INNOVATION FIRE ENGINEERING

Class 37:

Advisory services relating to fire protection measures in the construction of buildings; consultancy relating to the installation of fire protection systems; supervision of building works relating to fire safety measures.

Class 42:

Fire engineering consultancy services; preparation of fire safety strategies for buildings; provision of technical advice relating to fire safety in building design; analysis and assessment of fire risk in buildings; fire safety engineering services; structural fire engineering consultancy; design and development of fire safety systems and fire strategies; computer modelling and simulation of fire and smoke behaviour; consultancy relating to compliance with fire safety regulations; project management in relation to fire safety; fire engineering project management; technical support services in relation to fire engineering; technical support services in relation to fire safety.

Class 45:

Reviewing standards and practices to assure compliance with laws and regulations in the field of fire safety.
