Flues and installations for the removal of exhaust gases; alarm valves, hose angle valves, check valves, gate valves, butterfly valves, all of the above goods in particular for use as part of a fire hydrant system; apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; lighting and light reflectors for vehicles; lighting equipment for use in relation to the following goods: trucks, vans, buses, minibuses, coaches, military vehicles, tracked vehicles, ambulances, fire engines, firefighting vehicles; pressure water tanks; fire hydrants; sterilization, disinfection and decontamination systems and equipment; accessories, adapted housings and components, individual parts and spare parts for the aforesaid goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 12:
Vehicle covers [shaped]; adapted shelves for vehicles; customized blinds for vehicles; trailers for the transport of industrial hoses and fire hoses; linings for vehicles; components for the exterior body of vehicles; wreckers for transport; vehicle chassis; drones; chassis; cabins; vehicle trailer for fire extinguishers; vehicle trailer for the storage and transport of fire extinguishing foam; vehicle bodies; interior trim parts of automobiles; vehicle parts for the interior fittings of motor vehicles for storage space equipment, including roll-off containers and parts of vehicles; vehicles for civil protection, environmental protection, rescue, including command vehicles for civil protection, environmental protection and rescue; measuring vehicles; laboratory vehicles; vehicles, in particular vehicles with mobile ladders and scaffolding with and without motor drive, with mobile and/or rollable equipment containers with and without motor drive, fire engines, workshop vehicles with and without installations; vehicles for storing fire protection equipment; vehicles for

transporting fire protection equipment; vehicles with fire-fighting, emergency and rescue equipment; vehicles and means of transport; bodies for vehicles; vehicle partitions; hoods [folding roofs] for vehicles; interior panels for vehicles; lorries; crew cabins for vehicles, especially for fire engines; mobile operations centers for disaster control, environmental protection and rescue in the form of command vehicles; engines for use in relation to vehicles; emergency vehicles and rescue vehicles; rescue drones; hose carts; special vehicles for disaster control, environmental protection, rescue; accessories, adapted housings and components, individual parts and spare parts for the aforesaid goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue; mobile firefighting command centers in the form of command vehicles.

Class 16:
Printed matter, in particular brochures, books, manuals, illustrated magazines, journals, catalogues, magazines, manuals, periodicals, newspapers; calendars; instructional and teaching materials, except apparatus; stationery; postcards; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 17:
Absorbent oil booms; articles and materials for waterproofing and moisture protection; stretchable fire protection cushions to prevent the spread of fires; gaskets, sealants and fillers; sealing material; fire-resistant and fire-preventive articles and materials; flexible pipes, tubes, hoses and fittings therefor [including valves] and fittings for rigid pipes, all not of metal; insulating, insulating and barrier materials; couplings, not of metal, for fire hoses; plastics as semi-finished products; mobile oil booms, as far as included in this class; barrier curtains in the form of floating protective barriers or oil booms to contain pollutants; accessories, adapted housings and components, individual parts and spare parts for the aforesaid goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue; hose bridges [not made of metal] for use in fire and rescue services.

Class 19:
Building materials and elements, not of metal, in particular profiles and building materials [not of metal] for fireproof sealing; refractory construction materials, not of metal; railings [non-metallic building materials]; scaffolding, not of metal; staircases, not of metal; non-mechanically or hydraulically adjustable work platforms, non-metal platforms; non-metallic transportable buildings and structures; accessories, adapted housings and components, individual parts and spare parts for the aforementioned goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue; escape stairs, not made of metal.

Class 20:
Construction and painting ladders not made of metal; fastening materials, fittings and holders for pipes, not made of metal; containers and closures and holders therefor, not of metal; fire-resistant lockable containers; fire-resistant cabinets; fireproof cabinets; ladders, not made of metal; furniture; non-mechanical hose reels, not made of metal, for use in fire and rescue services; transport containers with and without lids, containers, boxes and crates not made of metal; accessories, adapted housings and components, individual parts and spare parts for the aforesaid goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue; metal goods as parts of industrial or commercial storage racks; non-metal containers for the storage and transport of tools and equipment; escape stairs [mobile] not made of metal; pressure tanks, not of metal, for fire-fighting foam; non-metallic containers for use in firefighting.

Class 25:
Clothing, especially work clothing and uniforms; service and operational clothing [excluding fire protection clothing] for the fire service; headwear; footwear; weather and winter protective clothing; accessories, adapted housings and components, individual parts and spare parts for the aforesaid goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 35:
Wholesale and retail services connected with the sale of rescue vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, and parts, components and accessories therefor, compositions for fire extinguishing and prevention, materials for building and construction, transportable buildings, storage containers, small items of hardware, machines, machine tools, power-operated tools and implements, hand-operated hand tools and implements, pipes, tubes, hoses and fittings therefor, fire alarms, fire warning equipment, fire protection and safety equipment. fire measuring equipment, fire detecting equipment, fire monitoring equipment, fire controlling equipment. medical clothing, medical furniture, medical equipment, apparatus for lighting, apparatus for ventilating. apparatus for water supply, vehicles, parts for vehicles, fire resistant articles and materials, fire preventive articles and materials, printed matter, stationery, and clothing, all for use in firefighting and rescue services and in climbing technology, namely for rescue vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and parts, components and accessories therefor; online and mail order retail services, including e-commerce services, namely the presentation of goods and services, order acceptance,

delivery order service and invoice processing for rescue vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, and parts, components and accessories therefor, compositions for fire extinguishing and prevention, materials for building and construction, transportable buildings, storage containers, small items of hardware, machines, machine tools, power-operated tools and implements, hand-operated hand tools and implements, pipes, tubes, hoses and fittings therefor, fire alarms, fire warning equipment, fire protection and safety equipment, fire measuring equipment, fire detecting equipment, fire monitoring equipment, fire controlling equipment, medical clothing, medical furniture. medical equipment, apparatus for lighting, apparatus for ventilating. apparatus for water supply, vehicles, parts for vehicles, fire resistant articles and materials, fire preventive articles and materials, printed matter, stationery, and clothing, all for use in firefighting and rescue services as well as in access technology, in particular for rescue vehicles, firefighting vehicles, fire engines, crawler vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and their parts, components and accessories; advertising in all media, including radio, television, cinema, print, videotext, online and teletext advertising, in particular for fire service equipment and fire service operations and rescue operations; all the aforementioned services, in particular in or for the field of firefighting, disaster control, environmental protection, rescue of persons, animals or property as well as operational management and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 37:
Advice on the installation of fire protection devices and fire protection equipment; advice on the installation of fire doors and fire gates; installation, maintenance and repair of fire protection equipment and fire protection devices, in particular fire extinguishers, smoke detectors, sprinkler systems, water sprinkler devices, hydrants for water supply, fire detectors and fire alarm systems; installation services relating to: trucks, delivery vans, tracked vehicles, land-based rescue vehicles, firefighting vehicles, fire engines, fire extinguishing equipment, driver's cabs and crew cabs for vehicles, in particular for fire engines, parts and accessories relating to all the aforesaid goods; repair services relating to the following goods: trucks, delivery vans, tracked vehicles, land rescue vehicles, firefighting vehicles, fire engines, fire extinguishing equipment, driver's cabs and crew cabs for vehicles, in particular for fire engines, parts and accessories relating to all the aforementioned goods; installation of symbol signs; planning and execution of assembly work on site; planning and execution of on-site assembly work for rescue vehicles, firefighting vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and parts, components and accessories therefor; maintenance in relation to the following goods: trucks, vans, tracked vehicles, land rescue vehicles, firefighting vehicles, fire engines, fire extinguishing equipment, driver's cabs and crew cabs for vehicles, in particular for fire engines, parts and accessories in relation to all the aforementioned goods; maintenance and repair of fire doors; maintenance and repair of fire doors; maintenance, repair, and servicing of goods, equipment, machines, and vehicles for use in firefighting and rescue services, as well as in climbing technology; maintenance, repair and servicing of rescue vehicles, firefighting vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and parts, components and accessories therefor; fire extinguisher recharging services; all the aforementioned services, in particular in or for the field of firefighting, disaster control, environmental protection, rescue of persons, animals or property as well as operational management and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 40:
Contract manufacturing of driver cabs and crew cabs for vehicles, especially for fire engines; contract manufacturing of constructions from profile and construction elements, in particular contract manufacturing of container and vehicle fittings and extensions; customer-specific manufacturing and production services for constructions for use in the field of fire and rescue services as well as climbing technology; air and water treatment and purification; all the aforementioned services, in particular in or for the field of firefighting, disaster control, environmental protection, rescue of persons, animals or property as well as operational management and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 41:
Training services; training of fire protection assistants; providing online education and training; providing online videos and other multimedia content [not downloadable]; education, entertainment and sports activities; teaching; education and training in the following areas: firefighting and rescue operations; further education and training, training, education, organization of courses, seminars, workshops, teaching events, training seminars, in particular regarding the use of rescue vehicles, firefighting vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and parts, components and accessories therefor; online publication of documents relating to the following goods: books, journals, periodicals, manuals; training in the use of fire protection equipment and devices, in particular fire extinguishers, smoke detectors, sprinkler systems, water sprinkler devices, hydrants for water supply, fire detectors and fire alarm systems; training on how to behave in the event of a fire; entertainment services; publication of books, publication of professional journals, publication of magazines, publication of manuals; all the aforementioned services, in particular in or for the field of firefighting, disaster control, environmental protection, rescue of persons, animals or property as well as operational management and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 42:
Design and development of computer hardware and software; design and development of computer hardware and software related to the following areas: trucks, vans, tracked vehicles, ambulances, firefighting, emergency and rescue operations; services in the form of development, consulting and information on safety technologies relating to the following areas: trucks, delivery vans, tracked vehicles, ambulances, fire services, emergency and rescue operations; preparation of fire, escape and rescue plans [technical drawing]; testing, authentication and quality control of goods, equipment,

