PULSAR

International priority date claimed:
06 March 2025 (GERMANY)

Class 6:

Building materials and components made of metal, in particular railway material of metal; metal rail fastenings; metal structures and transportable structures; metal building structures; structures in the form of fixed metal constructions; metal fastenings for monitoring devices; Metal brackets; base metals and their alloys; metal cables, wires and chains [not for electrical purposes]; unprocessed and partially processed metal materials not adapted for a specific use; small iron goods; nuts, bolts and fasteners made of metal; pipes, tubes and hoses and accessories therefor, including valves, made of metal; Metal goods for construction purposes; signs and information and advertising boards made of metal; beacons, non-illuminated, made of metal; containers and transport and packaging articles made of metal; signalling equipment, non-illuminated and non-mechanical, made of metal; steel structures; tanks made of metal; doors, gates, windows and window coverings made of metal; parts of the aforementioned goods, insofar as included in class 6.

Class 9:

Measuring, detection, monitoring and control devices; sensors, detectors and monitoring instruments and apparatus; sensors for monitoring the condition of railway vehicles and tracks; control devices for sensors; data acquisition devices; data processing devices, in particular RFID readers; apparatus and instruments for electricity; recording devices; magnetic data carriers; Downloadable and recorded data; software; sensor software; optimisation software; AI-driven software for process and status data acquisition, in particular acquisition of UIC wagon numbers, wagon sequencing, exterior view, brake blocks and wheel set damage as well as existing graffiti, the transport of dangerous goods and the thermal condition of the wheels of railway vehicles; Artificial intelligence software and machine learning software; software for artificial intelligence; software for data evaluation; software for monitoring, analysing, controlling and executing processes in the physical world; Software for detecting wagon numbers, wagon sequences, external appearance, brake sole and wheel set damage, as well as existing graffiti, the transport of dangerous goods and the thermal condition of the wheel of railway vehicles in railway transport; Computer network and data communication devices and equipment; Cameras; Microphones; Testing and quality control devices; Systems for detecting wheel set damage; dangerous goods detection systems; graffiti detection systems in the railway transport sector, in particular systems for detecting wear and damage to railway vehicles and railway transport systems; brake block monitoring systems; data transmission systems for cloud connection; control units for wayside monitoring systems; sensors and computer hardware; Vibration sensors; temperature sensors; GPS/geolocation/location sensors; position sensors; sensors for measuring surface structures or surface roughness; sensors for measuring material or material deformations; ultrasonic sensors; sensors for measuring material

***List of cases accepted for opposition purposes as shown in Journal 2025/036 published on
05 September 2025 .***

properties or material characteristics using ultrasound; X-ray sensors; sensors for measuring material properties or material composition using X-rays; electrical sensors; fibre optic sensors; digital sensors; optical sensors; piezoelectric sensors; sensors for machine tools; on-off sensors; electro-optical sensors; control units for sensors; sensors for measuring instruments; Sensors for determining speed; sensors for plant control; updating, recording and controlling data and processes relating to the condition of railway vehicles and updating, recording and controlling data and processes relating to damage to railway vehicles; testing and quality control equipment; electronic monitoring equipment; alarm and warning equipment; sensor switches; Control devices for sensors; computer components and parts; electrical and electronic components; energy regulators; energy control devices; recorded data; information technology, audiovisual, multimedia and photo e devices; magnets, magnetisation and demagnetisation devices; scientific devices and laboratory devices for physical reactions using electricity; Apparatus, instruments and cables for electricity; optical apparatus and equipment, amplifiers and correctors; security, safety, protective and signalling apparatus and equipment; navigation, orientation, location, tracking and mapping apparatus; electrical apparatus and instruments for railway and transport, insofar as included in Class 9; Apparatus for recording, transmission or reproduction of sound or images; video and image cameras; apparatus for recording, transmission, storage, processing or reproduction of analogue and digital sensor and measurement data; communication equipment; data processing equipment and apparatus and accessories [electrical and mechanical]; data storage devices and media; Calculating machines; computers; electric accumulators for vehicles; alarm devices; electric display devices; electronic display panels; electrical installations for remote control of industrial processes; beacons, luminous; observation instruments; chips [integrated circuits]; encoders; stored computer software; application software; Data processing programmes for the mobility sector, in particular railway technology; artificial intelligence software and machine learning software; software for integrating artificial intelligence and machine learning in the field of big data; software for data and file management and for databases; software for data analysis; software for decision support or automatic, data-driven decision-making; System and system support software and firmware; web applications and server software; maintenance software; computer peripherals; remote control devices for railway transport; distance measuring devices; tachographs for vehicles; automatic control devices for vehicles; speed control devices for vehicles; remote control devices; radio masts; radio communication devices; magnetic cards; chip cards; illuminated signs; monitors; signal whistles; radar devices; relays [electrical]; electrical switching devices; switchboards; switch panels; mechanical signs; transmitters for electronic signals; apparatus for controlling and securing railway traffic; signalling devices [illuminated or mechanical]; power lines; electrical monitoring systems; Satellite navigation systems, essentially consisting of satellites and transmitting, receiving and locating devices; electrical and electronic devices included in class 9, for control, monitoring and measuring purposes, as well as components of such devices, in particular for railway vehicles: electronic drive/brake control circuits, limit switches, drive/brake switches, signal transmitters; Loudspeaker systems; computer programs and software for monitoring, analysing, controlling and executing processes in the physical world, in particular for control and guidance technology in railway vehicles and trolley buses, misalignment switches for belt conveyors, misalignment

