Class 35:
Sales promotions at point of purchase or sale, for others;
Business management of wholesale and retail outlets; Business
management of wholesale outlets; Business management of
retail outlets; Administration of the business affairs of
retail stores; Business management for shops; Management

of a retail enterprise for others; Business management of
restaurants; Assistance in franchised commercial business
management; Commercial business management; Business
management; Business management assistance for industrial
or commercial companies; Business management services;
Business management of theaters; Business management of
entertainment venues; Online retail store services in relation
to clothing; Business management of hospitals; Business
management of hotels; Hotels (Business management of -);
Online retail store services relating to clothing; Business
management advice relating to manufacturing business; Retail
store services in the field of clothing; Business management
for freelance service providers; Business management for
a trade company and for a service company; Business
accounts management; Business management of airports;
Commercial assistance in business management; Business
management and consulting; Business management consulting;
Business management assistance in the operation of restaurants;
Business marketing services; Business management and
consulting services; Business management consulting services;
Business management and consultancy; Business management
consultancy; Planning concerning business management,
namely, searching for partners for amalgamations and business
take-overs as well as for business establishments; Sales
management services; Assistance to commercial enterprises
in the management of their business; Business management
services relating to the development of businesses; Advisory
services relating to business management and business
operations; Providing business management and operational
assistance to commercial businesses; Business merchandising
display services; Online retail services relating to jewelry;
Retail services connected with the sale of furniture; Business
management and consultancy services; Business management
consultancy services; Business management assistance in the
establishment and operation of restaurants; Business marketing
consulting services; Business management services relating
to the acquisition of businesses; Retail services in relation
to bakery products; Business management consultancy in
the field of corporate travel; Online retail services relating
to clothing; Online retail services relating to handbags;
Business consultancy services relating to the supply of quality
management systems; Management of business offices for
others; Retail services in relation to fashion accessories; Business
management consultancy via the Internet; Unmanned retail store
services relating to food; Retail services relating to bakery
products; Business management of models; Retail services
connected with stationery; Business management advisory
services relating to commercial enterprises; Online retail services
relating to cosmetics; Retail services in relation to seafood;

Application for a series of 2 marks.

Class 7:

Machines, Machine tools and mechanical parts for production of vehicles; machines for manufacture; motors and engines, including electric, hybrid, hydrogen, solar-powered and autonomous drive motors; engine and motor components; power transmission components, including clutches, gears, gearboxes, axles, driveshafts and drive systems; energy recovery and KERS systems for machines; cooling systems for machines, including

List of cases accepted for opposition purposes as shown in Journal 2025/039 published on 26 September 2025 .

radiators, fans, water pumps, condensers and heat exchangers; mechanical battery systems and energy recapture mechanisms for machines; wheels and tyres being parts of machines; actuators; joysticks for machines; mechanical and pneumatic system control instruments; industrial robots; robotic machines for manufacturing, welding, painting, assembly, handling, lifting, transportation and logistics; robots for production, assembly, testing and maintenance of vehicles; self-driving robots for industry; AI-powered industrial robots; robots for health, wellness and household use; robotic labelling, packaging, storage and retrieval machines; robotic arms for assembly lines; robotic factory systems for automation of production, diagnostics, inspection, quality control and data processing; robots and mechanical systems for autonomous vehicle manufacturing; diagnostics and monitoring; machine-operated battery handling, charging, mounting, testing and recycling systems; pumps; compressors; fans; generators of electricity; vending machines and virtual vending machines; opening and closing mechanisms for machines; robotic systems for material sorting; automatic control systems for industrial machinery; drive motors and actuators for machine steering, braking, propulsion and suspension; robotic systems for the automatic opening and closing of seats, doors, windows and other components of machines; machine tools, robots and mechanical systems for battery assembly and integration; industrial handling systems for parts; robotic and mechanical systems for manufacturing plants; robotic maintenance and diagnostic machines; robots for autonomous transportation of parts and goods; robotic systems for logistics and supply chain operations.

Class 9:

Electronic components; computer hardware; sensors; electronic sensors; monitors; displays; touchscreens; gyroscopes; processors; actuators; cameras; LiDAR; radar; instrumentation and navigation apparatus for vehicles including biwheel (diwheel) vehicles, electric, EPAC, solar-powered, hydrogen-powered, taxi, cargo, delivery, autonomous, and self-balancing biwheels and electric vehicles, solar-powered vehicles, hydrogen-powered vehicles, taxis, cargo delivery vehicles and autonomous vehicles; on-board computers; on-board computers for vehicles; portable computers and displays; control panels for vehicles; touchscreen, gesture and voice control panels; multimedia connectors; smart displays for vehicle dashboards; wearable digital electronic devices; smartphones and smart electronic devices used as primary or secondary vehicle control and interface devices, including hardware, software, applications, docking stations, communication modules and user interface devices; wearable smartphones, wearable smart devices and wearable computers; electronic telecommunications devices, mobile devices and peripherals for use with vehicles, vehicle display monitors, control, navigation, entertainment, diagnostics, communication and artificial intelligence chatbots for stimulating conversations; smartphones including voice and gesture control hardware and software for use in vehicles and other for hands-free environments including data transmission, telecommunication functions, calls, messaging, internet access, cloud interaction, entertainment systems, retail marketplaces, contactless payments, guides and artificial intelligence-based virtual personal assistants and chatbots; smartphones and computers for direct and remote control of vehicles, displays, media players, entertainment systems and consumer electronic devices; control of vehicles and smart goods via smartphones and computers; vehicle batteries; electronic hardware and software for battery management systems including vehicle-mounted smartphone docking and charging; smartphones and

smart devices for use with vehicle batteries; removable and portable electric vehicle batteries including backpack-style, briefcase-style and wheeled suitcase-style batteries; portable EV batteries with smartphone docking and charging functionality; battery displays, control panels and interfaces including state-of-charge, portable battery smart displays and battery management; battery chargers and charging stations; electronic hardware, sensors and software systems for vehicles and vehicle automation including manual, assisted and autonomous control of distance recorders, joysticks for vehicles, joysticks adapted for smartphones, steering, speed control, speedometers, braking systems, gradient sensors, incline/decline recording and display, odometers, tachometers, analogue and digital clocks, anti-collision and parking sensors; systems for control and automatic operation of doors, seats, jockey wheels, parking brakes, air conditioning, heating, ventilation, air filtration and purification, lighting, hazard lights, headlights, sirens, horns, heated seats, photoluminescent bodywork, solar roofs, solar windscreens, embedded electronics in body mouldings, OLED and LED taxi advertising displays, external advertising communication, wipers, stereo speakers, directional speakers, media players, radios, amplifiers, subwoofers and speakers; downloadable software for in-car audio and amplifier systems; in-vehicle, passenger facing cameras and external cameras, electronic locks, keys, digital keyrings, security systems and alarms; electronics, programs and software for integrated lights and battery accumulators in bodywork; electronic control, access and temperature control systems; motor controllers for vehicles; navigation instruments and devices; stabilizing gyroscopes and piezoelectric vibratory gyroscopes; KERS systems; energy recapture systems; multi-camera systems for vehicles; vehicles security cameras, video recorders, closed-circuit television systems for vehicles; software for detecting presence of a person; computer software for mobile applications that enable interactions and interface between vehicle and mobile devices; anti-theft software; devices and software for vehicle security reporting to smartphones; systems for downloading and updating of computer software to and from vehicle; software for the remote controlled diagnostics for vehicles; vehicle autonomous driving systems with interactive interfaces and displays; vehicle autonomous driving control through smartphones and smart devices; vehicle teleguidance and cruise control systems; downloadable computer software, programs, mobile and smartphone applications, and firmware for use in vehicles, autonomous vehicles, smartphones and wearable smart devices for vehicle control, navigation, autonomous and assisted driving, parking, infotainment, safety, biometric authentication, security, artificial intelligence-based personal assistants including virtual taxi driver, tour guide, tutor, DJ, shopping assistant and chatbots; speech processing and voice control software; vehicle control software; software for voice and gesture control of vehicles and electronic goods; downloadable programs for artificial speech and text generation; downloadable operating systems; downloadable artificial intelligence-based operating systems and applications; software and firmware for over-the-air (OTA) vehicle updates; software for vehicle-to-vehicle, vehicle-to-cloud and smart device-to-vehicle communication, encryption, data transfer and storage; computer software platforms and web server software; on-board and remote diagnostic systems; software for accessing local and global networks; programs for remote computer network connections; computer utility programs for maintenance, vulnerability testing, cleaning, optimization, document control, access, monitoring and operation; GPS software; systems for downloading and updating

