

**Printed list of National Trade marks accepted  
for opposition purposes as shown in Trade  
Marks Journal No 2025/044 published 31  
October 2025 .**

**Please note that the opposition period for the trade marks contained in  
this printed list began on 31 October 2025 .**

# Printed List of Applications Published for Opposition Purposes Under the 1994 Act

---

**UK00004278638** 15 October 2025  
(35, 36, 41)

## DEVIL'S KITCHEN

Class 35:  
Arranging, organising and producing team building events.

Class 36:  
Fundraising for charitable purposes.

Class 41:  
Arranging, organising and producing competitions, contests, games, team building events and corporate hospitality.

**Hey Smile Foundation**

---

**UK00004279337** 16 October 2025  
(9, 16, 35, 41)

## FOLIO BOOKS

Class 9:  
Downloadable electronic publications; mobile phone applications and software, computer software for portable and handheld digital electronic devices; audio books, electronic books, downloadable digital media and podcasts.

Class 16:  
Books; printed publications; magazines; leaflets; pamphlets; journals; printed matter.

Class 35:  
Retail and online retail services relating to downloadable electronic publications, mobile phone applications and software, computer software for portable and handheld digital electronic devices, audio books, electronic books, downloadable digital media and podcasts, books, printed publications, magazines, leaflets, pamphlets, journals and printed matter.

Class 41:  
Publishing services; publication of newsletters and magazines; providing online electronic publications.

**The Folio Society Limited**

**Class 7:**

Industrial robots; robots with artificial intelligence (AI); automatic tool changers for industrial robots.

**Class 9:**

Downloadable middleware for software application integration; computer hardware, namely, laptops, notebook computers, portable computers, servers; downloadable cloud-computing software for deploying and managing virtual machines on a cloud platform; downloadable computer networking software; downloadable computer operating software; downloadable computer software for database management; downloadable computer software for use as an application programming interface (API); recorded application programming interface (API) software; downloadable software for business intelligence, workflow management, and market data analysis; downloadable enterprise database software and search engine software; downloadable computer software using artificial intelligence (AI) software for machine learning, facial and speech recognition; downloadable chatbot software using artificial intelligence (AI) for simulating conversations; downloadable Graphical User Interface (GUI) and factory automation software for use in integration, tracking, and reporting; downloadable virtual private network operating software (VPN); downloadable computer software for encryption; downloadable computer software for cybersecurity; downloadable computer software for document management; downloadable software for data processing, search engine optimization, and analytics; downloadable cloud and mobile applications software using artificial intelligence (AI); wireless communication device featuring voice, data and image transmission including voice, text and picture messaging, a video and still image camera, also functional to purchase music, games, video and software applications over the air for downloading to the device; downloadable software for connecting, operating, and managing networked cars, kitchen appliances, HVAC systems in the internet of things (IoT); smart home hubs comprised of voice-activated speakers, computer hardware, and downloadable software for controlling networked devices in the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms; downloadable software for remote control of household electrical appliances; humanoid robots with artificial intelligence for preparing beverages; downloadable project management software; downloadable pattern recognition software for identifying human faces, sorting spam e-mails; downloadable file sharing software; downloadable software for inventory management; downloadable software for routing customer support and customer service telephone calls; downloadable software for creating advertising layout; downloadable business process management software; downloadable software for programming

***List of cases accepted for opposition purposes as shown in Journal 2025/044 published on 31 October 2025 .***

physical movements for use in robots; downloadable software using artificial intelligence (AI) for speech recognition for use in robots; downloadable operating system software for robots; downloadable software for machine learning for use in robots; downloadable game software for use in virtual environments; humanoid robots with artificial intelligence for preparing drinks; humanoid robots with artificial intelligence for assisting humans in hotel concierge duties and tasks; humanoid robots with artificial intelligence for taking customer orders and serving drinks in bars; downloadable software for lighting control; humanoid robots with artificial intelligence for use in scientific research; downloadable software for creating, modifying, and sharing images files of virtual goods; downloadable software for analyzing market information; downloadable basic Input/Output System (BIOS) software; downloadable data compression software; downloadable computer game software for use on mobile and cellular phones; downloadable computer software for processing digital images; downloadable computer software to maintain and operate computer system; downloadable computer programs and computer software for electronically trading securities; downloadable computer software and firmware for operating system programs; downloadable communication software to access data stored on an oximeter and transfer data to another device; downloadable computer software for authorising access to data bases; downloadable computer software for producing financial models; telecommunications hardware and recorded software for monitoring and alerting remote sensor status via the Internet sold as a unit; computer hardware and recorded software for setting up and configuring local area networks sold as a unit; computer hardware and recorded software for setting up and configuring wide area networks sold as a unit; downloadable gesture recognition software; downloadable network video recording software for IP (Internet Protocol) video surveillance; downloadable LAN (local area network) operating software; downloadable decoder software; downloadable software for processing images, graphics and text; downloadable software for ensuring the security of electronic mail; downloadable communication software for providing access to the Internet; downloadable software for configuring, quoting and ordering electrical distribution products; downloadable computer software for wireless content delivery; downloadable computer software for organizing and viewing digital images and photographs; downloadable computer software for controlling self-service terminals; downloadable computer chatbot software for simulating conversations; downloadable computer software for administration of computer local area networks; downloadable anti-piracy software; downloadable enterprise software in the nature of a database for non-transactional data and a search engine for database content; downloadable network access server operating software; downloadable computer programs using artificial intelligence (AI) for use in software development, machine learning, facial and speech recognition; home automation hubs using artificial intelligence (AI) comprised of voice-activated speakers, computer hardware, and recorded software for controlling networked devices in the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms; smart home hubs using artificial intelligence (AI) comprised of voice-activated speakers, computer hardware, and recorded software for controlling networked devices in the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms; home automation hubs using artificial intelligence (AI) comprised of voice-activated speakers, computer hardware, and downloadable

software for controlling networked devices in the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms; downloadable chatbot software using artificial intelligence (AI) for replying to questions from online retail store customers related to consumer goods, scheduling doctor's appointments, making hotel reservations; downloadable mobile applications using artificial intelligence (AI) for home automation.

Class 12:

Autonomous (driverless) vehicles; automatic guided vehicles.

Class 35:

Analyzing and compiling business data; business data analysis and statistical evaluations; compilation, systematization, and management of computerized databases; data processing services; providing consumer product information for selecting artificial intelligence (AI) hardware and software; marketing services rendered using artificial intelligence (AI); statistical evaluations of marketing data; updating and maintenance of data in computer databases; systematization of data in computer databases; compilation and systematization of information in databanks; information and data compiling and analyzing relating to business management; collection and systematization of information into computer databases; management and compilation of computerized databases; computerized database management; database management.

Class 37:

Installation, maintenance, and repair of computer hardware, networking hardware, and servers; information technology consultancy relating to installation, maintenance, and repair of computer hardware; upgrading of computer hardware; providing technical support, namely, technical advice concerning the installation, repair and maintenance of electric or electronic apparatus, equipment and devices used for automated or partly automated industrial operations; maintenance of electronic apparatus; installation and repair of electrical appliances; installation, maintenance and repair of computer hardware and peripherals; installation, maintenance and repair of computer hardware for electronic data processing systems; installation, maintenance and repair of computer hardware for telecommunications systems; installation, maintenance and repair of computers and computer peripherals; maintenance and repair of data processing apparatus; installation and repair of computers; providing information relating to the repair or maintenance of telecommunication machines and apparatus; maintenance of consumer electrical appliances; installation, maintenance and repair of computer network and information technology equipment; installation, maintenance and repair of electronic data processing apparatus; repair and maintenance of computer and telecommunications equipment; maintenance and repair of electronic apparatus; computer installation and repair; maintenance and repair of computer hardware; information technology consultancy relating to installation, maintenance and repair of computer hardware; outsource service provider in the field of information technology consulting relating to installation, maintenance and repair of computer hardware; outsource service providers in the field of information technology relating to installation, maintenance and repair of computer hardware; refurbishing of computers; repair of network servers; maintenance and repair of computer networking hardware; installation of computer networking hardware.

