# JAXXON

The mark consists of the stylized text "JAXXON". The second "X" in the mark is highly stylized, and consists of a diagonal slash traveling from top left to bottom right, with an upwards pointing triangle with horizontal base in the bottom left corner of the letter, and a downwards pointing triangle with a horizontal base in the upper right of the letter. Negative space to the left and right of the diagonal slash create an illusion that the triangles in the letter are connected, all so that the two triangles and slash together form the image of a highly stylized letter "X".

gas mixtures for use in science; gas purifying preparations and substances; inert gases for industrial and scientific use; liquefied gases for use in industry, research and science, other than for medical use; magnesium chloride for use in industry, science, manufacture and research; magnesium oxide for use in industry, science, manufacture and research; cement (adhesives); cement (metallurgy); chemical mixtures for use as additives and agglutinants for concrete; chemical mixtures for use as additives and agglutinants for cement and concrete produced by renewable energy sources; cement and concrete preservatives, except paints and oils; cement and concrete waterproofing, except paint; chemical additives for cement and concrete; chemical compositions for hardening cement and concrete; chemical preparations for the treatment of cement and concrete; binding chemicals for concrete; bonding agents for concrete; chemical preparations for use with cement and concrete; chemical products for use as additives to cement and concrete; compositions for setting cement and concrete; compositions for preserving cement and concrete; preservatives for cement and concrete; chemical products for protecting and sealing cement and concrete; chemical reagents or mixtures, other than for medical or veterinary purposes.

Class 4:

Fuels; fuel mixtures; fuels derived from hydrogen or predominantly derived from hydrogen; fuels derived from hydrogen, or predominantly derived from hydrogen, produced by renewable energy sources; fuels derived from ammonia or predominantly derived from ammonia; fuels derived from ammonia, or predominantly derived from ammonia, produced by renewable energy sources; electricity (energy); energy derived from ammonia or predominantly derived from ammonia; energy derived from ammonia, or predominantly derived from ammonia, produced by renewable energy sources; energy derived from hydrogen or predominantly derived from hydrogen; energy derived from hydrogen, or predominantly derived from hydrogen, produced by renewable energy sources; fuel and energy derived from direct ammonia conversion, namely combustion or direct ammonia fuel cells; fuel and energy derived from indirect ammonia conversion, namely, hydrogen vector; hydrocarbon fuels; solid, liquid and gaseous fuels; electricity; electrical energy; carbon materials for use as fuels namely graphite or synthetic graphite; graphite as a fuel; liquid fuel; vaporised fuel mixtures; solid fuels; solid oxygen fuel; non-chemical additives for fuels; gaseous fuels; gas mixtures; liquid gases; dissolved gases; combustible gases; natural gas; solidified gas (fuel); synthetic gas (fuel); gases for use as illuminants; fuels and gases for heating and lighting purposes; fuels and gases for automobiles; illuminants and illuminating materials; biofuel; biogas; combustible fuels and gases; renewable energy, namely, solar energy, wind energy, hydroelectric and geothermal energy; geothermal steam for use as fuel or industrial heating.

Class 6:

Common metals and their alloys; iron; steel and chrome alloys; iron alloys; ores; iron ores; iron ores, namely, magnetite ore; iron ores produced by renewable energy sources; iron ore sinter; iron ore pellets; iron ore concentrate; pig iron; pure iron; iron metallics, namely, pig iron, direct reduced iron and hot briquetted iron; steel produced by renewable energy; iron produced by hydrogen generated via water electrolysis using renewable energy; iron produced by hydrogen and ammonia; iron produced by electrochemicals; nickel; nickel produced

by renewable energy; cobalt (raw); cobalt (raw) produced by renewable energy; metallic ores; ferrous ores; processed metal ores; processed iron ores; iron, unwrought or semi-wrought; metal powders; ore powders; iron powders; mineral ores in this class; common metals, unwrought or semi-wrought; alloys of common metals; ores of metal; limonite; chrome ores; steel; steel produced by renewable energy; copper; gold solder; lithium pegmatite ore; copper-porphyry; copper-molybdenum; copper-gold; metal building products.

