Class 7:
Metalworking machines and tools; mining machines and apparatus; earth moving machines; lumbering, woodworking, or veneer or plywood making machines and apparatus; plastic processing machines; semiconductor manufacturing machines; machines and apparatus for manufacturing rubber goods; stone working machines and apparatus; non-electric prime movers, not for land vehicles; parts of non-electric prime movers; machine elements, not for land vehicles; starter motors; AC motors and DC motors [not including those for land vehicles but including parts for any AC motors and DC motors]; AC generators [alternators]; DC generators; alternators for land vehicles; generators for land vehicles; cutting tools for metalworking machinery; grinding tools [parts of machines]; metal sawing machines; press dies for metal forming; diamond tools for metal working; wear-resistant diamond-pointed metal-cutting tools; diamond-pointed metal-cutting tools; cemented carbide tools; electric welding machines; toolholders for metalworking machines (machine parts); sand blasting machines; drill chucks [parts of machines]; drill chucks being parts of machines; parts and fittings for metalworking machines and tools; drilling bits [parts of machines]; loading-unloading machines and apparatus; filters for filtering machines; chemical processing machines and apparatus; filters for chemical processing machines and apparatus; dust collecting machines; woodworking machines and apparatus; wood sawing machines; circular saw blades being parts of machines; pistons for cylinders; piston rings; parts of non-electric prime movers, other than water mills and wind mills; timing belts for motors and engines; fan belts for motors and engines; timing belts for land vehicle engines; exhaust pipes for land vehicle engines; oil pumps for land vehicle engines; pistons for land vehicle engines; engine bearings; mufflers for motors; engine cooling radiators; sealing joints [parts of engines]; camshafts for vehicle engines; oil filters; oil filters for motors and engines; particulate air filters for exhaust systems for internal combustion engines; fuel filters; automotive intake manifolds; exhaust manifold for engines; pistons for internal combustion engines; rocker arms for engines; cam shafts; automobile oil pans; parts of engines, not for land vehicles; cylinder heads for engines; cylinder liners for engines; cylinder head gaskets for engines; cylinder blocks for engines; piston pins for internal combustion engines; air filters for automobile engines and parts thereof; connecting rods for pistons [parts of machines]; fuel tank filler pipes for internal combustion engines; pneumatic or hydraulic machines and instruments; pumps [parts of machines, engines or motors]; plunger pistons; filters for air compressors; bearings, machine elements not for land vehicles; shaft couplings, machine elements not for land vehicles; shafts, axles or spindles, machine elements other than for land vehicles; bearings [parts of machines]; shafts for pumps; shaft couplings as parts of machines; cranks [parts of machines]; bearings [parts of machines, other than for land vehicles]; crankshafts; power transmissions and gearing, machine elements not for land vehicles; toothed wheels or gears, machine elements not for land vehicles; cams, machine elements not for land vehicles; power transmission belts, machine elements not for land vehicles; pulleys, machine elements not for land vehicles; clutch mechanisms, machine elements other than for land vehicles; hydraulic torque converters, machine elements not for land vehicles; speed change gears, machine elements not for land vehicles; clutches and apparatus for power transmission, other than for land vehicles; gear boxes, other than for land vehicles; clutches for machines; electric pulley blocks; power transmission belts for machines; cams being parts of machines; gears for machines; drive chains, other than for land vehicles; hydraulic torque converters, other than for land vehicles; gears,

other than for land vehicles; shock absorbers, machine elements not for land vehicles; springs, machine elements not for land vehicles; springs being parts of machines; shock absorbers for machines; brakes, machine elements not for land vehicles; brakes for machines; brake pads, other than for vehicles; valves, machine elements not for land vehicles; valves being parts of machines; starter motors for land vehicles; automatic tool changers for industrial robots; spring shock absorbers, machine elements not for land vehicles; spring-assisted hydraulic shock absorbers, machine elements not for land vehicles; filtering machines for chemical processing; polycrystalline diamond compact [PDC] drill bits for drilling machines; sintering machines for chemical processing; parts and accessories for compound semiconductor manufacturing apparatus; optical fiber fusion splicers.

Class 9:
Photographic apparatus and instruments; cinematographic apparatus; optical machines and apparatus; measuring or testing machines and instruments; power distribution or control machines and apparatus; rotary converters; phase modifiers; solar cells; batteries, electric; electric or magnetic meters and testers; electric conductors; electrical communication machines and instruments; personal digital assistants; magnetic cores; resistance wires; electrodes; consumer video game programs; electronic circuits and CD-ROMs recorded with programs for hand-held games with liquid crystal displays; phonograph records; downloadable music files; downloadable image files; recorded video discs and video tapes; electronic publications; life-saving apparatus and equipment; fire alarms; gas alarms; burglar alarms; monitoring and alarm apparatus for crime and disaster prevention; anti-theft apparatus and instruments, other than for vehicles; infrared cameras; laboratory apparatus and instruments; camera lenses; prisms [optics]; optical lenses; optical filters; optical mirrors; distance measuring apparatus; motion detectors; velocity sensors; acceleration sensors; gyroscopic sensors; electrical controlling devices; optical phase shifters; battery charging devices for motor vehicles; connectors [electricity]; plug-in connectors; noise filters for power supplies, for automobiles; charging connectors for electrically-powered vehicles, including electric automobiles, hybrid automobiles and electric bicycles; switching power supplies for automobiles; voltage regulators for automobiles; chargers for batteries; photovoltaic installations for generating electricity [photovoltaic power plants]; fuel cells; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; dry cells; accumulators [batteries]; car batteries; battery separators; telecommunication cables; power cables; fibre-optic cables; electric wire harnesses for automobiles; threaded cable connectors of metal; parts for insulated electric wires; connectors for optical fibres; end caps for electrical conduits and cable protection tubes; radio communication machines and apparatus; vehicular radio communication machines and apparatus; navigation apparatus for vehicles; radio direction finders; radar machines and apparatus; navigation apparatus for vehicles [on-board computers]; communication apparatus for vehicle-to-vehicle communication; radar apparatus; electronic broadcasting apparatus; video surveillance apparatus; magnetic wires; electromagnetic coils; video monitors; data communication apparatus and instruments; communication apparatus for video conferencing systems; radar reflectors; optical demultiplexers; image processing apparatus; vibration damping parts specially adapted for audio equipment for automobiles; telecommunication machines and apparatus, and parts and accessories therefor; head-up display apparatus for vehicles; smartphones; apparatus for recording, transmission, reception, processing or reproduction of sound, images or data; integrated circuits; transistors; thermistors; computer programs; computer programs for data processing; integrated circuit module; electronic circuit board; printed circuits; flexible printed circuits; electric discharge tubes; semi-conductors; semiconductor chips; semi-conductor devices; heat sinks for semiconductor devices; discharge tubes, electric, other than for lighting; image scanners; bar code readers; computer software platforms, recorded or downloadable; downloadable computer software for remote monitoring and analysis; downloadable cloud computing software; software for diagnostics and troubleshooting; computer hardware and computer software for database management; computer network server; computer programs for monitoring computer networks; computer software for cloud computing; computer application software for streaming audio and video media content via the internet; computer peripherals; electronic publications recorded on computer media; electronic control apparatus for automobiles, and parts thereof; electronic circuits and parts thereof; ultrasonic sensors; lasers for non-medical purposes; electromagnets; ultrasonic object detectors for use on vehicles; computerized vehicle engine analyzers; apparatus for testing vehicle brakes; apparatus for testing vehicle transmissions; speed checking apparatus for vehicles; speedometers for vehicles; thermostats for vehicles; thermostats for vehicle engines; automatic indicators of low pressure in vehicle tires; kilometer recorders for vehicles; vehicle wheel alignment machines; parking sensors for vehicles; water level indicators for vehicles; vehicle dipsticks; tire balancing machines for land vehicles; scanners [apparatus] for performing automotive diagnostics; voltage regulators for vehicles; power adapters for use in vehicle lighter sockets; charging stations for electric vehicles; batteries for vehicles; electric batteries for powering electric vehicles; cell phone battery chargers for use in vehicles; navigation computers for cars; subwoofers for vehicles; vehicle stereos; radios for vehicles; remote control apparatus for opening and closing vehicle doors; rearview cameras for vehicles; remote controls for operating vehicle alarms; vehicle tracking devices; power locks for motor vehicles; electronic keys for vehicles; sirens for vehicles; anti-theft alarms not for vehicles; electric actuators; electric cables and wires; lead wires; underwater power cables; special covered electric wires; electricity conduits; cable adapters; data transmission cables; battery cables; optical cables; protective sheaths for fiber optical cables; electron tubes; semi-conductor elements; magnetic object detectors; position sensors; sensors for determining position; pressure sensors; power wires; electrical bare wires; materials for electricity mains [wires, cables]; identification sheaths for electric wires.

