The logo for CASTELVETRO features a stylized graphic on the left consisting of two thick, parallel diagonal lines forming a 'V' shape, with a small square at the top intersection. To the right of this graphic, the word 'CASTELVETRO' is written in a bold, uppercase, sans-serif font.

The trademark consists of an imprint depicting the wording
CCV CASTELVETRO in fancy characters, the initials
CCV being placed to the left of the verbal expression
CASTELVETRO and highly stylized, the double C letters being
represented as two oblique segments with the vertices joined
evoking an arrow with the point directed toward the left, the
letter V having the left-hand stroke interrupted and surmounted
in the center by a small rhomboid figure.

units being HVAC units; energy recovery units and modules, namely, energy recovery ventilators; air finishing systems and equipment, namely, industrial process and finishing equipment being batch curing ovens, pre-treatment air washers, dry off ovens for use in HVAC, direct outdoor air, dehumidification, heat recovery, energy recovery, air purification, dehydration and desalinization systems, cure ovens; finishing systems comprising direct-fired air handlers, direct-fired make-up air handlers, make up air heaters, air handling units, heater being electric commercial heater, air conditioners, ventilators for heat and energy recovery, humidifier and combinations thereof to create, when desired, at least two interior environments in a defined space; packaged heat recovery and dehumidification systems for swimming pools, namely, dehumidifying apparatus that controls humidity and temperature in commercial, institutional and recreational swimming pool applications; device that removes water from an atmospheric environment in a natatorium, namely, dehumidifiers, natatorium ventilation units; indoor split outdoor air unit that removes water from the atmospheric environment in a room, namely, dehumidifiers, fluid coolers in the nature of water coolers, electric coolers and evaporators in the nature of cooling evaporators, evaporators for air conditioners; fans, namely, electric fans, fans for HVAC units; atmospheric heaters, namely, solar water heaters, electric heaters for commercial use; atmospheric conditioners, namely, air conditioners, radiators; purgers, namely, valves for air conditioners; outdoor ventilation, namely, ventilators for dehumidifiers, ventilating fans for industrial use; pool water heaters; heaters; heaters; gas fired infrared heaters for commercial use and replacement parts therefor; heating equipment in the nature of hot air blowers for use inside paint booths for drying vehicular paint; air conditioners; air conditioning apparatus and installations; air cooling apparatus; air purifying units for commercial and domestic use; self-contained indoor heating, ventilating, and air conditioning units for commercial, institutional, and industrial buildings; industrial and commercial heaters and heating coils; ventilation fans for industrial and commercial use; filters for ceiling air ventilation systems comprising metal panels; heating, cooling, refrigerating, ventilation and energy recovery equipment, namely, air handlers and packages and custom-engineered air conditioners, chillers, namely, process chillers that provide temperature-controlled fluid to heating and cooling devices, gas, electric, hydronic and solar heating installations; ventilation fans for residential, commercial and industrial use; humidifiers and dehumidifiers for commercial and industrial use, and steam generators; heating, ventilating and air conditioning products, namely, ventilating louvers; inlet cones for the flow of air for use in fan and air blower assemblies; dampers, namely, control devices used in air ducts to regulate the flow of air; fume hoods; laboratory exhaust systems, namely, ventilation exhaust fans, and air blowers; smoke and gas evacuation systems consisting primarily of venting, ventilation exhaust fans, and air blowers; roof-mounted custom heating, ventilating, and air conditioning equipment for use in commercial, institutional, and industrial buildings.

Class 17:

Thermal breaks, namely, air conditioner insulation materials sold as an integral component of air conditioners and as replacement parts therefor; sound silencers sold as an integral component of fan and air blower assemblies and heating, cooling, refrigerating, ventilating, air quality and energy recovery equipment.

Class 37:

Repair of microprocessors, electronic hardware, pneumatic controllers for atmospheric environment conditioning units, zone control systems for home heating and atmospheric environment conditioning comprising of a series of thermostats connected to a control panel which opens and closes a series of dampers, electrical humidifier controls, thermostats, electrical controllers for air conditioning units, natatorium device that removes water from an atmospheric environment, natatorium ventilation units, indoor split outdoor device that removes water from an atmospheric environment, fluid coolers, evaporators, fans, compressors, atmospheric environment heaters, atmospheric environment conditioners, purgers in the nature of water and air pumps, thermal breaks, outdoor ventilation units, pool water heaters, remote operator panels, controllers for electronic hardware, refrigerant pressure transducers, control sensors, pipes, electronic display screens, and cambered roofs and packaged heat recover device that removes water from an atmospheric environment systems for swimming pools, namely, devices that remove water from an atmospheric environment that control humidity and temperature in commercial, institutional and recreational medium to large swimming pool applications.

Class 42:

Engineering and design services in the field of industrial process finishing systems such as ovens, washers, dryers, conveyors, incinerators, tanks, spray nozzles, pumps, valves, gauges, doors, and catwalks.

The trademark is made up of name and figurative elements. In particular, the words "MANCUSO", "GELATI" and "DAL 1920" can be read on two different places. On the right side of the first letter "M" of the word "MANCUSO" and on the left

side of the last letter "O" of the same word, two small fantasy figures are visible in a slightly inclined position. Furthermore, the word "MANCUSO" is larger than the rest of denominative portions. On the upper side of the word "MANCUSO", a stylized cart is visible with the word "GELATI" in its central part. The mark as a whole is surrounded by a semi-elliptical figure which is interrupted in its upper part by the figure of the cart described above and by two small circles placed on the right and left sides of the above-mentioned figure. The whole thing is highly stylized.

for testing transmissions for vehicles; steering apparatus, automatic, for vehicles; tire pressure gauges; meters for internal combustion engines; battery testers; testing instruments; humanoid robots with artificial intelligence for use in scientific research; laboratory robots; teaching robots; vehicle driving training simulators; scanners [apparatus] for performing automotive diagnostics; telescopes; electric wire harnesses for automobiles; USB cables; audio cables; connection cables; electric wires and cables; electric adapter cable; wires, electric; microcontrollers; parking sensors for vehicles; controllers for servo motors; piezoelectric sensors; transformers [electricity]; electric current control devices; inverters [electricity]; control panels [electricity]; distribution consoles [electricity]; cell switches [electricity]; voltage regulators; couplings, electric; electronic control units for automobiles; sensors; current rectifiers; converters, electric; variable-frequency drives (VFD) for high-speed electrical motors; regulating apparatus, electric; safety contact plugs; electrical plugs and sockets and electrical connections; commutators; switches, electric; electronic control apparatus for vehicles; electric plugs; plug connectors; plug adapters; collectors, electric; control panels [electricity]; video screens; liquid crystal display [LCD] screens; electronic key fobs being remote control apparatus; protection devices for personal use against accidents; theft prevention installations, electric; locks, electronic; electric locks for vehicles; magnetic sunglass lenses; sunglasses; cords for sunglasses; cases for eyeglasses and sunglasses; spectacles; spectacle cases; sunglass lenses; car batteries; electric batteries for vehicles; batteries, electric, for vehicles; battery charge devices; electric vehicle charging piles; rechargeable batteries for electric vehicles; charging stations for electric vehicles; chargers for electric accumulators; batteries, electric; battery chargers; accumulators, electric; solar batteries; rechargeable batteries; battery boxes; mobile power supply [rechargeable batteries]; battery charging devices for motor vehicles; battery jars; fuel cells; mobile phone battery chargers for use in vehicles; humanoid robots with artificial intelligence for preparing drinks; portable remote-controlled car stoppers; humanoid robots with artificial intelligence for preparing beverages.