Class 7:

Automated assembly machines; automated machines for loading materials; automated handling apparatus; mechanical control instruments (mechanisms) for the automation of machining operations; mine working machines; machines for drilling; electric drills; bulldozers; excavators; diggers (machines); drilling rigs; automated drilling machines; automated electric drills; automated excavators; automated diggers (machines); automated drilling rigs; automated concrete mixer machines; automated concrete pump machines; automated concrete spraying machines; automated apparatus and machines for use in mining; automated energy generation plants; automated electrolysis plants; industrial robots; apparatus, equipment and instruments for the generation of power; generators; electricity generators; wind powered electricity generators; generation plants; electric generators; electric generator stations; machines for generating gas by electrolysis; electrolysis plants; machines for generating power; machines for transmitting electricity; wind turbines; wind towers; wind turbine blades; turbines for power generation; power operated tools; apparatus and machines for use in mining; concrete mixer machines; concrete pump machines; concrete spraying machines; converters for steel works; electric motors; gas converters; gas condenser machines; fuel dispensing pumps for service stations and parts related thereto; refuelling stations for vehicles with hydrogen engines or propulsion; hydrogen dispensing pumps for service stations; automated control mechanisms for machines, engines or motors; electric motors for machines; electric drives for machines; transmissions for machines; power transmission systems for machines; mobile machines adapted to operate automatically; mechanical control apparatus for the automation of plant and machinery; fuel conversion apparatus for internal combustion engines; electrolysis apparatus for converting water into hydrogen and/or oxygen gas; electric engines for the propulsion of aircraft; electric engines for the propulsion of watercraft; electric drives for aircraft; electric drives for watercraft; hydrogen engines for the propulsion of aircraft; hydrogen engines for the propulsion of watercraft; engines for aircraft using ammonia as a fuel source; engines for watercraft using ammonia as a fuel source; parts, fittings and accessories for the aforementioned goods.

Class 9:

Scientific, research, navigation, surveying, photographic, cinematographic, audio-visual, weighing, measuring, signalling, detecting, testing, inspecting, and teaching apparatus and instruments; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media; computer software; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for controlling and monitoring unmanned vehicles; electrical

apparatus for the automated control of vehicles and machines; computer apparatus for use in the automation of machines; application software; computer programs; downloadable computer software; battery management software; computer algorithms; downloadable computer software using artificial intelligence for use in machine learning; downloadable artificial intelligence software; artificial intelligence and machine learning software; software technologies including algorithms and artificial intelligence; data feeders for use with artificial intelligence; software for the supervision of equipment and installations for the production and distribution of energy; software for smart charging of electric vehicles and/or hydrogen-powered or hydrogen-propelled vehicles; computer software, computer hardware and computer firmware for the autonomous operation of vehicles and equipment, including mining haul trucks, road trains, trains, water carts, mining trucks and carts, excavators, bulldozers, diggers, machine loaders, drones and drilling rigs; downloadable and recorded computer software for the remote control of automatically guided vehicles, unmanned aircraft, drones, unmanned locomotives, and unmanned ships and barges; computer software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous vehicles, including mining haul vehicles, trucks and carts, road trains, trains and drones; computer software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous machines, including bulldozers, excavators, diggers, machine loaders and drilling rigs; autonomous driving control systems for vehicles; computers for autonomous operation of vehicles and equipment; autonomous navigation systems for vehicles and machines; automatic and autonomous driving control systems for vehicles; pre-collision detection and collision avoidance systems; pre-collision detection and collision avoidance systems for automated vehicles and machines; anti-collision and shockproof sensors for vehicles and automated machinery; anti-collision and shockproof radars for vehicles and automated machinery; computer hardware, software and firmware for high precision machine guidance of vehicles and machinery on mining sites; computer software for the management and operation of mining sites; computer software for the efficient assignment of manned and autonomous assets and resources on a mining site; computer algorithms for the efficient assignment of manned and autonomous assets and resources on a mining site; computer software for vehicle fleet management, including for the management of fleets of autonomous or semi-autonomous vehicles; vehicle tracking apparatus, including in relation to fleets of autonomous or semi-autonomous vehicles; computer software for monitoring, optimising, and regulating the storage and discharge of stored energy to and from batteries and electric cells; application software for monitoring the electric charge and status of vehicles and machines powered by batteries and electric cells; downloadable and recorded computer software for monitoring energy consumption; downloadable and recorded application software for controlling and monitoring energy and utility systems, energy production plants, iron and steel production plants, cement and concrete production plants, hydrogen production plants and ammonia production plants; computer hardware, computer software and computer firmware for use in the fields of battery management/control and energy storage; computer software to enable users to capture, record, monitor, display, transmit, process and/or analyse information and data relating to energy storage and battery performance;