List of cases accepted for opposition purposes as shown in Journal 2025/039 published on 26 September 2025 .

software to and from vehicles; software to remotely monitor and control vehicle security systems; communication systems with hardware and software for data transmission; systems for communication between vehicles, smartphones, electronic telecommunication devices, electronic devices, infrastructure and advertising; downloadable software and mobile applications for artificial intelligence capabilities including natural language processing (NLP), deep learning, machine learning and large language models (LLMs); artificial intelligence-based chatbot software and platforms for user interaction, goods and services access, digital assistant management and operating systems; hardware and software for gaming, downloadable electronic games and software for gamifying journeys, peer-to-peer fitness tracking, audio training, social media and communication; downloadable augmented reality (AR) and virtual reality (VR) content; downloadable software for secure digital environments including smartphones, smart devices and computers; electronic communication systems with hardware and software for data transmission, downloadable smartphone and wearable telecommunication device software and applications for creating, storing, editing, downloading and streaming music, audio, video, games, multimedia content, fitness and wellness content, data, photos, images, graphics, vehicle sounds; AI computer chatbot programs and virtual personal assistants; biometric voice recognition software; electronic voice recorders, voice command devices, processors, synthesizers and recorders; software for voice-to-text and text-to-voice conversion; artificial intelligence-based operating systems, operating system software and applications; hardware, software and systems for artificial intelligence personal virtual assistants and chatbots for hands free environments including vehicles; hardware and software for connection, control and operation of vehicles; hardware and software for autonomous vehicle control; computer hardware and software for voice commands, gesture control and biometric authentication for vehicles and personal electronic devices; downloadable firmware and software updates via over-the-air technology for vehicle and smartphone systems; downloadable software for enabling autonomous, assisted and manual vehicle control; software platforms for artificial intelligence-driven vehicle diagnostics, maintenance, navigation and user support; chatbots for autonomous driving and manufacturing diagnostics; hardware and software for personal virtual assistants and chatbots; electronic control, safety, access and security systems for vehicles via interfaces, smartphones and smart devices including facial and voice recognition; biometric access control systems; electronic keys and locks; electronic folding and adjustment of seats, windows, sunroofs, doors and parking brakes; anti-theft systems; security alarms; obstacle detection and blind spot monitoring systems; driver assistance and external, internal and passenger facing cameras; intruder detection and reporting systems; parking sensors and automated parking control systems; lane changing, reversing and cruise control software; voice identification (biometric) and gesture control interfaces for vehicle control; rental, booking and sharing service software for vehicles, taxis and delivery vehicles; software for controlling self-service terminals; hardware, downloadable software and applications for smartphones, wearable smartphones, wearable computers and smart devices; smart glasses; biwheel helmets and smart visors; smart helmets for vehicles with telecommunications and integration; wearable media players, audio and display equipment; fitness trackers and activity wearables; smart wristbands, smartwatches, smart clothing and accessories for vehicles, fitness, health, location tracking and real-time feedback; software for delivering fitness,

wellness and education content via wearable, smartphone and vehicle-based platforms; electronic devices and computers with cellular, satellite, Wi-Fi, Bluetooth, UWB, NFC, future telecom standards, peer-to-peer and mesh networking for payments, data transmission, storage, internet and network access and communication with other smart devices connectivity capabilities; secure digital environments for secure digital storage, telecommunications and data transmission; quantum computer hardware, systems and software including quantum encryption software and systems for secure digital networks; cryptography, switching and encryption software; software for access control; hardware, software and mobile applications for navigation, GPS tracking, journey planning, recommendations, virtual tour guide functions, peer-to-peer destination sharing and telemetry; GPS-based fitness analytics; software for positioning, mapping, weather, distance, speed, gradient and step tracking; mileage, odometer and tachometer software; geolocation and diagnostic sensors; illuminated and electronic advertising displays including LED, OLED, VR, AR and holographic systems; advertising sensors; communication interfaces between vehicles and external advertising or retail services; peer-to-peer and location-based advertising software; remote advertising platform access via smartphones and chatbots; electronic systems, robotics, monitors, sensors, software and instrumentation for vehicle manufacturing; autonomous factory and smartphone-integrated manufacturing systems; artificial intelligence-based software for smart factories and robotics; voice-controlled chatbot systems for diagnostics, workflow optimization and manufacturing analytics; computers, computer systems, monitors, keypads, peripherals, chips, joysticks, controllers, interfaces, motherboards, microcomputers, tablets, laptops, handheld and stick computers, personal computers, computer screens and mobile computing devices; software for diagnostics, utilities, cloud access and system cleaning; diagnostics, network optimization and device operation; computers, monitors, cameras, scanners, printers, image processors, chips, printed circuits, microprocessors and data processors; sensors and sensor systems for vehicles and robotics; computer and software interfaces; Computer hardware and software for vehicle manufacturing systems; Application software for robots; downloadable and recorded software and hardware for enabling, enhancing or facilitating any of the aforementioned functions and systems; solar, piezoelectric and vibratory energy capture, portable batteries and swappable power and energy packs for vehicles, including electric and hydrogen- powered vehicles, fuel cells and fuel cell systems for vehicles, mobile and portable charging devices and units, inductive and wireless charging systems and pads, charging stations and docking stations for vehicles, vehicles and vehicle parts adapted for use with smartphones and smart devices as control or interface systems, including docking stations, communication modules and user interface devices, integrated advertising displays, navigation and control devices, driver assist and autonomous control systems hardware, vehicle mounted sensors (LiDAR, radar, cameras), collision avoidance sensors and systems, vehicle health monitoring sensors and diagnostic hardware, driver and passenger monitoring cameras and sensors, on board computers and control units, telematics hardware, vehicle communication modules, and integrated display interfaces, vehicle-to-vehicle (V2V), vehicle-to-infrastructure (V2I), vehicle-to- network (V2N) communication modules, dedicated short range communication (DSRC) hardware for vehicles, speedometers, odometers, tachometers, analogue and digital clocks, stabilising gyroscopes, access and temperature

List of cases accepted for opposition purposes as shown in Journal 2025/039 published on 26 September 2025 .

systems, in-vehicle air quality sensors and purification hardware, cameras, including in-vehicle, passenger-facing and external vehicle cameras, radios and media playback systems, integrated infotainment control panels and hardware, speakers, directional speakers, amplifiers, subwoofers, or in-vehicle audio and entertainment systems, quantum computing hardware, cryptographic systems and quantum-secure control components for vehicles, smart visors and integrated vehicle helmets excluding bicycle helmets, wearable technology, smart accessories and smart clothing adapted for vehicle control, monitoring or communication, holographic, AR, VR and LED/OLED advertising displays integrated into or mounted on vehicles, none of the aforementioned goods for use with bicycles, bicycles, TV platforms, TV broadcasting or as telecommunications network provider service.