Class 12:
Non-electric prime movers for land vehicles, not including their parts; mechanical elements for land vehicles; ac motors or dc motors for land vehicles, not including their parts; vessels and their parts and fittings; aircraft and their parts and fittings; railway rolling stock and their parts and fittings; automobiles and their parts and fittings; two-wheeled motor vehicles, bicycles and their parts and fittings; adhesive rubber patches for repairing tubes or tires; couplings for land vehicles; internal combustion engines for land vehicles; engines for land vehicles; clutches for land vehicles; shafts, axles or spindles, machine

elements for land vehicles; bearings, machine elements for land vehicles; axles for land vehicles; power transmissions and gearing, machine elements for land vehicles; clutch mechanisms for land vehicles; cams, machine elements for land vehicles; speed change gears for land vehicles; torque converters for land vehicles; steering units for land vehicles; drive gears for land vehicles; gearboxes for land vehicles; transmission chains for land vehicles; transmission belts for land vehicles; transmissions for land vehicles; transmission components for land vehicles; transmission shafts for land vehicles; shock absorbers, machine elements for land vehicles; springs, machine elements for land vehicles; air springs, machine elements for land vehicles; suspension shock absorbers for land vehicles; suspension systems for land vehicles; brakes, machine elements for land vehicles; brake calipers for land vehicles; brake cylinders for land vehicles; brake drums for land vehicles; disc brake pads for land vehicles; cone brakes for land vehicles; disc brakes for land vehicles; anti-theft alarms for vehicles; fuel tanks for vehicles; caps for vehicle fuel tanks; arm rests for vehicle seats; head restraints for vehicles; air bags [safety devices for automobiles]; clutch pedals of automobiles; motor car seats; tires [for automobiles]; tires for two-wheeled motor vehicles; inner tubes for automobile tires; inner tubes for motorcycle tires; rearview mirrors for automobiles; steering wheels for automobiles; handle bars for motorcycles; automobile wheel spokes; spokes for two-wheeled motor vehicles; airbags for vehicles; door handles for land vehicles; running boards for land vehicles; fuel tanks for land vehicles; gear shifts for land vehicles; door panels for land vehicles; fenders for land vehicles; direction indicators for land vehicles; tires for land vehicles; vehicle wheel spokes; spikes for tyres; tire chains for land vehicles; windscreen wipers [for automobiles]; windshield wiper blades; toothed wheels or gears, machine elements for land vehicles.

Class 17:
Valves of rubber or vulcanized fiber [not including machine elements]; gaskets; junctions for pipes, not of metal; joint packings; electrical insulating materials; washers of rubber or vulcanized fiber; chemical fiber, not for textile use; industrial packaging containers of rubber; rubber stoppers; rubber lids and caps for industrial packaging containers; condenser paper; vulcanized fiber; adhesive tapes, other than stationery and not for cosmetic, medical or household purposes; semi-worked plastic products; rubber [raw or semi-worked]; connecting hoses for vehicle radiators; adhesive sealant compounds; bonded seals; pipe joint sealant; static seals; dynamic seals; reinforcing materials, not of metal, for pipes; hose fittings, not of metal; flexible pipes and hose connectors, being flanges, not of metal; hoses made of plastic; hoses made of rubber; floating anti-pollution barriers; plastic oil fences; electrical insulating tapes; electrical insulating rubber products; insulating splice covers for electrical cables; insulating sleeves for power lines; soundproofing materials; adhesive tapes for bundling electrical wires; flexible pipes, tubes and hoses, not of metal; heat-shrinkable flexible plastic tubes; rubber sleeves for protecting parts of machines; synthetic rubber for use in manufacture; natural rubber; synthetic rubber; electrical insulators made of rubber; adhesive tapes of fluororesin, other than for stationery or medical purposes; adhesive-coated plastic sheets for use in manufacture; plastic sheets with surface treatment for affixing multilayer sheets to enhance friction resistance, and coated with adhesive; caulking materials; padding materials of rubber or plastics.

Class 1:
Filtering materials [chemical, mineral, vegetable and other unprocessed materials]; chemical preparations and materials for film, photography and printing; photosensitive paper; unexposed photographic films; unprocessed plastics; adhesives and glues for industrial purposes; growing media, fertilizers and chemicals for use in agriculture, horticulture and forestry; detergents for use in manufacture and industry; chemical substances, materials and preparations; natural fertilisers; fire extinguishing and fire prevention compositions; chemical substances and materials for scientific purposes; chemical compositions and materials for use in the manufacture of cosmetics; chemical products for use in construction; chemical products for water treatment; chemical and organic substances and preparations for the treatment of leather and textiles; salts for industrial purposes; unprocessed artificial resins and synthetic resins; starches for use in manufacturing and industry; putty, fillers and pastes for use in industry; fillers for vehicle bodywork and tyre repair; chemical and organic substances and preparations for use in the manufacture of food and beverages.

Class 2:
Dyes, colorants, pigments and printing inks; thinners and thickeners for coatings, dyes and inks; coatings [paints]; raw natural resins; natural resins; food and beverage dyes; metal in foil and powder form for use in painting, decorating, printing and art; paints and washes [paints]; lacquers and varnishes; preservatives against rust and against deterioration of wood; protective preparations for wood.

Class 3:
Toiletries; animal grooming preparations; essential oils and aromatic extracts; cleaning and fragrancing preparations; abrasives; tailors' wax and cobblers' wax; oral hygiene preparations; perfumery and fragrances; body cleaning and beauty care preparations; make-up preparations; soaps and shower gels; bath preparations; deodorants and

antiperspirants; skin, eye and nail care preparations; hair care preparations; depilatory and shaving preparations; air fragrancing preparations; vehicle cleaning preparations; laundry preparations; leather and shoe cleaning and polishing preparations.

Class 4:
Fuels and illuminants; electrical energy; dust absorbing compositions; lubricants and industrial greases, waxes and fluids; firewood; non-chemical additives for fuels; biofuels; candles; wicks for candles and lamps; preserving oils.

Class 5:
Dietary supplements and dietetic preparations; dental preparations and abrasives; medicated dentifrices; sanitary preparations and articles; pest control preparations and articles; air deodorising and air purifying preparations; fungicides; herbicides; filling materials for teeth; adhesive plasters; sanitary preparations for medical purposes; food for babies; dietary supplements for animals; disinfectants and antiseptics; absorbent articles for personal hygiene; medicated and sanitising soaps and detergents; live organs and tissues for surgical purposes; diagnostic preparations and materials, for medical and veterinary purposes; pharmaceuticals and natural remedies; medical dressings, materials for dressings and swabs.

Class 6:
Building and construction materials and elements of metal; unprocessed and semi-processed non-precious metals and their alloys; metal hardware; doors, gates, windows and window coverings of metal; structures and transportable buildings of metal; works of art and decorations made primarily of non-precious metals; containers of metal for storage, transport and packaging; materials of metal for railway tracks; pipes, tubes and hoses, and fittings therefor, including valves, of metal; nuts, bolts, pins and fasteners of metal; locks and keys, of metal; welding and soldering materials; cables, wires and chains, of metal; signs and signboards, non-luminous and non-mechanical, of metal; ladders and scaffolding, of metal; vaults and safes, of metal; monuments and memorials made primarily of non-precious metals; packaging, wrapping and binding articles of metal; dispensers, of metal; metal castings.

Class 7:
Agricultural, gardening and forestry machines and apparatus; industrial robots; electricity generators; moving and handling equipment; opening and closing mechanisms; lifting and hoisting equipment; elevators and lifts; conveyors and conveyor belts; packing machines; machines and machine tools for treatment of materials and for manufacturing; mills and crushing machines; casting and moulding machines; machines, machine tools, and power-operated tools and apparatus for fastening and joining; coating machines; waste sorting machines; printing and bookbinding machines; sewing machines for textiles and leather; machine tools; metalworking machines; textile production machines; paper making machines; power-operated saws; welding and soldering machines and apparatus; food and beverage processing and preparation machines and apparatus; wheels and tracks for machines; automatic dispensing machines; vending machines; spraying machines; ironing machines and laundry presses; emergency and rescue machines and machine tools; chemical processing equipment.

Class 8:
Hand-operated hygienic and beauty implements for humans and animals; hair styling implements [hand-operated]; body art implements [hand-operated]; manicure and pedicure implements [hand-operated]; hair cutting and removal implements; razors; animal shearing implements; edged and blunt weapons; cutlery, kitchen knives, and cutting implements for kitchen use; hand-operated tools and implements for treatment of materials; hand-operated tools and implements for construction, repair and maintenance; animal slaughtering and butchering implements; agricultural, gardening and landscaping hand tools; fire tending implements; hammers, mallets and sledgehammers; fastening and joining hand tools; cutting, drilling, grinding, sharpening and surface treatment hand tools; hand-operated lifting jacks; emergency and rescue hand tools.