Class 11:

Lamps; table lamps; lights for automobiles; lighting apparatus for vehicles; anti-glare devices for vehicles [lamp fittings]; brake lights for vehicles; cooking utensils, electric; coffee machines, electric; soya milk making machines, electric; electric cooking stoves; kettles, electric; bread baking machines; air fryers; electric outdoor grills; multicookers; cooking ovens, electric; roasters; electric grills; electrically heated mugs; cooling installations and machines; deodorizing apparatus for refrigerators; refrigerators for use in cars; air conditioners for vehicles; heaters for vehicles; air cooling apparatus; automobile engine preheater; defrosters for vehicles; defrosters for automobiles; extractor hoods for kitchens; anion generating humidifiers; humidifiers for household purposes; air dryers; air filtering installations; air purifiers; air purifying apparatus and machines; air conditioning apparatus for vehicles; garment steamers; humidifiers; dehumidifiers for household purposes; industrial dehumidifiers; hair dryers; burners; automatic faucets; electric hot air hand dryers; heaters for baths; whirlpool-jet apparatus; bath heater; disinfectant apparatus; sterilizers; electric water purifiers for household purposes; water dispensers; radiators, electric.

Class 16:

Paper; place mats of paper; advertisement boards of paper or cardboard; note books; printed matter; envelopes [stationery]; calendars; decorative stickers for cars; bookmarks of precious metal; tracing patterns; charts; albums; wall maps; atlases; books; printed publications; picture books; prospectuses; magazines [periodicals]; newspapers; periodicals; pictures; photographs [printed]; posters; paintings [artworks]; packaging boxes of paper; garbage bags of paper or of plastics; pen cases; passport holders; writing cases [sets]; stationery; pens [office requisites]; steel pens; gel roller pens; drawing instruments; drawing boards; passport holders and cases.

Class 17:

Rubber, raw or semi-worked; clutch linings; gaskets; tinted plastic films for use on vehicle windows; fittings, not of metal, for flexible pipes; packaging bags of rubber; air hoses, not of metal; hoses of plastic for air conditioners; connecting hose for vehicle radiators; non-conducting materials for retaining heat; insulating materials; padding materials of rubber or plastics; chemical fibers for use in making cigarette filters.

Class 18:

Trunks [luggage]; wallets; reusable shopping bags; business card cases; rucksacks; credit card cases [wallets]; key cases; card cases [notecases]; umbrellas.

Class 19:

Building timber; boards of wood; stone; gypsum [building material]; cement; concrete building elements; refractory construction materials, not of metal; framework, not of metal, for building; buildings, not of metal; building glass; coatings [building materials]; memorial plaques, not of metal.

Class 20:

Furniture; showshelves; chairs; storage rack; metal storage cabinet; trolleys [furniture]; cabinets; shelves for books; tables; folding tables; stools; folding chairs; inflatable camping mattresses; mattresses; sofas; sofa beds; footrests; tea trolleys; display stand furniture; shelves for storage; folding shelves; shelving units; trestle tables; air mattresses, not for medical purposes; coat hangers; boxes of plastic; chests, not of metal; tool boxes, not of metal, empty; split rings, not of metal, for keys; mirrors [looking glasses]; picture and photograph frames; hand-held mirrors [toilet mirrors]; mirrors; works of art made of plastic; numberplates, not of metal; nameplates, not of metal; identity plates, not of metal; kennels for household pets; table tops; drawer organizers; nap mats [cushions or mattresses]; cushions [furniture]; chair mats in the nature of pillows or seat liners; neck support cushions; accent pillows; bolsters; pillows; neck pillows; cushions; camping mattresses; U-shaped pillows; neck-supporting pillows; travel pillows; head-supporting pillows; latex pillows; window stops, not of metal or rubber.

Class 21:

Sets of cups, bowls and plates; kitchen utensils; cups; dishes; potholders; oil cruets; bottles; kitchen containers; jugs; kettles, non-electric; utensils for household purposes; stew-pans; containers for household or kitchen use; table plates; bowls [basins]; tableware, other than knives, forks and spoons; cooking utensils, non-electric; bottle openers, electric and non-electric; foldable non-electric kettles; training cups; cooking pots; portable cooking kits for outdoor use; barbecue tongs; barbecue forks; glass mugs; daily use glassware (including cups, plates, pots, crocks); pottery; porcelain ware; works of

art of porcelain, ceramic, earthenware, terra-cotta or glass; coffee services [tableware]; tea services [tableware]; vacuum cups; coffee cups; drinking vessels; drinking cups; vacuum bottles; coffeepots, non-electric; wine glasses; precious metal tea sets; non-precious metal tea sets; personal hydration packs comprising a fluid reservoir and a delivery tube; vases; trash cans for household purposes; clothes drying racks; soap dispensing bottles; perfume burners, electric and non-electric; incense burners; aromatic oil diffusers, other than reed diffusers, electric and non-electric; combs; electric combs; hair for brushes; toothbrushes; electric oral irrigators for household purposes; cordless oral irrigators for household purposes; battery-powered oral irrigators for household purposes; toothbrushes, electric; heads for electric toothbrushes; toothpicks; floss for dental purposes; cosmetic utensils; make-up brushes; make-up sponges; insulated bottles; thermally insulated containers for food; insulating flasks; portable cool boxes, non-electric; thermally insulated containers for food or beverages; brooms; cloths for cleaning; lint removers, electric or non-electric; sweepers; car washing mitts; cleaning sponges; cleaning instruments, hand-operated; steel wool; glass for vehicle windows [semi-finished product]; glass, unworked or semi-worked, except building glass; window glass for vehicles, unfinished; pet feeding bowls; plug-in diffusers for mosquito repellents.

Class 22:

Car towing ropes; ropes; mountaineering ropes; mesh bags for washing laundry; vehicle covers, not fitted; sails for yachts; dust sheets; ground cloths; awnings of textile; bivouac sacks being shelters; tents; hammocks; outdoor blinds of textile; bags [envelopes, pouches] of textile, for packaging; laundry bags; textile fibres.

Class 24:

Printed silk fabrics; fabric; furnishing fabrics; curtain fabrics; handmade silk fabric; handmade and machine made canvas for embroidery; silk canvas for embroidery; tapestries of textile; canvas for tapestry; silk velvet canvas for embroidery; silk artwork; felt; children's towels; bath towels; household linen; terry cloth bed covers; sleeping bags for camping; bed linen; sleeping bags; blankets; tablecloths, not of paper; curtains of textile; drapes in the nature of curtains made of textile materials; banners of textile or plastic.

Class 25:

Clothing; jackets [clothing]; sports jerseys; shirts; collars [clothing]; tee-shirts; waistcoats; children's clothing; sweaters; down garments; casual wear; uniforms; polo shirts; trousers; coats; layettes [clothing]; bathing suits; rain jackets; raincoats; shoes; sneakers; slippers; sports shoes; hats; hats for children; golf caps; caps being headwear; hosiery; neckties; scarves; headscarves; silk scarves; belts [clothing]; shower caps; sleep masks.

Class 27:

Carpets for vehicles; floor mats for automobiles; carpets for automobiles; floor coverings; non-slip mats; wallpaper; wall coverings of paper; wall hangings, not of textile.

Class 28:

Apparatus for games; gaming keypads; controllers for game consoles; joysticks for video games; gamepads for video games; toys; model cars; toy robots; toy vehicles; toy models;

Class 9:

Electronic databases; multimedia content; software; firmware; computer operating systems; application software for cloud computing services; audiovisual and information technology equipment; equipment for data communication and computer networks; data storage devices; equipment and accessories for data processing (electrical or mechanical); peripheral devices for computers; computers and computer hardware; parts and components for computers; communication equipment; point-to-point communication equipment; broadcasting equipment; antennas for telecommunications; apparatus for scanning images; electronic ticket dispensing terminals; payment terminals, devices for sorting and dispensing money; coin-operated mechanisms; electric circuits and cards; devices for access control; measuring, detecting and monitoring instruments, digital indicators, content indicators, indicator panels; electrical controllers, programmable controllers, electronic controllers, device drivers; sensors and detectors; devices for testing and quality control; apparatus for registering and recording data; training simulators; apparatus for scientific research; nautical apparatus and instruments; measuring apparatus; naval signaling apparatus; sonars; metal detectors for industrial or military use; security warning apparatus; security check apparatus; railway traffic safety apparatus; security and surveillance apparatus; security surveillance apparatus; electric and electronic security apparatus and instruments; security cameras; security control instruments; safety apparatus for railway traffic; safety signs and beacons; integrated electronic security systems for land vehicles; environmental control software, building access and security systems; security software; software for network and device security; encoded cards with security features intended for identification; traffic control instruments; traffic control apparatus [electronic]; traffic control apparatus [mechanical]; traffic control apparatus [luminous]; traffic control apparatus [lighting]; apparatus for air traffic control; traffic control apparatus [electrically operated]; radio equipment for air traffic control; metal traffic signs [luminous]; metal traffic signs [mechanical]; traffic signal recognition systems; railway signals; biometric identification devices; radio-frequency identification devices [transponders]; night vision devices for identifying images; biometric identification systems; magnetic identity cards; radar antennas; radar apparatus; radar detectors; radar installations; radar apparatus; radar systems; interfaces [computers]; computer programs for card readers; computer application software for use in the implementation of the Internet of Things [IOT]; computer software to enhance the audiovisual capabilities of multimedia applications, namely

