Q-LINE

Class 4:

Industrial oils and greases; lubricants; lubricants for use in industrial processes; lubricants for machines; lubricants for industrial machinery; lubricants for metallic surfaces.

Class 7:

Machine pumps; pumps; pumping apparatus; pumps and pump heads; pumps for machines; oil drain pumps; fluid pumps; electric pumps; high-pressure pumps; pneumatic pumps; lubrication pumps; components of pumps; parts and fitting for all the aforesaid goods.

Class 9:

Control, metering, monitoring and regulating apparatus; metering apparatus for pumps; chemicals metering apparatus; sensors, detectors and monitoring equipment; testing and quality control equipment; controllers and regulators; automatic measuring instruments; contents gauges; dosimeters; instruments for measuring level, speed and pressure of fluids; liquid dosage devices that measure the amounts to be dispensed; quantity indicators; remote reading fluid level indicators; chemicals metering and dosing pumps; chemicals flow meters; parts and fittings for the aforesaid goods.

Class 17:

Flexible pipes and tubing; hosing; flexible hoses; parts and fittings for all the aforesaid goods.

List of cases accepted for opposition purposes as shown in Journal 2026/027 published on 03 July 2026 .

Class 9:

Software and hardware for use in the field of quantum computing, quantum computers and quantum error correction; quantum computers; distributed quantum computers; software for correcting errors in quantum computers; computer operating systems for quantum computers; software for managing quantum computing operations; software for quantum hardware control; quantum control software; computer software for data analytics; computer software for collecting, recording, analysing and managing data from quantum computing experiments, simulations and activities; hardware decoders for quantum computers; software for decoding quantum measurement data; software for simulating quantum circuits; software for quantum circuit generation; software for noise modelling in quantum systems; software for data analytics; quantum computing development software; software for quantum algorithm optimization; software for quantum physics applications; software for managing qubit operations; real-time decoding software; software, hardware, software interfaces and hardware interfaces, all for transferring quantum error correction data between hardware components in quantum computing systems; downloadable software for developing, testing and running logical quantum circuits on computers, hardware and simulators; developing, testing and running logical quantum circuits on computers, hardware and simulators; software for analysing quantum noise sources; quantum computing and quantum error correction analytical software tools; software development kits [SDKs] for use in the field of quantum computing and quantum error correction; software for the management of the execution time of a computer or quantum computer; communication and networking software; quantum computing and quantum error correction emulators; software for quantum hardware integration; software for energy management; software for quantum computing and quantum error correction research; software for cloud-based quantum computing and quantum error correction services; software for quantum computer programming; application software for use in the field of quantum computing and quantum error correction; software and software tools for benchmarking quantum devices; software for quantum fidelity measurement; software for scientific

analysis; software for chemical analysis; software for machine learning applications in quantum computing and quantum error correction; software for quantum simulation; software for managing quantum memory; software for optimizing quantum control sequences; software for controlling quantum computing and quantum error correction hardware; middleware and firmware for quantum computing and quantum error correction; software for performing quantum operations; software for quantum circuit analysis and visualization; software for quantum performance analysis; software for managing, recording and decoding quantum experiments, simulations and activities; hardware decoders for quantum error correction experiments; software for measuring logical fidelity; software and software platforms for performing error correction with data from quantum computing experiments, simulations and activities, for identifying algorithms for performing error correction with data from quantum computing experiments, simulations and activities, for assessing performance of algorithms for performing error correction with data from quantum computing experiments, simulations and activities and for identifying opportunities to use error corrected quantum computing data; machine learning software for quantum applications; downloadable electronic publications relating to quantum computing, quantum error correction and quantum computers; artificial intelligence, machine learning and deep learning software for quantum computing and quantum error correction; artificial intelligence software for decoding quantum error correction data and for real-time quantum decoding; software development tools for use in the fields of science, information technology, artificial intelligence, machine learning and deep learning; quantum computing and quantum error correction decoder chips; field programmable gate arrays [FPGA] for quantum computing and quantum error correction; system-on-chip [SOC] for quantum computing and quantum error correction; integrated circuits for quantum computing and quantum error correction; communication protocols for quantum computing and quantum error correction; hardware and software interfaces for quantum computing and quantum error correction; software for quantum hardware interoperability; software for the development of pharmaceuticals; scientific apparatus and instruments relating to quantum physics; software for quantum computing and quantum error correction education and training; parts and fittings for all the aforesaid goods.

