Class 6:

Transportable buildings and structures of metal used in satellite receiving ground stations.

Class 7:

Robotic systems and tooling being parts of industrial robotic machines; industrial machines for lifting, loading, assembling and repairing of space apparatus, satellites and satellite systems and industrial robots; industrial robots for servicing, assembling and refueling of satellites and satellite systems; structural parts for industrial robots and structural replacement parts for industrial robots sold together as a unit; mechanical and electro-mechanical machine tools and attachments for industrial robots in the nature of grasping jaws, retractable drives and umbilical connectors, robotic micro conical tools, socket extension tools, robotic off-set tools, safety cap removal tools, EVR nozzle tools, multifunction tools, robotic arm actuator end effectors, nozzle tools, blanket manipulation tools, wire cutting machine tools, grippers, tool interface plates; robotic arms being parts of industrial robotic machines; grapple fixtures, being machines for securing objects to spacecraft; robotic systems comprised of robotic arms, robotic hands, end-effectors, capture devices, and robot compatible tools with integrated software to operate the robotic systems.

Class 9:

Computer hardware, namely, data and signal processing devices; multi-spectral electro-optical image sensors, namely, radar devices, infrared and ultra violet sensor devices, solid state digital cameras, and optical scanners; computer software; electronic hardcopy recording devices that produce images on photographic film from electronic digital signals; satellite ground stations, namely, satellite receiving dishes and antenna, satellite signal data processing hardware and software, video monitors, magnetic media for storage of data, facsimile recorders, electronic hardcopy film recording devices; electric and electronic video surveillance installations; video surveillance cameras; security surveillance robots; maritime patrol radar; laboratory robots; humanoid robots with artificial intelligence; telepresence robots; space probes; radar detectors; radar receivers; radar receivers with amplifiers; radar transmitters; infrared sensors; LED position sensors; optical sensors; sensors for determining acceleration; sensors for determining temperature; sensors for determining velocity; temperature sensors; thermal sensors; velocity sensors; augmented reality software for creating maps; computer software for displaying orders and driver location on maps; communications and earth observation satellites; constellations of satellites; satellite busses; scientific, nautical, surveying, measuring apparatus and earth satellites for use in surveillance; analog and digital beam forming networks; on-board processors; satellite antennas, steerable antennas, arrays, direct radiating arrays, phased array and synthetic aperture antennas, UHF antennas and multibeam antennas; digital channelizers; beam hopping software and avionics; satellite dishes, satellite dishes for satellite transmissions, satellite receivers, satellite transmitters, satellites, satellites for scientific purposes; antenna amplifiers; antennas for radio; antennas for radio and television; antennas for television; dish antennas; microwave antennas; parabolic antennas; radio signal antennas; DC/DC converters; satellite and telecommunications systems comprised of transponders, satellite transmitters, satellite receivers, electrical and electronic relays, switching stations, and electrical and electronic controllers; antennas; satellite payload systems

composed of network repeaters, transponders, microwave receivers, RF multiplexers and switches, waveguide, power amplifiers, channel processing computer hardware and automatic switching apparatus, antennas, electronic and optical reflectors, diplexers, triplexers, feed and feed networks, feed horns, support structure and pointing mechanisms, harnesses and cables, modulators, demodulators, frequency converters and generators, interface units, processors, and thermal control subsystem comprised of optical couplers and antenna filters; satellite telemetry tracking and control systems comprised satellites and satellite transmitters and receivers; computer software for operation and monitoring of satellites, telecommunication systems, and robotics; USB flash drives; scientific instruments for determining the material composition and morphology of planetary surface materials; light detection and radar (LIDAR) apparatus for object detection, ranging, measuring, targeting and mapping in relation to spacecraft and manned and unmanned vehicles; laser based metrology systems; electronic warfare command and control systems; laser weapons countermeasures apparatus and control systems for addressing location, detection and countermeasures against laser guided threats such as laser beam rider missiles, laser range finders and laser designators; electromagnetic illumination radar for naval defense; software for automated design and validation of airport landing and take-off procedures; software for automated charting and encoding for creation of air navigation charts; fixed and mobile satellite receiving ground stations; satellite subsystem components; robotic arms being parts of scientific and laboratory apparatus; electro-mechanical apparatus, namely, monochrome TV cameras, machine vision cameras, stereo cameras, and light detection and ranging systems (LIDARS), all for use with industrial robots, not specifically adapted to any particular industrial robot.