for the integration of text, audio, graphics, still and moving images; electronic terminals for toll payment; electronic toll payment (ETC) systems; planning software; traffic-light apparatus [signaling devices]; mobile communication terminals; electronic payment terminals; electronic mail terminals; data viewing terminals; data input terminals; interactive touch screen terminals; secure terminals for electronic transactions; credit card terminals; data output terminals; point-of-sale terminals; bar code terminals; information display terminals; electrical connection terminals; electrical terminal blocks; computer terminals; graphic terminals; telephone terminals; interactive terminals; multimedia terminals; ground terminal blocks; terminals for radiotelephones; data terminals; display terminals; telephone terminals; keyboard terminals; battery terminals; terminals for graphic display; receiving terminals for signals; electronic point-of-sale terminals; computer terminals for banking purposes; data processing terminals; electronic terminals for issuing of lottery tickets; terminals for electronically processing payments made with credit cards; simulation software; navigation apparatus for vehicles [onboard computers]; speed-checking apparatus for vehicles; radar apparatus for vehicles; vehicle tracking apparatus; computer applications for vehicle navigation apparatus; vehicle tracking devices; computers for self-driving vehicles; software for use in autonomous driving of vehicles; multi-camera systems for vehicles; on-board electronic systems in land vehicles for providing driving assistance; vehicle tracking systems; vehicle navigation systems with interactive screens; on-board electronic systems for land vehicles for audiovisual entertainment; simulation devices for training purposes; traffic control systems for vehicles; data processing scanners; electronic control systems for security barriers.

Class 12:

Autonomous vehicle; driverless motor vehicles [autonomous]; unmanned vehicles [autonomous vehicles]; drones with camera.

Class 35:

Company advisory and consultancy services; administrative data processing; accounting services; auditing; human resources management; market research services; compilation and systemization of business databases; outsourcing services (business assistance); outsourcing services in the field of commercial operations; outsourcing services relating to business analysis; assistance, advice and consultancy regarding promotional, marketing and advertising services; commercial business management; commercial information and advice for consumers [consumer advice shop]; business assistance, management and administration services; business advice relating to strategy; business process re-engineering (design); business process re-engineering; data processing services in the field of transport; business consultancy, in transport and delivery; business management consultancy of transport and delivery.

Class 36:

Consultancy, advice and information on financial matters; real estate consultancy; investment consultancy; insurance consultancy; valuation services; payment processing; electronic payment services; processing of electronic payments; processing of electronic payments carried out by means of prepaid cards; financial transfer and transaction services, payment services; issuing of prepaid cards for use as electronic transport documents; electronic toll-payment services;

services for payment consolidation; contactless payment services; automated payment services; electronic processing of payments.

Class 37:

Installation, maintenance and repair of computers and telecommunications equipment; installation, maintenance and repair of equipment for computer networks and information technology; updating of computer hardware; installation, maintenance and repair of hardware; consultancy regarding installation, maintenance and repair of computer hardware; consultancy services relating to the installation and maintenance of computers; advisory services regarding the installation of communication equipment; providing information relating to the repair or maintenance of telecommunication equipment; installation of electronic communication networks; installation, repair and maintenance of peripheral computer equipment; installation and repair of computer equipment; installation of data network apparatus; installation of telecommunication equipment and wireless local area networks; installation of hardware and cables for internet access; installation of communication equipment; repair and maintenance of computers; maintenance and repair of hardware; maintenance of networks for data communication; maintenance of data processing terminals; maintenance of equipment for data processing; maintenance of telecommunication equipment; civil engineering construction project management [construction supervision]; maintenance and repair of pressure safety devices; maintenance and repair of security installations; installation of traffic management systems; construction of railway infrastructure; providing information relating to the repair or maintenance of railway rolling stock; road signage; road construction; maintenance and repair of access control systems; installation of hardware in the field of Access Control as a Service [ACaaS]; maintenance and repair services relating to the transport sector; infrastructure maintenance and construction services.

Class 38:

Telecommunication services; consultancy, information and advisory services in the field of telecommunications; advisory and consultancy services relating to wireless communication; advisory services relating to communications equipment; communications via computer and providing access to the Internet; communications by computer and Internet access provider services; provision of access to computer networks.

Class 39:

Transport; global positioning system navigation services; information services relating to transport, traffic and travel; providing information on direction and routes for traveling; driverless autonomous transport services; information relating to third-party transport services; public transport services; aeronautical transport services; providing information on transport and travel via telecommunications apparatus and devices; air traffic control services; ground traffic control services for aircraft; traffic information; information services relating to traffic congestion; information services relating to traffic speed; providing road and traffic information; vehicle traffic flow management via advanced communication networks and technology; information relating to road traffic conditions; railway transport; providing information relating to the transport of passengers; providing information relating to transport; organization of merchandise transport; transport

organization; arranging transport services; information relating to transport; computerized planning of distribution relating to transportation; tracking of passenger or freight vehicles by computer or via GPS [transport information]; transport reservation; provision of advice regarding transportation of goods; providing information by electronic media relating to the planning and booking of travel and transport; providing information relating to tariffs in the field of transport; vehicle tracking services; operation of road and highway tolls; issuing of travel tickets; travel planning, organization and reservation; planning and booking by electronic means of transport and travel; passengers registration services in airports.

Class 41:

Education; training; entertainment services; education information; provision of instruction relating to computer programming and technological education services; training with respect to design and development of software systems; training in the operation of software systems; project management training services; training with respect to business management and business strategy; online publication of books and publications in electronic format; organization and conducting of conferences; organization and conducting of congresses; organization of exhibitions for cultural or educational purposes; organization of competitions (education); provision of publications online; provision of online tutorials; online training services.

Class 42:

Information technology services; development, design, programming and implementation of software; development and design of equipment for computer hardware; software rental and website hosting services; rental of computer equipment and installations; consultancy, advice and information relating to computer services; information technology security, protection and restoration; data duplication, conversion and encryption services; scientific and technological services; testing, authentications and quality control; design services; design, development, integration and updating of computer solutions (software) for cybersecurity; software updating; creation and maintenance of web sites for others; editing of computer programs; advisory services relating to product development and software quality improvement; Consultancy relating to computer program design and development; advisory services relating to computer programming; advice and development services relating to computer software; consultancy services relating to computer programming; development of computer programs for third parties; software installation and maintenance; design, maintenance and updating of computer software; updating of computer programs; development, updating and maintenance of software systems and databases; advisory and information services relating to the design and development of computer peripherals; advisory and information services relating to the design and development of computer hardware; design and development of hardware architecture; consultancy services with respect to Software as a Service [SaaS]; consultancy via cloud networks and applications; cloud computing services; cloud hosting provider services; computer services concerning electronic data storage; hosting computer sites [web sites]; hosting of digital content on the Internet; Infrastructure as a Service (IaaS); platform as a service [PaaS]; Software as a Service [SaaS]; IT project management; conversion of computer programs and data, other than physical

conversion; conversion of data or documents from physical to electronic media; duplication of computer programs; computer engineering; computer program engineering; Telecommunications engineering; engineering services; technical consultancy relating to road cutting technology; installation of software for Access Control as a Service (ACaaS); hosting of servers and computer programs in the field of Access Control as a Service (ACaaS); Access Control as a Service (ACaaS); road network design; technology security testing services; providing meteorological information relating to the condition of ski slopes and roads; supervision of suitability of vehicles to travel by road; integration of computer programs; integration of computer systems and computer networks; consultancy and information in the field of integration of computer systems; computer systems integration services; consultancy on integration of computer systems; monitoring of computer systems for detecting unauthorized access or filtering data; technological planning services; architectural planning services; consultancy services relating to environmental planning; consultancy services relating to urban planning; civil engineering planning services; advisory services related to planning applications; advisory services relating to installation planning; design and planning of telecommunication equipment; analytical services by means of radar use.