Class 42:

Research, design and development of quantum computers, distributed quantum computers, quantum computing software and computer software platforms for the development of computer software for quantum computers; design and development of quantum computer hardware; Software as a Service [SAAS], Platform as a Service [PAAS], Artificial Intelligence as a Service [AIaaS], and Infrastructure as a Service [IAAS] services for use in the field of quantum computing and quantum error correction; providing online, non-downloadable software for quantum computing and quantum error correction; Artificial Intelligence as a Service [AIaaS] for quantum error correction decoding; quantum computing and quantum error correction services; cloud-based quantum computing and quantum error correction services; hosting of quantum computing and quantum error correction software; design and development of decoder chips and system-on-chip [SOC] for quantum computing and quantum error correction; quantum software integration services; quantum computing optimization services; quantum computing design services; design and development of computer hardware architecture

***List of cases accepted for opposition purposes as shown in Journal 2026/027 published on

Class 9:

Telecommunications and communications apparatus and instruments; broadband apparatus and equipment; broadband routers; mobile telephones; sim cards; encoded cards; magnetically coded payment cards; magnetically coded credit cards; magnetically coded loyalty cards; magnetically coded cashback cards; accountancy software; electronic payments software; computer software and hardware for processing electronic payments; apparatus for processing card transactions and data relating thereto and for payment processing; point-of-sale terminals; point-of sale apparatus; computer software and hardware for transferring money and financial funds; software for authenticating online payments; software for website design; software for the hosting of website; software connected with the provision of cloud storage services; mobile apps; application software; downloadable applications; downloadable mobile applications; downloadable software applications.

Class 35:

Business services; advertising and promotional services; HR services; recruitment services; payroll services; office administration services; secretarial services; loyalty scheme services; loyalty card services; organization, operation and management of customer loyalty schemes; telephone answering and message handling services; business promotion, research, management, administration, assistance and information services; business strategy and planning services; information and advisory services relating to the aforesaid services; Marketing; Advertising, marketing and promotional services; Distribution of advertising, marketing, and promotional material; Online marketing; Digital marketing; Digital marketing services; Financial marketing; Advertising and marketing services of others; advertising services relating to financial services; advertising services relating to financial investment; Promotion of financial and insurance services on behalf of third parties; Arranging business introductions; retail services, electronic shopping retail services, mail order retail services connected with the sale of fuel, electricity, gas, oil, fossil fuels, water, telecommunication services; business research and evaluations; business consultancy services related to public utility services, waste disposal services, services for the supply of water,

water distribution, energy supply services; business consultancy services related to trade effluent consents, environmental accreditations, water and fuel saving initiatives, retail services connected with the sale of office stationary.

Class 36:

Insurance services; financial services; providing financial information; financial information services; payment services; payment processing services; banking services, including internet banking services; bank account services; credit card services; charge card services; direct debit services; standing order services; online payment processing services; provision of electronic payment services including electronic fund transfer services and online transaction facilities; cashback scheme services; payroll services; provision of financial information; financial management services; insurance services; insurance consultancy; information, consultancy and advisory services relating to the aforesaid services; information, consultancy and advisory services relating to the aforesaid services provided on-line from a computer database or the Internet; information, consultancy and advisory services in relation to the aforesaid services provided over a telecommunications network.

Class 37:

The provision, installation and maintenance of fixed telephone lines; the provision, installation and maintenance of electricity meters or smart meters; electricity supply connection and disconnection services; gas supply connection and disconnection services; the provision, installation and maintenance of gas meters or smart meters; water, wastewater, sewerage and trade effluent services; the provision, installation and maintenance of water meters, including AMR and smart meters; leak detection services; repair services for water treatment and supply equipment; repair of equipment used to deliver fuel to the consumer; repair of equipment used in the distribution and supply of fuel to the consumer; repair of equipment used to provide telecommunication and communication services; repair of equipment used in the distribution, supply and treatment of water; repair of equipment used in the provision of waste disposal services; repair of meters used in the supply and distribution of fuel and water; repair of equipment used in the distribution and supply of fuel, repair of equipment used in the distribution and supply of water, repair of equipment used to provide water treatment services, after wear, damage or deterioration.