Class 10:

Surgical robots for diagnostic and surgical assistance and intervention.

Class 11:

Lighting apparatus in the nature of attachments for use with industrial robots and robotic parts, not specifically adapted to any particular industrial robot or robotic parts.

Class 12:

Trailers for transporting and temporary housing ground station components; space vehicles; unmanned aerial vehicles; spacecraft, namely, space vehicles; apparatus for locomotion by air and space, namely, airborne space platforms and spacecraft being rocket space vehicles for transporting tools used in servicing of satellites and spacecraft and structural parts and structural fittings therefor; autonomous and teleoperated unmanned ground vehicles; manned and unmanned planetary ground effect vehicles and lunar rovers for scientific exploration, prospecting and logistics on other celestial bodies.

Class 35:

Retail and online retail store services in relation to geographic and earth images captured by aircraft and satellite (geospatial and earth image provider); compiling of information into computer databases in the fields of geospatial information, human terrain information, socio-cultural information, behavioral information, and human factors information;

outsourcing services in the nature of arranging service contracts for others in the field of developing and assembling satellite ground stations, airborne remote sensing systems, image analysis systems, and airline flight operations systems.

Class 37:

Inspection prior to repair, assembly, repair, maintenance and refueling services of space infrastructure, satellites, space stations and outposts operating in low, medium and geosynchronous earth orbits as well as the region of space from the Earth out to and including the region around the surface of the Moon (i.e. cislunar space), all the aforesaid provided by robots and robotic mechanisms; providing information relating to repair or maintenance of aerospace electronics via an interactive website.

Class 38:

Satellite transmission services; electronic delivery of data, images, photographs and maps via a global computer network.

Class 39:

Distribution services being transportation, supply or delivery of a payload (tool, fuel, replacement components) from a supply spacecraft in earth orbit for subsequent retrieval by a robotic servicing aircraft, for the purposes of maintenance, repair and upgrades of space infrastructure; robotic unloading and loading services of space vehicle cargo and supplies; transportation services for the rendezvous, capture, and relocation of orbital debris by means of robotic spacecraft.

Class 42:

Remote and autonomous command and control, namely, remote monitoring to ensure proper functioning of unmanned lunar outposts and platforms which serve as logistics waypoints for planetary exploration and exploitation; unmanned aerial vehicle command and control services, namely, remote monitoring to ensure proper functioning of unmanned aerial vehicles that are used for Earth observation, surveillance, and Process Exploitation and Dissemination (PED) in hostile environments; computer systems analysis; consulting services in the field of design, implementation and use of computer hardware and software systems for others which is utilized by others in the development and assembly of satellite ground stations, airborne remote sensing systems, image analysis systems, and airline flight operations systems; design of computer hardware and software, customization of computer software and consulting services relating thereto; technical monitoring, measuring and analysis of space craft activity by means of telemetry monitors; creation of control programs for automated measurement, assembly, adjustment, and related visualisation; development of computer programs recorded on software designed for use in construction and automated manufacturing (cad/cam); technical research in the field of aeronautics; providing information in the field of aerospace electronics via an interactive website; technical consulting in the field of aerospace engineering; marine chart updating; development and creation of computer programmes for data processing; image processing software design; land and road surveying; land surveying; marine, aerial and land surveying; cartography and mapping services; mapping services; design of optical and micro optical components; creation of control programs for electric operation control and drive modules; technical surveying; advisory services in the field of product development and quality improvement of software; computer