computer software that enables users to monitor, interpret and/or model information and data relating to energy storage and battery performance; computer software for energy management; humanoid robots with artificial intelligence; electronic memories; electronic databases; computers and computer peripheral devices; computer hardware; electronic control devices; remote control apparatus and instruments; sensors; cameras; apparatus for managing energy supplies; electronic publications; electrolyzers; electric power supply units; electrification systems for land, air, rail and marine vehicles; electric cables; bundles of electric cabling; batteries; electric batteries for powering land, air or water vehicles; battery subpacks; battery chargers, including for vehicles; electric battery chargers; rapid charger units for battery electric equipment; electric batteries; high energy density energy cells; electric charging cables; electric cells; electric control devices for energy management; lithium batteries; battery management systems; energy management systems; power electronics, including inverters, converters, semiconductors; power controllers; power distribution or control machines and apparatus; electrical and electronic monitoring and switching apparatus and systems; thermal management systems for batteries and inverters; mobile and static off board power units; electronic measuring, sensing, recording, signalling and warning apparatus; charging stations for electric vehicles; global positioning system (GPS) devices; photovoltaic cells and modules; electronic digital building automation systems; electronic digital automation installations for measuring building service installations; power units; parts, fittings and accessories for the aforementioned goods.

**Class 12:**

Vehicles; apparatus for locomotion by land, air or water; land, air, rail and marine vehicles; helicopters; trains; regenerative trains; vehicles for transport of goods by land, air, rail or water; mining vehicles; autonomous vehicles; autonomous trains; mining trucks and carts; mine carts; mine trains; mine cart wheels; autonomous mining trucks, trains and carts; electric engines for land vehicles; electric drives for land vehicles; hydrogen engines for land vehicles; engines for land vehicles using ammonia as a fuel source; traction engines; dump trucks; camera and delivery drones; remote control vehicles (other than toys); accessories for remote control vehicles; remote control drones; accessories for remote control drones; civilian drones; military drones; photography drones; parts, fittings and accessories for the aforementioned goods.

**Class 19:**

Materials, not of metal, for building and construction; cement; concrete; concrete aggregate; cement and concrete made by renewable energy sources; blended cements and concrete; cement and concrete mixes; premixed cement or concrete; fibre cements; magnesium cement; refractory cement; building and construction materials made of cement or concrete; cement or concrete based mixtures for use in building and construction; cement or concrete based coatings for use in building and construction; cement or concrete based materials for use in building and construction; cement or concrete based wall coatings; cement or concrete blocks; cement for blast furnaces; cement or concrete posts, slabs, blocks, wall components, wall members, tiles, cladding, panels, slopes, piles, plates, posts, sheets, beams, roof panels, roofing, mouldings, architectural products; fireproof cement coating; sheets of fibre cement for use in building; soil stabilising cement for use in agriculture;

***List of cases accepted for opposition purposes as shown in Journal 2024/022 published on 31 May 2024 .***

substances made of cement or concrete for filling and repair of surface defects and flaws; mixtures of cement, sand and stone material; cement or concrete products for use in buildings, gardens, landscaping, roadways, walkways, ponds, pools, water tanks; mortar; grout.

