Metal materials for construction, maintenance and repair; apparatus made primarily from metal for use in the construction, maintenance and repair; common metals and their alloys; metal materials for construction and engineering for onshore, topsides, and subsea infrastructure; prefabricated metal structures and components for use in the construction, maintenance, and repair of pipelines, platforms, and subsea installations; pipes of metal; liners and castings of metal; tubes of metal; metal pipes, tubes, and fittings for use in onshore and offshore environments; non-electric cables and wires of common metal; baskets of metal; metal storage tanks and containers for industrial and engineering purposes; metallic mooring and tensioning systems; metal scaffolding, gratings, and walkways for industrial facilities; metal fasteners, bolts, and connectors for heavy engineering applications; risers; pipe fittings; subsea tiebacks; bindings of metal; clamps; clamps for pipes; metal anchors, clamps, and supports for securing subsea and topside infrastructure; clips for pipes; fastening pipes; adaptors for pipes; bolts; bolts of metal; expansion bolts of metal; fixing bolts of metal; joints; joint connector; connectors; connectors of metal for tubes; connectors of metal for pipes; pipe end connectors; hydraulic connectors; compression fittings; connection pipes; couplings; pipe couplings; flexible couplings of metal; fastening collars; collars for fastening pipes; clips of metal; attachment parts of metal; attachment collars of metal for pipes; seals; seals, locking and gripping apparatus; test tools being valves; racking; reinforcing fibres; reinforcing materials; flanges; flange adaptors; flange packers; flange terminated connectors; anchor flanges of metal; flange plates of metal; flanged branch connections of metal; flanged branched outlets of metal; flanged pipes of metal; pipe end caps; reinforced metal sheets, plates, and panels for structural use; corrosion-resistant metals and alloys for subsea and topsides applications; metal hardware for energy, oil, and gas industries, including valves, flanges, and seals; parts and fittings for all the aforesaid goods.

Class 7:
Machines, machine tools, power-operated tools for use in construction, maintenance, surveying and repair; machines, machine tools, power-operated tools for use in construction, maintenance, surveying and repair of onshore, topsides and subsea infrastructure; motors and engines, except for land vehicles; motors and engines (except for land vehicles) for industrial use; subsea intervention systems, namely remotely operated vehicles (ROVs) and autonomous underwater vehicles (AUVs); hydraulic, pneumatic, and mechanical equipment for the construction, installation, maintenance, and decommissioning of pipelines, platforms, and subsea installations; machine coupling and transmission components, except for land vehicles; robotic systems and machinery for underwater operations to inspect, weld, and cut; compressors; machine tool couplings; clamping machines; clamp connectors for piping (parts of machines); clamping devices for use with machine tools; apparatus for controlling the operation of machines; apparatus for the control of machines; apparatus for use in the control of machine tools; mechanical products for fastening, connecting and lifting mechanical structures and pipelines; cranes, hoists, and lifting equipment for topsides and offshore facilities; machinery for the removal, handling, and processing of subsea and onshore resources; winches; apparatus for the application of torque; apparatus for the application of tension; apparatus for drilling; drilling equipment and machinery for oil, gas, and geothermal operations; hydraulic apparatus for lifting; hydraulic lifting apparatus; hydraulic lifting machines; hydraulic machines and apparatus; subsea baskets; mechanical seals; mechanical couplings; mechanical connectors; machine tools for fastening; adaptors for pipes (parts of machines); hydraulic tools; hydraulically operated control apparatus; tubing, liners, casings, couplings, locking and gripping apparatus, flange packers, test tools being valves, all being hydraulically activated; subsea control systems; bolting equipment; bolt tensioners; hydraulic bolt tensioners; hydraulic nuts; hydraulic torque wrenches; hydraulic pumps; pumps, compressors, and turbines for industrial and subsea applications; air powered pumps; electric powered pumps; torque multipliers; torque converters for machines; torque spanners; torque wrenches; torque wrenches incorporating apparatus for checking; torque wrenches incorporating apparatus for sensing; torque wrenches incorporating electronic apparatus; tension ratchets; tensioners; tensioning heads being parts of machines; tensioning pieces being parts of machines; bolt cutters; bolt setting machines; hydraulic pumps; hydraulic power units; hydraulic rams; manually operated hydraulic benders; pipe elevators; hydraulic pumps; high pressure pumps; machine pumps; electric pumps; electrical pumps; pumps; adaptors for pipes; hydraulic cutting tools; hydraulic cutters; hydraulic crimping units; hydraulic

gripper saws; saws; diamond wire saws; hydraulic jacks; joints for pipes; machine tools for use in connection with pipes; machines for handling pipes; machines for hardening pipes; machines for manufacturing pipes; machines for straightening pipes; machines for straightening pipes and cutting them to length; machines for the renovation of pipes; machines for working pipes; mechanical systems for the internal inspection of pipes; pulling apparatus; machines for splitting pipes; apparatus for cleaning pipes; apparatus for installing underground pipes; machines for flange facing; spindle adapter flanges for machine tools; apparatus for use in milling; cutters for milling machines; machine tools for milling; milling machines; milling tools; apparatus for use in grinding; grinding apparatus; grinding discs; grinding machines; grinding machines for cutting tools; grinding tools; boring tools; power operated tools for boring; tool bits for boring; machine tools for boring; portable power supply generating apparatus; generators; power supply units; hydraulic flange pullers; hydraulic nuts splitters; hydraulic flange spreaders; flange facing tools; filters, separators, and industrial machinery for cleaning and maintaining pipelines and subsea equipment; machines for the assembly, alignment, and testing of topsides and subsea components; power-operated tools and parts and fittings for the aforesaid goods.