Class 11:

Internal and external air filtration and purification systems, climate control systems including air conditioning, heating and ventilation.

Class 12:

Vehicles and parts thereof; including biwheel vehicles (diwheel vehicles), electric biwheels (EV biwheels), electric pedal assist cycle (EPAC) biwheels, solar powered biwheels, hydrogen powered biwheels, taxi biwheels, cargo biwheels, delivery biwheels, autonomous biwheels, sports biwheels, self-balancing vehicles; solar, electric, hybrid and hydrogen vehicles; taxis, delivery and cargo vehicles; autonomous, remote controlled and driverless vehicles; vehicles for the disabled and those with mobility difficulties; zero-emission cars, motor vehicles and automobiles; scooters, vans, lorries, container transport vehicles, trailers, patrol and utility vehicles, road vehicles (except bicycles); marine, rail, air, space, off road, amphibious and roadable aircraft vehicles; high speed zero emission cargo ships for transporting people and lightweight goods including lightweight vehicles; ultralight, pilotless cargo delivery aircraft; vehicle cabs, chassis, bodies, bodywork, structural parts, shafts and monocoque structures; vehicle windows, windscreens, solar windscreens, sunroofs, skylights, solar body mouldings, photoluminescent bodywork, accumulators integrated into bodywork, doors, roofs, bumpers, spoilers, mirrors, tyres, wheels, wheel hubs, jockey wheels, pneumatic jockey wheels, propellers, suspension springs and dampers, leaf springs, cone springs, suspension parts, suspension systems, transmissions for vehicles, gear transmissions, mechanical transmissions, hydraulic transmissions, hydraulic circuits for vehicles, power transmissions, stability control systems for vehicles, traction control systems, braking systems, powertrains, differentials, hydraulic, traction and pneumatic control systems, kinetic energy recovery systems (KERS), energy recapture and regeneration systems; electric biwheel parts including pedals, treadle pedals, sprockets, gears, chains, brakes, drivetrains, hubs, kickstands; airbags for vehicles; electric drive systems for vehicles (motors, batteries, controllers); electric autonomous drive systems for vehicles (motors, batteries, controllers); high-performance braking systems and regenerative braking hardware; adaptive suspension hardware, shock absorbers; zero-emission engines for vehicles; electric motors for vehicles; electric and hybrid propulsion modules; magnetic levitation (maglev) vehicle components; energy management systems for vehicles; energy storage management systems; vehicle-integrated renewable energy generation units; electronic control; vehicle joysticks and other control devices; indicators, warning horns, windscreen wipers and rain/snow dispersion systems;

seats, seating, partitions, upholstery and fitted seat covers; smart seating systems with embedded sensors; internal and external air filtration and purification systems; climate control systems including air conditioning, heating and ventilation; vehicle alarms, antitheft and security devices, alarm systems, vehicle locks, electronic locks, keys and digital keyrings; alarms, alarm systems and stability control systems; vehicle accessories including luggage, cages and drinks holders for water bottles, drinks bottles, bells, horns and pumps; luggage carriers, racks, roof boxes, interior storage systems and nets and panniers adapted for vehicles; fitted covers for vehicles including biwheels; none of the aforementioned goods for bicycles, TV platforms, TV broadcasting or telecommunications network provider services.

Class 16:

Printed matter; Paper; Cardboard; Stationery; Printed publications; Books; Magazines; Newspapers; User guides; Printed instruction manuals; Printed training manuals and educational materials; Brochures; Printed brochures; Business cards; Post cards; Gift cards; Invitation cards; Note cards; Paper loyalty cards; Business documents; Letterheads; Envelopes; Business forms; Paper stickers; Printed decals and adhesive labels; Packaging materials; Printed maintenance logs and service record books; Printed safety and regulatory compliance documentation; Printed regulatory labels, compliance tags and certification documentation; Calendars and planners; Printed advertising and marketing materials, namely flyers, posters and leaflets; Certificates and warranty cards; Printed photographs and illustrations; Printed packaging inserts and display cards; Printed operating instructions and quick reference guides. None of the aforementioned goods for use in relation to bicycles.

Class 28:

Toy vehicles; Model vehicles; Toy biwheels; Toy scooters; Scooters [toys]; Remote-controlled scale model vehicles; Remote-controlled toys in the form of vehicles; Model aircraft; Toy aircraft; Gyroscopes and flight stabilizers for model aircraft; Fitness steppers; Fitness exercise machines; Indoor fitness apparatus; Exercise bicycles (stationary); Stationary exercise bicycles; Cycling machines [stationary]; Rollers for stationary exercise; Exercise biwheels; Stationary exercise biwheels and rollers therefor; Games; Game consoles; Handheld game consoles; Gaming machines; Sports games; Electronic games; Gaming keypads; Joysticks for video games; Video game joysticks; Computer game joysticks; Joysticks for video game machines; Joysticks being parts of video game consoles; Motion-sensitive game controllers [toys]; Smart device gaming accessories for use with handheld game consoles and electronic games; AR/VR gaming controllers; Educational science kits [toys]; Robotic coding kits [toys]; Build your own vehicle kits [toys]; Collectible toy figures; Playsets for toy vehicles; Replacement parts and fittings for game controllers and fitness apparatus. None of the aforementioned goods for use in relation to bicycles.

Class 35:

Retail and wholesale services relating to vehicles, biwheels (diwheels), autonomous, electric, hydrogen, and self balancing vehicles (except bicycles); retail services in relation to vehicles, vehicle parts, accessories and related goods; retail services in relation to smartphones, wearable smartphones, smart devices, wearable computers, smartwatches, fitness wearables, activity trackers, computer software, downloadable software, downloadable applications, downloadable content,

List of cases accepted for opposition purposes as shown in Journal 2025/039 published on 26 September 2025 .

downloadable digital objects for augmented and virtual reality environments, digital sounds, digital music, digital content, AI chatbots, luggage, clothing, clothing accessories, headgear, bags, batteries, accumulators, stationery, games, toys, and food; unmanned retail store services relating to food and drinks; vending machine services; advertising, marketing, publicity and promotional services, including advertising and promotional services relating to vehicles, biwheels (diwheels), autonomous, electric, hydrogen, and self balancing vehicles, taxi travel, hire and ride sharing services, cargo delivery and food delivery; advertising and promotional services delivered via on vehicle and in vehicle digital displays and interfaces, billboards, decals and via smartphone or smart device interfaces; advertising through vehicles, taxis, taxi tops, outdoor, indoor, street, bus stop, radio, television, cinema, online, digital, banner, billboards, hoardings, electronic billboards, decals, elevators, printed media, direct mail and press; provision of advertising information and consultancy; advertising agency services; advertising analysis, consultation, planning and market research; development of advertising concepts, campaigns, brand identity and branding strategies; production of advertising matter, including planning, creation, preparation, design, copywriting, production and updating of advertising material; distribution and dissemination of advertising and publicity materials, including brochures, flyers, leaflets, prospectuses, catalogues, printed matter, decals on vehicles, samples, goods, direct marketing, direct mail and online and digital media; arrangement and negotiation of advertising contracts; display of advertisements for others; provision, rental and leasing of advertising space, advertising equipment and advertising material, including on vehicles, taxis, trains, ships, planes, smartphones, smart devices, smart clothing, internet, printed materials, pamphlets, electronic billboards and hoardings; advertisements, radio and television commercials, cinematographic and advertising films; graphic design for advertising; scriptwriting for advertising purposes; compilation of advertisements for use on or in vehicles, taxis, websites, smartphones and smart devices, online and in publications; publication of advertising matter and literature in periodicals, newspapers, magazines, brochures, leaflets and printed media; promotion of businesses; systemisation of information into computer databases; classified advertising; business advertising, recruitment advertising; political advertising; employment advertising; promotion and advertising of retail and business services, travel and concerts; online advertising including advertising on computer networks, programmatic advertising, search engine optimization (SEO), pay per click (PPC) advertising, consumer profiling and targeted advertising, campaign performance tracking and analytics, native advertising, content marketing, geofenced and location based advertising, voice activated advertising, and advertising and retail services in augmented reality, virtual reality, metaverse and other immersive environments; social media marketing, influencer marketing, affiliate marketing, influencer network management and brand ambassador programmes, mobile marketing, email marketing, automated digital marketing, AI driven predictive advertising, mediation advertising, publication of advertising texts, and display and video advertising; advertising through AI personal virtual assistants, including personalised, voice activated recommendations and notifications of products, services and locations based on user interests and proximity, enabling taxi passengers and drivers to purchase goods and services as they travel. None of the aforementioned services for use in relation to bicycles.

