Class 1:

Absorbents [chemical products for industrial use]; adsorbing chemical products; chemicals for analytical purposes [excluding medical and veterinary]; chemical products for laboratory analysis, excluding those for medical and veterinary purposes; chemicals for use in chromatography; chemical products for industrial purposes as liquid buffers; chemical preparations for scientific purposes, other than for medical or veterinary use; chemical products for absorption; detergents for use in manufacturing processes of diagnostic reagents; diagnostic preparations, other than for medical or veterinary purposes; diagnostic reagents for in vitro applications [excluding medical]; diagnostic reagents, other than for medical laboratory use; diagnostic substances, other than for medical use; diagnostic chemicals for testing antibiotic susceptibility [except for medical purposes]; diagnostic in vivo reagents for scientific purposes; diagnostic preparations for science or research, excluding medical purposes; diagnostic testing materials, other than for medical use; diagnostic reagents for in vitro applications in biochemistry, clinical chemistry and microbiology; diagnostic reagents, other than for medical or veterinary purposes; diagnostic reagents for scientific or research use; diagnostic reagents and preparations for scientific purposes; immunoassay reagents, except for medical purposes; kits for labeling biomolecules, consisting of reagents for scientific purposes; clinical diagnostic preparations, except for medical or veterinary purposes; nucleic acids; nucleic acids for nucleic acid replication processes [except for medical purposes]; polymer beads for use in industrial manufacturing processes; polymers for protein analysis; polymers for use in microtiter plates for scientific purposes [excluding medical or veterinary]; magnetic particles [magbeads] for biological or chemical separation processes [except for medical purposes]; stabilized membrane proteins for scientific research purposes; chemicals for protein purification and stabilization [except for medical or veterinary purposes]; chemical compounds and materials for use in protein purification and stabilization for scientific purposes; chemicals for use in biomolecular purification; reagent kits for performing the enzyme-linked immunosorbent assay [elisa], not for medical or veterinary purposes; reagents for analytical tests [except for medical or veterinary purposes]; reagents for biological processes [except

for medical or veterinary purposes]; reagents for diagnostic tests [except for medical or veterinary purposes]; reagents for laboratories [except for medical or veterinary purposes]; reagents for in vitro laboratory purposes [excluding medical or veterinary purposes]; reagents for use with evacuated ampoules for the analysis of liquids [except for medical or veterinary purposes]; reagents for use in scientific apparatus for chemical or biological analysis; reagents for the amplification of nucleic acids [except for medical purposes]; recombinant nucleic acids; compounds [chemical products] for preparing culture media for scientific purposes; crosslinking agents [chemical products for industrial purposes].

Class 5:

Diagnostic chemical reagents for medical purposes; chemical reagents for medical diagnostic purposes; chemical reagents for medical or veterinary purposes; diagnostic preparations for medical purposes; diagnostic agents for pharmaceutical purposes; diagnostic preparations for veterinary purposes; diagnostic testing materials for medical purposes; diagnostic reagents for medical purposes; clinical-medical reagents; medical diagnostic reagents; reagents for in vitro laboratory tests for medical purposes; reagents for in vitro laboratory purposes [for veterinary purposes]; reagents for microbiological analyses for medical purposes; reagents for microbiological analyses [for veterinary purposes]; reagents for use in analyses for medical purposes; reagents for use in diagnostic tests for medical purposes; reagents for use with analytical instruments for medical purposes; reagents for use with analytical instruments [for veterinary purposes]; diagnostic biomarker reagents for medical purposes.

Class 9:

Physical analysis equipment, except for medical purposes; research laboratory analyzers for measuring, testing and analyzing blood and other bodily fluids; laboratory equipment for the analysis of protein sequences; devices for the detection of proteins for scientific purposes; chromatogram analyzers for scientific or laboratory use; testing apparatus not for medical purposes; biochips; DNA chips; protein chips; diagnostic apparatus, not for medical purposes; regulating apparatus, electric; lasers, not for medical purposes; chemical apparatus and instruments for scientific or industrial purposes; detectors; optical apparatus and instruments; apparatus and instruments for physics; test tubes; probes for scientific purposes; scanners, as far as included in this class; laboratory equipment, namely devices for bioanalysis with cartridges for sample preparation, purification, amplification and/or detection of nucleic acids; disposable items for laboratory equipment namely containers, plastic tubes, sample plates and cartridges; laboratory equipment analytical instruments and their parts, as far as included in this class; scientific, electrotechnical, electronic, optical, measuring, signaling and control apparatus and instruments; data processing equipment and computers, as well as their parts and related peripherals, as far as included in this class; computer software [saved]; computer programs [downloadable]; recorded computer programs; computer software applications, downloadable; parts and accessories for all the aforementioned goods.