Class 38:

***List of cases accepted for opposition purposes as shown in Journal 2025/044 published on 31 October 2025 .***

Electronic data transmission and telecommunication services; digital network telecommunications services; peer-to-peer and internet-based data transmission; electronic transmission of voice, data, graphics, images, audio and video; providing access to chatrooms; telecommunications consultation; transfer of data by telecommunication; telecommunication services, namely, providing electronic message alerts via the internet; electronic transmission of messages; electronic transmission of mail and messages; electronic transmission of data and documents via computer terminals and electronic devices; electronic transmission of messages via chat sessions.

**Class 41:**

Teaching and training in information technology and artificial intelligence (AI); business training consultancy services; computer education training services; online library services; providing science educational mentoring services and programs; teaching and training in business, industry and information technology; on-line library services, namely, providing electronic library services which feature newspapers, magazines, photographs and pictures via an on-line computer network.

**Class 42:**

Computer services, namely, cloud hosting provider services; SaaS (Software as a Service); AIaaS (Artificial Intelligence as a Service); design and development of computer hardware; design and development of artificial intelligence (AI) software; design, development, and research of software and hardware; research and development in artificial intelligence (AI), deep learning, natural language understanding; providing non-downloadable artificial intelligence (AI) software; providing non-downloadable artificial intelligence (AI) software for machine learning, natural language processing, and facial and speech recognition; cloud storage services for electronic data; technology consultation in the field of artificial intelligence (AI); technology consultation in the field of IT infrastructure; Application Service Provider (ASP) using artificial intelligence (AI); advanced product research in the field of artificial intelligence (AI); technical consulting in artificial intelligence (AI) software customization; providing a web site that features information on computer technology and programming; design and development of on-line computer software systems; consulting services in the field of office and workplace automation; design and writing of computer software; technical support services, namely, technical administration of servers for others and troubleshooting in the nature of diagnosing server problems; consulting services in the field of software as a service (SAAS); business technology software consultation services; computer software design; research and development of computer software; developing computer software; software design and development; research services in the field of information and telecommunications technology; consulting in the field of configuration management for computer hardware and software; consulting services in the field of providing online, non-downloadable software and applications; providing information in the fields of technology and software development via an on-line website; developing and updating computer software; providing online non-downloadable computer networking software; rental of computer software for collecting, analyzing and organizing data in the field of deep learning; providing temporary use of online non-downloadable computer software for collecting, analyzing and organizing data in the field of deep learning; intelligent natural language understanding services using cloud-based software technology; research in the field of artificial intelligence; product development; providing temporary use of online

non-downloadable computer chatbot software for simulating conversations; research in the field of deep learning; research in the field of artificial intelligence technology; research in the field of artificial intelligence (AI); technology consultation in the field of artificial intelligence (AI); technical consulting in the field of monitoring technological functions of humanoid robots with artificial intelligence (AI); rental of humanoid robots with artificial intelligence (AI); technical consulting in the field of artificial intelligence (AI) hardware customization; consultancy in the field of artificial intelligence (AI) technology.

**Class 3:**

Dentifrices; Cosmetics; Scouring preparations [cleanser]; Soaps and detergents; Laundry bleach; Fabric softeners for laundry use; Laundry starch; Funori [seaweed gelatine for laundry use]; Shoe cream; Shoe black [shoe polish]; Incense; Air fragrancing preparations; Abrasive paper [sandpaper]; Abrasive cloth; Abrasive sand; Artificial pumice stone; Polishing paper; Perfumery; Polishing preparations.

**Class 8:**

Spoons; Forks [cutlery]; Table knives; Bladed or pointed hand tools and swords; Hand tools, hand operated, other than bladed or pointed hand tools; Egg slicers, non-electric; Katsuo-bushi planes [non-electric planes for flaking dried bonito blocks]; Can openers, non-electric; Cheese slicers, non-electric; Pizza cutters, non-electric; Shaving cases; Pedicure sets; Eyelash curlers; Manicure sets; Scissor.

**Class 9:**

Sunglasses; Straps for portable telephones; Straps for camera; Straps for spectacles [eyeglasses and goggles]; Straps for smartphones; Batteries and cells; Parts and accessories for telecommunication machines and apparatus; Portable telephones; Cell phone straps; Personal digital assistants; Smartphones; Covers for smartphones; Cases for smartphones; Electronic machines, apparatus and their parts; Computer programs; Spectacles [eyeglasses and goggles]; Spectacle wipes as accessories of spectacles; Spectacle cases; Game programs for home video game machines; Electronic circuits and CD-ROMs recorded with programs for hand-held games with liquid crystal displays; Phonograph records; Downloadable music files; Recorded audio compact discs; Downloadable image files; Recorded video discs and video tapes; Electronic publications.

**Class 11:**

Portable electric fans; Electric lamps and other lighting apparatus; Household electrothermic appliances; Non-electric cooking heaters for household purposes; Barbecues; Kitchen worktops with integrated sinks for commercial use; Kitchen sinks incorporating integrated worktops for household purposes; Sinks; Household tap-water filters, non-electric; Warming pans, non-electric; Pocket warmers, non-electric; Hot water bottles for warming one's feet in bed.

***List of cases accepted for opposition purposes as shown in Journal 2025/044 published on 31 October 2025 .***

Class 14:

Clocks and watches; Unwrought and semi-wrought precious stones and their imitations; Key rings; Jewellery boxes; Trophies [prize cups] of precious metal; Commemorative shields of precious metal; Personal ornaments [jewellery, jewelry (Am.)]; Medals; Shoe ornaments of precious metal; Table clocks; Wrist watches; Alarm clocks.

Class 16:

Paper. Note books; Pens; Pencils; Erasers; Rulers for stationery and office use; Stationery; Pastes and other adhesives for stationery or household purposes; Containers of paper, for packaging; Garbage bags of paper for household purposes; Banners of paper; Flags of paper; Hygienic hand towels of paper; Towels of paper; Table napkins of paper; Hand towels of paper; Assorted pieces of colored paper [paper toy]; Transfer-pictures [paper toy]; Origami folding paper; Cutout pictures of paper; Chiyogami [assorted pieces of Japanese paper with colorful patterns printed thereon]; Coloring pictures; Printed matter; Paintings and calligraphic works; Addressing machines; Ink ribbons; Automatic stamp affixing machines; Electric staplers for offices; Envelope sealing machines for offices; Stamp obliterating machines; Drawing instruments; Typewriters; Checkwriters; Mimeographs; Relief duplicators; Paper shredders for office use; Franking machines; Rotary duplicators; Bags [pouches] of plastics, for packaging; Pencil sharpening machines, electric or non-electric; Food wrapping plastic film for household purposes; Garbage bags of plastics for household purposes; Baggage tags; Photographs.

Class 18:

Bags; Umbrellas and their parts; Parasols [sun umbrellas]; Pouches; Eco-bags; Leather cloth; Industrial packaging containers of leather; Vanity cases, not fitted; Walking sticks; Canes; Metal parts of canes and walking-sticks; Handles for canes and walking sticks; Casings, of leather, for plate springs; Slings for carrying infants; Boxes of vulcanized fibre; Tool bags, empty; Reins for guiding children; Labels of leather; Clothing for domestic pets.

Class 20:

Industrial packaging containers of wood, bamboo or plastics; Cushions [furniture]; Zabuton [Japanese floor cushions]; Hand-held flat fans; Hand-held folding fans; Furniture; Wind chimes; Artificial model food samples; Pocket mirrors; Pocket mirror bags; Standing photograph frames.

Class 21:

Drinking cups; Cosmetic utensils; Toothbrushes, non-electric; Drinking straws; Chopsticks; Gloves for household purposes; Industrial packaging containers of glass or porcelain; Industrial packaging bottles of plastics; Kitchen implements and containers, not including gas water heaters for household use, non-electric cooking heaters for household purposes, kitchen sinks incorporating integrated worktops for household purpose and kitchen sinks for household purpose; Cleaning tools and washing utensils; Clothes brushes; Soap dispensing bottles; Toilet paper holder; Flower vases; Flower bowls; Shoe brushes; Shoe horns; Shoe shine cloths; Shoe shine sponges and cloths; Shoe-trees [stretchers]; Make-up removing appliances; Stirring rods for hot bath water; Bathroom ladles; Flower pots; Hydroponic plant pots for home gardening; Watering cans.

Class 24:

Handkerchiefs; Towels of textile; Household linen; Baby buntings; Woven textile goods for personal use; Table napkins of textile; Table linen, not of paper; Dish towels for drying; Toilet seat covers of textile; Wall hangings of textile; Cloths for removing make-up; Bath mitts; Labels of textile.