machinery and vehicles for use in fire and rescue services and access technology; testing, authentication and quality control of rescue vehicles, firefighting vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and parts, components and accessories therefor; testing of electrical equipment, testing of fire protection equipment and fire protection devices, in particular fire extinguishers, smoke detectors, sprinkler systems, water sprinkler devices, hydrants for water supply, fire detectors and fire alarm systems; technical advice and planning regarding fire protection; technical advice in the field of accident prevention; technical inspection and functional testing of breathing apparatus, fire extinguishers, extinguishing systems, alarm systems and smoke and heat extraction systems; all the aforementioned services, in particular in or for the field of firefighting, disaster control, environmental protection, rescue of persons, animals or property as well as operational management and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 45:
Advice on occupational health and safety regulations; fire-fighting; life-saving services in the event of fires, natural disasters or other accidents; information regarding safety and fire protection advice; legal services; licensing of intellectual property and industrial property rights; security services for the protection of property and individuals; safety inspection services in the areas of fire and rescue services as well as in climbing technology; security testing services in respect of rescue vehicles, firefighting vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and parts, components and accessories therefor; issuance of test certificates in connection with the aforementioned safety testing services; rental of fire extinguishers; rental of fire alarms; rental of smoke detectors; providing information about the rental of fire detectors; providing information about fire extinguisher rental; providing information about the rental of smoke detectors; all the aforementioned services, in particular in or for the field of firefighting, disaster control, environmental protection, rescue of persons, animals or property as well as operational management and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 9:
Computer hardware and recorded software system for remotely monitoring, metering and managing of electrical systems and power grid energy usage; computer hardware and recorded and downloadable computer software for remote management, automation, control and optimization of energy usage by electricity powered centralized facility and building systems; energy resource management system comprised of recorded computer software and computer hardware for controlling and monitoring centralized facility and building infrastructure systems that use electricity, namely, security, access, heating, cooling, ventilation, lighting, elevators and escalators, safety alarms, water pumps, boilers, intercoms, telephone and computer systems, sprinklers; energy resource management system comprised of recorded computer software and computer hardware, power generating and energy storage modules, smart sensors, routers, batteries, inverters, meters, wireless communication devices, namely, access points, routers, gateways, 5G wireless radio equipment, electrical control devices and distributed energy resources (DERS), namely, solar panels, wind turbines, battery storage, electric vehicle chargers, microgrids and demand response devices for the purpose of monitoring, metering and controlling energy loads in electrical systems and power grids; electrical power distribution machines and boxes; hybrid renewable energy system that stores, distributes, manages, and integrates with the grid, electricity created from two or more renewable energy technologies; hybrid renewable energy system comprised of computer hardware and recorded computer software, energy storage modules, power converters and inverters, uninterruptable power supply (UPS), back-up power supply, switches, relays, transformers, circuit breakers and surge protectors, fuses, meters, micro-grids, power distribution units, voltage regulators and communication interfaces; off-grid power and deep cycle battery storage systems comprised of batteries, charge controllers for hybrid renewable energy installations.

Class 35:
Energy usage management services, namely, tracking and monitoring energy consumption for others for account auditing purposes; distributed energy resource management services, namely, administrative management for the operation and integration of distributed energy resources (DERs) with electrical systems and utility connected power grids to optimize balance and stability of energy supply; energy management services, namely, administrative processing of purchase orders that allows customers to purchase energy, namely, electricity and renewable energy, at a fixed price; energy management services, namely, administrative processing of purchase orders that allows customers to purchase energy from various energy providers; energy management information services, namely, providing business information on energy management; renewable energy administrative management services, namely, business management for managing and coordinating the operation of electrical grids by choosing what renewable power sources to use and how much power to produce at any given time to match electricity demands; energy dispatch management services, namely, business management assistance in scheduling, managing and optimizing energy generation, distribution and allocation based on demands, anticipated energy market pricing and capacity.

Class 39:
Utility services, namely electricity power grid load shifting; distribution and transmission of electricity; distribution of

energy; distribution of renewable energy; physical storage of electrical power.

Class 40:
Generation of power through operation of power generation equipment and facilities; generation of electricity; generation of renewable energy; generation of energy; generation of zero-emissions electricity; leasing of renewable energy generation equipment; leasing of energy generating equipment.

Class 42:
Platform as a service (PAAS) services featuring power creation and storage modules and integrated computer hardware and software platform for metering, managing and optimizing of electrical systems, and central and distributed and renewable energy resources; platform as a service (PAAS) services, namely, energy resource management system comprised of power generating and energy storage modules, solar panels, smart sensors, routers, batteries, inverters, meters, wireless communication devices, namely, access points, routers, gateways, 5G wireless radio equipment, electrical control devices and non-downloadable software for generating and storing power that can be used as a local microgrid to offset high power demands made of a distributed energy resources or for injection or integration as needed with centrally connected energy resources for optimizing stability and demand of energy sources; platform as a service (PAAS) services featuring combined hardware and software platform for energy distribution and energy asset distribution management; infrastructure as a service (IAAS) services, namely, providing distributed and renewable energy resources and a connected distributed energy resource management platform for others to help control, manage, optimize and stabilize an existing energy resource network; platform as a service (PAAS) services featuring technology for creating and storing energy for purposes of connecting to distributed and central energy resources; design and development of computer software and software applications for use in monitoring and controlling electricity generation, energy storage, electrical loads and other controllable energy assets, devices and equipment; platform as a service (PAAS) services featuring computer software platforms for the control, monitoring, and management of distributed energy resources and any other device that may act as a load or generator on the electric grid; platform as a service (PAAS) services featuring combined hardware and software platform for management of energy resources used to power centralized facility and building infrastructure; technical consultancy in the field of energy saving and energy efficiency relating to the development and implementation of energy trading arbitrage; design and development of software, hardware and technology solutions being platform as a service (PAAS), power generation and energy storage modules, smart sensors, routers, batteries, inverters, meters, wireless communication devices, electrical control devices, distributed energy resources (DERs), electric vehicle chargers, microgrids, demand response devices, power converters and inverters, uninterruptable power supply (UPS), back-up power supply, switches, relays, transformers, circuit breakers, surge protectors, fuses, power distribution units, voltage regulators and communication interfaces in active power grids, all for controlling and metering loads on electrical systems and active power grids; platform as a service (PAAS) services featuring technology that interfaces with utility grid and other customer energy equipment and infrastructure for buying, selling and managing energy commodities; providing temporary use of non-downloadable web-based decentralized applications (DApps) for trading energy commodities and energy commodity arbitrage.

Class 1:
Laboratory chemicals for scientific use; biochemicals for in vitro and in vivo scientific use; biochemical substances, namely, antibodies for stabilization of proteins, all the

aforementioned substances for scientific use and for use in laboratories; reagents for medical research; diagnostic preparations for scientific or research use; chemical reagents for use in genetic research; receptors and reagents for testing for G protein-coupled receptors (GPCRs); chemical substances for use in the production of drugs; biochemical and chemical substances and chemical reagents for measuring combined or divided natural and non-natural G protein-coupled receptors (GPCRs); proteins for use in science; chimeric proteins to measure, test and develop compounds and ligands binding to G protein-coupled receptors (GPCRs); single-domain antibodies for scientific and laboratory use, particularly for stabilizing G protein-coupled receptors (GPCRs) in pharmacologically relevant conformations; chemical and biochemical substances for use in screening technologies for identifying chemical starting points in drug discovery; biochemical reagents for use in structural biology and conformational analysis of membrane proteins; chemical substances for use in the identification and characterization of druggable conformers of G protein-coupled receptors (GPCRs); stabilized protein conformers for use in scientific research and drug discovery; reagents for use in high-throughput screening assays targeting GPCRs; biochemical substances for use in the development of universal G protein-coupled receptor stabilizers.