Class 38:

Telecommunications and communication services; telephone services; mobile and fixed telephone telecommunications services; email services; broadband; mobile telecommunications services; wireless communication services; digital network telecommunications services; broadband services; fibre broadband services; portal services for access to a communications or computer network; e-mail services; providing user access to the Internet; consultancy, information and advisory services relating to the aforesaid; rental of telecommunication lines; online payment processing services; providing and leasing access time to computer databases, computer bulletin boards, computer networks, interactive computer communications networks.

Class 39:

Public utility services; waste disposal services; services for the supply of water; water distribution; energy supply services; distribution of energy; distribution of gas, electricity and water; electricity supply to domestic and non-domestic customers in

List of cases accepted for opposition purposes as shown in Journal 2026/027 published on 03 July 2026 .

the UK and associated services namely the supply, maintenance and reading of meters or smart meters; gas supply to domestic and non-domestic customers in the UK and associated services namely the supply, maintenance and reading of meters or smart meters; water supply connection and disconnection services; services related to the provision of water and wastewater, sewerage, trade effluent to business, nondomestic, non-residential customers in the UK, namely the supply and reading of meters, including AMR or Smart meters.

Class 40:

Water treatment services; waste treatment services; water, wastewater, sewerage and trade effluent services to business, non-domestic, non-residential customers in the UK, proper to this class: water supply connection and disconnection services; printing services.

Class 42:

Cloud storage services; provision of information from a computer database, the Internet or other electronic network relating to services included in this class; online computer services; maintenance of computer software; creating and maintaining websites; hosting the websites of others, installation and maintenance of computer software; website design services; website hosting services; software design services; the design and development of online payment processing software; compilation, creation and maintenance of a register of domain names; software as a service; software hosting; implementation and maintenance of computer programs (software); rental of computer software; application service provider (ASP) services; server administration and administration of computer software; site surveys; consultancy in the field of energy saving and energy efficiency; consultancy in the field of water consumption and efficiency.

data presentation and for processes relating thereto Installation services and Maintenance services , in relation to the following goods: Computer software in relation to printing; Installation services and Maintenance services , in relation to the following goods: Computer software relating to the design of labels (physical and electronic); Installation services and Maintenance services , in relation to the following goods: Computer software relating to the monitoring, controlling and updating of devices; Installation services and Maintenance services , in relation to the following goods: Computer software for automated processes; Installation services and Maintenance services , in relation to the following goods: Robotic technology software; Installation services and Maintenance services , in relation to the following goods: Computer software for automation in production, logistics, warehousing, transport, trade, the public sector; Installation services and Maintenance services , in relation to the following goods: Software for monitoring, analysing, controlling and running physical world operations; Installation services and Maintenance services , in relation to the following goods: Software for the control of industrial processes; Installation services and Maintenance services, in relation to the following goods: Computer software for use with data collection equipment ; Installation services and Maintenance services , in relation to the following goods: Computer software for use with self-service equipment; Installation services and Maintenance services , in relation to the following goods: Computer software for use with a POS cash register system, point-of-sale systems for managing sales, payments and transactions at checkouts; Installation services and Maintenance services , in relation to the following goods: Computer software for use with electronic shelf edge labels; Installation services and Maintenance services , in relation to the following goods: Computer software for use with mobile phones; Installation services and Maintenance services , in relation to the following goods: Computer software for use on electronic displays; Installation services and Maintenance services , in relation to the following goods: Computer software for use in automatic camera reading; Installation services and Maintenance services , in relation to the following goods: Warehouse management software; Installation services and Maintenance services, in relation to the following goods: Prescription management software; Installation services and Maintenance services , in relation to the following goods: Computer application software for use in implementing the Internet of Things [IoT]; Technical support, in relation to the following goods: Computer software for data capture, data processing, data presentation and for processes relating thereto; Technical support, in relation to the following goods: Printing software; Technical support, in relation to the following goods: Computer software relating to the design of labels (physical and electronic); Technical support, in relation to the following goods: Computer software relating to the monitoring, controlling and updating of devices; Technical support, in relation to the following goods: Computer software for automated processes; Technical support, in relation to the following goods: Robotic technology software; Technical support, in relation to the following goods: Computer software for automation in production, logistics, warehousing, transport, trade, the public sector; Technical support, in relation to the following goods: Software for monitoring, analysing, controlling and running physical world operations; Technical support, in relation to the following goods: Software for the control of industrial processes; Technical support, in relation to the following goods: Computer software for use with data collection equipment; Technical support, in relation to the following