Class 9:
Scientific and measuring equipment; scientific, surveying, measuring, signalling, monitoring, and testing apparatus and instruments for onshore, topsides, and subsea infrastructure; electronic sensors, instruments, and devices used for measurement, detection, and monitoring purposes; electronic systems for the control, operation, and monitoring of industrial and offshore installations; sensors used in navigation, scientific exploration, underwater surveying and control installations; sensors and detectors for measuring pressure, temperature, flow, and structural integrity in subsea and topside environments; subsea sensor systems, namely remotely operated vehicles (ROVs) and autonomous underwater vehicles (AUVs); control panels, consoles, and programmable logic controllers (PLCs) for managing machinery and infrastructure; subsea communication systems namely acoustic modems and transceivers; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; video surveillance installations; video surveillance systems; drop cameras; metrology stands; navigation, positioning, and tracking systems for subsea vehicles and offshore operations; software and firmware for monitoring, analysing, and optimizing subsea and topside equipment and operations; computer software and electronic equipment for use with control systems; software and electronic equipment for operating, monitoring, controlling, or diagnosing machinery; industrial automation software; computer software and electronic equipment for monitoring, surveying, simulation and analysis; data logging and telemetry systems for subsea and onshore applications; electronic devices for detecting and preventing corrosion in pipelines and infrastructure; power distribution and management systems for industrial installations; electrical and fiber-optic cables and connectors for use in extreme environments; downloadable software and mobile applications for asset management and operational diagnostics; parts and fittings for all the aforesaid goods.

Class 19:
Materials, not of metal, for building and construction; non-metallic materials for use in the construction, maintenance, surveying and repair of onshore, topsides, and subsea infrastructure; rigid pipes, not of metal, for construction; non-metallic pipes, tubes, and fittings for industrial, offshore, and subsea applications; jacket installations (not of metal), risers (not of metal); non-metallic structural components for platforms, pipelines, and subsea installations; composite materials and reinforced plastics for construction and engineering purposes; non-metallic mooring and tensioning systems for subsea and offshore installations; non-metallic barriers, coatings, and linings for protecting subsea and onshore structures from environmental damage; asphalt, pitch, tar and bitumen; non-metallic flooring, decking, and paneling for topsides and offshore facilities; non-metallic supports, anchors, and braces for securing pipelines and infrastructure; non-metallic materials for erosion and corrosion protection; geotextiles and membranes for use in subsea and onshore environments; non-metallic pre-fabricated structures and components for use in industrial and energy projects; parts and fittings for all the aforesaid goods.

Class 37:
Construction services; installation and repair services; maintenance services; construction, installation, maintenance, and repair of onshore, topsides, and subsea infrastructure; installation and repair of pipelines, platforms, and subsea installations; construction and maintenance of industrial facilities for the energy, oil, and gas industries; decommissioning of subsea and offshore installations; inspection, cleaning, and servicing of industrial, offshore, and subsea equipment; underwater construction and engineering services namely subsea welding, cutting, and assembly; provision of lifting, hoisting, and rigging services for offshore and onshore operations; installation and maintenance of machinery, equipment, and control systems for topsides and subsea applications; repair and refurbishment of subsea intervention systems, including remotely operated vehicles (ROVs) and autonomous underwater vehicles (AUVs); corrosion prevention and protection services for pipelines and infrastructure; consultancy and advisory services related to construction, maintenance, and decommissioning of energy and industrial projects; rental of construction, maintenance and repair tools and machines; rental of construction equipment and tools for offshore, topside, and subsea use; rental of tools and machines for use in construction, maintenance, surveying and repair of onshore, topsides and subsea infrastructure.

Class 42:
Scientific and technological services and research and design relating thereto; providing engineering, scientific, and technological services in connection with the design, development, inspection, testing, and analysis of onshore, topsides, and subsea infrastructure; consultancy and advisory services related to the development and implementation of technologies for the construction, maintenance, and decommissioning of onshore and offshore facilities; research and development services in the fields of energy, marine, and subsea engineering; design and testing of mechanical, structural, and electronic systems for subsea, onshore, and offshore use; provision of digital modelling and simulation services for infrastructure and equipment performance assessment; design and development of computer hardware and software; creation and maintenance of computer software for monitoring and managing subsea and topside operations; technical consultancy in environmental assessment and compliance for onshore, topsides, and subsea projects; conducting feasibility studies, risk assessments, and safety evaluations related to engineering projects; technological support and troubleshooting for integrated systems used in energy production and resource extraction.
