List of cases accepted for opposition purposes as shown in Journal 2025/035 published on 29 August 2025.

**Printed list of International marks accepted for
opposition purposes as shown in Trade Marks
Journal No 2025/035 published 29 August 2025.**

**Please note that the opposition period for the trade marks contained in
this printed list began on 29 August 2025.**

Printed List of International Registrations filed under the Madrid Protocol Published for Opposition Purposes Under the 1994 Act

For the purposes of non-use revocation, the relevant protection date is the date that protection is conferred on the trade mark in the United Kingdom following the expiry of the opposition period, if no objections are filed and if no opposition arises.

Class 9:

Scientific, nautical and measuring apparatus and instruments; meteorological and oceanographic data collection apparatus and instruments; offshore wind-profile measuring instruments; wind measurement sensors; atmospheric pressure sensors; air and ocean temperature measuring apparatus; ocean current meters; wave measuring apparatus; underwater acoustic detection apparatus and instruments; water quality sensors; environmental parameter monitoring instruments for offshore use.

Class 35:

Advertising; commercial business management; commercial administration; office functions; data management services relating to meteorological and oceanographic information; compilation and systematization of environmental data in computer databases; business data analysis services for offshore wind-energy activities; market research services using environmental data for the offshore energy sector; business consulting services related to the use of data for offshore wind energy; retail and wholesale services in relation to meteorological and oceanographic data; meteorological and oceanographic data collection and processing services; processing and analysis services for meteorological parameters such as wind profile, temperature, atmospheric pressure; processing and analysis services for oceanographic parameters such as currents, waves, salinity, and environmental parameters such as water quality, sound, the presence of animals.

Class 42:

Scientific and technological services as well as research and design services relating thereto; environmental monitoring services for offshore wind energy; scientific analysis of data on wind profiles, atmospheric pressure, temperature and ocean parameters; technical analysis of data for offshore wind-energy activities; design and development of meteorological and oceanographic data collection equipment; scientific research services in the field of offshore environmental conditions; online provision of software for visualization and analysis of meteorological and oceanographic data; technical consulting services relating to environmental data collection and analysis for offshore wind-energy projects.

microcomputing apparatus; microcomputing instruments; microelectronic components; microprocessors; minicomputers; multiplexers; multiplexers for recording data; multiplexers for use in the alternate transmission of voice signals; network management apparatus; network protection devices, electric; network protection devices, electronic; networks for the interconnection of communication systems; optical data carriers; optical data media; optical data receiving apparatus; optical data recording apparatus; optical data reproducing apparatus; optical data storage apparatus; optical data storage drives; optical data transmission systems; portable computers; power stabilisers; power supplies for computers; power switches; power system meters; power testers; power units for supplying electrical current; regulated power supply apparatus; regulating apparatus, electric; regulating transformers; remote monitoring apparatus; repeaters; secure microprocessors; secure transmission apparatus; secure transmission instruments; security tokens [encryption devices]; solid state drives; solid-state component relays; solid-state devices; solid-state electrical apparatus for storing computer programs; solid-state memories; solid-state memory devices; telecommunication exchangers; telecommunication machines and apparatus; telecommunication switches; telecommunications equipment; uninterruptible electrical power supplies; uninterruptible power supply apparatus [battery]; uninterruptible power supply instruments; units for converting information received in machine readable format; units for decoding information received in machine readable format; units for displaying information received in machine readable format; usb adapters; usb dongles [wireless network adapters]; usb flash drives; usb hubs; usb port cards; usb web keys; utility programs for performing computer system diagnostics; webcams; wide area networks; wired communication apparatus; wireless communication apparatus; wireless transmission apparatus; work stations [computer apparatus]; work stations [computers]; communication apparatus.

