions for automating the creation of legal definitions and clauses; services for providing businesses with insights into their contractual landscape, including risk identification, legal obligations, and contract version histories; cloud-based contract management services; business services for automating legal workflows and tasks; business services for customizing dashboards and reporting tools to optimize the monitoring of legal workflows and contractual data; business services for automating contract negotiation processes, including contract review, redrafting, and exchange using artificial intelligence; data management and processing services for automating and tracking contract negotiations; business solutions for integrating AI chatbots into contract management systems and workflows; business solutions for automated contract negotiations, facilitating both parties' AI models to negotiate terms; providing services to monitor and track the progress of automated contract negotiations; business assistance services utilizing artificial intelligence for contract review and negotiation; contract management services powered by AI to facilitate automatic negotiation, review, and redrafting of contracts between parties; business consulting services for implementing AI-powered virtual assistants for legal processes; online contract management and legal task automation services; data processing and analysis services for automating legal tasks and workflows; business services for providing AI-powered solutions using large language models (LLM) and collaborative AI models for comprehensive answers and decision-making; business consulting services for implementing AI-powered contract negotiation and automation systems; online contract negotiation services utilising AI for automatic contract opening, review, redrafting, and revision; business services for automating contract analysis and clause definition using artificial intelligence; business assistance services utilising artificial intelligence for legal task execution and process automation; business services for creating and managing legal playbooks and acceptable criteria for contract review; consulting services for implementing multi-model AI systems that deliver probabilistic consensus-driven solutions; business services utilizing proprietary AI models to enhance decision-making accuracy and reduce AI hallucinations; cloud-based legal workflow automation services; virtual assistant services for the automation of legal tasks, contract management, and workflows; contract management services utilizing artificial intelligence for identifying and defining legal clauses; data processing and analysis services powered by large language models with multiple collaborating AI models for delivering precise solutions; business solutions for natural language understanding using collaborative AI models to ensure accuracy and reliability in responses; providing AI-powered tools and platforms for businesses to integrate multi-model language models into their workflows.

Class 38:
Telecommunication services; electronic transmission of information, messages or images; Providing of multi-user access and providing of access to a website; Electronic communications; providing of multi-user access to the internet and other computer networks; offering online access to electronic publications; enabling computer users to access, update, manipulate, modify, organize, store, back up, synchronize, transmit and share data, documents, files, information and multimedia content via a global computer network; transmission of digital files; transmission of data, audio, video and multimedia files; data communication services; data communication services in the legal sector; providing user access to data in the form of digitalized documents in computer databases; providing access to database; chatroom services; providing internet chatrooms; providing voice chat services; providing access to information on the Internet; data transmission; providing user access to a global computer network; providing user access to computer programs in data networks; providing user access to data in data networks and on the Internet; providing user access to information on the Internet; computer aided transmission of messages and images; telecommunications by computer terminals; secure transmission of document data via the Internet in connection with providing virtual data rooms; provision of telecommunications for AI-enhanced communications, including the transmission of messages, voice, and video facilitated by artificial intelligence for real-time processing, translation, or recognition; data transmission services using artificial intelligence technologies for the optimisation and management of telecommunications networks, such as predictive analytics, fault detection, and network performance improvement; provision of cloud computing services with integrated AI technologies, allowing users to access artificial intelligence algorithms and tools for telecommunications applications and communication system management; telecommunications services provided to users, namely, the exchange of voice, data, facsimile, e-mail, voice mail, cross media messaging, video, audio and information via computer, facsimile, telephone, or other like interfaces, as well as gateway services in the nature of providing a link to the global information infrastructure network along with other traditional internet, intranet, facsimile and

telecommunications services; computer communication and Internet access; telecommunication services for transmitting data related to machine learning and artificial intelligence models, including cloud-based AI services, data streaming, and data processing for AI applications; telecommunication services for remote AI-driven monitoring and management, including services related to the transmission of data surveillance systems, smart devices, and telematics powered by artificial intelligence; provision of AI-enabled communication networks for business and consumers, including services that allow for secure reliable, and intelligent data exchange via AI-powered systems; provision of AI-powered communication services, including the transmission of data for virtual assistants, chatbots, and other AI-driven platforms facilitating interaction and communication via telecommunication networks; provision of AI-powered legal communication services, including the transmission of data for a chatbot platform that provides, legally accurate answers to contract-related queries in real-time via telecommunication networks; provision of telecommunication services for AI-enhanced legal communication, including the transmission of messages or documents that are analysed by AI to provide accurate legal interpretations of contracts and agreements; provision of AI-enabled telecommunication services for the legal industry, including real-time, automated responses to legal queries regarding contracts, facilitating the transmission of queries and contract information for analysis and responses by chatbot.

Class 41:
Education and training services in the computing field; training and education services in the field of programming, installation, operation, management and maintenance of software associated with computers and telecommunication apparatus and instruments; training services in the fields of computer software, software development; education and training services in the field of artificial intelligence; education and training in the legal sector; education and training in the field of artificial intelligence in the legal sector; translation services; providing online translation services; translation services, namely, translating legal documents; translation services provided through AI-powered tools. .

Class 42:
Hosting platforms on the internet; hosting platforms on the internet for use in the legal sector; platforms for artificial intelligence as software as a service [SaaS]; software as a service (SaaS) featuring artificial intelligence for legal operations; providing temporary use of online, non#downloadable software for contract review, contract analysis, contract automation, and document processing; design and development of artificial intelligence software for legal workflow management; development of machine#learning models for legal document analysis; providing online non downloadable software for locating, triaging and automating legal requests; consultancy relating to artificial intelligence used in legal services; technical consulting in the field of artificial intelligence (AI) software; providing online non-downloadable virtual assistant software using artificial intelligence (AI) for legal support; software as a service (SAAS) services featuring artificial intelligence (AI) software for amending contracts; providing temporary use of online non-downloadable software using artificial intelligence (AI) for automating work flows in the legal sector; Providing temporary use of online non-downloadable software using artificial intelligence (AI) for automating contract review; Providing a website featuring non-downloadable software using artificial intelligence (AI) for amending contracts; technical support in connection with computer software; providing artificial intelligence computer programs on data networks; software as a service [SaaS] for capturing, accessing, viewing, reviewing, analysing, printing, managing, processing and storing data and documents; software as a service [SaaS] for converting documents into standard format; software as a service [SaaS] for providing and managing digital or virtual data rooms and for communication in digital or virtual data rooms via data communication networks; computer programming and the further development and maintenance (improving and updating) of computer programs and program systems; computer management services; rental and/or leasing of computer software; computer software consulting services in the fields of development of computer software and management; conversion of data or documents from physical to electronic media; recovery of computer data; programming, updating, installation and rental of computer software and communication software; technical project studies; conversion of computer programs and data (not physical conversion); providing and managing digital or virtual data rooms; capture, scanning and storage of data and documents; artificial intelligence consultancy; research in the field of artificial intelligence; technology consultation in the field of artificial intelligence; software as a service [SaaS] featuring computer software platforms for artificial intelligence; providing temporary use of online non-downloadable computer software for collecting, analysing and organizing data in the field of deep learning; providing online non-downloadable software for smart contracts; providing online non-downloadable software for use in the legal sector; providing online non-downloadable software for answering legal contract queries; providing online non-downloadable software for amending legal documents; providing online non-downloadable software for legal assistance in preparing and amending contracts; providing online non-downloadable software for identifying risks in contracts; providing online non-downloadable software for translations; providing online non-downloadable software for comparing legal documents; providing online non-downloadable software for legal research; providing online non-downloadable software for contract review, contract redlining, clause risk analysis, and extraction of contractual terms; providing online non-downloadable software for assisting with legal operations; providing online non-downloadable software for providing suggested amendments to contracts; providing online non-downloadable software for automation of legal tasks; providing online non-downloadable software for creating searchable database of information and data; non-downloadable software relating to risk detection; providing online non-downloadable software to verify AI generated data; providing online non-downloadable software in relation to retrieval-augmented generation; providing online non-downloadable chatbot software for simulating conversations; providing online non-downloadable software for creating automated content; providing online non-downloadable software for creating user-generated content; providing online non-downloadable software for synthesising human speech and text; providing online non-downloadable software for processing, generating, understanding, and analysing natural language; providing online, non-downloadable software for contract negotiation, drafting, and review; providing online non-downloadable software for creating and generating text; providing online non-downloadable software for documentation and data analysis; providing online, non-downloadable software for legal task automation; providing online, non-downloadable software for data storage; providing

