Class 1:

Chemical products for use in industry, science, photography,
as well as in agriculture, horticulture and forestry; unprocessed
artificial resins, unprocessed plastics; fire extinguishing and fire
prevention compositions; tempering and soldering preparations;
materials for tanning leather and animal skins; adhesives for
use in industry; putties and other paste fillers; compost, animal
manure, fertilizer; biological preparations for use in industry
and science; chemical substances for preserving foodstuffs;
tanning materials; chemical catalysts; sealing compound made
of silicon, dioxide or titanium for industrial use for establishing
and maintaining electrical conductivity between ducts, tubes
and terminals.

Class 2:

Paints, varnishes, lacquers; preservatives against rust and
against deterioration of wood; colorants, dyes; printing inks,
marking inks and engraving inks; Unprocessed natural resins;
metals in foil and powder form for painting, decoration,
printing and works of art.

Class 3:

Non-medicated toiletry preparations and cosmetic products; non-medicated dentifrices; perfumery products, essential oils; bleaching preparations and other substances for laundry use; cleaning, polishing and abrasive preparations.

Class 4:

Candles for lighting, wicks for candles, gel wax for candles; industrial oils and greases, waxes; lubricants; dust absorbing, wetting and binding compositions; fuels (including motor spirit) and illuminants; candles and wicks for candles.

Class 5:

Pharmaceutical products, medical and veterinary preparations; sanitary products for medicine; dietetic substances and foodstuffs for medical or veterinary use, food for babies; food supplements for humans and animals; disinfectants; preparations for destroying vermin; fungicides, herbicides.

Class 6:

Construction materials of metal; transportable buildings of metal; non-electric cables and wires of metal; hardware of metal; metal storage or transport containers; safes; products made of common metals, not included in other classes; metal housings for electrical installations; pipes and tubes of metal; handling pallets of metal; sleeves of metal; metal valves and flow control valves; junctions of metal for pipes; metal fencing systems; steel transmission and distribution structures; galvanized and copper bars and couplings; frames of metal; metal components, couplings, joints and support brackets for cables and ducts; chests of metal; metal braces for carrying loads; wheel clamps of metal; binding screws of metal for cables; threaded fasteners of metal; metal support brackets for pipes; elbows of metal for pipes; sealing caps of metal; hose fittings of metal; flanges of metal (collars); nuts of metal; bolts of metal; box fasteners of metal; nozzles of metal; metal coverings; partitions of metal; metal adaptors for tubes; cable ribbons and collars (metal); corrugated tubes and pipes for protecting electric cables; metal couplings and screw fastenings for cables, tubes and pipes; clips; metal couplings for tubes, pipes or corrugated tubes for protecting electric cables; cable joints of metal; junctions of metal; connection elbows or metal connection elbows for tubes, pipes or corrugated tubes for protecting electric cables; components and accessories for all the aforesaid goods; common metals and their alloys, ores.

Class 7:

Machines, machine tools and mechanical tools and their components; motors and engines and motor and engine parts other than for land vehicles; clutches and power transmission devices and their components, other than for land vehicles; agricultural implements other than hand-operated; ship propulsion mechanisms; water vehicle propulsion mechanisms; cranes (lifting and hoisting apparatus); mobile cranes; floating cranes; electric and power generators; electricity generators and current generators; handling and transport equipment and installations; couplings and clutches, other than for land vehicles; control apparatus for machines, driving motors or motors and engines; drives for machines; elevator drives; drives for conveyors; wind turbines generating electricity; turbines other than for land vehicles; wind turbines; lifts and lift controls; handling and transport apparatus; conveyors and belt conveyors; turbocompressors; pumps, compressors and

blowing machines; mills (machines); drilling rigs, floating or non-floating; lifts (machines) and elevator control apparatus; robots; industrial robots; hydraulic and pneumatic couplings for pipes as parts of machines; components and accessories for all the aforesaid goods.

Class 8:

Hand-operated hand tools and implements; cutlery; side arms, other than firearms; razors; components and accessories for all the aforesaid goods.

Class 9:

Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signaling, detecting, testing and control apparatus and instruments, and their components; apparatus and instruments as well as their components for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for sound, image or data recording, transmission, reproduction or processing; recorded or downloadable media, software, blank digital or analog recording and storage media; mechanisms for coin-operated apparatus; computers and computer peripheral devices; nautical, meteorological, automation, electric, analysis, diagnostic (other than for medical use), display, checking (supervision), monitoring, control, alarm and emergency apparatus, instruments and equipment, and components therefor; apparatus and instruments as well as their components for the production, processing, storage, transport, supply or measurement of the distribution or use of electricity; software (downloadable); tablet computers; data recorders; security, safety, protection and signaling apparatus, instruments and equipment; electric distribution boards and their components; sensors; tubes (electricity); pipework (electricity); cable sheaths (lines); magnetic recording media; chargers for electric batteries; electrical condensers [capacitors]; electric collectors with photovoltaic elements; terminals (electricity), electric wires, conduits and cables; inductors (electricity); electric and electronic apparatus, devices and instruments and their components for the production, distribution and supply of energy by photovoltaic installations; fuel cells; transformers; current inverters; current rectifiers; current converters; connectors (electricity); electric transistors, thyristors, diodes; semiconductor power elements; electric resistances; batteries (cells); electric apparatus; electric recloser; switches; rectifiers; electric relays; ducts [electricity]; electrical safety fuses and devices; distribution boxes [electricity]; distribution boards, racks and plates (electricity); mains distributors and sub-distributors for electrical energy; apparatus and devices for the transport, distribution and control of electric current; solar cells; solar modules; electric cables, electricity conduits and electric wires; electric converters; junction sleeves for electric cables; integrated circuits (chips); printed circuits; electric sockets; gauges; power modules (calculators); energy distribution boards and electric and electronic installations and their components for the remote control of lasers for automated industrial processes; plugboards and distribution consoles (electricity); electrical regulators; electric and electronic apparatus and devices, namely microcircuits, microchips (computer hardware), integrated circuits for defined use, custom integrated circuits and integrated circuits for specific applications; power supplies and their components; database and application integration software; interfaces (for computers); recorded data; radio broadcasting apparatus and

equipment; communications equipment; data transmission networks; equipment for telecommunications; electronic, magnetic and optical storage media, floppy disks, compact disks, magnetic disks, optical disks; optical compact disks, data protection backup devices; semiconductor chips for storing technical data; downloadable electronic publications; data processing equipment; microprocessors; downloadable software applications for use with mobile devices; semiconductors; printed circuit boards; data backup devices; operating system programs for computers; modems; sensors, gateways and antennas for the Internet of Things (IoT); application computer software, particularly for implementing the Internet of Things (IoT); computer hardware modules intended for use in the Internet of Things (IoT); computer hardware and software intended for use in electronic apparatus using the Internet of Things (IoT); computer hardware and software for data analysis, machine learning, automation processes and Internet of Things (IoT) applications; software enabling the implementation and provision of machine learning, artificial intelligence, analysis of large amounts of data in terms of relationships between the data and the analysis of the data; computer software development tools; electric and electronic regulators and control systems; application software for the Internet of things (IoT) and regulation and monitoring applications; computer servers; computer software platforms; downloadable software for blockchain technology; downloadable virtual goods, namely virtual goods in the fields of electrification, drive mechanisms, motors and engines, generators and mechanical transmission, automation products as well as downloadable digital files in the field of robotics, authenticated by non-fungible tokens (NFTs); control apparatus for controlling industrial robots; computer hardware and software for regulating and controlling industrial robots; software for the automation of robot processes for industrial automation; apparatus and instruments for controlling and regulating robots; educational robots; surveillance robots for security; application software for robots; electric control apparatus for robots; laboratory robots; humanoid robots with artificial intelligence for scientific research purposes; telepresence robots; charging stations for electric vehicles; electric accumulators for vehicles; interference suppression devices; storage devices for data processing systems; breakers (circuit breakers); voltmeters; automatic control apparatus for vehicles; high-voltage overhead lines; electric cables; transformers (electric); electric control units for machines and motors and engines; electrical and electronic control apparatus and instruments; nautical apparatus and instruments; sockets, plugs and other contacts [electric connections]; housings for electrical installations; components and accessories for all the aforesaid goods.

Class 10:

Surgical, medical, dental and veterinary apparatus and instruments; therapeutic and assistance devices designed for people with disabilities; massage apparatus; apparatus, devices and articles for child care; electric apparatus and instruments for medical use; electrodes for medical use; lasers for surgical, medical, dental and veterinary use; nanobots for medical use; surgical robots; robotic exoskeleton suits for medical use; sensors (measuring apparatus) for medical use; components and accessories for all the aforesaid goods.

Class 11:

Apparatus and installations for lighting, heating, cooling, steam generation, drying, ventilation and water supply; solar thermal collectors (heating); ventilating and air-conditioning installations; chromatography apparatus for industrial use; nuclear fuel processing and nuclear reaction braking installations; regulating and safety accessories for gas apparatus; lighting apparatus for use in hazardous and difficult environments, including large-area lighting, linear lighting, narrow/small lighting, emergency lighting, security lighting and floodlighting; components and accessories for all the aforesaid goods.

Class 12:

Vehicles; apparatus for locomotion by land, air or water; automated guided vehicles; robotic cars; electric cars; driving chains for land, air, sea and rail vehicles; aeronautical apparatus and machines; screw-propellers; vertical blade propellers; propellers for boats; hydraulic circuits for vehicles; transmission chains and bearings for transmission shafts for land vehicles; turbines for land vehicles; couplings for land vehicles; remote-controlled vehicles other than toys; components and accessories for all the aforesaid goods; electric motors and engines for cars; gear boxes for land vehicles; gearing for land vehicles; engines for land vehicles.