hardware and software design; computer programming and software design; computer software consulting; computer software design; computer software design for others; computer software installation and maintenance; computer software project management services; consultation services relating to computer software; troubleshooting in the nature of diagnosing computer hardware and software problems [technical support services]; engineering, design, and development services in the field of satellites, satellite systems and satellite components, satellite ground systems, robots, and robotic systems and robot components; design and development of telecommunications hardware; design and development of computer software for naval defense electronic warfare and command and control and situational awareness control rooms; space-based remote earth monitoring to ensure proper functioning of space stations; interpretation of, namely, analysis of digital aerial and satellite images of the earth for others for scientific and research purposes; photogrammetry services; geospatial services, namely, graphic design services of maps and scale drawings from aerial and satellite photographs; computer modeling services, namely, evaluating algorithms for object detection from remotely sensed imagery of earth; Software as a Service (SaaS) services featuring software for receiving, collecting, displaying, processing, and analyzing data from satellites and space-based robotic systems, and providing geospatial analysis, satellite command and control, and satellite navigation; Software as a Service (SaaS) services featuring software in the field of digital imagery for use in connection with the collection, manipulation, processing, electronic formatting and distribution of aerial, geographic, and satellite imagery; Software as a Service (SaaS) services featuring software in the field of geospatial information and data, geocoding information, geographic information systems, satellite imagery, photogrammetry, mapping, location intelligence and location monitoring, namely, software for accessing, downloading, analyzing, searching, organizing, sharing, distributing, updating, purchasing, integrating, and monitoring imagery, geospatial information, geospatial content, and location specific information; software as a service (SAAS), namely providing computer software for accessing, querying and analyzing information stored in databases, namely historical high-resolution satellite imagery of a geographic locations for scientific geospatial analysis, namely allowing users to compare previous images of a site with new images taken after a natural disaster, man-made disaster, political uprising or other event of high interest to provide historical context plus follow up with imagery of the geography; software as a service (SAAS), namely providing computer software for accessing, querying and analyzing information stored in databases, namely digital or cartographic maps for geospatial analysis; software as a service (SAAS), namely providing computer software for accessing, querying and analyzing information stored in databases, namely remotely sensed earth imagery for scientific or geospatial analysis.; Software as a Service (SaaS) services featuring technology that enables users to access and utilize online non-downloadable software tools for the purpose of searching, filtering, annotating, bookmarking, alerting, and monitoring geospatial imagery; Software as a Service (SaaS) services featuring on-line non-downloadable software tools for image editing and manipulation; providing scientific information in the fields of geospatial information and intelligence related to a database of images and geographic measurements of the earth; providing scientific information in the fields of location intelligence and geospatial intelligence;

Specifications have been restricted as follows:

Class 9:
Computer software and downloadable applications for creating, managing and ying holographic and immersive digital content only; interactive hologram projection apparatus; digital display devices for holographic communication; recorded content featuring artificial intelligence avatars; downloadable multimedia content for use in immersive experiences; software for conversational artificial intelligence, digital storytelling and holographic customer engagement; touch-sensitive display screens; electronic devices for generating three dimensional visualisations for entertainment, education and promotional purposes; All of the aforesaid services relating to conversational avatars, holographic displays, artificial intelligence interaction, live event experiences, and digital human simulation, and none relating to computer-aided design (CAD), computer-aided styling (CAS), Class-A surfacing 3D surface modelling, industrial or product design, automotive design, or related workflows.

Class 35:
Advertising, marketing and promotional services using holographic and immersive technologies; organisation of promotional campaigns featuring holographic displays and artificial intelligence avatars; consultancy relating to brand activation through holographic and digital storytelling; rental of advertising space within holographic installations and digital displays; production of advertising content using holographic projection and artificial intelligence; business consultancy services in relation to immersive communications and interactive customer engagement technologies; all of the aforesaid services relating to conversational avatars, holographic displays, artificial intelligence interaction, live event experiences, and digital human simulation, and none relating to computer-aided design (CAD), computer-aided styling (CAS), Class A surfacing, 3D surface modelling, industrial or product design, automotive design, or related workflows.