goods: Computer software for use with self-service equipment; Technical support, in relation to the following goods: Computer software for use with a POS cash register system, point-of-sale systems for managing sales, payments and transactions at checkouts; Technical support, in relation to the following goods; Computer software for use with electronic shelf edge labels; Technical support, in relation to the following goods: Computer software for use with mobile phones; Technical support, in relation to the following goods: Computer software for use on electronic displays; Technical support, in relation to the following goods: Computer software for use in automatic camera reading; Technical support, in relation to the following goods: Warehouse management software; Technical support, in relation to the following goods: Prescription management software; Technical support, in relation to the following goods: Computer application software for use in implementing the Internet of Things [IoT]; Technical support, in relation to the following goods: Computer hardware modules for use in internet of things electronic devices; Technical support, in relation to the following goods: Data capture hardware including fittings and spare parts; Technical support, in relation to the following goods: Data processing hardware including fittings and spare parts; Technical support, in relation to the following goods: Data presentation hardware including fittings and spare parts; Technical support, in relation to the following goods: Voice control hardware including fittings and spare parts; Technical support, in relation to the following goods: Pick-by-light hardware, including order picking technology using light and digital displays, including fittings and spare parts; Technical support, in relation to the following goods: Hardware for automation; Technical support, in relation to the following goods: Hardware for robotics; Technical support, in relation to the following goods: RFID-reading hardware including fittings and spare parts; Technical support, in relation to the following goods: Hardware relating to camera reading, including fittings and spare parts; Technical support, in relation to the following goods: Kiosk PCs, for example, Kiosk computers specifically designed for use in public environments, with a limited number of self-service functions, including fittings and spare parts; Technical support, in relation to the following goods: Label printers including fittings and spare parts; Technical support, in relation to the following goods: Receipt printers, Including spare parts and accessories; Technical support, in relation to the following goods: Thermal transfer printers, Including spare parts and accessories; Technical support, in relation to the following goods: Ink-jet printers, Including spare parts and accessories; Technical support, in relation to the following goods: Applicators, Including spare parts and accessories; Technical support, in relation to the following goods: e-Tag, Including spare parts and accessories; Technical support, in relation to the following goods: Labels with integrated RFID chips; Technical support, in relation to the following goods: Digital signs, Including spare parts and accessories; Technical support, in relation to the following goods: Electronic displays, Including spare parts and accessories; Technical support, in relation to the following goods: electronic touchscreens, Including spare parts and accessories; Technical support, in relation to the following goods: Mobile telephones Including spare parts and accessories; Technical support, in relation to the following goods: Terminals for electronically processing credit card payments; Technical support, in relation to the following goods: Sensors, Including spare parts and accessories; Technical support, in relation to the following goods: Sensors for the Internet of Things [IoT], Including spare parts and accessories; Technical support, in relation to the following

List of cases accepted for opposition purposes as shown in Journal 2026/027 published on 03 July 2026 .

goods: key boards; Technical support, in relation to the following goods: Wireless switches; Technical support, in relation to the following goods: Network connection points; Technical support, in relation to the following goods: Data transmission networks; Technical support, in relation to the following goods: Computer apparatus and Accessories therefor; Technical support, in relation to the following goods: Cabinets with a barcode reader for asset management; Technical support, in relation to the following goods: Cabinets with an integrated touchscreen (electronic); Technical support, in relation to the following goods: Asset management portals; Technical support, in relation to the following goods: Server cabinets and Accessories therefor; Technical support, in relation to the following goods: Industrial computers and Accessories therefor .

Class 42:

Engineering; Engineering and computer-aided engineering services; Engineering design; Engineering consultancy; Mechanical engineering services; Engineering design and consultancy; Electrical engineering services; Engineering consultancy relating to design; Engineering drawing services.