online non-downloadable software for searching across computer networks; providing online non-downloadable software in relation to data and file management and database; providing online non-downloadable software for legal document analysis, contract management, and compliance monitoring; providing online non-downloadable software for legal review and analysis; Software as a Service [SaaS] featuring contract negotiation, drafting and review services; providing temporary use of non-downloadable software for contract negotiation and drafting; providing temporary use of non-downloadable software for legal task automation; software as a Service [SaaS] featuring AI-powered chatbot systems for contract review, redrafting, and legal query handling; providing temporary use of non-downloadable software for querying and redrafting contracts via AI-powered chatbots; hosting an online platform for providing AI-driven legal contract analysis, querying, and redrafting; providing AI-powered chatbot services to answer complex legal queries and assist with contract review in real time; providing AI-powered virtual assistants for automating and managing legal processes and workflows; hosting an online platform for executing legal workflows and tasks with AI-powered assistants; software development and consultancy in the field of AI-powered legal task automation; providing AI-driven solutions for automating contract drafting, review, and execution providing AI-powered software that learns from past interactions to refine legal responses and tasks; customizing AI-powered virtual assistant software for legal workflows and contract management; software as a Service [SaaS] for automating legal workflows, task execution, and contract management; providing AI-powered contract negotiation and drafting solutions; hosting an online platform for managing and negotiating contracts with AI; providing AI-powered contract review services; software development and consultancy in the field of contract automation and negotiation; customising software for the auto-negotiation of contracts; hosting and managing AI-powered chatbots for contract negotiation and review; AI-powered solutions for creating and defining legal concepts, clauses, and criteria in contracts; Software as a Service (SaaS) for defining and analyzing legal clauses and concepts in contracts; providing temporary use of non-downloadable software for identifying, defining, and managing legal clauses; AI-powered solutions for creating and defining legal concepts, clauses, and criteria in contracts; Hosting an online platform for defining new legal concepts and clauses with artificial intelligence; providing AI-driven tools for generating, modifying, and applying legal definitions in contract review; customizing AI-powered software to analyze contracts and generate definitions for new legal clauses; developing and hosting AI-powered solutions for generating automatic reports, contract version histories, and performance insights; customising AI-powered contract lifecycle management systems to suit specific business or legal workflows; providing online non-downloadable software for automating legal processes, including contract generation, negotiation, and post-execution analysis; providing online non-downloadable software for legal review and analysis; software as a Service [SaaS] for automating contract negotiations, including contract review, redrafting, and communication between parties using AI; software development services in the field of contract clause identification, definition, and review criteria creation; providing AI-based systems for automatic contract review using customized playbooks and criteria; software as a Service [SaaS] for defining and analysing legal clauses and concepts in contracts; developing, customizing, and hosting AI-powered chatbot solutions for contract analysis and redrafting; providing generative and analytical AI models for legal contract review, redrafting, and answering second-order legal queries; customizing AI chatbot solutions for handling specific contract query needs and enhancing legal workflows; software as a Service [SaaS] for contract lifecycle management, including contract structuring, analysis, and reporting using AI; providing temporary use of non-downloadable software for extracting, structuring, and organising contract data automatically; hosting an online platform for managing contracts and providing AI-powered insights into contractual obligations, risks, and opportunities; providing AI-powered language models that combine multiple AI models for contextually accurate responses in natural language processing; software development services for creating multi-model AI systems that collaborate to improve solution accuracy and reliability; customizing AI systems that use probabilistic mixing layers to enhance the accuracy of large language models (LLM) in specific industries or applications; hosting and managing AI solutions that leverage multiple models to improve natural language generation and decision-making; AI-powered contract management systems for monitoring and reporting on legal workflows, KPIs, and contract performance; providing customizable dashboards for users to monitor their contractual landscape, obligations, and key metrics; providing AI-driven advanced search functionality to analyse live and executed contracts and identify areas of risk and opportunity; providing temporary use of non-downloadable software to manage, review, and automatically negotiate contracts between parties; hosting an online platform for facilitating AI-powered contract negotiations, from initial review to contract signing; developing AI-powered systems for automatic contract revisions, with monitoring capabilities to track progress and decisions; Software as a Service [SaaS] featuring large language models (LLM) powered by multiple AI models working collaboratively to deliver comprehensive solutions; providing temporary use of non-downloadable software for generating answers or solutions with probabilistic consensus and enhanced accuracy; providing AI-powered tools for negotiating and redrafting contracts automatically, with full oversight by users; custom software development and consultancy in the field of contract negotiation automation using AI; hosting AI-driven platforms for enabling two AIs to negotiate contract terms automatically and resolve issues; providing AI solutions for automating the complete contract negotiation process, including sending and receiving revised contracts and reaching agreements; hosting an online platform for providing AI-driven language models with collaborative AI systems to reduce hallucinations and enhance solution accuracy; none of the aforesaid in relation to computer software or computer hardware for use in relation to automotive racing or racing car performance.