Class 45:

Providing protection services for third parties being security services; security services for buildings; airport security services; security control of persons and luggage in airports.

Electronic controllers for machines, electric and electronic apparatus, and equipment composed thereof, namely television sets, video apparatus, satellite receivers or receiving apparatus, radio apparatus, tuners, electric amplifiers, mixer amplifiers, reverberation apparatus, mixing consoles, equalisers, audio and/or video CD or DVD players; apparatus for recording, transmission or reproduction of sound and/or images, microphones, headphones, cabinets for loudspeakers, loudspeaker chassis, loudspeakers, audio crossovers, cameras, including for moving images and single images, camcorders, electronic cameras, including digital cameras; lasers and laser equipment, including for lighting effects (included in this class); electronic control devices and controllers for apparatus and light sources, including light scanners for lighting effects; radiotelephone sets or phototelegraphy sets (hand-held, mobile and fixed apparatus), amateur radio transmission and receiver sets, service radio transmission and receiver sets, radio amplifiers; electric, electronic and optoelectronic components, including for solar technology or laser technology, microcomputers, included in this class; electric, electronic and optoelectronic components, in particular resistances, potentiometers, adjusting regulators and slide controls, capacitors, variable capacitors, dimmers, coils and coil formers for electric and electronic circuits, ferrite and iron cores, diodes, transistors, thyristors and triacs, integrated circuits; temperature-dependent and light-dependent resistors, photographic and light-emitting diodes, phototransistors, rectifiers, heat sinks for electric, electronic and optoelectronic components, commutators, key buttons, relays, transformers and transmitters, fuses, sockets and holders for electric, electronic or optoelectronic components, plugs, sockets and plug-in connectors for electric and electronic circuits and apparatus; electric and electronic components for solar technology and components for laser technology (included in this class); model-making electronics, namely transmission and receiver sets for remote control and units thereof,

switching and control circuits for models, electronic switching circuits for flashing lights for models; electric, electronic and electromechanical measuring apparatus, including built-in measuring instruments and multiple measuring apparatus, digital-display multiple measuring apparatus, oscillographs, endoscopes, frequency counters, electric and mechanical voltage testers, electronic metal detectors; electric and electronic alarm apparatus and alarm installations and parts therefor, namely optical and acoustic signal transmitters, acoustic sensors (ultrasound-movement indicators), optical sensors and light barriers, electromechanical sensors (door and window contacts, vibration contacts for windows and doors), micro computers, structural components and kits for all aforesaid apparatus (included in this class); aerials, including television aerials and satellite receiver aerials, set top aerials, car aerials, amateur radio and CB radio aerials, including being mobile aerials and station aerials; electric and electronic aerial accessories, namely aerial amplifiers, aerial diplexers, coaxial switches, coaxial relays and multiple switches for satellite receiving installations, power units for aerial amplifiers and rotors for aerials; antenna cables, level regulators and distributors for aerials, aerial sockets, terminators for aerial cables, jacks, plugs and adapters for aerials, balun transformers for aerials; electronic aerial positioning apparatus; mechanical aerial accessories, namely aerial masts, mast castings, roof ducts, roof hooks, roof rafter mast castings for aerial masts, bearings for rotating aerials, mechanical fastening elements for aerials and aerial masts, in particular including fastening elements for fastening mobile aerials to automobiles, mast casings and mast holders for securing aerial amplifiers and crossover networks; electric installation material (wires, cables), dimmer switches for electric room lighting, mains pin and socket connectors, in particular plugs and sockets, electric conduits, wires and flex, including those for the supply of electricity, for communications and data transmission for video and audio applications; intercom installations consisting of exterior and interior speaker stations, and, if required, switching apparatus, power supplies, amplifiers and video apparatus; electric and electronic demonstration boxes, consisting of electric and electronic components and structural components; electronic desk and pocket calculators; electronic and mechanical voltage testers, electronic metal detectors; telecommunications apparatus, in particular telephones, answering machines, facsimile machines, modems, mobile telephones, smartphones, telephone accessories, namely telephone branch exchanges, hands-free equipment or installations, telephone charge meters, telephone junction boxes, manual and electronic telephone switches, telephone connectors and sockets, telephone cables, telephone connection cords; computers, tablet pc, pc, notebook pc, printers, scanners [data processing equipment], display screens, hard discs, cd drives, cd printers, floppy disk drives, keyboards (radio, data interface featuring short-range radio transmission, cables), mice (radio, data interface featuring short-range radio transmission, cables), computer cards, in particular graphic cards and interface cards, memory cards, modems and computer installations composed thereof, computer pin and socket connectors, expansion cards, universal serial bus [usb] memory stick, power banks, computer and network cables; wlan/wifi apparatus, wlan routers and wlan repeaters operating at 2.4/5 ghz; network apparatus, network attached storage, network expansion cards; computer software, in particular computer programs recorded on data carriers, including those for controlling lasers and light sources, software

tools, data communications software for electronic data exchange, in particular between computers, computer systems and interfaces, including on the internet and/or intranets, and for carrying out other computer-based functions, power adapters; navigating apparatus (electronic -); fitting housings of metal or of plastic for use in relation to the following goods: electrical and electronic appliances, namely temperature sensors, pressure sensors, vibration sensors, switch and control components, fuses, network equipment and power suppliers, single-board computers, boards; high fidelity sound equipment and installations, including such equipment and installations for vehicles; pouches, bags and cases designed for storing electric and electronic apparatus, namely measuring apparatus, telephones, mobile telephones, computers and cameras; motor vehicle testers, obd testers, measuring apparatus for on-board electronics; surveillance systems, closed-circuit television (cctv) cameras, including via wlan and data interface featuring short-range radio transmission; branch boxes [electricity]; accumulators, electric; electric batteries for vehicles; battery jars; battery boxes; battery bags; acoustic couplers; sound alarms, in particular electric alarm bells and whistle alarms; alcoholmeters; ammeters; testing apparatus not for medical purposes; anemometers; armatures [electricity]; starter cables for motors; anodes; anode batteries; answering machines; junction boxes [electricity]; connections for electric lines; connection units (electric -); aerials; anticathodes; electricity indicators; apertometers [optics]; apparatus and installations for the production of x-rays, not for medical purposes; apparatus and instruments for astronomy; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; distance recording apparatus; apparatus for measuring field strength; oxygen transvasing apparatus; mirrors for inspecting work; breathing apparatus, except for artificial respiration; respiratory masks, other than for artificial respiration; respirators for filtering air; thermionic valves (radio); lens hoods; shutter releases [photography]; balancing apparatus; steering apparatus, automatic, for vehicles; azimuth instruments; beacons, luminous; barometers; batteries, electric; limiters [electricity]; exposure meters [light meters]; observation instruments; betatrons; phototelegraphy apparatus; video telephones; plumb bobs; galena crystals [detectors]; diaphragms [photography]; anti-glare glasses; anti-dazzle shades; flashing lights [luminous signals]; lightning conductors; flashlights [photography]; flash-bulbs [photography]; letter scales; spectacles [optics]; spectacle cases; weighbridges; incubators for bacteria culture; accounting machines; compact disc players; chemistry apparatus and instruments; chips [integrated circuits]; chromatography apparatus for laboratory use; chronographs [time recording apparatus]; magnetic encoders; encoded identification bracelets, magnetic; encoded service cards and identity cards; compact discs [read-only memory]; compact discs [audio-video]; computers; computer operating programs, recorded; computer screens; computer peripheral devices; computer programs, recorded; computer programs, downloadable; computer software, recorded; computer keyboards; data processing apparatus; decompression chambers; decorative magnets; densimeters; densitometers; distillation apparatus for scientific purposes; stills for laboratory experiments; detectors; diagnostic apparatus, not for medical purposes; transparencies [photography]; slide projectors; densimeters; theft prevention installations, electric; anti-theft warning apparatus; diffraction apparatus [microscopy]; digital picture frames; dictation equipment; light dimmers [regulators], electric; alidades; dna chips; dna chips; dosimeters; fuse wire;