Class 35:

Business research services; business administration; business management; business advice and assistance; business consultancy; business analysis; business information services; compilation and analysis of statistical information; compilation of data about mined material and mined product statistical information; business and administrative services for operating mines including import and export agency services and retail and wholesale of mined materials and products; business and administrative management of mines including import and export agency services and retail and wholesale of mined materials and products; business and administrative management services relating to the production of cement and concrete; business and administrative management of utility networks; business and administrative management services relating to the production of steel and iron; business and administrative management services relating to the production of energy, solar energy, renewable energy, ammonia, hydrogen, electricity, gas, fuel and water; business and administrative management of hydrogen production and generation plants; business and administrative management of ammonia production and generation plants; business and administrative management of solar power plants; business and administrative management of iron production facilities and plants; business and administrative management of steel production facilities and plants; business and administrative management of energy production and generation plants; business and administrative management of solar power, turbine power, hydropower production facilities and plants; business and administrative management of fuel production and generation plants; business and administrative management of cement and concrete production facilities; advertising; marketing; retail and wholesale services of electric motors, electric generators, machines for generating gas by electrolysis, turbines for power generation, wind turbines, wind turbine blades, hydrogen dispensing pumps for services stations and parts related thereto, electric engines, electric drives, hydrogen engines, ammonia engines, artificial intelligence and machine learning software, software for the supervision of equipment and installations for the production and distribution of energy, software for smart charging of electric vehicles and/or hydrogen-powered or hydrogen-propelled vehicles, computer software, computer hardware and computer firmware for the autonomous operation of vehicles and equipment, computer software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous vehicles, unmanned aircraft, drones, unmanned locomotives and unmanned ships, autonomous driving and navigation systems for vehicles and machines, pre-collision detection and avoidance systems for automated vehicles and machines, computer hardware, software and firmware for high precision machine guidance of vehicles and machinery on mining sites, computer software for the management and operation of mining sites, computer software for the efficient assignment of manned and autonomous assets and resources on a mining site, computer software for monitoring, optimising and regulating the storage and discharge of stored energy to and from batteries and electric cells, application software

for monitoring the electric charge and status of vehicles and machines powered by batteries and electric cells, application software for controlling and monitoring energy and utility systems, energy production plants, iron and steel production plants, cement and concrete production plants, hydrogen production plants and ammonia production plants, computer hardware, computer software and computer firmware for use in the fields of battery management/control and energy storage, humanoid robots with artificial intelligence, remote control apparatus and instruments, sensors, electrification systems for land, air, rail and marine vehicles, batteries, electric battery chargers, high energy density energy cells, power distribution or control machines and apparatus, battery management systems, charging stations for electric vehicles, photovoltaic cells and modules, and power units; retail and wholesale services of mined material and products, namely, minerals, hematite minerals, magnetite minerals, cobalt, lithium, ammonia, hydrogen, iron, iron ores, iron ore sinter, iron ore pellets, nickel, ferrous ores, magnetite ore, metallic ores, lithium pegmatite ore, copper and products made of those materials including steel, steel alloys, batteries, acoustic panels, awnings, bars, beams, blinds, brackets, building boards, ceiling boards, building panels, cement, concrete, casings, cladding, doors, fabricated metal components for building foundations, formwork, flashings, frameworks, frames, fascia, floor boards, linings, lintels, partitions, pillars, pipes for building purposes, rails, roofing materials, reinforcement materials, slabs, tiles, window frames, wall claddings, chassis for vehicles, aircraft, boats, ships, barges and drones, structural parts for vehicles, aircraft, boats, ships, barges and drones; retail and wholesale services of hydrogen; retail and wholesale services of hydrogen produced by renewable energy sources; retail and wholesale services of ammonia; retail and wholesale services of ammonia produced by renewable energy sources; retail and wholesale services of fuels and energy; retail and wholesale services of fuels and energy derived from ammonia or predominantly derived from ammonia; retail and wholesale services of fuels and energy derived from ammonia, or predominantly derived from ammonia, produced by renewable energy sources; retail and wholesale services of fuels and energy derived from hydrogen or predominantly derived from hydrogen; retail and wholesale services of fuels and energy derived from hydrogen, or predominantly derived from hydrogen, produced by renewable energy sources; retail and wholesale services of renewable energy, namely, solar energy, wind energy, hydroelectric and geothermal energy; retailing and wholesaling services of iron; retail and wholesale services of iron produced by renewable energy sources; retail and wholesale services of steel; retail and wholesale services of steel produced by renewable energy sources; retail and wholesale services of cement and concrete and products made from cement or concrete; retail and wholesale services of cement or concrete produced by renewable energy sources; retail and wholesale services of autonomous vehicles, autonomous drones, autonomous mining equipment and systems for automating vehicles and equipment; the bringing together, for the benefit of others, of a variety of hydrogen, hydrogen goods being hydrogen gas, hydrogen produced by renewable energy sources, hydrogen gases, liquid hydrogen, dissolved hydrogen, mixtures of gases, liquids and dissolved hydrogen, hydrocarbons, gaseous hydrocarbons, fuels derived, or predominantly derived, from hydrogen, electrical energy derived, or predominantly derived, from hydrogen, hydrogen dispensing pumps for service stations and parts related thereto, hydrogen engines, and