Class 37:
Installation of stands for exhibitions; Installation of temporary structures for trade exhibitions; Installation of temporary structures for business exhibitions; Installation of temporary structures for trade fairs; Construction and erection of exhibition stands, stages and booths; Construction of exhibition stands.

Class 41:
Education; Education and training; Education and instruction; Education services; Education and training services; Training and education services; Computer education training; Computer education training services; Physical education instruction; Sports education services; Musical education services; Technological education services; Online education services; Educational and teaching services; Education, entertainment and sports; Education services relating to the cinema; Education services relating to sports; Education services relating to pharmacy; Museum exhibitions; Art exhibitions; Presenting museum exhibitions; Organising of education exhibitions; Museum facilities (Provision

of -) for exhibitions; Art exhibition services; Organising of exhibitions for entertainment purposes; Organising of exhibitions for educational purposes; Arranging of exhibitions for cultural purposes; Exhibitions (Arranging -) for cultural purposes; Exhibitions (Conducting -) for cultural purposes; Arranging of exhibitions for entertainment purposes; Arranging of exhibitions for educational purposes; Organisation of exhibitions for educational purposes; Arranging of exhibitions for training purposes; Arranging of exhibitions for cultural or educational purposes; Conducting of exhibitions for entertainment purposes; Organisation of exhibitions for cultural or educational purposes; Organisation of exhibitions for cultural and educational purposes; Exhibitions (Conducting -) for educational purposes; Organizing and arranging exhibitions for entertainment purposes; Museums; Conducting of exhibitions for amusement purposes; Conducting of exhibitions for recreation purposes; Organization of exhibitions for cultural or educational purposes; Exhibitions (Organization of -) for cultural or educational purposes; Organization of exhibitions for cultural and educational purposes; Art gallery services; Museum facilities (Provision of -) for presentations; Organising of sports competitions and events; Organizing cultural and arts events; Exhibition services for entertainment purposes; Audio-visual display presentations; all of the aforesaid services relating to conversational avatars, holographic displays, artificial intelligence interaction, live event experiences, and digital human simulation, and none relating to computer-aided design (CAD), computer-aided styling (CAS), Class-A surfacing, 3D surface modelling, industrial or product design, automotive design, or related workflows.

Class 42:

Development of computer hardware and software; Computer software integration; Computer software development; Development of computer software; Design of computer hardware and software; Computer software design services; Design services for exhibitions; Design services for display systems for exhibition.

UK00004234877 (2025/030, 25 July 2025)

Specifications have been restricted as follows:

Class 7:

Cutting tools for use in powered hand-held tools; Mechanical tools; Metalworking machine tools; Countersinks [power tools]; Countersinking tools for machines; Adapters for machine tools; Drills for machine tools; Tool bits for use in power operated hand tools; all of the aforesaid goods in relation to the aviation and aerospace industry.

UK00004227952 (2025/028, 11 July 2025)

Specifications have been restricted as follows:

Class 9:

Specifications have been restricted as follows:

Class 9:

Software applications; Education software; Sensors for determining acceleration; Computer software applications; Virtual reality software for simulation; Computer software platforms; Hardware testing software; Application simulation sports software; Sports training simulators; Stereoscopic equipment for 3D viewing; Augmented reality computer hardware; Augmented reality software; Virtual and augmented reality software; Augmented reality software for simulation; Augmented reality software for education; Augmented reality software for use in mobile devices; Virtual reality software; Computer application sports software for use with wearable computer devices; Virtual reality glasses; Information technology and audiovisual equipment; Virtual reality goggles; Artificial intelligence software for analysis; Artificial intelligence software; Head-up displays; Wearable displays; Head-mounted holographic displays; Head-mounted video display apparatus; Head mounted augmented reality displays; Interactive software; Software testing software; Testing software; Simulation software [sports training]; Simulation software; Motion control software; Devices for the projection of virtual keyboards; Software; Presentation software; Training software; Haptic communications apparatus; UPI [universal peripheral interface] software; Speed measuring instruments; Instruments for measuring speed; Application software for cloud computing services; Electronic display interfaces; Digital signage display panels; Real-time data processing apparatus; Data processing apparatus; Electronic data processing apparatus; Apparatus and instruments for processing data; Data capture apparatus; Artificial intelligence and machine learning software; Apparatus for generating virtual images; Measuring, detecting, monitoring and controlling devices; Measuring devices; Measuring sensors; Software for monitoring, analysing, controlling and running physical world operations; Pressure measuring apparatus; Speed measuring apparatus; Precision measuring apparatus; Sensors for monitoring physical movements; Calculating devices; Sensors for measuring speed; Calibrating apparatus; Personnel tracking devices; Sensors, detectors and monitoring instruments; Operating system software; Training manuals in the form of a computer program; Computer software packages; Downloadable software applications; Downloadable application software; Computer software applications, downloadable; Downloadable computer software applications; Smartphone software applications, downloadable; Downloadable applications; Downloadable software; Web application software; Computer software platforms, recorded or downloadable; Business software; Business application software; Business intelligence software; Interactive computer software; Virtual reality software for education; Workflow software; Computer software programs for spreadsheet management; Computer software programs for database management; Programs (Computer -) [downloadable software]; Motion tracking mounts for cameras; Helmets for use in sports; Resistance measuring instruments; Measuring instruments; Instruments for measuring velocities; Rulers [measuring instruments]; Measuring apparatus and instruments; Instruments for measuring angles; Electronic sports training simulators [computer hardware and software-based teaching

apparatus]; Electronic sports training simulators; Optical speed sensors; Wearable computer peripheral devices; Wearable monitors; Embedded operating software; Computer software to automate data warehousing; Data processing software for word processing; Electronic data storage media; Computer software to enable retrieval of data; Computer software to enable searching and retrieval of data; Computer software to enable the searching of data; Computer software for the processing of positioning data; Computer software for the collection of positioning data; Data processing software; Downloadable computer software for the management of data; Downloadable computer software for the transmission of data; Information retrieval software; Electrical measuring equipment; Cloud computing software; Rotation measuring sensors; Computer software development tools; Downloadable computer utility software; Application development software; Science software; Computer software for education; Educational computer software; Business technology software; VR goggles; Goggles for use in sports; Visors for helmets; Software for virtual reality cinema; Operating software; Computer software for document management; Augmented reality software for use in mobile devices for integrating electronic data with real world environments; Simulators; Motion controllers; Interactive computer systems; Big data management software; Data management software; Data and file management and database software; Computer application software; Software development programs; Interactive video apparatus; Video apparatus; Interactive video software; Video effects apparatus; Instructional apparatus; Interactive data transfer apparatus; Audio visual teaching apparatus; Audiovisual apparatus; Audio-visual teaching apparatus; Head-mounted video displays; Simulation apparatus; Visual monitoring apparatus; Video cameras adapted for monitoring purposes; Apparatus for recording images; Sports training eyeglasses; Eyeglasses for sports; Sports eyewear; Goggles for sports; Computer operating software; Computer operating system software; ; Downloadable computer software for blockchain technology; Computer software for use as an application programming interface (API); Downloadable computer software for use as an application programming interface (API); Computer interface software; Interface software; Application software; Measuring apparatus; Torque measuring apparatus; Distance measuring apparatus; Length measuring apparatus; Volumetric measuring apparatus; Flow measuring apparatus; Speed checking apparatus; Axle measuring apparatus; Air measuring apparatus; Variable speed control apparatus; Wind measurement apparatus; Computer software for creating searchable databases of information and data; Computer software for accessing databases; Computer software to enable searching of data; Computer software downloadable from global computer information networks; Computer databases; Interactive database software; Computer software for authorising access to data bases; Machine learning software for analysis; Machine learning software; Wearable activity trackers; Height measuring instruments; Motion recognizing sensors; Motion sensors; Motion sensing input devices; Motion detectors; Video display software; Downloadable computer software for the transmission of information; Downloadable computer software; Computer software downloadable from the internet; Downloadable cloud computing software; Downloadable application software for virtual environments; Software for the integration of artificial intelligence and machine learning in the field of Big Data; Downloadable mobile applications for the management of data; Computer software for application and database integration;