Class 5:
Pharmaceutical and veterinary preparations for use in oncology and in the field of immunology, namely, pharmaceutical and veterinary preparations for treating immune-related diseases; pharmaceutical and veterinary preparations for the treatment of inflammatory diseases and infections and for the treatment of gastro-intestinal, cardiovascular, pulmonary, neurological, metabolic, systemic, gynecological, urological, dermatological and musculo-skeletal conditions and for the treatment of orphan diseases; chemical and biochemical substances for pharmaceutical and veterinary use in the nature of stabilized protein arrays, namely, small molecules and antibodies for diagnostic purposes for use in oncology and in the field of immunology and for the treatment of inflammatory diseases and infections; chemical and biochemical substances for pharmaceutical and veterinary use in the nature of stabilized protein arrays, namely, small molecules and antibodies for treatment of gastrointestinal, cardiovascular, pulmonary, neurological, metabolic, systemic, gynecological, urological, dermatological and musculo-skeletal conditions and for the treatment of orphan diseases; veterinary products, namely, antibody reagents used for the detection of antigens in cells and tissue for medical purposes; veterinary products, namely, antibody reagents for therapeutic use in oncology and in the field of immunology and for the treatment of inflammatory diseases and infections and for the treatment of gastrointestinal, cardiovascular, pulmonary, neurological, metabolic, systemic, gynecological, urological, dermatological and musculo-skeletal conditions and for the treatment of orphan diseases; veterinary products, namely, small molecules in the form of low molecular weight organic compounds; veterinary products, namely, biological preparations for use in oncology and in the field of immunology and for the treatment of inflammatory diseases and infections and for the treatment of gastrointestinal, cardiovascular, pulmonary, neurological, metabolic, systemic, gynecological, urological, dermatological and musculo-skeletal conditions and for the treatment of orphan disease; diagnostic and therapeutic preparations based on single-domain antibodies for use in the treatment of orphan and rare diseases; pharmaceutical preparations for neurological disorders involving undruggable G protein-coupled receptor targets; biological preparations comprising stabilized G protein-coupled receptors for use in immunology and oncology; pharmaceutical preparations for use in identifying and validating novel agonists for G protein-coupled receptors; diagnostic agents for use in companion diagnostics involving G protein-coupled receptor-targeted therapies; pharmaceutical preparations for use in precision medicine targeting dynamic membrane proteins.

Class 42:
Medical and pharmacological research services; pharmaceutical drug development services; laboratory research services relating to pharmaceuticals; research and development of vaccines and medicines; scientific research for medical purposes and the development of pharmaceutical preparations in the area of drugs interacting with G protein-coupled receptors (GPCRs); design of computer databases; updating of database software; data warehousing; provision of information and data relating to medical research and development; rendering of computer graphics featuring digital image correction for research and development; computer graphic design services featuring data and image processing services for making three dimensional models; non-medical graphic design featuring digital imaging services; optical imaging for use in research and development of medicines; imaging via computers for use in research and development of medicines; graphic design services for generating and processing data and images for making three dimensional models for use in research and development of medicines; Scientific research services in the field of G protein-coupled receptor stabilization using single-domain antibodies; research and development services relating to antibody-based G protein-coupled receptor stabilization and screening technologies; structural biology services for identifying druggable conformers of G protein-coupled receptors; development of screening platforms for identifying chemical starting points in G protein-coupled receptor drug discovery; scientific research services in the field of orphan and rare diseases involving G protein-coupled receptor targets; design and development of proprietary antibody-based technologies for use in drug discovery; platform-as-a-service (PaaS) featuring software tools for G protein-coupled receptor conformational analysis and screening; scientific consultancy relating to the use of stabilized G protein-coupled receptors in pharmaceutical development.

Class 7:
Machines, machine tools and industrial robots for processing and shaping wood, metals, glass, plastics and minerals, 3D printers; construction machines and robotic mechanisms (machines) for use in construction: bulldozers, diggers (machines), excavators, road construction and road paving machines, drilling machines, rock drilling machines, road sweeping machines; electric door openers and closers; galvanizing and electroplating machines; automatic vending machines; electric kitchen machines for chopping, grinding, crushing, mixing and mincing foodstuff, washing machines, laundry washing machines, dishwashers, spin driers (not heated), electric cleaning machines for cleaning floors, carpets or floorings, vacuum cleaners and parts thereof; self-regulating fuel pumps, fuel dispensing pumps for service stations, self-regulating fuel pumps; machines for textile processing, sewing machines, industrial robots (machines) with the abovementioned functions; packaging machines, filling, plugging and sealing machines, labellers (machines), sorting machines, industrial robots (machines) with the abovementioned functions, electric packing machines for plugging and sealing of plastics; printing machines; electric and gas-operated welding apparatus, electric arc welding apparatus, electric soldering apparatus, electric arc cutting apparatus, electrodes for welding machines, industrial robots (machines) with the abovementioned functions; painting machines, automatic spray guns for paint, electric, hydraulic and pneumatic punching machines and guns, electric adhesive tape dispensers [machines], electric guns for compressed gas or liquid spraying machines, electric hand drills, electric hand saws, electric jigsaw machines, spiral machines, compressed air machines, compressors (machines), vehicle washing installations, industrial robots with the abovementioned functions; alternators, current generators, electric generators, current generators operated with solar energy; machines for mounting and detaching tires; bearings (parts of machines), roller or ball bearings; engines and motors, other than for land vehicles, parts and fittings therefor: hydraulic and pneumatic controls for engines and motors, brakes other than for vehicles, brake linings for engines, crankshafts, gearboxes, other than for land vehicles, cylinders for engines, pistons for engines, turbines, not for land vehicles, filters for engines and motors, oil, air and fuel filters for land vehicle engines, exhausts for land vehicle engines, exhaust manifolds for land vehicle engines, engine cylinders for land vehicles, engine cylinder heads for land vehicles, pistons for land vehicle engines, carburetors for land vehicles, fuel conversion apparatus for land vehicle engines, injectors for land vehicle engines, fuel economisers for land vehicle engines, pumps for land vehicle engines, valves for land vehicle engines, starter motors for land vehicles, dynamos for land vehicle engines, sparking plugs for land vehicle engines; machines and robotic mechanisms (machines) for use in agriculture and animal breeding, machines and robotic mechanisms (machines) for processing cereals, fruits, vegetables and food; machines for preparing and processing beverages; lifting, loading and transmission machines and robotic mechanisms (machines) for lifting, loading and transmission purposes: elevators, escalators and cranes.

Class 8:
Forks, spoons, knives and non-electric cutters, slicers, peelers for kitchen use, including those made of precious metals; side arms and blades (weapons); tools and apparatus included in this class for personal beauty care use: tools and apparatus included in this class for shaving, depilation, manicure and pedicure, electric hand implements for straightening and curling hair, scissors; hand-operated [non-electric] hand tools included in this class for the repair of machines, apparatus and vehicles and for use in construction, agriculture, horticulture and forestry, none of them being power tools; electric or non-electric irons; steam irons; handles for hand-operated hand tools.

Class 9:
Measurement apparatus and equipment including those for scientific, nautical, topographic, meteorologic, industrial and laboratory purposes, thermometers, not for medical purposes, barometers, ammeters, voltmeters, hygrometers, testing apparatus not for medical purposes, telescopes, periscopes, directional compasses, speed indicators, laboratory apparatus, microscopes, magnifying glasses, stills, binoculars, ovens and furnaces for laboratory experiments; apparatus for recording, transmission or reproduction of sound or images, cameras, photographic cameras, television apparatus, video

recorders, CD and DVD players and recorders, MP3 players, computers, desktop computers, tablet computers, wearable technological devices being smartwatches, smart wristbands and virtual reality headsets, microphones, loudspeakers, earphones, telecommunications apparatus, apparatus for the reproduction of sound or images, computer peripheral devices, cell phones, covers for cell phones, telephone apparatus, computer printers, scanners [data processing equipment], photocopiers; magnetic and optical data carriers and computer software and programmes recorded thereto, downloadable and recordable electronic publications, encoded magnetic and optical cards, movies, TV series and video music clips recorded on magnetic, optical and electronic media; antennas, satellite antennas, amplifiers for antennas, parts of the aforementioned goods; ticket dispensing terminals, electronic, automatic teller machines (ATM); electronic components used in the electronic parts of machines and apparatus: semi-conductors, electronic circuits, integrated circuits, chips [integrated circuits], diodes, transistors [electronic], magnetic heads for electronic apparatus, electronic locks, photocells, remote control apparatus for opening and closing doors, optical sensors; counters and quantity indicators for measuring the quantity of consumption, automatic time switches; clothing for protection against accidents, irradiation and fire, safety vests and life-saving apparatus and equipment; eyeglasses, sunglasses, optical lenses and cases, containers, parts and components thereof; apparatus and instruments for conducting, transforming, accumulating or controlling electricity, electric plugs, junction boxes [electricity], electric switches, circuit breakers, fuses, lighting ballasts, battery starter cables, electrical circuit boards, electric resistances, electric sockets, transformers [electricity], electrical adapters, battery chargers, electric door bells, electric and electronic cables, batteries, electric accumulators, solar panels for production of electricity; alarms and anti-theft alarms, other than for vehicles, electric bells; signalling apparatus and instruments, luminous or mechanical signs for traffic use; fire extinguishing apparatus, fire engines, fire hose and fire hose nozzles; radar apparatus, sonars, night vision apparatus and instruments; decorative magnets; metronomes.