monitors for bucket elevators; image processing apparatus; computer programs and software for image processing; Parts of the aforementioned goods, insofar as included in class 9; analysers not for medical purposes; measuring instruments; counting instruments; alignment instruments and calibration instruments; measuring recorders; measuring sensors; electronic measuring probes; detectors for electrical measuring instruments; measuring testers; digital measuring instruments; physical measuring instruments, except for medical purposes; Computer software for remote monitoring of measuring instruments; computer software for use in remote reading of measuring instruments; temperature control devices; emission control devices; weight control devices (electrical switches); Remote warning devices; Audible safety signals; Pressure gauges; Pressure loss indicators (automatic); Ultrasonic object detectors for use on land vehicles; Testing devices for land vehicle brakes and land vehicle operations; Devices for axle measurement; Speed meters and speed indicators; Traffic safety devices.

Class 11:

Lighting and light reflectors; lighting and light reflectors for vehicles; LED lamps; LED lighting systems; apparatus for illumination, in particular as part of measuring stations for monitoring the condition of railway transport systems and railway vehicles.

Class 12:

Vehicles and transport equipment; land vehicles and transport equipment; railway vehicles; unmanned surveillance vehicles; railway vehicles; Parts and accessories for vehicles; rail-bound inspection vehicles with integrated sensor technology; mobile test and measurement vehicles for railway infrastructure ; special vehicles for track inspection and maintenance; safety devices for railway vehicles for monitoring the condition of the vehicle.

Class 35:

Business support, management and administrative services; administrative assistance and data processing services; administrative data processing, systematisation and management; data entry [office work] in computer databases; office services for electronic data collection; data collection; compilation and systematisation of data in computer databases; database management; Updating and maintenance of data in computer databases; recording, processing and output of data in databases [office work]; electronic data processing [office work] in the field of railway transport and railway infrastructure; provision of information in business matters through computer-based data in the field of railway transport and railway infrastructure; business consulting; Business analysis and information services; collection and processing of data for the improvement of railway infrastructure maintenance; collection and processing of data for the improvement of the maintenance of all production equipment, devices and machines; collection and processing of data for the improvement of railway infrastructure availability; business analysis, research and information services; preparation of statistical analyses and reports; Provision of information on commercial and business matters from online databases; Commercial services; Process and status data collection in computer databases, in particular recording of UIC wagon numbers, wagon sequences, external appearance, brake blocks and wheel set damage as well as existing graffiti, the transport of dangerous goods and the thermal condition of the wheels of railway vehicles; Database management; data collection for third parties; collection of data; collection and systematisation of data on railway vehicles and

***List of cases accepted for opposition purposes as shown in Journal 2025/036 published on
05 September 2025 .***

infrastructure; statistical evaluations of railway transport status data; updating and maintenance of data in computer databases; preparation of business reports based on status data in the field of railway transport; consulting services for the optimisation of logistics processes in railway transport; Consulting services for process optimisation; consulting services for the integration of AI systems into existing railway infrastructures; efficiency analyses for railway operations based on AI-supported data; conducting market analyses in the field of railway transport technology.