machines for generating hydrogen by electrolysis, ammonia, ammonia goods being ammonia, ammonia produced by renewable energy sources, ammonia additives, ammonia products, preparations and substances for use in industry, science, manufacturing and research, ammonia water, aqueous ammonia for Industrial purposes, anhydrous ammonia, ammonia alum, fuels derived, or predominantly derived, from ammonia, electrical energy derived, or predominantly derived, from ammonia, electrical energy derived from combustion or direct ammonia fuel, ammonia engines, and machines for generating hydrogen by electrolysis, fuel, energy, renewable energy and renewable energy goods being electricity derived from renewable sources, solar energy, wind energy and geothermal energy supply services, wind turbines and wind turbine blades, electrification goods being electric motors, electric generators, electric engines, electric batteries for powering vehicles and machines, electric battery chargers, high energy density energy cells, charging stations for electric vehicles, and electrification systems for land, air, rail and marine vehicles, automation goods being computer software, computer hardware and computer firmware for the autonomous operation of vehicles and equipment, computer software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi autonomous vehicles, autonomous driving and navigation systems for vehicles and machines, and pre-collision detection and avoidance systems for automated vehicles and machines, iron and steel goods being iron ores, pig iron, pure iron, iron ore, iron produced by hydrogen and ammonia, unwrought or semi-wrought iron, iron powders, steel, acoustic panels, awnings, bars, beams, blinds, brackets, building boards, ceiling boards, building panels, casings, cladding, doors, fabricated metal components for building foundations, formwork, flashings, frameworks, frames, fascia, floor boards, linings, lintels, partitions, pillars, pipes for building purposes, rails, roofing materials, reinforcement materials, slabs, tiles, window frames, wall claddings, chassis for vehicles, aircraft, boats, ships, barges and drones, structural parts for vehicles, aircraft, boats, ships, barges and drones, enabling customers to conveniently view and purchase those goods; market surveys; compiling research and statistical data; computerised online ordering services; office functions; cost price analysis; public relations; import export agency services; sales promotion for others; business project management services for construction projects; business project management services for ammonia, hydrogen, hydro electrical and solar power systems and plant construction; business project management services for iron and steel production facilities and plants; business project management of mining exploration and mining extraction services; providing business information via a web site; computerised stock ordering and control services; computerised file management; foreign trade consultancy; operation of loyalty programs; personnel management; business project management of mining exploration and mining extraction services; information, consultancy and advisory services concerning all the aforementioned.