Computer software for assisting in the design of sports equipment; Collaboration management software platforms; Collaboration software platforms [software]; Wearable computers; Wearable computer peripherals; Downloadable mobile applications for use with wearable computer devices; Software reliability software; AI software; Computer interfaces; Sensors for measuring instruments; Downloadable computer software for the management of information; Downloadable computer security software; Computer software; Computer hardware for the dissemination of positioning data; Computer software for the dissemination of positioning data; Computer hardware for the transmission of positioning data; Computer software for the transmission of positioning data; Computer software for the compilation of positioning data; Optical measuring components; Optical sensors; Sports glasses; Sensors for determining velocity; Physical analysing apparatus [other than for medical use]; Downloadable computer software for remote monitoring and analysis; Platform software; Collaboration software; Intelligent gateways for real-time data analysis; Enterprise software; Electronic measurement sensors; Glasses for sports; Sports goggles; Electronic Interfaces for Motion Simulator Platforms; Sensors for measuring depth; System software; Computer software for database management; Computer software to enhance the audio-visual capabilities of multimedia applications; Mobile application software; Application software for robot; Application software for wireless devices; Computer hardware for the collection of positioning data; Debugging software; Compiler software; Software for diagnostics and troubleshooting; Plugin software; Software compiling tools; Authentication software; Reporting software; Animation software; Holographic apparatus; Holographic projection apparatus; Mini beam projectors; All of the aforesaid goods/services excluding computer games, fantasy gaming, role- playing games, tabletop war games, and science-fiction entertainment.

Class 28:

Electronic targets for sports; Radio-controlled miniature aerial targets for sports; Sports equipment; Rehabilitation apparatus (Body -); Body rehabilitation apparatus; Body training apparatus [exercise]; Body toner apparatus [exercise]; Strength training apparatus; Sports training apparatus; Apparatus for achieving physical fitness [for non-medical use]; All of the aforesaid goods/services excluding computer games, fantasy gaming, roleplaying games, tabletop war games, and science-fiction entertainment.

Class 41:

Sports and fitness; Sports training; Sports activities; Training of sports players; Rental of training simulators; Instructional and training services; Training services; Education and training services; Training and education services; Practical training services; Recreation and training services; Fitness training services; Physical training services; Instruction services; Personal training services; Training and instruction; Training services relating to fitness; Provision of training services for industry; Personal fitness training services; Exercise [fitness] training services; Fitness and exercise training services; Physical fitness training services; Sports instruction services; Training; Computer education training; Computer education training services; Coaching [training]; Tuition in sports; Sports education services; Training in sports; Physical education instruction; Arranging and conducting of workshops [training]; Instruction courses relating to physical fitness; Computer assisted training services; Sports coaching;

Educational and training services; Training services in the field of computer software development; Education in the field of data processing; Education and training; Computer based educational services; Research in the field of education; Education and instruction; Education and instruction services; Educational instruction; Instruction; Educational and instruction services relating to sport; Self-awareness courses [instruction]; Providing sports training facilities; Sports coaching services; Educational services; Training in the design of software systems; Coaching; Coaching in the field of sports; Providing fitness and exercise facilities; Training services concerned with the use of computer software; Supervision of physical exercise; Training and further training consultancy; Personal trainer services; Computer based training; Educational and training services relating to sport; Instruction services relating to sports; Education services relating to sports; Information relating to sports education; Educational services relating to sports; Consultancy relating to physical fitness training; Instruction courses relating to sporting activities; Coaching services; Exercise and fitness classes; Fitness and exercise instruction; Exercise instruction; Physical fitness instruction; Training of sports teachers; Training in the operation of software systems; Providing of training, teaching and tuition; Education services; Training in the development of software systems; Instruction in sports; Workshops (Arranging and conducting of -) [training]; Education in the field of computing science; Education and training consultancy; Training in the operation of computerised systems; Teacher training services; Personal coaching [training]; Sports tuition, coaching and instruction; Teaching services; Computer training services; Training services relating to the use of computer aided engineering systems; Training in the use of computers; Teaching; Education, teaching and training; Provision of training courses in personal development; Educational and teaching services; Provision of training courses; Training courses (Provision of -); Accreditation of educational services; Training in the operation of computer programs; Providing instruction and equipment in the field of physical exercise; Computer training; Training in computer programming; Computer assisted education services; Training courses; Training in the development of computer programs; Education; Computer assisted physical education services; Provision of instruction relating to exercise; Physical fitness assessment services for training purposes; Personal development training; Personnel training; Training consultancy; Training in the design of computer programs; Educational assessment services; Training courses relating to computer software; Computer training advisory services; Personal trainer services [fitness training]; Provision of courses of instruction relating to sport; Services for the provision of exercise equipment; Education, entertainment and sports; All of the aforesaid goods/services excluding computer games, fantasy gaming, role- playing games, tabletop war games, and science-fiction entertainment.