Class 25:

Clothing; Blousons; Tee-shirts; Headgear for wear; Garters; Sock suspenders; Braces [suspenders] for clothing; Waistbands; Belts [clothing]; Footwear [other than special footwear for sports]; Masquerade costumes; Special footwear for sports; Clothes for sports, other than clothes for water sports.

Class 26:

Ornamental novelty badges [buttons]; Badges for wear, not of precious metal; Pinback buttons; Pins, other than jewelry; Shuttles for making fishing nets; Hosiery loom needles; Electric hair curlers; Needles; Metal fittings for bags; Eyelets for clothing; Tapes [haberdashery]; Ribbons; Knitted raschel lace fabrics; Embroidery lace fabrics; Tufts and tassels [semi-finished]; Braids; Knitting sticks; Needle-threaders; Sewing boxes; Dressmakers' impressing blades; Sewing thimbles; Pin and needle cushions; Boxes for needles; Artificial flowers; Armband for holding sleeves; Insignias for wear, not of precious metal; Buckles for clothing [clothing buckles]; Brooches for clothing; Obi-dome [special sash clips for obi]; Bonnet pins, not of precious metal; Ornamental adhesive patches for jackets; Brassards; Hair ornaments; Buttons; False beards; False moustaches; Hair curlers, non-electric; Shoe ornaments, not of precious metal; Shoe eyelets; Shoe laces; Metal fasteners for shoes and boots; Human hair.

Class 28:

Amusement machines and apparatus for use in amusement parks; Arcade video game machines; Toys for domestic pets; Printed paper for lot, other than toy; Toys; Dolls; Go games; Shogi games [Japanese chess]; Utagaruta [Japanese playing cards]; Dice; Sugoroku [Japanese dice games]; Cups for dice; Chinese checkers [games]; Chess games; Checkers [checker sets]; Conjuring apparatus; Dominoes; Playing cards; Hanafuda [Japanese playing cards]; Mah-jong; Game machines and apparatus; Billiard equipment; Sports equipment.

Class 29:

Snacks based on foodstuffs of animal origin, as well as vegetables and other horticultural comestible products which are prepared or preserved for consumption; Edible oils and fats; Milk products; Meat for human consumption [fresh, chilled or frozen]; Eggs; Fresh, chilled or frozen edible aquatic animals (not live); Frozen vegetables; Frozen fruits; Processed meat products; Processed seafood products; Processed vegetables and fruits; Aburage [fried tofu pieces]; Kohri-dofu [freeze-dried tofu pieces]; Konnyaku [jelly made from devils' tongue root]; Soya milk; Tofu; Natto [fermented soybeans]; Processed eggs; Pre-cooked curry stew, stew and soup mixes; Ochazuke-nori [dried flakes of laver for sprinkling on rice in hot water]; Furi-kake [dried flakes of fish, meat, vegetables or seaweed]; Name-mono [side-dish made of fermented soybean]; Preserved pulses.

Class 30:

Aromatic preparations for food, not from essential oils; Tea; Prepared coffee and coffee-based beverages; Cocoa [roasted, powdered, granulated, or in drinks]; Ice; Sweets, confectionery and snacks [other than snacks based on foodstuffs of animal origin, as well as vegetables and other horticultural comestible

***List of cases accepted for opposition purposes as shown in Journal 2025/044 published on 31 October 2025 .***

products which are prepared or preserved for consumption]; Bread and buns; Sandwiches; Chuka-manjuh [steamed buns stuffed with minced meat]; Hamburgers [sandwiches]; Pizzas; Hot dog sandwiches; Meat pies; Seasonings [other than spices]; Spices; Ice cream mixes; Sherbet mixes; Unroasted coffee beans; Roasted coffee beans; Cereal preparations; Chocolate spread; Gyoza [Chinese stuffed dumplings, cooked]; Shumai [Chinese steamed dumplings, cooked]; Sushi; Takoyaki [fried balls of batter mix with small pieces of octopus]; Boxed lunches consisting of rice, with added meat, fish or vegetables; Ravioli; Yeast powder; Koji [fermented malted rice]; Yeast; Baking powder; Instant confectionery mixes; Pasta sauce; Sake lees [by-product of rice for food]; Husked rice; Husked oats; Husked barley; Flour.

**Class 31:**

Wreaths of natural flowers for ceremonies or funerals; Fishing baits; Unprocessed hops; Edible aquatic animals, live; Edible seaweeds, unprocessed; Vegetables, fresh; Sugar crops; Fruit, fresh; Malt, not for food; Foxtail millet, unprocessed; Proso millet, unprocessed; Sesame, unprocessed; Buckwheat, unprocessed; Corn [unprocessed grain]; Japanese barnyard millet, unprocessed; Wheat, barley and oats, unprocessed; Rice, unprocessed; Sorghum, unprocessed; Animal foodstuffs; Seeds and bulbs; Trees; Grasses [plants]; Turf, natural; Dried flowers; Seedlings; Saplings; Flowers [natural]; Pasture grass; Bonsai [potted dwarfed trees]; Live mammals, fish [not for food], birds and insects; Silkworm eggs; Cocoons for silkworm breeding; Eggs for hatching; Urushi tree seeds; Rough cork; Palm tree leaves, unworked.

**Class 32:**

Waters [beverages]; Beer; Carbonated drinks [refreshing beverages]; Fruit juices; Vegetable juices [beverages]; De-alcoholized beer; Extracts of hops for making beer; Whey beverages.

**Class 33:**

Sake; Shochu [Japanese white liquor]; Sake substitute; Shirozake [Japanese sweet rice-based mixed liquor]; Naoshi [Japanese liquor]; Mirin [Japanese Shochu-based mixed liquor]; Western liquors in general; Alcoholic fruit beverages; Chuhai [Japanese Shochu-based beverages]; Beer-flavored malt sparkling liquor; Chinese liquors in general; Flavored liquors; Alcoholic beverages, except beer.

**Class 35:**

Advertising and publicity services; Digital advertising services; Organization and production of advertising materials; Outdoor advertising; Providing information concerning commercial sales; Publicity material rental; Providing commercial information and advice for consumers in the choice of products and services; Sales promotion for others; Rental of advertising space; Retail services or wholesale services connected with the sale of woven fabrics and beddings; Retail services or wholesale services connected with the sale of clothing; Retail services or wholesale services connected with the sale of diapers; Retail services or wholesale services connected with the sale of footwear, other than special footwear; Retail services or wholesale services connected with the sale of bags and pouches; Retail services or wholesale services connected with the sale of personal articles; Retail services or wholesale services connected with the sale of foods and beverages; Retail services or wholesale services connected with the sale of liquor; Retail services or wholesale services connected with the sale of meat; Retail services or wholesale

services connected with the sale of sea food; Retail services or wholesale services connected with the sale of vegetables and fruits; Retail services or wholesale services connected with the sale of confectionery, bread and buns; Retail services or wholesale services connected with the sale of rice and cereals; Retail services or wholesale services connected with the sale of milk; Retail services or wholesale services connected with the sale of carbonated drinks [refreshing beverages] and non-alcoholic fruit juice beverages; Retail services or wholesale services connected with the sale of tea, coffee and cocoa; Retail services or wholesale services connected with the sale of processed food; Retail services or wholesale services connected with the sale of two-wheeled motor vehicles; Retail services or wholesale services connected with the sale of bicycles; Retail services or wholesale services connected with the sale of furniture; Retail services or wholesale services connected with the sale of joinery fittings; Retail services or wholesale services connected with the sale of electrical machinery and apparatuses; Retail services or wholesale services connected with the sale of bladed or pointed hand tools, hand tools and metal hardware; Retail services or wholesale services connected with the sale of kitchen equipment, cleaning tools and washing utensils; Retail services or wholesale services connected with the sale of pharmaceutical, veterinary and sanitary preparations and medical supplies; Retail services or wholesale services connected with the sale of cosmetics, toiletries, dentifrices, soaps and detergents; Retail services or wholesale services connected with the sale of flowers [natural] and trees; Retail services or wholesale services connected with the sale of fuel; Retail services or wholesale services connected with the sale of printed matter; Retail services or wholesale services connected with the sale of paper and stationery; Retail services or wholesale services connected with the sale of sports goods; Retail services or wholesale services connected with the sale of toys, dolls, game machines and apparatus; Retail services or wholesale services connected with the sale of musical instruments and records; Retail services or wholesale services connected with the sale of photographic machines and apparatus and photographic supplies; Retail services or wholesale services connected with the sale of clocks, watches and spectacles [eyeglasses and goggles]; Retail services or wholesale services connected with the sale of tobaccos and smokers' articles; Retail services or wholesale services connected with the sale of semi-wrought precious stones and their imitations; Retail services or wholesale services connected with the sale of pets; Business management advisory services relating to franchising; Assistance in franchised commercial business management; Administration of the business affairs of franchises.