**Class 36:**

Financial services; valuation services; valuation of commodities; commodities trading (financial services); valuation of ores and precious metals; financial, funding, fundraising and banking services; financial and monetary affairs; financial consultancy, advice and information; financial sponsorship of education, training, entertainment, sporting, or cultural activities; charitable fundraising;

conducting financial feasibility studies; funding and providing scholarships; financial investment services; financial funding services; fundraising projects; insurance; real estate affairs; fund management and investment management; financial management; financial analysis; electronic banking; debt collection; loan financing; property valuation; information, consultancy and advisory services concerning all the aforementioned.

**Class 37:**

Construction; construction of plants and facilities; mining extraction services; mining services; construction of mines; cement and concrete pumping services; civil and mechanical engineering construction of mines; beneath ground construction of mines; construction, installation, repair and maintenance services; drilling; excavating; rental of excavators; charging electric vehicles; recharging of batteries and accumulators; rental of battery chargers; installation, repair and maintenance of electric vehicles chargers; installation, maintenance and repair of photovoltaic cells and modules; installation of photovoltaic power generation installations; construction, installation, maintenance and repair of solar energy apparatus and installations; construction, installation, maintenance and repair of wind energy apparatus and installations; vehicle service stations and vehicle fuelling station services; hydrogen refuelling stations; hydrogen gas refuelling for vehicles; aircraft refuelling and maintenance services, including such services involving hydrogen fuels; watercraft refuelling and maintenance services, including such services involving hydrogen fuels; recharging services for electric vehicles, electric aircraft and electric watercraft; hydroelectric power station construction services; building of railways; constructions of ports and port terminals; rental of machinery for use in mining and excavating; rental of autonomous machinery for use in mining and excavating; remote operation in the field of maintenance of mining equipment, including remote monitoring of mining assets; information, consultancy and advisory services concerning all the aforementioned.

**Class 38:**

Telecommunications and communication services; communication services for remote control vehicles; communication services for remote control of machines and vehicles; communication services for remote controlling of transport of materials by land, rail, air and ship; providing telecommunications connections to a global computer network; web portal services (providing user access to a global computer network); transmission of information on a wide range of topics, including online and over a global computer network; providing access to online computer databases; information, consultancy and advisory services concerning all the aforementioned.

**Class 39:**

Transport; transportation services; transport by land, air, road, marine, pipeline and railway; transportation of materials by land, air, ship and railway; packaging and storage of goods; packaging and storing of metals; transportation, transmission, storage, supply, distribution and delivery of hydrogen; transportation, transmission, storage, supply, distribution and delivery of hydrogen produced by renewable energy sources; transportation, transmission, storage, supply, distribution and delivery of ammonia; transportation, transmission, storage, supply, distribution and delivery of ammonia produced by

use in the fields of battery management/control and energy storage; computer software to enable users to capture, record, monitor, display, transmit, process and/or analyse information and data relating to energy storage and battery performance; computer software that enables users to monitor, interpret and/or model information and data relating to energy storage and battery performance; computer software for energy management; humanoid robots with artificial intelligence; electronic memories; electronic databases; computers and computer peripheral devices; computer hardware; electronic control devices; remote control apparatus and instruments; sensors; cameras; apparatus for managing energy supplies; electronic publications; electrolyzers; electric power supply units; electrification systems for land, air, rail and marine vehicles; electric cables; bundles of electric cabling; batteries; electric batteries for powering land, air or water vehicles; battery subpacks; battery chargers, including for vehicles; electric battery chargers; rapid charger units for battery electric equipment; electric batteries; high energy density energy cells; electric charging cables; electric cells; electric control devices for energy management; lithium batteries; battery management systems; energy management systems; power electronics, including inverters, converters, semiconductors; power controllers; power distribution or control machines and apparatus; electrical and electronic monitoring and switching apparatus and systems; thermal management systems for batteries and inverters; mobile and static off board power units; electronic measuring, sensing, recording, signalling and warning apparatus; charging stations for electric vehicles; global positioning system (GPS) devices; photovoltaic cells and modules; electronic digital building automation systems; parts, fittings and accessories for the aforementioned goods; electronic digital automation installations for measuring building service installations; power units.