revolution counters; choking coils [impedance]; printers for use with computers; pressure measuring apparatus; pressure indicators; tires (automatic indicators of low pressure in vehicle -); digital video disc players; dvd players; dynamometers; egg-candlers; electric installations for the remote control of industrial operations; igniting apparatus, electric, for igniting at a distance; locks, electric; electric sensors; coils, electric; transformers [electricity]; resistances, electric; wires, electric; cables, electric; condensers [capacitors]; electromagnetic coils; electronic notice boards; electronic publications, downloadable; electronic pens for visual display units; electronic agendas; electrified fences; endoscopes, not for medical purposes; range finders; distance measuring apparatus; discharge tubes, electric, other than for lighting; demagnetizing apparatus for magnetic tapes; anti-interference devices [electricity]; epidiascopes; ergometers; furnaces for laboratory experiments; thread counters; invoicing machines; counterfeit coin detectors; binoculars; binoculars; telescopes; telerupters; television apparatus; telephone apparatus; electro-dynamic apparatus for the remote control of railway points; remote control apparatus; fire blankets; fire extinguishers; fire alarms; fire beaters; clothing for protection against fire; clothing for protection against fire; fire pumps; films, exposed; cinematographic cameras; film cutting apparatus; filters for respiratory masks; filters for use in photography; fluorescent screens; cameras [photography]; photovoltaic cells; photocopiers; photometers; apparatus to check franking; hands-free kits for telephones; frequency meters; spark-guards; masts for wireless aerials; radiotelephony sets; radiotelegraphy sets; galvanic cells; galvanic batteries; galvanometers; apparatus for fermentation [laboratory apparatus]; gas testing instruments; gasometers (measuring apparatus); money counting and sorting machines; speed indicators; speed checking apparatus for vehicles; speed measuring apparatus [photography]; workmen's protective face-shields; weights; screw-tapping gauges; semi-conductors; salinometers; holders for electric coils; wrist rests for use with computers; downloadable image files; high-frequency apparatus; altimeters; holograms; dog whistles; hydrometers; hygrometers; identity cards, magnetic; inductors [electricity]; interface apparatus or interface programs for computers; ionisation apparatus, not for the treatment of air; electricity conduits; identification threads for electric wires; identification sheaths for electric wires; wire connectors [electricity]; sheaths for electric cables; calipers; calibrating rings; capillary tubes; integrated circuit cards [smart cards]; cassette players; carriers for dark plates [photography]; cathodes; boiler control instruments; cinematographic film, exposed; switchboxes [electricity]; optical character readers; terminals [electricity]; push buttons for bells; bells [warning devices]; slope indicators; pince-nez; spectacle cases; spectacle frames; spectacle chains; eyeglass cords; knee-pads for workers; coaxial cables; collectors, electric; comparators; directional compasses; contacts, electric; contacts, electric, of precious metal; contact lenses; containers for contact lenses; regulating apparatus, electric; headphones; couplers [data processing equipment]; correcting lenses [optics]; cosmographic instruments; gasoline gauges; copper wire, insulated; couplings, electric; laboratory trays; chargers for electric batteries; surveying instruments; computers; bags adapted for laptops; lasers, not for medical purposes; loudspeakers; cabinets for loudspeakers; jigs [measuring instruments]; electrical conductors; ducts [electricity]; readers [data processing equipment]; beacons, luminous; light emitting diodes (led); signs, luminous; light-emitting electronic pointers; blueprint

apparatus; heliographic apparatus; exposure meters [light meters]; rulers [measuring instruments]; sounding apparatus and machines; air analysis apparatus; magnifying glasses [optics]; magnetic tapes; magnetic tape units for computers; magnetic data media; magnetic wires; magnets; magnetic strip cards; disks, magnetic; solenoid valves [electromagnetic switches]; pressure gauges; measures; solderers' helmets; rules (measuring instruments); materials for electricity mains [wires, cables]; material testing instruments and machines; mathematical instruments; mouse [computer peripheral]; mouse pads; coin-operated mechanisms; mechanisms for counter-operated apparatus; megaphones; diaphragms for scientific apparatus; quantity indicators; measuring apparatus; measuring devices, electric; measuring glassware; measuring instruments; rods (surveying instruments); measuring spoons; levelling staffs [surveying instruments]; plane tables [surveying instruments]; metal detectors for industrial or military purposes; meteorological balloons; meteorological instruments; rules [measuring instruments]; metronomes; microphones; micrometers; micrometer screws for optical instruments; microprocessors; microscopes; microtomes; mobile telephones; modems; monitors [computer hardware]; apparatus for editing cinematographic film; teeth protectors, namely respiratory masks; musical juke boxes; food analysis apparatus; nose clips for divers and swimmers; nautical apparatus and instruments; navigation apparatus for vehicles [on-board computers]; navigational instruments; fog signals, non-explosive; slope indicators; neon signs; surveyors' levels; levelling instruments; verniers; notebook computers; lenses for astrophotography; objectives [lenses] [optics]; containers for microscope slides; ohmmeters; binoculars; cameras [photography]; microscopes; eyepieces; optical goods; optical apparatus and instruments; optical data media; fibre optic cables; optical fibres [light conducting filaments]; optical condensers; optical lanterns; optical lenses; optical discs; optical glass; osmosis apparatus for scientific and teaching purposes; oscillographs; ozonisers [ozonators]; parabolic mirrors for concentrating light beams; parking meters; pedometers; periscopes; radio pagers; apparatus and instruments for physics; pipettes; planimeters; plates for batteries; record players; juke boxes for computers; plotters; polarimeters; cases fitted with dissecting instruments [microscopy]; precision measuring apparatus; precision balances; prisms [optics]; projection apparatus; projection screens; pyrometers; mercury levels; radar apparatus; radiological apparatus for industrial purposes; radios; vehicle radios; frames for photographic transparencies; centering apparatus for photographic transparencies; screens for photoengraving; smoke detectors; test tubes; abacuses; calculators; circular slide rules; slide-rules; reflecting discs for wear, for the prevention of traffic accidents; refractometers; refractors; cash registers; stage lighting regulators; head cleaning tapes [recording]; cleaning apparatus for phonograph records; relays, electric; retorts' stands; fire escapes; safety nets; safety tarpaulins; life belts; life saving apparatus and equipment; life jackets; rheostats; levels [instruments for determining the horizontal]; hemline markers; x-ray apparatus not for medical purposes; x-ray photographs, other than for medical purposes; x-ray films, exposed; x-ray tubes not for medical purposes; radiology screens for industrial purposes; cathodic anti-corrosion apparatus; saccharometers; salinometers; egg timers [sandglasses]; needles for record players; acid hydrometers; acidimeters for batteries; scanners [data processing equipment]; acoustic conduits; diaphragms [acoustics]; sound locating instruments; phonograph records;