Class 37:

Construction; repair; installation work; construction, assembly and demolition work; rental of tools, construction machinery and equipment for construction, demolition, cleaning and maintenance work; Installation, maintenance, servicing, cleaning and repair of land vehicles, in particular locomotives, trains and railway carriages of all kinds, railway tracks, rails, points, railway equipment and fittings, as well as control systems (hardware) and associated network structures (hardware); Provision of information relating to the repair or maintenance of railway transport systems and railway vehicles; condition-based and predictive maintenance and repair of land vehicles, in particular locomotives, trains and railway carriages of all kinds, railway tracks, rails, points, railway equipment and fittings, as well as control systems (hardware) and associated network structures Installation, maintenance and repair of electrical, pneumatic, hydraulic and electronic devices, sensors and components in vehicles Maintenance, repair and servicing of electrical engineering systems, data processing equipment and computers, apparatus and instruments for communications technology, data processing programs, apparatus and instruments for low-voltage technology, namely for communications, high-frequency and control technology, as well as the apparatus and instruments listed in class 9; All the aforementioned services, in particular in the field of railways and railway transport; installation, maintenance, servicing, cleaning and repair, as well as related testing, monitoring, consulting, evaluation, analysis and information services in relation to the following goods: Sensors, detectors and monitoring instruments and apparatus, measuring, detection, monitoring and control devices; Testing and quality control devices, measuring devices and apparatus; data loggers and data recorders; control and regulation devices, computers and hardware, computer network and data communication devices and equipment; Preparation of sites for the installation of surveillance systems [infrastructure construction]; Maintenance of camera and microphone systems for railway tracks; installation and commissioning of railway monitoring systems; maintenance and repair of sensor technologies for rail monitoring; railway vehicle maintenance; modernisation of data acquisition and transmission systems in railway transport; Repair or maintenance of measuring machines and instruments; Provision of information on the maintenance of measuring and testing equipment; Provision of information on the maintenance of measuring and testing facilities; Installation and maintenance of data network equipment.

Class 42:

IT services; development, programming, implementation, installation and maintenance of software; development and planning of technical solutions and products in the field of sensor and measurement technology; development of computer hardware; hosting services, software as a service [SaaS] and rental of software; rental of computer hardware and equipment; IT consulting, information and advisory services; design and development of computer software for web portals, in particular

for web portals providing data on railway transport systems and railway vehicles; IT security, protection and repair services; data duplication and conversion services, data encoding services; Scientific and technological services; rental of scientific and technological equipment; services provided by engineers and physicists; surveying and exploration; testing, authentication and quality control; process monitoring for quality assurance in the railway transport sector; quality assurance services in the railway transport sector; consulting in relation to quality assurance in the railway transport sector; technical consulting in relation to testing; Design services; software design services in the field of sensor and measurement technology, namely for the operation of platforms and for the integration and development of systems; industrial analysis and research services; technical consulting; technical project management in the field of IT; preparation of technical, scientific and technological reports; construction planning; technical inspection of vehicle performance; testing the roadworthiness of vehicles for safety purposes; material testing and analysis; technical data collection and data analysis services; analysis of data to improve the maintenance of railway infrastructure and all means of production, equipment and machinery, as well as to improve the availability of railway infrastructure; technical collection and recording of measurement data; performance of technical data analysis; computer services for data analysis; research in the field of artificial intelligence; Provision of computer programs for artificial intelligence in data networks; hosting of platforms on the Internet; platforms for artificial intelligence as software as a service [SaaS]; platforms for the provision of digital services as software as a service (SaaS); platforms for the provision of data visualisation as software as a service (SaaS); Platforms for the provision and processing of digital business models and transactions as software as a service (SaaS); technical inspection of railway infrastructure; condition, damage and failure prediction of railway infrastructure components based on technical measurements and data; consulting and information services for condition-based infrastructure availability management [scientific and technological services]; Technical inspection of railway infrastructure maintenance machines or measuring or transport vehicles; condition, damage and failure prediction of railway infrastructure maintenance or transport vehicles and machines based on technical measurements and data; consulting and information services for condition-based machine or vehicle availability management [scientific and technological services]; technical planning, research and technical development of installations, equipment and apparatus, in particular in the field of railway technology; condition testing, monitoring and control in railway transport; condition testing, monitoring and control of railway vehicles and tracks; development of monitoring systems for railway transport; scientific evaluation of the efficiency of railway vehicles; technology consulting; Development of new technologies, in particular for use in the field of railway transport; scientific and technological services and research work and related design services; technical monitoring of events and activities affecting the condition of railway transport systems and railway vehicles [engineering services]; technical monitoring and inspection of the condition of railway transport systems and railway vehicles; Research in the field of industrial image processing; industrial analysis and industrial research; research into new methods for predictive maintenance in railway transport; research in the field of sensor technologies for rail monitoring; development of algorithms for detecting wear and damage to railway vehicles and railway transport systems; design and development of computer hardware and