**Class 43:**

Providing foods and beverages; Cafeteria services; Preparation and provision of food and drink for immediate consumption; Providing temporary accommodation; Accommodation bureaux services [hotels, boarding houses]; Boarding for animals; Preschooler and infant care at daycare centers; Retirement home; Rental of meeting rooms; Rental of facilities for exhibitions; Rental of Futon and quilts; Rental of pillows; Rental of blankets; Rental of electric hot plates for household purposes; Rental of electric toasters for household purposes; Rental of microwave ovens for household purposes; Rental of cooking equipment for industrial purposes; Rental of kitchen sinks incorporating integrated worktops for commercial use; Rental of kitchen sinks for commercial use; Rental of non-electric cooking heaters for household purposes; Rental of kitchen sinks incorporating integrated worktops for household purposes; Rental of kitchen

Class 9:  
Computer network switches, routers, adapters, and interface devices; wireless access point (WAP) devices; local area network access point devices; gateway routers; wireless communication devices for data, audio, video, or image transmission; computer hardware containing network security functionality, namely, firewalls, data encryption, and interoperability with network security protocols; downloadable or recorded operating system software; downloadable or recorded operating system software that hosts computer software applications and facilitates interactions with other computers and peripherals across enterprise networks; downloadable or recorded computer software, namely, downloadable operating system programs for router management services; downloadable or recorded computer software for managing, operating, designing, implementing, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; downloadable or recorded computer software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of network applications, network programs, computer applications, and computer programs; downloadable or recorded computer software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of routers, network switches, wireless networks access points, wired network access points, network infrastructure, computer infrastructure, and data centers; downloadable or recorded computer software for managing, operating, designing, implementing, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; downloadable or recorded computer software for automation, operation, management, and control of operation of computer infrastructure

***List of cases accepted for opposition purposes as shown in Journal 2025/044 published on 31 October 2025 .***

and networking infrastructure; downloadable or recorded software for management, control, and operation of computer and networking applications; downloadable or recorded computer networking software for the administration, management, and optimization of computer networks; downloadable or recorded software for developing and operating cloud computer networks and applications; downloadable or recorded computer software for routing, switching, transmitting, processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing, switching, security orchestration and management; downloadable or recorded computer software for operating, optimizing, configuring, maintaining, monitoring, managing, and deploying software over cloud computing networks; downloadable or recorded computer software, namely, open network application platforms for the development, deployment, testing, configuration, monitoring, and automation of network applications; downloadable or recorded computer software for providing security functionality in networks, namely, providing firewall filters, access control, virtual private networks (VPN), interoperability with router security protocols, and protection against network intrusion and viruses; downloadable or recorded computer software for computer network security, namely, software for traffic prioritization, secure access control, user identification, encryption, security management, and intrusion prevention; downloadable or recorded computer software for monitoring, analyzing or reporting of network information, data and traffic; downloadable or recorded artificial intelligence and machine learning software for use in computer network management, monitoring, automation, diagnostics, troubleshooting, self-repair, and providing repair recommendations; downloadable or recorded computer software for interconnecting, monitoring, managing, controlling, analyzing, securing and operating local, wide area, wireless networks, and data centers; downloadable or recorded computer software for implementing automation of computer networks, for testing and validating computer networks, for managing and monitoring computer network traffic, and for visualizing, planning, and simulating computer network architecture; downloadable or recorded operating system software using artificial intelligence for router and network infrastructure management; downloadable or recorded operating system software using artificial intelligence that hosts computer software using artificial intelligence applications and facilitates interactions with other computers and peripherals across enterprise networks; downloadable or recorded computer software using artificial intelligence, namely, downloadable operating system programs for router management services; downloadable or recorded computer software using artificial intelligence for managing, operating, designing, implementing, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; downloadable or recorded computer software using artificial intelligence for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of network applications,

network programs, computer applications, and computer programs; downloadable or recorded computer software using artificial intelligence for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of routers, network switches, wireless networks access points, wired network access points, network infrastructure, computer infrastructure, and data centers; downloadable or recorded computer software using artificial intelligence for managing, operating, designing, implementing, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; downloadable or recorded computer software using artificial intelligence for automation, operation, management, and control of operation of computer infrastructure and networking infrastructure; downloadable or recorded software using artificial intelligence for management, control, and operation of computer and networking applications; downloadable or recorded computer networking software using artificial intelligence for the administration, management, and optimization of computer networks; downloadable or recorded software using artificial intelligence for developing and operating cloud computer networks and applications; downloadable or recorded computer software using artificial intelligence for routing, switching, transmitting, processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing, switching, security orchestration and management; downloadable or recorded computer software using artificial intelligence for programming local, wide, and global area networks and network infrastructure in mobile devices, televisions, and other video devices; downloadable or recorded computer software using artificial intelligence for operating, optimizing, configuring, maintaining, monitoring, managing, and deploying software using artificial intelligence over cloud computing networks; downloadable or recorded computer software using artificial intelligence, namely, open network application platforms for the development, deployment, testing, configuration, monitoring, and automation of network applications; downloadable or recorded computer software using artificial intelligence for data security and data protection; downloadable or recorded computer software using artificial intelligence for providing security functionality in networks, namely, providing firewall filters, access control, virtual private networks (VPN), interoperability with router security protocols, and protection against network intrusion and viruses; downloadable or recorded computer software using artificial intelligence for computer network security, namely, software using artificial intelligence for traffic prioritization, secure access control, user identification, encryption, security management, and intrusion prevention; downloadable or recorded computer software using artificial intelligence for monitoring, analyzing or reporting of network information, data and traffic; downloadable or recorded computer software using artificial intelligence for interconnecting, monitoring, managing, controlling, analyzing, securing and operating local, wide area, wireless networks, and data centers; downloadable or recorded secure access

***List of cases accepted for opposition purposes as shown in Journal 2025/044 published on 31 October 2025 .***

service edge (SASE) software using artificial intelligence for data and network security; downloadable or recorded computer software using artificial intelligence for design, deployment, and operation of data center networks and of cloud-computing infrastructure; downloadable or recorded computer software using artificial intelligence for implementing automation of computer networks, for testing and validating computer networks, for managing and monitoring computer network traffic, and for visualizing, planning, and simulating computer network architecture; computer hardware and recorded or downloadable software sold as a unit for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; computer hardware and recorded or downloadable software sold as a unit for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, and troubleshooting of network applications, network programs, computer applications, and computer programs; computer hardware and recorded or downloadable software sold as a unit for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, and troubleshooting of routers, network switches, network infrastructure, and computer infrastructure; computer hardware and recorded or downloadable software sold as a unit for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; computer hardware and recorded or downloadable software sold as a unit for routing, switching, transmitting, processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing and management.