Class 42:

Rental of computer software and programs; Computer programming for data processing and communication systems; Electronic data back-up; Integration of computer systems and networks; Computer software design services; Services for the design of computer software; Design services relating to computer software; Support and maintenance services for computer software; Design of computer hardware; Computer software consulting; Design, maintenance and up-dating of computer software; Computer services; IT service management [ITSM]; Software as a service [SAAS] services; Software as

a service; Software as a service [SaaS]; Application service provider services; Application service provider (ASP); Providing temporary use of non-downloadable software to enable sharing of multimedia content and comments among users; Providing temporary use of on-line non-downloadable software for the management of information; Providing temporary use of non-downloadable software applications accessible via a web site; Providing temporary use of online non-downloadable software; Interactive hosting services which allow the users to publish and share their own content and images online; Providing temporary use of online non-downloadable software for accessing and using a cloud computing network; Platform as a service [PaaS] featuring software platforms for transmission of images, audio-visual content, video content and messages; Compression of data for electronic storage; Software as a service [SaaS] featuring software for deep learning; Software as a service [SaaS] featuring software for machine learning; Software as a service [SaaS] services featuring software for machine learning, deep learning and deep neural networks; Software as a service [SaaS] featuring software for deep neural networks; Software as a service [SaaS] featuring computer software platforms for artificial intelligence; Software as a service [SaaS] featuring software platforms for graphic design; Platforms for artificial intelligence as software as a service [SaaS]; Hosting services, software as a service, and rental of software; Platforms for graphic design as software as a service [SaaS]; Design of software; Software design; Providing temporary use of online, non- downloadable computer software for use in broadcast monitoring applications; Providing temporary use of on-line non-downloadable operating software for computer networks and servers; Providing online non-downloadable computer software; Monitoring of network systems; Design and development of computer software for use with medical technology; Design and development of computer software; Computer services for the analysis of data; Computer analysis services; Engineering services relating to information technology; Consultancy services relating to information technology; Technical consultancy services relating to information technology; Software maintenance services; Software customisation services; Computer software maintenance services; Computer software rental services; Services for the leasing of computer software; Consulting services relating to computer software; Providing temporary use of non-downloadable computer software for tracking packages over computer networks, intranets and the internet; Software engineering; Cloud storage services for electronic data; Providing temporary use of on-line non-downloadable single sign-on software; Providing temporary use of on-line non-downloadable software for the management of data; Design and development of operating software for accessing and using a cloud computing network; Programming of operating software for accessing and using a cloud computing network; Design and development of operating software for cloud computing networks; Rental of operating software for accessing and using a cloud computing network; Providing virtual computer systems through cloud computing; Providing information in the field of product development; Providing information in the field of product design; Providing information in the field of computer software development; Providing information in the field of information technology; Advisory services in the field of product development and quality improvement of software; Product research and development; Analysis of product development; Product development; Information