Fowler Martin Limited

UK00004370459 08 April 2026
(7, 9, 10, 11, 12, 35, 36, 41, 42, 44, 45)

Coherence Gradient

Class 7:

Household cleaning and laundry robots with artificial intelligence; Industrial robots; Robots for welding; Robots for use in industry; Sewing robots; Transportation robots; Indoor self-driving robots for industrial use; Industrial robot sewing

machines; Robotic welding machines; Industrial robots for use in manufacture; Industrial robots for shaping glass; Robotic mechanisms used in agriculture; Robots for industrial use; Industrial robots for shaping metal; Robotic electrical welding machines; Robots for machine tools; Robotic lawnmowers; Robots for cleaning; Automatic tool changers for industrial robots; Industrial robot tentering machines; Industrial robot textile milling machines; Robotic packaging machines; Industrial robots for shaping wood; Robotic mechanisms used in viticulture; Robotic jigsaw machines; Industrial robot scotching machines; Industrial robot washing machines; Robotic painting machines; Robotic compressors; Robotic mechanisms for transportation; Industrial robots for use in the handling of workpieces; Robotic electrical welding apparatus; Agricultural harvesting robots; Robotic finishing machines; Robotic electric welding apparatus; Industrial robots for shaping plastic material; Robotic exoskeleton suits, other than for medical purposes; Robotic cleaning machines; Robotic arms for industrial purposes; Industrial robots for working metal; Industrial robots for working glass; Robots for feeding workpieces; Industrial robots for working plastic material; Industrial robots for working wood; Robotic separators; Control mechanisms for robotic machines; Mechanical power transmitting mechanisms [other than for land vehicles]; Self-driven machines for drilling; Robotic vehicle washing installations; Propulsion mechanisms other than for land vehicles; Propulsion mechanisms, other than for land vehicles; Submersible electric motors [other than for land vehicles]; Pneumatic or hydraulic linear actuators, other than for land vehicles; Electric driving motors [other than for land vehicles]; Actuators for valves; Actuators for dampers; Marine propulsion units.

Class 9:

Artificial intelligence software; Artificial intelligence apparatus; Artificial intelligence software for surveillance; Artificial intelligence software for analysis; Artificial intelligence software for healthcare; Artificial intelligence software for vehicles; Humanoid robots with artificial intelligence for use in scientific research; Artificial intelligence and machine learning software; Humanoid robots with artificial intelligence for preparing beverages; Artificial intelligence software for driverless cars; Interactive software based on artificial intelligence; Software for the integration of artificial intelligence and machine learning in the field of Big Data; Humanoid robots with artificial intelligence for use in household cleaning and laundry; Respirators, other than for artificial respiration; Telepresence robots; Laboratory robots; Robotic Process Automation [RPA] software; Teaching robots; Application software for robot; Industrial automation software; Computer hardware for use in computer-assisted manufacturing engineering; Science software; Computer-aided manufacturing software; Computer-aided engineering [CAE] software; Mechanical engineering software; Security surveillance robots; Computer-aided manufacturing [CAM] software; Electronic sports training simulators [computer hardware and software-based teaching apparatus]; Microwave engineering design software; Software programmable microprocessors; Downloadable computer software for blockchain technology; Simulation software for use in digital computers; Industrial software; Computer programs for use in the autonomous navigation of vehicles; Home automation software; Civil engineering software; Computer programs for use in autonomous control of vehicles; Computer software for computer aided software engineering; Bioinformatics software; Machine learning software for healthcare; Chemical engineering software; Factory automation software; Machine

[education or training advice]; Vocational guidance [education or training advice]; Career information and advisory services (educational and training advice); Computer assisted education services; Vocational education relating to first aid; Advice relating to medical training; Training services relating to the science of primary cause analysis by hypnosis; Provision of instruction relating to communications techniques; Provision of instruction relating to exercise; Direction or presentation of plays; Providing computer-delivered educational testing and assessments; Education services relating to quality services; Education services relating to customer satisfaction; Audio production services; Production of sound and image recordings on sound and image carriers; Education services relating to water safety; Music performance services; Live performance services; Military base training; Industrial relations training; Training of personnel in food technology; Industrial training; Education services relating to the training of personnel in food technology; Football academy services; Training in martial arts; Engineering training college services; Sales personnel training services; War game services; Training in public relations; Conducting of performing arts entertainment; Education services related to the arts; Instruction in the field of the performing arts; Providing performing arts theater facilities; Conducting of performing arts festivals; School services for the teaching of art; Education, entertainment and sports; Theatre entertainment; Music education; Art exhibition services; Art gallery services; Gallery services (Art -); Organization of competitions [education or entertainment]; Competitions (Organization of -) [education or entertainment]; Organization of competitions for education or entertainment; Entertainment in the nature of theater productions; Education and training in the field of music and entertainment; Education, entertainment and sport services; Organisation of competitions [education or entertainment]; Organisation of competitions (education or entertainment); Competitions (organisation of -) [education or entertainment]; Organisation of competitions for education or entertainment; Jazz music entertainment services; Music entertainment services; Mural art painting services; Entertainment in the nature of dance performances; Entertainment in the nature of ballet performances; Entertainment, education and instruction services; Artistic management of performing artists; Kindergarten services [education or entertainment]; Arranging of competitions for education or entertainment; Artistic direction of performing artists; Entertainment in the nature of gymnastic performances; Providing information about martial arts match results; Cinema entertainment; Entertainment services in the nature of competitions; Festivals (Organisation of -) for entertainment purposes; Organisation of competitions [education and/or entertainment]; Entertainment services in the form of cinema performances; Entertainment services in the nature of a wrestling club; Entertainment in the nature of dinner theater productions; Sports education services; Education services in the form of music television programmes; Sports entertainment services; Teaching of music; Education services relating to music; Cabaret entertainment services; Entertainment in the nature of boxing contests; Preparation of entertainment programmes for the cinema; Education services relating to the cinema; Education; Vocational education; Health education; Pre-school education; Academies [education]; Services of schools [education]; Education services; University education services; Academy services (Education -); Education academy services; Academy education services; Vocational education and training services; Training and education services; Education and training services; Education and instruction services;