Class 10:
Babies' bottles; babies' pacifiers; teats; gum massagers for babies; bracelets and rings for medical purposes, anti-rheumatism bracelets; anti-rheumatism rings; condoms;surgical gowns and surgical sterile sheets; adult sexual aids; surgical, medical, dental and veterinary apparatus and instruments; furniture especially made for medical purposes; artificial limbs and prostheses; medical orthopaedic articles: corsets for medical purposes, orthopaedic shoes, elastic bandages and supportive bandages.

Class 11:
Lighting installations; lights for vehicles and interior-exterior spaces; heating installations using solid, liquid or gas fuels or electricity: central heating boilers, boilers for heating installations, radiators [heating], heat exchangers, not parts of machines, stoves, kitchen stoves, solar thermal collectors [heating]; steam, gas and fog generators: steam boilers, other than parts of machines, acetylene generators, nitrogen generators and oxygen generators for industrial purposes; installations for air-conditioning and ventilating; cooling installations and freezers; sanitary installations: taps [faucets], shower installations, toilets [water-closets], shower and bathing cubicles, bath tubs, toilet seats, sinks, wash-hand basins [parts of sanitary installations], washers for water taps; water softening apparatus; water purification apparatus; water purification installations; waste water purification installations; electric bed warmers and electric blankets, not for medical use; electric pillow warmers; electric or non-electric footwarmers; hot water bottles, electrically heated socks; filters for aquariums and aquarium filtration apparatus; industrial type installations for cooking, drying and cooling purposes; pasteurizers and sterilizers.

Class 18:
Goods made of leather, imitations of leather or other materials, designed for carrying items, included in this class; bags, wallets, boxes and trunks made of leather or stout leather; keycases, trunks [luggage], suitcases; umbrellas; parasols; sun umbrellas; walking sticks; whips; harness; saddlery; stirrups; straps of leather (saddlery); unworked or semi-worked leather and animal skins, imitations of leather, stout leather, leather used for linings.

Class 21:
Hand-operated non-electric cleaning instruments and appliances: brushes, except paintbrushes, stainless steel wire balls for cleaning, sponges for cleaning, steel wool for cleaning, cloths of textile for cleaning, gloves for dishwashing, non-electric polishing machines for household purposes, brooms for carpets, mops; toothbrushes, electric toothbrushes, dental floss, shaving brushes, hair brushes, combs; non-electric household or kitchen utensils, included in this class, [other than forks, knives, spoons], services [dishes], pots and pans, bottle openers, flower pots, drinking straws, non-electric cooking utensils; ironing boards and shaped covers therefor, drying racks for washing, clothes drying hangers; cages for household pets, indoor aquariums, vivariums and indoor terrariums for animals and plant cultivation; ornaments and decorative goods of glass, porcelain, earthenware or clay namely statues, figurines, vases and trophies; mouse traps, insect traps, electric devices for attracting and killing flies and insects, fly catchers, fly swatters; perfume burners, perfume sprayers, perfume vaporizers, electric or non-electric make-up removing appliances, powder puffs, toilet cases; nozzles for sprinkler hose, nozzles for watering cans, watering devices, garden watering cans.

Class 28:
Games and toys; arcade video game machines; game apparatus and machines for use with an external display screen and monitor, including those coin-operated; toys for animals; toys for outdoor playgrounds, parks and game parks; gymnastic and sporting articles not included in other classes; fishing tackle, artificial fishing bait, decoys for hunting and fishing; artificial Christmas trees, ornaments for Christmas trees, artificial snow for Christmas trees, rattles (playthings), novelties for parties, novelty toys for playing jokes and for parties, paper party hats.

Class 35:
The bringing together, for the benefit of others, of a variety of goods, namely, ores of non-precious metal, common metals and their alloys and semi-finished products made of these materials, goods and materials of common metal used for storage, wrapping, packaging, sheltering and building purposes, containers of metal (storage, transport), fences and transportable buildings made of metal, ladders of metal, goods of common metal for filtering and sifting purposes, included in this class, doors, windows, shutters, jalousies

and their cases and fittings of metal, non-electric cables and wires of metal, ironmongery, small hardware of metal, metal railway materials, bollards of metal, floating docks of metal, mooring buoys of metal, anchors, metal moulds for casting, other than machine parts, works of art made of common metals or their alloys, metal poles, metal pallets and metal ropes for lifting, loading and transportation purposes, metal hangers, ties, straps, tapes and bands used for load-lifting and load-carrying, wheel chocks made primarily of metal, forks, spoons, knives and non-electric cutters, slicers, peelers for kitchen use, including those made of precious metals, side arms and blades (weapons), tools and apparatus included in this class for shaving, depilation, manicure, pedicure and personal beauty care use, electrical hair straighteners and electric hand implements for hair curling, scissors, hand-operated hand tools included in this class for the repair of machines, apparatus and vehicles and for use in construction, agriculture, horticulture and forestry, none of them being power tools, electric or non-electric irons, steam irons, apparatus for recording, transmission or reproduction of sound or images, data processing apparatus, telecommunication apparatus, sound or image reproducing apparatus, computer peripheral devices, magnetic and optic data carriers and computer software and programmes recorded thereto, downloadable and recordable electronic publications, encoded magnetic and optic cards, antennas, satellite antennas, amplifiers for antennas, parts of the aforementioned goods, ticket dispensers, automatic teller machines (ATM), electronic components used in the electronic parts of machines and apparatus, counters and quantity indicators for measuring the quantity of consumption, automatic time switches, clothing for protection against accidents, irradiation and fire, safety vests and life-saving apparatus and equipment, eyeglasses, sunglasses, optical lenses and cases, containers, parts and components thereof, apparatus and instruments for conducting, transforming, accumulating or controlling electricity, electric cables and electrical power supplies, batteries, electric accumulators, alarms and anti-theft alarms, other than for vehicles, electric bells, signalling apparatus and instruments, luminous or mechanical signs for traffic use, fire extinguishing apparatus, fire engines, fire hose and fire hose nozzles, radar apparatus, sonars, night vision apparatus and instruments, decorative magnets, metronomes, lighting installations, lights for vehicles and interior-exterior spaces, installations for air-conditioning and ventilating, cooling installations and freezers, electric and gas-powered devices, installations and apparatus for cooking, drying and boiling, electric laundry driers, hair driers, hand drying apparatus, sanitary installations, taps (faucets), shower installations, toilets (water-closets), shower and bathing cubicles, bath tubs, sinks, wash-hand basins (parts of sanitary installations), water softening apparatus, water purification apparatus, water purification installations, waste Construction and painting ladders not made of metal; fastening materials, fittings and holders for pipes, not made of metal; containers and closures and holders therefor, not of metal; fire-resistant lockable containers; fire-resistant cabinets; fireproof cabinets; ladders, not made of metal; furniture; non-mechanical hose reels, not made of metal, for use in fire and rescue services; transport containers with and without lids, containers, boxes and crates not made of metal; accessories, adapted housings and components, individual parts and spare parts for the aforesaid goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue; metal goods as parts of industrial or commercial storage racks; non-metal containers for the storage and transport of tools and equipment; escape stairs [mobile] not made of metal; pressure tanks, not of metal, for fire-fighting foam; non-metallic containers for use in firefighting.