Class 45:
Legal services; legal support services; legal research services; legal information research services; legal support services in the form of contract review and risk identification; legal support services, namely, assisting with automation of workflows; legal support services through automated workflows using AI-powered tools; legal services, namely, contract review, contract redlining, clause risk analysis, and extraction of contractual terms; legal consultancy services; legal document preparation services; legal document analysis services using AI-powered tools; legal assistance in drafting contacts; legal assistance in amending contracts; legal assistance in providing AI-powered tools to answer legal queries; legal assistance in preparing and amending contracts; legal assistance in providing suggested amendments to contracts using AI-powered tools;

legal assistance in locating, triaging and automating legal requests; legal assistance, namely, amending legal documents using AI-powered tools; legal services for analysing and defining new legal clauses using artificial intelligence; contract review and analysis services using AI-powered systems for identifying and defining legal concepts; providing legal services for establishing acceptable review criteria for legal clauses in contracts; tailoring legal clause definitions and criteria for contract review to meet specific business needs using AI; providing legal advice and guidance through AI-powered systems for identifying, defining, and applying legal clauses; legal assistance relating to the negotiation and drafting of contracts; legal services for reviewing and drafting contracts through automated and AI-powered tools; contract negotiation services utilising artificial intelligence; providing AI-powered legal services for contract review, analysis, and negotiation; legal services for automating and executing legal tasks through AI-powered virtual assistants; providing AI-powered legal services for managing contracts, legal workflows, and tasks; legal advisory services facilitated by AI-powered virtual assistants for contract management; online legal advice services related to legal task automation and AI-powered workflow execution; providing AI-based legal services for automating legal tasks, contract management, and document review.

HyNet
Hydrogen Network

Class 1:
Hydrogen; gaseous hydrocarbons; gaseous hydrocarbon compounds.

Class 4:

Gas; gas fuels; liquified gas; gaseous fuels; biofuels; oil; electricity; electrical energy; electrical energy from renewable sources.

Class 6:
Pipe and tubes of metals; parts and fittings for all the aforesaid goods.

Class 7:
Machines for use in the generation, transmission, distribution, supply and conservation of energy; machines for the construction, repair and maintenance of systems for the generation, supply, distribution, and transmission of hydrogen, electricity, gas, water or renewable energy; pipe installation apparatus, pumps and compressors; fuel dispensing equipment; parts and fittings for all of the aforesaid goods.

Class 9:
Gas meters; water meters; measuring equipment; electronic apparatus and instruments for use in the generation, supply, distribution and transmission of hydrogen fuels, electricity, gas, liquefied natural gas, gas hydrates, gaseous fuels, or water, namely fault detection equipment, electric or electronic circuits, system control software, meters and automatic meter reading equipment, databases and server equipment; gas detectors; carbon monoxide detectors; fire alarms; transformers; computer programmes relating to the generation, supply, distribution and transmission of hydrogen fuels, electricity, gas or water or renewable energy; measuring and signalling apparatus and instruments; computer hardware and software; encoded credit, charge and debit cards; smart cards; cards being encoded; encoded pre-payment cards; parts and fittings for all of the aforesaid goods; all of the aforesaid goods for use in connection with the generation, supply, distribution, transmission, provision, measuring, metering, or signalling of hydrogen fuels, electricity, gas, liquefied natural gas, gas hydrates, gaseous fuels, oil, water or other utilities or renewable energy.

Class 11:
Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; wall heaters; convector heaters; water heaters; fan heaters; boilers; central heating systems; heat pumps; heat pumps for energy processing; exhaust gas heat pumps; central heating boilers; fuel economisers; parts and fittings for the aforesaid goods.

Class 12:
Vehicles; hydrogen fuelled vehicles; hydrogen fuelled cars.

Class 16:
Printed matter; periodicals; handbooks; manuals; brochures; leaflets; pamphlets; all of the aforesaid connected to the generation, supply, distribution, transmission, provision, measuring, metering, or signalling of hydrogen fuels, electricity, gas, liquefied natural gas, gas hydrates, gaseous fuels, oil, water or other utilities or renewable energy.

Class 35:
Business management of companies relating to the generation, supply, distribution, transmission, provision, measuring, metering, or signalling of hydrogen, electricity, gas, liquefied natural gas, gas hydrates, gaseous fuels, oil, water or other utilities; business administrations for companies relating to the generation, supply, distribution, transmission, provision, measuring, metering, or signalling of hydrogen, electricity, gas, liquefied natural gas, gas hydrates, gaseous fuels, oil, water or other utilities; office functions for companies relating to the generation, supply, distribution, transmission, provision, measuring, metering, or signalling of hydrogen, electricity, gas, liquefied natural gas, gas hydrates, gaseous fuels, oil, water or other renewable energy and utilities; business and advisory services relating to the purchase and/or sale of hydrogen, gas, liquefied natural gas, gas hydrates, gaseous fuels, electricity and renewable energy; measuring of hydrogen, gas, electricity and renewable energy consumption (metering service); meter reading services; utility bill management services, namely, tracking, reporting, analysing and delivering energy information in the form of utility bills and utility meter data rate schedules; billing services; preparation of invoices all relating to the generation, supply, distribution and transmission of hydrogen, electricity, gas, water and renewable energy; provision of billing information connected to the supply, distribution, transmission or provision of hydrogen, electricity, gas, liquefied natural gas, gas hydrates, gaseous fuels, oil, water or other utilities including the provision of such information online or electronically; purchase of hydrogen, gas, gaseous fuels, electricity, water and/or other renewable energy; organisation, operation and supervision of incentive and loyalty schemes connected to the supply, distribution, transmission or provision of hydrogen, electricity, gas, liquefied natural gas, gas hydrates, gaseous fuels, oil, water or other renewable energy or utilities; credit card registration services connected to the supply, distribution, transmission or provision of hydrogen, electricity, gas, oil, water or other renewable energy and utilities; industrial consultancy services relating to the management of utility industries, hydrogen, electricity, gas or water industries, construction industries and infrastructure; meter reading for billing purposes including the collection, receipt, validation and distribution of daily read and non-daily read readings of hydrogen, gas, liquefied natural gas, gas hydrates, gaseous fuels, oil, electricity, water and renewable energy; advice, information and consultancy services relating to all of the aforesaid services.

Class 37:
Installation, maintenance, repair and servicing of appliances, apparatus or instruments for use in the supply and distribution of hydrogen, electricity, gas, oil, water or other renewable energy; installation, maintenance and repair of hydrogen, gas, oil, electricity or water meters; fuelling of hydrogen gas for vehicles; construction, and maintenance and repair of gas installations; connection of supplies of hydrogen, gas, gaseous fuels, oils and electricity, water and other renewable energy; laying, repair, maintenance of pipelines; plumbing services; installation of insulating materials; advice, information and consultancy services relating to all of the aforesaid services.

Class 39:
Storage, distribution, transportation, of hydrogen, gas, liquefied natural gas, gas hydrates, gaseous fuels, renewable energy, oil and water; storage and distribution of electricity; hydrogen and gas storage; hydrogen, gas and electricity distribution; hydrogen and energy production services; charitable services, namely hydrogen, gas and electricity storage; information and consultancy services relating to all of the aforesaid services.

Class 40:
Water treatment services; power generation services; waste disposal services; consultancy services relating to the generation of hydrogen, electricity, gas, liquefied natural gas, gas hydrates, and gaseous fuels; recovery of hydrocarbons from gas; charitable

services, namely hydrogen, gas and electricity processing, production and generation services; advice, information and consultancy services relating to all of the aforesaid services.