Class 36:

Financing relating to vehicles; Providing financial services relating to vehicles, namely, biwheel, electric and hydrogen vehicle financing and lease purchase financing; financing services for the purchase and leasing of biwheel, electric and hydrogen vehicles; lease purchase financing; credit services, namely, providing financing for biwheel, electric and hydrogen vehicles; providing financial advice in the field of vehicles; Insurance; financial affairs; monetary affairs; real estate affairs; accident insurance underwriting; brokerage for hire purchase; credit and cash card services; financial information; financing services; issuance of credit cards; used vehicle appraisal; insurance of vehicles; providing of comprehensive warranty service for vehicles and parts thereof; extended warranty insurance services; factoring; lending against security; loans [financing]; automobile lease financing; Brokerage services relating to hire purchase; brokerage for hire purchase; processing of instalment sale payments; used vehicle appraisal; appraisal of second hand vehicles; mobile and in vehicle payment processing services, digital wallets, e wallets, tokenised payments, and in ride commerce payment solutions; financing for subscription based vehicle services, including vehicle as a service and fleet leasing; financing, leasing, and instalment plans for vehicles, smartphones, wearable devices, and smart accessories; loyalty programme management, including administration of reward points and cashback schemes; brokerage and financing of carbon credits and green energy incentives; payment systems for autonomous, ride sharing and taxi fleets, including processing of micropayments, ride credits and automated billing; processing of payments for vehicles, related goods and services, taxi and delivery services using government issued currencies, cash, loyalty rewards, cryptocurrencies and blockchain based payment systems; contactless NFC based payments for accessories, battery charging, in vehicle purchases and small transactions; Buy Now Pay Later (BNPL) services; biometric payment authentication; subscription and pay per use billing systems; cross border and multi currency payment processing; loyalty linked payments; voice activated payments via AI assistants; blockchain for supply chain transparency, provenance, and carbon emission tracking; crypto token loyalty and rewards; NFT based sales namely trading and provenance verification of vehicles, special edition vehicles, and related digital artworks and collectibles, including recording ownership history, commissions, and special order provenance on blockchain ledgers.

Class 37:

Maintenance, servicing, repair, overhaul, cleaning, refurbishment, retrofitting, upgrading and installation of vehicles, namely biwheel vehicles (diwheel vehicles), electric biwheels (EV biwheels), electric pedal assist cycle (EPAC) biwheels, hydrogen powered biwheels, solar powered biwheels, autonomous, remote controlled and driverless vehicles, taxi biwheels, cargo and delivery biwheels, sports biwheels, folding biwheels, motorised and children's biwheels, scooters, self balancing vehicles, hybrid vehicles, hydrogen vehicles, solar vehicles, marine, rail, air, and off road vehicles, and high speed zero emission cargo ships; installation, maintenance and repair of vehicle parts, structural components, chassis, monocoque structures, transmissions, braking systems, suspensions, powertrains, energy management systems, electric drive systems, motors, batteries, controllers, telematics hardware, sensors, LiDAR, radar, cameras, on board computers and control units, navigation and driver assist hardware, integrated advertising displays, vehicle mounted communication modules, and display interfaces; installation, servicing, calibration and

Class 9:

Measuring, detecting, signalling and monitoring instruments, indicators and controllers; electric and electronically controlled valves; electric control and regulating valves; solenoid valves; automatically actuated valves; control valves; remote control apparatus for effecting the automatic opening and closure of valves and actuators; gauges; sensors and detectors; monitoring sensors; modulating sensors; switches, binary

List of cases accepted for opposition purposes as shown in Journal 2025/039 published on 26 September 2025 .

switches for pressure, delta pressure, temperature, humidity, gases, mists, vapour and dust; electric switch boxes; regulators (electric); safety and releasable locking devices (electric); relays; pneumatic relays; transducers; parts of the mentioned above appliances, devices and instruments; electric data processing equipment, in particular apparatus for the input, transmission, storage and output of data; data processing programs and software; integrated circuits and semiconductors; junction sleeves for electric cable; holders for electric coils; choking coils [impedance]; sockets; plugs; switches; control panels [electricity]; electromagnetic coils; connections for electric lines; pneumatic control apparatus; pressure indicators; pressure measuring apparatus; pressure sensors.

Class 35:

Retail, wholesale and distributorship services connected with the sale of valves and manifolds, ball valves, butterfly valves, clack valves, check valves, control valves, directional control valves, disc flushing valves, double tube valves, drain traps, draw-off valves, flap valves of metal, flow control devices of metal, flow isolating valves, high pressure precision valves, manual valves, needle valves, non-return valves, poppet valves, pressure reducing and regulating valves, pressure relief valves, quick exhaust valves, safety valves, shutter valves, slide valves, shear seal valves, valves for industrial installations, valves for use in hazardous and corrosive environments, flow volume boosters, all of the above substantially of metal and for controlling the flow of fluids, parts, fittings and accessories for all of the above; retail, wholesale and distributorship services connected with the sale of valves and valve mechanisms, actuators for valves, air delivery valves, air switching valves, butterfly valves, check valves, clack valves, compressed air pilot valves, electric, hydraulic, mechanical, pneumatic, thermostatic control valves, drives for valves, electric motors for valves, electric valves, electromagnetic valves, flap valves, pressure regulating, control and reducing valves, directional control valves, valves for industrial use, high pressure precision valves, level regulating valves, lockable valves, manual control valves, pressure intensifiers, pumps, safety valves, motorised valves, non-return valves, pneumatic actuators for valves, pneumatically operable valves, power operated valves, safety valves, servo-control valves, shutter valves, slide valves, shear seal valves, stop valves, throttle valves, valves for regulating fluid flow, valves for industrial installations, valves for use in hazardous and corrosive environments, valves for use in wellhead apparatus, all of the above being parts for machines, compressed air pilot valves, parts, fittings and accessories for all the above; retail, wholesale and distributorship services connected with the sale of automatically actuated valves, control valves, directional control valves, solenoid operated valves, amplifying valves, automatic throttle valves for pressure control, valves for controlling fluid flow in boreholes, electronic control apparatus for valves, valve positioners, monitoring apparatus for the control of valves, pressure indicator plugs for valves, remote control apparatus for effecting the automatic opening and closure of valves, valves for use in hazardous and corrosive environments, parts, fittings and accessories for all of the above.

Class 37:

Maintenance, installation and service of control and fail safe apparatus and installations, including valves, motorised valves and light mechanisms for use in pipelines and channels, particularly in the chemical, petrochemical, water and waste and power generating industries; maintenance, installation and service of control and fail safe apparatus and installations

for industrial processes, electronic assemblies, computer hardware for monitoring and controlling industrial processes; maintenance, installation and service of control apparatus and installations including electrical/electronic means for controlling the operating of moveable equipment and mechanisms, including valves, motorised valves and light mechanisms for use in pipelines and channels and of parts and fittings for the aforesaid goods.