**Class 42:**

Consulting services in the fields of design and implementation of computer networks, cloud computing, data center design, storage design, data center infrastructure, computer network and network infrastructure management, computer network security, computer software, development and use of computer hardware, development and use of computer networking equipment, computer network design, storage design, network security, cloud security, network virtualization, and computer network analytics; consulting services in the field of software scripts for network automation; consulting services for developing computer systems, applications, architecture, and computer hardware, software, and firmware, namely, application development computer software programs; technical support services, namely, troubleshooting in the nature of diagnosing problems for computer hardware for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing,

monitoring, analyzing, virtualizing, and securing of computer networks, local networks, wide-area networks, wired networks, wireless networks, network infrastructure, routers, switches, cloud computer networks, and data centers; technical support services, namely, troubleshooting in the nature of diagnosing problems for computer software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, and securing of computer networks, local networks, wide-area networks, wired networks, wireless networks, network infrastructure, routers, switches, cloud computer networks, and data centers; technical support services in the fields of computer, data, email, web, and network security, namely, monitoring of network systems for technical and computer security purposes; technical support services in the fields of computer software, development, and use of computer hardware, computer networking equipment, telecommunications equipment, computer network design, storage design, cloud computing, network security, cloud security, data center design, and analytics, namely, providing live and online diagnosing of problems, service desk, and help desk services in all of the above-listed fields; design and development of computer software applications for network efficiency improvement, storage design, cloud security, and data center design; design, testing, engineering, and research services relating to computers, telecommunications technology, computer networks, computer software, computer hardware, computer programming, and network security, and advisory services regarding designing, building, testing, engineering, operating, research and development in the above-listed fields; design and development of computer networks, local networks, wide-area networks, wired networks, wireless networks, and devices for network connectivity; testing, analysis, and evaluation of computer networks for the purposes of designing, building, and operation of computer networks; technical management in the field of computer networks; technical consulting in the field of the administration of computer networks; technical management in the field of administration of computer networks for designing, building, testing, engineering, and operating computer networks; consulting services in the field of cloud computing; computer management services, namely, the monitoring, reporting, management of, and automation of data traffic across wireless communications networks and the internet; management of wireless networks for others; computer network assessment for testing, analysis, and evaluation and providing authentication services, namely, restricting unauthorized network access by users without credentials; installation, maintenance, and repair services in regards to computer software in the fields of computer networks, telecommunications, networking, communications, and network security; technical support services, namely, troubleshooting in the nature of repairing computer software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, and securing of local networks, wide-area networks, wireless networks, and wired networks; providing online non-downloadable software for management of artificial intelligence computer networks; providing online non-downloadable software for managing, designing, implementing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing,

***List of cases accepted for opposition purposes as shown in Journal 2025/044 published on 31 October 2025 .***

interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; providing online non-downloadable software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of network applications, network programs, computer applications, and computer programs; providing online non-downloadable software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of routers, network switches, wireless networks access points, wired network access points, network infrastructure, computer infrastructure, and data centers; providing online non-downloadable software for managing, designing, implementing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; providing online non-downloadable software for routing, switching, transmitting, processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing, switching, orchestration, and management; providing online non-downloadable software for providing security functionality in networks, namely, providing firewall filters, access control, virtual private networks (VPN), interoperability with router security protocols, protection against network intrusion and viruses, encryption and authentication of data, data-loss prevention, data recovery, network security, and detection, filtering, analyzing, managing and blocking of electronic communications; providing online non-downloadable software, namely, non-downloadable open network application platforms for the development, deployment, testing, configuration, monitoring, and automation of network applications; providing online non-downloadable software for programming local, wide, and global area networks and network infrastructure in mobile devices, televisions, and other video devices; providing online non-downloadable software for automation, visibility, operation, management, and control of operation of networking infrastructure, and automation, visibility, operation, management, orchestration, and control of operation of computer applications, and services within a computer networking infrastructure; providing online non-downloadable, cloud-based software featuring a virtual assistant for use in managing, monitoring, troubleshooting, and automation of computer networks through artificial intelligence and machine learning; providing online, non-downloadable artificial intelligence and machine learning software for use in computer network management, monitoring, automation, diagnostics, troubleshooting, self-repair, and providing repair recommendations; providing online non-downloadable software for use in hierarchical and distributed network processing, computer network analytics, computer network monitoring, computer network management, data storage, computer network

security, controlling computer network access, data mining, monitoring, analyzing, and controlling machine-to-machine communications and human-machine interaction; providing online non-downloadable software for computer network management, network infrastructure management, information technology infrastructure management, and data center infrastructure management; providing online non-downloadable computer programs for use in accessing and viewing computer network infrastructure and systems; non-downloadable software for managing wireless access points and local area network access points; providing online non-downloadable software for use in edge analytics; platform-as-a-service (PaaS) featuring software for enabling business enterprises, data centers, and telecommunication service providers to deploy, manage, troubleshoot, track and upgrade network software and services; software-as-a-service (SaaS) services featuring software for managing computer networks and telecommunications networks, providing data security, monitoring network performance, and collecting and analyzing network usage data and user, device, application and customer activity data; software-as-a-service (SaaS) services featuring software for connecting, operating, and managing networked devices via wireless or wired networks; software-as-a-service (SaaS) services featuring software for connecting, operating, and managing networked internet of things (IoT) devices; software-as-a-service (SaaS) services featuring software for managing machine-to-machine applications and machine-to-machine networks; providing online non-downloadable software and cloud platforms for machine-to-machine networks for data connectivity, device management, configuration, provisioning, management, integration and control of internet of things (IoT) devices; fog computing services, namely, providing virtual computer systems in which computing resources and application services are distributed as a decentralized computing infrastructure; providing online non-downloadable software and cloud platforms that route and transmit data between connected devices, applications, and data platforms; providing online non-downloadable software and cloud platforms for collecting, connecting, transmitting and analyzing machine-to-machine data from and between connected devices, applications, and computer networks; software-as-a-service (SaaS) services featuring software for designing, planning, provisioning, operating and optimizing computer networks and telecommunications networks; platform-as-a-service (PaaS) services featuring software for designing, planning, provisioning, operating and optimizing computer networks and telecommunications networks; software-as-a-service (SaaS) services featuring software for data security and for monitoring, analyzing and optimizing computer networks and web application performance; platform-as-a-service (PaaS) services featuring computer software platforms for data security and for monitoring, analyzing and optimizing computer networks and web application performance; providing online non-downloadable software for design, deployment, and operation of data center networks and of cloud-computing infrastructure; providing online non-downloadable software for implementing automation of computer networks, for testing and validating computer networks, for managing and monitoring computer network traffic, and for visualizing, planning, and simulating computer network architecture; providing online non-downloadable software using artificial intelligence for managing, designing, implementing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing,

***List of cases accepted for opposition purposes as shown in Journal 2025/044 published on 31 October 2025 .***

viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; providing online non-downloadable software using artificial intelligence for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of network applications, network programs, computer applications, and computer programs; providing online non-downloadable software using artificial intelligence for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of routers, network switches, wireless networks access points, wired network access points, network infrastructure, computer infrastructure, and data centers; providing online non-downloadable software using artificial intelligence for managing, designing, implementing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; providing online non-downloadable software using artificial intelligence for routing, switching, transmitting, processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing, switching, orchestration, and management; providing online non-downloadable software using artificial intelligence for providing security functionality in networks, namely, providing firewall filters, access control, virtual private networks (VPN), interoperability with router security protocols, protection against network intrusion and viruses, encryption and authentication of data, data-loss prevention, data recovery, network security, and detection, filtering, analyzing, managing and blocking of electronic communications; providing online non-downloadable software using artificial intelligence, namely, non-downloadable open network application platforms for the development, deployment, testing, configuration, monitoring, and automation of network applications; providing online non-downloadable software using artificial intelligence for programming local, wide, and global area networks and network infrastructure in mobile devices, televisions, and other video devices; providing online non-downloadable software using artificial intelligence for automation, visibility, operation, management, and control of operation of networking infrastructure, and automation, visibility, operation, management, orchestration, and control of operation of computer applications, and services within a computer networking infrastructure; providing online non-downloadable, cloud-based software featuring a virtual assistant for use in managing, monitoring, troubleshooting, and automation of computer networks through artificial intelligence and machine learning; providing online, non-downloadable artificial intelligence and machine learning software using artificial intelligence for use in computer network management, monitoring, automation, diagnostics, troubleshooting, self-repair, and providing repair recommendations; providing online non-downloadable secure access service edge (SASE) software