Class 9:
Downloadable and recorded content; computer databases; music, films and other electronic text and image publications recorded on carriers; software; game software; application software; communication, networking and social networking software; data and file management and database software; media and publishing software; office and business applications; artificial intelligence and machine learning software; software for monitoring, analysis, control and operation in the physical world; system and system support software, and firmware; device drivers and embedded software; operating systems; utility, security and cryptography software; virtual and augmented reality software; web application and server software; content management software; e-commerce and electronic payment software; information technology, audiovisual, multimedia and photographic apparatus; communication equipment; computer networking and data communication equipment; point-to-point communication equipment; transmission apparatus; antennas and aerials as communications apparatus; data storage devices and media; encoded, magnetic and smart cards; photocopying apparatus; photocopiers; image scanners; printers; data processing equipment and accessories (electrical and mechanical); calculators; payment terminals, automated teller machines (ATMs) and money counting machines; coin-operated mechanisms; computers and computer hardware; computer components and parts; audiovisual and photographic apparatus; audio devices and radio receivers; display devices, television receivers and film and video playback devices; image recording and reproducing apparatus; signal cables for IT, AV and telecommunication; magnets, magnetizers and demagnetizers; scientific and laboratory apparatus for treatment using electricity; apparatus, instruments and cables for electricity; apparatus and instruments for accumulating and storing electricity; apparatus and instruments for controlling the flow of electricity; photovoltaic apparatus for generating electricity; electrical and electronic components; electric cables and wires; electrical circuits and printed circuit boards; antennas and aerials as components; optical devices, amplifiers and correctors; optical amplifiers; lasers; spectacles, sunglasses and contact lenses; corrective eyewear; sunglasses; safety, security, protection and signalling devices; alarms and warning equipment; head protection; eye protection; access control devices; signalling apparatus; protective and safety equipment; diving equipment; navigation, guidance, tracking, targeting and map making devices; measuring, detecting, monitoring and controlling devices; testing and quality control devices; measuring devices; time measuring instruments

excluding clocks and watches; weighing instruments; distance and dimension measuring instruments; speed measuring instruments; temperature measuring instruments; electricity measuring instruments; controllers and regulators; data recording and storage apparatus; sensors, detectors and monitoring instruments; scientific research and laboratory apparatus; teaching apparatus; simulators.

Class 10:
Physical therapy equipment; massage apparatus; physiotherapy and rehabilitation equipment; hearing protection devices; feeding aids and pacifiers; sexual activity aids; medical and veterinary apparatus and instruments; contraceptive articles; diagnostic, examination, and monitoring equipment; medical imaging apparatus; surgical apparatus and instruments; wound treatment apparatus and instruments; suture and wound closing materials and products; dental apparatus and instruments; masks and equipment for artificial respiration; medical furniture and bedding, equipment for moving patients; prosthetics and artificial implants; artificial organs and implants; hearing aids; dental prostheses; clothing, headgear and footwear, and braces and supports, for medical purposes; clothing especially for operating rooms, patient examination gowns and orthopaedic footwear; mobility aids.

Class 11:
Flues and installations for conveying exhaust gases; sun tanning appliances; sterilization, disinfection and decontamination equipment; steam baths, saunas and spa baths; lighting and lighting reflectors; vehicle lighting and lighting reflectors; cooking, heating, cooling and preservation equipment, for food and beverages; fireplaces; gas cleaners and purifiers; industrial ovens, boilers, burners and furnaces (not for food or beverages); refrigerating and freezing equipment; nuclear installations; heating, ventilating, air conditioning and air purification apparatus; air treatment equipment; lighters and igniters; burners and heaters for laboratory use; apparatus for heating and steam generating, and fabric steamers, not for industrial purposes; heating elements and filaments; fog and smoke machines; HVAC systems (heating, ventilation and air conditioning).

Class 12:
Vehicles and conveyances; land vehicles and conveyances; hand-propelled trolleys and carts; vehicles for the disabled; rail vehicles; air and space vehicles; water vehicles; parts and fittings for vehicles; wheels and tyres, and continuous tracks for vehicles; anti-theft, security and safety devices and equipment for vehicles; parts and fittings for air and space vehicles; parts and fittings for water vehicles; parts and fittings for land vehicles; powertrains, including engines and motors, for land vehicles.

Class 13:
Explosive substances and devices, other than arms; pyrotechnic articles; fireworks; weapons and ammunition; containers, holsters, magazines and cartridges, for weapons and ammunition.

Class 14:
Gemstones, pearls and precious metals, and imitations thereof; jewellery and jewellery articles; time instruments; horological instruments; works of art and decorations, including sculptures, made primarily of precious or semi-precious metals or stones, or their imitations, or coated with these; jewellery boxes and watch boxes; key rings and key chains, and charms therefor.

Class 15:
Musical instruments; keyboard instruments; string instruments; woodwind instruments; percussion instruments; brass instruments; accessories for musical instruments.

Class 16:
Works of art and decorations made primarily of paper or cardboard, and architects' models; modelling materials and artists' materials; arts, crafts and modelling equipment; filtering materials of paper; bags and articles for packaging, wrapping and storage, of paper, cardboard or plastics; printed matter, and stationery and educational supplies; writing and stamping implements; correcting and erasing implements; office machines; printing paper and bookbinding materials; training and instructional materials; printed books, magazines, newspapers and printed matter; photo albums and collectors' albums; printed matter representing monetary value or for financial purposes; adhesives for stationery or household purposes; paper and cardboard; industrial paper and cardboard; money clips.

Class 17:
Flexible pipes, tubes, hoses and fittings therefor and fittings for rigid pipes, all non-metallic; seals, sealants and fillers; waterproofing and moisture proofing articles and materials; insulation and barrier articles and materials; thermal insulation articles and materials; electrical insulation articles and materials; acoustic insulation articles and materials; fire resistant and fire protective materials being fire resistant insulated panels and expansion joint fillers; rubber material for recapping tires; shock-absorbing and protective materials, vibration dampers; works of art, decorations, and sculptures made of asbestos fibres or elastomers; filtering materials of semi-processed foams of plastic or semi-processed films of plastic; adhesive tapes, strips, bands and films; clutch linings and partly processed brake lining materials; semi-processed plastics, resins, polymers or synthetic fibres other than for textile use; polyester; semi-processed plastic substances; cellulose acetate; glass fibre and glass wool; carbon fibre; resins in extruded form; unprocessed and semi-processed asbestos fibres or elastomers; mineral fibers; elastomers; pipe connectors, non-metallic.

Class 18:
Umbrellas and parasols; walking sticks and trekking poles; luggage, bags, wallets and carrying bags; imitation leather; animal skins; saddlery, whips and clothing for animals.

Class 19:
Building and construction materials and elements, not of metal; railway materials, non-metallic; rigid pipes and valves therefor, non-metallic; building and construction materials and elements made of pitch, tar, bitumen or asphalt; building and construction materials and elements made of sand, stone, rock, clay, minerals and concrete; building and construction materials and elements made of wood and artificial wood; doors, gates, windows and window coverings, not of metal; structures and transportable buildings, not of metal; signs and signalling panels, non-luminous and non-mechanical, not of metal; scaffolding, non-metallic; works of art, decorations and sculptures made of stone, bitumen or concrete; monuments

and memorials, not of metal; unprocessed and semi-processed stone, clay, bitumen or concrete, or substitutes therefor; pitch, tar, bitumen and asphalt; stone, rock, clay and minerals; semi-processed or artificial wood.

Class 20:
Mooring buoys, non-metallic; locks and keys, non-metallic; door, gate and window fittings, non-metallic; valves of plastic, other than parts of machines; fasteners, non-metallic; cable fasteners, connectors and holders, non-metallic; pipe fasteners and clips, non-metallic; works of art and decorations made primarily of wood, straw, bone, shell, wax, resin, plastics or plaster, or of substitutes for these; furniture; beds, mattresses, pillows and cushions; picture frames; mirrors (silvered glass); indoor blinds, and fittings for curtains and indoor blinds; clothes hangers, clothes stands [furniture] and clothes hooks; bathroom furniture; animal housing and beds; unworked and semi-worked bone, shell, amber, reed, bamboo, rattan or cork, or substitutes for these; containers, and closures and handles therefor, non-metallic; baskets, non-metallic; barrels and casks, non-metallic; coffins and funerary urns; letter boxes, non-metallic; closures for containers, non-metallic; crates and pallets, non-metallic; steps and ladders, non-metallic; displays, stands and signage, non-metallic; mannequins and tailors' dummies.

Class 21:
Works of art and decorations made primarily of ceramics or glass, or of substitutes for these; unworked and semi-worked glass, not for building; household utensils for cleaning, brushes and brush-making materials; air fragrancing apparatus; toilet and bathroom cleaning utensils; tableware, cookware and containers; glasses, drinking vessels and barware; piggy banks; cosmetic utensils, dental care kits comprising toothbrushes and dental floss, brushes and sponges for personal hygiene; dental cleaning articles; aquaria and vivaria; devices for pest and vermin control; lint rollers [adhesive] for removing lint from clothing, brushes for cleaning footwear and disposable footwear shine cloths.