Class 35:

Advice relating to personnel management; advisory services relating to data processing; analysis of business data; analysis of market research data and statistics; automated data processing; business consultancy relating to the administration of information technology; business consultancy services relating to data processing; business data analysis; business efficiency advice; business management and administration services supporting utilisation of a global computer network; business organisation and management consultancy in the field of personnel management; business process management and consulting; business risk assessment services; business risk management consultancy; business risk management services; collating of data in computer databases; collection of data; collection of personnel information; commercial information services provided by access to a computer database; company data information services; company record-keeping; compilation and systemization of information into computer databases; compilation of business data; compilation of business statistics and commercial information; compilation of indexed addresses; compilation of information into computer databases; compiling of information into computer databases; computer data entry services; computer data processing; computerised business records keeping; computerised data processing; computerised data verification; computerised database management; computerised file management; computerised office management; consultancy

relating to personnel management; consultancy relating to business efficiency; consultancy relating to data processing; consultancy relating to personnel recruitment; consultancy relating to the selection of personnel; data collection for others; data compilation for others; data entry services; data handling; data management; data management advice; data management consultancy; data preparation [office functions]; data processing; data processing for the collection of data for business purposes; data processing verification; data retrieval [office functions]; data search in computer files for others; data transcription; database management; database marketing; electronic data processing; evaluation of personnel requirements; information retrieval [office functions]; maintenance of personnel records for others; management and compilation of computerised databases; market research data collection services; market research data retrieval services; online data processing services; providing business information, also via internet, the cable network or other forms of data transfer; provision of business data; recruitment and personnel management services; registration of written communications and data; selection of staff; statistical analysis and reporting services for business purposes; systematization of data in computer databases; systemization of information into computer databases; tracking and monitoring energy consumption for others for account auditing purposes; updating and maintenance of data in computer databases; duplication of electronic documents; electronic document duplicating.

Class 36:

Building leasing; lease financing of telecommunication equipment; leasing of buildings; leasing or renting of buildings; management of buildings; providing information relating to the rental of buildings; real estate management services relating to industrial premises; rental of buildings; financial information processing; financial information provided by electronic means; providing financial information by means of a computer database; providing on-line stock exchange information from a computer database or the internet; provision of information and data concerning stock exchanges; leasing of office space, namely leasing of rack space and purpose-built high specification space to facilitate the housing of telecommunication or computer-related equipment and services.

Class 37:

Installation of data network apparatus; installation of data processing apparatus; installation of electric light and power systems; installation of electronic and digital connection to a call centre; installation of security and safety equipment; installation of security systems; maintenance and repair of data communications networks; maintenance and repair of data processing apparatus; maintenance and repair of hardware for data processing apparatus; maintenance and servicing of data processing installations; building and construction of real estate subdivisions and developments; building maintenance and repair; commissioning [installation and maintenance] services; computer installation and repair; custom construction of buildings; diagnostic maintenance services; electric appliance installation and repair; electrical wiring services; installation and repair of telecommunication apparatus; installation of apparatus for air-conditioning; installation of apparatus for ventilating; installation of clean room environmental control systems; installation of clean room systems; installation of communication equipment; installation of communications

List of cases accepted for opposition purposes as shown in Journal 2025/035 published on 29 August 2025 .

network apparatus; installation of communications network instruments; installation of computer hardware; installation of hardware for computer systems; installation of computerised information systems; installation of computers; installation of electricity generators; installation of electronic apparatus; installation of energy-saving apparatus; installation of environmental control systems; installation of environmental protection systems; installation of hardware and cables for internet access; installation of hardware for computer systems; installation of heating and cooling apparatus; installation of storage facilities; installation of telecommunications apparatus; installation of ventilation and dust extraction systems; installation, maintenance and repair of computer hardware; installation, repair and maintenance of computers and computer peripherals; installing of electronic communications networks; installing of telecommunications networks; interference suppression in electrical apparatus; maintenance and repair of communications systems; maintenance and repair of computer hardware; maintenance and repair of computers; maintenance and repair of cooling appliances and installations; maintenance and repair of telecommunications apparatus; property development [building and construction services]; property maintenance; providing information relating to the repair or maintenance of telecommunication machines and apparatus; repair and maintenance of computer and telecommunications hardware; repair of electrical equipment and electrotechnical installations; repair of electronic apparatus; repair or maintenance of telecommunication machines and apparatus.