Class 25:
Clothing, especially work clothing and uniforms; service and operational clothing [excluding fire protection clothing] for the fire service; headwear; footwear; weather and winter protective clothing; accessories, adapted housings and components, individual parts and spare parts for the aforesaid goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 35:
Wholesale and retail services connected with the sale of rescue vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, and parts, components and accessories therefor, compositions for fire extinguishing and prevention, materials for building and construction, transportable buildings, storage containers, small items of hardware, machines, machine tools, power-operated tools and implements, hand-operated hand tools and implements, pipes, tubes, hoses and fittings therefor, fire alarms, fire warning equipment, fire protection and safety equipment, fire measuring equipment, fire detecting equipment, fire monitoring equipment, fire controlling equipment, medical clothing, medical furniture, medical equipment, apparatus for lighting, apparatus for ventilating, apparatus for water supply, vehicles, parts for vehicles, fire resistant articles and materials, fire preventive articles and materials, printed matter, stationery, and clothing, all for use in firefighting and rescue services and in climbing technology, namely for rescue vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and parts, components and accessories therefor; online and mail order retail services, including e- commerce services, namely the presentation of goods and services, order acceptance, delivery order service and invoice processing for rescue vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, and parts, components and accessories therefor, compositions for fire extinguishing and prevention, materials for building and construction, transportable buildings, storage containers, small items of hardware, machines, machine tools, power-operated tools and implements, hand-operated hand tools and implements, pipes, tubes, hoses and fittings therefor, fire alarms, fire warning equipment, fire protection and safety equipment, fire measuring equipment, fire detecting equipment, fire monitoring equipment, fire controlling equipment, medical clothing, medical furniture, medical equipment, apparatus for lighting, apparatus for ventilating, apparatus for water supply, vehicles, parts for vehicles, fire resistant articles and materials, fire preventive articles and materials, printed matter, stationery, and clothing, all for use in firefighting and rescue services as well as in access technology, in particular for rescue vehicles, firefighting vehicles, fire engines, crawler vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and their parts, components and accessories; advertising in all media, including radio, television, cinema, print, videotext, online and teletext advertising, in particular for fire service equipment and fire service operations and rescue operations; all the aforementioned services, in particular in or for the field of firefighting, disaster control, environmental protection, rescue of persons, animals or property as well as operational management and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 37:
Advice on the installation of fire protection devices and fire protection equipment; advice on the installation of fire doors and fire gates; installation, maintenance and repair of fire protection equipment and fire protection devices, in particular fire extinguishers, smoke detectors, sprinkler systems, water sprinkler devices, hydrants for water supply, fire detectors and fire alarm systems; installation services relating to: trucks, delivery vans, tracked vehicles, land-based rescue vehicles, firefighting vehicles, fire engines, fire extinguishing equipment, driver's cabs and crew cabs for vehicles, in particular for fire engines, parts and accessories relating to all the aforesaid goods; repair services relating to the following goods: trucks, delivery vans, tracked vehicles, land rescue vehicles, firefighting vehicles, fire engines, fire extinguishing equipment, driver's cabs and crew cabs for vehicles, in particular for fire engines, parts and accessories relating to all the aforementioned goods; installation of symbol signs; planning and execution of assembly work on site; planning and execution of on-site assembly work for rescue vehicles, firefighting vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and parts, components and accessories therefor; maintenance in relation to the following goods: trucks, vans, tracked vehicles, land rescue vehicles, firefighting vehicles, fire engines, fire extinguishing equipment, driver's cabs and crew cabs for vehicles, in

particular for fire engines, parts and accessories in relation to all the aforementioned goods; maintenance and repair of fire doors; maintenance and repair of fire doors; maintenance, repair, and servicing of goods, equipment, machines, and vehicles for use in firefighting and rescue services, as well as in climbing technology; maintenance, repair and servicing of rescue vehicles, firefighting vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and parts, components and accessories therefor; fire extinguisher recharging services; all the aforementioned services, in particular in or for the field of firefighting, disaster control, environmental protection, rescue of persons, animals or property as well as operational management and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 40:
Contract manufacturing of driver cabs and crew cabs for vehicles, especially for fire engines; contract manufacturing of constructions from profile and construction elements, in particular contract manufacturing of container and vehicle fittings and extensions; customer-specific manufacturing and production services for constructions for use in the field of fire and rescue services as well as climbing technology; air and water treatment and purification; all the aforementioned services, in particular in or for the field of firefighting, disaster control, environmental protection, rescue of persons, animals or property as well as operational management and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 41:
Training services; training of fire protection assistants; providing online education and training; providing online videos and other multimedia content [not downloadable]; education, entertainment and sports activities; teaching; education and training in the following areas: firefighting and rescue operations; further education and training, training, education, organization of courses, seminars, workshops, teaching events, training seminars, in particular regarding the use of rescue vehicles, firefighting vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and parts, components and accessories therefor; online publication of documents relating to the following goods: books, journals, periodicals, manuals; training in the use of fire protection equipment and devices, in particular fire extinguishers, smoke detectors, sprinkler systems, water sprinkler devices, hydrants for water supply, fire detectors and fire alarm systems; training on how to behave in the event of a fire; entertainment services; publication of books, publication of professional journals, publication of magazines, publication of manuals; all the aforementioned services, in particular in or for the field of firefighting, disaster control, environmental protection, rescue of persons, animals or property as well as operational management and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 42:
Design and development of computer hardware and software; design and development of computer hardware and software related to the following areas: trucks, vans, tracked vehicles, ambulances, firefighting, emergency and rescue operations; services in the form of development, consulting and information on safety technologies relating to the following areas: trucks, delivery vans, tracked vehicles, ambulances, fire services, emergency and rescue operations; preparation of fire, escape and rescue plans [technical drawing]; testing, authentication and quality control of goods, equipment, machinery and vehicles for use in fire and rescue services and access technology; testing, authentication and quality control of rescue vehicles, firefighting vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and parts, components and accessories therefor; testing of electrical equipment, testing of fire protection equipment and fire protection devices, in particular fire extinguishers, smoke detectors, sprinkler systems, water sprinkler devices, hydrants for water supply, fire detectors and fire alarm systems; technical advice and planning regarding fire protection; technical advice in the field of accident prevention; technical inspection and functional testing of breathing apparatus, fire extinguishers, extinguishing systems, alarm systems and smoke and heat extraction systems; all the aforementioned services, in particular in or for the field of firefighting, disaster control, environmental protection, rescue of persons, animals or property as well as operational management and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 45:
Advice on occupational health and safety regulations; fire-fighting; life-saving services in the event of fires, natural disasters or other accidents; information regarding safety and fire protection advice; legal services; licensing of intellectual property and industrial property rights; security services for the protection of property and individuals; safety inspection services in the areas of fire and rescue services as well as in climbing technology; security testing services in respect of rescue vehicles, firefighting vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and parts, components and accessories therefor; issuance of test certificates in connection with the aforementioned safety testing services; rental of fire extinguishers; rental of fire alarms; rental of smoke detectors; providing information about the rental of fire detectors; providing information about fire extinguisher rental; providing information about the rental of smoke detectors; all the aforementioned services, in particular in or for the field of firefighting, disaster control, environmental protection, rescue of persons, animals or property as well as operational management and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 1:
Inorganic smoke retardants [fire retardants]; fire prevention compositions; chemicals for fire extinguishing purposes; fire extinguishing chemicals; chemical products containing additives with fire-extinguishing properties; chemical products for fire extinguishing agents; chemicals for use in forestry; horticultural chemicals; industrial chemicals; chemical products for agricultural purposes; chemicals for use in science; chemical products for decontaminating humans, animals, equipment, soil, water and air; chemicals for use in the decontamination of polluted sites; chemical preparations for fireproofing; chemical preparations for keeping food fresh and preserving it; fertilizing preparations; fire retardants; fire extinguishing compositions; fire extinguishing powder; fire extinguishing foam; fireproofing preparations; foam extinguishing agent; thickener or wetting agent for fire-fighting water; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 6:
Barrier railings; metal building materials and components; metal buildings and transportable structures; containers of metal for storage or transport; metal containers; metal rolling containers; containers and transport and packaging items made of metal; refractory construction materials of metal; metal ladders and scaffolding; pipes, tubes and hoses and accessories therefor, including valves, of metal; couplings of metal for fire hoses; metal transport containers with and without lids, containers, boxes and crates made of metal; goods essentially of metal, namely climbing devices in the form of non-mechanical goods made of metal with rungs for reaching higher positions, in particular ladders, stairs, rescue slides, scaffolding, non-mechanically or hydraulically adjustable work platforms, platforms, show stages, catwalks, podiums, ramps, access bridges; spare parts and accessories for ladders and/or scaffolding, consisting essentially of metal [as far as included in this class], in particular hanging platforms, hanging steps, hanging storage tables, carrying hooks for buckets, wall spacers, exit stiles, fall protection railings, gutter holders, ridge brackets, swivel feet, stile extensions, foot widenings, ladder supports, ground spikes, attachable rollers, chain locks, attachable hooks, hinges, drop hooks, spreader locks, struts, support brackets, suspension brackets, suspension frames, including lockable ones, carrying handles, step rests, replacement rungs, replacement stiles; articles of metal being parts of industrial or commercial storage racks, namely partition walls; shelves and partitions consisting of profile and construction elements; metal profile and construction elements, particularly for the construction of container and vehicle interiors and extensions; manhole covers; metal hardware; non-mechanical metal hose reels for use in fire and rescue services; hose carrying baskets and hose bridges for use in fire and rescue services; accessories, adapted housings and components, individual parts and spare parts for the aforementioned goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue; metal containers for storing and transporting tools and equipment; metal escape stairs; metal pressure tanks for fire extinguishing foam.

