Cleaning preparations for the cleaning of laboratory apparatus and devices; cleaning preparations for the cleaning of cell culture devices, in particular for the cleaning of cell culture dishes, cell culture chambers, cell culture bottles, plates with multi-well arrays for use in chemical analysis, biological analysis or examinations for scientific, laboratory or medical research, cell culture trays, cell culture plates, cell culture flasks and/or multi-well plates; cleaning preparations for the cleaning of laboratory containers; cleaning preparations for the cleaning of pipette modules for laboratory use; cleaning preparations for the cleaning of feeders for pipettes for laboratory use; cleaning preparations for the cleaning of pipettes for laboratory use; cleaning preparations for the cleaning of pipette tips for laboratory use; cleaning preparations for the cleaning of pipette holders for laboratory use; cleaning preparations for the cleaning of pipette carriers for laboratory use; cleaning preparations for the cleaning of reusable dispenser syringes for laboratory use; cleaning preparations for the cleaning of automatic pipette stations for laboratory use; cleaning preparations for the cleaning of liquid-handling workstations for scientific research and laboratories; cleaning preparations for multi-well plates; cleaning preparations for the cleaning of magnetic beads used in laboratories or in the biotechnological industry; cleaning preparations for the cleaning of magnetic beads used for non-medical scientific and research purposes; cleaning preparations for the cleaning of soluble analytes bound to magnetic beads; cleaning preparations for the cleaning of soluble chemical, biochemical or biological analytes bound to magnetic beads.

Class 7:

Machines for washing laboratory apparatus; machines for the cleaning, washing and/or elution of laboratory devices; machines for the cleaning and/or washing and/or elution of cell culture devices, in particular for the cleaning and/or washing and/or elution of cell culture dishes, cell culture chambers, cell culture bottles, plates with multi-well arrays for use in chemical analysis, biological analysis or examinations for scientific, laboratory or medical research, cell culture trays, cell culture plates, cell culture flasks and/or multi-well plates; machines for the cleaning, washing and/or elution of plastic laboratory goods; machines for the cleaning and/or washing and/or elution of plastic laboratory goods containing magnetic beads used in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; machines for the cleaning and/or washing and/or elution of multi-well plates; machines for the cleaning and/or washing and/or elution of multi-well plates containing magnetic beads used in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; machines for the cleaning and/or washing and/or elution of magnetic beads used in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; machines for the cleaning and/or washing and/or elution of soluble analytes bound to magnetic beads, in particular for the cleaning and/or washing and/or elution of soluble chemical, biochemical or biological analytes bound to magnetic beads; machines having magnets for the cleaning and/or washing and/or elution of soluble analytes bound to magnetic beads under the pneumatic derivation of washing liquid and/or eluates by means of excess

pressure through a capillary, in particular for the cleaning and/or washing and/or elution of soluble chemical, biochemical or biological analytes bound to magnetic beads; machines for the supply of liquids to and/or the removal of liquids from laboratory devices; machines for the pneumatic supply of liquids to and/or the removal of liquids from laboratory devices; machines for the supply of liquids to and/or the removal of liquids from cell culture devices, in particular cell culture dishes, cell culture chambers, cell culture bottles, plates with multi-well arrays for use in chemical analysis, biological analysis or examinations for scientific, laboratory or medical research, cell culture trays, cell culture plates, cell culture flasks and/or multi-well plates; machines for the pneumatic supply of liquids to and/or the removal of liquids from cell culture devices, in particular cell culture dishes, cell culture chambers, cell culture bottles, plates with multi-well arrays for use in chemical analysis, biological analysis or examinations for scientific, laboratory or medical research, cell culture trays, cell culture plates, cell culture flasks and/or multi-well plates; machines for the supply of liquids to and/or the removal of liquids from plastic laboratory goods; machines for the pneumatic supply of liquids to and/or the removal of liquids from plastic laboratory goods containing magnetic beads used in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; machines for the pneumatic supply of liquids to and/or the removal of liquids from plastic laboratory goods containing magnetic beads used in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; machines for the supply of liquids to and/or the removal of liquids from multi-well plates; machines for the pneumatic supply of liquids to and/or the removal of liquids from multi-well plates containing magnetic beads used in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; machines for the pneumatic supply of liquids to and/or the removal of liquids from multi-well plates containing magnetic beads used in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; parts and accessories for all the aforesaid goods, included in this class; automated devices for cleaning, washing and conditioning laboratory equipment for analytical use.