Class 16:

Printing products (printed matter); bookbinding material; stationery and office requisites, except furniture; drawing materials and materials for artists; paintbrushes; instructional or teaching material; printing type, printing blocks; adhesive labels, paper labels; stationery as well as teaching or instructional material; components and accessories for all the aforesaid goods; paper and cardboard; photographs; adhesives for stationery or household purposes; plastic sheets, films and bags for wrapping and packaging.

Class 17:

Non-metal flexible tubes, pipes and couplings; insulators; insulating foams; soundproofing materials; pipe joints not of metal; joints for tubes, pipes and corrugated pipes; plastic pipe couplings; connectors of plastic; non-metal elbows or coupling elbows for tubes, pipes or corrugated pipes for protecting electric cables; sleeves of plastic materials; materials, mainly made of plastic, for binding and identifying cables and wires; heat-shrinkable insulation sheaths for cables and wires; components and accessories for all the aforementioned articles; unprocessed and semi-processed rubber, gutta-percha, gum, asbestos, mica and substitutes for all these materials; semi-processed plastics and resins intended for use in production; caulking, packing and insulating materials; pipe sleeves, not of metal.

Class 19:

Non-metallic construction materials; non-metallic rigid pipes for building; transportable buildings not of metal; monuments not of metal; non-metal construction beams; advertisement columns, not of metal; beacons not of metal, non luminous; signaling panels and plates, non-metal, non-luminous and non-mechanical; components and accessories for all the aforesaid goods; asphalt, pitch, tar and bitumen.

Class 20:

Furniture, mirrors, picture frames; transport or storage containers not of metal; non-metallic transport and handling

pallets; plastic valves or flow control valves other than parts of machines; non-metal pipe and cable clamping collars; cotter pins, nuts, caps, socket head bolts, bolts, fittings, containers, boxes, not made of metal; components and accessories for all the aforesaid goods; unworked or semi-worked bone, horn, whalebone or mother-of-pearl; shells; meerschaum; yellow amber.

Class 21:

Household or kitchen utensils and containers; cooking utensils and tableware, except forks, knives and spoons; brushes, except paintbrushes; brush-making materials; cleaning material; unworked or semi-worked glass, except building glass; glassware.

Class 25:

Clothing, footwear, headwear.

Class 35:

Advertising; commercial business administration, organization and management; office functions; public relations; market studies; computerized file management services; collection, compilation, systematization and updating of data in computer databases; cost price analysis; advice on personnel management; business appraisal; economic forecasting; compilation of statistics; compilation of commercial efficiency reports and compilation of corporate efficiency reports; accounting; professional commercial resource planning; import-export agencies; opinion polling; organization of exhibitions for commercial or advertising purposes; computerized online ordering and shipping services for electric, electronic and lighting products, as well as related equipment and accessories, offered via a global computer network; wholesale or retail services, online or offline, for products connected with electrification, industrial automation, robotics and drives, motors and engines, generators, mechanical transmission products and integrated digital drive solutions; press relations services; organization, operation and monitoring of loyalty and incentive schemes; provision of business information; commercial lobbying services; company evaluation (benchmarking); providing commercial information and consumer information; advertising intermediary services related to the rental of advertising space in newspapers, brokerage and rental of advertising spaces on the Internet, services for preparing and concluding commercial transactions for third parties, commercial intermediation services, personnel recruitment and placement; commercial intermediary services in the field of group purchasing; business evaluation services; commercial analyses, commercial research and commercial information, particularly compliance assessment, commercial business assessment, corporate assessments and analyses; data processing and management; assessing commercial opportunities concerning commercial matters connected with corporate management; commercial and business networking; updating and maintenance of data in computer databases; statistical analyses and reporting services for commercial purposes; retail and wholesale services, including on the Internet for downloadable or non-downloadable virtual goods, namely virtual goods in the fields of electrification, drive mechanisms, motors and engines, generators and mechanical power transmission, automation and robotics products; retail and wholesale services, including on the Internet for downloadable or non-downloadable virtual goods, namely virtual goods in the fields of electrification, drive mechanisms,

motors and engines, generators and mechanical transmission, automation and robotics products (authenticated by non-fungible tokens); retail and wholesale services, including on the Internet, for software, electric vehicles, components and accessories for electric vehicles; provision of information and advice relating to all the aforesaid services.

Class 36:

Financial, monetary and banking services; insurance services; real estate services; financial sponsorship; financial sponsorship; provision of information and advice relating to all the aforesaid services.