List of cases accepted for opposition purposes as shown in Journal 2025/036 published on 05 September 2025 .

software; Design of AI-supported analysis software for railway infrastructure; programming of software solutions for the railway industry; provision of cloud-based data analysis platforms; development of image recognition software; research in the field of artificial intelligence; digitalisation services; preparation of expert reports on the condition of railway vehicles; design of measurement systems; measurement services; Carrying out technical measurements and tests; performing technological analyses; evaluating measured values; renting out measuring instruments and measuring devices; developing measurement methods and test methods; engineering services for diagnostics in the field of integrated circuits; analysing large amounts of data with regard to the relationships between the data, targeted data searches; developing computer programs for analysing exhaust emissions; Calibration of analysis equipment; Computer-aided industrial analysis services; Scientific research and analysis; Provision of online information for industrial analysis and research; Engineering analyses; Engineering services for the analysis of machines and equipment; Material testing and analysis; testing, analysis and monitoring of navigation signals; testing, analysis and monitoring of telecommunications signals; analysis and testing services relating to electrical equipment; design and development of testing and analysis procedures; Computer services for data analysis; design and development of data display and input systems; Creation of control programs for automatic measurement and assembly, as well as adaptation of data acquisition devices and the associated visualisation of data; performance of technical data analysis; research relating to data processing; research in the field of data processing technology; software engineering for data processing programs.

CHEFTAG

Class 9:

Downloadable mobile applications for food storage management; QR code labels; electronic tags; encoded identification labels; downloadable software for tracking food safety, allergens, and expiry dates; computer software for use in kitchen inventory management; NFC tags; smart labels incorporating scannable codes.

Class 16:

Reusable adhesive labels for food containers; permanent labels; vinyl labels; plastic labels; stickers for kitchen and catering use; food rotation labels; writable labels made of plastic or laminated paper; printed instructional materials relating to food storage; Dry-erase markers; pens for writing on reusable labels; marker pens with integrated erasers; eraser tips for markers; replacement erasers for markers; pen holders; docking stations for pens and writing instruments used in food labelling; .

Class 21:

Kitchen containers for household use; plastic storage containers for commercial catering use; reusable writing implements for kitchen labelling systems.

The logo for "Car Banana Cymru Driving School" features a stylised yellow car shaped like a banana. It is playful and eye-catching. The text "CAR BANANA" is written in bold, blue uppercase letters with a white outline above the word "CYMRU."

Below that, "DRIVING SCHOOL" is placed inside a blue rectangular banner in white uppercase letters. The overall design has a fun and quirky appearance, likely targeting a younger audience or those looking for a unique driving school experience.

Class 41:

Driving schools; Driving academy services; Driving instruction in road safety; Driving instruction; Instruction in driving; Vehicle driving instruction; Motoring school services; Instruction services relating to four wheel drive vehicle driving; Advanced driving instruction for drivers of motor cars; Providing training in motor vehicle driving; Training services for drivers in driving skills; Training of car drivers; Education in road safety; Driver training; Driver safety training; Road safety training.