Class 38:

Telecommunications services; advisory and consultancy services relating to wireless communications; advisory services relating to communications equipment; advisory services relating to telecommunications; automatic transfer of digital data using telecommunications channels; broadcast transmission by satellite; broadcasting services; cable broadcasting and transmission; cable transmission of sounds, images, signals and data; call centre services [electronic call diversion and messaging]; communication between computers; communication by computer; communication by computer terminals; communication by electronic means; communication of data by means of telecommunications; communication of information by satellite; communication services between data banks; communication services by cable; communication services by electronic means; communication services by radio; communication services for the electronic transmission of data; communication services for the transmission of information; communication services over computer networks; communication services provided electronically; communication services, namely, electronic transmission of data and documents among users of computers; communication via computer terminals, by digital transmission or by satellite; communication via fibre-optic networks; communications services for accessing a database; communications services for the exchange of data in electronic form; communications services provided over the internet; communications via analogue and digital computer terminals; communications via multinational telecommunication networks; computer aided transmission of messages, data and images; computer data transmission services; computer network communication services; computerised data communications; consultancy in the field of telecommunications; consultancy services relating to communications; consultancy services

relating to data communications; data broadcasting services; data communication services; data streaming; data transfer services; data transmission; data transmission and reception services via telecommunication means; data transmission for others; data transmission services; data transmission services between networked computer systems; data transmission services over telecommunications networks; data transmission via telematic networks; digital network telecommunications services; digital transmission of data; digital transmission of data via the internet; digital transmission services; digital transmission services for audio and video data; electronic communication services; electronic communication services for the transmission of data; electronic data communications; electronic data exchange services; electronic data interchange [edi] services; electronic data transmission; electronic exchange of data stored in databases accessible via telecommunication networks; electronic transmission and retransmission of sounds, images, documents, messages and data; electronic transmission of data; electronic transmission of data and documents via computer terminals and electronic devices; electronic transmission of messages and data; fiber optic telecommunications services; geolocation services [telecommunications services]; high bit-rate data transmission services for telecommunication network operators; hire of communications apparatus; hire of electronic mail boxes; hire of telecommunications apparatus; hire of telecommunications installations; hire of telecommunications instruments; information services relating to broadcasting; information services relating to electronic communication networks; information services relating to telecommunications; internet access provider services; internet broadcasting services; internet communication services; internet portal services; internet service provider [isp] services; leasing of access time to a computer database; leasing of access time to global computer networks; leasing of telecommunication equipment; netcasting [broadcasting over a global computer network]; network transmission of sounds, images, signals and data; news agency services for electronic transmission; operating of electronic communications networks; operating of electronic communications systems; operation of cellular communications systems; operation of local area networks; operation of telecommunications apparatus; operation of telecommunications systems; providing access to computer networks; providing access to computer software; providing access to databases; providing access to information on the internet; providing access to information via data networks; providing access to information via the internet; providing access to multimedia content online; providing access to online computer databases; providing access to platforms and portals on the internet; providing access to telecommunication networks; providing access to the internet and other communications networks; providing access to web portals; providing access to websites on the internet or any other communications network; providing electronic telecommunication connections; providing frame relay connectivity services for data transfer; providing high speed access to computer and communication networks; providing information about wireless communication; providing information, including online, about telecommunications; providing of access to telecommunication warehousing services; providing telecommunication connections to the internet or databases; providing telecommunications connections to a global communication network or databases; providing third party users with access to telecommunication