Class 37:

Construction services; installation and repair services; installation, servicing and repair services relating to products in the fields of electrification, industrial automation, robotics and drive mechanisms, motors and engines, generators, mechanical power transmission products and integrated digital drive solutions; maintenance, repair and installation of industrial equipment and power lines; maintenance, repair and installation of computers and computer network equipment; underwater construction; maintenance, installation and repair of computer hardware and computer network installations; mining of natural resources; project management in the field of construction (works supervision); installation, repair and servicing of measuring apparatus and instruments; rental of industrial robots intended for use in the context of construction, repair, maintenance and installation services; servicing and repair services for vehicles; repairing, servicing, refueling and recharging electric vehicles; installation, repair and servicing works relating to charging stations for electric vehicles; installation, servicing, repair and troubleshooting of electric machines and equipment; pipeline construction and maintenance; installation, maintenance, repair and update of computer hardware; provision of information and advice relating to all the aforesaid services.

Class 38:

Telecommunications; data transmission services, particularly via global computer networks; providing access to computer databases and information via global computer networks; provision of access to global computer networks; electronic message sending and receiving services; communication through networks; transmitting sound, images, signals and data through networks; wireless broadcasting services for radio and television programs; providing Internet access services; providing access to electronic communication services; provision of access to data on computer networks; transmitting messages, data and content on the Internet and other computer and communication networks; creating access to computer databases; rental of access time to databases; providing connections between computer hardware and network equipment and the cloud; providing connections between information technology systems and operational technology systems; press and information agency services (news); broadcasting of radio and television programs; providing telecommunications connections to a global computer network; provision of user access to computer programs in data networks; provision of video conferencing services; wireless mobile telephone services; computer-aided transmission of messages and images; paging services (radio, telephone or other electronic means of communication); satellite transmission; telephone services; telephone exchange switching services

(telecommunications); rental of telecommunication equipment; rental of message sending apparatus; rental of access time to global computer networks; telematic services; sending data and transmitting documents by telematic services; providing access to platforms and portals on the Internet; transmission of podcasts; provision of information and advice relating to all the aforesaid services.

Class 39:

Transport; packaging and storage of merchandise; travel organization; distribution and transport of energy and electricity; distribution of water and gas; delivery of merchandise; freighting; unloading; transport by pipelines; transport and storage of waste; machine and container filling services; chauffeur services; piloting; parking services; vehicle rental; fleet vehicle management using navigation and positioning apparatus; logistics services with respect to transport; car-sharing services; organization of passenger transport services for third parties via an online application; electricity storage (warehousing); provision of information with respect to traffic; business removal services; provision of information and advice relating to all the aforesaid services.

Class 40:

Treatment of materials; recycling of trash and waste; air purification and water treatment; printing services; food and beverage preservation; treatment of waste and hazardous substances; production of energy; waste treatment, oil treatment; air treatment; air purification, air freshening; refining services; rental of power generators; sorting waste and recyclable materials; custom manufacture of transportable prefabricated houses; custom manufacture of housings for electrical installations; energy treatment and transformation; rental of equipment for energy production; rental of industrial robots for industrial production; provision of information and advice relating to all the aforesaid services.

Class 41:

Education; training; entertainment; sporting and cultural activities; provision of courses through an online platform; electronic desktop publishing; publication of books; publishing texts (excluding publicity texts); editing services, other than printing; drafting and publishing of texts other than advertising texts; organizing training, seminars, conferences, workshops, events and exhibitions; provision of non-downloadable electronic publications online; organizing exhibitions for scientific purposes; podcast production; publication of statistics; provision of information and advice relating to all the aforesaid services.

Class 42:

Scientific and technological services as well as research and design services relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computers and software; information technology services; industrial research, advice, planning and design of industrial installations; testing of materials; underwater and underground exploration; advice in the field of environmental protection; architectural services; engineering; energy auditing; monitoring and control of industrial processes; information technology monitoring of industrial sites and power plants; technical measuring and testing services; computer technology advisory services in the field of data and Internet security; research, design and