Class 41:
Training and education services relating to the hydrogen, gas, liquefied natural gas, gas hydrates, gaseous fuels, oil and electricity industry; training and education services relating to the selection, installation, operation, repair and maintenance of hydrogen, gas, oil or electrical fired apparatus and instruments; health and wellness training.

Class 42:
Auditing, assessing and advising on energy consumption, safety and efficiency of hydrogen, gas, liquefied natural gas, gas hydrates, gaseous fuels, oil or electrical appliances; advisory, information and consultancy services relating to energy management and efficiency; auditing energy consumption of buildings; energy conservation management; exploration of hydrogen, gas, oil and renewable energy; environmental conservation; research in the field of environmental protection; provision of information, advisory and consultancy services in relation to carbon offsetting, conservation, the natural environment, the provision and conservation of energy, energy sources, energy efficiency, environmental issues, environmental pollution, environmental protection; scientific and technological services and research and design relating thereto in connection with the generation, supply, distribution, transmission, provision, measuring, metering, or signalling of hydrogen, electricity, gas, oil, water or other renewable energy or utilities; industrial analysis and research services in connection with the generation, supply, distribution, transmission, provision, measuring, metering, or signalling of hydrogen, electricity, gas, liquefied natural gas, gas hydrates, gaseous fuels, oil, water or other renewable energy or utilities; design and development of computer hardware and software for use in connection with the generation, supply, distribution, transmission, provision, measuring, metering, or signalling of hydrogen, electricity, gas, oil, water or other renewable energy or utilities; auditing, assessing and advising on energy consumption and safety and efficiency of hydrogen, gas, oil, renewable energy or electrical appliances; inspection of pipelines; exploration for hydrogen, gas and oil; computer programming services, construction, design, engineering and testing services in connection with the generation, supply, distribution, transmission, provision, measuring, metering, or signalling of hydrogen, electricity, gas, oil, water or other renewable energy or utilities; certifying the energy efficiency of buildings; inspection of pipelines.

Class 45:
Inspecting pipelines for safety and integrity purposes; advice, information and consultancy services relating to the aforesaid.

International priority date claimed:
08 May 2026 (EUROPEAN UNION INTELLECTUAL PROPERTY OFFICE (EUIPO))

Class 9:
Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signaling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; Apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; Computers and computer peripheral devices; Measuring, detecting, monitoring and controlling apparatus and instruments; Controllers and regulators; Sensors and detectors; Apparatus and instruments for controlling apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; Apparatus and instruments for controlling boilers, in particular gas boilers or electric boilers, or heat pumps; Apparatus and instruments for controlling combined heating and air conditioning apparatus and installations; Apparatus and instruments for controlling air conditioning apparatus and instruments; Apparatus and instruments for controlling air conditioning apparatus and instruments for delivering domestic hot water; Apparatus and instruments for controlling burners, boilers and heaters; Apparatus and instruments for controlling solar heating apparatus and installations; Apparatus and instruments for controlling photovoltaic apparatus and installations; Apparatus and instruments for controlling heating, ventilating and air conditioning and purification; Apparatus and instruments for controlling electricity; Apparatus and instruments for energy management control; Remote control apparatus and instruments for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; Remote control apparatus and instruments for controlling air conditioning apparatus and instruments; Remote control apparatus and instruments for delivering domestic hot water; Remote control apparatus and instruments for burners, boilers, heat pumps and heaters; Remote control apparatus and instruments for solar heating apparatus and installations; Remote control apparatus and instruments for photovoltaic apparatus and installations; Remote control apparatus and instruments for heating, ventilating and air conditioning and purification; Remote control apparatus and instruments for combined heating and air conditioning apparatus and installations; Remote control apparatus and instruments for electricity; Remote control apparatus and instruments for energy management; Electrical controllers; Thermostat controllers; Pressure controllers; Water temperature controllers; Recorded and downloadable media, computer software, blank digital or analogue recording and storage media; Safety, security, protection and signaling devices; Alarms and warning equipment; Safety system for disabling power in the event of fire, flame, smoke, gas and temperature detection; Water leakage detection alarms; Warning alarms; Gas alarms; Emergency warning lights; Apparatus and instruments and cables for electricity; Apparatus and instruments for accumulating and storing electricity; Photovoltaic apparatus and installations for producing electricity; Photovoltaic modules; Solar modules; Solar panels; Fuel cells; Storage batteries; Information technology and audio-visual, multimedia and photographic devices; Communications equipment; USB dongles [Wireless network adapters]; Multimedia interface dongles; parts and accessories for all the aforesaid goods, included in this class; Computer software, downloadable; Computer software in the field of lighting, heating, cooling, steam generating, drying, ventilating and water supply equipment, apparatus and installations; Computer software for monitoring, maintaining, operating, analyzing and controlling of lighting, heating, cooling, steam generating, drying, ventilating and water supply equipment, apparatus and installations; Computer software for monitoring, maintaining, operating, analyzing and controlling of burners, boilers, heat pumps and heaters; Computer software for monitoring, maintaining, operating, analyzing and controlling of water heaters; Computer software for monitoring, maintaining, operating, analyzing and controlling of combined heating and air conditioning apparatus and installations; Computer software and devices for sensing, detecting, and monitoring pressure, temperature, radiation, water level, heat, and gas flow; Computer software for monitoring, maintaining, operating, analyzing and controlling of apparatus and instruments for controlling apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; Computer software for monitoring, maintaining, operating, analyzing and controlling of solar heating apparatus and installations and photovoltaic apparatus and installations; Computer software to be used remotely for monitoring, maintaining, operating, analyzing, and controlling; Computer software to be used remotely in the field of heating, cooling, steam generating, drying, ventilating and water supply equipment, apparatus and installations; Computer software to be used remotely for monitoring, maintaining, operating, analyzing, and controlling of heating, cooling, steam generating, drying, ventilating and water supply equipment, apparatus and installations; Computer software to be used remotely for monitoring, maintaining, operating, analyzing, and controlling of burners, boilers, heat pumps and heaters; Computer software to be used remotely for maintaining, operating, analyzing and controlling of water heaters; Computer software to be used remotely for combined heating and air conditioning apparatus and installations; Computer software and devices to be used remotely for sensing, detecting, and monitoring pressure, temperature, radiation, water level, heat, and gas flow; Computer software to be used remotely for monitoring, maintaining, operating, and controlling of apparatus