data exchange units; data exit terminals; data feeders; data feeders for use with artificial intelligence; data feeders linked with artificial intelligence; data files, downloadable; data in machine readable form; data input apparatus for use with computers; data interconnecting computer installations; data processing apparatus for use in information storage; data processing apparatus for use with computers; data processing input devices; data sorting apparatus; data terminals for the validation of data; data transfer apparatus; data transfer instruments; data transmission apparatus; data transmission installations; data transmission networks; data transmitting instruments; downloadable applications for use with mobile devices; electrical data converters; electrical data input apparatus for use with computers; electrical data input devices; electrical data output apparatus for computers; electronic instruments for monitoring systems associated with buildings; firmware; hard drives; local area computer installations; local area networks; memory devices; memory devices for use with computer apparatus; memory expansion cards; memory expansion modules; memory modules; microcomputer apparatus; microcomputer assemblies; microcomputers; microcomputing apparatus; microcomputing instruments; microelectronic components; microprocessors; minicomputers; multiplexers; multiplexers for recording data; multiplexers for use in the alternate transmission of voice signals; network management apparatus; network protection devices, electric; network protection devices, electronic; networks for the interconnection of communication systems; optical data carriers; optical data media; optical data receiving apparatus; optical data recording apparatus; optical data reproducing apparatus; optical data storage apparatus; optical data storage drives; optical data transmission systems; portable computers; power stabilisers; power supplies for computers; power switches; power system meters; power testers; power units for supplying electrical current; regulated power supply apparatus; regulating apparatus, electric; regulating transformers; remote monitoring apparatus; repeaters; secure microprocessors; secure transmission apparatus; secure transmission instruments; security tokens [encryption devices]; solid state drives; solid-state component relays; solid-state devices; solid-state electrical apparatus for storing computer programs; solid-state memories; solid-state memory devices; telecommunication exchangers; telecommunication machines and apparatus; telecommunication switches; telecommunications equipment; uninterruptible electrical power supplies; uninterruptible power supply apparatus [battery]; uninterruptible power supply instruments; units for converting information received in machine readable format; units for decoding information received in machine readable format; units for displaying information received in machine readable format; usb adapters; usb dongles [wireless network adapters]; usb flash drives; usb hubs; usb port cards; usb web keys; utility programs for performing computer system diagnostics; webcams; wide area networks; wired communication apparatus; wireless communication apparatus; wireless transmission apparatus; work stations [computer apparatus]; work stations [computers]; communication apparatus.

Class 35:

Advice relating to personnel management; advisory services relating to data processing; analysis of business data; analysis of market research data and statistics; automated data processing; business consultancy relating to the administration of information technology; business consultancy services

relating to data processing; business data analysis; business efficiency advice; business management and administration services supporting utilisation of a global computer network; business organisation and management consultancy in the field of personnel management; business process management and consulting; business risk assessment services; business risk management consultancy; business risk management services; collating of data in computer databases; collection of data; collection of personnel information; commercial information services provided by access to a computer database; company data information services; company record-keeping; compilation and systemization of information into computer databases; compilation of business data; compilation of business statistics and commercial information; compilation of indexed addresses; compilation of information into computer databases; compiling of information into computer databases; computer data entry services; computer data processing; computerised business records keeping; computerised data processing; computerised data verification; computerised database management; computerised file management; computerised office management; consultancy relating to personnel management; consultancy relating to business efficiency; consultancy relating to data processing; consultancy relating to personnel recruitment; consultancy relating to the selection of personnel; data collection for others; data compilation for others; data entry services; data handling; data management; data management advice; data management consultancy; data preparation [office functions]; data processing; data processing for the collection of data for business purposes; data processing verification; data retrieval [office functions]; data search in computer files for others; data transcription; database management; database marketing; electronic data processing; evaluation of personnel requirements; information retrieval [office functions]; maintenance of personnel records for others; management and compilation of computerised databases; market research data collection services; market research data retrieval services; online data processing services; providing business information, also via internet, the cable network or other forms of data transfer; provision of business data; recruitment and personnel management services; registration of written communications and data; selection of staff; statistical analysis and reporting services for business purposes; systematization of data in computer databases; systemization of information into computer databases; tracking and monitoring energy consumption for others for account auditing purposes; updating and maintenance of data in computer databases; duplication of electronic documents; electronic document duplicating.

Class 36:

Building leasing; lease financing of telecommunication equipment; leasing of buildings; leasing or renting of buildings; management of buildings; providing information relating to the rental of buildings; real estate management services relating to industrial premises; rental of buildings; financial information processing; financial information provided by electronic means; providing financial information by means of a computer database; providing on-line stock exchange information from a computer database or the internet; provision of information and data concerning stock exchanges; leasing of office space, namely leasing of rack space and purpose-built high specification space to facilitate the housing of telecommunication or computer-related equipment and services.

Specifications have been restricted as follows:

UK00004199925 (2025/028, 11 July 2025)
Specifications have been restricted as follows:

Class 16:
Plastic materials for packaging.