Class 22:
Raw textile fibers and substitutes; padding and stuffing materials; bags and sacks for packaging, storage and transport; sails; nets; ropes, strings, slings, wrapping or binding bands, not of metal and straps for handling loads; tarpaulins, awnings, tents, and unfitted vehicle covers and unfitted liners for the cargo area of vehicles [in the nature of a tarp].

Class 23:
Yarns and threads.

Class 24:
Fabrics; textile goods, and substitutes for textile goods; covers for furniture; throws; curtains; labels of textile; wall hangings of textile; table and bed linens; kitchen and table linens; bed linen and blankets; bath linen; textile materials for filtering; indoor curtains.

Class 25:
Headgear; clothing; underwear and nightwear; footwear; parts of clothing, footwear and headgear, namely, cuffs, pockets for clothing, ready-made linings, heels and heelpieces for footwear, cap peaks and hat frames (skeletons).

Class 26:
Heat adhesive patches for decoration of textile articles [haberdashery], sewing kits and decorative articles for the hair; hair ornaments, hair rollers, hair fastening articles, wigs and false hair; artificial fruit, flowers and vegetables; charms [not jewellery or for keys, rings or chains]; needles and pins for entomology; embroidery; buttons; pins, other than jewellery; needles.

Class 27:
Floor coverings and artificial ground coverings; carpets, rugs and mats; vehicle mats and carpets; wall and ceiling coverings.

Class 28:
Sporting and physical exercise equipment; hunting and fishing equipment; swimming jackets; Christmas tree decorations, party novelties and artificial Christmas trees; fairground and playground apparatus; toys, games, and playthings; video game apparatus, arcade games, and amusement machines; board games and gambling devices.

Class 7:
Conveyors for transporting metal cast products; loading and unloading machines and apparatus equipped with lifting mechanisms for raising and lowering loaded cargo; belt conveyors, roller conveyors, conveying equipment, aligning and merging conveyors, and their parts and accessories; automated conveying machinery and equipment; elevating transport machines; elevating apparatus; elevators; elevating equipment for cargo handling; vertical conveyors; conveyors and their parts and accessories; mechanical parts feeders; robots for cargo handling operations; palletizers; chain conveyors; industrial robots for cargo handling and conveying; conveying equipment; quantitative feeders [parts of machines] for bolts and nuts; elevators (lifting apparatus); loading and unloading machines and apparatus, and their parts and accessories; metalworking machines and apparatus, and their parts and accessories; driving apparatus for conveyors, and their parts and accessories; conveyors for cargo handling; automatic assembly machines for small parts; liquid crystal display (LCD) screen manufacturing apparatus; robots for metalworking; flat panel display manufacturing apparatus; automatic assembly machines for metal parts, automotive parts, electrical parts, and other mechanical parts; metalworking machine tools; industrial robots and their parts and accessories; industrial robot arms and their parts and accessories; crimping machines for metalworking; crimping machines for plastic processing; crimping machines for repair use; automatic assembly machines for engines and their parts; automatic assembly machines for parts of ships, aircraft, spacecraft, railway vehicles, automobiles, motorcycles, and bicycles; automatic assembly machines for motors, inverters, batteries, and other drive devices; automatic assembly machines for prime movers and their parts; automatic assembly machines

for transmissions and their parts; automatic assembly machines for industrial machines and their parts; automatic assembly machines for construction machines, agricultural machines, and their parts; automatic assembly machines for industrial parts; automatic assembly machines for electric washing machines, clothes dryers, heating and cooling apparatus, microwave ovens, electric ovens, lighting apparatus, vending machines, electric fan heaters, refrigerators, and dishwashers with drying functions; automatic assembly machines for household electrothermic appliances; automatic assembly machines for prefabricated houses; automatic assembly machines for materials for building and construction; automatic assembly machines for air conditioning equipment and their parts; automatic assembly machines for machine tools and their parts; automatic assembly machines for gas water heaters, gas stoves, gas fan heaters, gas heaters, gas air-conditioning apparatus, and their parts; automatic assembly machines for ceramic products; automatic assembly machines for food manufacturing machines, food processing machines and food packaging machines, and their parts; automatic assembly machines for wire harnesses and their parts; automatic assembly machines for power supply devices; automatic assembly machines for LCD panels and substrates; industrial robots for assembling and manufacturing engines and their parts; industrial robots for assembling and manufacturing parts of ships, aircraft, spacecraft, railway vehicles, automobiles, motorcycles, and bicycles; industrial robots for assembling and manufacturing motors, inverters, batteries, and other drive devices; industrial robots for assembling and manufacturing prime movers and their parts; industrial robots for assembling and manufacturing transmissions and their parts; industrial robots for assembling and manufacturing industrial machines and their parts; industrial robots for assembling and manufacturing construction machines, agricultural machines, and their parts; industrial robots for assembling and manufacturing industrial parts; industrial robots for assembling and manufacturing electric washing machines, clothes dryers, heating and cooling apparatus, microwave ovens, electric ovens, lighting apparatus, vending machines, electric fan heaters, refrigerators, and dishwashers with drying functions; industrial robots for assembling and manufacturing household electrothermic appliances; industrial robots for assembling and manufacturing prefabricated houses; industrial robots for assembling and manufacturing materials for building and construction; industrial robots for assembling and manufacturing air conditioning equipment and their parts; industrial robots for assembling and manufacturing machine tools and their parts; industrial robots for assembling and manufacturing gas water heaters, gas stoves, gas fan heaters, gas heaters, gas air-conditioning apparatus, and their parts; industrial robots for assembling and manufacturing ceramic products; industrial robots for assembling and manufacturing food manufacturing machines, food processing machines and food packaging machines, and their parts; industrial robots for assembling and manufacturing wire harnesses and their parts; industrial robots for assembling and manufacturing power supply devices; industrial robots for assembling and manufacturing LCD panels and substrates; welding robots; arc welding apparatus; electric welding apparatus; gas welding apparatus; laser welding apparatus; industrial robots for use in the manufacture of engines and their parts, including inspection or testing processes thereof; industrial robots for use in the manufacture of parts of ships, aircraft, spacecraft, railway vehicles, automobiles, motorcycles, and bicycles, including inspection or testing processes thereof; industrial robots for use in the manufacture of motors, inverters, batteries, and other drive devices, including inspection or testing processes thereof; industrial robots for use in the manufacture of prime movers and their parts, including inspection or testing processes thereof; industrial robots for use in the manufacture of transmissions and their parts, including inspection or testing processes thereof; industrial robots for use in the manufacture of industrial machines and their parts, including inspection or testing processes thereof; industrial robots for use in the manufacture of construction machines, agricultural machines, and their parts, including inspection or testing processes thereof; industrial robots for use in the manufacture of industrial parts, including inspection or testing processes thereof; industrial robots for use in the manufacture of electric washing machines, clothes dryers, heating and cooling apparatus, microwave ovens, electric ovens, lighting apparatus, vending machines, electric fan heaters, refrigerators, and dishwashers with drying functions, including inspection or testing processes thereof; industrial robots for use in the manufacture of household electrothermic appliances, including inspection or testing processes thereof; industrial robots for use in the manufacture of prefabricated houses, including inspection or testing processes thereof; industrial robots for use in the manufacture of materials for building and construction, including inspection or testing processes thereof; industrial robots for use in the manufacture of air conditioning equipment and their parts, including inspection or testing processes thereof; industrial robots for use in the manufacture of ceramic products, including inspection or testing processes thereof; industrial robots for use in the manufacture of food manufacturing machines, food processing machines and food packaging machines, and their parts, including inspection or testing processes thereof; industrial robots for use in the manufacture of wire harnesses and their parts, including inspection or testing processes thereof; industrial robots for use in the manufacture of power supply devices, including inspection or testing processes thereof; industrial robots for use in the manufacture of LCD panels and substrates, including inspection or testing processes thereof; nutrunners; press machines powered by servo motors; machine components and arms for nut runners; industrial robots; automatic tool changers for industrial robots; earth moving machines; agricultural machines and implements, other than hand-operated (excluding milk filtering machines, milking machines, chick brooders, egg incubators, and sericultural machines and implements); plastic processing machines and apparatus; semiconductor manufacturing machines; non-electric prime movers, excluding those for land vehicles, water wheels and windmills; parts of non-electric prime movers, excluding water wheels and windmills; repairing or fixing machines and apparatus; machine elements (excluding those for land vehicles); electric metal cutting machines; starters for motors and engines; AC motors and DC motors, excluding those for land vehicles; parts of AC and DC motors included; AC generators [alternators]; DC generators; brushes being parts of motors, generators and dynamos; reduction gears, machine elements not for land vehicles; reduction gears being parts of machines; sockets [parts of machines].