and instruments for controlling apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; Computer software to be used remotely for setting real-time parameters of a heating apparatus and installation; Computer software to be used remotely for monitoring, maintaining, operating, analyzing and controlling of solar heating apparatus and installations and photovoltaic apparatus and installations; Computer software for predictive maintenance; Computer software for predictive maintenance in the field of lighting, heating, cooling, steam generating, drying, ventilating and water supply equipment, apparatus and installations; Computer software for predictive maintenance for monitoring, maintaining, operating, analyzing, and controlling of heating, cooling, steam generating, drying, ventilating and water supply equipment, apparatus and installations; Computer software for predictive maintenance for monitoring, maintaining, operating, analyzing, and controlling of burners, boilers, heat pumps and heaters; Computer software for predictive maintenance for maintaining, operating, analyzing and controlling of water heaters; Computer software for predictive maintenance for combined heating and air conditioning apparatus and installations; Computer software and devices for predictive maintenance for sensing, detecting, and monitoring pressure, temperature, radiation, water level, heat, and gas flow; Computer software for predictive maintenance for monitoring, maintaining, operating, and controlling of apparatus and instruments for controlling apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; Computer software for predictive maintenance for monitoring, maintaining, operating, and controlling of solar heating apparatus and installations and photovoltaic apparatus and installations; Computer software for providing information with respect to lighting, heating, cooling, steam generating, drying, ventilating and water supply equipment, apparatus and installations; Computer software for providing information with respect to heat pumps, fuel cells, combined heat and power apparatus and installations and hydrogen burners, boilers and heaters; Computer software for installers providing information for designing, installing and maintaining lighting, heating, cooling, steam generating, drying, ventilating and water supply equipment, apparatus and installations; Computer software for installers providing information for designing, installing and maintaining heat pumps, fuel cells, combined heat and power apparatus and installations and hydrogen burners, boilers and heaters; Application software; Downloadable applications; Mobile application software; Computer software for use as an application programming interface (API); Downloadable computer software for use as an application programming interface.

Class 11:
Apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; Flues and installations for conveying exhaust gases; Sanitary installations, water supply and sanitation equipment; Fireplaces; Air filters; Water filters; Industrial treatment apparatus and installations; Refrigerating and freezing equipment; Heating, ventilating and air conditioning and purification equipment (ambient); Igniters; Apparatus and installations for air conditioning; Apparatus and installations for air conditioning and for delivering domestic hot water; Burners and heaters for laboratory use; Heating elements and filaments; Flues for heating apparatus and installations; Flues for ventilating apparatus; Flues for boilers; Flues incorporating extractors; Flues incorporating fans; Heating apparatus incorporating flues; Fitting for flues; Industrial ovens, boilers, burners and furnaces; Heating apparatus and installations for solid, liquid or gaseous fuels; Central heating installations and apparatus; Underfloor heating apparatus and installations; Mobile heating apparatus and installations; Heat Pumps; Air source heat pumps; Ground source heat pumps; Burners, boilers and heaters; Hydrogen burners, boilers and heaters; Gas heater; Electric heater; Solar heater; Solar water heater; Solar collectors for heating; Gas fired boilers; Oil fired boilers; Boilers for water heating; Boilers for central heating; Electric boilers; Wall boilers; Condensing boilers; Biomass boiler; Furnace boilers; Accumulation boilers; Gas burners; Flat heating elements; Tubular heating elements; Electrical heating elements; Electric heating fans; Electric heating cables; Electric heating foils; Electric heating filaments; Solar heating apparatus and installations; Air heating apparatus and installations; Air and water treatment apparatus and installations; Radiators; Electric radiators; Stoves; HVAC installations (Heating, ventilation and air conditioning); blowers for air conditioners, heating apparatus and heating installations; Combined heating and air conditioning apparatus and installations; Combined heat and power apparatus and installations; Filters being part of a heating apparatus and installation; Heat exchangers; Gas condensers; Gas scrubbers; Humidifiers for central heating radiators; Boiler pipes [tubes] for heating installations; Coils [parts of distilling, heating or cooling installations]; Expansion tanks for central heating installations; Recuperators for pre-heating combustion air in heating systems by the use of hot flue gas; Pressure water tanks; Water heaters, in particular electrical water heaters and gas water heaters; Domestic water heaters, in particular electrical water heaters and gas water heaters; Thermosyphons; Water tanks for heating installations; Buffer tanks for heating installations; Control and regulating accessories for gas equipment, gas devices and gas piping; Regulating and safety accessories being parts of burners; Regulating and safety accessories being parts of water apparatus; Regulating apparatus for water apparatus and installations; Regulating apparatus for gas apparatus and installations; Valves being parts of heating apparatus and installations; Regulating and safety accessories for water and gas installations; Installations for controlling the flow of fluid; Water distributor armatures for heating; Valves [plumbing fittings]; Thermostatic valves; Control devices [thermostatic valves] for heating installations; parts and accessories for all the aforesaid goods, included in this class.

Mark 2

Application for a series of 2 marks.

Class 6:
Metal barriers; metal safety barriers; metal railings; metal storage containers; metal safety cages; metal crates; metal baskets; metal stillages; metal racks; metal trays; metal load carrying platform; metal anchor points; metal mounting systems; metal mounting systems for secure anchoring of attachments; metal brackets, anchors, clips and bolts; metal brackets, anchors, clips and bolts for secure anchoring of attachments; parts and fittings for the aforesaid goods.

Class 7:
Elevating platforms; lifting platforms; elevating work platforms; lifting work platforms; mobile elevating work platforms; cages adapted for use on mobile elevating work platforms; safety cages adapted for use on mobile elevating work platforms; crates adapted for use on mobile elevating work platforms; tethers adapted for use on mobile elevating work platforms; seats for mobile elevating work platforms; accessories to be attached to mobile elevating work platforms for the handling, movement, transportation, elevation, positioning, storage, management or organisation of materials, tools, equipment or people; accessories to be attached to telescopic handlers for the handling, movement, transportation, elevation, positioning, storage, management or organisation of materials, tools, equipment or people; robotic manipulators and robotic attachments specially adapted for mobile elevating work platforms; parts and fittings for the aforesaid goods.

Class 9:
Electronic monitoring and control apparatus; safety equipment and software for the prevention of accident or injury; safety equipment and software to reduce risk when operating at height; safety equipment and software to reduce risk when operating in hazardous environments; safety equipment and software to prevent falls when operating at height; safety equipment and software to reduce risk when operating mobile elevating work platforms or telescopic handlers; safety equipment and software to prevent accident or injury when operating mobile elevating work platforms or telescopic handlers; safety equipment and software to improve operator compliance with safety procedures and safer working practices when operating mobile elevating work platforms or telescopic handlers; anchor devices for fall arrest [safety equipment]; anchor devices for fall arrest [safety equipment] when operating mobile elevating work platforms or telescopic handlers; harnesses for safety purposes and fall prevention; harnesses for safety purposes and fall prevention when using mobile elevating work platforms or telescopic handlers; lanyards for safety purposes; lanyards for safety purposes for fall prevention when using mobile elevating work platforms or telescopic handlers; warning alarms; warning lights being signalling apparatus; risk detection software; risk detection software identifying unsafe operator behaviour when using or operating vehicles or machinery used in construction, mobile elevating work platforms or telescopic handlers; risk detection software identifying unsafe driving behaviour when using or operating vehicles or machinery used in construction, mobile elevating work platforms or telescopic handlers; risk detection software identifying the non-use or incorrect use of safety equipment and harnesses when using or operating vehicles or machinery used in construction, mobile elevating work platforms or telescopic handlers; software using biometric data for detecting unauthorised vehicle or machinery use; software using AI for detecting incorrect use of personal protection equipment; tracking system for vehicles and machinery used in construction; camera systems; camera systems for use when operating or working on a mobile elevating work platform or a telescopic handler; camera systems for use in assisting operators of mobile elevating work platforms or telescopic handlers to enhance safety, productivity, operational accuracy, fuel economy, to ensure competence or to reduce repetitive tasks; camera systems for hazard identification when operating or working on mobile elevating work platforms or telescopic handlers; camera systems alerting operators to fall hazards in elevated, hazardous, industrial or construction environments; camera systems incorporating automation; camera systems incorporating intelligent controls; camera systems incorporating AI; proximity sensors; radar-based proximity sensors; anti-entrapment sensors; radar-based anti-entrapment sensors; pressure sensors; radar-based pressure sensors; sustained involuntary operation sensors; radar-based sustained involuntary operation sensors; software, sensors and apparatus for collision, crush or entrapment prevention; software, sensors and apparatus for sustained involuntary operation prevention; software and sensors for the capturing, monitoring, analysis and reporting of operational data; software and sensors for the capturing, monitoring, analysis and reporting of operational data to improve information flow, decision making and performance; digital twin software and sensors for mobile elevating work platforms, telescopic handlers and construction equipment; digital twin software and sensors for continuous transmission of live data relating to mobile elevating work platforms, telescopic handlers and construction equipment; software and sensors for the capturing, monitoring, analysis and reporting of operational data to