pipes of metal for liquid and gas transfer; metal staples for construction or industrial use; drain traps [valves] of metal; water-pipe valves of metal; elbows of metal for flexible pipes; hose fittings of metal; gutters of metal; metal supports for pipes; common metals and their alloys, ores; metal materials for building and construction; transportable buildings of metal; non-electric cables and wires of common metal; small items of metal hardware; metal containers for storage or transport; safes.

Class 9:

Thermostats; remote controls for air-conditioning apparatus; heat regulating apparatus; apparatus and instruments for accumulating and storing electricity; electric control devices for heating management; electrical and electronic control apparatus for use with apparatus or installations for heating; measuring and control devices for air-conditioning technology; electrical and electronic control apparatus for use with apparatus or installations for air-conditioning; electric accumulators [batteries]; accumulators, electric; solar panels for the production of electricity; solar collectors for the production of electricity; home automation hubs; electric control devices for energy management; photovoltaic cells and modules; photovoltaic apparatus and installations for generating solar electricity; photovoltaic installations for generating electricity [photovoltaic power plants]; photovoltaic apparatus for converting solar radiation to electrical energy; photovoltaic inverters; apparatus for monitoring and recording the performance of machinery; downloadable computer software for remote monitoring and analysis; monitoring instruments; climate control digital thermostats; chronothermostats; remote control apparatus; checking [supervision] apparatus and instruments; cloud network monitoring software; downloadable publications; electrical and electronic control apparatus for use with apparatus or installations for ventilation; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems; artificial intelligence software for analysis; artificial intelligence software for surveillance; sensors, detectors and monitoring instruments; software for diagnostics and troubleshooting; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; mechanisms for coin-operated apparatus; cash registers, calculating devices; computers and computer peripheral devices; diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; fire-extinguishing apparatus.

Class 19:

Polyethylene pipes used in geothermal heating and cooling systems; ducts, not of metal, for ventilating and air-conditioning installations; vent covers, not of metal, for HVAC ducts; heating ducts, not of metal; air-conditioning ducts, not of metal; mounting frames, not of metal, for solar panels; secondary moisture drainage systems consisting of non-metal gutters and headers; gratings, not of metal; gutter pipes, not of metal; drain pipes, not of metal; plastic pipes for plumbing

processing sound, images or data; retail, wholesale services, on-line retail services, connected with the sale of recorded and downloadable media, computer software, blank digital or analogue recording and storage media, computers and computer peripheral devices, polyethylene pipes used in geothermal heating and cooling systems, ducts, not of metal, for ventilating and air-conditioning installations; retail, wholesale services, on-line retail services, connected with the sale of vent covers, not of metal, for HVAC ducts, heating ducts, not of metal, air-conditioning ducts, not of metal, mounting frames, not of metal, for solar panels; retail, wholesale services, on-line retail services, connected with the sale of secondary moisture drainage systems consisting of non-metal gutters and headers, gratings, not of metal, gutter pipes, not of metal, drain pipes, not of metal, plastic pipes for plumbing purposes, non metallic rigid tubes for building, water-pipe valves, not of metal or plastic; retail, wholesale services, on-line retail services, connected with the sale of drain traps [valves], not of metal or plastic, roof gutters, not of metal, materials, not of metal, for building and construction, rigid pipes, not of metal, for building, asphalt, pitch, tar and bitumen, transportable buildings, not of metal; advertising; business management, organization and administration; office functions.