Class 7:
Suction machines; bulldozers; earth moving machines; blowing machines; elevating apparatus; machine coupling and transmission components; engines [excluding engines for land vehicles]; pumps; compressors; mechanical climbing devices as mechanical devices for reaching higher positions by means of lifting, mechanically or hydraulically adjustable cherry pickers, ladder lifts, scaffold lifts, facade lifts, mechanically or hydraulically adjustable work platforms, mechanically or hydraulically height-adjustable scissor scaffolds, mechanically or hydraulically extendable ladders, mechanically driven hand-held machines and devices; emergency, firefighting and rescue machines; emergency power generators; proportioners and mixing devices for extinguishing agent supply and foam generation; hose reels [mechanical]; accessories, adapted housings and components, individual parts and spare parts for the aforementioned goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 8:
Axes for firefighters; equipment for handling a fire; hand-operated equipment and tools for material processing as well as for construction, repair and maintenance work; hand tools for construction, repair and maintenance work; hand tools and manually operated devices and equipment; tool boxes and crates equipped with hand-operated tools and equipment; emergency and rescue hand tools; accessories, adapted housings and components, individual parts and spare parts for the aforesaid goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 9:
Alarm and warning equipment; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; asbestos screens for firefighters; respiratory protection equipment; breathing masks; automatic fire extinguishers; automatic sprinkler system for extinguishing fires; fire protection equipment; flame detectors; fire alarm systems; fire detectors; fire sensors; computer hardware; computer software; command vehicles for firefighting; electronic alarm devices and electronic warning devices; electronic apparatus and instruments for use in relation to the following goods: trucks, vans, buses, minibuses, coaches, military vehicles, tracked vehicles, recovery vehicles, fire-fighting vehicles; electronic fire extinguishers; electronic robots for firefighting and rescue operations; electronic robots for handling explosives or dangerous substances; electronic protective and safety equipment; electronic protection, safety, security and signalling devices; electronic security surveillance robots; mobile fire pumps on trailers; firefighting vehicles; remote control apparatus; fireproof blankets; fire extinguishing system; fire extinguishing apparatus; fire boats; fire extinguishers; fire engines; fire extinguishing systems; fire alarms; fire escape ladders [safety equipment]; fire and disaster protection clothing, fire and disaster protection helmets, fire and disaster protection gloves, breathing apparatus, except for artificial respiration; fire service and rescue equipment containers, in particular motorised and/or manually movable roll containers and roll-off containers equipped with emergency and rescue equipment, emergency boxes and crates equipped with emergency and rescue equipment; fire service turntable ladders; fire engines; fire hose; filters for breathing masks; equipment for the preparation and dispensing or distribution of fire extinguishing agents, including fire hoses and nozzles; equipment for operational control, namely communication equipment [included in this class]; apparatus for recording, transmission or reproduction of sound or images; face-shields for protection against accidents, irradiation and fire; hand-held fire-fighting equipment, namely fire beaters, fire extinguisher cloths; downloadable and recorded data; electronic publications, downloadable; combined devices, equipment, systems and applications as safety, security, protection and signalling devices or equipment for firefighting; ladders for firefighting and rescue operations; fire blankets; magnetic data carriers and recording discs; mechanisms for coin-operated apparatus; measuring, detection, monitoring and control devices; measuring and analysis equipment for fire protection, disaster control and environmental protection; smoke alarms; steel pipes for fire-fighting purposes; data processing apparatus; computer apparatus; life-saving devices and equipment, included in this class; security, safety, protection and signalling devices and equipment; special vehicles for firefighting; sprinkler systems for fire protection; fire hose nozzles; portable escape ladders; clothing for protection against accidents, irradiation and fire; shoes for protection against accidents, irradiation and fire; water sprinklers for fire protection; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking [supervision], life-saving and teaching apparatus and instruments; accessories for fire extinguishers, namely holders for fire extinguishers, stands for fire extinguishers, covers for fire extinguishers; accessories, adapted housings and components, individual parts and spare parts for the aforementioned goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 10:
Clothing especially for operating rooms; patient examination gowns; protective masks for medical purposes; compression garments; gloves for medical purposes; neural helmets for medical purposes; orthopaedic footwear; splints and supports for medical purposes; stretchers, wheeled; hearing protectors; ambulance stretchers; medical furniture and bedding, patient transfer equipment; accessories, adapted housings and components, individual parts and spare parts for the aforesaid goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 11:
Flues and installations for the removal of exhaust gases; alarm valves, hose angle valves, check valves, gate valves, butterfly valves, all of the above goods in particular for use as part of a fire hydrant system; apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; lighting and light reflectors for vehicles; lighting equipment for use in relation to the following goods: trucks, vans, buses, minibuses, coaches, military vehicles, tracked vehicles, ambulances, fire engines, firefighting vehicles; pressure water tanks; fire hydrants; sterilization, disinfection and decontamination systems and equipment; accessories, adapted housings and components, individual parts and spare parts for the aforesaid goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 12:
Vehicle covers [shaped]; adapted shelves for vehicles; customized blinds for vehicles; trailers for the transport of industrial hoses and fire hoses; linings for vehicles; components for the exterior body of vehicles; wreckers for transport; vehicle chassis; drones; chassis; cabins; vehicle trailer for fire extinguishers; vehicle trailer for the storage and transport of fire extinguishing foam; vehicle bodies; interior trim parts of automobiles; vehicle parts for the interior fittings of motor vehicles for storage space equipment, including roll-off containers and parts of vehicles; vehicles for civil protection, environmental protection, rescue, including command vehicles for civil protection, environmental protection and rescue; measuring vehicles; laboratory vehicles; vehicles, in particular vehicles with mobile ladders and scaffolding with and without motor drive, with mobile and/or rollable equipment containers with and without motor drive, fire engines, workshop vehicles with and without installations; vehicles for storing fire protection equipment; vehicles for transporting fire protection equipment; vehicles with fire-fighting, emergency and rescue equipment; vehicles and means of transport; bodies for vehicles; vehicle partitions; hoods [folding roofs] for vehicles; interior panels for vehicles;

lorries; crew cabins for vehicles, especially for fire engines; mobile operations centers for disaster control, environmental protection and rescue in the form of command vehicles; engines for use in relation to vehicles; emergency vehicles and rescue vehicles; rescue drones; hose carts; special vehicles for disaster control, environmental protection, rescue; accessories, adapted housings and components, individual parts and spare parts for the aforesaid goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue; mobile firefighting command centers in the form of command vehicles.

Class 16:
Printed matter, in particular brochures, books, manuals, illustrated magazines, journals, catalogues, magazines, manuals, periodicals, newspapers; calendars; instructional and teaching materials, except apparatus; stationery; postcards; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 17:
Absorbent oil booms; articles and materials for waterproofing and moisture protection; stretchable fire protection cushions to prevent the spread of fires; gaskets, sealants and fillers; sealing material; fire-resistant and fire-preventive articles and materials; flexible pipes, tubes, hoses and fittings therefor [including valves] and fittings for rigid pipes, all not of metal; insulating, insulating and barrier materials; couplings, not of metal, for fire hoses; plastics as semi-finished products; mobile oil booms, as far as included in this class; barrier curtains in the form of floating protective barriers or oil booms to contain pollutants; accessories, adapted housings and components, individual parts and spare parts for the aforesaid goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue; hose bridges [not made of metal] for use in fire and rescue services.

Class 19:
Building materials and elements, not of metal, in particular profiles and building materials [not of metal] for fireproof sealing; refractory construction materials, not of metal; railings [non-metallic building materials]; scaffolding, not of metal; staircases, not of metal; non-mechanically or hydraulically adjustable work platforms, non-metal platforms; non-metallic transportable buildings and structures; accessories, adapted housings and components, individual parts and spare parts for the aforementioned goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue; escape stairs, not made of metal.

Class 20:
Construction and painting ladders not made of metal; fastening materials, fittings and holders for pipes, not made of metal; containers and closures and holders therefor, not of metal; fire-resistant lockable containers; fire-resistant cabinets; fireproof cabinets; ladders, not made of metal; furniture; non-mechanical hose reels, not made of metal, for use in fire and rescue services; transport containers with and without lids, containers, boxes and crates not made of metal; accessories, adapted housings and components, individual parts and spare parts for the aforesaid goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue; metal goods as parts of industrial or commercial storage racks; non-metal containers for the storage and transport of tools and equipment; escape stairs [mobile] not made of metal; pressure tanks, not of metal, for fire-fighting foam; non-metallic containers for use in firefighting.