Education examination; Provision of education courses; Career counseling [education]; Higher education services; Provision of education and training; Provision of training and education; Providing of education; Education services relating to vocational training; Medical education services; Education information; Information (Education -); Primary education services; Adult education services; Residential education courses; Boarding school education; Further education; Vocational education relating to home safety; Vocational education relating to self-defence; Legal education services; Providing continuing medical education courses; Online education services; Management of education services; Management education services; Education services relating to nutrition; Singing education; Education services relating to health; Dietary education services; Providing continuing dental education courses; Education services relating to religion; Career counselling relating to education and training; Vocational education in the field of mechanics; Educational services provided by institutes of higher education; Education courses relating to automation; Club education services; Education and training services in the field of occupational health and safety; Adult education services relating to medicine; Providing continuing nursing education courses; Research in the field of education; Adult education services relating to finance; Education information services; Secondary school educational services; Sporting education services; Education services relating to medicine; Education courses relating to the travel industry; Providing continuing legal education courses; Education services relating to the veterinary profession; Career counselling [training and education advice]; Adult education services relating to law; Education in the field of computing; Blindness prevention education services; Vocational education for young people; Provision of education courses relating to electronics; Education services relating to yoga; Adult education services relating to commerce; Education services relating to conservation; Education services in the nature of courses at the university level; Education in the field of occupational health and safety; Education services relating to commerce; Career advisory services (education or training advice); Provision of education courses relating to telecommunications; Education services relating to industry; Adult education services relating to pharmacy; Education services relating to hygiene; Provision of facilities for education; Provision of education courses relating to computers; Residential education courses relating to archery; Educational services provided by institutes of further education; Organization of education competitions; Education services relating to photography; Education services relating to sports; Education services relating to banking; Education services relating to fashion; Education services relating to pharmacy; Adult education services relating to auditing; Education services relating to food technology; Education and training in the field of business management; Providing education courses relating to the travel industry.

Class 42:

Artificial intelligence consultancy; Artificial intelligence as a service (AIAAS); Research in the field of artificial intelligence; Technology consultation in the field of artificial intelligence; Research in the field of artificial intelligence technology; Platforms for artificial intelligence as software as a service [SaaS]; Providing artificial intelligence computer programs on data networks; Software as a service [SaaS] featuring computer software platforms for artificial intelligence; Engineering services relating to robotics; Neuromorphic engineering; Design and development of computer software for use with medical technology; Development of computer software for use with

List of cases accepted for opposition purposes as shown in Journal 2026/027 published on 03 July 2026 .