development of production lines, machines, industrial robots, robots as well as computer software and hardware for the control and provision of production lines, machines, machine tools, robots and industrial robots; technological advice with respect to production lines, machines, industrial robots, robots, computer hardware and software and industrial automated logistics; Software as a Service (SaaS); temporary provision of online non-downloadable operating software for accessing and using a cloud computing network; hosting of platforms on the Internet; creation of data processing programs; software as a service (SaaS) with machine learning software, data retrieval, data analysis and artificial intelligence services; providing technical information on the use of computers, computer hardware, software and computer networks; configuration, installation, maintenance, troubleshooting, repair and updating of software; computer Platform as a Service (PaaS); cloud computing; providing online non-downloadable cloud-based software; providing non-downloadable software applications for use with mobile apparatus; provision of computer programs on data networks, particularly on the Internet and the World Wide Web; design and development of computer hardware and software for industrial applications; industrial analysis services; services of a network engineer, including advice with respect to computer and network security; scientific and industrial research and advice with respect to network technology; artificial intelligence research; technological advice on artificial intelligence; software as a service (SaaS) with computer software platforms for artificial intelligence; Engineering in relation to robotics; designing and developing computer software for industrial automation; software as a service (SaaS) in the field of industrial automation; providing technical advice relating to computer hardware and software, particularly in the field of industrial automation; server hosting; authentication of data via a blockchain; data storage via a blockchain; certification of data via a blockchain; Blockchain as a Service (BaaS); user authentication using blockchain technology; hosting non-rechargeable virtual goods, namely virtual goods in the fields of electrification, drive mechanisms, motors and engines, generators and mechanical transmission, automation and robotics products; providing non-downloadable digital files authenticated by non-fungible tokens [NFTs]; technical advice concerning solar energy installations, photovoltaic installations and charging stations for electric vehicles; providing scientific information and technological advice with respect to e-mobility; industrial design services; packaging designer services; quality control; underwater exploration; engineering consultancy on environmental impact, advice with respect to energy saving, technical advice on energy-saving measures, technical advice in the field of energy saving and energy efficiency; carrying out chemical analyses; oil prospecting; oil-well testing; conducting analyses for oil extraction services; conducting appraisals on oil reserves; services provided by a physicist; technical advice with respect to computers; recovery of computer data; software maintenance; computer system analysis; research and development of new products; research in the field of technology and engineering; developing technical instruction manuals; engineering, including engineering advice; construction work planning; technical project planning and advice relating thereto; rental of computer software and data processing equipment; provision of information and advice relating to all the aforesaid services.

blowing machines; mills (machines); drilling rigs, floating or non-floating; lifts (machines) and elevator control apparatus; robots; industrial robots; hydraulic and pneumatic couplings for pipes as parts of machines; components and accessories for all the aforesaid goods.

Class 8:

Hand-operated hand tools and implements; cutlery; side arms, other than firearms; razors; components and accessories for all the aforesaid goods.

Class 9:

Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signaling, detecting, testing and control apparatus and instruments, and their components; apparatus and instruments as well as their components for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for sound, image or data recording, transmission, reproduction or processing; recorded or downloadable media, software, blank digital or analog recording and storage media; mechanisms for coin-operated apparatus; computers and computer peripheral devices; nautical, meteorological, automation, electric, analysis, diagnostic (other than for medical use), display, checking (supervision), monitoring, control, alarm and emergency apparatus, instruments and equipment, and components therefor; apparatus and instruments as well as their components for the production, processing, storage, transport, supply or measurement of the distribution or use of electricity; software (downloadable); tablet computers; data recorders; security, safety, protection and signaling apparatus, instruments and equipment; electric distribution boards and their components; sensors; tubes (electricity); pipework (electricity); cable sheaths (lines); magnetic recording media; chargers for electric batteries; electrical condensers [capacitors]; electric collectors with photovoltaic elements; terminals (electricity), electric wires, conduits and cables; inductors (electricity); electric and electronic apparatus, devices and instruments and their components for the production, distribution and supply of energy by photovoltaic installations; fuel cells; transformers; current inverters; current rectifiers; current converters; connectors (electricity); electric transistors, thyristors, diodes; semiconductor power elements; electric resistances; batteries (cells); electric apparatus; electric recloser; switches; rectifiers; electric relays; ducts [electricity]; electrical safety fuses and devices; distribution boxes [electricity]; distribution boards, racks and plates (electricity); mains distributors and sub-distributors for electrical energy; apparatus and devices for the transport, distribution and control of electric current; solar cells; solar modules; electric cables, electricity conduits and electric wires; electric converters; junction sleeves for electric cables; integrated circuits (chips); printed circuits; electric sockets; gauges; power modules (calculators); energy distribution boards and electric and electronic installations and their components for the remote control of lasers for automated industrial processes; plugboards and distribution consoles (electricity); electrical regulators; electric and electronic apparatus and devices, namely microcircuits, microchips (computer hardware), integrated circuits for defined use, custom integrated circuits and integrated circuits for specific applications; power supplies and their components; database and application integration software; interfaces (for computers); recorded data; radio broadcasting apparatus and