Class 9:

Measuring, detecting and monitoring instruments, indicators and controllers; apparatus for scientific research and laboratories; scientific, optical, analytical, measuring, dosing, diagnostic and checking (supervision) apparatus and instruments; laboratory apparatus and instruments for process analytics, not for medical purposes; laboratory apparatus and instruments for biopharmaceutical process applications, not for medical purposes; laboratory apparatus and instruments for media and buffer preparation, not for medical purposes; laboratory apparatus and instruments for DNA and RNA preparations and isolation, not for medical purposes; laboratory apparatus and instruments for processing, reproduction, purification and isolation of nucleic acids, not for medical purposes; laboratory apparatus and instruments for the magnetic separation of nucleic acids, not for medical purposes; laboratory apparatus and instruments for sample preparation and processing in analytical laboratories; diluters for sample preparation and processing in analytical laboratories; dispensers

for sample preparation and processing in analytical laboratories; diluter and dispenser systems for sample preparation in analytical laboratories; scientific dispensers included in this class; sampling devices for laboratory use and scientific purposes; automated sampling devices for laboratory use and scientific purposes; metering apparatus for the pneumatic production of droplets of liquid; laboratory apparatus and instruments for automated refilling of reagents; pipetting devices for aspirating and dispensing dosing liquids for laboratory use and scientific purposes; pipettors; automatic pipetting work stations; liquid handling workstations for scientific research and laboratories; automated pipettes; pipettes; pipette tips; pipette accessories, namely pipette holders, pipette carriers and pipette stands; pipette racks for laboratory use; holders for pipette carriers for laboratory use; reusable dispenser syringes for laboratory use; disposable dispenser syringes for laboratory use; scientific syringes and syringes for use in chemistry; syringe needles for laboratory use; syringe pumps for laboratory use; vacuum apparatus for laboratory use; vacuum stations for laboratory use; liquid containers for use in laboratories; sample carrier plates for laboratory use; multiwell plates for laboratory use; magnets, magnetizers and demagnetizers; laboratory apparatus for the controlled elution or purification of cell culture devices, in particular cell culture dishes, cell culture chambers, cell culture bottles, plates with multi-well arrays for use in chemical analysis, biological analysis or examinations for scientific, laboratory or medical research, cell culture trays, cell culture plates, cell culture flasks and/or multi-well plates; laboratory apparatus for the controlled elution or purification of plastic laboratory goods; laboratory apparatus for the controlled elution or purification of plastic laboratory goods containing magnetic beads used in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; laboratory apparatus for the controlled elution or purification of multi-well plates; laboratory apparatus for the controlled elution or purification of multi-well plates containing magnetic beads used in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; laboratory apparatus for the controlled elution or purification of magnetic beads used in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; laboratory apparatus for the controlled elution or purification of magnetic beads used for the sample preparation or the extraction or analysis of nucleic acids or proteins, in particular for the analysis of dna in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; laboratory apparatus for the controlled elution or purification of soluble analytes bound to magnetic beads, in particular for the controlled elution of soluble chemical, biochemical or biological analytes bound to magnetic beads for the sample preparation or the extraction or analysis of nucleic acids or proteins, in particular for the analysis of dna; laboratory apparatus having magnets for the controlled elution or purification of soluble analytes bound to magnetic beads under pneumatic derivation of washing liquid and/or eluates by means of excess pressure through a capillary, in particular for the elution or purification of soluble chemical, biochemical or biological analytes bound to magnetic beads for the sample preparation or the extraction or analysis of nucleic acids or proteins, in particular for the analysis of dna; laboratory apparatus for the supply of liquids to and/or the removal of liquids from laboratory devices; laboratory apparatus for the pneumatic supply of liquids to and/or the removal of liquids