Class 25:
Clothing, especially work clothing and uniforms; service and operational clothing [excluding fire protection clothing] for the fire service; headwear; footwear; weather and winter protective clothing; accessories, adapted housings and components, individual parts and spare parts for the aforesaid goods, as far as included in this class; all the aforementioned goods, in particular for use in firefighting, disaster control, environmental protection, the rescue of persons, animals or property as well as for operational command and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 35:
Wholesale and retail services connected with the sale of rescue vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, and parts, components and accessories therefor, compositions for fire extinguishing and prevention, materials for building and construction, transportable buildings, storage containers, small items of hardware, machines, machine tools, power-operated tools and implements, hand-operated hand tools and implements, pipes, tubes, hoses and fittings therefor, fire alarms, fire warning equipment, fire protection and safety equipment, fire measuring equipment, fire detecting equipment, fire monitoring equipment, fire controlling equipment, medical clothing, medical furniture, medical equipment, apparatus for lighting, apparatus for ventilating, apparatus for water supply, vehicles, parts for vehicles, fire resistant articles and materials, fire preventive articles and materials, printed matter, stationery, and clothing, all for use in firefighting and rescue services and in climbing technology, namely for rescue vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and parts, components and accessories therefor; online and mail order retail services, including e- commerce services, namely the presentation of goods and services, order acceptance, delivery order service and invoice processing for rescue vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, and parts, components and accessories therefor,

compositions for fire extinguishing and prevention, materials for building and construction, transportable buildings, storage containers, small items of hardware, machines, machine tools, power-operated tools and implements, hand-operated hand tools and implements, pipes, tubes, hoses and fittings therefor, fire alarms, fire warning equipment, fire protection and safety equipment, fire measuring equipment, fire detecting equipment, fire monitoring equipment, fire controlling equipment, medical clothing, medical furniture, medical equipment, apparatus for lighting, apparatus for ventilating, apparatus for water supply, vehicles, parts for vehicles, fire resistant articles and materials, fire preventive articles and materials, printed matter, stationery, and clothing, all for use in firefighting and rescue services as well as in access technology, in particular for rescue vehicles, firefighting vehicles, fire engines, crawler vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and their parts, components and accessories; advertising in all media, including radio, television, cinema, print, videotext, online and teletext advertising, in particular for fire service equipment and fire service operations and rescue operations; all the aforementioned services, in particular in or for the field of firefighting, disaster control, environmental protection, rescue of persons, animals or property as well as operational management and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 37:
Advice on the installation of fire protection devices and fire protection equipment; advice on the installation of fire doors and fire gates; installation, maintenance and repair of fire protection equipment and fire protection devices, in particular fire extinguishers, smoke detectors, sprinkler systems, water sprinkler devices, hydrants for water supply, fire detectors and fire alarm systems; installation services relating to: trucks, delivery vans, tracked vehicles, land-based rescue vehicles, firefighting vehicles, fire engines, fire extinguishing equipment, driver's cabs and crew cabs for vehicles, in particular for fire engines, parts and accessories relating to all the aforesaid goods; repair services relating to the following goods: trucks, delivery vans, tracked vehicles, land rescue vehicles, firefighting vehicles, fire engines, fire extinguishing equipment, driver's cabs and crew cabs for vehicles, in particular for fire engines, parts and accessories relating to all the aforementioned goods; installation of symbol signs; planning and execution of assembly work on site; planning and execution of on-site assembly work for rescue vehicles, firefighting vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and parts, components and accessories therefor; maintenance in relation to the following goods: trucks, vans, tracked vehicles, land rescue vehicles, firefighting vehicles, fire engines, fire extinguishing equipment, driver's cabs and crew cabs for vehicles, in particular for fire engines, parts and accessories in relation to all the aforementioned goods; maintenance and repair of fire doors; maintenance and repair of fire doors; maintenance, repair, and servicing of goods, equipment, machines, and vehicles for use in firefighting and rescue services, as well as in climbing technology; maintenance, repair and servicing of rescue vehicles, firefighting vehicles, firefighting vehicles, fire engines, tracked vehicles, ambulances, tank fire engines, driver's cabs and crew cabs for vehicles, in particular for firefighting vehicles, and parts, components and accessories therefor; fire extinguisher recharging services; all the aforementioned services, in particular in or for the field of firefighting, disaster control, environmental protection, rescue of persons, animals or property as well as operational management and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 40:
Contract manufacturing of driver cabs and crew cabs for vehicles, especially for fire engines; contract manufacturing of constructions from profile and construction elements, in particular contract manufacturing of container and vehicle fittings and extensions; customer-specific manufacturing and production services for constructions for use in the field of fire and rescue services as well as climbing technology; air and water treatment and purification; all the aforementioned services, in particular in or for the field of firefighting, disaster control, environmental protection, rescue of persons, animals or property as well as operational management and communication in the context of firefighting, disasters, environmental protection and rescue.

Class 41:

computer software for laboratory apparatus; computer software for operating laboratory apparatus for scientific research and laboratories or for medical and medical diagnostic purposes for supplying liquids to and/or removing them from laboratory devices, in particular multi wave plates; computer software for medical use; downloadable computer software for operating laboratory robots; computer software for the measurement and determination of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content; software for the automated standard calibration and configuration of sensors in laboratories; software for product calibration and validation in the process environment of sensors in laboratories; software for the monitoring, validation and management of users; software for the monitoring, validation and management of sensors; software for the monitoring of sensor status; software for the monitoring, validation and management of users of laboratory apparatus; software for the generation of electronic signatures; software for the tracing of electronic log entries; software for the tracking of user actions; software for the checking of regulatory compliance and fulfilment; software for the creating of test reports with a comment function; software for the automated digital documentation of the configuration, calibration and verification of sensors and detectors; computer software for wireless and wired content transmission; computer software for the synchronization of data between a remote station or device and a fixed or remote station or device; computer software and computer firmware, namely operating system programs and data synchronization programs; database synchronisation software; databases; computer software for database management; computer software for encrypted database security and modification; dashboard software; USB [universal serial bus] operating software; software for tablet computers; mobile apps; application software; application software for mobile phones; application software for mobile devices; application software for wireless and wired apparatus; downloadable software applications for use with mobile and wired apparatus; computer software for wireless and wired network communications; reporting software; downloadable electronic reports; training software;

simulation software [training]; instruction manuals in electronic format; training guides in electronic format; wireless and wired transmitters; wireless and wired receivers; apparatus for recording, transmitting or reproduction of sounds, images or data; data carriers for recording images, sound and data; data communications equipment; data communications hardware; wireless local area network devices; wired and wireless communication devices; mobile and wired data communications apparatus; wireless and wired communications apparatus for the transmission of data; data communications receivers; data processing equipment; interfaces for sensors for measuring CO2 values, infrared rays and CO2 partial pressure in gases and liquids; interfaces for sensors for the measurement of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content; computers; tablet computers; handheld digital electronic devices for data processing, information processing, storing and displaying data, transmitting and receiving data, transmission of data between computers, and software related thereto; electronic apparatus for processing data, processing information, storing and displaying data, transmitting and receiving data, transmitting data between computers; computer peripheral devices; computer peripheral devices; wired and wireless computer peripherals; USB flash drives; USB cables; USB card readers; parts and accessories for all the aforesaid goods, included in this class.

Class 10:
Medical, dental, veterinary, medical electric and surgical apparatus and instruments; diagnostic, examination, and monitoring equipment; medical apparatus and equipment, namely laboratory apparatus for medical purposes, for medical diagnostic purposes; measuring devices for medical use; measuring instruments adapted for medical use; testing apparatus for medical purposes; medical analysis apparatus for use in laboratories; measuring devices for medical use for the measurement, determination and monitoring of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content; measuring instruments adapted for medical use for the measurement, determination and monitoring of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content; measuring devices for medical use for measuring and determining the content and concentration of CO2, infrared radiation, dissolved oxygen, ozone, organic carbon and salt; measuring instruments adapted for medical use for measuring and determining the content and concentration of CO2, infrared radiation, dissolved oxygen, ozone, organic carbon and salt; parts and accessories for all the aforesaid goods, included in this class.

Class 17:
Flexible ducting, pipes, tubes and connectors, goods not of metal; pipe and tube fittings, not of metal; parts and accessories for all the aforesaid goods, included in this class.