Class 8:
Torque wrenches; hand tools, hand-operated, other than bladed or pointed hand tools.

Class 9:
Batteries; batteries equipped with charge protection circuits, terminals (for electricity), and battery cases; battery chargers; AC adapters; electric wires and cables; laboratory apparatus and instruments; photographic machines and apparatus; cinematographic machines and apparatus; optical machines and apparatus; inspection or testing apparatus for engines and their parts; inspection or testing apparatus for parts of ships, aircraft, spacecraft, railway vehicles, automobiles, motorcycles, and bicycles; inspection or testing apparatus for motors, inverters, batteries, and other drive devices; inspection or testing apparatus for prime movers and their parts; inspection or testing apparatus for transmissions and their parts; inspection or testing apparatus for construction machines, agricultural machines, and their parts; inspection or testing apparatus for industrial parts; inspection or testing apparatus for electric washing machines, clothes dryers, heating and cooling apparatus, microwave ovens, electric ovens, lighting apparatus, vending machines, electric fan heaters, refrigerators, and dishwashers with drying functions; inspection or testing apparatus for household electrothermic appliances; inspection or testing apparatus for prefabricated houses; inspection or testing apparatus for materials for building and construction; inspection or testing apparatus for air conditioning equipment and their parts; inspection or testing apparatus for machine tools and their parts; inspection or testing apparatus for gas water heaters, gas stoves, gas fan heaters, gas heaters, gas air-conditioning apparatus, and their parts; inspection or testing apparatus for ceramic products; inspection or testing apparatus for food manufacturing machines, food processing machines and food packaging machines, and their parts; inspection or testing apparatus for wire harnesses and their parts; inspection or testing apparatus for power supply devices; inspection or testing apparatus for LCD panels and substrates; measuring or testing machines and instruments; position detection apparatus consisting of cameras, lenses, controllers, and other components; power distribution or control machines and apparatus; computer operating programs, recorded; computer software, recorded; computer programs; computer programs for PLC ladder programming; control panels for electric power distribution or control machines and apparatus; liquid crystal display (LCD) devices; telecommunication machines and apparatus; computer circuit boards; computers; computer peripheral devices; computer hardware; data processing apparatus; tablet computers; electronic control apparatus; smartphones; tablet computers; handheld computers; wearable computers; electric or magnetic meters and testers; sensors; solar cells (solar batteries); cables, liquid crystal displays (LCDs) for nut runners.

Class 37:
Installation, repair, and maintenance of conveyors for transporting metal cast products; installation, repair, and maintenance of track-mounted automated guided vehicles for cargo handling (traverser type); installation, repair, and maintenance of cargo handling machines equipped with lifting mechanisms; installation, repair, and maintenance of belt conveyors, roller conveyors, transport devices, merging/sorting conveyors, and their parts and accessories; installation, repair, and maintenance of automated transport machinery and equipment; installation, repair, and maintenance of vertical lifting transport machines; installation, repair, and maintenance of elevating apparatus; installation, repair, and maintenance of elevators; installation, repair, and maintenance of lifting equipment for cargo handling; installation, repair, and maintenance of vertical conveying conveyors; installation, repair, and maintenance of conveyors and their parts and accessories; installation, repair, and maintenance of mechanical parts supply devices; installation, repair, and maintenance of robots for cargo handling operations; installation, repair, and maintenance of palletizers; installation, repair, and maintenance of chain conveyors; installation, repair, and maintenance of industrial robots for cargo handling and transport; installation, repair, and maintenance of conveying equipment; installation, repair, and maintenance of quantitative supply devices for bolts, nuts, and similar components; installation, repair, and maintenance of elevators (lifting apparatus); installation, repair, and maintenance of cargo handling machines and apparatus, and their parts and accessories; installation, repair, and maintenance of metalworking machines and apparatus, and their parts and accessories; installation, repair, and maintenance of conveyor drive units, and their parts and accessories; installation, repair, and maintenance of cargo transport machines; installation, repair, and maintenance of automatic assembly machines; installation, repair, and maintenance of automatic assembly and inspection apparatus for small parts; installation, repair, and maintenance of liquid crystal display manufacturing equipment; installation, repair, and maintenance of robots for metal processing; installation, repair, and maintenance of flat panel display manufacturing equipment; installation, repair, and maintenance of automatic assembly machines and apparatus for metal parts, automobile parts, electric parts, and other mechanical components; installation, repair, and maintenance of metalworking machines and apparatus; installation, repair, and maintenance of industrial robots and their parts and accessories; installation, repair, and maintenance of industrial robot arms and their parts and accessories; installation, repair, and maintenance of fastening devices for metal processing; installation, repair, and maintenance of fastening devices for plastic processing; installation, repair, and maintenance of fastening devices for repair purposes; installation, repair, and maintenance of automatic assembly devices for engines and their parts; installation, repair, and maintenance of automatic assembly devices for parts of ships, aircraft, spacecraft, railway vehicles, automobiles, motorcycles, and bicycles; installation, repair, and maintenance of automatic assembly devices for motors, inverters, batteries, and other drive devices; installation, repair, and maintenance of automatic assembly devices for prime movers and their parts; installation, repair, and maintenance of automatic assembly devices for transmissions and their parts; installation, repair, and maintenance of automatic assembly devices for construction machines, agricultural machines, and their parts; installation, repair, and maintenance of automatic assembly devices for industrial components; installation, repair, and maintenance of automatic assembly devices for electric washing machines, clothes dryers, heating and cooling apparatus, microwave ovens, electric ovens, lighting equipment, vending machines, electric fan heaters, refrigerators, and dishwashers/dryers; installation, repair, and maintenance of automatic assembly devices for household electrothermic appliances; installation, repair, and maintenance of automatic assembly devices for

prefabricated houses; installation, repair, and maintenance of automatic assembly devices for special materials for building and construction; installation, repair, and maintenance of automatic assembly devices for air-conditioning apparatus and their parts; installation, repair, and maintenance of automatic assembly devices for machine tools and their parts; installation, repair, and maintenance of automatic assembly devices for gas water heaters, gas stoves, gas fan heaters, gas heaters, gas air-conditioning apparatus, and their parts; installation, repair, and maintenance of automatic assembly devices for ceramic products; installation, repair, and maintenance of automatic assembly devices for food production, processing, and packaging machines and their parts; installation, repair, and maintenance of automatic assembly devices for wire harnesses and their parts; installation, repair, and maintenance of automatic assembly machines for power supply units; installation, repair, and maintenance of automatic assembly machines for liquid crystal panels and circuit boards; installation, repair, and maintenance of industrial robots for assembling and manufacturing engines and their parts; installation, repair, and maintenance of industrial robots for assembling and manufacturing parts of ships, aircraft, spacecraft, railway vehicles, automobiles, motorcycles, and bicycles; installation, repair, and maintenance of industrial robots for assembling and manufacturing motors, inverters, batteries, and other drive units; installation, repair, and maintenance of industrial robots for assembling and manufacturing prime movers and their parts; installation, repair, and maintenance of industrial robots for assembling and manufacturing transmissions and their parts; installation, repair, and maintenance of industrial robots for assembling and manufacturing industrial machines and their parts; installation, repair, and maintenance of industrial robots for assembling and manufacturing construction machines, agricultural machines, and parts thereof; installation, repair, and maintenance of industrial robots for assembling and manufacturing industrial parts; installation, repair, and maintenance of industrial robots for assembling and manufacturing electric washing machines, clothes dryers, heating and cooling apparatus, microwave ovens, electric ovens, lighting apparatus, vending machines, electric fan heaters, refrigerators, and dishwashers with drying functions; installation, repair, and maintenance of industrial robots for assembling and manufacturing household electrothermic appliances; installation, repair, and maintenance of industrial robots for assembling and manufacturing prefabricated houses; installation, repair, and maintenance of industrial robots for assembling and manufacturing special materials for building and construction use; installation, repair, and maintenance of industrial robots for assembling and manufacturing air-conditioning apparatus and their parts; installation, repair, and maintenance of industrial robots for assembling and manufacturing machine tools and their parts; installation, repair, and maintenance of industrial robots for assembling and manufacturing gas water heaters, gas stoves, gas fan heaters, gas heaters, gas air-conditioning apparatus, and their parts; installation, repair, and maintenance of industrial robots for assembling and manufacturing ceramic products; installation, repair, and maintenance of industrial robots for assembling and manufacturing machines for producing, processing, and packaging food and their parts; installation, repair, and maintenance of industrial robots for assembling and manufacturing wire harnesses and their parts; installation, repair, and maintenance of industrial robots for assembling and manufacturing power supply units; installation, repair, and maintenance of industrial robots for assembling and manufacturing liquid crystal panels and circuit boards; installation, repair, and maintenance of welding robots; installation, repair, and maintenance of arc welding apparatus; installation, repair, and maintenance of electric welding apparatus; installation, repair, and maintenance of gas welding apparatus; installation, repair, and maintenance of laser welding apparatus; installation, repair, and maintenance of inspection apparatus for engines and their parts; installation, repair, and maintenance of inspection apparatus for parts of ships, aircraft, spacecraft, railway vehicles, automobiles, motorcycles, and bicycles; installation, repair, and maintenance of inspection apparatus for motors, inverters, batteries, and other drive units; installation, repair, and maintenance of inspection apparatus for prime movers and their parts; installation, repair, and maintenance of inspection apparatus for transmissions and their parts; installation, repair, and maintenance of inspection apparatus for industrial machines and their parts; installation, repair, and maintenance of inspection apparatus for construction machines, agricultural machines, and parts thereof; installation, repair, and maintenance of inspection apparatus for industrial parts; installation, repair, and maintenance of inspection apparatus for electric washing machines, clothes dryers, heating and cooling apparatus, microwave ovens, electric ovens, lighting apparatus, vending machines, electric fan heaters, refrigerators, and dishwashers with drying functions; installation, repair, and maintenance of inspection apparatus for electric household heating appliances; installation, repair, and maintenance of inspection apparatus for prefabricated houses; installation, repair, and maintenance of inspection apparatus for special materials for building and construction use; installation, repair, and maintenance of inspection apparatus for air-conditioning apparatus and their parts; installation, repair, and maintenance of inspection apparatus for machine tools and their parts; installation, repair, and maintenance of inspection apparatus for gas water heaters, gas stoves, gas fan heaters, gas heaters, gas air-conditioning apparatus, and their parts; installation, repair, and maintenance of inspection apparatus for ceramic products; installation, repair, and maintenance of inspection apparatus for machines for producing, processing, and packaging food and their parts; installation, repair, and maintenance of inspection apparatus for wire harnesses and their parts; Class 9:

Downloadable software for collecting, processing, analyzing, transmitting, validating and displaying data in the health, nutrition, wellness, medical, scientific, and pharmaceutical fields; downloadable software for monitoring, tracking, and analyzing health data, medical data, genetic data, movement data, nutritional data, wellness data, geographic data, health risk data, and demographic data for use in connection with clinical trials, research studies, and health management and treatment; downloadable software using artificial intelligence for monitoring, tracking, and analyzing health data, medical data, genetic data, movement data, nutritional data, wellness data, geographic data, health risk data, and demographic data for use in connection with clinical trials, research studies, and health management and treatment; downloadable software for diet and exercise planning, mental health support, symptom evaluation, medication optimization, personalized health insights, disease and treatment management, vaccination tracking, appointment scheduling, and setting and monitoring individual health goals; downloadable software using artificial intelligence for diet and exercise planning, mental health support, symptom evaluation, medication optimization, personalized health insights, disease and treatment management, vaccination tracking, appointment scheduling, and setting and monitoring individual health goals; downloadable chatbot software using artificial intelligence for personalized health and medical recommendations, diet and exercise planning, mental health support, symptom evaluation, medication optimization, personalized health insights, disease and treatment management, vaccination tracking, and setting and monitoring individual health goals; downloadable software for accessing and refreshing patient medical records from health information exchanges; downloadable software for data processing and analysis for use with medical clinical trials, research studies, and health management and treatment; downloadable software for clinical trial data collection, storage, and analysis; downloadable software using artificial intelligence for identifying and enrolling in clinical trials and eligible research opportunities based on patient medical history and individual health status; downloadable software to support treatment between a patient and provider, namely, software for sharing patient files and healthcare data; downloadable software using artificial intelligence for the capture and analysis of health data to improve patient care; downloadable software for data analytics using artificial intelligence in the fields of drug discovery, personalized medicine and patient care pathways; downloadable software for patient case management using artificial intelligence for viewing and sharing patient health information, performing healthcare data analytics, generating patient insights, and managing patient care; downloadable software for using surgical equipment, namely, software for operating, controlling, monitoring, and analyzing and processing data from surgical equipment; downloadable video files in the fields of health, nutrition, wellness, medicine, scientific, and pharmaceuticals; downloadable printable educational materials in the fields of health, nutrition, wellness, medicine, scientific, and pharmaceuticals; downloadable software for identity and authorization management in the health, medical, scientific and pharmaceutical fields; downloadable application programming interface (API) software; downloadable computer software for use as an application programming interface (API); downloadable computer software for application and database integration.

Class 10:
Wearable medical technological devices for the detection, monitoring, and management of biomarkers and health and physiological data, namely, wearable activity and biometric data trackers, wearable monitors and medical apparatus and instruments for monitoring vital signs, blood properties and respiratory properties and events; all the foregoing for medical use.

Class 16:
Printed publications, namely, brochures, journals, reports, newsletters, booklets, magazines and teaching materials in the fields of health, nutrition, medicine, science, pharmaceuticals, and technology.

Class 35:
Promoting public interest and awareness of issues, developments, and topics in the fields of health, nutrition, medicine, science, pharmaceuticals, and technology; data processing services in the field of healthcare; health care cost management and review services; managed care services, namely, electronic processing of healthcare information; updating and maintenance of information in registries; patient relationship management services.

Class 38:
Telecommunication services, namely, transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the internet; transmission of voice, data, graphics, images, audio and video related to health by means of telecommunications networks, wireless communication networks, and the Internet via a telecommunications platform; electronic transmission of messages and data; transmission of information by electronic communications networks; providing access to databases; providing access to databases featuring patient health data; providing access to databases featuring medical research data; providing access to databases featuring clinical trial data; providing access to databases featuring health data, medical data, genetic data, movement data, nutritional data, wellness data, geographic data, health risk data, and demographic data.

Class 41:
Online publication of and providing non-downloadable publications in the nature of articles and presentations in the fields of health, nutrition, wellness, medicine, science, and pharmaceuticals via a website; providing non-downloadable educational videos in the fields of health, nutrition, wellness, medicine, science, and pharmaceuticals via a website; providing online non-downloadable educational videos in the fields of health, nutrition, wellness, medicine, science, and pharmaceuticals; online personal coaching services in the fields of health, nutrition, wellness, medicine, science, and pharmaceuticals.

Class 42:
Software as a service (SAAS) featuring software for collecting, processing, analyzing, transmitting, validating and displaying data in the health, nutrition, wellness, medical, scientific, and pharmaceutical fields; software as a service (SAAS) featuring software for monitoring, tracking, and analyzing health, medical, genetic, movement, nutritional, wellness, geographic, health risk, and demographic data for use in connection with clinical trials, research studies, and health

management and treatment; software as a service (SAAS) featuring software using artificial intelligence (AI) for monitoring, tracking, and analyzing health, medical, genetic, movement, nutritional, wellness, geographic, health risk, and demographic data for use in connection with clinical trials, research studies, and health management and treatment; software as a service (SAAS) featuring software for diet and exercise planning, mental health support, symptom evaluation, medication optimization, personalized health insights, disease and treatment management, vaccination tracking, appointment scheduling, and setting and monitoring individual health goals; software as a service (SAAS) featuring software using artificial intelligence (AI) for diet and exercise planning, mental health support, symptom evaluation, medication optimization, personalized health insights, disease and treatment management, vaccination tracking, appointment scheduling, and setting and monitoring individual health goals; providing temporary use of online non-downloadable chatbot software using artificial intelligence (AI) for personalized health and medical recommendations, diet and exercise planning, mental health support, symptom evaluation, medication optimization, personalized health insights, disease and treatment management, vaccination tracking, and setting and monitoring individual health goals; software as a service (SAAS) featuring software for accessing and refreshing patient medical records from health information exchanges; software as a service (SAAS) featuring software for data processing and analysis for use with medical clinical trials, research studies, and health management and treatment; software as a service (SAAS) featuring software for clinical trial data collection, storage, and analysis; software as a service (SAAS) featuring software using artificial intelligence (AI) for identifying and enrolling in clinical trials and eligible research opportunities based on patient medical history and individual health status; software as a service (SAAS) featuring software for supporting treatment between a patient and provider, namely, software for sharing patient files and healthcare data; software as a service (SAAS) featuring software using artificial intelligence (AI) for the capture and analysis of health data to improve patient care; software as a service (SAAS) featuring software using artificial intelligence (AI) for data analytics in the fields of drug discovery, personalized medicine and patient care pathways; software as a service (SAAS) featuring software using artificial intelligence (AI) for patient case management for viewing and sharing patient health information, performing healthcare data analytics, generating patient insights, and managing patient care; software as a service (SAAS) featuring software for using surgical equipment; software as a service (SAAS) featuring software for identity and authorization management in the health, medical, scientific and pharmaceutical fields; application service provider featuring application programming interface (API) software; providing online non-downloadable software that enables users to enter, access, track, monitor and generate health and medical information and reports via an interactive website; medical research.