programmable controllers; Technological consultancy in the field of aerospace engineering; Design and development of computer software for vehicle simulation; Computer software engineering; Software engineering; Design and development of medical technology; Design and development of computer software for logistics; Design, development and programming of computer software; Engineering and computer-aided engineering services; Design and development of computer hardware for the manufacturing industries; Computer engineering; Development of computer hardware for the manufacturing industries; Design and development of computer game software and virtual reality software; Computer-aided industrial design; Computer programming in the medical field; Design and development of computer hardware for the manufacturing industry; Research and development of computer software; Design and development of computer game software; Computer programming and software design; Development of computer software for use with computer-controlled switching systems; Science and technology services; Computer technology consultancy; Design of computer hardware for the manufacturing industries; Design and development of computer hardware and software; Design and development of computer software; Computer software design and development; Design and development of computer software architecture; Computer-aided engineering design services; Engineering services in the field of building technology; Research in the field of telecommunications technology; Design of computer microchips; Development of computer game software; Development of computer hardware and software; Rental of science and technology equipment; Computer software development; Development of computer software; Design and development of computer peripherals; Design and development of software in the field of mobile applications; Technical project studies in the field of computer hardware and software; Research in the field of computer programs and software; Design and development of computer hardware; Programming of telecommunications software; Research in the field of telecommunication technology; Programming of computer game software; Development of computer hardware for computer games; Rental of user-programmable humanoid robots, not configured; Development of vehicles; Design services relating to data processors; Updating of memory banks of computer systems; Rental of computers for data processing; Programming of computers for the regulation of data between buyers and suppliers; Designing of data processing systems; Leasing of data processing systems; Computer programming for data processing and communication systems; Rental of data processing apparatus and computers; Design and development of navigation systems; Testing, analysis and monitoring of navigation signals; Creation of GPS maps; Cartography and mapping; Design of information systems relating to management; Providing information in the field of interior design via a website; Design and development of data entry systems; Design of communication systems; Providing information in the field of interior design via a web site; Design of information systems relating to finance; Search engine design services; Consultancy and information services relating to computer system integration; Consultancy and information services in the field of computer system integration; Provision of weather information via the telephone; Design of information systems; Cartography; Creation of control programs for automated measurement, assembly, adjustment, and related visualisation; Design and development of data display systems; Monitoring of activities which influence the environment within civil engineering structures; Monitoring of events which influence the environment within civil engineering structures;

Monitoring of activities which influence the environment within buildings; Research and development services in connection with physics; Monitoring of events which influence the environment within buildings; Development of hardware for use in connection with electronic and interactive multimedia games; Professional consultancy relating to fluid dynamics; Analysis of the mode of action of chemical combinations on animals; Programming of software for evaluating customer behaviour in online shops; Advisory services relating to man-machine interfaces for computer software; Development of software for communication systems; Development services relating to virtual reality software; Design and development of software for instant messaging; Providing virtual computer environments through cloud computing; Analysis of the structural behaviour of building materials; Providing information on clinical studies via an interactive website; Advice and consultancy in relation to computer networking applications; Research in the field of social media; Hosting online web facilities for others for conducting interactive discussions; Design and development of energy distribution networks; Hosting software platforms for virtual reality-based work collaboration; Evaluation and testing of real estate for the presence of hazardous material; Research and development services in the field of gene expression systems; Design and development of virtual reality software; Chemistry consultation; Research relating to chemistry; Research and development services in the field of chemistry; Scientific research in the field of social medicine; Scientific and technological research in the field of natural disasters; Scientific and technological services; Scientific technological services; Technological studies; Scientific and technological design; Cell culture services for scientific and research purposes, for others; Technological research; Architectural and urban planning services; Archaeological exploration; Consultation in environment protection; Measuring the environment within buildings; Measuring the environment within civil engineering structures; Hosting virtual environments; Conversion of images from physical to electronic media; Advisory services relating to the safety of the environment; Analysing of air in building environments; Conversion of data or documents from physical to electronic media; Services of a chemical and/or biological laboratory; Development of virtual reality software; Providing virtual computer systems through cloud computing; Computer security services in the nature of administering digital certificates; Conversion of computer programs and data, other than physical conversion; Scientific services relating to the isolation and cultivation of human tissues and cells; Design services relating to virtual reality software; Conversion of data and computer programs (except physical conversion); Design of controlled environmental buildings; Layout design services for clean room environments; Testing services for alarm and monitoring systems; Monitoring of network systems; Testing, analysis and monitoring of telecommunication signals; Environmental monitoring services; Monitoring the quality control of seismic procedures; Monitoring of telecommunication signals; Monitoring of water quality; Computer system monitoring services; Process monitoring for quality assurance; Computer security system monitoring services; Monitoring of computer systems to detect breakdowns; Monitoring of computer systems for security purposes; Machine condition monitoring; Monitoring of audio warning signals; Condition monitoring relating to fluids; Services for monitoring industrial processes; Monitoring of computer systems for detecting unauthorized access or data breach; Environmental monitoring of waste treatment areas; Airborne remote monitoring