horns for loudspeakers; switchboards; commutators; switches, electric; switchgear [electric]; distribution consoles [electricity]; control panels [electricity]; slide calipers; mechanical signs; screens [photography]; fuses; crucibles [laboratory]; balances [steelyards]; pedometers; contactors (electricity); gloves for protection against x-rays for industrial purposes; head protection; protective helmets for sports; protective masks; protection devices against x-rays, not for medical purposes; transmitters of electronic signals; transmitting sets [telecommunication]; transmitters [telecommunication]; sounding leads; plumb lines; sounding lines; sextants; safety restraints, other than for vehicle seats and sports equipment; electronic tags for goods; signals, luminous or mechanical; signalling buoys; electro-dynamic apparatus for the remote control of signals; signal bells; signal lanterns; signalling whistles; signalling panels, luminous or mechanical; wafers for integrated circuits; simulators for the steering and control of vehicles; sirens; solar energy collectors for electricity generation; solar modules for electricity generation; sonars; probes for scientific purposes; solar batteries; sunglasses; chargers for electric batteries; voltmeters; voltage regulators for vehicles; memories for data processing equipment; spectrograph apparatus; spectroscopes; clothing especially made for laboratories; cases especially made for photographic apparatus and instruments; spherometers; mirrors [optics]; games software; goggles for sports; speaking tubes; sprinkler systems for fire protection; spools [photography]; stands for photographic apparatus and cameras; time clocks [time recording devices]; sockets, plugs and other contacts [electric connections]; covers for electric outlets; stereoscopes; radio-controlled sockets; stereoscopic apparatus; radio-controlled switching apparatus; actinometers; modular devices (switch cabinets); marking gauges [joinery]; bar code readers; lighting ballasts; current rectifiers; electricity conduits; electrified rails for mounting spot lights; circuit closers; circuit breakers; electric loss indicators; converters, electric; commutators; viewfinders, photographic; sulfimeters; buzzers, electric; tachometers; metronomes; bags adapted for mobile phones; batteries for pocketlamps; pocket calculators; electronic pocket translators; divers' masks; particle accelerators; telescopes; temperature indicators; word processing apparatus; theodolites; thermionic valves and tubes; thermometers, not for medical purposes; thermostats; thermostats for vehicles; sound locating instruments; totalizers; transistors [electronic]; transponders; peepholes [magnifying lenses] for doors; electric door bells; voltage surge protectors; mains monitoring apparatus (electric -); ultrasound apparatus, not for medical purposes; filters for ultraviolet rays, for photography; clothing for protection against accidents, irradiation and fire; shoes for protection against accidents, irradiation and fire; gloves for protection against accidents; nets for protection against accidents; protection devices for personal use against accidents; teaching apparatus; audiovisual teaching apparatus; urinometers; vacuum gauges; vacuum tubes (electric); variometers; pressure indicator plugs for valves; junction sleeves for electric cables; connectors [electricity]; enlarging apparatus [photography]; surveying apparatus and instruments; amplifying tubes; distribution boxes [electricity]; distribution boards [electricity]; videotapes; video screens; camcorders; video cassettes; video recorders; video game cartridges; viscosimeters; voltmeters; apparatus for changing record player needles; lens hoods; scales; weighing apparatus and instruments; weighing machines; voting machines; heat regulating apparatus; vehicle breakdown warning triangles; washing trays [photography];

regulators for vehicles; sensors; electromagnetic sensor for determining the speed, angle, distance, volume and nature of an object; radars and antennas integrated into vehicle body parts for parking assistance and driving assistance; wave guide for propagating electromagnetic waves; antennas for reception, antennas for transmission of images, sounds and data; transmitters of electronic signals; electronic signal receivers; light detection and ranging [LIDAR] apparatus for vehicles; road-marking detection apparatus; navigation apparatus for vehicles (on-board computers); electronic apparatus for vehicle parking assistance; electronic apparatus for detecting and warning of continuous or discontinuous line crossing for vehicles; electronic apparatus for detecting, recognizing and reading road traffic signs; battery modules; electric batteries; electric batteries for vehicles; battery packs for vehicles; fuel cells for vehicles; electric accumulators for vehicles; power supply units for vehicles [batteries]; containers for vehicle accumulators [batteries]; battery boxes for vehicles; cooling system for electric vehicle batteries; cooling plates for electric vehicle batteries; control units, sensors and actuators used to control, monitor, regulate and diagnose, on board vehicles, systems, modules and components relating to the production, storage, supply and transformation of energy, and the decontamination of vehicles; on-board computer and calculator programs and software for the control, monitoring, regulation and diagnosis, on board vehicles, of systems, modules, control units and vehicle components relating to the production, storage, supply and conversion of energy, and the decontamination of vehicles; electric and electronic weighing, measuring and checking apparatus and instruments used in the field of mobility; apparatus and instruments for sound, image and data recording, transmission, reproduction and processing; apparatus for reading, recording, transmitting and reproducing data; electronic devices for digital display; electronic notice boards; computerized visual display units; vehicle fuses; junction boxes [electricity] for vehicle batteries; electric control devices for energy management for vehicles; apparatus for analyzing light sources for vehicles; apparatus for analyzing light intensity variation for vehicles; apparatus for analyzing light source variation for vehicles; light source sensors for vehicles; light intensity variation sensors for vehicles; light source variation sensors for vehicles; equipment for communication via Internet link or similar equipment and for data display inside a vehicle; electric, electronic or optical equipment, on board vehicles, including land vehicles, for steering, signaling, controlling, for information, safety as well as processing of information and signals (sounds, images, data) related thereto; electronic management systems for lighting and signaling and cameras; in-vehicle cameras; vehicle reversing cameras; multi-camera systems for vehicles; image processing software for on-board vehicle cameras; facial analysis software; gesture recognition software; software programmed to optimize filament winding; downloadable security software; software for network security and computer units; on-board vehicle surveillance devices and systems, for detecting and analyzing driver and passenger behaviors and emotions, and to warn them of danger and improve their driving experiences; electronic systems for controlling the filling of fuel tanks; electronic systems for controlling the filling of hydrogen tanks; electronic systems for controlling and monitoring the charging and performance of vehicle batteries; electronic systems for controlling and monitoring the charging and performance of vehicle fuel cells; electronic systems for controlling and monitoring the performance status of high-

pressure hydrogen tanks; photovoltaic energy accumulators used in the field of mobility; photovoltaic cells used in the field of mobility; photovoltaic inverters used in the field of mobility; DC-DC converter, namely, electronic power circuits enabling the conversion of a direct current (DC) source of one specified voltage level to a different level; electronic system for activating lighting apparatus by electronic devices for reading, transmitting and processing data emitted by a vehicle; Chargers for electric cars; charger cover for electric cars; vehicle dashboard indicator lights; apparatus for controlling the temperature of fuel batteries and cells; temperature regulators for fuel batteries and cells; electronic system for activating heating and drying apparatus triggered by electronic devices for reading, transmitting and processing data emitted by a vehicle; energy conversion apparatus for vehicles; components, parts of vehicles, systems, control units and vehicle modules included in this class, namely, all parts relating to the production, storage, supply and conversion of any form of energy on board the vehicles.

Class 11:

Lighting apparatus for vehicles; lighting apparatus for vehicle decoration; vehicle headlights; lights for vehicles; parking lights for vehicles; light bulbs for directional signals for vehicles; anti-glare devices for vehicles [lamp fittings]; lighting systems that are anti-dazzle for other drivers; lighting systems for automatic activation and deactivation of high beam when approaching another vehicle; lighting systems for automatic activation and deactivation of high beam when approaching a pedestrian; lighting systems for automatic activation and deactivation of high beam when approaching a lit section of road; heating apparatus for defrosting windows of vehicles; defrosters for vehicles; heaters for vehicles; demisting heating apparatus for vehicles; polymerization installations; heating polymerization units; lighting for display purposes inside and outside a vehicle; vehicle dashboard bulbs.

Class 12:

Parts of vehicles; parts and components for vehicles namely bodywork parts, bodywork component parts, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, vehicle front casing, floor, shock absorber; structural elements for motor vehicles; aerodynamic elements for vehicles, deflectors, spoilers, air guides for vehicles; grille; vehicle chassis; fuel tanks for vehicles; hydrogen tanks for vehicles; caps for vehicle gasoline tanks; components, component parts of vehicles; fuel tanks (all types of fuel) for land vehicles; apparatus for converting chemical fluids and electro-chemical electrical energy components for vehicles, apparatus for converting electronic radiation to electrical energy for vehicles, such as photovoltaic thermal hybrid modules, electric thermal hybrid modules, fuel batteries and cells; vehicle dashboards.

Class 17:

Non-metal flexible tubing [parts of engines for land vehicles]; non-metal flexible tubing for dispensing hydrogen inside land vehicles; non-metal automotive flexible tubing for pumping, calibration, filtering, pressure regulation, chemical, thermal or mechanical protection.