equipment; communications equipment; data transmission networks; equipment for telecommunications; electronic, magnetic and optical storage media, floppy disks, compact disks, magnetic disks, optical disks; optical compact disks, data protection backup devices; semiconductor chips for storing technical data; downloadable electronic publications; data processing equipment; microprocessors; downloadable software applications for use with mobile devices; semiconductors; printed circuit boards; data backup devices; operating system programs for computers; modems; sensors, gateways and antennas for the Internet of Things (IoT); application computer software, particularly for implementing the Internet of Things (IoT); computer hardware modules intended for use in the Internet of Things (IoT); computer hardware and software intended for use in electronic apparatus using the Internet of Things (IoT); computer hardware and software for data analysis, machine learning, automation processes and Internet of Things (IoT) applications; software enabling the implementation and provision of machine learning, artificial intelligence, analysis of large amounts of data in terms of relationships between the data and the analysis of the data; computer software development tools; electric and electronic regulators and control systems; application software for the Internet of things (IoT) and regulation and monitoring applications; computer servers; computer software platforms; downloadable software for blockchain technology; downloadable virtual goods, namely virtual goods in the fields of electrification, drive mechanisms, motors and engines, generators and mechanical transmission, automation products as well as downloadable digital files in the field of robotics, authenticated by non-fungible tokens (NFTs); control apparatus for controlling industrial robots; computer hardware and software for regulating and controlling industrial robots; software for the automation of robot processes for industrial automation; apparatus and instruments for controlling and regulating robots; educational robots; surveillance robots for security; application software for robots; electric control apparatus for robots; laboratory robots; humanoid robots with artificial intelligence for scientific research purposes; telepresence robots; charging stations for electric vehicles; electric accumulators for vehicles; interference suppression devices; storage devices for data processing systems; breakers (circuit breakers); voltmeters; automatic control apparatus for vehicles; high-voltage overhead lines; electric cables; transformers (electric); electric control units for machines and motors and engines; electrical and electronic control apparatus and instruments; nautical apparatus and instruments; sockets, plugs and other contacts [electric connections]; housings for electrical installations; components and accessories for all the aforesaid goods.

Class 10:

Surgical, medical, dental and veterinary apparatus and instruments; therapeutic and assistance devices designed for people with disabilities; massage apparatus; apparatus, devices and articles for child care; electric apparatus and instruments for medical use; electrodes for medical use; lasers for surgical, medical, dental and veterinary use; nanobots for medical use; surgical robots; robotic exoskeleton suits for medical use; sensors (measuring apparatus) for medical use; components and accessories for all the aforesaid goods.

Class 11:

List of cases accepted for opposition purposes as shown in Journal 2025/036 published on 05 September 2025 .

Apparatus and installations for lighting, heating, cooling, steam generation, drying, ventilation and water supply; solar thermal collectors (heating); ventilating and air-conditioning installations; chromatography apparatus for industrial use; nuclear fuel processing and nuclear reaction braking installations; regulating and safety accessories for gas apparatus; lighting apparatus for use in hazardous and difficult environments, including large-area lighting, linear lighting, narrow/small lighting, emergency lighting, security lighting and floodlighting; components and accessories for all the aforesaid goods.

Class 12:

Vehicles; apparatus for locomotion by land, air or water; automated guided vehicles; robotic cars; electric cars; driving chains for land, air, sea and rail vehicles; aeronautical apparatus and machines; screw-propellers; vertical blade propellers; propellers for boats; hydraulic circuits for vehicles; transmission chains and bearings for transmission shafts for land vehicles; turbines for land vehicles; couplings for land vehicles; remote-controlled vehicles other than toys; components and accessories for all the aforesaid goods; electric motors and engines for cars; gear boxes for land vehicles; gearing for land vehicles; engines for land vehicles.

Class 16:

Printing products (printed matter); bookbinding material; stationery and office requisites, except furniture; drawing materials and materials for artists; paintbrushes; instructional or teaching material; printing type, printing blocks; adhesive labels, paper labels; stationery as well as teaching or instructional material; components and accessories for all the aforesaid goods; paper and cardboard; photographs; adhesives for stationery or household purposes; plastic sheets, films and bags for wrapping and packaging.

Class 17:

Non-metal flexible tubes, pipes and couplings; insulators; insulating foams; soundproofing materials; pipe joints not of metal; joints for tubes, pipes and corrugated pipes; plastic pipe couplings; connectors of plastic; non-metal elbows or coupling elbows for tubes, pipes or corrugated pipes for protecting electric cables; sleeves of plastic materials; materials, mainly made of plastic, for binding and identifying cables and wires; heat-shrinkable insulation sheaths for cables and wires; components and accessories for all the aforementioned articles; unprocessed and semi-processed rubber, gutta-percha, gum, asbestos, mica and substitutes for all these materials; semi-processed plastics and resins intended for use in production; caulking, packing and insulating materials; pipe sleeves, not of metal.

Class 19:

Non-metallic construction materials; non-metallic rigid pipes for building; transportable buildings not of metal; monuments not of metal; non-metal construction beams; advertisement columns, not of metal; beacons not of metal, non luminous; signaling panels and plates, non-metal, non-luminous and non-mechanical; components and accessories for all the aforesaid goods; asphalt, pitch, tar and bitumen.

Class 20:

Furniture, mirrors, picture frames; transport or storage containers not of metal; non-metallic transport and handling

pallets; plastic valves or flow control valves other than parts of machines; non-metal pipe and cable clamping collars; cotter pins, nuts, caps, socket head bolts, bolts, fittings, containers, boxes, not made of metal; components and accessories for all the aforesaid goods; unworked or semi-worked bone, horn, whalebone or mother-of-pearl; shells; meerschaum; yellow amber.