Class 9:
Downloadable mobile application software for managing mortgage loan applications, for enabling lenders to manage applications and profiles by brokers and sellers for on-line pre-qualifications, credit and loan risk assessments, and pricing and fee information, and user guides provided therewith; downloadable mobile application software for task management, advertising management, lead management, referral management, showing management, inventory management and appointment management and scheduling; downloadable mobile application software for using and managing multiple listing service data, tax data, parcel dimensions and data in the field of real estate; downloadable mobile application software for the managing of data and documents, namely sales reporting, financial reporting, commission structure reporting, agent accountability reporting, franchise reporting and loan payment schedules; downloadable software for use in evaluating, understanding, researching, applying for, processing, obtaining, and tracking loans and loan pre-approvals; downloadable mobile application software for assessing and managing loan risk and collecting data analytics for loan processing, approval and compliance; downloadable computer software that facilitates collaborating and communicating between borrowers and lenders and others involved in the loan process, sharing of documents and information between borrowers and lenders and others involved in the loan process, and storing data, documents and records for applying for, pre-approving, underwriting, processing, and obtaining loans; downloadable computer software for enabling borrowers to obtain personal financial information, credit reports, loan pricing, loan rates, and loan information; downloadable software in the nature of a mobile application for documenting and facilitating property inspections, automating job scope decisions, generating inspection reports, job estimates and work orders and storing data created in connection with the foregoing, in the field of property construction and repair;

List of cases accepted for opposition purposes as shown in Journal 2025/039 published on 26 September 2025 .

downloadable mobile application software for contractors to access, capture and process property and job scope information and details; downloadable enterprise software for use in providing data, information and reports on crime trends, security and crime risk, thematic maps, incident reports, and analysis for a particular location to third parties; downloadable mobile application software for documenting and facilitating property inspections, automating application of insurance carrier guidelines to property inspection data, automating insurance claim scope decisions and repair estimates, generating inspection reports and settlement estimates and storing data created in connection with the foregoing, in the field of property insurance claim settlement; downloadable software for use by insurance carriers and agents to access, capture and process property loss information and details; downloadable mobile application software for use in providing real property sellers and buyers with real property market, trends, agent, sale, listing, location, purchase, inspection, financing, insurance, moving, repair, renovation, improvement, utilities, and decor information, insights, advice, articles, videos, resources; downloadable mobile application software for use in connecting real property sellers and buyers with real property agent, sale, listing, purchase, inspection, financing, insurance, moving, repair, renovation, improvement, and décor service providers; downloadable mobile application software for use in connection with data, image, and document storage, data, image, and document management, data, image, and document access, data processing, and visualization of data in the fields of real estate, home ownership and home improvement; downloadable software and mobile application software for insurance claims adjudication, insurance claims adjustment, and property restoration; providing downloadable workflow management software for use in the field of insurance claim processing, adjudication, and property restoration; providing downloadable software for use in generating estimates and diagramming workflow process in field of insurance claim processing, adjudication, and property restoration; downloadable reports providing information and data pertaining to real property mortgages, loans, liens and encumbrances; downloadable computer software in the nature of a mobile application for use in providing and collecting customer information, photographs and videos of claim, quality review, customer feedback and construction progress reports in connection with property insurance claims, property construction and property repair contracts; downloadable software for use by insurance carriers and contractors for the collection, storage and analyzing of property information and customer data; downloadable computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; downloadable software in the nature of a mobile application for use in collecting property damage data and insurance claim management, namely, software for use in the storage and organization of complex loss documentation, creation and management of electronic forms, task management workflow automation, management of photo and video claims content, meeting legal and environmental compliance obligations, and management of workflow timelines for use in the field of residential and commercial property water damage repair and restoration; downloadable software in the nature of a mobile application for collecting property damage data and insurance claim management, namely, software for use in the storage and organization of complex loss documentation, creation and management of electronic forms, task management workflow

automation, management of photo and video claims content, meeting legal and environmental compliance obligations, and management of workflow timelines, each in the field of residential and commercial property water damage repair and restoration; downloadable software component in the nature of a mobile application feature that allows users to measure, create, annotate, view, present, and edit graphics, graphic designs, visual effects, composite images and illustrations of interior and exterior spaces of residential and commercial properties; downloadable computer software directed to insurance industry professionals for providing financial assessments, insurance information, construction information, financial statistics and valuation of residential and commercial properties.

Class 16:

Series of non-fiction books, booklets and newsletters concerning real estate and insurance, directed to the building, estimating, assessor and insurance industry profession.

Class 35:

Real property information services, namely, providing a database on a global computer network with information on real property taxes; real and commercial property taxation planning tax advice, information, and consultation services; property tax consulting services; providing a database on a global computer network featuring real property tax information; business inquiry, investigation, evaluation, appraisal, information, and research services; providing real estate loan leads to lenders; business and account auditing, namely, auditing loans, loan portfolios and lines of credit; computerized database management for data regarding loans, loan portfolios and lines of credit; business management services, namely, managing real estate appraisal services for third party vendors; real estate research services, namely, demographic consultation and studies of properties, residences, residents, homes and residents of the houses; real estate research services in the nature of demographics consultation for properties, residences, residents, homes and residents of the houses; electronic compilation of electronically tagged data, namely, the creation and assignment of unique data identifiers for the identification and categorization of real estate and real property, all in the nature of services consisting of the registration, collection, transcription, compilation and systemization of data; systemization of electronically tagged data bearing unique data identifiers into computer databases; handling and processing of electronically tagged data, namely, the assignment of unique data identifiers for use in the identification and categorization of real estate and real property in the nature of data processing services; real estate marketing services, namely, providing a database on a global computer network featuring aerial photographs and real-time geospatial data of real property that provide a view of properties and their surroundings, for commercial purposes; providing on-line information on a global computer network concerning real estate and mortgage lender marketing services, namely, providing a database on a global computer network featuring information in the field of property lead and prospective customer identification based on geography, property values and open house data; real estate and mortgage lender marketing services, namely, providing a database on a global computer network featuring business information in the field of real estate customer identification and advertising and marketing engagement data; providing a database on a global computer network featuring information in

List of cases accepted for opposition purposes as shown in Journal 2025/039 published on 26 September 2025 .

the field of probabilistic severity and frequency modeling using information and data relating to multiple measurements of risk across multiple weather conditions, time frames, and perils for hurricanes, floods, earthquakes, wildfires, and storms for a real estate parcel, structure, address, land area, or geospatial location for analyzing the aforementioned statistics, data and other sources of information for business purposes; real estate research services, namely, the analysis and compilation of real-time information for business purposes about value and conditions of real property impacted by natural disasters; real property information services for business purposes, namely, providing an online non-downloadable database on a global computer network on real property characteristics, namely, reconstruction value and location data; providing a website for connecting consumers and qualified service providers in the field of real property and real estate.