Class 9:
Measuring, detecting and monitoring instruments, indicators and controllers; apparatus, instruments and cables for electricity; information technology and audiovisual equipment; apparatus for scientific research and laboratories; analysis and diagnostic apparatus, not for medical purposes; scientific apparatus and instruments; scientific, optical, analytical, measuring, dosing, diagnostic and checking (supervision) apparatus and instruments; scientific, optical, analytical, measuring, dispensing, diagnostic and checking (supervision) apparatus and instruments for use in laboratories; measuring, detecting and monitoring instruments, devices and regulators, all for the measurement and determination of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content; measuring, detecting and monitoring instruments, devices and regulators, all for measuring and determining the content and concentration of CO2, infrared radiation, dissolved oxygen, ozone, organic carbon and salt; apparatus for scientific research and laboratories, in each case exclusively for the purpose of measuring, determining and monitoring of PH values; electrodes for the purpose of measuring, determining and monitoring of PH values; scientific apparatus and instruments for measuring, determining and monitoring CO2 values, infrared rays and CO2 partial pressure in gases and liquids; scientific apparatus and instruments for the measurement, determination and monitoring of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content; measuring apparatus and instruments for measuring, determining and monitoring CO2 values, infrared rays and CO2 partial pressure in gases and liquids; measuring equipment for the measurement, determination and monitoring of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content; inspecting apparatus and instruments for measuring, determining and monitoring CO2 values, infrared rays and CO2 partial pressure in gases and liquids; inspecting apparatus and instruments for the measurement, determination and monitoring of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content; analysis and diagnostic apparatus, not for medical purposes, for the measurement, determination and monitoring of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content; analysis and diagnostic apparatus, not for medical purposes, for measuring, determining and monitoring CO2 values, infrared rays and CO2 partial pressure in gases and liquids; electronic control apparatus, control units and control systems; fitted bushings, flanges, connectors, couplings and adapters being parts of laboratory apparatus and instruments; electric plugs; male connectors for electrical cables; interface cables [electric]; converters for electric plugs; electricity mains apparatus; electrical cabling; data synchronization cables; data transmission cables; cables for electrical signal transmission; connections for electric cables; threaded cable connectors of metal; interfaces for computers; computer network equipment; communication protocol converter; modbus modules; modbus converters; modbus communication protocol converters; profibus modules; profibus converters; profibus communication protocol converters; profinet modules; profinet converters; profinet communication protocol converters; laboratory apparatus and instruments for clinical chemistry, not for medical purposes; laboratory apparatus and instruments for sample preparation and processing in analytical laboratories; laboratory apparatus and instruments for process analytics, not for medical purposes; laboratory apparatus and instruments for biopharmaceutical process installations, not for medical purposes; laboratory apparatus and instruments for biopharmaceutical process applications, not for medical purposes; laboratory apparatus and instruments for cell screening, not for medical purposes; laboratory apparatus and instruments for media and buffer preparation, not for medical purposes; analysers for liquids; glassware for use in a laboratory; glassware for scientific use [specifically adapted]; hollow glass containers for laboratory use; hollow glass containers for measuring; sensors; sensors for laboratory use; sensors and detectors for the measurement, determination and monitoring of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content; laboratory apparatus and instruments, namely sensors for the measurement of dissolved CO2, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content, being simultaneously equipped with an integrated device for the enhancement and wireless and wired transmission of sensor signals, for the monitoring of sensor functions and for the control and adjustment of sensor calibration; sensors for the measurement of dissolved CO2, infrared radiation and CO2 partial pressure in gases and liquids, being simultaneously equipped with an integrated device for the enhancement and wireless and wired transmission of sensor signals, for the monitoring of sensor functions and for the control and adjustment of sensor calibration; sensors for the measurement, determination and monitoring of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content, consisting of a sensor head having integrated electronics and an integrated micro-transmitter for storing and transmitting the data and diagnostic information measured by this sensor and for the monitoring of sensor functions and

for the control and adjustment of sensor calibration, and a sensor shaft brought into contact with a measuring medium; sensors for the measurement, determination and monitoring of CO2 values, infrared radiation and CO2 partial pressure in gases and liquids, consisting of a sensor head having integrated electronics and an integrated micro-transmitter for storing and transmitting the data and diagnostic information measured by this sensors and for the monitoring of sensor functions and for the control and adjustment of sensor calibration, and a sensor shaft brought into contact with a measuring medium; sensors for measuring, monitoring and analysing the glucose concentration in solid, liquid or gaseous substances, which are also equipped with an integrated device for amplifying and wireless and wired transmission of the sensor signal, for monitoring the sensor function and for controlling and adjusting the sensor calibration; laboratory apparatus and instruments, namely sensors for the measurement, determination and monitoring of dissolved CO2, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content, being simultaneously equipped with an integrated device for the enhancement and wireless and wired transmission of sensor signals, for the monitoring of sensor functions and for the control and adjustment of sensor calibration; electronic interactive apparatus for the monitoring of sensor functions and for controlling and adjusting the sensor calibration of sensors used for the measurement, determination and monitoring of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content; signal transmitters; contacting and contactless signal transmitters; radio receiving tuners; radio receiving tuners; radio receiving tuners; radio transmitters; devices for wireless radio transmission; detectors; sensors for measuring instruments; touchscreen sensors; optical sensors; electro-optical sensors; optical fibre sensors; electronic sensors; photoelectric sensors; electromagnetic measuring detectors; housings for measuring equipment and sensors; holding devices for measuring equipment and sensors; protective sleeves for measuring equipment and sensors; electric control apparatus; software; computer software; computer software for laboratory apparatus; computer software for operating laboratory apparatus for scientific research and laboratories or for medical and medical diagnostic purposes for supplying liquids to and/or removing them from laboratory devices, in particular multi wave plates; computer software for medical use; downloadable computer software for operating laboratory robots; computer software for the measurement and determination of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content; software for the automated standard calibration and configuration of sensors in laboratories; software for product calibration and validation in the process environment of sensors in laboratories; software for the monitoring, validation and management of users; software for the generation of electronic signatures; software for the tracing of electronic log entries; software for the tracking of user actions; software for the checking of regulatory compliance and fulfilment; software for the creating of test reports with a comment function; software for the automated digital documentation of the configuration, calibration and verification of sensors and detectors; computer software for wireless and wired content transmission; computer software for the synchronization of data between a remote station or device and a fixed or remote station or device; computer software and computer firmware, namely operating system programs and data synchronization programs; database synchronisation software; databases; computer software for database management; computer software for encrypted database security and modification; dashboard software; USB [universal serial bus] operating software; software for tablet computers; mobile apps; application software; application software for mobile phones; application software for mobile devices; application software for wireless and wired apparatus; downloadable software applications for use with mobile and wired apparatus; computer software for wireless and wired network communications; reporting software; downloadable electronic reports; training software; simulation software [training]; instruction manuals in electronic format; training guides in electronic format; wireless and wired transmitters; wireless and wired receivers; apparatus for recording, transmitting or reproduction of sounds, images or data; data carriers for recording images, sound and data; data communications equipment; data communications hardware; wireless local area network devices; wired and wireless communication devices; mobile and wired data communications apparatus; wireless and wired communications apparatus for the transmission of data; data communications receivers; data processing equipment; interfaces for sensors for measuring CO2 values, infrared rays and CO2 partial pressure in gases and liquids; interfaces for sensors for the measurement of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content; computers; tablet computers; handheld digital electronic devices for data processing, information processing, storing and displaying data, transmitting and receiving data, transmission of data between computers, and software related thereto; electronic apparatus for processing data, processing information, storing and displaying data, transmitting and receiving data, transmitting data between computers; computer peripheral devices; computer peripheral devices; wired and wireless computer peripherals; USB flash drives; USB cables; USB card readers; parts and accessories for all the aforesaid goods, included in this class.

Class 10:
Medical, dental, veterinary, medical electric and surgical apparatus and instruments; diagnostic, examination, and monitoring equipment; medical apparatus and equipment, namely laboratory apparatus for medical purposes, for medical diagnostic purposes; measuring devices for medical use; measuring instruments adapted for medical use; testing apparatus for medical purposes; medical analysis apparatus for use in laboratories; measuring devices for medical use for the measurement, determination and monitoring of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon, cell density, conductivity, temperature, glucose, pressure and salt content; measuring instruments adapted for medical use for the measurement, determination and monitoring of CO2 values, infrared radiation, CO2 partial pressure, PH values, dissolved oxygen, oxidation reduction potential, ozone, organic carbon,

cell density, conductivity, temperature, glucose, pressure and salt content; measuring devices for medical use for measuring and determining the content and concentration of CO2, infrared radiation, dissolved oxygen, ozone, organic carbon and salt; measuring instruments adapted for medical use for measuring and determining the content and concentration of CO2, infrared radiation, dissolved oxygen, ozone, organic carbon and salt; parts and accessories for all the aforesaid goods, included in this class.

Class 17:
Flexible ducting, pipes, tubes and connectors, goods not of metal; pipe and tube fittings, not of metal; parts and accessories for all the aforesaid goods, included in this class.