Class 21:

Household or kitchen utensils and containers; cooking utensils and tableware, except forks, knives and spoons; brushes, except paintbrushes; brush-making materials; cleaning material; unworked or semi-worked glass, except building glass; glassware.

Class 25:

Clothing, footwear, headwear.

Class 35:

Advertising; commercial business administration, organization and management; office functions; public relations; market studies; computerized file management services; collection, compilation, systematization and updating of data in computer databases; cost price analysis; advice on personnel management; business appraisal; economic forecasting; compilation of statistics; compilation of commercial efficiency reports and compilation of corporate efficiency reports; accounting; professional commercial resource planning; import-export agencies; opinion polling; organization of exhibitions for commercial or advertising purposes; computerized online ordering and shipping services for electric, electronic and lighting products, as well as related equipment and accessories, offered via a global computer network; wholesale or retail services, online or offline, for products connected with electrification, industrial automation, robotics and drives, motors and engines, generators, mechanical transmission products and integrated digital drive solutions; press relations services; organization, operation and monitoring of loyalty and incentive schemes; provision of business information; commercial lobbying services; company evaluation (benchmarking); providing commercial information and consumer information; advertising intermediary services related to the rental of advertising space in newspapers, brokerage and rental of advertising spaces on the Internet, services for preparing and concluding commercial transactions for third parties, commercial intermediation services, personnel recruitment and placement; commercial intermediary services in the field of group purchasing; business evaluation services; commercial analyses, commercial research and commercial information, particularly compliance assessment, commercial business assessment, corporate assessments and analyses; data processing and management; assessing commercial opportunities concerning commercial matters connected with corporate management; commercial and business networking; updating and maintenance of data in computer databases; statistical analyses and reporting services for commercial purposes; retail and wholesale services, including on the Internet for downloadable or non-downloadable virtual goods, namely virtual goods in the fields of electrification, drive mechanisms, motors and engines, generators and mechanical power transmission, automation and robotics products; retail and wholesale services, including on the Internet for downloadable or non-downloadable virtual goods, namely virtual goods in the fields of electrification, drive mechanisms,

motors and engines, generators and mechanical transmission, automation and robotics products (authenticated by non-fungible tokens); retail and wholesale services, including on the Internet, for software, electric vehicles, components and accessories for electric vehicles; provision of information and advice relating to all the aforesaid services.

Class 36:

Financial, monetary and banking services; insurance services; real estate services; financial sponsorship; financial sponsorship; provision of information and advice relating to all the aforesaid services.

Class 37:

Construction services; installation and repair services; installation, servicing and repair services relating to products in the fields of electrification, industrial automation, robotics and drive mechanisms, motors and engines, generators, mechanical power transmission products and integrated digital drive solutions; maintenance, repair and installation of industrial equipment and power lines; maintenance, repair and installation of computers and computer network equipment; underwater construction; maintenance, installation and repair of computer hardware and computer network installations; mining of natural resources; project management in the field of construction (works supervision); installation, repair and servicing of measuring apparatus and instruments; rental of industrial robots intended for use in the context of construction, repair, maintenance and installation services; servicing and repair services for vehicles; repairing, servicing, refueling and recharging electric vehicles; installation, repair and servicing works relating to charging stations for electric vehicles; installation, servicing, repair and troubleshooting of electric machines and equipment; pipeline construction and maintenance; installation, maintenance, repair and update of computer hardware; provision of information and advice relating to all the aforesaid services.

Class 38:

Telecommunications; data transmission services, particularly via global computer networks; providing access to computer databases and information via global computer networks; provision of access to global computer networks; electronic message sending and receiving services; communication through networks; transmitting sound, images, signals and data through networks; wireless broadcasting services for radio and television programs; providing Internet access services; providing access to electronic communication services; provision of access to data on computer networks; transmitting messages, data and content on the Internet and other computer and communication networks; creating access to computer databases; rental of access time to databases; providing connections between computer hardware and network equipment and the cloud; providing connections between information technology systems and operational technology systems; press and information agency services (news); broadcasting of radio and television programs; providing telecommunications connections to a global computer network; provision of user access to computer programs in data networks; provision of video conferencing services; wireless mobile telephone services; computer-aided transmission of messages and images; paging services (radio, telephone or other electronic means of communication); satellite transmission; telephone services; telephone exchange switching services

(telecommunications); rental of telecommunication equipment; rental of message sending apparatus; rental of access time to global computer networks; telematic services; sending data and transmitting documents by telematic services; providing access to platforms and portals on the Internet; transmission of podcasts; provision of information and advice relating to all the aforesaid services.