Class 36:

Real property information services, namely, providing a database on a global computer network on real property characteristics, namely, pricing, parcel size, property liens and location data; financial services, namely, financial assessment and management of loan risk and fraud in the fields of mortgage lending and investing; providing online computer databases featuring consumer credit rating information for assessment and management of loan risk and fraud in the fields of mortgage lending and investing; providing online computer database for appraisal examination and valuation of real estate; providing online computer database featuring consumer credit rating information for grading and assessing risk of loans and providing automated fiscal valuations and assessments of mortgage lending and investing; providing an on-line electronic database on global computer networks in the field of real property information, namely, ownership and property information and data on comparables, maps, valuation and pricing data, mortgage marketing, loan recording information and lender market share information and digitized images of real property and maps; financial analysis and consultation services, namely, reviewing, analyzing, evaluating, providing due diligence, underwriting, and reporting on loans, loan portfolios and lines of credit; credit and financial consultation, and financial evaluation of credit risk; providing a searchable database of real estate, mortgage and loan information for use in title insurance underwriting; preparation of valuation reports of residential real estate properties; providing on-line information on a global computer network in the nature of real estate appraisal and valuation and the financial valuation of real estate; insurance services, namely, collecting, maintaining, and providing information as to the physical condition of structures and personal and real property, including roofs and roof conditions for use by the insurance industry, property owners, property buyers, lenders, appraisers, and governmental entities; interactive computer database providing data and information pertaining to real property for use in collecting, maintaining, and providing information pertaining to the physical condition of structures and personal and real property, including roofs and roof conditions for use by the insurance industry, property owners, property buyers, lenders, appraisers, and governmental entities; interactive computer database providing data and information pertaining to the physical condition of real property for use by lenders and insurers in connection with real property valuation before and after the occurrence of natural disasters; interactive computer database featuring data and information pertaining to the physical condition real property for use

in evaluating the impact of natural disasters on the value of lenders and insurers real property portfolios; interactive computer database for use in the issuance of appraisal and valuation reports for real property impacted by natural disasters; interactive computer database featuring statistics on real property compiled via machine learning, proprietary data and other sources of information about structures, personal property and real property for use by the insurance industry, property owners, property buyers, lenders, appraisers and governmental entities for financial purposes, namely, real estate appraisal, mortgage lending, mortgage brokering and mortgage loan underwriting purposes; compilation and analysis of statistics through machine learning, proprietary data and other sources of information about structures, personal property and real property for use by the insurance industry, property owners, property buyers, lenders, appraisers and governmental entities for financial purposes, namely, real estate appraisal, mortgage lending, mortgage brokering and mortgage loan and insurance underwriting purposes; interactive computer database featuring commercial and non-commercial data relating to property for calculating and estimating property valuations for the insurance, appraisal, assessment, lending and property valuation industry; interactive computer database featuring commercial and non-commercial data relating to property for calculating and estimating property valuations for the insurance, appraisal, assessment, lending and property valuation industry; interactive computer database featuring commercial and non-commercial data relating to property for use in providing and analyzing information and data to determine the financial impact to the evaluation of real property caused by weather, natural disasters, and other catastrophic events; interactive computer database featuring commercial and non-commercial data relating to property for use in providing and analyzing information and data about value, conditions, and damage to real property to determine the financial impact to the evaluation of real property caused by natural disasters and other catastrophic events; interactive computer database featuring commercial and non-commercial data relating to property compiled via the research and analysis of information about value, conditions, and damage to real property impacted by natural disasters and other catastrophic events; provision of databases featuring mortgage and real property tax data; providing online computer databases featuring mortgage and real property tax data; real estate property data aggregation and summarization for use in appraisal and valuation reports for real property impacted by natural disasters and other catastrophic events; tax payment processing and analysis services; providing on-line information in the field of real estate concerning prices and values of real estate, namely providing real estate appraisal information; financial valuation of real estate for others; financial research and equity research services for real estate owners and professionals; financial services, namely, real estate appraisal and mortgage analysis featuring estimates of local lending rates for mortgages, property valuation, loan amortization, investment, and price analyses; providing real property valuations, providing information regarding real property characteristics for real estate investment purposes, providing information about real property valuations and real property characteristics to the insurance industry, property appraisers and tax assessors via a global computer network; providing on-line information on a global computer network concerning real estate prices and values of real estate; providing on-line information on a global computer network in the field of real estate featuring photography, videography, interactive floor

List of cases accepted for opposition purposes as shown in Journal 2025/039 published on 26 September 2025 .

plans, virtual staging, three dimensional imaging; providing a database on a global computer network featuring information in the field of real estate and real property, namely, providing probabilistic severity and frequency model information and data relating to multiple measurements of risk across multiple weather and climate conditions, time frames, and perils for hurricanes, floods, earthquakes, wildfires, and storms for a real estate parcel, structure, address, land area, or geospatial location; real property information services, namely, providing a database on a global computer network with information on real property crime risks.

Class 37:

Real property development information services, namely, providing and analyzing information and data relating to weather, natural disasters, and other catastrophic events to assist in the development of real property.

Class 38:

Streaming of data and information on crime occurrence on the internet; streaming of data and information on security assessment and recommendation on crime risk using predictive statistics on the internet; streaming of data and information on crime trends, security and crime risk, thematic maps, incident reports for a particular location to third parties on the internet.

Class 41:

Educational services, namely, organization of conferences in the field of property technology and data analytics for use in connection with property insurance risk management, underwriting, claims, and restoration.

Class 42:

Providing use of online, non-downloadable software for use in data management, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics; platform as a service (PaaS) services featuring computer software for data analytics and providing an online data analytics platform; platform as a service (PaaS) services featuring computer software platforms for use in data management, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics; platform as a service (PaaS) services featuring software platforms for data collection, extraction, storage, transformation, loading and writing, display, querying, analysis, reporting, and business intelligence analysis; data as a service (DaaS) services featuring on-line, non-downloadable software for use in data based property risk analytics; data as a service (DaaS) services, namely, providing online non-downloadable software for use in the collection and analysis of real estate and real property data and information; providing data as a service (DaaS) services featuring on-line, non-downloadable software for of data automation and data collection utilizing proprietary software, machine learning and artificial intelligence to evaluate, analyze, collect and disseminate data; online services, namely, providing online non-downloadable software for use in assessment, grading and management of loan risk and fraud in the fields of mortgage lending and investing; providing online non-downloadable software for use by lenders in the analysis, validation and verification of credit and mortgage data; providing on-line non-downloadable software for use in valuation of real estate owned (REO) real property; providing

online non-downloadable computer software that evaluates financial data of loan agents, borrowers, and real estate public data; providing on-line non-downloadable software for use in valuation of real estate; providing temporary use of on-line non-downloadable software for use in managing multiple listing service data in the field of real estate; providing temporary use of online non-downloadable software for use in monitoring, securing, managing compliance with multiple listing service (mls) data in the field of real estate; providing temporary use of non-downloadable software in the real estate field for creating appraisal and valuation reports; providing temporary use of on-line non-downloadable software and applications for the viewing of real property images and the visual assessment and evaluation of insurance risk potential associated with the real property; software as a service (SaaS) services featuring software for documenting and facilitating property inspections, automating application of insurance carrier guidelines to property inspection data, automating insurance claim scope decisions and repair estimates, generating inspection reports and insurance claim settlement estimates and storing data created in connection with the foregoing, in the fields of property insurance claim settlement and property construction and repair; software as a service (SaaS) services featuring software for documenting and facilitating property inspections, in the fields of property construction and repair; software as a service (SaaS) services featuring software for insurance carriers, agents and contractors to access, capture and process property loss information and details; providing temporary use of on-line non-downloadable software for review of automated real estate property appraisals according to governmental and professional standards; software as a service (SaaS), namely, providing temporary use of on-line non-downloadable software and applications for collecting, maintaining, and providing property valuation information, financial valuation information, insurance risk information, and risk assessment information about structures and personal and real property, including roofs, including enabling the user to download the data output; providing platform as a service (PaaS) services, namely, an online, non-downloadable software platform for use by real estate professionals, namely, real estate appraisers, lenders, and mortgage brokers, for managing real estate transaction workflow, namely, managing placing and receiving real estate transaction orders, order tracking, billing, managing communication and relationships, and containing configurable and customizable tools for automating the tasks required for parties to initiate and complete real estate transactions; providing temporary use of a non-downloadable web application featuring real-time tracking of residential home repair progress and residential property insurance claims, and communication between homeowners and residential home repair contractors, repair technicians, and contractor networks for the purpose of providing documentation and photos, location tracking data, and home repair project specifications and updates; all of the foregoing in the field of residential property restoration and residential property repairs; providing temporary use of on-line non-downloadable computer software featuring an interactive interface for receiving consumer preference information and providing information about real estate, mortgages, moving services, home services, title services and insurance; providing platform as a service (PaaS) services, namely, an online, non-downloadable software platform for use by real estate professionals in managing communications between real estate professionals, buyers and sellers within the real estate transaction workflow; providing software as