Class 44:
Providing information about health and the management of health conditions; healthcare advisory services; healthcare services in the nature of real time medical diagnosis support services, health recommendations using artificial intelligence, and treatment tracking using artificial intelligence, algorithm-based machine learning, and analysis technologies; medical advisory services; medical counseling; medical services; healthcare; providing healthcare information; online medical consultations rendered in virtual environments; provision of health care and medical services by health care professionals via the internet or telecommunication networks; providing personalized healthcare and medical information in the fields of mental health, physical health, nutrition, wellness, diet and exercise, symptom, disease, and treatment management; providing personalized healthcare and medical information for use in optimizing the use of medication for health and wellness treatments by offering data featuring health, medical, genetic, movement, nutritional, wellness, geographic, health risk, and demographic information; medical services in the nature of providing health data analytics and care delivery data analytics and insights to patients, doctors, hospitals, and medical professionals for diagnostic and treatment purposes from a database; medical diagnostic testing, monitoring, and reporting services; medical testing and analysis for diagnostic and population health purposes provided by medical laboratories in the fields of oncology and virology; medical services, namely, screening, diagnosing or grading the severity of a disease or health condition based on image data; medical analysis services for diagnostic and treatment purposes provided by medical laboratories.

Class 7:
Windmills for generating energy; rotors; generators; gears; bearings; motors; wind turbines, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; machine coupling and transmission components and parts therefor (other than for land vehicles), in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; mills (machines), in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; electric driving motors for mills, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; wind turbines, in particular those fitted with sensors for recording of operating

conditions, functional controls and status controls; generators, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; wind-powered electricity generators, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; gear boxes, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls, other than for land vehicles; gear box casings, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls, other than for land vehicles; motors and engines, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls, other than for land vehicles; brakes, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls, other than for land vehicles; safety couplings, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; torque limiting elements for couplings, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; cam sprockets, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; belt pulleys, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls, in particular belt pulleys for timing belts and V-belts, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; chains for power engines and drive units, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls, and starters therefor, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls (other than for land vehicles); articulated chains, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; link chains for continuously variable transmissions, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; torque limiters, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; clamping elements, in particular being equipped with sensors for collecting operating statuses, function and status checks, in particular clamping elements for couplings, in particular being equipped with sensors for collecting operating statuses, function and status checks, wheel sprocket gears, in particular being equipped with sensors for collecting operating statuses, function and status checks and belt pulleys, in particular being equipped with sensors for collecting operating statuses, function and status checks; drive trains, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; clamping elements for drive units, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; chain clamping elements, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; timing belts, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; V-belts, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; cone clamping elements, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; hub clamping elements, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; clamping elements for foundation bolts, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; clamping elements for screw threading, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; electromechanical clamping elements, in particular those fitted with sensors for recording of operating conditions, functional controls and status controls; parts of machines, in particular being equipped with sensors for collecting operating statuses, function and status checks, namely axles, insert and discharge apparatus, cams, linkages, casings, casing covers, frames for machines, stands for machines, machine beddings, connecting and piston rods, camshafts, cams, cranks, crank shafts, grooved pulleys, sheaves, belt tensioners, friction couplings, magnetic couplings, shaft couplings, brakes and brake linings, coupling and brake operating levers, bearings, pillow blocks, bearing caps, lubricating rings, standing and hanger bearings, ball-bearings, needle bearings, roller bearings, oilers, grease guns, grease presses, stuffing boxes, bevel wheels, worm wheels, worm gears, frictional wheels, wheelwork, fly-wheels, flywheels, mechanical speed controls, pneumatic, hydraulic and mechanical controlling devices for machines, valve controllers, valves for steam engines and power machinery, gear drives, stepless variators, variators, the aforesaid goods in particular being equipped with sensors for collecting operating statuses, function and status checks; belts and machine parts, namely, driving belts for machines, V-belts for machines, flat belts for machines, link belts for machines, and wide V-belts for machines, machine belt connectors, elastic clutch packs, other than for land vehicles, machine parts, namely, sleeves and discs, all the aforesaid goods in particular fitted with sensors for recording of operating conditions, functional controls and status controls.

Class 9:
Regulating, control and monitoring apparatus, devices and instruments, in particular for windmills for generating energy, rotors, generators and transmissions; sensors and software for recording, monitoring, function checking, maintenance, servicing, inspection, tracking, access control, optimisation of the lifecycle and reliability of couplings, transmissions, generators, machines and engines.

Class 35:
Collection, compilation and systemisation of data, management of data, compilation of statistics for the purposes of monitoring, maintaining, servicing and adjusting machine parts, couplings and gears and electronic controls for machines, machine parts, electronic controls, machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles, gear box casings, other than for land vehicles, motors and engines, other than for land vehicles, brakes, other than for land vehicles, safety couplings, torque limiting elements for couplings, cam sprockets, belt pulleys, in particular belt pulleys for timing belts and V-belts, chains for power engines and drive units and starters therefor (other than for land vehicles), articulated chains, link chains for continuously variable transmissions, torque limiters, clamping elements, in particular clamping elements for couplings, sprocket

gears and belt pulleys, drive trains, clamping elements for drive units, chain clamping elements, timing belts, V-belts, cone clamping elements, hub clamping elements, clamping elements for foundation bolts, clamping elements for screw threads, electromechanical clamping elements, machine parts, namely axles, engaging and disengaging devices, tappets, rods, housings, housing covers, machine frames, stands for machines, machine beds, connecting rods and piston rods, cam shafts, cams, cranks, crank shafts, V-belt pulleys, pulleys, belt tensioners, friction couplings, magnetic couplings, shaft couplings, brakes and brake linings, clutch and brake levers, bearings, bearing brackets, bearing shells, ring lubrication bearings, pedestal bearings and hanging bearings, roller bearings, needle bearings, roller bearings, oils, lubrication guns, grease guns, stuffing boxes, bevel wheels, worm wheels, worm gears, friction wheels, toothed wheels, flywheels, disc flywheels, cruise control apparatus, controls, valve operators, valves for steam engines and power engines, toothed gear transmissions, continuously variable transmissions, variators, saddlery, belts and leather goods for technical purposes, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, sealing washers, gaskets, sleeves, discs and electronic controls, in particular for the purposes of monitoring, maintenance, servicing, optimising the service life and reliability and adapting the aforesaid goods by means of software.

Class 37:
Repair and maintenance of machines, machine parts and electronic controls; consultancy relating to the maintenance and repair of machines, machine parts and electronic controls; repair and maintenance of wind turbines, in particular electrical generators and gears; installation of couplings and gear boxes; cleaning, repair and maintenance of couplings and gear boxes; repair and maintenance of sensors for recording of operating conditions, functional controls and status controls; repair and maintenance of machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles, gear box casings, other than for land vehicles, motors and engines, other than for land vehicles, brakes, other than for land vehicles, safety couplings, torque limiting elements for couplings, cam sprockets, belt pulleys, in particular belt pulleys for timing belts and V-belts, chains for power engines and drive units and starters therefor (other than for land vehicles), articulated chains, link chains for continuously variable transmissions, torque limiters, clamping elements, in particular clamping elements for couplings, sprocket gears and belt pulleys, drive trains, clamping elements for drive units, chain clamping elements, timing belts, V-belts, cone clamping elements, hub clamping elements, clamping elements for foundation bolts, clamping elements for screw threading, electromechanical clamping elements, machine parts, namely axles, engaging and disengaging devices, tappets, rods, housings, housing covers, machine frames, stands for machines, machine beds, connecting rods and piston rods, cam shafts, cams, cranks, crank shafts, V-belt pulleys, pulleys, belt tensioners, friction couplings, magnetic couplings, shaft couplings, brakes and brake linings, clutch and brake levers, bearings, bearing brackets, bearing shells, ring lubrication bearings, pedestal bearings and hanging bearings, roller bearings, needle bearings, roller bearings, oils, lubrication guns, grease guns, stuffing boxes, bevel wheels, worm wheels, worm gears, friction wheels, toothed wheels, flywheels, disc flywheels, cruise control apparatus, controls, valve operators, valves for steam engines and power engines, toothed gear transmissions, continuously variable transmissions, variators, saddlery, belts and leather goods for technical purposes, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, sealing washers, gaskets, sleeves, discs; maintenance of wind turbines, in particular electric generators and gears; maintenance of sensors for recording of operating conditions, functional controls and status controls; maintenance of machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles; custom installation of sensors for collecting operating statuses, function and status checks; custom installation of the following goods: machine coupling and transmission components and related parts, other than for land vehicles, gears and related parts, other than for land vehicles, in particular gearboxes for machines [other than land vehicle], in particular gears for mills, machinery, namely mills, electric drive motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles, gear boxes, other than for land vehicles, motor and engines (except for land vehicles), brakes, other than for land vehicles, safety couplings, torque limiting elements for couplings, chainwheels, belt pulleys, in particular belt pulleys for timing belts and fan belts, chains for power and drive machines and starters therefor, other than for land vehicles, articulated chains, link chains for continuously adjustable gears, torque limiters, clamping elements, in particular clamping elements for couplings, chain wheel gears and belt pulleys, powertrains, clamping elements for drives, chain clamping elements, timing belts, V-belts, conical clamping elements, grain clamping elements, clamping elements for foundation bolts, clamping elements for threads, electromechanical clamping elements, machine parts, namely axles, insert and discharge apparatus, cams, rods, housings, casing covers, machine frames, stands for machines, machine beddings, connecting and piston rods, cam shafts, cams, cranks, crankshafts, V-belt pulleys, pulleys, belt tensioners, friction clutches, magnetic couplings, shaft couplings, brakes and brake pads, coupling and brake operating levers, bearings, bearing blocks, bearing shells, lubricating rings [parts of machines], standing and hanger bearings, linear ball bearings, needle bearings, roller bearings, oilers, grease guns, grease presses, stuffing boxes, bevel wheels, worm wheels, screws, friction wheels, gearwheels, steering wheels, flywheels, speed regulators, controlling devices, valve operators, valves for steam and power machinery, gear drives, stepless gears, variators, belts and machine parts, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic coupling packages, gaskets, water-tight rings, cuff links; all the aforesaid in particular for the purpose of viewing, monitoring and optimising the lifetime and reliability of machines, parts of machines and electronic controllers.