Class 39:

Transport; packaging and storage of merchandise; travel organization; distribution and transport of energy and electricity; distribution of water and gas; delivery of merchandise; freighting; unloading; transport by pipelines; transport and storage of waste; machine and container filling services; chauffeur services; piloting; parking services; vehicle rental; fleet vehicle management using navigation and positioning apparatus; logistics services with respect to transport; car-sharing services; organization of passenger transport services for third parties via an online application; electricity storage (warehousing); provision of information with respect to traffic; business removal services; provision of information and advice relating to all the aforesaid services.

Class 40:

Treatment of materials; recycling of trash and waste; air purification and water treatment; printing services; food and beverage preservation; treatment of waste and hazardous substances; production of energy; waste treatment, oil treatment; air treatment; air purification, air freshening; refining services; rental of power generators; sorting waste and recyclable materials; custom manufacture of transportable prefabricated houses; custom manufacture of housings for electrical installations; energy treatment and transformation; rental of equipment for energy production; rental of industrial robots for industrial production; provision of information and advice relating to all the aforesaid services.

Class 41:

Education; training; entertainment; sporting and cultural activities; provision of courses through an online platform; electronic desktop publishing; publication of books; publishing texts (excluding publicity texts); editing services, other than printing; drafting and publishing of texts other than advertising texts; organizing training, seminars, conferences, workshops, events and exhibitions; provision of non-downloadable electronic publications online; organizing exhibitions for scientific purposes; podcast production; publication of statistics; provision of information and advice relating to all the aforesaid services.

Class 42:

Scientific and technological services as well as research and design services relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computers and software; information technology services; industrial research, advice, planning and design of industrial installations; testing of materials; underwater and underground exploration; advice in the field of environmental protection; architectural services; engineering; energy auditing; monitoring and control of industrial processes; information technology monitoring of industrial sites and power plants; technical measuring and testing services; computer technology advisory services in the field of data and Internet security; research, design and

development of production lines, machines, industrial robots, robots as well as computer software and hardware for the control and provision of production lines, machines, machine tools, robots and industrial robots; technological advice with respect to production lines, machines, industrial robots, robots, computer hardware and software and industrial automated logistics; Software as a Service (SaaS); temporary provision of online non-downloadable operating software for accessing and using a cloud computing network; hosting of platforms on the Internet; creation of data processing programs; software as a service (SaaS) with machine learning software, data retrieval, data analysis and artificial intelligence services; providing technical information on the use of computers, computer hardware, software and computer networks; configuration, installation, maintenance, troubleshooting, repair and updating of software; computer Platform as a Service (PaaS); cloud computing; providing online non-downloadable cloud-based software; providing non-downloadable software applications for use with mobile apparatus; provision of computer programs on data networks, particularly on the Internet and the World Wide Web; design and development of computer hardware and software for industrial applications; industrial analysis services; services of a network engineer, including advice with respect to computer and network security; scientific and industrial research and advice with respect to network technology; artificial intelligence research; technological advice on artificial intelligence; software as a service (SaaS) with computer software platforms for artificial intelligence; Engineering in relation to robotics; designing and developing computer software for industrial automation; software as a service (SaaS) in the field of industrial automation; providing technical advice relating to computer hardware and software, particularly in the field of industrial automation; server hosting; authentication of data via a blockchain; data storage via a blockchain; certification of data via a blockchain; Blockchain as a Service (BaaS); user authentication using blockchain technology; hosting non-rechargeable virtual goods, namely virtual goods in the fields of electrification, drive mechanisms, motors and engines, generators and mechanical transmission, automation and robotics products; providing non-downloadable digital files authenticated by non-fungible tokens [NFTs]; technical advice concerning solar energy installations, photovoltaic installations and charging stations for electric vehicles; providing scientific information and technological advice with respect to e-mobility; industrial design services; packaging designer services; quality control; underwater exploration; engineering consultancy on environmental impact, advice with respect to energy saving, technical advice on energy-saving measures, technical advice in the field of energy saving and energy efficiency; carrying out chemical analyses; oil prospecting; oil-well testing; conducting analyses for oil extraction services; conducting appraisals on oil reserves; services provided by a physicist; technical advice with respect to computers; recovery of computer data; software maintenance; computer system analysis; research and development of new products; research in the field of technology and engineering; developing technical instruction manuals; engineering, including engineering advice; construction work planning; technical project planning and advice relating thereto; rental of computer software and data processing equipment; provision of information and advice relating to all the aforesaid services.

Class 43:

Services for providing food and beverages.

Class 44:

Medical services; veterinary services; hygienic and beauty care for human beings or animals; agriculture, aquaculture, horticulture and forestry services.

Class 45:

Legal services; security services for physical protection of property and individuals; licensing services for industrial and intellectual property rights; legal services relating to patent exploitation; standards and practices examination services for participants in a certification program in order to check their compliance with energy saving standards, environmental standards, laws and regulations; Lobbying services other than for commercial purposes; court and out-of-court dispute resolution services; provision of information and advice relating to all the aforesaid services.