***List of cases accepted for opposition purposes as shown in Journal 2026/027 published on

DECODE QUANTUM RECODE THE WORLD

Class 9:
Software and hardware for use in the field of quantum computing, quantum computers and quantum error correction; quantum computers; distributed quantum computers; software for correcting errors in quantum computers; computer operating systems for quantum computers; software for managing quantum computing operations; software for quantum hardware control; quantum control software; computer software for data analytics; computer software for collecting, recording, analysing and managing data from quantum computing experiments, simulations and activities; hardware decoders for quantum computers; software for decoding quantum measurement data; software for simulating quantum circuits; software for quantum circuit generation; software for noise modelling in quantum systems; software for data analytics; quantum computing development software; software for quantum algorithm optimization; software for quantum physics applications; software for managing qubit operations; real-time decoding software; software, hardware, software interfaces and hardware interfaces, all for transferring quantum error correction data between hardware components in quantum computing systems; downloadable software for developing, testing and running logical quantum circuits on computers, hardware and simulators; developing, testing and running logical quantum circuits on computers, hardware and simulators; software for analysing quantum noise sources; quantum computing and quantum error correction analytical software tools; software development kits [SDKs] for use in the field of quantum computing and quantum error correction; software for the management of the execution time of a computer or quantum computer; communication and networking software; quantum computing and quantum error correction emulators; software for quantum hardware integration; software for energy management; software for quantum computing and quantum error correction research; software for cloud-based quantum computing and quantum error correction services; software for quantum computer programming; application software for use in the field of quantum computing and quantum error correction; software and software tools for benchmarking quantum devices; software

for quantum fidelity measurement; software for scientific analysis; software for chemical analysis; software for machine learning applications in quantum computing and quantum error correction; software for quantum simulation; software for managing quantum memory; software for optimizing quantum control sequences; software for controlling quantum computing and quantum error correction hardware; middleware and firmware for quantum computing and quantum error correction; software for performing quantum operations; software for quantum circuit analysis and visualization; software for quantum performance analysis; software for managing, recording and decoding quantum experiments, simulations and activities; hardware decoders for quantum error correction experiments; software for measuring logical fidelity; software and software platforms for performing error correction with data from quantum computing experiments, simulations and activities, for identifying algorithms for performing error correction with data from quantum computing experiments, simulations and activities, for assessing performance of algorithms for performing error correction with data from quantum computing experiments, simulations and activities and for identifying opportunities to use error corrected quantum computing data; machine learning software for quantum applications; downloadable electronic publications relating to quantum computing, quantum error correction and quantum computers; artificial intelligence, machine learning and deep learning software for quantum computing and quantum error correction; artificial intelligence software for decoding quantum error correction data and for real-time quantum decoding; software development tools for use in the fields of science, information technology, artificial intelligence, machine learning and deep learning; quantum computing and quantum error correction decoder chips; field programmable gate arrays [FPGA] for quantum computing and quantum error correction; system-on-chip [SOC] for quantum computing and quantum error correction; integrated circuits for quantum computing and quantum error correction; communication protocols for quantum computing and quantum error correction; hardware and software interfaces for quantum computing and quantum error correction; software for quantum hardware interoperability; software for the development of pharmaceuticals; scientific apparatus and instruments relating to quantum physics; software for quantum computing and quantum error correction education and training; parts and fittings for all the aforesaid goods.

Class 42:
Research, design and development of quantum computers, distributed quantum computers, quantum computing software and computer software platforms for the development of computer software for quantum computers; design and development of quantum computer hardware; Software as a Service [SAAS], Platform as a Service [PAAS], Artificial Intelligence as a Service [AIaaS], and Infrastructure as a Service [IAAS] services for use in the field of quantum computing and quantum error correction; providing online, non-downloadable software for quantum computing and quantum error correction; Artificial Intelligence as a Service [AIaaS] for quantum error correction decoding; quantum computing and quantum error correction services; cloud-based quantum computing and quantum error correction services; hosting of quantum computing and quantum error correction software; design and development of decoder chips and system-on-chip [SOC] for quantum computing and quantum error correction; quantum software integration services; quantum computing optimization services; quantum computing design services;

***List of cases accepted for opposition purposes as shown in Journal 2026/027 published on