Class 40:
Custom manufacture of the following goods: machines, parts for machines and electronic controls; custom manufacture of

the following goods: wind powered equipment, in particular current generators and transmission gearboxes; custom manufacture of sensors for collecting operating statuses, function and status checks; custom manufacture of the following goods: couplings and power transmission devices and related parts, not for land vehicles, transmission gearboxes and related parts, not for land vehicles, in particular gears for machines, not for land vehicles, in particular gears for mills, machines, namely mills, electric drive motors for mills, wind turbines, generators, wind generators, gear casings, not for land vehicles, gear box casings, not for land vehicles, engines, not for land vehicles, brakes, not for land vehicles, safety couplings, torque limiting elements for couplings, sprockets, pulleys, in particular belt pulleys for timing belts and fan belts, chains for power and drive machines and starters therefor, not for land vehicles, articulated chains, link chains for continuously adjustable gears, torque limiters, clamping elements, in particular clamping elements for couplings, sprocket gears and pulleys, powertrains, clamping elements for drives, chain clamping elements, timing belts, V-belts, conical clamping elements, grain clamping elements, clamping elements for foundation bolts, clamping elements for threads, electromechanical clamping elements, parts for machines, namely axles, insert and discharge apparatus, cams, rods, casings, casing covers, machine frames, machine stands, machine beds, connecting and piston rods, cam shafts, cams, cranks, crank shafts, V-belt pulleys, pulleys, belt tensioners, friction clutches, magnetic couplings, shaft couplings, brakes and brake linings, coupling and brake operating levers, bearings, bearing brackets, bearing shells, ring lubricating, standing and hanger bearings, ball bearings, needle bearings, roller bearings, oilers, grease guns, grease presses, stuffing boxes, bevel wheels, worm wheels, screws, friction wheels, gears, flywheels, damper plates, velocity controllers, controlling, valve operators, valves for steam and power machinery, gear drives, stepless gears, variators, belts and machine parts, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic coupling packages, gaskets, sealing rings, cuff links, disks.

Class 42:
Development of machine, machine parts and electronic controls; monitoring and inspection of machines, machine parts and electronic controls, in particular with regard to their service life; technological advice relating to the construction of machines, machine parts and electronic controls; IT services, namely the development, programming and implementation of software for selecting drive mechanisms and for monitoring and functional and status control of electric, electronic and mechanical equipment or systems, machines, machine parts and electronic controls, in particular for the purposes of inspecting, monitoring and optimising the service life and reliability of machines, machine parts and electronic controls; computer system analysis for the purposes of monitoring, maintenance, servicing and adaptation of machines, machine parts and electronic controls, in particular with regard to their service life; consultancy in relation to computer system analysis for the purposes of monitoring, maintenance, servicing and adaptation of machines, machine parts and electronic controls, in particular with regard to their service life; electronic storage and protection of data relating to the monitoring, maintenance, servicing and adaptation of machines, machine parts and electronic controls; development, technological advice, monitoring and inspection of wind turbines, in particular electric generators and gears; technical analysis of data for planning and operating couplings and gears; rental of computer hardware and providing online non-downloadable software for compiling and analysing data for planning and operating commercial and industrial installations, in particular couplings and gear boxes; cloud computing and technological consultancy for operating couplings and gear boxes; technological services to optimise the operation of clutches and gears; technical advice on and development, monitoring and inspection of sensors for recording of operating conditions, functional controls and status controls; technical advice on and development, monitoring and inspection of machine coupling and transmission components and parts therefor (other than for land vehicles), gears and parts therefor (other than for land vehicles), in particular gears for machines (other than for land vehicles), in particular gears for mills, mills (machines), electric driving motors for mills, wind turbines, generators, wind-powered electricity generators, gear boxes, other than for land vehicles, gear box casings, other than for land vehicles, motors and engines, other than for land vehicles, brakes, other than for land vehicles, safety couplings, torque limiting elements for couplings, cam sprockets, belt pulleys, in particular belt pulleys for timing belts and V-belts, chains for power engines and drive units and starters therefor (other than for land vehicles), articulated chains, link chains for continuously variable transmissions, torque limiters, clamping elements, in particular clamping elements for couplings, sprocket gears and belt pulleys, drive trains, clamping elements for drive units, chain clamping elements, timing belts, V-belts, cone clamping elements, hub clamping elements, clamping elements for foundation bolts, clamping elements for screw threading, electromechanical clamping elements, machine parts, namely axles, engaging and disengaging devices, tappets, rods, housings, housing covers, machine frames, stands for machines, machine beds, connecting rods and piston rods, cam shafts, cams, cranks, crank shafts, v-belt pulleys, pulleys, belt tensioners, friction couplings, magnetic couplings, shaft couplings, brakes and brake linings, clutch and brake levers, bearings, bearing brackets, bearing shells, ring lubrication bearings, pedestal bearings and hanging bearings, roller bearings, needle bearings, roller bearings, oils, lubrication guns, grease guns, stuffing boxes, bevel wheels, worm wheels, worm gears, friction wheels, toothed wheels, flywheels, disc flywheels, cruise control apparatus, controls, valve operators, valves for steam engines and power engines, toothed gear transmissions, continuously variable transmissions, variators, saddlery, belts and leather goods for technical purposes, namely driving belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, sealing washers, gaskets, sleeves, discs; machine condition monitoring and technical diagnostic status checks by means of sensors of the following goods: couplings and transmission components and related parts, except for land vehicles, gears and gearing and related parts, except for land vehicles, in particular gearboxes for machines, except for land vehicles, in particular gears for mills, machinery, namely mills, electric drive motors for mills, wind turbines, generators, wind-powered generators, gear casings, except for land vehicles, transmission cases, except for land vehicles, engines and motors, except for land vehicles, brakes, except for land vehicles, safety couplings, torque limiting elements for couplings, chainwheels, belt pulleys, in particular belt pulleys for timing belts and fan belts, chains for power and drive machines and starters therefor, except for land vehicles, articulated chains, link chains for continuously adjustable gears, torque limiters, clamping

elements, in particular clamping elements for couplings, chain wheel gears and belt pulleys, powertrains, clamping elements for drives, chain clamping elements, timing belts, V-belts, conical clamping elements, grain clamping elements, clamping elements for foundation bolts, clamping elements for threads, electromechanical clamping elements, machine parts, namely axles, insert and discharge apparatus, cams, rods, casings, casing covers, machine frames, machine stands, machine beds, connecting and piston rods, camshafts, cams, cranks, crank shafts, v-belt pulleys, pulleys, belt tensioners, friction clutches, magnetic couplings, shaft couplings, brakes and brake linings, coupling and brake operating levers, bearings, bearing brackets, bearing shells, ring lubricating, standing and hanger bearings, ball-bearings, needle bearings, roller bearings, oilers, grease guns, grease presses, stuffing boxes, bevel wheels, worm wheels, screws, friction wheels, toothed wheels, fly wheels, damper plates, velocity controllers, controlling devices, valve operators, valves for steam and power machinery, gear drives, continuously variable transmission systems, variators, belts and machine parts, namely machine belts, V-belts, flat belts, link belts, wide V-belts, belt connectors, elastic clutch packs, gaskets, stuffing rings, cuff links; all the above in particular for the purposes of inspecting, monitoring and optimising the service life and reliability of machines, machine parts and electronic controls, electronic storage and protection of data relating to the monitoring, maintenance, servicing and adaptation of machines, machine parts and electronic controls.