using artificial intelligence for data and network security; providing online non-downloadable software using artificial intelligence for use in hierarchical and distributed network processing, computer network analytics, computer network monitoring, computer network management, data storage, computer network security, controlling computer network access, data mining, monitoring, analyzing, and controlling machine-to-machine communications and human-machine interaction; providing online non-downloadable software using artificial intelligence for computer network management, network infrastructure management, information technology infrastructure management, and data center infrastructure management; providing online non-downloadable software using artificial intelligence for computer network management; providing online non-downloadable computer programs using artificial intelligence for use in accessing and viewing computer network infrastructure and systems; non-downloadable software using artificial intelligence for managing wireless access points and local area network access points; providing online non-downloadable software using artificial intelligence for use in edge analytics; platform-as-a-service (PaaS) featuring software using artificial intelligence for enabling business enterprises, data centers, and telecommunication service providers to deploy, manage, troubleshoot, track and upgrade network software and services; software-as-a-service (SaaS) services featuring software using artificial intelligence for managing computer networks and telecommunications networks, providing data security, monitoring network performance, and collecting and analyzing network usage data and user, device, application and customer activity data; software-as-a-service (SaaS) services featuring software using artificial intelligence for connecting, operating, and managing networked devices via wireless or wired networks; software-as-a-service (SaaS) services featuring software using artificial intelligence for connecting, operating, and managing networked internet of things (IoT) devices; software-as-a-service (SaaS) services featuring software using artificial intelligence for managing machine-to-machine applications and machine-to-machine networks; providing online non-downloadable and cloud platforms using artificial intelligence for machine-to-machine networks for data connectivity, device management, configuration, provisioning, management, integration and control of internet of things (IoT) devices; providing online non-downloadable software and cloud platforms using artificial intelligence that route and transmit data between connected devices, applications, and data platforms; providing online non-downloadable software and cloud platforms using artificial intelligence for collecting, connecting, transmitting and analyzing machine-to-machine data from and between connected devices, applications, and computer networks; software-as-a-service (SaaS) services featuring software using artificial intelligence for designing, planning, provisioning, operating and optimizing computer networks and telecommunications networks; platform-as-a-service (PaaS) services featuring software using artificial intelligence for designing, planning, provisioning, operating and optimizing computer networks and telecommunications networks; software-as-a-service (SaaS) services featuring software using artificial intelligence for data security and for monitoring, analyzing and optimizing computer networks and web application performance; platform-as-a-service (PaaS) services featuring computer software platforms using artificial intelligence for data security and for monitoring, analyzing and optimizing computer networks and web application performance; providing online non-downloadable software using artificial

***List of cases accepted for opposition purposes as shown in Journal 2025/044 published on 31 October 2025 .***

intelligence for design, deployment, and operation of data center networks and of cloud-computing infrastructure; providing online non-downloadable software using artificial intelligence for implementing automation of computer networks, for testing and validating computer networks, for managing and monitoring computer network traffic, and for visualizing, planning, and simulating computer network architecture.

software applications (downloadable); instant messaging software; file sharing software; communications software for electronically exchanging and transmitting data, audio, video, images and graphics via computer, mobile, wireless and telecommunication networks; computer software for processing images, graphics, audio, video, and text; downloadable computer software which allows users to participate in web-based meetings and classes, with access to data, documents, images and software applications through a web browser; downloadable computer software for accessing, viewing, and controlling remote computers and computer networks; downloadable cloud-computing software; downloadable cloud-based software; computer software for tracking and evaluating customer and personal behaviour in relation to purchasing decisions; computer software applications for use in relation to environmental conservation, climate change and carbon offsetting; downloadable text files; downloadable electronic data files; downloadable data sets; downloadable open source software; downloadable software for software development and collaboration in the software development process, namely, working with the source code and its browsing, editing, development, enhancement and testing; computer software, downloadable computer software, computer programs, software applications, and software development tools for code development, code editing, code testing, Application Programming Interface (API) selection and integration, code language selection and integration, plugins selection and integration, code deployment and integration; computer software, downloadable computer software, computer programs, software applications, and software development tools for source code repository management, data storage and backup, database management, and facilitating the exchange of information via the Internet featuring collaboration tools; software for facilitating online payments through a payment gateway; software for use in connection with contactless payments; software and software applications for the purpose of allowing merchants to accept contactless mobile commerce transactions, contactless presentation of loyalty credentials, and contactless redemption of coupons, rebates, discounts, vouchers and special offers; software and software applications that allow merchants to deliver coupons, rebates, discounts, vouchers and special offers directly to the mobile telecommunications devices of consumers; computer software for generating, scanning and recognising QR codes; QR code readers; software for mobile phone credit and e-wallet top-up services; computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to blockchain technology, blockchain infrastructure, blockchain cybersecurity, tokenisation of real-world assets, digital assets, digital asset exchange transactions, decentralized finance (DeFi) and integrating traditional financial systems with blockchain technology; computer software, downloadable computer software, computer programs, software applications, and software development tools for electronically creating, accessing, exchanging, trading, transmitting, managing and storing digital assets, digital currencies, cryptocurrencies, stable coins, virtual currencies, digital securities, digital tokens, and digital collectibles, and for facilitating users' ability to view, analyse, record, store, monitor, manage, trade, and exchange the aforesaid assets, as well as manage related payment and exchange transactions; cryptography software; cryptography software for ensuring security and compliance in blockchain transactions; downloadable digital collectibles, namely, art, animation cels, images, photographs, trading

cards, videos and other digital media content; downloadable digital files authenticated by non-fungible tokens [NFTs]; downloadable software to enable the building of applications on the blockchain, interaction with blockchain smart contracts, and asset and information exchange; downloadable software for creating, agreeing, executing, managing and performing smart contracts; downloadable computer software for use as an electronic wallet, a digital wallet and a cryptocurrency wallet; artificial intelligence software; artificial and virtual reality immersion software; artificial intelligence software in the field of humanoid robots and robots working alongside humans; humanoid and collaborative robots with artificial intelligence; robots with artificial intelligence for use in human-machine integration solutions; operating systems for robots; software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; Robotic Process Automation [RPA] software; Intelligent Process automation [IPA] software; downloadable software for controlling and managing embodied artificial intelligence systems, namely humanoid robots and autonomous machines; artificial intelligence apparatus; humanoid robots with artificial intelligence for use in the provision of financial services; artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends and customer support; artificial intelligence software for use in relation to cybersecurity and IT infrastructure protection; computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to artificial intelligence, artificial intelligence driven humanoid robots and robots working alongside humans, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, predictive and prescriptive analytics, process and task automation, computer vision, internet of things (IoT) and smart data discovery; computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to automation of processes and tasks; computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; computer software and application software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; downloadable software for omnichannel marketing solutions; software as a medical device (SaMD), downloadable; online electronic publications (downloadable from the Internet or a computer network or a computer database); downloadable electronic publications in the nature of magazines, articles, brochures, leaflets, datasheets, information and instructional materials in the field of business, e-commerce, information technology, cloud computing, telecommunications, the Internet, business and e-commerce training, business, sales, marketing and financial management; computer peripherals; sim cards; eSIM cards; pocket wifi devices, notebook computers; laptop computers; portable computers; handheld computers; personal digital assistants; personal media players; mobile telephones; smart phones; batteries, battery chargers; computer

***List of cases accepted for opposition purposes as shown in Journal 2025/044 published on 31 October 2025 .***

workstations (not furniture); computer servers; computer and telecommunications networking hardware; computer network adaptors, switches, routers and hubs; wireless and wired modems and communication cards (encoded or magnetic) and devices; laptop holders, computer bags; computer hardware and firmware; automobile navigation system; digital music (downloadable from the Internet); telecommunications apparatus; mouse mats; mobile phone accessories; downloadable games, pictures, motion pictures, movies and music; alarm systems; security cameras; headphones; speakers; Global Positioning System (GPS) apparatus and equipment; computer, electronic and video games programmes and software (including software downloadable from the Internet); liquid crystal displays for telecommunications and electronic equipment; data storage programs; spectacles and sunglasses; electronic signboards; encoded or magnetic payment, bank, credit, debit, cash, charge, telephone and identification cards; electronic book readers; encoded key cards; 3D spectacles; memory cards for video game machines; wearable computers, smart phones, monitors, displays, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, and digital electronic communication devices; downloadable mobile applications and application software for use with wearable computers, smart phones, monitors, displays, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, and digital electronic communication devices; electronic cards and stored value cards; terminals, devices or apparatus for electronic payments and transactions and other contactless interactions with mobile devices; contactless payment terminals; secure online and offline payment transaction systems.