a service (SaaS) services and platform as a service (PaaS) services featuring software and computer software platforms for importing, collecting, aggregating, interpreting, sorting, storing, disseminating and validating data for use in real estate appraisal and real estate valuation reports; software as a service providing temporary use of on-line non-downloadable software and applications to enable an end user to research, search, and access weather hazard events affecting real property and download data output for use in connection with identifying, pursuing, and completing potential repair and replacement opportunities; software as a service (SaaS) services featuring software for use in evaluating, understanding, researching, applying for, processing, obtaining, and tracking loans and loan preapprovals; software as a service (SaaS) services featuring software for assessing and managing loan risk and collecting data analytics for loan processing, approval and compliance; software as a service (SaaS) services featuring software that facilitates collaborating and communicating between borrowers and lenders and others involved in the loan process, sharing of documents and information between borrowers and lenders and others involved in the loan process, and storing data, documents and records for applying for, pre-approving, underwriting, processing, and obtaining loans; software as a service (SaaS) services featuring software that enables borrowers to obtain personal financial information, credit reports, loan pricing, loan rates, and loan information; software as a service (SaaS) services featuring software used by insurance professionals to generate property and casualty insurance appraisal reports; software as a service (SaaS) services featuring software for documenting and facilitating property inspections, automating job scope decisions, generating inspection reports, job estimates and work orders and storing data created in connection with the foregoing, in the field of property construction and repair; software as a service (SaaS) services featuring software for contractors to access, capture and process property and job scope information and details; cloud computing featuring software for use in database management and document production for real estate professionals; providing temporary use of a web-based software platform that scans and analyzes aerial images of real estate properties utilizing artificial intelligence for the assessment of exterior and interior property risk attributes, hazards, and conditions for use in connection with insurance underwriting; providing temporary use of an on-line, non-downloadable computer software platform and on-line, non-downloadable mobile application software for use in providing real property sellers and buyers with real property market, trends, agent, sale, listing, location, purchase, inspection, financing, insurance, moving, repair, renovation, improvement, utilities, and décor information, insights, advice, articles, videos, resources, and referrals; providing temporary use of an on-line, non-downloadable computer software platform, on-line, non-downloadable mobile application software for use in connection with data and document storage, data and document management, data and document access, data processing, and visualization of data in the fields of real estate, home ownership and home improvement and repair; providing temporary use of on-line, non-downloadable software providing consumers with information about real estate service providers; software as a service providing temporary use of on-line non-downloadable software and applications to enable a user to research, search, and access natural hazard events affecting real property and download data output for use in connection with identifying, pursuing, and completing potential repair and replacement opportunities; computer services in the

nature of providing temporary use of online non-downloadable software for calculating real estate closing-related taxes and recording fees, as well as obtaining other information related thereto, in the field of real estate closing-related taxes and recording fees; application service provider featuring application programming interface (API) software for use in the collection, searching, storage, access, analysis, evaluation and transmission of property tax data and historical property tax data, active mortgage and tax payment details for use by mortgage lenders and borrowers; application service provider featuring application programming interface (API) software for use in the collection, searching, storage, accessing, analysis, evaluation and transmission of active mortgage and property tax payment details, and calculations and estimations of future due dates and tax amounts due, for use by mortgage lenders and borrowers; application service provider featuring application programming interface (API) software for use in the collection, searching, storage, access, analysis, evaluation and transmission of information relating to property tax taxing agencies, tax year data, tax installment payments, economic loss dates, payment history, tax amounts due, and real-time payment status for use by mortgage lenders and borrowers; application service provider featuring application programming interface (API) software for use in the collection, searching, storage, access, analysis, evaluation and transmission of information relating to property tax customer service inquiries, tax payment dispute resolution and resolution status, and customer satisfaction updates for use by mortgage lenders and borrowers; application service provider featuring application programming interface (API) software for use in the compilation of mortgage and property data; providing temporary use of on-line, non-downloadable web-based software for use in the collection, searching, storage, access, analysis, evaluation and transmission of property tax data and historical property tax data, active mortgage and tax payment details for use by mortgage lenders and borrowers; providing temporary use of on-line, non-downloadable web-based software for use in the collection, searching, storage, accessing, analysis, evaluation and transmission of active mortgage and property tax payment details, and calculations and estimations of future due dates and tax amounts due, for use by mortgage lenders and borrowers; providing temporary use of on-line, non-downloadable web-based software for use in the collection, searching, storage, access, analysis, evaluation and transmission of information relating to property tax taxing agencies, tax year data, tax installment payments, economic loss dates, payment history, tax amounts due, and real-time payment status for use by mortgage lenders and borrowers; providing temporary use of on-line, non-downloadable web-based software for use in the collection, searching, storage, access, analysis, evaluation and transmission of information relating to property tax customer service inquiries, tax payment dispute resolution and resolution status, and customer satisfaction updates for use by mortgage lenders and borrowers; providing temporary use of on-line, non-downloadable web-based software for use in the compilation of mortgage and property data and the automating of the mortgage lending process for use by mortgage lenders and borrowers; providing temporary use of on-line, non-downloadable software providing consumers with information about real estate service providers and for use in connecting service providers and consumers through referrals; authentication of user identity digital certificates for real estate associations and multiple listing services; computer security services, namely, restricting unauthorized user access to data, applications and computer

***List of cases accepted for opposition purposes as shown in Journal 2025/039 published on
26 September 2025 .***

networks for real estate associations and multiple listing services; weather data tracking services, namely, tracking and monitoring weather information relating to natural disasters and catastrophic events; calculating and simulating water flow, modeling of areas likely to be inundated, and preparing related reports and technical documentation; all of the foregoing performed through the use of artificial intelligence or machine learning; providing a website featuring technology that enables consumers to view and interact with digital real estate listings populated on multiple listing service platforms, allowing real estate professionals to send curated digital home listings to home buyer consumers, and engage digitally with real estate professional throughout the home buying and selling transaction; fraud detection services being computer security services for protecting data and information from unauthorized access in the field of misrepresentation of property values in the real estate mortgage lending industry; providing an on-line database of information in the field of computer security services for protecting data and information from unauthorized access as IT relates to property values in the real estate mortgage lending industry; providing temporary use of an on-line, non-downloadable web application for use in providing guidelines and status monitoring for project management and task management in the field of residential and commercial property restoration and repair; software as a service (SaaS) services featuring software for the purpose of assessing, documenting, tracking, and auditing property restoration and repair projects and data; software as a service (SaaS) services featuring software for use in providing guidelines and status monitoring in project and task management for use in workflow process standardization, internal and external communication among stakeholders, and evaluation of customer service feedback in the field of residential and commercial property restoration and repair and damage mitigation; software as a service (SaaS) featuring computer application software for calculating reconstruction cost estimates for commercial and residential structures based on property-specific characteristics for use in insurance quoting and underwriting for real property insurance, appraisal, assessment, inspection and lending; application service provider featuring application programming interface (API) software for calculating reconstruction cost estimates for commercial and residential structures based on property-specific characteristics for use in insurance quoting and underwriting for real property insurance, appraisal, assessment, inspection and lending; application service provider featuring application programming interface (API) software for providing property-specific characteristics and priority rankings for use in streamlining and expediting workflow of insurance claim processing for insurance carriers; application service provider featuring application programming interface (API) software for providing business information on property occupant and for calculating estimates of the value of business contents for equipment, furniture and inventory, for use in streamlining and expediting workflow of insurance claim processing for insurance carriers; providing on-line, non-downloadable computer software for data processing for use by the insurance industry in connection with the capturing of insurance claim information; providing temporary use of an on-line, non-downloadable software for use in the management and allocation of data resources employed by insurance carriers and agents in the processing, management, and adjudication of insurance claims; providing temporary use of on-line, non-downloadable software for use in resource assignment tracking in the field of property insurance claim processing and

