Logo Description The logo consists of a stylized, dark green wordmark enclosed in an outlined capsule-shaped border.

List of cases accepted for opposition purposes as shown in Journal 2025/035 published on 29 August 2025.

The words: “Sugo & Dough” appear prominently in a bold serif typeface, centered and capitalized, across two lines. The ampersand symbol (“&”) is slightly smaller and placed centrally between the words “Sugo” and “Dough.” Beneath this, in smaller all-caps sans-serif font, the descriptor “PIZZA & PASTA” is aligned centrally. The font combination and layout evoke a clean, classic, and authentic Italian bistro aesthetic. Color Scheme Primary Color: Deep green (used for text and outline) Background: Light cream or beige (suggesting warmth and simplicity) Font Identification “Sugo & Dough”: Likely a bold transitional serif such as Reforma 1918, Georgia Bold, or Belizio “PIZZA & PASTA”: Likely a geometric sans-serif such as Futura, Avenir, or Montserrat Semi-Bold

non-electric cables and wires of common metal; ironmongery, small items of metal hardware; pipes and tubes of metal; goods of common metal not included in other classes; ores; common metals and their alloys not included in other classes; parts and fittings for the aforesaid goods.

Class 7:

Valves included in this class; actuators for valves; machines for inserting, removing, opening and closing valves; valves for machines, valves for mechanics, gate valves for mechanics, check valves for mechanics, pressure adjusted valves for mechanics, butterfly valves, steam pressure joints, cylinder valves for mechanics; pressure regulators, taps, pumps, evaporators, mixing machines for vapour, mixing machines for liquids; machine couplings; couplings and transmission components filters included in this class; manifolds; electrical and/or mechanical regulating equipment and control installations for these goods, intended for the storage, transport and consumption of liquid and gases and parts of those apparatus (all goods as far as not included in other classes); mechanisms for controlling fluid level; filtering machines; filter cartridges; filter elements; housings for filters; vacuum pumps; pumps, pump heads and related accessories including tubing; silencers; parts and fittings for the aforesaid goods.

Class 9:

Valves included in this class; valves operated by electric current control, by solenoid, by temperature or by other changes in physical conditions; pressure gauges and gauge siphons for steam, water or air; thermometers, electrical and electronic control apparatus for valves or for controlling fluid flow; electronic monitors and indicators for use in relation to valves; remote control apparatus for effecting the automatic operation of valves; filtration devices for use in optical or electrical equipment; filters for scientific use; filters for laboratory use; housings for filters; filter cartridges; filter elements, all being for use in the aforesaid goods; pumps and pump heads for moving liquids and gases for laboratory use; water meters; electric liquid and gas control systems; electric couplings; couplings for cables; electronic data collection and retrieval apparatus; computer software for use in the control of valves and flow regulators; scientific, measuring, checking (supervision), life-saving and teaching apparatus and instruments; regulators; apparatus for use in laboratories; in particular sensor-controlled gas safety systems for monitoring and isolating gas pipes; accessories therefor, in particular special cables, small distributors and sensor mounts; apparatus for use in laboratory analysis; chemistry apparatus; electrical regulating equipment and control installations for the storage, transport and consumption of liquids and gases; parts and fittings for the aforesaid goods.

Class 10:

Gas control equipment and gas control accessories for use in relation to surgical, veterinary, dental and medical apparatus and instruments; regulators for surgical and/or medical apparatus and instruments; central gas distribution units, stabilisers, pressure monitors, regulators, flow measuring devices, gas outlets, cut-off valves, speed couplings for medical purposes; surgical, medical, dental and veterinary apparatus and instruments, apparatus for use in laboratories; apparatus for use in laboratory analysis; parts and fittings for the aforesaid goods.

Class 11:

Valves included in this class; water distribution and supply systems and networks; water irrigation systems; apparatus for

filtering liquids; filters included in this class; filter apparatus for water supply systems; central distribution units for gas pipe systems; regulating and safety apparatus for fluid apparatus and pipes; taps being parts of water supply installations; pressure relief valves for gas or water pipes; control valves for gas pipes; water and/or gas filters; filtering apparatus, instruments and devices; filter cartridges, filter elements; apparatus, instruments and devices for use in the purification and sterilisation of liquids and gases; drying apparatus and installations; housings for filters, filter cartridges and filter elements, all being for use in the aforesaid goods; parts and fittings for all the aforesaid goods.

Class 17:

Filters of plastics (semi-processed); filter materials of semi-processed foams or films of plastic; membrane filters of plastic, pressure bearing flexible tubes; not of metal, in particular with plastic cores and helical pressure bearing devices; rubber, gutta-percha, gum, asbestos, mica and goods made from these materials and not included in other classes; non-metallic manifolds; manifolds of plastic or rubber; non-metallic restrictors; restrictors of plastic or rubber; non-metallic pipes and tubes; pipes and tubes of plastic or rubber; non-metallic couplings; couplings of plastic and/or rubber for tubes, hoses and/or pipes; plastics in extruded form for use in manufacture; packing, stopping and insulating materials; PVC-tubes not for medical purposes; flexible pipes, not of metal; PVD-tubes with mechanical qualities; silicone rubber; semi-manufactured articles made of rubber; pipes and tubes (semi-manufactured articles) made of silicone; rubber replacement; materials for water sealing made of silicone; products made of rubber; semi manufactured PVC-materials; synthetic materials (semi-manufactured), among which synthetic materials to produce tubes, pipes and foils; parts and fittings for the aforesaid goods.

Class 20:

Valves included in this class; non-metal valves, non-metal ball valves, plastic valves for pipes, plastic valves for oil pipes, plastic drain valves; parts and fittings for the aforesaid goods.

Class 40:

Manufacture of thermoplastic components; manufacture of plastic components; manufacture of elastomeric components; manufacture of sintered parts; manufacture of metal components; manufacture of molded components; manufacture of fluid control components; manufacture of valves, couplings, filters, connectors pressure and flow control valves, fittings, luer locks, vent filters, in line filters, couplings, push in plugs, stopcocks, bio tubing, tubing, tubing retainers, tubing clamps, pumps, auxiliary bottle cap adapters, auxiliary media bags with shut off pouch fitment, silencers and gas control equipment and parts and fittings thereof; manufacture of electronic components; manufacture of flow control components for bioprocessing; manufacture of wound therapy products; manufacture of sub-assembly products; assembly of products for others; information, advisory and consultancy services relating to the aforesaid.

Class 42:

Design and development services; development and design of custom-design valves and systems comprising valves for others; scientific and technological services including related research and design services; industrial analysis and research services; research and development of new products; design of new products; design and development of computer software and hardware; design and development of medical and life sciences products; component and product testing and inspection;