#### Class 35:

Advertising; business management; business administration; office functions; organization, operation and supervision of loyalty and incentive schemes; accountancy; arranging and conducting of trade fairs; data processing; provision of business information; database management; compilation of information into computer databases; business consulting services; business intelligence services; business strategic management services; business strategic management consulting services; arranging and conducting of commercial events; business project management services; market research and business consulting services; business consultancy services relating to facilitating the transaction of business via local and global computer networks by locating and providing referrals for the delivery of a wide variety of business and consumer products and services; dissemination of business information of goods and services of others via local and global computer networks; business consultancy services relating to providing a web site on a global computer network by which third parties can offer and source goods and services, place, determine the status of and fulfil trade leads and orders, enter into contracts and transact business; business consulting services in the field of online payments; business information management, namely, electronic reporting of business analytics relating to payment processing, authentication, tracking, and invoicing; business management, namely, optimization of payments for businesses; business consulting services and project management services in the field of artificial intelligence, artificial intelligence software development and artificial intelligence driven robots; providing computerized online ordering services; advertising of goods and services of others via local and global computer networks; international import and export agency services; rental of advertising space on communication media; the bringing together, for the benefit of others, of a variety of electronic auctioneering and providing online business evaluation relating

thereto services, enabling consumers to conveniently compare and purchase those services; compilation of business directories of third party web sites to facilitate business transactions; business consultancy services relating to operating an electronic marketplace for the buyers and sellers of goods and/or services on a global computer network; business assistance relating to facilitating business transactions via local and global computer networks; corporate management consultancy services; marketing and promotion services; publication of publicity materials; dissemination of advertising materials, updating of advertising materials, compilation of advertisements for use as web pages on the Internet; rental of advertising space; computer data processing; commercial sales, business and promotional information services; auctioneering provided on the Internet; personnel management; provision of commercial sales, business, advertising and promotional information through a global computer network and via the Internet; presentation of goods on communication media for retail purposes; retail, online retail and wholesale services in relation to telephones, smartphones, mobile phone accessories, telecommunications goods, computer hardware, firmware and computer software, payment terminals, devices or apparatus for electronic payments and transactions, artificial intelligence apparatus, humanoid and collaborative robots with artificial intelligence, humanoid robots with artificial intelligence for use in the data processing equipment, sim cards, eSIM cards, computer peripherals, computers, Global Positioning System (GPS) apparatus and equipment, computer workstations, servers, computer and telecommunications networking hardware, computer network adaptors, switches, routers and hubs, wireless and wired modems and communication cards and devices, computer bags, online electronic publications, digital music (downloadable from the Internet), pocket wifi devices, mouse mats, downloadable games, pictures, motion pictures, movies and music, electronic and video games programmes and software (including software downloadable from the Internet), electronic amusement and game apparatus, games and electronic toys, liquid crystal displays for telecommunications and electronic equipment, data storage programs, signboards, and user manuals; buying and selling agency services; selection of goods and procurement of goods for individuals and businesses; ordering services (for others); provision of business statistical information; organization of exhibitions for commercial or advertising purposes; business investigation; business administration services for the processing of sales made on the Internet; business referral services and personnel placement; document reproduction; transcription services; customer relationship management; business management services relating to electronic commerce; business management and administration services relating to sponsorship programmes; charitable services, namely business management and administration of volunteer programmes and community service projects; provision of commercial and business contact information; search engine optimization; web site traffic optimization; pay per click advertising; commercial intermediation services; business management for freelance service providers; negotiation and conclusion of commercial transactions for third parties; updating and maintenance of data in computer databases; promotion of goods and services through sponsorship; sponsorship search; purchasing services; procurement services for others; commercial trading and consumer information services; computerised point-of-sale data collection services; promoting the sale of goods and services by others by awarding points for credit card use or mobile financial software application

***List of cases accepted for opposition purposes as shown in Journal 2025/044 published on 31 October 2025 .***

use; promotional information and advisory services provided to members, subscribers and users of incentive loyalty schemes and reward programs; promoting the sale of goods and services of others by means of contests and incentive award programs; promotional services in the nature of bonus programmes for purchases of selected goods and services, including the supply of benefits in connection with environmentally-conscious purchase and lifestyle choices; provision of advertising, business management and data processing services by the use of artificial intelligence; the bringing together, for the benefit of others, of a variety of goods, namely, virtual and digital currencies, virtual collectibles, blockchain-based non-fungible assets and downloadable files authenticated by non-fungible tokens; provision of an online marketplace for buyers and sellers of non-fungible assets, digital assets, and digital collectibles; operating an online marketplace for buyers and sellers of non-fungible assets, digital assets and digital collectibles; online auction services featuring non-fungible assets, digital assets, and digital collectibles; information, consultancy and advisory services all relating to the aforesaid services.

#### Class 36:

Insurance; financial affairs; monetary affairs; real estate affairs; clearing and reconciling financial transactions via a global computer network; online banking services and financial services; credit card services; processing and transmission of bills and payments thereof, and providing insurance for financial transactions; funds transfer services; transfer of payments for others via the internet; financial services in the nature of bill payment services and processing services; provision of financial information via the Internet; issuing of travel vouchers services; capital investments; financial evaluation [insurance, banking, real estate]; asset management services; financial consultancy and advisory services; securities brokerage services, stock exchange quotation services; stocks and bonds brokerage, financial analysis; debit card services, charge card services and cheque guarantee services; financial clearing services; credit verification via global computer information network; electronic credit risk management services; electronic purchase payment and electronic bill payment services; issuance of stored value cards, charge cards and debit cards; information services relating to finance and insurance, provided online from a computer database or the Internet; agency for collection of gas and electricity fees; charitable fund raising; online payment services; issuing of vouchers; provision of electronic funds transfer services; monetary exchange services, issuance of prepaid cards and tokens of value; remittance services and money transfer services; financial transaction services, namely, providing secure payment and remittance transactions; including all of the aforementioned services provided by electronic means; foreign currency transfer services; foreign currency exchange; currency trading; buying and selling currency; brokerage of currency; financial transactions via blockchain; fundraising and financial sponsorship; brokerage of carbon offsets; financial sponsorship of carbon offset programmes; funding of and investment in emissions reduction projects; investment in emissions reduction funds; provision of loans; providing temporary loans; electronic wallet services (payment services); payment services and transfer of funds by means of payment terminals; financial services, namely, the provision of contactless mobile payments through merchants at retail, online and wholesale locations; financial risk management services; financial transaction analysis, namely, analyzing transactions for payment fraud, illegality and compliance with payment transaction regulations and antifraud and money laundering

controls; providing purchase protection services for goods and services purchased by others via a global computer network and wireless networks, namely, providing fraud reimbursement services in the field of credit card purchases and electronic payment purchases, and providing secure commercial transactions for credit card purchases and electronic payment purchases; reimbursement of funds for disputed items in the field of electronic payment purchases; financial services in relation to and for facilitating the buying, selling, trading and management of digital currency, blockchain tokens, and other digital assets on a trading platform; financial services related to digital wallets and electronic wallets, including secure storage and transaction processing of digital assets; issuance of tokens of value; redeeming the tokens of value of others for payment of goods or services; financial consultancy services related to blockchain technology, digital assets, smart contracts and the integration of traditional and decentralised financial systems; financial services (trading of digital currency, cryptocurrency, stablecoins and virtual currency; financial services relating to digital currency wallet and digital currency storage services; financial services, namely, custodian electronic wallet services in relation to digital currency, cryptocurrency, stable coin, digital payment tokens and virtual currency; Issuance and transfer of stable coins and digital payment tokens; financial services relating to customer loyalty, incentive and reward programs; exchange and redemption services in relation to customer loyalty, incentive and reward programs; providing discount card services and other rebate services as part of a customer loyalty program; providing rebates at participating establishments of others through use of a membership card; consultancy, information and advisory services relating to the aforesaid services.