services relating to the development of computer systems; Software development in the framework of software publishing; Providing temporary use of non-downloadable business software; Consultancy services in relation to computer software; Research and consultancy services relating to computer software; Design and development of wireless data transmission apparatus, instruments and equipment; Design and development of wireless data transmission apparatus; Providing online non-downloadable software for word processing; Providing online, non- downloadable software; Software consulting services; Platform as a Service [PaaS]; Platform as a service [PaaS]; Application service provider [ASP] services; Cloud computing services; Research and development of computer software; Providing temporary use of non- downloadable software; Providing temporary use of on-line non-downloadable software; Development of interactive multimedia software; Software development; Providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; Providing on-line non-downloadable software for database management; Development of new technology for others; Development of software for data and multimedia content conversion from and to different protocols; Providing temporary use of on-line non-downloadable software development tools; Data conversion of electronic information; Data conversion of computer program data or information [not physical conversion]; Electronic data storage services; Hosting of computerized data, files, applications and information; Services for maintenance of computer software; Software authoring; Writing of computer software; Software creation; Electronic storage of data; Electronic data storage; Software development services; Computer system design and development; Providing temporary use of on-line non-downloadable software for the transmission of data; Development of computer systems; Analysis (Computer systems -); Providing temporary use of online non-downloadable software for word processing; Configuration of computer systems and networks; Installation and maintenance services for software; Providing temporary use of on-line non-downloadable software for web site development; Providing temporary use of web-based applications; Providing online non- downloadable software for use in communication; Providing temporary use of on-line non-downloadable software for database management; Research in measurement technology; Computer software development; Development of computer software; Development of computer hardware and software; Computer system integration services; Design and development of new technology for others; Development of software; Installation of software; Application service provider [ASP], namely, hosting computer software applications of others; ; Design of data storage systems; Services for the design of computer systems; Computer software advisory services; Software engineering services; Cloud hosting provider services; Information technology support services; Providing temporary use of non downloadable computer software; Providing temporary use of web-based software; Application service provider (ASP) services, namely, hosting computer software applications of others; Research in the field of communications technology; Research in the field of telecommunications technology; Research in the field of telecommunication technology; Research in the field of information technology; Engineering services in the field of communications technology; Research in the field of data processing technology; Research and development services in the field of antibody technology; Research in

the field of artificial intelligence technology; Information technology consulting services; Information technology consulting; Information technology services; Providing science technology information; Maintenance of software for communication systems; Design and development of medical technology; Design of software for data and multimedia content conversion from and to different protocols; Data conversion of computer programs and data [not physical conversion]; Providing temporary use of non-downloadable computer software for use in the creation and publication of on-line journals and blogs; Design of hardware for data and multimedia content conversion from and to different protocols; Design and development of data display systems; Computer technology consultancy; Computer software consultancy services; Designing of electronic systems; Programming of software for Internet platforms; Providing temporary use of on-line non-downloadable software for processing electronic payments; Computer systems analysis; Temporary electronic storage of information and data; Calibration [measuring]; Providing temporary use of online, non-downloadable computer software for language translation; Computer software integration; Research relating to technology; Design services relating to data processing test tools; Computer and software consultancy services; Design of clothing, footwear and headgear; Electronic storage services for archiving electronic data; Constructing an internet platform for electronic commerce; Consulting services in the field of software as a service [SaaS]; Science and technology services; Providing user authentication services using single sign-on technology for online software applications; Programming of software for e-commerce platforms; Providing temporary use of on-line non-downloadable software for the transmission of information; Design and development of data retrieval software; Computer software consulting services; Development of technologies for the protection of electronic networks; Information technology [IT] consultancy; Computer systems design; Computer software programming services; Software consultancy services; Providing temporary use of on-line, non-downloadable software for use in publishing and printing; Information technology consultancy; Providing temporary use of non-downloadable software for analyzing financial data and generating reports; Computer system monitoring services; Providing on-line support services for computer program users; Computer and information technology consultancy services; All of the aforesaid goods/services excluding computer games, fantasy gaming, role- playing games, tabletop war games, and science-fiction entertainment.
