operations, design and maintenance of railways and railway technology; downloadable electronic publications in the field of railways and railway technology; downloadable computer software for providing access to electronic publications in the field of railways and railway technology.

Class 16:

Publications in the fields of railways, railway technology, construction practices, construction supervision, construction project management, construction project cost management, management of public infrastructure, transportation, engineering, environmental management, energy use management and conservation, telecommunications and safety practices in project delivery.

Class 35:

Business management; contract administration services in the field of transportation of goods and passengers, notably by bus, truck and car, rail, boat and air; contract administration for engineering, design and construction work; construction cost management; road traffic control and traffic management services, namely providing placement of road and traffic control personnel.

Class 37:

Development of land, namely construction of land-based facilities; building construction supervision; renovation and restoration of buildings; consultation in building construction supervision; project management in the field of building construction; construction management [supervision] relating to roads and highways; bridge construction services; installation, renovation, repair and maintenance of wireless infrastructure systems and wireless communication systems, namely, installation, renovation, repair and maintenance of cellular phone transmission towers, cellular television towers and radio transmission towers; maintenance services, namely, maintenance of external networks utilized in infrastructures for public utility in the form of sewer management; installation of underground utility lines, namely, installation of water, sewage, oil and gas pipelines, installation of cables for cable television and internet systems, and electric and telephone lines; construction management of natural gas plants, conventional oil batteries and water handling facilities that manage pressure tapping of water, sewer lines and water leaks; pipeline construction management services; construction of transportation facilities in the framework of transportation engineering; construction project management [construction supervision] relating to transportation facilities in the framework of transportation engineering; maintenance of transportation facilities in the framework of transportation engineering; land reclamation services; road traffic control and traffic management services, namely installation and maintenance of road traffic barricades and road traffic signs; maintenance services, namely, maintaining of apparatus and installations for external networks utilized in public utility infrastructure.

Class 39:

Energy distribution, heat distribution, water distribution and waste collection in the context of management and supervision of public utility projects and services; infrastructure management, namely public utility services in the nature of electrical power and energy distribution, natural gas distribution, potable water distribution, collection of

storm water and sanitary water, and solid waste collection; transportation services, namely, transportation planning of roads and railways; public utility services in the form of electricity distribution, natural gas distribution and water distribution; road traffic control and traffic management services, namely providing road and traffic information; road traffic control and traffic management services, namely rental of road traffic barricades and road traffic signs.

Class 40:

Energy generation, water generation and soil, waste or water treatment services [environmental remediation services] in the framework of management and supervision of infrastructure projects.

Class 42:

Software as a service (SaaS) featuring software for gathering, entering, storing, tracking, reviewing, organizing and analyzing information in the field of cleaning, maintaining, repairing and sanitizing buildings, vehicles and equipment, and for generating reports and displaying information in the field of cleaning, maintaining, repairing and sanitizing buildings, vehicles and equipment; software as a service (SaaS) featuring software for database management; software as a service (SaaS) featuring software in the field of project management and cost management of construction projects; software as a service (SaaS) featuring software for image processing; software as a service (SaaS) featuring software in the field of analyzing and evaluating railway operations and railway technology; software as a service (SaaS) featuring software for controlling, operating and managing railways and railway technology; software as a service (SaaS) featuring software for creating searchable databases; software as a service (SaaS) featuring software for global positioning systems; software as a service (SaaS) featuring software for the collection, entering, storing, tracking, reviewing, organizing and analyzing statistical data in the field of operations, design and maintenance of railways and railway technology; software as a service (SaaS) featuring software for providing access to electronic publications in the field of railways and railway technology; engineering services in the fields of aerospace engineering, chemical engineering, mechanical engineering, electrical engineering, environmental engineering, geotechnical engineering, highway engineering, mining engineering, sanitation engineering, software design engineering, structural engineering, telecommunications hardware engineering, telecommunications software engineering, traffic engineering, and water management engineering; environmental assessment services; environmental monitoring services; consulting services relating to design services in urban redevelopment; engineering services relating to urban redevelopment; geological surveying; mineral and oil assaying; consultation and research in the field of geology; consulting services relating to planning of aviation infrastructure systems; material testing services; design of industrial spaces, namely, technical design, mechanical design and drafting of construction plans for buildings; engineering project management in the field of telecommunication networks, namely, in the field of fiber optic cables, telephone lines and radio, and microwave and satellite networks, for others; provision of consulting services, namely, environmental assessments to evaluate the significance of environmental hazards on municipal, suburban, rural and urban land, water and air; consultancy services relating to research in the field of environmental protection in the mining industry; consultancy