from laboratory devices; laboratory apparatus for the supply of liquids to and/or the removal of liquids from cell culture devices, in particular cell culture dishes, cell culture chambers, cell culture bottles, plates with multi-well arrays for use in chemical analysis, biological analyses or examinations for scientific, laboratory or medical research, cell culture trays, cell culture plates, cell culture flasks and/or multi-well plates; laboratory apparatus for the pneumatic supply of liquids to and/or the removal of liquids from cell culture devices, in particular cell culture dishes, cell culture chambers, cell culture bottles, plates with multi-well arrays for use in chemical analysis, biological analyses or examinations for scientific, laboratory or medical research, cell culture trays, cell culture plates, cell culture flasks and/or multi-well plates; laboratory apparatus for the supply of liquids to and/or the removal of liquids from plastic laboratory goods; laboratory apparatus for the pneumatic supply of liquids to and/or the removal of liquids from plastic laboratory goods; laboratory apparatus for the supply of liquids to and/or the removal of liquids from plastic laboratory goods containing magnetic beads used in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; laboratory apparatus for the pneumatic supply of liquids to and/or the removal of liquids from plastic laboratory goods containing magnetic beads used in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; laboratory apparatus for the supply of liquids to and/or the removal of liquids from multi-well plates; laboratory apparatus for the pneumatic supply of liquids to and/or the removal of liquids from multi-well plates; laboratory apparatus for the supply of liquids to and/or the removal of liquids from multi-well plates containing magnetic beads used in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; laboratory apparatus for the pneumatic supply of liquids to and/or the removal of liquids from multi-well plates containing magnetic beads used in laboratories or in the biotechnological industry or for non-medical scientific and research purposes; multi-well plate carriers having magnets for use in laboratory apparatus; cell culture devices, in particular cell culture dishes, cell culture chambers, cell culture bottles for use in chemical analysis, biological analyses or examinations for scientific, laboratory or medical research, cell culture trays, cell culture plates, cell culture flasks and/or multi-well plates; computer software; computer software for laboratory apparatus; computer software for medical use; computer software for the operation of cleaning and/or washing machines for the cleaning, washing and/or elution of laboratory devices, magnetic beads used in laboratories or in the biotechnological industry or for non-medical scientific and research purposes or medical and medical diagnostic purposes and magnetic beads for the sample preparation or the extraction or analysis of nucleic acids or proteins, in particular for the analysis of DNA; application software; application software for mobile phones; application software for wireless and wired apparatus; downloadable software applications for use with mobile and wired apparatus; parts and accessories for all the aforesaid goods, included in this class; machines, namely laboratory robots.

Class 10:

Medical, dental, veterinary, medical electric and surgical apparatus and instruments; medical apparatus and equipment, namely laboratory apparatus for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the elution or purification of

List of cases accepted for opposition purposes as shown in Journal 2026/016 published on 17 April 2026 .

laboratory devices for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the elution or purification of cell culture devices, in particular for the elution or purification of cell culture dishes, cell culture chambers, cell culture bottles, plates with multi-well arrays for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the elution or purification of cell culture devices, in particular for the elution or purification of cell culture dishes, cell culture chambers, cell culture bottles, plates with multi-well arrays for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the elution or purification of plastic laboratory goods containing magnetic beads for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the elution or purification of multi-well plates for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the elution or purification of multi-well plates containing magnetic beads for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the elution or purification of magnetic beads for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the elution or purification of magnetic beads used for the sample preparation or the extraction or analysis of nucleic acids or proteins, in particular for the analysis of dna for medical and medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the elution or purification of soluble analytes bound to magnetic beads, in particular for the elution or purification of soluble chemical, biochemical or biological analytes bound to magnetic beads for the sample preparation or the extraction or analysis of nucleic acids or proteins, in particular for the analysis of dna for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus having magnets for the elution or purification of soluble analytes bound to magnetic beads under pneumatic derivation of eluting liquid by means of excess pressure through a capillary, in particular for the elution or purification of soluble chemical, biochemical or biological analytes bound to magnetic beads for the sample preparation or the extraction or analysis of nucleic acids or proteins, in particular for the analysis of dna for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the supply of liquids to and/or the removal of liquids from laboratory devices for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the pneumatic supply of liquids to and/or the removal of liquids from laboratory devices for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the supply of liquids to and/or the removal of liquids from cell culture devices, in particular cell culture dishes, cell culture chambers, cell culture bottles, plates with multi-well arrays, cell culture trays, cell culture plates, cell culture flasks and/or multi-well plates for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the pneumatic supply of liquids to and/or the removal of liquids from cell culture devices, in particular cell culture dishes, cell culture chambers, cell culture bottles, plates with multi-well arrays, cell culture trays, cell culture plates, cell culture flasks and/or multi-well plates for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for

the supply of liquids to and/or the removal of liquids from plastic laboratory goods for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the pneumatic supply of liquids to and/or the removal of liquids from plastic laboratory goods containing magnetic beads for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the pneumatic supply of liquids to and/or the removal of liquids from plastic laboratory goods containing magnetic beads for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the supply of liquids to and/or the removal of liquids from multi-well plates for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the pneumatic supply of liquids to and/or the removal of liquids from multi-well plates for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the supply of liquids to and/or the removal of liquids from multi-well plates containing magnetic beads for medical purposes, for medical diagnostic purposes; medical apparatus and equipment, namely laboratory apparatus for the pneumatic supply of liquids to and/or the removal of liquids from multi-well plates containing magnetic beads, for medical purposes, for medical diagnostic purposes; parts and accessories for all the aforesaid goods, included in this class.