Class 35:

Business organization consultancy; consultancy services in business management; assistance in business management and

business consulting for companies; compilation of statistical reports and market studies; computer data management; collection and systematization of data in a central file; wholesale or retail services for the following products: thermal paste, paints, varnishes, lacquers, anti-rust products, colorants, dyes, printing inks, marking inks and engraving inks, oil for electric motors and engines, metal storage or transport containers, metal hydrogen tanks other than for vehicles, metal fuel tanks other than for vehicles, industrial metal containers for vehicle battery packaging, machine tools, machines for painting, gluing, welding, punching, cutting and machining, guns for painting and dispensing glue, vulcanization, lifting, brazing apparatus, welding apparatus included in this class, vaporizing apparatus, apparatus for machining and mechanical tools for the automotive industry and the manufacture of parts for automobiles, anti-pollution devices for motors and engines, electric, pneumatic and hydraulic devices for opening vehicle doors and windows, automatic vending machines, robots for the automobile industry and the manufacture of parts for automobiles, industrial presses for the manufacture of parts for automobiles, molds (parts of machines) for the automobile industry and for the manufacture of automobile parts, electric cleaning machines and apparatus, road sweeping machines, road making machines, bulldozers, snow ploughs as well as rubber treads as parts of the tracks of said vehicles, 3D printers, compression molding machines, injection molding machines, extrusion molding machines, electricity generators, filament winding machines intended for use in the manufacture of hydrogen tanks, vehicle on-board computers, recorded on-board computers and calculators, software (recorded programs), artificial intelligence software, system for detecting, processing, signaling and monitoring static and moving objects around a vehicle, on-board electronic driver assistance systems, advanced driver assistance systems for vehicles, namely adaptive cruise control, lane tracking controls and alarm, blind spot detection controls and alarm, and collision and accident risk reducing controls and alarm, electronic control devices for vehicle driving assistance, autonomous and semi-autonomous driving control systems for vehicles, autonomous and semi-autonomous driving systems with interactive displays, electronic apparatus intended for driving assistance, computer software and computer hardware for use in connection with advanced driver assistance systems, computer software and computer hardware for controlling, operating, driving and monitoring vehicles, computer software and computer hardware for object detection, object classification, and high definition mapping, computer software and computer hardware for data acquisition and data analysis, computer software and computer hardware for collecting and analyzing data generated by external sources and vehicle sensors, computer software and computer hardware for transmitting data in a vehicle and for communications between and among vehicles and a cloud-based platform, computer software and computer hardware enabling interaction and interfacing between vehicles and mobile devices, computer software for coordinating automated vehicle delivery, freight and transport services, gasoline gauges, electric control apparatus used in the field of mobility, simulators for controlling vehicles, electric monitoring apparatus used in the field of mobility, voltage regulators for vehicles, sensors, electromagnetic sensors for determining the speed, angle, distance, volume and nature of an object, radars and antennas integrated into vehicle bodywork parts for parking assistance and driving assistance, waveguide to propagate electromagnetic waves, receiving antennas, antennas for

emitting images, sound and data, electronic signal transmitters, electronic signal receivers, distance detecting and measuring apparatus (LIDAR) by light wave for vehicles, ground marking detection apparatus, navigation apparatus for vehicles (on-board computers), electronic apparatus for vehicle parking assistance, electronic apparatus for detecting and warning of continuous or discontinuous line crossing for vehicles, electronic apparatus for detecting, recognizing and reading road traffic signs, battery modules, electric batteries, electric batteries for vehicles, battery packs for vehicles, fuel cells for vehicles, electric accumulators for vehicles, power supply units for vehicles (batteries), containers for vehicle accumulators (batteries), accumulator boxes for vehicles, cooling system for electric vehicle batteries, cooling plates for electric vehicle batteries, control units, sensors and actuators used to control, monitor, regulate and diagnose vehicle on-board systems, modules and components relating to the production, storage, supply and conversion of energy, as well as pollution control of vehicles, on-board computer programs and calculators and software for controlling, monitoring, regulating and diagnosing vehicle on-board systems, modules, control unit and vehicle components relating to the production, storage, supply and conversion of energy and pollution control of vehicles, electric and electronic apparatus and instruments for weighing, measuring and control used in the field of mobility, apparatus and instruments for recording, transmitting, reproducing and processing sound, images and data, apparatus for reading, recording, transmitting and reproducing data, electronic digital display devices, electronic notice boards, computerized visual display units, vehicle fuses, junction boxes (electricity) for vehicle batteries, electric control devices for energy management for vehicles, apparatus for analyzing light sources for vehicles, apparatus for analyzing light intensity variation for vehicles, apparatus for analyzing light source variation for vehicles, light source sensors for vehicles, light intensity variation sensors for vehicles, light source variation sensors for vehicles, equipment for communication via Internet link or similar equipment and data display inside vehicles, electric, electronic or optical equipment, on board vehicles, including land vehicles, for driving, signaling, controlling, information, safety as well as processing information and signals (sounds, images, data) relating thereto, electronic management system for lighting and signaling and cameras, vehicle on-board cameras, rearview cameras for vehicles, multi-camera systems for vehicles, image processing software for vehicle on-board cameras, facial analysis software, gesture recognition software, software programmed to optimize filament winding, downloadable computer security software, software for the security of computer networks and units, vehicle on-board surveillance devices and systems, which detect and analyze driver and passenger behavior and emotions, and to prevent danger and improve their driving experiences, electronic systems for controlling fuel tank filling, electronic systems for controlling hydrogen tank filling, electronic systems for controlling and monitoring vehicle battery charging and performance, electronic systems for controlling and monitoring the charging and performance of vehicle fuel cells, electronic systems for controlling and monitoring the performance status of high-pressure hydrogen tanks, photovoltaic energy accumulators used in the field of mobility, photovoltaic cells used in the field of mobility, photovoltaic inverters used in the field of mobility, DC-DC converter, namely power electronic circuit for converting a direct current (DC) source of one specific voltage level to a different one, lighting apparatus activation

system by electronic devices for reading, transmitting and processing data emitted by a vehicle, chargers for electric cars, charger covers for electric cars, vehicle on-board dashboard lamps, apparatus for controlling the temperature of batteries and fuel cells, temperature regulators for batteries and fuel cells, lighting apparatus for vehicles, lighting apparatus for vehicle decoration, vehicle headlights, lights for vehicles, running lights for vehicles, directional signal light bulbs for vehicles, anti-glare devices for vehicles (lamp fittings), anti-glare lighting systems for other drivers, lighting systems for automatically activating and deactivating high beam when approaching another vehicle, lighting systems for automatically activating and deactivating high beam when approaching a pedestrian, lighting systems for automatically activating and deactivating high beam when approaching a lit section of road, heating apparatus for defrosting vehicle windows, defrosters for vehicles, heating installations for vehicles, anti-fog heating devices for vehicles, polymerization installations, heating polymerization units, activation system for lighting, heating and drying apparatus triggered by electronic devices for reading, transmitting and processing data emitted by a vehicle, lighting for display purposes inside and outside a vehicle, vehicle dashboard bulbs, vehicles, apparatus for locomotion by land air or water, motor vehicles, motorcycles, vans, trucks, electric motor vehicles, hybrid car, all-terrain vehicles, buses, heavy-duty vehicles, tramcar, trains, airplanes, helicopters, rotorcraft, aircraft, airships, drones, boats, ships, seaplanes, component parts of vehicles, parts and components for vehicles namely bodywork parts, component parts of bodyworks, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, vehicle front casing, floor, shock absorber, vehicle modules, roof opening mechanisms for vehicles, structural elements for motor vehicles, aerodynamic elements for vehicles, deflector, spoiler, air guide for vehicles, radiator grille, vehicle chassis, fuel tanks for vehicles, hydrogen tanks for vehicles, caps for vehicle gas tanks, components, vehicle components, systems, control units and modules for vehicles included in this class, components, component parts of vehicles, vehicle systems, control unit and modules included in this class namely all parts relating to the production, storage, supply and conversion of all forms of energy on board vehicles, as well as pollution control, tanks, tubing, valves, canisters, filters and modules for pumping, gauging, filtering, pressure regulation, mechanical, thermal or chemical protection, energy conversion apparatus for vehicles, vehicle dashboards, pyrophoric substances, pyrotechnics, pyrophoric substances, pyrotechnics, dielectrics (insulators), non-metal tubes for dispensing coolants in batteries, non-metal tubes for distributing hydrogen, water, air and coolants in fuel cells, tanks, not made of metal nor of masonry, non-metal hydrogen tanks, non-metal fuel tanks other than for vehicles.