FIRE MAGIC

Class 11:

Barbeque grills, namely, gas grills, electric grills, and charcoal grills; pizza ovens; induction cookers; infrared burners; side burners for barbeque grills; power burners for barbeque grills; outdoor grill accessories, namely, warming racks and warming trays, griddle plates, warming drawers for use with barbeque grills and outdoor kitchens, warming drawer inserts, grilling trays, woks, smoker baskets, smoker boxes, gas shutoff timers, gas valves, and gas connection boxes for gas grills; Barbeque islands and island systems comprising barbeque grills, countertops, and storage cabinets sold as a unit; utility and storage drawers for use with barbeque grills; access doors for use with barbeque grills; protective covers for barbeque grills; vent covers and hoods for use with barbeque grills; ventilation screens for barbeque grills; outdoor refrigerators; kegerators; outdoor ice makers; outdoor ice chests; outdoor food and beverage coolers; sinks; sinks with faucets; outdoor kitchen accessories, namely, beverage butlers including a sink with faucet, condiment tray, cutting board, towel holder, bottle opener, ice chest and beverage caddy, refreshment centers including an ice bin, bottle storage and bottle opener, and beverage caddies including storage drawers, towel bars, bottle opener, ice bin and bottle sleeves; portable carts for barbeque grills; wind guards for use with barbeque grills. .

Class 20:

Barbeque islands and island systems comprising countertops and storage systems sold as a unit without appliances.

Class 21:

Barbeque utensils and tool kits; grill scrapers for cleaning barbeque grills; cutting boards; pizza stone kits; chicken holders for use with barbeque grills; turkey holders for use with barbeque grills; rotisserie kits; frying kits; paper towel holders for outdoor kitchens and barbeques; outdoor trash containers; outdoor trash cabinets; grill top thermometers for monitoring grill surface temperature. .

searchworthy

Class 9:

Search engine optimisation (SEO) tools; Web applications software for search engine optimisation (SEO).

Class 35:

Search engine optimisation (SEO) services for sales promotion; Business consultancy in the field of search engine optimisation (SEO).

Class 41:

Training and education services in the field of search engine optimisation (SEO) and digital marketing.

Class 42:

Design and development of websites; Software as a Service (SaaS) featuring software for search engine optimisation (SEO), digital marketing, and website design.

Searchworthy Limited

UK00004255106 27 August 2025
(35, 41)

Class 35:

Sales promotions at point of purchase or sale, for others.

Class 41:

Organising of sporting events; Organising of sports competitions and events; Organising events for entertainment purposes; Arranging of award ceremonies.

MONTCALM RLH

Class 25:

Clothing; footwear; headgear.

Class 35:

Business management and administration services; commercial information services; consultancy services relating to franchising; advertising, marketing, publicity and promotion services and information services relating thereto; business

administration services for the processing of sales made on the Internet; communications (public relations); operation and supervision of loyalty schemes and incentive schemes; international business representation services; information consultancy and advisory services relating to all the aforesaid services.

Class 39:

Arranging and booking of holidays, short breaks, travel, tours, excursions and sightseeing; escorting of travellers; booking services; luggage handling, luggage storage; travel and tour information and advisory services; travel arrangements.

Class 41:

Leisure services; entertainment services; provision and management of sports facilities; health clubs; beach and pool clubs; country club services; motion picture and video rental services; provision of physical education and gymnastic facilities; production of shows; organisation of meetings and conferences; organization and provision of training facilities for sales and hotel staff.

Class 43:

Hotel services; hotel accommodation services; hotel reservation services; temporary accommodation services; holiday information and planning services relating to accommodation; provision of conference and convention facilities; hotel services comprising a rewards programme for frequent hotel guests in the nature of special benefits being accumulated for use in relation to hotel services; providing facilities for business meetings, conferences and exhibitions; provision of social function facilities for special occasions; food and beverage services; restaurant and bar services; hotel restaurant and bar services; public house services; café services; catering services; cafes and nightclubs; advisory and consultancy services relating to the aforesaid.

Class 44:

Hairdressing salons; skincare salons; spa services; beauty spa services; health spa services; spa services for the health and wellbeing of the body and spirit; barber shops and beauty salons; hairdressing services.

Class 45:

Babysitting services; security services relating to valuables; advisory and consultancy services relating to the aforesaid.