assist with carbon reporting, predictive maintenance and to provide intelligence about a site; software and sensors for the capturing, monitoring, analysis and reporting of data to enhance safety, operator comfort, operator health and wellness, productivity, operational accuracy, fuel economy, sustainable operations or to reduce repetitive tasks; software and sensors for planning and improving the handling, movement, transportation, elevation, positioning, storage, management or organisation of materials, tools, equipment or people; software and sensors for planning and improving the resource management of construction materials; optimisation software; predictive maintenance software; machine learning software for predictive maintenance, operational optimisation and operator performance monitoring; machine learning software for predictive maintenance, operational optimisation and operator performance monitoring in relation to mobile elevating work platforms, telescopic handlers and construction equipment; software for remote diagnostics, support and operational assistance; fleet management software; fleet management software for construction sites; fleet utilisation software; fleet utilisation software for construction sites; fleet scheduling software; fleet scheduling software for construction sites; fleet optimisation software; fleet optimisation software for construction sites; virtual reality, augmented reality or mixed reality software, hardware and headsets; virtual reality, augmented reality or mixed reality software, hardware and headsets for machinery or vehicle operator training; virtual reality, augmented reality or mixed reality software, hardware and headsets for use for training operators of, safety training for the use of, improving competency in the use of, planning operations using, or assisting with operational readiness for operations using, mobile elevating work platforms or telescopic handlers; virtual reality, augmented reality or mixed reality software, hardware and headsets for simulation; simulators; simulators for mobile elevating work platforms; simulators for telescopic handlers; simulators for mobile elevating work platforms or telescopic handlers for use in training, improving competency of their operators, improving safety and decision making of their operators, planning operations or assisting with operational readiness for operations using mobile elevating work platforms or telescopic handlers; parts and fittings for the aforesaid goods; software for reservation and hiring of vehicles, machinery, mobile elevating work platforms or telescopic handlers; customer platform software providing access to, and customer uploading and storage of, data and documentation relating to vehicles, machinery, mobile elevating work platforms or telescopic handlers; customer platform software providing access to, and customer uploading and storage of, data and documentation relating to compliance and maintenance of vehicles, machinery, mobile elevating work platforms or telescopic handlers.

Class 12:
Robotic arms and robotic manipulators adapted for vehicles, all being parts and fittings for vehicles; parts and fittings for the aforesaid goods.

Class 35:
Retail services in relation to metal barriers, metal safety barriers, metal railings, metal storage containers, metal safety cages, metal crates, metal baskets, metal load carriers, fabricated metal attachments, metal anchor points, metal mounting systems, metal mounting systems for secure anchoring of attachments, metal brackets, anchors, clips and bolts, metal brackets, anchors, clips and bolts for secure anchoring of attachments, elevating platforms, lifting platforms, elevating work platforms, lifting work platforms, mobile elevating work platforms, cages adapted for use on mobile elevating work platforms, safety cages adapted for use on mobile elevating work platforms, crates adapted for use on mobile elevating work platforms, tethers adapted for use on mobile elevating work platforms, seats for mobile elevating work platforms, accessories to be attached to mobile elevating work platforms for the handling, movement, transportation, elevation, positioning, storage, management or organisation of materials, tools, equipment or people, robotic manipulators and robotic attachments specially adapted for mobile elevating work platforms, electronic monitoring and control apparatus, safety equipment and software for the prevention of accident or injury, safety equipment and software to reduce risk when operating at height, safety equipment and software to reduce risk when operating in hazardous environments, safety equipment and software to prevent falls when operating at height, safety equipment and software to reduce risk when operating mobile elevating work platforms or telescopic handlers, safety equipment and software to prevent accident or injury when operating mobile elevating work platforms or telescopic handlers, safety equipment and software to improve operator compliance with safety procedures and safer working practices when operating mobile elevating work platforms or telescopic handlers, anchor devices for fall arrest [safety equipment], anchor devices for fall arrest [safety equipment] when operating mobile elevating work platforms or telescopic handlers, harnesses for safety purposes and fall prevention, harnesses for safety purposes and fall prevention when using mobile elevating work platforms or telescopic handlers, lanyards for safety purposes, lanyards for safety purposes for fall prevention when using mobile elevating work platforms or telescopic handlers, , warning alarms, warning lights being signalling apparatus, tracking system for vehicles and machinery used in construction, camera systems, camera systems for use when operating or working on a mobile elevating work platform or a telescopic handler, camera systems for use in assisting operators of mobile elevating work platforms or telescopic handlers to enhance safety, productivity, operational accuracy, fuel economy, to ensure competence or to reduce repetitive tasks, camera systems for hazard identification when operating or working on mobile elevating work platforms or telescopic handlers, camera systems alerting operators to fall hazards in elevated, hazardous, industrial or construction environments, camera systems incorporating automation, camera systems incorporating intelligent controls, camera systems incorporating AI, proximity sensors, radar-based proximity sensors, anti-entrapment sensors, radar-based anti-entrapment sensors, pressure sensors, radar-based pressure sensors, sustained involuntary operation sensors, radar-based sustained involuntary operation sensors, software, sensors and apparatus for collision, crush or entrapment prevention, software, sensors and apparatus for sustained involuntary operation prevention, software and sensors for the capturing, monitoring, analysis and reporting of operational data, software and sensors for the capturing, monitoring, analysis and reporting of operational data to improve information flow, decision making and performance, digital twin software and sensors for mobile elevating work platforms, telescopic handlers and construction equipment, digital twin software and sensors for continuous transmission of live data relating to mobile elevating work platforms, telescopic handlers and construction equipment, software and sensors for the capturing, monitoring, analysis and reporting of operational data to assist with carbon reporting, predictive maintenance and