Class 37:

Vehicle maintenance; vehicle lubrication [greasing]; Installing exterior, interior and mechanical parts of vehicles for personalization purposes [tuning]; vehicle washing; vehicle cleaning; vehicle polishing; repair services in the case of vehicle breakdown; anti-rust treatment for vehicles; charging of vehicle batteries; electric vehicle charging; Maintenance, installation and replacement of vehicle component parts, parts and components for vehicles namely bodywork parts, bodywork component parts, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, vehicle front casing, floor, shock absorber,

vehicle modules, roof opening mechanisms for vehicles, structural elements for motor vehicles, aerodynamic elements for vehicles, deflector, spoiler, air guide for vehicles, radiator grille, vehicle chassis, fuel tanks for vehicles, hydrogen tanks for vehicles, caps for vehicle gas tanks, components, component parts of vehicles, vehicle control unit systems and modules, components, component parts of vehicles, systems, vehicle control units and modules namely all parts relating to the production, storage, supply and conversion of all forms of energy on board vehicles, as well as pollution control, tanks, tubing, valves, canisters, filters and modules for pumping, gauging, filtering, pressure regulation, mechanical, thermal or chemical protection, fuel cells for vehicles, electric batteries for vehicles, battery packs for vehicles, energy conversion apparatus for vehicles; maintenance, installation and replacement of lighting apparatus for vehicles, vehicle headlights, lights for vehicles, running lights for vehicles, directional signal light bulbs for vehicles, anti-glare devices for vehicles [lamp fittings], heating apparatus for defrosting vehicle windows, defrosters for vehicles, heating installations for vehicles, anti-fog heating devices for vehicles, heated polymerization unit installations.

Class 38:

Telecommunications; communications by computer terminals; providing access to databases; electronic transmission of data related to land vehicles; rental of telecommunication equipment; telecommunications services for radio location and identification of land vehicles; radio, telephone communications; message transmission; providing private access to computer databases.

Class 39:

Vehicle location services.

Class 40:

Treatment of plastics, metals, composite materials; plastic recycling services; printing services; 3D printing to order for third parties; die casting services; die-casting of metals; molding of synthetic products; engraving; laser engraving; polymerization; custom manufacture of automobiles and automobile parts; recycling end-of-life fuel batteries and cells.

Class 42:

Technical design; technical advice for the automobile industry; work planning (engineers' services) and technical project planning; technical advice services with respect to environmental protection; industrial analysis services; industrial analysis and consultation services with respect to environmental protection and conservation; scientific and technological information and technical advice services in connection with environmental awareness; design, updating and rental of software and databases; design, development and updating of artificial intelligence software; research and development of new products for third parties; technical research and development; research and development in mechanics; research and development in physics; research and development in chemistry, bio-chemistry and electrochemistry; advice with respect to energy saving; research and development relating to environmental protection; testing of materials; research and development of systems, modules, components, computer programs and software for vehicles; research and development in the field of reducing vehicle weight and emissions; research and development of sensors, particularly electromagnetic

sensors for determining the speed, angle, distance, volume and nature of an object; research and development of radars and antennas integrated into vehicle body parts for parking assistance and driving assistance; research and development of actuators, and control units; research and development of tooling and production lines for the automotive industry; research and development of vehicle dashboard indicators; research and development of temperature control apparatus for fuel batteries and cells; research and development of temperature regulators for fuel batteries and cells; technical advice on product development, manufacturing devices, control devices, fuel system control; technical advice in relation to controlling the filling process of fuel system tanks, measurement of fuel system emissions and vehicles as well as spare parts of the fuel system; research and development of vehicle component parts, parts and components for vehicles namely bodywork parts, bodywork component parts, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floor, vehicle front casing, floor, shock absorbers, vehicle modules, roof opening mechanisms for vehicles, structural elements for motor vehicles, aerodynamic elements for vehicles, deflector, spoiler, air guide for vehicles, radiator grille, vehicle chassis, fuel tanks for vehicles, hydrogen tanks for vehicles, caps for vehicle gas tanks, vehicle dashboards; research and development of vehicle components, component parts, systems, control units and modules; research and development of components, component parts of vehicles, systems, vehicle control unit and modules namely all parts relating to the production, storage, supply and conversion of all forms of energy on board vehicles, as well as pollution control; research and development of tanks, tubing, valves, canisters, filters and modules for pumping, gauging, filtering, pressure regulation, mechanical, thermal or chemical protection; research and development of fuel cells for vehicles, electric batteries for vehicles, battery packs for vehicles, battery modules and electric batteries; research and development of energy conversion apparatus for vehicles; research and development of lighting apparatus for vehicles, lighting apparatus for vehicle decoration, vehicle headlights, lights for vehicles, position lights for vehicles, directional signal light bulbs for vehicles, anti-glare devices for vehicles [lamp fittings], anti-glare lighting systems for other drivers, lighting systems to automatically activate and deactivate high beam when approaching another vehicle, lighting systems to automatically activate and deactivate high beam when approaching a pedestrian, lighting systems to automatically activate and deactivate high beam when approaching a lit section of road, heating apparatus for defrosting vehicle windows, defrosters for vehicles, heating installations for vehicles, anti-fog heating devices for vehicles, polymerization installations, heating polymerization units, activation system for lighting, heating and drying apparatus triggered by electronic devices for reading, transmitting and processing data emitted by a vehicle, lighting for display purposes inside and outside a vehicle, dashboard bulbs for vehicles; designing, developing and engineering advanced driver assistance systems, semi-automated driving systems and automated driving systems; technical research in the fields of advanced driver assistance systems, semi-automated driving systems and automated driving systems; research and development of cameras for vehicles, electronic management system for lighting and signaling and cameras, vehicle on-board cameras, rearview cameras for vehicles, multi-camera systems for vehicles; design, updating and development of

image processing software for in-vehicle cameras; design, updating and development of energy management software for vehicles; design, development and updating of facial analysis software; design, development and updating of gesture recognition software; design, development and updating of programmed software for optimizing filament winding; information security services [firewalls]; design, development and updating of downloadable computer security software; design, development and updating of software for the security of computer networks and units; design, development and development of Internet security programs; research and development of vehicle on-board monitoring systems and devices for detecting and analyzing driver and passenger behaviors and emotions, and to warn them of danger and improve their driving experiences; research and development of electronic systems for controlling fuel tank filling; research and development of electronic systems for controlling hydrogen tank filling; research and development of electronic systems for controlling and monitoring vehicle battery charge and performance; research and development of electronic systems for controlling and monitoring vehicle fuel cell charge and performance; research and development of electronic systems for controlling and monitoring the performance status of high-pressure hydrogen tanks; updating software via OTA (over-the-air) technology; designing and developing photovoltaic systems used in the field of mobility; research and development of DC-DC converters, namely, an electronic power circuit enabling the conversion of a direct current (DC) source of one specified voltage level to a different level; research and development of filament winding machines intended for use in the manufacture of hydrogen tanks.

The mark consists of a design of three hexagons with one above and two below. In the top hexagon is the outline of a Greek Revival building superimposed over a representation of a globe with lines of longitude and the equator. In the lower left hexagon is a circle with eight protruding rectangles enclosing three human figures. In the lower right hexagon is a series of solid round dots, some of which are connected by vertical lines. Out of the last dot on the right there is a horizontal line that bisects into two smaller lines which also bisect into two smaller lines. At the junction of each bisect is a solid, round dot. To the right of this the letter-string "ISCT" appears above the words "INSTITUTE OF TRAINING & DEVELOPMENT".