Class 12:

Vehicles; apparatus for locomotion by land, air or water; land, air, rail and marine vehicles; helicopters; trains; regenerative trains; vehicles for transport of goods by land, air, rail or water; mining vehicles; autonomous vehicles; autonomous trains; mining trucks and carts; mine carts; mine trains; mine cart wheels; autonomous mining trucks, trains and carts; electric engines for land vehicles; electric drives for land vehicles; hydrogen engines for land vehicles; engines for land vehicles using ammonia as a fuel source; traction engines; dump trucks; camera and delivery drones; remote control vehicles (other than toys); accessories for remote control vehicles; remote control drones; accessories for remote control drones; civilian drones; military drones; photography drones; parts, fittings and accessories for the aforementioned goods.

Class 19:

Materials, not of metal, for building and construction; cement; concrete; concrete aggregate; cement and concrete made by renewable energy sources; blended cements and concrete; cement and concrete mixes; premixed cement or concrete; fibre cements; magnesium cement; refractory cement; building and construction materials made of cement or concrete; cement or concrete based mixtures for use in building and construction; cement or concrete based coatings for use in building and construction; cement or concrete based materials for use in building and construction; cement or concrete based wall coatings; cement or concrete blocks; cement for blast furnaces; cement or concrete posts, slabs, blocks, wall components, wall

members, tiles, cladding, panels, slopes, piles, plates, posts, sheets, beams, roof panels, roofing, mouldings, architectural products; fireproof cement coating; sheets of fibre cement for use in building; soil stabilising cement for use in agriculture; substances made of cement or concrete for filling and repair of surface defects and flaws; mixtures of cement, sand and stone material; cement or concrete products for use in buildings, gardens, landscaping, roadways, walkways, ponds, pools, water tanks; mortar; grout.

Class 35:

Business research services; business administration; business management; business advice and assistance; business consultancy; business analysis; business information services; compilation and analysis of statistical information; compilation of data about mined material and mined product statistical information; business and administrative services for operating mines including import and export agency services and retail and wholesale of mined materials and products; business and administrative management of mines including import and export agency services and retail and wholesale of mined materials and products; business and administrative management services relating to the production of cement and concrete; business and administrative management of utility networks; business and administrative management services relating to the production of steel and iron; business and administrative management services relating to the production of energy, solar energy, renewable energy, ammonia, hydrogen, electricity, gas, fuel and water; business and administrative management of hydrogen production and generation plants; business and administrative management of ammonia production and generation plants; business and administrative management of solar power plants; business and administrative management of iron production facilities and plants; business and administrative management of steel production facilities and plants; business and administrative management of energy production and generation plants; business and administrative management of solar power, turbine power, hydropower production facilities and plants; business and administrative management of fuel production and generation plants; business and administrative management of cement and concrete production facilities; advertising; marketing; retail and wholesale services of electric motors, electric generators, machines for generating gas by electrolysis, turbines for power generation, wind turbines, wind turbine blades, hydrogen dispensing pumps for services stations and parts related thereto, electric engines, electric drives, hydrogen engines, ammonia engines, artificial intelligence and machine learning software, software for the supervision of equipment and installations for the production and distribution of energy, software for smart charging of electric vehicles and/or hydrogen-powered or hydrogen-propelled vehicles, computer software, computer hardware and computer firmware for the autonomous operation of vehicles and equipment, computer software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous vehicles, unmanned aircraft, drones, unmanned locomotives and unmanned ships, autonomous driving and navigation systems for vehicles and machines, pre-collision detection and avoidance systems for automated vehicles and machines, computer hardware, software and firmware for high precision machine guidance of vehicles and machinery on mining sites, computer software for the management and operation of mining sites, computer software for the efficient