to provide intelligence about a site, software and sensors for the capturing, monitoring, analysis and reporting of data to enhance safety, operator comfort, operator health and wellness, productivity, operational accuracy, fuel economy, sustainable operations or to reduce repetitive tasks, software and sensors for planning and improving the handling, movement, transportation, elevation, positioning, storage, management or organisation of materials, tools, equipment or people, software and sensors for planning and improving the resource management of construction materials, fleet management software, fleet management software for construction sites, fleet utilisation software, fleet utilisation software for construction sites, fleet scheduling software, fleet scheduling software for construction sites, fleet optimisation software, fleet optimisation software for construction sites, virtual reality, augmented reality or mixed reality software, hardware and headsets, virtual reality, augmented reality or mixed reality software, hardware and headsets for machinery or vehicle operator training, virtual reality, augmented reality or mixed reality software, hardware and headsets for use for training operators of, safety training for the use of, improving competency in the use of, planning operations using, or assisting with operational readiness for operations using, mobile elevating work platforms or telescopic handlers, virtual reality, augmented reality or mixed reality software, hardware and headsets for simulation, simulators, simulators for mobile elevating work platforms, simulators for telescopic handlers, simulators for mobile elevating work platforms or telescopic handlers for use in training, improving competency of their operators, improving safety and decision making of their operators, planning operations or assisting with operational readiness for operations using mobile elevating work platforms or telescopic handlers, accessories to be attached to telescopic handlers, for the handling, movement, transportation, elevation, positioning, storage, management or organisation of materials, tools, equipment or people, robotic arms and robotic manipulators adapted for vehicles, optimisation software, predictive maintenance software, machine learning software for predictive maintenance, operational optimisation and operator performance monitoring, machine learning software for predictive maintenance, operational optimisation and operator performance monitoring in relation to mobile elevating work platforms, telescopic handlers and construction equipment, software for remote diagnostics, support and operational assistance, software for reservation and hiring of vehicles, machinery, mobile elevating work platforms or telescopic handlers, customer platform software providing access to, and customer uploading and storage of, data and documentation relating to vehicles, machinery, mobile elevating work platforms or telescopic handlers, customer platform software providing access to, and customer uploading and storage of, data and documentation relating to compliance and maintenance of vehicles, machinery, mobile elevating work platforms or telescopic handlers, risk detection software, risk detection software identifying unsafe operator behaviour when using or operating vehicles or machinery used in construction, mobile elevating work platforms or telescopic handlers, risk detection software identifying unsafe driving behaviour when using or operating vehicles or machinery used in construction, mobile elevating work platforms or telescopic handlers, risk detection software identifying the non-use or incorrect use of safety equipment and harnesses when using or operating vehicles or machinery used in construction, mobile elevating work platforms or telescopic handlers, software using biometric data for detecting unauthorised vehicle or machinery use, software using AI for detecting incorrect use of personal protection equipment, parts and fittings for all of the aforesaid goods; compilation, analysis, interpretation and reporting of data collected from mobile elevating work platforms or telescopic handlers; compilation, analysis, interpretation and reporting of data in relation to predictions of maintenance schedules of mobile elevating work platforms or telescopic handlers; compilation, analysis, interpretation and reporting of data in relation to training operators of, safety training for the use of, improving competency in the use of, planning operations using, scheduling use of, and assisting with operational readiness for operations using, mobile elevating work platforms or telescopic handlers; compilation, analysis, interpretation and reporting of environmental and emission data in relation to use of mobile elevating work platforms or telescopic handlers; compilation, analysis, interpretation and reporting of environmental and emission data in relation to use of mobile elevating work platforms or telescopic handlers for the purpose of increasing sustainable operations and increasing energy efficiency.

Class 37:
Rental of work platforms; rental of aerial work platforms; maintenance, servicing and repair of aerial work platforms; maintenance, servicing and repair of vehicles with aerial work platforms; maintenance, servicing and repair of telescopic handlers; maintenance, servicing and repair of mobile elevating work platforms; rental, maintenance, servicing and repair of accessories for work platforms, aerial work platforms and mobile elevating work platforms; providing information and advisory services relating to technical issues with the operation or use of mobile elevating work platforms or telescopic handlers provided online or via the telephone; advisory and consultancy services relating to the aforesaid services. .

Class 38:
Data transmission services in relation to vehicles and equipment used on construction sites; telecommunications services for transmission of telemetry data; telecommunications services for transmission of telemetry data in relation to vehicles and equipment used on construction sites; electronic transmission of machine monitoring data; electronic transmission services in relation to machine operation data; telematic transmission of information between construction machines and equipment in the same network; communication services between connected construction equipment.

Class 39:
Rental of vehicles with aerial work platforms; rental of telescopic handlers; rental of mobile elevating work platforms; reservation services for hiring of vehicles with work platforms, mobile elevating work platforms or telescopic handlers; advisory and consultancy services relating to the aforesaid services. .

Class 41:
Education and training in relation to operator safety of vehicles with work platforms, mobile elevating work platforms or telescopic handlers; education and training services in relation to improving operator safety, reducing workplace risk, and supporting safe working practices in elevated, hazardous, industrial or construction environments; education and training in relation to operator awareness in elevated, hazardous, industrial or construction environments; education and training in relation to hazard identification and risk mitigation in elevated, hazardous, industrial or construction environments; advisory and consultancy services relating to the aforesaid services.

Class 42:
Hosting a portal relating to vehicles, machinery, mobile elevating work platforms or telescopic handlers; hosting a portal for reservation and hiring of vehicles, machinery, mobile elevating work platforms or telescopic handlers; hosting a portal providing access to, and customer uploading and storage of, data and documentation relating to vehicles, machinery, mobile elevating work platforms or telescopic handlers; hosting a portal providing access to, and customer uploading and storage of, data and documentation relating to compliance and maintenance of vehicles, machinery, mobile elevating work platforms or telescopic handlers; providing an online platform for support for users of mobile elevating work platforms or telescopic handlers; hosting a portal providing telemetry data for vehicles, machinery, mobile elevating work platforms or telescopic handlers; hosting a portal providing telemetry data for vehicles, machinery, mobile elevating work platforms or telescopic handlers, including GPS location, geofencing, machine analytics or information for carbon reporting; providing an online platform for support for technical issues with the operation or use of mobile elevating work platforms or telescopic handlers; risk detection software as a service; risk detection software as a service identifying unsafe operator behaviour when using or operating vehicles or machinery used in construction, mobile elevating work platforms or telescopic handlers; risk detection software as a service identifying unsafe driving behaviour when using or operating vehicles or machinery used in construction, mobile elevating work platforms or telescopic handlers; risk detection software as a service identifying the non-use or incorrect use of safety equipment and harnesses when using or operating vehicles or machinery used in construction, mobile elevating work platforms or telescopic handlers; software as a service using biometric data for detecting unauthorised vehicle or machinery use; software as a service using AI for detecting incorrect use of personal protection equipment; optimisation software as a service; downloadable computer software for creating indexes of information, indexes of websites and indexes of other information resources; downloadable software for providing access to the internet; downloadable computer software for accessing, browsing and searching online databases; downloadable software for database, document, and data management, for workflow management, for personal information management, and for project management; downloadable computer software for searching, browsing, accessing, processing, analysing, monitoring, understanding, and taking action in response to websites, user interfaces, and data; downloadable computer software for browsing the global computer network and secure private networks; downloadable computer software for using artificial intelligence for automating tasks in a user's browser; downloadable computer software for interacting with a browser to research, extract, copy, and store data; downloadable computer software for use in assessing, monitoring, administration and management of data centres and data centre devices, and public and private cloud computing IT and application systems and resources; downloadable computer software for managing cloud computing resources; downloadable computer software for messaging, chat and social networking; downloadable computer chatbot software for simulating conversations; downloadable computer software for transmitting, receiving, accessing, viewing, uploading, downloading, broadcasting, sharing, integrating, displaying, formatting, organising, storing, transferring and streaming of data, text, digital media, images, audio, video, user generated content, and animations; downloadable computer software for creating, displaying and sharing emoticons; downloadable computer software for accessing, browsing, and searching online databases and recommending multimedia content; downloadable computer software for streaming audiovisual and multimedia content to mobile digital electronic devices; downloadable computer software for developing and publishing applications for interactive streaming; downloadable computer software that enables users to designate specific content for future viewing; downloadable computer software for creating customized web pages featuring user-defined information, personal profiles,