Class 37:

Installation, maintenance and repair of measuring, signalling and monitoring apparatus and instruments; installation, maintenance and repair of ventilating systems; air-conditioning apparatus cleaning services; repair and maintenance of cooling appliances and installations; advisory services relating to the installation of heating and cooling apparatus; retrofitting of ventilating installations in buildings; installation, maintenance and repair of heating, ventilating and air-conditioning installations; installation, maintenance and repair of automatic apparatus for opening and closing ventilation flaps; retrofitting of heating, ventilating and air-conditioning installations in buildings; construction services relating to the installation of heating, ventilating and air-conditioning systems; installation, maintenance and repair of heating, air purification, refrigeration, drying, ventilation, temperature control and air-conditioning appliances; routine servicing of heating, refrigerating, air-conditioning, drying, ventilating and dust extraction apparatus, at intervals stipulated by the manufacturer; installation of heating apparatus; repair of energy supply systems and lighting, heating, steam generation, cooking, refrigeration, drying, ventilation, water supply and sanitary purposes appliances; installation of air-conditioning apparatus; installation of air-conditioning systems; repair of air-conditioning apparatus; repair and maintenance of air-conditioning systems; installation of air-conditioning control systems; installation, maintenance and repair of air-conditioning apparatus; providing information relating to the repair or maintenance of air-conditioning apparatus; installation, maintenance and repair of solar installations for generating power, solar collectors and photovoltaic modules; installation, repair and maintenance of condensing apparatus, steam condensers, radiators for motors and engines, air reheaters, boiler tubes; installation, maintenance and repair of compressors, air pumps, vacuum pumps, air blowers, air filters, alternators, pressure regulators and oil separators; installation, maintenance, repair and reconditioning of photovoltaic appliances and power plants; repair of air filtering apparatus; providing advice relating to installation, maintenance and repair services; construction, maintenance, cleaning and repair

services; installation, maintenance and repair of air freshening apparatus; construction services; mining extraction, oil and gas drilling.

Class 41:

Arranging of training courses; electronic publication services; providing electronic publications, not downloadable; providing online electronic publications, not downloadable; publication of documents; conducting of conventions; conducting of educational courses; conducting of classes; arranging of seminars; demonstration for instructional purposes; education; providing of training; entertainment; sporting and cultural activities.

Class 42:

Monitoring of computer systems to detect breakdowns; design and development of software for control, regulation and monitoring of solar energy systems; machine condition monitoring; design and development of energy management software; technical design and planning of heating installations; technical design services relating to heating installations; industrial and graphic art design; scientific research in the field of photovoltaics and solar collectors; technical development of structural elements, devices and systems for solar collectors and photovoltaic plants; design and development of photovoltaic systems; monitoring of computer systems by remote access; monitoring of computer system operation by remote access; providing virtual computer systems through cloud computing; digitization of documents [scanning]; design of diagnostic apparatus; technical design services relating to cooling appliances and installations; technical design, scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software.

Polyurethanes [plastics]; adhesives for industrial purposes; raw, unprocessed synthetic resins; unprocessed plastics.

Class 7:
Machines and machine tools for material processing and production; industrial cleaning machines; machine housings; parts of machines and machine tools; machines for processing and coating large-diameter pipes.

Class 9:
Measuring devices; sensors; computer hardware; downloadable software; optical testing devices for industrial purposes; downloadable electronic databases; downloadable electronic publications.

Class 17:
Extruded plastic materials for use in manufacturing; sealing and insulating materials; flexible non-metallic pipes and hoses; semi-finished plastic materials for use in wind turbines; wear-resistant plastic components, namely semi-finished products made of polyurethane in the form of sheets.

Class 19:
Polyurethane panels for structural use in the foundations of offshore wind turbines for the purpose of load distribution and load dissipation.

Class 35:
Business management consultancy in the field of wind power projects; commercial project management in the field of offshore wind turbines.

Class 37:
Installation, maintenance and repair of wind turbines and their parts; installation, maintenance and repair of equipment for wind turbines and wind power plants; consulting services relating to the installation, maintenance and repair of wind, turbines and associated equipment; laying of polyurethane panels for structural connections.

Class 40:
Custom manufacturing of polyurethane plates; application of wear protection coatings to structural joints; treatment and coating of metal structures; custom application of friction-reducing coatings to offshore components.

Class 42:
Engineering services; structural engineering [engineering services]; industrial research; technical research; technical data analysis; technical project planning; consulting in the field of engineering and technical design; technical measurements and testing; development of simulation models for wind turbine foundations.