adjudication, namely, tracking resource capacity, performing skill-based assignment of personnel, performing proximity-based allocation of resources, providing for efficient continuous assignment allocation; providing temporary use of an on-line, non-downloadable web applications featuring real-time tracking of residential home repair progress and residential property insurance claims, and communication between homeowners and residential home repair contractors, repair technicians, and contractor networks for the purpose of providing documentation and photos, location tracking data, and home repair project specifications and updates; providing temporary use of an on-line, non-downloadable software featuring real-time video capture of claim damage and tracking of residential home repair progress and residential property insurance claims, and communication between homeowners and residential home repair contractors, repair technicians, and contractor networks for the purpose of providing real-time tracking of insurance claim process via video; providing a web site featuring temporary use of on-line, non-downloadable software for insurance claims adjudication and insurance claims adjustment; providing temporary use of on-line, online non-downloadable software for modeling weather conditions, forecasting weather events, post-event weather data modeling, and historical reporting of prior weather events, all for use in advanced risk analytics and potential claim exposure relating to weather events impacting property insurance policyholders; providing temporary use of online non-downloadable software for modeling weather conditions, forecasting weather events, post-event weather data modeling, and historical reporting of prior weather events, all for use in evaluating future financial exposure relating to weather events impacting property insurance policyholders; providing temporary use of online non-downloadable software for modeling weather conditions, forecasting weather events, post-event weather data modeling, and historical reporting of prior weather events, all for use in managing insurance carrier response times, efficiency, and recovery efforts in responding to weather events impacting property insurance policyholders; platform as a service (PaaS) featuring computer software platforms for use in catastrophe modeling and risk quantification in the field of residential and commercial property risk management; providing temporary use of online non-downloadable software for use in catastrophe modeling and risk quantification in the field of residential and commercial property risk management; software as a service (SaaS) services featuring software for use in reviewing and analyzing property insurance claim settlement estimates against insurance carrier or third-party guidelines for quality assurance and identification of coverage exceptions in the field of property insurance; software as a service (SaaS) services featuring software for insurance carriers and agents for accessing, capturing, processing, reviewing, and analyzing insurance claim settlement estimates; quality control for others, namely, providing quality assurance programs for property insurance; providing temporary use of on-line, non-downloadable software for use in the generation of efficient and consistent claim estimates for the reviewing, processing and adjudication of property insurance claims; providing temporary use of online non-downloadable software for use in the collecting, organizing, storing, analyzing and sharing of weather data, information, all for use in generating historic reports relating to hail, wind, tornado, and lightning events impacting property insurance policyholders at the property level; providing temporary use of online non-downloadable software for weather data modeling and forensic reporting

***List of cases accepted for opposition purposes as shown in Journal 2025/039 published on
26 September 2025 .***

of prior weather events, all for use in generating historical weather activity reports and maps relating to hail, wind, tornado, and lightning events for consumer, news media, and social media sharing; providing temporary use of on-line non-downloadable software for modeling meteorological conditions, forecasting meteorological events, post-event meteorological data modeling, and historical reporting of prior meteorological events, all for use in the evaluation and analysis of property insurance policies; providing temporary use of on-line non-downloadable software for modeling meteorological conditions, forecasting meteorological events, post-event meteorological data modeling, and historical reporting of prior meteorological events, all for use in the preparation, processing and adjudication of property insurance claims; providing temporary use of on-line non-downloadable software for developing response strategies to meteorological events, catastrophic meteorological events, and natural disasters impacting property insurance policyholders; software as a service (SaaS) services featuring software used to provide reports and information on real property and real estate for insurance underwriting, risk assessment and valuation purposes; weather forecasting data tracking services, namely, tracking and monitoring real time meteorological information relating to natural disasters and catastrophic events; providing temporary use of on-line non-downloadable software and applications for use by professionals in the property industry for referral and networking purposes; providing temporary use of on-line non-downloadable software and applications for use in managing of the licensing, distribution, and consumption of listing, property, and location insights data as between data providers and data consumers; providing temporary use of on-line non-downloadable software and applications for comparing and contrasting location data characteristics consisting of livability scores, job markets, demographics, crime rates, schools, and proximity to first responders within a defined property range; providing temporary use of on-line non-downloadable software and applications for use in performing spatial intelligence evaluation of real property locations; providing temporary use of on-line non-downloadable software and applications for use in the research and evaluation of property foreclosure data; providing temporary use of on-line non-downloadable software and applications for use searching county parcel maps, for downloading parcel maps; providing temporary use of on-line non-downloadable software and applications for use in performing mortgage analytics; providing temporary use of on-line non-downloadable software and applications for use in searching and research of real property transaction history; providing temporary use of on-line non-downloadable software and applications for use in the extraction of public county real property legal descriptions; providing temporary use of on-line non-downloadable software and applications for use in the automation of insurance claims process workflow, namely, for quality assurance and removal of duplicate entry information; providing temporary use of on-line non-downloadable software and applications for use in generating estimates and diagramming workflow process in field of insurance claim processing, adjudication, and property restoration; providing temporary use of on-line non-downloadable software and applications for use in research and evaluation of physical classification changes in real property; providing temporary use of on-line non-downloadable software and applications for use in the identification of current and historical lot subdivisions of real property; providing temporary use of on-line non-downloadable software and applications for use in

the management, research and evaluation of neighborhood data, namely, information on neighborhood characteristics, schools, lifestyle segments, economic status, employment and demographic data of residents; providing temporary use of on-line non-downloadable software and applications for use in automated verifying and analyzing of a borrower's financial standing for lending risk purposes; providing temporary use of on-line non-downloadable software and applications for use in loan quality debt monitoring, namely, providing alerts when a borrower's credit profile changes between the time period where initial credit report is pull and the loan funding is issued; providing software as a service (SaaS) featuring software for use in data distribution and integration; providing platform as a service (PaaS) featuring computer software platforms for use in credit, mortgage and loan data distribution and integration; providing temporary use of on-line non-downloadable software and applications for use in searching an on-line computer database in the field of real estate featuring search and data retrieval software for accessing and downloading real property information from multiple data sources; providing temporary use of on-line non-downloadable software and applications for use in searching multiple listing services in the field of real estate; electronic storage for others of real property data, namely, ownership and property information and data on comparables, maps, valuation and pricing data, mortgage marketing, loan recording information, lender marketing, loan recording information, lender market share information and maps; monitoring and reporting services for secured real property, namely, locating and providing information related to public record activities on real estate, namely, monitoring and reporting public document filings relating to secured loans for real property; providing temporary use of online non-downloadable software and online non-downloadable mobile application software for accessing an interactive computer database containing appraisal and valuation reports for real property impacted by natural disasters and other catastrophic events; computer security services for protecting data and information from unauthorized access and fraudulent activities; providing temporary use of on-line non-downloadable software for fraud detection and prevention.

Class 45:

Providing an on-line database of legal information in the field of fraud detection as it relates to property values in the real estate mortgage lending industry; background investigation services, pre-employment, pre-renting, and other background inquiry, investigation, evaluation, information, research, and screening services, namely, conducting pre-employment background investigations, personnel investigations, criminal record investigation, driving record investigation, motor vehicle records reporting, reference verification, education verification and professional license and certification verification.