#### Class 42:

Scientific and technological services and research and design relating thereto, industrial analysis and research services; design and development of computer hardware, software and artificial intelligence software; software as a service (SaaS); blockchain as a service (BaaS); platform as a service (PaaS); infrastructure as a service [IaaS]; encryption, decryption and authentication of information, messages and data; providing user authentication services using biometric, facial recognition, finger print authentication, voice recognition and other types of hardware and software authentication technology for provision of financial services, e-commerce transactions, donations, licensed product tracking and fan engagement; data security services; IT security, protection and restoration; computer security threat analysis for protecting data; provision of security services for computer networks, computer access and computerised transactions; certification (quality control) of data via blockchain; data authentication via blockchain; including all of the aforementioned services for use in connection with payment systems; computer design and development services in connection with transmitting information, data, documents, and images over the Internet; application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) services providing software in the fields of web-based conferencing, audio conferencing, electronic messaging, document collaboration, video conferencing, and voice and call processing; providing online non-downloadable software for facilitating the interoperability of multiple software applications; technical support services relating to computer software and applications provided online, by email and by telephone; computer services, namely, creating an online community for registered users to participate in discussions, get feedback

***List of cases accepted for opposition purposes as shown in Journal 2025/044 published on 31 October 2025 .***

from their peers, form virtual communities, engage in social networking, and exchange documents; computer service relating to creating indexes of information, sites and resources on computer networks; providing search engines; design of mobile telephones and smart phones; design of digital cameras; research, design and product development services in connection with payment terminals and electronic payment systems; technical support services relating to payment terminals and electronic payment systems; computer services, namely computer system administration for others; computer programming; computer integration services; computer analysis services; computer programming in relation to the defence against virus; computer system software services; computer system design; design and development of webpages; hosting webpages for others; hosting computer application software for searching and retrieving information from databases and computer networks; providing technical information at the specific request of end-users by means of telephone or global computer network; consultancy services in relation to computer software; computer services relating to customized searching of computer databases and websites; computer and electronic signal coding and decoding; conversion of physical data and documents into electronic media format; product testing and evaluation services; computer information services; network information services, namely, providing technical information relating to computers and networks in the field of business and e-commerce; provision of computer security risk management programs; computer security information and testing services; quality assurance services; computer services relating to certification of business transactions and preparation of reports therefor; access control to (security services for-) computers, electronic networks and databases; computer security services for data transmission and for transactions via computer networks services; consultancy in the field of data security; technological consultancy concerning securing telecommunications; computerized communication network security services; authentication services for computer security; online authentication of electronic signatures; off-site data backup; electronic data storage; providing information on computer technology and programming via a web site; cartography services; cloud computing; cloud hosting provider services; providing temporary use of non-downloadable cloud-based software and cloud computing software; providing virtual computer systems and virtual computer environments through cloud computing; rental of entertainment software; technical research in the field of carbon offsetting; provision of scientific information, advice and consultancy in relation to carbon offsetting and environmental protection; providing technological information about environmentally-conscious and green innovations; environmental testing, assessment and monitoring services; scientific research in the fields of environmental protection and conservation; research and provision of scientific information in the field of climate change; scientific consultation services relating to fuels, fuel and carbon dioxide emissions and environmental issues; industrial consultation services relating to environmental issues; scientific and technological services relating to recommendation of courses of action to reduce carbon dioxide emission in a cost effective manner; scientific and technological services relating to management of carbon offset programmes; providing non-downloadable open source software; providing temporary use of non-downloadable cloud-based software for software development and collaboration in the software development process, namely, working with the source code and its browsing, editing, development, enhancement and testing;

writing, design and development of computer code; computer software testing, namely, source code review; consulting services in the field of source code and application software development, implementation, maintenance, repair, analysis, security, and optimization; providing non-downloadable software for use in relation to code development, code editing, code testing, Application Programming Interface (API) selection and integration, code language selection and integration, plugins selection and integration, code deployment and integration; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to code development, code editing, code testing, Application Programming Interface (API) selection and integration, code language selection and integration, plugins selection and integration, code deployment and integration; providing non-downloadable software for use in relation to source code repository management, data storage and backup, database management, and facilitating the exchange of information via the Internet featuring collaboration tools; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to source code repository management, data storage and backup, database management, and facilitating the exchange of information via the Internet featuring collaboration tools; designing, creating and hosting of bill payment websites; network information services, namely, providing technical information relating to computers and networks in the field of payments including contactless payments; providing temporary use of online non-downloadable computer software for tracking and analyzing payment activity; providing temporary use of online non-downloadable software to evaluate and detect fraud and illegality in payment transactions, and manage compliance validation; providing non-downloadable software for use in relation to electronic payments and contactless transactions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to electronic payments and contactless transactions; providing non-downloadable software for mobile commerce, loyalty and rewards programs, and digital voucher redemption; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for mobile commerce, loyalty and rewards programs, and digital voucher redemption; providing non-downloadable software for generating, scanning, and recognizing QR codes; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for generating, scanning, and recognizing QR codes; providing non-downloadable software for use as an electronic wallet, digital wallet, and cryptocurrency wallet, and for facilitating top-up services and value storage for such wallets; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use as an electronic wallet, digital wallet, and cryptocurrency wallet, and for facilitating top-up services and value storage for such wallets; providing non-downloadable software for use in relation to blockchain technology, blockchain infrastructure, blockchain cybersecurity, tokenisation of real-world assets, digital assets, digital asset exchange transactions, decentralized finance (DeFi) and integrating traditional financial systems with blockchain technology; Software as a Service (SaaS), Platform as a Service (PaaS) and Infrastructure as a Service (IaaS) featuring software for use in relation to blockchain technology, blockchain cybersecurity, tokenisation of real-world assets, digital assets, digital asset exchange transactions, decentralized finance (DeFi) and integrating traditional financial systems with blockchain technology; providing non-downloadable software for electronically creating, accessing, exchanging, trading, transmitting, managing, storing, sending, receiving, and

***List of cases accepted for opposition purposes as shown in Journal 2025/044 published on 31 October 2025 .***

accepting digital assets, digital currencies, cryptocurrencies, stable coins, virtual currencies, digital securities, digital tokens, and digital collectibles, and for facilitating users' ability to view, analyse, record, store, monitor, manage, trade, and exchange these assets, as well as manage related payment and exchange transactions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for electronically creating, accessing, exchanging, trading, transmitting, managing, storing, sending, receiving, and accepting digital assets, digital currencies, cryptocurrencies, stable coins, virtual currencies, digital securities, digital tokens, and digital collectibles, and for facilitating users' ability to view, analyse, record, store, monitor, manage, trade, and exchange these assets, as well as manage related payment and exchange transactions; providing non-downloadable cryptography software for ensuring security and compliance in blockchain transactions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring cryptography software for ensuring security and compliance in blockchain transactions; providing non-downloadable software to enable the building of applications on the blockchain, interaction with blockchain smart contracts, and asset and information exchange; Software as a Service (SaaS), Platform as a Service (PaaS) and Infrastructure as a Service (IaaS) featuring software for the building of applications on the blockchain, interaction with blockchain smart contracts, and asset and information exchange; providing non-downloadable artificial intelligence software, artificial and virtual reality immersion software, and artificial intelligence software in the field of humanoid robots and robots working alongside humans; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring artificial intelligence software, artificial and virtual reality immersion software and artificial intelligence software in the field of humanoid robots and robots working alongside humans; providing non-downloadable software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; providing non-downloadable Robotic Process Automation [RPA] and Intelligent Process automation [IPA] software; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring Robotic Process Automation [RPA] and Intelligent Process automation [IPA] software; providing non-downloadable software for controlling and managing embodied artificial intelligence systems, namely artificial intelligence apparatus, humanoid robots and autonomous machines; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for controlling and managing embodied artificial intelligence systems, namely artificial intelligence apparatus, humanoid robots and autonomous machines; providing non-downloadable artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends, customer support, cybersecurity and IT infrastructure protection, Software as a Service (SaaS) and Platform as a Service (PaaS) featuring artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends, customer support, cybersecurity and IT infrastructure protection; providing non-downloadable software for use in relation to artificial intelligence, artificial intelligence driven humanoid robots and robots working alongside humans, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, predictive and prescriptive analytics, process and task automation, computer

vision, internet of things (IoT) and smart data discovery; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to artificial intelligence, artificial intelligence driven humanoid robots and robots working alongside humans, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, predictive and prescriptive analytics, process and task automation, computer vision, internet of things (IoT) and smart data discovery; providing non-downloadable software for use in relation to process and task automation, business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to process and task automation, business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; providing non-downloadable software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; providing non-downloadable software for the provision of omnichannel marketing solutions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for the provision of omnichannel marketing solutions; design and development of medical technology and related computer software; design and development of artificial intelligence apparatus and humanoid robots; technical development services in the field of artificial intelligence and software engineering; research in the field of artificial intelligence and humanoid robots and robots working with humans; advanced product research in the field of artificial intelligence; providing artificial intelligence computer programs on data networks; Infrastructure as a Service [IaaS] for the provision of artificial intelligence; hosting of websites for the provision of artificial intelligence; consultancy, information and advisory services relating to the aforesaid services.