audio and images; downloadable computer software for testing skills in the fields of artificial intelligence, machine learning, information technology (IT), business process automation, prompt engineering, and software development; downloadable publications.

Class 41:
Education; providing of training; entertainment; providing online electronic publications, not downloadable; educational services, namely, organizing and conducting conferences, seminars, classes, and workshops; providing online videos, not downloadable.

Class 42:
Providing online non-downloadable software; software as a service [SaaS]; platform as a service [PaaS]; research and development services in the field of artificial intelligence, computer science and machine learning; providing online non-downloadable computer software for developing and operating artificial intelligence-based applications; providing online non-downloadable software used for training and simulating artificial intelligence models; application service provider featuring application programming interface (API) software; providing online non-downloadable software and computer programs for using language models; providing online non-downloadable software and computer programs for machine learning; providing online non-downloadable software and computer programs for natural language processing, generation, understanding, reasoning, and analysis; providing online non-downloadable software and computer programs for detecting, recognizing, processing, analysing, understanding, creating, generating, enhancing, and/or editing text, voice, speech, audio, images, graphics, and/or video; providing online non-downloadable software and computer programs for conversion of text and data files into software code, for detecting, recognizing, processing, analysing, understanding, generating and/or editing software code, and for multilingual text and speech recognition, translation, and transcription; providing online non-downloadable software and computer programs for sharing datasets for the purpose of machine learning, predictive analytics, and building language and image models, for developing and implementing artificial neural networks, for the purpose of testing artificial intelligence agents, algorithms, or programs, and for using, customizing, fine-tuning, and adapting artificial intelligence models; providing online non-downloadable software and computer programs for task automation and workflow orchestration; providing online non-downloadable software and computer programs for building, using, and deploying autonomous agents, semi-autonomous agents, and intelligent agents; providing online non-downloadable software and computer programs for drafting, summarizing, designing, generating, creating, editing and publishing documents, written content, spreadsheets, presentations, and emails; provision of search engines for the internet; providing online non-downloadable cloud computing software using artificial intelligence for use in industry-specific software development and machine learning; software as a service (SAAS) services featuring software using artificial intelligence for industry-specific end-to-end and cloud-to-edge solutions for software development and machine learning; providing online non-downloadable software and computer programs for data processing, encryption, anonymization, and privacy-preserving machine learning; providing online non-downloadable software and computer programs for multi-modal processing and understanding of text, audio, image, and video; providing online non-downloadable software and computer programs for generating synthetic data and synthetic training environments; providing online non-downloadable software and computer programs for retrieval-augmented generation, and knowledge graph construction; providing online non-downloadable software and computer programs for transmitting, streaming, displaying, accessing, and browsing data, information, user-generated content, digital content, computer software, computer games, audio works, visual works, and audiovisual works; providing online non-downloadable software and computer programs for transmitting, accessing, viewing, searching, uploading, downloading, sharing, integrating, displaying, purchasing, subscribing to, storing, and transferring data, computer programs, software, mobile software applications, software extensions, software plugins, intelligent agents, digital assistants, and digital media; providing online non-downloadable software and computer programs for developing and publishing computer programs, software, mobile software applications, software extensions, software plugins, intelligent agents, digital assistants, and digital media; providing online non-downloadable software and computer programs for providing access to online virtual environments; providing online non-downloadable software and computer programs for collaborating, instant messaging, video communications, audio communications; providing online non-downloadable software and computer programs for accessing, browsing and searching online databases; providing online non-downloadable software and computer programs for database, document, and data management, for workflow management, for personal information management, and for project management; software as a service (SAAS) services featuring software for data visualization, data analytics, predictive analytics; providing online non-downloadable software for searching, browsing, accessing, processing, analysing, monitoring, understanding, and taking action in response to websites, user interfaces, and data; providing online non-downloadable software for browsing the global computer network and secure private networks; providing online non-downloadable software using an artificial intelligence browser; providing online non-downloadable software for interacting with a browser to research, extract, copy, and store data; providing online non-downloadable software for use in assessing, monitoring, administration and management of data centres and data centre devices, and public and private cloud computing IT and application systems and resources; providing online non-downloadable software for managing cloud computing resources; providing online non-downloadable software for messaging, chat and social networking; providing online non-downloadable chatbot software for simulating conversations; providing online non-downloadable software for transmitting, receiving, accessing, viewing, uploading, downloading, broadcasting, sharing, integrating, displaying, formatting, organising, storing, transferring and streaming of data, text, digital media, images, audio, video, user generated content, and animations; providing online non-downloadable software for creating, displaying and sharing emoticons; creating a virtual environment in the nature of an online community for users to create, produce, edit, manipulate, transmit, share, and comment on videos or other electronic media; providing online non-downloadable software for accessing, browsing, and searching online databases and recommending multimedia content; providing online non-downloadable software for streaming audiovisual and multimedia content to mobile digital electronic devices; providing online non-downloadable software for developing and publishing applications for interactive

streaming; providing online non-downloadable software that enables users to designate specific content for future viewing; providing online non-downloadable software for creating customized web pages featuring user-defined information, personal profiles, audio and images; providing online non-downloadable software for testing skills in the fields of artificial intelligence, machine learning, information technology (IT), business process automation, prompt engineering, project management, and software development; providing online non-downloadable software for extracting and retrieving information and data for others by means of global computer networks; searching and retrieving information, sites, and other resources available on computer networks for others; hosting of digital content on the internet; providing a website featuring technical information relating to computer software; providing computer software consulting services; technical support services, namely, troubleshooting in the nature of diagnosing and repairing computer software problems.