Class 35:
Sales administration; Distribution and dissemination of advertising materials [leaflets, prospectuses, printed material, samples]; Commercial management; management, organization and administration of commercial business affairs; Clerical services; Administration of the business affairs of retail stores; Rental of vending machines; Retail services relating to medical and veterinary preparations and articles, medical and veterinary apparatus and instruments, veterinary medicine, personal, domestic and industrial hygiene, food, clothing and footwear, jewellery, goldsmiths', costume jewellery, watchmaking, musical instruments, gardening, interior and exterior decoration, home furnishing and fittings, non-medicated cosmetics and toiletry preparations, non-medicated dentifrices, perfumery, essential oils, bleaching preparations and other substances for laundry use, cleaning, polishing and abrasive preparations, hand tools and implements (hand-operated), machine tools (power-operated), cars sporting goods, games and toys, kitchen and household items and utensils, including industrial items, leather goods, travel goods, stationery, household appliances, office equipment, computers, electrical appliances, hi-fi equipment and accessories, televisions, furniture, telecommunications equipment, textiles, haberdashery and smokers' articles.

Class 39:
Delivery of goods; Portage; Transport; Freight [shipping of goods]; Warehouse storage; Packaging and storage of goods.

UK00004190259 (2025/027, 04 July 2025)
Specifications have been restricted as follows:

Class 9:
Downloadable mobile and tablet applications for assessing, analyzing, and interpreting physiological data; AI software for data processing, model training, and management; Artificial Intelligence software; Artificial Intelligence software for healthcare; Artificial Intelligence software for analysis; Interactive software based on artificial intelligence; Software for the integration of artificial intelligence and machine learning in the field of Big Data; Cloud server software; Software to support decision-making; Computer software for use in medical decision support systems; Real-time data processing apparatus; Web application software; none of the aforesaid being for use in the field of immunology.

Class 10:
Medical devices for collecting and transmitting physiological data to cloud-based systems; Medical devices integrating with software for diagnostic support and data processing; Apparatus

for analysing brain wave frequencies; Medical instruments for recording physiological data; Medical devices; Medical apparatus and devices; Medical instruments; Medical analysis instruments; Medical testing instruments; Electronic medical instruments; Medical diagnostic instruments; Electro medical instruments; Analytical instruments for medical use; Detecting instruments for medical use; Diagnostic instruments for medical use; Electronic monitoring instruments for medical use; Instruments for use in medical analysis; none of the aforesaid being for use in the field of immunology. .

Class 35:
Automated processing of medical data; none of the aforesaid being for use in the field of immunology. .

Class 42:
Design and development of cloud-based and downloadable software for medical data analysis; AI model development for physiological data processing; Scientific research in AI and medical data analytics; Creation and management of technology platforms for device management and data integration; Providing artificial intelligence computer programs on data networks; Software as a service [SaaS] featuring computer software platforms for artificial intelligence; Software engineering services for data processing programs; Software engineering services for data processing; Cloud computing; Programming of operating software for accessing and using a cloud computing network; Design and development of operating software for accessing and using a cloud computing network; Providing temporary use of online non-downloadable software for accessing and using a cloud computing network; Providing temporary use of web-based applications; Providing temporary use of non-downloadable software applications accessible via a web site; Development and testing of computing methods, algorithms and software; Development of software for secure network operations; Hosting online web facilities for others for sharing online content; Providing non-downloadable cloud-based software for managing and processing physiological data, including AI-driven inferencing; Technological support consultations related to technological support for clinical decision-making and diagnostic processes; none of the aforesaid being for use in the field of immunology. .

Class 44:
Medical services utilizing technology for assessing and interpreting physiological data; Medical testing; Medical screening; Providing medical information; Medical examination of individuals; Provision of medical services; Issuing of medical reports; Medical diagnostic services; Medical examination services; Medical evaluation services; Medical analysis services; Provision of medical information; Compilation of medical reports; Medical information retrieval services; Medical testing for diagnostic or treatment purposes; Medical information services provided via the internet; none of the aforesaid being for use in the field of immunology. .
